# Dave Yost • Auditor of State

Board of Education Oakwood City School District 20 Rubicon Road Oakwood, Ohio 45409

We have reviewed the *Independent Auditor's Report* of the Oakwood City School District, Montgomery County, prepared by BHM CPA Group, Inc., for the audit period July 1, 2016 through June 30, 2017. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Oakwood City School District is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

#### Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Oakwood City School District Montgomery County 20 Rubicon Road Dayton, Ohio 45409

To The Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Oakwood City School District, Montgomery County, (the School District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated December 13, 2017.

#### Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies.

One East Campus View Blvd. Suite 300 • Columbus, OH 43235 • (614) 389-5775 • FAX (614) 467-3920 PO Box 875 • 129 Pinckney Street • Circleville, OH 43113 • (740) 474-5210 • FAX (740) 474-7319 PO Box 687 • 528 S. West Street • Piketon, OH 45661 • (740) 289-4131 • FAX (740) 289-3639 Members of the Board of Education Oakwood City School District Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

#### **Compliance and Other Matters**

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed instances of noncompliance or other matters we must report under *Government Auditing Standards* which are described in the accompanying schedule of findings as items 2017-001 through 2017-003.

#### Entity's Response to Findings

The School District's responses to the findings identified in our audit are described in the accompanying schedule of findings. We did not audit the School District's responses and, accordingly, we express no opinion on them.

#### **Purpose of this Report**

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BHM CPA Group

BHM CPA Group Inc. Piketon, Ohio December 13, 2017

Schedule of Findings June 30, 2017

#### FINDING NUMBER 2017-001

#### NONCOMPLIANCE

**Ohio Revised Code Section 5705.10(H),** states that monies paid into any fund shall be used only for the purpose such fund is established. The existence of a deficit balance in any fund indicates that money from another fund or funds have been used to pay the obligations of the fund or funds carrying the deficit balance.

**Ohio Revised Code Section 3315.20** allows school districts to have a deficit balance in any special fund if both of the following conditions are met:

- (A) The district has a request for payment pending with the state sufficient to cover the amount of the deficit and there is a reasonable likelihood that the payment will be made.
- (B) The unspent and unencumbered balance in the district's general fund is greater than the aggregate of deficit amounts in all of the district's special funds.

Review of the District's monthly financial reports noted several negative fund balances throughout the year and exceptions noted above were not met. Negative cash fund balances at June 30, 2017 were as follows:

Food Service Fund (006)	(\$673,807)
District Managed Activities	(\$662,977)

The District should develop and implement procedures to monitor fund cash balances and also consider the reduction of disbursements, if possible, to avoid negative balances. When expenditures are anticipated to temporarily exceed available resources, the District should consider an advance from the General Fund.

#### **Officials Response:**

Oakwood Schools contracted with Joanna Robinett of America's meal to evaluate our food service program. She is helping us with solutions to increase profit and decrease cost. Management will be making significant changes in the 2017-2018 fiscal year that will reduce cost.

#### FINDING NUMBER 2017-002

#### NONCOMPLIANCE

**Ohio Revised Code Section 5705.36(A)(4)** states that upon determination by the fiscal officer of a subdivision that the revenue to be collected by the subdivision will be less than the amount included in an official certificate and that the amount of the deficiency will reduce available resources below the level of current appropriations, the fiscal officer shall certify the amount of the deficiency to the commission, and the commission shall certify an amended certificate reflecting the deficiency.

#### Oakwood City School District Montgomery County, Ohio

Schedule of Findings June 30, 2017

#### FINDING NUMBER 2017-002 (Continued)

The following funds had available resources (Actual revenue plus July 1, 2016 Unencumbered Fund Balance) below the current level of appropriation at June 30, 2017:

Fund	Final <u>Appropriations</u>	Actual <u>Resources</u>	Variance
Food Service Fund (006)	\$578,540	(\$179,660)	(\$758,200)
Old River Athletic Facility	4,052,812	3,090,377	(962,435)

The District should monitor estimated and actual revenue throughout the year and obtain an amended certificate if revenues are going to significantly vary from the original estimate to prevent overappropriating available resources.

#### **Officials Response:**

Oakwood Schools contracted with Joanna Robinett of America's meal to evaluate our food service program. She is helping us with solutions to increase profit and decrease cost. Management will be making significant changes in the 2017-2018 fiscal year that will reduce cost.

#### FINDING NUMBER 2017-003

#### NONCOMPLIANCE

**Ohio Revised Code Section 5705.39** states, in part, that total appropriation from each fund should not exceed the total estimated resources for the respective fund. Further, no appropriation measure is to become effective until the county auditor files a certificate that the total appropriations from each fund do not exceed the total official estimate or amended official estimate of resources.

Fund	Appropriations	Estimated <u>Resources</u>	Variance
Food Service Fund (006)	\$578,540	(\$98,574)	(\$677,114)

The District should implement procedures to properly develop and monitor its budgetary expectations relating to appropriations and available resources. Doing so would enable the District to comply with budgetary requirements while limiting the risk of spending more than is available. When additional money becomes available, the District should amend its certificate and appropriations accordingly if the money is intended to be spent.

#### **Officials Response:**

Oakwood Schools contracted with Joanna Robinett of America's meal to evaluate our food service program. She is helping us with solutions to increase profit and decrease cost. Management will be making significant changes in the 2017-2018 fiscal year that will reduce cost.

#### The Citizens of Oakwood and the Board of Education Oakwood City School District

It is my honor to present the Comprehensive Annual Financial Report (CAFR) for the Oakwood City School District. This report provides full disclosures of the financial operations of the School District for the fiscal year ended June 30, 2017. The CAFR, which includes an opinion from BHM CPA Group, Inc., conforms to generally accepted accounting principles as applicable to governmental entities. Responsibility for both the accuracy of the data presented, and the completeness and fairness of the presentation, including all disclosures, rests with the management of the School District. To the best of our knowledge and belief, the data presented is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the School District. This report will provide the taxpayers, employees, parents, and other parties interested in the operation of the Oakwood City School District with comprehensive financial data in a format which will enable them to gain an understanding of the School District's financial affairs. Copies will be available to the Chamber of Commerce, major commercial and personal property taxpayers, the Wright Public Library, the Oakwood Schools Education Foundation, banking institutions and other interested parties.

#### THE SCHOOL DISTRICT

The School District is located in the City of Oakwood in Montgomery County. The City of Oakwood is located immediately south of the City of Dayton and adjacent to the University of Dayton. The City of Oakwood encompasses 2.97 square miles and the population is 8,999. Currently, the enrollment at the School District is 2,046. Enrollment is projected to remain consistent for next several years.

The School District operates 5 instructional buildings and 1 administrative building. These buildings have been in existence for between 73 and 105 years. Major improvements or additions were done in the 1940's and then again in fiscal years 2003 and 2004.

The citizens of the City of Oakwood have voted in 134.95 mills for operating funds with an effective millage rate of 63.9 as of June 30, 2017. A bond issue of \$20.2 million was approved in November 2002 for the renovation of school facilities. The effective millage of the bond issue was 4.13 as of June 30, 2017. The Oakwood School District passed a new 5.75 mill operating levy on November 8, 2016 that took effect for taxes paid in 2017.

Board of Education Michael A. Miller, President Todd T. Duwel, Vice President Cassie M. Darr Meredith Quigley Linda R. Woods Kyle B. Ramey, Ed.D, Superintendent Kevin S. Philo, Treasurer Allyson J. Couch, Director of Educational Services Kimbe L. Lange, Ed.D, Director of Curriculum, Instruction, Assessment Traci Hale, Community Relations Director Matt Sproat, Technology Coordinator Paul Waller, Oakwood High School Tim Badenhop, Oakwood Junior High School Sarah Patterson, Harman School Lynn Cowell, Smith Elementary School Frank Eaton, Lange School and Supervisor of Special Education Laura Connor, Director of Athletics and Student Activities

#### THE REPORTING ENTITY

Oakwood City School District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement Number 14, "The Financial Reporting Entity" and Governmental Accounting Standards Board Statement Number 39, "Determining Whether Certain Organization are Component Units." In evaluating how to define the District for financial reporting purposes, management has considered all funds, departments, boards, organizations, and agencies making up the Oakwood City School District, the primary government. Numerous entities conduct their activities within the School District's boundaries but these entities have been excluded from the financial statements. The School District cannot legally access their resources; the School District has no obligation to finance deficits or provide financial support to them; and the School District is not obligated for their debts.

#### SERVICES PROVIDED

The School District provides a wide variety of instruction and support services as mandated by state statute or public desire. These services include regular instruction, special instruction, student guidance services, and extracurricular activities. Support services are necessary to complete the educational process. These services include administration, technical, and other community services. Other activities include uniform school supply sales, food service operation, and a latchkey program. Uniform school supply sales consist of workbooks used by the students. The food service operation provides an opportunity for the children to receive a hot meal every school day, and the latchkey program provides care for School District students before and after school, during the summer, and during winter and spring breaks.

#### **ORGANIZATION OF THE SCHOOL DISTRICT**

The first official body designated as the Oakwood City School District Board of Education was formed in 1907. Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code for the purpose of providing educational services authorized by charter and further mandated by State and/or Federal Agencies.

A five member Board of Education serves as the taxing authority, contracting body and policy maker for the School District. The Board adopts the annual operating budget and approves all expenditures of School District funds.

The Superintendent is the chief administrative officer of the School District, responsible for both education and support operations. The Treasurer is the chief fiscal officer of the School District, responsible for maintaining records of all financial matters, issuing warrants for payment of liabilities incurred by the School District, and investing funds as specified by Ohio law.

#### **ECONOMIC CONDITION AND OUTLOOK**

The City of Oakwood consists of approximately 95 percent residential properties. No industrial operations are permitted within the city. Many of the residents are involved in business and professional careers. Given this fact, residential property values, which are the basis for most of the Oakwood City School District's revenues, have significantly increased in the past. The School District, along with many other public schools in the state, relies heavily on local property tax as a primary source of funds. Ohio law limits the growth in real estate revenues by reducing millage as assessed values increase following reappraisals. Consequently, revenues generated from each levy remain relatively constant. As a result, the School District must periodically seek additional funding from its taxpaying constituents. While statewide, voters have proved reluctant to increase their property taxes, the Oakwood City School District has received positive support from its taxpayers. The economic condition of the School District remains very strong and is projected to remain as such.

The Ohio Legislature biennial budget for Fiscal Year 2016 and 2017 included a modified version of the current funding formula. The State sets the calculation and distribution parameters such as the per-pupil amounts and the state/district share of the funding and calculation methodology pursuant to provisions of AM. SUB HB 64. In this budget are the nine components with 3 newly added components. These additions are Capacity Aid, 3rd grade Reading Bonus, and Graduation Bonus. The School District had estimated a decline in state funding beginning in fiscal year 2016 due to declining enrollment and declining state share of the core funding. Our State share of core funding declined in fiscal year 2017. However, the 3 new components will offset our decrease in funding and the School District will see a slight increase of overall funding.

#### MAJOR INITIATIVES AND ACCOMPLISHMENTS FOR THE SCHOOL DISTRICT

Major accomplishments at Oakwood City Schools are nothing new to this School District. The Oakwood City School District prides itself on being one of the top performing public school districts in the State of Ohio and is working to continue that tradition. Some interesting facts about the School District are:

- The Oakwood City School District has had the top median ACT score in the State of Ohio for the last nine years.
- Continually one of the top Performance Index Scores in Ohio for the past nine years.
- The dropout rate for Oakwood students is less than two percent per year.
- Over 80 percent of the secondary students participate in sports or co-curricular activities.
- On November 8, 2016, the Oakwood School District voters approved a 5.75 mill operating levy with 54% approval, continuing a streak of 38 years without a property tax levy defeat in Oakwood.
- Oakwood School District voters approved a 5.75 mill operating levy with 58 percent approval on November 5, 2013. The school district also passed a 1.8 mill Permanent Improvement Renewal Levy in May 2017 with a 78% passage rate.
- The School District voters in May 2002 approved a 6 mill operating levy with 69 percent approval. In November 2002, the Oakwood voters approved a 20.2 million dollar bond issue for facility additions and improvements with 65 percent of the vote and also passed a Permanent Improvement Renewal levy with 72 percent approval. In November 2004, the Oakwood voters approved a 5.50 mill operating levy with 60 percent approval. In May 2007, the Oakwood voters approved a 1.8 mill Permanent Improvement Replacement levy with 80 percent approval and in November 2007, they approved a 6.50 mill operating levy with 57 percent approval. In November 2010, the Oakwood voters approved a 5.75 mill operating levy with 63 percent approval. The voters in Oakwood have consistently valued excellent education and shown their overwhelming support at the polls.

#### ACCOUNTING, INTERNAL CONTROL AND FINANCIAL REPORTING

#### **Internal Accounting and Budgetary Control**

The School District's accounting system is organized on a "fund" basis. Each fund is a self-balancing accounting entity. In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted once the County Auditor has completed the tax duplicate for the upcoming calendar year, which is usually within the first three months of the fiscal year. All funds, other than the agency fund, are required to adopt annual appropriations.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates. State law permits the School District to make adjustments to estimated revenues and appropriations at any time prior to year-end.

All disbursements and transfers of cash between funds require appropriation authority from the Board of Education. Budgets for each of the different funds are controlled at various levels within each fund. All purchase order requests must be approved by the individual program managers and certified by the Treasurer, necessary funds are then encumbered and purchase orders released to vendors.

The accounting system used by the School District provides interim financial reports which detail year-todate expenditures and encumbrances versus the original appropriation plus any supplemental appropriations made to date.

As an additional safeguard, all employees involved with receiving and depositing funds are covered by a blanket bond, and certain individuals in policy-making roles are covered by a separate, higher bond.

The basis of accounting and the various funds utilized by the Oakwood City School District are fully described in the notes to the basic financial statements. Additional information on the School District's budgetary accounts can also be found in the notes to the basic financial statements.

#### **FINANCIAL CONDITION**

The School District has prepared its financial statements in accordance with GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments". GASB 34 created basic financial statements for reporting on the School District's financial activities as follows:

**Government-wide financial statements** – These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by many businesses.

**Fund financial statements** – These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities presented in the government-wide financial statements. Fiduciary funds use the accrual basis of accounting.

**Statement of budgetary comparisons** – This statement presents comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this reporting model, management is responsible for preparing a Management's Discussion and Analysis (MD&A) of the School District. This discussion is located in the financial section of this report following the audit opinion, and provides an assessment of the School District finances for fiscal year 2017. This transmittal letter is designed to complement the MD&A and should be read in conjunction with it.

#### **INDEPENDENT AUDIT**

Provisions of State statute require that the School District's financial statements be subjected to an annual audit by an independent auditor. Those provisions have been satisfied, and the opinion of BHM CPA Group, Inc. office is included herein.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio. The School District adopted and has been in conformance with that system effective with its annual financial report since the 1979 calendar year.

#### AWARDS

#### **GFOA Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Oakwood City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2016.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose content conforms to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. This was the twentieth year that the School District has received this prestigious award. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to the GFOA for review.

#### ASBO Certificate

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2016, to the Oakwood City School District.

This award certifies that the Comprehensive Annual Financial Report substantially conformed to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. The award is granted only after an intensive review of the financial report by an expert panel of certified public accountants and practicing school business officials. This was the twentieth year that the School District has received this prestigious award.

Management believes that the Comprehensive Annual Financial Report for the current year, which will be submitted to ASBO for review, will again conform to ASBO's principles and standards.

#### ACKNOWLEDGMENTS

The publication of this twenty-first Comprehensive Annual Financial Report for the Oakwood City School District is a major step in reinforcing the accountability of the School District to the taxpayers of the community.

We wish to express appreciation to the members of the Oakwood City School District Board of Education for supporting us in this endeavor and to the staff of the Treasurer's Office and various administrators and employees of the Oakwood City School District who contributed their time and effort to complete this project.

As always, a special thank you is given to the taxpayers, voters, parents and community, who demonstrate their continuing faith in the Oakwood City School District.

Respectfully Submitted,

Kevin S. Philo, Treasurer

Dr. Kyle Ramey, Superintendent

This Page Left Intentionally Blank

#### **Independent Auditor's Report**

Oakwood City School District Montgomery County 20 Rubicon Road Oakwood, Ohio 45409

To the Board of Education:

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Oakwood City School District, Montgomery County, Ohio (the School District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

One East Campus View Blvd. Suite 300 • Columbus, OH 43235 • (614) 389-5775 • FAX (614) 467-3920 PO Box 875 • 129 Pinckney Street • Circleville, OH 43113 • (740) 474-5210 • FAX (740) 474-7319 PO Box 687 • 528 S. West Street • Piketon, OH 45661 • (740) 289-4131 • FAX (740) 289-3639 Members of the Board of Education Oakwood City School District Independent Auditor's Report Page 2

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Oakwood City School District, Montgomery County, Ohio, as of June 30, 2017, and the respective changes in financial position thereof and the budgetary comparison for the General fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements. The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling these statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them. Members of the Board of Education Oakwood City School District Independent Auditor's Report Page 3

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2017, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

The discussion and analysis of the Oakwood City School District's financial performance provides an overview and analysis of the School District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review our letter of transmittal, notes to the basic financial statements and the financial statements themselves to enhance their understanding of the School District's financial performance.

#### Financial Highlights

- ► The liabilities and deferred inflows of Oakwood City School District exceeded its assets and deferred outflows at June 30, 2017 by \$30,248,665. Of this amount, \$9,802,674 represents the total of net investments in capital assets and net position amounts restricted for specific purposes. The remaining deficit of \$40,051,339 represents unrestricted net position.
- In total, net position of governmental activities decreased by \$1,344,269, which represents a 4.65 percent decrease from 2016.
- ► General revenues accounted for \$28,644,073 or 90.52 percent of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$2,998,647 or 9.48 percent of total revenues of \$31,642,720.
- ► The School District had \$32,986,989 in expenses related to governmental activities; only \$2,998,647 of these expenses were offset by program specific charges for services and sales, grants or contributions. General revenues (primarily taxes and grants and entitlements) of \$28,644,073 and net position carried forward from the prior year were utilized to provide for the remainder of these programs.
- ► The School District recognizes two major governmental funds: the General Fund and the Bond Retirement Fund. In terms of dollars received and spent, the General Fund is significantly larger than all the other funds of the School District combined. The General Fund had \$27,485,335 in revenues and \$27,072,586 in expenditures in fiscal year 2017.

#### **Using this Annual Report**

This annual report consists of a series of financial statements and notes to those statements. These statements are presented following the requirements of GASB Statement No. 34, and are organized so the reader can understand Oakwood City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. The School District's basic financial statements are comprised of three components: the government-wide financial statements, fund financial statements and notes to the basic financial statements.

#### OAKWOOD CITY SCHOOL DISTRICT Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

#### **Reporting the School District as a Whole**

#### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the School District's finances, in a manner similar to private-sector business. The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances.

The Statement of Net Position presents information on all of the School District's assets and deferred outflows and liabilities and deferred inflows, with the difference between the two reported as net position. Over time, increases and decreases in net position are important because they serve as a useful indicator of whether the financial position of the School District as a whole is improving or deteriorating. The cause of this change may be the result of several factors, some financial and some not. Nonfinancial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required but unfunded educational programs, and other factors. Ultimately, the School District's goal is to provide services to our students, not to generate profits as commercial entities do.

The Statement of Activities presents information showing how the School District's net position changed during the recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

In both of the government-wide financial statements, the School District activities are shown as Governmental Activities. All of the School District's programs and services are reported here including instructional services, support services and operation of non-instructional services. These services are funded primarily by taxes, tuition and fees, and intergovernmental revenues including federal and state grants and other shared revenues.

#### **Reporting the School District's Most Significant Funds**

#### **Fund Financial Statements**

The analysis of the School District's major funds begins on page 18. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General and Bond Retirement Funds.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objective. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the School District can be divided into one of two categories: governmental funds and fiduciary funds.

#### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

#### Fiduciary Funds

The School District's only fiduciary fund is an agency fund. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Fiduciary funds use the accrual basis of accounting.

#### Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

#### **Government-Wide Financial Analysis**

Recall that the Statement of Net Position provides the perspective of the School District as a whole, showing assets and deferred outflows of resources, liabilities and deferred inflows of resources, and the difference between them (net position). Table 1 provides a summary of the School District's net position for 2017 compared to fiscal year 2016: Table 1

Net Position at Year End				
	<b>Governmental Activities</b>			
		Restated		
	2017	2016		
<u>Assets:</u>				
Current and Other Assets	\$25,886,108	\$26,503,624		
Capital Assets, Net	21,878,650	19,018,135		
Total Assets	47,764,758	45,521,759		
Deferred Outflows of Resources:				
Deferred Charge of Refunding	423,770	756,884		
Pension	9,090,762	4,270,695

Other Amounts	16,512,566	17,005,883		
Total Liabilities	69,504,302	60,227,716		
<u>Deferred Inflows of Resources:</u>				
Property Taxes	18,023,653	16,664,621		
Pension	0	2,561,397		
Total Deferred Inflows of Resources	18,023,653	19,226,018		
Net Position:				
Net Investment in Capital Assets	7,477,698	4,696,411		
Restricted	2,324,976	4,738,764		
Unrestricted	(40,051,339)	(38,339,571)		
Total Net Position	(\$30,248,665)	(\$28,904,396)		

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB Statement No. 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB Statement No. 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

#### OAKWOOD CITY SCHOOL DISTRICT Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

Under the standards required by GASB Statement No. 68, the net pension liability equals the School District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension obligation, whether funded or unfunded, are part of the "employment exchange"- that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employer enters the exchange knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employee*. State law operates to mitigate/lessen the moral obligation of the public employer the employee, because all parties enter the employment exchange with notice as to law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB Statement No. 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB Statement No. 68, the School District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting.

Current assets decreased \$617,516 from fiscal year 2016 as a result of an increase in property taxes receivables that was exceeded by a decrease in cash and cash equivalents.

Capital assets increased \$2,860,515 as a result of capital asset additions exceeding current year depreciation.

Current and Other liabilities increased \$240,239 primarily as a result of increases in accrued wages and benefits and intergovernmental payable.

Long-term liabilities increased by \$9,696,215 or 17.5 percent as a result of an increase in net pension liability due to actuarial measurements done by the retirement systems.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

The School District's largest portion of net position is related to the net investment in capital assets. The School District used these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to pay these liabilities.

The School District's smallest portion of net position is unrestricted, and carries a deficit balance of \$40,051,339. Unrestricted net position represents resources that may be used to meet the School District's ongoing obligations to its students and creditors.

The remaining balance of \$2,324,976 is restricted net position. The restricted net position is subject to external restrictions on how they may be used.

Table 2 shows the changes in net position for fiscal year 2017 and provides a comparison to fiscal year 2016.

#### Table 2

Net Position-End of Year	(\$30,248,665)	(\$28,904,396)		

## Table 2Changes in Net Position (continued)

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

The most significant program expenses for the School District are Regular Instruction, Special Instruction, Administration, Extracurricular Activities and Operation and Maintenance of Plant. These programs account for 79.57 percent of the total governmental activities. Regular Instruction, which accounts for 45.07 percent of the total, represents costs associated with providing general educational services. Special Instruction, which represents 11.88 percent of the total, represent costs associated with providing educational services for handicapped, disadvantaged and other special needs students. Administration, which represents 7.92 percent of the total, represents costs associated with the overall administrative responsibility for each building and the School District as a whole. Extracurricular Activities, which represents 7.68 percent of the total cost, represents costs associated with student activities designed to provide opportunities for pupils to participate in such experiences for purposes such as motivation, enjoyment and skill improvement. Operation and Maintenance of Plant, which represents 7.00 percent of the total, represent costs associated with operating and maintaining the School District's facilities.

The majority of the funding for the most significant programs indicated above is from property taxes and grants and entitlements not restricted for specific programs. Property taxes and grants and entitlements not restricted for specific programs accounts for 87.68 percent of total revenues.

As noted previously, the net position for the governmental activities decreased \$1,344,269. This is a change from last year when net position increased \$2,560,522. Total revenues decreased \$550,156 or 1.71 percent over last year and expenses increased \$3,354,655 or 11.32 percent over last year.

The School District had program revenue decreases of \$2,602,608 due to a decrease in capital grants and contributions and increases in general revenues of \$2,052,452 due to an increase in property taxes and contributions and donations.

#### **Governmental Activities**

Over the past several fiscal years, the School District has remained in stable financial condition. This has been accomplished through strong voter support and good fiscal management. The School District is heavily dependent on property taxes and, like most Ohio schools, is hampered by a lack of revenue growth. Property taxes made up 61.37 percent of the total revenue of governmental activities in fiscal year 2017.

The Ohio Legislature passed H.B. 920 (1976) and changed the way property taxes function in the State. The overall revenue generated by a levy will not increase solely as a result of inflation. As an example, the School District would receive from a home valued at \$100,000 and taxed at 1.0 mill, \$35.00 annually. If three years later the home were reappraised and the value increased to \$200,000 (and this increase in value is comparable to other property owners) the effective tax rate would become 0.5 mill and the School District would still receive \$35.00 annually. Therefore, the School District must regularly return to the voters to maintain a constant level of service.

The School District's 1.8 mill Permanent Improvement Levy is an important piece of the financial picture. It funds not only facility maintenance and upkeep issues but also provides the bulk of the School District's technology needs and a large percentage of the State's set-aside requirements for capital improvements. The 5-year levy was first passed by School District voters in 1992 and has been renewed five times, the last time in May 2017.

#### **OAKWOOD CITY SCHOOL DISTRICT** Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

(Unaudited)

The School District voters approved an operating tax levy for 5.75 mills. It was passed in November 2016 as a continuous operating levy that will strengthen the General Fund and aid in paying operating costs.

The School District voters also approved a bond retirement tax levy for 3.93 mills. It was passed in November 2002 as part of a \$20,200,000 bond issue for facility improvements. This levy generates approximately \$1.2 million dollars in revenue for debt service payments.

Instruction accounts for 58.14 percent of governmental activities program expenses. Support services expenses make up 28.61 percent of governmental activities expenses. The Statement of Activities shows the cost of program services and charges for services and grants offsetting those services.

Table 3 shows, for governmental activities, the total cost of services and the net cost of services for fiscal year 2017 compared with fiscal year 2016. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3

	Table 3	5				
Net Cost of Governmental Activities						
	Total Cost of Services	Net Cost of Services	Total Cost of Services	Net Cost of Services		
	2017	2017	2016	2016		
Program Expenses:						
Instruction	\$19,178,337	\$17,502,298	\$18,039,875	\$16,210,029		
Support Services	9,438,374	9,333,454	8,607,434	8,564,148		
Operation of Non-Instructional Services	842,986	12,508	787,136	(41,850)		
Extracurricular Activities	2,532,007	2,144,797	1,336,283	(1,562,854)		
Issuance Costs	107,583	107,583	0	0		
Interest and Fiscal Charges	887,702	887,702	861,626	861,626		
Total Expenses	\$32,986,989	\$29,988,342	\$29,632,354	\$24,031,099		

#### The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. (See Note 2 for discussion of significant accounting policies). All governmental funds had total revenues and other financing sources of \$40,278,259 and expenditures and other financing uses of \$42,393,439.

Total fund balance for governmental funds decreased by \$2,115,180. The fund balance in the General Fund increased \$873,426. Although total revenue levels decreased and total expenditure levels increased since last year, revenues still outpaced expenditure activity in the General Fund. The fund balance in the Bond Retirement Fund increased \$106,148, as a result of revenues and other financing sources exceeding expenditures.

#### **Budget Highlights - General Fund**

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a cash basis for receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2017, the School District made one amendment to its General Fund budget. The School District uses a modified site-based budget technique that is designed to control site budgets while providing building administrators and supervisors' flexibility for site management.

The School District prepares and monitors a detailed cashflow plan for the General Fund. Actual cashflow is compared to monthly and year-to-date estimates, and a monthly report is prepared for top management and the Board of Education.

For the General Fund, the final budget basis revenue was \$26,933,102 representing no change from the original budget estimates. As a result, the actual revenue was less than the final budget estimate of revenue by \$24,946 or 0.09 percent, which is due primarily to the School District overestimating property tax revenues for the year.

For the General Fund, the final budget basis expenditures were \$27,146,523 representing a \$729,526 or 2.76 percent increase from the original budget estimates. The actual expenditures were \$405,704 or 1.49 percent less than the final budget estimate of expenditures due to the strict control of expenditures by management of the School District.

#### **Capital Assets and Debt Administration**

#### Capital Assets

At the end of fiscal year 2017, the School District had \$36.8 million invested in land, buildings and improvements, furniture and equipment, and vehicles, of which all was in governmental activities. That total carries an accumulated depreciation of \$14.9 million. Table 4 shows fiscal year 2017 balances compared to fiscal year 2016.

Capital Assets & Accumulated Depreciation at Year End

More detailed information pertaining to the School District's capital asset activity can be found in Note 9 of the notes to the basic financial statements.

#### **Debt Administration**

At June 30, 2017, the School District had \$15,872,257 in bonds and capital leases outstanding with \$1,103,518 due within one year. Table 5 summarizes the long-term bonds outstanding for fiscal year 2017 compared to fiscal year 2016.

### Table 5Outstanding Debt, Governmental Activities at Year End

Purpose	2017	Restated 2016
Facility Renovation/Refunding Bonds	\$13,450,000	\$14,150,000
Issuance Premiums on Bonds	969,520	928,608
Accretion on Capital Appreciation Bonds	1,047,535	817,216
Capital Leases	405,202	0
Total	\$15,872,257	\$15,895,824

#### OAKWOOD CITY SCHOOL DISTRICT Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 (Unaudited)

More detailed information pertaining to the School District's long-term debt activity can be found in Note 14 of the notes to the basic financial statements.

#### **Current Issues**

Although considered a mid-wealth district, Oakwood City School District is financially stable, and has been over the past several years. As indicated in the preceding financial information, the School District is heavily dependent on property taxes. Property tax revenue does not increase solely as a result of inflation. Therefore, in the long-term, the current program and staffing levels will be dependent on increased funding to meet inflation. Careful financial planning and the passage of a building levy have permitted the School District to provide a quality education for our students along with renovated facilities for the future.

The Oakwood City School District does not anticipate any meaningful growth or loss in revenue as a result of these changes. Based on these factors, the Board of Education and the administration of the School District must maintain careful financial planning and prudent fiscal management in order to preserve the financial stability of the School District.

The Ohio Legislature biennial budget for Fiscal Year 2017 and 2018 included a modified version of the current funding formula. The State sets the calculation and distribution parameters such as the per-pupil amounts and the state/district share of the funding and calculation methodology pursuant to provisions of AM. SUB HB 64. In this budget are the nine components with 3 newly added components. These additions are Capacity Aid, 3<sup>rd</sup> grade Reading Bonus, and Graduation Bonus. The School District estimated a decline in state funding beginning in fiscal year 2016 due to declining enrollment and declining state share of the core funding. Our State share of core funding declined in fiscal year 2017. However, the 3 new components will offset our decrease in funding and the School District has seen a slight increase of overall funding.

Recently, the Oakwood City Schools received an additional financial commitment from its voters with the passage of a 5.75 mill continuous operating levy on November 8, 2016 with an approval rate of 54%. This is in addition to the passage of a five year permanent improvement renewal levy of 1.8 mills in May 2017 with a passage rate of 72%. These follow an approved 5.75 mill levy in November 2013 (58% approval), November 2010 (63% approval) and a 6.5 mill levy in November 2007 (57% approval).

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it received. If you have any questions about this report or need additional information, contact Kevin S. Philo, Treasurer of Oakwood City School Board of Education, 20 Rubicon Road, Dayton, OH 45409.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2017

Amounts reported for governmental activities in the statement of activities are different because:       Image: Constraint of activities are different because:         Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.       Image: Constraint of activities as depreciation expense.         This is the amount by which capital asset additions exceeded depreciation in the current period.       3,952,393         Depreciation       (1,091,878)	60,515
the cost of those assets is allocated over their estimated useful lives as depreciation expense.This is the amount by which capital asset additions exceeded depreciation in the current period.Capital asset additionsDepreciation(1,091,878)	60,515
	60,515
Total 2,860,51	
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. These revenues consist of:       (107,051)         Property taxes       (107,051)         Intergovernmental revenue       1,801	
Total (105,25	05,250)
Repayment of long-term bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.8,200,47	.00,475
In the statement of activities, interest is accrued on outstanding bonds, bond accretion, bond premium, and loss on refundings are amortized over the term of the bonds, whereas in governemental funds, an interest expenditure is reported when due and accretions, premiums, and loss on refundings are reported when the bonds are issued:3,643Accrued interest on bonds3,643Annual accretion on capital appreciation bonds(230,319)Amortization of premium on bonds498,700Amortization of deferred charges on refundings(395,896)	
Total (123,87	23,872)
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of: Compensated absences (122,39)	22.390)
Other financing sources in the governmental funds that increase long-term obligations in the statement of net position are not reported as revenues in the statement of activities.       (7,360,000)         Proceeds from the issuance of refunding bonds       (7,360,000)         Premium on the issuance of refunding bonds       (539,612)         Deferred charges on refunding bonds       62,782         Inception of Capital Leases       (545,677)	. ,
Total (8,382,50	82,507)
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of activities reports these amounts as deferred revenues. 2,392,40	92,408
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities. (3,948,46	48,468)
Change in Net Position of Governmental Activities(\$1,344,26	44,269)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

#### NOTE 1 – <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - DESCRIPTION OF THE SCHOOL</u> <u>DISTRICT AND REPORTING ENTITY</u>

#### Description of the School District

Oakwood City School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state statute and/or federal guidelines. It is staffed by 76 non-certificated employees, 154 certificated full-time teaching personnel and 10 administrative employees who provide services to 2,028 students and other community members. The School District currently operates 5 instructional buildings and 1 administrative building.

#### **Reporting** Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Oakwood City School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District has no component units.

The School District is associated with two jointly governed organizations, an insurance purchasing pool and one related organizations. These organizations are the Meta Solutions, the Southwestern Ohio Educational Purchasing Council (SOEPC), the Ohio School Boards Association Worker's Compensation Group Rating Plan (GRP), and the Wright Memorial Public Library, respectively. These organizations are presented in Notes 21, 22 and 23 to the basic financial statements.

#### NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u>

The financial statements of the Oakwood City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

### **NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u> - (Continued)**

#### A. Basis of Presentation

The School District's basic financial statement consists of government-wide financial Statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

#### **Government-Wide Financial Statements**

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The School District has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. The policy of the School District is to not allocate indirect expenses to functions in the Statement of Activities. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

#### Fund Financial Statements

During the year, the School District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

#### B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with self-balancing set of accounts. The funds of the School District fall within two categories: governmental and fiduciary.

#### Governmental Funds

Governmental funds are those through which most governmental functions of the School District are financed. Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities plus deferred inflows of resources is reported as fund balance.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

## **NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u> - (Continued)**

The following are the School District's major governmental funds:

<u>General Fund</u>- This fund is the operating fund of the School District and is used to account for all financial resources, except those accounted for in another fund. The General Fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

**<u>Bond Retirement Fund</u>**- This fund is used to account for financial resources accumulated for the payment of general long-term debt principal, interest and related costs.

The other governmental funds of the School District account for grants and other resources of the School District whose use is restricted to a particular purpose.

#### Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only fiduciary fund is an agency fund which is used to account for student managed activities.

#### C. <u>Measurement Focus</u>

#### **Government-Wide Financial Statements**

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, liabilities and deferred outflows/inflows of resources associated with the operation of the School District are included on the statement of net position.

#### Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current liabilities and deferred outflows/inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

#### D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the financial statements of the fiduciary fund are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and outflows of resources, and in the presentation of expenses versus expenditures.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

### **NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u> - (Continued)**

#### **Revenues - Exchange and Nonexchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined and "available" means that the resources are collectible within the current fiscal year, or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 7). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at the fiscal year-end: property taxes available for advance, tuition and fees and grants.

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources include a deferred charge on refunding and pension reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 11.

In addition to the liabilities, the statement of net position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2017, but which were levied to finance fiscal year 2018 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

#### Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

### **NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u> - (Continued)**

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

#### E. <u>Cash and Cash Equivalents</u>

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements.

During the fiscal year 2017, the School District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2017, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2017 amounted to \$14,116. The Non-Major Permanent Fund received interest of \$98 during the year of 2017.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

#### F. <u>Inventory</u>

On government-wide financial statements, inventories held for resale are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories held for resale of governmental funds are stated at the lower of cost or market. Cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when consumed or used.

#### G. <u>Prepaid Items</u>

Payments made to vendors for services that will benefit periods beyond June 30, 2017, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed. As of June 30, 2017, the School District reported no prepaid items.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

## **NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u> - (Continued)**

#### H. <u>Restricted Assets</u>

Assets are reported as restricted when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors or laws of other governments or imposed by enabling legislation. As of June 30, 2017, the School District reported no restricted assets.

#### I. <u>Capital Assets</u>

General capital assets are associated with and generally arise from governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets, donated works of art and similar items and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value. The School District maintains a capitalization threshold of five hundred dollars. The School District does not possess any infrastructure. Improvements are capitalized; the normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Buildings and Improvements	20 - 50 years
Furniture, Fixtures and Equipment	5 - 30 years
Vehicles	7 - 10 years

#### J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivable" and "Interfund Payable". These amounts are eliminated in the governmental activities column of the statement of net position.

#### K. <u>Pensions</u>

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

#### *NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u> (Continued)*

#### L. <u>Compensated Absences</u>

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributed to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payments in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for all employees after 7 years of service with the School District, who are at least 45 years old or are eligible to retire based on years of service and age.

The entire compensated absence liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employees will be paid.

#### M. Accrued Liabilities and Long-Term Liabilities

All payables, accrued liabilities and long-term liabilities are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, and special termination of benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds are recognized as a liability on the fund financial statements when due.

#### N. <u>Net Position</u>

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

Net position restricted for other purposes is primarily for federal and state grants reported in the Special Revenue Funds.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

## **NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u> - (Continued)**

#### O. Fund Balance

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. Fund balances of the governmental funds are classified as follows:

<u>Nonspendable</u> – amounts that cannot be spent because they are either not in a spendable form or because they are legally or contractually required to be maintained intact.

<u>**Restricted**</u> – amounts that can be spent only for specific purposes because either (a) constraints imposed by law through constitutional provisions, charter requirements or enabling legislation; or (b) constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments.

<u>**Committed</u>** – amounts that can only be used for specific purposes pursuant to constraints imposed by formal ordinances of the Board of Education – the School District's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Board of Education removes the specified use by taking the same type of action as when imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.</u>

<u>Assigned</u> – amounts constrained by the School District's "intent" to be used for specific purposes, but are neither restricted nor committed. The Board of Education, Superintendent and Treasurer have the authority to assign amounts to be used for specific purposes, per Board policy establishing job descriptions, functions and authorities. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

<u>Unassigned</u> – this is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the School District considers restricted funds to have been spent first. When expenditures are incurred for which committed, assigned or unassigned fund balances are available, the School District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Education has provided otherwise in its commitment or assignment actions.

#### P. Interfund Transactions

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another fund without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements. Interfund activity has been eliminated in the governmental activities column of the statement of activities. Interfund services provided and used are not eliminated in the process of consolidation.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

### **NOTE 2 - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – BASIS OF PRESENTATION</u> - (Continued)**

#### Q. <u>Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

#### R. Budgetary Process

All funds, other than the agency fund, are legally required to be budgeted and appropriated. The Library Automation, Local Professional Development, Education Management Information Systems, Entry Year Program, Ohio School Net Professional Development, Ohio Reads, Summer School Subsidy, Emergency Repairs Grant, Miscellaneous State Grants, Impact Aid, Title III, Drug Free Schools Program, Miscellaneous Federal Grants Special Revenue Funds, Harman Playground Project Capital Projects Fund, and the Unclaimed Monies Fund had no anticipated revenues/expenditures and were not budgeted. However, budgetary schedules have been presented for these funds to disclose their remaining fund balances. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting.

The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of budgetary control for General Fund, Bond Retirement, Debt Service Fund, Permanent Improvement Capital Projects Fund, Food Service and Uniform School Supplies Special Revenues Funds is at the object level within each fund and function. All other funds are budgeted at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2017.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

#### NOTE 3 – <u>CHANGES IN ACCOUNTING PRINCIPLES AND RESTATEMENT OF NET POSITION</u>

For fiscal year 2017, the School District implemented GASB Statement No. 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans", GASB Statement No. 77, "Tax Abatement Disclosures", GASB Statement No. 78, "Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans", GASB Statement No. 80, "Blending Requirements for Certain Component Units", and GASB Statement No. 82, "Pension Issues." The implementation of GASB Statements Nos. 74, 77, 78, 80 and 82 had no effect on the prior period net position or fund balances of the School District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

### *NOTE 3 – <u>CHANGES IN ACCOUNTING PRINCIPLES AND RESTATEMENT OF NET POSITION</u> - (Continued)*

During fiscal year 2017, the School District found during its current bond refunding, that a portion of the unrefunded 2007 Refunding Bonds were capital appreciation bonds, which resulted in a prior period restatement to the June 30, 2016 net position. The School District has made a restatement to report the liability for the amount of accretion on these capital appreciation bonds as of June 30, 2016.

Net Position June 30, 2016	(\$28,244,528)
Adjustments:	
Increase in Capital Appreciation Bonds	(659,868)
Restated Net Position June 30, 2017	(\$28,904,396)

#### NOTE 4 - ACCOUNTABILITY AND COMPLIANCE

#### Accountability

At June 30, 2017, the following funds had a deficit fund balance:

Fund	Amount
Nonmajor Special Revenue Fund:	
Food Service	\$598,435
Nonmajor Capital Project Fund:	
Old River Athletic Facility	521,956

The deficit in these funds resulted from the application of generally accepted accounting principles. The General Fund is liable for any deficit in a fund and provides transfers when cash is needed, rather than when accruals occur. The School District is analyzing the situation in the Food Service Special Revenue Fund and is still considering the possibility of increasing lunch rates to reduce the current fund balance deficit.

#### **Compliance**

**Ohio Rev. Code Section 5705.10(H)** states that monies paid into any fund shall be used only for the purpose such fund is established. The existence of a deficit balance in any fund indicates that money from another fund or funds have been used to pay the obligations of the fund or funds carrying the deficit balance.

At June 30, 2017, the following cash basis deficit fund balances existed:

Nonmajor Special Revenue Fund:	
Food Service	\$673,807
Nonmajor Capital Project Fund:	
Old River Athletic Facility	662,977

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

#### NOTE 4 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

**Ohio Rev. Code Section 5705.36**(A)(4) states that upon determination by the fiscal officer that the revenue to be collected will be less than the amount included in an official certificate and that the amount of the deficiency will reduce available resources below the level of current appropriations, the fiscal officer shall certify the amount of the deficiency to the commission and a reduced amended certificate will be obtained.

The following funds had available resources (Actual revenue plus July 1, 2016 Unencumbered Fund Balance) below the current level of appropriations at June 30, 2017:

	Final		
Fund	Appropriations	Actual Resources	Variance
Food Service	\$578,540	(\$179,660)	(\$758,200)
Old River Athletic Facility	4,052,812	3,090,377	(962,435)

**Ohio Rev. Code Section 5705.39** states that the total appropriation from each fund should not exceed the total estimated resources for the respective fund. Further, no appropriation measure is to become effective until the county auditor files a certificate that the total appropriations from each fund do not exceed the total official estimate or amended official estimate of resources.

The following fund had appropriations in excess of estimated resources plus available balances for the fiscal year ended June 30, 2017:

	Estimated		
Fund	Resources	Appropriations	Excess
Food Service	(\$98,574)	\$578,540	(\$677,114)

The School District did not obtain an amended certificate of estimated resources in accordance with Ohio Rev. Code Section 5705.36 (A) (2), (3) and (4).

#### NOTE 5 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described earlier is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Budget Basis) is presented for the General Fund on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and modified accrual GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than as a restricted, committed or assigned fund balance (GAAP basis).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

#### NOTE 5 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

4. Certain funds are maintained as separate funds for accounting and budgetary purposes (budget basis) but do not meet the criteria for separate reporting in the financial statements (GAAP basis) and are reported in the General Fund in accordance with GASB Statement No. 54.

The following table summarizes the adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund.

Net Change in Fund Balance	
GAAP Basis	\$873,426
Adjustments:	
Revenue Accruals	(324,439)
Expenditure Accruals	731,386
Encumbrances	(626,953)
Other Uses	(545,677)
Prospective Difference:	
Activity of Funds Reclassified For	
GAAP Reporting Purposes	(25,406)
Budget Basis	\$82,337

#### NOTE 6 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must be either evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts including passbook accounts.

Public depositories must give security for all public funds on deposit. Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 6 - <u>DEPOSITS AND INVESTMENTS</u> - (Continued)

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above, provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to fair value daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section, and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain bankers acceptances and commercial paper notes for a period not to exceed one hundred eighty days from the date of purchase in an amount not to exceed twenty-five percent of interim monies available for investment at any time;
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies; and
- 9. Time certificates of deposit or savings or deposit accounts, including, but not limited to passbook accounts.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

At fiscal year end, the School District had \$6,953 in undeposited cash on hand which is included on the balance sheet of School District as part of "Equity in Pooled Cash and Cash Equivalents."

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 6 - <u>DEPOSITS AND INVESTMENTS</u> - (Continued)

**Deposits:** Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the School District.

At June 30, 2017, the School District bank balance of \$5,301,745 was covered by Federal Deposit Insurance (FDIC) or collateralized by the financial institution's public entity deposit pool in the manner described above.

*Investments:* As of June 30, 2017, the School District had the following investments and maturity:

	Net Asset Value	6 Months
Investment Type	Per Share	or Less
STAR Ohio	\$1,530,987	\$1,530,987

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The School District only has STAR Ohio as an investment which is valued at its net asset value per share.

<u>Interest Rate Risk</u>: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the School District's investment policy limits investment portfolio maturities to five years or less.

<u>Credit Risk:</u> The School District has no investment policy that limits its credit risk other than the limitations of state laws mentioned previously. Standard and Poor's has assigned STAR Ohio Fund an "AAAm" money market rating.

<u>Concentration of Credit Risk</u>: Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The School District's investment policy allows investments in eligible securities as described in the Ohio Revised Code.

<u>Custodial Credit Risk</u>: For investments, custodial credit risk is the risk that, in the event of the failure of the counter party, the School District will not be able to recover the value of its investments or collateral securities in the possession of an outside party. School District policy provides that investment collateral is held by the counter party as trust department or agent, and may be held in the name of the School District or not.

# NOTE 7 - <u>PROPERTY TAXES</u>

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half of tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

## NOTE 7 - PROPERTY TAXES - (Continued)

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar 2017 represents collections of calendar year 2016 taxes. Real property taxes received in calendar year 2017 were levied after April 1, 2016, on the assessed value listed as of January 1, 2016, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2017 represents collections of calendar year 2017 taxes. Public utility real and tangible personal property taxes received in calendar year 2017 became a lien December 31, 2015, were levied after April 1, 2016 and are collected with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Montgomery County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2017 are available to finance fiscal year 2017 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents the June 2017 personal property tax settlement, delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which become measurable as of June 30, 2017. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred inflows of resources for that portion not intended to finance current year operations. The total amount available as an advance at June 30, 2017 was \$1,198,094 and is recognized as revenue. Of this total amount, \$1,104,160 was available to the General Fund, \$65,421 was available to the Bond Retirement Fund, and \$28,513 was available to the Permanent Improvement Fund.

The assessed values upon which the fiscal year 2017 taxes were collected are:

	2016 Second - Half Collections		2017 First - Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$293,816,440	99.28%	\$294,134,250	99.22%
Public Utility Personal	2,142,360	0.72%	2,323,250	0.78%
Total Assessed Value	\$295,958,800	100.00%	\$296,457,500	100.00%
Total rate per \$1,000 of assessed valuation	\$129.2	0	\$134.9	95

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 8 - <u>RECEIVABLES</u>

Receivables at June 30, 2017 consisted of property taxes, interfund, intergovernmental, and accounts. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables follows:

Governmental Activities:	
General Fund	\$11,650
Nonmajor Special Revenue Funds:	
Title VI-B	71,571
Title I	31,240
Total Nonmajor Special Revenue Funds	102,811
Total	\$114,461

# NOTE 9 - <u>CAPITAL ASSETS</u>

Capital asset governmental activity for the fiscal year ended June 30, 2017 was as follows:

Asset Category	Balance at July 1, 2016	Additions	Deletions	Balance at June 30, 2016
Nondepreciable Capital Assets:				
Land	\$488,237	\$0	\$0	\$488,237
Depreciable Capital Assets:				
Land Improvements	0	2,974,305	0	2,974,305
Buildings and Improvements	24,119,578	871,098	0	24,990,676
Furniture, Fixtures and Equipment	8,042,389	106,990	0	8,149,379
Vehicles	175,029	0	0	175,029
Total Depreciable Capital Assets	32,336,996	3,952,393	0	36,289,389
Total Capital Assets	32,825,233	3,952,393	0	36,777,626
Accumulated Depreciation:				
Land Improvements	0	(37,179)	0	(37,179)
Buildings and Improvements	(7,481,303)	(490,206)	0	(7,971,509)
Furniture, Fixtures and Equipment	(6,232,607)	(548,109)	0	(6,780,716)
Vehicles	(93,188)	(16,384)	0	(109,572)
Total Accumulated Depreciation	(13,807,098)	(1,091,878)	0	(14,898,976)
Total Net Capital Assets	\$19,018,135	\$2,860,515	\$0	\$21,878,650

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 9 - CAPITAL ASSETS - (Continued)

Depreciation expense was charged to governmental functions as follow:

Instruction:	
Regular	\$463,893
Special	6,306
Support Services:	
Pupil	40
Instructional Staff	77
Administration	14,318
Fiscal	405
Operation and Maintenance of Plant	9,780
Pupil Transportation	13,405
Operation of Non-Instructional Services	1,344
Extracurricular Activities	12,942
Capital Outlay	569,368
Total Depreciation Expense	\$1,091,878

#### NOTE 10 - <u>RISK MANAGEMENT</u>

#### **Property and Liability**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2017, the School District contracted with Ohio Casualty Company for general liability insurance with a \$1,000,000 single occurrence limit and a \$2,000,000 aggregate. Property is protected by Ohio Casualty Company and hold a \$2,500 deductible. The total amount of property covered is \$63,393,201. The School District's vehicles are covered under a business policy with Ohio Casualty Company which carries a \$1,000,000 limit on any accident. Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from last year.

# NOTE 11 - DEFINED BENEFIT PENSION PLANS

#### Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

# **OAKWOOD CITY SCHOOL DISTRICT** Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 11 - <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

GASB Statement No. 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

#### Plan Description - School Employees Retirement System (SERS)

*Plan Description* – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit Age 65 with 5 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2018, will be included in this plan.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 11 - <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

*Funding Policy* – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2017, the allocation to pension, death benefits, and Medicare B was 14 percent. None of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The School District's contractually required contribution to SERS was \$526,512 for fiscal year 2017. Of this amount, none is reported as an intergovernmental payable.

## Plan Description - State Teachers Retirement System (STRS)

*Plan Description* – School District licensed teachers and other faculty members participate in STRS Ohio, a costsharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <u>www.strsoh.org</u>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation became 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013 or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement increased effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 11 - <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB Statement No. 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

*Funding Policy* – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2016, when it reached 14 percent. For the fiscal year ended June 30, 2017, plan members were required to contribute 14 percent of their annual covered salary. The School District was required to contribute 14 percent was the portion used to fund pension obligations. The fiscal year 2017 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$1,865,896 for fiscal year 2017. Of this amount, \$315,836 is reported as an intergovernmental payable.

# <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u> <u>Related to Pensions</u>

The net pension liability reported as of June 30, 2017 was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

#### NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

	SERS	STRS	Total
Proportion of the Net Pension Liability Prior Measurement Date	0.10511700%	0.12113926%	
Proportion of the Net Pension Liability Current Measurement Date	0.10407880%	0.12188129%	
Change in Proportionate Share	-0.00103820%	0.00074203%	
Proportionate Share of the Net Pension Liability Pension Expense	\$7,617,608 \$831,428	\$40,797,342 \$3,117,040	\$48,414,950 \$3,948,468

At June 30, 2017, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$102,743	\$1,648,409	\$1,751,152
Net difference between projected and Actual Investment	628,342	3,387,276	4,015,618
Change in Assumptions	508,517	0	508,517
Changes in Proportion and Differences between School District			
Contributions and Proportionate Share of Contributions	83,387	339,680	423,067
School District contributions subsequent to the measurement date	526,512	1,865,896	2,392,408
Total Deferred Outflows of Resources	\$1,849,501	\$7,241,261	\$9,090,762

\$2,392,408 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

SERS	STRS	Total
\$346.461	\$896,568	\$1,243,029
346,007	896,568	1,242,575
449,897	2,196,358	2,646,255

# NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

#### Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2016, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	4.50 percent to 18.20 percent
COLA or Ad Hoc COLA	3.00 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

## NOTE 11 - <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

**Discount Rate** - The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount - *Rate* Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	Current				
	1% Decrease Discount Rate 1% Increas				
	(6.50%)	(7.50%)	(8.50%)		
School District's proportionate share					
of the net pension liability	\$10,085,238	\$7,617,608	\$5,552,099		

#### **Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA paid on fifth anniversary of retirement date.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 11 - <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2016, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
-		
Total	100.00 %	

\* 10 year annualized geometric nominal returns include the real rate of return and inflation of 2.5 percent, and does not include investment expenses. The total fund long-term expected return reflects diversification among the asset classes and therefore is not a weighted average return of the individual asset classes.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2016. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2016.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount *Rate* - The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 11 - <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
School District's proportionate share			
of the net pension liability	\$54,216,352	\$40,797,342	\$29,477,615

*Changes between Measurement Date and Report Date* – In March 2017, the STRS Board adopted certain assumption changes which will impact their annual actuarial valuation prepared as of June 30, 2017. The most significant change is a reduction in the discount rate from 7.75 percent to 7.45 percent. In April 2017, the STRS Board voted to suspend cost of living adjustments granted on or after July 1, 2017. Although the exact amount of these changes is not known, the overall decrease to School District's net pension liability is expected to be significant.

## NOTE 12 - POSTEMPLOYMENT BENEFITS

## School Employees Retirement System

*Health Care Plan Description* - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at HYPERLINK "http://www.ohsers.org/"www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

*Funding Policy* - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2017, 0 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2017, this amount was \$23,500. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2017, the School District's surcharge obligation was \$50,854. The School District's contributions for health care for the fiscal years ended 2017, 2016, 2015, were \$0, \$0, \$83,480, respectively.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 12 - POSTEMPLOYMENT BENEFITS – (Continued)

# School Teachers Retirement System

*Plan Description* – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting HYPERLINK "http://www.strsoh.org" www.strsoh.org or by calling (888) 227-7877.

*Funding Policy* – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2017, STRS did not allocate any employer contributions to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2017, 2016, and 2015 were \$0, \$0, and \$0 respectively.

# NOTE 13 - <u>EMPLOYEE BENEFITS</u>

# **Compensated Absences**

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time. Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. There is no maximum number of sick days that can be accumulated. A pro-rated portion of accumulated sick leave is paid upon retirement from the School District.

# Insurance Benefits

The School District provides life insurance and accidental death and dismemberment insurance to most employees through CoreSource. The School District has elected to provide employee medical/surgical benefits through Blue Cross/Blue Shield. The employees share the cost of the monthly premium with the Board. The premium varies with employee depending on the terms of the union contract. Dental insurance is provided by the School District to most employees through CoreSource.

#### Retirement Incentive

The School District offers a special termination benefit to employees who retire in the first year that they become eligible. For classified employees, they must give written notice to the Superintendent by March 30 of the year he/she first becomes eligible for "full retirement" and they must meet the eligibility requirements set forth by the State Employees Retirement System to receive a bonus. For certified employees, they must have at least 30 years of service to retire as set forth by the State Teachers Retirement System. No employees retired during fiscal year 2016 that qualified for the special termination benefit.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 14 - LONG-TERM LIABILITIES

The changes in the School District's long-term liabilities during fiscal year 2017 were as follows:

	Issue Date	Interest Rate	*Principal Outstanding at July 1, 2016	Additions	Deductions	Principal Outstanding at June 30, 2017	Amount Due In One Year

<sup>\*</sup> Restated

*Renovation General Obligation Bonds* - On April 1, 2003, Oakwood City School District issued \$20,200,000 of voted general obligation bonds for the purpose of renovating the Middle School, High School, and Elementary buildings. The bonds were issued for a twenty-seven year period with final maturity at December 1, 2030. The proceeds from the sale of these bonds were recorded in the Building Fund. These bonds were retired during fiscal year 2017.

*Refunding General Obligation Bonds* - During fiscal year 2007, the School District issued \$8,880,000 of general obligation bonds for the current refunding of \$8,880,000 of the 2003 series renovation bonds. The \$720,597 premium on the issuance of the refunding bonds is netted against the 2007 debt and is being amortized over the life of the 2007 debt. The new debt was issued for a twenty-four year period with a final maturity at December 31, 2031. The refunding was undertaken to reduce total future debt service payments. The refunding resulted in an economic gain of \$1,530,423 and a reduction of \$961,166 in future debt service payments. The refunding bonds are retired through the Bond Retirement Fund using tax revenues. During fiscal year 2017, \$7,630,000 of these bonds was refunded through the 2017 Refunding Bonds issue.

The capital appreciation bonds are not subject to a mandatory sinking fund or optional redemption prior to stated maturity. The capital appreciation bonds will mature in fiscal year 2021. The maturity amount of the bonds is \$1,680,000. For fiscal year 2017, \$163,094 was accreted on the capital appreciation bonds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 14 - LONG-TERM LIABILITIES - (Continued)

*Refunding General Obligation Bonds* – In April 2012, general obligation refunding bonds were issued in the amount of \$6,400,000 for the purpose of advance refunding a portion of the 2003 series renovation bonds. \$6,305,000 was issued as current interest bonds with interest rates ranging from 2.00% to 2.75%. \$95,000 was issued as capital appreciation bonds with an interest rate of 25.07%. The \$668,746 premium on the issuance of the refunding bonds is netted against this debt and is being amortized over the life of this debt, which has the same remaining life of the refunded debt of thirteen years with a maturity of December 1, 2025. The refunding was undertaken to reduce total future debt service payments over the next thirteen years by \$704,134 and to obtain an economic gain of \$107,208. The refunding bonds will be retired through the Bond Retirement Fund using tax revenues. As of June 30, 2017, the School District has no in substance defeased debt outstanding associated with the refunding bonds. The escrow agent made the final payment on the defeased debt on December 1, 2013.

The term bonds maturing on December 1, 2025 (fiscal year 2026) are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed plus accrued interest to the date of redemption, on December 1, in the fiscal years and respective principal amounts as follows:

Fiscal Year Ending June 30	Amount
2018	\$655,000
2019	750,000
2020	100,000
2021	100,000
2022	0
2023	925,000
2024	950,000
2025	1,070,000
2026	1,095,000
	\$5,645,000

Term bonds maturing on or after December 1, 2021, are subject to optional redemption, in whole or in part on any date at the option of the issuer on or after December 1, 2012, as follows:

Redemption Dates (Date Inclusive)	Redemption Prices
December 1, 2012 through November 30, 2021	101%
December 1, 2021 and thereafter	100%

The capital appreciation bonds are not subject to a mandatory sinking fund or optional redemption prior to stated maturity. The capital appreciation bonds will mature in fiscal year 2027. The maturity amount of the bonds is \$925,000. For fiscal year 2017, \$67,225 was accreted on the capital appreciation bonds.

*Refunding General Obligation Bonds* – In May 2017, general obligation refunding bonds were issued in the amount of \$7,360,000 for the purpose of current refunding a portion of the 2007 series renovation bonds. \$7,360,000 was issued as current interest bonds with interest rates ranging from 0.85% to 4.0%. The \$539,612 premium on the issuance of the refunding bonds is netted against this debt and is being amortized over the life of this debt, which has the same remaining life of the refunded debt of nine years with a maturity of December 1, 2026. The refunding was undertaken to reduce total future debt service payments over the next thirteen years by \$1,179,576 and to obtain an economic gain of \$1,611,605. The refunding bonds will be retired through the Bond Retirement Fund using tax revenues.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 14 - LONG-TERM LIABILITIES - (Continued)

The School District pays obligations related to employee compensation from the fund benefitting from their service. Compensated absences will be paid from the fund from which the person is paid. Most of the School District's employees are paid from the General Fund, with the remainder being paid from the Food Service and Title I Funds.

The School District's overall legal debt margin was \$14,498,012 with an unvoted debt margin of \$296,458 at June 30, 2017.

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2017, are as follows:

	2007 Refunding Bonds		2	2012 Refundir	ng Bonds

2021	40,000	244,500	980,000	353,923
2022	80,000	243,400	1,005,000	351,822
2023-2027	1,570,000	1,172,719	5,610,000	1,395,113
2028-2031	5,460,000	430,300	5,460,000	430,300
Total	\$7,360,000	\$2,841,493	\$15,805,000	\$3,655,150

The above amortization schedule for capital appreciation bonds does not agree to the capital appreciation bonds on page 53 due to unaccreted debt.

# NOTE 15 - <u>CAPITAL LEASE - LESSEE DISCLOSURE</u>

During the fiscal year, the School District entered into three capital lease agreements for Apple computer equipment and Acer Chrome books and equipment for the School District in the amount of \$545,677.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 15 - <u>CAPITAL LEASE - LESSEE DISCLOSURE</u> - (Continued)

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the minimum lease payments as of June 30, 2017:

Fiscal Year Ending June 30,	Capital Lease Payments
2018	\$140,977
2019	140,977
2020	140,977
Total	422,931
Less: Amount Representing Interest	17,729
Present Value of Net Minimum Lease Payments	\$405,202

#### NOTE 16 - FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

	General	Bond Retirement	Nonmajor Governmental Funds	Total Governmental Funds
Nonspendable:				
Endowment	\$0	\$0	\$20,000	\$20,000
Unclaimed Monies	9,124	0	0	9,124
Total Nonspendable	9,124	0	20,000	29,124
Restricted:				
Special Revenues:				
Faculty	0	0	79,555	79,555
Special Rotary	0	0	2,241	2,241
Library	0	0	566	566
Local Career Education Grants	0	0	37,656	37,656
State Regular Instruction Grants	0	0	60,683	60,683
Federal Special Instruction Grants	0	0	132,810	132,810
Debt Services	0	1,287,450	0	1,287,450
Capital Projects	0	0	80	80
Endowment for Scholarships	0	0	65,087	65,087
Permanent Improvement	0	0	202,929	202,929
Total Restricted	0	1,287,450	581,607	1,869,057
Committed:				
Latchkey	0	0	485,406	485,406
Assigned:				
Future Appropriations	1,548,657	0	0	1,548,657
Unassigned	1,617,584	0	(1,120,391)	497,193
Total Fund Balances	\$3,175,365	\$1,287,450	(\$33,378)	\$4,429,437

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 17 - INTERFUND ACTIVITY

Fund	Interfund Receivable	Interfund Payable
General	\$853,304	\$0
Nonmajor Special Revenue Fund:		
Food Service	0	590,872
Nonmajor Capital Project Fund:		
Old River Athletic Facility	0	262,432
Total Nonmajor Funds	0	853,304
Total	\$853,304	\$853,304

The balance of \$853,304 due to the General Fund from the funds listed is a result of negative cash balances in these funds. The General Fund is responsible for any deficit in these funds and interfund transactions were established to cover these expenditures. The purpose for these interfund balances is to eliminate the negative cash balances in these funds. These interfund balances are expected to be repaid during fiscal year 2018.

	Transfe				
	District Managed				
Transfers From	Special Rotary	Total			
General	\$10,000	\$75,000	\$85,000		

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to expend them, and (2) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The total of \$85,000 is the result of transfers from the General Fund to the Special Rotary and District Managed Activities.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 18 - STATUTORY SET-ASIDES

The following changes occurred in the School District's set-aside reserve account during fiscal year 2017:

	Capital Improvements
Set-Aside Balance as of July 1, 2016	\$0
Current Year Set-Aside Requirement	357,145
Qualifying Disbursements	(2,416,832)
Total	(2,059,687)
Set-Aside Reserve Balance as of June 30, 2017	\$0
Total Restricted Assets	\$0

Although the School District had qualifying disbursements during the fiscal year that reduced the set-aside amount to below zero for the capital improvements set-aside, this amount may not be used to reduce the set-aside requirement for future years. The negative balance is therefore not presented as being carried forward to future years.

## NOTE 19 – ENCUMBRANCE COMMITMENTS

At June 30, 2017, the School District had encumbrance commitments in the Governmental Funds as follows:

<u>Major Fund</u>	
General	\$626,953
Nonmajor Funds	
Food Service	82,935
Faculty	1,300
Special Rotary	2,472
Local Grants	2,436
Latchkey	56,277
District Managed Activities	13,080
Hillel Auxiliary Services	13,993
Uniform School Supplies	3,550
Public School Support	2,834
Permanent Improvement	80,066
Old River Athletic Facility	400,544
Total Nonmajor Funds	659,487
Total Encumbrances	\$1,286,440

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 20 - <u>ENDOWMENT</u>

The School District has received donations from constituents that contain restrictions on their use. Previously, the School District received an endowment for the John Martin Foundation of \$20,000, with the net appreciation of the investment to be used to provide college scholarships for graduating students. The net appreciation, on the investment of the donor-restricted endowment of \$65,087 is available for authorization of expenditure by the School District. School District policy requires all spending of these funds to be approved as part of the annual budget of the School District and to follow School District policy for approval of expenditures. Investment earnings allocated to these funds are earned and realized upon allocation to the fund.

## NOTE 21 - JOINTLY GOVERNED ORGANIZATIONS

Meta Solutions - On January 1, 2016, the Metropolitan Dayton Educational Cooperative Association (MDECA), and three other Information Technology Centers around the State of Ohio, merged with Meta Solutions. Meta Solutions is a jointly governed organization as a regional council of governments pursuant to State statutes. Meta Solutions develops, implements, and supports the technology and instructional needs of member districts including financial accounting services, educational management information services, and cooperative purchasing services. Meta Solutions membership consists of 152 public schools, 11 educational service centers, 15 career technology centers, and more than 200 non-public chartered schools. Non-public charter schools are not members but receive services based on contractual agreements and are not eligible for seats on the board of directors. Each member district pays an annual fee for services provided by Meta Solutions Meta Solutions is governed by an 11-member board of directors made up of Superintendents and School Business Officials selected from the 178 member public school districts. The board of directors controls the budget and finances of Meta Solutions. The continued existence of META Solutions is not dependent on the District's continued participation and no equity interest exists. Financial statements for SEOVEC through December 31, 2015 and for META Solutions can be obtained from the META Solutions office, 2100 Citygate Drive, Columbus, Ohio 43219. The District made payments of \$58,845 to MDECA prior to the merger. The payments covered the entire fiscal-year 2016. Future payments will be made to META Solutions.

<u>Southwestern Ohio Educational Purchasing Council</u> - The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing cooperative made up of nearly 100 school districts in 12 counties. The purpose of the cooperative is to obtain reduced prices for quality merchandise and services commonly used by schools. All member school districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC.

Each member School District has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust for the member school districts. Any school district withdrawing from the SOEPC forfeits its claim to any and all SOEPC assets. A one year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member will be liable for all member obligations for a one year period. Payments to SOEPC are made from the General Fund. To obtain financial information, write to the Southwestern Ohio Purchasing Council, Ken Swink, who serves as Director, 303 Corporate Center Drive, Suite 208, Vandalia, Ohio 45377.

# NOTE 22 - <u>INSURANCE PURCHASING POOL</u>

# Ohio School Boards Association Worker's Compensation Group Rating Plan

The School District participates in the Ohio School Boards Association Worker's Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

# NOTE 23 - <u>RELATED ORGANIZATIONS</u>

<u>Wright Memorial Public Library</u> - The Wright Memorial Public Library is a related organization to Oakwood City School District. The School Board members are responsible for appointing the trustees of the Public Library; however, the School Board cannot influence the Library's operation nor does the Library represent a potential financial benefit or burden to Oakwood City School District. Although the School District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. Once the Library determines to present a levy to the voters, including the determination of the rate and duration, the School District must place the levy on the ballot. The Library may issue debt and determines its own budget. The Library did not receive any funding from the School District during fiscal year 2017.

# NOTE 24- CONTINGENCIES

# A. <u>Grants</u>

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2017, if applicable, cannot be determined at this time.

# B. Litigation

The School District is involved in no pending litigation that would have a material effect on the financial condition of the School District.

# C. School Foundation

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2017 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2017 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the School District.

# **REQUIRED SUPPLEMENTARY SCHEDULES**

#### Required Supplementary Information Schedule of the School District's Proportionate Share of the Net Pension Liability School Employees Retirement System of Ohio Last Four Fiscal Years (1)

	2016	2015	2014	2013

# COMBINING AND INDIVIDUAL FUND

# STATEMENTS AND SCHEDULES

Description of Funds

# GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for the proceeds of specific revenue sources (other than amounts related to permanent purposes or major capital projects) that are legally restricted by law and administrative action to expenditures for specified purposes. The following are descriptions of the School District's nonmajor special revenue funds:

#### Nonmajor Special Revenue Funds

#### Food Service

To account for the financial transactions related to the food service operations of the School District.

#### Faculty

To account for resources from the teachers of the various schools for the purchase of flowers for various reasons.

#### Special Rotary

To account for monies collected on behalf of the Oakwood Alumni Association for the benefit of the students.

#### Career Education

To account for instructional programs for persons nineteen years of age and older who are enrolled in school and who have less than a twelfth-grade education or its equivalent.

Latchkey

To account for fees used to support the latchkey program for children.

#### Library Automation System

To account for hardware and software development, or other costs associated with the requirements of the computerization in the library.

#### **District Managed Activities**

To account for student activity programs which have student participation in the activity but do not have student management of the programs.

#### Hillel Auxiliary Services

To account for State funds for the purchase of science and math materials as well as psychological and other services at the private school (Hillel) within the School District.

#### Local Professional Development

To account for monies received under House Bill 117 to be used for locally held professional development and teacher training activities which are guided by Ohio's model competency based education programming or comparable models to support student achievement, including proficiency test performance.

Description of Funds

#### Nonmajor Special Revenue Funds (Continued)

#### Education Management Information Systems

To account for hardware and software development, or other costs associated with the requirements of the management information system.

#### Entry Year Program

To account for grant monies that are used to implement entry year programs pursuant to Section 3317.024(T) of the Ohio Revised Code.

#### SchoolNet OneNet

To account for monies that are used for Ohio Educational Computer Network Connections.

#### Ohio SchoolNet Professional Development

To account for grant monies used to provide hardware, software, telecommunication services, and staff development to support educational uses of technology in the classroom.

#### Ohio Reads

To account for grant monies used to improve reading outcomes, and for volunteer coordinators in public school buildings.

#### Summer School Subsidy

To account for summer intervention services satisfying criteria defined in division (E) of section 3313.608 of the Ohio Revised Code.

#### **Emergency Repairs Grant**

To account for grant monies used to make emergency maintenance repairs.

#### Miscellaneous State Grants

To account for various monies received from the state governments which are not classified elsewhere. These grants include: Safe School Help Line, CORE Implemtation, and Gifted Identification.

## Impact Aid

To account for maintenance and operational funds to school districts significantly affected (1) by a loss of revenue from taxable real property acquired by the federal government; (2) by provision of public education to children who live on federal property; or (3) by a sudden and substantial increase in school attendance as a result of federal activities.

#### Title VI-B

To account for federal monies to assist in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the elementary and secondary levels.

Description of Funds

# Nonmajor Special Revenue Funds (Continued)

#### Perkins Grant

To account for federal monies used to develop vocational education programs in the areas of secondary, adult, disadvantaged and handicapped persons, and work-study projects.

# Title III

To account for funds used to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency. These programs provide structured English language instruction, with respect to the years of study to which the program is applicable, and instruction in the child's native language to the extent necessary to allow a child to achieve competence in English. The instruction must be, to the extent necessary, in all courses or subjects of study which will allow a child to meet grade promotion and graduation standards.

## Title I

To account for federal monies used to assist in meeting the special needs of educationally deprived children.

#### Drug Free Schools Program

To account for federal revenues which support the implementation of programs for drug abuse education and prevention.

#### Preschool Grant

To account for federal monies which support the preschool grant program which addresses the improvement and expansion of services for handicapped children ages three through five.

#### Title VI-R

To account for monies to hire additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced.

#### Miscellaneous Federal Grants

To account for various monies received from the federal governments which are not classified elsewhere. These grants include Title II-D and ATIP.

Description of Funds

# CAPITAL PROJECTS FUNDS

The Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The following is a description of the School District's nonmajor capital projects funds.

#### Nonmajor Capital Projects Funds

Permanent Improvement

To account for the acquisition, construction or improvement of capital facilities. This fund receives an annual allocation of property taxes from the permanent improvement levy.

<u>Harman Playground Project</u> To account for improvement costs of the Harman Playground.

Old River Athletic Facility

To account for the acquisition, construction or improvement of the Old River Athletic Facility.

## PERMANENT FUND

The Permanent Fund is used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs. The following is a description of the School District's nonmajor permanent fund.

#### Nonmajor Permanent Fund

<u>Scholarship</u> To account for assets which have been set aside to earn interest that is distributed in the form of scholarships.

# FUNDS REPORTED SEPARATELY FOR BUDGETARY PURPOSES

#### Funds Reported Separately For Budgetary Purposes

The following funds have been combined with the General Fund for reporting in accordance with accounting principles generally accepted in the United States of America. However, their budgets are reported separately in this section for accountability purposes. The following is a description of the School District's funds reported separately for budgetary purposes.

#### Uniform School Supplies

A fund used to account for the purchase and sale of school supplies as adopted by the Board of Education for use in the School District. Profits derived from sales are used for school purposes or activities in connection with the school.

#### Public School Support

A fund used to account for resources from the principals of the various schools for the purchase of flowers and other items for staff members for various reasons.

#### **Unclaimed Monies**

To account for monies which have yet to be claimed by their rightful owners. These monies include outstanding checks that are over one year old.

## **COMPREHENSIVE ANNUAL FINANCIAL REPORT** FOR THE FISCAL YEAR ENDED JUNE 30, 2017

# OAKWOOD CITY SCHOOL DISTRICT

20 RUBICON ROAD, DAYTON, OHIO 45409

This Page Intentionally Left Blank

## **Statistical Section**

This part of the School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

Contents	Page(s)
Financial Trends	
These schedules contain trend information to help the reader understand how the	
School District's financial position has changed over time.	119-123
Revenue Capacity	
These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local	
	124-128
<b>Debt Capacity</b> These schedules present information to help the reader assess the affordability of the	
School District's current levels of outstanding debt and the School District's ability to	
issue additional debt in the future.	129-132
Economic and Demographic Information	
This schedule offers economic and demographic indicators to help the reader	
understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information	
	33 - 134
Operating Information	
These schedules contain service data to help the reader understand how the	
information in the School District's financial report relates to the services the School	125 127
District provides and the activities it performs.	135-137

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current marke value in the third year following each reappraisal

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business ir Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax was phased out beginning in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

Source: Office of the County Auditor, Montgomery County, Ohio

(1) Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental revenue.

(2) The County does not identify delinquent tax collections by tax year, therefore total tax collections may exceed current tax levy in some years. The School District is working with the County to determine if delinquent collections can be tracked differently. At this time, the School District is unable to track delinquents by tax year.
