Independent Accountants' Report on Applying Agreed-Up Procedures

Ohio Department of Medicaid
50 West Town Street, Suite 400
Columbus, Ohio 43215

RE: Ermias Seleshi, M.D. NPI: 1699969725
Program Year 2017: Meaningful Use Stage 2 Year 1

We have performed the procedures enumerated below, which were agreed to by the Ohio Department of Medicaid (ODM), on Dr. Ermias Seleshi's (hereafter referred to as the Provider) compliance with the requirements of the Medicaid Promoting Interoperability Program (MPIP) for the year ended December 31, 2017. The Provider is responsible for compliance with the MPIP requirements. The sufficiency of these procedures is solely the responsibility of ODM. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

1. We scanned the Provider's encounters during the patient volume attestation period, found no duplicate encounters and noted multiple payer sources. We calculated the Medicaid patient volume and confirmed the Provider met the 30 percent requirement.
2. We compared the system generated dashboards to the applicable criteria and to the summaries for Meaningful Use Objectives 3 through 9 and the Clinical Quality Measures. The meaningful use dashboard reflected that Objective 8 (measure 2): Patient Online Access did not meet the criteria; however, the software vendor reported that due to updates in the system it was unable to recreate the original data from the reporting period. All other reported objectives and measures met the applicable criteria. There was a variance greater than 10 percent between these reports for Meaningful Use Objective 6: Patient Education.

This agreed-upon procedures engagement was conducted in accordance with the American Institute of Certified Public Accountants' attestation standards. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Provider's compliance with the requirements of the Medicaid Promoting Interoperability Program. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported.

This report is intended solely for the information and use of the ODM, and is not intended to be, and should not be used by anyone other than the specified party.
