Financial Condition

As of

June 30, 2003

Together with Auditors' Report

Board of Trustees Lorain County Community College

We have reviewed the Independent Auditor's Report of the Lorain County Community College, Lorain County, prepared by Kevin L. Penn, Inc., for the audit period July 1, 2002 through June 30, 2003. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Lorain County Community College is responsible for compliance with these laws and regulations.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Introduction

The following discussion and analysis provides an overview of the financial position of Lorain County Community College (the College) for the year ended June 30, 2003. This discussion has been prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follow this section.

Lorain County Community College is part of Ohio's system of state supported and state assisted institutions of higher education. It is one of the 15 community colleges in Ohio. Located in the City of Elyria, with an off-campus facility in Lorain (St. Joseph's Learning Center), the College is a local institution. A majority of the College's students commute daily from their homes in Lorain County and the surrounding counties.

Using the Annual Financial Report

The College's financial report includes three financial statements: the Statement of Net Assets, the Statement of Revenues, Expenses and Changes in Net Assets, and the Statement of Cash Flows. These financial statements are prepared in accordance with accounting principles promulgated by the Governmental Accounting Standards Board (GASB). In 2002, the College adopted GASB Statement No. 35, *Basic Financial Statements- and Management's Discussion and Analysis- for Public Colleges and Universities*, as amended by GASB Statements No. 37 and No. 38. These statements establish standards for external financial reporting for public colleges and universities and require that financial statements be presented on a consolidated basis to focus on the College as whole, with resources classified into four net asset categories. Previously, financial statements focused on the accountability of individual fund groups rather than on the College as a whole.

Statement of Net Assets

The Statement of Net Assets presents the financial position of the College at the end of the fiscal year and includes all assets and liabilities. The difference between assets and liabilities—net assets—is one indicator of the current financial condition of the College, while the change in net assets is an indicator of whether the overall financial condition has improved or worsened during the year. Assets and liabilities are generally measured using current values. One notable exception is capital assets, which are stated at historical cost less an allowance for depreciation. A summary of the College's assets, liabilities, and net assets at June 30, 2003 is as follows:

Current assets	\$ 26,368,741
Noncurrent assets:	
Capital assets, net	51,616,515
Other	1,009,065
Total assets	\$ 78,994,321
Current liabilities	12,570,790
Noncurrent liabilities	2,400,074
Total liabilities	\$ 14,970,864
Net assets	\$ <u>64,023,457</u>

Current assets consist primarily of cash, operating investments, accounts receivable, inventories, and prepaid expenses. Current liabilities consist primarily of accounts payable, accrued payroll liabilities, and deferred income. The College's current ratio (current assets divided by current liabilities) of 2.1 indicates that current assets are more than adequate to cover current liabilities as they become due.

Capital and Debt Activities

One critical factor affecting the quality of the College's programs is the development and renewal of its capital assets. Capital additions totaled \$1.3 million in 2003. Capital additions include construction of new facilities, repair and renovation of existing facilities, and acquisition of equipment. Current year capital asset additions were funded primarily by capital appropriations from local appropriations and from the State of Ohio.

Notes payable totaled \$4.0 million at June 30, 2003. These notes were issued in prior years to finance construction or renovation of facilities. One indicator of financial health is the viability ratio (expendable net assets divided by long-term debt). A ratio of 1:1 or greater indicates that financial viability is strong. At June 30, 2003, the College's viability ratio was 1.3:1.

Net Assets

Net assets represent the residual interest in the College's assets after liabilities are deducted. The College's net assets at June 30, 2003 are summarized as follows:

Invested in capital assets, net of related debt	\$ 47,664,352
Restricted – expendable	4,265,902
Unrestricted	12,093,203
Total net assets	\$ <u>64,023,457</u>

Net assets invested in capital assets, net of related debt represent the College's capital assets net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.

Restricted-expendable net assets are subject to externally imposed restrictions governing their use.

Unrestricted net assets are not subject to externally imposed stipulations.

Statement of Revenues, Expenses and Changes in Net Assets

The Statement of Revenues, Expenses and Changes in Net Assets presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. As a public institution, the College's dependency on State aid results in an operating deficit because the financial reporting model classifies State appropriations as nonoperating revenue. The utilization of capital assets is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life. Summarized revenues, expenses, and changes in net assets for the year ended June 30, 2003 are as follows:

Operating revenues Operating expenses Operating loss	\$ 24,296,821 66,976,678 \$ (42,679,857)
Nonoperating revenues (expenses)	42,161,663
Increase(decrease) in net assets	\$ (518,194)
Net assets at beginning of year Net assets at end of year	64,541,651 \$ 64,023,457

The most significant sources of operating revenues for the College are student tuition and fees (\$9.7 million), grants and contracts (\$7.6) million, and auxiliary services (\$5.6 million).

Operating expenses include the costs of instruction, public service, general administration, utilities, libraries, and auxiliary services. Operating expenses also include depreciation of \$2.7 million.

Sources of nonoperating revenue include State share of instruction (\$14.1 million), local appropriations (\$13.4 million), federal grants and contracts (\$10.0 million), and state appropriations of (\$2.9 million).

Statement of Cash Flows

The Statement of Cash Flows presents information related to cash inflows and outflows summarized by operating, noncapital financing, capital financing and related investing activities, and helps measure the ability to meet financial obligations as they mature. A summary of the statement of cash flows for the year ended June 30, 2003 is as follows:

Net cash provided (used) by:		
Operating activities	\$(3	7,325,038)
Noncapital financing activities	3	39,862,500
Capital financing activities		2,020,801
Investing activities	((4,315,285)
Net increase in cash	\$	242,978
Cash at beginning of year		655,818
Cash at end of year	\$	898,796

Major sources of cash included state appropriations (\$14.1million), local appropriations (\$13.3 million), student tuition and fees (\$10.6 million), grants and contracts (\$22.5 million), and capital appropriations (\$7.7 million). The largest payments were for employees (\$35.7 million) and suppliers of goods and services (\$26.7 million).

Operating Highlights

During fiscal year 2003, the State of Ohio announced cuts in support for higher education of 6 ½%. For Lorain County Community College, the cuts amounted to almost \$1 million. Over the past three years, the College has experienced five state budget reductions totaling \$2.6 million. In this past fiscal year, as in the prior two fiscal years, the College implemented operating budget cuts. For fiscal year 2003, the College reduced its operating budget by not filling vacant positions, and by reducing non-compensation related expenditures.

Going forward into fiscal year 2004, the college completed \$1.25 million in permanent budget reductions. Despite these circumstances, the College continues its commitment to quality education, confronts new challenges, and meets the needs of its customers.

Looking Ahead

The ability of the College to fulfill its mission and execute its strategic plan is directly influenced by enrollment, State support, and the cost of health care, utilities, employee compensation and unfunded State and Federal mandates.

Paramount to the College's continuing success is its continual accreditation by the North Central Association, which awarded Lorain County Community College a ten-year renewal with enthusiasm and without condition in 1999.

The College faces significant cost pressures in the future. These relate to attracting and retaining high quality faculty and staff, increasing costs of medical care and prescription drugs, volatile energy prices, and others.

A critical element to the College's future is its relationship with the State of Ohio. There is a direct relationship between the level of State support and the College's ability to control tuition growth, as declines in State appropriations generally result in increased tuition levels. The State's capital appropriations continue to support construction and renovation of the College's facilities. Economic pressures affecting the State may affect the State's future support of the College.

While it is not possible to predict the ultimate results, management believes that the College's financial condition is strong enough to weather these economic uncertainties since it has strong local financial support.

Independent Auditor's Report

The Board of Trustees Lorain County Community College 1005 N. Abbe Road Elyria, Ohio 44035

I have audited the accompanying statement of net assets of Lorain County Community College, as of June 30, 2003 and the related statements of revenues, expenses, and changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the Lorain County Community College's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Lorain County Community College, as of June 30, 2003, and the changes in net assets, and cash flows for the year ended June 30, 2003 in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis (MD&A) is not a required part of the financial statements but is supplemental information required by the GASB. The MD&A has been reviewed in accordance with the standards established by the American Institute of Certified Public Accountants. Such a review, however, is substantially less in scope than an audit in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I do not express such an opinion on the MD&A information.

In accordance with *Government Auditing Standards*, I have also issued my report dated November 14, 2003 on my consideration of the Lorain County Community College's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the result of my audit.

My audit was performed for the purpose of forming an opinion on the financial statements of Lorain County Community College, taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Kevin L. Penn, Inc.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

Lorain County Community College (the College) was established by the General Assembly of the State of Ohio in 1961 by statutory act and chartered under Chapter 3354 of the Revised Code of the State of Ohio and is governed by a board of nine trustees. As such, it is a joint venture of the State of Ohio. The College is exempt from federal income taxes under Section 115 of the Internal Revenue Code, except for unrelated business income. The College is a primary government with no component units.

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB).

For fiscal year 2001/2002, the College adopted GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*, as amended by GASB Statements No. 37 and 38, and applied those standards on a retroactive basis. GASB Statement No. 35 establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following four net asset categories:

• Invested in capital assets, net of related debt: Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.

• Restricted:

Expendable: Net assets whose use by the College is subject to externally-imposed stipulations that can be fulfilled by actions of the College pursuant to those stipulations or that expire by the passage of time.

• Unrestricted:

Unappropriated: Net assets that are not subject to externally-imposed stipulations **Appropriated:** Net assets subject to internally-imposed stipulations

GASB Statement No. 35 also requires that the statements of net assets, revenues, expenses and changes in net assets, and cash flows be reported on a consolidated basis.

The adoption of GASB Statement No. 35 has among other things reduced beginning net assets (previously referred to as fund balances) by approximately \$48 million. As further discussed in Note 13, the beginning balance of net accounts receivable was reduced by \$950,000 due to an additional increase in allowance for uncollectibles.

Combined Fund Balances, as previously reported 6/30/01	\$ 119,072,973
Accumulated Depreciation	(47,838,869)
Reclassification of Deposits from Agency Funds	29,643
Overstatement of Revenues	(195,286)
Additional Allowance for Uncollectibles	(950,000)
Combined Fund Balances, restated as net assets 6/30/01	\$ 70,118,461

Notes to Financial Statements June 30, 2003

Summary of Significant Accounting Policies

The accompanying financial statements have been prepared on the accrual basis. The College reports as a Business Type Activity, as defined by GASB Statement No. 35. Business Type Activities are those that are financed in whole or in part by fees charged to external parties for goods or services.

Investments are recorded at fair value, as established by the major securities markets. Investment income is recorded on the accrual basis.

Capital assets are stated at cost or fair value at date of gift. Depreciation of capital assets is provided on a straight-line basis over the estimated useful lives (five to forty years) of the respective assets.

Deferred revenue consists primarily of amounts received in advance of an event, such as student fees and advance ticket sales related to future fiscal years.

Student tuition and fees revenues are presented net of scholarships and fellowships applied to student accounts.

Auxiliary enterprise revenues primarily represent revenues generated by the bookstore, food service, information technology, tech park development and training programs.

The College's policy for defining operating activities as reported on the statement of revenues, expenses and changes in net assets are those that result from exchange transactions such as payments received for providing services and payments made for goods or services received. Certain significant revenue streams relied upon for operations are recorded as non-operating revenues, including state share of instruction and investment income.

Compensated Absences

Classified employees earn vacation at rates specified under State of Ohio law. Full time administrators and twelve-month faculty earn vacation at a rate of 20 days per year. The maximum amount of vacation that an employee can carry over from one fiscal year to the next is 5 days. The College has accrued, a liability for all accumulated vacation hours, plus an estimate of the amount of sick leave based on a maximum of 30 days that will be paid upon retirement. Salary-related fringe benefits have also been accrued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Notes to Financial Statements June 30, 2003

NOTE 2 – CASH AND INVESTMENTS

At year end, the carrying amount of the College's deposits was \$0 and the bank balance was \$1,674,003. On the bank balance:

- 1. \$ 100,000 was covered by federal depository insurance.
- 2. \$1,574,003 was uninsured and collateralized as defined by the Governmental

Accounting Standards Board in that the collateral was pooled rather than held in the College's name.

GASB Statement 3 "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements" requires that local governments disclose the carrying amounts and market value of investments, classified by risk. The College's investments are categorized as either (1) insured or registered or for which the securities are held by the College or its agent in the College's name, (2) uninsured and unregistered for which the securities are held by the broker's or dealer's trust department or agent in the College's name or (3) uninsured and unregistered for which the securities are held by the broker or dealer, or by its trust department or agent but not in the College's name.

The College's investments consist principally of deposits with STAR Ohio and repurchase agreements.

STAR Ohio is an investment pool created pursuant to Ohio statutes and managed by the Treasurer of the State of Ohio. Amounts invested with STAR Ohio are not classifiable as to risk category because the College does not own identifiable securities of the pool. STAR Ohio is not registered with the Securities and Exchange Commission as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Act of 1940. The cost of the College's deposits with STAR Ohio was \$11,338,445 at June 30, 2003, which approximates fair value.

RISK CATEGORY

Danasahara	1	2	3	Carrying Amount	Fair <u>Value</u>
Repurchase Agreement	-	-	888,060	888,060	888,060
StarOhio				11,338,445	11,338,445
Total	\$ -	\$ -	\$ 888,060	\$12,226,505	\$12,226,505

At year end, the College has \$10,736 in undeposited cash on hand which is included on the balance sheet of the College as part of "Cash". This amount is uninsured and uncollateralized.

Notes to Financial Statements June 30, 2003

NOTE 3 – RECEIVABLES

The composition of accounts receivable at June 30, 2003 is summarized as follows:

Student accounts	\$	3,686,435
Local appropriations		3,549,618
Grants		1,415,328
Other	_	575,839
Total accounts receivable		9,227,220
Less allowance for uncollectable accounts	_	2,487,556
Accounts receivable - net	\$	6,739,664

Pledges receivable applies to contributions receivable as of June 30, 2003 pertaining to the naming of a facility. These receivables are deemed to be fully collectible by management.

NOTE 4 – STATE SUPPORT

The College is a state-assisted institution of higher education, which receives a student-based share of instruction from the State of Ohio. This state share of instruction is determined annually, based upon a formula devised by the Ohio Board of Regents.

In addition, the State of Ohio provides some of the funding to construct major plant facilities on the College's campus. The funding is obtained from the issuance of revenue bonds by the Ohio Public Facilities Commission (OPFC), which in turn causes the construction and subsequent lease of the facility, by the Ohio Board of Regents. Upon completion, the Board of Regents turns over control of the facility to the College. Neither the obligation for the revenue bonds issued by OPFC nor the annual debt service charges for principal and interest on the bonds are reflected in the College's financial statements. These are currently being funded through appropriations to the Board of Regents by the General Assembly.

The facilities are not pledged as collateral for the revenue bonds. Instead, the bonds are supported by a pledge of monies in the Higher Education Bond Service Fund established in the custody of the Treasurer of State. If sufficient monies are not available from this fund, a pledge exists to assess a special student fee uniformly applicable to students in state-assisted institutions of higher education throughout the State.

Notes to Financial Statements June 30, 2003

NOTE 5 – CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2003 is summarized as follows:

	Beginning Balance	Additions	Retirements and Reclassified	Ending Balance			
Capital Assets:							
Land	\$1,419,619	\$0	(\$4,756)	\$1,414,863			
Improvements	18,036,427	0	(\$1,295)	18,035,132			
Buildings	66,353,358	314,419	1,542,813	68,210,590			
Equipment	22,136,935	654,883	(12,062,851)	10,728,967

NOTE 6 – LONG-TERM DEBT

Long-term debt activity for the year ended June 30, 2003 is summarized as follows:

		Beginning	New	Principal		Ending
		Balance	Debt	Repayment		Balance
Tax Anticipation						
Notes Payable	\$	4,175,000	\$ 0	\$ (1,320,000)	\$	2,855,000
Energy Conservation Project		1,251,817	0	(154,654)		1,097,163
Total debt	-	5,426,817	\$ 0	\$ (1,474,654)	-	3,952,163
Less current portion		1,474,654				1,552,089
Total long-term debt	\$	3,952,163			\$	2,400,074

The College has two general debt issues outstanding. The installment notes have various call provisions and interest is paid semi-annually. Interest rates on the notes vary from 4.65% to 4.8%.

Notes to Financial Statements June 30, 2003

NOTE 6 – LONG-TERM DEBT (continued)

Principal and interest payable for the next seven years are as follows:

	_	Installment Notes Payable				Energy Conserv	rvation Project	
	_	Principal		Interest		Principal		Interest
•••	Φ.	1 200 000	Φ.	126215	Φ.	1.00.000.0	Φ.	70.017
2004	\$	1,390,000	\$	136,345	\$	162,089 \$	\$	50,215

2006		0		0		178,045		34,259
2007		0		0		186,603		25,701
2008		0		0		195,573		16,732
2009	_	0	_	0		204,973	_	7,331
Total	\$	2,855,000	\$	206,665	\$	1,097,163	\$	176,662

NOTE 7 – GOVERNMENT LOAN ADVANCES

Fund balances related to the National Direct Student Loan and other federal programs principally represent advances which are ultimately refundable to the federal government. The records of the College indicate the last National Direct Student Loan advances were in fiscal year 1975-76, with loans aggregating \$444,978 that have been made to 1,041 students since the establishment of the program at the College. On June 30, 2003, approximately 2.5% of student loans receivable in repayment status were in default ranging from 2 1/2 years to over ten years past due.

NOTE 8 – RETIREMENT PLANS

State Teachers Retirement System (STRS)

All employees of the College performing duties that require a certificate issued by the Ohio Department of Education are required to contribute to the State Teachers Retirement System (STRS), a cost-sharing multiple employer public employee retirement system.

STRS is a statewide retirement plan for certified teachers and other faculty members employed in the public schools of Ohio or any school, college, university, institution, or other agency wholly controlled, managed, and supported in whole, or in part, by the State or any political subdivision thereof. Any member who has (1) five years of service credit and attained age sixty, (2) twenty-five years of service credit and attained age 55, or (3) thirty years of service credit regardless of age may retire. The maximum annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money purchase benefit" calculation. Under the "formula benefit" the retirement allowance is based on years of credited service and final average salary, which is the average of the members three highest years' salary. The annual allowance is determined by multiplying final average salary. Under the "money purchase benefit" calculation, a members lifetime contributions plus interest at specified rates are matched by an equal amount from contributed employer funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

A member under the age of 60 with five or more years' credited service who becomes disabled is entitled to a disability allowance. Survivor benefits are available to eligible spouses and dependents of active members who die before retirement. A death benefits of \$1,000 is payable to the beneficiary of each deceased retired member. Additional death benefit coverage of \$1,000 or \$2,000 can be purchased.

Notes to Financial Statements June 30, 2003

NOTE 8 – RETIREMENT PLANS (continued)

State Teachers Retirement System (STRS) (continued)

For the year ended June 30, 2003, the contribution requirements were 9.25% for covered employees and 14% for employers. The College's total payroll for the year ended June 30, 2003 was \$28,983,570; the payroll for covered employees was \$13,745,537. The contribution requirements for the years ended June 30, 2003, 2002 and 2001 were \$1,924,375, \$1,629,301 and 1,569,732 from the College and \$1,321,663, \$1,125,494 and \$1,042,751 from employees. The required employer contribution rate (14%) is allocated to basic retirement benefits and health care by the STRS Retirement Board.

The "pension benefits obligation," which is the actuarial present value of credited projected benefits, is a standard disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess STRS' funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among public employee retirement systems and among employers. STRS issues a stand-alone financial report. The report may be obtained by writing to STRS, 295 East Broad Street, Columbus, OH 43215-3371 or by calling (614) 227-4090.

The "pension benefits obligation" for STRS as of July 1, 1995 (the latest information available) was \$38,710 million. Net assets available for benefits as of that date were \$31,542 million, excluding reserves of \$1,639 million allocated to fund future health care benefits. STRS does not hold any securities in the form of notes, bonds, or other instruments of or loans to any of the entities contributing to STRS. The employer contribution requirement expressed as a percentage of total current year contribution requirements for all employers is .11% at June 30, 2003.

Historical trend information about progress made in accumulating sufficient assets to pay benefits when due is provided in the State Teachers Retirement Systems' Comprehensive Annual Report for the year ended June 30, 2002.

Public Employees Retirement System of Ohio (PERS)

All employees other than certified employees participate in the Public Employees Retirement System of Ohio (PERS), a cost-sharing multiple employer public employee defined benefit plan. Benefits are calculated on a basis of age, final average salary, and service credit. Members are eligible for retirement at age 60 with a minimum of 5 years of service credit, or at age 55 with a minimum of 25 years of service credit, or at any age with a minimum of 30 years of service credit. The retirement benefit, payable monthly of life, equals 2.2% of the final average salary for each year of credited service up to 30 years. Employees are entitled to 2.5% of their final average salary for each year of service credit over 30 years. Final average salary is the employee's average salary over the highest 3 years of earnings. Pension benefits fully best on reaching 5 years of service credit. Individuals retiring with less than 30 years of service or at less than age 65 receive reduced retirement benefits. PERS provides additional benefits including disability, survivor, health care coverage, early retirement incentive and special retirement options for law enforcement officers. These additional benefits vest at different lengths of service credit. Benefits are established by state statute.

The Ohio Revised Code provides statutory authority for employee and employer contributions. Covered employees are required by the System's Retirement Board to contribute 8.5% of their salary to the plan. The employer contribution rate was 13.55% for fiscal year 2003, of which 8.44% was used to fund pension obligations, with the balance being applied towards the health care program for retirements. The College's total payroll for covered employees was \$14,107,258. The College's 2003 total contribution was \$1,910,673.

Notes to Financial Statements June 30, 2003

NOTE 8 – RETIREMENT PLANS (continued)

Public Employees Retirement System of Ohio (PERS) (continued)

The contribution requirement to fund the pension obligation for the year ended June 30, 2003, 2002 and 2001 were \$3,109,267, \$2,169,964 and \$1,747,126 which consisted of \$1,910,673, \$1,081,133 and \$774,480 from the College and \$1,198,593, \$1,088,831 and \$972,646 from the employees which met the required percentages. The College's 2003 contribution represented .09% of total contributions required of all participating entities.

The "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of

credited projected benefits, is intended to help users assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among PERS and employers. The System does not make separate measurements of assets and pension benefit obligation for individual employers. PERS issues a stand-alone financial report. The report may be obtained by writing PERS, 27 East Town Street, Columbus, OH 43215-4642, or by calling (614) 466-2085. The pension benefit obligation for the System as a whole, determined through the latest actuarial valuation performed as of December 31, 1994 was \$23,239.4 million. The System's net assets, valued at net amortized cost, available for benefits on that date were \$22,888.8 million leaving an unfunded pension benefit obligation of \$796 million.

Historical trend information showing the System's progress in accumulating sufficient assets to pay benefits when due is presented in the System's December 31, 2002, Comprehensive Annual Fiscal Report.

NOTE 9 – POST EMPLOYMENT BENEFITS

State Teachers Retirement System (STRS)

The State Teachers Retirement System of Ohio provides postretirement health care coverage to age and service retirants with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. A portion of each employer's contribution to STRS is set aside for the funding postretirement health care based on authority granted by State statute.

The employer contribution rate was 14% of covered payroll for the year ended June 30, 2003; 2.0% was the portion that was used to fund health care. Benefits are advanced-funded using the entry age normal cost method. Significant actuarial assumptions include a rate of return on investments of 7.50% for 2002; active employee payroll increases range from 4.5% to 10.5% based on age of employee. Included in these percentages are additional annual pay increases.

Short-term securities consisting of cash equivalents, repurchase agreements, and corporate and government notes are carried at cost with related discounts or premiums amortized using the effective yield method. Equity securities and investments are carried at amortized cost, using the effective yield method of amortization. Common and preferred stock and venture capital investments are valued at cost, subject to adjustment for market declines judged to be other than temporary. All investments are subject to adjustment for market declines judged to be other than temporary.

The Public Employees Retirement System of Ohio provides post-retirement health care coverage to age and service retirants with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. A portion of each employer's contribution to PERS is set aside for the funding of postretirement health care based on authority granted by State statute.

Notes to Financial Statements June 30, 2003

NOTE 9 – POST EMPLOYMENT BENEFITS (continued)

State Teachers Retirement System (STRS) (continued)

The employer contribution rate was 14.0% of covered payroll for the year ended June 30, 2003. 4.87% was the portion that was used to fund health care. Benefits are advanced-funded using the entry age normal cost method. Significant actuarial assumptions include a rate of return on investments of 7.75%; active employee payroll increases of 5.50% for inflation and an increase of between zero and 4.00% based on additional annual pay increases. Health care premiums were assumed to increase 5.50% annually.

Short-term securities consisting of commercial paper, U.S. Treasury obligations are carried at cost. Equity securities and investments in real estate are carried at cost. Fixed income investments are carried at amortized cost, using the effective interest rate method of amortization. All investments are subject to adjustment for market decline judged to be other than temporary. For actuarial valuation purposes, assets are adjusted to reflect 20% of unrealized market appreciation or depreciation on investment assets.

Alternative Retirement Plan

The College also offers eligible employees an alternative retirement program. The College is required to contribute to STRS 5.76% of earned compensation for those employees participating in the alternative retirement program. The College's contribution for the year ended June 30, 2003 was \$6,662, which equals 5.76% of earned compensation.

NOTE 10 – LITIGATION AND CONTINGENCIES

Grants

The College receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the Current Fund or other applicable funds. However, in the opinion of the College administration, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the College at June 30, 2003.

Litigation

During the normal course of its operations, the College has become a defendant in various legal actions. It is not possible to estimate the outcome of these legal actions; however, in the opinion of legal counsel and the College administration, the disposition of these pending cases will not have a material adverse effect on the financial condition or operations of the College.

Notes to Financial Statements June 30, 2003

NOTE 11 - CONTRIBUTION RECEIVABLE

Contribution receivable as of June 30, 2003, represents an unrestricted conditional promises to give, pertaining to the naming of a facility. This is to be received by the College for years subsequent to June 30, 2003, and are deemed to be fully collectible by management.

Receivable in less than one year	\$ 200,000
Receivable in one to ten years	<u>589,454</u>
Total contributions receivable	\$ <u>789,454</u>

The conditional promises to give is reflected at the present value of estimated future cash flows using a discount rate of 0.75%.

NOTE 12 - LEASES

The College has entered into various lease agreements, which are considered operating leases. Total rental expense under operating leases during the year ended June 30, 2003 amount to \$89,178.

Future minimum lease payments as of June 30, 2003 under all capital and operating leases, are as follows:

Oper	rating
Year Ending June 30 Leas	ses
2004 \$ 93	3,324
2005 94	1,325
200682	2,667
Total minimum lease payments \$270),316

NOTE 13 - RISK MANAGEMENT

The College maintains property and casualty liability insurance. Settled claims against College liability policies have not exceeded policy limits in any of the past fiscal years.

The College also has self-insured health and dental coverage for its employees. The College's risk exposure is limited to claims incurred.

NOTE 14 – SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Lorain County Community College and is presented on the accrued basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations.

LORAIN COUNTY COMMUITY COLLEGE Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2003

Independent Auditor's Report on Compliance and on Internal Control over Financial Reporting based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Trustees Lorain County Community College 1005 N. Abbe Road Elyria, Ohio 44035

I have audited the financial statements of Lorain County Community College as of and for the year ended June 30, 2003, and have issued my report thereon dated November 14, 2003. I conducted my audit in accordance with generally accepted auditing standards in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Lorain County Community College's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Lorain County Community College's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

However, I noted certain matters involving the internal control over financial reporting and its operation that I consider to be reportable conditions. Reportable conditions involve matters coming to my attention relating significant deficiencies in the design or operation of the internal control over financial reporting that, in my judgment, could adversely affect Lorain County Community College's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 2003-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, I consider item 2003-1 to be material weaknesses. I also noted other matters involving the internal control over financial report, which I have reported to management of Lorain County Community College in a separate letter dated November 14, 2003.

This report is intended solely for the information and use of the board of trustees, management the Auditor of the State of Ohio, U.S. Department of Education, and applicable federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Kevin L. Penn, Inc.

November 14, 2003

13212 Shaker Square, Suite 100 Cleveland, Ohio 44120 (216) 283-1535 Fax: (216) 283-5724

Independent Auditor's Report on Compliance with Requirements Applicable to each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133

The Board of Trustees Lorain County Community College 1005 N. Abbe Road Elvria, Ohio 44035

Compliance

I have audited the compliance of Lorain County Community College with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2003. Lorain County Community College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Lorain County Community College's management. My responsibility is to express an opinion on Lorain County Community College's compliance based on my audit.

I conducted my audit of compliance in accordance with generally accepted auditing standards in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lorain County Community College's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on Lorain County Community College's compliance with those requirements.

In my opinion, Lorain County Community College complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2003. However, the results of my auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 2003-2.

Internal Control Over Compliance

The management of Lorain County Community College is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered Lorain County Community College's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

I noted certain matters involving the internal control over compliance and its operation that I consider to be reportable conditions. Reportable conditions involve matters coming to my attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in my judgment, could adversely affect Lorain County Community College's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 2003-2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. My consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, I consider item 2003-2 to be material weaknesses.

This report is intended solely for the information and use of the board of trustees, management the Auditor of the State of Ohio, U.S. Department of Education, and applicable federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Schedule of Findings and Questioned Costs June 30, 2003

Section II - Financial Statement Findings

2003-1

Physical Inventory

Condition:

There were instances whereby, the schedule of inventory items, including fixed assets prepared by each department, indicated the following:

• Inventory items, including fixed assets, which were missing from the various departments inventory listing, were reflected as part of the College's total fixed assets at year end. Furthermore, there were several instances during the inspection of inventory items, including fixed asset, whereby, the location indicated on the inventory listing did not reflect the proper location of inventory item purchased.

Criteria:

Inventory items, including fixed assets purchased by the College, should be tagged and recorded on the inventory ledger. In addition, a physical inventory should be performed at year end.

Effect:

Resulted in system of internal controls being deemed inadequate, due to the lack of proper safeguarding of inventory items, including fixed assets. In addition, could result in an overstatement of fixed assets if property is disposed of, or stolen.

Cause:

Oversight by management.

Recommendation:

In order to improve the system internal controls over inventory items, including fixed assets, I recommend that each item be tagged, prior to being placed into service. In addition, a physical inventory should be performed at year end, and missing inventory items should be investigated, in order to determine the proper location. Performing these procedures will reduce the risk of improper safeguarding of inventory items.

Schedule of Findings and Questioned Costs June 30, 2003

2003-2

Section III - Federal Award Findings and Questioned Costs

U.S. DOL Engineering Development Center - Eligibility (CFDA # 17.260)

Condition:

During the period of July 2002 through November 2002, sufficient supporting documentation was not always available in order to determine if an individual, was eligible to participate in the Hardmark Grant training program, for the following categories:

- 1) Whether a "Dislocated Worker", have been terminated or laid off, or had received a notice of termination or layoff, from the employer.
- 2) Whether an "Incumbent Worker", was actually 18 years and older, and their job skills required enhancement or upgrading in order to remain competitive in the work force.
- Whether a "New Entrant", was actually 18 years an older, and had never worked at a full-time job lasting two weeks or longer and was currently unemployed.
- 4) Whether an "Unemployed Adult", was actually 18 years and older, and previously worked at a full-time job lasting two weeks or longer, and was currently unemployed.

Criteria:

In order to be eligible to participate in the Hardmark Grant, the following procedures are to be performed:

- 1) In order to participate as a "Dislocated Worker" the following criteria applies:
 - Has been terminated or laid off, or who has received a notice of termination or layoff, from employment.
 - Is eligible for or has exhausted entitlement to unemployment compensation.
 - Has been employed for a duration sufficient to demonstrate, to the appropriate entity at a one-stop center but is not eligible for unemployment compensation due to insufficient earnings or having performed services for an employer that were not covered under a State unemployment compensation law.
 - Is unlikely to return to a previous industry or occupation.
- 2) In order to participate as an "Incumbent Worker", the following criteria applies:
 - Currently employed worker 18 years and older, whose job skills require enhancement or upgrading in order that their respective firm can remain competitive, maintain or increase employment, avert layoffs, and/or increase wages.
- 3) In order to participate as a "New Entrant", the following criteria applies:
 - A person who is 18 years and older who have never worked at a full-time job lasting two weeks or longer, are currently unemployed, and are available for work.

Schedule of Findings and Questioned Costs June 30, 2003

2003-3

Section III - Federal Award Findings and Questioned Costs

U.S. DOL Engineering Development Center - Eligibility (CFDA # 17.260) (continued)

Criteria: (continued)

- 4) In order to participate as an "Unemployed Adult", the following criteria applies:
 - A person 18 years and older who previously worked at a full-time job lasting two weeks or longer, are currently unemployed, and are available for work.

Effect:

Unable to verify whether all of the individuals whom participated in the training programs were eligible. As a result, there could be potential questioned cost, pertaining to the total expenditures incurred, for the various training programs.

Cause:

Misunderstanding by Outreach Team.

Recommendation:

I recommend that prior to an individual receiving services, the following documentation should be obtained and maintained in the participant's file:

For a Dislocated Worker, the following should be obtained:

1) Documentation, indicating the date of termination or layoff.

For an Incumbent Worker, the following should be obtained:

1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.

For a New Entrant individual, the following should be obtained:

- 1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.
- 2) Documentation, verifying that the individual, never worked a full-time job lasting two weeks or longer (i.e., statement from former employer).

For an Unemployed Adult, the following should be obtained:

- 1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.
- 2) Documentation, verifying that the individual was employed at a full-time job lasting two weeks or longer (i.e., statement from former employer).

In addition, to the above recommendations, I recommend that the participant's signature be obtained on the initial application document. By performing these procedures, the risk of providing assistance to ineligible individuals and incurring potential questioned costs will be significantly reduced.

Summary Schedule of Prior Audit Findings Year Ended June 30, 2003

2002-1

Fixed Asset Inventory

Condition:

There were instances whereby, the schedule of fixed assets prepared by each department, indicated the following:

- 1) Fixed assets, which were missing from the department, but reflected in the College's total fixed assets at year end. Furthermore, there were several instances during the inspection of fixed asset additions, that the location indicated on the inventory listing did not reflect the proper location of capitalized purchases.
- 2) Fixed assets, did not have a property tag. However, a tag number was assigned on the summarized fixed assets report, prepared by the College.

Recommendation:

In order to improve the system internal controls over fixed assets, I recommend that each fixed asset be tagged, prior to being placed into service. In addition, a physical inventory should be performed at year end, and missing fixed assets should be investigated, in order to determine the proper of the fixed asset. Performing these procedures will reduce the risk of improper safeguarding of fixed assets.

Current Status:

The finding has not been corrected, and will be repeated in the 2003 audit.

2002-2

Allowance for Uncollectible Receivables

Condition:

The College does not have an approved written policy, which addresses uncollected accounts receivable.

Recommendation:

In order to improve the internal controls, relating to accounts receivable, I recommend that the College, implement a written policy, regarding the aging of accounts receivable. By implementing this policy, the risk of overstating accounts receivable, will be significantly reduced.

Current Status:

The finding has been corrected, and does not warrant further action.

Summary Schedule of Prior Audit Findings Year Ended June 30, 2003

2002-3

U.S. DOL Engineering Development Center - Eligibility (CFDA # 17.249)

Condition:

During the period of July 2002 through November 2002, sufficient supporting documentation was not always available in order to determine if an individual, was eligible to participate in the Hardmark Grant training program, for the following categories:

- 1) Whether a "Dislocated Worker", have been terminated or laid off, or had received a notice of termination or layoff, from the employer.
- 2) Whether an "Incumbent Worker", was actually 18 years and older, and their job skills required enhancement or upgrading in order to remain competitive in the work force.
- Whether a "New Entrant", was actually 18 years an older, and had never worked at a full-time job lasting two weeks or longer and was currently unemployed.
- 4) Whether an "Unemployed Adult", was actually 18 years and older, and previously worked at a full-time job lasting two weeks or longer, and was currently unemployed.

Recommendation:

I recommend that prior to an individual receiving services, the following documentation should be obtained and maintained in the participant's file:

For a Dislocated Worker, the following should be obtained:

1) Documentation, indicating the date of termination or layoff.

For an Incumbent Worker, the following should be obtained:

1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.

For a New Entrant individual, the following should be obtained:

- 1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.
- 2) Documentation, verifying that the individual, never worked a full-time job lasting two weeks or longer (i.e., statement from former employer).

For an Unemployed Adult, the following should be obtained:

- 1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.
- 2) Documentation, verifying that the individual was employed at a full-time job lasting two weeks or longer (i.e., statement from former employer).

In addition, to the above recommendations, I recommend that the participant's signature be obtained on the initial application document. By performing these procedures, the risk of providing assistance to ineligible individuals and incurring potential questioned costs will be significantly reduced.

Current Status:

The finding has not been corrected, and will be repeated in the 2003 audit.

CORRECTIVE ACTION PLAN

June 30, 2003

Oversight Agency for Audit: Department of Education

Lorain County Community College, respectfully submits the following corrective action plan for the year ended June 30, 2003.

Name and address of independent public accounting firm: <u>Kevin L. Penn. Inc. 13212 Shaker Square. Suite 100. Cleveland. Ohio 44120.</u>

Audit Period: June 30, 2003.

The findings from the June 30, 2003 schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule.

FINDINGS - FINANCIAL STATEMENT AUDIT

REPORTABLE CONDITIONS

2003-1

Physical Inventory

Recommendation:

In order to improve the system internal controls over inventory items, including fixed assets, I recommend that each item be tagged, prior to being placed into service. In addition, a physical inventory should be performed at year end, and missing inventory items should be investigated, in order to determine the proper location. Performing these procedures will reduce the risk of improper safeguarding of inventory items.

Auditee's Response:

Per auditor's prior year recommendations, Purchasing has had an individual responsible for coordinating the annual schedules of tagged inventory items to each department administrator. The completed inventory sheets, as submitted by each department, indicated building/room number location changes and, if location by responsible party was unknown, to report the item "Missing".

Corrective Action Plan Page 2

2003-1

Physical Inventory

Auditee's Response: (continued)

Purchasing's Inventory Coordinator would have cross referenced all completed inventory sheets as submitted by the department administrators, to determine whether a missing item was added to another department inventory schedule. If the item was not located through cross-reference, the Inventory Coordinator investigated the whereabouts of the missing item, through personal interview and physical search. If personal interview and physical search did not locate the item, then, every effort will be made next year to locate "missing" inventory items.

The physical location of tagged inventory items, as noted on the departments' completed inventory sheets, was valid at the time of inventory completion. Some categories of non-capital inventory continued to be moved after the completion of the inventory, and the communication regarding those moves had not yet reached Purchasing. Moves of capital equipment are normally submitted to Purchasing (via a written form) by Physical Plant or Warehouse/Receiving personnel. Purchasing also coordinates with Information Systems and Services monthly to update moves on non-capital technology equipment, which is the majority of equipment tending to be mobile. Purchasing and Information Systems and Services are also seeking to merge their inventory software to enable more timely change updates pertaining to technology.

2003-2

U.S. DOL Engineering Development Center - Eligibility

Recommendation:

I recommend that prior to an individual receiving services, the following documentation should be obtained and maintained in the participant's file:

For a Dislocated Worker, the following should be obtained:

1) Documentation, indicating the date of termination or layoff.

For an Incumbent Worker, the following should be obtained:

1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.

For a New Entrant individual, the following should be obtained:

- 1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.
- 2) Documentation, verifying that the individual, never worked a full-time job lasting two weeks or longer (i.e., statement from former employer).

Corrective Action Plan Page 3

2003-2

U.S. DOL Engineering Development Center - Eligibility

Recommendation: (continued)

For an Unemployed Adult, the following should be obtained:

- 1) A driver's license or birth certificate, in order to verify that the individual is 18 years or older.
- 2) Documentation, verifying that the individual was employed at a full-time job lasting two weeks or longer (i.e., statement from former employer).

In addition, to the above recommendations, I recommend that the participant's signature be obtained on the initial application document. By performing these procedures, the risk of providing assistance to ineligible individuals and incurring potential questioned costs will be significantly reduced.

Auditee's Response:

The 2001-02 Audit identified these same findings. They were brought to our attention in November, 2002 as part of the 2001-02 audit review. Changes were made in the intake process to address these findings. All subsequent records are in compliance with Federal regulations.

If there any questions regarding this plan, please call Georgio S. Efpraxias, CPA, CGFM, Controller at (440) 365-5222, Ext. 7590.

Sincerely yours,

David J. Cummins
