INDEPENDENT ACCOUNTANTS' REPORT

Pleasant Local School District
Marion County
1107 Owens Road West
Marion, Ohio 43302

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the General fund and the aggregate remaining fund information of Pleasant Local School District, Marion County, Ohio, (the District) as of and for the year ended June 30, 2003, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the General fund and the aggregate remaining fund information of Pleasant Local School District, Marion County, Ohio, as of June 30, 2003, and the respective changes in financial position, and the budgetary comparison for the General fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2003, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements, but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to form opinions on the financial statements that collectively comprise the District's basic financial statements. The federal awards receipts and expenditures schedule is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. We subjected the federal awards receipts and expenditures schedule to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

Betty Montgomery
Auditor of State

December 23, 2003

Pleasant Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
Unaudited

The discussion and analysis of Pleasant Local School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2003. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2003 are as follows:

In total, net assets increased \$1,048,540, or 15 percent, a somewhat significant change from the prior fiscal year. While revenues and expenses were fairly comparable to the prior fiscal year, increases were realized in charges for services and intergovernmental revenues.

General revenues were \$8,049,591, or 74 percent of total revenues, and reflect the School District's significant dependence on property taxes and unrestricted state entitlements.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand Pleasant Local School District as a financial whole, or as an entire operating entity.

The statement of net assets and the statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds, with all other nonmajor funds presented in total in a single column. For Pleasant Local School District, the General Fund is the most significant fund.

Reporting the School District as a Whole

The statement of net assets and the statement of activities reflect how the School District did financially during fiscal year 2003. These statements include all assets and liabilities using the accrual basis of accounting similar to that which is used by most private-sector companies. This basis of accounting considers all of the current fiscal years' revenues and expenses regardless of when cash is received or paid.

Pleasant Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
Unaudited

These statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader whether the financial position of the School District as a whole has increased or decreased from the prior fiscal year. Over time, these increases and/or decreases are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors, some financial, some not. Nonfinancial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the statement of net assets and the statement of activities, the School District discloses a single type of activity:

Governmental Activities - All of the School District's programs and services are reported here including instruction, support services, non-instructional services, and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund financial statements provide detailed information about the School District's major funds. While the School District uses many funds to account for its financial transactions, the fund financial statements focus on the School District's most significant funds. The School District's only major governmental fund is the General Fund.

Governmental Funds - Most of the School District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year end for spending in future periods. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs. These funds use the accrual basis of accounting.

The School District as a Whole

Table 1 provides a summary of the School District's net assets for fiscal year 2003 compared to fiscal year 2002:

Table 1
Net Assets

	Governmental Activities	
	2003	2002
<u>Assets:</u>		
Current and Other Assets	\$8,487,639	\$7,993,078
Capital Assets, Net	7,168,282	6,723,342
Total Assets	15,655,921	14,716,420
<u>Liabilities:</u>		
Current and Other Liabilities	3,534,354	3,567,932
Long-Term Liabilities	3,877,010	3,952,471
Total Liabilities	7,411,364	7,520,403
<u>Net Assets:</u>		
Invested in Capital Assets, Net of Related Debt	3,807,386	3,259,311
Restricted	784,192	748,743
Unrestricted	3,652,979	3,187,963
Total Net Assets	\$8,244,557	\$7,196,017

Total assets increased \$939,501, or a little over 6 percent. The largest increase was recognized in equity in pooled cash and cash equivalents, an increase in excess of \$588,000. Much of this can be attributed to increased revenue received for open enrollment. There was also an increase in capital assets, in excess of \$444,000. The School District has been making improvements to land, such as an access road and tiling for proper drainage, for the eventual construction of an athletic complex.

Total liabilities remained almost constant with the prior fiscal year.

The increase in invested in capital assets, net of related debt is due to the land improvements mentioned above as well as the reduction of principal related to capital assets. The increased cash balances are also reflected in the increase in unrestricted net assets.

Pleasant Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
Unaudited

Program revenues accounted for 26 percent of total revenues, almost identical to the prior fiscal year, and are primarily represented by restricted intergovernmental revenues, charges for tuition and fees and extracurricular activities, and food service sales. The largest increase in program revenues was related to charges for services as a result of open enrollment increases.

The major program expenses for governmental activities are for instruction, which were 59 percent of all governmental expenses. Other programs which support the instruction process, including pupils, instructional staff, and pupil transportation were 11 percent of governmental expenses. Maintenance of the School District's facilities also represents a significant expense, 9 percent. Therefore, 79 percent of the School District's expenses are related to the primary functions of providing facilities and delivering education. As can be seen, these costs are funded to a large extent from property taxes and grants and entitlements. The increase in overall expenses from the prior fiscal year was approximately 3 percent, and generally insignificant.

Governmental Activities

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services and sales, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted state entitlements.

Table 3
Governmental Activities

Pleasant Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
Unaudited

The dependence upon tax revenues and unrestricted state entitlements for governmental activities is apparent. Over 64 percent of instruction activities are supported through taxes and other general revenues. For all governmental activities, support from general revenues is 71 percent. These amounts have remained constant with those of the prior fiscal year. As such, it is apparent that the community, as a whole, is the primary support for Pleasant Local School District students.

The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. Total governmental funds had revenues of \$10,920,841 and expenditures of \$10,481,676. The net positive change of \$538,522, or 12.5 percent, in fund balance for the fiscal year indicates that the School District continues to be able to meet current costs.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During fiscal year 2003, the School District amended its General Fund budget as needed. Final budgeted revenues, in the amount of \$9,418,214, were above original budgeted revenues, in the amount of \$8,691,000. The \$727,214 difference was primarily due to a conservative estimate in intergovernmental revenues.

Final expenditures were budgeted at \$10,686,975 while actual expenditures were \$9,152,995. The \$1,533,980 difference is primarily due to a process of conservative estimating. The School District generally over appropriates in case unexpected expenditures arise during the fiscal year.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2003, the School District had \$7,168,282 invested in capital assets (net of accumulated depreciation) for governmental activities, an increase of \$444,940, or just over 6 percent. Additions were primarily related to land improvements as discussed earlier. For further information regarding the School District's capital assets, see Note 9 to the basic financial statements.

Debt

At June 30, 2003, the School District had outstanding school improvement general obligation bonds, in the amount of \$3,270,000, for building improvements. The bonds were issued for a twenty-five year period, with final maturity on December 1, 2018.

The School District had outstanding capital leases for equipment, in the amount of \$90,896. For further information regarding the School District's debt, see Note 15 to the basic financial statements.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
Unaudited

Current Issues

Pleasant Local School District's remains stable in the state of a shaky economy and uncertainty in State funding. The School District is in a residential/farming community currently experiencing some moderate growth. This increase in growth is raising the property tax base; however, school enrollment is not increasing.

In 1996, the School District passed a three-year emergency levy to generate \$495,000 and has renewed it twice. This levy provides a continuous source of funds for a financial cushion and has helped the School District remain in a good financial position. The School District has benefited from open enrollment from other school districts. The School District generated over \$727,000 from open enrollment during this fiscal year. Projections for next year's open enrollment are down due to two neighboring school districts opening new schools.

The School District has been making various improvements to the land that will ultimately make up the School District's athletic complex. Improvements include an access road which helps alleviate traffic congestion as well as tiling and grading. The athletic complex will consist of baseball and soccer fields as well as band and football practice areas. Though gradually being developed, this area is also the site of the land lab.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to reflect the School District's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Carol Owings, Treasurer, Pleasant Local School District, 1107 Owens Road West, Marion, Ohio 43302.

Pleasant Local School District
 Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances
 of Governmental Funds to Statement of Activities
 For the Fiscal Year Ended June 30, 2003

Net Change in Fund Balances - Total Governmental Funds \$538,522

Amounts reported for governmental activities on the statement of activities are different because of the following:

Governmental funds report capital outlays as expenditures.

However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeds depreciation in the current year:

Capital Outlay - Construction in Progress	11,073	
Capital Outlay - Depreciable Capital Assets	707,583	
Depreciation	(267,806)	
		450,850

The proceeds from the sale of capital assets are reported as other financing sources in the governmental funds. However, the cost of the capital assets is removed from the capital asset account on the statement of net assets and is offset against the proceeds from the sale of capital assets resulting in a gain on disposal of capital assets on the statement of activities.

Proceeds from Sale of Capital Assets	(6,150)	
Gain on Disposal of Capital Assets	240	
		(5,910)

Revenues on the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds:

Property Taxes	12,413	
Intergovernmental	(14,924)	
Interest	(5,458)	
Tuition and Fees	(19,848)	
Extracurricular Activities	1,596	
Charges for Services	173	
Miscellaneous	8,301	
		(17,747)

Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net assets. 196,342

Interest is reported as an expenditure when due in the governmental funds, but is accrued on outstanding debt on the statement of net assets.

Accrued Interest Payable 1,175

The inception of capital lease is reported as an other financing source in governmental funds, but increases long-term liabilities on the statement of net assets. (93,207)

Some expenses reported on the statement of activities, such as compensated absences and intergovernmental payables representing contractually required pension contributions, do not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds:

Intergovernmental Payable	(12,921)	
Special Termination Benefits Payable	19,110	
Compensated Absences Payable	(27,674)	
		(21,485)

Change in Net Assets of Governmental Activities \$1,048,540

Note 1 - Description of the School District and Reporting Entity

Pleasant Local School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state and federal guidelines.

The School District was established in 1916. The School District serves an area of approximately thirty-six square miles. It is located in Marion County and includes all of Pleasant Township, portions of Marion and Richland Townships, and a portion of the City of Marion. The School District is the 386th largest in the State of Ohio (among 612 school districts) in terms of enrollment. It is staffed by fifty-two classified employees, eighty-eight certified teaching personnel, and seven administrative employees who provide services to 1,450 students and other community members. The School District currently operates three instructional buildings.

Reporting Entity

A reporting entity is composed of the primary government, component units, and other organizations that are included to insure the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Pleasant Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. There are no component units of the Pleasant Local School District.

The School District participates in six jointly governed organizations and three insurance pools. These organizations are the Tri-Rivers Educational Computer Association; Tri-Rivers Joint Vocational School; North Central Regional Professional Development Center; North Central Ohio Special Education Regional Resource Center; Northwestern Ohio Educational Research Council, Inc.; Metropolitan Educational Council; Ohio School Plan; Ohio School Boards Association Workers' Compensation Group Rating Plan; and the Champaign, Delaware, Marion, Union School Employee Welfare Benefit Association Trust. These organizations are presented in Notes 20 and 21 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The basic financial statements of Pleasant Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. Following are the more significant of the School District's accounting policies.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets presents the financial condition of the governmental activities of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants, contributions, and interest that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are divided into two categories, governmental and fiduciary.

Note 2 - Summary of Significant Accounting Policies (continued)

Governmental Funds

Governmental funds are those through which most governmental functions of the School District are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The School District's only major fund is the General Fund.

General Fund - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the School District account for grants and other resources whose use are restricted to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are not available to support the School District's own programs. The School District's private purpose trust fund accounts for programs that provide college scholarships to students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency fund accounts for various student-managed activities.

C. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets. The statement of activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

The private purpose trust fund is accounted for using a flow of economic resources measurement focus.

Note 2 - Summary of Significant Accounting Policies (continued)

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, grants, interest, tuition, student fees, and charges for services.

Deferred Revenues

Deferred revenues arise when assets are recognized before revenue recognition criteria has been satisfied.

Property taxes for which there was an enforceable legal claim as of June 30, 2003, but which were levied to finance fiscal year 2004 operations, are recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period are reported as deferred revenue.

Expenses/Expenditures

On the accrual basis, expenses are recognized at the time they are incurred.

Note 2 - Summary of Significant Accounting Policies (continued)

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of budgetary control selected by the Board is the fund level for all funds. Budgetary allocations at the function and object level within all funds are made by the Treasurer.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

F. Cash and Investments

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

Cash and cash equivalents held for the School District by the North Central Ohio Educational Service Center are reflected as "Cash and Cash Equivalents with Fiscal Agent".

During fiscal year 2003, investments were limited to nonnegotiable certificates of deposit, which are reported at cost, and STAR Ohio. STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2003.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2003 was \$88,322, which includes \$12,505 assigned from other School District funds.

Note 2 - Summary of Significant Accounting Policies (continued)

Investments of the School District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2003, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed.

H. Inventory

Inventory is presented at cost on a first-in, first-out basis and is expended/expensed when used. Inventory consists of administrative supplies and donated and purchased food.

I. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by enabling legislation. Restricted assets in the General Fund represent amounts required by State statute to be set aside for the purchase of textbooks and other instructional materials and for budget stabilization.

J. Capital Assets

All of the School District's capital assets are general capital assets resulting from expenditures in governmental funds. These assets are reported in the governmental activities column on the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market value on the date donated. The School District maintains a capitalization threshold of two thousand dollars. Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 2 - Summary of Significant Accounting Policies (continued)

All capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Useful Lives
Land Improvements	10 - 25 years
Buildings and Building Improvements	10 - 100 years
Furniture, Fixtures, and Equipment	5 - 20 years
Vehicles	10 - 15 years
Infrastructure	50 years

K. Interfund Assets/Liabilities

On fund financial statements, receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as "Interfund Receivables/Payables". Interfund balances within governmental activities are eliminated on the statement of net assets.

L. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable the School District will compensate the employees for the benefits through time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for all employees after seven years of service.

M. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions, special termination benefits, and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds and capital leases are recognized as a liability on the fund financial statements when due.

Note 2 - Summary of Significant Accounting Policies (continued)

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include activities for food service operations, music and athletic programs, and federal and state grants restricted to expenditure for specified purposes.

The School District's policy is to apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

O. Fund Balance Reserves and Designation

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. Fund balance reserves have been established for property taxes, textbooks, budget stabilization, and encumbrances.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. The reserve for budget stabilization represents monies required to be set aside by State statute to protect against cyclical changes in revenues and expenditures. The designation for budget stabilization represents monies set aside by resolution of the Board of Education to offset revenue/expenditure fluctuations.

P. Interfund Transactions

Transfers within governmental activities are eliminated on the government-wide financial statements.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Q. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence.

Note 2 - Summary of Significant Accounting Policies (continued)

R. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 - Change in Accounting Principles

For fiscal year 2003, the School District has implemented GASB Statement No. 41, "Budgetary Comparison Schedules - Perspective Differences". GASB Statement No. 41 allows the presentation of budgetary schedules as required supplementary information based on the fund, organization, or program structure that the School District uses for its legally adopted budget when significant budgetary perspective differences result in the School District not being able to present budgetary comparisons for the General Fund and each major special revenue fund. The implementation of this statement did not have any effect on the School District's financial statements for fiscal year 2003.

Note 4 - Accountability

At June 30, 2003, the Title I and Class Size Reduction special revenue funds and the SchoolNet Plus capital projects fund had deficit fund balances, in the amount of \$6,164, \$364, and \$23,184, respectively, resulting from adjustments for accrued liabilities. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

Note 5 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 5 - Budgetary Basis of Accounting (continued)

The adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund are as follows:

Net Change in Fund Balance	
GAAP Basis	\$583,985
<u>Increase (Decrease) Due To:</u>	
Revenue Accruals:	
Accrued FY 2002, Received in Cash FY 2003	1,205,777
Accrued FY 2003, Not Yet Received in Cash	(1,216,196)
Expenditure Accruals:	
Accrued FY 2002, Paid in Cash FY 2003	(799,048)
Accrued FY 2003, Not Yet Paid in Cash	854,203
Cash Adjustments:	
Unrecorded Activity FY 2002	4,642
Unrecorded Activity FY 2003	(4,033)
Prepaid Items	(16,466)
Materials and Supplies Inventory	8,393
Encumbrances Outstanding at Fiscal Year End (Budget Basis)	(367,511)
Budget Basis	\$253,746

Note 6 - Deposits and Investments

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Note 6 - Deposits and Investments (continued)

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and
6. The State Treasurer's investment pool (STAR Ohio).

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 6 - Deposits and Investments (continued)

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

At fiscal year end, the School District had \$158 in undeposited cash on hand which is included as part of "Equity in Pooled Cash and Cash Equivalents".

At fiscal year end, the School District had \$44 in cash and cash equivalents held by the North Central Ohio Educational Service Center, which is presented as "Cash and Cash Equivalents with Fiscal Agent". The Educational Service Center holds this flow through grant money for the School District together with that of other school districts, and therefore, the School District cannot classify this money by risk under GASB Statement No. 3.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements".

At fiscal year end, the carrying amount of the School District's deposits was \$855,445 and the bank balance was \$959,218. Of the bank balance, \$301,215 was covered by federal depository insurance and \$658,003 was uninsured and uncollateralized. Although all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District's investments are categorized to give an indication of the level of risk assumed by the School District at fiscal year end. Category 1 includes investments that are insured or registered for which the securities are held by the School District or its agent in the School District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the School District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the School District's name. The School District's investment in STAR Ohio is unclassified since it is not evidenced by securities that exist in physical or book entry form. At June 30, 2003, the fair value of funds on deposit with STAR Ohio was \$3,523,830.

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 6 - Deposits and Investments (continued)

The classification of cash and cash equivalents and investments on the financial statements is based on criteria set forth in GASB Statement No. 9, "Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting". A reconciliation between the classification of cash and cash equivalents and investments on the financial statements and the classification of deposits and investments according to GASB Statement No. 3 is as follows:

	Cash and Cash Equivalents/ Deposits	Investments
GASB Statement No. 9	\$4,379,477	\$0
Cash on Hand	(158)	0
Cash and Cash Equivalents with Educational Service Center	(44)	0
Investments:		
STAR Ohio	(3,523,830)	3,523,830
GASB Statement No. 3	\$855,455	\$3,523,830

Note 7 - Receivables

Receivables at June 30, 2003, consisted of accounts (student fees and billings for user charged services), accrued interest, interfund, intergovernmental, and property taxes. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables are expected to be collected within one year.

A summary of the principal items of intergovernmental receivables follows:

	Amount
Governmental Activities	
General Fund	\$22,769
Other Governmental Funds	
Food Service	12,338
Safe and Drug Free Schools	621
Bond Retirement	190
Total Other Governmental Funds	13,149
Total Intergovernmental Receivables	\$35,918

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 8 - Property Taxes

Property taxes are levied and assessed on a calendar year basis, while the School District's fiscal year runs from July through June. First-half tax distributions are received by the School District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real property, public utility property, and tangible personal (used in business) property located in the School District. Real property tax revenues received in calendar year 2003 represent the collection of calendar year 2002 taxes. Real property taxes received in calendar year 2003 were levied after April 1, 2002, on the assessed values as of January 1, 2002, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2003 represent the collection of calendar year 2002 taxes. Public utility real and tangible personal property taxes received in calendar year 2003 became a lien on December 31, 2001, were levied after April 1, 2002, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Tangible personal property tax revenues received in calendar year 2003 (other than public utility property) represent the collection of calendar year 2003 taxes. Tangible personal property taxes received in calendar year 2003 were levied after April 1, 2002, on the value as of December 31, 2002. Tangible personal property is currently assessed at 25 percent of true value for capital assets and 24 percent for inventory. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

The School District receives property taxes from Marion County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the county by June 30, 2003, are available to finance fiscal year 2003 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents real property, public utility property, and tangible personal property taxes which were measurable as of June 30, 2003, and for which there was an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reflected as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2003, was \$1,192,503 in the General Fund and \$110,606 in the Bond Retirement debt service fund. The amount available as an advance at June 30, 2002, was \$1,199,474 in the General Fund and \$111,267 in the Bond Retirement debt service fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue. On a modified accrual basis, the revenue has been deferred.

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 8 - Property Taxes (continued)

The assessed values upon which fiscal year 2003 taxes were collected are:

	2002 Second- Half Collections		2003 First- Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential	\$111,874,410	72.67%	\$113,906,840	72.94%

Note 10 - Interfund Assets/Liabilities

At June 30, 2003, other governmental funds had an interfund receivable and the General Fund had an interfund payable, in the amount of \$3,710, for property tax revenues allocated to the wrong fund.

Note 11 - Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2003, the School District contracted for the following insurance coverage.

Coverage provided by Hartford Insurance is as follows:

Buildings and Contents - replacement cost	\$25,549,200
---	--------------

Coverage provided by Ohio School Plan is as follows:

General Liability	
Per Occurrence	1,000,000
Aggregate	3,000,000
Automobile Liability	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

For fiscal year 2003, the School District participated in the Ohio School Plan (Plan), an insurance purchasing pool. Each participant enters into an individual agreement with the Plan for insurance coverage and pays annual premiums to the Plan based on the types and limits of coverage and deductibles selected by the participant

For fiscal year 2003, the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participants is calculated as one experience and a common premium rate is applied to all participants in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate.

Note 11 - Risk Management (continued)

Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to participants that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control, and actuarial services to the GRP.

The School District participates in the Champaign, Delaware, Marion, Union School Employee Welfare Benefit Association Trust (Trust), a public entity shared risk pool consisting of eight school districts and the Madison/Champaign County and Delaware/Union County Educational Service Centers. The School District pays monthly premiums to the Trust for employee medical, dental, and life insurance. The Trust is responsible for the management and operations of the program. Upon withdrawal from the Trust, the participant is responsible for the payment of all Trust liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

Note 12 - Defined Benefit Pension Plans

A. State Teachers Retirement System

The School District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

New members have a choice of three retirement plans, a Defined Benefit Plan (DBP), a Defined Contribution Plan (DCP), and a Combined Plan (CP). The DBP offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service or on an allowance based on member contributions and earned interest matched by STRS funds multiplied by an actuarially determined annuity factor. The DCP allows members to place all of their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The CP offers features of both the DBP and DCP. In the CP, member contributions are invested by the member and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DBP. DCP and CP members will transfer to the DBP during their fifth year of membership unless they permanently select the DCP or CP. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balance from the existing DBP into the DCP or CP. This option expired on December 31, 2001.

A DBP or CP member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DCP who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Note 12 - Defined Benefit Pension Plans (continued)

For the fiscal year ended June 30, 2003, plan members were required to contribute 9.3 percent of their annual covered salary and the School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers.

The School District's required contribution for pension obligations for the DBP for the fiscal years ended June 30, 2003, 2002, and 2001 was \$537,828, \$383,591, and \$358,568, respectively; 82 percent has been contributed for fiscal year 2003 and 100 percent has been contributed for fiscal years 2002 and 2001. Contributions for the DCP and CP for the fiscal year ended June 30, 2003, were \$3,856 made by the School District and \$6,057 made by plan members.

B. School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan administered by the School Employees Retirement Board. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

For the fiscal year ended June 30, 2003, plan members were required to contribute 9 percent of their annual covered salary and the School District was required to contribute an actuarially determined rate. The rate for fiscal year 2003 was 14 percent of annual covered payroll; 8.17 percent was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The School District's required contribution for pension obligations to SERS for the fiscal years ended June 30, 2003, 2002, and 2001 were \$77,658, \$47,794, and \$33,679, respectively; 100 percent has been contributed for all three fiscal years.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the State Teachers Retirement System or the School Employees Retirement System have an option to choose Social Security or the State Teachers Retirement System/School Employees Retirement System. As of June 30, 2003, none of the Board of Education members have elected Social Security. The Board's liability is 6.2 percent of wages paid.

Note 13 - Postemployment Benefits

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired classified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligation to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

Note 13 - Postemployment Benefits (continued)

The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. For fiscal year 2003, the Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Reserve Fund. For the School District, this amount was \$41,668.

STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Fund was \$3,011 million at June 30, 2002 (the latest information available). For the fiscal year ended June 30, 2002, net health care costs paid by STRS were \$354,697,000, and STRS had 105,300 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more years of qualifying service credit, and to disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit, must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

For the fiscal year ended June 30, 2003, employer contributions to fund health care benefits were 5.83 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2003, the minimum pay was established at \$14,500. For the School District, the amount to fund health care benefits, including the surcharge, was \$81,334 for fiscal year 2003.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care at June 30, 2002 (the latest information available), were \$182,946,777, and the target level was \$274.4 million. At June 30, 2002, SERS had net assets available for payment of health care benefits of \$335.2 million. SERS has approximately 50,000 participants currently receiving health care benefits.

Note 14 - Other Employee Benefits

A. Compensated Absences

The criteria for determining vacation and sick leave benefits is derived from negotiated agreements and State laws. Classified employees earn ten to twenty-five days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of one hundred sixty days for all school personnel. Upon retirement, payment is made for one-fourth of their accrued, but unused sick leave credit to a maximum of forty days for all employees.

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 14 - Other Employee Benefits (continued)

B. Health Care Benefits

The School District offers medical, dental, and life insurance benefits to all employees who work thirty or more hours per week, bus drivers, and cooks through the Champaign, Delaware, Marion, Union School Employee Welfare Benefit Association Trust. Depending upon the plan chosen, the employees share the cost of the monthly premium with the Board. The premium varies with employee depending on the terms of the union contract.

C. Special Termination Benefits

Employees who retired in fiscal year 2003 were offered a special termination benefit. STRS employees were offered a one time retirement incentive in addition to severance benefits and STRS pension benefits. The retirement incentive, in the amount of \$3,000 per \$10,000 of annual salary, is offered in the first year of retirement eligibility. The employee has the opportunity to accept or reject the retirement incentive opportunity. The benefit may be paid directly to the employee and taxed as income, placed in a retirement account of the employee's choosing, or the employee may have the payment delayed until the following calendar year. At June 30, 2003, the liability for special termination benefits was \$4,773. The current special termination benefit program expired in August 2003.

Note 15 - Long-Term Obligations

Changes in the School District's long-term obligations during fiscal year 2003 were as follows:

	Balance at 6/30/02	Additions	Reductions	Balance at 6/30/03	Amounts Due Within One Year
Governmental Activities					
General Long-Term Obligations					
School Improvement Bonds					
FY 1993 5.045%	\$3,455,000	\$0	\$185,000	\$3,270,000	\$195,000
Compensated Absences Payable	488,440	62,023	34,349	516,114	28,197
Capital Leases Payable	9,031	93,207	11,342	90,896	20,297
Total Governmental Activities					
Long-Term Obligations	<u>\$3,952,471</u>	<u>\$155,230</u>	<u>\$230,691</u>	<u>\$3,877,010</u>	<u>\$243,494</u>

School Improvement General Obligation Bonds - On September 23, 1993, the School District issued \$4,500,000 in voted general obligation bonds for building improvements. The bonds were issued for a twenty-five year period, with final maturity on December 1, 2018. The bonds are being retired through the Bond Retirement debt service fund.

Compensated absences will be paid from the General Fund and the Food Service and Title I special revenue funds. Capital leases will be paid from the General Fund and the SchoolNet Plus capital projects fund.

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 15 - Long-Term Obligations (continued)

The School District's overall debt margin was \$11,172,931 with an unvoted debt margin of \$543,567 at June 30, 2003.

Principal and interest requirements to retire the general obligation bonds outstanding at June 30, 2003, were as follows:

Fiscal Year Ending	Principal	Interest	Total
2004	195,000	158,570	353,570
2005	200,000	146,662	346,662
2006	210,000	137,537	347,537
2007	220,000	127,807	347,807
2008	230,000	117,455	347,455
2009-2013	945,000	437,025	1,382,025
2014-2018	1,030,000	195,135	1,225,135
2019	240,000	6,120	246,120
Totals	<u>\$3,270,000</u>	<u>\$1,326,311</u>	<u>\$4,596,311</u>

Note 16 - Capital Leases - Lessee Disclosure

The School District has entered into capitalized leases for equipment. Each lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. New capital leases are reflected in the accounts "Operation and Maintenance of Plant" and "Inception of Capital Lease" in the funds which will be making the lease payments. Capital lease payments are reflected as debt service expenditures on the statement of revenues, expenditures, and changes in fund balances for the governmental funds. Principal payments in 2003 were \$11,342.

	Governmental Activities
Property under Capital Lease	\$104,396
Less Accumulated Depreciation	(11,617)
Total June 30, 2003	<u>\$92,779</u>

Pleasant Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 16 - Capital Leases - Lessee Disclosure (continued)

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2002.

Fiscal Year Ending June 30,	Governmental Activities
2004	\$24,306
2005	24,306
2006	21,061
2007	21,061
2008	10,530
Subtotal	101,264
Less Amount Representing Interest	(10,368)
Present Value of Net Minimum Lease Payments	\$90,896

Note 17 - Set Asides

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the purchase of textbooks and other instructional materials, and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end. These amounts must be carried forward and used for the same purposes in future years. In prior years, the School District was also required to set aside money for budget stabilization. At June 30, 2003, only the unspent portion of certain workers' compensation refunds continues to be set aside.

The following cash basis information identifies the changes in the fund balance reserves for textbooks, capital improvements, and budget stabilization during fiscal year 2003.

	Textbooks	Capital Improvements	Budget Stabilization
Balance June 30, 2002	(\$9,162)	\$0	\$36,620
Current Year Set Aside Requirement	196,748	196,748	0
Qualifying Expenditures	(131,629)	(196,748)	0
Balance June 30, 2003	55,957	\$0	\$36,620

Note 18 - Interfund Transfers

During fiscal year 2003, the General Fund made transfers to other governmental funds, in the amount of \$50,804, to subsidize various programs in other funds.

Note 19 - Donor Restricted Endowments

The School District's private purpose trust fund includes donor restricted endowments. Endowment, in the amount of, \$10,000, represents the principal portion. The amount of net appreciation in donor restricted investments that is available for expenditures by the School District is \$68,553 and is included as held in trust for scholarships. State law permits the School District to appropriate, for purposes consistent with the endowment's intent, net appreciation, realized and unrealized, unless the endowment terms specify otherwise. The endowment indicates that the interest should be used to provide a scholarship each year.

Note 20 - Jointly Governed Organizations

A. Tri-Rivers Educational Computer Association

The School District is a participant in the Tri-Rivers Educational Computer Association (TRECA), which is a computer consortium. TRECA is an association of public school districts within the boundaries of Delaware, Knox, Marion, Morrow, Muskingum, and Wyandot Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of TRECA consists of one representative from each county elected by majority vote of all charter member school districts within each county, one representative from the city school districts, and the superintendent from Tri-Rivers Joint Vocational School. During fiscal year 2003, the School District paid \$15,684 to TRECA for various services. Financial information can be obtained from Mike Carder, who serves as Director, 2222 Marion Mt. Gilead Road, Marion, Ohio 43302.

B. Tri-Rivers Joint Vocational School

The Tri-Rivers Joint Vocational School (JVS) is a distinct political subdivision of the State of Ohio which provides vocational education. The JVS operates under the direction of a Board consisting of one representative from each of the ten participating school districts' Board of Education. The Board possesses its own budgeting and taxing authority. The degree of control exercised by the School District is limited to its representation on the Board. Financial information can be obtained from Terril Martin, who serves as Treasurer, 2222 Marion Mt. Gilead Road, Marion, Ohio 43302.

Note 20 - Jointly Governed Organizations (continued)

C. North Central Regional Professional Development Center

The North Central Regional Professional Development Center (Center) is a jointly governed organization among the school districts in Crawford, Huron, Knox, Marion, Morrow, Richland, Seneca, and Wyandot Counties. The organization was formed to create and sustain self-renewing learning communities to transform education in Ohio so that all learners can achieve their full potential. The Center is governed by a twenty-one member Board made up of representatives from the participating school districts, the business community, and two institutions of higher learning. The degree of control exercised by any participating school district is limited to its representation on the Board. Financial information can be obtained from Eileen Lemaster, Mid-Ohio Educational Service Center, 1495 West Longview Avenue, Suite 202, Mansfield, Ohio 44906.

D. North Central Ohio Special Education Regional Resource Center

The North Central Ohio Special Education Regional Resource Center (SERRC) is a jointly governed organization formed to initiate, expand, and improve special education programs and services for children with disabilities and their parents. The SERRC is governed by a forty-seven member board including the superintendent from the forty-two participating educational entities, one representative from a non-public school, one representative from Knox County Educational Service Center, one representative from Ashland University, and two parents of children with disabilities. The degree of control exercised by any participating educational entity is limited to its representative on the Board. Financial information can be obtained from Patricia Lyons, Knox County Educational Service Center, 308 Martinsburg Road, Mt. Vernon, Ohio 43050.

E. Northwestern Ohio Educational Research Council, Inc.

The Northwestern Ohio Educational Research Council, Inc. (NOERC) is a jointly governed organization formed to bring educational entities into a better understanding of their common educational problems, facilitate and conduct practical educational research, coordinate educational research among members, provide a means for evaluating and disseminating the results of research, serve as a repository for research and legislative materials, and provide opportunities for training. The NOERC serves a twenty-five county area in Northwest Ohio. The Board of Directors consists of superintendents from two educational service centers, two exempted village school districts, five local school districts, and five city school districts, as well as representatives from two private or parochial schools and three institutions of higher education. Each active member is entitled to one vote on all issues addressed by the Board of Directors. Financial information can be obtained from the Northwestern Ohio Educational Research Council, Inc., Box 456, Ashland, Ohio 44805.

F. Metropolitan Educational Council

The Metropolitan Educational Council (MEC) is a purchasing cooperative made up of one hundred forty-two school districts, libraries, and related agencies in twenty-seven counties. The purpose of the MEC is to obtain prices for quality merchandise and services commonly used by the participants. The governing board of the MEC consists of one representative from each participant. All participants must pay all fees, charges, or other assessments as established by the MEC. Financial information can be obtained from the Metropolitan Educational Council, Elmo Kallner, who serves as Director, 2100 Citygate Drive, Columbus, Ohio 43219.

Note 21 - Insurance Pools

A. Ohio School Plan

The School District participates in the Ohio School Plan (Plan), an insurance purchasing pool established under Section 2744.081 of the Ohio Revised Code. The Plan is an unincorporated nonprofit association of its members which enables the participants to provide for a formalized joint insurance purchasing program for maintaining adequate insurance protection and provides risk management programs and other administrative services. The Plan's business and affairs are conducted by a fifteen member board consisting of superintendents, treasurers, the president of Harcum-Hyre Insurance Agency, Inc., and a member of the Hylant Group, Inc. The Hylant Group, Inc. is the Plan's administrator and is responsible for processing claims. Harcum-Hyre Insurance Agency serves as the sales and marketing representative which establishes agreements between the Plan and its members. Financial information can be obtained from Harcum-Hyre Insurance Agency, 246 East Sycamore Street, Columbus, Ohio 43206.

B. Ohio School Boards Association Workers' Compensation Group Rating Plan

The School District participates in a group rating plan for worker's compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP) was established through the Ohio School Boards Association (OSBA) as an insurance purchasing pool.

The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the GRP. Each year, the participants pay an enrollment fee to the GRP to cover the costs of administering the program.

C. Champaign, Delaware, Marion, Union School Employee Welfare Benefit Association Trust

The Champaign, Delaware, Marion, Union School Employee Welfare Benefit Association Trust (Trust), is a public entity shared risk pool consisting of eight school districts and the Madison/Champaign County and Delaware/Union County Educational Service Centers. The Trust is organized as a Voluntary Employee Benefit association under Section 501(c)(9) of the Internal Revenue Code and provides medical, dental, and life insurance benefits to the employees of the participants. Each participant's superintendent is appointed to an Administrative Committee which advises the Trustee concerning aspects of the administration of the Trust.

Each participant decides which plans offered by the Administrative Committee will be extended to its employees. Participation in the Trust is by written application subject to acceptance by the Administrative Committee and payment of monthly premiums. Financial information can be obtained from Joanne Little, who serves as Treasurer, Olentangy Local School District, 814 Shanahan Road, Lewis Center, Ohio, 43035-9080.

Note 22 - State School Funding Decision

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school funding scheme that is thorough and efficient..."

The School District is currently unable to determine what effect, if any, this decision will have its future State funding and on its financial operations.

Note 23 - Contingencies

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2003.

B. Litigation

There are currently no matters in litigation with the School District as defendant.

**PLEASANT LOCAL SCHOOL DISTRICT
MARION COUNTY**

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FISCAL YEAR ENDED JUNE 30, 2003**

NOTE A--SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) summarizes activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B--CHILD NUTRITION CLUSTER

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received. At June 30, 2003, the District had no significant food commodities in inventory.

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE AND ON INTERNAL CONTROL
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Pleasant Local School District
Marion County
1107 Owens Road West
Marion, Ohio 43302

To the Board of Education:

We have audited the basic financial statements of Pleasant Local School District, Marion County, Ohio, (the District) as of and for the year ended June 30, 2003, and have issued our report thereon dated December 23, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted a certain immaterial instance of noncompliance that we have reported to management of the District in a separate letter dated December 23, 2003.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we did note a matter involving the internal control over financial reporting that does not require inclusion in this report, that we have reported to management of the District in a separate letter dated December 23, 2003.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Pleasant Local School District
Marion County
1107 Owens Road West
Marion, Ohio 43302

To the Board of Education:

Compliance

We have audited the compliance of Pleasant Local School District, Marion County, Ohio, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2003. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2003.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

35 N. Fourth St. / Second Floor / Columbus, OH 43215
Telephone: (614) 466-3402 (800) 443-9275 Fax: (614) 728-7199
www.auditor.state.oh.us

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of the finance committee, management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
