# 2012 COMPREHENSIVE ANNUAL FINANCIAL REPORT

FOR THE YEAR ENDED DECEMBER 31, 2012  
A POLITICAL SUBDIVISION OF  
THE STATE OF OHIO

KEEPING OUR GREAT LAKE GREAT.

# Dave Yost • Auditor of State

Board of Trustees  
Northeast Ohio Regional Sewer District  
3900 Euclid Drive  
Cleveland, Ohio 44115

We have reviewed the *Independent Auditor's Report* of the Northeast Ohio Regional Sewer District, Cuyahoga County, prepared by Ciuni & Panichi, Inc., for the audit period January 1, 2012 through December 31, 2012. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Northeast Ohio Regional Sewer District is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

Dave Yost

# INTRODUCTORY *section*

June 27, 2013

To the Board of Trustees and Citizens Served by  
the Northeast Ohio Regional Sewer District:

State law requires that all local governments publish within six months of the close of each fiscal year a complete set of financial statements. These financial statements are required to be presented in conformity with generally accepted accounting principles (GAAP) audited in accordance with standards generally accepted in the United States of America by licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Northeast Ohio Regional Sewer District for the fiscal year ended December 31, 2012.

This report consists of management's representations concerning the finances of the Northeast Ohio Regional Sewer District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Northeast Ohio Regional Sewer District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the Northeast Ohio Regional Sewer District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the Northeast Ohio Regional Sewer District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Northeast Ohio Regional Sewer District's financial statements have been audited by Ciuni and Panichi, Inc., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Northeast Ohio Regional Sewer District for the fiscal year ended December 31, 2012, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there is reasonable basis for rendering an unmodified opinion that the Northeast Ohio Regional Sewer District's financial statements for the fiscal year ended December 31, 2012 are fairly presented in conformity with GAAP. The Independent Auditor's Report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditor's Report.

## **PROFILE OF THE DISTRICT**

### **General**

The District is an independent political subdivision of and organized under the laws of the State of Ohio, specifically Chapter 6119 of the Ohio Revised Code. Originally named the Cleveland Regional Sewer District, it was created in 1972 for the purpose of assuming the operation and management of certain wastewater collection, treatment and disposal facilities serving the Cleveland metropolitan area. Prior to 1972, these facilities were owned and operated by the City of Cleveland.

### **Service Area**

The District's service area covers approximately 350 square miles. The District encompasses 97% of the City of Cleveland and all or portions of 61 suburban communities in Cuyahoga, Lake, Lorain and Summit Counties. The area contains a residential service population in excess of one million persons and includes a diverse group of service, information, biotechnology, manufacturing and processing industries. The District treats more wastewater than any other wastewater treatment system in the State of Ohio.

### **Governance**

The District is governed by its Board of Trustees. The Board consists of seven members, each of whom serves a five-year term, who are appointed as follows: (i) two by the Mayor of the City of Cleveland; (ii) two by council of governments (the "Suburban Council") comprised of representatives of all suburban communities served by the system; (iii) one by the Cuyahoga County Council; (iv) one by the appointing authority of the subdistrict with the greatest flow; (v) and one by the appointing authority of the subdistrict with the greatest population.

### **Budgets**

General provisions regulating the District's budget and appropriation procedures are set forth in the Ohio Revised Code. The Executive Director is required to submit the District's operating and capital budgets to the Board of Trustees and they are required to adopt such budgets by March 31 of the year to which they apply. Readers should refer to the Schedule of Revenues, Expenses and Changes in Net Position – Budget to Actual on page 52 of this report, along with the accompanying Notes to Supplementary Information for additional budgetary information.

The section of the Ohio Revised Code under which the District is organized grants it the power to raise revenues through taxes on property within its service area. In accordance with Chapter 5705 of the Code, the District does not file an annual Tax Budget because it does not levy any taxes.

## **FACTORS AFFECTING FINANCIAL CONDITION**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

### **Local Economy**

The economic environment in which the District operates is affected by the same events and conditions as the rest of the State of Ohio and the nation. Although the economy is still recovering, District revenue is expected to remain relatively stable due to the approval of a rate increase by the Board of Trustees. The region is not dominated by any single industry. Major industries with headquarters or divisions located in the District's service area or in close proximity include automotive manufacturers, industrial equipment, metals, paints and coatings producers, insurance and banking services. Major employers in the area include federal, state, county and municipal government agencies, health care providers, public schools, financial service providers, manufacturers and retail establishments. In recent years there has been a significant shift from manufacturing to a service and information based economy.

The unemployment rate in December 2012 (not seasonally adjusted) for Cuyahoga County, which is significantly the same as the District's service area, was 6.6%. Cuyahoga County's unemployment rate was 0.1% lower than the seasonally adjusted rate of 6.7% for the State of Ohio and 1.2% lower than the national rate of 7.8%. Although the City of Cleveland and Cuyahoga County have experienced an outward migration of residents to neighboring suburbs and counties, the presence of corporate, cultural and entertainment facilities continues to attract visitors and commuters to the area.

### **Long-Term Financial Planning**

The District has produced a strong financial history since its inception in 1972. Moving forward, the District is positioned to continue to meet the level of service and regulatory requirements demanded by its customers, its Board of Trustees and regulatory agencies. Part of that responsibility will entail investment, over the next 25 years, of approximately \$5 billion in new Combined Sewer Overflow (CSO) controls and wastewater facility improvements.

The District maintains a long range financing plan for its Operating and Capital budgets. The District's five year financing plan for the capital budget provides for over \$1 billion in capital project expenditures from 2013 to 2017, primarily for improvements to our Southerly wastewater treatment plant and our CSO long-term control plan. This includes approximately \$273 million for the plants, \$702 million for the CSO projects, \$73 million for the collection system improvements, and \$36 million of miscellaneous District-wide improvements. Over this five year period, the District will need to address both regulatory driven capital improvements and rehabilitation driven capital improvements at its three (3) wastewater treatment plants and within its collection system.

In 2010, the District completed a five year long-term financial and rate impact model for rates in effect from 2012-2016. The model incorporates specific year by year details to determine the sewer rates over the next five years.

## **Debt Administration**

At year-end, the District had bonded debt outstanding of \$484,385,000. The debt, net of applicable unamortized discounts and refunding costs, is \$486,276,962. The District has also obtained loans through the State of Ohio Water Pollution Control Loan Fund (WPCLF). As of December 31, 2012, the outstanding loan balance was \$470,470,958 for the WPCLF. Outstanding revenue bonds of the District are rated AA+ by Standard & Poor's and Aa1 by Moody's rating agencies. Note 6 to the financial statements include schedules of debt outstanding and future debt service requirements.

In 2005, the District refinanced bonded debt that was outstanding at the time. These legal defeasance transactions resulted in funds being deposited with escrow agents who invested them in U.S. Treasury obligations which, together with the income earned on such investments, will be sufficient to service the debt until maturity or redemption. The refinanced debt and the escrow funds, deposited in irrevocable trusts, are excluded from the District's statement of net position since the District has legally satisfied its obligations as a result of the refunding transactions. This information should be read in conjunction with Note 6 to the financial statements.

In 2007, the District issued \$126,055,000 Wastewater Improvement Revenue Bonds, Series 2007 Bonds, for the purpose of providing funds for the acquisition, construction, and improvement of water resource projects, funding the Debt Service Reserve Requirement for the Series 2007 Bonds, and paying certain costs of issuance of the Series 2007 Bonds. This information should be read in conjunction with Note 6 to the financial statements.

In 2010, the District issued \$336,930,000 Wastewater Improvement Revenue Bonds, Series 2010 as Federally Taxable Build America Bonds for the purpose of providing funds for the acquisition, construction and improvement of wastewater facilities or water management facilities, constituting Water Resource Projects. This information should be read in conjunction with Note 6 to the financial statements.

## **MAJOR INITIATIVES**

### **For the Year**

#### **2012 Awards**

During 2012, the District received awards for 2011 plant performance from the National Association of Clean Water Agencies (NACWA). NACWA honored all three of our Wastewater Treatment Plants (WWTP's) for excellent performance in 2011.

The District's Easterly and Westerly plants earned a Peak Performance Gold award that recognizes facilities with no National Pollutant Discharge Elimination System (NPDES) permit exceedences in a year. The Southerly plant earned a Peak Performance Silver award which presented to member agency facilities that have had five or less NPDES permit violations during a calendar year. Awards for 2012 performance have not been announced as of the date of this report.

During 2012, the Government Finance Officers Association (GFOA) presented the Distinguished Budget Presentation Award to the District for the sixth time for its 2012 Budget.

#### **Business Opportunity Program**

The Office of Contract Compliance was formed in 2008. After receiving the recommendations from the Disparity Study in 2010, the Business Opportunity Program (BOP) was created which, allows Minority Business Enterprise (MBE), Women Business Enterprise (WBE), and Small Business Enterprise (SBE) goals to be placed on projects. The Office of Contract Compliance monitors payments, prevailing wages and provides outreach services for certified firms. The BOP is designed to contribute to the economic health and vitality of the region by providing a greater opportunity to conduct business with the District, resulting in job and business growth for the local business community. Bringing new companies into the District's procurement process enhances the competitive bidding process which helps deliver the greatest value.

#### **Vendor Registration**

The BOP, in conjunction with the Purchasing Department, developed and implemented an online vendor registration system that tracks the number of registered vendors conducting business with the District. Also, the system tracks vendor payments and assists in the identification of potential vendors for the BOP. This real-time, online vendor registration system enables vendors to upload their vendor profile information as well as enter BOP certification data. The District currently has over 3,000 registered vendors.

## Employee Relations

Employees are the most valuable asset and are vital to accomplishing the District's mission and its strategic goals. The District continues to invest in its employees by funding training and development efforts. Those efforts provide skills in the areas of safety, technology, government relations and professional and career development. The goal is to maintain a skilled, safe and competent workforce that is fully capable of supporting our customers' needs. Other major highlights of the District's employee relations are:

- *Health and Wellness Program*  
The District's Wellness Program continues to grow and has encouraged lifestyle changes for many employees. With active Wellness Committees at each of the five District locations, events are tailored to meet the needs and interests of the employees of each site within a well-managed framework. Bi-monthly events continue to be scheduled for each facility based on a calendar of monthly topics created by the aggregate reports from the District's healthcare providers and surveys of employee needs for better health, financial awareness and mental wellness. The Annual Health & Wellness Fair was once again the largest event of the year. Employees participated in health screenings, exercise/fitness demos and had the opportunity to converse one-on-one with a variety of vendors representing ways to improve employees' lifestyle choices for better health. Within the Wellness initiative, employees lost a "ton" of weight through the District sponsored Weight Watcher's at Work® program, approximately 2,200 pounds. The reward for the District as a whole was a reduction in the cost of healthcare premiums for 2012 with a 10% discounted renewal cost from our health care vendors and the improved fitness of the employees.
- *Performance Management System*  
The District is approaching its fourth year since the introduction and implementation of the performance management tracking system for non-union employees. The Department of Human Resources provided training modules for employees and supervisors which focused on revised organizational core competencies, updated Performance Review Forms, the District's performance review processes, and a refresher on performance reviews and goal setting practices. Annually the processes and forms are reviewed and improvements are made, as necessary, to ensure that the system focuses on creating an environment that allows for aligning with both strategic and organization goals, skills and competency development, true performance tracking and the enhancement of manager's supervisory skills. In 2012, 333 employees were evaluated during the performance management cycle.
- *Diversity and Inclusion*  
In 2012, the District implemented year three of the three-year Diversity & Inclusion strategic plan. The District's commitment to diversity and inclusion is a long-term strategy that maximizes the development of cultural competence. We strive to achieve greater productivity, and to respond proactively to America's evolving cultural demographics. To show our dedication for communication, education, accountability, measurement and accomplishments, here are some of the District's 2012 accomplishments: continued rollout of connecting with respect workshops in three departments; conducted 10 Diversity and Inclusion Workshops training 118 employees (building upon the 494 employees that completed the workshop in 2011); established the District's second Employee Resource Group, the Administrative Professionals Network in March, 2012; strengthened the BOP with MBE, WBE, and SBE goals placed on

projects; hosted three Diversity Dialogues on topics such as: Tuskegee Airmen, Mental Illness, and Kwanza. Most notably the District was honored by The Greater Cleveland Partnership as a member of its Commission 50. The Commission 50 designation recognizes the 50 organizations (25 for profit, 25 nonprofit-governments) with the highest combined scores on board, senior management, workforce and supplier diversity on the Commission's most recent Employers Survey on Diversity.

- *Employee Recognition Program*

The Employee Recognition program which was implemented in late 2009 gained great acceptance during 2010 with all locations submitting monthly recommendations and hosting award presentations regularly. The program was created to foster a culture of appreciation, making recognition a part of our daily activities by highlighting demonstration of one of the Core Values. The goal is to motivate employees by reminding them of the value they add to furthering the mission, vision and core values of the District. In 2010, a permanent work group was formed to review the Employee Recognition program and suggest enhancements to it. Based on the team's recommendations, a Quarterly Team Award and an Annual Spirit Award have been added to the monthly Employee of the Month Award. In 2012, 37 employees were given the Employee of the Month award; 17 teams with 147 employees were recognized; and five individuals were presented with Annual Spirit Awards.

## **CSO Long-Term Control Plan**

In addition to its three (3) wastewater treatment plants and approximately 300 miles of interceptor sewers, the District has responsibility for combined sewer overflows (CSOs) within its service area. The federal Clean Water Act and U.S. Environmental Protection Agency's (U.S. EPA) CSO Control Policy, along with the District's state-issued CSO NPDES permit, required the District to develop a Long-Term Control Plan (LTCP) to reduce or eliminate the number of overflows from its 126 permitted outfalls. In 2010, the District came to a negotiated agreement with Ohio and U.S. EPA, U.S. Department of Justice, and the Ohio Attorney General's Office on a 25-year, \$3 billion CSO LTCP for which the District obtained authorization from its Board of Trustees to enter into a Consent Decree with the state and federal agencies in December 2010.

The District has already invested an estimated \$850 million and reduced CSO volumes by half – from 4.5 billion gallons since 1972 to present. The District's proposed CSO LTCP, the last of which was submitted in 2002, would further reduce the number of overflows to four or less per year and capture 97 % of the total volume of wet weather flow in the combined sewer system, which is above the 85% specified in U.S. EPA's CSO Control Policy, at an estimated cost of \$2.7 billion (in 2009 dollars). In its subsequent negotiations with Ohio EPA and U.S. EPA the District agreed to additional, cost-effective enhancements to its program that would result in 98.2% capture of all wet weather flow in the combined sewer area – with 97% capture achieved in year 20 of the District's proposed 25-year implementation period – and reduce CSO volumes to less than 500 million gallons in a typical year.

In 2011, the District began construction on its second large-scale tunnel – the Euclid Creek Tunnel. Ultimately, the District will construct seven tunnels, which range from two to five miles in length, up to 300 feet underground and up to 24 feet in diameter. The tunnels are similar to the nearly complete Mill Creek Tunnel, a structure that will have the capacity to store 75 million gallons of combined sewage until it can be treated at the District's Southerly Wastewater Treatment Plant.

Some of the major proposed CSO projects outside of the storage tunnels include the expansion of the Easterly WWTP secondary treatment capacity, with an additional Chemically Enhanced High Rate Treatment (CE HRT) facility for treatment and disinfection of CSO 001 during wet weather events. At the Southerly WWTP the District will expand secondary treatment capacity and include CE HRT and disinfection for treatment of additional wet weather flows. The District will upgrade the existing Westerly CSO Treatment Facility (CSOTF) with CE HRT and disinfection for further treatment of CSO 002, thereby increasing wet weather treatment capacity at this facility.

The District has incorporated opportunities to construct more sustainable and cost-effective green infrastructure in place of traditional gray infrastructure in its proposal, which would include a commitment to a minimum of \$42 million in green infrastructure projects, reducing 44 MG of wet weather CSO flows beyond those captured by the tunnel systems.

### **Asset Management**

Asset Management is the practice of managing the entire life cycle of assets with the objective of providing the best service while balancing acceptable risk and overall costs. Asset management principals have been incorporated into the District's capital and maintenance activities. The District has been utilizing a risk-based, consistent method for validating and prioritizing its Engineering Capital Improvement Program for the last two years. Additionally, the District has collected data for all of its plant and collection system assets to understand each asset's condition, criticality, repair and/or replacement costs, maintenance costs and estimated year of renewal. All this data is available in the State of the Infrastructure Report. The District has used this data to forecast long-term asset-related expenditures by year for incorporation into the Capital Improvement Program planning process.

The District has developed and implemented metrics to measure operations and maintenance performance, improve cost accounting to the asset level, and has established standardized processes to improve maintenance and equipment effectiveness.

### **Biosolids Management**

Approximately 100,000 wet tons of biosolids (sewage sludge) are removed from the wastewater at the District's three wastewater treatment plants on an annual basis. Of this amount, roughly 90% is burned in the District's six multiple hearth biosolids incinerators. The balance is hauled to a municipal solid waste landfill for disposal or to a reclamation project for beneficial reuse.

A District Residuals Management Study completed in 2005, and validated in 2008, determined that the District's most cost-effective long-term biosolids management option is to continue incineration, with landfilling as a secondary option. As a result, the District is undertaking a program to replace four existing incinerators located at the Southerly WWTP with three new state-of-the-art fluidized bed incinerators. The final design of the project included a Renewable Energy Facility (REF) to house waste heat boilers and a turbine generator to create electricity that will supply power from the incineration process to the Southerly WWTP. The new REF and incinerator facility should be in service in 2013 and has a current total project cost estimate of approximately \$165 million.

## **For the Future**

### **Regional Stormwater Management Program**

The District's Court Order required the District to "develop a detailed integrated capital improvement plan for regional management of wastewater collection and storm drainage to identify a capital improvement program for the solution of all intercommunity drainage problems (both storm and sanitary) in the District". The District initially focused on the sanitary sewage portion of this mandate, investing approximately \$3 billion since its inception on sanitary sewage-related projects. To address the regional stormwater portion of this mandate, the District procured services in 2007 to assist with the development and implementation of a Regional Stormwater Management Program (the "Stormwater Program"). Tasks related to defining stormwater program roles and responsibilities, funding approaches, resource needs, legal issues, customer service requirements and data/billing issues were addressed, leading to the development of the District's Stormwater Code of Regulations (TitleV), which the District's Board of Trustees approved in January 2010.

Beginning in January 2013, the District will formally implement the Regional Stormwater Management Program. The Stormwater Program will address long-standing regional stormwater flooding, erosion, water quality issues and problems related to stormwater runoff from hard surfaces that make their way into the collection system and ultimately end up at treatment facilities. The fees collected from the Stormwater Program will be used to offset costs associated with treatment of stormwater runoff and are based on impervious surface. The fees from the Stormwater Program will also fund projects to address regional stream flooding and erosion problems as well as maintenance and master planning. Twenty-five percent (25%) of cash collected from each municipality within the service area will be returned to the respective member community for funding of local stormwater management projects.

## Strategic Plan

In 2008, Executive Director Julius Ciaccia, along with the District's leadership team, developed a plan to chart the organization's direction for the next five years. The 2009-2013 Strategic Plan focuses the organization on greater service to our customers, stressing accountability, transparency, and environmental stewardship.

A variety of data was assembled to guide the deliberations of the Strategic Planning Committee. These various materials included:

- In-depth review conducted on numerous strategic planning efforts throughout the United States.
- Interviews with senior management and key employees.
- Review of past District Capital Improvement Programs and identification of trends.
- Review and analysis of past District strategic plans and carryover of pertinent information and work-in-progress.
- A series of workshops with the Senior Staff leadership team.

Through a series of facilitated work sessions, the Strategic Planning Committee revisited and refined the District's mission, crafted a new vision statement, reaffirmed the organization's core values, and developed the following six strategic goals to guide the organization over the next five years: (1) We will strive to understand, inform, and meet our customer's water quality expectations; (2) We will expand services and service area based upon economic drivers and opportunities to enhance water quality and watershed protection; (3) We will sustain our strong financial position, balancing our commitments to water quality and customer expectations; (4) We will cost effectively execute and manage our Capital Improvement Program; (5) We will align, build upon, and sustain our key assets, resources, people, and technology to meet our vision; (6) We will become an organization whose culture is progressive and embraces environmental sustainability.

The Strategic Plan provides a navigational guide for the District over the next five years. The continually changing environment in which the District operates will require annual review in order for the plan to remain most timely and useful. The inclusive strategic planning process which led to this plan broadened and deepened the understanding and appreciation of the challenges and opportunities that lie ahead for the District. With the implementation of the strategies in this plan there is every reason to believe that the District will understand and meet consumer needs, enhance water quality, provide for cost effective and efficient capital improvements, and continue to build on its already strong reputation as a preeminent leader among water agencies.

## **CERTIFICATE OF ACHIEVEMENT**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Northeast Ohio Regional Sewer District for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2011. This was the 17th consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

**ACKNOWLEDGMENTS**

The preparation of this comprehensive annual financial report would not have been possible without the efficient and dedicated services of the entire staff of the Finance department and the Communications and Community Relations department. We would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report. Credit must also be given to the Board of Trustees for their unfailing support for maintaining the highest standards of professionalism in the management of the District’s finances.

Respectfully submitted,

---

## Independent Auditor's Report

Board of Trustees  
Northeast Ohio Regional Sewer District

### Report on the Financial Statements

We have audited the accompanying financial statements of the Northeast Ohio Regional Sewer District (the "District"), as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District, as of December 31, 2012, and the changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***December 31, 2011 Basic Financial Statements***

The basic financial statements of the District as of and for the year ended December 31, 2011 were audited by predecessor auditors whose report dated June 22, 2012, expressed an unqualified opinion.

***Other Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The introductory section, budgetary comparison information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain other additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Board of Trustees  
Northeast Ohio Regional Sewer District

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2013, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## **Management's Discussion and Analysis**

The following discussion provides a summary overview of the financial activities of the Northeast Ohio Regional Sewer District (the "District") for the year ended December 31, 2012. This information should be read in conjunction with the letter of transmittal and basic financial statements included in this report.

### **Financial Highlights**

- Assets exceeded liabilities by \$1,304,149,604.
- Net position increased by \$7,020,717.
- Net Investment in capital assets increased by \$9,980,042.
- Unrestricted net position decreased by \$2,959,325.
- Retirements of debt principal were \$42,219,347.
- Operating revenue increased by \$14,519,009.
- Operating expenses increased by \$7,708,083.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position, the Statements of Cash Flows and the accompanying notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements. These statements report information about the District as a whole and about its activities. The District is a single enterprise fund using proprietary fund accounting, which means these statements are presented in a manner similar to a private-sector business. The statements are presented using the economic resources measurement focus and the accrual basis of accounting.

The Statements of Net Position present the District's financial position and report the resources owned by the District (assets), obligations owed by the District (liabilities) and District net position (the difference between assets and liabilities). The Statements of Revenues, Expenses and Changes in Net Position present a summary of how the District's net position changed during the year. Revenue is reported when earned and expenses are reported when incurred. The Statements of Cash Flows provide information about the District's cash receipts and disbursements during the year. They summarize net changes in cash resulting from operating, investing and financing activities. The notes to the financial statements provide additional information that is essential for a full understanding of the financial statements.

### **Financial Analysis of the District's Financial Position and Results of Operations**

The following tables provide a summary of the District's financial position and operations for 2012, 2011 and 2010, respectively. Certain amounts may vary slightly due to differences caused by rounding to thousands.

Other Long-Term Liabilities	1,050	3,775	(2,725)	(72.2%)
<b>Total Liabilities</b>	<b>1,012,276</b>	<b>1,026,137</b>	<b>(13,861)</b>	<b>(1.4%)</b>
<u>Net Position</u>				
Net Investment in Capital Assets	1,068,498	1,058,517	9,981	0.9%
Unrestricted	235,652	238,611	(2,959)	(1.2%)
<b>Total Net Position</b>	<b>\$ 1,304,150</b>	<b>\$ 1,297,128</b>	<b>\$ 7,022</b>	<b>0.5%</b>

Net position may serve as a useful indicator of financial position. The District's assets exceeded liabilities by \$1,304,149,604 as of December 31, 2012, of which \$1,068,497,379 is for net investment in capital assets.

The largest portion of the District's net position is reflected in its capital assets, less accumulated depreciation and related debt outstanding used to fund these asset acquisitions.

During 2012, net position increased by \$7,020,717. The majority of this increase was due to the following:

- Sewage service fees receivable from customers decreased by \$7,196,622.
- Receivables from Federal and State agencies increased by \$2,753,426.
- Construction funds in the capital project account decreased by \$158,225,674.
- Capital assets increased by \$161,374,374 due mainly to construction in progress and additions to the wastewater treatment and conveyance systems.
- Total debt decreased by a net amount of \$15,865,701. Additions of \$26,353,646 were for WPCLF. The reductions of \$42,219,347 were for repayment of debt principal on General Obligation Bonds and WPCLF.

Operating revenue consists mainly of user charges for sewage service fees based on water consumption. Operating expenses reflect the cost of providing these services. For the year ended December 31, 2012:

- Operating revenue increased by \$14,519,009 (8.4%) compared to 2011. The increase was due to higher billing rates in 2012, coupled with a decrease in consumption and an increase in delinquencies.
- Non-operating revenue decreased by \$1,454,049 (12.2%). The decrease in fair value of investments for 2012 was \$738,260 (490%) more than experienced in 2011. The fair value is expected to increase toward face value in the future since these investments in obligations of the U.S. Treasury and its agencies are held to maturity. Non-operating revenue consists of interest income, grant revenue, Federal subsidy revenue, proceeds on insurance claims and the change in fair value of investments. Interest incomes decreased by \$997,127 (26.1%) due to a decrease in funds available for investment. Non-operating grant revenue increased by \$82,108 (12.1%) due to the increase of funds received for Water Resource Sponsorship Programs. Federal subsidy revenue increased by \$28,923 (0.4%). Proceeds on insurance claims increased by \$170,307 (27.3%) due to claims from the Southerly flood being realized in 2012.
- Operating expenses increased \$7,708,083 (5.6%) compared to 2011. Main components of operating expenses are as follows:
  - Salary and wages increased \$2,064,593 (5.3%).
  - Fringe benefits increased \$718,007 (5.5%).
  - Professional and Contractual Services increased \$3,060,829 (16.3%) due to an increase in non-capitalized costs from the Stormwater project and general engineering services.
  - Utilities decreased \$1,531,746 (9.9%) due to a decrease in power and gas costs from negotiated contracts. Decreases in Other Expenses include \$361,969 (14.8%) for Repairs and Maintenance and \$448,283 (36.5%) for Insurance to manage our risk of loss. The decreases were offset by increases in Other Expenses of; \$653,166 (4053.4%) for Judgments and Awards due to a refund with a customer; \$977,955 (115.4%) for Solids Handling waste removal; \$491,556 (10.8%) for Materials and Supplies; and \$312,400 (23.5%) for Chemicals used in the treatment processes at the Wastewater Treatment Plants.
- Non-operating expenses increased \$182,709 (0.4%). Interest expense increased by \$1,687,290 (3.9%). Losses on equipment disposals decreased \$398,200 (39.0%) due to a decrease in disposals of obsolete equipment in 2012. Non-operating grant expense increased \$82,108 (12.1%). Non-operating expenses were offset by the decrease of \$1,188,489 (100%) for loss on extraordinary events that occurred during in 2011. No extraordinary events occurred during 2012.

The following table on the next page summarizes the changes in revenues and expenses for the District between 2011 and 2010.

Operating revenue consists mainly of user charges for sewage service fees based on water consumption. Operating expenses reflect the cost of providing these services. For the year ended December 31, 2011:

- Operating revenue increased by \$5,871,621 (3.5%) compared to 2010. The increase was due to higher billing rates in 2011, coupled with a decrease in consumption and an increase in delinquencies.
- Non-operating revenue increased by \$6,022,242 (102.7%). This increase was mainly due to \$6,912,478 in federal subsidy revenue funds for 2011. The decrease in fair value of investments for 2011 was \$131,631 (691.6%) more than experienced in 2010. The fair value is expected to increase toward face value in the future since these investments in obligations of the U.S. Treasury and its agencies are held to maturity. Non-operating revenue consists of interest income, grant revenue and the change in fair value of investments. Interest incomes increased by \$532,552 (16.2%) due to an increase in funds available for investment. Non-operating grant revenue decreased by \$1,055,061 (60.9%) due to the receipt of fewer funds for Water Resource Sponsorship Programs.
- Operating expenses decreased \$5,753,456 (4.0%) compared to 2010. Main components of operating expenses are as follows:
  - Salary and wages increased \$1,129,235 (3.0%).
  - Fringe benefits increased \$191,119 (1.5%).
  - Professional and Contractual Services decreased \$4,267,884 (18.5%) due to more Project Management costs being capitalized.
  - Utilities decreased \$530,642 (3.3%) due to a new utility contract. Decreases in Other Expenses include \$1,036,269 (98.5%) for Judgments and Awards; \$1,343,152 (61.3%) for Solids Handling waste removal; and \$460,973 (15.9%) for Repairs and Maintenance. The decreases were offset by increases in Other Expenses of \$65,914 (5.7%) for Insurance to manage our risk of loss; and \$35,177 (2.7%) for Chemicals used in the treatment processes at the Wastewater Treatment Plants.
- Non-operating expenses increased \$17,734,548 (62.5%). Interest expense increased by \$16,626,073 (62.5%) due to the addition of the 2010 Build America Bond debt. Losses on equipment disposals increased \$975,048 (2,135.6%) due to disposals of obsolete equipment in 2011. Non-operating grant expense decreased \$1,055,061 (60.9%). A loss on extraordinary event of \$1,188,489 (100%) occurred due to transfer of ownership of an asset.

**NORTHEAST OHIO REGIONAL SEWER DISTRICT**  
**Management's Discussion and Analysis**

**Capital Assets**

At the end of 2012, the District had \$1,924,494,071 invested in capital assets. This amount represents a net increase of approximately \$161 million, or 9.2% over 2011. Refer to Notes 2 and 5 to the audited financial statements for more detailed information on capital assets.

## Management's Discussion and Analysis

### Debt Administration

At December 31, 2012, the District had total debt outstanding net of premiums and refunding loss, of \$954,855,958 compared to \$970,721,659 at December 31, 2011. This represents an decrease of \$15,865,701 for total debt. Loans from the Ohio Water Development Authority Water Pollution Control Loan Fund decreased \$7,800,701; total debt retirements were \$42,219,347. The carrying value of the long-term portion of debt at December 31, 2012 was \$913,203,980 and the fair value of the long-term debt was \$1,087,062,966.

At December 31, 2011, the District had total debt outstanding net of premiums and refunding loss, of \$970,721,659 compared to \$935,591,845 at December 31, 2010. This represents an increase of \$35,129,815 for total debt. Loans from the Ohio Water Development Authority Water Pollution Control Loan Fund increased \$42,914,814; total debt retirements were \$36,595,809. The carrying value of the long-term portion of debt at December 31, 2011 was \$930,651,925 and the fair value of the long-term debt was \$1,044,439,747.

This information should be read in conjunction with Note 6 to the audited financial statements for more detailed information on long-term debt.

### Outstanding Debt at December 31, (In Thousands)

	2012	2011	2010
Revenue Bonds	\$ 484,385	\$ 492,450	\$ 500,235
Water Pollution Loans Payable	470,471	478,272	435,357
Total Debt	\$ 954,856	\$ 970,722	\$ 935,592

### Economic Factors

In June, 2011 the District's Board of Trustees approved a schedule of rate increases for the five years 2012 through 2016. Increasingly stringent federal regulations and remaining legal obligations are key factors that led to these rate increases. A rate study of a projected five-year period concluded that the need to finance \$1 billion in federally mandated capital projects between 2012 and 2016, combined with the repayment of existing debt service for past projects and an anticipated decrease in billed consumption, necessitated the rate increases. Effective January 1, 2011, rates charged to District customers increased 9.8% to \$44.75 per mcf for City of Cleveland customers, and 8.5% to \$48.00 per mcf for the suburban customers. Effective January 1, 2012, rates charged to District customers increased 10.8% to \$49.55 per mcf for City of Cleveland customers, and 9.5% to \$52.55 per mcf for the suburban customers. Also effective January 1, 2012, a new fixed fee of \$5.85 per quarter for all customers was implemented to replace the discontinued minimum 1 mcf per quarter charge.

### Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances for all interested parties. Questions and requests for additional information regarding this report should be addressed to the Director of Finance, Northeast Ohio Regional Sewer District, 3900 Euclid Avenue, Cleveland, Ohio 44115, by telephone at (216) 881-6600, or at [www.neorsd.org](http://www.neorsd.org).

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 1: Reporting Entity

The Northeast Ohio Regional Sewer District (the “District”), a political subdivision of the State of Ohio, was created by Order of the Cuyahoga County Court of Common Pleas and commenced operations on July 18, 1972, under statutory provisions of the Ohio Revised Code. The District provides wastewater treatment and interceptor sewer facilities for the region comprised of the City of Cleveland and 61 suburban communities.

The District is governed by its Board of Trustees (the “Board”). The Board consists of seven members, each of whom serves a five-year term and who are appointed as follows: (i) two by the Mayor of the City of Cleveland (subdistrict one); (ii) two by a council of governments (the “Suburban Council”) comprised of representatives of all the suburban communities served by the System (subdistrict two); (iii) one by the Cuyahoga County Council; (iv) one by the appointing authority of the subdistrict with the greatest sewage flow (currently the Mayor of the City of Cleveland); and (v) one by the appointing authority of the subdistrict with greatest population (currently the Suburban Council). Accordingly, the Mayor of the City of Cleveland and the Suburban Council each currently appoint three members of the Board.

In accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units* (an amendment of GASB Statement No. 14), the accompanying financial statements include only the accounts and transactions of the District. Under the criteria specified in these GASB Statements, the District has no component units nor is it considered a component unit of the State of Ohio. The District is considered, however, a political subdivision to the State of Ohio. These conclusions regarding the financial reporting entity are based on the concept of financial accountability. The District is not financially accountable for any other organizations. This is evidenced by the fact that the District is a legally and fiscally separate and distinct organization. The annual budget is submitted to Cuyahoga County for informational purposes only and does not require its approval. The District is solely responsible for its finances. The District is empowered to issue revenue bonds payable solely from sewer charge revenues.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if it appoints a voting majority of the organization’s governing board and (1) is able to significantly influence the programs or services performed or provided by the organization; or (2) is legally entitled to or can otherwise access the organization’s resources; is legally obligated or has otherwise assumed the responsibility to finance deficits of or provide financial support to the organization; or is obligated for the debt of the organization. Based upon the application of these criteria, the District has no component units.

### Note 2: Summary of Significant Accounting Policies

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, as prescribed by the GASB. The statements were prepared using the economic resources measurement focus and the accrual basis of accounting. All transactions are accounted for in a single proprietary (enterprise) fund.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 2: Summary of Significant Accounting Policies (continued)

On September 30, 2009, the District adopted authoritative guidance issued by the Financial Accounting Standards Board (FASB) which established the FASB Accounting Standards Codifications (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America. The District has modified its disclosures in this report to comply with the requirements. Accordingly, references to authoritative accounting principles after the effective date will reference the codification and not the previous accounting guidance. The adoption of the guidance did not have a material effect on the District's financial position, changes in net position, or cash flows.

GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies FASB ASC Topics issued or amended after November 30, 1989, provided they do not conflict with or contradict GASB pronouncements. The more significant of the District's accounting policies are described below.

#### **A. Basis of Presentation**

The District's basic financial statements consist of a statement of net position; a statement of revenues, expenses and changes in net position; and a statement of cash flows.

The District uses a single enterprise fund to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

Enterprise fund reporting focuses on the determination of the change in net position, financial position and cash flows. An enterprise fund may be used to account for any activity for which a fee is charged to external users for goods and services.

#### **B. Measurement Focus**

The enterprise fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the statement of net position. The statement of revenues, expenses, and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its enterprise activity.

#### **C. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The District's financial statements are prepared using the accrual basis of accounting.

Revenue is recorded on the accrual basis when the exchange takes place. Contribution revenue is primarily recognized on a cost-reimbursement basis or in accordance with the terms of grant agreements. Expenses are recognized at the time they are incurred.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 2: Summary of Significant Accounting Policies (continued)

#### **D. Cash Equivalents and Investments**

The District's policy is to treat all of its short-term, highly liquid investments as investments, and not as cash equivalents.

Except for non-participating investment contracts, investments are reported at fair value which is based on quoted market prices. Non-participating investment contracts such as non-negotiable certificates of deposit are reported at cost plus accrued interest.

The District invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during 2012 and 2011. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the Securities and Exchange Commission as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on the respective statement of net position date.

#### **E. Short-term Investments**

Short-term investments consist of non-negotiable certificates of deposit, obligations of Federal agencies, and STAR Ohio.

#### **F. Fair Value of Financial Instruments**

The District discloses estimated fair values for its financial instruments in accordance with the FASB ASC topic "Financial Instruments." Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates. Fair value estimates, methods, and assumptions are set forth below:

##### **Cash**

The carrying value approximates fair value due to the short maturity of this financial instrument.

##### **Investments**

The carrying value of the District's investments in U.S. Treasury Securities, obligations of Federal Agencies, and STAR Ohio is fair value in accordance with the application of GASB Statement No. 31. The carrying value of the District's certificates of deposits approximates fair value due to the relative short maturities of these financial instruments.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

**Note 2: Summary of Significant Accounting Policies (continued)**

### **F. Fair Value of Financial Instruments (continued)**

#### **Long-Term Debt**

The fair value of the District's long-term debt is estimated based on the borrowing rates currently available to the District for loans with comparable maturities. The carrying value and estimated fair value of the District's long-term debt, net of the current portion, at December 31, 2012 were \$913,203,980 and \$1,087,062,966, respectively. The carrying value and estimated fair value of the District's long-term debt, net of the current portion, at December 31, 2011 were \$930,651,925 and \$1,044,439,747, respectively.

### **G. Construction and Restricted Accounts**

In conjunction with the issuance of its revenue bonds, the District maintains funds in the following special accounts:

#### **Construction Funds**

At December 31, 2012 and 2011, these funds consisted of cash, non-negotiable certificates of deposit, U.S. Treasury Securities, obligations of Federal agencies, and STAR Ohio. They are used to finance construction expenditures approved by the Board of Trustees. Under certain circumstances, the funds may be used for repayment of principal and interest costs on the Series 2005 Wastewater Improvement Revenue Refunding Bonds, 2007 Series Wastewater Improvement Revenue Bonds, and the 2010 Series Wastewater Improvement Revenue Bonds.

#### **Revenue Bond Debt Service Deposit**

These are advance deposits made to the District's bond trustee for principal and interest payments on revenue bonds. Investments at December 31, 2012 and 2011 consisted of direct obligations of the United States Government, plus accrued interest.

### **H. Sewage Service Fees Receivable**

Sewage service fees receivable are shown net of an allowance for uncollectibles. The allowance is based on aged accounts receivable, historical collection rates, economical trends, and current year operating revenues. The allowance amounts are \$22,000,000 at December 31, 2012 and \$31,000,000 at December 31, 2011.

### **I. Inventory**

Inventory consists of supplies not yet placed into service and is charged to operations when consumed. Inventory is valued at the lower of cost (weighted average) or market.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 2: Summary of Significant Accounting Policies (continued)

#### **J. Capital Assets**

Capital assets which include property, plant, equipment, and infrastructure assets (e.g. sewer lines and similar items) are reported on the statement of net position. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Northeast Ohio Regional Sewer District maintains a capitalization threshold of \$5,000. Major renewals and betterments are capitalized; the costs of normal improvements and repairs that do not add to the value of the assets or materially extend an asset's life are expensed as incurred. All reported capital assets except for land and construction in progress are depreciated. Major renewals and betterments are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Interceptor Sewer Lines	Primarily 75 years
Buildings, Structures & Improvements & Equipment	Primarily 40 years
Sewage Treatment & Other Equipment	5 to 20 years
Right to Use-Intangible	Primarily 30 years

#### **K. Unamortized Financing Costs**

The unamortized financing costs include insurance, consulting, and attorney fees incurred in connection with the revenue bond obligations. These amounts are being amortized on the effective interest method over the lives of the revenue bonds. Bond premiums, discounts and deferred loss are being amortized on the interest method over the lives of the revenue bonds. Amortization amounted to \$18,933 for 2012 and \$19,734 for 2011.

#### **L. Net Position**

In the District financial statements, net position is categorized into three categories. The first is net investment in capital assets net of related debt, reduced by accumulated depreciation and any outstanding debt incurred to acquire, construct or improve those assets excluding unexpended bond proceeds, restricted or unrestricted. This category represents net investment in property, plant, equipment and infrastructure. The second category is restricted, which represents assets restricted by requirements of revenue bonds, other externally imposed constraints, or by legislation, in excess of the related liabilities payable from restricted assets. The third category; unrestricted portion of net position, consists of all assets that do not meet the definition of either of the other two categories of net position. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The District did not have any restrictions at December 31, 2012 or 2011.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 2: Summary of Significant Accounting Policies (continued)

#### L. Net Position (continued)

The District's Board of Trustees adopted a reserve policy in July 2009 that annually designates amounts of the District's unrestricted net position as Board-designated for specific purposes. Such amounts are not restricted, and may be designated for other purposes or eliminated at the discretion of the Board of Trustees. A summary of reserve amounts have been designated by the Board of Trustees at December 31, 2012 and 2011 follows:

	<u>2012</u>	<u>2011</u>
General Operating Reserve	\$ 23,486,937	\$ 23,943,415
Debt Service Reserve	23,771,144	23,035,365
Equipment Repair and Replacement Reserve	55,518,234	55,201,391
Insurance Reserve	22,537,391	21,804,993
Rate Stabilization Account	6,000,000	6,000,000

During 2012, the General Operating Reserve had a net decrease of \$456,478 due to an increase in transfers to the Capital Project Account. The Debt Service Reserve increased by \$735,779 due to interest income. The Equipment Repair and Replacement Reserve increased \$316,843 due to interest income. The Insurance Reserve had a net increase of \$732,398 due to the flood at the Southerly Wastewater Treatment Plant (WWTP) and interest income.

During 2011, the District transferred \$3 million from the General Operating Reserve to the Rate Stabilization Account. The Debt Service Reserve decreased \$8,903,329 due to capitalized interest payments. The Equipment Repair and Replacement Reserve increased \$265,489 due to interest income. The Insurance Reserve had a net decrease of \$42,330 due to the flood at the Southerly WWTP.

#### M. Revenues and Expenses

Operating revenues and expenses result from providing wastewater conveyance and treatment services. Operating revenues consist of user charges for sewage services based on water consumption. Operating revenues are shown net of bad debt expense of \$7,755,544 in 2012 and \$4,979,165 in 2011. Operating expenses include the cost of these sewer services, including administrative expenses and depreciation on capital assets.

Non-operating revenues and expenses are all revenues and expenses not meeting the definition of operating revenues and expenses. Non-operating revenues and expenses include revenues and expenses from investing activities, capital and related financing activities, and non-capital financing activities.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 2: Summary of Significant Accounting Policies (continued)

#### **M. Revenues and Expenses (continued)**

Sewage service fees are billed to users of the system on a cycle basis based primarily upon water usage. Estimates for services provided between the ends of various cycles and the end of the year are recorded as unbilled revenue. Included in sewage service fees receivable at December 31, 2012 and 2011 are unbilled sewage service fees of \$23,904,595 and \$23,856,579, respectively.

In June 2011, the Board of Trustees approved rate increases scheduled for the years 2012 through 2016. Effective January 1, 2012 the minimum charge will be eliminated and a base charge will be added to all quarterly bills. Rates charged to customers will increase approximately 13% for customers in the City of Cleveland, and 12% for the suburban customers. In addition to the current rate reduction Homestead Program, the District has added two new affordability programs - the Crisis Voucher Program and a Wastewater Affordability Program for those households with income level at or below 200% poverty level.

#### **N. Interest Expense**

It is the District's intention that all expenses, including interest incurred in connection with financing the constructions of new facilities, be recovered on a current basis. The annual budget process is governed by a number of factors, including a covenant in the 2005 Wastewater Improvement Revenue Refunding Bond Resolution, 2007 Wastewater Improvement Revenue Bond Resolution and the 2010 Wastewater Improvement Revenue Bond Resolution which requires that the current year "net revenues" be at least 115% of its debt service requirements. As the District does not intend that interest costs be recovered from subsequent years' revenue, it has excluded interest as an allowable cost for future rate-making purposes. Therefore, in accordance with FASB ASC topic "Regulated Operations", all interest is expensed but is included as non-operating on the statement of revenues, expenses, and changes in net position as incurred.

#### **O. Use of Estimates**

The preparation of financial statements in conformity with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **P. Comparative Data/Reclassifications**

Comparative data for the prior years are presented in order to provide an understanding of the changes in financial position and operations.

#### **Q. Subsequent Events**

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through June 27, 2013, the date the financial statements were available to be issued.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 3: Deposits and Investments

#### Deposits

Ohio law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. The District's practice is to place deposits with commercial banks and savings and loan associations within its service area. At December 31, 2012, the carrying amount of the District's deposits, including certificates of deposit of \$2,717,098, was \$64,248,243 and the bank balance was \$64,251,131. Of the bank balance, \$10,663,686 was covered by Federal depository insurance and \$61,155,570 was covered by collateral securities held in Federal Reserve pledge accounts in the District's name. At December 31, 2011, the carrying amount of the District's deposits, including certificates of deposit of \$3,207,875, was \$157,507,915 and the bank balance was \$159,891,777. Of the bank balance, \$500,000 was covered by Federal depository insurance and \$159,391,777 was covered by collateral securities held in Federal Reserve pledge accounts in the District's name. In the event of default by the pledging financial institution, the District may make written demand upon the Federal Reserve Bank of Boston, Massachusetts for surrender of the collateral.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

**December 31, 2012 and 2011**

**Note 3: Deposits and Investments (continued)**

**Investments**

The District's investment policies are currently governed by its Series 2010 and 2007 Wastewater Improvement Revenue Bond Resolution (the "Resolution") as permitted by state statute. The Resolution allows the District to purchase certain instruments, including obligations of the U.S. Treasury, its agencies and instrumentalities, interest-bearing demand or time deposits, repurchase agreements and, in certain situations, pre-refunded municipal obligations, general obligations of any state and other fixed income securities. Repurchase transactions are not to exceed one year and must be collateralized by obligations of the U.S. Government or its agencies which are held by a third party custodian.

The investments included in the Revenue Bond Debt Service Deposit are governed by the provisions of a trust agreement which provides for interest and principal payments on the 2005, 2007 and 2010 Series Bonds.

At December 31, 2012 the District's investment balances and maturities were as follows:

Investment Type	Fair Value	% of Total	Maturities (in years)	
			Less than 1	1 through 5
Federal National Mortgage Assoc.	\$ 70,219,372	32%	\$ 30,235,964	\$ 39,983,408

	<u>\$ 288,671,041</u>		<u>\$ 190,053,064</u>	<u>\$ 98,617,977</u>

**Interest Rate Risk:** Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. It is the District's policy to hold instruments to maturity, limiting any investment to a maximum of five years. The targeted weighted average days to maturity for the overall District portfolio is not more than two years. In addition, Ohio law prescribes that all District investments mature within five years of purchase, unless the investment is matched to a specific obligation or debt of the District.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 3: Deposits and Investments (continued)

**Credit Risk:** Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy authorizes investments in obligations of the U.S. Treasury, U.S. agencies and instrumentalities, interest-bearing demand or time deposits, State Treasury Asset Reserve of Ohio ("STAR Ohio"), money market mutual funds, repurchase agreements, and in certain situations, pre-funded municipal obligations, general obligations of any state and other fixed income securities. Repurchase transactions are not to exceed one year and must be collateralized by obligations of the U.S. Government or its agencies which are held by a third party custodian. STAR Ohio is an investment pool created pursuant to Ohio statutes and is managed by the Treasurer of the State of Ohio. As of December 31, 2012, the District's investment in U.S. instrumentalities (Federal Farm Credit Bank, Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Home Loan Bank) were all rated AA+ by Standard & Poor's and Aaa by Moody's Investors Service. Investments backed by the Federal Deposit Insurance Corporation were rated AA+ by Standard & Poor's and Aaa by Moody's Investors Service. Investments in General Electric were rated AA+ by Standard & Poor's and Aa2 by Moody's. Investments in Proctor & Gamble Bonds were rates AA- by Standard & Poor's and Aa3 by Moody's. Investments in U.S. Treasury Notes were rated AAA by Standard & Poor's and Aaa by Moody's Investors Service. The Investments in STAR Ohio and Bank of New York were rated AAAM by Standard & Poor's and Aaa by Moody's Investors Service.

**Custodial Credit Risk:** Custodial credit risk is the risk that, in the event of the failure of a counterparty to a transaction, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the requirements of State Law, it is the policy of the District to require full collateralization of all investments other than obligations of U.S. Government, its agencies and instrumentalities. The District's investment in U.S. agencies with fair values totaling \$197,794,355 has maturities of \$116,255,806 in less than one year and \$81,538,549 within five years. U.S. agencies are held in the account of PNC National Bank ("Trustee"), at the Federal Reserve Bank of Cleveland. The District's securities associated with the principal and interest payment of bond proceeds in the amount of \$23,771,144 are held in the account of Bank of New York under the Master Trust Agreement. Assets held by the Trustee as a custodial agent are considered legally separate from the other assets of Trustee.

**Concentration of Credit Risk:** Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. The District's investment policy provides that investments be diversified to reduce the risk of loss from over concentration in a single issuer, but does not identify specific limits on the amounts that may be so invested. More than ten percent of the District's investments are in Federal Home Loan Bank, Federal National Mortgage Association, and Federal Home Loan Mortgage Corporation.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 4: Transactions with the City of Cleveland

As required by the court order establishing the District, the District and the City of Cleveland (the "City") entered into agreements which provide for the City, as the District's agent, to invoice, collect, and account for sewer charges to most District users. The remainder of the District's users are invoiced directly by the District or by other billing agents.

A summary of the billing and collection transactions between the City and the District for 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
Amounts due from District customers at beginning of year for invoices rendered by the City	\$ 92,943,429	\$ 90,110,577
Amounts billed to District customers by the City during the year	170,935,986	147,845,456
Cash collected from District customers by the City and remitted to the District during the year	(164,701,737)	(145,143,546)
Write off of inactive accounts	(16,733,446)	(1,813,537)
Cash collected directly by the District on invoices rendered by the City and other adjustments	<u>(2,793,190)</u>	<u>1,944,479</u>
Balance due from customers at end of year, included in sewage service fees receivable before allowance for doubtful accounts	<u>\$ 79,651,042</u>	<u>\$ 92,943,429</u>

Sewage service fees billed by the City are considered delinquent 15 days after the date of the bill. The fees are considered in arrears when they remain unpaid beyond 90 days from the date billed. The District may certify to the County Auditor any delinquent accounts billed by the City. Such certification will result in the delinquent amounts being placed on the real property tax duplicate for collection as taxes. Failure to pay the property tax and District fees will result in a lien on such property.

Fees paid to the City for billing and collection services in 2012 and 2011 were \$6,295,723 and \$5,553,336 respectively.

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 5: Capital Assets and Depreciation (continued)

(\*) During 2012, the District acquired an intangible asset due to an agreement with the City of Cleveland Department of Public Utilities Division of Cleveland Public Power (the "City"). Per this agreement, the District has the right to use the power provided from the Nine Mile Creek substation, which was constructed by the District, but is owned by the City. The construction of the substation was completed in 2012. The entire asset value was capitalized as of December 31, 2012. Below is a schedule of the amounts to be expensed in future years:

Year Ending December 31,	Amortization of Intangible Asset
2013	\$ 183,003
2014	183,003
2015	183,003

Total Long-Term Debt		\$ 913,203,980	\$ 930,651,925

Wastewater Improvement Revenue Refunding Bonds, Series 2005

The District issued \$68,280,000 of Wastewater Improvement Revenue Refunding Bonds, Series 2005 (the “2005 Series Bonds”), in connection with the advance refunding of its Wastewater Improvement Revenue Bonds, Series 1995 (the “1995 Series Bonds”). The 2005 Series Bonds are payable from the revenues of the District, after payment of operating and maintenance costs. The bonds are secured by a pledge of and lien on such net revenues. The bonds are additionally secured by a pledge of and lien on monies and investments comprising the Revenue Bond Debt Service Deposit.

The bond indenture requires, among other provisions, that the District establish certain debt service accounts, maintain the system in good operating condition, and charge rates such that the necessary debt service payments can be made after operating and maintenance charges have been paid.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

**Note 6: Long-Term Obligations (continued)**

Wastewater Improvement Revenue Bonds, Series 2007

On May 22, 2007, the District issued \$126,055,000 of Wastewater Improvement Revenue Bonds, Series 2007. The Wastewater Improvement Revenue Bonds, Series 2007 Bonds (the "Series 2007 Bonds") were issued for the purpose of (i) providing funds for the acquisition, construction and improvement of Water Resource Projects, (ii) funding the Debt Service Reserve Requirement for the Series 2007 Bonds, and (iii) paying certain costs of issuance of the Series 2007 Bonds. These bonds are payable from the revenues of the District, after the payment of operating and maintenance costs. The bonds are secured by a pledge of and lien on such net revenues. The bonds are additionally secured by a pledge of and lien on the monies and investments in the Revenue Bond Debt Service Deposit.

The bond indenture requires, among other provisions, that the District establish certain debt service funds, maintain the system in good operating condition, and charge rates such that the necessary debt service payments can be made after operation and maintenance charges have been paid.

Wastewater Improvement Revenue Bonds, Series 2010 "Build America Bonds"

On November 17, 2010, the District issued \$336,930,000 of Wastewater Improvement Revenue Bonds, Series 2010 (the "Series 2010 Bonds") as Federally Taxable - "Build America Bonds" for purposes consistent with the American Recovery and Reinvestment Act of 2009 (the "Recovery Act") and to receive a cash subsidy from the United States Treasury in connection therewith (the "Direct Payment"). Pursuant to the Recovery Act, the District is entitled to receive Direct Payments rebating a portion of the interest on the Build America Bonds from the United States Treasury equal to 35% of the interest payable on the Series 2010 Bonds. The Series 2010 Bonds are being issued for the purpose of (i) providing funds for the acquisition, construction and improvement of waste water facilities or water management facilities, constituting Water Resource Projects, including without limitation, the financing of 24 months of capitalized interest and (ii) paying the costs of issuance of the Series 2010 Bonds. These bonds are payable from the revenues of the District, after the payment of operating and maintenance costs. The bonds are secured by a pledge of and lien on such net revenues. The bonds are additionally secured by a pledge of and lien on the monies and investments in the Revenue Bond Debt Service Deposit.

The bond indenture requires, among other provisions, that the District establish certain debt service funds, maintain the system in good operating condition, and charge rates such that the necessary debt service payments can be made after operation and maintenance charges have been paid.

### Note 6: Long-Term Obligations (continued)

#### Build America Bonds Subsidy

Under the Build America Bonds agreement, the District is to receive 35% of the Bond interest as the Build America Bonds Subsidy. The amount received in 2012 was \$6,941,400. Below is a schedule of the amounts to be received in future years:

<u>Year Ending December 31,</u>	<u>Subsidy Amount</u>
2013	\$ 6,941,400
2014	6,941,400
2015	6,941,401
2016	6,941,401
2017	6,941,401
2018 - 2022	34,707,004
2023 - 2027	34,677,693
2028 - 2032	31,164,391
2033 - 2037	21,458,871
2038 - 2040	4,963,296
	<u>\$ 161,678,258</u>

#### Water Pollution Control Loans

Title VI of the Clean Water Act, as amended, authorizes the Administrator of the U.S. Environmental Protection Agency to make Federal capitalization grants to states for deposit in state water pollution control revolving funds (SRFs). From these funds, states can provide loans and other types of financial assistance, but not grants, to governmental entities for the construction of publicly owned wastewater treatment facilities. In Ohio, this SRF program is known as the Water Pollution Control Loan Fund and is jointly administered by the Ohio EPA and the Ohio Water Development Authority. These loans are subordinate to the 2005, 2007 and 2010 Series Bonds and are payable from the revenues of the District, after payment of operating and maintenance costs and are secured by a pledge of and lien on such net revenues. Principal balances on loans increase as project costs are incurred. Interest accrues on principal amounts outstanding during the construction period and is combined with the principal balance upon completion of the project.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

**December 31, 2012 and 2011**

**Note 6: Long-Term Obligations (continued)**

Water Pollution Control Loans (continued)

The repayment period for each loan commences no later than the first January or July following the expected completion dates of the project to which it relates utilizing an estimate of total eligible project costs as the preliminary loan amount. The District is required to submit final eligible project costs within one year of the project completion date at which time the final loan amount is determined and semi-annual payment amounts are adjusted to reflect such costs. The District had a SRF loan award related to a project which was not complete as of December 31, 2012. Loans related to completed construction projects are being repaid in semi-annual payments of principal and interest over a period of up to twenty three years. SRF loans outstanding by completion or expected completion year of the related projects as of December 31, 2012 follow:

Completion or Expected Completion Year of Projects	Number of Projects	Current Amount Including Accrued Construction Period Interest	Additional Available Borrowings Including Construction Period Interest
1993 – 2010	54	\$ 308,569,112	\$ 5,861,356
2011	5	72,649,900	7,828,478
2012-2015	1	89,251,946	69,500,469
		\$ 470,470,958	\$ 83,190,303

Defeasance Transactions

In July 1991, the Board of Trustees of the District approved a plan of defeasance for the Series 1984 Bonds and the 1984 trust agreement. Under the defeasance plan, the District irrevocably transferred to and deposited with the trustee for the Series 1984 Bonds \$20,602,500 in internally generated funds, which together with amounts held by the trustee in the debt service fund, debt service reserve fund and invested sinking fund under the 1984 trust agreement, were applied to the purchase of eligible securities that are sufficient, under the terms of the 1984 trust agreement, to pay the principal of, and interest, and any redemption premium on, the Series 1984 Bonds. The Series 1984 Bonds are deemed paid and discharged and no longer outstanding under the 1984 trust agreement, and the 1984 trust agreement is defeased. The foregoing defeasance of the Series 1984 Bonds was consummated on July 22, 1991.

In August 1991, the District issued its Wastewater Improvement Revenue Bonds, Series 1991, in the aggregate principal amount of \$122,315,000 to finance all or a portion of the costs of various components of the District's on-going capital improvements program, to fund the Debt Service Reserve Requirement and to pay the costs of issuance of the Series 1991 Bonds.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

**Note 6: Long-Term Obligations (continued)**

Defeasance Transactions (continued)

In September 1995, the District issued its Wastewater Improvement Revenue Refunding Bonds, Series 1995 (the "1995 Series Bonds"), in the aggregate principal amount of \$97,830,000 for the purpose of advance refunding its 1991 Series Bonds, issued under a Trust Agreement then outstanding in the aggregate principal amount of \$112,690,000. Through the issuance of the 1995 Series Bonds, the deposit of net proceeds together with certain monies of the District into the Escrow Account, the District caused the 1991 Series Bonds and the 1991 Trust Agreement to be deemed paid and discharged and no longer outstanding. As of December 31, 2005, outstanding Series 1995 Bonds totaled \$64,165,000. A deposit of the net proceeds of the 2005 Series Bonds together with certain monies of the District into the Escrow Account will cause the 1995 Series Bonds to be deemed paid and discharged.

In 2005, the District issued \$68,280,000 in Wastewater Improvement Revenue Refunding bonds, Series 2005 to advance refund and defease the Series 1995 Wastewater Improvement Refunding Bonds of \$64,164,000. The net proceeds were used to purchase direct obligations of the U.S. Government. Those securities were deposited in an irrevocable trust with an escrow agent. The securities and fixed earnings from the securities are sufficient to provide for all future debt service payments on the series 1995 wastewater improvement bonds. As a result, the 1995 wastewater improvement bonds are considered defeased. As of December 31, 2012, \$27,750,000 of the defeased debt remained outstanding. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt in the amount of \$3,413,626. This difference, reported in the accompanying statement of net position as a deduction from long-term debt, is being charged to operations through the year 2016 using the weighted average method. The unamortized balance of the deferral totaled \$406,764 at December 31, 2012 and \$594,484 at December 31, 2011. The Series 2005 Bonds are not subject to redemption at the option of the District prior to their stated maturity.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 7: Pension Plans

#### Ohio Public Employees Retirement System

The District contributes to the Ohio Public Employees Retirement System (“OPERS”). OPERS administers three separate pension plans as described below:

- The Traditional Pension Plan – a cost sharing, multiple-employer defined benefit pension plan.
- The Member-Directed Plan – a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the Member-Directed Plan, members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings.
- The Combined Plan – a cost sharing, multiple-employer defined benefit pension plan. Under the Combined Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to, but less than, the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits.

Authority to establish and amend benefits is provided by state statute per Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/investments/cafr.shtml>, writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling 614-222-5601 or 800-222-7377.

The Ohio Revised Code provides statutory authority for member and employer contributions. For 2012, member and employer contribution rates were consistent across all three plans. District members were required to contribute 10.0% of their annual covered payroll to fund pension obligations in 2012. The 2012 employer contribution rate for the District was 14.0% of covered payroll. The District’s contributions to the OPERS for the years ended December 31, 2012, 2011 and 2010 were \$5,901,080, \$5,562,696, and \$5,445,060, respectively, which are the required contributions for each year. Total required employer contributions for all plans are equal to 100% of employer charges and should be extracted from the employer’s records.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 8: Post-Employment Benefits

#### Ohio Public Employees Retirement System

##### A. Plan Description

OPERS administers three separate pension plans: The Traditional Pension Plan – a cost sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/investments/cafr.shtml>, writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 614-222-5601 or 800-222-7377.

##### B. Funding Policy

The Ohio Revised Code provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. For the District's employer units, the 2012 contribution rate was 14.0% of covered payroll. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14.0% of covered payroll for District employer units. Active members do not make contributions to the OPEB plan.

OPERS' Post Employment Health Care Plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. The portion of employer contributions allocated to health care for members in the Traditional Plan was 4.0% during the calendar year 2012.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

**December 31, 2012 and 2011**

**Note 8: Post-Employment Benefits (continued)**

The portion of employer contributions allocated to health care for members in the Combined Plan was 6.05% during the calendar year 2012. The portion of the employer contributions allocated to the health care for the calendar year beginning January 1, 2013 was lowered to 1 percent for both plans, as recommended by the OPERS Actuary. Employers will be notified if the portion allocated to health care changes during calendar year 2013. The OPERS Board of Trustees is also authorized to establish rules for the retiree, or their surviving beneficiaries to pay a portion of the health care benefits provided. Payment amounts vary depending on the number of covered dependents and the coverage selected.

**C. District Contributions**

The rates stated in Section B, above, are the contractually required contribution rates for OPERS. As part of this disclosure, it will be necessary for the employer to disclose the employer contributions actually made to fund post-employment benefits. The portion of your employer contributions that were used to fund post-employment benefits can be approximated by multiplying actual employer contributions for calendar year 2012 by 0.2857 for state and local employers.

**D. OPERS Retirement Board Implements its Health Care Preservation Plan**

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4 percent of the employer contributions toward the health care fund after the end of the transition period. For 2012, 99.91% has been contributed with the balance being reported as a payable. The full amount has been contributed for 2011 and 2010.

	Contribution Rate as a % of covered salaries	2012	Contribution Rate as a % of covered salaries	2011	Contribution Rate as a % of covered salaries	2010
By Statutory Authority	14.00%	\$5,901,080	14.00%	\$5,562,696	14.00%	\$5,445,060
Less Healthcare Portion	4.00%	(1,686,023)	4.00%	(1,589,342)	5.0-5.5%	(1,976,920)
Required-Employer Contribution		<u>\$4,215,057</u>		<u>\$3,973,354</u>		<u>\$3,468,140</u>

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

**December 31, 2012 and 2011**

**Note 9: Deferred Compensation Plans**

Under a deferred compensation program, the District offers two plans created in accordance with Internal Revenue Code Section 457 (“IRC 457”). Eligible employees of the District may elect to participate in either the ING Life Insurance and Annuity Company Plan (formerly known as Aetna Life Insurance and Annuity Company Plan) or the Ohio Public Employees Deferred Compensation Plan, collectively, the “Plans.” Employees may also elect to participate in both plans. The Plans allow employees to defer a portion of their compensation until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseen financial emergency, as defined in IRC 457.

The District follows the provisions of GASB Statement No. 32, “Accounting and Financial Reporting for Internal Revenue Code Section 457, Deferred Compensation Plans”. In accordance with the provisions of GASB Statement No. 32, at both December 31, 2012 and 2011, the assets of both plans met the applicable trust requirements and are therefore excluded from the District's financial statements.

**Note 10: Risk Management**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains an insurance reserve to account for and finance its uninsured risks of property damage. The District is self-insured for workers' compensation and purchases commercial insurance for other specific types of coverage. There were no significant reductions in insurance coverage from the prior year. Claim settlements and judgments not covered by commercial insurance and the insurance reserve are covered by operating resources. The amount of settlements did not exceed insurance coverage for each of the past three years.

Claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The change in the estimate for claims is as follows:

		Beginning Balance		Claims Paid		Increase in Estimate		Ending Balance
2011	\$	54,355	\$	-	\$	36,348	\$	90,703
2012		90,703		-		704		91,407

Estimated liabilities are not material with respect to the financial position of the District. The claims liability is included in other accrued liabilities in the accompanying statements of net position and is estimated to be paid during the year ending December 31, 2013. The District's insurance reserve as of December 31, 2012 and 2011 was \$22,537,391 and \$21,804,993, respectively, and is included in short-term investments on the District's statement of net position.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 11: Commitments and Contingencies

#### City of Pepper Pike, Ohio – SOM Center Relief Sewer Project

In August 2009, the Board of Trustees approved to enter into a Project and Financing Agreement with the City of Pepper Pike for a maximum loan amount of \$1,715,000 at a simple interest rate of 3.5%. As of December 31, 2012 and 2011, \$1,408,567 and \$1,058,762, respectively, was due from the City of Pepper Pike. A repayment schedule will be agreed upon by both parties at the completion of the project.

#### Combined Sewer Overflows Long-Term Control Plan

The District finalized Consent Decree negotiations with Ohio and US EPA, US Department of Justice, and the Ohio Attorney General's Office. The Board of Trustees authorized the signature of the Consent Decree and it was lodged with the US District Court in December 2010. The Consent Decree was approved by the Court on July 7, 2011.

Implementation of the Combined Sewer Overflows Long-Term Control Plan under the Consent Decree began 30 days after approval by the US District Court, although the District had already begun work on certain projects required under the Consent Decree. Funding for those projects is included in the District's existing capital plan. The District currently estimates the costs for implementing the CSO capital improvement program to be approximately \$3 billion in 2009 dollars. These expenditures constitute a "high burden" on District ratepayers, and based upon the estimated costs of the program and high burden status, the District received a 25-year implementation schedule.

Upon approval of the Consent Decree, the District paid civil penalties to the United States and State of Ohio in cash in the amount of \$1.2 million. To mitigate additional civil penalties, the District implemented a federal Supplemental Environmental Project (SEP) in the amount of \$1 million to provide for the collection and disposal of household hazardous waste. In 2010, the District entered into an agreement with the Cuyahoga County Solid Waste Management District to satisfy the federal SEP obligation. The District was obligated to implement a State SEP known as the Canal Pump Station Operation and Maintenance Project, estimated at \$800,000, or implement an Alternate SEP by making a cash payment of \$800,000 to Ohio EPA. The District implemented an Alternative SEP and made a cash payment of \$800,000 to Ohio EPA. As such, the District has recorded \$786,933 and \$906,672 as other accrued liabilities on the accompanying statement of net position as of December 31, 2012 and 2011 respectively.

#### 3320 Woodland Avenue, Ltd. Litigation

In December 2007, the District filed an action against 3320 Woodland Avenue, Ltd. for damages arising out of the shifting of improperly dumped and compacted fill material resulting in damage to the District's Mill Creek Interceptor located on 3320 Woodland Avenue's property. In its Counterclaim, 3320 Woodland Avenue asserted two claims against the District. The litigation was settled in May 2013, and the District received a total of \$3,550,000 in damages.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 11: Commitments and Contingencies (continued)

#### Mill Creek Tunnel-3 Project

On or about July 18, 2002, the District entered into an approximate \$58,281,408 construction contract with KMM&K Joint Venture (“KMM&K”) for the Mill Creek Tunnel-3 (“MCT-3”) project. During 2004, the MCT-3 project was shut down due to unsafe tunneling conditions. On October 8, 2007, KMM&K filed for breach of contract claiming damages of approximately \$15 million against the District. On March 24, 2009, the District filed a counterclaim against KMM&K and its surety, Travelers Casualty and Surety Company of America (Travelers) for \$25 million, which is primarily related to claims of overstated costs incurred during the shutdown and failure to complete the project. Subsequently, on June 29, 2010, the District filed amended pleadings, stating civil fraud and conspiracy charges against KMM&K. The District sought to recover an additional \$7.5 million by asking the Court to set aside four legal settlements paid to KMM&K which are alleged to have been procured by fraud and conspiracy.

On June 25, 2012, the parties entered into a settlement agreement resolving the lawsuit. Pursuant to the settlement, KMM&K Joint Venture members paid the District the sum of \$12 million. The parties agreed to a mutual release of all contractual claims raised in the lawsuit arising out of the Mill Creek Tunnel-2 (MCT-2) and MCT-3 projects. The release specifically excluded any claims and rights the District has or may have against Travelers under fidelity insurance policies issued by Travelers regarding the four legal settlements. The District filed a proof of loss with Travelers and is pursuing its insurance claims under a separate litigation action.

#### Former General Counsel Litigation

On April 21, 2010, William B. Schatz, former General Counsel for the District, was charged in the United States District Court with bribery, theft, embezzlement and tax fraud in connection with the District’s Mill Creek Tunnel-2 and -3 contracts. Mr. Schatz entered a plea agreement on May 18, 2010, and he pleaded guilty to all charges on October 19, 2010. He was sentenced to 70 months in federal prison. The District filed a victim impact statement with the District Court asking the Court to award any restitution ordered to be paid to the District. Mr. Schatz was ordered to make restitution to the District in the amount of \$849,070; however, as of December 31, 2012, the District has received no funds from Mr. Schatz pursuant to the restitution order.

In August 2011, the District received payment of restitution in the amount of \$682,130 from Robert J. Kassouf, who was convicted of paying bribes to Mr. Schatz in connection with the District’s Mill Creek Tunnel-2 and -3 contracts.

#### Travelers Casualty and Surety Company of America Litigation

Based upon the criminal information and plea agreement documents filed with the court in the matter regarding former General Counsel William B. Schatz, the District filed a proof of loss with its insurance carrier, Travelers Casualty and Surety Company of America (Travelers), under various policies of crime and fidelity insurance, for claims relating to the District’s financial losses. Travelers denied the District’s claim, and on February 21, 2013, the District filed a complaint against Travelers seeking damages in the amount of \$7,265,279.80. The litigation is currently in the discovery phase.

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 11: Commitments and Contingencies (continued)

#### Regional Stormwater Management Program Litigation

On January 7, 2010, the Board of Trustees adopted a new Stormwater Code of Regulations and authorized implementation of the Regional Stormwater Management Program (hereinafter "SMP") with respect to all member communities served by the District, including member communities outside of Cuyahoga County. On the same day, the District filed a Complaint for Declaratory Relief or, in the alternative, a Petition for Order Permitting Amendment of the District's Plan of Operation in Cuyahoga County Court of Common Pleas asking for a judgment declaring that the District has authority to fully implement its SMP. Twelve (12) Cuyahoga County communities, along with eight (8) Summit County communities have formed an Opposition Group seeking to enjoin the District from implementing the SMP and assessing stormwater fees before the court determines the District's authority. In addition, several business associations, the Cleveland Catholic Diocese, and the Cleveland Municipal School District were granted permission to intervene in the litigation in opposition to the SMP.

In a companion case filed on December 30, 2009, Summit County and eight (8) Summit County member communities filed a Declaratory Judgment and Permanent Injunction Action against the District in Summit County Court of Common Pleas asking for a judgment declaring the District lacks authority and jurisdiction over Summit County property owners to impose a stormwater management program and to assess fees, and a preliminary and permanent injunction to enjoin the District from creating a stormwater management program and assessing fees on Summit County property owners. The District filed motions to dismiss the complaint or transfer venue to the Cuyahoga County court.

On May 11, 2011 the Court, in granting the District's motion for partial summary judgment, ruled that R.C. Chapter 6119 authorizes the District to address intercommunity flooding, erosion and stormwater-related water quality issues. Subsequently, on February 15, 2012, after three weeks of trial on the legality of the District's stormwater fee, the Court again ruled in favor of the District in an interim Opinion that the District's stormwater fee is authorized under R.C. Chapter 6119 and is not an unlawful imposition of a tax. The Court scheduled a final hearing on March 19, 2012 to resolve all pending issues; however, upon issuance of the February 15, 2012 Opinion, several opposition parties filed appeals. The District's motions to dismiss the appeals and subsequent motions for reconsideration were granted for lack of a final appealable order. After a post-trial hearing, the Court issued its final order on June 28, 2012 confirming the District's stormwater fee was authorized under R.C. Chapter 6119.

In the interim, the District engaged in extensive non-binding mediations facilitated by both the Cuyahoga County Executive's Office and the Court. At this time, the District has executed settlement agreements with the Cleveland Catholic Diocese and the Cleveland Municipal School District. Subsequently, the District reached settlement with the Summit County member communities, resulting in the dismissal of the litigation filed in Summit County. The District also settled issues with the City of North Royalton.

In July 2012, appeals were filed by eleven (11) member communities and the intervening Greater Cleveland Association of Building Owners. Oral arguments were heard in April 2013. The District anticipates a decision from the appellate court by the end of 2013. The District issued the first stormwater bills in January 2013, and it is continuing to implement the Regional Stormwater Management Program pending appeals.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### Note 11: Commitments and Contingencies (continued)

#### Other Litigation

The District, in the normal course of its activities, is involved in various other claims and pending litigation. In the opinion of District management, the disposition of these other matters is not expected to have a material adverse effect on the financial position of the District.

### Note 12: Change in Governmental Accounting Principles

In December 2009, the GASB issued Statement No. 57, "OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans." The requirements of this statement are effective for financial statements for periods beginning after June 15, 2011. The implementation of this Statement did not affect the presentation of the financial statements of the District.

In November 2010, the GASB issued Statement No. 60, "Accounting and Financial Reporting for Service Concession Arrangements." The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The implementation of this Statement did not affect the presentation of the financial statements of the District.

In November 2010, the GASB issued Statement No. 61, "The Financial Reporting Entity: Omnibus." The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2012. The District has not determined the impact, if any, that this Statement will have on its financial statements or disclosures.

In December 2010, the GASB issued Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements." The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The implementation of this Statement did not affect the presentation of the financial statements of the District.

In June 2011, the GASB issued Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position." The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The required disclosures are included in the basic financial statements and notes to the financial statements.

In June 2011, the GASB issued Statement No. 64, "Derivative Instruments: Application of Hedge Accounting Termination Provisions-an Amendment of GASB Statement No. 53." The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2011. The implementation of this Statement did not affect the presentation of the financial statements of the District.

# NORTHEAST OHIO REGIONAL SEWER DISTRICT

## Notes to Financial Statements

December 31, 2012 and 2011

### **Note 12: Change in Governmental Accounting Principles (continued)**

In March 2012, the GASB issued Statement No. 65, “Items Previously Reported as Assets and Liabilities.” The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2012. The District has not determined the impact, if any, that this Statement will have on its financial statements or disclosures.

In March 2012, the GASB issued Statement No. 66, “Technical Corrections—2012—an amendment of GASB Statements No. 10 and No. 62.” The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2012. The District has not determined the impact, if any, that this Statement will have on its financial statements or disclosures.

In June 2012, the GASB issued Statement No. 67, “Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25.” The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2013. The District has not determined the impact, if any, that this Statement will have on its financial statements or disclosures.

In June 2012, the GASB issued Statement No. 68, “Accounting and Financial Reporting for Pension—an amendment of GASB Statement No. 27.” The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2014. The District has not determined the impact, if any, that this Statement will have on its financial statements or disclosures.

### **Note 13: Fair Value Measurements**

In accordance with the “Fair Value Measurements” topic of the FASB ASC, the District uses a three-level fair value hierarchy that categorizes assets and liabilities measured at fair value based on the observability of the inputs utilized in the valuation. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly; and Level 3 inputs are unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own valuation assumptions. U.S. Government Obligations, Fixed Income Securities, and the Revenue Debt Service Fund Money Market Funds are valued at the closing price reported on the over-the-counter market on which the individual securities are traded. These inputs reflect management’s judgment about the assumptions that a market participant would use in pricing the asset and are based on the best available information which has been internally developed.

## Notes to Financial Statements

December 31, 2012 and 2011

**Note 14: Subsequent Events:**

In April, 2013 the District issued Wastewater Improvement Revenue Bonds with face value totaling \$249,535,000. Repayment terms and covenants conform to the existing Wastewater Improvement Revenue Bonds, Series 2005 (refunding), 2007 and 2010.

Beginning January 2013, the District formally implemented the Regional Stormwater Management Program (the "Stormwater Program"). The Stormwater Program will address problems related to stormwater runoff from hard surfaces that make their way into the collection system and ultimately end up at treatment facilities. The fees collected from the Stormwater Program will be used to offset costs associated with treatment of stormwater runoff and are based on impervious surface. The fees from the Stormwater Program will also fund projects to address regional stream flooding and erosion problems as well as maintenance and master planning. Twenty-five percent (25%) of cash collected from each municipality within the service area will be returned to the respective member community for funding of local stormwater management projects.

## Notes to Supplementary Information Schedule of Revenues, Expenses and Changes in Net Position-Budget to Actual

For the year ended December 31, 2012

### Note 1: Summary of Significant Accounting Policies

#### **Budgetary Basis of Accounting**

The District's budget is prepared on the basis of accounting principles generally accepted in the United States of America, except that the budget does not include interest income, increases in fair value of investments, interest on long-term debt, and gains and losses on equipment disposals. Formal budgetary integration is employed as a management control device during the year.

General provisions regulating the District's budget and appropriation procedures are set forth in the Ohio Revised Code. The Executive Director is required to submit the District's operating and capital budgets to the Board of Trustees and they are required to adopt such budgets by March 31 of each year. Until the final budgets are adopted, the Board of Trustees may adopt a temporary appropriation for the first three months of the year. The Board of Trustees must also approve all amendments to the budget. The level of budgetary control for the District's operation, maintenance, and minor capital outlays is on a budget center line item basis. During the fiscal year, budget center heads may transfer appropriations within their respective budget centers and from other budget centers within limitations that are subject to Board approval. The capital budget consists of major and minor capital expenditures.

The annual Capital Plan outlines estimated cost by project. These projects are already authorized or to be considered by the Board of Trustees. Approval of the budgets by the Board of Trustees does not in itself authorize expenses for operations and maintenance or expenditures for capital projects. Requests for capital project expenditures must be approved by the Board of Trustees and/or the Executive Director, as appropriate, and require certification of available funds by the Director of Finance. Board approval is required for all operating and capital purchases of goods and services in excess of \$25,000. All budget appropriations lapse on December 31 of each year.

2012 (3)	49.55	10.7	29.75	-1.0	52.55	9.5	31.75	-1.6

(1) Per thousand cubic feet (MCF) of water consumed.

(2) These rates were first established in the 1991 fiscal year.

(3) A Fixed Fee per quarterly bill of \$5.85 was established in the 2012 fiscal year.

Industrial Waste Surcharge

An additional charge is billed to industrial and other types of customers discharging wastewater which contains substances requiring more extensive treatment than effluent from residential customers.

The amount of this Industrial Waste Surcharge is calculated in accordance with formulas set forth in the Rate Resolution which take into account concentrations of suspended solids, biological oxygen demand and chemical oxygen demand based on waste loading determined by analysis or otherwise.

Minimum Quarterly Billing

Each customer of the District is charged a minimum quarterly amount for sewage service equal to the class of service rate applicable to the metered water usage of 1,000 cubic feet (7,480 gallons). Minimum Quarterly Billing was discontinued starting in 2012.

**Independent Auditor's Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

Board of Trustees  
Northeast Ohio Regional Sewer District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Northeast Ohio Regional Sewer District (the "District") as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 27, 2013.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Cini & Paricki, Inc.*

Cleveland, Ohio  
June 27, 2013

**Independent Auditor’s Report on Compliance for Each Major Federal Program;  
Report on Internal Control over Compliance; and Report on the Schedule of Expenditures of  
Federal Awards Required by OMB Circular A-133**

Board of Trustees  
Northeast Ohio Regional Sewer District

**Report on Compliance for Each Major Federal Program**

We have audited Northeast Ohio Regional Sewer District’s (the “District”) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the District’s major federal program for the year ended December 31, 2012. The District’s major federal program is identified in the summary of auditor’s results section of the accompanying schedule of findings.

***Management’s Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditor’s Responsibility***

Our responsibility is to express an opinion on compliance for the District’s major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the District’s compliance.

***Opinion on Each Major Federal Program***

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect its major federal program for the year ended December 31, 2012.

## **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operations of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

## **Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

We have audited the financial statements of the District as of and for the year ended December 31, 2012, and related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated June 27, 2013, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial

statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

## Notes to the Schedule of Expenditures of Federal Awards

### For the Year Ended December 31, 2012

---

#### **Note 1: Basis of Presentation**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the District and is presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

#### **Note 2: Loans Outstanding**

The District is a subrecipient of loan programs with funding received from the U.S. Environmental Protection Agency. The following are the loan balances outstanding that have continuing compliance requirements for these programs as of December 31, 2012.

<u>Federal Grantor/Pass-Through Grantor/Program or Cluster Title</u>	<u>Federal CFDA Number</u>	<u>Grant Number</u>	<u>Amount Outstanding</u>
U.S. Environmental Protection Agency: Pass-Through Program from Ohio Environmental Protection Agency: Capitalization Grants for Clean Water State Revolving Funds	66.458	Multiple	\$ 112,344,188
