INDEPENDENT AUDITOR'S REPORT

Southington Local School District
Trumbull County
2482 St. Rt. 534
Southington, Ohio 44470

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Southington Local School District, Trumbull County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Southington Local School District, Trumbull County, Ohio, as of June 30, 2016, and the respective changes in financial position thereof and the budgetary comparison for the General fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 18, 2017, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Southington Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

The discussion and analysis of Southington Local School District's (the School District) financial performance is presented by the School District's management and provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2016 include:

- The School District is committed to meeting the academic needs of our students by providing them with updated equipment and facilities to compete in a global environment
- On September 9, 2015, the School District refunded a portion of the 2008 general obligation classroom facilities improvement bonds to take advantage of lower interest rates.
- The School District's enrollment decreased from 559 students in fiscal year 2015 to 535 students in fiscal year 2016. Certified staff remained the same in fiscal year 2016.
- The School District had additions to capital assets that consisted of athletic upgrades, equipment and a radio system in fiscal year 2016.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes pertaining to those statements. These statements are organized so the reader can understand the Southington Local School District as a financial whole, or complete operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate and longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements explain how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of the Southington Local School District, the general fund, the bond retirement debt service fund and the permanent improvement capital projects fund are the most significant funds.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

This analysis of the School District encompasses all of the School District's funds used to provide programs and activities and presents them as a whole. This view of the School District as a whole looks at all financial transactions and answers the questions, "What were the fiscal changes throughout the year?" and "What was the net effect of those changes?" The Statement of Net Position and the Statement of Activities provide the basis for answering these questions. The statements include *all assets and deferred outflows of resources and liabilities and deferred inflows of resources* using the *accrual basis of accounting* similar to the

Southington Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

accounting used by most private-sector companies. This basis of accounting recognizes all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's *net position* and any changes in this position. The change in net position is important because it tells the reader that, for the School District as a whole, the *financial position* of the School District has improved or diminished. The causes of this change may be the result of many factors, some strictly within the scope of the School District, some not. External factors include the School District's property tax base, community demographics, current property tax laws in Ohio restricting revenue growth, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District's activities are classified as governmental. All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities and food services.

Reporting the School District's Most Significant Funds

The analysis of the School District's major funds begins with the balance sheet. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, the fund financial statements focus on the School District's most significant funds.

Governmental Funds – The School District's activities are reported as governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* are reconciled in the financial statements of the *Governmental Funds*.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs. These funds use the accrual basis of accounting.

The School District as a Whole

You may recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a comparison of the School District's Net Position for fiscal year 2016 compared to fiscal year 2015:

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

The net pension liability (NPL) reported by the School District at June 30, 2016 is pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 requires the net pension liability to equal the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

Southington Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

In accordance with GASB 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows.

The School District had a decrease in total assets due to a decrease in capital assets. The decrease in capital assets is from current year depreciation outpacing total additions in this fiscal year. Total liabilities increased due to the change in net pension liability along with the issuance of 2015 classroom facilities and school improvement refunding bonds. Deferred inflows of resources decreased due to the change in the net pension liability.

As one can see from the overall ending net position, the School District continues to provide the services that the School District citizens expect while maintaining the costs of providing those services during the current economic recession.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for the current fiscal year. Table 2 shows total revenues, expenses and changes in net position for the fiscal years 2016 and 2015.

Governmental Activities

Governmental Activities

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. It increases as a result of new construction or collection from a new voted levy. Although school districts experience inflationary growth in expenses, tax revenue does not keep pace with the increased expenses due to House Bill 920. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay less than \$35.00 and the School District would collect the same dollar value the levy generated in the year it passed. The 10 percent rollback on all residential/agricultural property and the 2.5 percent rollback on all owner occupied homes would reduce the amount of taxes paid.

Thus school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Even with the current economic conditions the School District has been able to maintain their property tax revenue.

The vast majority of revenue supporting all activities is general revenue. The most significant portion of the general revenue is the grants and entitlements not restricted to specific programs. Southington Local School District proactively seeks out Federal and State funding sources in the forms of grants to ensure that programs of the School District are properly funded.

Southington Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

(Table 3)
Total and Net Cost of Program Services
Governmental Activities

	2016		2015	
	Total Cost of Services	Net Cost of Services	Total Cost of Services	Net Cost of Services
Instruction	\$4,235,693	\$3,148,097	\$4,378,065	\$3,313,805
Support Services:				
Pupil and Instructional Staff	358,811	353,411	321,315	315,915
Board of Education, Administration, Fiscal Services, Business and Central	859,699	848,847	762,558	762,558
Operation and Maintenance of Plant	694,910	666,944	536,133	507,238
Pupil Transportation	288,054	288,054	345,937	345,937
Food Service Operations	212,738	(10,197)	197,192	(20,405)
Extracurricular Activities	275,135	195,729	247,448	171,940
Interest and Fiscal Charges	63,216	63,216	300,193	300,193
<i>Total Expenses</i>	<u>\$6,988,256</u>	<u>\$5,554,101</u>	<u>\$7,088,841</u>	<u>\$5,697,181</u>

The dependence upon general revenues for governmental activities is apparent as they account for a majority of the total cost of services in fiscal year 2016. The community, as a whole, is by far the primary support for Southington Local School District students.

The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$6,998,909 and expenditures of \$6,566,144. The general fund had an increase in fund balance which can be attributed to revenues outpacing expenditures. The bond retirement fund had an increase in fund balance which can be attributed to the issuance of the 2015 classroom facilities improvement refunding bonds. The permanent improvement fund had a decrease in fund balance which can be attributed to a lack of funding from the general fund.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant fund to be budgeted is the main operating fund of the School District, the general fund.

During the course of fiscal year 2016, the School District amended its general fund budget several times. The School District uses an operational unit budget process and has in place systems that are designed to tightly control expenditures but provide flexibility for program based decision and management.

Southington Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

Actual revenues were slightly lower than the final certificate as the School District received less property taxes revenues than what was anticipated. Final budgeted revenues were greater than original budgeted revenues due to an increase in expected intergovernmental monies. Actual expenditures were lower than final appropriations due mainly to the diligence of management to keep costs low while still providing the services the School District citizens expect.

Capital Assets and Debt Administration

Capital Assets

Table 4 shows fiscal year 2016 balances compared to fiscal year 2015.

(Table 4)
Capital Assets at June 30
(Net of Depreciation)

	Governmental Activities		
	2016	2015	Change
Land	\$224,230	\$224,230	\$0
Land and Improvements	2,368,441	2,515,307	(146,866)
Buildings and Improvements	14,108,969	14,642,426	(533,457)
Furniture and Equipment	1,792,826	1,928,949	(136,123)
Vehicles	247,272	297,641	(50,369)
Totals	\$18,741,738	\$19,608,553	(\$866,815)

All capital assets, except land, are reported net of depreciation. The net decrease in capital assets during the fiscal year resulted from annual depreciation, offset by additions of assets which included athletic upgrades, equipment and a radio system. Ohio law requires school districts to set aside three percent of certain revenues for capital improvements. For fiscal year 2016, this amounted to \$95,570. See Note 10 to the basic financial statements for additional information on the School District's capital assets and Note 18 for additional information regarding required set-asides.

Debt

At June 30, 2016, the School District had general obligation bonds outstanding in the amount of \$7,463,960. These bonds were issued for the School District portion of the Ohio School Facilities Commission project. During fiscal year 2016, the School District refunded a portion of the 2008 classroom facilities improvement bonds to take advantage of lower interest rates. These bonds will be fully repaid in fiscal year 2036. Please see Note 11 of the notes to the basic financial statements for more information about the School District's long-term obligations.

Challenges and Opportunities for the Future

The School District will continue to provide the best education it can to the community's most important asset. It will be a responsible and conservative custodian of the public's monies. With the passage of a four year renewal levy the School District will continue to work within the confines of the budget it has set forth.

Southington Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

The largest project concluding for the School District was the construction of a new school building which houses all grades and the demolition of the old school building. 70 percent of the funding for this project was provided by the Ohio School Facilities Commission. The local share of the project, 30 percent of the funding for the building, was provided by a bond issue which was passed by the voters in February, 2007. The voters also passed an additional 1.5 mill levy for maintenance of the new building as well as a Locally Funded Initiative bond issue in the amount of \$1,552,260 for construction and improvement of facilities other than classrooms, such as an athletic complex and water treatment facilities.

The Southington Local School District has committed itself to financial reporting excellence. Southington continues its commitment to continuous improvement in financial reporting to our community.

Contacting the School District's Financial Management

This financial report is designed to provide our students, citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the public dollars entrusted to us. If you have questions about this report or need additional financial information, contact Janet Ward, Treasurer at Southington Local School District, 2482 State Route 534, Southington, Ohio 44470, or janet.ward@neomin.org.

Southington Local School District
Reconciliation of Total Governmental Fund Balances to
Net Position of Governmental Activities
June 30, 2016

Total Governmental Fund Balances	\$3,404,408
 <i>Amounts reported for governmental activities in the statement of net position are different because</i>	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	18,741,738
Other long-term assets are not available to pay for current-period expenditures and therefore are unavailable revenue in the funds:	
Delinquent Property Taxes	247,251
Grants	62,490
Tuition and Fees	3,533
Total	313,274
In the statement of activities, interest is accrued on outstanding general obligation bonds, whereas in governmental funds, an interest expenditure is reported when due.	(40,271)
The net pension liability is not due and payable in the current period; therefore, the liability and related inflows/outflows are not reported in governmental funds:	
Deferred Outflows - Pension	657,230
Deferred Inflows - Pension	(482,698)
Net Pension Liability	(6,813,062)
Total	(6,638,530)
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds:	
General Obligation Bonds	(6,596,881)
Bond Premium	(867,079)
Deferred Charge on Refunding	714,751
Compensated Absences	(197,517)
Total	(6,946,726)
<i>Net Position of Governmental Activities</i>	\$8,833,893

See accompanying notes to the basic financial statements

Southington Local School District
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2016*

Net Change in Fund Balances - Total Governmental Funds \$570,857

*Amounts reported for governmental activities in the
statement of activities are different because*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount by which depreciation exceeded capital outlay in the current period:

Capital Outlay Additions	24,173	
Current Year Depreciation	<u>(890,988)</u>	
Total		(866,815)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Delinquent Property Taxes	8,917	
Grants	17,271	
Tuition and Fees	<u>3,533</u>	
Total		29,721

Repayment of long-term obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 7,025,291

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as an expenditure in governmental funds:

Accrued Interest on Bonds	(14,883)	
Amortization of Accretion	(26,881)	
Amortization of Bond Premium	162,377	
Amortization of Deferred Charge on Refunding	<u>(30,540)</u>	
Total		90,073

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows. 366,207

Except for the amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities. (322,627)

Some expenses reported in the statement of activities, compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. (3,950)

Other financing sources, such as the classroom facilities and school improvement refunding bonds in the governmental funds, increase long-term liabilities in the statement of net position.

Refunding Bonds Issued	(5,965,000)	
Bond Premium	<u>(881,783)</u>	
Total		<u>(6,846,783)</u>

Change in Net Position of Governmental Activities \$41,974

See accompanying notes to the basic financial statements

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Note 1 - Description of the School District and Reporting Entity

Southington Local School District (the School District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as mandated by State and federal agencies. The Board of Education controls the School District's one instructional/support facility staffed by 25 classified employees, 40 certified employees and 3 administrative employees who provide services to 535 students and other community members.

Reporting Entity

A reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes the agencies and departments that provide the following services: general operations, food service and student related activities of the School District.

Non-public Schools - Within the School District boundaries, there are various non-public schools. Current State legislature provides funding to these non-public schools. These monies are received and disbursed on behalf of the non-public school by the Treasurer of the School District, as directed by the non-public school. These transactions are reported in a special revenue fund and as a governmental activity of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; (2) the School District is entitled to or can otherwise access the organization's resources; or (3) the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The School District has no component units.

The School District participates in three jointly governed organizations, one insurance purchasing pool and one risk sharing pool. These organizations are the North East Ohio Management Information Network, Trumbull Career and Technical Center, State Support Team Region 5, the Ohio School Boards Association Workers' Compensation Group Rating Program and the Schools of Ohio Risk Sharing Authority. These organizations are presented in Notes 16 and 17 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type. The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. All of the School District's funds are classified as either governmental or fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

General Fund The general fund is the operating fund of the School District and is used to account and report for all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Bond Retirement Fund The bond retirement fund accounts for and reports property tax revenues that are restricted for the payment of principal and interest and fiscal charges on general obligation debt.

Permanent Improvement Capital Projects Fund The permanent improvement capital projects fund accounts for and reports restricted revenues used for the acquisition or construction of major capital facilities.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency funds account for student activities.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (e.g., revenues and other financing sources) and uses (e.g., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for the fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows/outflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 7). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants and student fees.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for pension. The deferred outflows of resources related to pension are explained in Note 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balance to Net Position of Governmental Activities found on page 19. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 12)

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During fiscal year 2016, investments were limited to nonnegotiable certificates of deposit which are reported at cost.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2016 amounted to \$4,835, which includes \$228 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

Restricted Assets

Assets are reported as restricted when limitations on their use change in nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws of other governments or imposed by law through constitutional provision. Restricted assets in the general fund include unspent resources set-aside for unclaimed monies.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the statement of net position.

Capital Assets

The School District's only capital assets are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by backtrending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year.) Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of two thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Description	Governmental Activities Estimated Lives
Land and Improvements	10 - 25 years
Buildings and Improvements	30 - 50 years
Furniture	20 years
Fixtures	15 years
Equipment	10 - 20 years
Vehicles	10 years

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. An accrual for earned sick leave is made based on the sick leave accumulated at year-end by those employees who currently are eligible to receive termination payments, as well as other employees who are expected to become eligible in the future to receive such payments. All employees with ten or more years of service were included in the calculation of the compensated absences accrual amount.

The entire compensated absence liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employee who has accumulated unpaid leave is paid.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences and net pension liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Internal Activity

Transfers between governmental funds are eliminated on the government-wide financial statements. Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for food service operations, instruction, support services and extracurricular activities.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance includes the remaining amount that is not restricted or committed. These assigned balances are established by the School District Board of Education. In the general fund, assigned amounts represent intended uses established by the School District Board of

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Education, delegated that authority by State statute. State statute authorizes the Treasurer to assign fund balance purchases on order provided such amounts have been lawfully appropriated. The Board of Education assigned fund balance for instruction and extracurricular activities and to cover a gap between estimated revenue and appropriations in the fiscal year 2017 budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Bond Premiums

On the government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the straight-line method. Bond premiums are presented as an increase of the face amount of the general obligation bonds payable. On fund financial statements, bonds premiums are reported in the year the bonds are issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education. The Treasurer is authorized to further allocate appropriations at the function and object levels.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate that were in effect at the time the original and final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Note 3 – Fund Balances

Fund balance is classified as restricted, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Bond Retirement	Permanent Improvement	Other Governmental Funds	Total
<i>Nonspendable</i>					
Unclaimed Monies	\$385	\$0	\$0	\$0	\$385
<i>Restricted for</i>					
Food Service Operations	0	0	0	169,120	169,120
Scholarships and Awards	0	0	0	40,618	40,618
Athletics	0	0	0	42,595	42,595
Classroom Facilities Maintenance	0	0	0	356,109	356,109
Debt Service Payments	0	595,103	0	0	595,103
Capital Improvements	0	0	667,310	72,688	739,998
<i>Total Restricted</i>	0	595,103	667,310	681,130	1,943,543
<i>Committed to</i>					
NEOMIN	2,970	0	0	0	2,970
Future Severance Payments	4,119	0	0	0	4,119
<i>Total Committed</i>	7,089	0	0	0	7,089
<i>Assigned to</i>					
Instruction and Extracurricular	12,950	0	0	0	12,950
Fiscal Year 2017 Operations	118,096	0	0	0	118,096
Purchases on Order:					
Purchases/Contractual Services	139,943	0	0	0	139,943
<i>Total Assigned</i>	270,989	0	0	0	270,989
<i>Unassigned (Deficit)</i>	1,206,879	0	0	(24,477)	1,182,402
<i>Total Fund Balances</i>	\$1,485,342	\$595,103	\$667,310	\$656,653	\$3,404,408

Note 4 – Accountability

At June 30, 2016, the title VI-B, title I, title II-A, and the miscellaneous federal grants special revenue funds had deficit fund balances of \$7,398, \$6,098, \$1,564 and \$9,417, respectively.

The deficits were caused by the recognition of expenditures on a modified accrual basis of accounting which are substantially greater than the expenditures recognized on a cash basis. The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Note 5 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as restricted, committed or assigned fund balance (GAAP).
4. Advances-In and Advances-Out are operating transaction (budget) as opposed to balance sheet transactions (GAAP).
5. Budgetary revenues and expenditures of the uniform school supply fund and public school support fund are classified to the general fund for GAAP reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

	General
GAAP Basis	\$738,556
Net Adjustment for Revenue Accruals	88,367
Advances In	7,382
Net Adjustment for Expenditure Accruals	(112,057)
Advances Out	(30,143)
Perspective Difference:	
Uniform School Supply	5,362
Public School Support	3,303
Encumbrances	(187,788)
Budget Basis	\$512,982

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Note 6 - Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active deposits are public deposits determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
7. The State Treasurer's investment pool (STAR Ohio); and
8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Deposits

Custodial Credit Risk Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$3,317,961 of the School District's bank balance of \$3,924,640 was uninsured and uncollateralized. Although the securities were held by the pledging financial institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Note 7 - Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property located in the School District. Real property tax revenues received in calendar year 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property are established by State law at thirty-five percent of appraised market value. Real property are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2015 became a lien December 31, 2014, were levied after April 1, 2015 and are collected in 2016 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Trumbull County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2016 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations are reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The amount available as an advance at June 30, 2016 was \$10,572 in the general fund, \$619 in the classroom facilities special revenue fund and \$3,353 in the bond retirement debt service fund. The amount available as an advance at June 30, 2015, was \$6,206 in the general fund, \$363 in the classroom facilities special revenue fund and \$2,024 in the bond retirement debt service fund.

The assessed values upon which the fiscal year 2016 taxes were collected are:

	2015 Second Half Collections		2016 First Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$63,402,620	96.75 %	\$63,429,410	96.60 %
Public Utility Personal	2,129,040	3.25	2,232,260	3.40
Total	\$65,531,660	100.00 %	\$65,661,670	100.00 %
Full Tax rate per \$1,000 of assessed valuation	\$51.05		\$50.55	

Note 8 - Receivables

Receivables at June 30, 2016, consisted of taxes and intergovernmental grants. All receivables are considered collectible in full due to the stable condition of State programs and the current year guarantee of Federal funds. All receivables, except delinquent taxes are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year. A summary of principal items of intergovernmental receivables follows:

Intergovernmental Receivables	Amounts
Miscellaneous Federal Grants	\$52,450
Title VI-B Grant	30,362
Title I Grant	21,874
Foundation Adjustment	10,202
Federal Breakfast Subsidy	5,334
Title II-A Grant	4,123
Medicaid	2,307
Total	\$126,652

Note 9 – Contingencies

Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2016, if applicable, cannot be determined at this time.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

School Foundation

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for fiscal year 2015, traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the School District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the school district; therefore, the financial statement impact is not determinable at this time. ODE and management believe this may result in either a receivable to or a liability of the School District.

Litigation

The School District is not a party to any material legal proceedings.

Lease

The Board of Education has entered into a “Paid-Up” Oil and Gas Lease effective April 1, 2012 and continuing through April 1, 2017 with BP America Production Company. In consideration of the execution of the leases, the School District received bonuses of \$250,261 during fiscal year 2013. The School District has a total of 64.1696 acres subject to the lease provisions which call for payments to the lessor, in addition to the bonus, royalties, less all taxes, assessments, and adjustments on production from the leasehold in the amount of 17.50 percent for oil or gas. As of the date of the financial statements, the value of any potential royalties cannot be determined, and the School District has not received any financial compensation beyond the bonus.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Note 10 – Capital Assets

Capital asset activity for the fiscal year ended June 30, 2016, was as follows:

	Balance June 30, 2015	Additions	Deletions	Balance June 30, 2016
Nondepreciable Capital Assets				
Land	\$224,230	\$0	\$0	\$224,230
Depreciable Capital Assets				
Land and Improvements	3,039,086	3,237	0	3,042,323
Buildings and Improvements	16,692,336	0	0	16,692,336
Furniture, Fixtures and Equipment	2,650,025	20,936	(3,579)	2,667,382
Vehicles	656,339	0	(51,944)	604,395

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Compensated absences will be paid from the general fund and the food service, Ohio schools facility maintenance and the title I special revenue funds. The School District pays obligations related to employee compensation from the fund benefitting from their service. See note 12 for additional information related to the net pension liability.

On February 20, 2008, Southington Local School District issued \$8,000,000 in general obligation bonds, which included serial and term bonds to fund capital improvements to the School District's buildings. The bonds were issued for a twenty-eight year period with final maturity on December 1, 2035. The bonds were issued at a premium of \$200,073 and will be repaid with property taxes in the bond retirement fund. During fiscal year 2016, a portion of the bonds were retired by the School District through an advance refunding. After the advance refunding, the original general obligation bonds have a final maturity of December 1, 2018.

On September 9, 2015, the School District issued \$5,965,000 in general obligation bonds to refund a portion of the 2008 general obligation classroom facilities bonds. The general obligation bonds included serial and capital appreciation (deep discount) bonds in the amounts \$5,880,000 and \$85,000, respectively. The bonds were issued for a twenty year period with a final maturity at December 1, 2035.

The capital appreciation bonds were originally sold at a discount of \$860,000. The accretion recorded for fiscal year 2016 was \$26,881, for a total outstanding bond liability of \$111,881 at June 30, 2016.

The refunding bonds were sold at a premium of \$881,783. Net proceeds of \$6,710,291 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded portion of the various bonds. As a result, \$5,965,000 of these bonds is considered defeased and the liability for the refunded portion of these bonds has been removed from the School District's financial statements.

The School District decreased its total debt service payments by \$334,267 as a result of the advance refunding. The School District also incurred an economic gain (difference between the present value of the old and new debt service payments) of \$261,224.

An analysis of the refunding issue follows:

	2008 Classroom Facilities Bonds
Outstanding at June 30, 2015	\$7,032,673
Amortization of Premium on Refunded Portion	(119,091)
Amount Refunded	(5,965,000)
Non-Refunded Portion	948,582
Amortization of Premium on Non-Refunded Portion	(7,146)
Principal Payment on Non-Refunded Portion	(220,000)
Outstanding Principal at June 30, 2016	\$721,436

The School District's overall debt margin was zero with an unvoted debt margin of \$65,662 at June 30, 2016. The School District has been designated as an "approved special needs school district" by the Ohio Superintendent of Public Instruction. As a result, any portion of the otherwise non-exempt debt authorized by the School District's voters in excess of the 9 percent limitation is exempted from the limitation pursuant to Revised Code Section 133.06(D)(2). Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2016 are as follows:

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

	Serial Bonds		Capital Appreciation Bonds	
	Principal	Interest	Principal	Accretion

Note 12 - Defined Benefit Pension Plans

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District’s obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. No allocation was made to the Health Care Fund.

The School District’s contractually required contribution to SERS was \$89,816 for fiscal year 2016. Of this amount \$3,735 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS’ fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five year of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 11 percent of the 12 percent member rate goes to the DC Plan and 1 percent goes to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. Effective July 1, 2016, the statutory maximum employee contribution rate was increased one percent to 14 percent. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$276,391 for fiscal year 2016. Of this amount \$39,686 is reported as an intergovernmental payable.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the Net Pension Liability Prior Measurement Date	0.02178700%	0.02024431%	
Proportion of the Net Pension Liability Current Measurement Date	<u>0.02090290%</u>	<u>0.02033617%</u>	
Change in Proportionate Share	<u>-0.00088410%</u>	<u>0.00009186%</u>	
Proportionate Share of the Net Pension Liability	\$1,192,741	\$5,620,321	\$6,813,062
Pension Expense	\$63,153	\$259,474	\$322,627

At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$19,206	\$256,215	\$275,421
Changes in proportionate Share and difference between School District contributions and proportionate share of contributions	0	15,602	15,602
School District contributions subsequent to the measurement date	<u>89,816</u>	<u>276,391</u>	<u>366,207</u>
Total Deferred Outflows of Resources	<u>\$109,022</u>	<u>\$548,208</u>	<u>\$657,230</u>
Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	\$39,520	\$404,208	\$443,728
Changes in Proportionate Share and Difference between School District contributions and proportionate share of contributions	<u>38,970</u>	<u>0</u>	<u>38,970</u>
Total Deferred Inflows of Resources	<u>\$78,490</u>	<u>\$404,208</u>	<u>\$482,698</u>

\$366,207 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2017	(\$26,802)	(\$87,315)	(\$114,117)
2018	(26,802)	(87,315)	(114,117)
2019	(26,894)	(87,315)	(114,209)
2020	21,214	129,554	150,768
Total	(\$59,284)	(\$132,391)	(\$191,675)

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$1,653,901	\$1,192,741	\$804,404

Changes Between Measurement Date and Report Date

In April 2016, the SERS Board adopted certain assumption changes which impacted their annual actuarial valuation prepared as of June 30, 2016. The most significant change is a reduction in the discount rate from 7.75 percent to 7.5 percent. Although the exact amount of these changes is not known, the impact to the School District's net pension liability is expected to be significant.

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Inflation	2.75 percent
Projected salary increases	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males’ ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

STRS’ investment consultant develops best estimates for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>10 Year Expected Nominal Rate of Return *</u>
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	<u>1.00</u>	3.00
Total	<u><u>100.00 %</u></u>	

* 10 year annualized geometric nominal returns include the real rate of return and inflation of 2.5 percent.

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS’ fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$7,807,052	\$5,620,321	\$3,771,117

Note 13 - Postemployment Benefits

School Employees Retirement System

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, no allocation of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, prorated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the School District's surcharge obligation was \$10,386.

The School District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$4,940, \$4,880, and \$4,835, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

State Teachers Retirement System

Plan Description – The State Teachers Retirement System of Ohio (STRS Ohio) administers a cost-sharing multiple-employer defined benefit Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For the fiscal years ended June 30, 2016 and June 30, 2015, STRS Ohio did not allocate any employer contributions to post-employment health care. For the fiscal year ended June 30, 2014, one percent of covered payroll was allocated to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2016, 2015 and 2014 were \$0, \$0 and \$21,646, respectively. The full amount has been contributed for 2016, 2015 and 2014.

Note 14 - Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers do not earn vacation time.

Each employee earns sick leave at the rate of one and one-fourth days per month. Sick leave shall accumulate during active employment on a continuous year-to-year basis. Maximum sick leave accumulation for certified and classified employees is 312 days.

For all employees, retirement severance is paid to each employee retiring from the School District at a per diem rate of the annual salary at the time of retirement if the employee has been employed by the School District for a minimum of ten consecutive years and has ten years of service with the State retirement system at the time of retirement. Any employee receiving retirement severance pay shall be entitled to a dollar amount equivalent to one-fourth of all accumulated sick leave credited to that employee up to 78 days.

Life Insurance Benefits

The School District provides life insurance and accidental death and dismemberment insurance to most employees through ReliaStar Insurance Company, in the amount of \$50,000 for all regular contracted certified employees and \$30,000 for all regular contracted classified employees.

Health Insurance Benefits

The School District provides employee medical and surgical plans through Medical Mutual of Ohio. Employees may choose between three comprehensive major medical plans for medical/surgical insurance. These plans provide medical/surgical coverage with deductibles ranging from \$100 to \$2,000 for single

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

coverage and \$200 to \$4,000 for family coverage with a maximum of \$1,000 per individual and \$2,000 per family. Prescription drug is provided through Medical Mutual of Ohio and dental is provided through Delta Dental.

Note 15 - Risk Management

Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2015, the School District has addressed these various types of risk by purchasing a comprehensive insurance policy through Schools of Ohio Risk Sharing Authority (Note 17).

Professional liability is maintained in the amount of \$15,000,000 for single occurrence and \$15,000,000 in the aggregate.

The School District maintains fleet insurance in the amount of \$15,000,000 for any one accident or loss. The School District maintains replacement cost insurance on buildings and contents in the amount of \$29,894,944.

Settled claims have not exceeded this commercial coverage in any of the past three years.

Worker's Compensation

For fiscal year 2016, the School District participated in the Ohio School Boards' Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 17). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of CompManagement provides administrative, cost control and actuarial services to the GRP. The Board exercises total control over the operations of the GRP including budgeting, appropriating, contracting and designating management.

Note 16 - Jointly Governed Organizations

North East Ohio Management Information Network (NEOMIN) NEOMIN is a jointly governed organization among thirty school districts in Trumbull and Ashtabula Counties. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the districts supports NEOMIN based upon a per pupil charge. Southington Local School District paid \$16,423 to NEOMIN during fiscal year 2016.

The Governing Board consists of ten members: The Trumbull and Ashtabula County superintendents (permanent members), three superintendents from Ashtabula County participating school districts, three superintendents from Trumbull County participating school districts, and a principal and treasurer (non-voting members who must be employed by a participating school district, the fiscal agent or NEOMIN). The Southington Local School District was not represented on the Governing Board during fiscal year 2016. The

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

degree of control exercised by any participating school district is limited to its representation on the Board. To obtain a copy of NEOMIN's financial statements, write to the Trumbull County Educational Service Center, 6000 Youngstown Warren Road, Niles, Ohio 44446-4603.

Trumbull Career and Technical Center (Center) The Trumbull Career and Technical Center is a distinct political subdivision of the State of Ohio providing vocational needs of the students. The Center is operated under the direction of a Board consisting of one representative from each of the fifteen participating school districts' elected boards, which possesses its own budgeting and taxing authority. The degree of control exercised by any participating school district is limited to its representation on the Board. Southington Local School District did not make any contributions to the Center during fiscal year 2016. To obtain financial information write to the Trumbull Career and Technical Center, Gary Ghizzoni, who serves as Treasurer, at 528 Educational Highway, Warren, Ohio 44483.

State Support Team Region 5 The State Support Team Region 5 is a special education service center which selects its own board, adopts its own budget and receives direct Federal and State grants for its operation. The jointly governed organization was formed for the purpose of initiating, expanding and improving special education programs and services for children with disabilities and their parents.

The State Support Team Region 5 is governed by a governing board of 39 members made up of representatives from 35 superintendents of the participating districts, one non-public school, one county board of mental retardation and two parents whose term rotates every year. The degree of control exercised by any participating school district is limited to its representation on the Board. Southington Local School District did not make any contributions to the State Support Team Region 5 during fiscal year 2016. Financial information can be obtained by contacting the Treasurer at the Mahoning County Educational Service Center, 100 DeBartolo Place, Suite 105, Youngstown, Ohio 44512.

Note 17 – Public Entity Risk Sharing Pools

Insurance Purchasing Pool

The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

Risk Sharing Pool

The School District participates in the Schools of Ohio Risk Sharing Authority (SORSA), a risk sharing insurance pool. The pool consists of 106 school districts, joint vocational schools, and educational service centers throughout Ohio who pool risk for property, crime, liability, boiler and machinery, and public official liability coverage. SORSA is governed by a board of trustees elected by members. The School District pays an annual premium to SORSA for this coverage. Reinsurance is purchased to cover claims exceeding this amount and for all claims related to equipment breakdown coverage.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Note 18 - Set Aside Calculation

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the changes in the fiscal year end set aside amounts for capital acquisitions. Disclosure of this information is required by State statute.

	Capital Improvements
Set-Aside Balance as of June 30, 2015	\$0
Current Year Set-aside Requirement	95,570
Offsets	(468,289)
Qualifying Disbursements	(15,348)
Total	(\$388,067)
Set-aside Balance Carried Forward to Future Fiscal Years	\$0
Set-aside Balance as of June 30, 2016	\$0

Although the School District had qualifying offsets and disbursements during the fiscal year that reduced the capital acquisition set-aside amounts below zero, these amounts may not be used to reduce the set-aside requirements of future years. This balance is therefore not presented as being carried forward to future fiscal years.

Note 19 – Interfund Transfers and Balances

Interfund Transfers

The general fund transferred \$99,528 to the athletics and music special revenue fund to help provide funding for fiscal year 2016.

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Interfund Balances

Interfund balances at June 30, 2016, consist of the following individual fund receivables and payables:

	<u>Interfund Receivable</u>
<u>Interfund Payable</u>	<u>General Fund</u>
Other Governmental Funds	
Athletics and Music	\$1,486
Title VI-B	8,812
Title I	17,409
Title II-A	1,796
Miscellaneous Federal Grants	940
<i>Total</i>	<u><u>\$30,443</u></u>

The interfund receivables and payables with the general fund and other governmental funds were due to the timing of the receipt of grant monies received by the various funds. The general fund provides temporary funding of the program until the grant dollars are received. All interfund receivables will be repaid within one year.

Note 20 – Significant Commitments

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

<i>Major Funds:</i>	
General	\$189,814
Bond Retirement	725
Permanent Improvement	3,249
<i>Other Governmental Funds</i>	<u>57,976</u>
<i>Total</i>	<u><u>\$251,764</u></u>

Note 21 – Change in Accounting Principle

For fiscal year 2016, the School District implemented Governmental Accounting Standards Board (GASB) Statement No. 72, “Fair Value Measurement and Application,” GASB Statement No. 76, “The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments,” GASB Statement No. 79, “Certain External Investment Pools and Pool Participants,” and GASB Statement No. 82, “Pension Issues an Amendment of GASB Statements No. 67, No. 68 and No. 73.”

Southington Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

GASB Statement No. 72 addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes for applying fair value to certain investments and disclosures related to all fair value measurements. These changes were incorporated in the School District's fiscal year 2016 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 76 identifies-in the context of the current governmental financial reporting environment-the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with generally accepted accounting principles (GAAP) and the framework for selecting those principles. The implementation of this GASB pronouncement did not result in any changes to the School District's financial statements.

GASB Statement No. 79 establishes accounting and financial reporting standards for qualifying external investment pools that elect to measure for financial reporting purposes all of their investments at amortized cost. This Statement provides accounting and financial reporting guidance and also establishes additional note disclosure requirements for governments that participate in those pools. The School District does not participate in STAR Ohio which implemented GASB Statement No. 79 for fiscal year 2016. The implementation of GASB Statement No. 79 had no impact on the financial statements for fiscal year 2016.

GASB Statement No. 82 improves consistency in the application of pension accounting. These changes were incorporated in the School District's fiscal year 2016 financial statements; however, there was no effect on beginning net position/fund balance.

Note 22 – Subsequent Event

Maintenance Facility Addition The Board of Education awarded a contract to Kreidler Construction on July 19, 2016 for an approximately 2,000 square foot addition on the southwest corner of the School District's existing school building. The contract amount is \$268,200. Ground was broken on August 8, 2016. This is funded through the permanent improvement and the LFI capital projects funds.

Dave Yost • Auditor of State

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Southington Local School District
Trumbull County
2482 St. Rt. 534
Southington, Ohio 44470

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Southington Local School District, Trumbull County, (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 18, 2017.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings that we consider a significant deficiency. We consider finding 2016-001 to be a significant deficiency.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Entity's Response to Findings

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dave Yost
Auditor of State
Columbus, Ohio

May 18, 2017

**SOUTHINGTON LOCAL SCHOOL DISTRICT
TRUMBULL COUNTY**

**SCHEDULE OF FINDINGS
JUNE 30, 2016**

1. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2016-001

Significant Deficiency

Ohio Administrative Code Section 117-2-01 provides that all public officials are responsible for the design and operation of a system of internal control that is adequate to provide reasonable assurance regarding the achievement of objectives for their respective public offices in certain categories. "Internal control" means a process effected by an entity's governing board, management, and other personnel, designed to provide reasonable assurance regarding the achievement of objectives for reliability of financial reporting.

Original appropriations as approved by the Budget Commission and the Board of Education (July 2015) did not agree to amounts posted to the District's accounting system for three of the five funds tested. Original appropriations were not updated in the accounting system until February of 2016. The following differences were noted until the accounting system was updated in February of 2016:

Fund	Fund Name	Per Appropriations	Per USAS System
001	General Fund	5,500,000	2,586,655
006	Lunchroom	260,000	1,101
572	Title I	147,189	141,323

The failure to properly record budgetary information to the accounting system could result in poor management decision making since the information upon which decisions are made is not accurate or up to date.

To enhance internal accounting control, the District should record budgetary information at amounts approved by the Budget Commission and the Board of Education and implement procedures to help ensure that all budgetary amendments are posted in an accurate and timely manner.

Officials' Response: Appropriations will be posted to USAS as the Board approves them. We will continue to comply.
