# COLUMBUS METROPOLITAN LIBRARY FRANKLIN COUNTY

# AUDIT IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

January 1, 2003 through December 31, 2003

Board of Trustees Columbus Metropolitan Library 96 S. Grant Avenue Columbus, Ohio 43215-4781

We have reviewed the Independent Auditor's Report of the Columbus Metropolitan Library, Franklin County, prepared by Wilson, Shannon & Snow, Inc., for the audit period January 1, 2003 to December 31, 2003. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Columbus Metropolitan Library is responsible for compliance with these laws and regulations.

Betty Montgomeny

BETTY MONTGOMERY Auditor of State

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL	
REQUIRED BY GOVERNMENT AUDITING STANDARDS	1

### Report On Compliance And On Internal Control Required Government Auditing Standards

Board of Trustees Columbus Metropolitan Library 96 South Grant Street Columbus, Ohio 43215-4781

We have audited the financial statements of Columbus Metropolitan Library, Franklin County, Ohio (the Library) as of and for the year ended December 31, 2003 and have issued our report thereon dated July 19, 2004 wherein we noted the Library adopted Governmental Accounting Standards Board (GASB) Statements 34, 37, 38, 39 and 40. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

### **Compliance**

As part of obtaining reasonable assurance about whether the Library's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Library's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

July 19, 2004

### To the Citizens of the City of Columbus and Franklin County and The Board of Trustees and Executive Director of the Columbus Metropolitan Library

The Ohio Revised Code requires that all general-purpose governments publish a complete set of financial statements, presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to this requirement, I hereby issue the comprehensive annual financial report (CAFR) of the Columbus Metropolitan Library, Franklin County, Ohio, (the Library) for the fiscal year ended December 31, 2003.

This report consists of management's representations concerning the finances of the Library. Consequently, management assumes all responsibility for completeness and reliability of all of the information presented in this report.

The management of the Library has established a comprehensive internal control framework that is designed to compile sufficient information for the presentation of the Library's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefit, the Library's comprehensive framework of internal controls has been designed to provide reasonable, but not absolute, assurance that the financial statements are free from material misstatement.

The Library's financial statements have been audited under contract with the Auditor of State of Ohio by Wilson, Shannon & Snow, Inc., a firm of licensed certified public accountants. The independent auditor concluded that the Library's financial statements for the fiscal year ended December 31, 2003, are fairly presented in conformity with generally accepted accounting principles. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to compliment the MD&A and should be read in conjunction with it. The Library's MD&A can be found immediately following the report of the independent auditors.

### THE HISTORY OF THE LIBRARY

During the early history of Columbus, a series of libraries existed which operated on a subscription or membership fee basis. With the support of a group of public-spirited citizens, a permanent tax-supported free public library was established by the Columbus City Council in 1872. This Library

### ADMINISTRATION:

Executive Director: Patrick A Losinski Clerk-Treasurer: Robert L Johnson The Columbus Metropolitan Library includes the Main Library, Outreach Services. the Driving Park, Dublin, Franklinton, Gahanna, Hilliard. ### BOARD OF TRUSTEES:

President: Terry A Boyd
Vice President: Cynthia A Hilsheimer
Secretary: Jacqueline F Woods
Philip C Johnston. Charlotte P. Kessler.
Samuel H Porter. David C Swaddling

opened its doors to the public in a room in the newly constructed City Hall in 1873 and was officially designated by the City Council as the Public Library and Reading Room of Columbus.

This was officially changed to the Columbus Public Library thirty years later when plans were commenced to construct a separate building. With a gift from philanthropist Andrew Carnegie of \$200,000, the Board succeeded in constructing a building that is part of the present Main Library on South Grant Avenue. At the same time this building was opened to the public in 1907, the Library initiated a series of deposit collections in various locations throughout the community. Out of these collections grew the current branch library system, expanding with the growth of Columbus and Franklin County.

In 1976, the Library became a county district library and changed its name to the Public Library of Columbus and Franklin County. Its legal service district was then defined as all of Franklin County, except for those legal service areas of the other six library systems within the county.

A milestone in the Library's history occurred in 1986, when the Library Board of Trustees (the Board) voted to seek funds and implement a comprehensive services and capital improvements package. Thanks to the support of library customers and thousands of volunteers throughout Franklin County, a combination renewal and new fifteen-year General Property tax levy totaling 2.2 mills was approved by library district voters in November 1986. In November 2000, the voters of Franklin County renewed the 2.2 mills for an additional ten years.

After the tax levy was approved, one of the first service improvements included additional public service hours at many of the library locations. Sunday hours, requested by the public for years, were added in September of that year at the Main Library and the system's regional branch locations. The materials budget was increased significantly, allowing the Library to purchase additional books, magazines, newspapers, databases, audio and video cassettes, and other items to meet the burgeoning demand.

As the Public Library of Columbus and Franklin County continued to enhance services and facilities to Columbus' suburbs, there was an increasing awareness that the Library's name did not accurately describe the system's responsibilities to many Central Ohio residents.

In June of 1989, the Board approved a new name for the system, the "Columbus Metropolitan Library," to better reflect the organization's mission to the communities within the Library's service district, including Brice, Canal Winchester, Columbus, Dublin, Gahanna, Hilliard, Lockbourne, New Albany, Obetz, Reynoldsburg, Valleyview, and Whitehall. The Board also adopted a new logo for the Library, designed to increase customers' awareness of the system's libraries and services.

The construction of new library branches, or the renovation and expansion of existing facilities, has created an excitement which has drawn thousands of new customers into the Library.

Today the Library consists of a Main Library and 21 branches located throughout Franklin County, Ohio. Additionally, the Library entered into a contract in 1993 with Worthington Public Library, a separate legal entity, to contribute to the operation of a library facility that services the citizens of both library districts.

### REPORTING ENTITY

The Library's reporting entity has been defined in accordance with Section 3375.20 (E) of the Ohio Revised Code, and thus reaffirms the boundaries of the Columbus Metropolitan Library, a county

library district, to be composed of all of the land area within Franklin County, Ohio, except for the land area lying within the boundaries of other public library districts in the County.

The land area lying within the Columbus Metropolitan Library is composed of the following:

Canal Winchester Local School District, Columbus City School District, Dublin Local School District, Gahanna-Jefferson City School District, Groveport-Madison Local School District, Hamilton Local School District, Hilliard City School District, Licking Heights Local School District, Plain Local School District, Reynoldsburg City School District, Upper Arlington City School District (outside of the municipality boundaries), and Whitehall City School District.

The Library, which is a separate legal entity, is under the control and management of a seven (7) member Board of Trustees. Three Board members are appointed by the Judges of the Court of Common Pleas and four are appointed by the Franklin County Commissioners. Board members are appointed for a term of seven (7) years with one term expiring each year. Since the Library is a separate legal entity, it is financially and operationally independent from Franklin County and the City of Columbus. The Library does not provide a financial benefit or impose a financial burden to the County. The County Commissioners can not influence the programs, activities or level of services provided by the Library. Although the County Commissioners serve as the Library's taxing authority, any decision to request approval of a tax, the rate and purpose(s) of a levy lies solely with the Board of Trustees. Based on a formal request from the Board, the County Commissioners, in accordance with the Ohio Revised Code, shall place the issue on the ballot.

The basic financial statements included in the financial section of this report, comply with provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," and GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units – and amendment to GASB Statement No. 14" in that the financial statements include all the organizations, activities and functions for which the Library (the reporting entity) is financially accountable. Financial accountability is defined as either (1) the Library's ability to impose its will over the component units or (2) the possibility that the component units will provide a financial benefit to or impose a specific financial burden on the Library.

### Materials and Services

The Library's collection contains approximately three million items, including books, magazines, newspapers, audio and video tapes, compact discs, interactive multimedia, books-on-tape, pamphlets, maps, annual reports, sheet music and circulating visuals. The Library also maintains an extensive microfilm collection of the past issues of many magazines.

The Library also provides a number of high-technology services. Librarians can access hundreds of databases for current information. Customers can also access the Internet at all Library locations. In addition, customers with internet access can connect to the Library's website and view the Library's collection, electronic resources, and the system's Internet site. Customers can reach the Library Internet site at www.columbuslibrary.org.

The Library offers workshops, book discussions and author visits for adults, and story hours and an annual summer reading program for children and young adults.

The Outreach Services Division provides library service to customers who are not able to visit a library facility. These services include a talking books program, special service to the homebound,

jail services, lobby stops at adult extended care facilities, and the MetroMouse Mobiles, which will serve children at risk of growing up illiterate.

### Mission

We promote reading and guide learning in the pursuit of information, knowledge and wisdom.

### Vision

Our diverse community will be fully engaged in the adventures of reading, learning and leisure while recognizing the vital role the library plays in enriching our quality of life.

### System wide Strategic Initiatives and Goals

INITIATIVE: We provide excellent service to all.

Goal: Citizens of the Columbus Community will have access to services from the library that both meet and exceed their expectations through attention to their need for customization, speed, accuracy and value.

INITIATIVE: We understand and respond to the hopes, aspirations and needs of our diverse, multicultural community.

<u>Goal</u>: The library will develop strategic collaborations with the targeted community organizations and institutions to maximize the linkage between the library and the community's quality of life.

INITIATIVE: We market, promote and merchandise the library's value to the community.

Goal: To increase the use of library services by all.

<u>Goal</u>: The library will utilize nationally established programs and measurements to its advantage in promoting its value to the local community and to the library profession.

INITIATIVE: We engage our team in the achievement of the mission of the organization.

Goal: The individuals who comprise the staff of the library serve as the critical success factor for all that the library accomplishes. Their value to the organization will be supported and enhanced through responsive development of human resources programs, procedures, training and development.

<u>Goal</u>: The library will continue to be adaptive in its operations and services in order to achieve maximum efficiencies and effectiveness.

INITIATIVE: We collect materials and design programs and services that enrich, inform, educate and entertain.

<u>Goal</u>: Collections will be developed on a coordinated, system wide basis, meeting and anticipating community needs.

<u>Goal</u>: The library will develop the love of reading in children by designing programs, collections and services that cater to the needs of the child and his or her integration into school and society.

<u>Goal</u>: Library services will be developed and managed to support learning in an ethnically diverse public.

INITIATIVE: We ensure the vitality of our current funding resources and explore ways to build capacity.

<u>Goal</u>: The ability of the library to perform and maintain its excellent level of services is dependent upon the stability and vitality of its current funding resources. The library will continually work to ensure that these resources are maintained.

<u>Goal</u>: The library will seek appropriate new revenue sources, cost containment opportunities and other ways to build its capacity to deliver services.

The annual budget serves as the foundation of the Library's financial planning and control. The Board is required to adopt a final budget no later than April 1<sup>st</sup> of the current fiscal year. The level at which the Board approves each budget becomes the "legal level of control". This is the level at which transfers of appropriation requires Board action. For the General Fund, the Board approves the budget at the character level, as follows: Salaries and Benefits, Supplies, Purchased and Contracted Services, Library Materials, Capital Outlay, and Other Expenditures. All other funds are budgeted at the total expenditure level.

After the Board has adopted the budget, any amendment which will increase or decrease the approved appropriation requires Board approval. The Board has delegated purchase and expenditure/expense approval to the Library's administration for the daily operational needs of the Library.

### ECONOMIC CONDITIONS AND OUTLOOK

The Library is located entirely within the City of Columbus and Franklin County, Ohio. Columbus, the largest city in the state, is one of the top growth areas of the country. The population of the county has grown steadily as evidenced by the following chart:

Population Growth	City of Columbus	Franklin County, Ohio
1980	566,800	869,132
1990	632,910	961,437
2000	711,470	1,068,978
2010*	Not Available	1,155,911
2020*	Not Available	1,238,245
2030*	Not Available	1,326,184

Source: Sales & Marketing Management (1981, 1991); U.S. Department of Commerce, Bureau of Census (2000); Ohio Department of Development, Office of strategic research

The usually diverse and strong economy of the Columbus Metropolitan Area continued to be tested during 2003. Annual unemployment in Franklin County, which averaged 4.4% in 2002, increased to an average of 4.7% for 2003.

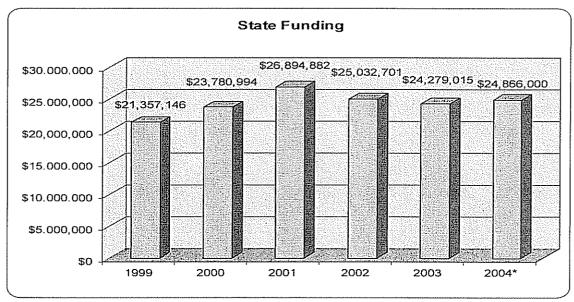

However, this is still considerably lower than the State of Ohio average of 5.9% and the United States average of 6.0%. The outlook is increasingly positive when compared to the May, 2004 estimate of 4.5%, the most recent data available.

Source: Ohio Department of Job and Family Services

### LONG-TERM FINANCIAL PLANNING

On September 15, 2003, the Library opened a new 21,053 square-foot facility in New Albany. On February 2, 2004 the Library replaced its Linden Branch with a new 12,701 square-foot facility. With the opening of these two new branch locations, the Library has temporarily completed expanding its physical presence in Franklin County. At this time, no new branch locations are planned.

<sup>\* -</sup> projected

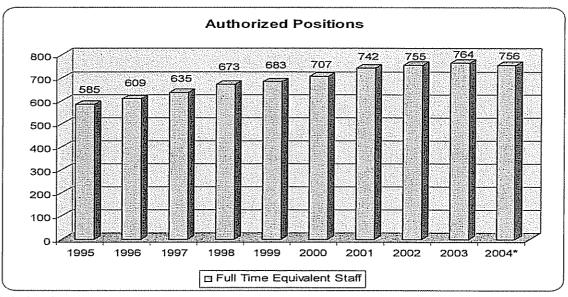

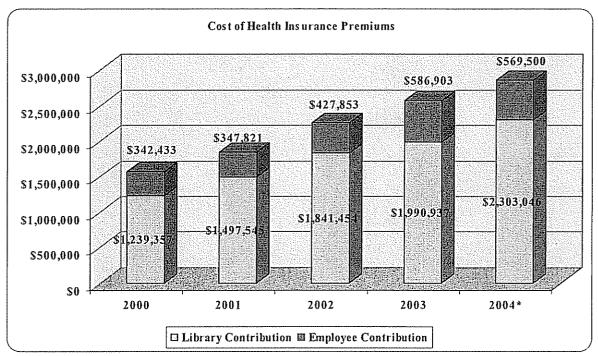

\* - estimated

This chart shows the effect of changes in State funding over the past several years. This source of revenue had been increasing at a significant pace until 2001. Due to the past several years of economic downturn, the State has frozen their funding. Even with the recent improvement in the local economy, State statute has the freeze in effect through June 2005.

In 2003, the Library completed and adopted the CML strategic Plan 2004-2010. This new analysis of the organization, in conjunction with the effect of the loss of anticipated State funding, has led the Library to begin to focus more on building internal efficiencies and the implementation of new technology.

One area of concern is the continued rise in the cost of staffing and employee benefits, especially health insurance coverage. The following chart shows the Library's effort to hold staffing levels steady in 2004. With the future implementation of new service efficiencies and technology, the Library intends to begin reducing staffing levels. The Library has committed to reducing staff only through attrition and not layoffs.

\* - Budgeted

### FINANCIAL INFORMATION

### New Financial Reporting Model

This is the first year the Library has prepared financial statements following Governmental Accounting Standards Board (GASB) statement No. 39, Determining Whether Certain Organizations are Component Units – and amendment to GASB Statement No. 14. GASB Statement No. 34 creates new basic financial statements for reporting on the Library's financial activities as follows:

Government-wide financial statements. These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses.

Fund financial statements. These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in one column. These statements are prepared on a modified accrual basis of accounting and include a reconciliation to the information presented in the government-wide statements.

Statement of Budgetary Comparison. This statement presents a comparison of actual information to the legally adopted budget.

### Accounting system and Budgetary Control

The Library's budget and accounting system is organized on a "fund basis". Each fund is a separate self-balancing accounting entity. For annual financial statement purposes, the Library reports on a Generally Accepted Accounting Principals (GAAP) basis. For budgeting purposes, the financial records are maintained on a budgetary (cash plus encumbrances) basis of accounting. This means revenues are recorded when received in cash, expenditures are recorded when paid in cash and encumbrances are recorded as a reservation of an appropriation balance.

The Board of Trustees of the Library (the Board) reviews and approves the budget prior to the beginning of each year and establishes the appropriations for each fund.

Once the Board has approved the annual budget, the Library administration makes further breakdowns of estimated revenues and appropriations to the lower object and subobject levels. The budget is then subdivided into departments, divisions and sections to further control expenditures and encumbrances.

After the Board has adopted the budget, any amendments which will increase or decrease the approved appropriation requires Board approval. The Board has delegated purchase and expenditure/expense approval to the Library's administration for the daily operational needs of the Library.

### Financial Policies

All budgetary policies are established by Ohio law and/or the Library Board. Budgetary procedures are established by the Library's Clerk-Treasurer. The implementation of policies and procedures is the responsibility of the Library's Executive Director and Clerk-Treasurer. The following are the significant financial policies of the Library:

### Applies to All Funds:

- A temporary budget may be adopted prior to January 1st each year for all funds. The final budget for the year must be filed with the Franklin County Budget Commission by April 1st, in accordance with Ohio law.
- Appropriations, when established for multiple-year projects, are for the life of the project
  and lapse only when the project is closed. For annual budgeting purposes, the remaining
  appropriation balance in each of these projects may be reappropriated at the beginning of
  each budget year.
- The level at which the Board approves each budget becomes the "legal level of control". This is the level at which transfers of appropriation requires Board action. For the General Fund, the Board approves the budget at the character level, as follows: Salaries and Benefits, Supplies, Purchased and Contracted Services, Library Materials, Capital Outlay, and Other Expenditures. All other funds are budgeted at the total expenditure level.
- The permanent budget may be amended or supplemented after being adopted, as new information becomes available later in the year. The Board must authorize all amendments or supplements to the budget. Cash transfers between funds also require the Board's approval.
- The County Budget Commission provides, on an annual basis, a Certificate of Estimated Resources. This document controls the maximum amount that can be appropriated for each fund. It lists the beginning balance in each fund, provides the tax collection estimate for each fund, and shows other revenues estimated by the Library. The Library's maximum annual appropriations are controlled by this document. The Library may request that this document be amended during the year if revenues are lower or higher than first anticipated.
- All rates for patron fines, fees, and charges are established by the Board.
- Purchase orders and contracts outstanding and unpaid at the end of each year are automatically re-encumbered and reappropriated at the beginning of the succeeding budget year.
- Library cash is pooled for investment purposes. All investments and interest earned on investments are credited to each fund in accordance with Library Board policy.
- Library revenues and expenditures are monitored and reported to the Board monthly by the Library's Clerk-Treasurer to determine if they are on target with estimates.

The Board of Trustees has mandated a "balanced" budget, where operating expenditures
cannot exceed anticipated revenues. Operating expenditures does not include one-time or
infrequent equipment purchases or the transfer of monies to the Capital Projects Fund for
future projects.

Applies to only the Capital Projects Fund:

- This fund is used to account for major capital projects only, typically defined as individual projects with a budget in excess of \$50,000.
- It is the Board's policy that for each Library branch construction project, one percent of the construction costs may be appropriated for the purchase of "artwork."
- Whenever real property is sold, the proceeds are credited to the Capital Projects Fund.

### RISK MANAGEMENT

The Library is part of a statewide plan for workers' compensation insurance coverage. Additionally, the Library carries property insurance, liability and excess liability insurance coverage as well as officers' and directors' liability insurance. In addition, all employees are bonded.

The Library is self-insured for employee health care. To account for and finance its uninsured health claims, the Library established the Self-Insurance Fund (an internal service fund). All departments of the Library participate in the program and make payments to the Self-Insurance Fund based on actuarial estimates of the amounts needed to pay current and future claims. The Library has purchased specific stop loss insurance for claims which exceed \$100,000 per covered individual in one year and aggregate stop loss coverage at 125% of annual estimated claims.

### PENSION BENEFITS

All employees of the Library are required to participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans, as described below:

- 1. The Traditional Pension Plan (TP) a cost-sharing, multiple employer defined benefit pension plan.
- 2. The Member-Directed Plan (MD) a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the MD Plan, members accumulate retirement assets equal to the value of member (and vested) employer contributions plus any investment earnings thereon.
- 3. The Combined Plan (CO) a cost-sharing, multiple-employer defined benefit pension plan. Under the CO Plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar in nature to the TP Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the MD Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the TP Plan and the CO Plan. Members of the MD Plan do not qualify for ancillary benefits.

In addition to the pension benefits described above, OPERS also provides post-retirement health care benefits to qualifying members of the TP Plan and the CO Plan. Members of the MD Plan do not qualify for ancillary benefits, including post-employment health care coverage. In order to qualify for post-retirement health care coverage, age and service retirees must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available.

See Note 6 for additional pension information.

### INDEPENDENT AUDITORS

The basic financial statements of the Library for the year ended December 31, 2003, were audited under contract with the Auditor of State of Ohio by Wilson, Shannon & Snow, Inc., independent Certified Public Accountants, whose opinion thereon is included at the beginning of the Financial Section of this report.

### CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) has awarded a Certificate of Achievement for Excellence in Financial Reporting to the Columbus Metropolitan Library for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2002. This is the seventeenth (17th) consecutive year that the Library has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of only one year. We believe our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### **ACKNOWLEDGMENTS**

While many individuals have contributed to the preparation of this report, special thanks are extended to; Todd Daughenbaugh, Assistant Director of Finance; Kimberly Hampton, Chief Accountant, Jan Smith, Finance Specialist, Anna Clendenen, Accountant and Charles Trabue, Accounting Assistant.

I also wish to express my appreciation to Patrick Losinski, Executive Director, and the members of the Board of Trustees for their continued interest and support in planning and conducting the financial operations of the Library in a responsible and progressive manner.

Sincerely.

ROBERT L. JOHNSON

Clerk-Treasurer/Director of Finance

### **Independent Auditors' Report**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the remaining fund information of Columbus Metropolitan Library, Franklin County, Ohio (the Library) as of and for the year ended December 31, 2003, which collectively comprise the Library's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Library's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Library as of December 31, 2003, and the respective changes in financial position and cash flows, where applicable, and the respective budgetary comparison for the General fund thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As disclosed in Note 1 to the basic financial statements, the Library implemented Governmental Accounting Standards Board (GASB) Statement 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, GASB Statement No. 37, Basic Financial Statements for State and Local Governments: Omnibus, and GASB Statement No. 38, Certain Financial Statement Note Disclosures, GASB Statement No. 39, Determining whether Certain Organizations are Component Units – An Amendment of GASB Statement No. 14, and GASB Statement No. 40, Deposit and Investment Risk Disclosure – An Amendment of GASB Statement No. 3, for the year ended December 31, 2003.

FAX (740) 348-5635

In accordance with Government Auditing Standards, we have also issued our report dated July 19, 2004 on our consideration of the Library's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements, but is supplementary information the Governmental Accounting Standards Board requires. We applied limited procedures, consisting principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. We did not audit the information and express no opinion on it.

We conducted our audit to form opinions on the financial statements that collectively comprise the Library's basic financial statements. The introductory section, combining and individual nonmajor fund statements, schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Wilson Shamma E Swee, Das.

Newark, Ohio July 19, 2004

### Management's Discussion and Analysis for the Year Ended December 31, 2003

As management of the Columbus Metropolitan Library (the Library), we offer readers of the Library's financial statements this narrative overview and analysis of the financial activities of the Columbus Metropolitan Library for the fiscal year ended December 31, 2003. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, the financial statements, and the notes to the financial statements.

### Financial Highlights

Key financial highlights for the fiscal year 2003 are as follows:

- The assets of the Library exceeded its liabilities at the close of the most recent fiscal year by \$95,487,485. Of this amount, \$9,410,729 was unrestricted and may be used to meet the Library's ongoing obligations.
- The Library's net assets increased by \$1,060,267 or 1.12%.
- Of the \$49,940,604 in total revenues, general revenues accounted for \$45,236,208 or 90.58 percent. Program specific revenues in the form of charges for services, grants and contributions accounted for \$4,704,396 or 9.42 percent.
- The Library had \$48,880,337 in expenses related to governmental activities; 9.62 percent of these expenditures were offset with program specific revenues. The remaining 90.38 percent was provided by general revenues of the Library, including Property Taxes, State of Ohio shared revenues and investment earnings.
- The Library has two major funds: the general fund and the capital projects fund. Under the modified basis of accounting, the general fund had \$48,385,321 in revenues and \$44,672,752 in expenditures. An additional \$6,192,490 in other uses resulted in a decrease in fund balance of \$2,479,921. The capital projects fund had \$392,708 in revenues and \$6,536,465 in expenditures. An additional \$5,375,000 in other sources resulted in a decrease in fund balance of \$768,757.
- At the end of the fiscal year, the unreserved fund balance in the general fund was \$8,011,240. This represents 77.1 percent of total fund balance and 17.9 percent of 2003 general fund expenditures.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Library's basic financial statements. The Library's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report contains other supplementary information in addition to the basic financial statements themselves.

### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the Library's finances, in a manner similar to private-sector business.

The Statement of Net Assets presents information on all of the Library's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating.

### Management's Discussion and Analysis for the Year Ended December 31, 2003

The Statement of Activities presents information showing how the Library's net assets changed during the most recent fiscal year. All changes to net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses reported in the statement for some items will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused leave).

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library uses fund accounting to assure and demonstrate compliance with finance-related legal requirements. The funds of the Library are divided into two categories: governmental funds and proprietary funds.

### Governmental Funds

Governmental funds focus on the near-term inflows and outflows of spendable financial resources, as well as on the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Library's near-term financing requirements.

Because the focus of governmental funds is narrower that that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, a reader may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Library maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund and the capital projects fund, both of which are considered to be major funds. Data from the other six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

### **Proprietary Funds**

The Library's only proprietary fund is the self-insurance fund. The self-insurance fund is an internal service fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the Library's various functions. The service provided by this fund benefits the governmental funds and has been included within governmental activities in the government-wide financial statements.

### Notes to the Financial Statements

The notes provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements.

### Management's Discussion and Analysis for the Year Ended December 31, 2003

### Government-wide Financial Analysis

The Statement of Net Assets provides the perspective of the Library as a whole. Table 1 provides a summary of the Library's net assets for 2003 compared to 2002.

Table 1 Net Assets

	Governmental Activities		
	2003	2002	
Assets			
Current and Other Assets	\$ 45,199,367	\$ 48,398,259	
Capital Assets	<u>76,488,699</u>	<u>72,174,434</u>	
Total Assets	\$ <u>121,688,066</u>	\$ <u>120,572,693</u>	
Liabilities			
Long-Term Liabilities	3,701,127	3,262,070	
Other Liabilities	<u>22,499,454</u>	22,883,405	
Total Liabilities	<u> 26,200,581</u>	<u>26,145,475</u>	
Net Assets			
Invested in Capital Assets	76,488,699	72,174,434	
Restricted	9,588,057	10,858,144	
Unrestricted	<u>9,410,729</u>	<u>11,394,640</u>	
Total Net Assets	\$ <u>95,487,485</u>	\$ <u>94,427,218</u>	

Total assets increased \$1,115,373. The majority of the increase in total assets was due to a combination of a decrease in cash of \$2,877,561 and an increase in capital assets by \$4,314,265. The decrease in cash and increase in assets is a direct result of the investment in construction projects.

Total liabilities increased \$55,106. This includes a \$439,057 increase in accrued liabilities and an offsetting reduction of \$500,082 in deferred revenues.

### Management's Discussion and Analysis for the Year Ended December 31, 2003

Table 2 shows the changes in net assets for the fiscal year ended December 31, 2003.

Increase in Net Assets	\$ <u>1,060,267</u>	

<sup>\* - 2003</sup> is the first year that the Library is required to prepared its financial statements in accordance with GASB Statement No 34 Therefore, comparative data is not available A comparative analysis will be presented in future years when the information is available

A major source of funding for the Library is money received from the State of Ohio's Library and Local Government Support Fund (LLGSF). The source of money for this fund comes from a percentage of the state income taxes collected in Ohio. Based on a formula, as established in state law, a percentage of this fund is annually distributed to each county for use by the public library districts within that county. Within Franklin County there are seven (7) public library districts that share this revenue. Each library's share of the fund is established by the Budget Commission. The Budget Commission uses a formula to determine each Library's share of the money; however, the use of a formula is not mandatory under Ohio law. This formula was negotiated and agreed to by each of the library districts within the county. Based on the formula, the Library received 59.23% in 2003.

Another major source of revenue for the Library is the revenue generated by the 2.2 mill property tax levy. In November 2000, this levy was renewed by the voters in the Library's taxing district for another ten-year period.

### Management's Discussion and Analysis for the Year Ended December 31, 2003

The Statement of Activities shows the cost of program services and the charges for services, grants, contributions, and interest earnings offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of those services supported by tax revenue and state shared revenues.

Table 3
Governmental Activities

		Total Cost of Services - 2003*	Net Cost of Services - 2003*
Program Expenses			
Public Service		\$31,863,473	\$27,885,957
Administrative and Support		17,016,864	<u>16,289,984</u>
• •	Total	\$48,880,337	\$ <u>44,175,941</u>

<sup>\* - 2003</sup> is the first year that the Library is required to prepared its financial statements in accordance with GASB Statement No 34 Therefore, comparative data is not available. A comparative analysis will be presented in future years when the information is available

The above schedule clearly shows the dependence upon tax revenues and state subsidies for governmental activities. Only 9.62 percent of the activities performed by the Library are supported through program revenues such as charges for services, grants and contributions. The remaining 90.38 percent is provided through taxes and intergovernmental revenues.

### **Fund Financial Analysis**

The focus of the Library's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Library's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the Library's net resources available for spending at the end of the fiscal year.

#### Management's Discussion and Analysis for the Year Ended December 31, 2003

The general fund is the chief operating fund of the Library. At December 31, 2003, \$8,011,240 of the Library's ending fund balance represents the unreserved portion of the general fund, which is available for spending at the Library's discretion. This unreserved fund balance represents 7.9 percent of 2003 general fund expenditures.

At December 31, 2003, the capital projects fund had an ending fund balance of \$8,612,556 available to complete current projects and provide funding for future projects.

As of December 31, 2003, the Library's governmental funds reported combined ending fund balances of \$20,899,312, a decrease of \$3,107,607 in comparison to the prior year. All governmental funds had total revenues of \$49,963,992 and expenditures of \$52,777,543.

## **General Fund Budgeting Highlights**

The Library's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2003, the Library amended its general fund budget, but not significantly. The Library closely monitors its resources and uses and if necessary, modifies the budgetary documents on a timely basis. The most significant amendment was a \$4,975,000 increase in transfers-out. These monies were transferred to the capital projects fund for future projects.

For the general fund, budget basis revenue was \$48,157,511, which was below original estimates of \$49,164,846. Of this \$1,007,335 difference, \$799,208 was due to lower than anticipated property taxes and \$468,004 was due to lower than anticipated fine collections.

For the general fund, budget basis expenditures were \$43,772,171, which was below original estimates of \$47,565,856. Of this \$3,793,685 difference, \$1,817,279 was due to lower salaries and benefits and \$1,112,380 was due to lower than anticipated purchased service costs.

The Library's ending unobligated cash balance was \$6,258,068.

#### Management's Discussion and Analysis for the Year Ended December 31, 2003

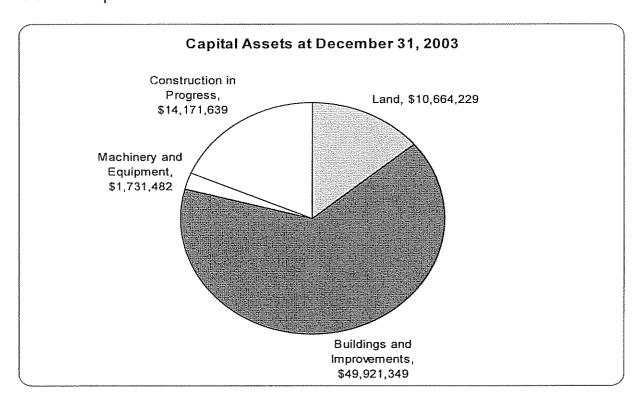

## **Capital Assets**

At the end of fiscal year 2003, the Library had \$76,488,699 invested in capital assets. Table 4 shows fiscal year 2003 balances compared to 2002.

Table 4
Capital Assets at December 31,
(Net of Depreciation)

	Governm Activit	
	2003	2002
Land	\$10,664,229	\$10,664,229
Buildings and Improvements	49,921,349	50,914,620
Machinery and Equipment	1,731,482	2,000,445
Construction in Progress	14,171,639	<u>8,595,140</u>
Totals	\$ <u>76,488,699</u>	\$ <u>72,174,434</u>

During 2003, the Library continued to invest in capital construction. Significant construction in progress at December 31, 2003 includes the Operations Center (\$7,359,716), Linden Branch (\$2,180,340) and the New Albany Branch (\$3,552,973). These projects are anticipated to be closed during 2004. No additional capital construction is planned.

## Management's Discussion and Analysis for the Year Ended December 31, 2003

#### **Economic Factors**

The Columbus Metropolitan Library is currently financially stable. However, the stability of future state funding is unknown. In order to address the decrease in state tax revenues, the LLGSF distributions have been "frozen" at 2003 levels until the end of the current state biennium (June 30, 2005).

#### Contacting the Library's Financial Management

This financial report is designed to provide our citizen's and taxpayers with a general overview of the Library's finances and to show the Library's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Mr. Robert L. Johnson, Clerk-Treasurer/Director of Finance at Columbus Metropolitan Library, 96 South Grant Ave., Columbus, Ohio 43215 or by e-mail at rjohnson@columbuslibrary.org.

#### Notes to the Basic Financial Statements

#### **December 31, 2003**

#### (1) Summary of Significant Accounting Policies

The Columbus Metropolitan Library (Library) was founded in 1872. The Library is a county district library established in accordance with Section 3375.20 of the Ohio Revised Code. The Library lends books, periodicals and audiovisual materials to residents and certain others at no charge. The Library, which is a separate legal entity, is financially, managerially and operationally independent from both Franklin County and the City of Columbus.

The accompanying financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, The Financial Reporting Entity, and GASB statement No. 39, Determining Whether Certain Organizations are Component Units – and amendment to GASB Statement No. 14 in that the financial statements include all the organizations, activities, functions and component units for which the Library (the reporting entity) is financially accountable. Financial accountability is defined as the appointment authority of a voting majority of the component's unit board, and either (1) the Library's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the Library.

For fiscal year ended December 31, 2003, the Library implemented GASB statement No 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, GASB Statement No. 37, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus – an amendment of GASB Statements No. 21 and No. 34, GASB Statement No. 38, Certain Financial Statement Note Disclosures, GASB Statement No. 39, Determining Whether Certain Organizations are Component Units – an amendment of GASB Statement No. 14, and GASB Statement No. 40, Deposit and Investment Risk Disclosure – an amendment of GASB Statement No. 3.

In November 2003, GASB issued Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries. This Statement establishes accounting and financial reporting standards for impairment of capital assets and clarifies and establishes accounting requirements for insurance recoveries. This statement is effective for periods beginning after December 15, 2004 and the Library has not adopted the provisions of this statement in the accompanying financial statements. Management has not completed the process of evaluating the impact that will result from adopting this statement, and therefore is unable to disclose the impact that adopting the statement will have on its financial position and results of operations when the statement is adopted.

In May 2004, the GASB issued Statement No. 44, Economic Condition Reporting: The Statistical Section – an amendment of NCGA Statement 1. This statement amends the portions of NCGA Statement 1, Governmental Accounting and Financial Reporting Principles, that guide the preparation of the statistical section. This statement is effective for periods beginning after June 15, 2005 and the Library has not adopted the provisions of this statement in the accompanying financial statements. Management has not completed the process of evaluating the impact that will result from adopting this statement, and therefore is unable to disclose the impact that adopting the statement will have on its financial position and results of operations when the statement is adopted.

The accounting policies and financial reporting practices of the Library conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of its significant accounting policies:

#### Notes to the Basic Financial Statements

#### **December 31, 2003**

#### (1) Summary of Significant Accounting Policies (continued)

## (a) Government-wide and fund financial statements

The financial information of the Library is presented in this report as follows:

- Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the Library's financial activities.
- Government-wide financial statements consist of a Statement of Net Assets and a Statement of Activities.

These statements report all of the assets, liabilities, revenues, expenses and gains and losses of the Library. Governmental activities are reported separately from business type activities. Governmental activities are normally supported by taxes and intergovernmental revenues whereas business type activities are normally supported by fees and charges for services and are usually intended by management to be financially self-sustaining. Fiduciary funds are not included in these government-wide financial statements.

Internal service fund balances, whether positive or negative, have been eliminated against the expenses and program revenues shown in governmental activities Statement of Activities.

The Statement of Activities presents a comparison between the direct expenses and program revenues for each function of the Library's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

• Fund financial statements consist of a series of statements focusing on information about the Library's major governmental funds. Separate financial statements are presented for the governmental and proprietary funds.

The City's major funds are the General Fund and the Capital Projects Fund.

The General Fund is the accounting entity in which all governmental activity, except that which is required to be accounted for in other funds, is accounted for. Its revenues consist primarily of taxes, intergovernmental shared revenue, fines and fees, charges for services, investment income and others. General Fund expenditures represent costs of public services administration and support and capital outlay.

The Capital Projects Fund is used to account for financial resources set aside for the acquisition of equipment or the construction and renovation of facilities. The revenues for this fund are derived from transfers from the General Fund, a portion of the partnership receipts, the sale of real property and donations.

#### Notes to the Basic Financial Statements

#### **December 31, 2003**

#### (1) Summary of Significant Accounting Policies (continued)

#### (a) Government-wide and fund financial statements (continued)

• Notes to the financial statements providing information that is essential to the user's understanding of the basic financial statements.

#### (b) Financial reporting presentation

The accounts of the Library are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures (expenses). Fund types are as follows:

#### **GOVERNMENTAL FUNDS**

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Library's governmental funds:

General Fund (Major Fund) - The General Fund is the general operating fund of the Library. It is used to account for all financial resources except those required to be accounted for in another fund. The fund balance of the general fund is available to the Library for any purpose provided it is expended or transferred according to the laws of Ohio.

**Special Revenue Funds** - Special Revenue Funds are used to account for revenues derived from specific taxes, grants or other restricted revenue sources. The uses and limitations of each special revenue fund are specified by Library Board policies, federal and state statutes or other external donors.

Capital Project Fund (Major Fund) - Capital Project Funds are used to account for financial resources to be used for the acquisition of major fixed assets or the construction of major capital facilities (other than those financed by proprietary funds and trust funds).

**Permanent Fund** – Permanent Funds are used to account for financial resources that are legally restricted to the extent that only earnings, and not principal, may be used to support the Library.

#### PROPRIETARY FUNDS

Proprietary Funds are those which focus on the determination of operating income, changes in net assets, financial position and cash flows. The following is the Library's proprietary fund:

Internal Service Fund - The Internal Service Fund is used to account for the financing of services provided by one department to another department on a cost reimbursement basis.

#### **Notes to the Basic Financial Statements**

**December 31, 2003** 

#### (1) Summary of Significant Accounting Policies (continued)

## (c) Measurement focus and basis of accounting

Except for budgetary purposes, the bases of accounting used by the Library conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The accounting and financial reporting treatment is determined by its measurement focus.

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the Library gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, shared revenues and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which the taxes are levied. On an accrual basis, revenue in the form of shared revenue is recognized when the provider government recognizes its liability to the Library. Revenues from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Library considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments and compensated absences, which are recognized as expenditures when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

Pursuant to GASB Statement 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting, the Library follows GASB guidance as applicable to its proprietary funds, and Financial Accounting Standards Boards Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989, that do not conflict with or contradict GASB Pronouncements.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

#### (d) Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed in all funds. On the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities, but are reported as reservations of fund balances in governmental funds.

#### (e) Cash Equivalents

For purposes of the statement of cash flows, the Proprietary Fund considers all highly liquid investments, with purchased maturities of three months or less, to be cash equivalents. In addition, all pooled cash and investments with the Clerk-Treasurer are considered to be cash equivalents since they are available to the Proprietary Fund on demand.

#### Notes to the Basic Financial Statements

#### December 31, 2003

## (1) Summary of Significant Accounting Policies (continued)

#### (f) Investments

In accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, the Library records all of its investments at fair value as defined in the Statement. The Library does not engage in any form of derivatives or reverse repurchase agreements in the management of its investment portfolio. The Library's cash and investments are further explained in Note 3.

#### (g) Capital Assets

Property, plant and equipment are reported in the applicable governmental columns in the government-wide financial statements. The Library does not have any infrastructure assets. The Library defines capital assets as assets with an individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost. Donated assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are completed.

Library books and materials purchased by the Library are reflected as expenditures when purchased and are not capitalized as assets of the Library. The Library currently has a library materials collection of approximately 2,864,863 volumes.

Property, plant and equipment is depreciated using the straight line method over the following estimated useful lives:

Description	Estimated Life (years)
Buildings	60
Machinery/General Equipment/Furniture	20
Business Machines/Printers/AudioVisual Equipment/	
HVAC Equipment/Parking Equipment	10
Security Equipment/Phone Equipment	7
Vehicles/Computers/Artwork/Photocopiers/Computer Softwa	re 5

#### (h) Insurance

The Library is insured by private carriers for property damage, personal injury and public official liability. Judgments and claims in excess of policy limits are recorded when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated. At December 31, 2003, 2002 and 2001, there were no outstanding judgments or claims in excess of policy limits. There were no significant changes in insurance coverage from the previous year and no insurance settlement has exceeded insurance coverage during the last three years.

The Library provides dental, life and disability insurance coverage for employees through a private insurance carrier. The Library is part of the state-wide plan for Worker's Compensation insurance coverage.

#### Notes to the Basic Financial Statements

#### **December 31, 2003**

#### (1) Summary of Significant Accounting Policies (continued)

## (h) Insurance (continued)

Beginning in 2001, the Library established self-insured employee health care. To account for and finance its uninsured health claims, the Library established the Self Insurance Fund (an internal service fund). All departments of the Library participate in the program and make payments to the Self Insurance Fund based on actuarial estimates of the amounts needed to pay current and future claims. The Library has purchased specific stop loss insurance for claims which exceed \$100,000 per covered individual in one year and aggregate stop loss coverage at 125% of annual estimated claims.

	<u>2001</u>	<u>2002</u>	<u>2003</u>
Unpaid Claims Jan 1,	\$ 0	\$ 144,368	\$ 236,415
Incurred Claims	1,573,655	2,028,680	1,512,340
Payment of Claims	(1,429,287)	(1,936,633)	(1,594,368)
Unpaid Claims Dec 31,	<u>\$ 144,368</u>	<u>\$ 236,415</u>	\$ <u>154,387</u>

The \$154,387 of unpaid claims are reflected in the internal service fund's accounts payable line item.

#### (i) Compensated Absences

Library employees accumulate one "bank" of hours for both sick and vacation called Paid Time Off (PTO). These hours are vested at 100% when earned. Payment is dependent upon many factors; therefore, timing of future payments was not readily determinable. However, management believes that sufficient resources will be available for the payment of PTO when such payments become due.

PTO accumulated by governmental fund type and proprietary fund type employees is reported as an expense when earned in the government-wide financial statements. PTO accumulated by governmental fund type employees is not reported as an expense in the governmental fund financial statements, as current financial resources are not used.

#### (i) Interfund Transactions

During the course of normal operations, the Library has numerous transactions between funds, most of which are in the form of transfers of resources to provide services, construct assets and service debt. The accompanying financial statements generally reflect all interfund transactions, except reimbursements and internal service fund charges for services, as transfers. Intra-fund transfers have been eliminated at the combined fund statement level. However, this detail is shown on the combining statements.

In 2001, \$350,000 was advanced from the General fund to the Self-Insurance Fund to cover the initial costs of operation. No repayment schedule has been determined.

In 2003, \$52,500 was advanced from the General fund to the LSTA Grant Fund to cover the initial costs of operation. Repayment is scheduled to occur at the completion of the grant period (2004).

#### (k) Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2003, are recorded as prepaid items. Prepaid items consist primarily of insurance premiums, conferences and training, memberships and library material subscriptions.

#### Notes to the Basic Financial Statements

**December 31, 2003** 

## (1) <u>Summary of Significant Accounting Policies</u> (continued)

## (I) Budgetary Basis of Accounting

#### Budget

A budget of estimated cash receipts and disbursements, including encumbrances, is submitted to the County Auditor, as secretary of the County Budget Commission, by July 20 of each year for the fiscal year commencing the following January 1.

#### Estimated Resources

The County Budget Commission certifies the budget to the Library by September 1. As part of this certification, the Library receives the official Certificate of Estimated Resources which states the projected receipts of each fund. On or about January 1, this certificate is amended to include any unencumbered balances from the preceding year. The total estimated receipts together with prior year carry over of unencumbered cash then serves as the basis for the annual appropriation. Expenditures and encumbrances from any fund during the ensuing fiscal year must not exceed the amount stated in the Amended Certificate of Estimated Resources.

## **Appropriations**

The Library is required by state statute to adopt an annual appropriation cash basis budget. A temporary appropriation measure to control cash disbursements is passed by the Library's Board of Trustees in December of each year to be effective as of January 1. The permanent appropriation measure then must be passed by April 1 of each year for the period January 1 to December 31. The permanent appropriation measure then may be amended or supplemented during the year as new information becomes available. Appropriations may not exceed estimated resources. Unencumbered appropriations lapse at year-end except in the Special Revenue (project related funds) and Capital Projects Funds which have continuing appropriations. Any budget change that increases or decreases expenditures at the major expenditure (object) level requires Board authorization. Several supplementary appropriations resulting in an increase of \$10,957,000 were made during the year. A breakdown of the appropriation adjustments is as follows:

General Fund	\$ 4,975,000
Capital Project Fund	5,982,000
Total	\$10,957,000

The governmental fund types for which the Library budgets annual expenditures are the General and Special Revenue Funds. The budget specifies expenditure amounts by function within these funds. Expenditures cannot exceed appropriations at the major expenditure (object) level for the General Fund and cannot exceed total appropriations for all other budgeted funds. In the supplemental reports, the Library has provided a further breakdown of the legal reporting level. Capital Projects Fund revenues and expenditures are not budgeted on an annual basis; budgetary control over these fund types is established on a project basis.

The Library budgets annual expenses for one nongovernmental fund type, the Internal Service Fund. The budget specifies expense amounts by function within the fund. Expenses can not exceed total appropriations.

#### Notes to the Basic Financial Statements

#### December 31, 2003

## (1) Summary of Significant Accounting Policies (continued)

## (1) Budgetary Basis of Accounting (continued)

In addition to the annual expenditures/expenses budgeting described in the preceding paragraphs, all revenues, except for tax revenues, for the General Fund are estimated by the Clerk-Treasurer in conjunction with the annual budgeting process. However, the annual appropriations should not exceed the estimated resources as certified by the County Budget Commission in the annual Certificate of Estimated Resources.

The Board has delegated purchase and expenditure approval to the Library administration for daily operational needs of the Library. Any appropriation change which will increase or decrease any of the major appropriation classifications requires approval of the Board. Expenditures did not exceed appropriations in any fund type.

The Library's budgetary process is based upon accounting for certain transactions on a basis other than GAAP. To provide a meaningful comparison of actual results with the budget, the actual results of operations for governmental funds are presented in the Supplemental Data section of this report.

The major differences between the budget basis and the GAAP basis are as follows:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- B. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- C. Encumbrances are recorded as the equivalent of expenditures (budget basis), as opposed to a reservation of fund balance (GAAP basis).

#### (2) Commitments and Contingencies

## (a) Litigation

The Library is currently the defendant in several legal cases for which management and legal counsel are unable to determine the likelihood or range of loss, if any. However, in the opinion of the management, the resolution of these matters will not have a material adverse effect on the financial condition of the Library

#### (b) Compensated Absences

A summary of changes in long-term obligations for the year ended December 31, 2003, follows:

	Balance			Balance
	<u>Jan 1, 2003</u>	<u>Additions</u>	<u>Deletions</u>	Dec 31, 2003
Governmental Activities	\$ 1,311,745	\$ 1,062,937	\$ -	\$ 2,374,682

Accrued liabilities are composed of accrued compensatory time earned. Additions and deletions for these accrued liabilities are shown net since it is impracticable for the Library to determine these amounts separately.

#### Notes to the Basic Financial Statements

#### December 31, 2003

#### (3) Cash and Investments

The Library pools all individual fund cash balances for investment purposes, except for cash with fiscal agents and restricted investments. According to state statutes, all earnings received from pooled investments must be credited to the Library's General Fund, unless specified by resolution. Interest income earned on investments held in perpetuity is credited to the Library's Permanent Fund.

Credit risk is the risk of loss due to the failure of a security issuer to pay principal or interest, or the failure of the issuer to make timely payments of principal or interest. Eligible investments, pursuant to Ohio Revised Code Section 135.14, affected by credit risk include certificates of deposit, commercial paper and bankers acceptances. Credit risk will be minimized by (1) diversifying assets by issuer; (2) ensuring that required, minimum credit quality ratings exist prior to the purchase of commercial paper and bankers acceptances; and (3) maintaining adequate collateralization of certificates of deposits, pursuant to the method as determined by the Clerk-Treasurer.

#### Deposits:

At December 31, 2003, the carrying amount of all the Library's deposits (including \$2,067,742 in non-negotiable certificate of deposits) was \$2,707,763 and the bank balance was \$3,582,361. Of the bank balance, \$367,742 was covered by Federal Depository Insurance and \$3,214,619 was uninsured and collateralized with securities held by the financial institution or by its trust department or agent but not in the Library's name.

#### Investments:

The Library adopted a formal investment policy. The objectives of the policy shall be the preservation of capital and protection of principal while earning investment interest. Safety of principal is the primary objective of the investment program. This policy covers all funds under the direct control of the Clerk-Treasurer. Funds are invested in accordance with Section 135 "Uniform Depository Act" of the Ohio Revised Code as revised by Senate Bill 81.

The types of obligations eligible for investment and deposits are:

- 1. U.S. Treasury Bills, Notes and Bonds; various federal agency securities, including issues of Federal National Mortgage Assn. (FNMA), Federal Home Loan Mortgage Corp. (FHLMC), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), Student Loan Marketing Assn. (SLMA), Government National Mortgage Association (GNMA), and other agencies or instrumentalities of the United States. Eligible investments include securities that may be "called" (by the issuer) prior to final maturity date. All eligible investments may be purchased at a premium or a discount. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities.
- 2. Commercial paper notes issued by companies incorporated under the laws of the United States; specific limitations apply as defined under Ohio Revised Code Section 135.14(B)(7).
- 3. Bankers acceptances issued by any domestic bank rated in the highest category by a nationally recognized rating agency; specific limitations apply as defined under Ohio Revised Code Section 135.14(B)(7).
- 4. Certificates of deposit from any eligible institution mentioned in Ohio Revised Code Section 135.32.
- 5. No-load money market mutual funds rated in the highest category by at least one nationally recognized rating agency, investing exclusively in the same types of eligible securities as defined in Ohio Revised Code Sections 135.14(B)(1) and 135.14 (B)(2) and repurchase agreements secured by such obligations. Eligible money market funds shall comply with Ohio Revised Code Section 135.01, regarding limitations and restrictions.

#### Notes to the Basic Financial Statements

#### **December 31, 2003**

#### (3) <u>Cash and Investments</u> (continued)

- 6. Repurchase agreements with any eligible institutions mentioned in Ohio revised Code Section 135.32, or any eligible securities dealer pursuant to Ohio revised Code Section 135.32(J), except that such eligible securities dealers shall be restricted to primary government securities dealers. Repurchase agreements will settle on a delivery vs. payment basis with collateral held in safekeeping by a third party custodian as agreed to by the Clerk-Treasurer. The market value of securities subject to a repurchase agreement must exceed the principal value of the repurchase agreement by at least two percent as defined under the Ohio Revised Code. The Clerk-Treasurer reserves the right to require an additional percentage of collateral securing such repurchase agreements.
- 7. The state treasurer's investment pool (STAR Ohio), pursuant to Ohio Revised Code Section 135.45.

Investments of the Library funds is prohibited or restricted as follows:

- a. The use of derivative securities, as defined by Ohio revised Code Section 135.14, is expressly prohibited.
- b. The final maturity of all eligible investments is five years, unless the investment is matched to a specific obligation or debt of the Library, and the investment is specifically approved by the Board of Trustees.
- A repurchase agreement under the terms of which the investing authority agrees to sell securities to a purchaser and agrees with that purchaser to unconditionally repurchase those securities.
- d. The investment into a fund established by another subdivision if the fund was established for the purpose of investing monies of other subdivisions
- e. The use of leveraging, in which the investing authority uses its current investment assets as collateral for the purpose of purchasing other assets.
- f. The issuance of taxable notes for the purpose of arbitrage.
- g. Contracting to sell securities that have not yet been acquired, for the purpose of purchasing such securities on the speculation that bond prices will decline.

Cash and investment at year-end were as follows:

			M	laturity in Yea	rs

STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the Securities Exchange Commission as an investment company, but does operate in a manner similar to Rule 2a-7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2003.

#### (4) Receivables

Receivables at December 31, 2003 for the Library's individual funds consists of the following:

	Taxes &			
	Shared Revenue	<u>Interest</u>	Other	<u>Total</u>
General	\$ 22,801,471	\$ 22,495	\$ 29,167	\$ 22,853,133

These projects were funded through the Capital Projects Fund by monies transferred from the General Fund. The balance of these Capital projects will be funded by available financial resources.

Of the \$1,621,319 deprecation expense, \$1,177,495 was related to Public Service and \$443,824 was related to Administrative and Support.

#### (6) Pension Plans

All employees of the Library are required to participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans, as described below:

- 1. The Traditional Pension Plan (TP) a cost-sharing, multiple employer defined benefit pension plan.
- 2. The Member-Directed Plan (MD) a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the MD Plan, members accumulate retirement assets equal to the value of member (and vested) employer contributions plus any investment earnings thereon.
- 3. The Combined Plan (CO) a cost-sharing, multiple-employer defined benefit pension plan. Under the CO Plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar in nature to the TP Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the MD Plan.

#### Notes to the Basic Financial Statements

#### **December 31, 2003**

#### (6) Pension Plans (continued)

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the TP Plan and the CO Plan. Members of the MD Plan do not qualify for ancillary benefits. PERS has the authority to establish and amend benefits as provided by Chapter 145 of the Ohio Revised Code. OPERS issues a publicly available financial report that includes the financial statements and required supplementary information. Any parties interested in obtaining a copy must submit a written request to OPERS at 277 East Town Street, Columbus, Ohio 43215-4642 or call (614) 222-6705 or 1-800-222-PERS (7377) or on the internet at www.opers.org.

The Ohio Revised Code provides statutory authority for member and employer contributions. For 2003, member and employer contribution rates were consistent across all three plans. For 2003, member contribution rates were 8.5% of their annual covered salary. The 2003 employer contribution rate was 13.55% of covered payroll. Total required employer contributions for all three plans are equal to 100% of employer charges and must be extracted from the employer's records.

The Library's contributions to OPERS for the years ending December 31, 2003, 2002 and 2001, were approximately \$3,144,989, \$3,125,801 and \$2,994,000, respectively, which were equal to the required contributions for each year.

## (7) Other Post-Employment Benefits

In addition to the pension benefits described in note 6, OPERS also provides post-retirement health care benefits to qualifying members of the TP Plan and the CO Plan. Members of the MD Plan do not qualify for ancillary benefits, including post-employment health care coverage. In order to qualify for post-retirement health care coverage, age and service retirees must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. The health care coverage provided by OPERS is considered an Other Post-Employment Benefit (OPEB), as described in GASB Statement No. 12.

A portion of each employer's contribution to OPERS is set aside for the funding of the post-retirement health care. The Ohio Revised Code provides statutory authority for employer contributions. The 2003 contribution rate for the employer was 13.55% of covered payroll; 5.00% was used to fund health care for the year.

Employer contributions are advanced-funded on an actuarially determined basis and are determined by state statue. The amount of actuarially determined Library contributions actually made to fund post-employment benefits was approximately \$1,160,501 in 2003 and \$1,153,421 in 2002.

The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. At December 31, 2003, the number of active contributing participants in the TP Plan and the CO Plan was 364,881.

The assumptions and calculations below are based on OPERS' latest Actuarial Review, performed as of December 31, 2002.

OPERS (assuming the number of active employees remains constant) assumes an annual increase of 4.00% compounded annually for the base portion of an individual's pay increase. Additionally, annual pay increases, over and above the 4.00% base increase, were assumed to range from 0.50% to 6.3%.

#### Notes to the Basic Financial Statements

#### **December 31, 2003**

#### (7) Other Post-Employment Benefits (continued)

OPEB are financed through employer contributions and investment earnings thereon. The investment assumption rate for 2002 was 8.00%. All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Under this approach assets are adjusted annually to reflect 25% of unrealized market appreciation or depreciation on investment assets annually.

An entry-age normal actuarial cost method of valuation is used in determining the present value of OPEB. The difference between assumed and actual experience (actuarial gains and losses) becomes part of unfunded actuarial accrued liability.

Heath care costs are assumed to increase 4.00% annually

As of December 31, 2002, the actuarial value of the net assets available for future OPEB payments was \$10.0 billion. The actuarially accrued liability and the unfunded actuarial accrued liability, based on the actuarial cost method used, were \$18.7 billion and \$8.7 billion, respectively.

In December 31, 2001, OPERS adopted the Health Care "Choices" Plan in its continuing effort to respond to the rising cost of health care. The Choices Plan will be offered to all persons newly hired under an OPERS covered position after January 1, 2003, with no prior service credit accumulated toward health care coverage. Choices, as its name suggests, will incorporate a cafeteria approach, offering a more broad range of health care options. The plan uses a graded scale from ten to thirty years to calculate a monthly health care benefit. This is in contrast to the ten-year "cliff" eligibility standard for the present plan.

The benefit recipient will be free to select the option that best meets their needs. Recipients will fund health care costs in excess of their monthly health care benefit. The plan will also offer a spending account feature, enabling the benefit recipient to apply their allowance toward specific medical expenses, much like a Medical Spending Account.

In response to the adverse investment returns experienced by OPERS from 2000 through 2002 and the continued staggering rate of health care inflation, the OPERS Board, during 2003, considered extending "Choices" type cost cutting measures to all active members and benefit recipients. As of the date of this report, the Board has not determined the exact changes that will be made to the health care plan. However, changes to the plan are expected to be approved in 2004.

#### (8) **Property Taxes**

Property taxes include amounts levied against all real, public utility and tangible (used in business) property located in the Library district.

Real property taxes and public utility taxes collected during 2003 were levied after October 1 on the assessed value listed as of the prior January 1, the lien date. These taxes are payable annually or semi-annually. If paid annually, payment is due by January 20; if paid semi-annually, the first payment is due by January 20 with remainder payable by June 20. Under certain circumstances, state statutes permit earlier or later payment dates to be established.

Assessed values are established by State law at 35% of appraised market value. A revaluation of all property is required to be completed no less than every six years. The last revaluation was completed in 2000. Public utility property taxes are assessed on tangible personal property, as well as land and improvements, at true value, which is a certain percentage of cost. Percentages vary according to the type of utility involved. Tangible personal property assessments were 25% of true value for personal property. The assessed values upon which the 2003 taxes were collected were approximately \$17.2 million.

#### Notes to the Basic Financial Statements

#### **December 31, 2003**

#### (8) Property Taxes (continued)

Ohio law prohibits taxation of property from all taxing authorities in excess of 1% of assessed value without a vote of the people. Increases in the property tax rate are restricted only by voter willingness to approve such increases. In 1986, voters approved taxation of property for the Library of .22% (2.2 mills) of assessed value effective January 1, 1986, for collection in 1987. This levy was to be collected for a period of 15 years and expired after the collection year 2002. In November 2000, the voters in Franklin County approved renewing the existing 2.2 levy. The collection year for the new levy began in 2002.

The Franklin County Treasurer collects property taxes on behalf of taxing districts in the county. The Franklin County Auditor periodically remits to the Library its portion of the taxes collected.

Property taxes with both a lien and levy date prior to fiscal year end are recorded as deferred revenue and receivables. However, property taxes including delinquent property taxes that were measurable at December 31, 2003, and available to the Library are recorded as revenues and receivables.

#### (9) Prior Period Adjustments

For fiscal year ended December 31, 2003, the Library implemented GASB statement No 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments and GASB Statement No. 39, Determining Whether Certain Organizations are Component Units – an amendment of GASB Statement No. 14.

GASB Statement No. 34 requires the Library to reclassify its Expendable Trust Fund as a Special Revenue Fund. The Carneige Society and the Friends of Library have been removed as blended component units under the guidance of GASB Statement No. 39 and the application of the "significance" criteria.

Total Special Revenue Fund Balance as reported	\$ 1,655,006
Reclassify Expendable Trust Fund	278,397
Remove Carneige Society (previously a blended component unit)	(22,298)
Remove Friends of the Library (previously a blended component unit)	(536,072)
Add Beginning Non-Expendable Trust Fund Balance	<u>86,472</u>
Beginning Fund Balance (restated)	<u>\$ 1,461,505</u>

In conjunction with the implementation of a new financial management system, the Library converted its capital asset records. During this conversion \$2,722,192 of land improvements were reclassified from Building and Improvements to the Land classification. An additional \$460,230 was reclassified from Machinery and Equipment to Building and Improvements. Finally, the Library discovered items that either did not meet the Library's capitalization threshold or had been improperly aggregated to meet the threshold. This resulted in a reduction of \$9,022,831 worth of Machinery and Equipment.

	Balance January 1, 2003	Restatement	Reclassification	Balance December 1, 2003 (Restated)
Land	\$ 7,942,037	\$ -	\$ 2,722,192	\$ 10,664,229
Buildings and improvements	67,204,640	-	(2,261,962)	64,942,678
Machinery and equipment	17,050,926	(9,022,831)	(460,230)	7,567,865
Construction in Progress	8,595,140		-	8,595,140
Total Capital Assets	<u>\$100,792,743</u>	<u>\$(9,022,831)</u>	\$	<u>\$ 91,769,912</u>

#### Notes to the Basic Financial Statements

#### December 31, 2003

## (9) Prior Period Adjustments (continued)

Beginning General Fund fund balance was restated as follows:

Total General Fund Balance as reported	\$ 12,884,128
Accounts receivable overstated	(14,083)
Beginning Fund Balance (restated)	<u>\$ 12,870,045</u>

## (10) Joint Ventures

In April 1992, the Library's Board of Trustees adopted a resolution to participate with the Worthington Public Library (Worthington), a separate legal entity, to construct and operate a library facility, containing approximately 23,000 square feet of public service space, at a location which will serve both library districts. On October 13, 1993, a written contract was entered into between the two library districts.

According to the terms of the agreement, the Library will not assume any responsibility for the daily management, operation and maintenance of the building. In addition, the agreement states that the Library will contribute, based on a formula, to the operational needs of the facility. In 2003, the Library contributed \$669,019 to the operational costs of Worthington. The funds were transferred from the General Fund and paid from the Integrated Library Partners Fund. In 2004, the Library has appropriated \$701,467 in the General Fund to be paid to Worthington. The activity of this operation is contained in the financial statements of the Worthington Public Library, which can be obtained from the Worthington Library's Finance Department located at 805 Hartford Street, Worthington, Ohio 43085.

## (11) Budgetary Basis of Accounting

The adjustments necessary to convert the results of General Fund operations and fund balances at end of year on the GAAP basis to the budgetary basis are as follows:

	Net Change in <u>Fund Balance</u>	Fund Balance, <u>December 31, 2003</u>

## S U P P L E M E N T A L D A T A

#### COLUMBUS METROPOLITAN LIBRARY FUND DESCRIPTIONS

#### **Major Funds**

#### General Fund

The General Fund is the general operating fund of the Library. It is used to account for all financial resources except those required to be accounted for in another fund.

#### Capital Projects Fund

The Capital Projects Fund is used to account for financial resources used for the acquisition or construction of major capital facilities and equipment other than those financed by Proprietary Funds. The titles of the projects are descriptive of the activities involved. The active Capital Projects are:

- Southeast Branch Expansion/Remodeling Project
- Operations Center Construction Project
- New Albany Construction Project
- Linden Branch Replacement Project
- Main Library Remodeling Project
- Communication Equipment 2001 Project
- Tandem Computer Equipment 2001 Project
- New Financial System Project
- Discovery Place Library Project
- Computer Equipment 2002 Project
- Personal Computer Upgrade 2003
   Project

- Self Checkout Project
- Integrated Library System Project
- Regional Branch & Main Self Check-Out System Project
- Copier Replacement Project
- Receipts system Project
- Security Equipment Upgrade Project
- Information System's Equipment 2004 Project
- Human Resource Automation Upgrade Project
- Telecommunication Project
- Non Project Related

## Non-Major Funds

#### Special Revenue Funds

Special Revenue Funds are used to account for types of resources for which specific uses are mandated by Library Board policies, federal and/or state statutes, or other external donors. The title of the fund is descriptive of the activities accounted for therein. The Special Revenue Funds are:

- Integrated Library Partners Fund
- Land Development Fund
- Library Sciences and Technology Act (LSTA) Fund
- · Parking Garage Fund
- Restricted Library Donations Fund

#### Internal Service Fund

The Internal Service Fund is used to account for goods or services provided by one department to other departments of the Library. The one Internal Service Fund the Library has is the Self Insurance Fund.

#### Permanent Fund

The Permanent Fund is used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.
