INDEPENDENT AUDITOR'S REPORT

Warrensville Heights City School District
Cuyahoga County
4500 Warrensville Center Road
Warrensville Heights, Ohio 44128

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Warrensville Heights City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Warrensville Heights City School District, Cuyahoga County, Ohio, as of June 30, 2015, and the respective changes in financial position thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 21 to the financial statements, during the year ended June 30, 2015, the District adopted the provisions of Governmental Accounting Standard No. 68, *Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The Schedule of Federal Award Receipts and Expenditures presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 16, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "Y" and "O".

Warrensville Heights City School District

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2015

Unaudited

The discussion and analysis of the Warrensville Heights City School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2015 are as follows:

- On March 12, 2015, the School District currently refunded a portion of the 2007 school improvement refunding bonds in order to take advantage of lower interest rates. The refunding resulted in a cash flow gain of \$1,738,079 over the next ten years.
- Expenses decreased from the prior fiscal year mainly due to a decrease in expenses for instructional purposes, as teachers retired and were replaced by teachers lower on the pay scale, and from lower special instruction costs.
- Cash and cash equivalents increased in fiscal year 2015 mainly due to increases in property tax and intergovernmental cash receipts, as well as a decrease in cash disbursements for instructional purposes.
- The School District implemented GASB 68 and GASB 71, which establish standards for measuring and recognizing pension liabilities, deferred outflows/inflows of resources, and expense/expenditure. The implementation of these GASB statements resulted in a significant change to the financial statements for the School District.

Using this Annual Financial Report

This report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Warrensville Heights City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and *Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term and what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Warrensville Heights City School District, the general fund is the most significant fund, although the bond retirement debt service fund is also considered to be a major fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains all of the funds used by the School District to provide programs and activities, the view of the School District as a whole considers all financial transactions and asks the question "How did we perform financially during fiscal year 2015?" The *Statement of Net Position* and the *Statement of Activities* answer this question. These statements include *all assets, deferred outflows of resources, liabilities and deferred inflows of resources* using the *accrual basis of accounting* similar to the accounting used by most private sector companies. Accrual accounting takes into account all of the current year's revenue and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in the net position. This change in net position is important because it tells the reader that, for the School District as a whole, the *financial position* of the School District has improved or diminished. The causes of this change may be the result of many financial or non-financial factors. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the *Statement of Net Position* and the *Statement of Activities*, all of the School District's activities are classified as governmental. The School District's programs and services reported here include instruction, support services, operation of non-instructional services, extracurricular activities and interest and fiscal charges.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 13. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus upon the School District's most significant funds. The School District's major governmental funds are the general fund and the bond retirement debt service fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how cash flows into and out of those funds and the balances remaining at fiscal year end available for spending in future periods. These funds are reported using an accounting method called *modified accrual accounting*, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the School District's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the *Statement of Net Position* and the *Statement of Activities*) and governmental *funds* is reconciled in the financial statements.

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs. These funds use the accrual basis of accounting.

The School District as a Whole

You may recall that the *Statement of Net Position* provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for fiscal year 2015 compared to the prior fiscal year:

(Table 1)
Net Position
Governmental Activities

	2015	2014	Change
Assets			
Current and Other Assets	\$49,122,879	\$45,573,510	\$3,549,369
Capital Assets	16,416,556	16,911,712	(495,156)
<i>Total Assets</i>	<u>65,539,435</u>	<u>62,485,222</u>	<u>3,054,213</u>

Debt Service	4,240,302	3,852,025	388,277
Other Purposes	1,488,603	1,083,223	405,380
Unrestricted (Deficit)	(16,022,755)	(19,622,899)	3,600,144
<i>Total Net Position</i>	<u>(\$6,974,061)</u>	<u>(\$12,116,596)</u>	<u>\$5,142,535</u>

During 2015, the School District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Warrensville Heights City School District

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2015

Unaudited

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the School District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2014, from \$25,342,735 to (\$12,116,596).

Warrensville Heights City School District

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2015

Unaudited

As one can see from the increase in overall net position, the School District continues to provide the services that the School District citizens expect while maintaining the costs of providing those services during the current economic recession. The most dramatic changes were to cash and cash equivalents, to long-term liabilities, and to deferred inflows of resources. Cash and cash equivalents increased from fiscal year 2014 mainly due to increases in property tax and intergovernmental cash receipts and a decrease in cash disbursements for instructional purposes. Long-term liabilities decreased due to the decrease in the net pension liability and due to the paying down of debt. The increase in the deferred inflows of resources related to pension largely offset the decrease in the net pension liability.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for fiscal years 2015 and 2014.

Table 2
Changes in Net Position
Governmental Activities

	2015	2014	Change
<i>Program Revenues</i>			
Charges for Services	\$278,730	\$329,770	(\$51,040)

<i>Net Position End of Year</i>	<u><u>(\$6,974,061)</u></u>	<u><u>(\$12,116,596)</u></u>	<u><u>\$5,142,535</u></u>

Governmental Activities

The information necessary to restate the fiscal year 2014 beginning balances and the fiscal year 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, fiscal year 2014 functional expenses still include pension expense of \$2,003,443 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the fiscal year 2015 statements report pension expense of \$1,436,431. Consequently, in order to compare fiscal year 2015 total program expenses to fiscal year 2014, the following adjustments are needed:

Total 2015 program expenses under GASB 68	\$35,615,202
Pension expense under GASB 68	(1,436,431)
2015 contractually required contribution	<u>2,054,358</u>
Adjusted 2015 program expenses	36,233,129
Total 2014 program expenses under GASB 27	<u>36,369,587</u>
Decrease in program expenses not related to pension	<u><u>(\$136,458)</u></u>

Warrensville Heights City School District

Management's Discussion and Analysis

Graph 1

Revenues and Expenses
(In Millions)

	2015	2014
Revenues	\$40.8	\$41.2
Expenses	35.6	36.4

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. It increases as a result of new construction or collection from a new voted levy. Although school districts experience inflationary growth in expenses, tax revenue does not keep pace with the increased expenses due to House Bill 920. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00 and the School District would collect the same dollar value the levy generated in the year it passed. The 10 percent rollback on all residential/agricultural property and the 2.5 percent rollback on all owner occupied homes would reduce the amount of taxes paid.

Thus School District's dependence upon property taxes is hampered by a lack of revenue growth so it must regularly return to the voters to maintain a constant level of service. Property taxes and grants and entitlements made up the majority of revenues for governmental activities for Warrensville Heights City School District in fiscal year 2015.

The School District actively pursues grants and controls expenses while still maintaining the high academic standards the residents expect of the School District.

Instruction expenses make up more than half of the governmental program expenses. Building operations, administration, pupil support, staff support, food service, extracurricular activities and interest and fiscal charges make up the remainder of the governmental program expenses. The Board believes that the main focus of the School District should be to provide the best instruction to its pupils as possible. Therefore, a majority of the expenses of the School District are in the area of instruction, which decreased from fiscal year 2014, mainly due to lower special instruction expenses.

Warrensville Heights City School District

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2015

Unaudited

The *Statement of Activities* shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

(Table 3)
Total and Net Cost of Program Services
Governmental Activities

	Total Cost of Services 2015	Net Cost of Services 2015	Total Cost of Services 2014	Net Cost of Services 2014
Instruction	\$20,220,983	\$17,622,946	\$21,156,288	\$19,182,069
Support Services:				
Pupil and Instructional Staff	1,943,942	1,241,164	2,050,634	1,033,013

Central	143,403	136,203	362,978	355,778
Operation of Food Service	686,274	(53,717)	713,427	10,224
Operation of Non-Instructional Services	119,394	91,018	161,893	137,173
Extracurricular Activities	268,774	199,567	262,941	224,053
Interest and Fiscal Charges	856,412	856,412	1,056,651	1,056,651
<i>Total Expenses</i>	<u>\$35,615,202</u>	<u>\$31,158,327</u>	<u>\$36,369,587</u>	<u>\$32,271,637</u>

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and pupil. Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching students.

Board of education, administration, fiscal and business includes expenses associated with administrative and financial supervision of the School District.

Operation and maintenance of plant activities involve keeping the School District grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law.

Central includes expenses related to planning, research, development and evaluation of support services, as well as the reporting of this information internally and to the public.

Operation of food service includes the preparation, delivery, and servicing of lunches, snacks and other incidental meals to students and school staff in connection with school activities.

Extracurricular activities include expenses related to student activities provided by the School District which are designed to provide opportunities for pupils to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.

Interest and fiscal charges involves the transactions associated with the payment of interest and other related charges to debt of the School District.

Warrensville Heights City School District

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited*

The dependence upon general revenues for governmental activities is apparent as local property tax and grants and entitlements account for the majority of the total revenues in fiscal year 2015.

The School District's Funds

Information regarding the School District's major funds starts with the balance sheet. These funds are accounted for using the modified accrual basis of accounting. For fiscal year 2015, the School District had two major funds, the general fund and the bond retirement debt service fund. In the general fund, both revenues and expenditures decreased from the prior fiscal year. The small decrease in revenues only partly offset the larger decrease in expenditures, mainly expenditures for instruction, resulting in an increase in fund balance for the general fund. The bond retirement fund's small increase in revenues was offset by a larger increase in expenditures from the prior fiscal year, mainly due to the payment to refunded bond escrow agent related to the fiscal year 2015 debt refunding. Despite a reduction in the net change in fund balance from the prior fiscal year, revenues and other financing sources remained higher than expenditures and other financing uses, allowing for the increase in fund balance for the bond retirement fund.

General Fund Budgeting Highlights

Information about the School District's budget is prepared in accordance with Ohio Law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the main operating fund of the School District, the general fund. The School District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

During the course of fiscal year 2015, the School District amended its general fund budget several times by the end of the fiscal year. For the general fund, the final budget basis revenue was \$30,311,006, an increase of only \$357,402 from the original budget. Actual revenue came in higher than the final budget basis revenue mainly because of an increase in intergovernmental monies as the School District continues to seek out additional funding sources, as well as increased tax collections. Actual expenditures were less than final appropriations due mainly to the diligence of management to keep costs low while still providing the services the School District citizens expect.

Capital Assets

Table 4 shows fiscal year 2015 balances compared to fiscal year 2014:

(Table 4)
Capital Assets at June 30
Net of Depreciation
Governmental Activities

	2015	2014	Change
Land	\$414,153	\$414,153	\$0
Construction in Progress	0	49,636	(49,636)
Land Improvements	78,790	90,911	(12,121)
Buildings and Improvements	15,164,921	15,531,927	(367,006)
Furniture and Fixtures	504,482	587,728	(83,246)
Vehicles	254,210	237,357	16,853
Total	<u>\$16,416,556</u>	<u>\$16,911,712</u>	<u>(\$495,156)</u>

Warrensville Heights City School District

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited*

Capital assets decreased slightly from fiscal year 2014. This decrease was due to an additional year of depreciation, partially offset by current year additions. See Note 9 to the basic financial statements for additional information on the School District's capital assets.

Debt

Table 5 summarizes the long-term debt obligations outstanding:

(Table 5)
Outstanding Long-Term Debt Obligations at June 30
Governmental Activities

	2015	2014	Change
2000 School Improvement Bonds	\$0	\$1,150,023	(\$1,150,023)
2007 School Improvement Refunding Bonds	2,206,247	16,455,960	(14,249,713)
2015 School Improvement Refunding Bonds	13,790,000	0	13,790,000
<i>Totals</i>	<u>\$15,996,247</u>	<u>\$17,605,983</u>	<u>(\$1,609,736)</u>

The School District's overall legal debt margin increased to \$25 million. This is the additional amount of debt the School District could issue. The debt margin increased from fiscal year 2014 mainly due to the School District paying down current debt. Additional information concerning debt issuances can be found in Note 16 to the basic financial statements.

Current Financial Related Activities

The Warrensville Heights City School District is financially sound for the current and next three years. The Board of Education, administration and staff are committed to improving the financial condition of the School District, and the community has been supportive of the education system. The 9.5 mill continuous operating levy and the renewal of the \$1,850,000 emergency levy passed in 2009 continue to support the majority of the School District's operating activities.

The ongoing legislative effort to support the existence of community (charter) schools comes at the expense of our current State foundation subsidy. The School District has also been impacted by the ever increasing costs associated with the education of special needs students and special needs transportation costs.

Since 1997, the State has directed its tax revenue growth toward school districts with little property tax wealth. The legislators and government officials continue to negotiate the plan for improvement of the financing of public schools in the State of Ohio.

The Warrensville Heights City School District has committed itself to a fiscal discipline based on long-term planning as well as a commitment to full disclosure of financial information and utilization of the highest standards of financial reporting. The School District's commitment to improve fiscal management has led to many budgeting, reporting and internal control enhancements.

*Reconciliation of Total Governmental Fund Balances to
 Net Position of Governmental Activities
 June 30, 2015*

Total Governmental Fund Balances		\$26,637,281
 <i>Amounts reported for governmental activities in the statement of net position are different because:</i>		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		16,416,556
Other long-term assets are not available to pay for current-period expenditures and therefore are reported as unavailable revenue in the funds:		
Delinquent Property Taxes	2,560,240	
Grants	<u>1,160,993</u>	
Total		3,721,233
In the statement of activities, interest is accrued on outstanding loans, whereas in governmental fund, an interest expenditure is reported when due.		(28,729)
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds:		
General Obligation Bonds	(15,996,247)	
Compensated Absences	(1,057,707)	
Retirement Incentive	(120,000)	
Deferred Charge on Refunding	<u>294,956</u>	
Total		(16,878,998)
The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in governmental funds:		
Deferred Outflows	2,365,752	
Deferred Inflows	(5,974,419)	
Net Pension Liability	<u>(33,232,737)</u>	
Total		<u>(36,841,404)</u>
<i>Net Position of Governmental Activities</i>		<u><u>(\$6,974,061)</u></u>

See accompanying notes to the basic financial statements

Warrensville Heights City School District
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2015*

Net Change in Fund Balances - Total Governmental Funds		\$3,278,511
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets are allocated over their useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period:		
Capital Asset Additions	237,473	
Current Year Depreciation	<u>(732,629)</u>	
Total		(495,156)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:		
Delinquent Property Taxes	(9,758)	
Intergovernmental	<u>352,340</u>	
Total		342,582
Other financing sources in the governmental funds, such as general obligation refunding bonds issued, increase long-term liabilities in the statement of net position.		(13,790,000)
Repayment of long-term obligations is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position:		
Payment on General Obligation Bonds	1,395,023	
Payment to Refunded Bond Escrow Agent	<u>14,078,955</u>	
Total		15,473,978
In the statement of activities, interest is accrued on outstanding bonds, and bond premium and deferred accounting loss are amortized over the terms of the bonds whereas in governmental funds the expenditure is reported when bonds are issued:		
Accrued Interest on Bonds	26,951	
Amortization of Deferred Charge on Refunding	(71,887)	
Amortization of Bond Premium	82,193	
Annual Accretion	<u>(483,934)</u>	
Total		(446,677)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:		
Compensated Absences	249,370	
Retirement Incentive	<u>(88,000)</u>	
Total		161,370
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		2,054,358
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		<u>(1,436,431)</u>
<i>Change in Net Position of Governmental Activities</i>		<u><u>\$5,142,535</u></u>

See accompanying notes to the basic financial statements

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Note 1 – Description of the School District and Reporting Entity

The Warrensville Heights City School District (School District) is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five-members elected at-large for staggered four year terms. The School District provides educational services as authorized and mandated by State statute and federal guidelines. The Board controls the School District's 4 instructional facilities, staffed by 108 classified employees, 135 certificated full-time teaching personnel, and 26 administrators who provide services to students and other community members.

The School District is located in Warrensville Heights, Ohio, Cuyahoga County. The enrollment for the School District during the 2015 fiscal year was 1,490. The School District operates two elementary schools (K-4), one middle school (5-8), and one high school (9-12).

Reporting Entity

A reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, agencies, departments and offices that are not legally separate from the School District. For Warrensville Heights City School District, this includes the agencies and departments that provide the following services: general operations, food service, and student related activities.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The School District has no component units.

The School District participates in two jointly governed organizations and one shared risk pool. These organizations are the Lake Geauga Computer Association, the Ohio Schools' Council, and the Suburban Health Consortium. These organizations are presented in Notes 13 and 14 of the basic financial statements.

Note 2 – Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type. The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental activity is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary fund is reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. The funds of the School District are divided into two categories, governmental and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental fund:

General Fund The general fund is the operating fund of the School District and is used to account and report for all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

Bond Retirement Fund The bond retirement fund is used to account for and report the accumulation of property tax revenues restricted for the payment of general obligation bonds issued for school improvements.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

Fiduciary Fund Type Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only agency fund reports resources belonging to the student activities of the various schools.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences between the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows/outflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (See Note 7.) Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, fees and rentals.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 10.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, payments in lieu of taxes, pension, and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 10.)

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds. The Treasurer has been given the authority to allocate appropriations to the function and object level within each fund.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate that was in effect at the time the original and final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated resources by fund. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During fiscal year 2015, investments were limited to a money market account. Investments are reported at fair value, which is based on quoted market prices.

Following Ohio statutes, the Board of Education has, by resolution, identified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2015 amounted to \$8,544 which includes \$2,282 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months not purchased from the pool are reported as investments.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Capital Assets

All of the School District's capital assets are general capital assets. General capital assets are those assets related to activities reported in the governmental funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by backtrending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of one thousand five hundred dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land Improvements	20 years
Buildings and Improvements	50 years
Furniture, Fixtures and Equipment	5-20 years
Vehicles	10 years

Bond Premium

On the government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the effective interest method. Bond premiums are presented as an increase of the face amount of the bonds payable. On the governmental fund statements, bond premiums are received in the year the bonds are issued.

Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans and interfund services provided and used are classified as "interfund receivables/payables." Interfund balances are eliminated in the governmental activities column of the statement of net position.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all classified employees.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due to each period upon the occurrence of employee resignations and retirements. These amounts are reported as "Matured Compensated Absences Payable" in the fund from which the employee has accumulated leave is paid.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences and the net pension liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for the payment during the current fiscal year. Bonds are recognized as a liability on the governmental fund financial statements when due.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed by law on its use through constitutional provisions or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes included resources restricted for information technologies and extracurricular activities.

The School District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Internal Activity

Transfers between governmental activities are eliminated on the government wide financial statements. Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Payments for interfund services provided and used are not eliminated.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance includes the remaining amount that is not restricted or committed. These assigned balances are established by the School District Board of Education. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education or by State statute. State statute authorizes the Treasurer to assign fund balance for purchases on order, provided such amounts have been lawfully appropriated. The Board of Education assigned fund balance for administrative support and uniform school supplies and to cover a gap between estimated revenue and appropriations in fiscal year 2016’s budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 – Accountability

At June 30, 2015, the following funds had deficit fund balances:

	<u>Amount</u>
Other Governmental Funds:	
Title I	\$280,695
Miscellaneous Federal Grants	115,375
Public School Preschool	76,818
Title VI-B	56,620
Class Size Reduction	15,041
Vocational Education Enhancement	507

The deficit balances resulted from adjustments for accrued liabilities. The general fund is liable for any deficits in these funds and provides transfers when cash is required, rather than when accruals occur.

Note 4 – Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances – Budget (Non-GAAP) and Actual for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP basis are that:

- 1) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP).
- 2) Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP).
- 3) Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP).
- 4) Budgetary revenues and expenditures of the public school support and disadvantaged pupil impact aid funds are reclassified to the general fund for GAAP reporting.
- 5) Encumbrances are treated as expenditures (budget basis) rather than as restricted, committed or assigned fund balance (GAAP).

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements on a fund type basis for the general fund.

<u>Net Change in Fund Balance</u>	
GAAP Basis	\$3,294,407
Net Adjustment for Revenue Accruals	10,406
Advances In	1,116,400
Net Adjustment for Expenditure Accruals	(35,936)
Advances Out	(2,067,000)
Perspective Differences:	
Public School Support	(2,466)
Disadvantaged Pupil Impact Aid	421
Adjustment for Encumbrances	<u>(1,979,617)</u>
Budget Basis	<u><u>\$336,615</u></u>

Note 5 – Deposits and Investments

The School District has chosen to follow State statutes and classify monies held by the School District into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
7. The State Treasurer's investment pool (STAR Ohio); and,
8. Commercial paper and bankers' acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At fiscal year end, \$2,476,120 of the School District's bank balance of \$2,726,120 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although the securities were held by the pledging financial institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the Federal Deposit Insurance Corporation.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Investments

As of June 30, 2015, the School District had investments in a PNC Money Market account. The PNC Money Market account has a credit rating of AAAM with Standard and Poor's, a carrying and fair value of \$23,572,309 and a maturity of less than one year.

Interest Rate Risk As a means of limiting its exposure to fair value losses caused by rising interest rates, the School District's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the School District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The PNC Money Market account is exposed to

Warrensville Heights City School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

custodial credit risk in that it is uninsured, unregistered, and held by the counterparty. The School District has no investment policy dealing with the investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Note 6 – Receivables

Receivables at June 30, 2015, consisted of taxes, accounts (rent), payments in lieu of taxes, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. All receivables are expected to be collected within one year except for delinquent property taxes. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

A summary of the intergovernmental receivables follows:

Governmental Activities	Amounts
Title I	\$617,774
Title VI-B	257,941
21st Century Grant	136,143
Public School Preschool	76,354
Improving Teacher Quality Preschool	63,639
Vocational Education Enhancement	8,635
	507
<i>Total Intergovernmental Receivables</i>	<u><u>\$1,160,993</u></u>

According to State law, the City of Warrensville Heights has established several tax incremental financing districts within the City under which the City has granted property tax exemptions and agreed to construct certain infrastructure improvements. The property owners have agreed to make payments to the City to help pay the costs of the infrastructure improvements. The amount of those payments generally reflects all or a portion of the property taxes which the property owners would have paid if the property had not been declared exempt. The property owners' contractual promise to make these payments in lieu of taxes generally continues until the costs of the improvements have been paid or the agreement expires, whichever occurs first. Future development by these owners or others may result in subsequent agreements to make payments in lieu of taxes and may therefore spread the costs of the improvements to a larger number of property owners. The School District agrees to accept a portion of the service payments as compensation for the likely loss of future property tax increases.

Note 7 – Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenues received in calendar year 2015 represents collections of calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, on the

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

assessed value listed as of January 1, 2014, the lien date. Assessed values for real property are established by State law at thirty-five percent of appraised market value. Real property are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2015 represents collections of calendar year 2014 taxes. Public utility real and tangible personal property taxes received in calendar year 2015 become a lien December 31, 2013, were levied after April 1, 2014, and are collected in 2015 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Cuyahoga County. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2015, are available to finance fiscal year 2015 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2015, and for which there is an enforceable legal claim, based on collectability. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes.

The amount available as an advance at June 30, 2015, was \$3,405,667 in the general fund, \$464,670 in the bond retirement debt service fund, and \$117,716 in the permanent improvement capital projects fund. The amount available as an advance at June 30, 2014, was \$2,955,702 in the general fund, \$404,628 in the bond retirement debt service fund, and \$102,507 in the permanent improvement capital projects fund. The difference is in the timing and collection by the County Fiscal Officer.

On an accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

The assessed values upon which the fiscal year 2015 taxes were collected are:

	2014 Second Half Collections		2015 First Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$384,934,030	96.78 %	\$381,080,840	96.61 %
Public Utility	12,813,770	3.22	13,377,530	3.39
Total Assessed Value	\$397,747,800	100.00 %	\$394,458,370	100.00 %
Tax rate per \$1,000 of assessed valuation		\$91.80		\$91.80

Warrensville Heights City School District

Notes to the Basic Financial Statements

Note 8 – Risk Management

Insurance

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School District contracted with Todd Associates Insurance for property insurance (which also includes inland marine, crime), general liability, umbrella and automobile coverage. The School District also contracted with Travelers Insurance for boiler/machinery.

<u>Company</u>	<u>Type of Coverage</u>	<u>Coverage</u>
Todd Associates Insurance	Property (\$10,000 Deductible)	\$95,694,280
	Inland Marine (\$1,000 Deductible)	1,921,645
	Crime (\$1,500 Deductible)	150,000
	General Liability:	
	In Aggregate	2,000,000
	Per Occurrence	1,000,000
	Automobile Liability - Single Limit	1,000,000
	Umbrella Coverage:	
	Each Occurrence Limit	10,000,000
	Aggregate Limit	10,000,000
	Self-Insured Retention	10,000
Travelers Insurance Company	Boiler/Machinery (\$1,000 Deductible)	50,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from the prior year.

Employee Health Benefits

For fiscal 2015, the School District was a participant in the Suburban Health Consortium (the “Consortium”) to provide employee health, dental, vision and prescription drug benefits. The Consortium is administered by Medical Mutual. Payments are made to the Consortium for the monthly attachment point, monthly stop-loss premiums, and administrative charges. The fiscal agent of the Consortium is the Orange City School District. The Treasurer of the Orange City School District pays monthly for the actual amount of claims processed, the stop-loss premium and the administrative charges. The entire risk of loss transfers to the Consortium upon payment of the premiums.

The School District also provides full-time employees with the option to receive medical insurance through Healthspan.

During fiscal year 2015, the School District provided full-time employees with 90 percent Board paid hospitalization, prescription drug, dental and vision.

Workers’ Compensation

The School District pays the Workers’ Compensation system a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

Note 10 – Defined Benefit Pension Plan

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the fiscal year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description – School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over thirty. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The School District's contractually required contribution to SERS was \$619,128 for fiscal year 2015. Of this amount \$66,488 is reported as an intergovernmental payable.

Plan Description – State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with 5 years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with 5 years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased 1 percent July 1, 2014, and will be increased 1 percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$1,435,230 for fiscal year 2015. Of this amount \$191,273 is reported as an intergovernmental payable.

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$7,654,424	\$25,578,313	\$33,232,737
Proportion of the Net Pension Liability	0.151245%	0.10515902%	
Pension Expense	\$447,054	\$989,377	\$1,436,431

At June 30, 2015, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$65,147	\$246,247	\$311,394
School District's contributions subsequent to the measurement date	<u>619,128</u>	<u>1,435,230</u>	<u>2,054,358</u>
Total Deferred Outflows of Resources	<u><u>\$684,275</u></u>	<u><u>\$1,681,477</u></u>	<u><u>\$2,365,752</u></u>
Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	<u><u>\$1,242,334</u></u>	<u><u>\$4,732,085</u></u>	<u><u>\$5,974,419</u></u>

\$2,054,358 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Fiscal Year Ending June 30:			
2016	(\$294,133)	(\$1,121,459)	(\$1,415,592)
2017	(294,133)	(1,121,459)	(1,415,592)
2018	(294,133)	(1,121,459)	(1,415,592)
2019	<u>(294,788)</u>	<u>(1,121,461)</u>	<u>(1,416,249)</u>
Total	<u><u>(\$1,177,187)</u></u>	<u><u>(\$4,485,838)</u></u>	<u><u>(\$5,663,025)</u></u>

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Actuarial Assumptions – SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent, net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact, the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$10,920,587	\$7,654,424	\$4,907,297

Actuarial Assumptions – STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022 – Scale AA) for Males and Females. Males’ ages are set back two years through age 89 and are not set back for age 90 and above. Females younger than age 80 are set back four years, set back one year from age 80 through 89, and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS’ investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS’ fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

Sensitivity of the School District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District’s proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent) or one percentage point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$36,618,144	\$25,578,313	\$16,242,331

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Note 11 – Post Employment Benefits

School Employees Retirement System

Health Care Plan Description – The School District contributes to the School Employees Retirement System (SERS) Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility, and retirement status.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2015, 0.82 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2015, this amount was \$20,450. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS covered payroll for the health care surcharge. For fiscal year 2015, the School District's surcharge obligation was \$41,956.

The School District's contributions for health care for the fiscal years ended June 30, 2015, 2014 and 2013, were \$38,519, \$6,388 and \$6,813, respectively. For fiscal year 2015, 89.26 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2014 and 2013.

State Teachers Retirement System

Plan Description – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

deducted from employer contributions. For fiscal year 2015, STRS did not allocate any employer contributions to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2015, 2014 and 2013, were \$0, \$112,007 and \$114,002, respectively. The full amount has been contributed for fiscal years 2014 and 2013.

Note 12 – Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn up to twenty-seven days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated with no maximum. Upon retirement, payment is made for one-fourth of the total sick leave accumulation, up to a maximum accumulation of 250 days for certified staff and a maximum accumulation of 205 days for classified employees.

Special Termination Benefits

Per negotiated agreement, the School District offers a retirement notification incentive payment for eligible certified employees. An employee is eligible if the employee retires from the State Teachers Retirement System with 30 or more years of service. The incentive is \$5,000 per employee for up to 12 employees, if the Superintendent is notified, in writing, by April 30 of the retirement year. If notification is given to the Superintendent by February 28 of the retirement year, an additional bonus of \$3,000 will be paid. The incentive payment is made in one lump sum within sixty days of the following calendar year. There was a liability of \$120,000 as of June 30, 2015, for this plan.

Life Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees from Anthem Life Insurance through the Suburban Health Insurance Consortium.

Note 13 – Jointly Governed Organizations

Lake Geauga Computer Association

The Lake Geauga Computer Association (LGCA) is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS and other applications among its nineteen member school districts. Each of the school districts supports LGCA based on a per pupil charge. LGCA's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. The executive committee (governing board) consists of the superintendents and treasurers of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the governing board. LGCA's continued existence is not dependent on the School District's continued participation. LGCA is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit or burden on the School District. In fiscal year 2015, the School District paid \$51,974 to LGCA. Financial information can be obtained from Loretta Peterson, the Treasurer of the Lake Geauga Computer Association, 8140 Auburn Road, Painesville, Ohio 44077.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Ohio Schools' Council

The Ohio Schools Council (Council) is a jointly governed organization among 196 school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Council's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly September to June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2015, the School District paid \$263,523 to the Council. Financial information can be obtained by contacting Dr. William Zelei, the Executive Director of the Ohio Schools Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

The School District participates in the natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Compass Energy was selected as the new supplier and program manager for the period from October 1, 2010, through March 31, 2013. There are currently 143 participants in the program including the Warrensville Heights City School District. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

Note 14 – Shared Risk Pool

The Suburban Health Consortium ("the Consortium") is a shared health risk pool created on October 1, 2001, formed by the Boards of Education of several school districts in northeast Ohio, for the purposes of maximizing benefits and/or reducing costs of group health, life, dental and/or other insurance coverage for their employees and the eligible dependents and designated beneficiaries of such employees. The Consortium was formed and operates as a legally separate entity under Ohio Revised Code Section 9.833. The Board of Directors is the governing body of the Consortium. The Board of Education of each Consortium Member appoints its Superintendent or such Superintendent's designee to be its representative on the Board of Directors. The officers of the Board of Directors consist of a Chairman, Vice-Chairman and Recording Secretary, who are elected at the annual meeting of Board of Directors and serve until the next annual meeting. All of the authority of the Consortium is exercised by or under the direction of the Board of Directors. The Board of Directors also set all premiums and other amounts to be paid by the Consortium Members, and the Board of Directors have the authority to waive premiums and other payments. All members of the Board of Directors serve without compensation.

The Fiscal Agent shall be the Board of Education responsible for administering the financial transactions of the Consortium (Orange City School District). The Fiscal Agent shall carry out the responsibilities of the Consortium Fund, enter into contracts on behalf of the Consortium as authorized by the Directors and carry out such other responsibilities as approved by the Directors and agreed to by the Fiscal Agent. Each District Member enrolled in a benefit program may require contributions from its employees toward the cost of any

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

benefit program being offered by such District Member, and such contributions shall be included in the payments from such District Member to the Fiscal Agent for such benefit program. Contributions are to be submitted by each District Member, to the Fiscal Agent, required under the terms of the Consortium Agreement and any benefit program in which such District Member is enrolled to the Fiscal Agent on a monthly basis, or as otherwise required in accordance with any benefit program in which such District Member is enrolled. All general administrative costs incurred by the Consortium that are not covered by the premium payments shall be shared equally by the Consortium Members as approved by the Directors, and shall be paid by each Consortium Member upon receipt of notice from the Fiscal Agent that such payment is due. It is the express intention of the Consortium Members that the Consortium Agreement and the Consortium shall continue for an indefinite term, but may be terminated as provided in the Consortium Agreement.

Any Consortium Member wishing to withdraw from participation in the Consortium or any benefit program shall notify the Fiscal Agent at least one hundred eighty (180) days prior to the effective date of withdrawal. Upon withdrawal of a Consortium Member, the Consortium shall pay the run out of all claims for such Consortium Member provided such Consortium Member has paid to the Consortium, prior to the effective date of withdrawal a withdrawal fee in the amount equal to two months' premiums at the Consortium Member's current rate. Payment of the withdrawal fee does not extend insurance coverage for two months. Upon automatic withdrawal, for non-payment of premiums required by the Consortium Agreement, the Consortium shall pay the run out of all claims for such Consortium Member provided that the Consortium has received from such Consortium Member all outstanding and unpaid premiums and other amounts and the withdrawal fee equal to two months' premiums at the Consortium Member's current rates. Any Consortium Member which withdraws from the Consortium pursuant to the Consortium Agreement shall have no claim to the Consortium's assets. Financial information for the Consortium can be obtained from the Treasurer of the Orange City School District (the Fiscal Agent) at 32000 Chagrin Boulevard, Pepper Pike, Ohio 44124.

Note 15 – Contingencies

Grants

The School District received financial assistance from Federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2015, if applicable, cannot be determined at this time.

School Foundation

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the school district, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015, Foundation funding for the School District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or a liability of the School District.

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Litigation

The Warrensville Heights City School District is currently a party to legal proceedings seeking damages or injunctive relief generally incidental to its operations and pending projects. The School District management is of the opinion that ultimate disposition of these claims and legal proceedings will not have a material effect, if any, on the financial condition of the School District.

Note 16 – Long-Term Obligations

The changes in the School District’s long-term obligations during fiscal year 2015 were as follows:

	Balance 6/30/2014	Additions	Deletions	Balance 6/30/2015	Amount Due in One Year
Governmental Activities					
2000 School Improvements Bonds, 4.44%	\$1,150,023	\$0	(\$1,150,023)	\$0	\$0
2007 School Improvement Refunding Bonds:					
Serial Bonds 4% - 4.25%	14,035,000	0	(14,035,000)	0	0
Capital Appreciation Bonds, 28.97%	254,977	0	0	254,977	144,419
Accretion on Capital Appreciation Bonds	1,302,950	483,934	0	1,786,884	1,335,581
Premium on Bonds	863,033	0	(698,647)	164,386	0
2015 School Improvement Refunding Bonds, 2.5%	0	13,790,000	0	13,790,000	40,000
Total General Obligation Bonds	17,605,983	14,273,934	(15,883,670)	15,996,247	1,520,000
Net Pension Liability					
SERS	8,994,055	0	(1,339,631)	7,654,424	0
STRS	30,468,719	0	(4,890,406)	25,578,313	0
Total Net Pension Liability	39,462,774	0	(6,230,037)	33,232,737	0
Compensated Absences	1,307,077	166,308	(415,678)	1,057,707	415,678
Retirement Incentive	32,000	120,000	(32,000)	120,000	120,000
<i>Total Governmental Activities</i>	<u>\$58,407,834</u>	<u>\$14,560,242</u>	<u>(\$22,561,385)</u>	<u>\$50,406,691</u>	<u>\$2,055,678</u>

On June 2, 2000, the School District issued \$26,100,000 in general obligation bonds for the purpose of school improvement under the authority of Ohio Revised Code, section 133.34(D). The bonds matured during fiscal year 2015 and bore an interest rate of 4.44 percent per year. The bonds were retired from the debt service fund.

On April 27, 2007, the School District issued \$15,999,977 in school improvement refunding bonds which included serial and capital appreciation bonds in the amount of \$15,745,000 and \$254,977, respectively. The bonds were issued for the purpose of refunding a portion of the 2000 school improvement bonds to take advantage of lower interest rates. The bonds were issued for an eighteen year period with final maturity at December 1, 2024. In fiscal year 2015, the remaining serial bonds from this debt issue were refunded. The bonds will be retired from the debt service fund.

The capital appreciation bonds remained outstanding at June 30, 2015. The capital appreciation bonds will mature in fiscal years 2016 and 2017. The maturity amount of the bonds is \$2,965,000. For fiscal year 2015, \$483,934 was accreted for a total bond value of \$2,041,861.

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

On March 12, 2015, the School District issued general obligation bonds, in the amount of \$13,790,000, to currently refund a portion of the 2007 school improvement refunding bonds in order to take advantage of lower interest rates. The bonds were issued with an interest rate of 2.5 percent. The bonds were issued for a ten year period with a final maturity at December 1, 2024. The bonds will be retired from the debt service fund.

2007 School Improvement Refunding Bonds:

Serial Bonds Outstanding at June 30, 2014	\$14,035,000
Amount Refunded	(13,790,000)
Principal Payment on Non-Refunded Portion	<u>(245,000)</u>
Serial Bonds Outstanding at June 30, 2015	<u><u>\$0</u></u>

The net proceeds of \$13,674,622 (after payments of \$115,378 in issuance costs) and the bond retirement fund contribution of \$404,333 were used to currently refund the outstanding 2007 school improvement refunding serial bonds in the amount of \$13,790,000. As a result, these bonds are considered defeased and the liability for the refunded bonds have been removed from the School District's financial statements.

2007 School Improvement Refunding Bonds:

Serial Bonds	\$13,790,000
Premium on Serial Bonds	616,454
Deferred Charge on Refunding (Serial Bonds)	<u>(495,958)</u>
Total 2007 School Improvement Refunding Bonds	13,910,496
Payment to Refunded Bond Escrow Agent - Debt Service	(404,333)
Payment to Refunded Bond Escrow Agent - Other Financing Use	<u>(13,674,622)</u>
2015 School Improvement Refunding Accounting Loss	<u><u>(\$168,459)</u></u>

Although the refunding will result in the recognition of an accounting loss of \$168,459, the School District in effect decreased its aggregate debt service payments for governmental activities by \$1,738,079 over the next ten years and obtained an economic gain (difference between the present values of the old and new debt service payments) of \$1,137,226.

The School District pays obligations related to employee compensation from the fund benefitting from their service. Compensated absences will be paid from the general fund and the food service, recreation, other grants, public preschool, Title VI-B, Title I, and class size reduction special revenue funds. The retirement incentive will be paid from the general fund.

The overall debt margin of the School District as of June 30, 2015, was \$25,449,302 with an unvoted debt margin of \$394,458 at June 30, 2015. Principal and interest requirements for school improvement bonds outstanding at June 30, 2015, are as follows:

Fiscal Year	General Obligation Bonds			
	Serial		Capital Appreciation	
	Principal	Interest	Principal	Interest
2016	\$40,000	\$344,250	\$144,419	\$1,335,581
2017	75,000	342,813	110,558	1,374,442
2018	1,560,000	322,375	0	0
2019	1,600,000	282,875	0	0
2020	1,635,000	242,438	0	0
2021-2025	8,880,000	565,374	0	0
Total	\$13,790,000	\$2,100,125	\$254,977	\$2,710,023

Warrensville Heights City School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

In fiscal year 2007, the School District defeased \$15,999,977 of a 2000 school improvement bond issue, in order to take advantage of lower interest rates. The proceeds of the new bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the School District’s financial statements. On June 30, 2015, \$15,999,977 of the defeased bonds is still outstanding.

Note 17 – Interfund Transactions

Balances

<u>Interfund Payable</u>	<u>Interfund Receivable</u>
	<u>General</u>
<i>Other Governmental Funds:</i>	
Title I	\$808,000
Food Service	350,000
Title VI-B	342,000
Miscellaneous Federal Grants	309,000
Improving Teacher Quality	98,000
Public Preschool	86,000
Other Grants	60,000
Preschool Grant	9,000
Vocational Education Enhancement	5,000
Total	<u>\$2,067,000</u>

The interfund receivable and payables between the general fund and the other governmental funds are due to the timing of the receipt of grant monies received by the various funds and due to moving unrestricted balances to support programs accounted for in other funds. The general fund provides temporary funding of the program until the grant dollars are received.

Transfers

During fiscal year 2015, the School District made a transfer from the general fund to the athletics and music fund in the amount of \$250,000 to move unrestricted balances to support programs and projects accounted for in this fund.

Note 18 – Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

General	\$1,979,617
Other Governmental Funds	<u>454,348</u>
Total	<u>\$2,433,965</u>

Warrensville Heights City School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2015

Note 19 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Bond Retirement	Other Governmental Funds	Total
<i>Restricted for:</i>				
Special Education	\$1,140	\$0	\$707	\$1,847
Continuous Improvement Programs	3,315	0	0	3,315
Poverty Aid Assistance	1,242	0	0	1,242
Professional Development	2,970	0	0	2,970

Warrensville Heights City School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Note 20 – Set-Aside Calculation

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years.

The following cash basis information describes the change in the fiscal year end set-aside amounts for capital acquisitions. Disclosure of this information is required by State statute.

	<u>Capital Improvements</u>
Set-aside Balance as of June 30, 2014	\$0
Add: Current Year Set-aside Requirement	243,839
Permanent Improvement Levy Offset During the Fiscal Year	(582,536)
Qualifying Disbursements	<u>(1,517,385)</u>
Total	<u>(\$1,856,082)</u>
Set-aside Balance Carried Forward to Future Fiscal Years	<u>\$0</u>
Set-aside Balance as of June 30, 2015	<u>\$0</u>

Although the School District had qualifying disbursements during the fiscal year that reduced the set-aside amount to below zero for the capital acquisition set-aside, this amount may not be used to reduce the set-aside requirement for future years. This negative balance is therefore not presented as being carried forward to future years.

Note 21 – Change in Accounting Principle and Restatement of Net Position

For fiscal year 2015, the School District implemented the Governmental Accounting Standards Board (GASB) Statement No. 68, “Accounting and Financial Reporting for Pensions” and GASB Statement No. 71, “Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68.” GASB 68 established standards for measuring and recognizing pension liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported June 30, 2014:

Net Position June 30, 2014	\$25,342,735
Adjustments:	
Net Pension Liability	(39,462,774)
Deferred Outflow - Payments Subsequent to Measurement Date	<u>2,003,443</u>
Restated Net Position June 30, 2014	<u>(\$12,116,596)</u>

Other than employer contributions subsequent to the measurement date, the School District made no restatement for deferred inflows/outflows of resources, because the information needed to generate these restatements was not available.

**WARRENSVILLE HEIGHTS CITY SCHOOL DISTRICT
CUYAHOGA COUNTY**

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FISCAL YEAR ENDED JUNE 30, 2015**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the Warrensville Heights City School District's (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Warrensville Heights City School District
Cuyahoga County
4500 Warrensville Center Road
Warrensville Heights, Ohio 44128

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Warrensville Heights City School District, Cuyahoga County, (the District) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 16, 2016, wherein we noted the District adopted the provisions of Governmental Accounting Standard No. 68, *Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Warrensville Heights City School District
Cuyahoga County
4500 Warrensville Center Road
Warrensville Heights, Ohio 44128

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Warrensville Heights City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Warrensville Heights City School District's major federal programs for the year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the Warrensville Heights City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.
