INDEPENDENT AUDITOR'S REPORT

Ohio Hi-Point Joint Vocational School District
Logan County
2280 State Route 540
Bellefontaine, Ohio 43311

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Ohio Hi-Point Joint Vocational School District, Logan County, Ohio (the District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about the financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we considered internal control relevant to the District's preparation and fair presentation of the financial statements in order to design appropriate audit procedures, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Ohio Hi-Point Joint Vocational School District, Logan County, Ohio (the District), as of June 30, 2014, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 18 to the financial statements, during the year ended June 30, 2014, the District adopted the provisions of Governmental Accounting Standard No. 65, *Items Previously Reported as Assets and Liabilities*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include Management's Discussion and Analysis and the required budgetary comparison schedule, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiring to management about the methods of preparing the information, and comparing the information for consistency with management's responses to our inquiries and to the basic financial statements, and for consistency with other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the required supplementary information.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The Schedule of Federal Awards Receipts and Expenditures presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 16, 2015, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

**Ohio Hi-Point Joint Vocational School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014
(Unaudited)**

The discussion and analysis of Ohio Hi-Point Joint Vocational School District's (the District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2014. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and the basic financial statements to enhance their understanding of the District's performance.

Financial Highlights

Key financial highlights for 2014 are as follows:

- Net position of governmental activities increased \$1,318,580 which represents a 8.8% increase from 2013. The increase indicates that the District's revenues exceeded expenses in 2014.
- General revenues accounted for \$11,951,018 in revenue or 93% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$840,627 or 7% of total revenues of \$12,791,645.
- The District had \$11,473,065 in expenses related to governmental activities; \$840,627 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$11,951,018 were also used to provide for these programs.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and *Statements of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund is the major fund of the District.

Government-wide Financial Statements

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2014?" The Government-wide Financial Statements answers this question. These statements include *all assets* and *liabilities* using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Ohio Hi-Point Joint Vocational School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014
(Unaudited)

These two statements report the District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the overall financial position of the District is presented in the following manner:

- Governmental Activities – All of the District's programs and services are reported here including instruction, support services, operation of non-instructional services and interest and fiscal charges.

Fund Financial Statements

The analysis of the District's major funds is presented in the Fund Financial Statements. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

Governmental Funds All of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the District programs. These funds use the accrual basis of accounting.

The District as a Whole

As stated previously, the Statement of Net Position looks at the District as a whole. Table 1 provides a summary of the District's net position for 2014 compared to 2013:

**Ohio Hi-Point Joint Vocational School District
Management’s Discussion and Analysis
For the Fiscal Year Ended June 30, 2014
(Unaudited)**

Table 1
Net Position

| | Governmental Activities | |
|--|-------------------------|---------------------|
| | 2014 | 2013 Restated |
| Assets: | | |
| Current and Other Assets | \$16,229,306 | \$15,773,275 |
| Capital Assets | 6,883,552 | 6,520,998 |
| Total Assets | 23,112,858 | 22,294,273 |
| Liabilities: | | |
| Other Liabilities | 644,537 | 888,186 |
| Long-Term Liabilities | 968,131 | 1,456,445 |
| Total Liabilities | 1,612,668 | 2,344,631 |
| Total Deferred Inflows of Resources | 5,164,497 | 4,932,529 |
| Net Position: | | |
| Net Investment in Capital Assets | 6,683,548 | 5,911,211 |
| Restricted | 164,205 | 266,270 |
| Unrestricted | 9,487,940 | 8,839,632 |
| Total Net Position | \$16,335,693 | \$15,017,113 |

Over time, net position can serve as a useful indicator of a government’s financial position. At June 30, 2014, the District’s assets exceeded liabilities and deferred inflows of resources by \$16,335,693.

At year-end, capital assets represented 30% of total assets. Capital assets include land, buildings and improvements, and equipment. Capital assets, net of related debt to acquire the assets at June 30, 2014, was \$6,683,548. These capital assets are used to provide services to the students and are not available for future spending. Although the District’s investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

Ohio Hi-Point Joint Vocational School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014
(Unaudited)

A portion of the District's net position, \$164,205 represents resources that are subject to external restriction on how they must be used. The external restriction will not affect the availability of fund resources for future use.

Capital Assets increased mainly due to depreciation being less than current year asset additions. Long-Term Liabilities decreased mainly due to the District making regularly scheduled debt payments and early payoff of HB264 loan.

Table 2 shows the changes in net position for fiscal years 2014 and 2013.

Table 2
Changes in Net Position

| | Governmental Activities | |
|---|-------------------------|-------------------|
| | 2014 | 2013 |
| Revenues: | | |
| Program Revenues | | |
| Charges for Services | \$345,307 | \$1,055,740 |
| Operating Grants, Contributions | 495,320 | 1,320,137 |
| General Revenues: | | |
| Property Taxes | 5,279,075 | 5,592,781 |
| Grants and Entitlements | 6,279,988 | 5,783,952 |
| Other | 391,955 | 584,000 |
| Total Revenues | 12,791,645 | 14,336,610 |
| Program Expenses: | | |
| Instruction | 6,461,116 | 7,593,724 |
| Support Services: | | |
| Pupil and Instructional Staff | 1,052,019 | 1,241,849 |
| School Administrative, General | | |
| Administration, Fiscal and Business | 1,839,514 | 2,021,663 |
| Operations and Maintenance | 1,231,940 | 1,510,348 |
| Pupil Transportation | 31,970 | 41,400 |
| Central | 555,085 | 604,273 |
| Operation of Non-Instructional Services | 257,526 | 194,001 |
| Interest and Fiscal Charges | 43,895 | 17,825 |
| Total Program Expenses | 11,473,065 | 13,225,083 |
| Change in Net Position | 1,318,580 | 1,111,527 |
| Net Position - Beginning of Year | 15,017,113 | 13,905,586 |
| Net Position - End of Year | \$16,335,693 | \$15,017,113 |

The change in net position of \$1,318,580 indicates that the District's revenues exceeded expenses in fiscal year 2014.

**Ohio Hi-Point Joint Vocational School District
Management’s Discussion and Analysis
For the Fiscal Year Ended June 30, 2014
(Unaudited)**

Governmental Activities

The District revenues are mainly from two sources. Property taxes levied for general purposes and grants and entitlements comprised 90% of the District’s revenues for governmental activities. The District depends greatly on property taxes as a revenue source. The District has a 2.0 mill continuing levy. The District has not sought voter approval since approximately 1977 for any additional funds. The District always collects 2.0 mills on the valuation and they do get inflationary increases. Property taxes made up 41% of revenue for governmental activities for the District in fiscal year 2014.

| | | <u>Percentage</u> |
|-----------------------|----------------------------|----------------------|
| General Grants | \$6,279,988 | 49.1% |
| Program Revenues | 840,627 | 6.6% |
| General Tax Revenues | 5,279,075 | 41.3% |
| Investment Earnings | 9,646 | 0.1% |
| Other Revenues | <u>382,309</u> | <u>2.9%</u> |
| Total Revenue Sources | <u><u>\$12,791,645</u></u> | <u><u>100.0%</u></u> |

Instruction comprises 56.3% of governmental program expenses. Support services expenses were 41.0% of governmental program expenses. All other expenses were 2.7%.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

| Total Expenses | <u>\$11,473,065</u> | <u>\$13,225,083</u> | <u>(\$10,632,438)</u> | <u>(\$10,849,206)</u> |

The District's Funds

The District has one major governmental fund: the General Fund. Assets of the general fund comprised \$16,005,792 (98%) of the total \$16,259,577 governmental funds' assets.

General Fund: Fund balance at June 30, 2014 was \$9,769,007 an increase in fund balance of \$635,756 from 2013. The increase in fund balance is due primarily to an increase in intergovernmental revenue.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2014, the District amended its general fund budget numerous times, however none were significant. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. During the course of the year, the District revised the Budget in an attempt to deal with unexpected changes in revenues and expenditures.

For the General Fund, the budget basis revenue (excluding advances and transfers in) was \$11,395,145, which is \$24,175 less than original budget revenue (excluding advances and transfers in) estimates of \$11,419,320.

The District's General Fund ending unobligated cash balance was \$8,297,559, which is \$800,091 above the final budgeted amount.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014
(Unaudited)**

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2014, the District had \$6,883,552 invested in land, buildings and improvements, and equipment. Table 4 shows fiscal year 2014 balances compared to fiscal year 2013:

Table 4
Capital Assets

| | <u>Governmental Activities</u> | |
|----------------------------|--------------------------------|--------------------|
| | <u>2014</u> | <u>2013</u> |
| Land | \$412,076 | \$412,076 |
| Buildings and Improvements | 5,058,397 | 4,787,094 |
| Equipment | 1,413,079 | 1,321,828 |
| Total Net Capital Assets | <u>\$6,883,552</u> | <u>\$6,520,998</u> |

Capital assets increased from the prior year due to additions during fiscal year exceeding depreciation for 2014.

See Note 6 in the notes to the basic financial statements for further details on the District's capital assets.

Debt

At June 30, 2014, the District had \$200,004 in long term debt, \$33,334 due within one year. Table 5 summarizes loans outstanding at year end.

Table 5
Outstanding Debt, at Year End

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014
(Unaudited)**

For the Future

In June of 2005, the State legislature passed House Bill 66. House Bill 66 phases out the tax on tangible personal property of general business, telephone, and telecommunications companies, and railroads. The tax on general business and railroad property began being phased out in 2006 and was eliminated in 2009. The tax on telephone and telecommunication property began being phased out in 2009 and was eliminated in 2011. The tax is being phased out by reducing the assessment rate on the property each year. In the first five years, school districts are being reimbursed fully for the lost revenue; in the following seven years, the reimbursements are phased out.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Eric Adelsberger, Treasurer at Ohio Hi-Point Joint Vocational School District, 2280 State Route 540, Bellefontaine, Ohio 43311.

Ohio Hi-Point Joint Vocational School District
 Reconciliation of the Statement of Revenues, Expenditures, and Changes
 in Fund Balance of Governmental Funds to the Statement of Activities
 For the Fiscal Year Ended June 30, 2014

Net Change in Fund Balance - Total Governmental Funds \$720,563

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital asset additions as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of the difference between capital asset additions and depreciation in the current period.

| | | |
|--|------------------|---------|
| Capital assets used in governmental activities | 879,836 | |
| Depreciation Expense | <u>(457,907)</u> | 421,929 |

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. The amount of the proceeds must be removed and the gain or loss on the disposal of capital assets must be recognized. This is the amount of the difference between the proceeds and the gain or loss. (59,375)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

| | | |
|---------------------------|------------------|-----------|
| Delinquent Property Taxes | (78,222) | |
| Interest | (2) | |
| Intergovernmental | <u>(182,500)</u> | (260,724) |

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 409,783

In the statement of activities interest expense is accrued when incurred; whereas, in governmental funds an interest expenditure is reported when due. 910

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

| | | |
|----------------------|--|---------------|
| Compensated Absences | | <u>85,494</u> |
|----------------------|--|---------------|

Change in Net Position of Governmental Activities \$1,318,580

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

Note 1 - Description of the District

Ohio Hi-Point Joint Vocational School District (the District) is a district of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating districts' elected boards, which possesses its own budgeting and taxing authority. The District exposes students to job training leading to employment upon graduation from high school. Ohio Hi-Point Joint Vocational School District includes fourteen member schools throughout Logan, Hardin, Champaign, Union and Auglaize counties.

The District was established on January 27, 1970. It is staffed by approximately 27 non-certified employees and approximately 76 certified full-time teaching personnel who provide services to more than 1,550 high school students.

Reporting Entity

A reporting entity is comprised of the stand-alone government, component units and other organizations that are included to ensure that the financial statements are not misleading. The stand-alone government consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Ohio Hi-Point Joint Vocational School District, this includes general operations, food service, adult education and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. The District currently has no component units.

The District is associated with one jointly governed organization and two insurance purchasing pools. These organizations are the Western Ohio Computer Organization, the Logan County Schools Benefit Plan Association (self insured as of January 1, 2014) and the Northern Buckeye Educational Council Workers' Compensation Group Rating Plan. These organizations and the District's participation are discussed in notes 12 and 13 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

Measurement Focus

Government-wide Financial Statements

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

The government-wide statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the statement of net position. Fiduciary Funds are not included in entity-wide statements.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private purpose trusts are reported using the economic resources measurement focus.

Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's major fund:

General Fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are custodian in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's only fiduciary funds are a private purpose trust fund and two agency funds. The private purpose trust fund accounts for scholarship programs for students. The student managed activity agency fund accounts for assets and liabilities generated by student managed activities. The grant agency fund accounts for Pell Grant and guarantee student loan money awarded/loaned to adult students for tuition.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the actual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

Nonexchange transactions, in which the District receives value without directly giving equal value in return, included property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: property taxes available for advance, grants and interest.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes and grants and other taxes (which includes tax incremental financing 'TIF'). Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2014, but which were levied to finance year 2015 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. TIF's have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. However, debt service expenditures, as well as any expenditures related to compensated absences, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Equity in Pooled Cash and Investments

Cash received by the District is pooled for investment purposes. Interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as nonnegotiable certificates of deposits and repurchase agreements are reported at cost.

During the current fiscal year, investments were limited to STAR Ohio, U.S. agency securities, money market account and certificates of deposit.

The District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2014. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company but does operate in a manner consistent with Rule 2A7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2014.

Following Ohio statutes, the Board has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2014 amounted to \$9,623.

Inventory

Inventories are presented at cost on a first in, first out basis and are expensed/expensed when used. Inventory consists of food held for resale and consumable supplies.

Capital Assets

General capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of two thousand five hundred dollars (\$2,500). The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets are depreciated, except land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is allocated using the straight-line method over the following useful lives:

| <u>Description</u> | <u>Estimated Lives</u> |
|---------------------------|------------------------|
| Building and Improvements | 10 - 50 years |
| Equipment | 5 - 20 years |

Compensated Absences

The District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time, when earned, for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time. Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Employees may accumulate up to 220 sick days.

Each employee upon retirement with a minimum of five (5) years Ohio Hi Point Vocational School employment shall receive severance payment, based upon the employee's rate of pay at retirement, equal to 27.5%, 30% or 33%, depending on service of the employee's accumulated, but unused sick leave at retirement up to a maximum accrual of 200 days or a maximum of 66 days severance payment.

For governmental fund financial statements, the expenditures for unpaid compensated absences are recognized when due. The related liability is recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid.

Net Position

Net position represent the difference between assets and deferred inflows of resources, and liabilities and deferred outflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Of the District's \$164,205 in restricted net position, none were restricted by enabling legislation.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivables" and "Interfund Payables." These amounts are eliminated in the governmental activities column of the statement of net position.

As a general rule, the effect of interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that are constrained for specific purposes that are internally imposed by the government at its highest level of decision making authority, the Board of Education.

Assigned – resources that are intended to be used for specific purposes as approved through the District's formal purchasing procedure by the Treasurer.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts, which had been restricted, committed or assigned for said purposes.

The District considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

In general, governmental fund payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term loans are recognized as a liability on the governmental fund financial statements when due.

Note 3 - Equity in Pooled Cash and Investments

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the District into three categories:

Active Monies - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must by law be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

Inactive Monies – Those monies not required for use within the current two-five year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

Interim Monies – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested or deposited in the following securities:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.
- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than one year from date of deposit, or by savings or deposit accounts, including, but limited to, passbook accounts.
- (5) Bonds and other obligations of the State of Ohio.
- (6) The Ohio State Treasurer's investment pool (STAR Ohio).

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

- (7) Commercial paper and banker's acceptances, which meet the requirements established by Ohio Revised Code, Sec. 135.142.
- (8) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy for deposits is any balance not covered by depository insurance will be collateralized by the financial institutions with pledged securities. As of June 30, 2014, \$3,481,988 of the District's bank balance of \$5,314,293 was exposed to custodial risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Ohio Revised Code Chapter 135, Uniform Depository Act, authorizes pledging of pooled securities in lieu of specific securities. Specifically, a designated public depository may pledge a single pool of eligible securities to secure repayment of all public monies deposited in the financial institution, provided that at all times the total value of the securities so pledged is at least equal to 105% of the total amount of all public deposits secured by the pool, including the portion of such deposits covered by any federal deposit insurance.

Investments

As of June 30, 2014, the District had the following investments:

This Space Intentionally Left Blank

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

| | <u>Fair Value</u> | <u>Weighted Average Maturity (Years)</u> |
|-------------------------------------|--------------------|--|
| STAR Ohio | \$3,110,573 | 0.14 |
| Money Market Accounts | 4,199 | 0.00 |
| US Treasury Notes | <u>1,514,046</u> | 1.54 |
| Total Fair Value | <u>\$4,628,818</u> | |
| Portfolio Weighted Average Maturity | | 0.60 |

Interest Rate Risk - In accordance with the investment policy, the District manages its exposure to declines in fair values by limiting the maturity of its individual investments to five years.

Credit Risk – It is the District’s policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments, which have a credit quality rating of the top 2 ratings issued by nationally recognized statistical rating organizations. The District’s investments in U.S. Treasury Notes and US Treasury Bills were rated AAA by Standard & Poor’s and Fitch Ratings and Aaa by Moody’s Investors Service. Investments in STAR Ohio were rated AAAM by Standard & Poor’s. Money Market Accounts were not rated.

Concentration of Credit Risk – The District’s investment policy allows investments in Federal Agencies or Instrumentalities. The District has invested 33% of the District’s investments in U.S Treasury Notes, 67% of the District’s investments are in STAR Ohio and less than 1% of the District’s investments in Money Market accounts.

Custodial Credit Risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the District’s securities are registered in the name of the District. The District does not have a policy for custodial credit risk.

Note 4 - Property Taxes

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real and public utility property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on real property at 35 percent of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. The District receives property taxes from the County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2014, are available to finance fiscal year 2015 operations. The amount available for advance can vary based on the date the tax bills are sent.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

On a full-accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

Accrued property taxes receivable represent delinquent taxes outstanding and real property, personal property and public utility taxes, which became measurable at June 30, 2014. The entire amount of delinquent taxes receivable is recognized as a revenue on the government-wide financial statements. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is available to finance current year operations. The receivable is, therefore, offset by a credit to deferred inflow of resources for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2014, was \$735,503 for General Fund and is recognized as revenue. The District receives taxes from Logan, Hardin, Champaign, Union, Madison, Allen, Shelby, Wyandot and Auglaize counties.

The assessed value, by property classification, upon which taxes collected in 2014 were based as follows:

| | <u>Amount</u> |
|--------------------------------------|-------------------------------|
| Tangible and Public Utility Personal | \$146,975,400 |
| Real Estate | <u>2,912,737,150</u> |
| Total | <u><u>\$3,059,712,550</u></u> |

Note 5 – Receivables

Receivables at June 30, 2014, consisted of taxes, accounts (student fees), intergovernmental grants, interfund and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables follows:

| | <u>Amounts</u> |
|---------------------------|------------------------|
| Other Governmental Funds: | |
| Vocational Education | 29,400 |
| Improving Teacher Quality | <u>356</u> |
| Total | <u><u>\$29,756</u></u> |

Note 6 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2014, was as follows:

This Space Intentionally Left Blank

Note 7 - Long-Term Liabilities

The change in the District's long-term obligations during the year consist of the following:

| | Beginning Balance | Issued | Retired | Ending Balance | Due In One Year |
|---|----------------------|-----------------|------------------|-------------------|--------------------|
| Governmental Activities: | | | | | |
| ODE Construction/Equipment Loan | \$233,337 | \$0 | \$33,333 | \$200,004 | \$33,334 |
| 2012 Refunded HB264 Energy Conservation | 376,450 | 0 | 376,450 | 0 | 0 |
| Total Long-Term Debt | 609,787 | 0 | 409,783 | 200,004 | 33,334 |
| Compensated Absences | 846,658 | 41,345 | 119,876 | 768,127 | 120,162 |
| Total Governmental Activities | <u>\$1,456,445</u> | <u>\$41,345</u> | <u>\$529,659</u> | <u>\$968,131</u> | <u>\$153,496</u> |

The following is a summary of the District's future annual debt service requirements for general obligations:

| Fiscal Year Ending June 30 | Principal | Interest | Total |
|-------------------------------|------------------|------------|------------------|
| 2015 | \$33,334 | \$0 | \$33,334 |
| 2016 | 33,334 | 0 | 33,334 |
| 2017 | 33,334 | 0 | 33,334 |
| 2018 | 33,334 | 0 | 33,334 |
| 2019 | 33,334 | 0 | 33,334 |
| 2020 | 33,334 | 0 | 33,334 |
| Total | <u>\$200,004</u> | <u>\$0</u> | <u>\$200,004</u> |

Vocational Building Assistance Loan – On April 25, 2005, the District received a loan for \$500,000. A portion of the loan proceeds has been used to purchase equipment under the authority of House Bill 66 and the District still holds a portion of the loan proceeds in the Permanent Improvement Fund. The loan was issued for a fifteen-year period at 0% with final maturity during fiscal year 2021. The debt will be retired from the general fund.

On September 15, 2011, the District issued \$627,418 in serial bonds with an average interest rate of 2.90% of which was used to advance refund \$627,418 of outstanding 2008 Energy Conservation Notes with variable interest rates. The net proceeds of \$627,418 (after payment of underwriting fees, insurance and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide all future debt service payments on the bond issue. This bond issue was paid off during fiscal year 2014.

The District originally received an issuance amount of \$1,125,000, which \$497,582 of this original issue amount was unused. The District used the unused amount of \$497,582 to pay down the \$1,125,000 to \$627,418. The District received an interest savings of \$96,891.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

Note 8 - Pension Plans

School Employees Retirement System of Ohio

Plan Description

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement, disability, and survivor benefits; annual cost-of-living adjustments; and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained on SERS' website at www.ohsers.org under *Employers/Audit Resources*.

Funding Policy

Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care fund) of the System. For fiscal year ending June 30, 2014, the allocation to pension and death benefits is 13.10%. The remaining 0.90% of the 14% employer contribution rate is allocated to the Health Care and Medicare B Funds. The District's contributions to SERS for the years ended June 30, 2014, 2013, and 2012 were \$198,690, \$214,768, and \$184,432, respectively; contributions equaled the required contributions for each year.

State Teachers Retirement System of Ohio

Plan Description

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement system. STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, community school, college, university, institution, or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof. Additional information or copies of STRS Ohio's *Comprehensive Annual Financial Report* can be requested by writing to STRS Ohio, 275 E. Broad Street, Columbus, OH 43215-3771, by calling toll-free 1-888-227-7877, or by visiting the STRS Ohio web site at www.strsoh.org.

Plan Options

New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 9.5% of earned compensation among various investment choices. The Combined Plan offers features of the DC Plan and DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

DB Plan Benefits

Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the “formula benefit” or the “money-purchase benefit” calculation. Under the “formula benefit,” the retirement allowance is based on years of credited service and final average salary, which is the average of the member’s three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31st year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the “money-purchase benefit” calculation, a member’s lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits

Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 9.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members’ accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member’s designated beneficiary is entitled to receive the member’s account balance.

Combined Plan Benefits

Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member’s defined benefit is determined by multiplying 1% of the member’s final average salary by the member’s years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3% of the original base amount for DB Plan participants.

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalizations,

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

Funding Policy

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 11% for members and 14% for employers.

Contribution requirements and the contributions actually made for the fiscal year ended June 30, 2014, were 11% of covered payroll for members and 14% for employers. The District's contributions to STRS for the years ended June 30, 2014, 2013, and 2012 were \$658,485, \$751,852, and \$687,084, respectively; 100% has been contributed for fiscal year 2014, 2013 and 2012.

Note 9- Post Employment Benefits

School Employees Retirement System of Ohio

Plan Description

In addition to a cost-sharing multiple-employer defined benefit pension plan, the School Employees Retirement System of Ohio (SERS) administers two postemployment benefit plans.

Medicare Part B Plan

The Medicare B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2013 was \$104.90 for most participants, but could be as high as \$335.70 depending on their income; SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2014, the actuarially required allocation was 0.74%. District contributions for the years ended June 30, 2014, 2013 and 2012 were \$10,502, \$11,352, and \$10,892, respectively, which equaled the required contributions each year.

Health Care Plan

ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMO's, PPO's, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The Health Care Fund was established under, and is administered in accordance with, Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund. At June 30, 2014, the health care allocation was 0.16%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2014, the minimum compensation level was established at \$20,525. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District contributions assigned to health care for the years ended June 30, 2014, 2013, and 2012 were \$22,796, \$22,979, and \$38,959, respectively.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care and Medicare B plans are included in its *Comprehensive Annual Financial Report*. The report can be obtained on SERS' website at www.ohsers.org under *Employers/Audit Resources*.

State Teachers Retirement System of Ohio

Plan Description

STRS Ohio administers a pension plan that is comprised of: a Defined Benefit Plan; a self-directed Defined Contribution Plan and a Combined Plan that is a hybrid of the Defined Benefit and the Defined Contribution Plan.

Ohio law authorized STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums.

Pursuant to 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent *Comprehensive Annual Financial Report* by visiting www.strsoh.org or by requesting a copy by calling toll-free 1-888-227-7877.

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

Funding Policy

Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14% employer contributions rate, 1% of covered payroll was allocated to post-employment health care for the year ended June 30, 2014, 2013 and 2012. The 14% employer contribution rate is the maximum rate established under Ohio law. The District contributions for the years ended June 30, 2014, 2013, and 2012 were \$47,035, \$53,704, and \$52,853, 100% has been contributed for fiscal year 2014, 2013 and 2012.

Note 10 - Contingent Liabilities

Grants

The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds.

However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District as of June 30, 2014.

Note 11 - Risk Management

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District's vehicles are covered under a business policy with the Cincinnati Insurance Company, which carries a \$2,500 deductible and a \$1,000,000 limit on any accident. Settled claims have not exceeded this commercial coverage in any of the past four years.

The District is exposed to various risks of loss related to torts, theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the fiscal year 2013, the District contracted with the Ohio School Plan for general liability insurance with a \$5,000,000 single occurrence and a \$7,000,000 aggregate. Building and business personal property is protected by the Cincinnati Insurance Company and has a \$2,500 deductible. In the event of an earthquake, a \$5,000 deductible applies. The District insures electronic data processing equipment in the amount of \$500,000 and electronic data processing media in the amount of \$106,250 with extra expenses in the amount of \$150,000 for labor costs to get the system back online. The District's deductible for electronic data processing is \$500.

Settled claims have not exceeded this commercial coverage in any of the past four years.

Workers' Compensation

For fiscal year 2014, the District participated in the Northern Buckeye Education Council Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 13). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley Uniservice provides administrative, cost control and actuarial services to the GRP.

Settled claims have not exceeded this commercial coverage in any of the last three years. There have been no significant reductions in coverage from last year.

Note 12 - Jointly Governed Organization

Western Ohio Computer Organization (WOCO) - The District is a participant in the Western Ohio Computer Organization (WOCO). WOCO is an association of public school districts within the boundaries of Hardin, Auglaize, Shelby, Logan, Miami and Champaign Counties. The organization was formed for the purpose of applying modem technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. Financial information can be obtained from Don Walls, who serves as Director, at 129 East Court Street, 4th Floor, Sidney, Ohio 45365.

Each of the governments of these districts supports WOCO based upon a per pupil charge dependent on the software package utilized. In accordance with GASB Statement No. 14 and 61, the District does not have an equity interest in WOCO, as the residual interest in net resources of the joint venture upon dissolution is not equivalent to an equity interest. WOCO is governed by a board of directors consisting of the superintendents of the member school districts and the degree of control is limited to the representation on the board.

Note 13 - Insurance Pools

Northern Buckeye Education Council Workers' Compensation Group Rating Plan – The District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Northern Buckeye Education Council Workers' Compensation Group Rating Plan (the "Plan") was established through the Northern Buckeye Education Council (NBEC) as an insurance purchasing pool. The Plan is governed by the Northern Buckeye Education Council and the participants of the Plan. The Executive Director of the NBEC coordinates the management and administration of the Plan. Each year, the participants pay an enrollment fee to the Plan to cover the costs of administering the program. The firm of Sheakley Uniservice provides administrative, cost control and actuarial services to the GRP.

Logan County Schools Benefit Plan Association – The District participates in the Logan County Schools Benefit Plan Association (the Plan); a public entity shared risk pool consisting of three local school districts, one joint vocational school district and the Logan County Educational Service Center. The District pays monthly premiums to the Plan for employee medical benefits. The Plan is responsible for the payment of all Plan liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal. As of January 1, 2014, this plan became self insured. On January 1, 2014, the Logan County School Employee Consortium formed a regional council of governments (the "COG") for the purpose of providing benefits through a self-funded insurance pool. The COG collects premiums

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

from the Logan County School Employee Consortium participants and pays a third-party administrator to process the claims.

Note 14 – Accountability

The following funds had a deficit in fund balance:

| | |
|---------------------------|----------|
| Other Governmental Funds: | |
| Vocational Education | \$29,846 |

The deficit in fund balances were due to accruals in GAAP. The general fund is liable for any deficit in these funds and will provide operating transfers when cash is required not when accruals occur.

Note 15 - Statutory Reserves

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. The District utilizes the House Bill 412 calculation for the Capital Improvements set-aside. Amounts not spent by year-end or offset by similar restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of the information is required by State statute.

| | <u>Capital Acquisition</u> |
|---|--------------------------------|
| Set Aside Reserve Balance as of June 30, 2013 | \$0 |
| Current Year Set Aside Requirements | 111,580 |
| Qualified Disbursements | <u>(578,140)</u> |
| Total | <u>(466,560)</u> |
| Set Aside Balance Carried Forward to Future Years | <u>\$0</u> |

Note 16 - Interfund Transactions

Interfund transactions at June 30, 2014, consisted of the following transfers in and out as well as interfund fund receivables and payables:

| | Interfund | | Transfers | |
|--------------------------|-------------------|-----------------|-----------------|-----------------|
| | <u>Receivable</u> | <u>Payable</u> | <u>In</u> | <u>Out</u> |
| General Fund | \$30,271 | \$0 | \$0 | \$50,000 |
| Other Governmental Funds | <u>0</u> | <u>30,271</u> | <u>50,000</u> | <u>0</u> |
| Total All Funds | <u>\$30,271</u> | <u>\$30,271</u> | <u>\$50,000</u> | <u>\$50,000</u> |

Interfund balances are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budget

Ohio Hi-Point Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2014

authorizations; to segregate and to return money to the fund from which it was originally provided once a project is completed.

Note 17 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

| Fund Balances | General | Other Governmental Funds | Total |
|-----------------------------|--------------------|--------------------------------|--------------------|
| Restricted for: | | | |
| Other Grants | \$0 | \$1,193 | \$1,193 |
| Adult Basic Education | 0 | 1,919 | 1,919 |
| Improving Teacher Quality | 0 | 235 | 235 |
| Food Service | 0 | 3,698 | 3,698 |
| Debt Service | 0 | 85,277 | 85,277 |
| Permanent Improvement | 0 | 75,225 | 75,225 |
| Total Restricted | 0 | 167,547 | 167,547 |
| Committed to: | | | |
| Termination Benefits | 585,407 | 0 | 585,407 |
| Total Committed | 585,407 | 0 | 585,407 |
| Assigned to: | | | |
| Encumbrances | 188,865 | 0 | 188,865 |
| Total Assigned | 188,865 | 0 | 188,865 |
| Unassigned (Deficit) | 8,994,735 | (29,846) | 8,964,889 |
| Total Fund Balance | \$9,769,007 | \$137,701 | \$9,906,708 |

Note 18 – Change in Accounting Principles

The District adopted the provisions of GASB Statement Number 65, *Items Previously Reported as Assets and Liabilities*. GASB Statement Number 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012 and have been implemented by the District.

See accompanying notes to the required supplementary information.

Ohio Hi-Point Joint Vocational School District
Notes to the Required Supplementary Information
For The Year Ended June 30, 2014

Note 1 - Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the five year forecast and "voted and unvoted debt outside the \$10 mill limit", the appropriations resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The five year forecast demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund and function level. Any budgetary modifications at this level may only be made by resolution of the Board.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the fiscal year 2014.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as assigned to a fund balance for governmental fund types (GAAP basis).
4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.
5. Some funds are reported as part of the general fund (GAAP basis) as opposed to the general fund being reported alone (budget basis).

Ohio Hi-Point Joint Vocational School District
Notes to the Required Supplementary Information
For The Year Ended June 30, 2014

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance

| | <u>General Fund</u> |
|----------------------|-------------------------|
| GAAP Basis | \$635,756 |
| Revenue Accruals | (211,421) |
| Expenditure Accruals | 338,841 |
| Transfers (Out) | (500,000) |
| Advances In | 317,744 |
| Advances (Out) | (156,301) |
| Encumbrances | <u>(220,207)</u> |
| Budget Basis | <u><u>\$204,412</u></u> |

**OHIO HI-POINT JOINT VOCATIONAL SCHOOL DISTRICT
LOGAN COUNTY**

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FISCAL YEAR ENDED JUNE 30, 2014**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports Ohio Hi-Point Joint Vocational School District's (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting. Receipts are recognized when received rather than when earned, and expenditures are recorded when paid rather than when the obligation is incurred.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

NOTE D - MATCHING REQUIREMENTS

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

Dave Yost • Auditor of State

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Ohio Hi-Point Joint Vocational School District
Logan County
2280 State Route 540
Bellefontaine, Ohio 43311

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Ohio Hi-Point Joint Vocational School District, Logan County, (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 16, 2015. We noted the District adopted the provisions of Governmental Accounting Standard No. 65, *Items Previously Reported as Assets and Liabilities*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

Dave Yost

Dave Yost • Auditor of State

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Ohio Hi-Point Joint Vocational School District
Logan County
2280 State Route 540
Bellefontaine, Ohio 43311

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Ohio Hi-Point Joint Vocational School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the Ohio Hi-Point Joint Vocational School District's major federal program for the year ended June 30, 2014. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the Ohio Hi-Point Joint Vocational School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2014.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.
