Independent Accountants' Report on Applying Agreed-Upon Procedures

Ohio Department of Medicaid
50 West Town Street, Suite 400
Columbus, Ohio 43215

RE: Michael Steinmetz, M.D. NPI: 1689647422
Program Year 2014: Meaningful Use Stage 1 Year 2

We have performed the procedures enumerated below, which were agreed to by the Ohio Department of Medicaid (ODM), on Dr. Michael P. Steinmetz's (hereafter referred to as the Provider) compliance with the requirements of the Medicaid Provider Incentive Program (MPIP) for the year ended December 31, 2014. The Provider is responsible for compliance with the MPIP requirements. The sufficiency of these procedures is solely the responsibility of ODM. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

1. We searched the Medicaid Information Technology System (MITS) and determined that the Provider had an active Ohio Medicaid Agreement during the patient volume and meaningful use attestation periods.
2. Using the Ohio e-license center, we verified the Provider's type was the same as reported in MPIP and determined the Provider was licensed to practice in Ohio during the patient volume and meaningful use attestation periods.
3. We reviewed the MPIP system and determined that the Provider underwent ODM's pre-payment approval process, was approved for incentive payment, and received an incentive payment.

We compared the date of pre-payment approval with the date of the incentive payment and determined that pre-approval occurred prior to payment. In addition, we compared the payment amount with the MPIP payment schedule and determined that ODM issued the correct payment amount.

4. We obtained the list of all encounters during the patient volume attestation period from the Provider. We scanned the list and found no duplicate encounters. We also verified that all payer sources were included in the encounter list to identify any unrecorded encounters. We found no unrecorded encounters.
5. We compared the Medicaid encounters in the MPIP system with those from the Quality Decision Support System and the final Provider's Medicaid encounters identified in procedure four to determine if the MPIP data exceeded these two reports by 20 percent. We found no variance exceeding 20 percent; however, we determined the Provider's encounter list was more complete and should be used in the calculation of the Medicaid patient volume. We recalculated using the Provider's encounter list and the Provider met the 30% patient volume requirement.

Independent Accountants' Report on
Applying Agreed-Upon Procedures

6. We found that the location where the Provider worked was now using a newer version of the electronic health record (EHR) software reported in the MPIP system. The updated version of the software was able to produce reports showing the Provider's use in 2014. We verified that the updated version of the EHR software was approved by the Office of the National Coordinator of Health IT.
7. We confirmed the Provider reported all encounters from two locations on the meaningful use report. We searched MITS and found that one of the locations was listed.
8. We obtained supporting documentation for core measures and compared it to the applicable criteria. We found no exceptions. For those measures that require only unique patients be counted, we scanned the detailed data and found no duplicate patients.
9. We obtained supporting documentation for the menu measures and compared it to the applicable criteria and we determined if the minimum number of measures was met, including at least one public health menu measure. We found no exceptions. For those measures that require only unique patients be counted, we scanned the detailed data and found no duplicate patients.
10. We obtained supporting documentation for the clinical quality measures and compared it to the applicable criteria and we determined if the minimum number of measures was met with at least one measure from three different domains. We found no exceptions.

This agreed-upon procedures engagement was conducted in accordance with the American Institute of Certified Public Accountants' attestation standards. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Provider's compliance with the requirements of the Medicaid Provider Incentive Program. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported.

This report is intended solely for the information and use of the Provider and the ODM, and is not intended to be, and should not be used by anyone other than the specified parties.
