City Council
City of Chillicothe
35 South Paint Street
Chillicothe, Ohio 45601

We have reviewed the Independent Auditor's Report of the City of Chillicothe, Ross County, prepared by Millhuff-Stang, CPA, Inc., for the audit period January 1, 2015 through December 31, 2015. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Chillicothe is responsible for compliance with these laws and regulations.

City of Chillicothe
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended December 31, 2015

Note 1 – Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of the City of Chillicothe, Ohio (the City) under programs of the federal government for the year ended December 31, 2015. The information on this schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

Note 2 – Significant Accounting Policies

Expenditures reported on the schedule are reported on the cash basis of accounting. Such expenditures are recognized following either the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), or the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3 – Formula Grants for Rural Areas

Cash receipts from the Ohio Department of Transportation are commingled with State grants and other local monies. It is assumed federal monies are expended first.

Note 4 – Matching Requirements

Certain federal programs require that the City contribute non-federal funds (matching funds) to support the federally-funded programs. The City has complied with the matching requirements. The expenditure of non-federal matching funds is not included on the schedule.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Independent Auditor's Report

City Council
City of Chillicothe
35 South Paint Street
Chillicothe, Ohio 45601

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Chillicothe, Ross County (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 25, 2016, wherein we noted the City adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27," and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68."

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiencies, described in the accompanying schedule of findings and questioned costs as item 2015-001, that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City's Response to Findings

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance For Each Major Program; Report on Internal Control Over Compliance; and
Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

Independent Auditor's Report

City Council
City of Chillicothe
35 South Paint Street
Chillicothe, Ohio 45601

Report on Compliance for Each Major Federal Program

We have audited the City of Chillicothe's, Ross County (the City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended December 31, 2015. The City's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the City's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the City's major federal program for the year ended December 31, 2015.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated July 25, 2016, which contained unmodified opinions on those financial statements, wherein we noted the City adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27," and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68." Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Section II – Financial Statement Findings

Finding 2015-001 – Material Weakness – Financial Reporting and Federal Schedule Presentation

A monitoring system by the City should be in place to prevent or detect misstatements to help ensure the accurate presentation of the City’s financial statements and federal schedule. Various errors were identified in the financial statements, including errors related to accruals, revenue and expenditure classifications, net position and fund balance classifications, the presentation of cash in segregated accounts, and the omission of a new fund. Certain errors were corrected in the financial statements to ensure the financial statements were not materially misstated. Other errors were immaterial to the financial statements and were not deemed necessary to correct. In addition, errors and omissions were also identified in the federal schedule, which were corrected as deemed appropriate. The City should implement monitoring procedures over the financial reporting and federal schedule preparation processes to ensure that financial and federal grant information presented is fairly stated.

Client Response:

The City is aware of the situation and errors and will work with the compiler to resolve this deficiency going forward. The City plans to implement new financial software within the next six months. This will improve financial reporting and help ensure accurate information is available.

CHILLICOTHE
OHIO'S FIRST CAPITAL

KRISTAL SPETNAGEL
CITY AUDITOR

July 25, 2016

TO: The Honorable Citizens of Chillicothe
Mayor, Law Director, Treasurer, and Members of City Council

FROM: City Auditor Kristal Spetnagel and Staff

The Auditor's office is pleased to submit the Comprehensive Annual Financial Report (CAFR) for the City of Chillicothe for the year ended December 31, 2015. This report, prepared by the City Auditor's Office, contains a comprehensive analysis of the City's financial position and activities for the year 2015. It is intended to provide all pertinent and necessary financial information to the Citizens of Chillicothe.

Responsibility for both the accuracy of the data presented and the completeness of the presentation rests with the City's management. We believe that this data is accurate in all material respects and that it is presented in a manner which fairly sets forth both the financial position of the City and the operation of the City. It is hoped that this report will enable our citizens to better understand all of our City's services and functions as we strive to better serve the people of Chillicothe.

This Comprehensive Annual Financial Report is based on Governmental Accounting Standards Board Statement No. 34. Statement No. 34 was implemented to make annual financial reports easier to understand and more comprehensive for those who analyze these governmental reports.

Generally accepted accounting principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement, and should be read in conjunction with, MD&A. The City of Chillicothe's MD&A can be found immediately following the Independent Auditor's opinion letter.

Audit

The 2015 basic financial statements were audited by Millhuff-Stang C.P.A., Inc. This audit was conducted according to generally accepted auditing standards and Government Auditing Standards and included a legal and financial compliance audit, a review of internal controls, and tests of transactions. The Independent Auditor's opinion letter is at the beginning of the financial section.

Reporting Entity

In accordance with the Governmental Accounting Standards Board (GASB) Statement 14 as amended by GASB Statements No. 39 and 61, the following is a brief definition of the reporting entity. This report includes all funds, agencies, boards, and commissions for which the City is financially accountable. In considering that responsibility the City must determine whether an entity is fiscally independent of the City and whether it has the ability to significantly influence operations, select the governing authority, designate management, and maintain accountability over fiscal matters of the entity. The reporting entity is discussed in more detail in Note 1 of the Notes to the Basic Financial Statements.

History and City Organization

The City of Chillicothe, the first capital of the State of Ohio, was founded in 1796 and served as Ohio's Capital twice from 1803 to 1809 and from 1812 to 1816. Located in Ross County, at the intersection of Routes 23, 35, and 50 approximately 45 miles south of Columbus, Ohio, Chillicothe covers 9.7 square miles and has approximately 21,738 citizens according to the 2015 Census Bureau estimates. The City has twelve public parks consisting of 225 acres, six public schools, one parochial school, one charter school, a branch of Ohio University, and two public libraries.

The City has operated under the Mayor - Council form of Government since 1965 and functions as such under the Ohio Revised Code statutes of law. The Mayor is elected to four-year terms and serves as the Chief Executive and Administrative Officer of the City. The Mayor is charged with enforcing the laws of Ohio and all City ordinances, and appoints and removes all heads of departments except other elected officials and their employees. The Mayor has the authority to veto any legislation passed by City Council. Such veto may be overturned by a two-thirds vote of City Council.

The Auditor is elected to four-year terms and serves as the Chief Fiscal Officer of the City and has all the powers and duties as imposed by the laws of the State of Ohio. The City Auditor keeps the books of the City, receives all funds for the City and all its departments, and deposits all monies belonging to the City or held in trust by it. The City Auditor is responsible for the Tax Auditor and the collection of City income tax.

The City Auditor is also responsible for the issuing of all bonds and notes of the City. The Investment Board, made up of the City Auditor, the Mayor, and the Law Director, determines the investments of the City's monies. City monies are invested within the framework of the policy established by City Ordinance #100-96. The City invests in certificates of deposit with local approved banks, through a bid process, which is conducted by the City Auditor's Office whenever monies are available to invest in Treasury Notes and Money Market Funds.

The Treasurer, also elected to four-year terms, signs all receipts and vouchers for payment and serves as a check and balance to the City Auditor.

City in all civil and criminal matters.

City Council consists of nine members plus the President of Council, all of whom are elected to two-year terms, and serves as the legislative branch of City Government. They are responsible for enacting ordinances and resolutions, appropriating funds, levying taxes, and fixing compensation for all City Officials and employees. Council appoints a Clerk of Council to assist them in legislative matters.

The City also operates a Municipal Court that employs two Judges, elected for six-year terms, and a Municipal Clerk of Court.

A complete list of elected officials and department heads, along with an organizational chart is included at the end of this section.

The City employs approximately 327 people, both full-time and permanent part-time, to serve the citizens of Chillicothe in the various departments described as follows: Public Safety (Police, Fire, and School Patrol), Recreation (Parks and Recreation), Utilities (Water, Sewer, and Sanitation), Transportation (Bus System), Community Environment (Planning, Zoning, and Economic Development), Streets (Engineering and Service Departments), General Government (Administrative services, including Municipal Court), and Finance (Auditor, Tax Auditor, and Treasurer).

Economic Outlook

Chillicothe and Ross County have a strong shared history as a regional commerce center and trade route. The original trade route through Chillicothe was the Scioto River, which has long since been replaced by the intersecting U.S. Routes 23 and 35. The intersecting highways make the area ideal for manufacturing, retail, and entertainment.

Employment in the Chillicothe and Ross County region is dominated by manufacturing (PH Glatfelter Co., PACCAR Inc.), government (Ross County, City of Chillicothe, Ohio University Chillicothe), and healthcare (Adena Regional Medical Center). According to the Bureau of Labor Statistics the average unemployment rate for the Chillicothe Metropolitan area in 2015 was 5.4% which is the lowest it has been since 2006 when it was 6.2% and is half of the peak in 2009 of 12.5%.

Other developments of note:

In 2015 Chillicothe ranked 39th on Site Selection Magazine's list of the top 100 Micropolitan areas in the United States.

Glatfelter Paper Company, one of the region's largest employers, has made a strong commitment to having a long term presence in Chillicothe. The company has started a \$31 million dollar project to convert two boilers from coal power to natural gas. A project and investment of this size sends a clear message to the community that the Glatfelter Corporation and the paper mill will be a part of Chillicothe for a long time to come.

Another of the region's largest employers is investing in its facility; the Paccar Corporation is well underway on a \$17 million dollar construction project on its Kenworth Chillicothe plant. The project is a 25,000 square foot addition to the facility, which is being built on-top of its current facility. The additional space is designed to enhance truck quality and build efficiency and is a strong sign to Chillicothe and the region that Kenworth is here to stay. Just down the road from Kenworth, Riffle Machine Works announced a \$2.9 Million dollar expansion of its facility in early 2016, its third major expansion since 2007.

North Bridge Street continues to be a regional hub for shopping and dining, and construction on this thoroughfare seem to be nonstop. The most notable of the current projects is the construction of a Fairfield Inn and Suites that is expected to open in the fall of 2016.

Last but not least, Downtown Chillicothe's dramatic revitalization continues to gain momentum. In the fall of 2015 the \$10 Million restoration of the Carlisle Building was complete and the doors to the new mixed-use building opened. Major investment continues across downtown, with major renovations underway to prepare for everything from a brew pub to a children's museum.

Long-Term Financial Planning

Chillicothe voters passed two independent income tax levies in May of 2015, both of which were for .02%. The first is dedicated to the City Street construction, maintenance, and repair while the other is dedicated to safety services. The overall Chillicothe City income tax increased from 1.6% to 2.0% effective January 1, 2016. The levy is aimed at paving the streets of Chillicothe and restoring the safety levy capital account to its full potential, allowing Police and Fire to catch up on needed capital improvements. In September of 2015 the City borrowed \$2,000,000 to begin road construction projects. Those projects started in late fall of 2015 spending approximately \$1,600,000 through June 2016. The bond financing will mature in September of 2016.

After the recession hit Chillicothe lost several revenue streams which did not allow for many capital projects to be completed and many capital purchases to be cut from the budget. The City plans to re-evaluate the current Capital Improvement plan to identify, prioritize, and evaluate much needed capital projects and equipment purchases throughout the City. Reviewing the plan could help the City stabilize debt and consolidate projects to reduce expenses or prevent unnecessary borrowing.

The City has recently sent an assignment to council to begin the process of establishing a Strategic plan that will be used to set priorities, focus energy and resources, strengthen operations, and ensure that the City is working toward common goals. The Strategic plan will offer direction, and help make decisions on allocating its resources and funding to pursue capital projects or other development needs. It will also lay down a path to meet estimated future financial or capital needs to ensure a strong financial position in the future.

The City will also begin discussing the creation of a Budget Stabilization Fund to assist in stabilizing revenues during periods of economic recession or budget crisis. The

fund would provide a safeguard to protect critical programs during an economic downturn and help the City maintain a balanced budget.

Relevant Financial Policies

The City formally adopted an investment policy by City Ordinance #100-96 which makes it the City Auditor's responsibility to invest all the City's funds in certificates of deposit, money markets, and Treasury Notes with local approved banks. These certificates of deposit range in length from 30 days to one year and are awarded on a bid basis to the institution having the best bid whenever an investment is to be made. The policy further encourages the City to take advantage of every opportunity to earn interest on other funds, including the float on outstanding checks and funds being held by bond trustees. Interest earned on all investments is designated to the General Fund by law. The only exception is for specifically designated trustee funds and borrowed funds for major projects such as those within the Water and Sewer funds.

In addition to its investment policy, the City has various other policies in place as well. For example, the City adopted a formal payroll policy by City Ordinance #75-08 and an identity theft protection policy by City Ordinance #27-09. The City also has a disaster recovery and business continuity plan which is updated annually and shared among management. These policies are designed to provide guidance and standards for financial decision-making and to promote consistency in matters such as budgeting, financial reporting, asset and debt management, and internal controls.

Budgetary Controls

The City Council adopts an annual appropriation ordinance at the beginning of each fiscal year (January 1st to December 31st). This appropriation is done in basic categories such as personal services (salaries and fringe benefits), travel transportation, materials and supplies, contractual services, capital outlay, miscellaneous expenditure/expense, transfers and debt service, for each department. Within the travel transportation, materials, and supplies, contractual services and miscellaneous expenditure/expense categories, departments make needed adjustments throughout the course of the year as necessary. During the course of the year, only City Council may authorize by ordinance any additions, deletions, or changes between funds as they have originally been appropriated.

Within each fund and/or department these dollars are maintained, as appropriated, on a daily basis by the Auditor's Office with weekly detailed budget expense reports distributed to all departments. Each department controls its own expenditures/expenses and budgets.

The City maintains its budgetary control by not allowing expenditures/expenses plus encumbrances to exceed appropriations at the object level. All purchases are processed through the computer system in two stages. A department first initiates a purchase by issuing a purchase requisition which is approved by the Purchasing Agent, the Mayor, and then by the City Auditor. This requisition is then converted into a purchase order, which is again signed by both the Purchasing Agent and the City Auditor, and then forwarded to the

appropriate vendor. It is important to note that the Auditor approves as to availability of funds and reviews the legality of the expenditures. It should also be noted that any purchase in excess of \$500 must be approved by the Board of Control, which consists of the Mayor, Service Director, and Safety Director.

Internal Controls

The City's accounting system has in place many internal controls to ensure reasonable, although not absolute, assurance that all of the City's assets are protected against loss from unauthorized or improper use or disposition. These controls require that all executed transactions follow set guidelines and are subject to multiple approvals. These controls are designed to ensure that explicit and complete financial records are maintained to the satisfaction of the City Auditor and meet GAAP financial guidelines. It should be noted that the "reasonable assurance" concept recognizes that the cost of a control should not exceed the benefits likely to be derived therefrom and that it is the task of management to make that evaluation.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Chillicothe for its Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2014. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Chillicothe has now received a Certificate of Achievement for twenty-four consecutive years. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

Acknowledgement

This Comprehensive Annual Financial Report for the City of Chillicothe is the 25th for our City and represents not only a tremendous effort on the part of the Auditor's staff but is indicative of the professionalism of all the people involved. With this report our taxpayers may now better understand the operation of our City and its basic financial structure.

I would first like to thank all members of my staff who are listed on page 12 who spent many hours compiling and entering the data for this report.

I would also like to thank J.L. Uhrig & Associates, C.P.A. for their efforts. Without their assistance, this project would have been extremely difficult to accomplish and certainly would not have achieved the high level of professionalism exhibited herein. I send my thanks also to Millhuff-Stang C.P.A., Inc. for their assistance and helpful service.

Finally, I would like to thank our City Council members and the Administration for their cooperation and support throughout this project.

Respectfully yours,

Kristal Spetnagel

Independent Auditor's Report

City Council
City of Chillicothe

Chillicothe, Ohio 45601

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chillicothe, Ross County (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chillicothe, Ross County, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund, Street Construction Maintenance & Repair Fund, and Bus Transit Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in note 5 to the financial statements, during 2015, the City adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27," and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68." We did not modify our opinion regarding these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 13 through 23 and the net pension liability and employer contributions schedules on pages 81 through 86 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 25, 2016 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

The discussion and analysis of the City of Chillicothe's financial performance provides an overall review of its financial activities for the year ended December 31, 2015. The purpose of this discussion and analysis is to look at the City's financial performance and discuss pertinent points to better help the reader understand our performance.

Financial Highlights

1. The City of Chillicothe's total net position decreased \$817,675; net position of the governmental activities decreased \$1,515,231; and net position of the business-type activities increased \$697,556.
2. The General Fund balance of \$2,976,436 increased \$691,759 or 30.28%, from the previous year's balance of \$2,284,677. This was primarily due to a slight decrease in expenditures and an increase in revenues.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Chillicothe's basic financial statements. The City of Chillicothe's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements - The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Chillicothe's finances, in a manner similar to private-sector businesses.

The *statement of net position* presents information on all of the City of Chillicothe's assets, liabilities, and deferred inflows/outflows of resources with the difference between these reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Chillicothe is improving or deteriorating.

The *statement of activities* presents information showing how the City of Chillicothe's net position changed during the recent fiscal year.

Both of the government-wide financial statements distinguish functions of the City of Chillicothe that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, security of persons and property, transportation, community environment, basic utility services and leisure time activities. The business-type activities include water and sewer operations.

The government-wide financial statements can be found starting on page 24 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required to be established by State law and by bond covenants.

However, the Auditor establishes many other funds to help control and manage money for particular purposes or to show that the City of Chillicothe is meeting legal responsibilities for using certain taxes, grants, and other money. All of the funds of the City of Chillicothe can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds - Most of the City of Chillicothe's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. The governmental fund statements use the modified accrual basis of accounting and provide a detailed short-term view of its general government operations and the basic services it provides. Governmental fund information may be useful in evaluating a government's near term financing requirements. We describe the relationship (or differences) between governmental activities (reported in the *statement of net position* and the *statement of activities*) and governmental funds in a reconciliation which follows the fund financial statements.

The City of Chillicothe maintains 25 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances, for the General Fund, Street Construction Maintenance and Repair Fund and Bus Transit Fund, which are considered to be major funds. Data from the other 22 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Chillicothe adopts an annual appropriated budget for each of its funds. A budgetary comparison schedule (budget basis) has been provided in the combining and individual fund section of this report for each governmental and proprietary fund to demonstrate budgetary compliance.

Proprietary Funds - The City maintains two different types of proprietary funds; enterprise funds and internal service funds. The City of Chillicothe uses enterprise funds to account for its water and sewer operations. Proprietary funds are reported in the same way that all activities are reported in the *statement of net position* and the *statement of activities* using the full accrual basis of accounting. The City of Chillicothe has two funds that are considered to be major funds, the Water and Sewer funds. Internal service funds are an accounting device used to accumulate and allocate cost internally among the City's various functions. The City uses an internal service fund to account for the fuel purchasing program of the City. Because this service predominately benefits governmental rather than business-type functions, it has been included with governmental activities in the government-wide financial statements.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources from those funds are not available to support the City's programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Government-Wide Financial Analysis

While this document contains information about the funds used by the City of Chillicothe to provide services to our citizens, the view as a whole looks at all financial transactions. The *statement of net position* and the *statement of activities* include all assets, liabilities and certain deferred inflows/outflows of resources using the full accrual basis of accounting similar to the accounting used by the private sector. The basis for this accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

City of Chillicothe, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

During 2015, the City adopted GASB Statement No. 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement No. 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of these financial statements will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the City's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service,
2. Minus plan assets available to pay these benefits.

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is included within the long-term liability section of the statement of net position.

In accordance with GASB 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at December 31, 2014 from \$38,708,956 to \$22,597,708 for governmental activities and from \$41,414,252 to \$39,681,620 for business type activities.

Current and other assets of governmental activities increased by \$2,234,207 or 23.97% due to increases in cash and cash equivalents held by the City primarily for unspent note proceeds. Capital assets of the governmental activities decreased \$1,880,240 or 4.78% due to depreciation expense exceeding acquisitions. Current and other liabilities of the governmental activities increased by \$1,910,803 or 121.14% due to a new \$2,000,000 note payable. Long-term liabilities increased as a result of the implementation of GASB 68 and new method of accounting for pension liability.

Current and other assets of business-type activities increased by \$636,052 or 7.05% as a result of an increase in equity in pooled cash and cash equivalents. Capital assets decreased by \$312,430 or 0.84% due to depreciation for the year. Current and other liabilities of business-type activities increased by \$18,980 or 6.57% due to an increase in accrued wages and benefits. Long-term liabilities increased as a result of the implementation of GASB 68 and new method of accounting for pension liability.

The City of Chillicothe's total net position decreased from \$62,279,328 at the beginning of 2015 to \$61,461,653 at the end of the year, a change of \$817,675 or 1.31%. This decrease is the result of a decrease in the net position of the governmental activities of \$1,515,231 or 6.71% and an increase in the net position of the business-type activities of \$697,556 or 1.76%.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for years 2015 and 2014.

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$1,974,052 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expenses of \$2,124,155. Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed:

	Governmental Activities	Business-Type Activities	Total
Total 2015 program expenses under GASB 68	\$26,731,612	\$6,953,906	\$33,685,518

Governmental Activities

Governmental activities decreased the City of Chillicothe's net position by \$1,515,231, which is a change from the previous year's decrease of \$790,616. Expenditures increased for the year significantly more than revenues increased, which resulted in the decrease to net position.

Of the \$25,228,213 in total revenues, income and other taxes account for 48.64%; charges for services of \$7,273,909 account for 28.83%; operating grants and contributions account for 11.15%; capital grants and contributions account for 1.31%; and unrestricted grants and entitlements, property taxes, and other revenue make up the remaining 10.07%. The income and other tax revenue for 2015 was \$12,271,839, which was an increase of \$535,000 or 4.56%.

The largest functional expense for the City of Chillicothe was for security of persons and property, which includes the Police and Fire departments.

Business-Type Activities

The business-type activities of the City of Chillicothe, which include its water and sewer operations, increased the net position by \$697,556. The majority of the increase in net position is due to a decrease in expenses for the year.

Financial Analysis of the City of Chillicothe's Funds

Governmental Funds

The focus of the City of Chillicothe's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year. These funds are accounted for by using the modified accrual basis of accounting. The General Fund is the chief operating fund of the City of Chillicothe. At the end of 2015, the total fund balance for the General Fund was \$2,976,436 of which \$2,663,924 was unassigned.

During the current year, the fund balance of the General Fund increased by \$691,759. The increase in the General Fund balance was primarily the result of an increase in income tax revenue.

At the end of 2015, the Street Fund had a deficit fund balance of \$413,736, which is a decrease of \$680,872. This was a result of an increase in transportation expenditures for the year.

At the end of 2015, the Bus Transit Fund had a fund balance of \$760,489, which is an increase of \$427,103. This was a result of an increase in intergovernmental revenue for the year.

Proprietary Funds

During the current year, the net position of the City of Chillicothe's Water Fund increased by \$819,018 or 3.68%. The increase in the Water Fund net position is due mostly to the department controlling spending

and a decrease in materials and supplies expense.

During the current year, the net position of the Sewer Fund decreased by \$121,462 or 0.70%. The decrease in the Sewer Fund net position is the result of a slight increase in expenses during the year.

General Fund Budgeting Highlights

The City of Chillicothe's budget is prepared according to Ohio law and is based on accounting for certain transactions on a budget basis of cash receipts (revenues), and disbursements and encumbrances (expenditures). The most significant budgeted fund is the General Fund. During 2015, the City of Chillicothe amended its General Fund budget on various occasions. All recommendations for budget changes come to the Finance Committee of City Council for review before going to the whole Council for an ordinance on the change. The City of Chillicothe does allow small budget changes that modify line items within departments within the same fund.

For the General Fund, the original budgeted revenues were \$15,897,248 and the final budgeted revenue amount was \$16,484,114.

The largest difference between the General Fund's original budget and final budget was in Local Taxes, which increased \$287,700 or 2.80%. This was due to an increase in the estimated receipts for income tax.

The differences between the General Fund's original budget and final amended budget of expenditures amounted to a \$938,561 increase, which included a \$312,596 additional appropriation for Fire Department and \$306,250 in general government.

The difference between the General Fund's final budget and actual for the General Government expenditures was \$421,791 or 7.64%. This decrease in actual expenditures was primarily the result of decreases in materials and supplies in several departments.

Current Known Facts and Conditions

Chillicothe voters passed two independent income tax levies in May of 2015. Both levies were for .02%; one of which is dedicated to City Street construction, maintenance, and repair while the other is dedicated to safety services. The overall Chillicothe City income tax increased from 1.6% to 2.0% effective January 1, 2016. In September 2015 the City borrowed \$2,000,000 to begin road construction projects. Those projects started in late fall of 2015 spending approximately \$1,600,000 thru June 30, 2016. Significant retail development is ongoing on North Bridge Street at the Guernsey Crossing site. Retail sites including Dick's Sporting Goods, Ulta Beauty Supply, Panera Bread Co., and Five and Below were opened in the fall of 2015. Downtown development is strong as well, and the Carlisle building is in use once again. As the community continues to grow, industries such as Kenworth Truck Company are doing a lot of investing and Glatfelter is in the process of upgrading and recommitting to the community as well. In 2015 the City Auditor was elected Mayor. Mayor Feeney took his new position in January 2016. The new appointed City Auditor is Kristal Spetnagel.

 Reconciliation of Total Governmental Fund Balances to
 Net Position of Governmental Activities
 December 31, 2015

Total Governmental Fund Balances \$5,014,057

**Amounts reported for governmental activities in the
 statement of net position are different because:**

Capital assets used in governmental activities are not financial
 resources and therefore are not reported in the funds. 37,476,274

Other long-term assets are not available to pay for current-
 period expenditures and therefore are deferred in the funds:

Property and Other Taxes	49,989
Income Taxes	938,234
Intergovernmental	668,136
Special Assessments	8,872
	8,872

Total 1,665,231

Some interest is not due and payable in the current period and
 therefore is not reported in the funds. (13,926)

Some liabilities, including the bonds and loan payable, are not due
 and payable in the current period and therefore are not
 reported in the funds:

Refunding Bonds	(4,235,000)
General Obligation Bonds	(260,000)
Premium on Bonds	(28,209)
Loan Payable	(75,000)
Capital Leases Payable	(154,073)
Landfill Postclosure Costs	(262,077)
Compensated Absences Payable	(1,809,354)
	(1,809,354)

Total (6,823,713)

The net pension liability is not due and payable in the current
 period; therefore, the liability and related deferred
 inflows/outflows are not reported in the governmental funds:

Deferred Outflows - Pension	2,555,462
Deferred Inflows - Pension	(80,290)
Net Pension Liability	(18,751,653)
	(18,751,653)

Total (16,276,481)

An internal service fund is used by management to charge the costs of fuel purchasing
 program to individual funds. The assets and liabilities of the internal service fund are
 included in governmental activities in the Statement of Net Position.

 Reconciliation of the Statement of Revenues, Expenditures and Changes
 in Fund Balances of Governmental Funds to the Statement of Activities
 For the Year Ended December 31, 2015

Net Change in Fund Balances - Total Governmental Funds		\$461,905
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.		
Capital Asset Additions	1,540,353	
Current Year Depreciation	(3,362,393)	
Total		(1,822,040)
Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.		
		(58,200)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues.		
Delinquent Property Taxes	(1,310)	
Income Taxes	(128,741)	
Intergovernmental	(346,865)	
Delinquent Special Assessments	(1,172)	
Total		(478,088)
Repayment of bond, notes, loan and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		
Principal Retirement		728,014
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.		
		(432)
Other financing sources in the governmental funds that increase long-term liabilities in the statement of net position are not reported as revenues in the statement of activities.		
Proceeds from Bonds	(260,000)	
Premium on Bonds Issued	(5,234)	
Inception of Capital Leases	(74,924)	
Total		(340,158)
Landfill Closure expenditures that are reported as a reduction of a liability as a change in estimate and are reported in the statement of activities.		
		51,470
Some expenses in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures.		
Compensated Absences	62,243	
Premium on Bonds Issued	4,253	
Total		66,496
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of activities reports these amounts as deferred outflows.		
		1,700,403
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		
		(1,865,636)
The internal service fund used by management to charge the cost of fuel purchasing program to individual funds is not reported in the government-wide Statement of Activities. Governmental expenditures and the related internal service fund revenue are eliminated. The net revenue (expense) of the internal service fund is allocated among the activities.

**CITY OF CHILLICOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015**

NOTE 1 - DESCRIPTION OF THE CITY OF CHILLICOTHE

The City of Chillicothe (the City) was founded in 1796 and is a municipal corporation under the laws of the State of Ohio. The City operates under a Mayor-Council form of government. Legislative power is vested in a ten member council, each elected to two year terms. The Mayor, Auditor, Treasurer, and Law Director are elected to four-year terms.

The major services provided by the City include police and fire protection, civil and criminal justice system, street maintenance and repair, community environment, transportation, recreation, sanitation, and water and sewer services. The operation and control of these services is governed by the City Council through the budgetary process and by the Mayor through administrative and managerial requirements and procedures.

As required by generally accepted accounting principles, the basic financial statements present the City of Chillicothe (the primary government) and any component units.

In determining whether to include a governmental department, agency, commission, or organization as a component unit, the City must evaluate each entity as to whether they are legally separate and financially accountable based on criteria set forth by the Governmental Accounting Standards Board (GASB). Legal separateness is evaluated on the basis of (1) its corporate name, (2) the right to sue or be sued, and (3) the right to buy, sell, lease, and mortgage property. Financial accountability is based on (1) the appointment of the governing authority and (2) the ability to impose will or (3) the providing of specific financial benefit or imposition of a specific financial burden. Another factor to consider in this evaluation is whether an entity is fiscally dependent on the City.

In applying the above criteria, there are no component units to present outside the scope of the primary government (City).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the City's accounting policies are described below.

Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses.

For the most part, the effect of interfund activity has been removed from these statements. Interfund services provided and used are not eliminated on the statement of activities. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

CITY OF CHILlicoTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented as a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities, and deferred inflows of resources is reported as fund balance. The following are the City's major governmental funds:

General Fund - This fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Ohio.

Street Construction Maintenance & Repair Fund - To account for that portion of the state gasoline tax and motor vehicle registration fees designated for maintenance and repair of streets within the City.

Bus Transit Fund - This fund accounts for the operation of the City Bus Transit System. Principal sources of revenue are income tax revenue, charges for services, and grants.

The other governmental funds of the City account for grants and other resources whose use is restricted to a particular purpose for special revenue, debt service, permanent, and capital projects funds.

CITY OF CHILLICOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

Proprietary Funds

Proprietary fund reporting focuses on changes in net position, financial position, and cash flows. The City's proprietary funds are classified as either enterprise or internal service. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City, or to other governments, on a cost reimbursement basis. The following are the City's major enterprise funds:

Water Fund - This fund accounts for the provision of water treatment and distribution to its residential and commercial users located within the City.

Sewer Fund - This fund accounts for the provision of sanitary sewer service to the residents and commercial users located within the City.

The only internal service fund of the City accounts for a fuel purchasing program which provides bulk fuel purchases for vehicles of the various City departments.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. The City has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The City's agency funds account for assets that are held pending determination of their disposition and the City's Municipal Court balances.

Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, liabilities, and deferred inflows/outflows of resources associated with the operation of the City are included on the statement of net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current liabilities, and certain deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

CITY OF CHILlicothe, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets, all liabilities and deferred inflows/outflows of resources associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows/outflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available.

Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within sixty days of year-end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include municipal income taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from municipal income taxes is recognized in the period in which the income is earned (See Note 17).

Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 16). Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: municipal income taxes, state-levied locally shared taxes (including gasoline tax), grants, and interest.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

**CITY OF CHILLCOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015**

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Accounting and Control

Under Ohio law, City Council must adopt an appropriations budget by January 1st of a given year, or adopt a temporary appropriation measure with final passage of a permanent budget by April 1st, for all funds except Agency Funds. Budgets are adopted for each organizational unit by fund, department, and object.

Each City department prepares a budget which is approved by City Council. All modifications made throughout the year to the original department budgets must be requested by the departmental management and approved through legal resolution by City Council, except in the travel transportation, materials and supplies, and contractual services and miscellaneous or other expenditure categories of each department. Several budget modifications and supplemental appropriations were made during the year and each final budget amount reported in the budget to actual comparisons includes all modifications and supplemental appropriations that were necessary.

The City maintains budgetary control by object and ordinance does not permit expenditures and encumbrances to exceed appropriations for each object. Unencumbered and unexpended appropriations lapse at year-end in all budgeted funds.

Prior year encumbrances and corresponding prior year appropriations are carried forward as part of the budgetary authority for next year and are included in the original and final budget amounts shown in the budget-to-actual comparisons.

The City's budgetary process accounts for certain transactions on a budgetary basis instead of a GAAP basis. The major differences between the budget basis and the GAAP basis are that revenues are recorded when actually received (budget basis) as opposed to when susceptible to accrual (GAAP basis), and expenditures are recorded when paid (budget basis) as opposed to when incurred (GAAP basis).

Additionally, the City reflects outstanding encumbrances at year-end as expenditures on the budgetary basis.

Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled. Monies for all funds, except the HUD fund, are maintained in this pool. Monies in the HUD fund are maintained in separate bank accounts. Individual fund integrity is maintained through the City's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents."

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and investments with an original maturity of three months or less at the time of purchase.

Investments are reported at fair value which is based on quoted market prices.

Following the local ordinance of the City as well as Ohio statutes, the City has specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during 2015 amounted to \$14,811, which includes \$12,867 assigned from other City funds.

CITY OF CHILlicoTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

The City has segregated bank accounts for monies held separate from the City's treasury accounts. These interest-bearing depository accounts are presented on the statement of net position and balance sheet as "cash and cash equivalents in segregated accounts" since they are not required to be deposited into the City's treasury. The cash of the Municipal Court is included in this line item.

The City has bank accounts for monies held by a trustee which is used to make debt payments. These accounts are presented on the statement of net position as "cash and cash equivalents with fiscal agents."

Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis.

Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental funds and as an expense in the proprietary funds when used.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2015 are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which it was consumed.

Restricted Assets

Restricted assets in the enterprise funds represent cash and cash equivalents that are restricted in their use by legal or contractual requirements.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and deletions during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five hundred dollars. The City's infrastructure consists of streets, traffic signals, floodwall, park lighting, water and sewer lines, valves, and meters.

Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized. All reported capital assets are depreciated except for land. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure

CITY OF CHILLICOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

were estimated based on the City’s historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Land Improvements	5 years	5 years
Buildings, Structures and Improvements	20-50 years	20-50 years
Plant and Facilities	N/A	50 years
Furniture, Fixtures, Equipment, and Vehicles	5-15 years	5-15 years
Infrastructure	20-50 years	20-50 years

Compensated Absences

The City reports compensated absences in accordance with the provisions of GASB No. 16, “Accounting for Compensated Absences.”

Vacation and compensatory time benefits are accrued as a liability as the benefits are earned if the employees’ rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those that the City has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at year-end taking into consideration any limits specified in the City’s termination policy.

The City records a liability for all accumulated unused vacation and compensatory time when earned for all employees. The City records a liability for accumulated unused sick leave for employees of the Police Department after eight years of accumulated service, and for all other employees of the City after five years of accumulated service, except for employees of the Fire Department where no requirement exists for years of accumulated service. The entire compensated absence liability is reported on the government-wide financial statements.

In governmental funds, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignation or retirement. The noncurrent portion of the liability is not reported on the fund financial statements. In proprietary funds, the entire amount of compensated absences is reported as a fund liability on the fund financial statements.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

FOR THE YEAR ENDED DECEMBER 31, 2015

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, matured compensated absences, and net pension liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term loans are recognized as a liability on the fund financial statements when due.

Fund Balance

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. Fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent because they are either not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for restricted purposes because either (a) constraints imposed by law through constitutional provisions, charter requirements or enabling legislation; or (b) constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments.

Committed – amounts that can only be used for specific purposes pursuant to constraints imposed by formal ordinance of City Council – the City’s highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the City Council removes the specified use by taking the same type of action as when imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – amounts constrained by the City’s “intent” to be used for specific purposes, but are neither restricted nor committed. The City Council, Mayor and Auditor have the authority to assign amounts to be used for specific purposes. Currently, the authorizing party must notify the City Auditor of the intent to make an assignment, by declaring the amount, the fund and the purpose for which the funds will be used. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned – this is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the City considers restricted funds to have been spent first. When expenditures are incurred for which committed, assigned or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council has provided otherwise in its commitment or assignment actions.

Net Position

Net Position is the residual amount when comparing assets and deferred outflows of resources to liabilities and deferred inflows of resources. The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets.

Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water and sanitary sewer services and charges for services provided to other city funds by the internal service fund. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Revenues and expenses not meeting these definitions are reported as nonoperating.

Interfund Transactions

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Interfund services provided and used are not eliminated on the statement of activities.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the government-wide financial statements. On the government-wide statements, "internal balances" represent short-term interfund loans between governmental and business-type activities. Interfund services provided and used are not eliminated in the process of consolidation.

Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence.

Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2015.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING

While the City is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The statement of revenues, expenditures, and changes in fund balance - budget and actual (budget basis) is presented for the General Fund, Street Construction Maintenance & Repair Fund and Bus Transit Fund on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and modified accrual GAAP basis are that:

1. Revenues and Other Financing Sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures and Other Financing Uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a restriction, commitment, or assignment of fund balance.
4. Certain funds are maintained as separate funds for accounting and budgetary purposes (budget basis) but do not meet the criteria for separate reporting in the financial statements (GAAP basis) and are reported in the General Fund in accordance with GASB Statement No. 54.

The following table summarizes the adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund, Street Construction Maintenance & Repair and Bus Transit Fund:

Net Change in Fund Balance/Excess of Revenue and Other Sources Over (Under) Expenditures and Other Uses			
	General Fund	Street Construction Maintenance & Repair	Bus Transit Fund

NOTE 4 - ACCOUNTABILITY AND COMPLIANCE

<u>Deficit Fund Balance</u>	<u>Deficit</u>
Street Construction Maintenance & Repair Fund	\$413,736

This fund complied with Ohio state law, which does not permit a cash basis deficit at year-end. The deficit in this fund is the result of generally accepted accounting principles and the requirement to accrue liabilities when incurred. The General Fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 5 - NEW GASB PRONOUNCEMENTS AND RESTATEMENT OF NET POSITION

For the year ended December 31, 2015, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27," and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68." GASB Statement No. 68 established standards for measuring and recognizing pension liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditure.

The implementation of this pronouncement had the following effect on the net position as reported December 31, 2014:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Net Position - December 31, 2014	\$38,708,956	\$41,414,252
<i>Adjustments:</i>		
Net Pension Liability	(17,799,518)	(2,018,414)
Deferred Outflows	<u>1,688,270</u>	<u>285,782</u>
Restated Net Position - December 31, 2014	<u><u>\$22,597,708</u></u>	<u><u>\$39,681,620</u></u>

	<u>Water</u>	<u>Sewer</u>	<u>Total Enterprise</u>
Net Position - December 31, 2014	\$23,196,480	\$18,217,772	\$41,414,252
<i>Adjustments:</i>			
Net Pension Liability	(1,080,036)	(938,378)	(2,018,414)
Deferred Outflows	<u>154,053</u>	<u>131,729</u>	<u>285,782</u>
Restated Net Position - December 31, 2014	<u><u>\$22,270,497</u></u>	<u><u>\$17,411,123</u></u>	<u><u>\$39,681,620</u></u>

Other than employer contributions subsequent to the measurement date, the City made no restatement for deferred inflows/outflows of resources as the information needed to generate these statements was not available.

NOTE 6 - CASH, DEPOSITS, AND INVESTMENTS

Monies held in the City Treasury are pooled for the purpose of investment management. The City is authorized to invest in those instruments identified in sections 135.14, 135.45, and 133.03 of the Ohio Revised Code. Specifically, these authorized instruments consist of:

1. Bonds, notes, or other obligations guaranteed by the United States or those for which the full faith and credit of the United States is pledged;
2. Bonds, notes, debentures, or other obligations or securities insured by any federal government agency;
3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of Ohio, its political subdivisions, or other units or agencies of Ohio or its political subdivisions;
5. Time certificates of deposit or savings or deposit accounts, including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investment in securities are made only through eligible institutions; and
7. The State Treasurer's investment pool (Star Ohio).

The amount available for deposit and investment are as follows:

Cash and Cash Equivalents	
-Pooled	\$14,451,957
-Segregated	258,799
-Fiscal Agents	4
Investment (Carrying Amount)	1,000
Reconciling items (net) to arrive at bank balances for deposits	<u>(71,270)</u>
Total available for deposit and investment	<u><u>\$14,640,490</u></u>

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by Surety Company bonds deposited with the treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

CITY OF CHILlicoTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

Deposits: Custodial credit risk for deposits is the risk that, in the event of a bank failure, the City’s deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at the Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds, or as specific collateral held at the Federal Reserve Bank in the name of the City.

At December 31, 2015, the carrying amount of all City deposits was \$14,710,760. Based on the criteria described in GASB Statement No. 40, “Deposit and Investment Risk Disclosures,” as of December 31, 2015, the City’s bank balance of \$14,639,490 was either covered by the Federal Deposit Insurance or collateralized by the financial institution’s public entity deposit pools in the manner described above.

Investments: As of December 31, 2015, the City had the following investments and maturities:

Investment Type	Fair Value	One Year or Less
U.S. Treasury Bond	\$1,000	\$1,000
Total	\$1,000	\$1,000

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the City’s investment policy limits investment portfolio maturities to five years or less.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City limits its investments to those authorized by state statute. Standard and Poor’s has assigned a rating of “AA+” to U.S. Treasury Bonds.

Custodial Credit Risk: For investments, custodial credit risk is the risk that, in the event of the failure of the counter party, the City will not be able to recover the value of its investments or collateral securities in the possession of an outside party. City policy and Ohio Revised Code provide that investment collateral is held by the counter party as trust department or agent, and may be held in the name of the City or not. All of the City’s securities are either insured and registered in the name of the City or at least registered in the name of the City.

NOTE 8 – DEFERRED INFLOW/OUTFLOW

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources are reported on the government-wide statement of net position and include deferred charges on refunding and pension expense. A deferral on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferral for pension results from changes in Net Pension Liability not recognized as a component of current year pension expense. This amount is deferred and amortized over various periods as instructed by the pension plan administrators. Deferred outflows of resources related to pensions are explained further in Note 13.

CITY OF CHILlicothe, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, unavailable revenues and pensions. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2015, but which were levied to finance year 2016 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Additionally, deferred inflows related to pensions are reported in the government-wide statement of net position. Deferred inflows related to pensions result from changes in net pension liability not recognized as a component of current year expense. Deferred inflows of resources related to pensions are explained further in Note 13.

	Governmental Activities	Business-Type Activities	Water Fund	Sewer Fund
Property Tax	\$1,361,362	\$0	\$0	\$0
Pension	80,290	36,279	19,413	16,866
Total	\$1,441,652	\$36,279	\$19,413	\$16,866

Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes delinquent property taxes, income taxes, intergovernmental grants and special assessments. These amounts are deferred and recognized as inflows of resources in the period the amounts become available.

General obligation bonds issued for governmental activities of the City are retired through the Bond Retirement Debt Service Fund using monies transferred from the General, Street Construction Maintenance & Repair, Safety Levy Capital, and Police and Fire Pension Funds. General obligation bonds are secured by the City's ability to levy a voted or unvoted property tax levy within the limitations of Ohio law. These bonds are also backed by the full faith and credit of the City as additional security.

In September 2014, the City received a \$100,000 loan from Vinton County National Bank for the purpose of purchasing an emergency squad. The interest rate on this loan is 2.50%. This loan will be repaid from the Safety Levy Capital Fund and the final payment is due on September 15, 2018.

In March 2014, the City issued \$300,000 in general obligation bond anticipation notes for the acquisition

CITY OF CHILlicothe, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

In March 2014, the City issued \$300,000 in general obligation bond anticipation notes for the acquisition of a garbage truck. The interest rate on the notes is 1.25%. In March 2015, the \$300,000 notes were paid in full from the receipts of general obligation bonds that were issued by the City.

Compensated absences will be paid from the fund from which the employees' salaries are paid, which include the General, Street Construction Maintenance & Repair, Parks & Recreation, Parking, and Bus Transit funds. Capital lease obligations will be paid from the fund that maintains custody of the related asset. The landfill post-closure care liability will be paid from the General Fund. The City pays obligations related to employee compensation from the fund benefitting from their service.

Refunding General Obligation Bonds - During fiscal year 2013, the City issued \$4,850,000 of general obligation bonds for the refunding of \$335,000 of the 1999 series bonds and retirement of \$4,540,000 of bond anticipation notes. The \$31,481 premium on the issuance of the refunding bonds is netted against this debt and is being amortized over the life of this debt. The refunding was undertaken to reduce total future debt service payments by \$41,469 and to obtain an economic gain of \$24,886 for the \$335,000 of bonds refunded. The refunding bonds are retired through the Bond Retirement Fund using tax revenues.

The Various Purpose Bonds maturing December 1, 2026 shall be subject to mandatory sinking fund redemption in part on December 1, 2024 and December 1, 2025 at the redemption price of 100% of the principal amount thereof to be redeemed plus accrued interest to the respective redemption dates in the principal amount as follows:

In March of 2014, the City issued \$2,441,000 in notes for improvements to the water system near the Adena Regional Medical Center (ARMC). These bond anticipation notes were issued to extend water lines and construct a water tower near the ARMC. In March 2015, the \$2,441,000 notes were paid in full from the receipts of general obligation bonds that were issued by the City.

General obligation bonds issued for business-type activities are retired through the respective enterprise funds. The City has pledged gross revenues to be derived from the City's water system, after provision of reasonable expenses of operation and maintenance of the system, and certain funds held by the City's trustee. General obligation bonds also require the City to generate revenues from the enterprise operations that are sufficient to meet debt service requirements.

Refunding General Obligation Bonds - During fiscal year 2013, the City issued \$1,670,000 of general obligation bonds for the refunding of \$1,220,000 of the 2003 series bonds and retirement of \$400,000 of bond anticipation notes. The \$24,823 premium on the issuance of the refunding bonds is netted against this debt and is being amortized over the life of this debt, which has the same remaining life of the refunded debt of 10 years with a final maturity of December 1, 2023. The refunding was undertaken to reduce total future debt service payments by \$28,915 and to obtain an economic gain of \$5,674 for the bonds refunded. The refunding bonds are retired through the Sewer Fund.

NOTE 12 - CAPITAL LEASES

The City has entered into various agreements to lease equipment. The leases meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Lease payments are made in accordance with the amortization schedule. At the end of the lease the City has the option of purchasing the asset or trade-in the asset for credit on another purchase. New capital leases are reflected in the statement of revenues, expenditures, and changes in fund balance for governmental funds as a functional expenditure and "inception of capital lease." Capital lease payments are reflected as debt service expenditures in the General, Bus Transit, Street Construction Maintenance & Repair, and Parks and Recreation funds. These capital leased assets, consisting of equipment, have been capitalized in the amount of \$442,795 in the governmental funds, which represents the present value of the minimum lease payments at the time of acquisition. Principal payments in 2015 were \$88,014 in the governmental funds.

CITY OF CHILlicoTHE, OHIO

NOTE 13 – DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the Statement of Net Position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

**CITY OF CHILLICOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015**

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Plan Description – Ohio Police & Fire Pension Fund (OPF)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OPF), a cost-sharing, multiple-employer defined benefit pension plan administered by OPF. OPF provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OPF issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OPF fiduciary net position. The report that may be obtained by visiting the OPF website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OPF may retire and receive a lifetime monthly pension. OPF offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

CITY OF CHILLCOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OPF benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OPF's total pension liability was measured as of December 31, 2014, and was determined by rolling forward the total pension liability as of January 1, 2014, to December 31, 2014. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$6,635,303	\$14,181,407	\$20,816,710

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage Inflation	3.75 percent
Future Salary Increases, including inflation	4.25 to 10.05 percent including wage inflation
COLA or Ad Hoc COLA	3 percent, simple
Investment Rate of Return	8 percent
Actuarial Cost Method	Individual Entry Age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

CITY OF CHILLICOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 6.95 percent for 2014.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	23.00 %	2.31 %
Domestic Equities	19.90	5.84
Real Estate	10.00	4.25
Private Equity	10.00	9.25
International Equities	19.10	7.40
Other investments	18.00	4.59
Total	100.00 %	5.28 %

Discount Rate The discount rate used to measure the total pension liability was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the City’s proportionate share of the net pension liability calculated using the current period discount rate assumption of 8 percent, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability	\$12,207,056	\$6,635,303	\$1,942,544

Actuarial Assumptions – OPF

OPF’s total pension liability as of December 31, 2014 is based on the results of an actuarial valuation date of January 1, 2014, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OPF’s actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2014, are presented below:

Valuation Date	January 1, 2014
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.25 percent
Projected Salary Increases	4.25 percent to 11 percent
Payroll Increases	3.75 percent
Inflation Assumptions	3.25 percent
Cost of Living Adjustments	2.60 percent and 3.00 percent

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OPF’s target asset allocation as of December 31, 2014 are summarized below:

Total	120.00 %	

* levered 2x

OPF's Board of Trustees has incorporated the "risk parity" concept into OPF's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate The total pension liability was calculated using the discount rate of 8.25 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25 percent), or one percentage point higher (9.25 percent) than the current rate.

	1% Decrease (7.25%)	Current Discount Rate (8.25%)	1% Increase (9.25%)
City's proportionate share of the net pension liability	\$19,615,031	\$14,181,407	\$9,580,779

NOTE 14 – POSTEMPLOYMENT BENEFITS

Ohio Public Employees Retirement System

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan. The Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan.

OPERS maintains two cost-sharing multiple-employer defined benefit postemployment health care trusts, which fund multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement and Medicare Part B premium reimbursements, to qualifying members benefit recipients of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including OPERS sponsored health care coverage.

In order to qualify for health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 45. Please see the Plan Statement in the OPERS CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the OPERS Board in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml#CAFR>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or (800) 222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2015, state and local employers contributed at a rate of 14.0% of earnable salary, and law enforcement employers contributed at 18.1%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

OPERS maintains three health care trusts. The two cost-sharing, multiple-employer trusts, the 401(h) Health Care Trust and the 115 Health Care Trust, work together to provide health care funding to eligible retirees of the Traditional Pension and Combined plans. The third trust is a Voluntary Employee's Beneficiary Association (VEBA) that provides funding for a Retiree Medical Account for Member-Directed Plan members. Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 2.0% during calendar year 2015. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2016 remained at 2.0% for both plans.

**CITY OF CHILLICOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015**

The Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited to the VEBA for participants in the Member-Directed Plan for 2015 was 4.5%.

The City's contractually required postemployment health care contributions to OPERS for the years 2014, 2013, and 2012 were \$147,582, \$173,118 and \$60,806 respectively; 94.63% has been contributed for 2015, 100% for years 2014 and 2013. Of the 2015 amount, \$7,932 is reported as an intergovernmental payable.

Ohio Police and Fire Pension Fund

OP&F provides access to post-employment health care coverage to any person who receives or is eligible to receive a monthly service, disability, or statutory survivor benefit, or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45. The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5% and 24% of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5% of covered payroll for police employer units and 24% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan. Of the employer contributions made by the City for the years 2015, 2014, and 2013, \$25,639, \$132,115, and \$208,099, respectively, was allocated to the health care plan. The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. The portion of employer contributions allocated to health care was .5% of covered payroll from January 1, 2015 through December 31, 2015. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

NOTE 15 - COMPENSATED ABSENCES

Upon retirement, employees of the Police Department with at least eight years of credited service are paid 75% of their accrued sick leave if hired prior to January 1, 1988. Those hired after January 1, 1988 will be paid 50% of their accrued sick leave. Vacation time is vested for these employees after one year of credited service. Unused vacation may be accumulated and carried over without limit. Compensatory time may also be accumulated by employees but must be used within specified limits.

No provision exists for these employees to be compensated for overtime worked in lieu of compensatory time off. All sick leave, vacation, and compensatory time off is compensated at the employee's current rate of pay at the time of retirement or termination. Employees of the Fire Department have no requirement for years of credited service in order to be compensated for accrued sick leave and are paid 75% of their sick leave if earned prior to April 1, 1987, and 60% of sick leave earned after April 1, 1987. Vacation time is vested for these employees after six months of credited service. Compensatory time may also be accumulated for overtime worked in lieu of compensatory time off. Employees may elect to be compensated for overtime worked in lieu of compensatory time off.

All other full-time employees of the City with at least five years of credited service upon retirement are paid 75% of their accrued sick leave if earned prior to September 1, 1987, and 60% of accrued sick leave after September 1, 1987. Vacation time is vested for these employees after six months of credited service. Unused vacation may be accumulated and carried over up to three years accrual. Compensatory time may also be accumulated up to specified limits.

CITY OF CHILlicoTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

Employees may elect to be compensated for overtime worked in lieu of compensatory time off. All sick leave, vacation, and compensatory time are compensated at the employee's current rate of pay at the time of retirement or termination.

NOTE 16 - PROPERTY TAXES

Property taxes include amounts levied against real and public utility property. The assessed value by property classification upon which the 2015 tax levy was based follows:

Property Tax Classification	Assessed Value
Real Property	\$367,212,160
Public Utility Property	22,622,080
Total	<u>\$389,834,240</u>

Ohio law prohibits taxation of property from all taxing authorities in excess of 10 mills of assessed value without a vote of the people. Presently, the City levies differing millages from 0.60 mills to 2.60 mills of the first 10 mills of assessed value for the General Fund, which is dependent upon the various taxing districts within the City. In addition to the 2.60 mills and 1.60 mills, the City has levied .30 and .30 mills of non-voted millage for the Police Pension and Fire Pension levies respectively.

In 2015, real property taxes were levied on January 1, 2015, on assessed values as of January 1, 2014, the lien date. Real estate taxes were due and payable on February 14 and July 1, 2015.

The County Treasurer collects property taxes on behalf of all taxing districts within the City. The County Auditor periodically remits to the taxing districts their portions of the taxes collected. Accrued property taxes receivable represent current taxes which were levied, measurable, and unpaid, as well as delinquent taxes outstanding as of December 31, 2015.

Although total property tax collections for the next ensuing fiscal year are measurable, amounts to be received during the available period are not subject to reasonable estimation at December 31 and are intended to finance the subsequent year's operations. Therefore, the total property taxes receivable at year-end are credited to deferred inflows of resources on the financial statements.

NOTE 17 - MUNICIPAL INCOME TAXES

The City levies an income tax of 1.6% on substantially all income earned within the City. In addition, residents of the City are required to pay City income tax on income they earn outside the City. However, a credit is allowed for income taxes paid to other municipalities. The income tax consists of a 1.0% general tax imposed without authority of an election; a 0.1% tax approved by voters in 1981 for the Bus Transit Fund; a 0.4% tax approved by voters in 1984 for the police and fire departments, with 0.1% being reserved for capital outlay; and a 0.1% tax approved by voters in 1993 for the Parks & Recreation Fund, with 0.025% being reserved for capital outlay.

Employers within the City are required to withhold income tax on employees' compensation and remit this tax to the City at least quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration of tax liability annually.

In 2015, these municipal income taxes generated a combined total of \$11,981,112 in local tax revenue.

NOTE 18 - INTERFUND ACTIVITY

As of December 31, 2015, receivables and payables that resulted from various interfund transactions were as follows:

	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
Governmental Activities		
General Fund	\$6,999	\$75,000
Bus Transit Fund	0	3,666
<i>Nonmajor Governmental Funds:</i>

Total Nonmajor Governmental Funds	<u>75,000</u>	<u>3,333</u>
<i>Total</i>	<u>\$81,999</u>	<u>\$81,999</u>

All balances are scheduled to be collected in the subsequent year. All balances resulted from the time lag between the dates that (1) interfund goods and services are provided, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

A summary of interfund transfers for 2015 are as follows:

<u>Transfers Out</u>	Transfers In						<u>Total</u>
	<u>General</u>	<u>Street</u>	<u>Bus Transit</u>	<u>Nonmajor Special Revenue</u>	<u>Nonmajor Capital Projects</u>	<u>Sewer</u>	
General	\$0	\$123,700	\$36,479	\$1,059,225	\$2,650	\$30,000	\$1,252,054
Bus Transit	21,875	0	0	0	0	0	21,875
Nonmajor Special Revenue Funds	14,808	0	0	26,961	0	0	41,769
Nonmajor Capital Projects Funds	387,749	0	0	0	0	0	387,749
Water	11,376	0	0	0	0	0	11,376
Sewer	6,792	0	0	0	0	0	6,792
Total	<u>\$442,600</u>	<u>\$123,700</u>	<u>\$36,479</u>	<u>\$1,086,186</u>	<u>\$2,650</u>	<u>\$30,000</u>	<u>\$1,721,615</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

In 2015, the City made transfers of \$1,059,225 from the General Fund to various Nonmajor Special Revenue Funds to subsidize the programs of those funds.

NOTE 19 - ROSS COUNTY AND CHILLICOTHE LAW ENFORCEMENT COMPLEX

The Ross County and Chillicothe Law Enforcement Complex is a shared asset between Ross County and the City which is located in downtown Chillicothe and houses the Chillicothe Police Department, Ross County Sheriff's Department, and Ross County Jail.

An agreement developed by and between Ross County and the City governs the shared costs of constructing the facility as well as the continuing costs of maintaining the facility.

In the agreement with Ross County, the City has agreed to lease space in the Law Complex from the County for fifty years. All lease payments made by the City were paid at the beginning of the lease term and were considered the City's share of the costs incurred during construction of the Law Complex. The agreement further states that Ross County and the City will share in the costs of repairs, maintenance, and replacement incurred relative to the operation of the Law Complex. Those costs are explained as follows:

- The cost of any repairs or maintenance to the roof section which covers the Law Complex section of the facility shall be shared equally by both entities.
- The City shall pay a pro rata share of 18.47 percent of the costs associated with repairing, maintaining, and replacing the public elevators, freight lift, heating, air conditioning, electrical systems, and plumbing within the Law Complex section of the facility. The City's pro rata share of 18.47 percent is derived by taking a percentage of the square footage occupied by the City to the total square footage of the Law Complex.
- Any costs of repairs, maintenance, or replacement to sidewalks, public areas, and parking lots contiguous to the Law Complex, including snow removal, shall be shared equally by both entities.
- The City shall pay 100 percent of the costs of repairing, maintaining, and replacing interior decorations within the City offices and 50 percent of the costs relative to interior decorations in the common offices of the Law Complex.
- The City shall pay 50 percent of the costs of repairing, maintaining, and replacing telephone equipment in the common offices of the Law Complex.
- The City shall pay 18.47 percent of gas, electric, water, sewer, and solid waste disposal utilities and 50 percent of janitorial services.
- The City has no percentage interest in the jail area of the facility; rather, the City is billed on a per diem basis by Ross County for the housing of its prisoners.

Ross County originally paid all of the costs of constructing the Law Complex, including the costs of purchasing the land on which the facility is located, which totaled \$11,995,690. Ross County billed the City for its share of these costs, after deducting certain costs related only to the jail area, based on a percentage of square footage to be occupied by the City in proportion to the total square footage of the facility.

As a result of the construction costs of the Law Complex being shared by the City and Ross County, the facility will be treated as a shared asset with both entities reflecting a proportionate share of the facility in their capital assets. Since the original construction of the Law Complex, various improvements have been made. Therefore, the City has recorded \$2,004,214 as a capital asset, which reflects the City's share of the asset.

NOTE 20 - LANDFILL CLOSURE AND POST CLOSURE CARE

In 1988, state and federal laws and regulations required the City to stop accepting waste at the Chillicothe Landfill and place a final cover on the landfill site as well as perform certain maintenance and monitoring functions at the site for thirty years after closure. Final closure of the landfill occurred in 1990.

In 2015, the City incurred \$52,724 in post closure care costs and decreased its postclosure care liability by \$51,470, which is a change in estimate. To this date, the City has incurred approximately \$2,461,112 in closure and postclosure care costs. These costs have been incurred by the Landfill Closure Fund.

The City has accrued a liability for landfill post-closure care costs of \$262,077. The liability is based on an average of cumulative postclosure care costs to this date projected over the next five years. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. Financial assurance to fund this liability is provided through the General Fund where transfers will be made over the next six years.

**CITY OF CHILlicoTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015**

NOTE 22 – ENCUMBRANCE COMMITMENTS

As of December 31, 2015, the City had encumbrance commitments in the Governmental Funds as follows:

<u>Major Funds</u>	
General	\$46,562
Street Construction Maintenance and Repair	786,215
Bus Transit	79,710
<u>Nonmajor Funds</u>	
HUD	2,400
Parking	3,822
Safety Levy Capital	<u>29,000</u>
Total Nonmajor Funds	<u>35,222</u>
Total Encumbrances	<u><u>\$947,709</u></u>

NOTE 23 – RISK MANAGEMENT

The City is exposed to various risks of loss related to torts, theft, destruction of assets, errors and omissions, employee injuries, and natural disasters. The City has addressed these various types of risk by purchasing insurance through commercial carriers. The City belongs to the Public Entities Pool of Ohio (PEP), a risk-sharing pool available to Ohio local governments. PEP provides property and casualty coverage for its members. PEP is a member of the American Public Entity Excess Pool (APEEP). Member governments pay annual contributions to fund PEP. PEP pays judgments, settlements, and other expenses resulting from covered claims that exceed the members' deductibles.

General liability insurance is maintained in the amount of \$2,000,000 for each occurrence. Other liability insurance includes \$2,000,000 for law enforcement professional liability, \$2,000,000 for public official errors and omissions liability, \$2,000,000 for automobile liability, and \$100,000 for uninsured motorists' liability.

In addition, the City maintains replacement cost insurance on buildings and contents in the amount of \$68,252,501. Other property insurance includes \$348,250 unscheduled and \$1,795,367 scheduled for other equipment. Comprehensive boiler and machinery coverage is carried in the amount of \$68,252,501. Insurance deductibles on any of the above coverage do not exceed \$50,000.

The City participates in the Workers' Compensation Program provided by the State of Ohio. Beginning in 2011, the City belonged to a group with other Ohio cities through the Ohio Municipal League for a workers' compensation group rating program, which utilizes Comp Management as a third-party administrator.

The City has also established a limited risk health and dental program for employees. Claims are paid directly to Medical Mutual, who services all claims submitted. Claims are paid through each of the General, Street Construction Maintenance and Repair, State Highway, Park and Recreation, Parking, Bus Transit, Water, and Sewer Funds. Additionally, each fund is responsible for paying its respective portion of administrative costs.

With the exception of workers' compensation, all insurance is held with commercial carriers. The City pays all elected officials' bonds by statute.

**CITY OF CHILLCOTHE, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015**

The City has had no significant reductions in any of its insurance coverage from that maintained in prior years. Additionally, there have been no insurance settlements that have exceeded insurance coverage in any of the past three years.

NOTE 24 - CONTINGENCIES

The City participates in several federal and state assisted grants and programs that are subject to financial and compliance audits by grantor agencies or their representatives. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. The City believes that disallowed claims, if any, will not have a material adverse effect on the City’s financial position.

Additionally, there are currently no material claims or lawsuits pending against the City with either the Law Director or other outside attorneys.

NOTE 25 – FISCAL ANALYSIS

On October 23, 2012, the City was declared in Fiscal Caution by the Auditor of State. The City’s management has prepared and submitted an acceptable plan to the Auditor of State and is working to implement changes as submitted.

NOTE 26 – SUBSEQUENT EVENTS

In May 2015, the City voters approved additional levies on income tax of 0.4%, raising the income tax rate from 1.6% to 2.0%. The withholdings for this increase take effect January 1, 2016.

In May 2016, the City approved appropriations of \$1,500,000 for the 2016 Street Program. A contract was awarded in July 2016.

NOTE 27 – SIGNIFICANT COMMITMENTS

In 2015, the City entered into a contract with G&J Paving, Inc. to provide services for the City’s 2015 Street Program. The following was the contract commitment as of December 31, 2015.

**CITY OF CHILLICOTHE, OHIO
GOVERNMENTAL FUNDS**

NONMAJOR SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. The following are descriptions of the City's nonmajor special revenue funds:

State Highway Fund

To account for that portion of the state gasoline tax and motor vehicle registration fees designated for maintenance and repair of state highways located within the boundaries of the City.

Parks and Recreation Fund

To account for proceeds of an income tax levy and charges for services to be used for park and recreation purposes. The park operation is governed by a park board of trustees organized pursuant to Section 755.14 (A) of the Revised Code.

HUD Fund

To account for grant revenue from the Federal Government, Department of Housing and Urban Development (HUD). The primary purpose of the grants is to provide funding for rental rehabilitation programs and downtown development revolving loan programs.

Grants Fund

To account for grant revenues that are used to fund community policing programs and provide assistance for victims of crime.

Cablevision Fund

To account for monies received for the purpose of maintenance and repair of the cable system as provided for in the cable franchise agreement.

Law Enforcement Fund

To account for the distribution of proceeds from the sale of forfeited property or contraband to be allocated by City Council only to the Police Department of the City.

Indigent Drivers Alcohol Treatment Fund

To account for 50% part of fines (under 4511.191(M) of the Revised Code) that are collected by Municipal Court from DUI offenders.

**CITY OF CHILLICOTHE, OHIO
GOVERNMENTAL FUNDS**

NONMAJOR SPECIAL REVENUE FUNDS

OMVI Enforcement & Education Fund

To account for those costs incurred by the Police Department in enforcing Section 4511.19 of the Revised Code or a substantially similar municipal ordinance and in educating the public of laws governing operation of a motor vehicle while under the influence of alcohol, the dangers of operation of a motor vehicle while under the influence of alcohol, and other information relating to the operation of a motor vehicle and the consumption of alcoholic beverages.

Mandatory Drug Fines Fund

To account for monies received from fines imposed for felony drug trafficking offenses which shall be paid to law enforcement agencies in the state that were primarily responsible for or involved in making the arrest of and in prosecuting the offender.

Parking Fund

To account for the operation of parking meters and the parking facility. The costs of these services are financed through meter fees, parking fines, and transfers from the General Fund.

Police Pension Fund

To account for property tax revenue and transfers from the General Fund used to pay the City's accrued liability for police benefits and the employer's quarterly retirement contribution.

Fire Pension Fund

To account for property tax revenue and transfers from the General Fund used to pay the City's accrued liability for fire benefits and the employer's quarterly retirement contribution.

**CITY OF CHILLICOTHE, OHIO
GOVERNMENTAL FUNDS**

NONMAJOR BOND RETIREMENT FUND

The bond retirement fund is used to account for the accumulation of resources for, and the payment of principal and interest on general obligation bonds. Since this is the only debt service fund, no combining statements are presented for the debt service fund.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary and trust funds. The following are descriptions of the City's nonmajor capital projects funds:

Capital Improvement Fund

To account for funds received for the purpose of making capital improvements and for purchases of capital equipment.

Issue II Fund

To account for revenue from the state that is used for various road projects.

Safety Levy Capital Fund

This fund accounts for a portion of the income tax collected for the purpose of acquiring capital items for safety program purposes as provided for in the income tax ordinance.

Parks and Recreation Capital Fund

To account for a portion of the income tax collected for the purpose of acquiring capital items for the parks and recreation capital program as provided for in the income tax ordinance.

**CITY OF CHILLICOTHE, OHIO
GOVERNMENTAL FUNDS**

NONMAJOR PERMANENT FUND

The permanent fund is used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs. The following is a description of the City's nonmajor permanent fund:

Carlisle Hill Fund

To account for the interest proceeds relating to a bequest to the City for the purpose of maintaining the entryway to Carlisle Hill. Since this is the only permanent fund, no combining statements are presented for the permanent fund.

FUNDS REPORTED SEPARATELY FOR BUDGETARY PURPOSES

The following funds have been combined with the General Fund for reporting in accordance with accounting principles generally accepted in the United States of America. However, their budgets are reported separately in this section for accountability purposes.

Floodwall Fund

To account for income tax proceeds transferred from the General Fund for the maintenance of a floodwall. The transfers are made per ordinance requirements. One quarter of one percent (0.25%) is to be transferred into the fund until the fund reaches a balance of sixty thousand dollars transferred per year.

Income Tax Fund

To account for the excess income tax received after ceilings for the General Fund, Floodwall Fund, and Bus Transit Fund have been reached. All income tax refunds are disbursed from this fund.

Landfill Closure

To account for postclosure care costs to monitor the landfill site. The funding for these costs is being provided by transfers from the General Fund.

Streetscape

To account for streetscape maintenance expenses, which are covered by transfers from the General Fund.

Unclaimed Monies

To account for assets held for owners of unclaimed intangible property. Unclaimed property is property for which the owner has not taken some action to indicate ownership interest over a certain period of time specified under Chapter 169, Ohio Revised Code.

**CITY OF CHILLICOTHE, OHIO
PROPRIETARY FUNDS**

ENTERPRISE FUNDS

Enterprise funds are used to account for operations of the City that provide goods and services to the general public in a manner similar to private business enterprises. The cost of providing these goods or services is financed through user charges.

NONMAJOR INTERNAL SERVICE FUND

Internal service funds are maintained to account for the operations of City activities that provide services to other City departments and funds.

Fuel Purchasing Program

To account for the activity from the City's fuel purchasing program. Since this is the only nonmajor internal service fund, no combining statements for the internal service fund are presented.

Notes: Real property is reappraised every six years with a State mandated update of the current market value in the third year following each appraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. For collection year 2006, both types of general business tangible personal property were assessed at 18.75 percent. The percentage was 12.5 percent for 2007, 6.25 percent for 2008, and zero for 2009. In 2009, tangible personal property consisted only of telephone/telecommunications property. This property was assessed at 12.50 percent for 2009, 6.25 percent for 2010, and zero for 2011.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.

Notes: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year. The City's basic property tax rate may be increased only by a majority vote of the City's residents.

Overlapping rates are those of local and county governments that apply to property owners within the City.

(1) The County Auditor collects property taxes on behalf of the City. In Ohio, delinquent taxes collected each year are not reported individually back to the tax year in which they become delinquent. The County Auditor's current tax collection system does not permit the identification of delinquent tax collection by tax levy year.

(2) Total tax collections include current levied taxes and delinquent taxes from prior years' taxes levied; therefore, the total percent collected may exceed 100% of the current taxes levied.
