INDEPENDENT ACCOUNTANTS' REPORT

Vanlue Local School District Hancock County 301 South East Street, P.O. Box 250 Vanlue, Ohio 45890-0250

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Vanlue Local School District, Hancock County, Ohio (the District), as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

Ohio Administrative Code § 117-2-03 (B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 2, the accompanying financial statements and notes follow the cash accounting basis. This is a comprehensive accounting basis other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Vanlue Local School District, Hancock County, Ohio, as of June 30, 2010, and the respective changes in financial position, thereof and the budgetary comparison for the General fund for the year then ended in conformity with the basis of accounting Note 2 describes.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 23, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Vanlue Local School District Hancock County Independent Accountants' Report Page 2

We conducted our audit to opine on the District's financial statements taken as a whole. Management's Discussion and Analysis includes tables of net assets, changes in net assets, and governmental activities. These tables provide additional information, but are not part of the basic financial statements. However these tables are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These tables were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. Other than the aforementioned procedures applied to the tables, we applied no procedures to any other information in Management's Discussion and Analysis, and we express no opinion or any other assurance on it.

Dave Yost Auditor of State

February 23, 2012

The discussion and analysis of the Vanlue Local School District's (the District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2010 are as follows:

- In total, net assets increased \$333,004 which is an increase of 18 percent from fiscal year 2009. This increase is due to a concerted effort to decrease expenditures.
- General revenues accounted for \$2,987,455 or 83 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and capital grants accounted for \$600,230 or 17 percent of total revenues of \$3,587,685.
- The District's major funds were the General and Permanent Improvement Funds. The General Fund had \$3,094,926 in revenues and other financing sources and \$2,780,337 in expenditures and other financing uses. The General Fund's balance increased \$314,589 from the prior fiscal year.
- The Permanent Improvement Fund pays disbursements dealing with the general permanent improvements. The Permanent Improvement Fund had \$85,919 in receipts and \$83,273 in disbursements. The Permanent Improvement Fund's balance increased \$2,646 from the prior fiscal year.

Using the Basic Financial Statements

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the District's cash basis of accounting.

Report Components

The statement of net assets and the statement of activities provide information about the cash activities of the District as a whole.

Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the District as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the statements.

Basis of Accounting

The basis of accounting is a set of guidelines that determine when financial events are recorded. The District has elected to present its financial statements on a cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the District's cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

The statement of net assets and the statement of activities reflect how the District did financially during 2008, within the limitations of cash basis accounting. The statement of net assets presents the cash balances of the governmental activities of the District at fiscal year end. The statement of activities compares cash disbursements with program receipts for each function or program of the District's governmental activities. A function is a group of related activities designed to accomplish a major service or regulatory program for which the District is responsible. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the District's general receipts.

These statements report the District's cash position and the changes in cash position. Keeping in mind the limitations of the cash basis of accounting, you can think of these changes as one way to measure the District's financial health. Over time, increases or decreases in the District's cash position is one indicator of whether the District's financial health is improving or deteriorating. When evaluating the District's financial condition, you should also consider other nonfinancial factors such as the District's property tax base, the condition of the District's capital assets and infrastructure, the extent of the District's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local revenue sources such as property taxes.

In the statement of net assets and the statement of activities, all of the District activities are presented as governmental activities. All of the District's programs and services are reported here including instruction, support services, non-instructional services, food services, and extracurricular activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds – not the District as a whole. The District establishes separate funds to better manage its many activities and to help demonstrate that money that is restricted as to how it may be used is being spent for the intended purpose. The funds of the District are split into two categories: governmental and fiduciary.

Governmental Funds - Most of the District's activities are reported in governmental funds. The governmental fund financial statements provide a detailed view of the District's governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent to finance the District's programs.

The District's significant governmental funds are presented on the financial statements in separate columns. The information for nonmajor funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The District's major governmental funds are the General and Permanent Improvement Fund.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the District's programs.

The District as a Whole Table 1 provides a summary of the District's net assets for fiscal year 2010 compared to fiscal year 2009.

Program receipts account for 17 percent of total receipts and are primarily represented by restricted intergovernmental receipts, extracurricular activities, and food service sales.

The major program disbursements for governmental activities are for instruction, which accounts for 58 percent of all governmental disbursements. Other programs which support the instruction process, including pupil, instructional staff, and pupil transportation account for over 9 percent of governmental disbursements. Maintenance of the District's facilities also represents a significant disbursement of 10 percent. Therefore, over 77 percent of the District's disbursements are related to the primary functions of delivering education and providing facilities. These costs are funded almost entirely from property taxes, grants and entitlements.

Governmental Activities

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities – cash basis reflects the cost of program services and the charges for services and sales, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted state entitlements.

Total Expenses	\$3,254,681	\$2,654,451	\$3,026,287	\$2,470,480

The dependence upon tax revenues and unrestricted state entitlements for governmental activities is apparent. 76 percent of instruction activities are supported through taxes and other general revenues. For all governmental activities, support from general revenues is 82 percent.

The District's Funds

The District's governmental funds are accounted for using the cash basis of accounting. The District's major governmental funds are the General and Permanent Improvement Funds. Total governmental funds had revenues and other financing sources of \$3,612,685 and expenditures and other financing uses of \$3,279,681. The net positive change of \$333,004 in fund balance for the year indicates that the District was able to meet current costs.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal year 2010, the District amended its General Fund budget as needed. Final budgeted receipts and other financing sources, in the amount of \$3,090,763, were below actual receipts and other financing sources of \$3,094,926. The difference of \$4,163 between final budgeted receipts and actual receipts was less than 1 percent.

Final expenditures and other financing uses were budgeted at \$3,151,371 while actual expenditures and other financing uses were \$2,875,703. The \$275,668 difference is primarily due to a conservative "worst case scenario" approach. The District over-appropriates in case significant, unexpected expenditures arise during the fiscal year.

Current Issues

The District is facing tough financial times in the state of a declining economy and uncertainty in State funding. Vanlue is a small rural community of 1,500 people in Northwest Ohio. Agriculture is the primary contributing influence on the economy.

The District is currently operating in the first year of the state biennium budget. 46.4 percent of District revenue sources is from local funds, 49.8 percent is from state funds and the remaining 3.8 percent is from federal funds. The total expenditure per pupil was calculated at \$11,865 for fiscal year 2010 (latest information available).

Over the past several years District voters have supported the school with the passage of a number of school levies. In November of 2005 the 4 mill permanent improvement levy was renewed for a continuing period of time, at that same time the voters also renewed the 1.00% income tax levy for an additional five years. In May of 2009, two emergency levies were combined and renewed for a period of ten years at 10.6 mills. In May of 2010 the voters again renewed the 1.00% income tax levy, but for a continuing period of time.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to reflect the District's accountability for the monies it receives. NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

1. DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY

The Vanlue Local School District (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a local school district as defined by Section 3311.03 of Ohio Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District. The board oversees the operations of the District's one instructional/support facility staffed by 17 classified employees and 25 certified teaching personnel, who provide services to 246 students and other community members.

The Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 30, "Determining Whether Certain Organizations are Component Units". The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food services, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; (4) or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

The following organizations are described due to their relationship to the District:

JOINTLY GOVERNED ORGANIZATIONS

Northwest Ohio Area Computer Services Cooperative

The District is a participant in the Northwest Ohio Area Computer Services Cooperative (NOACSC), which is a computer consortium. NOACSC is an association of public school districts within the boundaries of Allen, Hancock, Mercer, Paulding, Putnam, and Van Wert Counties, and the Cities of St. Marys and Wapakoneta. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of NOACSC consists of two representatives from each county elected by majority vote of all charter member school districts within each county. Financial information can be obtained from the Northwest Ohio Area Computer Services Cooperative, 645 South Main Street, Lima, Ohio 45804.

1. DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY (Continued)

Millstream Career and Technology Center

The Millstream Career and Technology Center (the Center) is a distinct political subdivision of the State of Ohio established under Section 3313.90 of the Ohio Revised Code. The Center provides vocational instruction to students. The Center operates under the direction of an Advisory Council consisting of the superintendent of each participating school district and one additional representative from the Findlay City School District. The Treasurers from the Hancock and Putnam County Educational Service Centers serve in an ex-officio capacity for all meetings. Financial information can be obtained from the Findlay City School District Treasurer, 1219 West Main Cross Suite 101, Findlay, Ohio 45840-3377.

Hancock County Local Professional Development Committee

The Hancock County Local Professional Development Committee (HCLPDC) was established in 1999 to plan, promote, and facilitate effective and efficient professional educator license renewal standards and staff development activities. The HCLPDC is organized under Ohio laws as a regional council of governments pursuant to a written agreement entered into by its members. The HCLPDC is governed by a thirteen member Executive Board. Financial information can be obtained from the Hancock County Educational Service Center, who serves as fiscal agent, 7746 County Road 140, Findlay, Ohio 45840.

Northwestern Ohio Educational Research Council, Inc.

The Northwestern Ohio Educational Research Council, Inc., (NOERC) is a jointly governed organization formed to bring educational entities into a better understanding of their common educational problems, facilitate and conduct practical educational research, coordinate educational research among members, provide a means for evaluating and disseminating the results of research, serve as a repository for research and legislative materials, and provide opportunities for training. The NOERC serves a twenty-five county area in Northwest Ohio. The Board of Directors consists of superintendents from two educational service centers, two exempted village school districts, five local school districts, and five city school districts, as well as representatives from two private or parochial schools and three institutions of higher education. Each active member is entitled to one vote on all issues addressed by the Board of Directors. Financial information can be obtained from the Northwestern Ohio Educational Research Council, Inc., Box 456, Ashland, Ohio 44805.

PUBLIC ENTITY RISK POOLS

Schools of Ohio Risk Sharing Authority

The District participates in the Schools of Ohio Risk Sharing Authority (SORSA), an insurance purchasing pool established under Section 2744.081 of the Ohio Revised Code. SORSA is an unincorporated nonprofit association of its members which enables the participants to provide for a formalized joint insurance purchasing program for maintaining adequate insurance protection and provides risk management programs and other administrative services. The SORSA's business and affairs are conducted by a board consisting of nine Superintendents and Treasurers, as well as an attorney, accountant, and four representatives from the pool's administrator, Willis Pooling. Willis Pooling is responsible for processing claims and establishes agreements between SORSA and its members. Financial information can be obtained from Willis Pooling, 655 Metro Place South, Dublin, Ohio 43017.

1. DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY (Continued)

Ohio School Board Association Workers' Compensation Group Rating Plan

The District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio School Board Association Workers' Compensation Group Rating Plan (the "Plan") was established through the Ohio School Board Association (OSBA) as a group purchasing pool.

The Executive Director of the OSBA, or his designee, serves as coordinator of the Plan. Each year, the participating school districts pay an enrollment fee to the Plan to cover the costs of administering the program.

Hancock County Schools Health Benefit Fund

The Hancock County Schools Health Benefit Fund (the Fund) is a public entity shared risk pool consisting of seven local school districts, the Hancock County Educational Service Center, and the Blanchard Valley Board of Mental Retardation/Developmental Disabilities. The Fund is a Voluntary Employee Benefit Association under Section 501(c)(9) of the Internal Revenue Code and provides medical, dental, and vision insurance benefits to participants. The Administrative Committee of the Fund consists of the superintendent from each participating member. The Administrative Committee advises the trustee, Hylant Group, concerning aspects of the administration of the Fund.

Each member decides which plans offered by the Administrative Committee that will be extended to its employees. Participation in the Fund is by written application subject to acceptance by the Administrative Committee and payment of the monthly premiums. Financial information can be obtained from Lisa Hawker, Hylant Group, 811 Madison Avenue, P O Box 1687, Toledo, Ohio 43603-1687.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 2.C, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. Following are the more significant of the District's accounting policies.

A. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Governmental activities generally are financed through taxes, intergovernmental receipts or other nonexchange transactions.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The statement of net assets presents the cash balance of the governmental activities of the District at fiscal year end. The statement of activities compares disbursements with program receipts for each function or program of the District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the District is responsible. Program receipts include charges paid by the recipient of the program's goods or services, grants and contributions restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants that are required to be used to support a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a cash basis or draws from the District's general receipts.

Fund Financial Statements

During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are divided into the categories governmental and fiduciary.

Governmental Funds

The District classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants), and other nonexchange transactions as governmental funds. The following is the District's major funds:

<u>General Fund</u> - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Permanent Improvement Fund</u> – The Permanent Improvement Fund is used to account for the revenue from the levy passed for general permanent improvements.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are not available to support the District's own programs. The District's private purpose trust fund accounts for programs that provide college scholarships to students after graduation. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for various student-managed activities.

C. Basis of Accounting

The District's financial statements are prepared using the cash basis of accounting. Receipts are recorded in the District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

D. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on cash disbursements plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund level for all funds. Budgetary allocations at the function and object level within all funds are made by the Treasurer.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources requested by the District prior to fiscal year end.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Cash and Investments

To improve cash management, cash received by the District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During 2010, the District invested in nonnegotiable certificates of deposit and STAR Ohio. Investments are reported at cost, except for STAR Ohio. STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2010.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. The Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2010 amounted to \$30,449, which includes \$4,324 assigned from other District funds.

Investments of the District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

F. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets in the General Fund include the amount required by State statute to be set aside for textbooks and instructional materials.

G. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

H. Compensated Absences

Employees are entitled to cash payments for unused vacation and sick leave in certain circumstances, such as upon leaving employment. Unpaid vacation and sick leave are not reflected as liabilities under the cash basis of accounting used by the District.

I. Long-Term Obligations

Cash basis financial statements do not report liabilities for bonds and other long-term obligations. Proceeds of debt are reported when cash is received and principal and interest payments are reported when disbursements are made.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Net Assets

Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include resources restricted for food service operations, music and athletic programs, and federal and state grants restricted to cash disbursement for specified purposes. The District's policy applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

K. Fund Balance Reserves

The District reserves any portion of fund balances which is not available for appropriation or which is legally segregated for a specific future use. A designation of fund balance represents a self-imposed limitation on the use of available expendable resources by the Board of Education. The designation for termination benefits represents money set aside by the Board of Education for future payment of termination benefits. Unreserved and undesignated fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves have been established for encumbrances and textbooks.

L. Interfund Activity

Transfers within governmental activities are eliminated on the government-wide financial statements.

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented on the financial statements.

3. COMPLIANCE

Ohio Administrative Code, Section 117-2-03 (B), requires the District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the District prepared its financial statements on a cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net assets/fund balances, and disclosures that, while material, cannot be determined at this time. The District can be fined and various other administrative remedies may be taken against the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

4. BUDGETARY BASIS OF ACCOUNTING

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual presented for the general fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budgetary basis and the cash basis is outstanding year end encumbrances are treated as cash disbursements (budgetary basis) rather than as a reservation of fund balance (cash basis).

The encumbrances outstanding at year end (budgetary basis) amounted to \$95,366 in the General fund.

5. DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawal on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies, which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings accounts including passbook accounts.

Interim monies held by the District may be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above;
- 4. Bonds and other obligations of the State of Ohio or Ohio local governments;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

5. DEPOSITS AND INVESTMENTS (Continued)

- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
- 7. The State Treasurer's investment pool (STAR Ohio); and
- 8. Commercial paper and bankers' acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse purchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions.

Deposits

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$787,137 of the District's bank balance of \$2,044,891 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent. Although all State statutory requirements for the deposit of money had been followed, noncompliance with federal requirement could potentially subject the District to a successful claim by the FDIC.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Investments

As of June 30, 2010, the investment with Star Ohio was \$230,074. The District's investments in STAR Ohio have an average maturity of 56 days. STAR Ohio carries a rating of AAA by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

6. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis, while the District's fiscal year runs from July through June. First-half tax distributions are received by the District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

6. PROPERTY TAXES (Continued)

Property taxes include amounts levied against all real property, public utility property, and tangible personal (used in business) property located in the District. Real property tax revenues received in calendar year 2010 represent the collection of calendar year 2009 taxes. Real property taxes received in calendar year 2010 were levied after April 1, 2009, on the assessed values as of January 1, 2009, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2010 represent the collection of calendar year 2009 taxes. Public utility real and tangible personal property taxes received in calendar year 2010 became a lien on December 31, 2008, were levied after April 1, 2009, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Tangible personal property tax revenues received in calendar year 2010 (other than public utility property) represent the collection of calendar year 2010 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied and collected. The October 2008 tangible personal property tax settlement was the last property tax settlement for general personal property taxes. Tangible personal property taxes received from telephone companies in calendar year 2010 were levied after October 1, 2009, on the value as of December 31, 2009. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

The District receives property taxes from Hancock, Seneca, and Wyandot Counties. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2010, are available to finance fiscal year 2010 operations. The amount available to be advanced can vary based on the date the tax bills are sent. The amount available as an advance can vary based on the date the tax bills are sent.

The assessed values upon which the fiscal year 2010 taxes were collected are:

7. INCOME TAX

The District levies a voted tax of 1 percent for general operations on the income of residents and of estates. The tax was effective on January 1, 2006, and would continue for five years; however, in May 2010 the voters renewed the income tax at 1 percent for a continuing period of time. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file and annual return. The State makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the General Fund.

8. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2010, the District participated in the Schools of Ohio Risk Sharing Authority (SORSA), an insurance purchasing pool. Each participant enters into an individual agreement with SORSA for insurance coverage and pays annual premiums to SORSA based on the types and limits of coverage and deductibles selected by the participant.

Coverage provided is as follows:

 Buildings and Contents
 \$11,452,855

 General Liability
 1,000,000-4,000,000

 Aggregate
 6,000,000

 Automobile Liability
 4,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years and there has been no significant reduction in insurance coverage from the prior fiscal year.

The District participates in the Ohio School Board Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. Participants in the GRP are placed on tiers according to their loss history. Participants with low loss histories are rewarded with greater savings than participants with higher loss histories. Each participant pays its workers' compensation premium to the state based on the rate for its GRP tier rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of CompManagement Health Systems, Inc. provides administrative, cost control, assistance with safety programs, and actuarial services to the GRP.

The District participates in the Hancock County Schools Health Benefit Fund (the Fund), a public entity shared risk pool consisting of seven local school districts, the Hancock County Educational Service Center, and the Blanchard Valley Board of Mental Retardation/Development Disabilities. The District pays monthly premiums to the Fund for employee medical, dental, and vision insurance benefits. The Fund is responsible for the management and operation of the program. Upon withdrawal from the Fund, a participant is responsible for the payment of all Fund liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

9. DEFINED BENEFIT PENSION PLANS

A. State Teachers Retirement System

Plan Description - The District contributes to the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to the State Teachers Retirement System of Ohio, 275 East Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit Plan (DBP), a Defined Contribution Plan (DCP), and a Combined Plan (CP). The DBP offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service or on an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DCP allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The CP offers features of both the DBP and the DCP. In the CP, member contributions are invested by the member and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DBP. The DBP portion of the CP payment is payable to a member on or after age sixty; the DCP portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DBP or CP member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DCP who become disabled are entitled only to their account balance. If a member of the DCP dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2010, plan members were required to contribute 10 percent of their annual covered salary. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the STRS Ohio Board upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contribution for pension obligations to STRS Ohio for the fiscal years ended June 30, 2010, 2009, and 2008 was \$129,300, \$132,970, and \$137,001 respectively; 84 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008. Contributions to the DCP and CP for fiscal year 2010 were \$1,660 made by the District and \$1,186 made by the plan members.

9. DEFINED BENEFIT PENSION PLANS (Continued)

B. School Employees Retirement System

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple-employer public employee retirement plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a stand-alone financial report that may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

Funding Policy - For the fiscal year ended June 30, 2010, plan members were required to contribute 10 percent of their annual covered salary and the District was required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2010, 12.78 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contribution for pension obligations to SERS for the fiscal years ended June 30, 2010, 2009, and 2008 was \$52,833, \$37,706, and \$40,149 respectively; 49 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

10. POSTEMPLOYMENT BENEFITS

A. State Teachers Retirement System

Plan Description - The District contributes to a cost-sharing multiple-employer defined benefit Health Care Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the Defined Benefit or Combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare Part B premiums. The Plan is included in STRS Ohio's financial report which may be obtained by calling (888) 227-7877 or by visiting the STRS Ohio Web site at www.strsoh.org.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Health Care Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for postemployment health care may be deducted from employer contributions. For fiscal year 2010, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contribution for health care for the fiscal years ended June 30, 2010, 2009, and 2008 was \$10,074, \$10,258, and \$10,556 respectively; 84 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

10. POSTEMPLOYMENT BENEFITS (Continued)

B. School Employees Retirement System

Plan Description - The District contributes to two cost-sharing multiple-employer defined benefit OPEB plans administered by the School Employees Retirement System (SERS) for classified retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians fees through several types of plans including HMO's, PPO's, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by SERS based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each fiscal year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For fiscal year 2010, .46 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount. For fiscal year 2010, the surcharge amount was \$6,159.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility, and retirement status.

The District's contribution for health care for the fiscal years ended June 30, 2010, 2009, and 2008 was \$1,902, \$17,256, and \$18,321 respectively; 49 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare Part B Fund. For fiscal year 2010, this actuarially required allocation was .76 percent of covered payroll. The District's contribution for Medicare Part B for the fiscal years ended June 30, 2010, 2009, and 2008 was \$3,142, \$3,111, and \$2,893 respectively; 49 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

11. OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

11. OTHER EMPLOYEE BENEFITS (Continued)

Teachers, administrators, and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of one hundred eighty-five days for teachers and one hundred eighty for non-teaching personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of thirty days. Teachers receive an additional severance payment, of up to thirty days, for accumulated sick leave in excess of one hundred eighty-five days.

B. Health Care Benefits

The District provides medical, dental, and vision insurance to all employees through the Hancock County Schools Health Benefit Fund. Depending upon the plan chosen, the employees share the cost of the monthly premium with the Board. The premium varies with employee depending on the terms of the union contract.

12. SET-ASIDE CALCULATIONS AND FUND RESERVES

The District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the changes in the fund balances reserves for textbooks and capital improvements during fiscal year 2010.

13. INTERFUND TRANSFERS

During fiscal year 2010, the General Fund made a transfer to other governmental funds, in the amount of \$25,000, to subsidize the Lunchroom Fund and a transfer to the Agency Funds, in the amount of \$495, to subsidize the Class of 2010.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

14. CONTINGENCIES

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2010.

B. Litigation

There are currently no matters in litigation with the District as defendant.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Vanlue Local School District Hancock County 301 South East Street, P.O. Box 250 Vanlue, Ohio 45890-0250

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Vanlue Local School District, Hancock County, Ohio (the District), as of and for the year ended June 30, 2010, wherein, we noted the District uses a comprehensive accounting basis other than generally accepted accounting principles. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2010-001.

Vanlue Local School District Hancock County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Page 2

We also noted certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated February 23, 2012.

We intend this report solely for the information and use of the Finance and Audit Committee, management, the Board of Education, and others within the District. We intend it for no one other than these specified parties.

SCHEDULE OF FINDINGS JUNE 30, 2010

FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2010-001

Noncompliance Citation

Ohio Revised Code, § 117.38, provides that each public office shall file a financial report for each fiscal year. The auditor of state may prescribe forms by rule or may issue guidelines, or both, for such reports. If the auditor of state has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office. Ohio Administrative Code § 117-2-03 further clarifies the requirements of Ohio Revised Code § 117.38.

Ohio Administrative Code § 117-2-03(B), requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, the District prepares its financial statements in a cash format which is a comprehensive basis of accounting other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. Pursuant to Ohio Revised Code § 117.38 the District may be fined and subject to various other administrative remedies for its failure to file the required financial report. We recommend the District prepare its statements in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

Vanlue Local School District Hancock County 301 South East Street, P.O. Box 250 Vanlue, Ohio 45890-0250

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedures enumerated below, which were agreed to by the Board, solely to assist the Board in evaluating whether Vanlue Local School District (the District) has adopted an anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

- 1. In our report dated November 10, 2009, we noted the Board adopted an anti-harassment policy on January 15, 2001, and re-adopted the policy at its meeting on April 16, 2007. However, this policy did not include all matters required by Ohio Rev. Code 3313.666.
- 2. The Board amended the policy on January 10, 2011. We read the amended policy, noting it now includes all the requirements listed in Ohio Rev. Code 3313.666.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board of Education and is not intended to be and should not be used by anyone other than these specified parties.
