Independent Accountants' Report on Applying Agreed-Upon Procedures

Ohio Department of Medicaid
50 West Town Street, Suite 400
Columbus, Ohio 43215

RE: Kevin J. Malone, M.D. NPI: 1881794691
Program Year 3: Meaningful Use Stage 2 Year 2

We have performed the procedures enumerated below, which were agreed to by the Ohio Department of Medicaid (ODM), on Dr. Kevin Malone's (hereafter referred to as the Provider) compliance with the requirements of the Medicaid Provider Incentive Program (MPIP) for the year ended December 31, 2015. The Provider is responsible for compliance with the MPIP requirements. The sufficiency of these procedures is solely the responsibility of ODM. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

1. We compared the Provider's Ohio Medicaid Agreement dates from the Medicaid Information Technology System to the patient volume and meaningful use attestation periods. We found the Provider had an active agreement in effect during the attestation periods.
2. Using the Ohio e-license center, we compared the licensure type and effective dates to the patient volume and meaningful use attestation periods. We found no exceptions.
3. Using the MPIP system, we confirmed the Provider underwent the ODM's payment approval process, was approved for an incentive payment and received an incentive payment.

We compared the date of the payment approval with the date of the incentive payment and confirmed the payment approval occurred prior to the payment. In addition, we compared the payment amount with the MPIP payment schedule and found no variance.

4. The Provider had an original attestation period from September 1, 2015 to November 30, 2015. We received a report of the Provider's encounters during an alternate patient volume attestation period (May 1, 2014 to August 31, 2014). We scanned the list and found no duplicate encounters. We also scanned the list and found that it included multiple payer sources.
5. We calculated the Medicaid patient volume from the encounters identified in procedure 4 and confirmed the Provider met the 30 percent patient volume requirement during the alternate patient volume period.
6. We found that the Provider's location was using a newer version of the electronic health record (EHR) software reported in the MPIP system. We verified that the newer version of the EHR software was approved by the Office of the National Coordinator of Health IT.

Kevin J. Malone, M.D.
Independent Accountants' Report on
Applying Agreed-Upon Procedures

7. We obtained the Provider's location list identifying three locations; however, we could not compare the location to the meaningful use report as it did not identify any locations. We selected 10 patient names from the patient volume report during the meaningful use period and the patient names from the patient volume report during the meaningful use period to the detailed meaningful use report. We found three patient names from a second location that did not trace to the meaningful use reports. We found the excluded location made up 236 out of 1,233 encounters on the patient volume report during the meaningful use period.
8. We obtained supporting documentation for the 10 objectives and compared it to the applicable criteria. We found no exceptions. We confirmed if the minimum number of measures was met, including at least one public health menu measure.
9. We obtained supporting documentation for the clinical quality measures and compared it to the applicable criteria. We confirmed the minimum number of measures was met with at least one measure from three different domains.

This agreed-upon procedures engagement was conducted in accordance with the American Institute of Certified Public Accountants' attestation standards. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Provider's compliance with the requirements of the Medicaid Provider Incentive Program. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported.

This report is intended solely for the information and use of the Provider and the ODM, and is not intended to be, and should not be used by anyone other than the specified parties.
