Honorable Mayor and
Members of City Council
City of Reading
1000 Market Street
Reading, Ohio 45215

We have reviewed the Independent Auditor's Report of the City of Reading, Hamilton County, prepared by Plattenburg & Associates, Inc., for the audit period January 1, 2000 through December 31, 2000. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Reading is responsible for compliance with these laws and regulations.

A handwritten signature in black ink, appearing to read "Jim Petro".

June 3, 2002

The Honorable Mayor and Members of the
City Council of the City of Reading

REPORT OF INDEPENDENT ACCOUNTANTS

We have audited the accompanying general purpose financial statements of the City of Reading, Ohio, (the City) as of and for the year ended December 31, 2000. These general purpose financial statements are the responsibility of the management of the City. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the City, as of December 31, 2000, and the results of its operations and cash flows of its proprietary fund type for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated June 3, 2002 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

CITY OF READING, OHIO

Notes To Financial Statements December 31, 2000

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Reading, Ohio have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Reporting Entity

The City operates under a seven-member council. An elected City Auditor is responsible for fiscal control of the resources of the City. Services provided by the City include public services, public safety, recreation, and development.

For financial reporting purposes, the City's financial statements include all funds and account groups of the primary government (the City). Potential component units were considered for inclusion in the financial statements. Generally, component units are legally separate organizations for which the elected officials of the primary government (i.e. the City) are financially accountable. The City would consider an organization to be a component unit if:

- 1 The City appoints a voting majority of the organization's governing body; and (a) is able to impose its will on that organization; or (b) there is a potential for the organization to provide specific financial burdens on the City; or
- 2 The organization is fiscally dependent upon the City; or
- 3 The nature of the relationship between the City and the organization is such that the exclusion from the financial reporting entity would render the financial statements of the City misleading.

The City included no component units in the financial statements.

B. Basis of Presentation

The financial reporting practices of the City conform to generally accepted accounting principles for local governments as prescribed by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

The accounts of the City are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures/expenses. The various funds are summarized by type in the combined financial statements. The following fund types and account groups are used by the City:

Governmental Fund Types:

General Fund - The general fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - The special revenue funds are used to account for revenues derived from specific taxes, grants, or other restricted revenue sources. The uses and limitations of each special revenue fund are specified by city ordinances or federal and state statutes or grant provisions.

Debt Service Funds - The debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Projects Funds - The capital projects funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds or trust funds).

Proprietary Fund Type:

Enterprise Fund - The enterprise fund accounts for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Fiduciary Fund Types:

Trust and Agency Funds - Trust and agency funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. These include expendable trust, and agency funds.

Account Groups:

Account groups are used to establish accounting control and accountability for the City's general fixed assets and general long-term obligations. Because these assets and obligations are long-term, they are neither spendable resources nor require current appropriation.

General Fixed Assets Account Group - This account group accounts for all fixed assets required for general City purposes, excluding fixed assets of the proprietary and fiduciary fund types.

General Long-Term Obligations Account Group - This account group accounts for long-term obligations of the City, except those accounted for in the proprietary and fiduciary fund types.

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The measurement focus of governmental funds and expendable trust funds is upon the flow of current financial resources. Governmental funds and expendable trust funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become available and measurable. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period which for City purposes is considered to be 30 days after year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Those revenues considered susceptible to accrual include, but are not limited to, property taxes, franchise taxes, state levied/shared taxes, special assessments, interest revenue, and charges for services.

The proprietary funds' measurement focus is upon the flow of economic resources. The proprietary funds and nonexpendable trust funds are accounted for using the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred.

D. Budget

A budget of estimated cash receipts and disbursements is submitted to the county auditor, as secretary of the county budget commission, by July 20 of each year for the period January 1 to December 31, of the following year. Annual budgets are adopted for all funds.

Estimated Resources - The county budget commission certifies its actions to the City by September 1. As part of this examination the City receives the official certificate of estimated resources which states the projected receipts of each fund. On or about January 1, this certificate is amended to include any unencumbered balances from the preceding year. Prior to December 31, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal

year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation measure.

Appropriations - A temporary appropriation measure to control cash disbursements may be passed on or about January 1 of each year for the period January 1 to March 31. An annual appropriation measure must be passed by April 1 of each year for the period January 1 to December 31. The appropriation measure may be amended or supplemented by City Council during the year, as new information becomes available. (The budget may be revised by management without City Council approval if the revised budget does not exceed total appropriations at the fund level). Appropriations may not exceed estimated resources.

Expenditures may not legally exceed appropriations at the fund level for all budgeted funds. During the year, various supplemental appropriations were necessary.

Unencumbered appropriation balances lapse at year-end and revert to the respective funds from which they were originally appropriated, thus becoming available for future appropriation.

Encumbrances - The City of Reading is required to use the encumbrances method of accounting by Ohio law. Under this system, purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve the portion of the applicable appropriation.

Encumbrances outstanding at year-end for governmental funds are reported as reservations of fund balances and do not represent expenditures or liabilities.

Budget Basis of Accounting

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP basis), the budgetary basis as provided by law is based upon accounting for transactions on a basis of cash receipts and disbursements.

The Combined Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - All Governmental Fund Types are presented on the budgetary basis to provide a relevant comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are:

- * Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- * Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).

The adjustments necessary to convert results of operations at the end of the year on the GAAP basis to the budget basis are as follows:

| | Excess of Revenues and Other Sources Over (Under) <u>Expenditures and Other Uses</u> | | | |
|---------------------------|--|----------------------------|-------------------------|-----------------------------|
| | <u>General</u> | <u>Special Revenue</u> | <u>Debt Service</u> | <u>Capital Projects</u> |
| GAAP Basis (as reported) | \$21,008 | (\$36,168) | (\$219) | (\$231,480) |
| Adjustments: | | | | |
| Revenue Accruals, Net | (7,895) | 6,092 | 0 | 759,900 |
| Expenditure Accruals, Net | <u>21,788</u> | <u>(3,362)</u> | <u>0</u> | <u>(545,899)</u> |
| BUDGET BASIS | <u>\$ 34,901</u> | <u>(\$33,438)</u> | <u>(\$219)</u> | <u>(\$17,479)</u> |

E. Inventory

Inventory is stated at cost, which approximates market, using the first-in, first-out (FIFO) method of identification. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased.

F. Fixed Assets

Fixed assets used in governmental fund type operations are accounted for in the general fixed assets account group. No depreciation is recorded for general fixed assets.

Fixed assets used in proprietary fund type operations are recorded in the enterprise fund. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. The following lives are used:

| | |
|----------------------------|-------------|
| Automobiles and trucks | 5-20 years |
| Machinery and equipment | 5-20 years |
| Buildings and improvements | 15-40 years |

Public domain assets (infrastructure) such as roads, bridges, curbs and gutters, streets and sidewalks, and drainage systems are not capitalized.

Fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair market value at the time received. Interest on constructed fixed assets is capitalized.

G. Interfund Transactions

During the course of normal operations, the City has numerous transactions among funds, most of which are in the form of transfers of resources to provide services, construct assets and service

debt. The accompanying financial statements generally reflect such transactions as operating transfers. The classification of amounts recorded as subsidies, advances, or equity contributions is determined by City management.

H. Fund Balance Reserves

Reserves indicate portions of fund equity legally segregated for a specific future use and/or not appropriable for expenditures.

I. Grants and Other Intergovernmental Revenues

Federal grants and assistance awards made on the basis of entitlement periods are recorded as intergovernmental receivables and revenues when entitlement occurs. All other reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditures are incurred.

J. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences", the City records a liability for vacation time and sick leave when the obligation is probable and can be reasonably determined. For governmental funds, that portion of unpaid compensated absences that is expected to be paid using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "compensated absences payable". The remaining portion of the liability is reported in the General Long-Term Obligations Account Group.

Compensated absences are expensed in the Water Enterprise Fund when earned, and the related liability is reported within the fund.

K. Cash and Cash Equivalents

Cash balances of the City's funds, except cash held by a trustee or fiscal agent, are pooled and invested in short-term investments in order to provide improved cash management. Investments are stated at cost, which approximates market value except for investments for deferred compensation, which are stated at market value. For purposes of the statement of cash flows and for presentation on the combined balance sheet, investments with original maturities of three months or less are considered to be cash and cash equivalents.

L. Total Columns on Combined Financial Statements

Total columns on the combined financial statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally

accepted accounting principles, nor is such data comparable to a consolidation. Interfund elimination's have not been made in the aggregation of this data.

M. Proprietary Fund Accounting

In accordance with GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting", the City applies all GASB pronouncements and all FASB Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989, unless they conflict with GASB pronouncements.

2. PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property, and tangible personal property used in business, located in the City. Real property taxes are levied each January 1 on the assessed value listed as of the prior January 1.

Assessed values are established by the County Auditor at 35 percent of appraised market value for real property. A revaluation of all real property is required to be completed every six years, with a statistical update every third year. The last revaluation was completed in 1996. Public utility property taxes on tangible personal property are assessed at true value (generally net book value). Tangible personal property used in business (except public utility business) is assessed at 25 percent of average value for inventories and 25 percent of true value for all other personal property.

The property tax calendar is as follows:

| | |
|--------------------------------|-------------------|
| Levy date | April 1, 1998 |
| Lien date | January 1, 1998 |
| Tax bill mailed | January 20, 2000 |
| First installment payment due | February 15, 2000 |
| Second installment payment due | July 15, 2000 |

The assessed valuation upon which the 1996 levy was based is as follows:

| | Assessed <u>Value</u> |
|--|-----------------------------|
| Real property (other than public utility) | \$138,692,400 |
| Public utility real and personal tangible property | 10,595,450 |
| Tangible personal property (other than public utility) | <u>40,950,750</u> |
| Total Assessed Valuation | <u><u>\$190,238,600</u></u> |

In accordance with NCGA Statement 1 property taxes that are measurable but not available at fiscal year end are recorded as a receivable with the corresponding revenue deferred until available. Delinquent property tax amounts, net of allowance for uncollectibles, are recorded if material in amount.

3. RETIREMENT SYSTEM

A. Public Employees Retirement System

Plan Description: The City of Reading contributes to PERS, a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Chapter 145 of the Ohio Revised Code (ORC) assigns the authority to establish and amend benefit provisions to the PERS Retirement Board. PERS issues a publicly available financial report that includes financial statements and required supplementary information. Interested parties may obtain a copy by making a written request to 277 East Town Street, Columbus, Ohio, 43215-4642 or by calling (614) 466-2085.

Funding Policy: The ORC provides statutory authority for employee and employer contributions. The employee contribution rate is 8.5%. For local government employer units the rate is 8.44% of covered payroll. Required employer contributions are equal to 100% of the dollar amount billed to each employer and must be extracted from the employer's records. The contribution requirements of plan members and the City of Reading are established and may be amended by the PERS Retirement Board. The City's contributions for the years ending December 31, 2000, 1999, and 1998 were \$146,208, \$142,272 and \$138,155 respectively; 78 percent has been contributed for fiscal year 2000 and 100 percent for fiscal years 1999 and 1998.

Other Postemployment Benefits

In addition to the pension benefit obligation described above, the PERS of Ohio also provides postemployment health care benefits to age and service retirants with ten (10) or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. A portion of each employer's contribution to PERS is set-aside for the funding of post retirement health care. The Ohio Revised Code provides statutory authority for employer contributions and requires employers to fund postretirement health care through their

contributions to PERS. The portion of the current year employer contribution rate (identified above) that was used to fund health care for the year was 5.11 percent of covered payroll, which amounted to \$88,522.

The significant assumptions and calculations described below were based on the PERS of Ohio's latest unaudited information as of December 31, 1999. There were 401,339 active contributing participants. Estimated net assets available for future benefits payments were \$10,805.5 million. Estimated accrued liability and the unfunded estimated accrued liability, based on the actuarial cost method used, were \$12,473.6 million and \$1,668.1 million, respectively. Benefits are financed through employer contributions and investment earnings there on. The contributions, investment income and periodic adjustment in health care provisions are expected to be sufficient to sustain the program indefinitely.

For 2000, the Retirement board enacted a temporary employer contribution rate rollback. The decision to rollback rates was based on the December 31, 1998 actuarial study, which indicated that actuarial assets exceeded actuarial liabilities. The temporary rate rollback was 20% for both the state and local government divisions and 6% for law enforcement divisions. The Board reallocated employer contributions from 4.20% to 4.30% at the beginning of the year to improve health care financing. The proportion of contributions dedicated to funding OPEB increased during the year for those reasons.

B. Police and Firemen's Disability and Pension Fund

The City of Reading contributes to the Police and Firemen's Disability and Pension Fund (PFDPF); a cost-sharing multiple-employer defined benefit pension plan. PFDPF provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Contribution requirements and benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. The PFDPF issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to PFDPF, 140 East Town Street, Columbus, Ohio 43215-5164.

Plan members are required to contribute 10.0% of their annual covered salary, while employers are required to contribute 19.5% and 24.0%, respectively for police officers and firefighters. The City's contributions to PFDPF for the years ending December 31, 2000, 1999, and 1998 were \$354,352, \$367,390, and \$339,097, respectively; 77 percent has been contributed for fiscal year 2000 and 100 percent for fiscal years 1999 and 1998.

Other Post-retirement Benefits

The PFDPF System of Ohio provides post-retirement health care coverage to any person who receives or is eligible to receive a monthly benefit check or is a spouse or eligible dependent child of such person. An eligible dependent child is any child under the age of 18 whether or not the child is

attending school or under the age of 22 if attending school full-time or on a two-thirds basis. The Ohio Revised Code provides statutory authority for employer contributions and allows the Fund's Board of Trustees to provide post-retirement health care coverage to all eligible individuals from the employer's contributions to the PFDPF System of Ohio. Most retirees are required to contribute a portion of the cost of their health care coverage.

The portion of the current year City contribution that was used to fund post-retirement health care benefits was \$62,678 representing 7.00 percent of covered payroll and \$52,427 representing 7.00 percent of covered payroll for police and fire respectively. Funding and accounting are on a pay-as-you-go basis.

As of December 31, 1999, the number of participants eligible to receive health care benefits was 12,467 for police and 9,807 for fire. The PFDPF System of Ohio does not provide separate data on the funded status and funding progress of post-retirement health care benefits. The Fund's total health care expenses for the year ended December 31, 1999 (latest available information) were \$95,004,633, which was net of member contributions of \$5,518,098.

4. SHORT-TERM DEBT

| | <u>Balance</u> <u>01/01/00</u> | <u>Increase</u> | <u>(Decrease)</u> | <u>Balance</u> <u>12/31/00</u> |
|---|-----------------------------------|------------------|--------------------|-----------------------------------|
| Bond Anticipation Notes: | | | | |
| Enterprise Funds: | | | | |
| Water systems improvements, 4.5% renewal | <u>\$300,000</u> | <u>\$275,000</u> | <u>(\$300,000)</u> | <u>\$275,000</u> |

The notes will be repaid from the resources of the water fund.

| | <u>Balance</u> <u>01/01/00</u> | <u>Increase</u> | <u>(Decrease)</u> | <u>Balance</u> <u>12/31/00</u> |
|-----------------------------|-----------------------------------|------------------|-------------------|-----------------------------------|
| Bond Anticipation Notes: | | | | |
| Capital Projects Fund: | | | | |
| Various purpose, 4.89% | 0 | 534,900 | 0 | 534,900 |
| Parking Improvements, 5.24% | <u>0</u> | <u>225,000</u> | <u>0</u> | <u>225,000</u> |
| Total Capital Projects | <u>\$ 0</u> | <u>\$759,900</u> | <u>\$ 0</u> | <u>\$759,000</u> |

The notes will be repaid from the resources of the capital improvement fund.

5. FIXED ASSETS

A summary of changes in general fixed assets is as follows:

| | Balance <u>01/01/00</u> | <u>Additions</u> | <u>Disposals</u> | Balance <u>12/31/00</u> |
|--------------------------|----------------------------|------------------|-------------------|----------------------------|
| Land | \$719,270 | \$222,023 | \$ 0 | \$941,293 |
| Buildings & Improvements | 1,167,859 | 0 | 0 | 1,167,859 |
| Machinery & Equipment | <u>2,339,437</u> | <u>100,355</u> | <u>(53,181)</u> | <u>2,386,611</u> |
| Total | <u>\$4,226,566</u> | <u>\$322,378</u> | <u>(\$53,181)</u> | <u>\$4,495,763</u> |

A summary of enterprise fund fixed assets is as follows:

| | Balance <u>12/31/00</u> |
|--------------------------|----------------------------|
| Land | \$ 10,467 |
| Buildings & Improvements | 1,096,429 |
| Machinery & Equipment | <u>117,155</u> |
| Total | <u>\$1,224,051</u> |
| Accumulated Depreciation | (<u>839,991</u>) |
| Net fixed assets | <u>\$ 384,060</u> |

6. CASH AND INVESTMENTS

The City maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as Pooled Cash and Investments.

A. Legal Requirements

Statutes require the classification of monies held by the City into three categories. Category 1 consists of "active" monies, those monies required to be kept in a "cash" or "near-cash" status for immediate use by the City. Such monies must be maintained either as cash in the City treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of "inactive" monies, those monies not required for use within the current two-year period of designation of depositories. Inactive monies may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of "interim" monies, those monies which are not needed for immediate use but which will be needed before the end of the current period of depositories.

State legislation permits interim monies to be deposited or invested in the following securities:

1. United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eight days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

B. Deposits

At year-end, the carrying amount of the City's deposits was \$13,521 and the bank balance was \$36,320. Of the bank balance:

1. \$36,320 was covered by federal depository insurance.
2. All remaining deposits were covered by collateral held by third-party trustees pursuant to Section 135.181, Revised Code, in collateral pools securing all public funds on deposit with specific depository institutions. The entire amount above is defined by GASB statement No. 3 as being collateralized with securities held by the pledging financial institution's trust department or agent in the City's name.

C. Investments:

The Governmental Accounting Standards Board has established risk categories for investments as follows:

Category 1 - Insured or registered, or securities held by the City or its agent in the City's name.

Category 2 - Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the City's name.

Category 3 - Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the City's name.

Unclassified - Investments in Star Money Fund are unclassified since they are not evidenced by securities that exist in physical or book entry form.

At year-end the carrying amount and market value of investments were as follows:

| <u>Description</u> | <u>Category</u> | <u>Total Carrying Value</u> | <u>Total Market Value</u> |
|-----------------------|-----------------|-------------------------------------|-----------------------------------|
| Star Money Fund | Unclassified | \$2,527,729 | \$2,527,729 |
| Repurchase Agreements | 3 | <u>251,438</u> | <u>251,438</u> |
| | | <u>\$2,779,167</u> | <u>\$2,779,167</u> |

7. PRIOR YEARS' DEBT DEFEASANCE

In prior years, the City has defeased various bond issues by creating separate irrevocable trust funds. U.S. government securities were purchased and placed in the trust funds. The investments and fixed earnings from the investments were sufficient to fully service the defeased debt. For financial reporting

purposes, the debt has been considered defeased and therefore removed as a liability from the City's General Long-Term Debt Account Group.

As of December 31, 2000, the amount of defeased debt outstanding but removed from the General Long-Term Debt Account Group amounted to \$440,000.

Subsequent to the creation of the irrevocable trust fund, it was discovered that the Trustee had made an error in calculating the amount needed to fully service the defeased debt. This amount has been recorded in the City's General Long-Term Debt Account Group and totals \$21,141 as of December 31, 2000. Annual requirements to pay principal and interest at December 31, 2000 are as follows:

| | <u>Principal</u> | <u>Interest</u> |
|------|------------------|-----------------|
| 2001 | 10,570 | 1,136 |
| 2002 | <u>10,571</u> | <u>568</u> |
| | <u>\$21,141</u> | <u>\$1,704</u> |

8. CONTINGENCIES

The City is a party to various legal proceedings, which seek damages or injunctive relief generally incidental to its operations and pending projects. The City's management is of the opinion that the ultimate disposition of various claims and legal proceedings will not have a material effect on the financial condition of the City.

9. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial general liability insurance against these risks and all other risks of loss, including workers' compensation and employee health and accident insurance.

There have been no significant reductions in insurance coverage from that of prior years and settlements have not exceeded insurance coverage for any of the past three fiscal years.

10. PRIOR PERIOD ADJUSTMENT

The beginning pooled cash and investments for the Agency Funds have been adjusted for corrections to the cash detail as follows:

| | <u>Agency</u> |
|---|------------------|
| Balance Previously Stated, December 31, 1999 | \$239,239 |
| Prior Period Adjustment | <u>192,119</u> |
| As Restated, January 1, 2000 | <u>\$431,358</u> |

The beginning fund balance for the Expendable Trust Fund has been adjusted for corrections to the cash detail as follows:

| | <u>Expendable Trust</u> |
|---|-------------------------|
| Balance Previously Stated, December 31, 1999 | \$352,315 |
| Prior Period Adjustment | <u>(192,120)</u> |
| As Restated, January 1, 2000 | <u>\$160,195</u> |

11. COMPLIANCE AND ACCOUNTABILITY

Fund Deficits:

The General Fund had a deficit fund balance of \$13,447 at December 31, 2000.

Non-Compliance:

1. Ohio Rev. Code Section 5705.41(B), states that no subdivision or taxing unit is to expend money unless it has been appropriated. All funds, other than agency funds, are legally required to be budgeted and appropriated.

The City had the following fund at fiscal year-end that had expenditures plus encumbrances in excess of appropriations:

| <u>Fund</u> | <u>Variance</u> |
|-------------|-----------------|
| Water Note | (\$26,219) |

2. Ohio Revised Code Section 5705.39, states the total appropriation from each fund should not exceed the total estimated revenue.

The City had the following fund at fiscal year-end that had appropriations in excess of estimated revenue:

| <u>Fund</u> | <u>Variance</u> |
|-------------------|-----------------|
| City Earnings Tax | (\$81,440) |

**Report on compliance and on internal control over financial reporting
based on an audit of financial statements performed in accordance with
*Government Auditing Standards***

June 3, 2002

Honorable City Council
City of Reading, Ohio

We have audited the general purpose financial statements of the City of Reading, Ohio (the City), as of and for the year ended December 31, 2000, and have issued our report thereon dated June 3, 2002. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our

consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of management, the Auditor of State and the Honorable City Council of the City of Reading, Ohio and is not intended to be and should not be used by anyone other than these specified parties.
