WORTHINGTON CITY SCHOOL DISTRICT FRANKLIN COUNTY

NOTES TO THE SCHEDULE OF RECEIPTS AND EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2016

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Receipts and Expenditures of Federal Awards includes the federal award activity of Worthington School District's (the District's) under programs of the federal government for the year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the Government assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE D - TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amounts from 2015 to 2016 programs:

Program Title

English Language Acquisition Grants

CFDA Number 84.365 Amount Transferred \$4,770

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Worthington City School District Franklin County 200 East Wilson Bridge Road Worthington, Ohio 43085

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Worthington City School District, Franklin County, (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 9, 2016.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Worthington City School District Franklin County Independent Auditor's Report on Internal Control Over Financial Reporting and Compliance and Other

Matters Required by *Government Auditing Standards* Page 2

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dave Yost · Auditor of State

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

Worthington City School District Franklin County 200 East Wilson Bridge Road Worthington, Ohio 43085

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Worthington City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Worthington City School District's major federal program for the year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Worthington City School District Franklin County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Program and Internal Control Over Compliance Required By Uniform Guidance Page 2

Opinion on the Major Federal Program

In our opinion, the Worthington City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2016.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Receipts and Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Worthington City School District (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 9, 2016. We conducted our audit to opine on the District's basic financial statements as a whole. The accompanying schedule of receipts and expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements.

Worthington City School District Franklin County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Program and Internal Control Over Compliance Required By Uniform Guidance

Page 2

We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Worthington Schools

December 9, 2016,

To the Board of Education and the Citizens of the Worthington City School District:

As the Superintendent and the Treasurer of the Worthington City School District (the District), we are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2016. This CAFR is prepared by the Treasurer and in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA). Management is responsible for the contents of this report, and we believe the data presented is complete and accurate in all material respects.

In addition, this report is designed so that a reader can acquire the maximum understanding of the District's financial activity. This report is provided as a way for the District to communicate openly about the District's finances with its stakeholders. It is divided into three sections: Introductory, Financial, and Statistical. The Introductory section includes this letter of transmittal and organizational information. The Financial section includes the Auditor's report, the basic financial statements, which are prepared in accordance with GASB, and supplemental combining individual fund statements and budgetary comparison schedules. The Statistical section provides relevant financial and demographic data over the past ten years.

Management is also required to prepare a narrative introduction and overview of the financial statements in the form of Management's Discussion and Analysis, which can be found on page 5. This letter of transmittal is designed and should be read in conjunction with that analysis. Comments on the report are welcome and requests for additional financial information can be obtained by contacting the Office of the Treasurer.

Reporting Entity

The District is an independent political subdivision of the State of Ohio and operates subject to the provisions of the Ohio Constitution and various sections of the Revised Code. Under such laws, there is no authority for the District to have a charter or adopt local laws. The District is not a part of, nor under the control of, the City of Worthington.

The District encompasses approximately twenty (20) square miles and has an enrollment of approximately 9,900 students in grades pre-K through 12. The District's boundaries include all of the City of Worthington and the Village of Riverlea, and portions of the City of Columbus, as well as unincorporated territory lying within Perry Township and Sharon Township. The District lies entirely within the boundaries of Franklin County.

The District provides a vast range of educational and support services as mandated by State statute and the desires of the community, which include but are not limited to, regular, special

needs, and vocational educational programs, guidance and support services, co-curricular activities, food service activities, and various community programs.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and Statement No. 39, *Determining Whether Certain Organizations are Component Units*, in that the basic financial statements include all organizations, activities and functions for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of a component unit's board and either (i) the District's ability to impose its will over a component unit, or (ii) the possibility that the component unit will provide a financial benefit or impose a financial burden on the District. On that basis, the reporting entity of the District includes the services of the District only (i.e. there are no component units).

Organization of the District

An elected five-member Board of Education (the Board) serves as the taxing authority, contracting body, and policy maker for the District and ensures that all general laws of the State of Ohio are followed in the expenditure of the District's tax dollars. It approves the annual appropriation resolution and five-year forecast and also directly approves all personnel-related expenditures. As of June 30, 2016, board members were as follows:

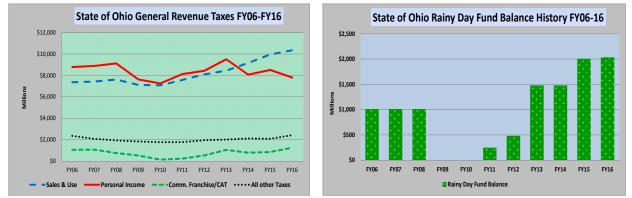

| Board Member | Service Began | Term Expires | Position |
|----------------|------------------|-----------------|----------------|
| Marc Schare | 1/1/06 | 12/31/17 | President |
| Sam Shim | 1/1/14 | 12/31/17 | Vice President |
| Jennifer Best | 1/1/02 | 12/31/17 | Member |
| Julie Keegan | 1/1/08 | 12/31/19 | Member |
| Charlie Wilson | 2/14/07 | 12/31/19 | Member |

The Superintendent is the Chief Executive Officer of the District, responsible to the Board for total educational and support operations. Dr. Trent Bowers accepted that role on July 1, 2015. Dr. Bowers is a proud graduate from Worthington Schools. He has 19 years of experience in public education and has served students and families as a teacher, coach, dean of students, and the principal of three schools. In addition, he has worked as the Director of Human Resources and Assistant Superintendent for the district. He holds a doctorate in educational leadership from Ashland University, a Masters in school administration from Ohio State University, and a Bachelor's Degree from Taylor University.

The Treasurer is the Chief Financial Officer of the District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, preparing the District's 5-year forecast, and investing idle funds as permitted by Ohio law. Jeff McCuen accepted that role in August 2007. Prior to Worthington, he was the Assistant Treasurer in the Dublin City School District and has been in the government finance profession over 20 years. Mr. McCuen is a certified public accountant in the state of Ohio and an active member of the Worthington AM Rotary, the GFOA, and the Ohio Association of School Business Officials (OASBO). He was recently awarded the Ohio GFOA's Lifetime Achievement Award and OASBO's Distinguished Service Award in recognition of his many years of service to the betterment of the profession.

Economic Outlook

It is important to consider the broader state economic climate when discussing local school funding in Ohio. The graph on the left below notes that the State of Ohio revenues through FY16 have recovered and are at record levels in spite of a personal income tax rate reduction in FY15 and FY16. The two significant contributors to the economic recovery continue to be personal income taxes and sales and use taxes. The decline in personal income tax in FY15 and FY16 is somewhat misleading, and can be mostly attributed to HB59's across-the-board reductions in income and corporate franchise tax rates which began in FY14. Reductions in FY16 personal income tax is due to an additional 6.3% reduction as authorized by HB64. Notwithstanding these reductions, income tax would have grown steadily through FY16, and are expected to continue to grow unless further tax reductions are passed. This is a clear indication that the economy has recovered and that there is economic growth in our state.

Source: Ohio Legislative Service Commission

Another indication that the state of Ohio has achieved solid footing economically is the accumulation of reserves in the State Rainy Day Fund (RDF). The graph above on the right shows the ten-year history of the Rainy Day Fund balance. The recession depleted the RDF in FY09. FY11 began the recovery of the economy and enabled the state to contribute excess revenues to the RDF. As noted, the RDF balance in FY16 has reached an all-time record high deposit of \$2.034 billion thanks to a higher statutory balance allowed by HB64. This cushion should continue to help ensure that funding for schools approved in the recent state biennium budget HB64 will be met through FY17. However, recent state income tax collections are running under projections, which could provide stress on the FY18-19 state budget process.

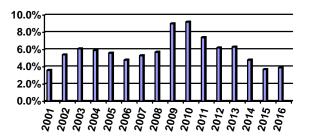

For school districts, a final piece of economic data which is highly relevant is the value of real property. In the 2015 Tax Year, 24 of Ohio's 88 counties went through a reappraisal or update for Class 1 (Residential and Agricultural Property) and Class 2 (Commercial, Industrial and Mineral Property). From tax year 2007 to 2012, Class 1 and 2 property values declined by \$10.8 billion, a reduction of 4.6%. In 2015 Class 1 values rose by \$3.58 billion or 1.99% statewide, while Class 2 property increased for the second time since 2009 by \$270.0 million or .54% statewide. Home values for the 12 month period ending in June 2016 were up statewide by 3.5%. Clearly property values have stabilized and should begin to rise at varying levels across the state.

Source: Ohio Department of Taxation

Overall, we believe the economy of the state is stable and growing. This should provide a stable basis for which to make projections of state revenues to the district as noted in HB64 through FY17 and continuing through FY21 in future state budgets.

More locally, the District resides in Franklin County which has remained a stable economic center throughout the recent recession. This is due to its sizable institutional component, with Columbus being Ohio's capital, as well home to The Ohio State University. The unemployment rate for August 2016, as shown below, was 3.9%, which is below the Ohio average rate of 4.7%.

Franklin County Unemployment Rates

Source: Ohio Office of Workforce Development

The City of Worthington in particular has experienced substantial private sector redevelopment of existing facilities and properties, including the Shoppes at Worthington Place (former mall), and continues to receive interest in additional redevelopment of other properties, including ongoing discussion of a major redevelopment of a 42 acre site in the heart of the City formerly operated as the United Methodist Children's Home.

The Ohio Department of Transportation has invested nearly \$95 million in a complete renovation of the I-270/US23 interchange that is nearly complete and will greatly improve traffic flow and safety as well as improve automotive and pedestrian access to and from Worthington's northern gateway. We encourage you to visit both the City of Worthington's economic development webpage at businessworthington.org as well as ODOT's webpage at http://www.dot.state.oh.us/projects/I-270/23/Pages/default.aspx for further details on these exciting projects.

While the short term financial picture of the District is strong, there are still long term concerns. Forecasted expenditures, at modest annual average increases of 3-4%, begin to exceed projected revenues in FY18, due to both the elimination of the tangible tax & reimbursements as well as property tax reduction laws in Ohio that limit any increases in revenues a school district can receive due to increased property values. This requires school districts to periodically return to voters for additional levies. Discussions are already underway and are dependent on the outcome of a variety of factors, including the results of the master facility process, discussed in greater detail below. The administration will continue to work with the Board and community to deliver the highest possible services in the most efficient manner possible.

Community Relations

The Administrative team holds in high regard the involvement of key stakeholders, including students, parents, staff members, businesses, public officials and the community members. Management welcomes participation and feedback from these groups. The Superintendent has created a two-way communication with a variety of key community groups to obtain feedback on key issues

The District is proud of its many partnership programs including those with Worthington Public Libraries, the Griswold Center, the Worthington Arts Council, the American Cancer Society's Relay for Life Program, the United Way, Worthington/Dublin Rotary, the Worthington Chamber of Commerce and the City of Worthington. It is with solid partnerships and community support that an excellent school district is not only created, but maintained.

Employee Relations

Current contracts with both labor unions extend through fiscal year 2017. The agreements include modest 2% annual base increases along with potential step increases, and provide for a cap on the District's exposure to potential future health insurance increases. They also allow for greater flexibility in the use of work time, a restructuring of summer school pay, and flexibility in evaluation procedures as related to the new Ohio Teacher Evaluation System. The agreements include many other items, and we encourage you to visit our website for full details. We are confident they are a win-win for the District, taxpayers, and employees. We will begin negotiations on new long-term contracts with both unions soon and expect them to be in place prior to the end of fiscal year 2017.

Major Achievements

Mission and Vision

During the 2015-2016 school year we invested a significant amount of time and in determining the mission and vision of Worthington Schools. These statements are designed to clearly define the purpose of our school district "the why" and to guide our daily work "the how." These guiding principles provide each of us with a road map for how we do our work, interact with one another, our students and our community. As these actions continue to become ingrained in our daily work, together we will continue to build the unique, positive culture of Worthington Schools.

Mission:

• To empower a community of learners who will change the world

In Worthington we have four vision statements:

- We will engage each student with diverse opportunities to maximize every student's potential.
- We will provide a safe environment where every student can grow intellectually, emotionally, socially, and physically.
- We will provide consistent communication and promote dialogue with our community.
- We will be responsible and transparent with our community's resources.

Looking Ahead

Master Facility Planning

In Worthington, our schools are a great source of pride in the community and we are grateful for the support our residents provide year after year. In order to protect our residents' investment in our schools, from time to time we analyze the way we do business to ensure we deliver on the quality and efficiency our community expects, including our school buildings.

Last year, the district engaged construction and school facilities experts to analyze the efficiency of our school buildings – both from a financial and educational standpoint. The research revealed some of our buildings are in great shape and are in need of some minor maintenance, while others could use extensive renovation or even replacement. That makes sense when you consider that some of our newest school buildings are 25 years old, while several of our schools are 50 years old and were not built with today's learning in mind. We have done an excellent job with upkeep on the buildings, however, it's not the appearance of the buildings that concerns us. It is the out-of-date infrastructure behind the walls (i.e. plumbing, electrical, heating and cooling) that is becoming more and more costly. Also, our student enrollment is growing! Families are moving to Worthington because of our great community and excellent schools. Managing this increased enrollment has impacted our school buildings in different ways.

We are working with the community and our educational leaders to come up with a long-term plan so that our schools can continue to offer vital programming and the variety of opportunities

for students that our community expects and values. We are also committed to delivery of an excellent education in the most financially efficient manner possible. Before any decision is made about the future of our school buildings, we plan to engage our community with a 12-month master facilities planning process. The district will work with students, parents, community members and facilities experts to explore all options to determine the direction of facilities and enrollment planning for Worthington's schools.

There are no preconceived notions or decisions made about what the future will hold once this process is complete. We are encouraging all residents to be a part of this vital conversation that will shape the future of our schools and community for generations to come.

We'll Continue to Operate in a Lean Structure

With all of the exciting things happening in Worthington Schools this year we will continue our commitment to lean operations. We'll work to operate on the cutting edge when it comes to operational efficiencies and innovative budgeting practices. In 2012 we passed an operating levy and bond issue and promised the community it would last three years. The 2016-17 school year will be year five, and we fully expect to be able to stretch the 2012 levy even further.

Financial Information

Internal Controls - The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives.

Budgetary Information - The District maintains budgetary controls in order to ensure compliance with legal provisions embodied in the annual appropriation resolution approved by the Board of Education. Activities of all funds, with the exception of custodial agency funds, are included in the annual appropriation resolution. The level of budgetary control is established at the object level within the General Fund and at the fund level for all other funds. The District maintains an encumbrance method of accounting to accomplish budgetary control. Unencumbered amounts lapse at year end. The District's most recent award winning comprehensive budget document is available on our website, <u>www.worthington.k12.oh.us</u>.

Financial Planning and Policies – As required by Ohio Revised Code, the District adopts a fiveyear financial forecast annually to ensure long term financial success. It serves as a planning tool to certify if funds are available for future expenditures and to strategize when the District will need to return to voters for additional funds or to reduce expenditures accordingly. The most recent forecast, approved in October 2016, shows positive unrestricted fund balance through fiscal year 2021. Management and the board will continue to monitor future spending and maintain programs to ensure the District offers a top notch education.

Independent Auditors

The basic financial statements of the District for the year ended June 30, 2016, were audited by the Ohio Auditor of State whose unmodified opinion thereon is included at the beginning of the Financial Section of this report.

Awards

GFOA Certificate of Achievement The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Worthington City School District for its Comprehensive Annual Report for the fiscal year ended June 30, 2015. This was the 23rd consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report was made possible by the diligence of the staff of the entire Financial Services department. Their initiative and conscientious work ensured the integrity of the information contained herein and guaranteed this report's successful completion.

In closing, we would like to thank the Board of Education for their support of the value of quality financial information that makes this report possible. The Board's continued support of absolute excellence will continue to have an exponential impact.

Respectfully submitted,

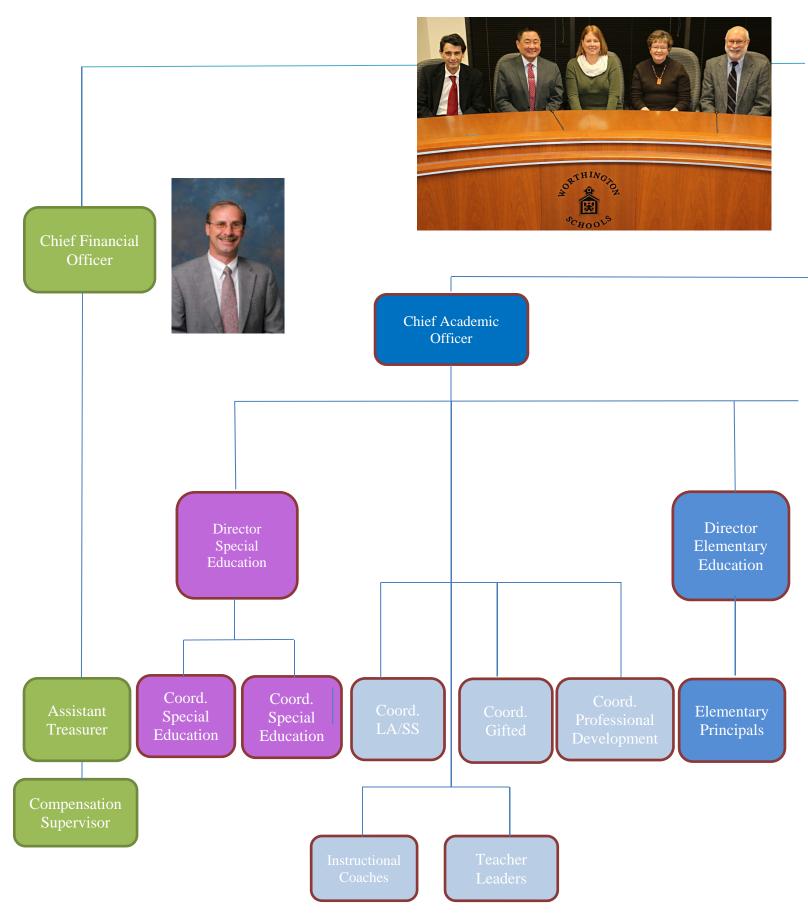

Jeffrey S, McCuen, Treasurer/CFO

INDEPENDENT AUDITOR'S REPORT

Worthington City School District Franklin County 200 East Wilson Bridge Road Worthington, Ohio 43085

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Worthington City School District, Franklin County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

88 East Broad Street, Tenth Floor, Columbus, Ohio 43215-3506 Phone: 614-466-3402 or 800-443-9275 Fax: 614-728-7199 www.ohioauditor.gov Worthington City School District Franklin County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Worthington City School District, Franklin County, Ohio, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include Management's discussion and analysis, required budgetary comparison schedule and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Worthington City School District Franklin County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

THIS PAGE INTENTIONALLY LEFT BLANK

As management of the Worthington City School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with our letter of transmittal at the front of this report and the District's financial statements, which follow this section.

Financial Highlights

Key financial highlights for the fiscal year 2016 were as follows:

- Net Position of the District increased \$17.7 million.
- A portion of the District's outstanding general fund obligation debt was refinanced during the year, saving taxpayers \$563,786.
- Capital Asset additions totaled \$8.9 million, which includes new flooring at various buildings, a new turf field at WKHS, the construction and opening of the Worthington Academy inside an existing facility, 4 new buses, and the completion of \$2.5 million of energy-efficient upgrades at several buildings.
- The General Fund, which accounted for 89% of governmental revenues, reported a healthy fund balance of \$109.6 million, \$92.7 million of which is unassigned and available to fund future operations.
- The Employee Medical Self-Insurance Fund reported an increase in net position of \$2.9 million, the result of better than expected claims loss throughout the year.

Using this Comprehensive Annual Financial Report

This comprehensive annual financial report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole, and then proceed to provide an increasingly detailed look at specific financial statements.

The Statement of Net Position and the Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds, with all other non-major funds presented in total in a single column.

Reporting the District as a Whole

The Statement of Net Position and Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a manner that helps answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by private sector corporations. All of the current year

revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the District's net position and changes in it. The change in net position provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District.

In the Statement of Net Position and the Statement of Activities, all of the District's activities are reported as governmental including instruction, support, food service, community service, co-curricular, and interest and fiscal charges.

Reporting the District's Most Significant Funds

Fund Financial Statements

Our analysis of the District's major funds appears on the fund financial statements beginning with the Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances. These statements provide detailed information about the most significant funds—not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's three types of funds, governmental, proprietary, and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

Proprietary Funds

Proprietary funds use the accrual basis of accounting; the same as on the entity-wide statements. The District uses an internal service fund to account for the Intra-District Services Fund which provides copy and print services to other funds, as well as an internal service fund to account for a self-insurance program for workers compensation insurance and medical insurance. The assets, liabilities, and net position of the internal service funds have been included within the governmental activities.

Fiduciary Funds

The District has three fiduciary funds: a Private Purpose Trust Fund and three Agency Funds including a Student Managed Activities, a District Tournament Host fund and a fund to account for community/other school activity within state foundation activity. The District's fiduciary

activities are reported in the Statement of Net Position, Fiduciary Funds. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows exceeded assets and deferred outflows of resources of resources by \$42.7 million according to the Statement of Net Position at the close of the most recent fiscal year. The negative net position can be attributed to GASB 68 and the recording of a net pension liability of \$186.4 million at year end.

One of the larger portions of the District's net position reflects its net investment in capital assets of \$12.2 million, which represents capital assets less accumulated depreciation and any related debt used to acquire those assets that is still outstanding. The District uses capital assets to provide services; consequently, these assets are usually not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves usually are not used to liquidate these liabilities.

Space intentionally left blank

A comparative analysis of fiscal year 2016 to 2015 follows from the Statements of Net Position:

Worthington City School District Net Position

| | 2016 | 2015 |
|----------------------------------|-----------------|-----------------|
| Assets: | | |
| Current Assets | \$ 221,481,550 | \$ 212,762,213 |
| Capital Assets | 73,232,371 | 68,813,547 |
| Total Assets | 294,713,921 | 281,575,760 |
| Deferred Outflows of Resources | 21,706,054 | 12,998,334 |
| Liabilities | | |
| Current Liabilities | 18,611,763 | 19,081,686 |
| Long-Term Liabilities | | |
| Net Pension Liability | 186,442,258 | 161,933,873 |
| Other Long-Term Liabilities | 86,089,970 | 88,697,744 |
| Total Liabilities | 291,143,991 | 269,713,303 |
| Deferred Inflows of Resources | 67,992,339 | 85,313,686 |
| Net Position: | | |
| Net Investment in Capital Assets | 12,229,005 | 13,242,513 |
| Restricted | 8,589,090 | 7,557,457 |
| Unrestricted | (63,534,450) | (81,252,865) |
| Total Net Position | \$ (42,716,355) | \$ (60,452,895) |

Analysis of Net Position

Total assets increased \$13.1 million. The District's medical self-insurance fund had an increase of \$3.0 million in cash and investments due to lower than expected claims. Capital assets, net of accumulated depreciation, increased \$4.4 million due to completion of several projects associated with the 2012 Bond Levy.

Net Pension Liability increased \$24.5 million. This liability represents the District's share, as calculated per GASB 68, of the two state retirement systems' present value of estimated future pension benefits less the assets available to pay those benefits. This will fluctuate annually based on a number of factors including investment returns actuarial assumptions used, and the District's proportionate share of the Net Pension Cost. As a result, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension. The result would be a positive net position in 2016 of \$135,244,668.

Worthington City School District

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

Total net position increased \$17.7 million from the prior year. A portion of the net position (\$8.6 million) represents resources subject to external restrictions on how they may be used. In order to further understand what makes up the increase in net position for the current year, the following comparative analysis of fiscal year 2016 and 2015 follows from the statement of activities:

Worthington City School District Changes in Net Position

| Changes in Net | Positi | ion | | |
|------------------------------------|--------|--------------|----|-----------------------|
| | 2016 | | | s restated*** 2015 |
| Program revenues: | | | | |
| Charges for services | \$ | 5,285,785 | \$ | 5,085,846 |

| Co-curricular student activities | | 2,961,442 | | 2,723,099 |
| Interest and Fiscal Charges | | 2,300,873 | | 2,442,154 |
| Total expenses | \$ | 132,677,901 | \$ | 130,943,646 |
| Change in Net Position | \$ | 17,736,540 | \$ | 15,935,023 |
| Net Position Beginning of Year | | (60,452,895) | | (76,387,918) |
| Net Position End of Year | \$ | (42,716,355) | \$ | (60,452,895) |

*** 2015 activity has been restated for comparative purposes to reflect \$2,856,600 of state entitlement revenue, as well as corresponding instructional expenses, related to community school and scholarship tuition now accounted for in an agency fund. See page 94 for more information.

Property taxes increased \$4.1 million. Fiscal year 2016 represented the first full year of collection of the 2012 incremental operating levy. Total Expenses increased \$1.7 million, a result of 2% wage increases offset by a reduction in health insurance costs as well as a decrease in utility costs.

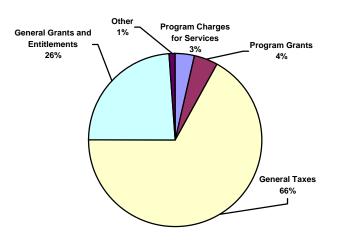

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for the governmental activities. General revenues including tax revenue, investment earnings and unrestricted State entitlements must support the net cost of program services.

| | Governmental Activities | | | | | | |
|----------------------------------|-------------------------|-------------|------|-------------|--------------------------------|-------------|--|
| | | Total Cost | of S | ervices | Net Cost (Benefit) of Services | | |
| Programs | | 2016 | | 2015*** | 2016 | 2015*** | |
| Instructional services | \$ | 76,859,164 | \$ | 78,094,204 | 73,542,863 | 73,800,490 | |
| Support services | | 45,517,534 | | 42,761,308 | 43,341,986 | 41,218,054 | |
| Food services | | 3,138,079 | | 2,892,319 | (353,995) | (381,605) | |
| Community services | | 1,900,809 | | 2,030,562 | (196,763) | 16,447 | |
| Co-curricular student activities | | 2,961,442 | | 2,723,099 | 1,732,197 | 1,442,181 | |
| Interest and Fiscal Charges | | 2,300,873 | | 2,442,154 | 2,300,873 | 2,442,154 | |
| Total | \$ | 132,677,901 | \$ | 130,943,646 | 120,367,161 | 118,537,721 | |

The table above reflects how the District funds its programs through program revenues. Instructional services, support services, co-curricular activities, and interest charges rely heavily on general revenues, while food services and community services were completely funded by program revenues during the fiscal year.

Revenue By Source

The District's reliance upon tax revenues is demonstrated by the graph to the left that indicates 66% of total revenues for governmental activities come from local taxes. The net services column reflecting the need for \$120.4 million of support indicates the reliance on general revenues to support governmental activities.

The District's Funds

The District's governmental funds reported a combined fund balance of \$133.1 million, which represents an increase of \$5.7 million from the prior year. A comparison of total fund balance for each major fund is shown below:

| | Fund Balance | | Fund Balance | | Increase | | | |
|--------------------------|--------------|---------------|--------------|-----------------------------|----------|---------------|--|------------|
| Fund | J | June 30, 2016 | | June 30, 2016 June 30, 2015 | | June 30, 2015 | | (Decrease) |
| General Fund | \$ | 109,643,432 | \$ | 97,333,827 | \$ | 12,309,605 | | |
| Debt Service Fund | | 6,351,316 | | 5,838,450 | | 512,866 | | |
| Building Fund | | 14,633,227 | | 22,559,966 | | (7,926,739) | | |
| Other Governmental Funds | | 2,518,509 | | 1,731,051 | | 787,458 | | |
| Total | \$ | 133,146,484 | \$ | 127,463,294 | \$ | 5,683,190 | | |

General Fund

The District's General Fund balance increased \$12.3 million from the prior year. The tables that follow illustrate the financial activities of the General Fund.

| Revenues | 2016 | | 2015 | | Change |
|-------------------|-------------------|----|-------------|----|-----------|
| Property Taxes | \$ 94,493,147 | \$ | 91,751,174 | \$ | 2,741,973 |
| Intergovernmental | 35,531,633 | | 36,011,062 | | (479,429) |
| Investment Income | 929,281 | | 497,075 | | 432,206 |
| Other Revenue | 3,144,833 | | 3,167,888 | | (23,055) |
| Total | \$ 134,098,894 | \$ | 131,427,199 | \$ | 2,671,695 |

Property taxes increased due to full collection of the 2012 incremental operating levy discussed earlier. Intergovernmental revenue decreased due to an increase in state funds diverted to community schools and scholarship programs.

As the table below indicates, the largest portion of General Fund expenditures is for instructional services, primarily for salaries and fringe benefits. The District is a service entity and therefore is labor intensive.

| General Fund Expenditures by Function | | | | | | |
|---------------------------------------|----|-------------|----|-------------|--------|--|
| | | 2016 | | 2015 | Change | |
| Instructional services | \$ | 74,088,822 | \$ | 72,628,405 | 2.0% | |
| Support services | | 43,094,509 | | 41,479,887 | 3.9% | |
| Community Service | | 937,337 | | 933,516 | 0.4% | |
| Co-curricular student activities | | 2,128,837 | | 2,013,312 | 5.7% | |
| Capital outlay | | 509,012 | | 746,408 | -31.8% | |
| Total | \$ | 120,758,517 | \$ | 117,801,528 | 2.5% | |

Debt Service Fund

The Debt Service Fund balance increased \$0.5 million from the prior year. This is due to the timing variances between property tax collections and debt payments.

Building Fund

The Building Fund decreased \$7.9 million as a result of spending down of the capital improvement bond funds issued in 2013 as part of the District's current five year capital improvement plan.

Other Governmental Funds

Other governmental funds consist of a capital project fund and special revenue funds. The total fund balances of Other Nonmajor Governmental Funds increased \$0.8 million. These are mainly grant funds in which proceeds are to be spent timely and revenues generally approximate expenditures.

Internal Service Funds

The District has three internal service funds, an Intra-District Services Fund to provide printing and copying services, a Workers Compensation Insurance Fund to account for the worker's compensation self-insurance program, and an Employee Medical Benefits Insurance Fund to account for the medical self-insurance program. Premiums are paid into both insurance funds from the fund in which the employee is paid, and claims, reinsurance, and administrative expenses are paid out of the funds. The combined Net Position of all internal service funds at the June 30, 2016 was \$10.7 million, an increase of \$3.3 million, a result of lower than expected medical claims during the year.

Capital Assets

The District has \$73.2 million invested in capital assets net of accumulated depreciation at the close of fiscal year 2016. Acquisitions totaled \$8.9 million and include new roofs at Brookside and Kilbourne Middle School, 4 new buses, and new flooring at various buildings. Depreciation for the year totaled \$4.4 million. Detailed information regarding capital asset activity is included Footnote 8 of the notes to the basic financial statements. In addition, the District had numerous construction commitments outstanding at June 30, 2016 as a result of the ongoing capital improvement plan; these commitments are described in Footnote 14 of the notes to the basic financial statements.

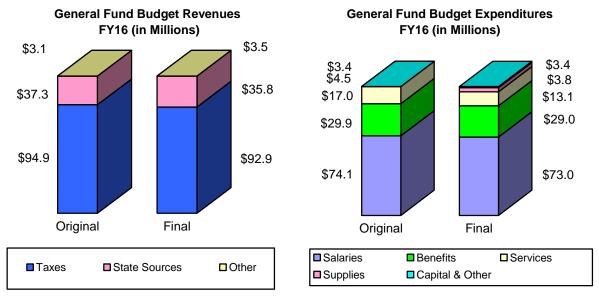

Debt

On June 30, 2016, the District had \$76.6 million in outstanding notes, certificates of participation and bonds. The District paid \$5.4 million in principal and \$2.3 million in interest on that debt during the year. The District refunded \$8.8 million in bonds during the fiscal year resulting in savings of \$563,786. In addition, the District issued the final \$1.8 million of Energy Conservation Notes which will be repaid through long-term utility savings. Detailed information regarding long-term debt is included in Footnote 9 of the notes to the basic financial statements.

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% (exclusive of any accretion on deep discount debt and certificates of participation) of the total taxable valuation of real and personal property. As of June 30, 2016, the District's general obligation debt was below the legal limit.

Budget Information

The District's budget is prepared in accordance with Ohio law and is based on the cash basis of accounting, utilizing cash receipts, disbursements and encumbrances. Changes are made to the budget as changes in revenues and spending patterns are experienced. The most significant budgeted fund is the General Fund, and it is monitored closely, looking for possible shortfalls or overspending by individual departments.

General Fund revenues and other financing sources were originally budgeted for \$135.3 million and final budget and actual revenues and other financing sources were \$132.2 million. Taxes were slightly lower than anticipated due to timing of year end advances. Expenditures and other financing uses were originally budgeted at \$128.9 million and final and actual expenditures and other financing uses were \$122.3 million. Mild conditions and a collapse in fuel prices allowed for lower than expected utility costs.

The District uses the five-year forecast as the original document from which to form the operating budget. After updating the forecast for changes in revenue and expenditure assumptions, the operating budget begins at the school level. Each school in the District receives a per pupil allocation augmented with resources for special education students in the specific buildings. Budgets are reviewed periodically to ensure management becomes aware of any variations during the year.

The District issues a standalone budgetary document in accordance with GFOA Best Practices that can be found on our website at <u>www.worthington.k12.oh.us</u> under leadership/treasurer.

Current Financial and Economic Conditions

The latest five-year forecast passed in October 2016 shows a positive cash balance through fiscal year 2021. However, beginning in FY18, operating expenditures begin to exceed flat revenues, eroding the cash balance. This is mainly due to two reasons: property tax laws in Ohio and the state economic climate.

The District's largest source of revenue is property taxes, and property tax laws in Ohio create the need periodically to seek voter approval for additional operating funds, especially in a District such as ours that has limited available land upon which to build new homes and businesses. Tax revenues generated from voted tax levies do not increase as a result of inflation. An operating levy is approved for a fixed millage rate, but the rate is reduced for inflation with the effect of providing the District the same amount of tax dollars as originally approved. Our District last passed an operating levy in 2012, which was expected to last three years, but has stretched that levy and currently anticipates returning to voters sometime in 2018 or 2019.

State sources account for the second largest source of revenue. The current biennial state budget for FY16-17 did not appropriate enough resources to fully fund all districts according to its latest school funding formula. Many districts, including ours, received a capped increase of 7.5% of prior year state revenue for FY16 and FY17. This amounts to \$4.6 million in additional revenue in FY16 our District would have received if fully implemented. The current model of educational funding needs. While we feel the state economy has improved, as evidenced by the current balance of the Rainy Day Fund, school districts are still subject to a biennial legislative process that creates stress in the long term forecasting of the District. In addition, current state income tax collections for FY17 are running under estimate, which could provide added stress on future budgets.

Request for Information

This financial report is designed to provide the citizens, taxpayers, customers, and creditors with a general overview of the District's finances and to show accountability for the money it receives. Questions concerning any information provided in this report or request for additional financial information should be addressed to the Treasurer/CFO of the Worthington City School District, Jeffrey S. McCuen at 200 E. Wilson Bridge Rd. Worthington, Ohio 43085.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2016

| Net Change in Fund Balances - Total Governmental Funds | | \$ 5,683,190 |
|--|-----------------------------------|--------------|
| Amounts reported for governmental activities in the statement of activities are different because. | | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives as depreciation expense. Depreciation Expense Capital Outlay | (4,343,939) 8,945,361 | 4,601,422 |
| Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the gains and losses on the disposal of capital assets. Loss on Disposal of Capital Assets Total | (98,630) | (98,630) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | <i></i> | |
| Taxes Intergovernmental Interest Total | (216,893) 234,585 (110,230) | (92,538) |
| Proceeds from the issuance of bonds and notes are recorded as other financing sources in the governmental funds, but the proceeds are recorded as a liability and therefore not recorded in the statement of activities | | (10,641,304) |
| Repayment of bond principal is recorded as expenditures in the governmental funds, but the repayment reduces liabilities in the statement of net position and does not result in an expense in the statement of activities | | 5,357,000 |
| Payment to refund bonds is shown as an other financing use in the governmental funds, but the repayment reduces liabilities in the statement of net position. | | 9,861,181 |
| The deferred amount on refunded debt is reported as an expenditure at the time of refunding in the governmental funds, but is amortized over the life of the new debt in the statement of activities | | (150,001) |
| Premium on issuance of bonds is recorded as other financing sources in the governmental funds, but the premium is recorded as part of the bond liability and amortized over the life of the bonds in the statement of activities and therefore is not recorded in the statement of activities. Premium Received | (1,154,369) | |
| Current Year Amortization | 656,836 | (497,533) |
| In the statement of activities, interest is accrued on outstanding bonds and long term notes payable, whereas in governmental funds, an interest expenditure is reported when due. | | 3,770 |
| Some expense reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. Compensated Absences Capital Bond Accretion | (306,164) (392,604) | (000 700) |
| Total Contractually required contributions are reported as expenditures in governmental funds; however, | | (698,768) |
| the statement of net position reports these amounts as deferred outflows. | | 10,900,593 |
| Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities. | | (9,828,735) |
| Internal service funds used by management to charge the costs of copying and printing services and workers compensation and health self insurance to individual funds is not reported in the district wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue of the internal service fund is allocated | | |
| among the governmental activities. | - | 3,336,893 |
| Change in Net Position of Governmental Activities | = | \$17,736,540 |

1. Reporting Entity

The Worthington City School District (the District) is an independent political subdivision of the State of Ohio and operates subject to the provisions of the Ohio Constitution and various sections of the Revised Code. Under such laws, there is no authority for the District to have a charter or adopt local laws. The District is not a part of, nor under the control of, the City of Worthington.

The District encompasses approximately twenty (20) square miles. The District's boundaries include all of the City of Worthington and the Village of Riverlea, and portions of the City of Columbus, as well as unincorporated territory lying within Perry Township and Sharon Township. The District lies entirely within the boundaries of Franklin County.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, The Financial Reporting Entity, Statement No. 39, Determining Whether Certain Organizations are Component Units, and Statement No. 61, The Financial Reporting Entity: Omnibus, in that the financial statements include all organizations, activities, and functions for which the District is financially The District is financially accountable for an organization if the District accountable. appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. The District had no component units for the fiscal year ended June 30, 2016.

The Worthington Public Library is a school district library created under Chapter 3375 of the Ohio Revised Code and is located in the City of Worthington. The Board of Trustees of the Library controls and manages the Library and issues its own financial statements. Although the Worthington Board of Education is required to approve appointments to the Board of Trustees and to approve the annual budget, the Board has no authority to reject the Library's recommendations.

The Worthington Educational Foundation (WEF) is a separate legal non-profit organization organized to benefit the citizens of the City of Worthington. The Board of WEF consists of twenty-nine (29) members, four of which are ex offico members that include the Superintendent and a Board Member of the District as well as two District employees. The Board of Trustees of WEF and issues its own financial statements. In fiscal 2001 the WEF assisted the Worthington City School District in arranging financing for the purchase of the Worthington Educational and Administrative Building.

The Rockbridge Academy (Academy) is a joint venture consisting of a consortium of four school districts. The joint venture was formed for the purpose of providing alternative education services to at risk students. The initial capital of the Academy was raised through the receipt of a State Grant in the amount of \$375,000.

The Governing Board of the Academy consists of six members appointed by each member school. The District does not have an equity interest that is explicit and measurable in the joint venture, however the District does have an ongoing financial obligation to support the

Academy in meeting its financial obligations. The Academy is dependent upon continued support of the member schools as it is not independently accumulating adequate financial resources.

The Educational Service Center of Central Ohio is the financial agent for the Academy. Further detailed financial information may be obtained by contacting the ESCCO at 614-445-3750.

The District participates in the Metropolitan Educational Technology Association (META), a jointly governed organization created as a regional council of governments pursuant to Chapter 167 of the Ohio Revised Code. META operates as, and has all the powers of, a data acquisition site/information technology center pursuant to applicable provisions of the Ohio Revised Code. The organization was formed for the purpose of identifying, developing, and providing to members and non-members innovative educational and technological services and products, as well as expanded opportunities for cooperative purchasing. The General Assembly of META consists of one delegate from every member school district. The delegate is the superintendent of the school district or the superintendent's designee. The degree of control exercised by any participating school district is limited to its representation on the General Assembly. The District paid META \$156,749 for services during fiscal year 2016.

2. Summary of Significant Accounting Policies

The basic financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Beginning July 1, 2002, the District changed its financial reporting to comply with GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*; GASB Statement No. 37, *Basic Financial Statement – and Management's Discussion and Analysis – for State and Local Governments: Omnibus*; and GASB Statement No. 38, *Certain Financial Statement Disclosures*. The District's significant accounting policies are described below.

a. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all the nonfiduciary activities of the primary government. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements except for interfund services provided and used, which is not eliminated. Internal Service Fund operating activity is eliminated by allocating net revenue/expenses to the appropriate function accounts so as to avoid overstatement of revenues and expenses. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District reports no such business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting

the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported instead as general revenues. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

b. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and private purpose trust fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The agency funds have no measurement focus and do not report revenues, expenses, or net position but rather changes in assets and liabilities are recognized on the accrual basis.

Property taxes are recognized as revenue in the fiscal year for which taxes have been levied, provided they are collected and certified by the county auditor by the fiscal yearend. Additionally, taxes collected within 60 days after fiscal year-end are recorded as a receivable with an offset to deferred inflows of resources-unavailable revenue for amounts not collected and available for advance on June 30th by the county auditor. Tuition, grants, fees and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major funds:

General Fund, a governmental fund. The General Fund is the District's primary operating fund. It accounts for all financial resources not accounted for and reported in another fund.

Debt Service Fund, a governmental fund. The Debt Service Fund is used to account for and report financial resources that are restricted to expenditure for principal and interest.

Building Fund, a governmental fund. The *building fund* is used to account for and report financial resources that are restricted to expenditures related to the District's capital bond improvements.

The District's non-major governmental funds include the following fund types:

Special Revenue Funds, governmental funds that are used to account for and report the proceeds of specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds, governmental funds that are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets.

The District's non-major proprietary funds include the following fund type:

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District generally on a cost-reimbursement basis. The District has three such funds, an Intra-District Services Fund that accounts for copying and printing services provided to other funds, a Worker's Compensation Self-Insurance Fund and an employee Medical Self-Insurance Fund.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. Charges for services are the principal operating revenues for the District's internal service funds. Operating expenses for the internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Additionally, the District reports *Fiduciary Funds*. Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. Agency funds, a type of fiduciary fund, are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District has one Private Purpose Trust fund that accounts for money which has been set aside for scholarship purposes from which the income may be expended in accordance with the related trust agreements but the principal must remain intact. The District also has three agency funds that account for student managed activities, hosting state athletic tournaments and community/other school activity within state foundation activity.

c. Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenses/expenditure) until then. For the District, deferred outflows of resources include a deferred charge on refunding and a deferred amount of pension contributions. A deferred charge on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, unavailable revenue and pensions. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District, unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

d. Unearned Revenue

Under both the accrual and modified accrual basis of accounting, revenue may be recognized only when it is earned. If assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue.

Under the modified accrual basis of accounting, it is not enough that revenue has been earned if it is to be recognized as revenue of the current period. Revenue must also be susceptible to accrual (it must be measurable and available to finance expenditures of the current fiscal period). If assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue.

e. Cash and Investments

Monies received by the District are pooled in a central bank account with individual fund balance integrity retained throughout. In 1998, the District adopted GASB Statement No. 31 (GASB 31), Accounting and Financial Reporting for Certain Investments and for External Investment Pools, and records all its investments, except certificates of deposits and repurchase agreements, which are reported at cost, at fair value.

The District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio). STAR Ohio is an investment pool managed by the State's Treasurer's office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR

Ohio are valued at STAR Ohio's share price, which is the price of the investment could be sold for on the last day of the fiscal year.

f. Prepaid Items

Payments made for services that will benefit periods beyond the current fiscal year are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed. At fiscal year-end, because prepaid items are not available to finance future governmental fund expenditures, the fund balance is nonspendable in the fund financial statements by an amount equal to the carrying value of the asset.

g. Inventory

Inventories of supplies are presented at cost determined on a first-in, first-out basis while inventories held for resale are presented at the lower of cost or market. Inventories are recorded as expenditures when consumed rather than when purchased. For all funds, inventories are determined by physical count.

h. Capital Assets and Depreciation

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets are reported in the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by proprietary funds are reported on both statement types.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District follows the policy of not capitalizing assets with a cost of less than \$1,000 and a useful life of less than one year. The District does not possess any infrastructure.

All reported capital assets, with the exception of land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| Land Improvements | 10-20 |
|-----------------------------------|-------|
| Buildings & Improvements | 20-50 |
| Furniture, Fixtures and Equipment | 3-15 |
| Buses, Autos, and Trucks | 5-10 |

i. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position.

j. Compensated Absences

The District has implemented the provisions of GASB Statement No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. The criteria for determining the vacation and sick leave liability is derived from Board policy, negotiated agreements, and state laws.

The compensated absence liability is reported on the entity-wide financial statements. For governmental fund financial statements, the compensated absence liability is reported only if they have matured and represent the current portion of unpaid compensated absences that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "accrued liabilities" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported. In the proprietary funds, the entire amount of compensated absences is reported as a fund liability.

k. Accrued Liabilities and Long-term Debt

All accrued liabilities and long-term debt is reported in the entity-wide financial statements as well as the proprietary fund financial statements. For governmental fund financial statements, these accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims for judgments and compensated absences paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources. Long-term debts paid from governmental funds are not recognized as a liability in the fund financial statements until due. All premiums, and deferred amounts on refunding related to long-term debt are amortized using the straight line method over the life of the debt. Issuance costs are expensed in which the year they are incurred.

I. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

m. Fund Balances

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting,* the District classifies its fund balance based on the purpose for which

the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that are constrained for specific purposes that are internally imposed by the government at its highest level of decision making authority, the Board of Education.

Assigned – resources that are intended to be used for specific purposes as approved through the District's formal purchasing procedure by the Treasurer.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned

The District applies restricted resources first when an expense is incurred for purposes which both restricted and unrestricted net position are available. The District considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be uses. Committed fund balances are established, modified and rescinded with the formal action of a board resolution.

The District has a formal minimum fund balance policy. The District recognizes the need to maintain sufficient year-end carry-over balances in its general fund to minimize undesirable programmatic reductions, including staffing reductions. Therefore it is essential to clearly define a fund balance level that triggers a decision to make budgetary adjustments and possibly seek voter approval of new taxes well in advance of a cash shortfall. Further, the District recognizes the value of such a policy with respect to its debt management practices and underlying bond rating. As such, the District defines its minimum unrestricted general fund balance as 1/12 of annual expenditures in the third year of the forecast and will initiate budgetary actions or proposed levy to voters in a timely manner to address projected balances below this level.

The Board has committed \$13.8 million in the General Fund for 2016 as a budget contingency. Formal board resolution appropriating this \$13.8 million must be made in order for it to be spent.

n. Statement of Cash Flows

For purposes of the statement of cash flows, the proprietary funds consider all highly liquid investments, with a maturity of three months or less when purchased, to be cash equivalents. In addition, all cash and investments are also considered to be cash equivalents, since they are available to the proprietary funds on demand.

o. Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the

reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

3. Cash and Investments

a. Cash

The investment and deposit of the District's monies is governed by the provisions of the ORC. In accordance with these statutes, the District is authorized to invest in United States and State of Ohio bonds, notes, and other obligations; bones, notes and other obligations of political subdivisions of the State of Ohio rated in one of the three highest categories of a nationally recognized rating service and paid from general revenues; bank certificates of deposit; banker acceptances; commercial paper notes rated prime and issued by United States corporations; and repurchase agreements secured by United States obligations. During fiscal year 2016, investments were limited to CDs, commercial paper, and federal agency securities. Earnings on investments are credited to the General Fund except earnings specifically related to the Capital Projects Fund, Food Service Fund, Other Local Sources Fund, Self-Insurance Fund, Private Purpose Trust Fund, and the Auxiliary Service Fund which is in compliance with ORC Section 3315.01. In fiscal year 2016 investment income of \$1,069,634 was recorded in the Statement of Activities.

According to state law, public depositories must give security for all public funds on deposit. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105% of the total value of public monies on deposit at the institution. Repurchase agreements must be secured by the specific government securities upon which the repurchase agreements are based. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within 5 years of the date of the related repurchase agreement. State law does not require security for public deposits and investments to be maintained in the District's name. During 2016, the District and public depositories complied with the provisions of these statutes.

b. Deposits with Financial Institutions

At June 30, 2016, the carrying amount of all District deposits was \$ 44,529,252. Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, as of June 30, 2016, \$11,358,436 of the District's bank balance of \$44,610,159 was exposed to custodial risk as discussed below, while \$33,251,723 was covered by Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute.

c. Investments

| | | Investment Maturities | | | | |
|------------------|--------------|-----------------------|---------------|---------------|---------------|--|
| | | 6 Months or | 7 to 12 | 13 to 36 | 37 to 60 | |
| Investment Type | Fair Value | Less | Months | Months | Months | |
| FFCB | \$ 9,006,056 | \$ 4,000,200 | \$ 2,000,006 | \$- | \$ 3,005,850 | |
| FHLB | 13,005,384 | - | - | 6,004,070 | 7,001,314 | |
| FHLMC | 18,757,269 | - | - | 12,754,059 | 6,003,210 | |
| FNMA | 11,002,390 | 4,000,900 | - | - | 7,001,490 | |
| STAR Ohio | 10,016,991 | 10,016,991 | - | - | - | |
| Commercial Paper | 17,914,427 | 8,975,377 | 8,939,050 | - | - | |
| | \$79,702,517 | \$ 26,993,468 | \$ 10,939,056 | \$ 18,758,129 | \$ 23,011,864 | |

As of June 30, 2016, the District had the following investments and maturities.

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk. The District's investments in agency securities were rated Aaa and AA+ by Moody's Investor Services and Standard & Poor's, respectively. The District's investment in commercial paper were rated A1/P1 by Moody's Investor Services and Standard & Poor's, respectively. STAR Ohio carries a rating of AAA by Standard and Poor's. The District has no investment policy that would further limit its investment choices other than what has been approved by state statute as described above.

Concentration of Credit Risk. The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage to total of each investment type held by the District at June 30, 2016:

| Investment Type | Fair Value | % of Total |
|------------------|--------------|------------|
| FFCB | \$ 9,006,05 | 6 11.29% |
| FHLB | 13,005,38 | 4 16.32% |
| FHLMC | 18,757,26 | 9 23.53% |
| FNMA | 11,002,39 | 0 13.80% |
| Star Ohio | 10,016,99 | 1 12.57% |
| Commercial Paper | 17,914,42 | 7 22.48% |
| | \$ 79,702,51 | 7 100.00% |

For fiscal year 2016, Governmental Accounting Standards Board (GASB) Statement No. 72, "Fair Value Measurement and Application," was effective. These GASB pronouncements had no effect on beginning net position. Accordingly, the District has categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the District's recurring fair value measurements as of June 30, 2016. All of the District's investments measured at fair value are valued using quoted market prices (Level 1 inputs).

Custodial Risk. For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments. The District has no investment policy that would further limit its investment choices with respect to custodial risk other than what has been approved by state statute as described above.

Reconciliation of Cash and Investments to the Statement of Net Position

| Investments (Summarized Above) | \$ 79,702,517 |
|---|-------------------|
| Carrying Amount of Deposits | 44,529,252 |
| Cash on Hand | 175 |
| Less: Fiduciary Cash and Investments | (257,237) |
| Total Cash & Investments Stmt of Net Position | \$ 123,974,707 |

4. Property Taxes

Property taxes are levied and assessed on a calendar-year basis. Distributions from the second half of the calendar year occur in a new fiscal year and are intended to finance the operations of that year, except monies available to be advanced against such distributions which may be appropriated and used in the current fiscal year. Property taxes include amounts levied against all real, public property located in the District.

Real property taxes and public utility taxes are levied after April against the assessed value listed as of the prior January 1, the lien date. Assessed values are established by State law at 35% of appraised value.

Public utility property taxes are assessed on tangible personal property as well as land and improvements. Real property is assessed at 35% of true value and tangible personal property is currently assessed at varying percentages of true value. These taxes attach as a lien against local and inter-exchange telephone companies and are levied January 1 of the current year.

The assessed values for collection in 2016, upon which the 2015 levies were based, were as follows:

| Agricultural/Residential Real Estate Commercial/Industrial Real Estate | \$ 1,396,134,530 402,988,620 |
|---|------------------------------------|
| Public Utility Real Estate Public Utility Tangible | 142,040 42,452,120 |
| Total | \$ 1,841,717,310 |

Real property taxes are payable annually or semiannually. If paid annually, the payment is due January 30; if paid semiannually, the payment is due January 30 with the remainder payable by June 30.

The Franklin County Treasurer collects property taxes on behalf of the District. The County Auditor periodically remits to the District its portion of the taxes collected.

Accrued property taxes receivables represent real property and public utility taxes which were measurable but not available as of June 30, 2016. However, monies legally available as an advance to the District as of June 30, 2016 are recognized as revenue as they are both measurable and available, although monies the District hasn't actually advanced are prohibited by law from being appropriated in the current year in accordance with Ohio Revised Code Section 5705.35.

5. Receivables

Receivables at June 30, 2016 consisted of taxes and other miscellaneous accounts receivable. Taxes receivable include current and delinquent taxes receivable. A summary of the principal items of receivables follows:

| Governmental Activities: | | Debt | All Other | Internal | | | |
|--------------------------|---------------|--------------|--------------|-----------|---------------|--|-------|
| | General | | Governmental | Service | | | |
| | Fund | Fund | Fund Funds | | Funds Funds | | Total |
| Taxes current | \$ 87,156,567 | \$ 5,744,176 | \$- | \$- | \$ 92,900,743 | | |
| Taxes delinquent | 2,619,433 | 175,824 | - | - | 2,795,257 | | |
| Other | 708,584 | 6,750 | 433 | 20,837 | 736,604 | | |
| Total | \$ 90,484,584 | \$ 5,926,750 | \$ 433 | \$ 20,837 | \$ 96,432,604 | | |

6. Intergovernmental Receivables

Intergovernmental receivables at June 30, 2016 consist of the following:

| | Governmental Activitie | | |
|------------------------|------------------------|---------|--|
| General Fund | \$ 369,938 | | |
| Other Governmental Fun | ds | | |
| Federal | | 495,706 | |
| State | | 12,023 | |
| Total | \$ | 877,667 | |

The receivable is a result of federal and state awards not yet received at year end.

7. Interfund Transactions

Interfund balances on the fund statements at June 30, 2016 consist of the following receivables and payables:

| Fund | | ceivable | Payable | |
|------------------------------|----|----------|---------|--------|
| General Fund | \$ | 3,600 | \$ | 76,034 |
| All Other Governmental Funds | | - | | 7,919 |
| Internal Service Fund | | 80,355 | | 2 |
| Totals | \$ | 83,955 | \$ | 83,955 |

The purpose of the General Fund interfund receivable and \$3,600 of the Other Governmental Funds payable is the result of short-term interfund loans made by the General Fund while the other funds await grant reimbursement and funding. The Internal Service Fund receivable, General Fund payable, and \$4,319 of the Other Governmental Funds payable is the result of Workers Compensation Premiums on wages earned but not yet paid that are due to the self-insurance fund.

Interfund transfers on the fund statements at June 30, 2016, consisted of the following:

| | Transfer In | |
|-------------------|--------------|--------------|
| General Fund | \$- | \$ 1,099,966 |
| Debt Service Fund | 1,099,966 | |
| | \$ 1,099,966 | \$ 1,099,966 |

The purpose of the transfer from the general fund to the debt service fund was to fund debt service obligations relating to House Bill 264 energy conservation project in which savings are used to pay off project debt obligations.

| Total accumulated depreciation | \$ | (102,726,423) | (4,429,332) | 1,303,641 | (105,852,114) |
| Depreciable Capital Assets, net | \$ | 55,317,967 | (1,473,936) | 6,367,900 | 60,211,931 |
| Total Governmental Activities Capital | | | | | |
| Assets, Net | \$ | 68,813,547 | 4,517,454 | (98,630) | 73,232,371 |

Depreciation expense was charged to governmental functions as follows:

WORTHINGTON CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements, continued June 30, 2016

| Instructional Services: | |
|------------------------------------|--------------|
| Regular | \$ 2,364,785 |
| Special | 9,047 |
| Vocational | 19 |
| Support Services: | |
| Pupils | 3,477 |
| Instructional Staff | 61,591 |
| Administration | 29,845 |
| Business Operations | 1,807 |
| Operation and Maintenance of Plant | 1,077,867 |
| Transportation | 453,517 |
| Central | 48,433 |
| Food Service Operations | 10,285 |
| Community Services | 42,325 |
| Co-Curricular Student Services | 240,941 |
| Total Depreciation Expense | \$ 4,343,939 |

Included in the above additions is \$309,496 of assets in the internal service fund. The above depreciation includes \$85,393 in current year depreciation for the internal service fund.

9. General Long-Term Obligations

A summary of the governmental activities changes in long-term liabilities follows:

| | Balance June 30, 2015 | Additions | Accretion | Reductions | Premium Amortized | Balance June 30, 2016 | Amounts Due in One Year |
|--|--------------------------------------|---------------|-------------------|----------------------------------|-----------------------|--------------------------------------|---------------------------------|
| Compensated Absences | \$ 9,132,873 | \$ 1,760,471 | | \$ 1,447,984 | | \$ 9,445,360 | \$ 1,087,630 |
| Cetificates of Participation Bonds Payable Notes Payable | 3,480,726 74,203,650 1,880,495 | 9,994,369 | - 392,604 - | 600,000 13,555,000 167,000 | 6,948 779,590 - | 2,873,778 70,256,033 3,514,799 | 620,000 4,788,955 436,825 |
| Total Other Long-Term Liabilities | 88,697,744 | 13,556,144 | 392,604 | 15,769,984 | 786,538 | 86,089,970 | 6,933,410 |
| Net Pension Liability (See Note 12) | 161,933,873 | 24,508,385 | <u>-</u> | <u> </u> | | 186,442,258 | <u> </u> |
| Total Long-Term Liabilities | \$ 250,631,617 | \$ 38,064,529 | \$ 392,604 | \$ 15,769,984 | \$ 786,538 | \$ 272,532,228 | \$ 6,933,410 |

Compensated absences consist of accrued but unused sick and vacation leave. The criteria for determining leave benefits are derived from negotiated agreements and State laws. Accumulated unused vacation leave is paid to employees upon termination of employment. Accumulated unused sick leave, up to a maximum number of days depending on negotiated contract, are paid upon retirement. All leave is paid from the fund in which the employee is paid. In fiscal year 2016, the payments were made from the general fund and food service fund. The portion of known severance payable at June 30, 2016 is recorded as a fund liability and classified as Accrued Liabilities (see note 10) while the remaining portion is recorded as a long term liability using the vesting method.

The above bonds include current interest serial bonds, capital appreciation bonds, and current term interest bonds. Included in the amortization above is \$786,538 of premium amortization, which are all being amortized over the life of the bonds. Total accumulated accretion outstanding at June 30, 2016 was \$1,472,721.

Interest cost on the qualified school construction bonds will be directly and annually subsidized by the federal government as part of the American Reinvestment and Recovery Act of 2009 and section 54F of the Internal Revenue Code. Subsidy payments received during fiscal year 2016 totaled \$81,699, and an additional \$6,750 has been recorded as a receivable at June 30, 2016. This subsidy represents 90.8% of the annual interest cost of that issue, making the effective annual interest cost 0.46%.

The general obligation debt is a direct obligation of the District for which its full faith, credit and resources are pledged and are payable from taxes levied on all taxable property in the school district. Payments of principal and interest relating to these liabilities are recorded as expenditures in the Debt Service Fund.

The District completed a \$2.6 million energy conservation project, began in fiscal year 2015, financed through a long term note agreement with the Ohio Development Services Agency's Energy Loan Fund, in accordance with HB 264. The total loan amount of \$2,564,799 will be repaid over 10 years through utility cost savings as a result of the project.

On March 29, 2016, the District issued \$8,840,000 of General Obligation Bonds for the purpose of advance refunding a portion (\$2.685 million) of the 2008 General Obligation Bonds and also refunding a portion (\$6.155 million) of the 2009 General Obligation. The bonds were issued for a eight year period with final maturity at December 1, 2024 and will be retired from the debt service fund. This resulted in an aggregate difference in debt service payments of \$606,566 and a present value economic gain of \$563,786.

As of June 30, 2016, the District had ten general obligation bond issues, one general obligation long-term note issue, one energy conservation note and one certificate of participation financing issue outstanding. This debt was issued for general government activities, specifically, the construction and renovation of school buildings and an administrative facility. General obligations currently outstanding are as follows on the next page:

Space intentionally left blank

| Purpose | Issue Date | Final Maturity | Interest Rate | Balance June 30, 2016 |
|--|--|--|---|--|
| 2007A Permanent Improvement Bonds (1) 2007B Permanent Improvement Bonds (1) 2008 Refunding and Improvement Bonds (4/1) 2009 General Obligation Bonds (1) 2010A General Obligation Bonds (1) 2010B Qualified School Construction Bonds (1) 2013 General Obligation Bonds (5) 2013 General Obligation Bonds (5) 2014 Refunding Bonds (6) 2016 Refunding Bonds (8) | 2/15/2007 3/6/2007 11/5/2008 5/5/2009 8/30/2010 8/30/2010 2/14/2013 3/6/2013 6/5/2014 3/29/2016 | 12/1/2021 12/1/2021 12/1/2024 12/1/2024 12/1/2023 12/1/2025 12/1/2027 12/1/2028 12/1/2021 12/1/2024 | 3.6-5.5% 4.0-5.5% 3.75-4.5% 2.5-4% 2-3.125% 5% 1.5-5% 2.625-2.75% 2.0-4.0% 1.75-4.0% | 1,026,603 530,809 1,124,262 2,821,480 5,944,861 1,800,000 27,440,263 10,079,568 9,527,118 9,961,069 \$70,256,033 |

(1) Part of a \$37.5 million bond levy passed in November 2006 for construction and improvement of District facilities, technology upgrades, transportation upgrades, and various replacement equipment.

(2) Note agreement with the Columbus Regional Airport Authority relating to the Ohio Association of School Business Official's Expanded Asset Pooled Financing Program authorizing the issuance of revenue bonds by the Airport Authority to assist school districts in financing project costs associated with constructing and installing certain energy conservation measures to existing school buildings and facilities in accordance with House Bill 264. Participating districts enter into a note agreement with the Airport Authority for an approved amount which is deposited into a third party trustee account and a payment and interest schedule is determined.

(3) Advance refunded \$4.2 million of the 2000 COPs.

(4) Current refunded \$5.55 million of the 1998 GO Bonds. Remaining \$3.9 million issued for #1 above.
(5) Part of a \$37.2 million bond levy passed in November 2012 for construction and improvement of District facilities, technology upgrades, transportation upgrades, and various replacement equipment.

(6) A \$8.9 million partial refunding of the 2007A and 2007B issuances. As of June 30, 2016, the refunded bonds had a balance of \$8.9 million that is not included in the District's outstanding debt and will be retired out of escrow on 12/1/16.

(7) Note agreement with Ohio Development Service Agency, Energy Loan Fund, to finance an energy conservation project in accordance with HB264. Total loan amount of \$2.6 million will be repaid over 10 years with savings from decreased utility payments.

(8) A \$8.8 million partial refunding of the 2008 and 2009 issuances. As of June 30, 2016, the refunded bonds had a balance of \$8.8 million that is not included in the District's outstanding debt and will be retired out of escrow on 12/1/18.

The annual maturities of the general obligation bonds, notes and COPS, as of June 30, 2016, and related interest payments are as follows (net of \$4,844,267 unamortized bond premium:

| Total | | 71,800,343 | 15,900,287 | 65,435,544 | 15,296,290 | 3,514,799 | 336,402 | 2,850,000 | 267,595 |

The ORC provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The ORC further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District.

The effects of these debt limitations at June 30, 2016 are a voted debt margin of \$165,754,558 and an unvoted debt margin of \$1,841,717. The aggregate amount of the District's unvoted debt is also subject to overlapping debt restrictions with various governmental entities. As of June 30, 2016, these entities have complied with the requirement that the unvoted overlapping debt must not exceed 1% (10 mills) of the assessed property value. Management believes that the District has complied with all bond covenants.

10. Accrued Liabilities

Accrued Liabilities at June 30, 2016 consist of the following:

| | | Other | | | | | Total |
|-------------------------|----|--------------|----|---------|--------|--------------|---------------|
| | | Governmental | | | | Governmental | |
| | Ge | eneral Fund | | Funds | Intern | al Service | Activities |
| Accrued Wages | \$ | 9,504,336 | \$ | 539,896 | \$ | 440 | \$ 10,044,672 |
| Regular Termination Pay | | 56,526 | | - | | - | 56,526 |
| Interest on Debt | | - | | - | | - | 211,383 |
| Total | \$ | 9,560,862 | \$ | 539,896 | \$ | 440 | \$ 10,312,581 |

11. Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors, and omissions, injuries to employees and natural disasters. The District contracts with third party insurance carriers for property insurance (including boiler and machinery) and general liability insurance. During fiscal year 2016, the District contracted with the Ohio School Plan, administered by Hylant Administrative Services, for general and professional liability with a \$3 million single occurrence limit and a \$5 million aggregate limit. Automobile bodily and property damage is covered by a \$3 million combined single occurrence limit. Property and vehicles are also protected with a \$1,000 deductible. Settled claims have not exceeded coverage in any of the past three years.

The District provides employee dental benefits through a premium insurance plan. Employee monthly contributions are determined by negotiated agreements with the certificated and non-certificated staff bargaining units. The premium is paid by the fund that pays the salary for the employee.

The District provides medical health insurance coverage for its employees on a self-funded basis and utilizes a third party to manage claims processing. Employee monthly contributions are determined by negotiated agreements with the certificated and non-certificated staff bargaining units. The premium is paid by the fund that pays the salary for the employee. Expenses for claims are recorded on a current basis based on an actuarially determined charge per employee. The District also purchased stop-loss insurance for claims exceeding \$150,000 per covered person. The District accounts for such activity in an internal service fund in accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*.

The District provides life insurance and accidental death and dismemberment insurance to employees in an amount related to the employee's position, ranging from \$20,000 to \$400,000.

The District is self-insured for workers' compensation coverage and utilizes a third party to manage claims processing. The workers' compensation premium is a fixed rate determined annually based on claims experience. The rate for fiscal year 2016 was 0.8 percent. The premium is paid by the fund that pays the salary for the employee. The District purchases stop-loss insurance for any claims exceeding \$400,000, and also paid into the Self-Insured Employers Guaranty Fund, which guarantees that claims are satisfied should the District become unable to pay them. The District accounts for such activity in an internal service fund in accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues.*

A claims liability of \$259,329 and \$1,076,000 was recorded at June 30, 2016 in the Workers' Compensation and Medical Self Insurance Funds, respectively. This reflects an estimate of incurred but unpaid and unreported claims at year end. Claims liabilities do not include non-incremental claims adjustment expenses. This estimate was calculated based on claims history.

Changes in the fund's claim liability for the past three years are as follows:

| Medical Self Insurance Fund | | | |
|---|-------------------------|---|--------------------------------|
| Fiscal Year Ending | <u>6/30/2016</u> | <u>6/30/2015</u> | <u>6/30/2014</u> |
| Claims liability beginning of year | \$ 888,00 | 00 \$ 908,000 | \$- |
| Claims incurred and changes in estimates | 12,424,65 | 55 11,645,530 | 5,704,538 |
| Claims Paid | (12,236,65 | 55) (11,665,530) | (4,796,538) |
| Claims liability end of year | \$ 1,076,00 | 00 \$ 888,000 | \$ 908,000 |
| | | | |
| Workers' Compensation Self Insurance F | und | | |
| <u>Workers' Compensation Self Insurance F</u> Fiscal Year Ending | und <u>6/30/2016</u> | <u>6/30/2015</u> | 6/30/2014 |
| | | · . · · · · · · · · · · · · · · · · · · | <u>6/30/2014</u> \$ 262,027 |
| Fiscal Year Ending | 6/30/2016 | 74 \$ 247,128 | |
| Fiscal Year Ending Claims liability beginning of year | 6/30/2016 \$312,17 | 74 \$ 247,128 51 221,230 | \$262,027 112,994 |

Claims are accrued based upon estimates of the claims liability made by management and the third party administrator (Actuary) of the District. These estimates are based on past experience and current claims outstanding. Actual claims experience may differ from the estimate. An actuary was used in the determination of the current liability.

12. Defined Benefit Pension Plans

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions--between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and

WORTHINGTON CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements, continued June 30, 2016

detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <u>www.ohsers.org</u> under Employers/Audit Resources. Age and service requirements for retirement are as follows:

| | Eligible to Retire before August 1, 2017 * | Eligible to Retire on or after August 1, 2017 |
|---------------------------------|--|--|
| Full Benefits | Any age with 30 years of service credit | Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit |
| Actuarially Reduced Benefits | Age 60 with 5 years of service credit Age 55 with 25 years of service credit | Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit |

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-ofliving adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. SERS did not allocate any employer contributions to the Health Care Fund for fiscal year 2016.

The District's contractually required contribution to SERS was \$2,474,008 for fiscal year 2016. Of this amount \$648,970 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <u>www.strsoh.org</u>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 12 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent

was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$8,426,585 for fiscal year 2016. Of this amount \$2,966,280 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

| | SERS | STRS | Total |
|------------------------------------|--------------|---------------|---------------|
| Proportion of the Net Pension | | | |
| Liability-Prior Measurement Date | 0.5612260% | 0.54897839% | |
| Proportion of the Net Pension | | | |
| Liability-Current Measurement Date | 0.5702988% | 0.55686231% | |
| Change in Proportionate Share | -0.0090728% | -0.00788392% | |
| Proportionate Share of the Net | | | |
| Pension Liability | \$32,541,802 | \$153,900,454 | \$186,442,256 |
| Pension Expense | \$2,331,627 | \$7,497,106 | \$9,828,733 |

At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | SERS | STRS | Total |
|---|-------------|--------------|--------------|
| Deferred Outflows of Resources | | | |
| Differences between expected and | | | |
| actual experience | \$521,062 | \$7,002,072 | \$7,523,134 |
| Difference between School District contribution | - | | |
| and proportionate share of contributions | 347,990 | 1,534,114 | 1,882,104 |
| School District contributions subsequent to the | | | |
| measurement date | 2,474,008 | 8,426,585 | 10,900,593 |
| Total Deferred Outflows of Resources | \$3,343,060 | \$16,962,771 | \$20,305,831 |
| | | | |
| Deferred Inflows of Resources | | | |
| Net difference between projected and actual | | | |
| earnings on pension plan investments | \$1,022,322 | \$10,802,274 | \$11,824,596 |
| Total Deferred Inflows of Resources | \$1,022,322 | \$10,802,274 | \$11,824,596 |

\$10,900,593 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

WORTHINGTON CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements, continued June 30, 2016

| Total | (\$153,270) | (\$2,266,088) | (\$2,419,358) |

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation3.25 percentFuture Salary Increases, including
inflation4.00 percent to 22 percentCOLA or Ad Hoc COLA3 percentInvestment Rate of Return7.75 percent net of investments expense, including
inflationActuarial Cost MethodEntry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|------------------------|----------------------|---|
| Cash | 1.00 % | 0.00 % |
| US Stocks | 22.50 | 5.00 |
| Non-US Stocks | 22.50 | 5.50 |
| Fixed Income | 19.00 | 1.50 |
| Private Equity | 10.00 | 10.00 |
| Real Assets | 10.00 | 5.00 |
| Multi-Asset Strategies | 15.00 | 7.50 |
| Total | 100.00 % | |

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

| | Current | | |
|---------------------------------------|--------------|---------------|--------------|
| | 1% Decrease | Discount Rate | 1% Increase |
| | (6.75%) | (7.75%) | (8.75%) |
| School District's proportionate share | | | |
| of the net pension liability | \$45,123,786 | \$32,541,802 | \$21,946,735 |

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

WORTHINGTON CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements, continued June 30, 2016

| Inflation | 2.75 percent |
|----------------------------|---|
| Projected salary increases | 12.25 percent at age 20 to 2.75 percent at age 70 |
| Investment Rate of Return | 7.75 percent, net of investment expenses |
| Cost-of-Living Adjustments | 2 percent simple applied as follows: for members retiring |
| | before August 1, 2013, 2 percent per year; for members |
| | retiring August 1, 2013, or later, 2 percent COLA paid on fifth |
| | anniversary of retirement date. |

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no setback for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

STRS' investment consultant by developing best estimates for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return* |
|----------------------|----------------------|--|
| | | |
| Domestic Equity | 31.00 % | 8.00 % |
| International Equity | 26.00 | 7.85 |
| Alternatives | 14.00 | 8.00 |
| Fixed Income | 18.00 | 3.75 |
| Real Estate | 10.00 | 6.75 |
| Liquidity Reserves | 1.00 | 3.00 |
| Total | 100.00 % | |

* 10-Year annualized geometric nomial returns include the real rate of return and inflation of 2.50%.

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

| | | Current | |
|------------------------------------|---------------|---------------|---------------|
| | 1% Decrease | Discount Rate | 1% Increase |
| | (6.75%) | (7.75%) | (8.75%) |
| School District's proportionate sh | are | | |
| of the net pension liability | \$213,779,341 | \$153,900,454 | \$103,263,929 |

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System of Ohio. As of June 30, 2016, four members of the Board of Education elected Social Security. The Board's liability is 6.2 percent of wages paid.

13. Post employment Benefits Other than Pension Benefits

A. School Employees Retirement System

Postemployment Benefits - In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers a postemployment benefit plan.

Health Care Plan Description - Sections 3309.375 and 3309.69 of the Ohio Revised Code permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The Ohio Revised Code provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plan.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required pensions and benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund to be used to subsidize the cost of health care coverage. For the year ended June 30, 2016, the health care allocation is 0%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro- rated if less than a full year of service credit was earned. By statute no employer shall pay a health care surcharge greater

than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the minimum compensation level was established at \$23,000. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. District contributions assigned to health care for the years ended June 30, 2016, 2015, and 2014 were \$288,227, \$245,197, and \$263,528, respectively. The entire amount has been contributed for fiscal years 2015 and 2014. For fiscal year 2016, the District has contributed 88 percent of the required amount.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports on SERS' Health Care plan is included in its Comprehensive Annual Financial Report. The report can be obtained on SERS' website at <u>www.ohsers.org</u> under Employers/Audit Resources.

B. State Teachers Retirement System

Plan Description – STRS administers a pension plan that is comprised of: a Defined Benefit Plan, a self-directed Defined Contribution Plan, and a Combined Plan that is a hybrid of the Defined Benefit Plan and the Defined Contribution Plan.

Ohio law authorizes STRS to offer a cost-sharing, multiple employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums.

Pursuant to Chapter 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent Comprehensive Annual Financial Report by visiting <u>www.strsoh.org</u> or by requesting a copy by calling toll-free 1-888-227-7877.

Funding Policy – Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14% employer contribution rate, 0% of covered payroll was allocated to post-employment health care for the years ended June 30, 2016 and 2015. For the years ended June 30, 2014, 1% of covered payroll was allocated to post-employment health care. The 14% employer contribution rate is the maximum rate established under Ohio law.

The District's contractually required health care contributions to STRS for fiscal years 2016, 2015, and 2014 were \$0, \$0, and \$566,441, respectively. The entire amount has been contributed for each fiscal year.

14. Contingencies

A. Grants

The federal and state grants remain subject to review and audit by the grantor agencies or their designees. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the District's administration believes such disallowances, if any, would be minimal.

B. Litigation

The District is a defendant in various lawsuits. The outcome and possible impact of these lawsuits is not presently determinable.

C. Significant Contractual Commitments

The District is undertaking several construction projects relating to the November 2012 Bond Levy. Below is a list of related outstanding significant commitments at year end, all included in the Building Fund:

| Vendor Name | Contract Amount | | | Amount Expended | В | alance 6/30/16 | |
|-------------------------------|-----------------|-----------|----|--------------------|-----------|----------------|--|
| Bruner Corporation | \$ | 218,896 | \$ | 6,087 | \$ | 212,809 | |
| Cincinnati Flooring Company | | 158,695 | | - | | 158,695 | |
| Continental Office | | 240,570 | | 142,147 | | 98,423 | |
| CTL Engineering Inc | | 203,519 | | 109,624 | | 93,895 | |
| Damschoeder Roofing Inc | | 806,126 | | 240,814 | | 565,312 | |
| Division 7 Inc | | 646,400 | | 125,304 | | 521,096 | |
| Environmental Demolition | | 103,939 | | - | | 103,939 | |
| Mays Consulting | | 119,500 | | 87,200 | | 32,300 | |
| Oracle Elevator Company | | 249,430 | | 49,886 | | 199,544 | |
| Sabo/Limbach | | 1,859,555 | | 711,285 | | 1,148,270 | |
| Wolfrum Roofing and Exteriors | 1,279,300 | | | 202,633 | 1,076,667 | | |
| | \$ | 5,885,930 | \$ | 1,674,980 | \$ | 4,210,950 | |

Amount reported here is different than the amount reported as construction in progress due to some amounts being repairs and maintenance costs that will not be capitalized.

15. Set-Asides

The District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years. The following cash basis information describes the change in year end set-aside amount for capital acquisition. Disclosure of this information is required by State statute.

| | Capital |
|---|--------------|
| | Acquisitions |
| Set-aside Reserve Balance carried forward at July 1, 2015 | - |
| Current year set-aside requirements | 1,612,623 |
| Qualifying disbursements | (2,910,801) |
| Total | (1,298,178) |
| Set-aside Reserve Balance at June 30, 2016 | - |

The District had disbursements during the year that reduced the set-aside amounts below zero for the capital acquisition set-aside.

16. Fund Deficits / Accountability

The following funds had deficit fund balances as of June 30, 2016:

| | D | eficit |
|--------------------------|------|---------|
| | Fund | Balance |
| Governmental Activities: | | |
| Special Revenue Funds- | | |
| Other State Grants | \$ | (417) |

The deficit fund balances are the result of the application of generally accepted accounting principles. The General Fund provides transfers to cover deficit fund balances; however, this is done when cash is needed rather than when accruals occur.

17. Change in Accounting Principle

For fiscal year 2016, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 72, "Fair Value Measurement and Application," GASB Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments," GASB Statement No. 79, "Certain External Investment Pools and Pool Participants," and GASB Statement No. 82, "Pension Issues - an Amendment of GASB Statements No. 67, No. 68 and No. 73."

GASB Statement No. 72 addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes for applying fair value to certain investments and disclosures related to all fair value measurements. These changes were incorporated in the District's fiscal year 2016 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 76 identifies-in the context of the current governmental financial reporting environment-the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with generally accepted accounting principles (GAAP) and the framework for selecting those principles. The implementation of this GASB pronouncement did not result in any changes to the District's financial statements.

GASB Statement No. 79 establishes accounting and financial reporting standards for qualifying external investment pools that elect to measure for financial reporting purposes all of their investments at amortized cost. This Statement provides accounting and financial reporting guidance and also establishes additional note disclosure requirements for governments that participate in those pools. The District participates in STAR Ohio which implemented GASB Statement No. 79 for the fiscal year 2016. The District incorporated the corresponding GASB 79 guidance into their fiscal year 2016 financial statements; however, there is no effect on beginning net position/fund balance.

GASB Statement No. 82, "Pension Issues-an amendment of GASB Statements No. 67, No. 68, and No. 73." GASB 82 addresses issues regarding (1) the presentation of payrollrelated measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial statement purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The implementation of this guidance did not have a material effect on the financial statements.

NOTE A - BUDGETARY DATA

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the fund and 1 level object for the General Fund. All other Funds are budgeted at the fund level. Any budgetary modifications at this level must be made by resolution of the Board of Education.

Tax Budget:

Prior to January 15, the Superintendent and the Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Franklin County Budget Commission for rate determination.

Estimated Resources:

Prior to March 15, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year do not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the Certificate is amended to include unencumbered cash balances from the preceding year. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final Amended Certificate issued during fiscal year 2016.

Appropriations:

Upon receipt from the County Auditor of an amended official certificate of estimated resources based on the final assessed values and tax rates or a certificate stating no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund and 1 level object for General Fund expenditures, and at the fund level for all other funds, which are the legal levels of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the

WORTHINGTON CITY SCHOOL DISTRICT Notes to the Required Supplementary Information For the Year Ended June 30, 2016

total of any fund appropriation or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education. The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent Certificate of Estimated Resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant. The budget figures which appear in the statements of budgetary comparisons represent the original and final appropriation amounts, including all supplemental appropriations.

Formal budgetary integration is employed as a management control device during the year for all funds, including the Debt Service Fund, consistent with statutory provisions.

Encumbrances:

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the Non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at year-end are reported in their respective category as restricted, committed, or assigned.

Lapsing of Appropriations:

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

NOTE B - RECONCILING BUDGET BASIS AND GAAP

The District prepares its budget on a basis of accounting that differs from generally accepted accounting principles (GAAP). The actual column presented on the Budgetary Comparison Schedule – General Fund is prepared in accordance with the budget basis of accounting.

The major differences between the budgetary basis of accounting and GAAP are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- B. Expenditures are recorded when encumbered (budget basis) as opposed to when the liability is incurred (GAAP basis);
- C. Encumbrances are recorded as the equivalent of expenditures (budget basis) as opposed to a reservation of fund balance (GAAP basis); and
- D. Investments are recorded at cost (budget basis) as opposed to fair value (GAAP basis).
- E. Some funds are included in the General Fund (GAAP basis) but have separate legally adopted budgets (budget basis). See note D below

A reconciliation of the General Fund results of operations at the end of the year on the GAAP basis to the budget basis follows:

| Net Change in Fund Balance (GAAP Basis) | \$ 12,309,605 |
|---|---------------|
| Adjustments: | |
| Due to Revenues | (1,453,084) |
| Due to Expenditures and Encumbrances | (2,519,859) |
| Due to Other Financing Sources | 1,838,263 |
| Funds Budgeted Elsewhere (See Note D) | (237,874) |
| Net Change in Fund Balance (Budget Basis) | \$ 9,937,051 |

NOTE C – SIGNIFICANT VARIANCES

Property Taxes revenues were \$1.9 million less than originally budgeted. This decrease was primarily due to receiving less advances on property taxes at year-end that were anticipated.

Purchased Services expenditures were \$3.9 million less than originally budgeted due to mild conditions and a collapse in fuel prices allowing for lower than expected utility costs.

NOTE D – FUNDS BUDGETED ELSEWHERE

As part of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting,* certain funds that are legally budgeted in separate special revenue funds are considered part of the General Fund on a GAAP basis. This includes the Special Rotary Fund, Public School Support Fund and the Kindergarten Plus Program Fund.

WORTHINGTON CITY SCHOOL DISTRICT

SUPPLEMENTAL DATA

Worthington Schools . . . Absolute Excellence...Exponential Impact

WORTHINGTON CITY SCHOOL DISTRICT MAJOR GOVERNMENTAL FUNDS

<u>General</u> – The general operating fund of the District used to account for the financial resources except those required to be accounted for in another fund. A budget comparison schedule has been included in the Required Supplementary Information section of this report

<u>Debt Service</u> – The debt service fund is used to account for the accumulation of resources for, and payment of, general long-term debt principal and interest.

<u>Building</u> – A fund used to account for the revenues and expenditures related to all special bond funds in the District. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs for acquiring capital facilities including real property.

| | Budgeted | | Variance with Final Budget: | |
|---|--------------------------|--------------------------|--------------------------------|------------------------|

Capital Projects Funds are used to account for financial resources and report financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

<u>Permanent Improvement</u> – A fund provided to account for and report financial resources that are restricted, committed, or assigned to expenditures related to the acquiring, constructing, or improving of such permanent improvements as authorized by Section 5705 of the Ohio Revised Code.

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

Food Service – A fund used to record the financial transactions related to the district's food service operation.

<u>Other Local Sources</u> – A fund used to account for specific local revenue sources received from various contributors that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures generally include community services.

<u>Uniform School Supplies</u> – A rotary fund provided to account for the purchase and sale of school supplies as adopted by the Board of Education for use in the schools of the district. Profit derived from such sale is to be used for school purposes or activities in connection with the school.

Special Rotary – A rotary fund provided to account for the income and expenditures in connections with (1) supplemental education classes, (2) a special education preschool program, (3) a life enrichment program, and (4) facility rentals. This fund is legally budgeted separately but included in the General Fund on a GAAP basis.

<u>Public School Support</u> – A fund used to account for specific local revenue sources, other than taxes or expendable trusts (i.e., profits from vending machines) that are used for various operating purposes at each department's discretion. This fund is legally budgeted separately but included in the General Fund on a GAAP basis.

<u>**Grants-Local Sources**</u> – A fund used to account for specific local revenue sources, other than taxes (i.e., profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

District Managed Student Activities – A fund provided to account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund would usually include athletic programs but also could include the band, cheerleaders, flag corps, and other similar types of activities.

<u>Auxiliary Services</u> – A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district. For generally accepted accounting principles, this fund is accounted for as a special revenue fund.

WORTHINGTON CITY SCHOOL DISTRICT NON-MAJOR GOVERNMENTAL FUNDS

<u>Data Communications Support</u> – A fund provided to account for monies appropriated from the State of Ohio for Ohio Educational Computer Network Connections.

<u>Other State Grants</u> - A fund provided to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant and be approved by the Auditor of State.

<u>Straight A Grant</u> - A fund provided to account for state grants to help Ohio schools launch creative new ideas for improving education. The District has partnered with the Educational Service Center of Central Ohio and the Fairfield County Educational Service Center. The District accounts for their share of the state grants and expenditures for the grants awarded.

Special Education Part B IDEA Grants - A fund provided to account for monies received to assist states in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Vocational Education Grants – A fund provided to account for monies received for vocational education, primarily those passed through the State of Ohio Department of Education related to the Carl D. Perkins Vocational and Applied Technology Act of 1990.

<u>**Title III Immigrant/LEP Grants**</u> – A fund provided to account for the Foreign Language Grant program at the elementary schools, which is funded with U.S. Department of Education grant monies.

<u>Title I Grants</u> – A fund which accounts for federal funds used to meet the special needs of educationally deprived children.

Special Education Preschool Grants – A fund provided to address the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

<u>Title IIA Grants</u> – A fund used to account for federal funds for improving teacher quality.

<u>Other Miscellaneous Federal Grants</u> – A fund used to account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate special cost center must be used for each grant and be approved by the Auditor of State.

WORTHINGTON CITY SCHOOL DISTRICT INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units on a cost-reimbursement basis.

Intra-District Services – A fund provided to account for operations that provide goods or services to other governmental units on a cost-reimbursement basis. For budgetary purposes, the Kindergarten Plus Program has been included in the amounts. However, the Kindergarten Plus Program has been included in the General Fund for GAAP purposes.

<u>Workers Compensation Self Insurance</u> – A fund provided to account for money received from other funds as payment for providing workers compensation insurance. Payments are made to a third party administrator for claims payments, claims administration, and stop-loss coverage.

<u>Medical Self Insurance</u> – A fund provided to account for money received from other funds as payment for providing medical insurance. Payments are made to a third party administrator for claims payments, claims administration, and stop-loss coverage.

Trust funds are used to account for assets held by the district in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds.

Agency funds are used to account for assets held by the district as an agent for individuals, private organizations, other governments, and/or other funds.

<u>**Private Purpose Trust</u>** – A trust fund used to account for money which has been set aside for scholarship purposes. The income from such funds may be expended in accordance with the related trust agreement, but the principal must remain intact.</u>

<u>Student Activity Agency</u> – An agency fund provided to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

District Tournament Host Agency – An agency fund provided to account for those tournaments hosted by the District on behalf of various athletic associations. The revenues and expenses are accounted for by the District with any excess funds being returned to the appropriate athletic association.

Community/Other School Agency – An agency fund provided to account for state foundation revenues related to resident students attending community schools or electing state scholarship opportunities per ORC 3314.08, ORC 3326.33, ORC 3310, and ORC 3313. According to the current state funding formula these funds are allocated to the resident district but paid directly to the respective school of attendance.

WORTHINGTON CITY SCHOOL DISTRICT STATISTICAL SECTION

This part of the Worthington City School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

| Contents | <u>Page(s)</u> |
|---|----------------|
| Financial Trends These schedules contain trend information to help the reader understand how the District's financial position has changed over time. | 98 |
| Revenue Capacity These schedules contain information to help the reader assess the affordability of the District's most significant local revenue source, the property tax. | 106 |
| Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future. | 112 |
| Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place. | 118 |
| Operating Information These schedules contain service to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs. | 120 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

- (a) The assessed value of real property is fixed at 35% of true value and is determined pursuant to the rules of the State Tax Commissioner
- (b) The rate at which tangible personal property used in business is assessed for purposes of ad valorem property taxation decreased one percent each year from 35% in 1983 until it reached 25% in 1993. HB66 phased out TPP with the last collection during 2010. Telephone property was reclassifed to General Business and assessed at 10% for 2009, 5% for 2010, and eliminated in 2011.
- (c) Assumes public utilites are assessed at true value which is 35%.
- (d) Tax rates are per \$1000 of assessed value. The rate represents the weighted average of all the effective (assessed rates) applied by property type.

Note: The Worthington City School District consists of the following five taxing districts: City of Worthington, City of Columbus, Village of Riverlea, Perry Township, and Sharon Township

Figures in parentheses reflect "effective" millage for residential/agricultural (upper) and commercial/industrial (lower) for the current collection year only. All other figures reflect voted millage.

Ohio Revised Code Sections 5705.02 and 5705.07 requires any millage exceeding the unvoted or "inside" millage can only be done by a vote of the people.
