INDEPENDENT ACCOUNTANTS' REPORT

Bellaire Local School District Belmont County 340 34th Street Bellaire, Ohio 43906

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bellaire Local School District, Belmont County, Ohio (the School District), as of and for the year ended June 30, 2005, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Bellaire Local School District, Belmont County, Ohio, as of June 30, 2005, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2006, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

743 E. State St. / Athens Mall Suite B / Athens, OH 45701 Telephone: (740) 594-3300 (800) 441-1389 Fax: (740) 594-2110 www.auditor.state.oh.us Bellaire Local School District Belmont County Independent Accountants' Report Page 2

Butty Montgomery

We conducted our audit to opine on the financial statements that collectively comprise the School District's basic financial statements. The Schedule of Federal Awards Receipts and Expenditures is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. We subjected the Schedule of Federal Awards Receipts and Expenditures to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as whole.

Betty Montgomery Auditor of State

March 31, 2006

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005

The discussion and analysis of Bellaire Local School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2005. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2005 are as follows:

- Net assets decreased \$974,190.
- General revenues accounted for \$10,483,841 in revenue or 64 percent of all revenues. Program specific revenues in the form of charges for services and sales, grant, contributions, and interest accounted for \$5,786,178 or 36 percent of total revenues of \$16,270,019.
- Total assets of governmental activities decreased by \$766,467 primarily due to annual depreciation expense which is slightly offset by an increase in current assets.
- The School District had \$17,244,209 in expenses related to governmental activities; only \$5,786,178 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$10,483,841 were not adequate to provide for these programs.
- The School District has three major funds, the general fund, the debt service fund, and the classroom facility capital projects fund. The general fund had \$11,817,821 in revenues and other financing sources and \$11,586,960 in expenditures. The general fund's balance increased \$230,861. The debt service fund had revenues in the amount of \$345,306 and total expenditures in the amount of \$334,788 which resulted in a fund balance increase of \$10,518. The classroom facility fund had revenue in the amount of \$15,119 and total expenditures in the amount of \$297,589 which resulted in a fund balance decrease of \$282,470.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand Bellaire Local School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and concerns.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of Bellaire Local School District, the general fund, the debt service fund, and the classroom facility fund are the only major or significant funds.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2005?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader whether, for the School District as a whole, the *financial position* of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District's activities are all considered to be Governmental Activities:

• Governmental Activities – Most of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, food service, debt service and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 23. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund, the debt service fund, and the classroom facility capital projects fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for 2005 compared to 2004.

Table 1 Net Assets

	Governmen	t Activities
	2005	2004
Assets		
Current and Other Assets	\$6,253,564	\$5,870,302
Capital Assets	25,225,381	26,375,110
Total Assets	31,478,945	32,245,412
Liabilities		
Long-Term Liabilities	5,323,115	5,308,645
Other Liabilities	4,500,721	4,307,468
Total Liabilities	9,823,836	9,616,113
Net Assets		
Invested in Capital Assets Net of Debt	21,489,475	22,690,121
Restricted	2,228,332	2,032,389
Unrestricted (Deficit)	(2,062,698)	(2,093,211)
Total Net Assets	\$21,655,109	\$22,629,299

Total assets decreased \$766,467. Equity in pooled cash and cash equivalents and investments decreased \$78,674. Capital assets decreased by \$1,149,729 due primarily to annual depreciation expense which was slightly offset with additions to capital assets. Property taxes receivable increased \$217,848.

Total liabilities increased \$207,723 due primarily to an increase in deferred revenue for property taxes for which there is an enforceable legal claim as of June 30, 2005, but which were levied to finance fiscal year 2006 operations that have been recorded as deferred revenue. Accrued wages and benefits decreased slightly resulting from certified retirements that were replaced at a lower salary as well as the reduction of two administrative positions and one maintenance position.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005

Table 2 shows the changes in net assets for fiscal year 2005 compared to fiscal year 2004.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005

Governmental Activities

Property taxes made up approximately 15 percent of revenues for Bellaire Local School District in fiscal year 2005, this revenue source increased slightly over fiscal year 2004. Charges for services program revenue increased \$220,808 due primarily to an increase in open enrollment. Operating grants program revenue increased \$340,031 due to participation in a new federal program and an increase in the IDEA B allocation. Grants and Entitlements general revenue increased \$233,614 from the prior year due to increases in the State Foundation Program.

Instruction comprises approximately 60 percent of governmental program expenses, an increase of \$152,993 from fiscal year 2004. Overall, program expenses of the School District increased by \$159,317 with the largest increases being reflected in the support services pupils, instructional staff and operation and maintenance of plant. These increases were slightly offset by decreases in the administration program, fiscal, pupil transportation and food service operations.

During fiscal year 2005, the School District repaid \$230,679 to the Ohio School Facilities Commission in connection with the classroom facilities project.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services for fiscal year 2005 compared to fiscal year 2004. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

	Total Cost of Services		Net Cost of Services	
	2005	2004	2005	2004
Instruction:				
Regular	\$8,096,774	\$7,957,903	\$6,716,308	\$6,539,861

Intergovernmental	230,679	0	230,679	0
Interest and Fiscal Charges	226,100	220,558	226,100	220,558
Total Expenses	\$17,244,209	\$17,084,892	\$11,458,031	\$11,797,759

The dependence upon tax revenues and state subsidies for governmental activities is apparent. Approximately 66 percent of instruction activities are supported through taxes and other general revenues.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005

The School District's Funds

Information about the School District's major funds starts on page 13. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of \$16,669,852 and expenditures of \$16,442,148. The net change in fund balance for the year for all governmental funds was an increase of \$227,704. Of the overall increase, \$230,861 was in the general fund where intergovernmental revenue and tuition and fees increased.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal 2005 the School District amended its general fund appropriations, and the budgetary statement reflects both the original and final appropriated amounts. There were significant changes between the original and final budgeted receipts resulting from the original certification amount for state foundation being lower than the final as the School District used a conservative estimate for intergovernmental revenue.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2005 the School District had \$25,225,381 invested in land, land improvements, buildings and improvements, furniture and equipment, vehicles and textbooks. Table 4 shows fiscal 2005 balances compared to 2004:

Table 4
Capital Assets Net of Depreciation

	Governmen	Government Activities			
	2005	2004			
Land	\$732,299	\$732,299			
Land Improvements	1,011,538	1,045,293			
Buildings and Improvements	22,413,471	23,246,037			
Furniture and Equipment	477,487	540,053			
Vehicles	399,733	493,338			
Textbooks	190,853	318,090			
Totals	\$25,225,381	\$26,375,110			

For more information on capital assets see Note 9 to the basic financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005

Debt

At June 30, 2005 the School District had \$3,490,000 outstanding in general obligation bonds with \$125,000 due within one year.

Table 5 summarizes bonds and notes outstanding:

Table 5
Outstanding Debt at Year End

	Government Activities			
	2005	2004		
2000 School Facilities Bonds Term Bonds Serial Bonds	\$1,405,000 2,085,000	\$1,405,000 2,205,000		
Capital Leases	245,906	74,989		
Total	\$3,735,906	\$3,684,989		

See note 15 for more detailed information on the School District's debt.

Economic Factors

The Bellaire Local School District continues to experience financial shortfalls. The School District relies heavily on state foundation funding and property taxes. Changes in the school foundation formulas, very little growth in real estate valuations and a continued loss of personal property tax revenue have held the growth in revenue to a minimum. Increasing costs of utilities, fuels, salaries and benefits continue to erode the School District's year-end balance. The School District has and continues to implement cost cutting measures; slight increases in union contracts are being offset by not filling positions or filling them with less experienced, lower paid employees, purchasing utilities through cooperatives. Staffing continues to be evaluated as employees retire.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Tara L. Boyer, Treasurer/CFO at Bellaire Local School District, 340 34th Street, Bellaire, Ohio 43906.

Reconciliation of the Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2005

Net Change in Fund Balances - Total Governmental Funds		\$227,704
Amounts reported for governmental activities in the statement of activities are different because		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period. Capital Outlay Depreciation Total	172,543 (1,207,802)	(1,035,259)
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the net loss on the disposal of assets.		(114,470)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds: Grants Tuition and Fees Interest Property Taxes Total	(113,552) (13,195) 8,267 (2,616)	(121,096)
Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. General Obligation Bonds Capital Leases Total	120,000 104,191	224,191
Interest is reported as an expenditure when due in the governmental funds, but is accrued on outstanding debt on the statement of activities. The amortization of premiums and discounts are reported on the statement of activities. Accrued Interest		480
Inception of capital leases are reported as other fincancing sources in the governmental funds, but the inception increases long-term liabilities on the statement of activities.		(275,108)
Some expenses reported in the statement of activities, such as compensated absences and intergovernmental payables, which represent contractually required pension contributions, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Intergovernmental Payable Vacation Benefits Payable Compensated Absences Total	110,278 (27,357) 36,447	119,368
Changes in Net Assets of Governmental Activities	=	(\$974,190)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Bellaire Local School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by State statute and federal guidelines.

The School District was established in 1839 when Jacob Davis Jr. became the first school teacher in Bellaire. The first schoolhouse was also erected in 1839. The current district was originally made up of schools in Bellaire, Key, Pultney and other outlying areas and one-room schools. The final consolidation of these districts was in January 1960 when the Key-Pultney District joined the Bellaire District. The Bellaire School District consolidated again in 2001 when seven elementary and middle school buildings were closed and the district moved to two new facilities. Bellaire Elementary School consists of grades kindergarten through fourth, Bellaire Middle School encompasses grades five through eight and Bellaire High School houses grades nine through twelve. The School District encompasses 48 square miles of rolling hills and small communities in Belmont County. The District's eastern border is the Ohio River. The District is staffed by 84 non-certificated employees, 126 full-time teaching personnel and 13 administrative employees who provide services to 1,475 students and other community members. The School District currently operates 3 instructional buildings, 1 administrative building, 2 maintenance buildings and 1 bus garage.

Reporting Entity:

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the Bellaire Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes.

No separate governmental units meet the criteria for inclusion as a component unit.

The following activities are included within the reporting entity:

Parochial Schools - Within the School District boundaries, St. John Central High School and St. John Grade School are operated through the Diocese of Steubenville. Current State legislation provides funding to these parochial schools. These moneys are received and disbursed on behalf of the parochial schools by the Treasurer of the School District, as directed by the parochial schools. This activity is reflected in a special revenue fund for financial reporting purposes.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

The School District is involved with six organizations, four jointly governed organizations, one insurance purchasing pool and one related organization. These organizations include the Belmont-Harrison Career Center, the Ohio Mid-Eastern Regional Educational Service Agency (OME-RESA), the East Central Ohio Special Education Regional Resource Center (ECO SERRC), the Coalition of Rural and Appalachian Schools (CORAS), the Ohio School Boards Association Workers' Compensation Group Rating Plan and the Bellaire Public Library. These organizations are presented in Notes 17, 18, and 19.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Bellaire Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

A. Basis Of Presentation

The School District's financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements usually distinguish between those activities of the School District that are governmental (primarily supported by taxes and intergovernmental revenues) and those that are considered business-type activities (primarily supported by fees and charges). The School district, however; has no business type activities.

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

B. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are two categories of funds: governmental and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the repayment of long-term debt principal and interest.

Classroom Facility Capital Projects Fund The classroom facility fund is used to account for the state and local funds to be used for facilities construction and upgrades.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

Fiduciary Fund Type Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a private purpose trust which accounts for a college scholarship program for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency funds account for student activities and assets held by the School District as an agent for outside activities.

C. Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in the total net assets.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

relationship between the government-wide statements and the statements for governmental funds. The private purpose trust fund is reported using the economic resources measurement focus.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 60 days of fiscal year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which taxes are levied (See Note 7). Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred Revenue Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2005, but which were levied to finance fiscal year 2006 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

E. Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During fiscal year 2005, investments were limited to non-negotiable certificates of deposit, negotiable certificates of deposit, Federal Home Loan Bank Bonds, Federal National Mortgage Association Bonds and repurchase agreements. Investments are reported at fair value, except for nonnegotiable certificates of deposit which are reported at cost. Fair value is based on quoted market price or current share price.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2005 amounted to \$16,007, which includes \$12,993 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

F. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other government or imposed by law through constitutional provisions or enabling legislation. Restricted assets in governmental funds include unexpended revenues restricted for the purchase of buses and amounts required by State statute to be set aside to create a reserve for the purchase of textbooks and instructional materials.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2005, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

H. Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption, purchased food, donated food and school supplies.

I. Capital Assets

The only capital assets of the School District are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by backtrending (i.e., estimating current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated fixed assets are recorded at their fair market values as of the date received.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

The School District maintains a capitalization threshold of five thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets are depreciated except for land. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land Improvements	20 Years
Buildings and Improvements	20-50 Years
Furniture and Equipment	5-20 Years
Vehicles	8 Years
Textbooks	6 Years

J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated on the statement of net assets.

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for vacation eligible employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those that the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at fiscal year end taking into consideration any limits specified in the School District's termination policy.

The entire sick leave benefit liability is reported on the government-wide financial statements.

On the government fund financial statements, sick leave benefits are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured severance payable" in the fund from which the employee will be paid.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However,

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

claims and judgments, compensated absences, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term notes and loans are recognized as a liability on the governmental fund financial statements when due or when resources are available.

M. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

N. Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, property taxes, bus purchase and textbooks and instructional materials.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. The reserve for textbooks and instructional materials is for amounts required to be set-aside by State Statute for the purchase of these materials. The reserve for bus purchase is for state funds required to be utilized for the purchase of school buses.

O. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include resources required to be used for the maintenance of classroom facilities, local resources to be used for student programs, and state and federal grants restricted to expenditures for specified purposes. The government-wide statement of net assets reports \$2,228,332 of restricted net assets. Of the restricted net assets, \$973,784 has resulted from enabling legislation.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

P. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

Q. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

R. Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds of the School District. Any budgetary modifications at this level may only be made by resolution of the Board of Education. The treasurer is given the authority to further allocate appropriations among functions and objects in all funds. Advances in/out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate in effect when the final appropriations were passed by the Board.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

NOTE 3 – CHANGES IN ACCOUNTING PRINCIPLE

Change in Accounting Principles For the fiscal year ended June 30, 2005, the School District has implemented GASB Statement No. 40, "Deposit and Investment Risk Disclosures", and GASB Technical Bulletin No. 2004-02, "Recognition of Pension and Other Postemployment Benefit Expenditures/Expenses and Liabilities by Cost Sharing Employers", and early-implemented GASB Statement No. 46, "Net Assets Restricted by Enabling Legislation".

GASB Statement No. 40 modifies the disclosures for deposits and investments. See Note 6 "Deposits and Investments" for the required disclosures.

GASB Technical Bulletin No. 2004-02 addresses the amount that should be recognized as an expenditure/expense and as a liability each period by employers participating in a cost-sharing multiple-employer pension and other postemployment benefit (OPEB) plans. The effect of the implementation of this technical bulletin had no material effect on fund balances and net assets.

GASB Statement No. 46 clarifies how legal enforceability should be applied for determining restricted net assets, and had no material effect on the financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 4 – ACCOUNTABILITY AND COMPLIANCE

A. At June 30, 2005, the following funds had deficit fund balances:

	Deficit Fund Balance
General Fund	\$398.236
Other Governmental Funds:	,
Food Service Special Revenue Fund	338,960
Disadvantaged Pupil Impact Aid Special Revenue Fund	99,152

The deficit in the general fund was created by the application of generally accepted accounting principles. The primary cause of the deficit balance is liabilities for accrued wages and benefits and intergovernmental payables.

The food service special revenue fund deficit balance is due in part to a deficit cash balance and failure to adequately fund this program, as well as the application of generally accepted accounting principles. This fund generally receives transfers from the General Fund when cash is needed rather than when accruals occur.

The deficit in the disadvantaged pupil impact aid special revenue fund was created by the application of generally accepted accounting principles. This fund generally receives transfers from the General Fund when cash is needed rather than when accruals occur.

B. At June 30, 2005, the following fund's appropriations exceeded estimated revenue plus unencumbered balances:

Fund	Estimated Resources	Appropriations	Variance
Food Service	\$398,124	\$677,672	(\$279,548)

The School District will more closely monitor budgetary procedures pertaining to violations of this nature in the future.

NOTE 5 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual - General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).
- 4. Transfers in and transfers out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund.

Net Change in Fund Balance

GAAP Basis	\$230,861
Revenue Accruals	(358,567)
Expenditure Accruals	229,531
Encumbrances	(177,141)
Budget Basis	(\$75,316)

NOTE 6 – DEPOSITS AND INVESTMENTS

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

- 3. Written repurchase agreements in the securities listed above;
- 4. Bonds and other obligations of the State of Ohio or Ohio local governments;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations;
- 7. The State Treasurer's investment pool (STAROhio); and,
- 8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Deposits

At June 30, 2005, the carrying amount of all deposits was \$796,333. Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$751,230 of the School District's bank balance of \$887,250 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although all statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the School District to a successful claim by FDIC.

The School District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

Investments

As of June 30, 2005, the School District had the following investments, all of which are part of the internal investment pool:

	Fair Value	Maturity	Percent of Total Investments	Rating	Rating
-	value	Maturity	Total Investments	Kating	Agency
Federal Home					
Loan Bank Bonds	\$99,594	1/27/2010	5.66%	AAA	S&P
Federal National Mortgage					
Association Bonds	53,528	9/17/2008	3.04%	AAA	S&P
Grange Bank Columbus					
Negotiable CD	96,500	12/11/2006	5.49%	N/A	N/A
Peoples Bank NA Marietta					
Negotiable CD	95,951	9/10/2007	5.46%	N/A	N/A
Signature Bank National					
Association Negotiable CD	98,834	8/22/2005	5.62%	N/A	N/A
Repurchase Agreement	1,314,065	7/1/2005	74.73%	N/A	N/A
·		-			
Totals	\$1,758,472	_	100.00%		
=					

Interest Rate Risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and that an investment must be purchased with the expectation that it will be held to maturity. The School District's investment policy provides for the same provisions allowed by State Statute.

Credit Risk. The credit ratings for the School District's securities are listed above. The School District has no investment policy that would further limit its investment choices.

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Home Loan Bank Bonds, the Federal National Mortgage Association Bonds, and the negotiable certificates of deposit are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the School District's name. The School District has no investment policy dealing with investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of Credit Risk. The School District's policy provides that investments of the School District shall be diversified to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific issue or a specific class of securities. The percentage of total investments is listed in the table above.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 7 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the school district. Real property tax revenue received in calendar 2005 represents collections of 2004 taxes. Real property taxes received in calendar year 2005 were levied after April 1, 2004, on the assessed value listed as of January 1, 2004, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2005 represents collections of 2004 taxes. Public utility real and tangible personal property taxes received in calendar year 2005 became a lien December 31, 2003, were levied after April 1, 2004 and are collected in 2005 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar 2005 (other than public utility property) represents the collection of 2005 taxes. Tangible personal property taxes received in calendar year 2005 were levied after April 1, 2004, on the value as of December 31, 2004. Tangible personal property is currently assessed at twenty-five percent of true value for capital assets and twenty-three percent of true value for inventory. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

The School District receives property taxes from Belmont County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2005, are available to finance fiscal year 2005 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2005 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2005 was \$124,327 in the general fund, \$20,746 in the debt service fund, \$13,329 in the permanent improvement capital projects fund, and \$2,832 in the classroom facilities maintenance special revenue fund. The amount available as an advance at June 30, 2004, was \$110,626 in the general fund, \$19,250 in the debt service fund, \$11,607 in the permanent improvement capital projects fund, and \$2,600 in the classroom facilities special revenue fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified basis the revenue has been deferred.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

The assessed values upon which the fiscal year 2005 taxes were collected are:

	2004 Second Half Collections		2005 First Half Collections	
	Amount	Percent	Amount	Percent
	\$81,593,930	83.95%	\$82,867,620	84.22%
	10,734,240	11.04%	10,769,010	10.94%
	4,867,410	5.01%	4,764,410	4.84%
	\$97,195,580	100.00%	\$98,401,040	100.00%
Tax Rate per \$1,000 of asse	ssed valuation	\$34.50		\$34.50

NOTE 8 - RECEIVABLES

Receivables at June 30, 2005, consisted of property taxes, accounts, interfund, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. Delinquent property taxes deemed collectible by the County Auditor and recorded as a receivable in the amount of \$366,176 may not be collected within one year. A summary of the principal items of intergovernmental receivables follows:

	Amounts
Governmental Activities	
Excess Costs	\$259,683
Title XIX CAFS	75,759
Title I	4,623
Title IIA	13,896
21st Century	155,452
Total Intergovernmental Receivables	\$509,413

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 9 - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2005, was as follows:

	Balance			Balance
	6/30/04	Additions	Deletions	6/30/05
Non-Depreciating Capital Assets:				_
Land	\$732,299	\$0	\$0	\$732,299
Depreciating Capital Assets:				
Land Improvements	1,314,812	31,683	0	1,346,495
Buildings and Improvements	28,215,689	0	0	28,215,689
Furniture and Equipment	876,479	140,860	(157,864)	859,475
Vehicles	1,488,064	0	0	1,488,064
Textbooks	763,419	0	0	763,419
Total Depreciable Capital Assets	32,658,463	172,543	(157,864)	32,673,142
Accumulated Depreciation:				
Land Improvements	(269,519)	(65,438)	0	(334,957)
Buildings and Improvements	(4,969,652)	(832,566)	0	(5,802,218)
Furniture and Equipment	(336,426)	(88,956)	43,394	(381,988)
Vehicles	(994,726)	(93,605)	0	(1,088,331)
Textbooks	(445,329)	(127,237)	0	(572,566)
Total Accumulated Depreciation	(7,015,652)	(1,207,802)	43,394	(8,180,060)
Total Depreciable Capital Assets, Net	25,642,811	(1,035,259)	(114,470)	24,493,082
Governmental Capital Assets, Net	\$26,375,110	(\$1,035,259)	(\$114,470)	\$25,225,381

^{*}Depreciation expense was charged to governmental activities as follows:

Instruction:	
Regular	\$956,081
Support Services:	
Instructional Staff	79,221
Board of Education	4,541
Administration	17,673
Operation and Maintenance of Plant	5,663
Pupil Transportation	93,554
Central	7,659
Food Service Operations	17,347
Extracurricular Activities	26,063
Total Depreciation Expense	\$1,207,802

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 10 - RISK MANAGEMENT

A. Property and Liability Insurance

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2005 the School District contracted with Indiana Insurance for property and inland marine coverage, and for fleet insurance and liability insurance. Flood insurance was provided by the National Flood Insurance. Indiana Insurance Coverage's provided by Pilney Insurance Agency of Ohio are as follows:

Building and Contents-replacement cost (\$1,000 deductible)	\$37,225,050
Automotive Liability (\$500 deductible)	1,000,000
Uninsured Motorist (\$500 deductible)	1,000,000
General Liability:	
Each Occurance	1,000,000
Aggregated Limit	2,000,000
Personal and Advertising Injury Limit - Each Occurance:	1,000,000
Sexual Misconduct Liability:	
Each Occurance	1,000,000
Aggregated Limit	1,000,000
Innocent Party Aggregate	300,000
School Leaders Errors and Omissions Liability:	
Each Occurance	1,000,000
Aggregated Limit	1,000,000
Defense Aggregate	100,000
Employee Benefits Liability:	
Each Occurance	1,000,000
Aggregated Limit	2,000,000
Employer's Liability:	
Each Occurance	1,000,000
Aggregated Limit	1,000,000
Disease - Each Employee	1,000,000
Umbrella Liability:	
Each Occurance	2,000,000
Aggregated Limit	2,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from last year.

B. Workers' Compensation

For fiscal year 2005 the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 18). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP.

C. Other Employee Benefits

Dental insurance is offered to employees through a self-insurance program. The School District contracts with a third party administrator to handle stop-loss coverage. The School District reports the program in the general fund. The claims liability of \$5,598 reported in the General Fund at June 30, 2005 is based on an estimate provided by the third party administrator and the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for unpaid claim costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses.

Changes in claims activity for the past two fiscal years are as follows:

	Balance at	Current Year	Claims	Balance at End
	Beginning of Year	Claims	Payments	of Year
2004	\$10,030	\$139,000	\$141,215	\$7,815
2005	7,815	104,498	106,715	5,598

NOTE 11 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The School District contributes to the School Employees System of Ohio (SERS), a cost-sharing multiple employer defined pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State Statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3476 or by calling (614) 222-5853.

Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2005, 10.57 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 2004, 9.09 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2005, 2004, and 2003 were \$231,059, \$160,020, and \$83,140, respectively; 56.55 percent has been contributed for fiscal year 2005 and 100 percent for the fiscal years 2004 and 2003.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

B. State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371, by calling (614) 227-4090, or by visiting the STRS Ohio Web site at www.strs.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2005, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2005, 2004, and 2003 were \$826,437, \$783,659, and \$864,853, respectively; 83.15 percent has been contributed for fiscal year 2005 and 100 percent for the fiscal years 2004 and 2003. Contributions to the DC and Combined Plans for fiscal year 2005 were \$3,942 made by the School District and \$8,163 made by the plan members.

NOTE 12 - POSTEMPLOYMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certificated employees and their dependents through the School Employees Retirement System (SERS). Benefits include

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

STRS retirees who participated in the DB or combined plans and their dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. All benefit recipients pay a portion of health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2005, the STRS Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. For the School District, this amount equaled \$63,134 for fiscal year 2005.

STRS pays health care benefits from the Health Care Stabilization Fund. At June 30, 2004, (the latest information available) the balance in the Fund was \$3.1 billion. For the year ended June 30, 2004, net health care costs paid by STRS were \$268,739,000 and STRS had 111,853 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. All retires and beneficiaries are required to pay a potion of their premium for health care. The portion is based on years of service, Medicare eligibility, and retirement status. Premiums may be reduced for retirees whose household income falls below the poverty level.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2005, employer contributions to fund health care benefits were 3.43 percent of covered payroll, a decrease of 1.48 percent from fiscal year 2004. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2005, the minimum pay was established at \$27,400. However, the surcharge is capped at 2 percent of each employer's SERS salaries. For the 2005, the School District paid \$105,718 to fund health care benefits, including the surcharge.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care for the fiscal year ended June 30, 2004, (the latest information available), were \$223,443,805 and the target level was \$335.2 million. At June 30, 2004, SERS had net assets available for payment of health care benefits of \$300.8 million. SERS has approximately 62,000 participants receiving health care benefits.

NOTE 13 - OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty-five days of vacation per fiscal year, depending upon length of service. Current policy permits vacation leave to be accumulated up to one year. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time. Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 250 to 270 days for all employees. Upon retirement, payment is made for thirty-five percent of accrued, but unused sick leave credit to a maximum of 87.50 days for classified employees and 94.5 days for certified employees.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

B. Other Insurance Benefits

The School District contracts with a local health management organization, The Health Plan for hospitalization, prescription and major medical insurance for all employees. The School District pays monthly premiums of up to \$813.64 for family coverage and up to \$320.45 for individual coverage. Premiums are paid from the same funds that pay the employees' salaries.

The School District provides life insurance to all employees. A \$50,000 life insurance policy is purchased by the School District at a cost of \$8 per month. The School District contracts with Met Life Insurance to provide this benefit. The School District provides vision insurance through Vision Service Plan at a cost of \$12.76 per month.

NOTE 14 - CAPITAL LEASES - LESSEE DISCLOSURE

In the current fiscal year, the School District has entered into capitalized leases for copying equipment. The lease for copying equipment included an amount for the early retirement of the existing capital lease, and the existing equipment was taken on trade as part of the terms of the new lease agreement. Therefore, capitalized copying equipment is less than the amount of the outstanding capital lease liability in the amount of the difference between the book value of the traded assets and the amount received for retirement of the existing lease.

The leases meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements for the governmental funds.

Equipment acquired by lease has been capitalized in government wide statements governmental activities in the amount of \$125,130, which is equal to the present value of the minimum lease payments, net of the difference between the book value of the traded assets and the amount received for retirement of the existing lease, at the time of acquisition. A corresponding liability, net of the difference between the book value of the traded assets and the amount received for retirement of the existing lease, was recorded in the government wide statements governmental activities. Assets acquired by governmental activities capitalized leases are reported net of accumulated depreciation in the amount of \$125,130, as no depreciation expense was recorded on the equipment during fiscal year 2005. Principal payments in fiscal year 2005 totaled \$104,191, in the governmental funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

Future minimum lease payments through 2010 are as follows:

Fiscal Year	Principal	Interest
2006	\$47,374	\$23,584
2007	52,595	18,362
2008	58,391	12,567
2009	64,827	6,131
2010	22,719	496
Total	\$245,906	\$61,140

NOTE 15 - LONG - TERM OBLIGATIONS

The changes in the School District's long-term obligations during fiscal year 2005 were as follows:

Principal			Principal	Amounts	
Outstanding				Outstanding	Due In
	6/30/04	Additions	Deductions	6/30/05	One Year
General Obligation Bonds:					
2000 School Facilities Bonds					
Term Bonds \$1,405,000 @ 6.0 %	\$1,405,000	\$0	\$0	\$1,405,000	\$0
Serial Bonds \$2,633,000 @ 4.2% to 5.8 %	2,205,000	\$0	120,000	2,085,000	125,000
Total General Obligation Bonds	3,610,000	0	120,000	3,490,000	125,000
					_
Capital Leases	74,989	275,108	104,191	245,906	47,374
Compensated Absences	1,623,656	187,299	223,746	1,587,209	92,549
		·			
Total General Long-Term Obligations	\$5,308,645	\$462,407	\$447,937	\$5,323,115	\$264,923

On February 1, 2000, the School District issued \$4,038,000 in voted general obligation bonds for the purpose of retiring \$4,038,000 in bond anticipation notes that were issued for the purpose of constructing, acquiring, reconstructing, and making additions to classroom facilities under authority of and pursuant to the general laws of the State of Ohio, particularly Chapters 133 and 3318 of the Ohio Revised Code. The bonds were issued for a period of twenty-two years with a final maturity at December 1, 2021. Annual principal and interest requirements are being paid from the debt service fund.

In connection with the passage of the bond issue, the School District also passed a half-mill levy for the maintenance of the new building.

The bond issue consists of serial and term bonds. The term bonds that mature in the year 2021 are subject to mandatory sinking fund redemption. The mandatory sinking fund redemption is to occur on December 1, 2017, and on each December 1 thereafter at 100 percent of the principal amount thereof plus accrued interest to the date of redemption according to the following schedule:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

Year	Principal Amount
2017	\$250,000
2018	265,000
2019	280,000
2020	295,000

Unless otherwise called for redemption, the remaining \$315,000 principal amount of the Bonds due December 31, 2021 is to be paid at stated maturity.

The bonds maturing on December 1 in each of the years 2010 through 2014 are not subject to optional call for redemption prior to their respective maturity dates.

The bonds maturing on December 1, 2015 and thereafter are subject to optional redemption, in whole or in part on any date and by lot within a maturity, at the option of the School District on or after December 1, 2009 as follows:

	Redemption
Redemption Dates (inclusive)	Prices
December 1, 2009 through November 30, 2010	101%
December 1, 2010 and thereafter	100%

If fewer than all of the outstanding bonds of single maturity are called for redemption, the selection of the bonds to be redeemed, or portions thereof in amounts of \$5,000 or any integral multiple thereof, shall be made by lot by the Paying Agent and Registrar in any manner which the Paying Agent and Registrar may determine.

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2005 are as follows:

Fiscal Year	Term Bonds		Serial I	Bonds
Ending June 30	Principal	Interest	Principal	Interest
2006	\$0	\$84,300	\$125,000	\$117,795
2007	0	84,300	145,000	111,108
2008	0	84,300	130,000	104,168
2009	0	84,300	145,000	97,119
2010	0	84,300	155,000	89,316
2011-2015	0	421,500	930,000	285,903
2016-2020	795,000	351,750	455,000	26,715
2021-2024	610,000	37,200	0	0
Total	\$1,405,000	\$1,231,950	\$2,085,000	\$832,124

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

Capital leases will be paid from the general fund and the miscellaneous federal grant special revenue fund. Compensated absences will be paid from the general, disadvantaged pupil impact aid, miscellaneous state grants, Title I and food service special revenue funds.

The School District's overall legal debt margin was \$5,564,470, with an unvoted debt margin of \$98,401, at June 30, 2005.

NOTE 16 – INTERNAL BALANCES

Interfund balances at June 30, 2005 consist of the following individual interfund receivables and payables:

	Interfund Receivable
Interfund Payable	General Fund
Other Nonmajor Governmental	\$308,898

The loan to the food service special revenue fund was made to support the cafeteria program. The School District approved a closed lunch for the 9th graders, offered new menu items, and installed the point of sale system to increase revenue for the food service program.

The loan to the 21^{st} century grant special revenue fund was made to support the programs until the federal grant monies are received.

NOTE 17 - JOINTLY GOVERNED ORGANIZATIONS

Belmont-Harrison Career Center (Career Center) – The Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the seven participating school district's elected boards, which possesses its own budgeting and taxing authority. During fiscal year 2005, the School District made no contributions to the Career Center. To obtain financial information write to the Belmont-Harrison Vocational School, Alexis Petrilla, who serves as Treasurer, at Fox Shannon Road, St. Clairsville, Ohio 43950.

Ohio Mid-Eastern Regional Educational Service Agency - The Ohio Mid-Eastern Regional Education Service Agency (OME-RESA) was created as a regional council of governments pursuant to State statutes. OME-RESA has twelve participating counties consisting of Belmont, Carroll, Columbiana, Coshocton, Guernsey, Harrison, Holmes, Jefferson, Muskingum, Monroe, Noble, and Tuscarawas Counties. OME-RESA operates under the direction of a Board consisting of one representative from each of the participating school district's elected boards, which possesses its own budgeting and taxing authority. OME-RESA provides financial accounting services, educational management information, and cooperative purchasing services to member districts. During fiscal year 2005, the total amount paid to OME-RESA from the School District was \$23,096. The Jefferson County Educational Service Center serves as the fiscal agent and receives funding from the State Department of Education. To obtain financial information write to Ohio Mid-Eastern Regional Educational Service Agency, Treasurer, at 2023 Sunset Blvd., Steubenville, Ohio 43952.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

East Central Ohio Special Education Regional Resource Center – The East Central Ohio Special Education Regional Resource Center (ECO SERRC) is a special education service center which selects its own board, adopts its own budget and receives direct Federal and State grants for its operation. The jointly governed organization was formed for the purpose of initiating, expanding and improving special education programs and services for children with disabilities and their parents. The SERRC is governed by a board composed of superintendents of member school districts in East Central Ohio, parents of children with disabilities, representatives of chartered non-public schools, representatives of county boards of MR/DD and representatives of universities. The degree of control exercised by any participating school district is limited to its representation on the Board. There is no financial commitment made by the districts involved in ECO SERRC. ECO SERRC is not dependent upon the continued participation of the School District and the School District does not maintain an equity interest in or financial responsibility for ECO SERRC. Financial information can be obtained by contacting Julie A. Lynch, who serves as Treasurer at the Tuscarawas-Carroll-Harrison Educational Service Center, 172 North Broadway, New Philadelphia, Ohio 44663.

Coalition of Rural and Appalachian Schools - The Coalition of Rural and Appalachian Schools is a jointly governed organization including over 100 school districts in southeastern Ohio. The Coalition is operated by a Board which is comprised of fourteen members. The board members are comprised of one superintendent from each county elected by the school districts within that county. The Council provides various in-service for school district administrative personnel; gathers data regarding conditions of education in the region; cooperates with other professional groups to assess and develop programs designed to meet the needs of member districts; and provides staff development programs for school district personnel. The Council is not dependent on the continued participation of the School District and the School District does not maintain an equity interest in or financial responsibility for the Council. The School District's membership fee was \$300 for fiscal year 2005.

NOTE 18 - INSURANCE PURCHASING POOL

Ohio School Boards Association Workers' Compensation Group Rating Plan – The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 19 – RELATED ORGANIZATION

Bellaire Public Library - The Bellaire Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Bellaire Local School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the School District for operational subsidies. Although the School District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purchase are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Bellaire Public Library, Pamela Nyles, Clerk/Treasurer, at 32nd and Guernsey Street, Bellaire, Ohio 43906.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 20 - SET-ASIDE CALCULATIONS AND FUND RESERVES

The School District is required by State statute to annually set aside, in the general fund, an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

Effective April 10, 2001, through Amended Substitute Senate Bill 345, the requirement for school districts to establish and appropriate money for the budget stabilization was deleted from law. A school district may still establish reserve balance accounts consistent with Section 5705.13, Revised Code, if it so chooses; however, the requirement is no longer mandatory. In addition, any money on hand in a school district's budget reserve set-aside as of April 10, 2001, may at the discretion of the board be returned to the District's general fund or may be left in the account and used by the board to offset any budget deficit the district may experience in future years. The bill placed special conditions on any Bureau of Workers' Compensation refund monies remaining in the budget reserve.

During fiscal year 2005, the Board of Education passed a resolution to expend all of the previously reserved amounts for the budget reserve pursuant to State statute.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks, capital improvements, and budget stabilization. Disclosure of this information is required by State statute.

		Capital	Budget
	Textbooks	Improvements	Stabilization
Set-aside Reserve Balance as of June 30, 2004	\$20,798	\$0	\$60,163
Current Year Set-aside Requirement	222,845	222,845	0
Current Year Offsets	0	(269,492)	0
Reduction in Requirement			
based on Revised Legislation	0	0	(60,163)
Qualifying Disbursements	(185,372)	0	0
Totals	\$58,271	(\$46,647)	\$0
Allowable Carry Forward at June 30, 2004	0	(3,183,293)	0
Current Year Carry Forward			
Eligible Qualifying Expenditures	0	(143,858)	0
Set-aside Balance Carried Forward to			
Future Fiscal Years	\$58,271	(\$3,327,151)	\$0
Set-aside Reserve Balance as of June 30, 2005	\$58,271	\$0	\$0

The School District did not expend the total requirement during fiscal year 2005 for the textbooks set-aside. This amount must be added to the set-aside requirement of future years. The School District had offsets during the fiscal year that reduced the set-aside amount to below zero for the capital maintenance set-aside, which may not be carried forward to future years. The School District also had current year and

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

prior year capital expenditures from debt proceeds in connection with a school facilities project that may be carried forward to offset future set-aside requirements.

NOTE 21 – CONTINGENCIES

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2005.

B. Litigation

Currently, the School District is not party to any legal proceedings.

NOTE 22 – SUBSEQUENT EVENT

The Board of Education approved a new three year negotiated agreement with the Bellaire Education Association on November 23, 2005.

BELLAIRE LOCAL SCHOOL DISTRICT BELMONT COUNTY

BELLAIRE LOCAL SCHOOL DISTRICT BELMONT COUNTY

NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES FOR THE YEAR ENDED JUNE 30, 2005

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) is a summary of the School District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

Program regulations do not require the School District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This nonmonetary assistance (expenditures) is reported in the Schedule at the fair market value of the commodities received.

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE C - TRANSFERS

The Ohio Department of Education (ODE) requires School Districts to record grant funds carried over from one grant period to another grant period as a negative receipt in the original grant fund project-by-year line and as a positive receipt in the subsequent year project line. The Schedule reflects the following transfers due to ODE administrative action:

CFDA	Pass-through Entity		
<u>Number</u>	<u>Number</u>	Transfers-In	Transfers-Out
84.186	043570-DRS1-2004		\$3,238

84.298	043570-C2S1-2005	2,543	
84.367	043570-TRSA-2004		<u>780</u>
84.367	043570-TRSA-2005	<u>780</u>	
Total		\$6,561	\$6,561

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Bellaire Local School District Belmont County 340 34th Street Bellaire, Ohio 43906

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bellaire Local School District, Belmont County, Ohio (the School District), as of and for the year ended June 30, 2005, which collectively comprise the School District's basic financial statements and have issued our report thereon dated March 31, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting to determine our auditing procedures in order to express our opinions on the basic financial statements and not to opine on the internal control over financial reporting. Our consideration of the internal control would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts material to the financial statements we audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider material weaknesses. In a separate letter to the School District's management dated March 31, 2006, we reported other matters involving internal control over financial reporting we did not deem reportable conditions.

Compliance and Other Matters

As part of reasonably assuring whether the School District's basic financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed instances of noncompliance or other matters that we must report under *Government Auditing Standards* which are described in the accompanying Schedule of Findings as items 2005-001 through 2005-004. In a separate letter to the School District's management dated March 31, 2006, we reported other matters related to noncompliance we deemed immaterial.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Bellaire Local School District Belmont County 340 34th Street Bellaire, Ohio 43906

To the Board of Education:

Compliance

We have audited the compliance of the Bellaire Local School District, Belmont County, Ohio (the School District), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that apply to each of its major federal programs for the year ended June 30, 2005. The Summary of Auditor's Results section of the accompanying Schedule of Findings identifies the School District's major federal programs. The School District's management is responsible for complying with the requirements of laws, regulations, contracts and grants applicable to each major federal program. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended June 30, 2005. In a separate letter to School District's management dated March 31, 2006, we reported another matter related to federal noncompliance not requiring inclusion in this report.

Internal Control over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could directly and materially affect a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Belmont County
Independent Accountants' Report on Compliance with Requirements Applicable
to Each Major Federal Program and Internal Control Over Compliance in
Accordance with OMB Circular A-133
Page 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses. However, we noted matters involving the internal control over federal compliance not requiring inclusion in this report, that we reported to the School District's management in a separate letter dated March 31, 2006.

We intend this report solely for the information and use of the audit committee, management, the Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

SCHEDULE OF FINDINGS OMB CIRCULAR A -133 § .505 JUNE 30, 2005

1. SUMMARY OF AUDITOR'S RESULTS

(d)(1)(i)	Type of Financial Statement Opinion	Unqualified
(d)(1)(ii)	Were there any material control weakness conditions reported at the financial statement level (GAGAS)?	No
(d)(1)(ii)	Were there any other reportable control weakness conditions reported at the financial statement level (GAGAS)?	No
(d)(1)(iii)	Was there any reported material non- compliance at the financial statement level (GAGAS)?	Yes
(d)(1)(iv)	Were there any material internal control weakness conditions reported for major federal programs?	No
(d)(1)(iv)	Were there any other reportable internal control weakness conditions reported for major federal programs?	No
(d)(1)(v)	Type of Major Programs' Compliance Opinion	Unqualified
(d)(1)(vi)	Are there any reportable findings under § .510?	No
(d)(1)(vii)	Major Programs (list):	Title I Grants to Local Educational Agencies, C.F.D.A. #84.010; Special Education_Grants to States, C.F.D.A. #84.027
(d)(1)(viii)	Dollar Threshold: Type A\B Programs	Type A: > \$ 300,000 Type B: all others
(d)(1)(ix)	Low Risk Auditee?	Yes

BELLAIRE LOCAL SCHOOL DISTRICT BELMONT COUNTY

SCHEDULE OF FINDINGS OMB CIRCULAR A -133 § .505 JUNE 30, 2005 (Continued)

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2005-001

Finding for Recovery - Repaid Under Audit

The 2004-2005 salary schedule approved in the negotiated agreement with the Bellaire Education Association reflects the amount to be paid to a teacher with five years experience holding a Master's degree as \$31,936 and a Master's degree plus 15 extra graduate level semester hours as \$33,787. The School District paid Mary Kathleen Everson as a teacher with 5 years experience and a Master's degree plus 15 extra graduate level semester hours; however, a review of Mary Kathleen Everson's educational experience indicated she did not meet the criteria to be paid at that level and should have been paid at the Master's degree level.

As a result, Mary Kathleen Everson was overpaid in the amount of \$1,851.

On December 20, 2005, Scott Everson issued a check to the Bellaire Local School District for \$1,851 as repayment by his wife, Mary Kathleen Everson. We will consider this a finding for recovery repaid under audit.

FINDING NUMBER 2005-002

Noncompliance Citation

Ohio Rev. Code Section 135.18 provides that the treasurer of a political subdivision must require the depository to provide as security an amount equal to the fund on deposit at all times. Such security may consist of federal deposit insurance, surety company bonds, or pledged securities.

In addition, Ohio Rev. Code Section 135.181 (B) states, in part, that in lieu of the specific pledging requirements of Section 135.18, an institution designated as a public depository at its option may pledge a single pool of eligible securities to secure the repayment of all public monies deposited in the institution and not otherwise secured, provided that at all times the total market value of the securities so pledged is at least equal to one hundred five percent of the total amount of all public deposits to be secured by the pooled securities, including the portion of such deposits covered by any federal deposit insurance.

At June 30, 2005, the School District deposits held at United Bank exceeded Federal Deposit Insurance Corporation coverage by \$751,230 and no pledged collateral was obtained for the excess deposits.

Without ensuring the institutions properly collateralize the deposits of public moneys, the School District increases the risk of financial loss if the institution should happen to fail.

We recommend the School District develop policies and procedures to ensure all financial institutions comply with the collateralization requirements and that these requirements are stipulated in the depository agreements with the financial institutions.

BELLAIRE LOCAL SCHOOL DISTRICT BELMONT COUNTY

SCHEDULE OF FINDINGS

OMB CIRCULAR A -133 § .505

JUNE 30, 2005

(Continued)

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS (Continued)

FINDING NUMBER 2005-003

Noncompliance Citation

Ohio Rev. Code Section 5705.10 states that money paid into a fund may only be used for the purpose for which the fund is established. As a result, a negative fund balance indicates that money from one fund was used to cover the expenses of another fund.

The following funds reflected negative cash fund balances as noted:

As Of Date	Food Service Fund	Title I Grant FY05 Fund
June 30, 2005	\$279,126	
March 31, 2005	\$429,876	
December 31, 2004	\$445,653	\$197,982
September 31, 2004	\$373,300	

We recommend the School District Treasurer monitor fund balances to properly ensure that monies from one fund are not utilized to pay the obligations of another fund. To cover temporary cash flow shortages, the School District may be able to advance money from other funds. The School District can refer to Auditor of State Bulletin 97-003 to determine if an advance of funds to prevent a deficit cash balance would be appropriate.

FINDING NUMBER 2005-004

Noncompliance Citation

Ohio Rev. Code Section 5705.39 provides, in part, that total appropriations from each fund shall not exceed the estimated revenue available for expenditure therefrom, as certified by the County Budget Commission.

As of June 30, 2005, appropriations exceeded estimated revenue in the following fund:

Fund	Estimated Resources	Appropriations	Variance
Food Service	\$398,124	\$677,672	(\$279,548)

This situation may lead to disbursements within said fund exceeding the actual revenues available.

We recommend the School District Board and the School District Treasurer monitor appropriations and estimated resources and file amendments as needed with the County Auditor to ensure that the total appropriations from each fund do not exceed the total official estimate or amended official estimate. This will help to reduce the risk of disbursements exceeding actual revenues available and will add a measure of control over the School District's budgetary process.

3. FINDINGS FOR FEDERAL AWARDS

None.
