BASIC FINANCIAL STATEMENTS (AUDITED)

FOR THE YEAR ENDED DECEMBER 31, 2015

JANINE COOPER, FINANCE DIRECTOR

City Council City of Englewood 333 West National Road Englewood, Ohio 45322

We have reviewed the *Independent Auditor's Report* of the City of Englewood, Montgomery County, prepared by Julian & Grube, Inc., for the audit period January 1, 2015 through December 31, 2015. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Englewood is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

Independent Auditor's Report

City of Englewood Montgomery County 333 West National Road Englewood, Ohio 45322

To the Members of Council and Mayor:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Englewood, Montgomery County, Ohio, as of and for the year ended December 31, 2015 and the related notes to the financial statements, which collectively comprise the City of Englewood's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City of Englewood's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City of Englewood's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Independent Auditor's Report Page Two

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Englewood, Montgomery County, Ohio, as of December 31, 2015, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General Fund, Fire and Rescue Fund, Police Fund, and Street Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the year ended December 31, 2015, the City of Englewood adopted Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27 and also GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No 68. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities/net pension asset and pension contributions, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Other Reporting Required by Government Auditing Standards

Julian & Sube, the

In accordance with *Government Auditing Standards*, we have also issued our report dated May 18, 2016, on our consideration of the City of Englewood's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Englewood's internal control over financial reporting and compliance.

Julian & Grube, Inc. May 18, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

The management's discussion and analysis of the City of Englewood's (the "City") financial performance provides an overall review of the City's financial activities for the year ended December 31, 2015. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for 2015 are as follows:

- The total net position of the City decreased \$569,713. Net position of governmental activities decreased \$55,063 or 0.12% from the restated 2014 net position and net position of business-type activities decreased \$514,650 or 2.16% from the 2014 restated net position. The decreases in net position are primarily due to depreciation on capital assets.
- ➤ General revenues accounted for \$9,645,903 or 77.14% of total governmental activities revenue. Program specific revenues accounted for \$2,858,212 or 22.86% of total governmental activities revenue.
- ➤ The City had \$12,559,178 in expenses related to governmental activities; \$2,858,212 of these expenses was offset by program specific charges for services, grants or contributions. The remaining expenses of the governmental activities of \$9,700,966 were offset by general revenues (primarily property taxes, income taxes and unrestricted grants and entitlements) of \$9,645,903.
- The general fund had revenues and other financing sources of \$8,886,660 in 2015. This represents an increase of \$263,434 from 2014. The expenditures and other financing uses of the general fund, which totaled \$8,864,372 in 2015, increased \$512,772 from 2014. Expenditures excluding transfers increased \$106,734. The net increase in fund balance for the general fund was \$22,288 or 0.35% over the 2014 balance.
- The fire and rescue fund had revenues and other financing sources of \$2,071,529 in 2015. This represents an increase of \$343,004 from 2014 revenues and other sources. The expenditures of the fire and rescue fund, which totaled \$1,892,189 in 2015, decreased \$111,904 from 2014. The net increase in fund balance for the fire and rescue fund was \$179,340 or 56.68%.
- The police fund had revenues and other financing sources of \$2,906,572 in 2015. This represents a decrease of \$288,549 from 2014 revenues and other sources. The expenditures of the police fund, which totaled \$3,120,498 in 2014, increased \$253,113 from 2014. The net decrease in fund balance for the police fund was \$213,926 or 38.38%.
- The street fund had revenues and other financing sources of \$1,813,114 in 2015. This represents an increase of \$10,434 from 2014 revenues and other financing sources. The expenditures of the street fund, which totaled \$1,897,245 in 2015, increased \$94,934 from 2014. The net decrease in the fund balance for the street fund, including the decrease in reserve for inventory, was \$89,196 or 7.54%.
- ➤ The capital improvement fund had revenues and other financing sources of \$1,719,302 in 2015. The expenditures of the capital improvement fund totaled \$903,747 in 2015. The net increase in the fund balance for the capital improvement fund was \$815,555 or 10.92%.
- ➤ Net position for the business-type activities, which are made up of the water, sewer, and solid waste enterprise funds, decreased in 2015 by \$514,650.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

In the general fund, the actual revenues and other financing sources came in \$171,424 more than they were in the final budget and actual expenditures and other financing uses were \$305,067 less than the amount in the final budget. Budgeted revenues and other financing sources remained the same from the original to the final budget and budgeted expenditures and other financing uses increased \$301,924 from the original to the final budget.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to these statements. These statements are organized so the reader can understand the City as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the City as a whole, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

Reporting the City as a Whole

Statement of Net Position and the Statement of Activities

While this document contains a large number of funds used by the City to provide programs and activities, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The statement of net position and the statement of activities answer this question. These statements include all assets, deferred outflows, liabilities, deferred inflows, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the City's net position and changes in net position. This change in net position is important because it tells the reader that, for the City as a whole, the financial position of the City has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the City's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required community programs and other factors.

In the statement of net position and the statement of activities, the City is divided into two distinct kinds of activities:

Governmental activities - Most of the City's programs and services are reported here including police, fire and rescue, street maintenance, capital improvements and general administration. These services are funded primarily by property and income taxes and intergovernmental revenues including federal and state grants and other shared revenues.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The City's water, sewer, and solid waste operations are reported here.

The City's statement of net position and statement of activities can be found on pages 20-22 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Reporting the City's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Fund financial reports provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds. The analysis of the City's major governmental and proprietary funds begins on page 13.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. The City has segregated these funds into major funds and nonmajor funds. The City's major governmental funds are the general fund, fire and rescue fund, police fund, street fund, and capital improvement fund. Information for major funds is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances. Data from the other governmental funds are combined into a single, aggregated presentation. The basic governmental fund financial statements can be found on pages 23-32 of this report.

Proprietary Funds

The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, and solid waste management functions. All of the City's enterprise funds are considered major funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The basic proprietary fund financial statements can be found on pages 33-36 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Agency funds are the City's only fiduciary fund type. The basic fiduciary fund financial statement can be found on page 37 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 38-81 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's net pension liability. The required supplementary information can be found on pages 82-88 of this report.

Government-Wide Financial Analysis

The statement of net position provides the perspective of the City as a whole. The table below provides a summary of the City's net position for 2015 compared to 2014. The net position at December 31, 2014 has been restated as described in Note 3.

			Net Position			
		Restated		Restated

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

During 2015, the City adopted Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27" and GASB Statement 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date - An Amendment of GASB Statement No. 68" which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

As a result of implementing GASB 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at December 31, 2014, for governmental activities from \$52,605,761 to \$46,513,292 and business-type activities from \$24,421,254 to \$23,835,077.

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2015, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$69,778,656. At year-end, net position was \$46,458,229 and \$23,320,427 for the governmental activities and the business-type activities, respectively.

Capital assets reported on the government-wide statements represent the largest portion of the City's net position. At year-end, capital assets net represented 63.85% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, equipment, vehicles, software, and infrastructure. The City's net investment in capital assets at December 31, 2015, was \$32,922,972 and \$17,688,246 in the governmental activities and business-type activities, respectively. These capital assets are used to provide services to citizens and are not available for future spending.

As of December 31, 2015, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

A portion of the City's net position, \$1,679,205 represents resources that are subject to external restriction on how they may be used. In the governmental activities, the remaining balance of unrestricted net position of \$11,856,052 may be used to meet the government's ongoing obligations to citizens and creditors.

THIS SPACE INTENTIONALLY LEFT BLANK

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$867,641 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$826,168.

Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed:

	Governmental Activities	Business-Type Activities
Total 2015 program expenses under GASB 68 Pension expense under GASB 68 2015 contractually required contributions Adjusted 2015 program expenses	\$ 12,559,178 (751,548) 700,811 12,508,441	\$ 4,177,522 (74,620) 85,844 4,188,746
Total 2014 program expenses under GASB 27 Increase (decrease) in program expenses not related to pension	12,324,449 \$ 183,992	3,711,770 \$ 476,976

Governmental Activities

Governmental activities net position decreased 0.12 percent or \$55,063 in 2015.

Security of persons and property, which primarily supports the operations of the police and fire departments accounted for \$5,870,715 of the total governmental expenses of the City. These expenses were partially funded by \$1,399,043 in direct charges to users of the services. Transportation expenses totaled \$4,019,690. Transportation expenses were partially funded by \$25,131 in direct charges to users of the services, \$742,644 in operating grants and contributions and \$11,196 in capital grants and contributions.

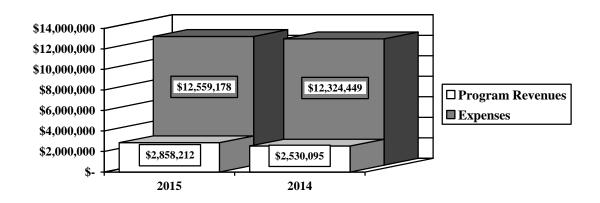

The state and federal government contributed to the City a total of \$800,137 in operating grants and contributions and \$11,196 in capital grants and contributions. These revenues are restricted to a particular program or purpose.

General revenues totaled \$9,645,903, and amounted to 77.14% of total governmental revenues. These revenues primarily consist of property and income tax revenue of \$8,598,075. Unrestricted grants and entitlements of \$399,860, which includes local government funds, is the other primary source of general revenues.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted state grants and entitlements. As can be seen in the graph below, the City is highly dependent upon property and income taxes as well as unrestricted grants and entitlements to support its governmental activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Governmental Activities - Program Revenues vs. Total Expenses

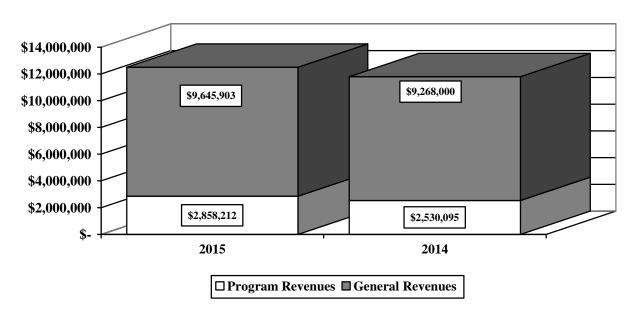

Governmental Activities

	Tot	cal Cost of Services 2015	Tot	al Cost of Services 2014	Net Cost of Services 2015	Net Cost of Services 2014
Program Expenses:						
General government	\$	1,497,471	\$	1,991,473	\$ 1,020,581	\$ 1,595,792
Security of persons and property		5,870,715		5,626,763	4,470,179	4,486,562
Public health and welfare		4,331		5,189	4,049	4,812
Transportation		4,019,690		3,624,116	3,240,719	2,774,193
Community environment		574,303		553,852	463,142	457,506
Leisure time activity		592,668	_	523,056	502,296	475,489
Total Expenses	\$	12,559,178	\$	12,324,449	\$ 9,700,966	\$ 9,794,354

The dependence upon general revenues for governmental activities is apparent, with 77.24% of expenses supported through taxes and other general revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Governmental Activities - General and Program Revenues

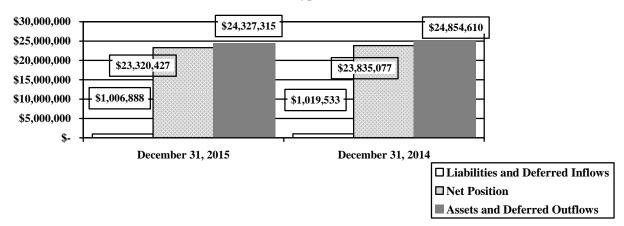

Business-type Activities

Business-type activities include the water, sewer, and solid waste enterprise funds. These programs had program revenues of \$3,614,456, general revenues of \$48,416, and expenses of \$4,177,522 for 2015.

The graph below shows the business-type activities assets, liabilities, and net position at year-end 2015 and 2014.

Net Position in Business - Type Activities

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the City's net resources available for spending at year-end.

The City's governmental funds (as presented on the balance sheet on page 23-24) reported a combined fund balance of \$17,617,265 which is \$953,825 above last year's balance of \$16,663,440. The schedule below indicates the fund balances and the total change in fund balances as of December 31, 2015 for all major and nonmajor governmental funds.

	Balances		Balances	Increase	
		12/31/15	 12/31/14	<u>(L</u>	Decrease)
Major Funds:					
General	\$	6,315,533	\$ 6,293,245	\$	22,288
Fire and rescue		495,743	316,403		179,340
Police		343,517	557,443		(213,926)
Street		1,094,101	1,183,297		(89,196)
Capital improvement		8,283,140	7,467,585		815,555
Other nonmajor governmental funds		1,085,231	 845,467		239,764
Total	\$	17,617,265	\$ 16,663,440	\$	953,825

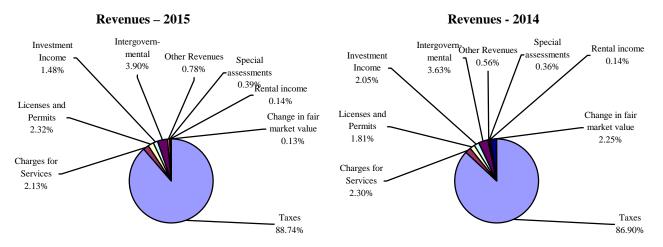

General Fund

The City's general fund balance increased \$22,288. The table that follows assists in illustrating the revenues of the general fund.

	2015	2014	Percentage
	Amount	Amount	Change
Revenues			
Taxes	\$ 7,833,838	\$ 7,401,769	5.84 %
Charges for services	187,955	195,485	(3.85) %
Licenses and permits	204,371	154,565	32.22 %
Change in fair market value	(11,692)	191,347	(106.11) %
Investment income	130,930	174,816	(25.10) %
Rental income	12,180	11,770	3.48 %
Special assessments	34,057	31,014	9.81 %
Intergovernmental	344,416	309,077	11.43 %
Other	68,626	47,295	45.10 %
Total	\$ 8,804,681	\$ 8,517,138	3.38 %

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Tax revenue represents 88.74% of all general fund revenue. The decrease in fair market value is an indication of fluctuation in the investment market at year end. The increase in licenses and permits revenue is the result of a surge in commercial building activity in 2015.

The table that follows assists in illustrating the expenditures of the general fund.

	2015 Amount	2014 Amount	Percentage Change
Expenditures			
General government	\$ 1,244,927	\$ 1,256,296	(0.90) %
Public health and welfare	3,586	4,444	(19.31) %
Transportation	229,910	206,416	11.38 %
Community environment	573,192	547,441	4.70 %
Leisure time activity	446,113	376,397	18.52 %
Total	\$ 2,497,728	\$ 2,390,994	4.46 %

Total expenditures increased 4.46% from 2014. The largest expenditure line item, general government, decreased 0.90%. The 2014 expenditures in public health and welfare were greater than 2015 due to the replacement of a fence at the Fairview cemetery in 2014. A capital project at the Earl Heck Community Center represents the increase in leisure time activities expenditures.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Expenditures - 2015

Expenditures - 2014

Fire and Rescue Fund

The fire and rescue fund had revenues and other financing sources of \$2,071,529 in 2015. This represents an increase of \$343,004 from 2014 revenues and other sources. The expenditures of the fire and rescue fund, which totaled \$1,892,189 in 2015, decreased \$111,904 from 2014. The net increase in fund balance for the fire and rescue fund was \$179,340 or 56.68%.

Police Fund

The police fund had revenues and other financing sources of \$2,906,572 in 2015. This represents a decrease of \$288,549 from 2014 revenues and other sources. The expenditures of the police fund, which totaled \$3,120,498 in 2014, increased \$253,113 from 2014. The net decrease in fund balance for the police fund was \$213,926 or 38.38%.

Street Fund

The street fund had revenues and other financing sources of \$1,813,114 in 2015. This represents an increase of \$10,434 from 2014 revenues and other financing sources. The expenditures of the street fund, which totaled \$1,897,245 in 2015, increased \$94,934 from 2014. The net decrease in the fund balance for the street fund, including the decrease in reserve for inventory, was \$89,196 or 7.54%.

Capital Improvement Fund

The capital improvement fund had revenues and other financing sources of \$1,719,302 in 2015. The expenditures of the capital improvement fund totaled \$903,747 in 2015. The net increase in the fund balance for the capital improvement fund was \$815,555 or 10.92%.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Budgeting Highlights

The City's budgeting process is prescribed by the Ohio Revised Code (ORC), as well as the City of Englewood Charter and Administrative Code. Essentially the budget is the City's appropriations which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the ORC. Therefore, the City's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity then the appropriations can be adjusted accordingly.

Budgetary information is presented for the general fund, fire and rescue fund, police fund and street fund. In the general fund, the actual revenues and other financing sources came in \$171,424 more than they were in the final budget and actual expenditures and other financing uses were \$305,067 less than the amount in the final budget. Budgeted revenues and other financing sources remained the same from the original to the final budget and budgeted expenditures and other financing uses increased \$301,924 from the original to the final budget.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, except in more detail. The only difference between the amounts reported as business-type activities and the amounts reported in the proprietary fund statements are interfund eliminations between proprietary funds and internal balances due to governmental activities for internal service activities. The only interfund activity reported in the government wide statements are those between business-type activities and governmental activities (reported as internal balances and transfers) whereas interfund amounts between various enterprise funds are reported in the proprietary fund statements.

Capital Assets and Debt Administration

Capital Assets

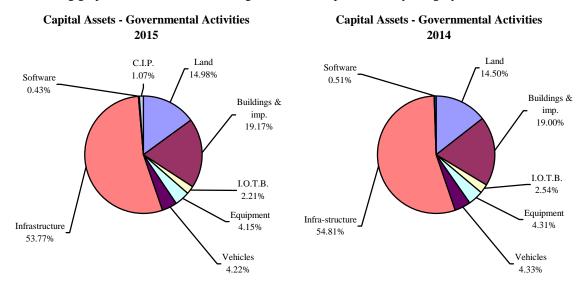

At the end of 2015, the City had \$50,604,949 (net of accumulated depreciation) invested in land, construction in progress, buildings and improvements, improvements other than buildings, equipment, vehicles, software, and infrastructure. Of this total, \$32,916,703 was reported in governmental activities and \$17,688,246 was reported in business-type activities. See Note 10 in the basic financial statements for additional capital asset disclosure. The following table shows 2015 balances compared to 2014:

Capital Assets at December 31 (Net of Depreciation)

	Governmen	Governmental Activities Business-Type Activities		Total		
	2015	2014	2015	2014	2015	2014
Land	\$ 4,931,726	\$ 4,931,726	\$ 33,510	\$ 33,510	\$ 4,965,236	\$ 4,965,236
Land improvements (I.O.T.B.)	726,120	864,523	815,380	842,044	1,541,500	1,706,567
Buildings and improvements	6,311,249	6,459,191	3,399,780	3,594,048	9,711,029	10,053,239
Equipment	1,365,087	1,464,405	2,224,645	2,438,954	3,589,732	3,903,359
Vehicles	1,390,682	1,470,927	182,954	173,569	1,573,636	1,644,496
Infrastructure	17,702,764	18,638,824	11,012,965	10,982,463	28,715,729	29,621,287
Computer software	141,868	172,125	19,012	-	160,880	172,125
Construction in progress	353,476				353,476	
Totals	\$ 32,922,972	\$ 34,001,721	\$ 17,688,246	\$ 18,064,588	\$ 50,611,218	\$ 52,066,309

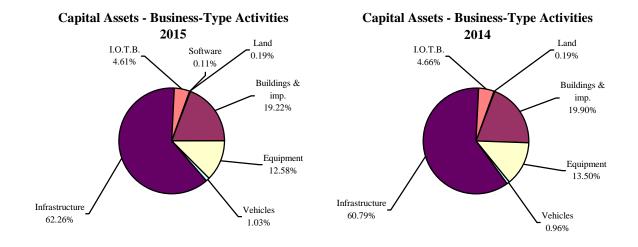

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

The following graphs show the breakdown of governmental capital assets by category for 2015 and 2014.

The City's largest capital asset category is infrastructure which includes bridges, thoroughfares, curbs, gutters, sidewalks, storm sewers, traffic signals and street signs. These items are immovable and of value only to the City, however, the annual cost of purchasing these items is quite significant. The net book value of the City's infrastructure (cost less accumulated depreciation) represents approximately 53.77% of the City's total governmental capital assets.

The following graphs show the breakdown of business-type capital assets by category for 2015 and 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

The City's largest business-type capital asset category is infrastructure which primarily includes water and sewer lines. These items play a vital role in the income producing ability of the business-type activities. The net book value of the City's infrastructure (cost less accumulated depreciation) represents approximately 62.26% of the City's total business-type capital assets.

Debt Administration

The City has had no outstanding loans or long-term debt since 2011.

Economic Conditions and Outlook

The City of Englewood is an attractive southwest Ohio planned community in the northern portion of Montgomery County. The City is located along the I-70 corridor, just 5 miles from Dayton International Airport, offering ease of access to the larger metropolitan cities of Dayton, Columbus, and Cincinnati, as well as interstate travel. For those who wish to avoid the congestion of the larger metropolitan areas, Englewood offers many opportunities right within its own borders for first-rate education, health, recreation, and entertainment. These amenities are enjoyed not only by Englewood's diverse population of 13,500, but also by the citizens of surrounding communities.

A 1.75% local income tax and successful efforts to secure federal, state, and local grants has enabled the City to provide excellent public service to its constituents, maintain and improve an extensive municipal infrastructure, and continually improve the overall appearance of the community. Englewood takes pride in its exceptional public thoroughfares, low crime rates, and beautifully maintained green spaces and park systems.

Englewood's tax base includes a good mix of health, government, education, entertainment, retail, commercial, and industrial segments. This diversity in tax base has enabled the City to remain fiscally strong despite cuts in state funding. At present time, the city has over two hundred acres available for development within its industrial parks, ample land available for residential growth and all the necessary resources to provide excellent service to our existing and future residents.

Looking Back

A mix of 120 commercial and residential building plans were approved in 2015 for a total of 1.1 million square feet of construction. Growth in the housing market was steady where 8 new homes were constructed with an estimated value of \$1.7 million. The total value of commercial construction permits in 2015 was \$18.5 million.

Headlining commercial activity in Englewood was the new Good Samaritan North 96,000 square foot addition which opened for business in November. This \$30 million investment by Good Sam, which includes an emergency department, will create 80 new jobs in Englewood.

Local capital ventures accomplished during 2015 include installing an energy efficient recycled material metal roof and storm windows at the Earl Heck Community Center and water main replacements on Bonnycastle, Woodlawn, Fallview, Hile, and Herr. Successful OPWC grant applications paid half the cost of water main replacements, and a \$56,000 Community Development Block Grant (CDBG) subsidized the roof project. The remaining funding was available in reserves set aside for such purposes, so no debt was required for these much needed improvements. As always, annual sidewalk replacement and general roadway resurfacing programs were completed as well.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015

Looking Forward

Commercial retail projects scheduled for completion in 2016 include a new 50,700 square foot shopping complex, anchored by Aldi Foods, at the site of the former Englewood Truck property on State Route 48, as well as the completion of two new out buildings in front of Meijer. The first will house a Panera Bread and an AT&T store, and the other proposes a Starbucks Coffee and a MOD Pizza. In addition to these private ventures, the restroom facilities at Centennial Park will be replaced with a brand new ADA compliant building. CDBG funding will subsidize this needed improvement.

Along with the annual street resurfacing and sidewalk replacement programs, the City will continue infrastructure improvements by replacing aged water mains. Three water main projects in various locations throughout the city are slated for completion in 2016. OPWC grants will once again cover half the cost of these improvements. Available reserve fund balances neutralize the need for debt issuance.

A long-term, multi-million dollar process to overhaul and modernize the wastewater treatment plant and water treatment plant will continue through 2016 and 2017. These projects are designed to protect the environment, reduce operational costs and provide clean, safe water for businesses and residential customers. An ultra-violet disinfection system will provide an effective and safe method for E-Coli elimination at the wastewater treatment plant. Engineering is currently underway for a process to soften the city's public water supply.

Preliminary engineering and environmental analysis work has begun on the historic National Road covered bridge across the scenic Stillwater River. This project is designed to improve the attraction of the 2,000 acre Englewood Reserve by connecting the regional bikeway system and improving access for outdoor walking, hiking, jogging and bicycling recreational activities. Council has committed to naming this pedestrian access between the east and west Englewood Reserve MetroParks the "Edward S. Kemper National Road Covered Bridge". This multi-year intergovernmental project is anticipated for bid in October, 2019. A federal grant of nearly \$2.2 million will fund 70% of this project, with the remaining costs shared by the city of Englewood and Five Rivers MetroParks.

The City has remained debt free since 2011. Because of a long-standing commitment to fiscal stewardship of public funds, Englewood will continue to thrive without compromising a history of excellence in safety, security and public service to the community.

Community safety and security, numerous parks and other quality recreational opportunities, reasonable utility and tax rates, wonderful educational opportunities and an aggressive capital improvements program have all positioned the city to maintain and improve its image as a progressive and inviting community.

Contacting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the city's finances and to show the city's accountability for the money it receives. If you have questions about this report or need additional information, contact City Manager Eric A. Smith or Finance Director Janine Cooper, City of Englewood, 333 West National Road, Englewood, OH 45322 or visit our website at www.englewood.oh.us.

IIISTAG	E 13 INTENTIONALLT LEFT BLAINK

Total governmental fund balances			\$ 17,617,265
Amounts reported for governmental activities on the			
statement of net position are different because:			
Capital assets used in governmental activities (excluding internal service			
funds capital assets) are not financial resources and therefore are not reported in the funds.	ed		31,629,875
Other long-term assets are not available to pay for current-			
period expenditures and therefore are deferred in the funds.			
Income taxes receivable	\$	1,016,707	
Real and other taxes receivable		36,950	
Accounts receivable		332,237	
Intergovernmental receivable		399,919	
Special assessments receivable		447,946	
Accrued interest receivable		40,972	
Total			2,274,731
The net pension liability is not due and payable in the current period;			
therefore, liability and related deferred inflows are not reported			
in governmental funds.			(5,953,027)
An internal service fund is used by management to charge the			
costs of the government center and service center to individual funds.			
The assets and liabilities of the internal service fund are included in			
governmental activities on the statement of net position. The net position			
of the internal service funds, including internal balances of \$(1,968), are:			
			1,434,687
Compensated absences are not due and payable in the current			
period and therefore are not reported in the funds.			 (545,302)
Net position of governmental activities			\$ 46,458,229

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2015

Net change in fund balances - total governmental funds		\$ 958,890
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeds capital outlays in the current period. Capital asset additions Current year depreciation Total	\$ 1,327,503 (2,072,017)	(744,514)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to		
decrease net position. Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in		(326,198)
the funds. Income taxes Delinquent property taxes Intergovernmental revenues Special assessments Investment income Other	7,524 (15,112) 3,567 57,744 38,724 86,719	
Total		179,166
Governmental funds report expenditures for inventory when purchased; however in the statement of activities, they are reported as an expense when consumed.		(5,065)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not		, , ,
reported as expenditures in governmental funds.		(93,565)
Contractually required pension contributions are reported as expenditures in governmental funds; however, the statement of activities reports these amounts as deferred outflows.		672,418
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		(726,866)
The internal service fund used by management to charge the costs of the government center and service center to individual funds is not reported in the government-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal		
service fund is allocated among the governmental activities.		 30,671
Change in net position of governmental activities		\$ (55,063)

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 1 - DESCRIPTION OF THE CITY

The City of Englewood (the "City") is a charter municipal corporation operating under the laws of the State of Ohio. The City was incorporated as a village in 1914 and became a City on February 12, 1971, after adopting the charter on November 3, 1970.

The municipal government provided by the charter is known as a Council-Manager form of government. Legislative power is vested in a seven-member council, each elected to four-year terms. One of the members shall be known as the Mayor and the remaining six members as Councilmen. The Council appoints the City Manager and the Clerk of Council. The City Manager is the chief executive officer and the head of the administrative agencies of the City. He appoints all department heads and employees, except as otherwise provided in the charter.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements (BFS) of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the City's accounting policies are described below.

A. Reporting Entity

For financial reporting purposes, the City's BFS include all funds, agencies, boards, commissions, and departments for which the City is financially accountable. Financial accountability, as defined by the GASB, exists if the City appoints a voting majority of an organization's Governing Board and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on, the City. The City may also be financially accountable for governmental organizations with a separately elected Governing Board, a Governing Board appointed by another government, or a jointly appointed Board that is fiscally dependent on the City. The City also took into consideration other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's basic financial statements to be misleading or incomplete. The City has no component units.

The primary government consists of all funds and departments which provide various services including public safety services, street maintenance and repair, parks, recreation, water, sewer and refuse services. Council and the City Manager are directly responsible for these activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Insurance Purchasing Pool

The Miami Valley Risk Management Association, Inc. (MVRMA) is a risk sharing insurance pool established for the purpose of enabling the subscribing political subdivisions to obtain liability insurance and providing a formalized, jointly administered self-insurance fund for its members. The members formed a not-for-profit corporation known as Miami Valley Risk Management Association, Inc. for the purpose of administering the pool. The subscribing members of the self-insurance pool include the Cities of Beavercreek, Bellbrook, Blue Ash, Centerville, Englewood, Kettering, Madeira, Mason, Miamisburg, Montgomery, Piqua, Sidney, Springdale, Tipp City, Troy, Vandalia, West Carrollton, Wilmington, and Wyoming, and the Village of Indian Hill. The City has no explicit and measurable equity interest in MVRMA and no ongoing financial responsibility for MVRMA. See Note 13 for additional information.

B. Basis of Presentation

The City's (BFS) consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activities of the internal service funds are eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental functions are self-financing or draw from the general revenues of the City.

Fund Financial Statements - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary fund financial statements. Fiduciary funds are reported by type.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

C. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows and liabilities plus deferred inflows is reported as fund balance. The following are the City's major governmental funds:

<u>General fund</u> - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Fire and rescue</u> - The fire and rescue fund accounts for all transactions relating to fire and emergency services.

Police - The police fund accounts for all transactions relating to the police department.

<u>Street</u> - The street fund accounts for all transactions relating to street maintenance and construction.

 $\underline{\textit{Capital improvement}}$ - To account for resources used to purchase equipment and construct capital assets.

Other governmental funds of the City are used to account for (a) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects and (b) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Proprietary Funds - Proprietary fund reporting focuses on changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

<u>Enterprise funds</u> - The enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

<u>Water</u> - This fund accounts for the provision of water treatment and distribution to its residential and commercial users located within the City.

<u>Sewer</u> - This fund accounts for the provision of sanitary sewer service to the residents and commercial users located within the City.

<u>Solid waste</u> - This fund accounts for the operations providing solid waste removal to the residents and commercial users located within the City.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Internal service funds</u> - The internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. The City's internal service funds report on the operations of the government center and the service center.

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The City's only fiduciary funds are agency funds. The Agency funds hold monies for contractor and insurance bond deposits, hydrant meter deposits, and building assessment fees collected on behalf of the State of Ohio.

D. Measurement Focus and Basis of Accounting

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets, all deferred outflows of resources, all liabilities and all deferred inflows of resources associated with the operation of the City are included on the statement of net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the financial statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the City's proprietary funds are charges for sales and services. Operating expenses for the enterprise funds include personnel and other expenses related to the operations of the enterprise activities and operating expenses for the internal service fund include personnel costs and administrative expenses incurred to provide the good or service that are the primary activity of the fund. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and agency funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions - Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within thirty-one days of year end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned (See Note 7). Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: income tax, State-levied locally shared taxes (including gasoline tax, local government funds and permissive tax), fines and forfeitures, fees and special assessments.

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources have been reported for the following items related to the City's net pension liability: (1) the net difference between projected and actual investment earnings on pension plan assets, (2) the City's contributions to the pension systems subsequent to the measurement date and (3) differences between employer's contributions and the employer's proportional share of contributions.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of December 31, 2015, but which were levied to finance 2016 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City unavailable revenue includes, but is not limited to, delinquent property taxes, income taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

The City also reports deferred inflow of resources for the following items related to the City's net pension liability: (1) differences between expected and actual experience and (2) differences between employer's contributions and the employer's proportional share of contributions. These deferred inflows of resources are only reported on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

F. Budgetary Data

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations ordinance are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. The legal level of budgetary control is at the department level of each fund and within each department personal services. Budgetary modifications may only be made by resolution of the City Council at the legal level of control.

Tax Budget - During the first Council meeting in July, the City Manager presents the following year's annual operating budget to City Council for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the County Budget Commission, by July 20 of each year, for the period January 1 to December 31 of the following year. The Montgomery County Budget Commission waived the tax budget filing requirement for 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Estimated Resources - The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Commission certifies its actions to the City by September 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenue of each fund. Prior to January 1, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include unencumbered cash balances at December 31 of the preceding year. The certificate may be further amended during the year if the Finance Director determines, and the Budget Commission agrees, that an estimate needs to be either increased or decreased. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during 2015.

Appropriations - A temporary appropriation ordinance to control expenditures may be passed on or about January 1 of each year for the period January 1 to March 31. An annual appropriation ordinance must be passed by April 1 of each year for the period January 1 to December 31. The appropriation ordinance fixes spending authority at the department level of each fund and within each department personal services. The appropriation ordinance may be amended during the year as new information becomes available, provided that total fund appropriations do not exceed current estimated resources, as certified. The appropriations at the legal level of control for a fund may only be modified during the year by an ordinance of Council. The amounts on the budgetary statement reflect the final appropriation amounts, including all amendments and modifications legally enacted by Council.

Lapsing of Appropriations - At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. Encumbrances are carried forward and are not reappropriated as part of the subsequent year appropriations.

G. Cash and Cash Equivalents

Cash balances of the City's funds are pooled and invested in investments maturing within ten years in order to provide improved cash management. Individual fund integrity is maintained through City records. Each fund's interest in the pooled bank account is presented on the balance sheet as "equity in pooled cash and investments" on the financial statements.

During 2015, investments were limited to federal agency securities and the State Treasury Asset Reserve of Ohio (STAR Ohio).

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on December 31, 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Interest income is distributed to the funds according to charter and statutory requirements. Interest revenue earned and credited to the general fund during 2015 amounted to \$130,930, which included \$87,552 assigned from other funds of the City.

For purposes of the statement of cash flows and for presentation on the statement of net position, investments with an original maturity of three months or less and investments of the cash management pool are considered to be cash equivalents.

An analysis of the City's investment account at year end is provided in Note 4.

H. Inventories of Materials and Supplies

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Inventories of the proprietary funds are expensed when used.

I. Prepayments

Payments made to vendors for services that will benefit periods beyond December 31, 2015, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of the purchase and the expenditure/expense in the year in which services are consumed.

J. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of \$5,000. The City's infrastructure consists of thoroughfares, street lights, curbs, gutters, sidewalks, storm sewers, bridges, street signs, traffic signals and controls, meters and water and sewer lines. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized for business-type activities.

All reported capital assets are depreciated except for land, construction in progress and easements with an indefinite useful life. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Depreciation is computed using the straight-line method over the following useful lives:

	Governmental Activities	Business-type Activities
Description	Estimated Lives	Estimated Lives
Description	Estimated Erves	<u>Estimated Lives</u>
Improvements to land	15 - 20 years	15 - 20 years
Buildings	20 - 45 years	20 - 45 years
Equipment	5 - 30 years	5 - 30 years
Vehicles	3 - 10 years	3 - 10 years
Infrastructure:		
Water and Sewer Lines	50 years	50 years
Bridges	40 years	n/a
Thoroughfares/Curbs/Gutters/Sidewalks/Street Lights	30 years	n/a
Storm Sewers	25 years	25 years
Traffic Signals and Controls and Meters	15 years	15 years
Street Signs	10 years	n/a
Software	5 - 10 years	5 - 10 years

K. Compensated Absences

Compensated absences of the City consist of vacation leave and sick leave to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the City and the employee.

In conformity with GASB Statement No. 16, "Accounting for Compensated Absences", vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at December 31 by those employees who are currently eligible to receive termination payments and by those employees for whom it is probable they will become eligible to receive termination benefits in the future.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at the balance sheet date, and reduced to the maximum payment allowed by labor contract and/or statute, plus applicable additional salary related payments. City employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave at various rates.

The entire compensated absence liability is reported on the government-wide financial statements.

On governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported. For proprietary funds, the entire amount of compensated absences is reported as a fund liability.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences, and that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

M. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

N. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the BFS.

O. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of City Council (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes, but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of City Council, which includes giving the Finance Director the authority to constrain monies for intended purposes.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

P. Estimates

The preparation of the BFS in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the BFS and accompanying notes. Actual results may differ from those estimates.

Q. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes consist primarily of the tax increment financing fund.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2015.

S. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

Change in Accounting Principles/Restatement of Net Position

For 2015, the City implemented GASB Statement No. 68, "<u>Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27</u>" and GASB Statement No. 71, "<u>Pension Transition</u> for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68".

GASB Statement No. 68 improves the accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The implementation of GASB Statement No. 68 affected the City's pension plan disclosures, as presented in Note 14 to the financial statements, and added required supplementary information which is presented after the notes to the basic financial statements.

GASB Statement No. 71 improves the accounting and financial reporting by addressing an issue in GASB Statement No. 68, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

A net position restatement is required in order to implement GASB Statement No 68 and 71. The governmental activities and business-type activities at January 1, 2015 have been restated as follows:

	Governmental Activities	Internal Service Funds		
Net position as previously reported	\$ 52,605,761	\$ 1,574,612		
Deferred outflows - payments				
subsequent to measurement date	783,823	27,725		
Net pension liability	(6,876,292)	(221,615)		
Restated net position at January 1, 2015	\$ 46,513,292	\$ 1,380,722		
	Business-Type Activities	Water	Sewer	Refuse
Net position as previously reported	\$ 24,421,254	\$ 12,699,860	\$ 11,084,004	\$ 660,684
Deferred outflows - payments subsequent to measurement date Net pension liability	83,818 (669,995)	40,490 (323,657)	37,334 (298,424)	5,994 (47,914)
Restated net position at January 1, 2015	\$ 23,835,077	\$ 12,416,693	\$ 10,822,914	\$ 618,764

Other than employer contributions subsequent to the measurement date, the City made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available. The restatement had no effect on governmental fund balances.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the City into three categories:

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits in interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interim monies may be deposited or invested in the following securities in accordance with the City's investment policy:

- A. Bonds, notes or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest thereon;
- B. Bonds, notes, debentures or any other obligations or securities issued by any Federal Government agency, instrumentality, or Government Sponsored Enterprise;
- C. Deposits in eligible financial institutions;
- D. Bankers' acceptances issued by banks ranked within the top 100 banks, based upon asset size, or issued by banks within the State of Ohio with at least two billion dollars (\$2,000,000,000) in assets;
- E. Commercial paper which, when purchased, is rated at least P-1 by Moody's Investor Services and A-1 by Standard and Poor's, and corporate notes and other debt which, when purchased, is rated AA or better by Moody's Investor Services and/or Standard and Poor's;
- F. Bonds, notes or other obligations of the State of Ohio and its political subdivisions;
- G. The State Treasury Assets Reserve of Ohio (STAR Ohio);
- H. No-load money market mutual funds consisting exclusively of obligations described in paragraphs A. and B. hereof; and,
- I. Repurchase agreements with institutions which have executed a master repurchase agreement, entered into between the City and that particular institution. Each master repurchase agreement will provide for:
 - 1. Collateralization of each repurchase agreement consisting exclusively of obligations described in paragraphs A. and B. hereof, the market value of which shall not be less than 102 percent of the principal amount of each repurchase agreement plus accrued interest;
 - 2. Safekeeping of the collateral by the City's third-party safekeeping agent; and,
 - 3. Settlement of each repurchase agreement on a delivery-versus-payment basis. Master repurchase agreements may provide for substitution of collateral by the broker/dealer with the agreement of the City.

Securities which are specifically prohibited for investment include interest-only, mortgage-backed securities or other securities for which there exists a hypothetical mathematical possibility of a negative yield, excluding default risk, if the security is held to maturity.

The City may also invest any monies not required to be used for a period of six months or more in the following:

- 1. Bonds of the State of Ohio;
- 2. Bonds of any municipal corporation, village, county, township, or other political subdivision of this State, as to which there is no default of principal, interest or coupons; and,
- 3. Obligations of the City.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the finance director by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

A. Cash on hand

At year end, the City had \$1,100 in undeposited cash on hand which is included on the financial statements of the City as part of "equity in pooled cash and investments".

B. Cash with fiscal agent

At year end, the City had \$119,565 held by Miami Valley Risk Management Association, Inc. for future premium stabilization. This amount is included on the financial statements of the City as part of "cash with fiscal agent".

C. Deposits with Financial Institutions

At December 31, 2015, the carrying amount of all City deposits was \$6,163,553. As of December 31, 2015, \$725,693 of the City's bank balance of \$6,485,937 was exposed to custodial risk as discussed below, while \$5,760,244 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. As permitted by Ohio Revised Code, the City's deposits are collateralized by a pool of eligible securities deposited with Federal Reserve Banks, or at member banks of the Federal Reserve System, in the name of the depository bank and pledged as a pool of collateral against all public deposits held by the depository. The City has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the City to a successful claim by the FDIC.

D. Investments

As of December 31, 2015, the City had the following investments and maturities:

			Investment Maturities							
			6 r	nonths	7 to	o 24	Greate	r than		
<u>Investment type</u>	<u>Fair</u>	Value		or less_	mo	nths	24 m	onths	_	Total
STAR Ohio	\$	1,301	\$	1,301	\$	-	\$	-	\$	1,301
FHLMC	13	,794,405		-		-	13,7	794,405		13,794,405
FNMA	3	,489,490					3,4	189,490	_	3,489,490
Total	\$ 17	,285,196	\$	1,301	\$		\$ 17,2	283,895	\$	17,285,196

The weighted average maturity of investments is 4.81 years.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interest Rate Risk: Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The City's investment policy addresses interest rate risk by requiring the consideration of market conditions and cash flow requirements in determining the term of an investment. Unless matched to a specific cash flow requirement, the City will not directly invest in securities maturing more than ten years from the month of settlement.

Credit Risk: The City's investments, except for corporate notes and STAR Ohio, were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. Standard & Poor's has assigned STAR Ohio an AAAm money market rating. The City's investment policy limits its investments to those authorized by Englewood Codified Ordinance 236.07. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The City's investment policy requires commercial paper, when purchased, to be rated at least P-1 by Moody's Investor Services and A-1 by Standard & Poor's and corporate notes and other debt which, when purchased, is rated AA or better by Moody's Investor Services and/or Standard & Poor's.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent, but not in the City's name. The City's investment policy requires government securities, commercial paper, bankers' acceptances and money market securities to be settled in a delivery-versus-payment method. Book entry or physical securities shall be safekept by a third-party safekeeping agent, in the agent's Federal Reserve customer account, correspondent money center bank customer custody account or Depository Trust Corporation (DTC) customer custody account. Each delivery and safekeeping shall be evidenced by a safekeeping receipt.

Concentration of Credit Risk: The City's investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific class of securities. The following table includes the percentage of each investment type held by the City at December 31, 2015:

<u>Investment type</u>	<u>Fai</u>	r Value	% of Total
STAR Ohio	\$	1,301	0.01
FHLMC	13	3,794,405	79.80
FNMA	3	3,489,490	20.19
Total	\$ 17	7,285,196	100.00

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

E. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of December 31, 2015:

Cash and investments per note	
Carrying amount of deposits	\$ 6,163,553
Investments	17,285,196
Cash with fiscal agent	119,565
Cash on hand	 1,100
Total	\$ 23,569,414
<u>Cash and investments per statement of net position</u>	
Governmental activities	\$ 17,546,646
Business type activities	6,020,003
Agency funds	 2,765
Total	\$ 23,569,414

NOTE 5 - INTERFUND ACTIVITY

A. Interfund Transfers

Interfund transfers for the year ended December 31, 2015, consisted of the following, as reported in the fund financial statements:

Transfers from

	Nonmajor Governmental						
<u>Transfers to</u>	_	General		Funds	_	Total	
Fire and rescue	\$	714,144	\$	-	\$	714,144	
Police		2,600,000		-		2,600,000	
Street		1,250,000		-		1,250,000	
Capital improvement		1,400,000		300,680		1,700,680	
Nonmajor governmental		350,000		-		350,000	
Service center operating		22,500		-		22,500	
Englewood government center		30,000				30,000	
Total	\$	6,366,644	\$	300,680	\$	6,667,324	

Transfers are made to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The tax incremental financing fund (a nonmajor governmental fund) transferred \$250,000 to the capital improvement fund to fund improvements made in the TIF District (See Note 8). The permissive tax fund (a nonmajor governmental fund) transferred \$50,680 to the capital improvement fund to fund road resurfacing projects and culvert replacement projects. All transfers were made in accordance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 5 - INTERFUND ACTIVITY - (Continued)

B. Advances To/From Other Funds

The general fund advanced \$250,000 to the capital improvement fund for the Main Street TIF project. This fund is not expected to be repaid within one year.

NOTE 6 - PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2015 public utility property taxes became a lien December 31, 2014, are levied after October 1, 2015, and are collected in 2016 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County collects property taxes on behalf of all taxing districts in the County, including the City of Englewood. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2015 and for which there is an enforceable legal claim. In the governmental funds, the current portion receivable has been offset by deferred inflow of resources since the current taxes were not levied to finance 2015 operations and the collection of delinquent taxes has been offset by deferred inflow of resources since the collection of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is a deferred inflow of resources.

The full tax rate for all City operations for the year ended December 31, 2015 was \$10.59 per \$1,000 of assessed value. The assessed values of real property and public utility personal property upon which 2015 property tax receipts were based are as follows:

Real property	
Residential/agricultural	\$ 185,889,200
Commercial/industrial/mineral	64,239,430
Public utility	
Personal	 4,521,050
Total assessed value	\$ 254,649,680

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 7 - LOCAL INCOME TAX

The City levies a municipal income tax of one and three-quarters percent on substantially all income earned within the City. In addition, the residents of the City are required to pay income tax on income earned outside of the City; however, the City allows a credit for income taxes paid to another municipality up to 100% of the City's current tax rate.

Employers within the City are required to withhold income tax on employee compensation and remit the tax to the City either monthly or quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually.

Income tax proceeds are to be used to pay the cost of administering the tax. All remaining income tax revenue is then initially placed in the general fund. The use of all income tax proceeds is determined by City Council. Income tax revenue for 2015 was \$6,973,808 as reported in the fund financial statements.

NOTE 8 - TAX INCREMENT FINANCING DISTRICT (TIF)

The City, pursuant to the Ohio Revised Code and City ordinances, has established a TIF. A TIF represents a geographic area wherein property values created after the commencement date of the TIF are exempt, in whole or in part, from property taxes. Owners of such property, however, must pay amounts equal to the property taxes, known as "payments in lieu of taxes (PILOT)", as though the TIF had not been established. These "PILOTS" are then dedicated to the payments for various public improvements within or adjacent to the TIF area. Property values existing before the commencement date of a TIF continue to be subjected to property taxes.

PILOT revenue was \$440,092 in 2015 as reported in the fund financial statements. The TIF has a longevity of the shorter period of 30 years or until the public improvements are paid for. The property tax exemption then ceases; PILOT's cease and property taxes then apply to the increased property values.

NOTE 9 - RECEIVABLES

Receivables at December 31, 2015, consisted of taxes, accounts (billings for user charged services), special assessments, accrued interest and intergovernmental receivables arising from grants, entitlements and shared revenue. All intergovernmental receivables have been classified as "due from other governments" on the BFS. Receivables have been recorded to the extent that they are measurable at December 31, 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 9 - RECEIVABLES - (Continued)

A summary of the principal items of receivables reported on the statement of net position follows:

Governmental activities:

Special assessments

Income taxes	\$ 1,560,522
Real and other taxes	1,347,615
Payments in lieu of taxes	121,239
Accounts	395,701
Accrued interest	40,972
Special assessments	448,797
Due from other governments	491,798
Business-type activities:	
Accounts	367,545

Receivables have been disaggregated on the face of the BFS. The only receivables not expected to be collected within the subsequent year are the special assessments which are collected over the life of the assessment.

28,200

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 11 - OTHER EMPLOYEE BENEFITS

Deferred Compensation Plans

City employees and elected officials may participate in a statewide deferred compensation plan or a plan offered by ING and sponsored by the Ohio Municipal League. Both plans were created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plans permit deferral of compensation until future years. According to the plans, the deferred compensation is not available until termination, retirement, death or an unforeseeable emergency.

Compensated Absences

Accumulated Unpaid Vacation

City employees earn vacation leave at varying rates based upon length of service. In the case of death or retirement, an employee (or his estate) is paid for his unused vacation leave. The total obligation for vacation leave for the City as a whole amounted to \$349,014 at December 31, 2015. Amounts are recorded as a fund liability and/or on the government-wide financial statements as applicable.

Accumulated Unpaid Sick Leave

City employees earn sick leave at the rate of one and one-fourth days per month. Upon retirement an employee is paid for one-third of his accumulated sick leave within various limits. The total obligation for sick leave accrual for the City as a whole amounted to \$300,121 at December 31, 2015. Amounts are recorded as a fund liability and/or on the government-wide financial statements as applicable.

Overtime Pay

City employees earn overtime pay at varying rates based on when the employee works the overtime. The total obligation for overtime pay for the City as a whole amounted to \$12,159 at December 31, 2015. Amounts are recorded as a fund liability and/or on the government-wide financial statements as applicable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 12 - LONG-TERM OBLIGATIONS

A. The beginning balance of the long-term obligations was restated as described in Note 3. The changes in the City's governmental activities long-term obligations during the year consist of the following:

	Restated				Amounts
	Balance			Balance	Due in
Governmental activities:	12/31/14	Additions	Reductions	12/31/15	One Year
Other long-term obligations:					
Compensated absences	\$ 534,492	\$ 415,363	\$ (363,064)	\$ 586,791	\$ 276,548
Net pension liability	6,876,292	344,025		7,220,317	
Total other long-term obligations	\$ 7,410,784	\$ 759,388	\$ (363,064)	\$7,807,108	\$ 276,548

Compensated absences consisting of sick leave (severance), vacation benefits and compensatory time will be paid from the fund from which the employee is paid which, for the City are primarily the general, fire and rescue, police and street funds.

B. The beginning balance of the long-term obligations was restated as described in Note 3. The changes in the City's business-type activities long-term obligations during the year consist of the following:

	Restated				Amounts
	Balance			Balance	Due in
Business-type activities:	12/31/14	<u>Additions</u>	Reductions	12/31/15	One Year
Other long-term obligations					
Compensated absences	\$ 144,424	\$ -	\$ (69,921)	\$ 74,503	\$ 35,434
Net pension liability	669,995	15,483		685,478	
Total other long-term obligations	\$ 814,419	\$ 15,483	\$ (69,921)	\$ 759,981	\$ 35,434

As of December 31, 2015, the City's overall legal debt margin (the ability to issue general obligation bonded debt) was \$26,744,285 and the unvoted debt margin was \$14,005,732.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 13 - RISK MANAGEMENT

A. Comprehensive

The City is exposed to various risks of loss related to torts, thefts of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The City is a member of the Miami Valley Risk Management Association, Inc. (MVRMA), a joint insurance pool. The pool consists of twenty municipalities who pool risk for property, crime, liability, boiler and machinery and public official liability. The City pays an annual premium for this coverage. The agreement provides that the MVRMA will be self-sustaining through member premiums and the purchase of excess and stoploss insurance. The deductible per occurrence for all types of claims is \$2,500. The type of coverage and deductible for each is as follows:

Type of Coverage

1. Liability:

Personal Injury Liability Property Damage Liability Public Officials Errors and Omissions Employment Practices Liability Employee Benefits Liability

Limits: \$10,000,000 per occurrence. \$10,000,000 annual aggregate per member for Employment Practices Liability; Public Officials Errors and Omissions and Employee Benefits Liability combined; and Products/Completed Operations.

MVRMA self-insured \$500,000 per occurrence and obtained reinsurance from Government Entities Mutual, Inc. (GEM) for \$2.5 million excess of \$500,000, from Genesis for \$7 million excess of \$3 million.

2. Property:

\$1.000.000,000/occurrence

MVRMA Self-Insured Retention (SIR): \$250,000/occurrence

Coverage excess of SIR provided by Alliant Property Insurance Program (APIP). List of carriers underwriting the coverage provided upon request.

3. Flood - included in Property Policy

\$25 million/occurrence and annual aggregate

Sublimit: Flood Zone A & V - \$5 million/occurrence and annual aggregate

MVRMA SIR: \$100,000/occurrence excluding Flood Zones A & V

MVRMA SIR: \$250,000/occurrence Flood Zones A & V

4. Earthquake - included in Property Policy

\$25 million/occurrence and annual aggregate MVRMA SIR: \$100.000/occurrence

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 13 - RISK MANAGEMENT - (Continued)

5. Boiler & Machinery - included in Property Policy

\$100,000/occurrence

MVRMA SIR: \$10,000 - \$350,000/occurrence

6. Cyber Liability - included in Property Policy

MVRMA SIR: \$100,000/occurrence

Coverage excess of SIR provided by Lloyd's of London - Beazley Syndicate

Third Party Liability:

\$2 million/occurrence and annual aggregate, but sublimited to:

\$1,000,000/occurrence and annual aggregate for Privacy Notification Costs

First Party Computer Liability:

\$2 million/occurrence and annual aggregate subject to policy sublimits

7. Pollution Liability - Claims Made and Reported Policy

Retroactive Date: Policy inception

Coverage excess SIR provided by ACE - Illinois Union Insurance Co.

MVRMA SIR: \$75,000/pollution condition; \$750,000 underground

Storage tanks specific

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant reduction in insurance coverage from the prior year.

MVRMA issues a stand-alone Comprehensive Annual Financial Report. Interested parties may obtain a copy by making a written request to 4625 Presidential Way, Kettering, OH 45429-5706.

B. Workers' Compensation

In 2015, the City participated in the Ohio Bureau of Workers' Compensation (Bureau) Group Rating Plan. The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries.

C. Unemployment

The City is a reimbursing employer with the Ohio Department of Job and Family Services. This means that, in lieu of unemployment taxes, the City pays unemployment claims to the State of Ohio as incurred. Claims may be incurred when an employee experiences the loss of employment other than with the City of Englewood. In 2015, the City's contribution to unemployment benefits was immaterial.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 13 - RISK MANAGEMENT - (Continued)

D. Health, Dental and Life Insurance

The City is a member of the Ohio Benefits Cooperative (OBC), a consortium of political subdivisions in the greater Miami Valley area. The purpose of the OBC is to pool risk and collectively purchase health insurance. OBC entered into an administrative agreement on September 1, 2015 with the Jefferson Health Plan for stop loss insurance, pooling, administration and other benefit services to provide medical benefits to City employees. The Jefferson Health Plan is a self-insurance plan, additional disclosure related to IBNR will be available after the City has had an entire year of participation in the plan.

The City offers a High Deductible Health Plan combined with a Health Savings Account (HSA Plan). For the plan year effective 9/1/15 - 8/31/16, the City pays 100% of the HSA Plan monthly premium of \$398.80 for single coverage and \$1,231.09 for family coverage. The City also makes quarterly contributions to the employee health savings accounts. The annual amount of City contributions to the health savings account is \$750.00 for single coverage and \$1,500.00 for family coverage. The City also offers a PPO for health insurance. The monthly premium is \$588.73 for single coverage and \$1,817.46 for family coverage. The employee portion of the monthly premium is \$40.76 for single coverage and \$125.82 for family coverage.

Dental insurance is offered through Superior Dental Care with a deductible of \$50 for single coverage and up to \$150 for family coverage. The City pays the majority of the monthly premium of \$26.52 for single coverage and \$83.25 for family coverage. The City also provides a minimum of \$25,000 life and AD&D insurance at no cost to the employees. Employees have the opportunity to purchase additional group rated health and life insurance benefits, with the full cost of the premiums paid by the employee via payroll deduction.

NOTE 14 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

GASB 68 assumes any net pension liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits or overfunded benefits is presented as a long-term *net pension liability* or *net pension asset*, respectively, on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *due to other governments* on both the accrual and modified accrual bases of accounting.

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the Member-Directed Plan and the Combined Plan, substantially all employee members are in OPERS' Traditional Pension Plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the Traditional Pension Plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the Traditional Pension Plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

reduced benefits adopted by SB 545 (see OPERS CAFR referenced above for additional information):								
Group A	Group B	Group C						
Eligible to retire prior to	20 years of service credit prior to	Members not in other Groups						
January 7, 2013 or five years	January 7, 2013 or eligible to retire	and members hired on or after						
after January 7, 2013	ten years after January 7, 2013	January 7, 2013						
	<u></u>							

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

State and Local

Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

State and Local

Age 57 with 25 years of service

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for State and Local members in transition Groups A and B applies a factor of 1.0% to the member's FAS for the first 30 years of service. A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the member's FAS and the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions plus or minus any investment gains or losses on those contributions. Members retiring under the Combined Plan receive a 3% COLA adjustment on the defined benefit portion of their benefit.

Defined contribution plan benefits are established in the plan documents, which may be amended by the OPERS's Board of Trustees. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. The amount available for defined contribution benefits in the Member-Directed Plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. For additional information, see the Plan Statement in the OPERS CAFR.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	
	and Loc	al
2015 Statutory Maximum Contribution Rates		
Employer	14.0	%
Employee	10.0	%
2015 Actual Contribution Rates		
Employer:		
Pension	12.0	%
Post-employment Health Care Benefits	2.0	%
Total Employer	14.0	%
Employee	10.0	%

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution for both the Traditional Pension Plan and the Combined Plan was \$382,141 for 2015. Of this amount, \$45,555 is reported as due to other governments.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OPF website at www.opf.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OPF benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters			
2015 Statutory Maximum Contribution Rates					
Employer	19.50 %	24.00 %			
Employee:					
January 1, 2015 through July 1, 2015	11.50 %	11.50 %			
July 2, 2015 through December 31, 2015	12.25 %	12.25 %			
2015 Actual Contribution Rates					
Employer:					
Pension	19.00 %	23.50 %			
Post-employment Health Care Benefits	0.50 %	0.50 %			
Total Employer	19.50 %	24.00 %			
Employee:					
January 1, 2015 through July 1, 2015	11.50 %	11.50 %			
July 2, 2015 through December 31, 2015	12.25 %	12.25 %			

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$404,514 for 2015. Of this amount \$60,254 is reported as due to other governments.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for the OPERS Traditional Pension Plan was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2014, and was determined by rolling forward the total pension liability as of January 1, 2014, to December 31, 2014. The City's proportion of the net pension liability or asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	(OPERS	OP&F		 Total	
Proportionate share of the net pension liability	\$	3,051,464	\$	4,854,331	\$ 7,905,795	
Proportion of the net pension						
liability	0.0	2530000%	0	.09370540%		
Pension expense	\$	332,177	\$	493,991	\$ 826,168	

At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS		 OP&F	 Total
Deferred outflows of resources		_	 	
Net difference between projected and				
actual earnings on pension plan investments	\$	162,817	\$ 209,217	\$ 372,034
Difference between employer contributions				
and proportionate share of contributions		-	81,893	81,893
Change in prorated share		662	-	662
City contributions subsequent to the				
measurement date		382,141	 404,514	 786,655
Total deferred outflows of resources	\$	545,620	\$ 695,624	\$ 1,241,244
Deferred inflows of resources				
Differences between expected and				
actual experience		53,608	-	53,608
Total deferred inflows of resources	\$	53,608	\$ _	\$ 53,608

\$786,655 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2016.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	(OPERS		OP&F		Total
Year Ending December 31:						
2016	ď	16 275	¢	70 777	¢.	90.052
2016	\$	16,275	\$	72,777	\$	89,052
2017		16,275		72,777		89,052
2018		36,617		72,777		109,394
2019		40,704		72,779		113,483
Total	\$	109,871	\$	291,110	\$	400,981

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability/asset in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage inflation	3.75 percent
Future salary increases, including inflation	4.25 to 10.05 percent including wage inflation
COLA or ad hoc COLA	3 percent, simple
Investment rate of return	8 percent
Actuarial cost method	Individual entry age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 6.95 percent for 2014.

The allocation of investment assets with the Defined Benefit portfolio is approved by the OPERS Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed income	23.00 %	2.31 %
Domestic equities	19.90	5.84
Real estate	10.00	4.25
Private equity	10.00	9.25
International equities	19.10	7.40
Other investments	18.00	4.59
Total	100.00 %	5.28 %

Discount Rate - The discount rate used to measure the total pension liability/asset was 8 percent for both the Traditional Pension Plan and the Combined Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 8 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

	Current					
	19	% Decrease (7.00%)	D:	iscount Rate (8.00%)	1% Increase (9.00%)	
City's proportionate share				_	-	_
of the net pension liability (asset):						
Traditional Pension Plan	\$	5,613,817	\$	3,051,464	\$	893,343

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Actuarial Assumptions - OP&F

OP&F's total pension liability as of December 31, 2014 is based on the results of an actuarial valuation date of January 1, 2014, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2014, are presented below:

Valuation date
Actuarial cost method
Investment rate of return
Projected salary increases
Payroll increases
Inflation assumptions
Cost of living adjustments

January 1, 2014
Entry age normal
8.25 percent
4.25 percent to 11 percent
3.75 percent
3.25 percent

2.60 percent and 3.00 percent

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OPF's target asset allocation as of December 31, 2014 are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and Cash Equivalents	- %	(0.25) %
Domestic Equity	16.00	4.47
Non-US Equity	16.00	4.47
Core Fixed Income *	20.00	1.62
Global Inflation Protected *	20.00	1.33
High Yield	15.00	3.39
Real Estate	12.00	3.93
Private Markets	8.00	6.98
Timber	5.00	4.92
Master Limited Partnerships	8.00	7.03
Total	120.00 %	

^{*} levered 2x

OPF's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate - The total pension liability was calculated using the discount rate of 8.25 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25 percent), or one percentage point higher (9.25 percent) than the current rate.

		Current					
	19	1% Decrease (7.25%)		scount Rate (8.25%)	1% Increase (9.25%)		
City's proportionate share		(1120 70)		(6.26 / 6)	(5.2070)		
of the net pension liability	\$	6,714,273	\$	4,854,331	\$ 3,279,524		

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 15 - POSTRETIREMENT BENEFIT PLANS

A. Ohio Public Employees Retirement System

Plan Description - OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension Plan and the Combined Plan. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

To qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have ten years or more of qualifying Ohio service credit. The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

Disclosures for the healthcare plan are presented separately in the OPERS financial report which may be obtained by visiting https://www.opers.org/financial/reports.shtml, writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642 or by calling (800) 222-7377.

Funding Policy - The post-employment healthcare plan was established under, and is administered in accordance with, Internal Revenue Code Section 401(h). State statute requires that public employers fund post-employment healthcare through contributions to OPERS. A portion of each employer's contribution to the Traditional or Combined Plans is set aside for the funding of post-employment health care.

Employer contribution rates are expressed as a percentage of the covered payroll of active employees. In 2015, local government employers contributed 14.00% of covered payroll. Each year the OPERS' Retirement Board determines the portion of the employer contribution rate that will be set aside for the funding of the postemployment health care benefits. The portion of employer contributions allocated to fund post-employment healthcare for members in the Traditional Plan and Combined Plan for 2015 was 2.00%.

The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. Active members do not make contributions to the post-employment healthcare plan.

The City's contributions allocated to fund post-employment health care benefits for the years ended December 31, 2015, 2014, and 2013 were \$63,690, \$62,045, and \$29,531, respectively; 89.78% has been contributed for 2015 and 100% has been contributed for 2014 and 2013. The remaining 2015 post-employment health care benefits liability has been reported as due to other governments on the basic financial statements.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under State Bill 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4.00% of the employer contributions toward the health care fund after the end of the transition period.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 15 - POSTRETIREMENT BENEFIT PLANS - (Continued)

B. Ohio Police and Fire Pension Fund

Plan Description - The City contributes to the OP&F Pension Fund sponsored health care program, a cost-sharing multiple-employer defined postemployment health care plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-employment health care coverage to any person who receives or is eligible to receive a monthly service, disability or survivor benefit check or is a spouse or eligible dependent child of such person.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to the OPF, 140 East Town Street, Columbus, Ohio 43215-5164 or by visiting the website at www.op-f.org.

Funding Policy - The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.50% and 24.00% of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units and 24.00% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts, one account is for health care benefits under an Internal Revenue Code Section 115 trust and the other account is for Medicare Part B reimbursements administered as an Internal Revenue Code Section 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan into the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For 2015, the portion of employer contributions allocated to health care was 0.50% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that the pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 15 - POSTRETIREMENT BENEFIT PLANS - (Continued)

The City's contributions to OP&F which were allocated to fund post-employment healthcare benefits for police officers and firefighters were \$7,716 and \$2,533 for the year ended December 31, 2015, \$7,346 and \$2,395 for the year ended December 31, 2014, and \$52,353 and \$17,286, for the year ended December 31, 2013. 100% has been contributed for 2014 and 2013. 86.51% has been contributed for police and 82.96% has been contributed for firefighters for 2015. The remaining 2015 post-employment health care benefits liability has been reported as due to other governments on the basic financial statements.

NOTE 16 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund, fire and rescue fund, police fund and street fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Investments are reported at fair value (GAAP basis) rather than cost (budget basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 16 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements (as reported in the fund financial statements) to the budgetary basis statements for all governmental funds for which a budgetary basis statement is presented:

Net Change in Fund Balance

	Ge	eneral fund	Fire and Rescue		<u>Police</u>	Street fund	
Budget basis	\$	(451,242)	\$	148,446	\$ (236,308)	\$	(134,617)
Net adjustment for revenue accruals		113,059		3,458	(759)		(1,632)
Net adjustment for expenditure accruals		(326,891)		(16,038)	(17,378)		342
Net adjustment for other sources/uses		635,000		-	-		-
Funds budgeted elsewhere		29,438		-	-		-
Adjustment for encumbrances		22,924		43,474	40,519		51,776
GAAP basis	\$	22,288	\$	179,340	\$ (213,926)	\$	(84,131)

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the Earl Heck Community Center fund, the street lighting fund and the debt service investment trust fund.

THIS SPACE INTENTIONALLY LEFT BLANK

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 17 - FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund balance	General	Fire and Rescue Fund	Police Fund	Street Fund	Capital Improvement Fund	Nonmajor Governmental Funds	Total Governmental Funds	
Nonspendable:	¢	e.	¢.	¢ 100.710	\$ -	¢.	¢ 100.710

NOTE 18 – COMMITMENTS- (Continued)

B. Other Commitments

The City utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the City's commitments for encumbrances in the governmental funds were as follows:

	Y	ear-End
<u>Fund</u>	Enc	<u>umbrances</u>
General fund	\$	23,304
Fire and rescue		29,058
Police		37,679
Street		51,067
Capital improvement		744,326
Nonmajor governmental		14,185
	·	
Total	\$	899,619

NOTE 19 - CONTINGENCIES

A. Grants

The City receives significant financial assistance from numerous federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the City at December 31, 2015.

B. Litigation

The City is currently involved in no litigation for which there is a risk of financial liability.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

City of Englewood Montgomery County 333 West National Road Englewood, Ohio 45322

To the Members of Council and Mayor:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Englewood, Montgomery County, Ohio as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City of Englewood's basic financial statements and have issued our report thereon dated May 18, 2016, wherein we noted as discussed in Note 3, the City of Englewood adopted Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27* and *No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68.*

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City of Englewood's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the City of Englewood's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City of Englewood's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Members of Council and Mayor City of Englewood

Compliance and Other Matters

As part of reasonably assuring whether the City of Englewood's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City of Englewood's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City of Englewood's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
