MIAMI COUNTY**

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE YEAR ENDED DECEMBER 31, 2015**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of City of Piqua (the City's) under programs of the federal government for the year ended December 31, 2015. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – RELATIONSHIP TO THE BASIC FINANCIAL STATEMENTS

Grant expenditures are reported in the City's major and non-major special revenue funds.

NOTE D – LOAN PROGRAMS WITH AND WITHOUT CONTINUING COMPLIANCE REQUIREMENTS

The balances of loans outstanding at December 31, 2015 consist of:

CFDA Number	Program/Cluster Name	Outstanding Balance at December 31, 2015
14.228	Community Development Block Grant – Microenterprise Program	\$27,363
14.228	Community Development Block Grant – Homeowners Assistance	562,741
14.239	HOME Investment Partnership Program – Rental Rehab Program	39,285
10.769	Rural Business Enterprise Grant	74,551
	Less Allowance for Uncollectable Accounts	(698,329)
	Net Loans Outstanding	\$5,611

During 2015, the City issued \$30,000 in USDA Loans. The Rental Rehab and Microenterprise programs require continuing compliance requirements and therefore the loan balance is included in the Schedule of Expenditures of Federal Awards. The loans are reported on the City's financial statements within the special revenue funds.

The City has a revolving loan fund (RLF) program to provide low-interest loans to businesses to create jobs for low to moderate income person and also to lend money to eligible persons to rehabilitate homes. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the City. These loans are collateralized by mortgages on the property.

NOTE E – MATCHING REQUIREMENTS

Certain Federal programs require the City to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The City has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Piqua
Miami County
201 West Water Street
Piqua, Ohio 45356

To the City Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Piqua, Miami County, (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 24, 2016, wherein we noted the City adopted provisions of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings that we consider a significant deficiency. We consider finding 2015-001 to be a significant deficiency.

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2015-001.

City's Response to Finding

The City's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the City's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

City of Piqua
Miami County
201 West Water Street
Piqua, Ohio 45356

To the City Commissioners:

Report on Compliance for the Major Federal Program

We have audited the City of Piqua's (the City) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the City of Piqua's major federal program for the year ended December 31, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the City's major federal program.

Management's Responsibility

The City's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the City's compliance for the City's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the City's major program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on the Major Federal Program

In our opinion, the City of Piqua complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended December 31, 2015.

Report on Internal Control Over Compliance

The City's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the City's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

This space intentionally left blank.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Piqua (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our unmodified report thereon dated June 24, 2016. Our opinion also explained that the City adopted *Governmental Accounting Standards Board Statements No. 68 and 71* during the year. We conducted our audit to opine on the City's' basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

<i>(d)(1)(ix)</i>	Low Risk Auditee under 2 CFR §200.520?	Yes

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2015-001

NONCOMPLIANCE/SIGNIFICANT DEFICIENCY – SPECIAL ASSESSMENT REPORTING

Ohio Rev. Code § 5705.10 (D) states, in part, that except as otherwise provided by resolution adopted pursuant to § 3315.01 of the Revised Code, all revenue derived from a source other than the general property tax and which the law prescribes shall be used for a particular purpose, shall be paid into a special fund for such purpose. Additionally, **Ohio Rev. Code § 727.01** states, in part, that each municipal corporation shall have special power to levy and collect special assessments.

**FINDING NUMBER 2015-001
(Continued)**

Governmental Accounting Standards Board Statement 6 — Accounting and Financial Reporting for Special Assessments further states in paragraph 4 that service-type special assessment projects are for operating activities and do not result in the purchase or construction of fixed assets. Often the assessments are for services that are normally provided to the public as general governmental functions and that would otherwise be financed by the general fund or a special revenue fund. Those services include street lighting, street cleaning, and snow plowing. Financing for these routine services typically comes from general revenues. However, when routine services are extended to property owners outside the normal service area of the government or are provided at a higher level or at more frequent intervals than for the general public, special assessments are sometimes levied. Only the affected property owners are charged for the additional services. Paragraph 14 also states that the transactions of a service-type special assessment should be reported in the fund type that best reflects the nature of the transactions, usually the general fund, a special revenue fund, or an enterprise fund, giving consideration to the “number of funds” principle in Codification Section 1100, “Summary Statement of Principles,” paragraph .104. Service-type special assessment revenues should be treated like user fees. Both the assessment revenues and the expenditures (expenses) for which the assessments were levied should be recognized on the same basis of accounting as that normally used for that fund type.

The City recorded \$290,047 of accounts receivable and related deferred inflows related to various service-type special assessments in the debt service fund that were not related to debt service. However, as required above, all service-type special assessments should be reported in the fund type that best reflects the nature of the transactions, which was the general fund for the related activity. Adjustments have been made to the accompanying financial statements to correct this error.

In addition, there was \$18,092 of 2015 special assessment revenue recorded as property tax revenue and \$1,216 in related other expenditures in the debt service for the service-type special assessments that should have been recorded in the general fund. These amounts were not material to the financial statements and were not adjusted in the accompanying financial statements.

Failure to record special assessments revenue and the related receivable and deferred inflows to the proper fund could lead to fund balance errors and financial statement misstatements.

The City should implement procedures to review its financial statements for proper presentation. The City should also record various financial activity related to special assessments to the proper fund.

Officials’ Response: The City and the Finance Department strive to maintain accurate financial records. We take great pride and an extreme level of diligence to assure financial reporting is complete and accurate. We will continue to implement controls over financial reporting to ensure accuracy in the financial statements

Introductory Section

CITY OF PIQUA, OHIO

201 West Water Street • Piqua, Ohio 45356
www.piquaoh.org

June 24, 2016

Honorable Mayor Kathryn Hinds, City Commission Members
and Citizens of the City of Piqua, Ohio:

This Comprehensive Annual Financial Report is for the year ended December 31, 2015. We believe this report, prepared by the Department of Finance, presents financial and operating information about the City's activities during the year that should be useful to citizens, taxpayers and investors. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief the enclosed data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the City; and that all disclosures necessary to enable the reader to gain an understanding of the City's financial activity have been included.

Reporting Entity

This report includes all funds of the City. The City provides a full range of services including police and fire protection, parks, recreation and cultural facilities, street maintenance, health programs, planning, zoning and general governmental services. In addition, the City owns and operates business-type activities, with the major ones consisting of a power system, a sewer system, a water system, a stormwater system and a waste disposal system.

Piqua, founded in 1807, celebrated its Bicentennial in 2007. Piqua operates and is governed by the laws of the State of Ohio and its own charter which was adopted by the electorate in 1929. The Charter provides for a commission-manager form of government. Legislative authority is vested in a five-member commission. All members are elected from wards for four-year terms and serve in a part-time capacity. The Commission determines compensation of City officials and employees and enacts ordinances and resolutions relating to City services, tax levies, appropriations and borrowings, licensing and regulating of businesses and trades, and other municipal purposes. The City's Chief Executive and Administrative Officer is the City Manager who is appointed by the City Commission.

Local Economic Conditions and Outlook

The City of Piqua is a community (2010 Census 20,522) in Miami County, located in the west central part of the state, twenty-five miles north of Dayton. Inter and intra state highways I-75, Route 36 and Route 66 serve as the City's major transportation arteries. Edison Community College, with over 3,911 students, is located on the east side of the city.

The City does not depend on one firm for local employment; as many as ten companies employ in excess of 200 people each, lending to the City's diversification. The City has four industrial parks with plenty of room for expansion. The City's emphasis on economic retention and development are significant factors affecting the future economic strength of the community. Promoting Piqua as a good place for all types of businesses, new and existing, will continue to be one of our highest priorities.

In 2015, the city of Piqua continued to experience growth and expansion across multiple industry sectors. P&R Specialty completed a \$1.1 million, 30,000 square foot expansion of warehouse space to support their growing manufacturing operations. Winans Coffee and Chocolates tripled their operations space with a \$450,000 renovation of a vacant downtown building. Retailers who opened new operations in Piqua include Dunham's Sports, Harvest Pantry, Rustiques, El Herradero, and Charming Times. Over \$11.0 million in new commercial construction started in Piqua in 2015. Additionally, residential construction increased from \$2.5 million in 2014 to over \$3.3 million in 2015.

Major Initiatives

Current Year Projects: During 2015 the City continued efforts to enhance and expand services provided to local residents. The City continued supporting the Future Piqua Strategic Plan recommendations; including public access television and a quarterly community newsletter (financial support is shared between the City and the Chamber of Commerce).

The following significant events took place in 2015:

- The redevelopment of the City's downtown and surrounding areas. The redevelopment includes improved signage, sidewalks, brick pavers, traffic signals, and streetlights
- Completed Phase III street reconstruction of North 25A
- New Water Plant construction
- Applied for Downtown redevelopment grant to continue façade improvements to downtown structures
- Continued the Riverfront Redevelopment Project
- Continued beautification project on East Ash Street and US 36
- Completed Adequate Fire and Emergency Response (SAFER) grant of over \$1 million for fire staffing
- Partnered with Miami County for a Federal CHIP grant of \$646,000
- Expanded the "Back Pack Food Program" for High School Students
- Started a semi-automated recycling collection program
- Provided Active Shooter and Life Threats modern training to all public education facilities and many business organizations
- Implemented Carbon Dioxide Detector Program
- Hosted 2015 Miami Valley Cycling Summit
- Completed the Historic East Piqua Master Plan
- Completed construction and restoration for the West Interceptor to Echo Lake
- Received Public Works grant of \$1.1 million for Water Hydropillar
- Completed design of New Downtown Water Hydropillar

Future Projects: The city anticipates the following significant events to take place in 2016:

- Continue the redevelopment of the City's downtown and surrounding areas. The redevelopment includes improved signage, sidewalks, brick pavers, traffic signals, and streetlights
- Continue neighborhood improvements through the Neighborhood Associations, City's Neighborhood Improvement Team and Housing Enhancement League of Piqua (HELP)
- Continue construction on new Water Plant through 2017
- Apply for Downtown redevelopment grant to continue façade improvements to downtown structures
- Start Implementation of the Historic East Piqua Master Plan
- Continue the Riverfront Redevelopment Project
- Continue monitoring long range financial plan
- Plan for first annual Piqua 4th Fest
- Begin construction on New Downtown Water Hydropillar
- Obtained \$300,000 critical infrastructure grant for part of Utility Automated Metering Infrastructure System
- Design and begin implementation of Utility Automated Metering Infrastructure

Financial Information

Management of the City is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary System: Detailed provisions regulating the City's budget, tax levies and appropriations are set forth in the City Charter and in the Ohio Revised Code. The City Manager is required to submit to the City Commission annually, an appropriation measure, which must be adopted by the first Commission meeting in January. The Miami County Auditor must certify that the City's appropriation measure does not exceed the amounts set forth in the County Budget Commission's Certificate of Estimated Resources.

The City maintains legal budgetary control utilizing GAAP at an object level (personnel/administrative support, operation and maintenance, capital expenditures and transfers) for all funds. Lower levels within each object level are accounted for and reported internally. Such lower levels are referred to as the suffix level. All purchases are properly approved through the legislative process or issuance of a purchase order.

Expenditures are controlled at the suffix level throughout the year and any budgetary adjustments (at the object level), if necessary, are with the approval of the City Commission.

Accounting System: The City's accounting system is organized and operated on a fund basis. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts. The types of funds to be used are in accordance with GAAP and the number of individual funds established is determined by legal requirements and sound financial administration.

The City's records are maintained on modified accrual basis for all governmental and similar fiduciary fund types. Accordingly, revenues are recognized when susceptible to accrual (i.e. both measurable and available). Expenditures, other than interest on long-term debt, are recorded as liabilities when incurred. Proprietary funds utilize the accrual basis of accounting and the electric system employs the Federal Energy Commission's system of accounts. A more detailed explanation of the basis of accounting for the various funds is included in the Notes to the Basic Financial Statements, located in the Financial Section of this report.

Financial Reporting: Beginning in 2002, the City has prepared financial statements following GASB Statement 34, "Basic Financial Statements – Management's Discussion and Analysis – for State and Local Governments." As part of this new reporting model, management is responsible for preparing a Management's Discussion and Analysis of the City. This discussion follows the Independent Auditor's Report, providing an assessment of the City's finances for 2015.

General Government

General Governmental Revenues: The 2015 municipal income tax revenue of \$10,661,411 increased 29%. Kilowatt hour tax revenues increased slightly. Interest revenue dropped and is expected to be similar in 2016 as rates remain low. Municipal income tax revenue is up slightly through May 2016 as a .25% levy was passed effective 2015. Grants were slightly higher in 2015 based on one time projects and are expected to continue at the 2015 level in 2016.

General Governmental Expenditures: The 2015 General Governmental expenditures and other financing uses decreased 46.5% compared with 2014. In 2015, more capital, community development, and public safety projects were completed. The large acquisition of the Fort Piqua Plaza was in 2014.

General Fund Balances: Current year activity contributed to a \$386,711 increase in the unassigned fund balance from 2014.

Business-Type Funds

The City's utility operations, consisting of a power system, a water system, a wastewater system, a stormwater system, and a solid refuse system, account for over half of the total City revenues. The City also operates smaller enterprises such as a golf course and a swimming pool.

Power System: Total customer revenues were \$29.1 million with usage comparable to 2014 levels. Revenues remained stable based on increased industrial use. Operating and capital grants of \$.3 million were received in 2015. With operating costs slightly higher, revenues exceeded expenses in 2015 by \$879,128. A rate study, completed in 2014, recommended slight rate increases that started in 2015.

The system supplies electricity to more than 10,700 accounts within its service area. The power system, established in the 1930's, purchases power from power wholesalers, while supplementing power needs with fuel oil generation. The system is responsible for purchasing and generating power, transmitting and distributing electricity and providing all related services.

The City of Piqua obtains its power supply from various sources. Two megawatts of Power is available from the New York Power Authority (NYPA). A twenty-year transmission agreement with the Dayton Power & Light Company guarantees supply access. Alternative contracts and projects are being considered by the Power system. During 2006, the City entered into a contract with Dayton Power & Light and AMP Ohio to provide power at an economic price. Piqua Power participates in the American Public Power Association's Reliable Public Power Provider (RP3) program. In 2015 Piqua achieved Diamond status, one of only fifty-four municipal electric systems in the country, representing less than 3% of all eligible electric systems for its superior reliability, safety, workforce development and system improvement programs.

Water System: Customer revenues of \$5.1 million were higher than 2014 levels due to a rate increase while usage dropped 1.5%. Capital grants and contributions of \$154,730 were received in 2015. Operating expenses of \$4.2 million were up slightly while still increasing the net revenue from operations to \$1,054,722. More than 8,600 accounts are serviced by Piqua's municipal water system.

Wastewater System: Customer revenues were \$3.5 million with usage down 2.0%. Capital grants and contributions of \$196,000 were received in 2015. Operating expenses of \$3.2 million decreased slightly. Net revenue from operations was \$481,081 in 2015.

Refuse System: System revenues of \$1.8 million were similar to 2014 levels. Operating expenses of \$1.9 million were up slightly. Expenses exceeded revenues by \$130,733. Refuse service is provided to more than 7,800 customers.

Stormwater System: Customer revenues of \$1.1 million represented the fifth full year of operations and were up slightly due to a rate increase. Operating and Capital grants of \$693,452 were received in 2015. Operating expenses of \$846,714 were up slightly. Net revenue from operations was \$922,389 in 2015. Stormwater service is provided to approximately 7,900 customers.

The Independent Audit

The State of Ohio requires an annual audit by either the Auditor of State or by an independent public accounting firm. The State Auditor's Office has completed an audit of the 2015 financial statements. The 2014 audit was also completed by The State Auditor's Office. All State of Ohio compliance and federal grant audit requirements are included as part of the independent annual engagement. See page 9 of the Financial Section of this report for their unmodified opinions.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded for the twenty-fifth consecutive year a Certificate of Achievement for Excellence in Financial Reporting to the City of Piqua, Ohio, for its comprehensive annual financial report for the fiscal year ended December 31, 2014. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Piqua, Ohio has received a Certificate of Achievement for twenty-five consecutive years. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

Acknowledgments

To the many conscientious people who have contributed so much of their time and effort to the preparation of this report our sincere appreciation is extended. The Finance Department staff is commended for their commitment to professional excellence once again exemplified by the contents of this report. Timely preparation of this report was accomplished by the diligent efforts and contributions of the entire Finance Department. Finally, contributions to the financial condition of the City of Piqua by the Mayor, members of City Commission, and Department Directors and Managers cannot be overlooked. Their support and guidance are invaluable factors necessary for the City to continue to successfully manage the financial affairs and reporting requirements of municipal government within the Piqua Community.

Respectfully submitted,

Gaty A. Huff

INDEPENDENT AUDITOR'S REPORT

City of Piqua
Miami County
201 West Water Street
Piqua, Ohio 45356

To the City Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Piqua, Miami County, Ohio (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Piqua, Miami County, Ohio, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note I to the financial statements, during the year ended December 31, 2015, the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis, Required budgetary comparison schedules*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2016, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Financial Section

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2015
(Unaudited)

The discussion and analysis of the City of Piqua's financial performance provides an overall review of the City's financial activities for the fiscal year ended December 31, 2015. The intent of this discussion and analysis is to look at the City's financial performance as a whole. Readers should also review the transmittal letter and the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at December 31, 2015 by \$139.8 million (net position). Of this amount, \$22.8 million is considered unrestricted. The unrestricted net position of the City's governmental activities is \$8.5 million and may be used to meet the government's on-going obligations. The unrestricted net position of the City's business-type activities are \$14.3 million and may be used to meet the on-going obligations of the City's business-type activities, including the water, wastewater, refuse, stormwater, and electricity enterprises.
- The City's total net position increased by \$5.7 million or 4.3 percent in 2015. Net position of the governmental activities increased \$2.3 million, which represents a 3.7 percent increase from 2014. Net position of the business type activities increased \$3.4 million which represents a 4.8 percent increase from 2014.
- The total cost of the City's programs increased \$1.3 million or 2.4 percent. The cost of governmental activities increased \$0.5 million or 3.3 percent, while the cost of business-type activities increased \$0.8 million or 2.0 percent.
- At the close of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$18.4 million. The combined governmental funds fund balance increased \$0.5 million from the prior year's ending fund balance. Approximately \$7.8 million of the \$18.4 million fund balance is considered unassigned at December 31, 2015.
- The general fund reported a fund balance of \$11.3 million at the end of the current fiscal year. The unassigned fund balance for the general fund was \$7.8 million or 62 percent of total general fund expenditures (including transfers out). There was a \$0.5 million increase in the total general fund balance for the year ended December 31, 2015.
- The City had \$11.0 million more in debt of bonds and notes outstanding at December 31, 2015 than at December 31, 2014.
- Total costs of governmental services increased by \$0.5 million, while net costs of services for governmental activities decreased by \$0.3 million.

Using This Annual Financial Report

This annual report consists of a series of financial statements. These statements are presented so that the reader can understand the City of Piqua's financial situation as a whole and also give a detailed view of the City's fiscal condition.

The Statement of Net Position and the Statement of Activities (on pages 23-24) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Major fund financial statements provide the next level of detail and start on page 25. For governmental funds, these statements tell how services were financed in the short term as well as what dollars remain for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

CITY OF PIQUA, OHIO

(Unaudited)

Reporting the City of Piqua as a Whole

Statement of Net Position and the Statement of Activities

While this document contains information about the funds used by the City to provide services to our citizens, the view of the City as a whole considers all financial transactions and asks the question, "How did we do financially during 2015?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets, deferred outflows, liabilities and deferred inflows using the accrual basis of accounting similar to the accounting method used by the private sector. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net position and the changes in net position. This change in net position is important because it tells the reader whether, for the City as a whole, the financial position of the City has improved or diminished. However, in evaluating the overall position of the City, non-financial information such as changes in the City's tax base and the condition of City capital assets will also need to be evaluated.

In the Statement of Net Position and the Statement of Activities, the City is divided into two types of activities:

- **Governmental Activities** – Most of the City's programs and services are reported here, including general government, public safety, street and maintenance, parks and recreation, Fort Piqua Plaza and community development. These services are funded primarily by property and income taxes and intergovernmental revenues including federal and state grants and other shared revenues.
- **Business-Type Activities** – These services are provided on a fee basis to recover all of the expenses of the goods or services provided. The City's electric, water, refuse, wastewater, stormwater, golf and municipal pool activities are reported here.

Reporting the City of Piqua's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 25 and provide detailed information about the City's major funds – not the City as a whole. Some funds are required by State law and bond covenants. Funds are established to help control and manage money for particular purposes or to show that the City is meeting legal responsibilities for using certain taxes, grants, and other money. The City of Piqua's two kinds of funds – *governmental* and *proprietary* – use different accounting approaches.

- ***Governmental funds*** – Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. On the government-wide statements, these funds are reported using the accrual method of accounting that recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of timing of related cash flows. The governmental fund statements, using a modified accrual system of accounting, provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation at the bottom of the fund financial statements or on an accompanying schedule.
- ***Proprietary funds*** – When the City charges customers for the services it provides – whether to outside customers or to other units of the City – these services are generally reported in proprietary funds. The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Piqua uses enterprise funds to account for its electric, water, refuse, wastewater, stormwater services, golf and municipal pool. Internal service funds are an accounting method used to accumulate and allocate costs internally among the City's various functions. The City of Piqua uses an internal service fund to account for its information technology and insurance activities. As these activities predominantly benefit governmental rather than business-type functions, they are shown within governmental activities in the government-wide financial statements. Proprietary funds

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2015
(Unaudited)

provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the electric, water, wastewater, refuse, and stormwater systems as well as golf and municipal pool, which are considered to be major funds of the City.

- *Fiduciary* funds – Funds used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements as the resources of those funds are not available to support the City's own programs.

Notes to the basic financial statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 33 through 59 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's general fund budget, proportionate share of net pension liability, and pension contributions. The City adopts an annual appropriation budget for its general fund and other funds. A budgetary comparison schedule has been provided for the general fund and other special revenue funds to demonstrate compliance with this budget. Also provided are the schedules of the City's proportionate share of the net pension liability for OPERS and Ohio Police and Fire and schedules of the City contributions for OPERS and Ohio Police and Fire. Required supplementary information can be found on pages 60 through 69 of this report.

The combining statements in connection with non-major governmental funds and internal service funds are presented immediately following the required supplemental information. Combining and individual fund statements and schedules can be found on pages 70 through 84 of this report.

The City of Piqua as a Whole

Recall that the analysis of the Statement of Net Position looks at the City as a whole. One of the most important questions to consider is, "Is the City as a whole better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Activities report information to help answer this question. The Net Position statement shows the difference between assets with deferred outflows and liabilities with deferred inflows, which is one way to measure the City's financial position. As reviewed over time, increases or decreases in the City's net position are an indicator of whether the City's financial health is improving or deteriorating. However, other non-financial factors must also be considered such as changes in the property tax base of the city, the condition of the City's roads and neighborhoods, and the reputation of the public schools in order to assess the overall health of the City. Our analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the City's governmental and business-type activities for both 2015 and 2014.

During 2015, the City adopted GASB Statement, 68 "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the City's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange"—that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2015
(Unaudited)

system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. Then pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at December 31, 2014 from \$74,939,685 to \$62,753,273 for governmental activities and from \$75,502,526 to \$71,319,651 for business type activities.

The amount by which the City's assets and deferred outflows exceed its liabilities and deferred inflows is called net position. Net position may serve over time as a useful indicator of a government's financial position. At year-end, the City's net position was \$139.8 million compared to \$134.1 million in 2014, an increase of \$5.7 million. Net Position for governmental activities increased \$2.3 million, while business-type activities increased \$3.4 million.

Of that amount, in 2015 approximately \$116.6 million (83.4%) was invested in capital assets, net of debt related to those assets. At year-end 2014 that amount was approximately \$110.4 million (82.3%). The largest portion of the City's net position (83%) reflects investments in net capital assets (e.g. land, construction in progress, buildings, improvements, machinery and equipment, vehicles, and infrastructure), less any related debt to acquire those assets that is still outstanding. The City uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

For 2015 another \$0.4 million (0.30%) was subject to legislative and external restrictions upon its use. The remaining \$22.8 million (16.3%) in 2015 was unrestricted and available for future use. For 2014 \$0.4 million (0.30%) was subject to external restrictions and \$23.3 million (17.4%) was unrestricted.

At the end of the current year, the City of Piqua is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

Our total net position of the City's governmental activities increased \$2.3 million during the current year; \$1.6 million due to an increase in net investment in capital assets and \$0.7 million due to an increase in unrestricted net position. Restricted net position increased slightly.

Total net position of the City's business-type activities increased \$3.4 million during the current year; \$4.6 million due to an increase in net investment in capital assets and \$1.2 million due to a decrease in unrestricted net position.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for the current year.

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$1,848,374 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$1,949,661. Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed.

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2015
(Unaudited)

	Governmental Activities	Business-Type Activities	Total
Total 2015 program expenses under GASB 68	\$ 17,106,971	\$ 39,456,998	\$ 56,563,969
Pension expense under GASB 68	(1,412,067)	(537,594)	(1,949,661)
2015 contractually required contribution	1,291,438	629,615	1,921,053
Adjusted 2015 program expenses	16,986,342	39,549,019	56,535,361
Total 2014 program expenses under GASB 27	16,565,814	38,685,014	55,250,828
Increased in program expenses not related to pension	\$ 420,528	\$ 864,005	\$ 1,284,533

Governmental Activities

Governmental activities increased the City's net position by \$2,325,226 in 2015. Total revenues increased by \$3,253,771 due to increased capital grants and income tax collections. Our program expenses increased by \$541,157 due to increased safety staffing and the Fort Piqua Plaza moving from an enterprise to governmental activity.

Several types of revenues fund our governmental activities with city income tax being the largest contributor. The income tax revenue for 2015 was up significantly at \$10,661,411 compared to \$8,285,580 in 2014, an increase of 28.67 percent. During 2014 the citizens of Piqua passed an additional .25 percent income tax levy effective January 1, 2015 making the City's income tax rate 2.00 percent for 2015. The City's income tax rate was 1.75 percent for 2014. Both residents of the City and non-residents who work inside the City are subject to the income tax. However, if residents work in a locality that has a municipal income tax, the City provides 100 percent credit up to 2.00 percent for those who pay income tax to another city.

General revenues from other taxes, such as Kilowatt-hour tax and Local Government Funds, are also revenue generators and in 2015, we received \$55,650 more than in 2014, a 1.8% increase mostly due to higher Kilowatt-hour tax collections. Program revenues saw an increase of \$554,384 in charges for services while operating and capital grants increased \$324,496 overall as projects were completed. Overall increases in program revenues totaled \$878,880 or 21.91%. With the combination of program revenues, property tax, income tax, intergovernmental funding and investment earnings, all expenses in the governmental activities are funded. The City monitors its source of revenues very closely for fluctuations.

The largest program function for the City relates to Public Safety, which accounts for 51.8 percent of total program expenses. Street Maintenance accounts for 27.5 percent of total program expenses, while General Government accounts for 11.4 percent. Street and Maintenance cost of services decreased as significant street projects were completed. Community Development increased due to grant activity and the Fort Piqua Plaza is now a governmental activity based on current and future use.

The Statement of Activities reports the expenses of each of the governmental activities programs and the related program revenue that offsets the cost of each program. The amount by which the cost of a particular program exceeds its program revenue represents the extent to which that program must be subsidized by general revenues. The following table summarizes the net cost of each program:

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2015
(Unaudited)

Table 3

Government Activities

	Total Cost of Services		Program Revenues		Net Cost of Services

Business-Type Activities

The Business-Type activities of the City, which include the City's Electric, Wastewater, Water, Refuse and Stormwater operations as well as Golf and Pool activities, increased the City's net position by \$3,417,668 in 2015.

Table 4

Business-type Activities

	Total Cost of Services		Program Revenues		Net Revenue (Expense) from Operations	
	2015	2014	2015	2014	2015	2014
Electric	\$ 28,506,759	\$ 28,187,077	\$ 29,385,887	\$ 28,141,649	\$ 879,128	\$ (45,428)
Wastewater	3,170,850	3,479,419	3,651,931	3,521,249	481,081	41,830
Water	4,191,855	3,444,314	5,246,577	4,949,103	1,054,722	1,504,789
Refuse	1,924,274	1,701,599	1,793,541	1,783,288	(130,733)	81,689
Stormwater	846,714	814,109	1,769,103	999,238	922,389	185,129
Golf	662,334	589,459	497,407	471,046	(164,927)	(118,413)
Ft. Piqua Plaza	-	294,781	-	159,099	-	(135,682)
Pool	154,212	174,256	43,763	70,038	(110,449)	(104,218)
Total	\$ 39,456,998	\$ 38,685,014	\$ 42,388,209	\$ 40,094,710	\$ 2,931,211	\$ 1,409,696

For 2015 the Electric, Wastewater, Water and Stormwater utilities all had program revenues in excess of expenses. For the most part, increases in expenses closely parallel inflation and growth in the demand for services. Golf and Pool activity funds had expenses in excess of program revenues of \$275,376 in 2015 as compared to \$222,631 in 2014. There was decreased use of the Golf Course and the Pool based on a weaker local economy and wet and cold weather during the season. During 2014, the City acquired the Fort Piqua Plaza and the operation in 2015 became a governmental activity.

The City's Funds

Information about the City's major funds starts on page 25. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues in 2015 of \$19.7 million compared to \$16.9 million in 2014. All governmental funds had expenditures in 2015 of \$19.0 million compared to \$16.6 million in 2014. The most significant fund is our general fund, which had an unassigned fund balance at year-end of \$7.8 million in 2015 compared to \$7.4 million in 2014. The General fund accounts for such activities as Police and Fire protection, and parks and recreation along with city administration. Within the General fund, revenues exceeded expenditures by \$840,999 in 2015 as compared to \$434,248 in 2014. During 2014 the City acquired the Fort Piqua Plaza as satisfaction of an economic development loan. In 2015 the Fort Piqua Plaza operations were changed from enterprise to governmental based on current and future use. The funds are monitored consistently with adjustments made to the budgets to accommodate yearly revenues.

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2015
(Unaudited)

Within the Street Maintenance Fund, expenditures exceeded revenues by \$21,664 in 2015 as compared to \$79,843 in 2014. Several street projects were started during 2015. Fund balance at year-end in 2015 was \$4,236,738 as compared to \$4,258,402 in 2014, a slight decline.

Within the Street Levy Construction Fund, revenues exceeded expenditures by \$81,295 in 2015 compared to \$478,370 in 2014. Fund balance at year-end in 2015 was \$2,216,178 as compared to \$2,308,637 in 2014. The City was able to maintain a level of fund balance in anticipation of street maintenance needs in 2016.

Information about the Enterprise Funds starts on the Balance Sheet on page 28. These funds are accounted for on an accrual basis. All business type funds had operating revenues of \$40.7 million in 2015 and \$39.3 million in 2014. Operating expenses were \$39.2 million in 2015 and \$38.4 million in 2014.

The enterprise fund balances increased \$3,519,038 with the Electric fund increasing \$0.9 million, Wastewater increasing \$0.5 million, Water increasing \$1.1 million from a rate increase and Refuse decreasing \$0.1 million based on one-time operating costs. Stormwater increased its 2015 fund net position by \$0.9 million. The other funds were similar to 2014. The City is consistent with reviews of these funds, and the necessary adjustments are made to ensure strength in our enterprise funds.

General Fund Budgetary Highlights

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on the same basis as the entity reports. The most significant governmental budgeted fund is the General Fund. The Commission is provided with a detailed line item budget for all departments and after a discussion at a regularly held commission meeting, which is open to the public; the budget is adopted at an object level by City commission. Within each object, appropriations can be transferred between line items with the approval of the Finance Director and the respective department head. The Commission must approve any revisions in the budget that alter the object level totals or the total appropriations for any department or fund. During the course of fiscal 2015, the City amended its general fund budget during the middle and at the end of the fiscal year. The General Fund is monitored closely, looking for possible revenue shortfalls or overspending by individual departments.

For the 2015 general fund, original budgeted revenues were \$10.9 million. The final budgeted revenue amount was \$11.7 million. Actual revenues were \$12.8 million. Actual revenues were higher due to increased income tax revenues. For the 2014 general fund, original budgeted revenues were \$10.2 million. The final budgeted revenue amount was \$20.1 million. Actual revenues collected were \$11.0 million.

For 2015, original general fund appropriations were budgeted at \$12.8 million. Final budgeted appropriations were \$13.2 million. Actual expenditures were \$12.0 million. This decrease was achieved through continued lower personnel costs and general government operating expenditures. For 2014, original general fund appropriations were budgeted at \$11.1 million. Final budgeted appropriations were \$11.4 million. Actual expenditures were \$10.5 million. This decrease was due to lower than expected personnel and general government operating expenditures.

Intangible Assets	-	-	1,234,524	1,324,589
Total Capital Assets	\$56,679,577	\$55,288,659	\$ 78,649,077	\$ 62,844,170

Total Capital Assets for the City of Piqua for the year ended December 31, 2015 were \$135,328,654, an increase of \$17,195,825 over 2014. Additions in 2015 were \$8,237,844 more than in 2014 based on certain large water and electric projects in 2015. The City is committed to a long-term goal of meeting the needs of its infrastructure and facilities. Additional information concerning the City's capital assets can be found in Note F of the financial statements.

Debt

At December 31, 2015, the City of Piqua had \$11.0 million more in debt of bonds, notes, and loans at \$18.7 million compared to \$7.7 million in debt outstanding at December 31, 2014.

Table 6
Outstanding Debt at December 31

	Governmental Activities		Business-type Activities	
	2015	2014	2015	2014
General Obligation Bonds	\$ 135,000	\$ 175,000	\$ 490,000	\$ 640,000
State Infrastructure Bank Note	415,502	573,233	-	-
OWDA Loans	-	-	17,696,918	6,342,747
Total	\$ 550,502	\$ 748,233	\$ 18,186,918	\$ 6,982,747

The General Obligation Bonds in Governmental Activities are primarily for the 2009 Ohio Capital Asset series issued for the purchase of a new fire truck. Bonds are paid through the Debt Service fund through transfers from the General Fund.

The General Obligation Bonds in Business-type Activities are comprised of a 2003 obligation in the City's Enterprise funds for Municipal Pool and Golf Course improvements. They are paid from the operating revenues generated in each enterprise.

The Street Construction Fund borrowed \$1,227,683 from the State Infrastructure Bank to help finance the County Road 25-A widening project which was completed in late 2009. The Street Levy funds are used to pay this.

The Ohio Water Development Authority ("OWDA") Loans are paid semi-annually from wastewater and water revenues. Loan funds were used for construction, maintenance and operation of the city's sewer system, the City's hydropillar water tower, and engineering design and construction of a new water treatment plant.

During 2009, \$3,919,940 was borrowed from the Ohio Water Development Authority ("OWDA 2009") to fund the Wastewater Sewer Equalization tank. In 2010 an additional \$409,936 was borrowed for the same project. The Wastewater Sewer project notes are paid with sewer utility revenues.

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2015
(Unaudited)

During 2014, \$45,668,626 of borrowing was approved by the Ohio Water Development Authority ("OWDA 2014") for construction of a new Water Treatment Plant and to repay the design loan. Construction will continue from 2015-2017.

State statutes limit the amount of general obligation debt a governmental entity may issue up to 10.5 percent of total assessed valuation. The City's overall legal debt margin was \$30,298,788 on December 31, 2015.

Additional information concerning the City's debt can be found in Note G of the financial statements.

Economic Factors and Next Year's General Fund Budget

The City's key objectives set for the 2016 budget were Economic development, job creation, safety, and long-term fiscal stability. With the uncertainty surrounding the economy, the City closely monitors and takes into consideration the impact on two primary revenue sources: income tax revenue and state shared revenue.

In the 2016 budget process City Commission decided that it was important to: 1) continue the City's investment in Economic development and job creation; 2) safety for the citizens of Piqua and City employees; and 3) adopt a budget designed to promote long-term fiscal stability. In order to meet the objectives of the 2016 budget, the City recognized the need to continue its pattern of cost containment while pursuing new revenue sources.

General fund expenditure appropriations for 2016 have been approved by City Commission in the amount of \$14.6 million. This appropriation level is approximately \$2.1 million more than actual 2015 general fund budgetary basis expenditures (including transfers out). The appropriation level was set based on similar estimated revenues in the General Fund compared to 2015 levels.

Current Financial Related Activities

The City anticipates the following significant events to take place in 2016:

- Continue development of the Great Miami River Corridor
- Continue redevelopment of the Historic East Piqua Corridor
- Continue Community Housing Improvement and Streetscaping programs
- Begin the Shawnee Storm Project Phase I
- Continue new Water Tower Engineering and Construction
- Continue new Water Treatment Plant construction
- Continue the design phase of the Wastewater Treatment Plant expansion
- Continue a curb-side recycling project
- Begin implementing an Automated Meter Infrastructure for City Utilities
- Continue Parks and City-wide beautification programs

The City of Piqua has committed itself to financial excellence. The City has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence for twenty-five consecutive years.

Contacting the City's Finance Department

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Cynthia A. Holtzapple, CPA, Director of Finance, City of Piqua, 201 West Water Street, Piqua, Ohio 45356, (937) 778-2065.

CITY OF PIQUA, OHIO

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2015

Total net change in fund balances Governmental funds	\$ 473,697
Amounts reported for governmental activities in the Statement of Activities are different because:	
Capital outlays are reported in governmental funds as expenditures; however in the Statement of Activities, the cost of those assets are allocated over their useful lives as depreciation expense. This is the amount by which capital outlays (\$3,191,637) exceed depreciation expense (\$1,710,953)	1,480,684
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds: (State shared taxes \$65,694, Income taxes \$78,700, and Ems billings (\$429))	143,965
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position	362,731
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:	
Vacation and sick leave benefits	189,050
Interest payable	1,119
Proceeds from the issuance of bonds, capital lease or other debt instruments are not considered revenues on the Statement of Activities	(165,000)
Contractually required contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows(\$1,265,774). Except for these amount, changes in the net pension liability are reported as pension expense in the statement of activities(\$1,386,584).	(120,810)
The net book value of assets retired (the difference of original cost (\$384,681) and accumulated depreciation (\$375,332) is not recorded on the Governmental Fund Statements, but is recorded as an expense on the Statement of Activities	(9,349)
An Internal Service Fund is used by management to charge the cost of certain activities to individual funds. The net revenue (expense) of the internal service fund related to governmental activities is reported with governmental activities	(30,861)
Change in the net position of governmental activities on the Statement of Activities	<u>\$ 2,325,226</u>

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity—The City of Piqua, Ohio, (the “City”) was incorporated in 1823 and operates under a Commission-Manager form of government. The following services are provided by the City: public safety (police and fire), highways and streets, electricity, water, wastewater, refuse, storm water, conference center, parks and recreation, public improvements, planning and zoning, public health and general governmental administrative services.

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) governmental organizations for which the primary government is not financially accountable, but for which the nature and significance of their financial relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be governmental organizations for which the primary government is not financially accountable, but for which the nature and significance of their financial relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. No separate government units meet the criteria for inclusion as a component unit.

BASIS OF PRESENTATION

Government-Wide Statements—The statement of net position and the statement of activities display information about the primary government. Eliminations have been made to minimize the double counting of internal activities. Inter-fund receivables and payables between governmental and business type activities have been eliminated in the Government-wide Statement of Net Position. These eliminations minimize the duplicating effect on assets, deferred outflows of resources, liabilities, and deferred inflows of resources, within the governmental and business type activities total column. Internal service fund balances, whether positive or negative, have been eliminated against the expenses and program revenues shown in the governmental activities Statement of Activities. Governmental activities, which normally are supported through taxes, intergovernmental revenues and other nonexchange transactions, are reported separately from business type activities, which rely to a significant extent on fees and charges for support. The government-wide financial statements do not include the assets and liabilities of the City’s fiduciary funds.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City’s governmental activities. Direct expenses are those that are specifically associated with a program or a function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. When both restricted and unrestricted resources are available for use, it is the government’s policy to use restricted resources first, then unrestricted resources as they are needed. When an expenditure is incurred for purposes for which amounts in an unrestricted fund balance classification could be used it is the government’s policy to use assigned resources first, and then unassigned amounts as they are needed.

Fund Financial Statements—The fund financial statements provide information about the City’s funds. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major funds, each displayed in a separate column. All remaining funds are aggregated and reported as non-major funds.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

The City reports the following major governmental funds:

General Fund is the general operating fund of the City. It is used to account for all financial resources traditionally associated with government, which are not required to be accounted for in another fund.

Street Maintenance Fund—This fund accounts for the portion of gasoline tax and motor vehicle license fees restricted for maintenance of streets.

Street Levy Construction Fund—This fund accounts for a .25% levied income tax restricted for the specific purpose of street construction.

Debt Service Funds are used to account for the resources received and used to pay principal and interest on long-term general obligation debt of governmental funds. Revenues and financing resources are derived primarily from property taxes.

Enterprise Funds (Business type funds) are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City reports the following major enterprise funds: electric, water, wastewater, refuse, storm water, golf, and municipal pool.

The City, in its business type funds, accounts for all recurring type revenues, including all revenues, which the City controls through statutory pricing or regulatory authority, as operating revenue and all recurring type expenses as operating expense. Non-recurring revenues such as gains on sales of assets and revenues over which the City has minimal or no control, primarily interest earnings, are accounted for as nonoperating revenues. Interest expense and other non-recurring expenses over which the City has minimal or no control are reported as non-operating expense.

Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its self-insurance activities and information technology functions. Because these activities predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities in the government-wide financial statements.

Fiduciary Fund Types are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organization, other governments, and/or other funds. The City reports the following agency and/or trust funds: Unclaimed funds, Employee flexible spending fund, and a private purpose centennial trust fund.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurements made, regardless of the measurement focus applied.

Government-wide and proprietary type fund financial statements measure and report all assets (both financial and capital), deferred outflows of resources, liabilities, deferred inflows of resources, revenues, expenses, gains and losses using the economic resources measurements focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All governmental funds are accounted for using a current financial resources measurement focus and are reported on the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to use to pay liabilities of the current period which, for the City's purposes, is considered to be 60 days after year end. Revenues considered susceptible to accrual are community development block grants, delinquent property taxes, income taxes, kwh taxes, hotel/motel taxes, franchise fees, emergency service billings, and interest on investments. Property taxes levied before year end are not recognized as revenue until the next calendar year. The fiscal period for which property taxes are levied at year-end in the State of Ohio is the succeeding calendar year.

Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for interest on unmatured general long-term debt which are recognized when payment is due. Inventory and prepaid expenditures are recognized when used.

Cash and Cash Equivalents and Investments—City funds are pooled and invested to improve cash management. Each fund type's portion of the pool is shown on the Statement of Net Position as "cash and cash equivalents" and "investments". For purposes of the statement of cash flows, the proprietary type funds consider all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

The City's investment policy authorizes the City to invest in obligations of the United States Government or other investments where the principal and interest are collateralized by the full faith and credit of the United States Government, and bonds of other states, cities and political subdivisions.

Receivables—Receivables primarily consist of municipal income taxes, state shared revenue taxes, property taxes, kwh taxes, hotel/motel taxes, franchise fees, emergency service billings, and utility charges.

Inventory—Inventory is valued at average cost. The business type fund inventories are capitalized or expensed when used.

Prepaid Expenses—Payments made to vendors for services that will benefit beyond year-end are recorded as prepaid items.

Capital Assets—Capital assets are recorded based on historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

The City defines capital assets as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Property, plant, and equipment of the City is depreciated using the straight-line method over the following estimated useful lives:

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

Buildings	34 – 50 years
Land improvements other than buildings	25 – 75 years
Machinery and equipment	10 – 30 years
Vehicles	5 – 10 years
Computer equipment	5 years
Public domain infrastructure	45 years
Sewer and water lines and underground piping	34 – 50 years

Fund Balance Classifications—Fund balance is reported as nonspendable when the amounts so included cannot be spent because they are either not in spendable form or they are legally or contractually required to be maintained intact.

Fund balance is reported as restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Fund balance is reported as committed when the City Commission enacts legislation requiring specific revenue to be used for a special purpose. The City Commission can modify or rescind that legislation at any time through additional legislation.

Fund balance is reported as assigned when a revenue source is not previously restricted or committed but the Finance Director determines, in the Director’s professional opinion, that the assigning of the revenue is the desire of the City Commission and in the best interest of the City. This authority is given to the Finance Director through the City Charter.

The City applies restricted resources first when expenditures are incurred for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used. The City has not adopted a formal fund balance policy.

Use of Estimates—The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Deferred Outflows/Inflows of Resources— In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenditure) until that time. For the City, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges for pension and on the proprietary statements. The deferred outflows of resources related to pension are explained further in Note J.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, pension and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2015, but which were levied to finance 2016 operations. Deferred reimbursements represent governmental non-exchange transactions of mutually held debt by other

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

governments. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund balance sheet. Unavailable revenue is reported on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes property and income taxes and intergovernmental reimbursements. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position, the proprietary statements and are further explained in Note J.

Grants and Other Intergovernmental Revenues—Federal grants, assistance awards made on the basis of entitlement periods, are recorded as intergovernmental receivables and revenues when entitlement occurs and other reimbursement-type grants are recorded as intergovernmental receivables and revenues when eligible expenditures/expenses are incurred.

Pensions—For purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Compensated Absences—City employees are granted vacation, personal and sick leave. These leave benefits are accrued as a liability using the vesting method. The liability is based on the leave accumulated at December 31 by those employees who are currently eligible to receive termination payments as well as leave accumulated by those employees expected to become eligible to receive termination benefits in the future. In the event of termination, an employee may be reimbursed for accumulated vacation, personal and sick leave at various rates based on years of service. Vested vacation, personal, and sick leave is recorded as an expense in the government-wide statements for the period in which the leave was earned. For governmental fund type employees, an expenditure is recorded in the governmental funds' statements for only the portion of vested vacation, personal and sick leave that is expected to be liquidated with expendable available resources.

Vested vacation, personal, and sick leave is recorded as an expense in both the government wide statements and statements for all business type funds. Payment of vacation, personal and sick leave recorded in the government-wide financial statements is dependent upon many factors; therefore, timing of future payments is not readily determinable. Management believes that sufficient resources will be made available when payment is due.

B. POOLED CASH DEPOSITS AND INVESTMENTS

Deposits—Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the City. At December 31, 2015 the City had cash on hand in the amount of \$4,675.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

At December 31, 2015, the carrying amount of the City's deposits was \$42,005,868 while the balance as shown by the bank statements was \$41,544,144. As of December 31, 2015, \$36,513,243 of the City's bank balance was exposed to custodial risk as discussed above, while \$5,030,901 was covered by Federal Deposit Insurance.

Investments—The ORC, the City's charter, and the City's investment policy authorize the City to invest in the State Treasury Asset Reserve of Ohio (STAR Ohio), certificates of deposit, repurchase agreements, United States treasury bills and notes, notes issued by United States agencies, bankers' acceptances and commercial paper of the highest rating. All investments are reported at fair value which is based on quoted market prices.

STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the Securities Exchange Commission as an investment company but does operate in a manner similar to rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at the pool's share price, which is the price for which the investment could be sold for on December 31, 2015.

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of a failure of a depository institution or counterparty to a transaction, the City will be unable to recover the value of deposits, investments or collateral securities in the possession of an outside party. Except in regards to repurchase agreements, the City's investment policy does not address custodial credit risk. At December 31, 2015, all investments were registered in the name of the City.

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates between the U.S. Dollar and foreign currencies could adversely affect an investment's fair value. The City does not have a formal investment policy regarding foreign currency risk. The City had no exposure to foreign currency risk at year end.

Credit Risk – Credit risk is the risk that an issuer or counterparty to an investment will be unable to fulfill its obligations. The City does not have a formal investment policy regarding exposure to credit risk. The City's exposure to credit risk, based on both Moody's and Standard & Poor's Credit Ratings, is as follows:

<u>Investment Type</u>	<u>Quality Rating</u>	<u>Fair Value</u>
STAR Ohio	AAAm	\$ 422,399

Concentration of Credit Risk – Concentration of credit risk is the risk of inability to recover the value of deposits, investments, or collateral securities in the possession of an outside party caused by lack of diversification. The following table includes the percentage to total of each investment type held by the City at December 31, 2015.

<u>Investment Type</u>	<u>Fair Value</u>	<u>% of Total</u>
STAR Ohio	\$ 422,399	100.00%

Except for investments in STAR Ohio, no more than 15% of the City's total investment portfolio will be invested in a single security type or with a single financial institution.

Interest Rate Risk – Interest rate risk is the risk that an interest rate change could adversely affect an investment's fair value. According to the City's investment policy, the maximum maturity for any single security may not exceed 5 years.

STAR Ohio	\$ 422,399	-	-	\$ 422,399

C. PROPERTY TAXES

Property tax revenues include amounts collected for all real, and public utility property located in the City. Property taxes are levied each January 1 on the assessed value listed as of the prior January 1. Assessed values are established by the County Auditor for real and public utility property at 35% of appraised market value. Property values are required to be updated every three years and revalued every six years. A revaluation was completed in 2010.

The property tax calendar is as follows:

Levy date	January 1, 2014
Lien date	January 1, 2015
Tax bill mailed	January 20, 2015
First installment payment due	February 20, 2015
Second installment payment due	July 20, 2015

The assessed values for the City at January 1, 2015 are as follows:

Real estate	\$ 289,330,550
-------------	----------------

The County Treasurer collects property taxes on behalf of taxing districts, including the City of Piqua. The County Auditor periodically remits to the City its portion of taxes collected. Property taxes may be paid on either an annual or semiannual basis. Although total property tax collections for the next fiscal year are measurable, amounts to be received are not available at December 31, 2015, nor are they intended to finance 2015 operations. Therefore, the City has recorded property taxes receivable with a corresponding amount as deferred inflows of resources.

Ohio law prohibits taxation of property in excess of \$10 per \$1,000 (10.0 mills) of assessed value without a vote of the citizens. The City's share is currently \$3.70 (3.70 mills) of assessed value. In 2015, the City also received an additional 0.60 mills to fund safety pension costs.

House Bill 66 phases out the tax on tangible personal property. The tax is phased out by reducing the assessment rate on the property each year. In 2011 the Ohio Legislature cancelled the reimbursement in future years with exceptions for conservancy and safety levies. In 2015 the House Bill 66 reimbursement was cancelled, by the State, mid-year for conservancy and safety levies.

D. INCOME TAXES

The City levies a 2.00% income tax on all income earned within the City. Income tax in excess of 1% is voter approved. During 2014, the citizens of Piqua passed an additional .25% income tax levy effective January 1, 2015. Income tax is allocated by fund in accordance with voter and commission authorizations. In addition, City residents pay City tax on income earned outside the City; however, a credit is allowed for income taxes paid to other municipalities.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

Employers within the City withhold income tax on employee compensation and remit payments at least quarterly. Corporations and other individual taxpayers pay estimated taxes quarterly and file an annual declaration.

E. RECEIVABLES

Governmental receivables at year end, consisted primarily of municipal income taxes, property and other taxes, intergovernmental receivables arising from entitlements and shared revenues, special assessments, accrued interest on investment, accounts and notes receivable. Loans receivable represent real estate second mortgages which are partially forgivable over five to fifteen year periods netted by an estimated allowance for forgiveness or amounts uncollectible. The real estate second mortgages are \$703,940 with an estimated allowance for forgiveness of \$698,329.

Business type receivables at year end consisted primarily of billed and unbilled utility revenues, grants receivable, reimbursement receivables and interest receivables on investments.

G. LONG-TERM LIABILITIES

The government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities.

Long-term liability activity for the year ended December 31, 2015 was as follows:

	Maturity Dates	Restated Beginning Balance	Additions	Reductions	Ending Balance	Amounts Due Within One Year
Governmental Activities:						
Ohio Capital Asset Series 2009 3.53%	12/1/2018	\$ 175,000	\$ -	\$ 40,000	\$ 135,000	\$ 45,000
Building Acquisitions Bond Series 2015 3.00%	12/15/2015	-	165,000	165,000	-	-
Total governmental general obligation bonds		175,000	165,000	205,000	135,000	45,000
State Infrastructure Bank Note, 3%	4/29/2020	573,233	-	157,731	415,502	162,499
Compensated absences		2,072,642	105,268	296,205	1,881,705	655,590
Restricted deposits		25,864	6,209	11,416	20,657	-
Net Pension Liability						
OPERS		2,187,821	48,176	-	2,235,997	-
OP&F		11,241,259	715,754	-	11,957,013	-

Recreational facility bonds G.O., 2.0%-4.1%	11/15/2018	640,000	-	150,000	490,000	155,000
AMP-Ohio stranded cost payable		2,220,947	-	1,301,787	919,160	-
Compensated Absences		1,203,769	63,912	87,255	1,180,426	362,419
Net Pension Liability - OPERS		4,788,581	105,786	-	4,894,367	-
Total Business-type long-term liabilities		<u>\$ 15,196,044</u>	<u>\$ 11,777,538</u>	<u>\$ 1,792,711</u>	<u>\$ 25,180,871</u>	<u>\$ 705,199</u>

The terms of the various bonds include certain covenants, which provide for, among other things, minimum debt coverage ratios, maintenance of insurance and restrictions regarding disposal of property.

The full faith and credit of the City are pledged as collateral for all General Obligation Bonds.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

Ohio Water Development Authority (“OWDA 2009”) Wastewater Sewer Project Notes are issued under a cooperative agreement for construction, maintenance and operation of a state sewer project. Payments to the OWDA will be made from the utility’s pledged future revenues. The total principal and interest payments remaining to be paid on the note is \$4,247,485. Principal and interest paid for the current year and total customer net revenues were \$303,392 and \$1,142,296, respectively.

Ohio Water Development Authority (“OWDA 2005” & “OWDA 2006”) drinking water assistance notes are issued under a cooperative agreement for construction maintenance and operation of the City’s Hydropillar Water Tower. Payments to the OWDA will be made from the utility’s pledged future revenues. The total principal and interest remaining to be paid on the notes is \$0.00. Principal and interest paid for the current year and total customer net revenues were \$73,586 and \$1,371,551, respectively.

Ohio Water Development Authority (OWDA 2014) Water Plant Construction note in the overall amount of \$45,668,626 was issued under a cooperative agreement to construct a 7 million gallon per day raw water treatment plant. Payments to the OWDA will be made from the utility’s pledged future revenues. Total outstanding principal and interest to be repaid is \$19,137,283. Construction on the new water plant began in February 2015 and will continue through 2017. Future payments of principal and interest have been deferred until January 2018. Net revenues available to make this payment were \$1,371,551.

Ohio Water Development Authority (OWDA 2012) Wastewater Engineering Design note was issued under a cooperative agreement to design an expansion of the existing wastewater treatment plant. Payments to the OWDA will be made from the utilities pledged future revenues. Total principal and interest remaining to be repaid is \$ 1,207,161. Payments of principal and interest have been deferred until July 2017. Net Revenues available for payment on this loan were \$1,142,296.

State Infrastructure Bank Revenue Note was issued to finance a joint city/county road widening project. The city’s .25% income tax revenues from the Street construction fund and county highway use funds have been pledged for a ten year period ending in 2020. The total principal and interest remaining to be paid on the note is \$434,385. The city’s .25% income tax levy will pay two thirds of the principal and interest with the remaining one third from county highway use funds. The estimated annual principal and interest payments of \$173,754 represent 12.4% of the estimated net revenues from this tax levy.

Restricted deposits are confiscated funds held under court order until released by judicial authority.

AMP Ohio Stranded Cost – The City is a participant in both American Municipal Power (AMP) and the American Municipal Power Generating Station Project (AMPGS). This project intended to develop a pulverized coal power plant in Meigs County, Ohio. The AMPGS Project required participants to sign “take or pay” contracts with AMP. As such, the participants are obligated to pay any costs incurred for the project. The City’s share of the project was 20,000 kW of a total capacity of 771,281 kW, giving the City a 2.59 percent share of the project. In November 2009, the 81 member participants in the project voted to terminate the development of the plant due to projected escalating costs. These costs were therefore deemed impaired and the participants are obligated to reimburse AMP under the take or pay contract costs already incurred.

In prior years, the payment of these costs was not considered probable due to AMP’s pursuit of legal action to void them. As a result of a March 31, 2014 legal ruling, the AMP Board of Trustees on April 15, 2014 and the AMPGS participants on April 16, 2014 approved the collection of the impaired costs and provided the participants with an estimate of their liability. The City’s estimated share at March 31, 2014 of the impaired costs is \$3,446,911. The City received a credit of \$1,067,635 related to their participation in the AMP Fremont

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

Energy Center (AFEC) Project, and another credit of \$904,497 related to the AMPGS costs deemed to have future benefit for the project participants, leaving a net impaired cost estimate of \$1,494,779. Because payment is now probable and reasonably estimable, the City is reporting a payable to AMP in its business-type activities and in its electric enterprise fund for these impaired costs. AMP financed these costs on its revolving line of credit. Any additional costs (including line-of-credit interest and legal fees) or amounts received related to the project will impact the City's liability. These amounts will be recorded as they become estimable. The City made payments in 2015 totaling \$1,360,742 paying in full. The remaining stranded cost is \$919,160. In making its determination as to how to proceed with the accounting treatment for the potential AMPGS Project liability, the City relied upon its City Law Director, information provided by AMP and its legal counsel with respect to the data, as well as the City's management. This incurred cost has been previously capitalized and reported as a regulated asset, as allowed by GASB Codification Re10.

The annual requirements to pay principal and interest on long-term obligations at December 31, 2015 are listed as follows:

Year Ending	General Obligation Bonds				Notes Payable			
	Governmental Activities		Business Type Activities		Governmental Activities		Business Type Activities	
	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
December 31								
2016	45,000	5,963	155,000	19,770	162,499	11,255	187,780	115,611
2017	45,000	4,050	165,000	13,570	167,410	6,344	194,448	108,943
2018	45,000	2,025	170,000	6,970	85,593	1,285	724,492	458,243

H. INTERFUND TRANSACTIONS

During the course of normal operations, the City has numerous transactions among funds which caused interfund balances from the timing differences between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. Interfund receivable and payable balances at December 31, 2015 are as follows:

	Due From Other Funds	Due To Other Funds
General Fund	\$ 56,551	\$ -
Non-major Governmental Funds	<u>943</u>	<u>57,494</u>
	<u>\$ 57,494</u>	<u>\$ 57,494</u>

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

Transfers are used to move revenues; from the fund that statute or budget requires to collect them, to the fund that the statute or budget requires to expend them; or moving unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; or to provide additional resources for current operations or debt service. Interfund transfers for the year ended December 31, 2015 consisted of the following:

Governmental	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$ -	\$ 498,086
Street Levy Construction	-	173,754
Debt Service	221,316	-
 Proprietary		
Golf	335,000	-
Municipal Pool	<u>115,524</u>	<u>-</u>
	<u>\$ 671,840</u>	<u>\$ 671,840</u>

Transfers out of the Street Levy Construction fund was used to reimburse the City's debt service funds.

I. CHANGE IN ACCOUNTING PRINCIPLE AND RESTATEMENT OF NET POSITION

For 2015, the City implemented the Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68." GASB 68 and 71 establishes standards for measuring and recognizing pension liability, deferred outflows of resources deferred inflows of resources and expense/expenditure. The implementation of this pronouncement had the following effect on net position of the City's governmental activities, business-type activities, and proprietary funds as reported December 31, 2014:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Net Position at December 31, 2014 as previously reported	\$ 74,939,685	\$ 75,502,526
Adjustments:		
Net Pension Liability at December 31, 2014	(13,429,080)	(4,788,581)
Deferred Outflows - Payments Subsequent to Measurement Date	<u>1,242,668</u>	<u>605,706</u>
Net Position at December 31, 2014 as restated	<u>\$ 62,753,273</u>	<u>\$ 71,319,651</u>

Adjustments:			
Net Pension Liability at December 31, 2014	(50,564)	(4,788,581)	(223,421)
Deferred Outflows - Payments Subsequent to Measurement Date	<u>6,396</u>	<u>605,706</u>	<u>28,260</u>
Net Position at December 31, 2014 as restated	<u>\$ 69,762</u>	<u>\$ 71,118,627</u>	<u>\$ 3,592,820</u>

Other than employer contributions subsequent to the measurement date, the City made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

During 2014, the City acquired the Fort Piqua Plaza and the operation in 2015 became a governmental activity. In 2015, the Fort Piqua Plaza operations were changed from enterprise to governmental based on current and future use. The plaza, an anchor of the downtown district, houses the library, a conference/banquet center, restaurant and coffee shop.

J. DEFINED BENEFIT PENSION PLANS

Net Pension Liability: The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred—payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City’s proportionate share of each pensions plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the matter in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in an intergovernmental payable on both the accrual and modified accrual bases of accounting.

Ohio Public Employees Retirement System (OPERS)—City Employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and services requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local Employees		
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30 years	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30 years	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35 years

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, and annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local
2015 Statutory Maximum Contribution Rates:	
Employer	14.0%
Employee	10.0%
2015 Actual Contribution Rates:	
Employer:	
Pension	12.0%
Post-employment Health Care Benefits	2.0%
Total Employer	14.0%
Employee	10.0%

* This rate is determined by OPERS' Board and has no maximum rate established by ORC.

** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2% greater than the Public Safety rate.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required pension contribution was \$916,345 for 2015 and \$35,841 is reported as an intergovernmental payable.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

Ohio Police & Fire Pension Fund (OP&F)—City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

	<u>Police</u>	<u>Firefighters</u>
2015 Statutory Maximum Contribution Rates:		
Employer	19.50%	24.00%
Employee:		
January 1, 2015 through July 1, 2015	11.50%	11.50%
July 2, 2015 through December 31, 2015	12.25%	12.25%
2015 Actual Contribution Rates:		
Employer:		
Pension	19.00%	23.50%
Post-employment Health Care Benefits	0.50%	0.50%
Total Employer	<u>19.50%</u>	<u>24.00%</u>
Employee:		
January 1, 2015 through July 1, 2015	11.50%	11.50%
July 2, 2015 through December 31, 2015	12.25%	12.25%

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$1,004,709 for 2015, and \$33,794 is reported as an intergovernmental payable.

The City of Piqua owed the Ohio Police and Firemen's Disability and Pension Fund a total of \$756,304 for the unpaid principal balance of the employer's accrued liability of which was payable in semi-annual installments of approximately \$41,482 (including interest) payable on the 15th day of May and November in each year through May 15, 2035. Pursuant to Section 717.07 of the Ohio Revised Code, an Ohio municipal was authorized to enter into an agreement with the Board of Trustees of the Ohio Police and Firemen's Disability and Pension Fund providing for a single payment, at a reduced amount, by the municipal corporation of its employer's accrued liability and to issue, pursuant to Section 3 of Article XVII, Ohio Constitution, or Chapter 133, Ohio Revised Code, obligations to provide funds to make such single payment. The City of Piqua did such by issuing pension refunding bonds and paid the reduced amount of \$533,966.49 on April 27, 2000. The Pension refunding bonds were paid-off in 2014.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The net pension liability for OPERS was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2014, and was determined by rolling forward the total pension liability as of January 1, 2014 to December 31, 2014. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
Proportionate share of the net pension liability	\$ 7,130,365	\$ 11,957,013	\$ 19,087,378
Proportion of the net pension liability	0.059202%	0.230812%	
Pension expense	\$ 783,311	\$ 1,166,350	\$ 1,949,661

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS	OP&F	Total
<u>Deferred Outflows of Resources:</u>			
Net difference between projected and actual earnings on pension plan investments	\$ 381,605	\$ 515,336	\$ 896,941
City contributions subsequent to the measurement date	916,344	1,004,709	1,921,053
Total	\$ 1,297,949	\$ 1,520,045	\$ 2,817,994
<u>Deferred Inflows of Resources:</u>			
Differences between expected and actual experience	\$ 128,512	\$ -	\$ 128,512

City contributions subsequent to the measurement date of \$1,921,053 are reported as deferred outflows of resources related to pension and will be recognized as a reduction of the net pension liability in the year ending December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPERS	OP&F	Total
Fiscal Year Ending December 31:			
2016	\$ 37,156	\$ 128,834	\$ 165,990
2017	37,156	128,834	165,990
2018	85,353	128,834	214,187
2019	95,037	128,834	223,871
2020	(365)	-	(365)
After	(1,244)	-	(1,244)
	\$ 253,093	\$ 515,336	\$ 768,429

Actuarial Assumptions – OPERS: Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the type of benefits provided at the time of each valuation. The total pension liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

Wage inflation	3.75 percent
Future salary increases, including inflation	4.25% to 10.05% including wage inflation
COLA or Ad Hoc COLA	3.00%, simple
Investment rate of return	8.00%
Actuarial cost method	Individual Entry Age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 6.95 percent for 2014.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	23.00%	2.31%
Domestic Equities	19.90%	5.84%
Real Estate	10.00%	4.25%
Private Equity	10.00%	9.25%
International Equities	19.10%	7.40%
Other Investments	<u>18.00%</u>	4.59%
Total	<u>100.00%</u>	

Discount Rate: The discount rate used to measure the total pension liability was 8 percent. The projections of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:
The Following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 8 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability	\$ 13,137,638	\$ 7,130,365	\$ 2,071,353

Actuarial Assumptions – OP&F: OP&F's total pension liability as of December 31, 2014 is based on the results of an actuarial valuation date of January 1, 2014, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2014, are presented below:

Valuation Date	January 1, 2014
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.25%
Projected Salary Increases	4.25% to 11.00%
Payroll Increases	3.75%
Inflation Assumptions	3.25%
Cost of Living Adjustments	2.60% and 3.00%

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2014 are summarized below:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash & Cash Equivalents	0.00%	-0.25%
Domestic Equity	16.00%	4.47%
Non-US Equity	16.00%	4.47%
Core Fixed Income *	20.00%	1.62%
Global Inflation Protected *	20.00%	1.33%
High Yield	15.00%	3.39%
Real Estate	12.00%	3.93%
Private Markets	8.00%	6.98%
Timber	5.00%	4.92%
Master Limited Partnerships	<u>8.00%</u>	7.03%
Total	<u>120.00%</u>	

* - levered 2x

OP&F's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate: The total pension liability was calculated using the discount rate of 8.25 percent. The projections of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: Net Pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25 percent), or one percentage point higher (9.25 percent) than the current rate.

	<u>1% Decrease (7.25%)</u>	<u>Current Discount Rate (8.25%)</u>	<u>1% Increase (9.25%)</u>
City's proportionate share of the net pension liability	\$ 16,538,373	\$ 11,957,013	\$ 8,078,014

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

K. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Both the OPERS and the OP&F provide post-retirement health care coverage as defined by GASB Statement No. 45 "Accounting by employers for post-employment benefits other than pension". For both systems, the Ohio Revised Code provides the statutory authority for public employers to fund postretirement health care through their contributions.

Police and Firemen's Disability Pension Fund OPEB—The fund provides postretirement health care coverage to any person who receives or is eligible to receive a monthly benefit check or is a spouse or eligible dependent child of such person. An eligible dependent child is any child under the age of 28. The Ohio Revised code provides that health care costs paid shall be included in the employer's contribution rate. The total police employer contribution rate is 19.5% of covered payroll and the total firefighter employer contribution rate is 24% of covered payroll.

The Ohio Revised Code provides the statutory authority allowing OP&F's Board of Trustees to offer health care coverage to all eligible employees and is administrated as an Internal Revenue Code 401(h) account within the defined benefit pension plan. Health care funding and accounting is on a pay-as-you-go basis. A percentage of covered payroll, as defined by the Board, is used to pay retiree health care expenses. The Board defined allocation was 0.5% of covered payroll for both 2015 and 2014. Beginning in 2001, active members do not make contributions to the OPEB, all retirees and survivors make monthly health care contributions.

The City's contributions that were used to pay post-employment benefits by Ohio Police and Fire for the years ended December 31, 2015, 2014 and 2013 were \$23,731, \$22,711 and \$157,168 respectively.

Public Employees Retirement System OPEB— OPERS provides post-retirement health care coverage to age and service retirees with 20 or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. The health care coverage provided by the Retirement System is considered an Other Post-employment Benefit (OPEB) as described in GASB Statement No. 45. A portion of each employer's contribution to OPERS (See Note J) is set aside for the funding of post-retirement health care. The Ohio Revised Code provides the statutory authority for employer contributions and for requiring public employers to fund pension and post-retirement health care through their contributions to OPERS. The 2015 employer contribution rate for local government employer units was 14% of covered payroll, of which 2.0% was used to fund health care for the year ended 2015.

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan (TP) – a cost-sharing multiple-employer defined benefit pension plan; the Member-Directed Plan (MD) – a defined contribution plan; and the Combined Plan (CO) – a cost-sharing multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS provides retirement, disability, survivor and post-retirement health care benefits to qualifying members of both the Traditional and the Combined Plans; however, health care benefits are not statutorily guaranteed. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

Health Care: OPERS post-employment health care plan was established under, and is administrated in accordance with internal revenue code 401(h). Each year, the OPERS Board of Trustee determines the portion of the employer contribution rate (14% in 2015) that will be set aside for funding of post-employment health care benefits. The portion of employer contribution allocated to health care for members in the Traditional Plan

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

was 2.0% for the year ended December 31, 2015. The portion of employer contribution allocated to health care for members in the Combined Plan was 2.0% for year ended December 31, 2015. The OPERS board of trustee is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. The City's contributions that were used to pay post-employment benefits by Ohio Public Employee Retirement System for the years ended December 31, 2015, 2014 and 2013 were \$153,959, \$148,692 and \$71,176 respectively.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4% of the employer contributions toward the health care fund after the end of the transition period.

L. OHIO PUBLIC EMPLOYEES DEFERRED COMPENSATION PROGRAM

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code ("IRC") Section 457. The plan, which is available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

M. OHIO PROFESSIONAL FIRE FIGHTERS DEFERRED COMPENSATION PROGRAM

In addition to the Ohio Public Employees Deferred Compensation Program; the City offers its sworn fire officers an optional deferred compensation plan created in accordance with Internal Revenue Code ("IRC") Section 457. The plan, which is only available to sworn fire officers, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

N. CONTINGENCIES

Certain claims and suits have been filed or are pending against the City. Management believes that the liability, if any, which may result would not have a material adverse effect on the financial position of the City.

The City participates in several federally assisted programs, which are subject to program compliance audits by the grantors or their representatives. A single financial and compliance audit of the City has been completed with no findings for recovery. The grantor agencies, at their option, may perform economy and efficiency audits, program results audits or conduct monitoring visits. Such audits and visits could lead to reimbursement to the grantor agencies. Management believes such reimbursements, if any, would not be material.

O. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. In 2002, the City joined a joint insurance pool, Miami Valley Risk Management Association, Inc. ("MVRMA") with other local cities. The pool has been operational since December 1988, and was formed in accordance with Section 2744.081 of the Ohio Revised Code. This jointly governed organization provides real and personal property, crime, surety, general liability, boiler and machinery, employment practices liability, police professional and public officials liability coverage up to the limits stated below. Membership in MVRMA is intended to provide broad-based coverage up to the

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2015

limits stated below, with increased emphasis on safety and loss prevention and to create opportunity for other local governments to participate. MVRMA is a non-profit corporation governed by a twenty-member board of trustees, consisting of a representative appointed by each of the member cities. The board of trustees elects the officers of the corporation, with each trustee having a single vote. Management is provided by an executive director, who is assisted by a claims manager, a full-time loss control manager and office staff. The board is responsible for its own financial matters and the corporation maintains its own books of account. Budgeting and financing of MVRMA is subject to the approval of the board, and the organization is covered by policies, procedures, and formally adopted bylaws.

The City pays an annual member contributions premium to MVRMA for this coverage. The agreement provides that MVRMA will be self-sustaining through member contributions premiums and the purchase of excess insurance and reinsurance. The city's deductible per occurrence for all types of claims is \$2,500. During 2015, MVRMA'S per-occurrence retention limit for property was \$500,000, with the exception of boiler and machinery for which there was a \$10,000 per occurrence retention limit.

Excess insurance and/or reinsurance will cover up to the limits stated below:

General Liability (including law enforcement)	\$10,000,000 per occurrence/ excess \$500,000 sir
Automobile Liability	\$10,000,000 per occurrence/excess \$500,000 sir
Police Professional Liability	\$10,000,000 excess \$1,000,000 (\$10,000,000 aggregate per city)
Boiler and Machinery	\$100,000,000 per occurrence
Property	\$1,000,000,000 per occurrence
Flood and Earthquake	\$25,000,000 per occurrence and annual aggregate
Employment Practices Liability and Public Officials Liability	\$10,000,000 excess \$500,000 sir (\$10,000,000 annual combined aggregate per city)
Cyber Liability	\$1,000,000 annual aggregate; \$100,000 sir
Pollution Liability	\$1,000,000 annual aggregate; \$75,000 sir

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There has been no significant reduction in coverage from the prior year.

The City joined a workers' compensation group rating plan, which allows local governments to group the experience of employers for workers' compensation rating purposes. The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries.

The City employee's health plan is provided through a fully insured plan with Anthem. Other self-insured health benefits are accounted for through an internal service fund.

P. PURCHASED POWER

The City's electric distribution system during 2015 purchased wholesale electric power from American Municipal Power (AMP). AMP provides this power through a mixture of long term take or pay purchase contracts with the City. Included in these contracts with AMP are; the Prairie State Energy Campus Project (20 megawatts) generation started during 2012, Fremont Natural Gas Energy Center (13 megawatts) generation started in 2012, and the Ohio River Hydroelectric Project (8 megawatts) generation to start during Spring 2016. AMP provides the remaining power requirements with market based purchases from various sources including New York Power Authority, Blue Creek Wind Farm, and other pooled market sources.

Q. FUND BALANCE COMPONENTS

Under the guidelines of GASB statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions" the City has reported non-spendable fund balance of \$13,131. This is comprised of amounts in non-spendable form for non-current loans receivable for low income mortgage assistance loans of \$5,611, and prepaid items of \$7,520. The City reported restricted fund balance of \$7,156,862, which is comprised of debt restrictions of \$411,558, donor restrictions of \$513, grant restrictions of \$154,216, and legislative restrictions of \$6,590,575. The City reported assigned fund balance of \$3,413,891, which is comprised of encumbrances of \$51,638, and managerially assigned assets of \$3,362,253. The City reported unassigned fund balance of \$7,788,547.

CITY OF PIQUA, OHIO
Notes to the Required Supplemental Information
December 31, 2015

BUDGETS AND BUDGETARY ACCOUNTING—The City follows procedures prescribed by State law in establishing the budgetary data shown in the financial statements, as follows:

- The City must submit a budget of estimated revenues and expenditures for all governmental funds to the County Budget Commission by July 20 of each year for the following calendar year.
- The County Budget Commission certifies its actions by September 1, and issues a “Certificate of Resources” limiting the maximum amount the City may expend from a given fund during the year.
- On approximately January 1, this Certificate is amended to include any unencumbered balances from the preceding year. The City must prepare its appropriations so that the total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Resources.
- Before the first Commission meeting in January, a permanent appropriation measure must be passed for the period January 1 through December 31. The permanent appropriation may not exceed estimated resources certified by the County Budget Commission.
- Unused appropriations lapse at year-end and are re-appropriated in the following year’s budget.
- All funds have annual budgets, which are prepared in accordance with generally accepted accounting principles and are legally adopted by the City Commission.

The City Manager acts as budget officer for the City and submits a proposed operating budget to the City Commission on an annual basis. Public hearings are held to obtain taxpayer comments. The Commission enacts the budget through passage of an appropriations ordinance. The appropriations ordinance controls expenditures in each fund at the object levels of personal services/administrative support, operating expenditures, transfers, and capital outlay. Amendments to object totals of appropriations require Commission approval. The City Manager has the authority to allocate and amend appropriations at the account level, provided that fund totals appropriated by ordinance are not adjusted. Earnings of the Power, Water, Wastewater, Storm Water, Refuse, Golf, and Municipal Pool systems may not be appropriated for other City uses.

The budget process is controlled by both the State of Ohio Revised Code and the City Charter and is prepared based on anticipated revenues and appropriated expenditures.

The City’s financial position, results of operations and changes in fund balances, as well as the budgetary basis as provided by law, are reported on the basis of GAAP.

Supplemental Data

CITY OF PIQUA, OHIO

NON-MAJOR FUNDS

Revolving Loan/Federal Program Income	To account for micro-enterprise loans, USDA loans and home mortgages resulting from federal grant activities
Community Development	To account for activities for social, economic, and other special development of the community
Trust	To account for resources recovered or held through legislation or enforcement activities.
Conservancy	To account for receipts and disbursements for the city's share of the district's operation and maintenance.
Federal Grants	To account for federal funds available for FEMA, comprehensive housing, and block grants.

CITY OF PIQUA, OHIO

NON-MAJOR INTERNAL SERVICE/FIDUCIARY FUNDS

Internal Service Funds

Workers Compensation	To account for the City's worker's compensation program under the State's retrospective rating plan by pooling resources from various funds to pay for workers compensation premiums
Liability Insurance	To account for assets to pay for liabilities that are below third party insurance deductibles or not covered under certain policies and pool resources from various funds to pay for liability insurance premiums
Health Insurance	To account for an internally financed and self-insured health benefits program
Information Technology	To account for centralized communication, networking, and data processing services for all city departments

Fiduciary Funds

Unclaimed Funds	To account for unclaimed liabilities of the city.
Private-Purpose Centennial Trust	To account for assets of a centennial escrow as established by legislation.
Employee Flexible Spending	To account for assets held for the employee's cafeteria plan.

Statistical Section

Statistical Section

This part of the City of Piqua, Ohio's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	<u>Pages</u>
Financial Trends	86-90
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	91-93
These schedules contain information to help the reader assess the City's most significant local revenue sources, the property tax, and the municipal income tax.	
Debt Capacity	94-96
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Economic and Demographic Information	97-99
These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	100-103
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source: City of Piqua, Ohio Income Tax Department-certain amounts may be estimates-years are tax years. The City instituted a mandatory filing requirement in 2008. Comparisons between 2008 and prior years may be exaggerated. Prior to 2008, the number of filers does not equal total taxpayers due to taxpayers paying city taxes through employer withholding without a filing requirement.
