We have reviewed the Independent Auditor's Report of the Sylvania City School District, Lucas County, prepared by Weber O'Brien, Ltd., for the audit period July 1, 2002 through June 30, 2003. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Sylvania City School District is responsible for compliance with these laws and regulations.

A handwritten signature in cursive script that reads "Betty Montgomery".

Office of the Treasurer

Carol A. McElfresh, Treasurer/CFO

December 29, 2003

Board of Education Members and Citizens of the Sylvania City School District:

As the Superintendent and Treasurer/CFO of the Sylvania City School District (the "District"), we are pleased to submit to you the twelfth Comprehensive Annual Financial Report (CAFR) issued by the District. This report provides full disclosure of the financial operation of the District for the fiscal year ended June 30, 2003. This CAFR, which includes an opinion from Weber O'Brien Ltd., Sylvania, Ohio, who performed the District's audit, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. This report will provide the taxpayers of the District with comprehensive financial data in a format which will enable them to gain an understanding of the District's financial affairs. Copies will be made available to the Chamber of Commerce, major taxpayers, the public library, financial rating services, and other interested parties.

The CAFR is comprised of three distinct sections:

- * The Introductory Section includes the table of contents, letter of transmittal, list of principal officials, management team, organizational chart, and Government Finance Officers Association (GFOA) Certificate of Achievement.
- * The Financial Section includes the independent auditor's report, a management's discussion and analysis, basic financial statements and explanatory notes, required supplementary information, and combining statements and individual fund schedules.
- * The Statistical Section includes various tables reflecting social and economic information, financial trends, and the fiscal capacity of the District.

The District is located in Northwestern Ohio on the Michigan-Ohio border and is comprised of the City of Sylvania, Sylvania Township, a portion of the City of Toledo and a portion of the Village of Ottawa Hills, which are all part of Lucas County. As a suburb of Toledo, Sylvania is basically a residential community with a broad service-based economy. Socioeconomic indicators continue to describe Sylvania as an affluent community with housing values and income levels well above state and county norms.

The District provides a full range of educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory and vocational levels, and a broad range of co-curricular and extracurricular activities, adult and community education offerings, and special education services. In addition, the District provides state-financed assistance to non-public schools located within its boundaries. This assistance is accounted for in a non-major governmental fund.

Statutorily, the District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code for the purpose of providing educational services authorized by charter and further mandated by State and/or Federal agencies.

A five member Board of Education (the "Board") serves as the taxing authority, contracting body and policy maker for the District. The Board adopts the annual operating budget and approves all expenditures of District monies.

The Superintendent is the chief administrative officer of the District, responsible for both education and support operations. The Treasurer/CFO is the chief financial officer of the District, responsible for maintaining records of all financial matters, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, and investing idle funds as specified by Ohio law.

Other Board appointed officials include directors of various educational and support services and building principals.

THE REPORTING ENTITY

The District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments, and organizations making up the District (the primary government) and its potential component units.

The Cities of Sylvania and Toledo, Sylvania Township, and the Village of Ottawa Hills have all been excluded from the accompanying financial statements. The Northwest Ohio Computer Association (NWOCA) and the Sylvania Area Joint Recreation District (SAJRD) are reported as jointly governed organizations.

QUALITY IN EDUCATION

Quality schools not only reflect the philosophy of a community, but help to maintain property values as well. In the Sylvania City School District, the emphasis is on the educational program itself, as the District strives to continuously raise its expectations for excellence in our students, staff, and programs.

We feel it is therefore appropriate to briefly review some of the District's quality indicators, because they are the foundation upon which the continued success of our programs is built.

Curriculum Development. The District provides a comprehensive K-12 program; intervention, assessment, and full special-needs programming. Ongoing review, additions, and revisions are an integral part of the curriculum development. We are currently in year four of a five-year plan to realign our courses of study to reflect the rising federal and state standards.

Textbooks. The District's textbooks are selected to mirror state and national standards. Our goal is to maintain a five-year replacement cycle for all textbooks.

Technology. All schools in the District have been wired for networking and Internet access. Computers have been installed in all K-5 classrooms as well as computer labs at several sites to facilitate classroom and group learning. The fall of 2003, will realize the installation of a fiber optic network providing an upgrade to our existing networking capabilities as part of a Support Services Complex. The complex will also house a District training center to enhance staff development.

Testing. Our SAT scores continue to remain an average of 50 points higher than the national average and 20 points higher than the State average. Over 86% of the students participating in advance placement testing qualify for college credit. ACT scores for the District also remain points above the State and national average. The District has maintained an "Effective" category, but continues to strive for an excellent rating as defined by the Ohio Department of Education, in compliance with the No Child Left Behind Act.

Class Size. There is an average of 21.1 students per class in grades K through 5. The class size for grades 6 – 12 is dependent upon the class offered and ranges from 8 – 25 students. This range compares very favorably among our like districts as well as other districts in the area.

Co-curricular and Extra-curricular. Over 2,400 students are involved in inter-scholastic athletics, programs, clubs, honoraries, and contests representing all areas of academics and athletics.

Staff Development. A continuum of multi-faceted opportunities are provided to keep staff current in methodology and technology through District in-service training, university courses, and partnerships with other educational associations and entities.

Comprehensive Support for Special Needs. Through the efforts of many, the District is prepared to meet the needs of all students, but extra attention has been given to ensure that the District continues to provide an outstanding and comprehensive special-needs and gifted program, along with interventions for identified students in specific areas.

ECONOMIC CONDITIONS AND OUTLOOK

The District's population growth has slowed since its massive growth spurt in the 1960's, which saw double-digit increases. The latest Census shows the combined city and township population to be just over 48,000 people in about 23,000 households.

This growth is carefully managed and controlled without annexations of property, which result in the need to extend the District's services to new areas. All indicators show that there is continued residential development planned and will continue to the west of the City. Fiscal 2002 saw the completion of several residential neighborhoods, as well as two retirement centers/assisted living facilities.

Growth in commercial development continues, also to the west of the City. With the opening of Meijer's complex in 1994, new sewer lines constructed in the area around Central Avenue has continued to develop, including both commercial and light industrial businesses. This development led to the construction of a new junior high school on the western border of the District in 1997.

Through diligence and prudence, the economic condition of the District remains somewhat stable. This is due mainly to the fact that the District lies in an affluent community with a small commercial tax base, which eliminates fluctuations in revenue sources due to changes in the business climate. However, the District continues to face problematic economic situations, due in large part to the reliance on property tax revenues and current economic times. Ohio law prohibits growth in real estate tax revenues which are due simply to appreciation in property value.

The District's financial condition continues to be an area of focus for the Board of Education and administration. Litigation of the State School Funding issue known as the "DeRolph Case", the Perry County Court of Common Pleas in 1995 declared the State's method of funding school districts to be unconstitutional. On March 24, 1997, the Ohio Supreme Court upheld most of the Perry County ruling by declaring certain portions of the Ohio school funding plan unconstitutional. Declared unconstitutional was the State's 'school foundation program', which provides significant amounts of monetary support to the District.

On September 6, 2001, the Ohio Supreme Court again issued its opinion regarding the state's school funding plan. The decision identified aspects of the current plan that require modification if the plan is to be considered constitutional, including:

- A change in the school districts that are used as the basis for determining the base cost support amount. Any change in the amount of funds distributed to school districts as a result of this change must be retroactive to July 1, 2001, although a timeline for distribution is not specified.
- Fully funding parity aid no later than the beginning of fiscal year 2004 rather than fiscal year 2006.

The State of Ohio, in a motion filed September 17, 2001, asked the Court to reconsider and clarify the parts of the decision changing the school districts that are used as the basis for determining the base cost support amount and the requirement that changes be made retroactive to July 1, 2001. In November 2001, the Court granted the request for reconsideration, but also ordered the parties to participate in a settlement conference with a court appointed mediator. On March 21, 2002, the mediator issued his final report indicating that the conference was unable to produce a settlement.

On December 11, 2002, the Ohio Supreme Court, in a 4-3 decision on the aforesaid motion for reconsideration, concluded that the State did not comply with the requirement of providing a "thorough and efficient system of common schools", even after noting and crediting significant State steps in recent years. The Court directed the General Assembly "to enact a school funding scheme that is thorough and efficient, as is explained in (its prior decisions in 1997 and 2001), and the accompanying concurrences". The September 2001 decision was vacated, and jurisdiction of the case was not retained.

With particular respect to funding sources, the Supreme Court had concluded in its 1997 and 2000 decisions, and one concurring Justice stated again in the December 2002 decision and again in 2003 that school funding in Ohio over-relies on local property taxes.

In 1995, the District passed a building issue totaling almost \$19 million to build a third junior high school, and to make additions and or upgrades to each of the eleven existing school buildings. Timberstone Junior High was opened to students in the fall of 1997. As part of the addition of a third junior high school, grade levels were realigned, moving the sixth grades to the junior highs, in an attempt to alleviate the overcrowding in the elementary buildings. However, just two short years later, overcrowding again became an issue in the elementary buildings. In response, voters of the District in November 2000 passed a \$20.75 million dollar bond issue for repair and renovation of all the school buildings in the District.

Soon after the bond issue was approved, the District issued notes for \$8 million in order to begin the various improvement and renovation projects planned for the bond proceeds. On May 8, 2001, the District issued \$8 million of the general obligation bonds; these proceeds were used to retire the bond anticipation note on July 25, 2001.

On September 1, 2001, the District issued general obligation bonds in the amount of \$13.875 million to refund the Series 1995 School Improvement general obligation bonds. This resulted in an extended maturity (December 1, 2002), and lower yearly payment requirements.

On January 31, 2002, the District issued notes for the remaining \$12.75 million authorized by the voters in November 2000, to continue the various improvement and renovation projects started in 2001. These notes were retired on July 25, 2002 and new notes for \$4,750,000 were issued on August 2, 2002 to finance continuation of the projects.

During fiscal year 2002, the District issued \$8.0 million in general obligation bonds to continue improvements and renovations to various school facilities. We are concluding the final phase of the bond issue projects.

SIGNIFICANT ACCOMPLISHMENTS/EVENTS FOR THE YEAR: 2003

Academic Progress and Financial Accountability continues to be the underlying theme for the year. During the fiscal year, the District continued to follow the recommendations from third party “experts” that provided a very thorough and extensive analysis of the operations of the District as well as continuing efforts with several advisory groups.

Last year, the District received resounding support - of over 54% - from the community in the passage of a 4.9 mills continuing levy. It was to generate about \$6 million per year to help the District maintain the current operations and programming of the district.

4.6 mills of the levy was earmarked for general operating expenses such as textbooks and supplies, personnel, and to help offset increasing utility and health costs. The remaining .3 mills was for permanent improvements to help support and protect the investment made in the District facilities.

The passage of that levy was to maintain the current budgetary needs of the district for 3-4 years. But, changes in state funding coupled with the current economic climate, the district is facing unanticipated financial needs in the near future. Discussions have begun to determine the need for additional revenue from the community within the next year.

Academically, we are in year four of an aggressive five-year curriculum realignment as defined through the Phi Delta Kappa (PDK), a nationally recognized educational honor society. Last year, new courses of study in mathematics and language arts were implemented throughout the K-12 curriculum. The science and social studies teams have started the implementation of new courses of study this school year. The remaining disciplines are currently seeking to implement new standards in year five.

The District also continues to comply with new standards and mandates from the State and Federal levels, including the No Child Left Behind Act which is an initiative instituted by the Federal government.

Also of note, was the implementation of the third year of performance-based compensation for all administrators tied to specific district and building level goals and Board of Education initiatives. This clearly demonstrates the District's alignment toward achieving the desired academic proficiencies and economic efficiencies.

In terms of the District's physical plant, as the fiscal year closed, phase three of the \$20.7 million bond improvements has been completed; replacing windows, roofing, paving as well as various safety and growth improvements to many of the school buildings and athletic fields.

This year marks the opening of the new Support Services Complex. This complex houses the bus garage and maintenance bays, district warehouse, and serves as the technology hub for the District. The idea for the complex grew out of the CEG recommendations and was funded primarily through the bond issue.

Late last year, the Land Use and Facilities Committee presented their recommendations to the Board of Education following six months of research and study. Following this report, the Board opted out of the Ohio School Facilities Commission (OSFC) Master Plan with the intent to add to the body of research done by the Land Use and Facilities Committee to develop a longer range Master Plan for the district. An expanded committee has begun the planning and research for an extensive 5 – 10 year plan to be completed by the end of the current fiscal year.

The Program-Based Budgeting System, implemented in fiscal year 2001 under the direction of the Superintendent and Chief Fiscal Officer, continued to grow in scope and size during 2002-2003 helping to prepare prioritization of reductions prior to the levy as well as enhancements following the successful passage of the levy in November. This process will continue to expand during 2003 as the need for additional reductions become necessary to meet the demands on the current budgetary constraints.

Also of note is the continuation of Interest-Based Bargaining with both employee unions. Successful ratification of contracts were completed within days in 2002. Talks with both unions continue to signal a working partnership with the unions leading to the next round of contract talks next year.

This past year also heralded new management with the hiring of a new superintendent and treasurer/chief financial officer for the District.

MAJOR INITIATIVES FOR THE FUTURE

The District will continue to implement new courses of study in an ongoing effort to meet the national and State standards and effect student outcomes to achieve all 22 of the indicators of education excellence on the 'Ohio Report Card'. Currently, only a minority of the 740 public and community school districts in the State have attained this goal.

Work on the various bond issue projects will enter Phase Three and the completion of the Support Services Complex and various improvements continue throughout the District. The Board has issued \$4.75 million in notes during fiscal 2003 to complete the various projects.

FINANCIAL INFORMATION

Internal Accounting and Budgetary Control. The District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Governmental fund operations are presented on the modified accrual basis, whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Proprietary funds and the private-purpose trust fund operations are presented on the accrual basis, whereby revenues are recognized when earned, and expenses when incurred.

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from the implementation.

The District utilizes a fully automated accounting system, as well as an automated system of control for fixed assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the object account level within a function and fund. All purchase order requests must be approved by the Director of Business Affairs and certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports, which detail year-to-date expenditures and encumbrances versus the original appropriation, plus any additional appropriations made to date. In addition to interim financial statements, each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible.

As an additional safeguard, a blanket bond covers all employees, and a separate, higher limit bond covers certain individuals in policy-making roles.

The basis of accounting and the basis of presentation of the District's various funds are fully described in Note 2 of the basic financial statements. Additional information on the District's budgetary accounting can also be found in Note 2.

FINANCIAL REPORTING

For the fiscal year ending June 30, 2003, the District implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments". This pronouncement significantly changes the way the District reports its financial condition and results of operations as compared to previous years. The new basic financial statements for reporting on the District's financial activities are as follows:

Government-wide financial statements: These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by business enterprises. The government-wide statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. The District did not have any business-type activities.

Fund financial statements: These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Schedule of budgetary comparisons: This schedule presents comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this new reporting model, management is responsible for preparing a Discussion and Analysis of the District. This discussion appears after the Report of Independent Auditors in the financial section of this report. The Management Discussion and Analysis provides an assessment of the District's finances for 2003.

See Note 3.A for a full description of all applicable GASB pronouncements implemented during fiscal 2003 and their effect on fund balances previously reported by the District.

Cash Management. The Board has an aggressive cash management program, which consists of expediting the receipt of revenues and prudently depositing cash. The District invests available cash in instruments issued by the United States Government, the State Treasurer's Investment Pool (STAR Ohio), and other investments authorized by Chapter 135 of the Ohio Revised Code. Except for nonparticipating investment contracts, such as certificates of deposit and repurchase agreements, investments at June 30, 2003 have been reported at fair value, which is based upon quoted market prices. The total amount of interest earned was \$443,639 for the year ended June 30, 2003; \$285,794 of which was credited directly to the general fund. This cash management program is beneficial because of access to daily balances, which enables the Board to maintain minimum balance accounts and invest to the maximum extent.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation as well as by qualified securities pledged by the institution holding the assets. By law, financial institutions may establish a collateral pool to cover all public deposits. The face value of the pooled collateral must equal at least 110 percent of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

Risk Management. The District operates and manages the health and dental benefits for employees on a self-insured basis. A third party administrator processes and pays the claims. The dental benefits liability is limited by a stop-loss of \$1,000 annually per employee. The health benefits liability is limited by a stop-loss of \$125,000 annually per employee and \$6.396 million annually in aggregate. The advantages of the self-insurance arrangement include retention of reserves by the District, as well as savings on administrative costs. The control of the plan rests with the District.

The District uses the State Worker's Compensation plan and pays the premium based on a rate of \$1.1276 per \$100 of salaries. The District contracts with commercial carriers for general liability, property and casualty, vehicle, and various other insurances. See Note 12 to the basic financial statements for additional risk management information.

INDEPENDENT AUDIT

Provisions of State statute require the District's financial statements to be subjected to an annual audit by an independent auditor. Those provisions have been satisfied and the opinion of the District's independent auditors is included herein.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio. The District adopted and has been in conformance with that system effective with its annual financial report for the 1979 fiscal year.

AWARDS

Certificate of Achievement. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Sylvania City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose content conforms to program standards. Such a report must satisfy both accounting principles generally accepted in the United States of America as applied to governmental units and applicable legal requirements.

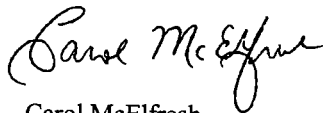

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA for review.

ACKNOWLEDGMENTS

The publication of this report significantly increases the accountability of the District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office and various administrators and employees of the District. Assistance of the County Auditor's office staff and other outside agencies made possible the fair presentation of statistical data.

Special appreciation is expressed to our consultants, Trimble, Julian and Grube, Inc., who compiled this report, and to the firm of Weber, O'Brien Ltd., who audited this report. Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project.

Respectfully,

Carol McElfresh

SUPERINTENDENT OF SCHOOLS

The superintendent is the executive officer of the District and is responsible for administering policies adopted by the Board of Education. The superintendent is expected to provide leadership in all phases of policy formulation and is the chief advisor to the Board on all aspects of the educational program and total operation of the District. The Board appointed Lester H. Schultz, Superintendent of the Sylvania City School District effective July 1, 1997. He was replaced as Superintendent of the District by Bradley Rieger effective July 7, 2003.

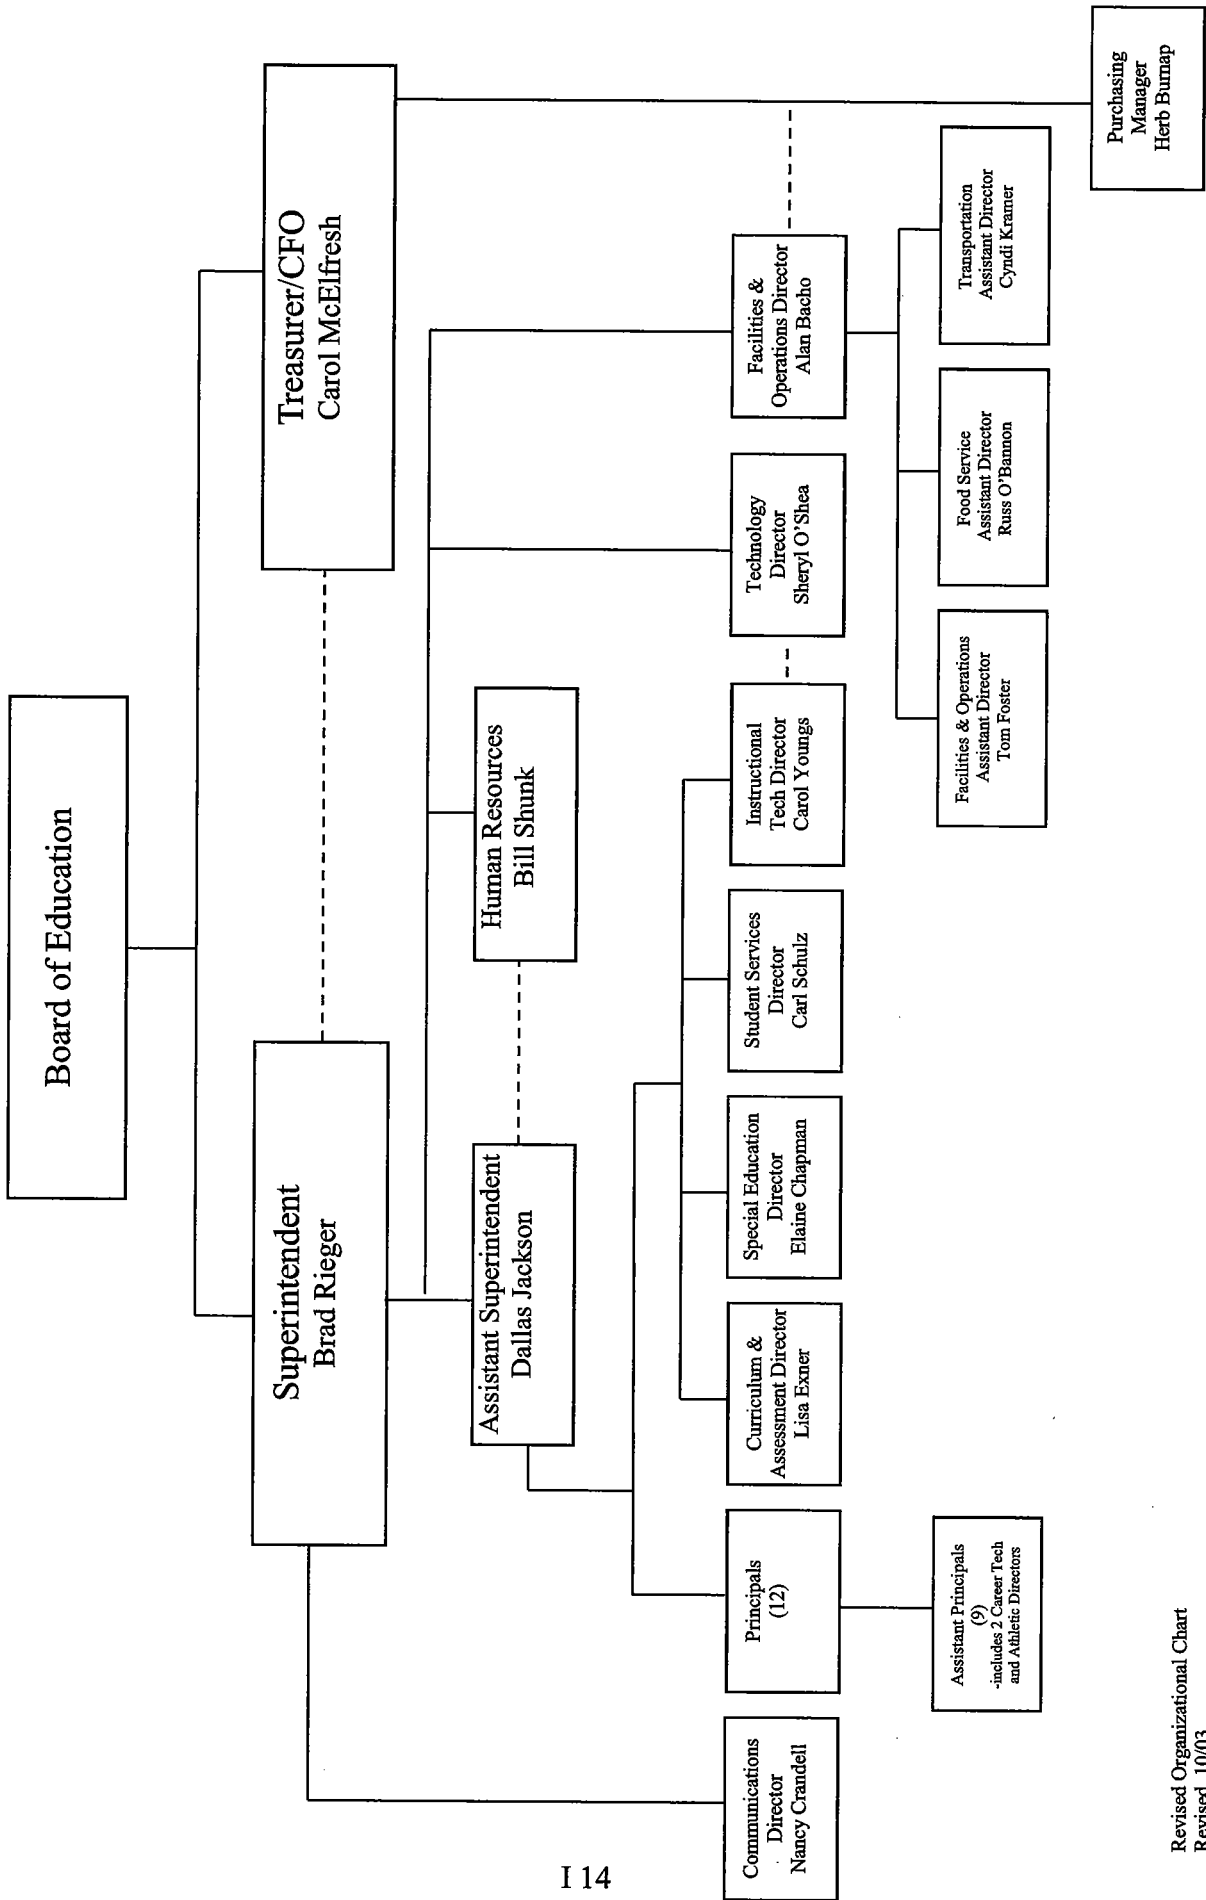

TREASURER/CFO

The treasurer serves as the fiscal officer of the District and, with the Board president, executes all conveyances made by the Board of Education. The Board appointed Arlene J. Wilson to the position September 3, 1997. She was replaced as Treasurer/CFO by Carol McElfresh effective September 18, 2003. Her term expires at the organizational meeting in January, 2004.

INDEPENDENT AUDITORS' REPORT

Board of Education
Sylvania City School District
6850 Monroe Street
Sylvania, OH 43560

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sylvania City School District ("District"), as of and for the year ended June 30, 2003, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Sylvania City School District as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States.

As described in Note 3, the District has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, as of and for the year ended June 30, 2003.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2003 on our consideration of Sylvania City School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages F3 - F14 and F60 - 61, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Sylvania City School District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly presented in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003
UNAUDITED**

The discussion and analysis of the Sylvania City School District's ("the District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2003. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2003 are as follows:

- In total, net assets of governmental activities decreased \$4,713,088 which represents a 38.85% decrease from 2002.
- General revenues accounted for \$62,918,356 in revenue or 91.23% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$6,044,989 or 8.77% of total revenues of \$68,963,345.
- The District had \$73,676,433 in expenses related to governmental activities; only \$6,044,989 of these expenses were offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$62,918,356 were not adequate to provide for these programs.
- The District has three major governmental funds. They are the general fund, debt service fund and building fund. The general fund had \$60,532,998 in revenues and other financing sources and \$63,996,675 in expenditures and other financing uses. During fiscal 2003, the general fund's fund balance decreased \$3,463,677 from \$(368,451) to \$(3,832,128).
- The debt service fund is a major fund of the District. The debt service fund had \$3,133,349 in revenues and \$3,181,248 in expenditures and other financing uses. During fiscal 2003, the debt service fund's fund balance decreased \$47,899 from \$3,536,864 to \$3,488,965.
- The building fund is a major fund of the District. The building fund had \$287,852 in revenues and other financing sources and \$6,515,203 in expenditures. During fiscal 2003, the building fund's fund balance decreased \$6,227,351 from \$8,289,073 to \$2,061,722.
- The District has \$46,617,867 in capital assets at June 30, 2003. This amount is net of accumulated depreciation in the amount of \$22,659,679. Fiscal year 2003 depreciation expense was \$1,542,815. Total capital assets, net of related debt to acquire or construct the assets, was \$10,318,711 at June 30, 2003.
- The District has \$44,852,389 in long-term liabilities outstanding at June 30, 2003. Of this total, \$2,698,578 is due within one year and \$42,153,811 is due in greater than one year.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund, debt service fund and building fund are by far the most significant funds, and the only governmental funds reported as major funds.

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2003?" The statement of net assets and the statement of activities answer this question. These statements include *all assets* and *liabilities* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

The statement of net assets and the statement of activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, food service operations, uniform school supplies activities and natatorium operations.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page F 9. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund, debt service fund and building fund all other governmental funds are considered nonmajor.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net assets and the statement of activities) and governmental *funds* is reconciled in the basic financial statements.

Proprietary Funds

Proprietary funds focus on the District's ongoing activities which are similar to those found in the private sector where net income is necessary or useful to sound financial management. Proprietary funds utilize the *accrual basis* of accounting under which revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred. The District's proprietary funds are internal service funds which are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis. Proprietary fund statements can be found on pages F 21 through F 23 of the basic financial statements. For reporting on the statement of net assets and the statement of activities, internal service fund activities are eliminated and consolidated with governmental activities.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private purpose trust fund. The District also acts in a trustee capacity as an agent for students. These activities are reported in an agency fund. All of the District's fiduciary activities are reported in separate statements of fiduciary net assets and changes in fiduciary net assets on pages F 24 and F 25. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

The District as a Whole

Recall that the statement of net assets provides the perspective of the District as a whole. This is the first year for government-wide financial statements using the full accrual basis of accounting, therefore a comparison with prior years is not available. A comparative analysis will be provided in future years when prior year information is available.

The table below provides a summary of the District's net assets for 2003.

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2003, the District's assets exceeded liabilities by \$7,417,871. Of this total \$6,386,458 is restricted in use and \$10,318,711 is invested in capital assets (net of related debt), resulting in a deficit to unrestricted net assets of \$9,287,298.

At year-end, capital assets represented 42.53% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment, vehicles and construction in progress. Capital assets, net of related debt to acquire the assets at June 30, 2003, was \$10,318,711. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net assets, \$6,386,458, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net assets is a deficit of \$9,287,298.

The table below shows the change in net assets for fiscal year 2003. Since this is the first year the District has prepared government-wide financial statements using the full accrual basis of accounting, revenue and expense comparisons to fiscal year 2002 are not available. A comparative analysis will be provided in future years when prior year information is available.

The dependence upon tax and other general revenues for governmental activities is apparent, 96.68% of instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 91.80%. The District's taxpayers, as a whole, are by far the primary support for the District's students.

The graph below presents the District's governmental activities revenue for fiscal year 2003.

Governmental Activities - General and Program Revenues

The District's Funds

The District's governmental funds (as presented on the balance sheet on page F 17) reported a combined fund balance of \$2,563,176, which is lower than last year's total of \$12,564,478. The June 30, 2002 fund balances have been restated as described in Note 3.A to the basic financial statements. Debt Service Fund

The District's debt service fund balance decreased \$47,899. The debt service fund had revenues of \$3,133,349 and expenditures of \$3,059,812. The debt service fund also had a transfer out of \$121,436. The primary revenue source was tax revenue which was \$2,758,089 in fiscal year 2003 and \$2,775,105 in fiscal year 2002. During fiscal year 2003, the debt service fund made \$1,630,422 in principal payments and \$1,390,664 in interest payments.

Building Fund

The District's building fund balance decreased \$6,227,351. The building fund's only revenue source was earnings on investments which amounted to \$154,806 in fiscal year 2003 and \$223,619 in fiscal year 2002. Total expenditures in the building fund were \$6,515,203 in fiscal year 2003 and \$6,223,673 in fiscal year 2002. The fund balance of the building fund at June 30, 2002 includes proceeds of an \$8,000,000 bond issue used for various construction projects undertaken by the District.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2003, the District amended its general fund budget numerous times. For the general fund, final budgeted revenues and other financing sources were \$61,853,049, which approximates the original budgeted revenues estimate of \$59,705,581. Actual revenues and other financing sources for fiscal 2003 was \$60,964,839. This represents a \$888,210 decrease from final budgeted revenues. This decrease is primarily due to earnings on investments due to the drastic cuts in interest rates during the year by the Federal Reserve Bank.

General fund final appropriations (appropriated expenditures plus other financing uses) were \$67,363,047, which approximates the original budgeted appropriations estimate of \$67,483,465. The actual budget basis expenditures and other financing uses for fiscal year 2003 totaled \$64,833,764, which was \$2,529,283 less than the final budget appropriations. The District was able to decrease appropriations primarily because salary costs proved to be lower than anticipated in the original and final budget.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2003, the District had \$46,617,867 invested in land, land improvements, buildings and improvements, furniture and equipment, vehicles and construction in progress (CIP). This entire amount is reported in governmental activities. The following table shows fiscal 2003 balances compared to 2002:

Total	<u>\$ 46,617,867</u>	<u>\$ 41,658,935</u>

The primary increase occurred in buildings and improvements and CIP which include various construction projects detailed in Note 9 to the basic financial statements. Total additions to capital assets for 2003 were \$9,361,735 and total disposals were \$2,859,988. The disposal of CIP of \$2,859,988 represents construction projects which were completed in fiscal year 2003 and transferred to buildings and improvements. The overall increase in capital assets of \$4,958,932 (net of accumulated depreciation) is primarily due to the construction in progress going on within the District in fiscal 2003.

Debt Administration

At June 30, 2003, the District had \$36,299,156 in general obligation bonds, asbestos note and capital lease obligations outstanding. Of this total, \$2,114,324 is due within one year and \$34,184,832 is due within greater than one year. The following table summarizes the bonds and notes outstanding.

Outstanding Debt, at Year End

	Governmental Activities <u>2003</u>	Governmental Activities <u>2002</u>
General obligation bonds	\$ 36,016,433	\$ 37,142,143
Asbestos note	17,792	29,654
Capital lease obligation	<u>264,931</u>	<u>504,894</u>
Total	<u>\$ 36,299,156</u>	<u>\$ 37,676,691</u>

The asbestos note was received in 1986. This note is scheduled to mature in fiscal year 2005 and bears no interest. Payment of principal and interest on the asbestos note is being made from the general fund.

The District has issued various general obligation bonds to provide resources to finance construction projects throughout the District and to refund previous bonds outstanding. The District's general obligation bonds consist of both current interest bonds and capital appreciation bonds. The District's general obligation bond activity is detailed in Note 10 to the basic financial statements.

The capital lease obligations represent agreements for copier and telephone equipment. The capital lease obligations are detailed in Note 8 of the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003
UNAUDITED

In addition to the bond, asbestos note and capital lease obligations outstanding at June 30, 2003, the District also has a bond anticipation note outstanding in the amount of \$4,750,000 at June 30, 2003. This note is scheduled to mature July 31, 2003. The note is reported as an obligation of the building fund, the fund which accounts for the construction projects financed by the proceeds.

At June 30, 2003, the District's overall legal debt margin was \$84,395,719 with an unvoted debt margin of \$1,299,147.

Current Financial Related Activities

In November 2002, the Sylvania School District passed a 4.9 mil levy that provided for a 4.6 mil general operating levy and a .3 mil permanent improvement levy. The passage of this levy allowed the District to continue its educational focus on teaching and learning along with making identified improvements to buildings and updating safety & growth issues.

In 2003, the District negotiated a 2-year agreement with its Unions for wages and benefits. In collaboration with the unions, there was a recent review of health care costs and subsequently a Labor/Management Insurance Committee has been established. The District has successfully negotiated a 3-year contract with Paramount Health Systems for a fully funded health care plan and a 3-year contract with MetLife for a managed dental care plan. Both contracts will save the District on future expenditures. Given the current economic environment, 3-year contracts are rare and a major accomplishment for the District. With the positive outcomes of the Labor/Management Process, the District anticipates continued use of Interest Based Bargaining.

Due to recent budget deficits experienced by the State of Ohio, the estimated increase to the State Foundation that Ohio provides each school district was reduced this year. Sylvania Schools Foundation estimate went from a 2.8% increase to 2.2%. The reduction equated to \$1.5 million less than forecasted for FY03 and each year beyond. Other changes to state funding calculations included using current Average Daily Membership (ADM) for determining per pupil ratios and the elimination of 3-year averaging that benefits districts with declining enrollment. Coupled with a change to the depreciation schedule of the tangible personal property tax and the overall low interest rates being paid for investments, Sylvania will be experiencing lower revenues than projected for the next 5 years.

As a result, the District is looking at cost saving measures to reduce spending, including a possible redistricting plan and reduction in workforce. Plans are being formulated by a Facilities Committee and Redistricting Committee that will encompass a more efficient use of our current facilities as well as planning for future growth and development needs. The final plans from both committees will be submitted to the Board in winter/spring for their approval.

The Program-Based Budgeting Committee will be reviewing the spending and hiring patterns of the District and will also be making recommendations on mid-year reductions and planning for permanent reductions for FY05.

With a major focus of the Sylvania School District on becoming an Excellent District in the 2004/05 School Year, tremendous effort and planning has been made by all staff to improve teaching and learning while maintaining fiscal responsibility. Goals are in place for the District to raise academic proficiencies as stated on the State Report Card to be awarded an Excellent rating in the coming year.

To assist the effort, the District is currently in the third year of a 5-Year Academic Curriculum Plan, defined by a recent Phi Delta Kappa audit. This effort will essentially ensure that our content standards are in line with both State and Federal standards and is necessary to provide the content and strategies to guide this District to excellence in both teaching and learning.

Additionally, the recent completion of a Support Services Complex, which serves as the new fiber optics hub, will greatly enhance the communication and operational efficiencies throughout the District. The complex is also home to the District's first staff training facility. This state-of-the-art training center will facilitate the training efforts for both the teaching and classified staffs in the District.

A lot of work has yet to be done, but all in all, the planning and groundwork has been done and will provide the District with the roadmap to meet both the academic and economic challenges in the future.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

Net change in fund balances - total governmental funds	\$	(10,002,537)
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeds depreciation expense in the current period.		4,958,932
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the amount by which 2003 revenue amounts were less than 2002 revenue amounts.		(468,406)
Repayment of capital lease obligation principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		239,963
Repayment of bond and note principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		1,667,284
In the statement of activities, interest is accrued on outstanding bonds and notes, whereas in governmental funds, an interest expenditure is reported when due.		(504,348)
Some expenses reported in the statement of activities, such as compensated absences and pension obligations, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(453,728)
Governmental funds report expenditures for inventory when purchased. However, in the statement of activities, they are reported as an expense when consumed.		1,235
Internal service funds are used by management to charge the costs of insurance and intra-district services to individual funds that are not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service funds revenues are eliminated. The net revenue (expense) of the internal service funds are allocated among the governmental activities.		(151,483)

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003**

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Sylvania City School District (the "District") is located in the greater metropolitan Toledo area of Lucas County in northwestern Ohio. The District encompasses all of the city of Sylvania, and portions of Sylvania township.

The District is organized under Section 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the District is vested in the Board of Education, consisting of five members elected at large for staggered four-year terms.

The District ranks as the 31st largest by enrollment among the 740 public and community school districts in the state. It currently operates 7 elementary schools, 3 middle schools, and 2 comprehensive high schools. The District employs 271 non-certified and 591 certified full-time and part-time employees to provide services to approximately 7,545 students in grades K through 12 and various community groups.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities and proprietary funds provided they do not conflict with or contradict GASB pronouncements. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity". The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organizations' governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organizations resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based upon the application of this criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government). The following organizations are described due to their relationship to the District:

JOINTLY GOVERNED ORGANIZATIONS

Northwest Ohio Computer Association (NWOCA)

The District is a participant with 28 other school districts in a jointly governed organization to operate NWOCA. NWOCA was formed for the purpose of providing computer services. NWOCA is governed by a board of directors consisting of the superintendents of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the board. The District does not have an ongoing financial interest or responsibility in NWOCA.

Sylvania Area Joint Recreation District (SAJRD)

The District, in conjunction with the City of Sylvania and the Sylvania Township, formed the Sylvania Area Joint Recreation District under the authority of Ohio Revised Code Section 755.14(C). The SAJRD Board of Trustees is composed of twelve members, four of whom are appointed by each of the separate governmental entities identified above. Funding for the SAJRD is provided by a voter-approved tax levy on all real property located within the Sylvania School District. Taxes are collected by the County Auditor and remitted to the SAJRD Board of Trustees.

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General Fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources and payment of general obligation bond and note principal, interest and related costs.

Building Fund - The building fund is used to account for the receipts and expenditures related to all special bond funds in the District and to account for receipts and expenditures involved in the replacement or updating of equipment essential for the instruction of students in job skills. All proceeds from the sale of bonds, notes, or certificates of indebtedness, must be paid into this fund. Expenditures recorded here represent the costs of acquiring and improving capital facilities, including real property.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Other governmental funds of the District are used to account for (a) financial resources to be used for the acquisition, construction, or improvement of capital facilities other than those accounted for in the building fund or financed by proprietary funds; and (b) for food service, uniform school supplies and natatorium services; and (c) for grants and other resources whose use is restricted to a particular purpose.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no enterprise funds. The following is a description of the District's internal service funds:

Internal Service Funds - The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the district, or to other governments, on a cost-reimbursement basis. The internal service funds of the District account for a self-insurance program for employee health and dental benefits to employees and for intra-district services.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for student activities.

C. Basis of Presentation and Measurement Focus

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements distinguish between those activities that are governmental and those that are considered business-type activities. The District has no business-type activities. The internal service funds operating activities are eliminated to avoid overstatement of revenues and expenses.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the statement of net assets.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of fund net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's internal service funds are charges for sales and services. Operating expenses for internal service funds include the cost of sales and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The private purpose trust fund is reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donation. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6).

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, and student fees.

Deferred Revenue - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2003, but which were levied to finance fiscal year 2004 operation, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities received during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the object level within each function within each fund for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased tax rates). By no later than January 20, the Board-adopted budget is filed with Lucas County Budget Commission for rate determination.

Estimated Resources:

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commissions' certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts from the certificate of estimated resources that was in effect at the time the original permanent appropriations covering the entire fiscal year were passed by the Board of Education. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts from the certificate of amended resources that was in effect at the time the final appropriations were passed by the Board of Education.

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, at the object level within each function within each fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at any level of control. Any revisions that alter the level of budgetary control must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budget amounts reflect the first appropriation for that fund covering the entire fiscal year, including amounts automatically carried over from prior year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Lapsing of Appropriations:

Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Cash disbursements plus encumbrances may not legally exceed budgeted appropriations at the fund, function and/or object level.

F. Cash and Investments

To improve cash management, cash received by the District is pooled in a central bank account. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the basic financial statements.

During fiscal year 2003, investments were limited to overnight repurchase agreements, federal agency securities, and investments in the State Asset Treasury Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements, are reported at cost.

The District has invested funds in STAR Ohio during fiscal 2003. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2003.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. The Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2003 amounted to \$285,794, which includes \$221,463 assigned from other District funds.

For presentation on the basic financial statements, investments purchased by the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the Treasurer's investment account at fiscal year-end is provided in Note 4.

G. Inventory

On government-wide and fund financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the purchase method on the fund financial statements and using the consumption method on the government-wide statements.

On the fund financial statements, reported material and supplies inventory is equally offset by a fund balance reserve in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District increased its capitalization threshold from \$500 to \$5,000 for its general capital assets during fiscal 2003. The change in the capitalization policy was a result of differences in asset costs between the time that the previous policy was adopted and the current fiscal year and due to a perceived lack of future economic benefit to be derived from deferring the costs of smaller fixed assets (see note 9). The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Land improvements	20 - 45 years
Buildings and improvements	37 - 45 years
Furniture and equipment	5 - 20 years
Vehicles	6 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." Interfund balances between governmental funds are eliminated in the governmental activities column on the statement of net assets.

J. Compensated Absences

The District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30, by those employees who are currently eligible to receive termination benefits and by those employees who are expected to become eligible in the future. For purposes of establishing a liability for severance on employees expected to become eligible to retire in the future, all employees age 50 or greater with at least 10 years of service; or 20 years service at any age were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the internal service fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and notes are recognized as a liability on the fund financial statements when due.

L. Fund Balance Reserves

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, materials and supplies inventory, debt service, prepayments, property taxes unavailable for appropriation, and school bus purchases. The reserve for property taxes unavailable for appropriation represents taxes recognized as revenue under GAAP but not available for appropriation under state statute.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

N. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed. At fiscal year-end, because prepayments are not available to finance future governmental fund expenditures, the fund balance is reserved by an amount equal to the carrying value of the asset on the fund financial statements.

O. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

P. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets include the amount required by state statute to be set-aside for school bus purchases. See Note 16 for additional information regarding set-asides.

Q. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Transfers between governmental funds are eliminated for reporting on the government-wide statement of activities.

R. Nonpublic Schools

Within the District boundaries, St. Joseph and St. Francis schools are operated through the Toledo Catholic Diocese; Cathedral Christian and Hebrew Academy are operated as private schools. All of these schools provide instruction for grades K-8. Current state legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial school. The receipt and expenditure of these state monies by the District are reflected in a nonmajor governmental fund for financial reporting purposes.

S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal 2003.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Changes in Accounting Principles and Restatement of Fund Balance

For fiscal year 2003, the District has implemented GASB Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments", GASB Statement No. 37, "Basic Financial Statements for State and Local Governments: Omnibus", GASB Statement No. 38, "Certain Financial Statement Note Disclosures", GASB Statement No. 41, "Budgetary Comparison Schedule - Perspective Differences", and GASB Interpretation No. 6, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements". At June 30, 2002, there was no effect on fund balance as a result of implementing GASB Statements 37, 38 and 41.

GASB Statement No. 37 clarifies certain provisions of Statement No. 34, including the required content of the Management Discussion and Analysis, the classification of program revenues and the criteria for determining major funds. GASB Statement No. 38, modifies, establishes and rescinds certain financial statement note disclosures.

GASB Statement No. 41 allows the presentation of budgetary schedules as required supplementary information based on the fund, organization or program structure that the government uses for its legally adopted budget when significant budgetary perspective differences result in the school district not being able to present budgetary comparison for the general and each major special revenue fund.

GASB Interpretation No. 6 clarifies the application of standards for modified accrual recognition of certain liabilities and expenditures in areas where differences have arisen, or potentially could arise, in interpretation and practice.

GASB No. 34 creates new basic financial statements for reporting on the District's financial activities. The basic financial statements now include government-wide financial statements prepared on an accrual basis of accounting and fund financial statements which present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column.

The government-wide financial statements show the District's programs for governmental activities. The beginning net asset amount for governmental activities reflects the change in fund balance for governmental funds at June 30, 2002, caused by the elimination of internal service funds and the conversion to the accrual basis of accounting.

Governmental Activities - Fund Reclassification and Restatement of Fund Balance – Certain funds have been reclassified to properly reflect their intended purpose in accordance with GASB Statement No. 34. Certain funds previously reported as enterprise funds are now reported as nonmajor governmental funds and as a component of the general fund and a certain fund previously reported as an internal service fund is now reported as a component of the general fund. It was determined that GASB Interpretation No. 6 had an effect on fund balance as previously reported at June 30, 2002. The fund reclassifications and the implementation of GASB Interpretation No. 6 had the following effect on the District's governmental fund balances as previously reported:

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

These funds complied with Ohio state law, which does not permit a cash basis deficit at year-end. The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances are a result of adjustments for accrued liabilities.

NOTE 4 - EQUITY IN POOLED CASH AND CASH EQUIVALENTS

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Cash Equivalents". State statutes require the classification of monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the finance institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, Notes, Debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2% and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;

6. The State Treasury Asset Reserve of Ohio (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed 180 days in an amount not the exceed 25% of the interim monies available for investment at any one time; and
8. Under limited circumstances, corporate debt instruments rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of custodial credit risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments (including repurchase agreements) and Reverse Repurchase Agreements".

Deposits: At year-end, the carrying amount of the District's deposits was \$4,326,792 and the bank balance was \$5,380,361. Of the bank balance:

1. \$200,000 was covered by federal depository insurance or surety company bonds deposited with the District; and
2. \$5,180,361 was uninsured and unregistered as defined by GASB although it was secured by collateral held by third party trustees, pursuant to section 135.181 Ohio Revised Code, in collateralized pools securing all public funds on deposit with specific depository institutions; these securities not being in the name of the District. Although all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

Collateral is required for demand deposits and certificates of deposit in excess of all deposits not covered by federal depository insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies, obligations of the State of Ohio and its municipalities, and obligations of the other states. Obligations pledged to secure deposits must be delivered to a bank other than the institution in which the deposit is made. Written custodial agreements are required.

Investments: The District's investments are categorized below to give an indication of the level of custodial credit risk assumed by the entity at fiscal year-end. Category 1 includes investments that are insured or registered or for which securities are held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent, but not in the District's name. Investments in STAR Ohio are not categorized as they are not evidenced by securities that exist in physical or book entry form.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 5 - INTERFUND TRANSACTIONS - (Continued)

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received.

- B.** Interfund transfers for the fiscal year ended June 30, 2003, consisted of the following, as reported on the fund statements:

	<u>Amount</u>
Transfers from general fund to:	
Nonmajor governmental funds	\$ 124,516
Transfers from nonmajor governmental funds to:	
Nonmajor governmental funds	2,743
Transfers from debt service fund to:	
Building fund	121,436

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

The transfer between the debt service fund and the building fund is to properly report interest and fiscal charges for note retirements that are reported in the building fund.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2003 represents collections of calendar year 2002 taxes. Real property taxes received in calendar year 2003 were levied after April 1, 2002, on the assessed value listed as of January 1, 2002, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2003 represents collections of calendar year 2002 taxes. Public utility real and tangible personal property taxes received in calendar year 2003 became a lien December 31, 2001, were levied after April 1, 2002 and are collected in 2003 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 6 - PROPERTY TAXES - (Continued)

Tangible personal property tax revenue received during calendar 2003 (other than public utility property) represents the collection of 2003 taxes. Tangible personal property taxes received in calendar year 2003 were levied after April 1, 2002, on the value as of December 31, 2001. Tangible personal property is currently assessed at twenty-five percent of true value for capital assets and twenty-four percent of true value for inventory. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

The District receives property taxes from Lucas County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2003, are available to finance fiscal year 2003 operations. The amount available as an advance at June 30, 2003 was \$1,065,086 in the general fund, \$20,713 in the debt service fund and \$4,361 in the Permanent Improvement capital projects fund (a nonmajor governmental fund). The amount available for advance at June 30, 2002 was \$1,053,734 in the general fund and \$85,438 in the debt service fund.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2003 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2003 taxes were collected are:

	2002 Second Half Collections		2003 First Half Collections	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>

NOTE 7 - RECEIVABLES

Receivables at June 30, 2003 consisted of taxes, accounts (billings for user charged services and student fees), accrued interest, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs and the current year guarantee of Federal funds. A summary of the principal items of receivables reported on the statement of net assets follows:

Governmental Activities	
Property taxes	\$ 45,915,028
Accounts	5,038
Accrued interest	11,750
Intergovernmental	<u>418,574</u>
Total	<u>\$ 46,350,390</u>

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the subsequent year.

NOTE 8 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In prior fiscal years, the District entered into capital lease agreements for the acquisition of a telephone system and copiers. These leases meet the criteria of a capital lease as defined by FASB Statement No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term.

Capital lease payments have been reclassified and are reflected as debt service expenditures in the statement of revenues, expenditures and changes in fund balances - general fund. These expenditures are reflected as program/function expenditures on a budgetary basis. General fixed assets acquired by lease have been capitalized in the amount of \$859,793, which is equal to the present value of the future minimum lease payments as of the date of their inception. A corresponding liability was recorded in the statement of net assets. Principal payments in the 2003 fiscal year totaled \$239,963. This amount is reflected as debt service principal retirement in the general fund and as a reduction to the long-term liability on the statement of net assets.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of June 30, 2003:

<u>Year Ending June 30</u>	<u>Amount</u>

NOTE 10 - LONG-TERM OBLIGATIONS

A. General obligation bonds are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Accordingly, such unmatured obligations are reported on the statement of net assets. Payments of principal and interest relating to these liabilities are recorded as expenditures in the debt service fund. The source of payment is derived from a current 2.50 mill bonded debt tax levy.

B. Series 2001 Refunding General Obligation Bonds

On September 1, 2001, the District issued general obligation bonds (Series 2001 Refunding Bonds) to refund the Series 1995 School Improvement General Obligation Bonds (principal \$13,875,000; interest rate 5.85%, stated maturity December 1, 2022).

The refunding issue is comprised of both current interest bonds, par value \$13,555,000, and capital appreciation bonds par value \$2,955,000. The interest rates on the current interest bonds range from 2.60% - 5.00%. The capital appreciation bonds mature on December 1, 2012, December 1, 2013, and December 1, 2014, at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The effective interest rate on the capital appreciation bonds is 19.117%. The present value (as of issue date) reported in the statement of net assets at June 30, 2003 was \$319,978. Total accreted interest of \$119,346 has been included in the statement of net assets at June 30, 2003. The current interest bonds maturing on or after December 1, 2011 are subject to early redemption at the sole option of the District, at the following redemption prices, plus accrued interest:

C. Series 2001 School Improvement General Obligation Bonds

During fiscal 2001, the voters of the District authorized the issuance of \$20,750,000 in general obligation bonds, for the purpose of renovating and otherwise improving school facilities. These bonds will be retired from proceeds of an additional 1.34 (average) mill bonded debt tax levy.

The Series 2001 school improvement general obligation bond issue is comprised of both current interest bonds, par value \$7,890,000, and capital appreciation bonds, par value \$425,000. The capital appreciation bonds mature on December 1, 2012 (effective interest 12.0366%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The present value (as of issue date) reported in the statement of net assets at June 30, 2003 was \$109,999. Total accreted interest of \$30,009 has been included in the statement of net assets at June 30, 2003. D. Series 1998 Refunding General Obligation Bonds

On February 10, 1998, the District issued general obligation bonds (Series 1998 Refunding Bonds) to advance refund the callable portion of the Series 1992 School Improvement General Obligation Bonds (principal \$1,760,000; interest rate 6.60%; stated maturity June 1, 2016). The \$1,922,835 issuance proceeds were used to purchase securities which were placed in an irrevocable trust, which will provide resources for all future debt service payments on the refunded debt, which was called for redemption on June 1, 2002, at a cost of 102% of par value, plus accrued interest.

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

The refunding issue is comprised of both current interest bonds, par value \$1,670,000, and capital appreciation bonds, par value \$690,000. The average interest rate on the current interest bonds is 4.95%. The capital appreciation bonds mature on June 1, 2012 (effective interest 14.765%) and June 1, 2013 (effective interest 14.818%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The present value (as of issue date) reported in the statement of net assets at June 30, 2003 was \$89,772. Total accreted interest of \$96,761 has been included in the statement of net assets at June 30, 2003. The current interest bonds maturing on or after June 1, 2008 are subject to early redemption at the sole option of the District, at the following redemption prices, plus accrued interest:

<u>Redemption Dates</u>	<u>Redemption Price</u>
June 1, 2008 through May 31, 2009	101% of par
June 1, 2009 and thereafter	100% of par

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is June 1, 2016.

- E. Series 1992 School Improvement General Obligation Bonds**
Excluding amounts defeased during 1998, \$8,283,718 remained a general obligation of the District. This amount is comprised of capital appreciation bonds, par value \$11,040,000. The average interest rate on these bonds is 6.225%. The capital appreciation bonds have annual mandatory sinking fund redemption requirements and mature annually beginning June 1, 2003 through June 1, 2011 (average effective interest 6.862%) at a redemption price equal to 100% of the principal, plus accrued interest to date. The present value (as of issue date) reported in the statement of net assets at June 30, 2003 was \$3,084,907. Total accreted interest of \$2,450,661 has been included in the statement of net assets at June 30, 2003. The current interest bonds matured during fiscal 2002 on June 1, 2002.
- F.** During fiscal 2002, the District issued \$8,000,000 in general obligation bonds to provide financing for renovations and otherwise improving school facilities. The first principal payment is due in fiscal 2004.
- G.** In 1986, the District received a loan from the U.S. Environmental Protection Agency for an asbestos abatement project. The loan is interest free provided the District remains current on repayment. This loan is a general obligation of the District for which the full faith and credit of the District is pledged for repayment. The outstanding balance of the loan is reported in the statement of net assets. Payments are recorded as expenditures of the general fund.

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

H. The balance of the District's governmental activities long-term obligations at June 30, 2002 has been restated. The compensated absences liability increased \$427,299 from \$7,647,605 to \$8,074,904 due to the implementation of GASB Interpretation No. 6 and the fund reclassifications described in Note 3.A. In addition, pension obligations of \$527,649 at June 30, 2002 are not reported as a component of governmental activities long-term obligations as they are paid within one year of fiscal year-end. Pension obligations are reported as an intergovernmental payable on the statement of net assets. The effect on the total governmental activities long-term obligations at July 1, 2002 was a decrease of \$100,350 from \$45,985,945 to \$45,885,595. During the fiscal year 2003, the following changes occurred in governmental activities long-term obligations:

J. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District.

The effects of these debt limitations at June 30, 2003 are a voted debt margin of \$84,395,719 (including available funds of \$3,488,965) and an unvoted debt margin of \$1,299,147.

NOTE 11 - NOTES PAYABLE

During fiscal 2002, the District issued a \$12,750,000 bond anticipation notes to continue various school improvement projects. During fiscal 2003, the District repaid this note and issued another note for \$4,750,000. The liability for this note has been reported in the building fund, the fund which received the proceeds upon issuance and accounts for the construction activity.

The following is a description of the District's bond anticipation notes outstanding at June 30, 2003:

<u>Purpose</u>	<u>Interest Rate</u>	<u>Issue Date</u>	<u>Maturity Date</u>	<u>Notes Outstanding 07/01/02</u>	<u>Additions in 2003</u>	<u>Retired in 2003</u>	<u>Notes Outstanding 06/30/03</u>

NOTE 12 - RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2003, the District purchased commercial coverage for property, property and contents with a limit of \$112,626,852 and a \$1,000 deductible.

General liability is protected by the Selective Insurance Company of South Carolina with a \$4,000,000 annual aggregate/\$2,000,000 single occurrence limit and a \$1,000 per claim deductible.

Vehicles are covered by Selective Insurance Company of South Carolina and hold a \$500 deductible for comprehensive coverage. Vehicles have been re-insured under an umbrella liability policy, with a \$2,000,000 per occurrence limitation.

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There was no significant reduction in coverage from the prior year.

B. Group Health and Dental Insurance

The District continues to provide employee dental benefits through a self-insurance program. The District maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. This plan provides dental benefits with a \$50 family and \$25 single deductible. A third party administrator, Core Source, reviews all claims, which are then paid by the District. The District has not purchased stop-loss insurance since December 31, 1993, because sufficient reserves have existed since that time, and because the maximum benefit per year per employee (single or family) is limited to \$1,000. The District is considering subsidizing future rate increases with current excess reserves. The District pays into the self-insurance internal service fund \$61.45 per employee per month, which represents the entire premium required. The premium is paid by the fund that pays the salary for the employee and is based on historical cost information.

The District provides employee medical/surgical benefits through a self insurance program. The District maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. This plan provides employees a choice of an HMO or traditional levels of coverage. A third party administrator, Findley-Davies, Inc., located in Toledo, Ohio, reviews all claims which are then paid by the District. The District purchases stop-loss coverage of \$125,000 per employee per year, and \$6.396 million group aggregate for fiscal 2003. The District pays into the self-insurance internal service fund \$705.81 (HMO) and \$1,362.90 (traditional) for family coverage or \$267.64 (HMO) and \$516.84 (traditional) for individual coverage per month for full-time employees. The premium is paid by the fund that pays the salary for the employee and is based on historical cost information. Employees eligible for coverage who work less than full-time pay a portion of their monthly premium.

The claims liability is \$569,282 reported in the internal service fund at June 30, 2003, is based on an estimate provided by the third party administrators and the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling the claims. Changes in claims activity for the past two fiscal years are as follows:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2003	\$ 568,013	\$5,933,234	\$(5,931,965)	\$ 569,282
2002	584,848	4,546,040	(4,562,875)	568,013

Post employment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 14. As such, no funding provisions are required by the District.

C. Workers' Compensation

In the 1998 fiscal year, the District changed the way it pays for workers' compensation insurance. In policy years (calendar years) 1992 through 1997, the District had elected to be "retrospectively-rated" by the Ohio Bureau of Workers' Compensation. This allowed the District to pay between 33%-46% of the premium which would otherwise have been paid in those years. At the end of each policy year, the Bureau then billed the District for actual claims paid. At the end of a ten-year period, which ended December 31, 2001, the District will be assessed annually through 2007 "final reserves" for actual claims payments made from 1992 to 1997. These reserves are estimated to be 50% of the original claims payment. The District's workers' compensation consultant estimates the first "final reserve" payment due in 2003 to be \$18,034. While the District believes final payment amounts will be in excess of these estimates, a liability for claims payable has nonetheless been recorded in the statement of net assets at June 30, 2003, in the amount of \$134,000.

For the 2003 policy year (calendar year) the District will be assessed the full-rate premium as a merit-rated employer, which has been established at 1.1276 per \$100 of payroll. A current liability for accrued benefits has been recorded at June 30, 2003 in all funds reporting paid wages for the period January 1, 2003 to June 30, 2003.

NOTE 13 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State Statute Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, or by calling (614) 222-5853.

Plan members are required to contribute 9% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14% of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2003, 8.17% of annual covered salary was the portion used to fund pension obligations. For fiscal year 2002, 5.46% of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The adequacy of the contribution rates is determined annually. The District's required contributions to SERS for the fiscal years ended June 30, 2003, 2002, and 2001 were \$1,228,920, \$1,167,838, and \$1,161,575, respectively; 40.44% has been contributed for fiscal year 2003 and 100% for the fiscal years 2002 and 2001. \$732,000, represents the unpaid contribution for fiscal year 2003.

B. State Teachers Retirement System

The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing, multiple-employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides retirement and disability benefits, annual cost-of-living adjustments, and death and survivor benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3371, or by calling (614) 227-4090.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Plan members are required to contribute 9.3% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14% of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2003, 13% of annual covered salary was the portion used to fund pension obligations. For fiscal year 2002, 9.5% of annual covered salary was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employee contributions. The District's required contributions to STRS for the fiscal years ended June 30, 2003, 2002, and 2001 were \$4,650,931, \$4,495,205, and \$3,951,842, respectively; 83.75% has been contributed for fiscal year 2003 and 100% for the fiscal years 2002 and 2001. \$755,972, represents the unpaid contribution for fiscal year 2003.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by SERS or STRS have an option to choose Social Security or SERS/STRS. As of June 30, 2003, certain members of the Board of Education have elected Social Security. The Board's liability is 6.2% of wages paid.

NOTE 14 - POSTEMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through STRS, and to retired non-certified employees and their dependents through SERS. Benefits include hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare Part B premiums. Benefit provisions and the obligations to contribute are established by STRS and SERS based on authority granted by state statute. Both STRS and SERS are funded on a pay-as-you-go-basis.

The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14% of covered payroll. For this fiscal year, the State Teachers Retirement Board allocated employer contributions equal to 1% of covered payroll to the Health Care Reserve fund. For the District, this amount equaled \$332,209 during fiscal 2003.

STRS pays health care benefits from the Health Care Reserve fund. The balance in the Health Care Reserve fund was \$2.8 billion at June 30, 2003. For the fiscal year ended June 30, 2003, net health care costs paid by STRS were \$352.301 million and STRS had 108,294 eligible benefit recipients.

For SERS, coverage is made available to service retirees with 10 or more years of qualifying service credit, and disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than 25 years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

For this fiscal year, employer contributions to fund health care benefits were 5.83% of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2003, the minimum pay has been established at \$14,500. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund.

The target level for the health care reserve is 150% of annual health care expenses. Expenses for health care at June 30, 2003 were \$204.931 million and the target level was \$307.4 million. At June 30, 2003, SERS had net assets available for payment of health care benefits of \$303.6 million and SERS had approximately 50,000 participants receiving health care benefits. For the District, the amount to fund health care benefits, including surcharge, equaled \$604,892 during the 2003 fiscal year.

FOR THE FISCAL YEAR ENDED JUNE 30, 2003**

NOTE 15 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However in the opinion of management, any such disallowed claims will not have a material adverse effect on the financial position of the District.

B. Litigation

In the normal course of operations, the District may be subject to litigation and claims. While the outcome of such matters cannot presently be determined, management believes that their ultimate resolution will not have a material adverse effect on the financial statements.

C. State School Funding Decision

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the state's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school funding scheme that is thorough and efficient...". The District is currently unable to determine what effect, if any, this decision will have on its future state funding and its financial operations.

NOTE 16 - STATUTORY RESERVES

The District is required by State statute to annually set-aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year-end. These amounts must be carried forward to be used for the same purposes in future years. In prior years, the District was also required to set aside money for budget stabilization. These monies were spent on allowable investments during fiscal 2003.

LUCAS COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 16 - STATUTORY RESERVES - (Continued)

The following cash basis information describes the change in the year-end set-aside amounts for textbooks, capital acquisition, and budget stabilization. Disclosure of this information is required by State statute.

	<u>Textbooks/ Instructional Materials</u>	<u>Capital Acquisition</u>	<u>Budget Stabilization</u>
Set-aside cash balance as of June 30, 2002	\$ 35,867	\$ -	\$ 52,762
Current year set-aside requirement	1,101,852	1,101,852	-
Current year offset	-	(167,800)	-
Qualifying disbursements	<u>(1,498,780)</u>	<u>(1,518,349)</u>	<u>(52,762)</u>
Total	<u>\$ (361,061)</u>	<u>\$ (584,297)</u>	<u>\$ -</u>
Balance carried forward to FY 2004	<u>\$ (361,061)</u>	<u>\$ -</u>	<u>\$ -</u>

The District had offsets and qualifying disbursements during the year that reduced the set-aside amounts below zero for the textbook/instructional materials reserve, this extra amount may be used to reduce the set-aside requirement for future years. The negative amount is therefore presented as being carried forward to next fiscal year.

Although the District had offsets and qualifying disbursements during the year that reduced the set-aside amounts below zero for the capital acquisition reserve, this extra amount may not be used to reduce the set-aside requirement for future years. The negative amount is therefore not presented as being carrier forward to the next fiscal year.

In addition to the above statutory reserves, the District also received monies restricted for school bus purchases.

A schedule of the governmental fund restricted assets at June 30, 2003 follows:

Amount restricted for school bus purchases	<u>\$ 227,178</u>
Total restricted assets	<u>\$ 227,178</u>

NOTE 17 - OUSTANDING CONTRACTUAL COMMITMENTS

At June 30, 2003, the District has construction commitments on which work has not been completed, totaling approximately \$3,000,000 which will be funded by existing resources or the issuance of new revenue debt.

NOTE 18 - SIGNIFICANT SUBSEQUENT EVENTS

On July 31, 2003, the District retired the \$4,750,000 note issue and reissued another note in the amount of \$3,500,000 with an interest rate of 1.48% and a maturity date of July 29, 2004.

COMBINING STATEMENTS - NONMAJOR FUNDS**

Nonmajor Special Revenue Funds

The special revenue funds are established to account for revenues from specific sources which, legally or otherwise, are restricted to expenditures for specific purposes. A description of the District's special revenue funds follows:

Public School Support Section 5705.12, Revised Code

A fund provided to account for specific local revenue sources, other than taxes or expendable trusts (i.e., profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by Board resolution. Such expenditures may include curricular and extra-curricular related purchases.

Other Grants Sections 5705.09 and 5705.13, Revised Code

A fund used to account for the proceeds of specific revenue sources (except for state and federal grants) that are legally restricted to expenditures for specified purposes.

District Managed Student Activity Section 3313.062, Revised Code

A fund provided to account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

Auxiliary Services Current Budget Bill, appropriation line item 200-511

A fund to account for receipts and expenditures incurred in providing services and materials to pupils attending non-public schools within the District.

Career Development Grant Current Budget Bill, appropriation line item 200-524

This fund accounts for State monies intended to support programs encouraging achievement in science and math through teacher in-service and instructional enhancements; to implement mandated competency based instruction in the areas of written expression, math and reading; to support the implementation of energy conservation measures; or to supplement the local acquisition of textbooks, instructional supplies, and computer equipment/software.

Teacher Development Current Budget Bill, appropriation line item 200-527

A fund provided to account for receipts and expenditures necessary for providing assistance to local school districts for the development of in-service programs for professional staff.

Management Information Systems Am. Sub. HB 111

To account for funds associated with the state-wide requirements of the Education Management Information System (EMIS).

Data Communications for Schools Section 5705.09, Revised Code

A fund provided to account for money appropriated for the costs incurred in connecting schools to the Ohio Educational Computer Network.

SchoolNet Professional Development Section 5705.09, Revised Code

A fund provided to account for a limited number of professional development subsidy grants.

Instructional Materials Subsidy Sub. House Bill 412

To account for monies received from the State of Ohio for textbooks, instructional software, instructional materials, and any other materials the District deems to be helpful in providing appropriate instruction to students in the following subject areas: reading, writing, mathematics, science, and citizenship.

Nonmonetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the schedule at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND ON
INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Education
Sylvania City School District
6850 Monroe Street
Sylvania, Ohio 43560

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sylvania City School District ("District") as of and for the year ended June 30, 2003, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 29, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters

Board of Education
Sylvania City School District

involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that we have reported to management of Sylvania City School District in a separate letter dated December 29, 2003.

This report is intended solely for the information of and use of the District's Board of Education and management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

December 29, 2003

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Education
Sylvania City School District
6850 Monroe Street
Sylvania, Ohio 43560

Compliance

We have audited the compliance of Sylvania City School District ("District") with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2003. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133 *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2003.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and

Board of Education
Sylvania City School District

material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of Sylvania City School District as of and for the year ended June 30, 2003, and have issued our report thereon dated December 29, 2003. Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material aspects, in relation to the financial statements taken as a whole.

This report is intended solely for the information of and use of the District's Board of Education and management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
