INDEPENDENT ACCOUNTANTS' REPORT

Board of Education
East Cleveland City School District
Cuyahoga County
14305 Shaw Avenue Modular
East Cleveland, Ohio 44112-2707

We have audited the accompanying financial statements of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information of the East Cleveland City School District, Cuyahoga County, Ohio, (the District) as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

Ohio Administrative Code § 117-2-03 (B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 2, the accompanying financial statements and notes follow the cash accounting basis. This is a comprehensive accounting basis other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the East Cleveland City School District, Cuyahoga County, Ohio, as of June 30, 2008, and the respective changes in cash financial position and the budgetary comparison for the General Fund thereof for the year then ended in conformity with the basis of accounting Note 2 describes.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 6, 2011 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis and required budgetary comparisons for the General Fund*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The schedule of federal awards receipts and expenditure provides additional information required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The schedule of federal awards receipts and expenditure is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2008
Unaudited**

Our discussion and analysis of the East Cleveland City School District's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2008. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2008 are as follows:

- In total, net assets decreased \$618,464. Net assets of governmental activities decreased \$617,008, which represents a 1.7% decrease from 2007. Net assets of business-type activities decreased \$1,456 or 47.2% from 2007.
- General revenues accounted for \$ 46,092,983 in revenue or 61.4 % of all revenues and other sources. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$22,927,512 or 30.5% of revenues and other sources totaling \$75,088,216. The District also had \$6,067,721 or 8.1% of proceeds from refunding bonds that were issued in 2008.
- The District had \$75,677,724 in expenses related to governmental activities; only \$22,927,512 of these expenses was offset by program specific charges for services, grants or contributions. General revenues and the net of other sources and uses which support governmental activities (primarily taxes and unrestricted grants and entitlements) of \$46,092,983 and \$6,040,221, respectively were inadequate to provide for these programs resulting in a decrease of net assets from \$36,509,036 to \$35,892,028.
- The District had \$1,456 in expenses related to business-type activities; there were no program specific charges for services, grants and contributions or general revenues to offset these expenditures resulting in a decrease to net assets from \$3,084 to \$1,628.
- The District's major governmental funds are the general fund and the classroom facilities capital projects funds fund. The general fund had \$51,970,104 in revenues and other financing sources and \$49,130,170 in expenditures and other financing uses. The general fund's fund balance increased \$2,839,934 from \$21,023,458 to \$23,863,392. The classroom facilities capital projects fund had \$6,688,630 in revenues and other financing sources and \$12,065,877 in expenditures and other financing uses. The classroom facilities capital projects fund balance decreased \$(5,377,247) from \$8,993,083 to \$3,615,836.

Using these Basic Financial Statements

This basic financial statement report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole, and then proceed to provide an increasingly detailed look at specific financial activities.

Report Components

The statement of net assets and statement of activities provide information about the cash activities of the District as a whole.

**East Cleveland City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2008
Unaudited**

Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the District as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the statements.

Basis of Accounting

The basis of accounting is a set of guidelines that determine when financial events are recorded. The District has elected to present its financial statements on a cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the District's cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

Reporting the Government as a Whole

The Statement of Net Assets and Statement of Activities

The statement of net assets and the statement of activities reflect how the District did financially during 2008, within the limitations of cash basis accounting. The statement of net assets presents the cash balances and investments of the governmental and business-type activities of the District at year end. The statement of activities compares cash disbursements with program receipts for each governmental program and business-type activity. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function or business-type activity draws from the District's general receipts.

These statements report the District's cash position and the changes cash position. Keeping in mind the limitations of the cash basis of accounting, you can think of these changes as one way to measure the District's financial health. Over time, increases or decreases in the District's cash position is one indicator of whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District.

In the Statement of Net Assets and the Statement of Activities, the District is divided into two distinct kinds of activities:

Governmental Activities – Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

**East Cleveland City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2008
Unaudited**

Business-type Activities – These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The District's uniform school supplies and the adult and community education operations are reported as business-type activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

Our analysis of the District's major governmental funds begins on page 16. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The funds of the District are split into three categories: governmental, proprietary and fiduciary.

Governmental Funds

Most of the District's activities are reported in governmental funds. The governmental fund financial statements provide a detailed view of the District's governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent to finance the District's programs. The District's significant governmental funds are presented on the financial statements in separate columns. The information for nonmajor funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The District's only major governmental funds are the General Fund and the Classroom Facilities Capital Project Fund. The programs reported in governmental funds are closely related to those reported in the governmental activities section of the entity-wide statements.

Proprietary Funds

When the District charges customers for the services it provides, these services are generally reported in proprietary funds. When the services are provided to the general public, the activity is reported as an enterprise fund. The District has two enterprise funds, the uniform school supplies fund and the adult and community education fund. When the services are provided to other departments of the District, the service is reported as an internal service fund. The District has one internal service fund to account for rotary activities.

Fiduciary Funds

The District acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. The District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets on page 25. These activities are excluded from the District's other financial statements because the resources cannot be utilized by the District to finance its operations.

The District as a Whole

The Statement of Net Assets provides the perspective of the District as a whole. The table below provides a summary of the District's net assets for 2008 and 2007.

As mentioned previously, net assets of governmental activities decreased \$617,008 or 1.7% during 2008. The primary reasons contributing to the decreases in cash balances are as follows:

- General revenues accounted for \$ 46,092,983 in revenue or 61.4 % of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$22,927,512 or 30.5% of total revenues and other sources of \$75,088,216.
- The District had \$75,677,724 in expenses related to governmental activities; only \$22,927,512 of these expenses was offset by program specific charges for services, grants or contributions. General revenues and the net of other sources and uses which support governmental activities (primarily taxes and unrestricted grants and entitlements) of \$46,092,983 and \$6,040,221, respectively were inadequate to provide for these programs resulting in a decrease of net assets from \$36,509,036 to \$35,892,028.

The net assets of the business-type activities decreased \$1,456 or 47.2%. The primary reasons contributing to the increases in cash balances are as follows:

- The District had \$1,456 in expenses related to business-type activities; with no program specific charges for services, grants and contributions or general revenues to offset these expenditures resulting in a decrease to net assets from \$3,084 to \$1,628.

Table 2 reflects changes in net assets on a cash basis in fiscal year 2008 and fiscal year 2007 for governmental activities, business-type activities and the total primary government.

**East Cleveland City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2008

Net assets of the District's governmental activities decreased \$617,008. Total governmental expenses of \$75,677,724 were primarily offset by program revenues of \$22,927,512 and general revenues of \$46,092,983. Program revenues supported 30.3% of the total governmental expenses.

The primary sources of general revenue are derived from property taxes and grants and entitlements. These two revenue sources represent 59.3% of total governmental revenue. Property taxes support 13.3% of total expenses, while grants and entitlements supported 45.4% of total expenses. These two revenue items were not sufficient to fund total governmental expenditures.

Governmental Activities

If you look at the Statement of Activities on page 14, you will see that the first column lists the major services provided by the District. The next column identifies the costs of providing these services. The major program disbursements for governmental activities are for instruction and support services, which account for 44.4% and 27.6 % of all governmental disbursements, respectively. Facilities acquisition and construction also represents a significant cost, about 16.4%. The next two columns of the Statement entitled Program Receipts identify amounts paid by people who are directly charged for the services and grants received by the District that must be used to provide a specific service. The net Receipts (Disbursement) column compares the program receipts to the cost of the service. This "net cost" amount represents the cost of the service which ends up being paid from money provided by local taxpayers. These net costs are paid from the general receipts which are presented at the bottom of the Statement. A comparison between the total cost of services and the net cost is presented in Table 3.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2008
Unaudited**

The dependence upon tax revenues during fiscal year 2008 for governmental activities is apparent, as 58.1% of 2008 instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support was 60.9% in 2008. The District's taxpayers and intergovernmental funding, as a whole, are by far the primary support for District's students.

Business-Type Activities

Business-type activities include uniform supplies and adult and community education. The uniform supplies operations had no activity for 2008. The adult and community education operations had no revenues in 2008 and expenses of \$1,456. This resulted in a decrease to net assets for the fiscal year of \$1,456. Management assesses the performance of each of these funds to ensure that they are run efficiently.

Management assesses the performance of each of these funds to ensure that they are run efficiently.

The District's Funds

The District's governmental funds (as presented on the balance sheet on page 16) reported a combined fund balance of \$35,813,962, which is less than last year's total of \$36,443,174. In addition, the General fund had a increase of revenue of \$1,715,715 mainly attributed to an increase in intergovernmental and other revenues. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2008 and 2007.

	<u>Fund Balance</u> <u>June 30, 2008</u>	<u>Fund Balance</u> <u>June 30, 2007</u>	<u>Increase</u> <u>(Decrease)</u>
General	\$ 23,863,392	\$ 21,023,458	\$ 2,839,934
Classroom Facilities	3,615,836	8,993,083	(5,377,247)
Other Governmental	<u>8,334,734</u>	<u>6,426,633</u>	<u>1,908,101</u>
Total	\$ <u>35,813,962</u>	\$ <u>36,443,174</u>	\$ <u>(629,212)</u>

The District's general fund balance increased by \$2,839,934, due to an increase of cash receipts and an increase in interest earnings during 2008. The table that follows assists in illustrating the financial activities and fund balance of the general fund.

	<u>2008</u> <u>Amount</u>	<u>2007</u> <u>Amount</u>	<u>Percentage</u> <u>Change</u>
<u>Revenues</u>			
Taxes	\$ 9,431,587	\$ 10,568,065	(10.75)%
Interest Earnings	1,164,613	1,140,667	2.10%
Intergovernmental	34,970,966	33,232,221	5.23%
Other Revenue	<u>3,410,126</u>	<u>2,320,624</u>	46.95%
Total	\$ <u>48,977,292</u>	\$ <u>47,261,577</u>	

The property tax revenue decreased \$1,136,478 due to a decrease in the personal property tax base an increase in outstanding delinquencies which directly affects the amount of tax revenue collected and distributed by the County. The District anticipates tax collections will be less in fiscal year 2009 than in fiscal year 2008.

**East Cleveland City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2008
Unaudited**

Intergovernmental revenue increased \$1,738,745 or 5.23% from the prior year. This increase is attributed to an increase in the number of grants the District received in 2008. The increase in other revenue is attributed to an increase in tuition from the prior year due to larger school foundation payments from the State in 2008.

The table that follows assists in illustrating the expenditures of the general fund.

<u>Expenditures by Object</u>	<u>2008 Amount</u>	<u>2007 Amount</u>	<u>Percentage Change</u>
Instruction	\$ 26,722,509	\$ 24,240,101	10.24%
Support Services	15,526,363	14,067,321	10.37%
Capital Outlay	365,774	46,414	688.07%
Extracurricular Activities	<u>272,885</u>	<u>264,167</u>	3.30%
Total	\$ <u>42,887,531</u>	\$ <u>38,618,003</u>	

The most significant increase was in the area of instruction. This increase is due to an increase in wages and purchased services.

General Fund Budget Information

The District's budget is prepared in accordance with Ohio law and is based on the cash basis of accounting, utilizing cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund

The District amended its revenue estimates to reflect greater than originally anticipated revenues from taxes, tuition and fees, interest and state sources. The final budget for expenditures of \$55,341,693 was sufficient to cover actual expenditures plus other uses of \$50,776,756, by \$4,564,937. Original appropriations were amended to reflect a more accurate estimate of annual expenditures based upon actual expenditures at the time of the amendment.

The District utilizes the five-year forecast as the original document from which to form the operating budget. After updating of the forecast for changes in revenue and expenditure assumptions the operating budget begins at the school level. Each school in the district receives an allocation augmented with resources for daily operation in the specific buildings. The site and department budgets are reviewed periodically to ensure management becomes aware of any significant variations during the year.

Capital Assets and Debt Administration

Capital Assets

The District does not report capital assets as the acquisitions are recorded as disbursements when paid.

Debt

At June 30, 2008, the District's outstanding debt included \$6,804,716 in general obligation bonds issued for classroom facility improvements. For further information regarding the District's debt, refer to Note 6 to the basic financial statements.

Current Financial Related Activities

East Cleveland School District has continued to maintain services to its students, parents and community. The Board of Education and administration closely monitor its revenues and expenditures in accordance with its financial forecast.

The financial future of the School District is not without its challenges. These challenges are internal and external in nature. The internal challenges will continue to exist as the School District must rely heavily on local property taxes to fund its operations. External challenges continue to evolve as the federal, state and local funding policies dictate.

The School District relies heavily on its taxpayers to support its operations. The community support for the schools is strong. The School District last passed a continuing operating levy in 2005. The School District has communicated to the community they rely upon their support for the majority of its operations. The community also realizes the income generated by local levies remains relatively constant, therefore, forcing the School District to come back to the voters to ask for additional support.

East Cleveland School District has not anticipated any meaningful growth in state revenue. With 22 percent of the general revenues for the School District coming from local tax payers, one can see the significant impact this change would have on the School District and ultimately, the residential taxpayers.

As a result of the challenges mentioned above, it is imperative the School District's management continue to carefully and prudently plan in order to provide the resources required to meet changing educational needs.

Note 1: Description of the School District and Reporting Entity

Although the first public school in East Cleveland was established by the township in 1846, the will of John Shaw in 1835 provided for the establishment of a private academy in East Cleveland Township. In 1870, the Board of Education of East Cleveland Township assumed management of the academy and in 1883, the Board and the Shaw Trustees agreed on the Board's long-range operation of the school.

The East Cleveland City School District (School District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The School District operates under a locally-elected five-member Board form of government. Each member is elected to a four-year term. The School District provides educational services as mandated by State and/or federal agencies. This Board of Education controls the School District's nine instructional/support facilities staffed by 153 classified employees and 315 certificated full-time teaching personnel who provide services to 4,043 students and other community members.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For East Cleveland City School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. The School District is also financially accountable for any organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. Component units also include legally separate, tax-exempt entities whose resources are for the direct benefit of the School District, are accessible to the School District and are significant in amount to the School District. Currently, the School District does not have any component units.

The School District is associated with a related organization, an insurance purchasing pool and a jointly-governed organization. These organizations are the East Cleveland Public Library, Ohio School Boards Association Workers' Compensation Group Rating Plan, and the Ohio Schools Council Association. These organizations are presented in Notes 13, 14, and 15 to the basic financial statements.

Note 2: Summary of Significant Accounting Policies

As discussed further in Note 2.C, these financial statements are presented on a *cash basis* of accounting. This *cash basis* of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the *cash basis* of accounting. In the government-wide financial statements and the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied, to the extent they are applicable to the *cash basis* of accounting, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. The School District does not apply FASB statements issued after November 30, 1989, to its business-type activities and to its enterprise funds. Following are the more significant of the School District's accounting policies.

A. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. The various funds of the School District are grouped into the categories governmental, proprietary, and fiduciary.

Governmental Funds

The School District classifies funds financed primarily from taxes, intergovernmental receipts (e.g., grants) and other non-exchange transactions as governmental funds. The following are the District's major governmental funds:

General Fund – The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Classroom Facilities Fund – The Classroom Facilities Fund is used to account for intergovernmental receipts, property taxes and interest received and expended in connection with the contracts entered into by the School District and the Ohio School Facilities Commission for the building and equipping of new classroom facilities.

The other governmental funds of the School District account for grants and other resources, debt service, and capital projects of the School District whose uses are restricted to a particular purpose.

Note 2: Summary of Significant Accounting Policies (continued)

A. Fund Accounting (continued)

Proprietary Funds

The School District classifies funds financed primarily from user charges for goods or services as proprietary. Proprietary funds are classified as enterprise or internal service.

Enterprise Funds – Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The District has three enterprise funds to account for uniform supplies and adult and community education.

Internal Service Funds – Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The District has one internal service fund.

Fiduciary Funds

The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The District has no trust funds. Agency funds are custodial in nature and do not involve measurement of results of operations. The District's has one agency fund that accounts for resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activity.

B. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund(s) is eliminated to avoid "doubling up" receipts and disbursements. The statements distinguish between those activities of the School District that are governmental in nature and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental receipts or other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of net assets presents the cash balance of the governmental and business-type activities of the School District at fiscal year end.

East Cleveland City School District

Notes To Basic Financial Statements (continued)

Note 2: Summary of Significant Accounting Policies (continued)

B. Basis of Presentation (continued)

The statement of net assets presents the cash balance of the governmental and business-type activities of the School District at fiscal year end. The statement of activities compares disbursements with program receipts for each function or program of the School District's governmental and business-type activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the government is responsible. Program receipts include charges paid by the recipient of the program's goods or services, grants and contributions restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants that are required to be used to support a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a cash basis or draws from the School District's general receipts.

Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements report detailed financial information of the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

Proprietary fund statements distinguish operating transactions from non-operating transactions. Operating receipts generally result from exchange transactions such as charges for services directly relating to the fund's principal services. Operating disbursements include costs of sales and services and administrative costs. The fund statements report all other receipts and disbursements as non-operating.

C. Basis of Accounting

The School District's financial statements are prepared using the cash basis of accounting. Except for modifications having substantial support, receipts are recorded in the School District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the School District are described in the appropriate section in this note.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

Note 2: Summary of Significant Accounting Policies (continued)

D. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on cash disbursements plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund level for all funds. Budgetary allocations at the function and object level within all funds are made by the Treasurer.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in receipts are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

E. Cash and Investments

To improve cash management, cash received by the School District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

Investments of the School District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra revenue), respectively.

During fiscal year 2008, investments were limited to a Key Money Market Mutual Fund and STAR Ohio, the State Treasurer's Investment Pool, and federal government agency securities. All investments of the School District had a maturity of two years or less. Investments are reported at cost, except for the money market mutual fund and STAR Ohio. The School District's money market mutual fund investment is recorded at the amount reported by Key Bank at June 30, 2008.

Note 2: Summary of Significant Accounting Policies (continued)

E. Cash and Investments (continued)

The School District has invested funds in the State Treasury Assets Reserve (STAR Ohio) during fiscal year 2008. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2008.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest. Interest revenue credited to the General Fund during fiscal year 2008 amounted to \$1,164,613, of this amount approximately \$304,030 was assigned from other funds.

F. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets in the General Fund include amounts required by State statute to be set aside for textbooks and capital improvements. See Note 10 for additional information regarding set-asides.

G. Inventory and Prepaid Items

The District reports disbursement for inventory and prepaid items when paid. These items are not reflected as assets on the accompanying financial statements.

H. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets on the accompanying financial statements.

I. Interfund Receivables/Payables

The District reports advances-in and advances-out for interfund loans. These items are not reflected as assets and liabilities in the accompanying financial statement.

J. Employer Contributions to Cost-Sharing Pension Plans

The District recognizes the disbursement for employer contributions to cost-sharing pension plans when they are paid. As described in Notes 7 and 8, the employer contributions include portions for pension benefits and for postretirement health care benefits.

East Cleveland City School District

Notes To Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2008

Note 2: Summary of Significant Accounting Policies (continued)

K. Long-Term Obligations

The District's cash basis financial statements do not report liabilities for bonds and other long-term obligations. Proceeds of debt are reported when cash is received and principal and interest payments are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither an other financing source nor a capital outlay expenditure are reported at inception. Lease payments are reported when paid.

L. Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the District's cash basis of accounting.

M. Fund Balance Reserves

The School District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriations or expenditures. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves are established for encumbrances and textbooks.

The reserve for textbooks represents money required to be set-aside by statute to be used for the acquisition of textbooks or other instructional materials.

N. Net Assets

Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. There are no restricted assets due to enabling legislation. Net assets restricted for other purposes include resources restricted for federal and state grants restricted to cash disbursement for specified purposes. The School District's policy is to first apply restricted resources when a cash disbursement is incurred for purposes for which both restricted and unrestricted net assets are available.

East Cleveland City School District

Note 2: Summary of Significant Accounting Policies (continued)

O. Interfund Transactions

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general receipts.

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating receipts/cash disbursements in the proprietary funds. Repayments from funds responsible for particular cash disbursements to the funds that initially paid for them are not presented on the financial statements.

P. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the School District and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2008.

Q. Reclassification

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Note 3: Budgetary Basis of Accounting

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursement, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budgetary Basis presented for the General Fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budgetary basis and the cash basis is outstanding year end encumbrances, which are treated as cash disbursement (budgetary basis) rather than as a reservation of fund balance (cash basis). The encumbrances outstanding at year end (budgetary basis) amounted to \$1,646,586 for the General Fund.

East Cleveland City School District

Notes To Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2008

Note 4: Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio).

East Cleveland City School District

Notes To Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2008

Note 4: Deposits and Investments (continued)

8. Certain banker's acceptance and commercial paper (if authorized by the Board of Education and training requirements have been met).

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$20,576,954 of the School District's bank balance of \$20,679,729 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the School District's name.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Investments

As of June 30, 2008, the School District had the following investments:

	<u>Carrying Value</u>	<u>Maturity Date</u>
Federal Home Loan Mortgage Corporation Note	\$ 2,650,000	7/9/2008
Money Market Mutual Fund	10,366,004	Less than 6 months
STAR Ohio	3,685,281	Less than 6 months
Total Investments	<u>\$ 16,701,285</u>	

East Cleveland City School District

Notes To Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2008

Note 4: Deposits and Investments (continued)

Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The District's investment policy addresses interest rate risk by requiring that the District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments, thereby avoiding that need to sell securities on the open market prior to maturity, and by investing operating funds primarily in short-term investments.

The Federal Home Loan Mortgage Corporation Notes and the Money Market Mutual Fund carry a rating of AAA by Standard and Poor's. STAR Ohio carries a rating of AAAM by Standard and Poor's. The School District has no investment policy dealing with investment credit risk beyond the requirements in state statutes. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Home Loan Mortgage Corporation Notes and the Federal Home Loan Bank Notes are exposed to custodial credit risk as they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the School District's name. The School District has no investment policy dealing with investment custodial risk beyond the requirements in ORC 135.14(M)(2) which states, "Payment for investments shall be made only upon the delivery of securities representing such investments to the treasurer, investing authority, or qualified trustee. If the securities transferred are not represented by a certificate, payment shall be made only upon receipt of confirmation of transfer from the custodian by the treasurer, governing board, or qualified trustee."

Concentration of Credit Risk is defined by the Government Accounting Standards Board as five percent or more in the securities of a single issuer. The District's investment policy requires diversification of the portfolio but does not indicate specific percentage allocations.

<u>Investment Issuer</u>	<u>Percentage of Investments</u>
Federal Home Loan Mortgage Corporation Note	15.8%
Money Market Mutual Fund	62.1%
STAR Ohio	22.1%

Note 5: Property Taxes

Property taxes are levied and assessed on a calendar year basis, while the School District’s fiscal year runs from July through June. First-half tax distributions are received by the School District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real property, public utility and tangible personal property located in the School District. Property tax receipts received in 2008 for real and public utility property taxes represents collections of the 2007 taxes. Property tax payments received during 2008 for tangible personal property (other than public utility property) is for 2008 taxes.

2008 real property taxes are levied after October 1, 2008 on the assessed values as of January 1, 2008, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. 2008 real property taxes are collected in and intended to finance 2009.

Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2008 public utility property taxes which became a lien on December 31, 2007, are levied after October 1, 2008, and are collected in 2009 with real property taxes.

2008 tangible property taxes are levied after October 1, 2007, on the value as of December 31, 2007. Collections are made in 2008. Tangible personal property assessments are being phased out – the assessment percentage for all property including inventory for 2007 was 12.5 percent. This will be reduced to 6.25 percent for 2008, and zero for 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 3, with the remainder due September 20.

The assessed values upon which fiscal year 2008 taxes were collected are:

Note 5: Property Taxes (continued)

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, state statute permits alternate payment dates to be established.

The School District receives property taxes from Cuyahoga County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2008, are available for advance to finance fiscal year 2008 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Note 6: Long-Term Obligations

In August 2007, the District took advantage of favorable interest rates and issued school improvement refunding bonds with an original face value of \$5,645,000. The refunding bonds consisted entirely of current interest serial bonds and were issued with a \$422,721 premium and \$138,463 in issuance costs.

The District decreased its total debt service payments by \$151,369 as a result of the refunding. The District also incurred an economic gain (the difference between the present values of the old and new debt service payments) of \$143,191.

The changes in the long-term obligations of the School District for the year ended June 30, 2008 are as follows:

	Balance June 30, 2007	Additions	Deductions	Balance June 30, 2008
Governmental Activities:				
General Obligation Bonds				
Classroom Facilities Bonds				
1999 Issue 5.017% due 12/1/2020	\$ 7,320,000	\$ -	\$ (6,160,284)	\$ 1,159,716

Note 7: Defined Benefit Pension Plans

A. School Employees Retirement System

Plan Description - The East Cleveland City School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3476. It is also posted on the SERS' website at www.ohsers.org under Employers / Audit Resources.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2008, 9.16 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2008, 2007 and 2006 were \$ 548,518, \$ 645,785 and \$ 709,044 respectively; 100 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006.

B. State Teachers Retirement System

Plan Description - The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2008, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2007, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2008, 2007, and 2006 were \$ 2,819,733, \$ 2,863,911, and \$ 3,046,236 respectively; 100 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006. Contributions to the DC and Combined Plans for fiscal year 2008 were \$ 21,915 made by the School District and \$ 65,547 made by the plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Retirement System. As of June 30, 2008, no members of the Board of Education have elected Social Security.

Note 8: Postemployment Benefits

A. School Employee Retirement System

Plan Description – The School District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2008, 4.18 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2008, this amount was \$ 87,788.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The School District's contributions for health care for the fiscal years ended June 30, 2008, 2007, and 2006 were \$ 338,094, \$ 247,099, and \$ 208,008 respectively; 100 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2008, this actuarially required allocation was 0.66 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2008, 2007, and 2006 were \$ 39,522, \$ 41,117, and \$ 52,274 respectively; 100 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006.

B. State Teachers Retirement System

Plan Description – The School District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2008, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2008, 2007, and 2006 were \$ 216,903, \$ 220,301, and \$ 234,326 respectively; 100 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006.

Note 9: Health Care Benefits

The School District provides life insurance and accidental death and dismemberment insurance in the amount of one times their salary for teachers, \$30,000 for classified employees and part-time employees, and one and one-half times their salaries for administrators. The insurance is provided through Medical Life Insurance Company.

The School District also provides medical/surgical and dental benefits primarily through Medical Mutual to all eligible employees.

Note 10: Set Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years. In prior fiscal years, the School District was also required to set aside money for budget stabilization.

The following cash basis information identifies the changes in fund balance reserves for textbooks and capital improvements during fiscal year 2008. Disclosure of this information is required by State Statute.

Note 12: Risk Management

A. Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2008, the School District contracted with Indiana Insurance for property insurance of \$105,373,970, with a \$5,000 deductible and fleet insurance of \$1,000,000, with no deductible on liability and a \$250/\$500 collision and comprehensive deductible for physical damage.

Professional liability is protected by the Indiana Insurance Company in an amount of \$1,000,000 with a \$2,500 deductible. General liability is protected with Indiana Insurance Company with a \$2,000,000 annual aggregate/\$1,000,000 single occurrence limit with no deductible. The bus fleet is also covered by \$1,000,000 single occurrence limit with an additional \$5,000,000 umbrella policy through Indiana Insurance Company.

Settled claims have not exceeded commercial coverage in any of the past three years. There was no significant reduction in coverage from last year.

B. Worker's Compensation

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio School Boards Association Workers' Compensation Group Rating Plan (Plan) was established through the Ohio School Boards Association (OSBA) as an insurance purchasing pool.

The Plan's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the Plan. Each year, the participants pay an enrollment fee to the Plan to cover the costs of administering the program.

Note 13: Jointly Governed Organization

A. Lakeshore Northeast Ohio Computer Association

The Lakeshore Northeast Ohio Computer Association (LNOCA) is a jointly governed computer service bureau that was formed for the purpose of providing data services to the eleven member districts. Major areas of service provided by LNOCA include accounting, payroll, inventory, career guidance services, handicapped student tracking, pupil scheduling, attendance reporting and grade reporting. Each school is represented on the LNOCA Board of Directors by its superintendent. Each year, the Board of Directors elects a Chairman, a Vice Chairman and a Recording Secretary. The Treasurer of the fiscal agent is a nonvoting, ex-officio member of the Board of Directors. The Cuyahoga County Educational Service Center serves as the fiscal agent of LNOCA. Each school district supports LNOCA based upon a per pupil charge dependent upon the software packages used. In fiscal year 2008, the School District paid \$96,475 to LNOCA. Financial information can be obtained by contacting the Treasurer of the fiscal agent at 5700 West Canal Road, Valley View, OH 44125.

B. Ohio Schools Council Association

The Ohio Schools Council Association (Council) is a jointly governed organization among 91 school districts. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of seven superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2008, the School District paid \$973,732 to the Council. Financial information can be obtained by contacting Dr. David A. Cottrell, the Executive Secretary/Treasurer of the Ohio School Council at 6133 Rockside Rd., Suite 10, Independence, Ohio 44131.

The School District participates in the Council's electric purchase program, which was implemented during fiscal year 1998. The electric purchase program allows school districts to purchase electricity at reduced rates, if the school districts will commit to participating for an eight-year period. The participants make monthly payments based on estimated usage. Each June these estimated payments are compared to their actual usage for the year and any necessary adjustments are made.

Energy Acquisition Corporation, a non-profit corporation with a self-appointing board issued \$119,140,000 in debt, in fiscal year 1999, to purchase eight years of electricity from Cleveland Electric Illuminating Company (CEI) for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is required to repay the savings to CEI and CEI will refund the remaining prepayment related to that participant to Energy Acquisition Corporation.

Note 14: Related Organization

The East Cleveland Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the East Cleveland City School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the School District for operational subsidies. Although the School District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees.

Note 15: Public Entity Risk Pool

The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance pool, as established through Acordia under section 4123.29 of the Ohio Revised Code. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

Note 16: Contingencies/Pending Litigation

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2008.

B. Litigation

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

East Cleveland City School District

Notes To Basic Financial Statements (continued)

For the Fiscal Year Ended June 30, 2008

Note 17: Accountability and Compliance

A. Accountability

At June 30, 2008, no funds had a deficit fund balance.

B. Compliance

Ohio Administrative Code, Section 117-2-03 (8), requires the School District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the School District prepared its financial statements on a cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net assets/fund balances, and disclosures that, while material, cannot be determined at this time. The School District can be fined and various other administrative remedies may be taken against the School District.

Note 18: Fiscal Emergency

In accordance with Ohio Revised Code Chapter 3316, the School District was placed under fiscal emergency by the Auditor of State in March of 2003. The declaration of fiscal emergency results from spending exceeding revenues, relying on carryover cash balances from prior years, and borrowing to finance recent deficits. The financial operation of the School District has in part been turned over to the Financial Planning and Supervision Commission. This commission is comprised of five members including the Superintendent of Public Instruction and the School Management Assistance Assistant Director.

**EAST CLEVELAND CITY SCHOOL DISTRICT
CUYAHOGA COUNTY
NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FOR THE YEAR ENDED JUNE 30, 2008**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) summarizes the activity of the District's federal awards programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

Nonmonetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the Schedule at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first. At year end the District had no significant food commodities in inventory.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Board of Education
East Cleveland City School District
Cuyahoga County
14305 Shaw Avenue Modular
East Cleveland, Ohio 44112-2707

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the East Cleveland City School District, Cuyahoga County, Ohio, (the District) as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 6, 2011, wherein we noted the District utilized a basis of accounting other than that prescribed by Ohio Administrative Code § 117-2-03(B). We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. Therefore, we cannot assure that we have identified all deficiencies, significant deficiencies or material weaknesses. However, as described in the accompanying schedule of findings we identified a certain deficiency in internal control over financial reporting, that we consider a material weakness.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and timely corrected. We consider finding 2008-01 described in the accompanying schedule of findings to be a material weakness.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards* which are described in the accompanying schedule of findings as item 2008-02.

We also noted certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated May 6, 2011.

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings. We did not audit the District's responses and, accordingly, we express no opinion on them.

We intend this report solely for the information and use of management, the Board of Education, audit committee, and federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Board of Education
East Cleveland City School District
Cuyahoga County
14305 Shaw Avenue Modular
East Cleveland, Ohio 44112-2707

Compliance

We have audited the compliance of East Cleveland City School District, Cuyahoga County, Ohio (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to each of its major federal programs for the year ended June 30, 2008. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of opining on compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

Internal Control Over Compliance (Continued)

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We intend this report solely for the information and use of management, the Board of Education, audit committee, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Material Weakness and Finding for Adjustment

Sound financial reporting is essential to ensure the information provided to the readers of the financial statements is complete and accurate.

During a review of the financial statements we noted the following:

- All homestead and rollback revenues were posted to the General Fund rather than allocating a portion to the Bond Retirement Fund and Classroom Facilities Maintenance Fund as reflected on the County Auditor's real estate property tax settlement sheets. This resulted in an overstatement of tax revenues in the General Fund of \$116,675 and an understatement of tax revenues in the Bond Retirement Fund and Classroom Facilities Maintenance Fund of \$103,805 and \$12,870, respectively. The accompanying financial statements and the District's accounting records reflect the correcting adjustments.
- The District did not report any of the activity of the current year debt refunding within the Statement of Cash Receipts, Disbursements and Changes in Fund Balance - Cash Basis. This resulted in an understatement of the refunding bonds issued, the payment to the refunded bond escrow agent and interest/fiscal charges in the amounts of \$6,067,721. The accompanying financial statements and the District's accounting records reflect the correcting adjustments.
- The District did not eliminate \$425,565 of intra-fund transfers that were reflected as part of the various funds grouped together and reflected in the other governmental fund column of the Statement of Cash Receipts, Disbursements and Changes in Fund Balance - Cash Basis. This resulted in an overstatement of both transfers in and transfers out. The accompanying financial statements and the District's accounting records reflect the correcting adjustments.

These weaknesses may result in revenues not being used in accordance with the respective funds requirements, refunding bond debt not being recognized and transfers not reflecting actual activity between funds and debt not being recognized.

We recommend the homestead and rollback revenues be recorded in the required funds as stipulated in the County Auditor's tax settlement sheets. In addition, refunding debt should be recognized and transfers should be reviewed and intra-fund transfers should be eliminated when preparing the financial statements.

District's Response

The District has corrected these material weaknesses and findings for adjustment in a subsequent audit period. Homestead and Rollback are presently being recorded into the respective accounts as stipulated within the Cuyahoga County Auditor's settlement statements. Intra-fund transfers are being eliminated prior to the preparation of the financial statements.

Material Noncompliance Finding

Ohio Rev. Code Section 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office. Ohio Administrative Code Section 117-2-03 further clarifies the requirements of Ohio Revised Code Section 117.38.

Ohio Administrative Code Section 117-2-03(B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, the District prepared its financial statements in accordance with another comprehensive basis of accounting. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. Pursuant to Ohio Revised Code Section 117.38, the District may be fined and subjected to various other administrative remedies for its failure to file the required financial report.

We recommend the District take the necessary steps to ensure the annual financial report is prepared in accordance with accounting principles generally accepted in the United States of America and the Ohio Administrative Code.

District's Response

Beginning with the fiscal year ended June 30, 2009, we will prepare our financial statements in accordance with accounting principles generally accepted in the United States of America and the Ohio Administrative Code.
