NOTES TO SCHEDULE OF FEDERAL AWARDS EXPENDITURES

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of federal awards expenditures is a summary of the activity of the District's federal awards programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

NOTE C - NATIONAL SCHOOL LUNCH

Federal monies received by the District for this program are commingled with State grants and local revenues. It is assumed that federal monies are expended first.

NOTE D – NEGATIVE RECEIPTS

The revenues listed as negatives on the accompanying schedule were refunds due to the expiration of the period of availability.

CFDA - Catalog of Federal Domestic Assistance

Auditor of State Betty Montgomery

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Board of Education
Maple Heights City School District
Cuyahoga County
14605 Granger Road
Maple Heights, Ohio 44137

We have audited the basic financial statements of the Maple Heights City School District, Cuyahoga County, Ohio (the District) as of and for the year ended June 30, 2003, and have issued our report thereon dated December 19, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted immaterial instances of noncompliance that we have reported to management of the District in a separate letter dated December 19, 2003.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated December 19, 2003.

INDEPENDENT ACCOUNTANTS' REPORT OF COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Education
Maple Heights City School District
Cuyahoga County
14605 Granger Road
Maple Heights, Ohio 44137

Compliance

We have audited the compliance of the Maple Heights City School District, Cuyahoga County, Ohio (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2003. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2003.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Lausche Building / 615 Superior Ave., NW / Twelfth Floor / Cleveland, OH 44113-1801
Telephone: (216) 787-3665 (800) 626-2297 Fax: (216) 787-3361
www.auditor.state.oh.us

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Federal Awards Expenditures

We have audited the basic financial statements of the Maple Heights City School District, Cuyahoga County, Ohio, as of and for the year ended June 30, 2003, and have issued our report thereon dated December 19, 2003. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended for the information and use of the audit committee, management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

December 19, 2003

Board of Education Members and
Residents of Maple Heights City School District;

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Maple Heights City School District for the fiscal year ended June 30, 2003. This CAFR includes an opinion from the Auditor of State and conforms to generally accepted accounting principles as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the School District. This report will provide the taxpayers of the Maple Heights City School District with comprehensive financial data in a format which will enable them to gain an understanding of the School District's financial affairs. Copies of this report will be made available to the Maple Heights Public Library, major taxpayers, financial rating services and other interested parties.

The comprehensive annual financial report is presented in three sections as follows:

1. The Introductory Section, which contains a Table of Contents, Letter of Transmittal, List of Principal Officials, an Organizational Chart of the School District and a Government Finance Officers Association Certificate of Achievement.
2. The Financial Section which begins with the report of the Auditor of State's Office, and includes the Management's Discussion and Analysis, the Basic Financial Statements and Notes providing an overview of the School District's financial position and operating results, the Combining Statements by Fund Type, and other schedules that providing detailed information relative to the Basic Financial Statements.
3. The Statistical Section presents social and economic data, financial trends and the fiscal capacity of the Maple Heights City School District.

School District Organization

The Maple Heights City School District is one of 613 school districts in the State of Ohio and one of 31 school districts in Cuyahoga County. The School District provides education to 3,773 students in grades kindergarten through twelfth. Additionally, the School district provides pre-school, extended day kindergarten and other services to a large number of students. Maple Heights City Schools is located in Northeastern Ohio approximately thirteen miles southeast of the City of Cleveland. The Maple Heights City School District encompasses the entire City of Maple Heights. The School District was originally part of Bedford Township. The U. S. Census in 1923, revealed that Maple Heights was populous enough to be legally separated from the County School System and be classified by the State of Ohio as an exempted village school district. The first Maple Heights Board of Education was organized in 1924 during which, forty-five students began their high school studies in the old town hall. By 1928, school officials recognized the need for a larger high school. Clement Drive Elementary School which had opened in 1925, was selected to be the site of the high school which opened in 1931. By 1930, the population of Maple Heights had reached 5,950. Four public schools were in operation with an enrollment of 1,188 pupils and a staff of forty teachers. What was once Maple Grove School dedicated in 1933, is now known as Granger School which presently serves as the District's Administration Building. Presently, there are six schools in the District, one high school, one middle school and four elementary schools.

Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code, to provide educational services authorized by charter and further mandated by State and Federal agencies.

Reporting Entity

Maple Heights City School District has reviewed its reporting entity definition in order to insure conformance with the Governmental Accounting Standards Board Statement No.14, "The Financial Reporting Entity". In evaluating how to define the school district for financial reporting purposes, management has considered all agencies, departments and organizations making up the Maple Heights City School District (The primary government) and its potential component units.

The City of Maple Heights, the Maple Heights Public Library, and the Parent Teacher Organizations have not been included in the accompanying financial statements. The boards are not appointed by the School District, nor are they fiscally dependent on the School District.

The Lakeshore Northeast Ohio Computer Association and the Ohio Schools Council are jointly governed organizations whose relationship to the school district is described in Note 16 to the basic financial statements.

Economic Outlook

The Maple Heights City School District is located in a mature community that is served by diversified transportation facilities with immediate access to I-480 and I-271. The school district has a long history of managing its finances in a prudent manner. It has done so despite the significant challenges involved in being located in a mature, primarily residential, community with a changing local economy and transitional workforce.

As a result of land limitations, and consolidation and merger activity in the food and beverage industry, the School District has experienced the departure of some taxpaying businesses. In addition there is limited growth in new residential housing. In an effort to counter these conditions, the City of Maple Heights has actively recruited new businesses and has been successful in its efforts. The City has added new business in both the manufacturing and retail sectors, which will have a stabilizing effect on future tax collections.

School District enrollment has increased despite limited growth in new housing. The 2002-2003 enrollment of 3,773 students reflects an increase of 332 students compared with the 1992-1993 school year. Enrollment is projected to increase to approximately 4,000 students over the next five years.

Major Initiatives

The Maple Heights City Schools Strategic Plan was adopted by the Board of Education on March 23, 1995. A mission statement, beliefs, objectives and strategies were approved as part of the planning process. The strategic plan is for five years and is updated annually. The District Leadership Team, comprised of staff members, parents and administrators is responsible for maintaining and implementing the strategic plan. District Leadership is currently meeting to identify focus areas for the next year.

The topics identified in the Strategic Plan included Technology, Client Learning, Staff Development, Extra Mural Funding, Facilities and, Cooperation, Collaboration, Communication. Each of these areas are deemed to be important in providing District students with the proper tools and learning environment necessary to succeed as they integrate into society as adults. An especially important area, Curriculum, is constantly reviewed to match student needs at new educational levels. This is accomplished through team teaching and coordination to maximize appropriate programming and personnel.

Other major initiatives included:

1. Continuous Improvement Plan, Implementation and Audit.
2. School Improvement Plan (All District Buildings).
3. Pre- Kindergarten Summer Camp
4. Early Literacy Initiative.
5. Alternative School.
6. Special Education Academy.
7. Full Mentoring Program for new teachers.
8. Realignment of OPT Curriculum.

Financial Information

State funding, specifically funding for general operations, remains unclear for future years. In March 1997, the Ohio Supreme Court ruled the present system of funding Ohio schools to be unconstitutional. The State legislature was directed to adequately fund schools without reducing funds to tax dependent schools such as Maple Heights City Schools. In May 2000, the Ohio Supreme Court reviewed the State's efforts since 1997, and indicated the State had not met the constitutional requirements. However, most recent efforts by the Ohio Legislature and Governor during 2001 have been considered constitutional by the Ohio Supreme Court if certain additional funding requirements are met. Maple Heights City School District will not see additional revenue as a result of this state funding system.

Primary Accomplishment for 2003 Were as Follows:

Financial

- Received the Certificate of Excellence in Financial Reporting from the Government Finance Officer's Association (GFOA), for the eleventh consecutive year.
- Successfully negotiated all new employee contracts with Maple Organization Support Team (MOST), and the District Administrators with base salary increases of 3-4%.

Instruction

- Completed an extensive Attendance Area Study that provides ways to balance the District's individual building attendance area at all levels.
- Fully implemented the Continued Improvement Plan for the District and for all school sites.

Community

- Continuously engages the community with regard to education programs.

For the Future

Our primary focus continued to be on the educational program. This program serves our students, parents, and community in an effort to continuously improve. This process involves assessing current programs, identifying areas to improve, developing options, selecting the best option and assessing the results.

Specific Goals for 2004 Are:

Financial

- Receive voter approval for additional operating funds to stabilize School District Governmental Activity funding for four to five years.
- Continue multi-year planning for capital projects, technology and maintenance to assure limited funds are used for the best instructional use through the Permanent Improvement Coordinating Committee.
- Receive the Certificate of Excellence in Financial Reporting for the School District's 2003 Comprehensive Annual Financial Report based on the new reporting model.
- Continue to carefully monitor and impact, where possible, the Ohio Supreme Court's decision regarding school funds and the legislative implementation of solutions.

Instruction

- Increase targets for proficiency test standards in grades 4, 8, 10, and 12.
- Assure new staff, over 25 members, are successful through the District mentoring and staff development programs despite limited resources.
- Continue District energy savings projects and seek alternative funding for school building improvements.

Financial Information

Internal Accounting and Budgetary Control

In developing the School District's accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts a temporary appropriation measure for that fiscal year. By Statute, permanent appropriations must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates. The School District adopts the permanent appropriation measure prior to October 1st. Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplementals or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the object account level within a function and fund. All purchase order requests must be approved by the site administrator, Assistant Superintendent or appropriate central office director and be certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriations are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date.

Each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible. As an additional safeguard, all employees are covered by a blanket bond, and certain individuals in policy-making roles are covered by a separate, higher limit bond.

The basis of accounting and the various funds utilized by Maple Heights City Schools are fully described in Note 2 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 2.

Financial Condition

This is the second year the School District has prepared financial statements following GASB Statement 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments". GASB 34 creates new basic financial statements for reporting on the School District's financial activities as follows:

Government-wide Financial Statements. These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

Fund Financial Statements. These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of Budgetary Comparisons. These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

As part of this new reporting model, management is responsible for preparing a Discussion and Analysis of the School District. This discussion follows the Independent Accountants' Report in the financial section of this report, providing an assessment of the School District's finances for 2003 and the outlook for the future.

Cash Management

The Board has an aggressive cash management program which consists of expediting the receipt of revenues and prudently depositing cash which is insured by the Federal Deposit Insurance Corporation as well as investing available cash in instruments issued by the United States Government or the State of Ohio. The total amount of interest earned by the governmental funds was \$24,003 for the fiscal year ended June 30, 2003, with all interest credited to the general fund. Due to overall economic conditions, investment earnings have decreased dramatically due to lower interest rates. The program is beneficial because of access to daily balances which enables the Board to maintain minimum balance accounts and invest to the maximum extent.

Protection of the School District's deposits is provided by the federal deposit insurance corporation as well as by qualified securities pledged by the institution holding the assets. By law, financial institutions may establish a collateral pool to cover all public deposits. The market value of the pooled collateral must equal at least 105 percent of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

Risk Management

The School District provides employee hospital/medical insurance through a fully insured based premium program.

All employees of Maple Heights City School District are covered by a blanket bond, while certain individuals in policy-making roles are covered by separate, higher limit bond coverage.

The School District contracts for general liability insurance with no deductible. The School District also carries a single occurrence \$1,000,000 limit for professional liability with no deductible and automobile uninsured motorist liability which has a \$50,000 combined single limit of liability. Settled claims have not exceeded this commercial coverage in any of the past nine years.

The School District participates in the State Workers' Compensation plan and pays a premium based on a rate per \$100 of salaries.

Independent Audit

State statutes require the School District to be subjected to an annual examination by an independent auditor. An annual audit serves to maintain and strengthen the School District's accounting and budgetary controls. Independent Auditor Betty D. Montgomery, Auditor of State, was selected to render an opinion on the School District's financial statements as of and for the year ended June 30, 2003. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardized accounting classification and financial reporting for all governments in Ohio. The School District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

Awards

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial reporting for a Comprehensive Annual Financial Report to the Maple Heights City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

We believe our current report conforms to the Certificate of Achievement requirements and we are submitting it to GFOA for consideration.

Acknowledgments

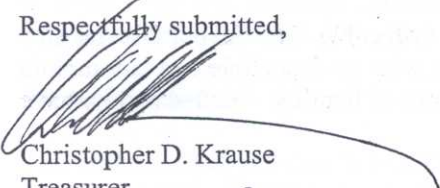

The publication of this report is a significant step toward professionalizing the Maple Heights City School District's financial reporting. It enhances the School District's accountability to the residents of the Maple Heights City School District.

The preparations of this report would not have been possible without the assistance and support of the staff of the Treasurer's Office, various administrators and staff members of the School District. Assistance from the County Auditor's staff and outside agencies made possible the fair presentation of statistical data.

Special appreciation is expressed to Local Government Services of the State Auditor's Office for assistance in planning, designing and reviewing this financial report.

Finally, sincere appreciation is extended to the Board of Education for their support for this project.

Respectfully submitted,

Christopher D. Krause

INDEPENDENT ACCOUNTANTS' REPORT

Board of Education
Maple Heights City School District
Cuyahoga County
14605 Granger Road
Maple Heights, Ohio 44137

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Maple Heights City School District, Cuyahoga County, Ohio, (the District) as of and for the year ended June 30, 2003, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Maple Heights City School District, Cuyahoga County, Ohio, as of June 30, 2003, and the respective changes in financial position and the respective budgetary comparison for the General Fund thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2003 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to form opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund statements and schedules and statistical tables are presented for additional analysis and are not a required part of the basic financial statements. We subjected the combining and individual nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

A handwritten signature in black ink that reads "Betty Montgomery". The signature is written in a cursive, flowing style.

Betty Montgomery
Auditor of State

December 19, 2003

Maple Heights City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
Unaudited

The discussion and analysis of Maple Heights City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2003. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2003 are as follows:

Overall:

- Total net assets decreased \$1.1 million, all of the decrease in Governmental Activities.
- Outstanding debt decreased to \$4.3 million from \$4.8 million in 2003.

Governmental Activities:

- Liabilities increased to \$21.3 million from \$19.3 million in 2003, while total assets increased by \$.9 million.
- While total revenue decreased from \$34.0 million in 2002 to \$29.3 million in 2003, program expenses decreased from \$33.0 million to \$30.3 million.
- The decrease in program expenses was a result of a two month teachers strike and primarily occurred in Instruction, where expenses decreased to \$16.1 million in 2003 from \$17.7 million in 2002; Pupil and Instructional Support Services expenses decreased from \$1.9 million in 2002 to \$1.5 million in 2003. Board of Education, Administration, Fiscal and Business Services expenses increased from \$4.7 million in 2002 to \$5.7 million in 2003 primarily to the issuance of additional debt and increased legal costs from the teachers strike.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Maple Heights City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term and what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Maple Heights City School District, the general fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2003?" The Statement of Net Assets and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. Accrual accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 8. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund and the building capital projects fund.

Governmental Funds. Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net assets for fiscal year 2003 compared to fiscal year 2002:

Maple Heights City School District
Management's Discussion and Analysis

Table 1
Net Assets
Governmental Activities

	<u>2003</u>	<u>2002</u>
Assets		
Current and Other Assets	\$17,776,283	\$16,563,867
Capital Assets, Net	<u>8,368,729</u>	<u>8,715,519</u>
<i>Total Assets</i>	<u>26,145,012</u>	<u>25,279,386</u>
Liabilities		
Current and Other Liabilities	18,880,419	16,368,918
Long-Term Liabilities:		
Due Within One Year	888,207	653,054
Due in More than One Year	<u>1,504,713</u>	<u>2,293,150</u>
<i>Total Liabilities</i>	<u>21,273,339</u>	<u>19,315,122</u>
Net Assets		
Invested in Capital Assets, Net of Debt	4,050,729	3,866,519
Restricted:		
Capital Projects	362,107	0
Debt Service	408,103	374,605
Other Purposes	1,469,097	585,261
Unrestricted (Deficit)	<u>(1,418,363)</u>	<u>1,137,879</u>
<i>Total Net Assets</i>	<u>\$4,871,673</u>	<u>\$5,964,264</u>

Total assets increased by \$0.9 million. Taxes receivable totaled \$15.2 million; of this amount \$12.5 million is offset as deferred revenue, revenue to be used in future periods. Cash decreased from \$2.1 million in 2002 to \$1.7 million in 2003.

Liabilities for Governmental Activities increased by \$2.0 million. The increase for 2003 was primarily the result of an increase in tax revenue to be used in future periods and an increase in outstanding grant monies for fiscal year 2003 activities that have not been received.

The net impact was a decrease in net assets of \$1.1 million. The decrease occurred primarily due to an increase in deferred revenues which also caused a deficit to unrestricted net assets.

Maple Heights City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
Unaudited

While total revenue decreased for Governmental Activities from \$34.0 million to \$29.3 million, the vast majority of revenue supporting Governmental Activities is general revenue. General revenue decreased to \$24.8 million in 2003 from \$30.0 million in 2002. General revenue comprised 84.8 percent of revenue supporting Governmental Activities. The primary source of the decrease was the timing of property taxes receipts. As explained in Note 7, the amount available as an advance at June 30, 2003 was \$1,294,010 compared to \$3,043,906 at June 30, 2002. Taxes comprised \$10.0 million of general revenue in 2003, compared to \$14.8 million in 2002.

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voter levy does not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to voters to maintain a constant level of service. Property taxes made up 34.2 percent of revenues for governmental activities for Maple Heights City School District in fiscal year 2003, a decrease from prior years.

Program expense decreased from \$33.0 million in 2002 to \$30.3 million in fiscal year 2003.

Most of this decrease was in instruction and pupil and instructional staff support due to a two month teachers strike during which teaching staff were not paid. Instructional costs decreased \$1.5 million. When combined with pupil and instructional staff support these categories make up 58.1 percent of expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Maple Heights City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003

Table 3
Governmental Activities

	Total Cost of Services 2003	Net Cost of Services 2003	Total Cost of Services 2002	Total Cost of Services 2002
Instruction	\$16,122,650	(\$13,547,165)	\$17,659,054	(\$15,792,191)
Support Services:				
Pupil and Instructional Staff	1,494,211	(1,454,254)	1,899,653	(1,554,741)
Board of Education, Administration, Fiscal and Business	5,727,194	(5,673,192)	4,654,240	(4,654,240)
Operation and Maintenance of Plant	3,507,919	(3,446,934)	4,395,384	(4,385,642)
Pupil Transportation	1,224,932	(1,190,431)	1,477,070	(1,462,673)
Central	11,436	3,209	15,448	(12)
Operation of Non-Instructional Services	208,017	111,520	257,933	(113,292)
Extracurricular Activities	684,508	(562,011)	661,676	(113,660)
Food Service Operations	1,235,949	118	1,726,348	(578,831)
Interest and Fiscal Charges	128,592	(128,592)	211,091	(211,091)
<i>Total</i>	<u>\$30,345,408</u>	<u>(\$25,887,732)</u>	<u>\$32,957,897</u>	<u>(\$28,866,373)</u>

The dependence upon general tax revenues for governmental activities is apparent. In fiscal year 2003, 32.9 percent of total expenses are supported through taxes, a decrease from the 45 percent in fiscal year 2002. The decrease is a result of the timing of property taxes receipts. Grants and entitlement not restricted to specific programs in fiscal year 2003 support 47.8 percent, similar to the 45 percent in fiscal year 2002. Investments and other miscellaneous type revenues support the remaining activity costs. In fiscal year 2003, program revenues only account for 14.7 percent of all governmental expenses, similar to the 12 percent in fiscal year 2002. The community, as a whole, is the primary support for Maple Heights City School District students.

The School District's Funds

Information about the School District's major funds starts on Page 14. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$28.4 million and expenditures of \$30.3 million. The net change in fund balance for the year was most significant in the General Fund, where the General Fund fund balance went from \$1.1 million in 2002 to a deficit of \$1.0 million for 2003. A decrease in tax revenue from timing of property taxes receipts caused this decrease.

General Fund Budgeting Highlights

Information about the School District's budget is prepared according to Ohio Law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal 2003 the School District amended its general fund budget numerous times, none significant. The School District uses site-based budgeting. The budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

Maple Heights City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
Unaudited

For the general fund, final estimated revenue was \$27,260,427, above the original budget estimates of \$27,251,337. For the general fund, the final appropriations were \$31,747,129, above the original budget appropriations of \$31,597,129.

Total actual expenditures on the budget basis (cash outlays plus encumbrances) were \$31,423,003, \$4,191,704 above revenues.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2003, the School District had \$8.4 million invested in land, buildings and improvements, furniture and equipment, vehicles and textbooks. Table 4 shows fiscal 2003 balances compared to fiscal 2002. More detailed information is presented in Note 9 of the notes to the basic financial statements.

Table 4
 Capital Assets at June 30
 Governmental Activities

	2003	2002
Land	\$1,201,177	\$1,201,177
Buildings and Improvements	5,886,788	6,124,089
Furniture and Equipment	752,683	762,757
Vehicles	424,694	501,134
Textbooks	103,387	126,362
Totals	\$8,368,729	\$8,715,519

The decrease in capital assets is due to recognizing \$465,385 depreciation expense for 2003, offset by \$126,720 in acquisitions and \$42,551 in deletions. These acquisitions were in furniture and equipment. The District continued its ongoing commitment to maintaining and improving its fixed assets.

Debt

At June 30, 2003, the School District had \$4,318,000 in bonds and notes outstanding. Table 5 summarizes bonds and notes outstanding for fiscal year 2003 and 2002. More detailed information is presented in Notes 14 and 15 of the notes to the basic financial statements.

Maple Heights City School District

Table 5
Outstanding Debt at June 30
Governmental Activities

	2003	2002
1996 School Bus Acquisition Bonds	\$0	\$22,000
1998 Tax Anticipation Notes	255,000	500,000
1999 School Bus Acquisition Bonds	40,000	75,000
2001 School Improvement Bonds	380,000	560,000
2002 Energy Conservation Note	0	364,000
2002 Energy Conservation Note	0	3,011,000
2002 School Improvement Note	0	317,000
2003 Energy Conservation Note	330,000	0
2003 Energy Conservation Note	3,011,000	0
2003 School Improvement Note	302,000	0
Totals	\$4,318,000	\$4,849,000

On May 1, 1996, Maple Heights City School District issued \$133,000 in voted general obligation bonds for the purpose of acquiring buses. The bonds were issued for a seven year period with final maturity at April 1, 2003.

On June 1, 1999, Maple Heights City School District issued \$180,000 in voted general obligation bonds for the purpose of acquiring buses. The bonds were issued for a five year period with final maturity at April 15, 2004.

On March 1, 2001, Maple Heights City School District issued \$870,000 in voted general obligation bonds for the purpose of capital improvements around the School District. The bonds were issued for a four year period with final maturity at December 1, 2004.

The 2003 energy conservation notes were issued to refinance 2002 energy conservation notes. Originally these notes were issued to replace heating systems at Dunham and Raymond Elementary Schools, lighting systems and steam traps in all School District Buildings and exterior windows at Rockside Elementary. Principal and interest payments are made from the General Fund and Building Capital Projects fund through savings realized through energy consumption savings

The 2003 school improvement notes were issued to refinance 2002 school improvement notes. Originally these notes were issued for various building improvements throughout the School District.

The 1998 long term notes were issued to allow the School District to undertake several key projects following passage of a \$1.5 mill permanent improvement levy renewal in May 1998. The note is being paid by revenues generated by this levy.

At June 30, 2003, the School District's overall legal debt margin was \$34,707,477 with an unvoted debt margin of \$426,092. The debt is well within permissible limits. The School District maintains an A-1 bond rating.

Unaudited

Current Financial Related Activities

Maple Heights City School District is maintaining its programs with little increases in revenue. As the preceding information shows, the School District heavily depends on its property taxpayers. However, financially the future is not without challenges.

Declining tax collections further challenges the District. This decline due to decreasing personal property business taxes, mean reduced tax revenue in future years. With its largest source of revenue decreasing, the District must seek additional tax revenues to continue current operations. However, the District cannot look to the State of Ohio for increased revenue.

The State of Ohio was found by the Ohio Supreme Court in March 1997, to be operating an unconstitutional educational system, one that was neither "adequate" nor "equitable". Since 1997, the State has directed its tax revenue growth toward school districts with little property tax wealth. In May of 2000, the Ohio Supreme Court again ruled that, while the State had made some progress, the current funding system for schools is far too dependent on property taxes which are inherently not "equitable" nor "adequate". The Court directed the Governor and the legislature to address the fundamental issues creating the inequities. In 2001, the Ohio legislature crafted a school-funding program to address the Court's concerns. The Court has found this funding program affecting fiscal 2002-2003 to meet its constitution standards. Virtually, no additional state revenue will be available to Maple Heights City School District. Thus, both taxes and state revenue are fixed or declining.

This scenario requires management to plan carefully and prudently to provide the resources to meet student needs over the next several years.

Maple Heights City School District has committed itself to financial excellence for many years. The School District has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting since 1998. In addition, the School District's system of budgeting and internal controls is well regarded. All of the School District's financial abilities will be needed to meet the challenges of the future.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Christopher D. Krause, Treasurer at Maple Heights City School District, 14605 Granger Road, Maple Heights, Ohio 44137; or by e-mail at Christopher.krause@lnoca.org.

*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2003*

Net Change in Fund Balances -Total Governmental Funds (\$1,942,236)

*Amounts reported for governmental activities in the
statement of activities are different because*

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

Capital Outlay	126,720	
Current Year Depreciation	(465,385)	
Total		(338,665)

In the statement of activities the loss on the disposal of capital assets is reported. (8,125)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Delinquent Property Taxes	140,650	
Intergovernmental	720,846	
Total		861,496

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. 482,000

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. 1,520

Some expenses reported in the statement of activities, such as compensated absences and contractually required pension contributions, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Compensated Absences	71,284	
Pension Obligations	(219,865)	
Total		(148,581)

Change in Net Assets of Governmental Activities (\$1,092,591)

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 1 - Description of the School District

The Maple Heights City School District (the School District) operates under a locally elected five-member Board form of government and provides educational services as authorized by state and federal agencies. The Board controls a staff of 175 non-certificated employees, 234 certificated full time teaching personnel and 30 administrative employees to provide services to 3,773 students and other community members. The School District operates 4 elementary schools (k-6), 1 middle school (7-8), and 1 high school (9-12).

The School District was originally part of Bedford Township. In 1924 the first Maple Heights Board of Education was organized. The Clement Elementary School was selected to become the site of the high school. The School District was officially established in 1931 and is organized under Article VI, Section 2 and 3 of the Constitution of the State of Ohio. Under such laws there is no authority for a school district to have a charter or adopt local laws. The legislative power of the School District is vested in the Board of Education, consisting of five members elected at-large for staggered four year terms.

The School District is located in Maple Heights, Ohio, Cuyahoga County and serves an area of approximately 5.5 square miles.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to insure that the basic financial statements of the School District are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Maple Heights City School District, the agencies and departments that provide the following services: general operations, food service and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes. The School District has no component units.

The School District is participates in with two jointly governed organizations, the Lakeshore Northeast Ohio Computer Association and Ohio Schools Council. These organizations are presented in Note 16 to the basic financial statements.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The School District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The entity has elected not to apply FASB pronouncements and interpretations issued after November 30, 1989, to its governmental and proprietary funds. The most significant of the School District's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. The School District uses two categories of funds: governmental and fiduciary.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund.

Building Fund The building fund accounts for a property tax levy used for various capital improvements within the School District.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

Fiduciary Funds Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only fiduciary fund is an agency fund which reports resources that belong to the student bodies of the various schools.

C. Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net assets.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 7). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: property taxes available as an advance, interest, tuition, grants, fees and rentals.

Deferred Revenue Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2003, but which were levied to finance fiscal year 2004 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

E. Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of budgetary control has been established by the Board of Education at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education. The Treasurer is authorized to further allocate appropriations at the function and object levels.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate that were in effect at the time the final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues by fund. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

F. Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements. The general fund provides advances to cover deficit cash balances at the end of the fiscal year. At the end of fiscal year 2003 the general fund advanced monies to one special revenue fund to cover deficit cash balances. See Note 18 for additional information.

During fiscal year 2003, investments were limited to repurchase agreements, reported at cost, and STAROhio. STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on June 30, 2003.

Following Ohio statutes, the Board of Education has, by resolution, identified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2003 amounted to \$24,003 which includes \$19,162 assigned from other School District funds.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2003, are reported as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

H. Inventory

Inventories are presented at the lower of cost or market on a first-in, first-out basis and are expended/expensed when used. Inventories consist of donated food, purchased food and school supplies held for resale, and materials and supplies held for consumption.

I. Capital Assets

All of the School District's capital assets are general capital assets. General capital assets are those assets related to activities reported in the governmental funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five hundred dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	20 - 50 years
Furniture and Equipment	3 - 20 years
Vehicles	10 years
Textbooks	5 - 15 years

J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans and interfund services provided and used are classified as "interfund receivables/payables." Interfund balances are eliminated in the governmental activities column of the statement of net assets.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for classified, certified and administrative employees after ten years of current service with the School District.

L. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, insurance premiums, compensated absences and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net assets restricted for other purposes include food service operations and programs for disadvantaged pupils.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

O. Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriations for expenditures. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund balance reserves are established for encumbrances and property taxes.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriations under State statute.

P. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence.

Q. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 - Changes in Accounting Principles

For fiscal year 2003, the School District implemented GASB Statement No. 41, "Budgetary Comparison Schedules – Perspective Differences."

GASB Statement No. 41 allows the presentation of budgetary schedules as required supplementary information based on the fund, organization or program structure that the government uses for its legally adopted budget when significant budgetary perspective differences result in the school district not being able to present budgetary comparisons for the general and each major special revenue fund. This statement was not applicable to the School District for fiscal year 2003.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 4 - Accountability and Compliance

A. Accountability

Fund Balances at June 30, 2003 included the following individual fund balance deficits:

General Fund	
General	\$1,024,291
Capital Projects Major Fund	
Building	2,739,498
Special Revenue Nonmajor Funds	
Disadvantaged Pupil Program	40,899
Miscellaneous Federal Grants	4,397

The general fund and special revenue funds deficit balances resulted from the conversion to generally accepted accounting principles and adjustments for accrued liabilities. An 8.5 mill emergency operating levy was passed in August 2003. The general fund provides transfers to cover special revenue fund deficit balances; however, this is done when cash is needed rather than when accruals occur. The building capital projects fund deficit is a result of the issuance of short-term energy conservation notes which are used to finance the project until bonds are issued. The deficit will be eliminated once bonds are issued and the obligation is no longer reported in the fund.

B. Legal Compliance

The following funds had expenditures plus encumbrances in excess of appropriations contrary to Section 5705.41, Ohio Revised Code:

	Appropriations	Expenditures	Excess
<i>Special Revenue Funds:</i>			
Auxiliary Services	\$231,067	\$246,214	\$15,147
Disadvantaged Pupil Program	249,000	515,696	266,696
Summer School Subsidy	1,423	17,274	15,851
E-Rate Grant	0	4,480	4,480
Continuous Improvement	522	20,856	20,334

Contrary to Section 5705.10 of the Ohio Revised Code, The Carl Perkins Grant had a cash fund deficit of \$27,979 at June 30, 2003. In the future management will make advances to alleviate any cash basis deficits.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Contrary to Ohio Revised Code Section 5705.39, the following funds had original appropriations in excess of certified available resources:

	Original Revenues Plus Carryover Balance	Appropriations	Excess
<i>Special Revenue Funds:</i>			
Public School Support	\$45,830	\$46,823	\$993
Title VI-B	299,187	300,000	813
Carl Perkins Grant	59,962	79,658	19,696
Title V	40,232	45,984	5,752
Preschool Grant	29,769	30,000	231
<i>Debt Service Fund:</i>			
Bond Retirement	540,941	600,000	59,059
<i>Capital Projects Fund:</i>			
Building	519,747	653,438	133,691

Management was able to reduce the excess balances to zero by fiscal year-end.

Note 5 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as a reservation of fund balance (GAAP).
4. Unrecorded cash represents amounts received but not included as revenue on the budget basis operating statements. These amounts are included as revenue on the GAAP basis operating statement.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance	
GAAP Basis	(\$2,107,147)
Net Adjustment for Revenue Accruals	2,186,951
Net Adjustment for Expenditure Accruals	(616,450)
Notes Issued	3,643,000
Reallocation of Revenues for Debt	(75,275)
Beginning Unrecorded Cash	10,265
Ending Unrecorded Cash	(6,807)
Principal Retirement	(3,692,000)
Interest and Fiscal Charges	75,275
Adjustments for Encumbrances	<u>(51,516)</u>
 Budget Basis	 <u><u>(\$633,704)</u></u>

Note 6 - Deposits and Investments

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including pass book accounts.

Protection of School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAROhio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash on Hand At fiscal year end, the School District had \$11,540 in unreported cash on hand which is included on the balance sheet of the School District as part of "equity in pooled cash and cash equivalents."

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements".

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Deposits At fiscal year-end, the carrying amount of the School District's deposits was (\$990,974) and the bank balance was \$60,000. All of the bank balance was covered by depository insurance.

Investments GASB Statement No. 3 requires the School District's investments to be categorized to give an indication of the level of risk assumed by the School District at fiscal year end. Category 1 includes investments that are insured or registered or for which the securities are held by the School District or its agent in the School District's name. Category 2 includes uninsured and unregistered investments which are held by the counterparty's trust department or agent in the School District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the School District's name. STAROhio is an unclassified investment since it is not evidenced by securities that exist in physical or book entry form.

	Category 3	Carrying Amount	Fair Value
Repurchase Agreements	\$1,285,440	\$1,285,440	\$1,285,440
STAR Ohio		1,401,180	1,401,180
Totals		\$2,686,620	\$2,686,620

The classification of cash and cash equivalents, and investments on the combined basic financial statements is based on criteria set forth in GASB Statement No. 9, "Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting".

A reconciliation between the classifications of cash and investments on the combined financial statements and the classifications of deposits and investments presented above per GASB Statement No. 3 is as follows:

	Cash and Cash Equivalents/Deposits	Investments
GASB Statement No. 9	\$1,707,186	\$0
Cash on Hand	(11,540)	0
Repurchase Agreements	(1,285,440)	1,285,440
STAR Ohio	(1,401,180)	1,401,180
GASB Statement No. 3	(\$990,974)	\$2,686,620

Note 7 - Property Taxes

Property taxes are levied and assessed on a calendar year basis while the school district fiscal year runs from July through June. First half tax collections are received by the school district in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the school district. Real property tax revenue received in calendar 2003 represents collections of calendar year 2002 taxes. Real property taxes received in calendar year 2003 were levied after April 1, 2002, on the assessed value listed as of January 1, 2002, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2003 represents collections of calendar year 2002 taxes. Public utility real and tangible personal property taxes received in calendar year 2003 became a lien December 31, 2001, were levied after April 1, 2002 and are collected in 2003 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar 2003 (other than public utility property) represents the collection of 2003 taxes. Tangible personal property taxes received in calendar year 2003 were levied after April 1, 2002, on the value as of December 31, 2002. Tangible personal property is currently assessed at twenty-five percent of true value for capital assets and twenty-four percent of true value for inventory. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30. This year, the June 2003 tangible personal property tax settlement was not received until July 2003.

The School District receives property taxes from Cuyahoga County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2003, are available to finance fiscal year 2003 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2003 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2003 was \$1,223,445 in the general fund, \$44,326 in the building capital projects fund and \$26,239 in the bond retirement debt service fund. The amount available to the School District as an advance at June 30, 2002, was \$2,886,519 in the general fund, \$98,550 in the building capital projects fund and \$58,837 in the bond retirement debt service fund.

The late tax settlement made by the County for fiscal year 2003 was \$37,194 in the general fund, \$1,295 in the building capital projects fund and \$690 in the bond retirement debt service fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The assessed values upon which the fiscal year 2003 taxes were collected are:

	2002 Second Half Collections		2003 First Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$351,340,790	86.34 %	\$372,148,101	87.34 %
Public Utility	14,313,680	3.52	14,477,060	3.40
Tangible Personal Property	41,282,871	10.14	39,466,822	9.26
	\$406,937,341	100.00 %	\$426,091,983	100.00 %
Tax rate per \$1,000 of assessed valuation	\$55.80		\$55.80	

Note 8 - Receivables

Receivables at June 30, 2003, consisted of taxes, accounts (rent, student fees and tuition), intergovernmental grants and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. All receivables are expected to be collected within one year.

A summary of the principal items of intergovernmental receivables follows:

	Amounts
General Fund	\$12,000
<i>Nonmajor Funds:</i>	
Food Service	76,479
Ohio Reads Grant	30,000
Title VI-B	341,524
Title I	262,658
Title V	40,629
Drug Free Schools	40,896
Preschool Grant	25,525
Miscellaneous Federal Grants	84,120
<i>Total Nonmajor Funds</i>	901,831
Total All Funds	\$913,831

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 9 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2003, was as follows:

	Balance 6/30/02	Additions	Deletions	Balance 6/30/03
Governmental Activities				
<i>Capital Assets, not being depreciated:</i>				
Land	\$1,201,177	\$0	\$0	\$1,201,177
<i>Capital Assets, being depreciated:</i>				
Buildings and Improvements	13,263,844	0	0	13,263,844
Furniture and Equipment	3,851,164	126,720	(42,551)	3,935,333
Vehicles	1,111,405	0	0	1,111,405
Textbooks	1,142,336	0	0	1,142,336

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 10 - Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2003, the School District contracted for the following insurance coverage:

Company	Type of Coverage	Coverage Amount
Indiana Insurance Company	Property	\$63,365,148
	General Liability, in aggregate	2,000,000
	General Liability, per occurrence	1,000,000
	Fire Damage	300,000
	Medical Expense, any one person	15,000
	Boiler and Machinery	30,000,000
	Uninsured Motorist	50,000
Flagherty	Aggregate limit on premises	1,500
	Aggregate limit for messenger	2,000
Western Surety Company	Treasurer's Bond	25,000
Nationwide Mutual Insurance Company	Public Official Bond	20,000
	Blanket Bond	5,000

Settled claims have not exceeded this commercial coverage in any of the past three years and there have been no significant reductions in insurance coverage from last year.

The School District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Note 11 - Defined Benefit Pension Plans

A. School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Plan members are required to contribute 9 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2003, 8.17 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 2002, 5.46 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2003, 2002, and 2001 were \$384,625, \$246,359 and \$201,434 respectively; 44.02 percent has been contributed for fiscal year 2003 and 100 percent for fiscal years 2002 and 2001.

B. State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371 or by calling (614) 227-4090.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2003, plan members were required to contribute 9.3 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2002, 9.5 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The School District's required contributions for pension obligations to the DB Plan for the fiscal years ended June 30, 2003, 2002, and 2001 were \$1,489,735, \$1,238,180 and \$1,440,830, respectively; 85.96 percent has been contributed for fiscal year 2003 and 100 percent for fiscal years 2002 and 2001. Contributions to the DC and Combined Plans for fiscal year 2003 were \$16,627 made by the School District and \$24,731 made by the plan members.

Note 12 - Postemployment Benefits

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are on a pay-as-you-go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2003, the STRS Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Reserve Fund. For the School District, this amount equaled \$115,874 for fiscal year 2003.

STRS pays health care benefits from the Health Care Reserve Fund. At June 30, 2002, (the latest information available) the balance in the Fund was \$3.011 billion. For the year ended June 30, 2002, net health care costs paid by STRS were \$354,697,000 and STRS had 105,300 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2003, employer contributions to fund health care benefits were 5.83 percent of covered payroll, a decrease of 2.71 percent from fiscal year 2002. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2003, the minimum pay was established at \$14,500. For the School District, the amount contributed to fund health care benefits, including the surcharge, during the 2003 fiscal year equaled \$320,816.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of the annual health care expenses. Expenses for health care for the fiscal year ended June 30, 2002 (the latest information available), were \$182,946,777 and the target level was \$274.4 million. At June 30, 2002, SERS had net assets available for payment of health care benefits of \$335.2 million. SERS has approximately 50,000 participants currently receiving health care benefits.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 13 - Employee Benefits

A. Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and administrators do not earn vacation time. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 270 days for all certified and 180 days for classified personnel. Upon retirement, payment is made for one-third of accrued, but unused sick leave credit to a maximum of 90 days for certified personnel and 60 days for classified personnel.

B. Insurance Benefits

The School District provides premium based health insurance benefits through Anthem, Blue Cross, Blue Shield and Kaiser Permanente.

Note 14 - Short-Term Obligations

The School District's note activity, including amount outstanding and interest rate, is as follows:

	Outstanding 6/30/02	Additions	Deletions	Outstanding 6/30/03
General Fund				
2002 Energy Conservation Notes 2.051%	\$364,000	\$0	\$364,000	\$0
2003 Energy Conservation Notes 1.56%	0	330,000	0	330,000
2002 School Improvement Notes 2.45%	317,000	0	317,000	0
2003 School Improvement Notes 1.35%	0	302,000	0	302,000
Total General Fund	<u>681,000</u>	<u>632,000</u>	<u>681,000</u>	<u>632,000</u>
Capital Projects Fund - Building				
2002 Energy Conservation Notes 2.5%	3,011,000	0	3,011,000	0
2003 Energy Conservation Notes 1.35%	0	3,011,000	0	3,011,000
Total Capital Projects Fund - Building	<u>3,011,000</u>	<u>3,011,000</u>	<u>3,011,000</u>	<u>3,011,000</u>
Total Notes	<u><u>\$3,692,000</u></u>	<u><u>\$3,643,000</u></u>	<u><u>\$3,692,000</u></u>	<u><u>\$3,643,000</u></u>

All of the notes are backed by the full faith and credit of the Maple Heights City School District and mature within one year. The note liability is reflected in the general fund and building capital projects fund which received the proceeds.

The 2003 energy conservation notes were issued to refinance 2002 energy conservation notes. Originally these notes were issued to replace heating systems at Dunham and Raymond Elementary Schools, lighting systems and steam traps in all School District Buildings and exterior windows at Rockside Elementary. Principal and interest payments are made from the General Fund and the Building Capital Projects fund.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The 2003 school improvement notes were issued to refinance 2002 school improvement notes. Originally these notes were issued for various building improvements throughout the School District.

Note 15 - Long-Term Obligations

The changes in the School District's long-term obligations during the year consist of the following:

	Principal Outstanding 6/30/02	Additions	Reductions	Principal Outstanding 6/30/03	Amount Due in One Year
General Obligation Bonds:					
\$133,000 1996 5.35%					
School Bus Acquisition	\$22,000	\$0	\$22,000	\$0	\$0
\$180,000 1999 5.10%					
School Bus Acquisition	75,000	0	35,000	40,000	40,000
\$870,000 2001 5.15%					
School Improvement	560,000	0	180,000	380,000	185,000
<i>Total General Obligation Bonds</i>	<u>657,000</u>	<u>0</u>	<u>237,000</u>	<u>420,000</u>	<u>225,000</u>
\$1,175,000 1998 3.85%					
Long-Term Notes	500,000	0	245,000	255,000	255,000
Compensated Absences	<u>1,789,204</u>	<u>104,650</u>	<u>175,934</u>	<u>1,717,920</u>	<u>408,207</u>
Total Governmental Activities					
Long-Term Liabilities	<u><u>\$2,946,204</u></u>	<u><u>\$104,650</u></u>	<u><u>\$657,934</u></u>	<u><u>\$2,392,920</u></u>	<u><u>\$888,207</u></u>

On May 1, 1996, Maple Heights City School District issued \$133,000 in voted general obligation bonds for the purpose of acquiring buses. The bonds were issued for a seven year period with final maturity at April 1, 2003. These bonds will be paid with state grant monies from the general fund.

On June 1, 1999, Maple Heights City School District issued \$180,000 in voted general obligation bonds for the purpose of acquiring buses. The bonds were issued for a five year period with final maturity at April 15, 2004. These bonds will be paid with state grant monies from the general fund.

On March 1, 2001, Maple Heights City School District issued \$870,000 in voted general obligation bonds for the purpose of capital improvements around the School District. The bonds were issued for a four year period with final maturity at December 1, 2004. These bonds will be paid with property taxes from the bond retirement debt service fund.

The 1998 long term notes were issued to allow the School District to undertake several key projects following passage of a \$1.5 mill permanent improvement levy renewal in May 1998. The note is being paid by revenues generated by this levy.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Compensated absences will be paid from the general and food service and auxiliary services special revenue funds.

The School District's overall debt margin was \$34,707,477 with an unvoted debt margin of \$426,092 at June 30, 2003. Principal and interest requirements to retire general obligation bonds and energy conservation bonds outstanding at June 30, 2003 are as follows:

Fiscal Year Ending	Principal	Interest	Total
2004	\$480,000	\$21,775	\$501,775
2005	195,000	5,020	200,020
Totals	\$675,000	\$26,795	\$701,795

Note 16 - Jointly Governed Organizations

A. Lakeshore Northeast Ohio Computer Association

The Lakeshore Northeast Ohio Computer Association (LNOCA) is a jointly governed computer service bureau owned and operated by sixteen school districts. The primary function of LNOCA is to provide data services to the sixteen school districts. Major areas of service provided by LNOCA include accounting, payroll, inventory, career guidance, student tracking, pupil scheduling, attendance and grade reporting. Each school is represented on the LNOCA Board of Directors by its superintendent. Each year, the Board of Directors elects a Chairman, a Vice Chairman, and a Recording Secretary. The Treasurer of the fiscal agent is a nonvoting, ex-officio member of the Board of Directors. The Cuyahoga County Educational Service Center serves as the fiscal agent of LNOCA. Each schools district supports LNOCA based upon a per pupil charge dependent upon the software package used. Maple Heights City School District paid \$55,263 to LNOCA during fiscal year 2003. Financial information can be obtained by contacting LNOCA, 5700 West Canal Road, Valley View, Ohio 44125.

B. Ohio Schools Council

The Ohio Schools Council Association (Council) is a jointly governed organization among ninety-one school districts. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of seven superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2003, the School District paid \$750 to the Council. Financial information can be obtained by contacting Kathleen T. Neal , the Executive Secretary/Treasurer of the Ohio Schools Council at 6133 Rockside Road, Suite 10, Independence, Ohio, 44131.

The School District participates in the Council's electric purchase program which was implemented during fiscal year 1998 and the natural gas program which was implemented during fiscal year 2001.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The electric purchase program allows school districts to purchase electricity at reduced rates, if the school districts will commit to participating for an eight year period. The participants make monthly payments based on estimated usage. Each June these estimated payments are compared to their actual usage for the year and any necessary adjustments are made.

Energy Acquisition Corp., a non profit corporation with a self appointing board, issued \$119,140,000 in debt to repurchase eight years of electricity from Cleveland Electric Illuminating (CEI) for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates their agreement, they are required to repay the savings to CEI and CEI will refund the remaining prepayment related to that participant to Energy Acquisition Corp.

The natural gas program allows school districts to purchase natural gas at reduced rates, if the school districts will commit to participating for a twelve year period. The participants make monthly payments based on estimated usage. Each November these estimates are compared to their actual usage for the year and any necessary adjustments are made.

The City of Hamilton, a municipal corporation and political subdivision duly organized and existing under the laws of the State of Ohio, issued \$89,450,000 in debt to purchase twelve years of natural gas from CMS Energy Corporation for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is entitled to recover that amount, if any, of its contributions to the operating fund which are not encumbered for its share of program administrative costs.

Note 17 - Set-Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for acquisition and construction of capital improvements. Amounts not spent by fiscal year-end or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the fiscal year end set-aside amounts for textbooks and capital improvements. Disclosure of this information is required by State statute.

	Capital Improvements	Textbooks and Instructional Material
Set-Aside Reserve Balance as of June 30, 2002	\$0	(\$74,774)
Current Year Set-Aside Requirement	252,238	252,238
Offsets During the Fiscal Year	(203,670)	0
Qualifying Disbursements	(257,908)	(468,144)
Totals	<u>(\$209,340)</u>	<u>(\$290,680)</u>
Set-Aside Balance Carried Forward to Future Fiscal Years	<u>\$0</u>	<u>(\$290,680)</u>
Set-Aside Reserve Balance as of June 30, 2003	<u>\$0</u>	<u>\$0</u>

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The School District had qualifying disbursements during the fiscal year that reduced the textbook set-aside amount below zero. The extra amount for textbooks may be used to reduce the set-aside requirement in future fiscal years. Although the School District had qualifying disbursements during the fiscal year that reduced the capital improvement set-aside amount below zero, the extra amount for capital improvements may not be used to reduce the set-aside requirement for future years. This negative balance is therefore not presented as being carried forward to future years.

Note 18 - Interfund Transfers and Balances

A. Transfers

The General fund reported a transfer out during fiscal year 2003 of \$85,000. The Athletics and Music special revenue fund had a transfer in of the same amount. The transfer represents the collection of activity fees for athletics.

B. Balances

The general fund reported an interfund receivable of \$27,979 and the Carl Perkins Grant special revenue fund reported an interfund payable of \$27,979 at June 30, 2003. This advance was made to cover a negative cash balance.

Note 19 - School State Funding Decision

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school-funding decision is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school-funding scheme that is thorough and efficient..."

The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and on its financial operations.

Note 20 - Contingencies

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2003.

Maple Heights City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

B. Litigation

The Maple Heights City School District is a party to legal proceedings. The School Board is of the opinion that the ultimate disposition of the current proceedings will not have a material effect, if any, on the financial condition of the School District.

Note 21 - Subsequent Event

On July 1, 2003, the School District issued \$1,203,000 of tax anticipation notes at an interest rate of 2.5 percent for the purpose of permanent improvements. This note will be financed with permanent improvement tax revenues.

**Combining Statements and
Individual Fund Schedules**

Combining Statements – Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

To account for revenues from specific sources which legally, or otherwise, are restricted to expenditures for specific purposes.

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

Uniform School Supplies Fund - This fund accounts for the purchase and sale of school supplies for use in the School District. Profits derived from such sales are used for school purposes or activities connected with the School.

Mental Health and Mental Retardation Fund - This fund accounts for funding to provide programs for special needs students.

Public School Support Fund - This fund accounts for school site sales revenue and expenditures for field trips, assemblies, and other activity costs.

Local Grants Fund - This fund accounts for funds received to promote community involvement and volunteer activities between the School District and community.

Athletics and Music Fund - This fund accounts for gate receipts and other revenues from athletic events and costs (except supplemental coaching contracts) of the athletic program, including transportation.

Auxiliary Services Fund - This fund accounts for funds which provide services and materials to pupils attending non-public schools within the School District.

Management Information Systems Fund - This fund accounts for State monies which support the development of hardware, software or other costs associated with the management information system.

Disadvantaged Pupil Program Fund - This fund accounts for State monies used for improving the educational and cultural status of disadvantaged pupils.

School Net Professional Development Fund - This fund accounts for State monies received for computer training for teachers in the School District provided by Ohio Educational Computer Networks connections.

Textbooks and Instructional Materials Fund - This fund accounts for State monies for textbooks and materials for the curriculum

Ohio Reads Grant Fund - This fund accounts for State monies received for the purpose of providing an intense intervention literacy program for students Kindergarten through Third grade. This program also provides for community volunteers in a one on one setting.

Summer School Subsidy Fund - This fund accounts for State monies which provide summer school programs for the student body.

(continued)

Combining Statements – Nonmajor Governmental Funds

Nonmajor Special Revenue Funds (continued)

Career Tech Adult Equipment Fund - This fund accounts for State monies received for the purpose of providing materials and supplies for programs for career tech and adult education.

Alternative School Fund - This fund accounts for State monies received for the purpose of providing an alternative educational setting for students who have not succeeded in a typical classroom.

Miscellaneous State Grants Fund - This fund accounts for State monies which support academic and enrichment programs for the student body.

Eisenhower Math and Science Fund - This fund accounts for monies used to improve the skills of teachers and the quality of instruction in mathematics, science, foreign languages and computer learning.

Title VI-B Fund - This fund accounts for Federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Carl Perkins Grant Fund - This fund accounts for State monies used for the development of vocational educational programs in the following categories: secondary, post-secondary, adult, disadvantaged, and handicapped persons, exemplary programs, cooperative education, ancillary services, research, advisory committees and work study projects.

Title I Fund - This fund accounts for Federal monies used to assist the School District in meeting the special needs of educationally deprived children.

Title V Fund - This fund accounts for Federal monies which support the implementation of a variety of programs such as computer education, gifted and talented programs, in-service and staff development.

Drug Free Schools Fund - This fund accounts for Federal monies which support the implementation of programs for drug abuse education and prevention.

Preschool Grant Fund - This fund accounts for Federal monies used for a preschool for students with disabilities.

E-Rate Grant Fund - This fund accounts for Federal monies paid directly to a telecommunication provider.

Continuous Improvement Fund - This fund accounts for various monies received through State agencies from the Federal government to provide education improvements to the School District.

Miscellaneous Federal Grants Fund - This fund accounts for Federal monies which support academic and enrichment programs for the student body.

Nonmajor Debt Service Fund

The bond retirement fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Combining Statements – Nonmajor Governmental Funds (continued)

Nonmajor Capital Projects Fund

Capital projects funds account for the acquisition, construction or improvement of capital facilities other than those financed by proprietary funds.

SchoolNet Fund - This fund accounts for state monies to be used to provide wiring to all classrooms that supports the transmission of voice, video and data, and to provide a computer workstation and related technology for every classroom.

Combining Statements - Fiduciary Funds

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.

Agency Fund

Student Activities Fund - This fund reflects resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities.

Maple Heights City School District

Combining Balance Sheet

Source: Cuyahoga County Auditor - Data is presented on a calendar year basis because that is the manner in which the information is maintained by the County Auditor.

- (1) Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental Revenue.
- (2) Represents collection year. 2003 information cannot be presented because all collections have not been made by June 30.
- (3) This amount cannot be calculated based on other information in this statistical table because of retroactive additions and reductions which are brought on in one lump sum.
