**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE AND ON  
INTERNAL CONTROL REQUIRED BY *GOVERNMENT AUDITING STANDARDS***

City of Dover  
Tuscarawas County  
122 East Third Street  
Dover, Ohio 44622

To the Members of City Council:

We have audited the basic financial statements of the City of Dover, Tuscarawas County, Ohio, (the City) as of and for the year ended December 31, 2002, and have issued our report thereon dated June 6, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Compliance**

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2002-001.

We also noted certain immaterial instances of noncompliance that we have reported to management of the City in a separate letter dated June 6, 2003.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the City's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in the accompanying Schedule of Findings as item 2002-002.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we consider the reportable condition described above to be a material weakness.

We also noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the City in a separate letter dated June 6, 2003.

This report is intended for the information and use of the management and City Council, and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads "Betty Montgomery". The signature is written in a cursive, flowing style.

**Betty Montgomery**

**CITY OF DOVER  
TUSCARAWAS COUNTY**

**SCHEDULE OF FINDINGS  
DECEMBER 31, 2002**

<b>FINDINGS RELATED TO THE FINANCIAL STATEMENT REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS</b>
---

**FINDING NUMBER 2002-001**

**Material Citation**

**Ohio Rev. Code Section 5705.41(D)** states in part, that no subdivision or taxing unit shall make any contract or order any expenditure of money unless there is attached thereto a certificate of the fiscal officer of the subdivision that the amount required to meet the same has been lawfully appropriated for such purpose and is in the treasury or in the process of collection to the credit of an appropriate fund free from any previous encumbrances. Every such contract made without such a certificate shall be null and void and no warrant shall be issued in payment of any amount due thereon.

This section also provides two "exceptions" to the above requirements:

- A. Then and Now Certificate - If no certificate is furnished as required, upon receipt of the fiscal officer's certificate that both at the time that the contract or order was made and at the time that she is completing her certification a sufficient sum was appropriated and free of any previous encumbrances, the Council may authorize the issuance of a warrant in payment of the amount due upon such contract or order by resolution within 30 days from the receipt of such certificate, if such expenditure is otherwise valid.
  
- B. If the amount involved is less than \$1,000 (which was increased to \$3,000 on April 7, 2003), the fiscal officer may authorize it to be paid without the affirmation of Council, upon completion of the then and now certificate, provided that the expenditure is otherwise lawful.

Of the expenditures tested, 20% were not certified by the Auditor prior to incurring the commitment and the two exceptions noted above were not utilized. The City should inform all City employees of the requirements of Ohio Rev. Code Section 5705.41(D) and the importance of certifying the availability of funds. The City should implement the use of Then and Now Certificates and Blanket Certificates as further permitted by Ohio Rev. Code Section 5705.41.

**FINDING NUMBER 2002-002**

**Material Weakness**

The Treasurer prepares monthly bank reconciliations that the Auditor reviews and signs. Although monthly reconciliations had been performed during 2002, these reconciliations contained variances between the bank balance and the book balance which have not been resolved since May 2002. The lack of timely and complete monthly bank reconciliations increases the possibility that errors and irregularities may occur and not be detected timely. In addition, the City's ability to identify lingering reconciling items including stale dated checks is impaired.

The Treasurer should perform timely monthly bank reconciliations and all reconciling items should be supported by appropriate documentation. In addition, Council should periodically review these reconciliations and follow up on significant or unusual items to better monitor the finances of the City.

## Auditor's Office

122 EAST THIRD STREET • DOVER, OHIO 44622

(330) 343-6385

Mary J. Fox, Auditor  
e-mail: auditor@doverohio.com

Fax (330) 343-2775

June 6, 2003

Dear Members of Council and  
Residents of the City of Dover:

The purpose of this letter is to acquaint you with the City of Dover's Comprehensive Annual Financial Report (CAFR), prepared by the City Auditor's Office. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. We believe the data as presented is accurate in all material respects, that it is presented in a manner designed to set forth fairly the financial position and results of operations of the City and that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial activity have been included. This report will provide the taxpayers of the City of Dover with comprehensive financial data in a format which will enable them to gain an understanding of the City of Dover's financial affairs. Copies will be made available to the Chamber of Commerce, major taxpayers, Dover Public Library, financial rating services and other interested parties.

The comprehensive annual financial report is presented in three sections as follows:

1. The Introductory Section contains the table of contents, letter of transmittal, GFOA Certificate of Achievement, elected and principal officials of the City, and the City's organizational chart.
2. The Financial Section begins with the Independent Accountant's Report, and includes Management's Discussion and Analysis, the Basic Financial Statements and Notes that provide an overview of the City's financial position and operating results, the Combining Statements for nonmajor funds and other schedules that provide detailed information relative to the Basic Financial Statements.
3. The Statistical Section presents various tables reflecting social and economic information, financial trends, and fiscal capacity of the City.

### City Organization

Dover lies 80 miles south of Cleveland and Lake Erie and 100 miles west of Pittsburgh. Though originally called Dover, the prefix "canal" was added in 1807 by postal authorities to distinguish the City from the Village of Dover in Cuyahoga County. Canal Dover was an appropriate name at this particular time considering the town's first prosperity was stimulated by the construction of the Ohio and Erie Canal in the late 1820's. This "canal town" was incorporated as a village in 1842 and established as a city in 1901. By December 18, 1915, the City was officially referred to by its original name of Dover.

TREE CITY USA

Operating under the Mayor/Council form of government, the citizens of Dover elect a mayor, auditor, law director, treasurer and eight members of the council, including the president, three council members-at-large and four ward council members. A safety director, service director, auditor, treasurer, and law director are responsible for various departments of City business.

## **Reporting Entity and Services Provided**

For financial reporting purposes, the City has considered all departments and organizations making up the City of Dover (the primary government).

The City of Dover, as a governmental entity, is totally separate and distinct from the Dover City School District. Although the two entities share similar names, they are independent of each other in terms of governing bodies, financial resources and management. Because of the separate and independent nature of the school district, the school district's financial statements are not included in this report. The Community Improvement Corporation of Tuscarawas County, the Tuscarawas County Regional Planning Commission, the Southeastern Ohio Narcotics Team and the Ohio Mid-Eastern Governments Association are reported as jointly governed organizations. The City is also associated with one joint venture, the Ohio Municipal Electric Generation Agency (JV2).

The City provides the full range of municipal services. These services include police, fire, health care, recreation programs (including parks), transportation programs (including streets), water treatment and distribution and water back flow prevention and cross connection control programs, electric and electric pollution discharge elimination and PCB elimination programs, sewer and sewer industrial pretreatment programs, planning and zoning, and general administrative services.

## **Economic Condition and Outlook**

Dover covers an area of 5.71 square miles in northeastern Ohio and is located to the south of Cleveland and Canton. The City is easily accessible from Interstate 77. This popular and expanding residential community is noted for its older elegant homes built on quiet tree-lined streets. Dover is a highly desirable City to live in Tuscarawas County, as property values outpace inflation. The underlying strength of Dover's growing economy comes from its diversity. Dover does not depend on one firm for local employment; as many as five corporations employ in excess of 200 people each, lending to the City's diversification.

Five banks (Huntington National, Bank One, First National Bank of Dennison, Citizens Bank, First Federal Bank) are located in the City. Financial institutions located in the County had total deposits of \$236,126,000 on December 31, 2002.

Residents of Dover receive information through various media. The New Philadelphia Times-Reporter, a daily morning newspaper, serves the City. In addition, the City is within the broadcast area of five television stations, and Adelphia Cable Company provides digital cable TV services. Three AM and FM radio stations are located in the County (one within the City).

Post-Secondary schooling is available through two-year and four-year colleges and universities, including the Kent State University, Tuscarawas Campus.

Construction of the Boulevard South addition to Union Hospital began in July 2001. The first floor is completed and the hospital's Cardiology Center and Vascular Center has moved in. The second and third floors will house patients in 50 beds in 34 private and semi-private rooms. The addition of these beds increases the hospital's inpatient bed capacity by 38 percent. Union Hospital is Dover's largest employer reporting 802 employees at 2002 year end. They are currently recruiting personnel to fill 130 new positions and have already hired 70 additional employees in 2002. By 2003 year end, the hospital will employ nearly 1,000 individuals. This 18 million dollar expansion coupled with the additional hiring had

been compared to the economic impact of building a new industrial plant and hiring 300 workers by hospital personnel. The hospital held a public open house of the new facilities on April 27, 2003. Its continued growth and quality health care makes Union Hospital a great asset to the City of Dover.

Another notable Dover business is Allied Machine and Engineering Corporation (AMEC). AMEC is a global leader in the engineering and manufacturing of replaceable drill inserts and drill holders. AMEC is consistently changing to keep in pace with the industries ever changing needs, while continuing to expand their market share by hiring additional sales staff to accommodate the needs in Europe. Another significant change for AMEC is the development of external business development relationships. An agreement was finalized with the Certatizit company to become the exclusive North American marketing channel for their patented EcoCut product line. The EcoCut product is one tool that replaces four for a customer. This tool is a very cost effective solution for many manufacturing applications. AMEC plans to continue to invest the human and capital resources. This investment coupled with the desire to continually improve throughout the company positions AMEC to make a difference in the future.

The former AK Steel complex has a new owner. The Tuscarawas County Port Authority bought the building on January 9, 2003 for nearly \$1.5 million. The 700,000 square feet of buildings on 44 acres of land has been empty for nearly three years. The Port Authority plans to invest an additional \$1.6 million for renovations. Owens-Corning, based at Toledo, Ohio, became the first tenant on February 15<sup>th</sup> of 2003, when they signed a lease for 232,500 square feet of space for a warehouse. Owens-Corning will phase in 10 to 12 jobs during the first six months of their occupancy. Owens-Corning has expressed much interest in the City's fiber optic network possibilities, and currently uses fiber for communications between their existing plants and customers. The Port Authority has other businesses interested in the space and will be leasing to tenants as the building is renovated.

Marlite, a long time Dover Company, that manufactures and sells a variety of rigid wall coverings used in commercial buildings has added six new products to its line in 2002. The retail line of products are used to create wall, floor and free-standing displays. Among the new retail products are five new Visplay products. Visplay, a manufacturer of high-end retail merchandising products, entered into a partnership with Marlite in 2000. The agreement gives Marlite the exclusive marketing rights to the North American market. The Surface System Radius was introduced in 2002. The Surface Systems, a modular wall covering with pre-engineered grid system has been a long time signature product for Marlite. The Radius Wall option allows architects to use the product on virtually any curved wall. In 2003, Marlite is looking forward to expanding the product line, as well as pursuing strategic partnerships.

Zimmer Orthopedic Surgical Products (formerly Zimmer Patient Care) reported excellent growth in the first three quarters for the year 2002. This growth is in part due to the innovation and sales of the OrthoPAT System (Orthopedic Perioperative Autotransfusion System). This system salvages a patient's own blood during an orthopedic procedure. The system washes out impurities of the blood and refreshes the red blood cells to the patient. The most unique feature of this system is its ability to collect blood during and after surgery, thus reducing the need for blood transfusions. In the fourth quarter of 2002, Zimmer Orthopedic Surgical Products introduced the A.T.S. 1200 tourniquet system, the Zimmer tissue bank dermatome, and the Pulsavac LP wound debridement system. Each of these products has unique features to allow for improvement in the quality of care provided to patients. In 2003, Zimmer Orthopedic Surgical Products' major goal is the development of new product lines while continuing to research ways to improve existing lines.

Dover is very proud of one of its more unique residents. Dover was the home of Ernest "Mooney" Warther and is still home to many of his descendants. Mooney Warther was a master carver, who began whittling at age five. Throughout his life, he carved the history of the steam engine. He also carved high quality knives. One hundred and one years after Mooney Warther carved his first kitchen knife, the family continues to manufacture the fine cutlery, as well as operating the museum that houses Mooney's many carvings. A \$1.5 million addition that doubled the size of the museum and gift shop was completed in June 2002. The museum now includes a 50 seat theater, and a conference room. Frieda Warther collected

buttons and the “button house” showcases 73,000 buttons. The museum offers guided tours daily. Dinner tours are also available, to tours of 25 or more, with a catered dinner served in the Ivory Room of the museum.

## **Major Initiatives**

***For the Year*** The City of Dover has been actively involved in many issues that will affect the City for many years to come. Aggressive annexations and new housing developments are providing the City with expected growth economically as well as expanding the City’s size.

The City has kept a keen interest in the legislation that affects the municipal electric industry. Our Mayor Richard Homrighausen serves as the president of the Ohio Municipal Electric Association. He has been asked to testify in Washington, D.C. at a Senate Sub Committee in recent years and continues to be a voice in Washington, advocating the needs of small municipal electric generating plants in Ohio.

The Utility Office software update is completed and the City is able to bill “unbundled” rates for electric service such as generation and distribution. The KWh tax imposed by the State of Ohio is tracked by the billing system. An ordinance passed in 2003 allows the KWh tax to be passed on to the consumer outside the City limits. The City does not pass the tax on to the consumer inside the City limits. The City pays the tax from electric fund and allocates it per law to the General fund. The City is discussing the KWh transfer to the General fund and a decision concerning the amount to be transferred back into the electric fund will be decided, and legislation will be passed to allow that transfer by year end.

Construction is in progress of a 69 KV line from the Northern Intertie to the Light Plant that will provide a loop feed. This loop will greatly increase our reliability and provide ease of maintenance of the system. A new distribution substation at the Northern Intertie is being constructed, and the existing substation equipment at that site is being upgraded and relocated to the site of the current south substation. This project was scheduled for completion in 2002, however, due to unforeseen issues the project continues into 2003.

It is the City’s intention not only to improve the quality of our electric system, but to also provide the City with state of the art Communications with the use of fiber optic cable. A Telecommunications Administrator was hired in July of 2002. He has been kept busy researching the needs of the City departments, and anticipating the needs of business and industry in Dover. The purchase of equipment was approved in 2003, and the City will be “linking” all City departments soon via our own fiber network. The ability to provide local business a fiber optic connection will be realized in 2003. The administration and City Council are exploring the many opportunities this telecommunication link can provide, and will continue to research the most cost effective way to utilize this valuable asset.

The Cemetery Department has been kept busy constructing an additional maintenance/storage building to meet the growing demands of the department. Much of the work such as electrical, water, cement and landscaping was performed by department personnel. Cemetery records have been maintained by computer since 1989 with regular updates. The cemeteries are beautifully landscaped full service facilities providing ground lots, a mausoleum and cemetery niches.

In 2002, the Street Department assumed the additional responsibility of mowing of the right of ways which consists of thirty-six locations. The Street Department provides many services to the public such as leaf and brush removal, catch basin repair, street cleaning and sign maintenance, just to name a few. The leaf season this year consisted of thirty-nine working days with 158 loads of leaves collected, 1,144 gallons of fuel used, and 1,608 man hours. Brush removal requests totaled 1,608 in 2002. The City maintained its existing paving program, with 7,664 tons of asphalt used for a cost of \$262,625.

The Traffic Department’s, a division of the Street Department, 2002 painting program consisted of the use of 425 gallons of yellow paint, 270 gallons of white paint and 6,200 pounds of glass beads applied to the

City's streets, numerous parking stalls, crosswalks, railroad crossing emblems and turn bays. The department also installed or replaced a total of 192 signs and maintained the City's twenty eight traffic light systems.

In January 2002, the police department was awarded a grant from the Ohio Office of Criminal Justice Services to update the department's computer system. The total amount of the grant was \$23,398, with a 10 percent local match by the City. This money was used to purchase mobile data terminals for the cruisers, which will be installed and operational in 2003.

The police department continues to serve the community by providing service programs such as the Third Grade Seat Belt Program, Fourth Grade Bicycle Safety Program, National Child Safety Program for K thru 5<sup>th</sup> grade, Halloween Safety from grades 1 thru 6, and the Tuscarawas Safe Kids Coalition. Officers represent the department and make presentations at many organizations upon request. It is a priority of the police department to provide the best service and education as possible to the Citizens of Dover.

The fire department recognized Fire Prevention Week by hosting an open house in October 2002, that was attended by citizens and City officials. Displays included fire safety, EMS, and various informational and historical presentations. Department members were on hand to demonstrate the uses of various equipment. The fire department is consistently updating standard operating procedures and keeping the public informed of fire safety.

The City's website at [www.doverohio.com](http://www.doverohio.com) continues to expand and receive positive feedback. Our Utility Director created the website in-house and is responsible for the site's periodic updating. The site provides links to other sites of interest in the area as well as information about the City and its departments.

The City continued its celebration of 100 years of incorporation throughout the year. The City participated in many area parades and hosted an old fashioned ice cream social in September of 2002. Another downtown event was held in December to mark the end of the year long celebration. During the December event, the community Christmas tree and downtown was lit and entertainment was provided. A 2003 calendar was printed featuring turn of the century homes of the City and sold throughout the year. The City of Dover is proud of its history and plans to continue to provide its citizens the chance to participate and explore the colorful past of the City.

As always, all departments have kept a progressive approach to management and are continually upgrading their education and licenses as well as implementing new ideas to make the City services they provide to its citizens the best they can be.

***For the Future*** The City of Dover is currently considering the first tax abatement for a local business who is planning a large expansion. City Council will be voting on this issue in June 2003. With this new expansion, the purchase of the former AK Steel building by the Tuscarawas County Port Authority, and the ensuing leasing of that space, the City of Dover will be seeing an expanding tax base. One of the primary goals for 2003 is the building of an industrial park on the land annexed in 2002. The City administration has a firm commitment from two companies who are in the process of expansion and have purchased 10 acres. Water, sewer and electric utilities will need to extend to this area, and tax incremental financing (TIF) is being explored as a means of recouping the City's investment in this area, located along the southwest edge of the City.

Tuscarawas County Port Authority's purchase of the former AK Steel building is an incentive for the City of Dover to continue with the fiber optic network. It is the City's plan to offer fiber optic connectivity to any business in the future. The City is placing a special focus on this area to fulfill requests from potential businesses interested in leasing the space. The City of Dover will be using the fiber network in 2003 to connect all City offices and departments.

New housing developments continue in the City, increasing the demand for City utilities. The City of Dover is keeping an eye on the future and planning expansions of our utilities accordingly. A notable expansion currently underway is the Sewer Treatment Plant. The plant was last expanded in 1987 and is currently suitable for the City. The expansion will double the plant's capacity to meet and exceed our growing demand. This expansion is in the design stage and has been planned for the last two years. We expect to break ground in 2004.

The future of the City is being guided by an administration and City Council that is keeping close watch on our costs, as well as needs, in keeping the City an attractive place to raise a family and operate a successful business. With this strategy we feel the City will continue into the 21<sup>st</sup> century on a progressively positive note.

***Department Focus*** Each year the City selects a department to highlight for its efforts and accomplishments. For 2002, we would like to focus on the City Parks and Recreation department.

The City of Dover Parks and Recreation department is responsible for the maintenance of two parks, two swimming pools, eight tennis courts, nine baseball and softball diamonds and the operation and rental of Memorial Hall. The department superintendent also serves as the Shade Tree Commissioner.

2002 was a banner year for the department due to a long awaited remodeling of Memorial Hall. Doing most of the carpentry work "in house" utilizing the expertise of the employees of the parks and recreation department, the basement of the hall was updated to provide the users with a more comfortable atmosphere. The basement is used for wedding receptions, anniversary parties, family reunions and a host of other parties throughout the years. The project is to be finalized in 2003. During the summer, the City pond was relocated to the other side of the creek. The pond was moved to this otherwise unusable piece of land, due to its low nature and the ensuing water problems. This allowed the area where the pond was previously located to be made useful for other purposes. This project was funded by a grant from the Ohio Department of Natural Resources. A picture of the new pond is featured on the front cover of this year's report. The pond will be stocked with aquatic wildlife for young fisherman, and a walking path has been installed around the pond. Donations were made by local civic organizations for two lighted fountains.

The Shade Tree Commission was busy this year with 102 new trees planted, 434 trees pruned and 66 trees removed. The Shade Tree Commission consists of eight members and the Commissioner. With the help of a consultant, the City's trees are inventoried, examined, and decisions are made by the Commission based on the consultants recommendations. The City has been the recipient of the Tree City USA award for the last twenty two years. Grants and donations have been made throughout the years to help maintain their noncapitalized asset value at over 4 million dollars to the City of Dover and its residents.

The Parks and Recreation Department does an outstanding job of keeping the parks beautiful and the many softball, volleyball, baseball and bocce leagues accommodated. A coed softball league was added in 2003, with hopes of expanding past the four teams that played. There were seven men's softball teams, seven women's and eight men's adult bocce teams. The youth baseball program had 32 teams with over 500 boys playing, while the girls had 17 teams with about 250 girls. Adult women's volleyball consisted of eight teams. Coed volleyball had twelve teams in 2002. The City offers classes throughout the year for various sports. We are happy to provide these services to the residents and plan to continue to improve and expand our park department to meet the needs of the citizens of Dover.

## **Financial Information**

***Internal Accounting and Budgetary Control*** In the preparation of its annual report, the City uses the modified accrual basis of accounting for governmental funds, and the accrual basis for enterprise, internal service and fiduciary funds. When using the modified accrual basis, revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. The

accrual basis recognizes revenues when earned and expenses when incurred. This timing enables management to improve the quality of its decision making process by providing more consistent, comparable information regarding the current and past operations and financial position of the City.

In developing and updating the City's accounting and reporting control system, consideration is given to the adequacy of internal control in providing reasonable but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from its implementation, and that the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. The City Auditor's responsibilities include evaluating the appropriateness of internal control, developing procedures to enhance internal control and working closely with outside auditors.

The City uses a fully automated accounting system which provides the capability to prepare financial information based on generally accepted accounting principles (GAAP) for governments. Budgetary control is maintained at the object level by the encumbrance of estimated purchase amounts coupled with the manual auditing of each purchase order prior to its release to a vendor or prior to payment to ensure that financial information generated is both accurate and reliable. Those purchase orders which exceed the available appropriation are returned to the department head.

The City adopts a temporary appropriation budget on or before January 1 of each year for the period January 1 through March 31. An annual appropriation budget is passed by April 1 of each year for the period January 1 through December 31. All disbursements and transfers of cash between funds require appropriation authority.

***New Financial Reporting*** This is the second year the City has prepared financial statements following "GASB Statement 34 - Basic Financial Statements-and-Management's Discussion and Analysis - for State and Local Governments." GASB 34 creates new basic financial statements for reporting on the City's financial activities as follows:

***Government-wide financial statements*** These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by many businesses. The government-wide statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

***Fund financial statements*** These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

***Statements of budgetary comparisons*** These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As a part of this new reporting model, management is responsible for preparing a Management Discussion and Analysis of the City. This discussion follows the Independent Accountant's Report, providing an assessment of the City finances for 2002 and the outlook for the future.

***Financial Highlights - Internal Service Fund*** There is one internal service fund carried on the City's financial records. The self insurance-internal service fund has net assets of (\$5,993) as of December 31, 2002.

**Cash Management** Cash temporarily idle during the year was invested in demand deposits, certificates of deposit, STAR Ohio and mutual funds.

Protection of the City's deposits is provided by the federal deposit insurance corporation as well as by qualified securities pledged by the institution holding the assets. By law, financial institutions may establish a collateral pool to cover all public funds deposited.

**Risk Management** The City of Dover manages the hospital/medical health benefits for its employees on a self-insured basis. A third party administrator processes and pays the claims. An excess coverage insurance policy covers claims in excess of \$45,000 per employee per year and in the aggregate of \$1,172,568 per year. The advantages of the self-insurance arrangement include the City of Dover holding the reserves and earning interest on them as well as saving on administrative costs. Control of the plan rests with the City.

All employees of the City of Dover are covered by a blanket bond, while certain individuals in policy making roles are covered by separate, higher limit bond coverage. The City uses the State Workers' Compensation plan and pays the premium based on a rate per \$100 of salaries. The City contracts for general liability insurance with a \$1,000,000 limit and a \$5,000,000 limit Umbrella Policy.

### **Independent Audit**

The financial records, books of accounts and transactions of the City of Dover, Ohio, for the year ended December 31, 2002, have been audited by the Auditor of State Betty Montgomery's Office. The Auditor's opinion has been included in this report.

### **Awards**

**GFOA Certificate of Achievement** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Dover for its Comprehensive Annual Financial Report for the year ended December 31, 2001.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report which conforms to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA for review.

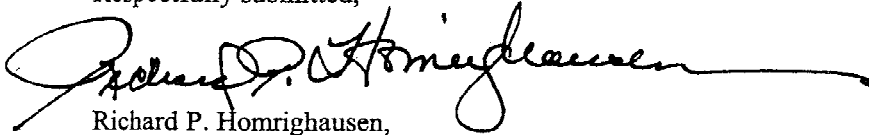

**Tree City USA** The City received its twenty-second Tree City USA Award for the year ended December 31, 2002. These prestigious awards recognize the City for its annual program of planting new trees and maintaining and removing old trees.

### **Acknowledgments**

The preparation of the Comprehensive Annual Financial Report requires a major effort. We would like to thank everyone who has been involved in this report either directly or indirectly. The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the finance department, supervisors of other City departments, and both the Audit and the Local Government Services Section of the Auditor of State Betty Montgomery's office.

We are happy to report that the City's financial policies and management, combined with a strong local economy, have enabled Dover to continue to improve its already sound financial condition. In addition, the prospects for continuing this pattern are encouraging. Each year we renew our commitment to implement responsible and progressive changes in order to improve our responsiveness to the citizenry and to insure the financial stability of the community. We extend our appreciation to City Council for its support and commitment to responsible fiscal reporting.

Respectfully submitted,

Richard P. Homrighausen,  
Mayor

Mary J. Fox  
Auditor

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Dover,

**INDEPENDENT ACCOUNTANTS' REPORT**

City of Dover  
Tuscarawas County  
122 East Third Street  
Dover, Ohio 44622

To the Members of City Council:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dover, Tuscarawas County, Ohio (the City) as of and for the year ended December 31, 2002, which collectively comprise the City's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dover, Tuscarawas County, Ohio, as of December 31, 2002, and the respective changes in financial position and cash flows, where applicable, and the respective budgetary comparison for the General fund thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 6, 2003 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to form opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining nonmajor fund statements and schedules and statistical tables are presented for additional analysis and are not a required part of the basic financial statements. We subjected the combining nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

A handwritten signature in black ink that reads "Betty Montgomery". The signature is written in a cursive, flowing style.

**Betty Montgomery**  
Auditor of State

June 6, 2003

**City of Dover, Ohio**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2002*  
*Unaudited*

---

The discussion and analysis for the City of Dover's financial statements provides an overall review of the financial activity of the City for the twelve months ended December 31, 2002. The intent of this discussion is to provide a narrative that describes the City's performance as a whole. To obtain a more detailed understanding, one should also review the transmittal letter and the basic financial statements.

**Financial Highlights**

Financial highlights for 2002 are as follows:

- Total Net Assets increased \$335,123. Net Assets of governmental activities increased \$723,024 which represents a 10 percent increase from 2001. Net assets of business-type activities decreased \$387,901 or 1 percent from 2001.
- Total Assets of Government Activities increased \$996,127 or 8 percent above the 2001 level.
- Total Current Liabilities decreased \$15,611.
- Total Capital Assets increased \$754,113, which represents a 2 percent increase.
- Total Outstanding Debt decreased \$984,465 or 4 percent during 2002.

**Using this Annual Financial Report**

This report is designed to allow the reader to look at the financial activities of the City of Dover as a whole and is intended to allow the reader to obtain a summary view or a more detailed view of the City operations, as they prefer.

The Statement of Net Assets and the Statement of Changes in Net Assets provide information from a summary perspective showing the effects of the operations for the year 2002 and how they affected the operations of the City as a whole.

***Reporting the City of Dover as a Whole***

**Statement of Net Assets and Statement of Activities**

The Statement of Net Assets and the Statement of Activities provide summary information concerning the financial position and operations of the City as an entity. They provide a good resource for an overall evaluation of the City's financial performance "on one page." These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting. This method takes into account all revenues when they are earned and all expenses when they are incurred. These transactions are booked when they occur and not when the actual cash is received for revenues or when invoices are paid for expenses.

These two statements report the City's net assets and changes in those assets. The change in net assets is important since it is an indication of whether the financial position of the City is improving or declining. However, to properly evaluate the operation of the City, certain non-cash items should be taken into consideration. These items would include the current economic situation as a whole, the current tax base for the City and the age and condition of the City buildings and infrastructure.

---

In the Statement of Net Assets and the Statement of Activities, the City is divided into two major activities:

- **Governmental Activities** - Most of the City's programs and services are reported here, including general government, security of persons and property, transportation, public health services, community environment, basic utility services, and leisure time activities.
- **Business-Type Activities** - These services are provided on a fee basis to recover all of the expenses of the goods or services provided. The City's business-type activities are sewer, electric and water.

***Reporting on the Most Significant Funds of the City of Dover***

*Fund Financial Statements*

The analysis of the City's major funds begins on page 8. The fund financial reports give a detailed report of the activities within the funds. The City currently has twenty funds. These funds are in existence to provide a multitude of services to the citizens of Dover. Each fund is in some ways an entity unto itself. Each fund has a designed revenue stream and restricted uses for the monies within the fund.

In this report, the focus is on five major funds, the General fund, the Master Capital fund, the Sewer fund, the Electric fund, and the Water fund. For purposes of this report, the Sewer Revenue and Wastewater Reserve are reported as the "Sewer Fund." Likewise the Electric Revenue, Guarantee Deposit, Electric Replacement and Improvement, Electric System Construction, Electric System Capital Reserve, Electric Surplus, and the Municipal Electric Improvement are all reported under the "Electric Fund" and the Water Revenue, Water Surplus, Water Construction and the Water Replacement and Improvement are reported as the "Water Fund"

*Governmental Funds* All of the City's major activities (excluding the Water, Sewer and Electric funds) are reported in the governmental funds. This report shows how monies flow into and out of these funds and also shows what balances are available for future expenditures. The accounting method used to report this activity is the modified accrual method. This method reports cash and like-cash items that can be converted into cash. This shows what level of financial resources is available or will be available to provide the services that the general government provides in the near future. These services include police and fire protection, as well as the improving and maintaining the City's streets, parks, cemeteries, and City Hall. The relationship between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and the government funds is reconciled in the financial statements.

***Proprietary Funds*** Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.

**The City of Dover as a Whole**

The Statement of Net Assets provides an overall view of the City. Table 1 shows a summary of the City's net assets for 2002 as they compare to 2001.

**Table 1**  
**Net Assets**

	Governmental Activities		Business-Type Activities		Total	
	2001	2002	2001	2002	2001	2002
<b>Assets</b>						
Current and Other Assets	\$7,265,167	\$7,355,162	\$16,350,784	\$15,247,778	\$23,615,951	\$22,602,940
Capital Assets, Net	5,541,325	6,447,457	38,918,279	38,766,260	44,459,604	45,213,717
<i>Total Assets</i>	<i>12,806,492</i>	<i>13,802,619</i>	<i>55,269,063</i>	<i>54,014,038</i>	<i>68,075,555</i>	<i>67,816,657</i>
<b>Liabilities</b>						
Current Liabilities	4,062,763	4,244,903	8,042,413	7,844,662	12,105,176	12,089,565
Long-Term Liabilities:						
Due Within One Year	281,246	300,923	929,815	990,578	1,211,061	1,291,501
Due in More Than One Year	1,050,692	1,121,978	15,318,655	14,588,519	16,369,347	15,710,497
<i>Total Liabilities</i>	<i>5,394,701</i>	<i>5,667,804</i>	<i>24,290,883</i>	<i>23,423,759</i>	<i>29,685,584</i>	<i>29,091,563</i>
<b>Net Assets</b>						
Invested in Capital Assets, Net of Related Debt	3,071,325	3,897,457	19,203,899	18,093,037	22,275,224	21,990,494
Restricted for:						
Other Purposes	1,280,927	1,226,474	0	0	1,280,927	1,226,474
Replacement and Improvement	0	0	4,690,504	4,269,181	4,690,504	4,269,181
Unrestricted	3,059,539	3,010,884	7,083,777	8,228,061	10,143,316	11,238,945
<i>Total Net Assets</i>	<i>\$7,411,791</i>	<i>\$8,134,815</i>	<i>\$30,978,180</i>	<i>\$30,590,279</i>	<i>\$38,389,971</i>	<i>\$38,725,094</i>

Total assets decreased in 2002 by \$258,898. Total liabilities decreased by \$594,021. Assets and liabilities remained consistent to that of 2001.

The reduction of \$594,021 in total liabilities is due to reductions in both current as well as long-term liabilities. The reduction in current liabilities is \$15,611. The reduction in long-term liabilities is primarily the result of the payments on the revenue bonds and debt in the enterprise funds. All three utilities have long-term debt.

Total net assets increased by \$335,123. This number reflects an increase in governmental activities and a decrease in the net assets of the business-type activities.

**City of Dover, Ohio**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2002*  
*Unaudited*

The City also works hard to increase net assets through our investment program. Investment earnings for governmental and business-type activities were \$399,371 in 2002. This is a decrease of \$274,984 from 2001. This decrease is a result of lower interest rates and the timing of City investments.

Table 2 shows the changes in net assets for the fiscal year 2002 for both our Governmental activities and our Business-Type activities. Since this is the second year the City is reporting under the GASB 34 reporting model, revenue and expense comparisons can be made between the years 2001 and 2002.

***Governmental Activities***

The funding for the governmental activities comes from several different sources, the most significant being the municipal income tax. Other prominent sources are property taxes, grants and entitlements, charges for services, and investment interest.

The City's income tax was established by ordinance to be effective January 1, 1970 at a rate of 1 percent. The rate has not been increased. Even though this rate is much lower than the state average for municipalities that have an income tax, there are no plans at this time to increase the rate. The income tax accounted for revenues of \$2,980,329 in 2002. These revenues were split with 40 percent to the Master Capital fund, and the remaining 60 percent divided between the Street Maintenance and Repair fund, the Cemetery fund, the Police and Fire Pension fund and the General fund. The income tax revenue is distributed to the special revenue funds on an as needed basis as a subsidy. Remaining income tax revenue is receipted in the General fund. This allocation is set by ordinance and changed throughout the year to reflect need. At this time there are no plans to change the percentage of allocation to the Master Capital fund. This practice of putting a percentage of income tax revenue into the Master Capital fund has been an excellent tool for the City in making capital improvements without the need to issue debt.

Police and fire represent the largest expense of the Governmental Activities. This expense of \$3,104,690 represents 45 percent of the total expenses. These two departments operate out of the General fund.

Our Fire Department employs 17 full time employees including the Chief. The City is very committed to maintaining a very efficient department. Regular meetings, drills, and training sessions are held. There is a strong emphasis on equipment with financial planning in place for replacement of worn equipment on a regular basis. The department's functions include firefighting, emergency medical service including paramedic service, fire prevention education, and investigation. The department also contracts with Dover Township to provide firefighting and emergency medical services. The revenues generated by this contract are reported under the charges for services area.

Our Police Department is also funded through the General fund. The department is a full time 24 hour a day, 365 days a year department with 22 officers and a full time Chief.

Our Street Maintenance and Repair and Traffic Department employs 16 full time employees who provide the City and its citizens many services that include public road salting, leaf and debris pickup, paint striping, and alley profiling. Transportation expenses increased by \$874,155 due to several non-capitalized repairs.

The City also maintains two cemeteries (public health services) and two parks (leisure time activities) within the City. These areas had expenses of \$1,024,403 in 2002, equaling 15 percent of the total governmental services expenses.

***Business-Type Activities***

The City also operates a Utility Department that consists of three utilities. The largest from an asset and revenue standpoint is the electric utility. This utility consists of a coal fired generation plant and distribution system that serves the City and surrounding area with reliable and competitively priced power. In 2002, the electric utility sold 230,889,319 KWH of electricity to generate \$13,382,771 in revenue. We burned 41,167 tons of coal at a cost of \$1,396,581. In 2001, the City entered into a joint venture project with other municipalities and American Municipal Power of Ohio (AMP Ohio) to ensure the availability and consistent pricing when purchasing peak power. This investment helps to ensure the

---

City's goal of reliable, affordable power and gives the City the opportunity of selling any excess City owned power to others.

The water utility services 5,422 residents with a minimum monthly pumpage of 1.52 million gallons and a maximum monthly pumpage of 3.54 million gallons in 2002. The water plant is the newest of the utility facilities. It was put into service in 1998. The raw water is supplied through four wells currently in service into the plant where it's treated with chlorine and filtered through green sand filters and distributed throughout the City. The City has three water towers.

The sewer facility processed an average of 1,365,000 gallons per day during 2002. This facility is near its peak capacity and a sludge press was added in 2001 to increase the efficiency of the plant. The City is moving forward with a sewer plant expansion.

The revenues and expenses for all three of these utilities are reported under the business-type activities on Table 2. The majority of the City's revenues and expenses flow through the business-type activities. The revenues are generated primarily from charges for services. In 2002, charges for services of \$17,045,341 accounted for 98 percent of the revenues. The total expenses for the utilities were \$17,694,306, thus leaving a decrease in net assets of \$380,776 for the business-type activities.

***The City's Funds***

Information about the City's governmental funds begins on page 16. These funds are accounted for using the modified accrual method of accounting. All governmental funds had revenues of \$7,428,171 and expenditures of \$7,499,492. The funds are monitored consistently with adjustments made throughout the year in budgets to accommodate yearly revenues. The one fund that consistently exceeds our expenditure expectations is our Employee Health Insurance fund. Our medical and dental benefit plans have been self-funded since 1988. The monthly premium paid to the fund was increased in 2002 to help offset the rising costs. We are currently in the process of negotiating with our unions for plan modifications to help control plan costs.

Information about the Proprietary Funds starts on page 21. These funds are accounted for on an accrual basis. All business type funds had operating revenues of \$17,130,234, which exceeded operating expenses of \$16,269,525 by \$860,709 or 5 percent of operating revenues. The City is consistent with reviews of these funds, and the necessary adjustments are made to ensure strength in our enterprise funds.

***Budgeting Highlights***

The City's budget is prepared according to the laws of the State of Ohio and is based on accounting for certain transactions on a cash basis for receipts, expenditures, and encumbrances. The City of Dover is somewhat different than many other Ohio cities its size in that the General fund is not our most significant fund. Because we own and operate an electric generating and distribution facility, our Electric fund is our most significant. Our budget is adopted at object level within each department. Any budgetary modifications at the level may only be made by Councilmatic action.

All recommendations for appropriation changes come to Council from the City Auditor. The Finance Committee of Council reviews them, and they make their recommendation to the Council as a whole.

Strong emphasis is placed on fund balances. The City Auditor reviews fund balances on a daily basis. Special attention is paid to the operating funds, which are the General, the Electric, Sewer and Water

**City of Dover, Ohio**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2002*  
*Unaudited*

funds. Council also receives a monthly report showing beginning fund balance for all funds at the beginning of the year, the change in the balance thus far year to date, and the current fund balance.

Line item reports are reviewed regularly by the City Auditor to ensure spending is within the legal level. The managers and superintendents, as well as the Utility and Safety Service Directors, also monitor their appropriations and fund balances to ensure the entire operation of the City operates within the appropriations.

***Capital Assets***

**Table 3**  
**Capital Assets at December 31**

	Governmental Activities		Business-Type Activities		Total	
	2001	2002	2001	2002	2001	2002

Furniture and Fixtures	25,754	22,205	72,870	66,949	98,624	89,154
Vehicles	384,779	363,690	456,693	337,712	841,472	701,402
Infrastructure	1,575,311	2,274,409	14,484,068	14,492,291	16,059,379	16,766,700
Construction-In-Progress	0	0	4,290,544	5,145,384	4,290,544	5,145,384
<i>Total Capital Assets</i>	<u>\$5,541,325</u>	<u>\$6,447,457</u>	<u>\$39,018,279</u>	<u>\$38,766,260</u>	<u>\$44,559,604</u>	<u>\$45,213,717</u>

Total Capital Assets for the City of Dover for the year ended December 31, 2002 were \$45,213,717, which reflects a \$654,113 increase over the 2001 figure of \$44,559,604. Infrastructure acquired or constructed prior to 2000 has not been reported in the governmental activities. In 2001, the City reported its current year infrastructure and will phase in the beginning balance in future years. In 2002, \$737,846 was added for the improvements and additions to fire hydrants, streets and storm sewers bringing the total governmental infrastructure to \$2,329,259. In the business-type activities, there was a decrease of \$252,019 for 2002. Note 7 provides capital asset activity during the 2002 year.

***Debt***

The outstanding debt for the City of Dover as of December 31, 2002 was \$23,851,142. This balance reflected a reduction of \$984,465 from the previous year's balance of \$24,835,607, a reduction of 4.0 percent.

**Table 4**  
**Outstanding Debt at Year End**

	Governmental Activities		Business-Type Activities		Total	
	2001	2002	2001	2002	2001	2002
Police and Fire Pension	\$320,607	\$316,142	\$0	\$0	\$320,607	\$316,142
Revenue Bonds	0	0	13,980,000	13,530,000	13,980,000	13,530,000
General Obligations Bonds	0	0	1,415,000	1,205,000	1,415,000	1,205,000
Notes Payable	2,470,000	2,550,000	6,650,000	6,250,000	9,120,000	8,800,000
<i>Total</i>	<u>\$2,790,607</u>	<u>\$2,866,142</u>	<u>\$22,045,000</u>	<u>\$20,985,000</u>	<u>\$24,835,607</u>	<u>\$23,851,142</u>

The Utility Department carries the vast majority of the debt, the largest debt being that of the electric utility. Most of this debt is a revenue bond, and various purpose notes that were issued for major upgrades to the power plant. The electric utility also has two outstanding general obligation bonds in the amount of \$430,000.

The water utility has a revenue bond issued in 1994 for the construction of a new treatment plant. It is scheduled to be paid off in 2020.

The sewer utility has a general obligation bond. It will be paid off in 2009.

Debt service current year payments for the electric utility in 2002 were \$7,056,063. For the sewer utility it was \$921,177, and for the water utility \$499,251.

Additional information on the City's long-term debt can be found in Note 9 of this report. Note 13 provides information regarding bond anticipation notes.

**Current Financial Issues**

The City of Dover is in the process of growing. Annexation of over 250 acres of land was finalized in April of 2002. With this annexation came a few businesses and the opportunity for another Industrial Park. The City administration is currently working with businesses to occupy the park. Extension of City utilities to the new area is in the planning and design stages. The City is currently going through the process to obtain an engineering firm and alternative funding through grants, is being actively pursued.

The City is exploring various economic development plans to entice businesses to locate or expand their business to the City of Dover.

The City is consistently searching for ways to improve the electric service to our residents. An improvement project started in 1999 is still in progress. This project is enhancing the City's electric system's integrity in the event of a natural disaster affecting a substation, allowing the City to change automatically to an alternate feeder without any disruption of service.

---

The fiber optic cable network currently in place is being used as a tool to attract new and existing businesses to the City of Dover. The use of the cable will provide a business in Dover with reliable, efficient access to virtually anywhere in the world. The benefit of the use of the cable to the medical community would be the link to any specialist throughout the world. We feel this access to technology is worth exploring and the administration is researching the most cost efficient ways to provide the City of Dover and its citizens the pathway to this technology.

In the year 2003, the City of Dover is moving forward with a plan to use the existing fiber optic network to its greatest potential by providing our business and industry with high speed broadband communications. This will begin with a plan to interconnect all City of Dover facilities via a local area network to improve our communications capabilities. We will then move to provide business and industry with those same services. A plan to provide these services to our residential customers will also be developed.

The City is currently in the process of interviewing engineering firms for the sewer plant expansion project. This project is expected to break ground in 2004. The City will be seeking financing for the project through grants, loans or a revenue bond issuance.

The City plans to replace its 1968 snorkel fire truck in 2003, the City has been anticipating replacement for several years and earmarking funds. The estimated cost of replacement is \$625,000.

The plans for the future are always made keeping a careful watch on the financial condition of the City. The City of Dover is financially strong. It is the goal to keep it that way and still grow and meet the needs of the future. Even though the year 2002 was a year of economic downturn, the City of Dover showed its strength by continuing to provide service to the citizens at its highest level. All our City departments stayed staffed at full levels, and continued to proceed with business as usual. In the year 2003, the City will continue the replacement plans currently in place for equipment, proceed with the yearly paving programs, and extend our streets and utilities to new areas. City Council has again provided funding for a sidewalk replacement program and an alley paving program. With 2003 being the year of the State of Ohio's Bicentennial, the City of Dover has implemented a downtown banner program, as well as other events to join the State in its celebration.

The Council and the Administration work very hard to keep the City fiscally strong. We watch our funds closely and make sure monies are budgeted to provide for proper maintenance of our equipment and facilities. Our administration and department superintendents are all involved in our budget process. Our budget is developed from the bottom up with the emphasis of good stewardship of our ratepayers and taxpayers money.

The City of Dover has committed itself to financial excellence. We are reporting under the GASB 34 statement earlier than required, and we are also preparing a Comprehensive Annual Financial Report for the sixteenth time. We will be submitting our CAFR for the Government Finance Officers Award Certificate of Achievement of Excellence.

On behalf of the City of Dover we would like to thank the staff from the Auditor of State for their help in preparing this report. They were cooperative, professional, efficient, and their guidance is extremely helpful and appreciated during this time and throughout the year.

**City of Dover, Ohio**  
*Reconciliation of Total Governmental Fund Balances to  
 Net Assets of Governmental Activities  
 December 31, 2002*

---

**Total Governmental Fund Balances** \$1,909,316

*Amounts reported for governmental activities in the  
 statement of net assets are different because*

Capital assets used in governmental activities are not financial  
 resources and therefore are not reported in the funds 6,447,457

Other long-term assets are not available to pay for current-  
 period expenditures and therefore are deferred in the funds:

Property Taxes	42,269
Income Tax	476,807
Grants	819,891
Charges for Services	40,695

Total 1,379,662

An internal service fund is used by management to charge  
 the costs of insurance to individual funds. The assets  
 and liabilities of the internal service fund are included in  
 governmental-type activities in the statement of net assets. (5,993)

Intergovernmental payable includes contractually required  
 pension contributions not expected to be paid with  
 expendable available financial resources and therefore  
 not reported in the funds. (172,037)

An internal balance is recorded in governmental activities to  
 reflect underpayments to the internal service fund by  
 the business-type activities. 2,670

Accrued interest payable is not due and payable in the current  
 period and therefore is not reported in the funds. (3,359)

Long-term liabilities are not due and payable in the current  
 period and therefore are not reported in the funds:

**City of Dover, Ohio**  
*Reconciliation of the Statement of Revenues, Expenditures and Changes  
in Fund Balances of Governmental Funds to the Statement of Activities  
For the Year Ended December 31, 2002*

**Net Change in Fund Balances - Total Governmental Funds** (\$64,196)

*Amounts reported for governmental activities in the  
statement of activities are different because*

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital Asset Additions	1,339,713	
Current Year Depreciation	(433,581)	
Total		906,132

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property Taxes	(4,218)	
Income Tax	(63,158)	
Charges for Services	(10,614)	
Grants	62,035	
Total		(15,955)

Repayment of the police and fire pension liability is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. 4,465

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. 28

Some expenses reported in the statement of activities, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Compensated Absences	(95,428)	
Pension Obligation	(11,941)	
Total		(107,369)

The internal service funds used by management to charge the the cost of insurance to individual funds is not reported in the entity-wide statement of activities. Governmental expenditures and related internal service fund revenues are eliminated. The change for governmental funds is reported for the year. (81)

*Change in Net Assets of Governmental Activities* \$723,024

*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

**Note 1 - Description of the City and Reporting Entity**

The City of Dover (the "City") is a municipal corporation established and operated under the laws of the State of Ohio. Originally called Dover, the prefix "Canal" was added in 1807 by postal authorities to distinguish it from the Village of Dover in Cuyahoga County. Canal Dover was an appropriate name at this particular time due to the significance of the canal to the City's economic growth. This "canal town" was incorporated in 1842 and established as a city in 1901. By 1915, the City was officially referred to by its original name of "Dover."

The City is organized as a Mayor/Council form of government. The Mayor, Council, Auditor, Treasurer and Law Director are elected.

***Reporting Entity***

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that financial statements are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the City. The primary government provides the following services to its citizens: police and fire protection, parks and recreation, building inspection, street maintenance and repairs, water, electric, sewer and refuse collection. Council has direct responsibility for these activities.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board; and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organizations. Component units may also include organizations for which the City authorizes the issuance of debt or the levying of taxes, or determines the budget. There are no component units included as part of this report.

The City participates in the Community Improvement Corporation of Tuscarawas County, Tuscarawas County Regional Planning Commission, Southeastern Ohio Narcotics Team (SENT) and Ohio Mid-Eastern Governments Association (OMEGA) as jointly governed organizations and the Ohio Municipal Electric Generation Agency (JV2) joint venture. The City is also associated with the Ohio Association of Rural Water and Wastewater Systems Workers' Compensation Group Rating Plan, an insurance purchasing pool. These organizations are presented in Notes 15, 16 and 20 of the Basic Financial Statements.

**Note 2 - Summary of Significant Accounting Policies**

The financial statements of the City of Dover have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The City also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with or contradict GASB pronouncements. The most significant of the City's accounting policies are described below.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

***A. Basis of Presentation***

The City's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

***Government-wide Financial Statements*** The statement of net assets and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the City that are governmental and those that are considered business-type.

The statement of net assets presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the City.

***Fund Financial Statements*** During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

***B. Fund Accounting***

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

***Governmental Funds*** Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the City's major governmental funds:

***General Fund*** The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the City for any purpose provided it is expended or transferred according to the charter of the City of Dover and/or the general laws of Ohio.

***Master Capital Fund*** The capital improvement fund accounts for that portion of municipal income tax designated by Council for the purpose of improving, constructing, maintaining, and purchasing those items necessary to enhance the operation of the City.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

The other governmental funds of the City account for grants and other resources whose use is restricted to a particular purpose.

**Proprietary Funds** Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

**Enterprise Funds** Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

**Sewer Fund** The sewer fund accounts for the provision of sanitary sewer service to the residents and commercial users located within the City.

**Electric Fund** The electric fund accounts for the provision of electric power service to the residents and commercial users located within the City.

**Water Fund** The water fund accounts for the provision of water treatment and distribution to the residents and commercial users located within the City.

**Internal Service Fund** Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. The City's internal service fund reports on a self-insurance program for employee medical benefits.

**Fiduciary Funds** Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. The City's only trust funds are private-purpose trust funds established to account for the funds used for money held for individuals for their future burial costs and shade tree purchases.

### **C. Measurement Focus**

**Government-wide Financial Statements** The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the Statement of Net Assets. The Statement of Activities presents increases (e.g. revenues) and decreases (e.g. expenses) in total net assets.

**Fund Financial Statements** All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the Statement of Fund Net Assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

Private purpose trust funds are reported using the economic resources measurement focus.

***D. Basis of Accounting***

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; proprietary and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

***Revenues - Exchange and Nonexchange Transactions*** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, the resources must also be available before they can be recorded as revenue. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within thirty-one days of year-end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned. Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 5). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: income tax, state-levied locally shared taxes (including gasoline tax and motor vehicle license fees), fines and forfeitures, interest, grants and rentals.

***Deferred Revenue*** Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of December 31, 2002, but which were levied to finance year 2003 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

***Expenses/Expenditures*** On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

***E. Cash and Cash Equivalents***

To improve cash management, cash received by the City is pooled. Monies for all funds, except the investment trust fund, are maintained in this pool. Individual fund integrity is maintained through City records. Interest in the pool is presented as “equity in pooled cash and cash equivalents”.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

The City of Dover has invested in the State Treasury Asset Reserve of Ohio (STAROhio) during 2002. STAROhio is an investment pool managed by the State Treasurer’s Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio’s share price which is the price the investment could be sold at December 31, 2002.

Investment procedures are restricted by the provisions of the Ohio Revised Code. Interest is distributed to the general fund, street maintenance and repair, cemetery and revolving loan special revenue funds, the master capital projects fund, the employee self-insurance internal service fund, the cemetery interment private-purpose trust fund, and the sewer, electric, and water enterprise funds. Interest revenue credited to the general fund during 2002 amounted to \$254,947 which includes \$192,881 assigned from other City funds.

The City utilizes a financial institution to service bonded debt as principal and interest payments come due. The balances in these accounts are presented on the statement of fund net assets as, “cash equivalents held by trustee.” The City also uses a fiscal agent to hold retainage on construction contracts. The balances in these accounts are presented on the combined balance sheet as "cash and cash equivalents with fiscal agents" and represent deposits or short-term investments in certificates of deposit. See Note 4, Deposits and Investments.

Investments with an original maturity of three months or less at the time of purchase and investments of the cash management pool are presented on the financial statements as cash equivalents.

***F. Prepaid Items***

Payments made to vendors for services that will benefit periods beyond December 31, 2002, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expenditure/expense in the year in which the services are consumed.

***G. Inventory***

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

**H. Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets in the water enterprise fund and the electric enterprise fund include cash and cash equivalents set aside to satisfy bond indenture requirements for construction, current and future debt payments and the replacement of capital assets originally acquired with bond proceeds. Electric customer deposits have also been restricted because the deposit remains the property of the customer. The restricted asset account is balanced by a customer deposits payable liability account.

**I. Capital Assets**

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of one thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of proprietary fund capital assets is also capitalized.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings	45 years	45 years
Improvements other than Buildings	20 years	20-50 years
Machinery and Equipment	15 years	10-15 years
Furniture and Fixtures	6-20 years	20 years
Vehicles	6 years	6 years
Infrastructure	30-65 years	30-65 years

The City's infrastructure consists of bridges, culverts, curbs, sidewalks, storm sewers, streets, and water and sewer lines. For 2001, the City reported infrastructure for the first time. The City only reports the amounts acquired after 2000. The City plans to phase in the prior year amounts in future years.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

***J. Interfund Balances***

On fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are reported as “interfund receivables/payables.” Interfund loans which do not represent available expendable resources are offset by a fund balance reserve account. Interfund balance amounts are eliminated in the statement of net assets, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

***K. Compensated Absences***

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The City records a liability for all accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the City's past experience of making termination payments.

***L. Accrued Liabilities and Long-Term Obligations***

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and long-term loans are recognized as a liability on the governmental fund financial statements when due.

***M. Fund Balance Reserves***

Reserves represent those portions of fund equity not available for appropriation or legally segregated for a specific future use. Fund balance reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Fund balances are reserved for encumbrances and loans receivable.

***N. Net Assets***

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net assets restricted for other purposes include street construction, maintenance and repair, cemetery upkeep and police and fire pension payment requirements.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

***O. Operating Revenues and Expenses***

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for electric, waste water treatment, water services and self-insurance programs. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund. Revenues and expenses not meeting these definitions are reported as nonoperating.

***P. Contributions of Capital***

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

***Q. Interfund Activity***

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

***R. Extraordinary and Special Items***

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence.

***S. Estimates***

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

***T. Budgetary Process***

All funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The appropriations resolution is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of control has been established by Council at the object level within each department. Any budgetary modifications at this level may only be made by resolution of City Council.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Finance Director. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by Council.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council during the year.

**Note 3 - Budgetary Basis of Accounting**

While the City is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as a reservation of fund balance (GAAP).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance	
GAAP Basis	(\$331,848)
Net Adjustment for Revenue Accruals	11,222
Net Adjustment for Expenditure Accruals	619
Encumbrances	(95,799)
Budget Basis	<u><u>(\$415,806)</u></u>

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

**Note 4 - Deposits and Investments**

State statutes classify monies held by the City into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement exceeds the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligation of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and,
6. The State Treasurer's investment pool (STAROhio).

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories or risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements".

**Cash on Hand** At year end, the City had \$69,651 in undeposited cash on hand which is included on the Combined Balance Sheet of the City as part of "Equity in Pooled Cash and Cash Equivalents."

**Deposits** At year-end, the carrying amount of the City's deposits was \$5,514,778 and the bank balance was \$5,646,609. Of the bank balance:

1. \$404,943 was covered by federal depository insurance.
2. \$5,241,666 was uncollateralized and uninsured. Although the securities were held by the pledging financial institutions trust department or agent in the City's name and all State statutory requirements for the investment of money had been followed, noncompliance with federal requirements could potentially subject the City to a successful claim by the FDIC.

**Investments** The City's investments are required to be categorized to give an indication of the level or risk assumed by the City at year end. Category 1 includes investments that are insured or registered or are held by the City or its agent in the City's name. Category 2 includes uninsured and unregistered investments which are held by the counterparty's trust department or agent in the City's name. Category 3 includes uninsured and unregistered investments which are held by the counterparty, or by its trust department or agent but not in the City's name. STAROhio and Star Public Funds Mutual Fund are unclassified investments since they are not evidenced by securities that exist in physical or book entry form.

	Carrying/ Fair Value
Investment in State	
Treasurer's Investment Pool	\$5,869,611
Star Public Funds	
Mutual Fund	1,389,833
Total Investments	\$7,259,444

The classification of cash and cash equivalents and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9, "Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting."

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

A reconciliation between the classifications of cash and cash equivalents and investments on the combined financial statements and the classification of deposits and investments presented above per GASB Statement No. 3 is as follows:

	Cash and Cash Equivalents	Investments
GASB Statement No. 9	\$12,843,873	\$0
Investments of the Cash Management Pool:		
STAR Ohio	(5,869,611)	5,869,611
Star Public Fund Mutual Fund	(1,389,833)	1,389,833
Cash on Hand	(69,651)	0
GASB Statement No. 3	\$5,514,778	\$7,259,444

**Note 5 - Receivables**

Receivables at December 31, 2002, consisted primarily of municipal income taxes, property and other taxes, intergovernmental receivables arising from entitlements and shared revenues, accrued interest on investments and accounts (billings for utility service). Loans receivable expected to be collected in more than one year for the City amount to \$11,546. All allowances for uncollectibles represent estimates of uncollectible receivables in the accounts receivable classification.

	Accounts Receivable	Allowance for Uncollectibles	Net Accounts Receivables
Governmental Type Activities	\$112,670	\$0	\$112,670
Business Type Activities	2,460,536	136,140	2,324,396

**A. Property Taxes**

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the City. Property tax revenue received during 2002 for real and public utility property taxes represents collections of the 2001 taxes. Property tax payments received during 2002 for tangible personal property (other than public utility property) are for 2002 taxes.

2002 real property taxes are levied after October 1, 2002, on the assessed value as of January 1, 2002, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2002 real property taxes are collected in and intended to finance 2003.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2002 public utility property taxes which became a lien December 31, 2001, are levied after October 1, 2002, and are collected in 2003 with real property taxes.

2002 tangible personal property taxes are levied after October 1, 2001, on the value as of December 31, 2001. Collections are made in 2002. Tangible personal property assessments are 25 percent of true value for capital assets and 24 percent for inventory.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

The full tax rate for all City operations for the year ended December 31, 2002, was \$6.60 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2001 property tax receipts were based are as follows:

Real Property	\$208,989,510
Tangible Personal Property	47,145,495
Public Utility Property	3,147,730
Total	<u><u>\$259,282,735</u></u>

Real property taxes are payable annually or semi-annually. If paid annually, the payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30; with the remainder payable by September 20.

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the City of Dover. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represent real and tangible personal property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2002 and for which there is an enforceable legal claim. In the general fund and police and fire special revenue fund, the entire receivable has been offset by deferred revenue since the current taxes were not levied to finance 2002 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as revenue while on a modified accrual basis the revenue is deferred.

***B. Income Taxes***

The City levies a municipal income tax of 1 percent on substantially all earned income arising from employment, residency or business activities within the City. The City allows a credit of 100 percent for the income tax paid to another municipality, not to exceed one percent of taxable income, to a maximum of the total amount assessed.

Employers within the City are required to withhold income tax on employee compensation and remit the tax to the City either monthly or quarterly, as required. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually. By City ordinance, income tax proceeds, after income tax department expenditures, are credited to the following funds: Forty percent to the master capital projects fund, up to one hundred eighty thousand dollars to the cemetery special revenue fund, up to three hundred twenty five thousand dollars to the street maintenance and repair special revenue fund, up to two hundred thirty thousand dollars to the police and fire pension special revenue fund and the remaining balance to the general fund.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

**C. Intergovernmental Receivables**

A summary of intergovernmental receivables follows:

	<u>Amount</u>
<b>Governmental Activities</b>	
Local Government and Local Government	
Revenue Assistance	\$412,892
Gasoline Tax	201,981
Estate Tax	169,000
Motor Vehicle Tax	61,153
Homestead and Rollback	53,693
Municipal Court Fines	1,821
Hotel/Motel Tax	176
<i>Total Governmental Activities</i>	<u><u>\$900,716</u></u>
<b>Business-Type Activities</b>	
Sewer	<u><u>\$3,312</u></u>

**Note 6 - Risk Management**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 2002, the City contracted with The Travelers Company for property and general liability insurance with a \$25,000 deductible. Travelers Insurance Company covers boiler and machinery and electronic data processing, while police and professional liability are protected by the Columbia Casualty/CNA with a \$1,000,000 limit and a \$5,000 deductible. An umbrella policy with Clarendon TIG covers a \$5,000,000 excess law enforcement liability.

Boiler and machinery deductible levels vary by object. Vehicles are covered by Westfield Companies Insurance Company and hold a \$250 deductible for comprehensive and collision. Automobile liability has a \$2,000,000 combined single limit of liability.

There has not been a significant reduction in coverage from the prior year. Settled claims have not exceeded this commercial coverage in any of the past three years.

The City participates in the Ohio Association of Rural Water and Wastewater Systems Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (See Note 20). The intent of GRP is to achieve the benefit of a reduced premium for the City by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating cities is calculated as one experience and a common premium rate is applied to all cities in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This equity pooling arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to participants that can meet the GRP's selection criteria. The firm of CompManagement, Inc. provides administrative, cost controls, and actuarial services to the GRP.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

The City has elected to provide employee medical/surgical benefits through a self-insured program. The City maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. A third-party administrator, Aultcare, Inc. located in Canton, Ohio, reviews all claims which are then paid by the City. An excess coverage insurance policy covers claims in excess of \$45,000 per employee and an aggregate of \$1,172,568 per year. The City pays into the self-insurance internal service fund \$600 family coverage or \$300 individual coverage per employee per month which represents the entire premium required. This premium is paid by the fund that pays the salary of the employee and is based on historic cost information.

The claims liability of \$62,583 reported in the fund at December 31, 2002, was estimated by a third-party administrator and is based on the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expense and does not include allocated or unallocated claims adjustment expenses. Changes in the fund's claims liability amount in 2001 and 2002 were:

	Balance at Beginning of Year	Current Year Claims	Claim Payments	Balance at End of Year
2001	\$92,644	\$737,174	\$774,670	\$55,148
2002	55,148	840,191	832,756	62,583

**Note 7 - Contingent Liabilities**

***A. Litigation***

The City management is of the opinion that the ultimate disposition of claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

***B. Federal and State Grants***

The City participates in several federally assisted programs. These programs are subject to financial and compliance audits by the grantor or their representative. As of December 31, 2002, the audits of certain of these programs have not been completed. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

\* Depreciation expense was charged to governmental activities as follows:

General Government	\$15,918
Security of Persons and Property	181,183
Public Health and Welfare	17,241
Leisure Time Activities	100,813
Transportation	118,161
Community Environment	265
Total Depreciation Expense	\$433,581

During 2002, the City received \$262,000 in capital contributions for additions to infrastructure.

**Note 9 – Other Employee Benefits**

**A. *Compensated Absences***

Vacation and sick leave benefits are derived from negotiated agreements and State laws. Employees earn ten to thirty days of vacation per year, depending upon length of service. Vacation accumulation is limited to the amount earned in one year. All accumulated unused vacation time is paid upon termination of employment.

Employees earn sick leave at different rates depending upon type of employment. Sick leave accrual is continuous, without limit. Upon retirement or death, an employee can be paid a maximum of 960 hours of accumulated, unused sick leave, except fire department employees, who can receive a maximum of 1520 hours.

**B. *Life Insurance***

The City provides life insurance and accidental death and dismemberment insurance to its employees through Standard Insurance.

**Note 10 - Long-Term Debt**

Debt Issue	Interest Rate	Original Issue Amount	Date of Maturity
<b>Business-Type Activities</b>			
Waterworks System Revenue Bonds - 1994	4.25-6.17%	\$6,430,000	December 1, 2020

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

A schedule of changes in bonds and other long-term obligations of the City during 2002 follows:

	Amount			Amount	Amounts
	Outstanding 1/1/02	Additions	Deletions	Outstanding 12/31/02	Due in One Year
<b>Governmental Activities</b>					
Police and Fire Pension	\$320,607	\$0	\$4,465	\$316,142	\$4,357
Compensated Absences	1,011,331	156,897	61,469	1,106,759	296,566
Total Governmental Activities	<u>\$1,331,938</u>	<u>\$156,897</u>	<u>\$65,934</u>	<u>\$1,422,901</u>	<u>\$300,923</u>
<b>Business-Type Activities</b>					
<u>Revenue Bonds</u>					
Waterworks System	\$5,560,000	\$0	\$165,000	\$5,395,000	\$180,000
Municipal Electric System	8,420,000	0	285,000	8,135,000	300,000
Total Revenue Bonds	<u>13,980,000</u>	<u>0</u>	<u>450,000</u>	<u>13,530,000</u>	<u>480,000</u>
<u>General Obligation Bonds</u>					
Electric Plant	110,000	0	55,000	55,000	55,000
Electric North Substation	450,000	0	75,000	375,000	75,000
Sewer System Improvement	855,000	0	80,000	775,000	90,000
Total General Obligation Bonds	<u>1,415,000</u>	<u>0</u>	<u>210,000</u>	<u>1,205,000</u>	<u>220,000</u>
Compensated Absences	853,470	22,557	31,930	844,097	295,578
Total Business-Type Activities	<u>\$16,248,470</u>	<u>\$22,557</u>	<u>\$691,930</u>	<u>\$15,579,097</u>	<u>\$995,578</u>

The revenue bonds and the general obligation bonds will be paid from charges for services revenue in the enterprise funds. The police and fire pension liability will be paid from taxes received in the police and fire pension special revenue fund as an expenditure for the security or persons and property.

Compensated absences will be paid from the general fund, the street maintenance and repair special revenue fund, and the sewer, electric and water enterprise funds.

**Revenue Bonds**

In 1994, the City issued \$6,430,000 in Waterworks System Revenue Bonds with interest rates varying from 4.25 percent to 6.17 percent. Proceeds were used to improve the municipal water system. The revenue bonds include serial and term bonds. The term bonds have annual mandatory sinking fund redemption requirements and there are optional redemption provisions for the serial bonds. The term bonds mature in 2013, 2015 and 2020 in the amounts of \$1,615,000, \$675,000 and \$2,110,000, respectively, at a redemption price equal to 100 percent of the principal plus accrued interest to the redemption date. The bonds maturing on or after December 1, 2005 are subject to early redemption, at the sole option of the City, either in whole on any date or in part on any interest payment date, on or after December 1, 2004, in multiples of \$5,000, at the following redemption prices plus accrued interest:

<u>Redemption Dates</u>	<u>Redemption Prices</u>
December 1, 2004 through November 30, 2005	102 percent
December 1, 2005 through November 30, 2006	101 percent
December 1, 2006 and thereafter	101 percent

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

Restricted assets relating to the water revenue bonds at December 31, 2002, were as follows:

Restricted Assets Held by City	
Replacement and Improvement	\$634,563
Restricted Assets Held by the Trustee	
Revenue Bond Current Debt Service	\$550,201

In 1995, the City issued \$10,075,000 in Municipal Electric System Revenue Bonds with interest rates varying from 4.40 percent to 6.00 percent. Proceeds were used to improve the municipal electric system. The revenue bonds include serial and term bonds. The term bonds have annual mandatory sinking fund redemption requirements and there are optional redemption provisions for the serial bonds. The term bonds mature in 2014 and 2019 in the amounts of \$2,430,000 and \$3,250,000, respectively, at a redemption price equal to 100 percent of the principal plus accrued interest to the redemption date. The bonds maturing on or after December 1, 2006 are subject to early redemption, at the sole option of the City, either in whole on any date or in part on any interest payment date, on or after December 1, 2005, in multiples of \$5,000, at the following redemption prices plus accrued interest:

Redemption Dates	Redemption Prices
December 1, 2005 through November 30, 2006	101 percent
December 1, 2006 and thereafter	100 percent

Restricted assets relating to the electric revenue bonds at December 31, 2002, were as follows:

Restricted Assets Held by City	
Replacement and Improvement	\$3,634,618
Restricted Assets Held by the Trustee	
Revenue Bond Current Debt Service	\$839,633

As of December 31, 2002, the City's overall legal debt margin (the ability to issue additional amounts of general obligation bonded debt) was \$24,674,687 and the unvoted legal debt margin was \$11,710,550. Principal and interest requirements to retire the City's long-term obligations outstanding at December 31, 2002 are as follows:

Year Ending December 31	Waterworks System Revenue Bonds		Municipal Electric System Revenue Bonds		Electric General Obligation Bonds	
	Principal	Interest	Principal	Interest	Principal	Interest
2003	\$180,000	\$318,738	\$300,000	\$472,463	\$130,000	\$27,587

**Note 11 - Defined Benefit Pension Plans**

***A. Ohio Public Employees Retirement System***

All full-time employees, other than non-administrative full-time police officers and firefighters, participate in the Ohio Public Employees Retirement System of Ohio (OPERS), a cost-sharing multiple-employer public employee retirement system administered by the Ohio Public Employees Retirement Board. OPERS provides basic retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. The authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report which may be obtained by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642.

Plan members are required to contribute 8.5 percent of their annual covered salary to fund pension obligations. The 2002 employer pension contribution rate for City was 8.55 percent of covered payroll, reduced from 9.25 percent in 2001. Contributions are authorized by State statute. The City's required contributions to OPERS for the years ended December 31, 2002, 2001, and 2000 were \$429,143, \$417,418, and \$281,41, respectively. The full amount has been contributed for 2001 and 2000. 73.90 percent has been contributed for 2002 with the remainder being presented as "intergovernmental payable" in the governmental activities column of the statement of net assets.

***B. Ohio Police and Fire Pension Fund***

The City contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple employer public employee retirement system administered by the OP&F's Board of Trustees. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information. That report may be obtained by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Police and firefighters are required to contribute 10 percent of their annual covered salary to fund pension obligations and the City is required to contribute 11.75 percent for police and 16.25 percent for firefighters. Contributions are authorized by State statute. The City's contributions to the OP&F for police and firefighters were \$107,307 and \$141,610 for the year ended December 31, 2002, \$115,573 and \$117,814 for the year ended December 31, 2001 and \$115,521 and \$121,687 for the year ended December 31, 2000. The full amount has been contributed for 2001 and 2000. 70.49 percent and 73.45

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

percent, respectively, have been contributed for 2002 with the remainder being presented as “intergovernmental payable” in the governmental activities column of the statement of net assets.

In addition to the current contribution, the City pays installments on the accrued liability incurred when the State of Ohio established the statewide pension system for police and firefighters in 1967. As of December 31, 2002, the unfunded liability of the City was \$316,142 payable in semiannual payments through the year 2035. This is an accounting liability of the City which will not vary.

## **Note 12 - Postemployment Benefits**

### ***A. Ohio Public Employees Retirement System***

The Ohio Public Employees Retirement System of Ohio (OPERS) provides postretirement health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. The health care coverage provided by the retirement system is considered an Other Postemployment Benefit as described in GASB Statement No. 12. A portion of each employer's contribution to OPERS is set aside for the funding of postretirement health care based on authority granted by State statute. The 2002 employer contribution rate was 13.55 percent of covered payroll; 5.00 percent was the portion that was used to fund health care for 2002. For 2001, the contribution rate was 13.55 percent of covered payroll; 4.30 percent was the portion that was used to fund health care.

Benefits are advance-funded using the entry age normal cost method. Significant actuarial assumptions, based on PERS's latest actuarial review performed as of December 31, 2001, include a rate of return on investments of 8.00 percent, an annual increase in active employee total payroll of 4.00 percent compounded annually (assuming no change in the number of active employees) and an additional increase in total payroll of between .50 percent and 6.30 percent based on additional annual pay increases. Health care premiums were assumed to increase 4.00 percent annually.

All investments are carried at market. For actuarial valuation purposes, a smoothed market approach is used. Assets are adjusted to reflect 25 percent of unrealized market appreciation or depreciation on investment assets.

The number of active contributing participants was 402,041. The City's actual contributions for 2002 which were used to fund postemployment benefits were \$250,961. The actual contribution and the actuarially required contribution amounts are the same. OPERS's net assets available for payment of benefits at December 31, 2001, (the latest information available) were \$11.6 billion. The actuarially accrued liability and the unfunded actuarial accrued liability were \$16.4 billion and \$4.8 billion, respectively.

### ***B. Ohio Police and Fire Pension Fund***

The Ohio Police and Fire Pension Fund (OP&F) provides postretirement health care coverage to any person who receives or is eligible to receive a monthly benefit check or is a spouse or eligible dependent child of such person. An eligible dependent child is any child under the age of 18 whether or not the child is attending school or under the age of 22 if attending school full-time or on a 2/3 basis.

The health care coverage provided by the retirement system is considered an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 12. The Ohio Revised Code provides the authority allowing the Ohio Police and Fire Pension Fund's board of trustees to provide health care coverage and states that health care costs paid from the Ohio Police and Fire Pension Fund shall be included in the

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

employer's contribution rate. Health care funding and accounting is on a pay-as-you-go basis. The total police employer contribution is 19.5 percent of covered payroll and the total firefighter employer contribution rate is 24 percent of covered payroll, of which 7.75 percent of covered payroll was applied to the postemployment health care program during 2002. For 2001 the percent used to fund healthcare was 7.50 percent. In addition, since July 1, 1992, most retirees have been required to contribute a portion of the cost of their health care coverage through a deduction from their monthly benefit payment.

The City's actual contributions for 2002 that were used to fund postemployment benefits were \$70,777 for police and \$67,537 for fire. OP&F's total health care expenses for the year ended December 31, 2001, (the latest information available) were \$122,298,771, which was net of member contributions of \$6,874,699. The number of OP&F participants eligible to receive health care benefits as of December 31, 2001, was 13,174 for police and 10,239 for firefighters.

**Note 13 - Notes Payable**

A summary of the note transactions for the year ended December 31, 2002, follows:

	Outstanding 1/1/02	Issued	Retired	Outstanding 12/31/02
<b>Governmental Activities:</b>				
2.85% Master Capital	\$1,895,000	\$1,895,000	\$1,895,000	\$1,895,000
2.85% Master Capital	0	300,000	0	300,000
5.05% Storm Sewer	100,000	0	100,000	0
2.85% Master Capital	250,000	250,000	250,000	250,000
2.85% Master Capital	20,000	20,000	20,000	20,000
2.85% Master Capital	85,000	85,000	85,000	85,000
3.95% Master Capital	120,000	0	120,000	0
<i>Total Governmental Activities</i>	<u>2,470,000</u>	<u>2,550,000</u>	<u>2,470,000</u>	<u>2,550,000</u>
<b>Business Type Activities:</b>				
2.25% Municipal Electric	3,900,000	3,700,000	3,900,000	3,700,000
2.15% Electric JV2	2,000,000	1,800,000	2,000,000	1,800,000
2.85% Municipal Sewer	750,000	750,000	750,000	750,000
<i>Total Business Type Activities</i>	<u>6,650,000</u>	<u>6,250,000</u>	<u>6,650,000</u>	<u>6,250,000</u>
<b>Total</b>	<u><u>\$9,120,000</u></u>	<u><u>\$8,800,000</u></u>	<u><u>\$9,120,000</u></u>	<u><u>\$8,800,000</u></u>

The notes outstanding at year end for \$1,895,000 and \$250,000 were used for storm sewer projects. The \$20,000 note was used for tennis courts. The \$85,000 and \$300,000 notes were used for land and bridge construction, respectively.

The municipal electric note was used to build a substation and various electric improvements. The \$1,800,000 note was used for the investment in the JV2 joint venture. The municipal sewer note was issued for a sludge press and various sanitary sewer improvements.

All note proceeds had been spent at December 31, 2002. All of the notes are bond anticipation notes, are backed by the full faith and credit of the City, and mature within one year. The note liability is reflected in the fund which received the proceeds and will repay the debt.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

**Note 14 - Interfund Balances and Transfers**

Interfund transfers for the year ended December 31, 2002, consisted of the following:

Transfer to	Transfer From		
	Sewer	Master Capital	Total
Nonmajor funds	\$7,125	\$95,989	\$103,114

\$7,125 was transferred from the sewer fund to the storm sewer fund for debt obligations. \$95,989 was transferred from the master capital fund to the storm sewer fund for debt obligations.

**Note 15 – Jointly Governed Organizations**

***A. Community Improvement Corporation of Tuscarawas County***

The City is associated with the Community Improvement Corporation of Tuscarawas County as a Jointly Governed Organization. The Corporation is operated by Tuscarawas County, New Philadelphia, Dover, Uhrichsville, Dennison, Strasburg, Sugarcreek and Gnadenhutten. It is controlled by 25 trustees consisting of the three County Commissioners, the mayor of each participating city and fifteen elected trustees. The board exercises total control over the operation of the corporation including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the board. In 2002, no monies were contributed by the City.

***B. Tuscarawas County Regional Planning Commission***

The City is associated with the Tuscarawas County Regional Planning Commission as a Jointly Governed Organization. The Commission is a statutorily created political subdivision of the State. The commission is jointly governed among Tuscarawas County, municipalities and townships. Of the 61 members, the City appoints three. Each member's control over the operation of the Commission is limited to its representation on the board. The Commission makes studies, maps, plans, recommendations and reports concerning the physical, environmental, social, economic and governmental characteristics, functions and services of the county. In 2002, the City contributed \$1,221 which represents 1.12 percent of total contributions.

***C. Southeastern Ohio Narcotics Team (S.E.N.T)***

The City is associated with the Southeastern Ohio Narcotics Team (S.E.N.T.) as a Jointly Governed Organization. S.E.N.T. is a multi-jurisdictional drug task force with the primary goal of combating major narcotics traffickers in Guernsey, Monroe and Tuscarawas Counties. It is jointly governed among the participating counties and cities. A grant is received from the State of Ohio of which the participating entities must match 25 percent. Of the 11 member governing board, the City appoints one. Each participant's control over the operation of S.E.N.T. is limited to its representation on the board. In 2002, the City contributed \$3,663 which represents 1.9 percent of total contributions.

**City of Dover, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2002*

---

***D. Ohio Mid-Eastern Governments Association (OMEGA)***

The City is associated with the Ohio Mid-Eastern Governments Association (OMEGA), which is a ten county regional council of governments comprised of Belmont, Carroll, Coshocton, Columbiana, Guernsey, Harrison, Holmes, Jefferson, Muskingum and Tuscarawas counties. OMEGA was formed to aid and assist the participating counties and political subdivisions within the counties in the application for Appalachian Regional Commission and Economic Development grant monies. OMEGA is governed by a seventeen member executive board comprised of members appointed from each participating county and cities within each county. City membership is voluntary. The mayor of the City of Dover serves as the City's representative on the board. The board has total control over budgeting, personnel and financial matters. Each member currently pays a per capita membership fee based on the most recent United States census. During 2002, OMEGA received \$1,465 from the City of Dover for an annual fee. OMEGA has no outstanding debt.

**Note 16 – Joint Venture**

***Ohio Municipal Electric Generation Agency Joint Venture (JV2)***

The City is a participant with 36 subdivisions within the State of Ohio in a joint venture to secure distributive generation resources to provide power and energy during times of high power prices or transmission constraints limiting power availability. The Ohio Municipal Electric Generation Agency Joint Venture 2 (JV2) was created for that purpose. On dissolution of the joint venture, the net assets of JV2 will be shared by the participants on a percentage basis. The JV2 is managed by AMP-Ohio, who acts as the joint venture's agent. The participants are obligated by the agreement to remit monthly for operating expenses and demand costs. In accordance with the agreement, the City remitted \$3,057,810 to the joint venture for 2001. The City's net investment and its share of the operating results of JV2 are reported in the City's electric enterprise fund. The City's equity interest in JV2 was \$2,712,294 at December 31, 2002. Financial information can be obtained from AMP-Ohio, 2600 Airport Drive, Columbus, Ohio 43219, or from the City's utility department.

**Note 17 – Electric Deregulation**

Beginning January 1, 2001, retail electric customers of investor owned utilities (IOUs) had the option of choosing power suppliers. Electric services are broken down into three components: distribution, generation and transmission. This deregulation will affect only the generation of electricity. The City of Dover has done a cost study analysis to identify the costs associated with each of these components. The City has several options available to them related to this deregulation. The City of Dover has chosen to protect their lines through Ordinance 45-98. This decision will allow the City to charge any other electric suppliers who may want to use their lines. The City also has the option of closing its borders, meaning no other electric suppliers could deliver services in the City of Dover. It is the City's intent to open its borders and compete with the surrounding IOUs and cooperatives; however, legislation to that effect is still pending. The City of Dover, depending on the time of year, generates approximately 40 to 60 percent of its electric needs; the remainder is purchased through the City's wholesale provider, American Electric Power of Ohio. The City feels any loss in revenue resulting from lost customers will be offset by reduced purchased power expense. Beginning May 1, 2001, the City is required to collect a kilowatt per hour tax that must be remitted to the State of Ohio for all customers the City of Dover provides power to located outside the City limits. The tax collected by the City from its residents is being receipted in the general fund of the City of Dover. Although the City is preparing for deregulation, the full impact cannot be known at this time.

**Note 18 – Restatement of Net Assets**

Income taxes receivable for the year ended December 31, 2001, were overstated. This change decreased the net assets of the governmental activities by \$377,195 from \$7,788,986 to \$7,411,791. This restatement decreased the change in net assets as previously reported by \$377,195 from \$2,575,649 to \$2,198,454. This change has no effect on fund balance.

**Note 19 – Accountability**

At December 31, 2002, the master capital projects fund had a deficit fund balance of \$1,280,049. This deficit arose from the requirement to report bond anticipation note liabilities in the fund which received the note proceeds. The deficit will be alleviated when the bonds are issued or the notes are paid.

**Note 20 – Insurance Purchasing Pool**

***Ohio Association of Rural Water and Wastewater Systems Workers' Compensation Group Rating Plan***

The Ohio Association of Rural Water and Wastewater Systems Workers' Compensation Group Rating Plan has created a group insurance pool for the purpose of creating a group rating plan for workers' compensation. The governing body is comprised of the members who have been appointed by the respective governing body of each member.

The intent of the pool is to achieve a reduced rate for the City and the other group members. The injury claim history of all participating members is used to calculate a common rate for the group. An annual fee is paid to Comp Management, Inc. to administer the group and to manage any injury claims. Premium savings created by the group are prorated to each member entity annually based on its payroll percent of the group.

**Combining Statements and  
Individual Fund Schedules**

## Combining Statements – Nonmajor Governmental Funds

### *Nonmajor Special Revenue Funds*

To account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditures for specific purposes.

***Street Maintenance and Repair Fund*** - Required by the Ohio Revised Code to account for State gasoline tax and motor vehicle registration fees designated for maintenance of streets within the City.

***State Highway Fund*** - Required by the Ohio Revised Code to account for State gasoline tax and motor vehicle registration fees designated for maintenance of State highways within the City.

***Police and Fire Pension Fund*** - To accommodate property taxes levied for the payment of the current and accrued liability for police and firemen's disability and pension benefits.

***Ambulance Fund*** - To account for monies collected from the use of the ambulance by the citizens of Dover and Dover Township.

***Cemetery Fund*** - To account for revenue from the sale of plots and interest used for the care and upkeep of the cemetery.

***Revolving Loan Fund*** - To account for initial loans made by the City to local businesses and subsequent repayment of these loans.

***Drug Law Enforcement Fund*** - To account for monies from mandatory fines for trafficking offenses to be used for the investigation and prosecution of drug cases.

***Law Enforcement Block Grant Fund*** - To account for grant monies to be used for upgrades to police computer systems.

***Enforcement and Education Fund*** - To account for monies received from convictions of alcohol related cases used for the education of the community at large.

### *Nonmajor Debt Service Fund*

Debt service funds are used to account for the accumulation for resources for, and the payment of, general long-term principal, interest and related costs.

***Debt Service Fund*** - To account proceeds of debt issued and its' repayment.

### ***Nonmajor Capital Projects Funds***

Capital projects funds are established to account for financial resources to be used for the construction or acquisition of major capital facilities ( other than those financed by proprietary funds.)

***Storm Sewer Fund*** - To account for note proceeds expended for the construction of storm sewers. This fund is budgeted as part of the debt service fund, but is presented as a GAAP basis capital projects fund.

***Small Cities Block Grant Fund*** - To account for monies received from the State government, distributed by the County, under the Community Development Block Grant program for street repairs and replacements.

## **Combining Statements - Fiduciary Funds**

### ***Fiduciary Funds***

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations. The City's only trust funds are private-purpose trust.

### ***Private Purpose Trust Funds***

***Shade Tree Fund*** - This fund was established so that individuals or organizations could donate money for the purpose of planting trees.

***Cemetery Interment Fund*** – Money held for individuals until death for their burial cost.

**City of Dover, Ohio**

*Bonded Debt*

*December 31, 2002*

All of the general obligation debt of the City of Dover is to be paid from enterprise revenues. The City of Dover does not have any net general bonded debt; therefore, no ratio of net general bonded debt to assessed value and net bonded debt per capita and no ratio of annual debt service for general bonded debt to total general fund expenditures are presented in the City's statistical tables.
