INDEPENDENT ACCOUNTANTS' REPORT

Champion Local School District
Trumbull County
5759 Mahoning Avenue, N.W.
Warren, Ohio 44483

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Champion Local School District, Trumbull County, Ohio (the "District"), as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Champion Local School District, Trumbull County, Ohio, as of June 30, 2005, and the respective changes in financial position, thereof and the budgetary comparisons for the General and the Emergency Levy funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 15, 2006, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measurement and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements. The federal awards expenditure schedule is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. We subjected the federal awards expenditure schedule to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005
UNAUDITED**

The discussion and analysis of the Champion Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2005. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2005 are as follows:

- In total, net assets of governmental activities decreased \$1,533,781 which represents a 64.19% decrease from 2004.
- General revenues accounted for \$12,412,405 in revenue or 86.82% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$1,885,061 or 13.18% of total revenues of \$14,297,466.
- The District had \$15,831,247 in expenses related to governmental activities; only \$1,885,061 of these expenses was offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$12,412,405 were not adequate to provide for these programs.
- The District's major governmental funds are the general fund and emergency levy fund. The general fund had \$10,979,445 in revenues and other financing sources and \$11,926,183 in expenditures and other financing uses. During fiscal 2005, the general fund's fund balance decreased from \$61,768 to a deficit of \$886,956.
- The emergency levy fund had \$2,093,628 in revenues and \$2,039,215 in expenditures. During fiscal 2005, the emergency levy fund's fund deficit balance decreased \$54,413 from \$365,494 to \$311,081.

Using the Basic Financial Statements (BFS)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund and emergency levy fund are by far the most significant funds, and the only governmental funds reported as major funds.

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2005?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include *all assets, liabilities, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the Governmental Activities include the District's programs and services, including instruction, support services, operation and maintenance, pupil transportation, extracurricular activities, and food service operations.

The District's statement of net assets and statement of activities can be found on pages 13-14 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page 9. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and emergency levy fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* than can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* is reconciled in the basic financial statements. The basic governmental fund financial statements can be found on pages 15-20 of this report.

Reporting the District's Fiduciary Responsibilities

The District acts as fiduciary in a trustee capacity as an agent for individuals. These activities are reported in an agency fund. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Assets on page 21. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 22-48 of this report.

The District as a Whole

The Statement of Net Assets provides the perspective of the District as a whole. The table below provides a summary of the District's net assets for 2005 and 2004.

	Net Assets	
	Governmental Activities 2005	Restated Governmental Activities 2004
<u>Assets</u>		
Current and other assets	\$ 6,646,388	\$ 7,741,676

Total net assets	<u>\$ 855,648</u>	<u>\$ 2,389,429</u>

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2005, the District's assets exceeded liabilities by \$855,648.

At fiscal year-end, capital assets represented 34.40% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2005, were \$1,785,317. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net assets, \$215,853, represents resources that are subject to external restriction on how they may be used.

The graph below presents the District's governmental activities revenue for fiscal years 2005 and 2004.

Governmental Activities - General and Program Revenues

The District's Funds

The District's governmental funds (as presented on the balance sheet on page 15) reported a combined fund deficit balance of \$976,611, which is higher than last year's total of \$230,187. The June 30, 2004 fund deficit balances have been restated as described in Note 3.A. to the basic financial statements. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2005 and 2004.

Emergency Levy Fund

The District's emergency levy fund's fund deficit balance decreased by \$54,413. The decrease in fund deficit balance can be attributed to increasing revenues and decreased expenditures.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2005, the District amended its general fund budget several times. For the general fund, final budgeted revenues and other financing sources were \$11,602,895, which was lower than original budgeted revenues and other financing sources of \$12,152,557. Actual revenues and other financing sources for fiscal 2005 was \$11,636,248, which were \$33,353 more than final budgeted revenues and other financing sources.

General fund original appropriations (appropriated expenditures and other financing uses) of \$13,182,252 were decreased to \$12,868,569 in the final budget. The actual budget basis expenditures and other financing uses for fiscal year 2005 totaled \$12,868,569, which equaled the final budget appropriations and other financing uses.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2005, the District had \$3,485,112 invested in land, land improvements, buildings and improvements, furniture and equipment, and vehicles. The June 30, 2004 capital assets have been restated as described in Note 3.B. to the basic financial statements. This entire amount is reported in governmental activities. The following table shows fiscal 2005 balances compared to 2004:

Total	\$ 3,485,112	\$ 3,804,266

Total additions to capital assets for 2005 were \$46,558. Depreciation expense for fiscal 2005 was \$356,646 and disposals were \$9,066 (net of accumulated depreciation). Overall, capital assets of the District decreased \$319,154, due to depreciation expense and disposals being more than the additions.

See Note 8 to the basic financial statements for additional information on the District's capital assets.

Debt Administration

At June 30, 2005, the District had \$1,699,795 in asbestos notes and lease obligations outstanding. Of this total, \$112,504 is due within one year and \$1,587,291 is due within greater than one year. The following table summarizes the notes and lease obligations outstanding.

Current Financial Related Activities

The District is often presented with challenges and opportunities. National, State and Local events often economically affect the District and the surrounding area both positively and adversely. However, the District has carefully managed its budget in order to optimize the dollars available for educating the students it serves, and to minimize the levy millage amounts needed periodically from the community's citizens. Sound fiscal management by the Board of Education and administration has enabled the District to maintain a healthy cash balance and continue a quality, comprehensive educational program for the past ten years without the need of additional tax levies.

The board's most recent five-year projections indicate that the District's needs would require additional levy millage unless the State fully funds Parity Aide or provides Foundation increases in the next biennium. Salary or benefit increases would also play a major impact in the timing of any new request for additional millage.

The District has committed itself to educational and financial excellence for many years. Our most recent State Report Card shows the district students achieving an excellent score of 21 out of 23. This designation was not achieved by any other school districts in Trumbull County. This is also the second year in a row this has been accomplished. Our District has continually scored well on the State Report Card since its inception. The budgeting and internal controls utilized by the District are well regarded as exemplified by the unqualified audit opinions that have been received. Each challenge identified in this section is viewed simultaneously as an opportunity for the District to foray down paths not previously traveled to continue its commitment to excellence. The District is committed to living within its financial means, and working with the community it serves in order to garner adequate resources to support the educational program. Overall, the District continues to perform at the highest level determined by the State of Ohio, which is measured by a defined set of criteria.

Several significant legislative and judicial actions have occurred that may have a major impact on our District. The Ohio Supreme Court ruled in March 1997 that the State of Ohio was operating an unconstitutional educational system, one that was neither "adequate" nor "equitable" as defined by the State Constitution. The State has not yet developed a school-funding plan that has been deemed acceptable by the Court, and ultimate resolution still seems to be some time in the future. There is concern that the State may not have the ability to fully fund the previously approved subsidies for primary and secondary education in the State budget. The biennial budget approved by the State for Fiscal Years 2005 and 2006 did not prove helpful to the funding situation for the District. In spite of this, the Board is committed to upholding its levy promise to the community, and not seek additional operating millage until all other avenues of increasing revenues or decreasing expenditures have been exhausted.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

Net change in fund balances - total governmental funds \$ (736,232)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital outlay	\$	46,558	
Depreciation expense		(356,646)	
Total			(310,088)

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net assets.

Disposals		(37,358)	
Accumulated depreciation on disposals		28,292	
Total			(9,066)

Governmental funds report expenditures for inventory when purchased, however, in the statement of activities they are reported as an expense when consumed.

(10,192)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Taxes		(12,457)	
Intergovernmental revenue		(42,455)	
Total			(54,912)

Repayment of notes and lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

119,132

Proceeds of lease purchase agreements are recorded as revenue in the funds, however, on the statement of activities they are not reported as revenues as they increase liabilities on the statement of net assets.

(575,000)

In the statement of activities, interest is accrued on outstanding notes, whereas in governmental funds, an interest expenditure is reported when due.

(1,196)

Some expenses reported in the statement of activities, such as compensated absences and pension obligations, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Champion Local School District (the "District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four-year terms. The District provides educational services as authorized by state statute and/or federal guidelines.

The District is the 336th largest in the State of Ohio (out of approximately 614 public school districts) in terms of enrollment. It is staffed by 77 non-certificated employees and 127 certificated full-time teaching personnel who provide services to 1,686 students and other community members. The District currently operates 3 instructional buildings, 1 athletic building, and 1 garage.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organizations' government board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based upon the application of these criteria, the District has one component unit, the Champion School Building Corporation. The basic financial statements of the reporting entity include only those of the District (the primary government). The following organizations are described due to their relationship to the District:

BLENDED COMPONENT UNIT

Champion School Building Corporation

The Champion School Building Corporation is considered a component unit of the District by virtue of meeting the criteria noted above. The corporation is a nonprofit organization with the specific purpose of purchasing, leasing or otherwise acquiring real estate and to construct thereon any and all public improvements, within the boundaries of the District.

JOINTLY GOVERNED ORGANIZATIONS

Northeast Ohio Management Information Network (NEOMIN)

NEOMIN is a jointly governed organization among thirty school districts in Trumbull and Ashtabula Counties. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to the administrative and instructional functions among member districts. Each of the districts supports NEOMIN based upon a per pupil charge. The District contributed \$34,295 to NEOMIN for fiscal 2005.

Superintendents of the participating school districts are eligible to be voting members of the Governing Board, which consists of ten members: the Trumbull and Ashtabula County superintendents (permanent members), three superintendents from Ashtabula County school districts, three superintendents from Trumbull County districts, and a treasurer from each county. The District was not represented on the Governing Board during fiscal year 2005. The degree of control exercised by any participating school district is limited to its representation on the Governing Board. A complete set of separate financial statements may be obtained from the Trumbull County Educational Service Center, 347 North Park Avenue, Warren, Ohio 44481.

Trumbull Career and Technical Center

The Trumbull Career and Technical Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the fifteen participating school districts' elected boards, which possesses its own budgeting and taxing authority. Financial information can be obtained by contacting the Treasurer at 528 Educational Highway, Warren, Ohio 44483.

INSURANCE PURCHASING POOLS

Ohio School Boards Association Workers' Compensation Group Rating Program

The District participates in the Ohio School Boards Association (OSBA) Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP was established under Section 4123.29 of the Ohio Revised Code. The GRP's business and affairs are conducted by a three-member Board of directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General Fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Emergency Levy Fund - The Emergency Levy special revenue fund is used to account for the accumulation of tax revenue generated by an emergency tax levy and the use of those funds.

Other governmental funds of the District are used to account for (a) financial resources to be used for the acquisition, construction, or improvement of capital facilities; (b) for the accumulation of resources for and repayment of, general long-term debt principal, interest and related costs; and (c) for grants and other resources whose use is restricted to a particular purpose.

PROPRIETARY FUND

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no proprietary funds.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities.

C. Basis of Presentation and Measurement Focus

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

**CHAMPION LOCAL SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the statement of net assets.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6).

**CHAMPION LOCAL SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred Revenue - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2005, but which were levied to finance fiscal year 2006 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities received during the year is reported in the Statement of Revenues, Expenditures and Changes in Fund Balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The District is required by state statute to adopt an annual appropriated cash basis budget for all funds. The specific timetable for fiscal year 2005 is as follows:

1. Prior to January 15 of the preceding year, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The expressed purpose of this budget document is to reflect the need for existing (or increased) tax rates.
2. By no later than January 20, the board-adopted budget is filed with the Trumbull County Budget Commission for tax rate determination.

**CHAMPION LOCAL SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

3. Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as a basis for the appropriation measure. On or about July 1, the Certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The budget figures, as shown in the accompanying budgetary statements, reflect the amounts set forth in the original and final Amended Certificate issued for fiscal year 2005.
4. By July 1, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. State statute permits a temporary appropriation to be effective until no later than October 1 of each year. Resolution appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals.
5. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.
6. Formal budgetary integration is employed as a management control device during the year for all funds consistent with the general obligation bond indenture and other statutory provisions. All funds completed the year within the amount of their legally authorized cash basis appropriation.
7. Appropriations amounts are as originally adopted, or as amended by the Board of Education through the year by supplemental appropriations, which either reallocated or increased the original appropriated amounts. All supplemental appropriations were legally enacted by the Board prior to June 30, 2005. The budget figures, as shown in the accompanying budgetary statements, reflect the original and final appropriation amounts including all amendments and modifications.
8. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Expenditures plus encumbrances may not legally exceed budgeted appropriations at the fund level.

F. Cash and Investments

To improve cash management, cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the basic financial statements.

During fiscal year 2005, investments included the State Treasury Asset Reserve of Ohio (STAR Ohio), and repurchase agreements. Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements, are reported at cost.

**CHAMPION LOCAL SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The District has invested funds in STAR Ohio during fiscal 2005. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2005.

Under existing Ohio statutes, all investment earnings are assigned to the general fund, unless statutorily required to be credited to a specific fund. By policy of the Board of Education, investment earnings are assigned to the general fund, the permanent improvement capital projects fund, the district managed student activities special revenue fund and the food service special revenue fund. The food service special revenue fund receives interest earnings based upon federal mandate. Interest revenue credited to the general fund during fiscal 2005 amounted to \$15,019, which includes \$2,718 assigned from other District funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at year-end is provided in Note 4.

G. Inventory

On government-wide and fund financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the purchase method on the fund financial statements and using the consumption method on the government-wide statements.

On the fund financial statements, reported material and supplies inventory is equally offset by a fund balance reserve in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

H. Capital Assets

General capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$1,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. The District does not possess infrastructure.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Buildings and improvements	15 - 30 years
Land improvements	15 - 30 years
Furniture and equipment	5 - 20 years
Vehicles	5 - 15 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables.” These amounts are eliminated in the governmental activities column on the statement of net assets.

J. Compensated Absences

Compensated absences of the District consist of vacation leave and severance liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, “Accounting for Compensated Absences”, a liability for vacation leave is accrued if a) the employees’ rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for severance is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at June 30, 2005, by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for severance on employees expected to become eligible to retire in the future, all employees with at least 15 years of current service with the District, were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and severance payments has been calculated using pay rates in effect at June 30, 2005, and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Notes are recognized as a liability on the fund financial statements when due.

L. Fund Balance Reserves

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, materials and supplies inventory, property tax revenue unavailable for appropriation and prepayments. The reserve for property taxes unavailable for appropriation represents taxes recognized as revenue under GAAP but not available for appropriation under state statute.

M. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed. At fiscal year-end, because prepayments are not available to finance future governmental fund expenditures, the fund balance is reserved by an amount equal to the carrying value of the asset on the fund financial statements.

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

O. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

P. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

Q. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2005.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2005, the District has implemented GASB Statement No. 40, "Deposit and Investment Risk Disclosures" and GASB Technical Bulletin 2004-2, "Recognition of Pension and Other Postemployment Benefit Expenditures/Expenses and Liabilities by Cost-Sharing Employers".

GASB Statement No. 40 establishes and modified disclosure requirements related to investment risks: credit risk (including custodial credit risk and concentrations of credit risk) and interest rate risk. This statement also establishes and modified disclosure requirements for custodial credit risk on deposits.

GASB Technical Bulletin No. 2004-2 addresses the amount that should be recognized as expenditure/expense and as a liability each period by employers participating in a cost-sharing multiple-employer pension and other postemployment benefit (OPEB) plans.

The implementation of GASB Statement No. 40 did not have an effect on the financial statements of the District, however additional note disclosure can be found in Note 4. The implementation of GASB Technical Bulletin No. 2004-2 had the following effect on the fund balances of the major and non-major funds of the District as they were previously reported as of June 30, 2004:

	<u>General</u>	Emergency <u>Levy</u>	<u>Nonmajor</u>	<u>Total</u>
Fund Balances, June 30, 2004	\$ 166,010	\$ (365,494)	\$ 83,785	\$ (115,699)

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

B. Prior Period Adjustment

Beginning net assets have been restated due to the District choosing not to capitalize textbooks as was done during the previous audit period as well as discrepancies noted when the District changed software packages used in tracking this information.

Net assets June 30, 2004	\$ 2,813,630
Adjustment for Capital Assets	<u>(424,201)</u>
Net assets July 1, 2004	<u>\$ 2,389,429</u>

C. Deficit Fund Balances

Fund balances at June 30, 2005 included the following individual fund deficits:

	<u>Deficit</u>
<u>Major Funds</u>	
General	\$ 886,956
Emergency Levy	311,081
<u>Nonmajor Funds</u>	
Emergency Management Information Systems	450
Title II-A	3,122

These funds complied with Ohio state law, which does not permit a cash basis deficit at year-end. The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances result from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Protection of District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies to be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time: and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

A. Cash on Hand

At year-end, the District had \$100 in undeposited cash on hand which is included on the financial statements of the District as part of "Equity in Pooled Cash and Cash Equivalents."

B. Deposits with Financial Institutions

At June 30, 2005, the carrying amount of all District deposits was \$228,747, exclusive of the \$50,040 repurchase agreement included in investments below. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2005, \$421,273 of the District's bank balance of \$621,273 was exposed to custodial risk as discussed below, while \$200,000 was covered by Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

C. Investments

As of June 30, 2005, the District had the following investments and maturities:

<u>Investment type</u>	<u>Balance at Fair Value</u>	<u>Investment Maturities 6 months or less</u>
Repurchase Agreement	\$ 50,040	\$ 50,040
STAR Ohio	<u>8,411</u>	<u>8,411</u>
	<u>\$ 58,451</u>	<u>\$ 58,451</u>

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: Standard & Poor's has assigned STAR Ohio an AAAM money market rating.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Of the District's investment in repurchase agreements, the entire balance is collateralized by underlying securities pledged by the investment company's counterparty, not in the name of the District.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2005:

Total	<u>\$ 287,298</u>

NOTE 5 - INTERFUND TRANSACTIONS

- A. Interfund balances at June 30, 2005 as reported on the fund statements, consist of the following individual interfund loans receivable and payable:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General fund	Nonmajor Governmental Funds	\$ 5,980

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received. All interfund balances are expected to be repaid within one year.

Interfund balances between governmental funds are eliminated on the government-wide financial statements; therefore, no internal balances at June 30, 2005 are reported on the Statement of Net Assets.

- B. Interfund transfers for the year ended June 30, 2005, consisted of the following, as reported on the fund financial statements:

NOTE 5 - INTERFUND TRANSACTIONS – (Continued)

	<u>Amount</u>
Transfers to Nonmajor Governmental funds from:	
General fund	\$ 38,663

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers between governmental funds are eliminated for reporting in the statement of activities.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2005 represents collections of calendar year 2004 taxes. Real property taxes received in calendar year 2005 were levied after April 1, 2004, on the assessed value listed as of January 1, 2004, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2005 represents collections of calendar year 2004 taxes. Public utility real and tangible personal property taxes received in calendar year 2005 became a lien December 31, 2003, were levied after April 1, 2004 and are collected in 2005 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar 2005 (other than public utility property) represents the collection of 2005 taxes. Tangible personal property taxes received in calendar year 2005 were levied after April 1, 2005, on the value as of December 31, 2004. Tangible personal property is currently assessed at twenty-five percent of true value for capital assets and twenty-four percent of true value for inventory. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

The District receives property taxes from Trumbull County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2005, are available to finance fiscal year 2005 operations. The amount available to be advanced can vary based on the date tax bills are sent.

NOTE 6 - PROPERTY TAXES - (Continued)

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2005 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2005 was \$6,369 in the general fund, \$49 in the debt service fund, \$148 in the permanent improvement fund and \$3,760 in the emergency levy fund. This amount has been recorded as revenue. The amount available as an advance at June 30, 2004 was \$10,978 in the general fund, \$85 in the debt service fund, \$258 in the permanent improvement fund, and \$6,552 in the emergency levy fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2005 taxes were collected are:

NOTE 7 - RECEIVABLES

Receivables at June 30, 2005 consisted of taxes, accounts (billings for user charged services and student fees), intergovernmental grants and entitlements and accrued interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs and the current year guarantee of federal funds. A summary of the principal items of receivables reported on the statement of net assets follows:

Governmental Activities:

FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 9 - CAPITALIZED LEASES - LESSEE DISCLOSURE

- A. During fiscal year 2002, the District entered into a lease contract with the Champion School Building Corporation to provide new athletic facilities including stadium bleachers, field house, all-weather track and concession/restroom facilities. The Champion School Building Corporation borrowed \$1,100,000 on March 27, 2002, at an interest rate of 4.75%. On May 1, 2002, it assigned the loan to the District. The lease will be repaid in equal installments over a 20 year period, beginning December 1, 2002. Lease payments will be funded by the general fund.

Capital assets consisting of building improvements have been capitalized in the amount of \$1,100,000. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability is recorded in the government-wide financial statements. Principal payments in fiscal year 2005 totaled \$36,928 paid by the general fund.

The following is a schedule of the future long-term minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of June 30, 2005:

<u>Fiscal Year Ending June 30,</u>	<u>Amount</u>

Total minimum lease payments	1,447,452
Less amount representing interest	<u>(469,361)</u>
Total	<u>\$ 978,091</u>

- B. On October 29, 2004, the District entered into a \$575,000 lease-purchase agreement with the Champion School Building Corporation to finance roof construction and improvements throughout the District. The source of revenue to fund the principal and interest payments is derived from general operating revenues of the District. During fiscal year 2005, the District made \$55,274 in principal payments and \$18,254 in interest payments on the lease-purchase agreement.

A liability in the amount of the present value of minimum lease payments has been recorded in the governmental activities of the District.

The following is a schedule of the future long-term minimum lease payments required under the lease-purchase agreement and the present value of the minimum lease payments as of June 30, 2005.

C. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District.

The effects of these debt limitations at June 30, 2005 are a voted debt margin of \$14,706,977, (including available funds of \$49) and an unvoted debt margin of \$163,410.

NOTE 11 - COMPENSATED ABSENCES

The criteria for determining vested vacation and sick leave components are derived from negotiated agreements and State laws. Classified eleven or twelve month employees earn 10 to 20 days of vacation per year, depending upon length of service. Vacation time is not accumulated and must be used by April 30 of each fiscal year.

Each employee is entitled to fifteen (15) days sick leave with pay each year under contract and accrues sick leave at the rate of one and one-fourth (1 1/4) days for each calendar month under contract.

Only administrative or school support personnel accumulate vacation on the following factors:

<u>School Support Personnel</u>	<u>Vacation Leave</u>
After 1 year	10 days
9 or more years	15 days
16 or more years	20 days

The Superintendent and Treasurer each receive 25 days of vacation leave, annually.

**CHAMPION LOCAL SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005**

NOTE 11 - COMPENSATED ABSENCES - (Continued)

Classified employees with five years of service in the District who elect to retire shall receive, in one lump sum payment for 33.34% up to a maximum of 60 days of their unused sick leave multiplied times the per diem rate at the time of retirement. Certified employees with five years of service in the District who elect to retire shall receive, in one lump sum payment for 20% up to a maximum of 65 days of their unused sick leave multiplied times the per diem rate at the time of retirement. The Superintendent and Treasurer receive severance based on half of their accumulated sick leave.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 235 days for all certified employees and up to 250 days for classified employees. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit, to a maximum of 55 days for both classified and certificated employees.

NOTE 12 - RISK MANAGEMENT

A. General Risk

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to school employees and natural disasters. During fiscal year 2005, the District contracted with Indiana Insurance Company for property insurance with a \$2,500 deductible. Professional liability is protected by the Ohio School Plan with a \$1,000,000 per occurrence and \$3,000,000 aggregate limit.

Vehicles are covered by the Nationwide Mutual Insurance Company and hold \$100 and \$1,000 deductibles for comprehensive and collision. Automobile liability has a \$1,000,000 combined single limit of liability. Settled claims have not exceeded this commercial coverage in any of the last ten years.

\$20,000 performance bonds are maintained for the Superintendent, Treasurer and Board President. All performance bonds are maintained by the Nationwide Mutual Insurance Company.

The District also provides a supplemental health insurance policy through Lawrence E. Smith and Associates, Inc. for its students in grades 6th through 12th for athletic accidents. The premium is paid per student enrolled in grades 6th through 12th on the October Average Daily Membership. The policy is effective from August 1 until the last day of school attendance.

B. Workers' Compensation Group Rating Program

For fiscal year 2005, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 2.A.). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the state based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund".

**CHAMPION LOCAL SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005**

NOTE 12 - RISK MANAGEMENT - (Continued)

This “equity pooling” arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP’s selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP.

C. Health Insurance

The District has elected to provide various employee benefits through a consortium of school districts known as the Trumbull County Schools Insurance Consortium Association.

The District provides life insurance and accidental death and dismemberment insurance to its employees. Coverage is \$50,000 for all certified and administrative staff and their support staff and \$40,000 for all union and non-union full time classified staff. The Superintendent is covered by a \$150,000 policy and the Treasurer is covered by a \$100,000 policy. The provider contracted through the Consortium is Medical Life Insurance Company. The premium is \$1.40 per \$10,000 of coverage.

The provider contracted through the Consortium for medical/surgical benefits is Medical Mutual. The District pays monthly premiums for traditional benefits of \$1,057.44 for family coverage or \$406.72 for individual coverage. Preferred Provider benefit premiums are \$1,032.11 for family coverage or \$396.97 for individual coverage per month. Health Maintenance Plan benefit premiums are \$1,042.98 for family coverage and \$401.11 for individual coverage per month.

Dental insurance is provided through Oasis Trust. A third party administrator, Coresource, located in Columbus, Ohio, reviews and pays claims for the Consortium. Premiums for dental coverage are \$66.66 monthly on a composite basis. This dental coverage is available to all staff

Vision coverage is extended to its employees through Vision Care. The premium is \$14.21 per month, per employee. The premium is paid by the fund that pays the salary of the employee. This benefit is provided for outside of the Consortium.

NOTE 13 - DEFINED BENEFIT PENSION PLAN

A. School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, or by calling (614) 222-5853.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 13 - DEFINED BENEFIT PENSION PLAN – (Continued)

Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14% of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2005, 10.57% of annual covered salary was the portion used to fund pension obligations. For fiscal year 2004, 9.09% of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The adequacy of the contribution rates is determined annually. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2005, 2004, and 2003 were \$223,329, \$219,889 and \$213,934, respectively; 46.06% has been contributed for fiscal year 2005 and 100% for the fiscal years 2004 and 2003. \$120,456 represents the unpaid contribution for fiscal year 2005 and is recorded as a liability within the respective funds.

B. State Teachers Retirement System

The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing, multiple-employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides retirement and disability benefits, annual cost-of-living adjustments, and death and survivor benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3371, by calling (614) 227-4090, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB Plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTE 13 - DEFINED BENEFIT PENSION PLAN - (Continued)

Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14% of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal years 2005 and 2004, 13% of annual covered salary was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employee contributions. The District's required contributions for pension obligations to the DB plan for the fiscal years ended June 30, 2005, 2004, and 2003 were \$986,512, \$911,778, and \$889,378, respectively; 85.12% has been contributed for fiscal year 2005 and 100% for the fiscal years 2004 and 2003. \$146,812 represents the unpaid contribution for fiscal year 2005 and is recorded as a liability within the respective funds. Contributions to the DC and Combined Plans for fiscal 2005 were \$1,192 made by the District and \$8,345 made by plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement Systems/State Teachers Retirement System. As of June 30, 2005, certain members of the Board of Education have elected Social Security. The District's Liability is 6.2% of wages paid.

NOTE 14 - POSTEMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through STRS, and to retired non-certified employees and their dependents through SERS. Benefits include hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare Part B premiums. Benefit provisions and the obligations to contribute are established by STRS and SERS based on authority granted by state statute. Both STRS and SERS are funded on a pay-as-you-go-basis.

The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14% of covered payroll. For fiscal year 2005, the State Teachers Retirement Board allocated employer contributions equal to 1% of covered payroll to the Health Care Stabilization Fund. For the District, this amount equaled \$70,465 during fiscal 2005.

STRS pays health care benefits from the Health Care Stabilization Fund. The balance in the Health Care Stabilization Fund was \$3.1 billion at June 30, 2004 (the latest information available). For the fiscal year ended June 30, 2004 (the latest information available), net health care costs paid by STRS were \$268.739 million and STRS had 111,853 eligible benefit recipients.

For SERS, coverage is made available to service retirees with 10 or more years of qualifying service credit, and disability and survivor benefit recipients. Effective January 1, 2004, all retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility and retirement status. A safety net is in place for retirees whose household income falls below federal poverty levels. Premiums are reduced by 50% for those who apply.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 14 - POSTEMPLOYMENT BENEFITS - (Continued)

For fiscal year 2005, employer contributions to fund health care benefits were 3.43% of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2005, the minimum pay has been established at \$27,400. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund.

The target level for the health care reserve is 150% of annual health care expenses, before premium deduction. Gross expenses for health care at June 30, 2004 (the latest information available) were \$223.444 million and the target level was \$335.2 million. At June 30, 2004, (the latest information available) SERS had net assets available for payment of health care benefits of \$300.8 million and SERS had approximately 62,000 participants receiving health care benefits. For the District, the amount to fund health care benefits, including surcharge, equaled \$86,396 during the 2005 fiscal year.

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The Statement of Revenue, Expenditures, and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to a reservation of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund and major special revenue fund are as follows:

	General Fund	Emergency Levy Fund
Budget basis	\$ (1,232,321)	\$ (42,541)
Net adjustment for revenue accruals	(481,683)	(2,791)
Net adjustment for expenditure accruals	821,949	98,654
Net adjustment for other sources/uses	(153,027)	-
Year-end encumbrances	<u>98,344</u>	<u>1,091</u>
GAAP basis	<u>\$ (946,738)</u>	<u>\$ 54,413</u>

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 16 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is involved in no material litigation as either plaintiff or defendant.

NOTE 17 - STATUTORY RESERVES

The District is required by state law to set-aside certain general fund revenue amounts, as defined by statute, into various reserves. These reserves are calculated and presented on a cash basis. During the fiscal year ended June 30, 2005, the reserve activity was as follows:

	<u>Textbooks</u>	<u>Capital Acquisition</u>
Set-aside cash balance as of June 30, 2004	\$ (208,509)	\$ -
Current year set-aside requirement	246,494	246,494
Qualifying disbursements	<u>(279,321)</u>	<u>(810,597)</u>
Total	<u>\$ (241,336)</u>	<u>\$ (564,103)</u>
Cash balance carried forward to FY 2006	<u>\$ (241,336)</u>	<u>\$ -</u>

The District had qualifying disbursements during the year that reduced the textbooks set-aside amounts below zero. This excess amount may be used to reduce the set-aside requirements of future years.

Although the District had qualifying disbursements which reduced the capital acquisition amounts below zero, the excess amount may not be carried forward to future years.

**NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE
JUNE 30, 2005**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the "Schedule") summarizes activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This nonmonetary assistance (expenditures) is reported in the Schedule at the fair market value of the commodities received.

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Champion Local School District
Trumbull County
5759 Mahoning Avenue, N.W.
Warren, Ohio 44483

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Champion Local School District, Trumbull County (the District) as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements and have issued our report thereon dated September 15, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting to determine our auditing procedures in order to express our opinion on the financial statements and not to opine on the internal control over financial reporting. Our consideration of the internal control would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts material to the financial statements we audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO ITS MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Champion Local School District
Trumbull County
5759 Mahoning Avenue, N.W.
Warren, Ohio 44483

To the Board of Education:

Compliance

We have audited the compliance of Champion Local School District, Trumbull County (the "District") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that apply to its major federal program for the year ended June 30, 2005. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal program. The District's management is responsible for complying with the requirements of laws, regulations, contracts and grants applicable to its major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Champion Local School District complied, in all material respects, with the requirements referred to above that apply to its major federal program for the year ended June 30, 2005.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

We intend this report solely for the information and use of the audit committee, management, Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.
