We have reviewed the *Independent Auditor's Report* of the Cincinnati City School District, Hamilton County, prepared by Clark, Schaefer, Hackett & Co., for the audit period July 1, 2006 through June 30, 2007. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Cincinnati City School District is responsible for compliance with these laws and regulations.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The Schedule of Expenditures of Federal Awards is a summary of the activity of the School District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - FOOD DONATION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

NOTE C - MATCHING REQUIREMENTS

Certain Federal programs require that the School District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The School District has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Education
Cincinnati City School District, Ohio:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Cincinnati City School District, Ohio (the School District) as of and for the year ended June 30, 2007, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 28, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness on the School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We

consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies in internal control over financial reporting and are labeled as 2007-1.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that none of the significant deficiencies described above are material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2007-2 and 2007-3.

We noted certain matters that we reported to management of the School District in a separate letter dated February 28, 2008.

The School District's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the School District's response and accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Education
Cincinnati City School District, Ohio:

Compliance

We have audited the compliance of Cincinnati City School District, Ohio (the School District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2007. The School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of the School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the School District's internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified a deficiency in internal control over compliance that we consider to be a significant deficiency.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is a more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2007-4 to be a significant deficiency.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in a more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. We did not consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness.

The School District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the School District's response and accordingly, we express no opinion on it.

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District as of and for the year ended June 30, 2007, and have issued our report thereon dated February 28, 2008. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Section II - Financial Statement Findings

Finding 2007-1 – Audit Adjustments

During the course of our audit, we identified material misstatements in the financial statements for the year under audit that were not initially identified by the School District's internal control. Throughout the year, the School District maintains its books and records on the cash-basis of accounting and converts its financial statements at year-end to generally accepted accounting principles. The audit adjustments were necessary to correct errors in the School District's conversion process. A description of the adjustments follows:

- **Capital Assets.** Construction invoices included in accounts payable at year-end and related to the classroom facilities projects were expensed rather than capitalized as construction in progress. Capital assets were understated by approximately \$11.7 million.
- **Accounts Payable.** During our search for unrecorded liabilities, we discovered an invoice of approximately \$1.5 million which should have been included in accounts payable at year-end.
- **Compensated Absences.** There were several severance payments made subsequent to year-end which were due to employees as of June 30, 2007 and should have been recorded as liabilities. Liabilities were understated by approximately \$1.5 million.
- **Debt.** The School District refunded debt and an audit adjustment was necessary to correct the School District's calculation of the deferred loss on refunding. The School District understated this loss by approximately \$3.3 million.
- **Taxes Receivable.** The School District recorded an estimate for delinquent taxes receivable which differed materially from the County Auditor's records. Taxes receivable were understated by approximately \$15.5 million.

Views of Responsible Officials: Management concurs with the finding and is making operational changes to reduce the chances of this reoccurring.

Finding 2007-2 – Certificate of Estimated Resources Compliance

Ohio Revised Code Section 5707.39 stipulates that total appropriations from each fund shall not exceed the total estimated resources. During our testing of compliance with budgetary requirements, we noted one fund as of December 31, 2006 which had appropriations in excess of estimated resources. We also noted six funds as of June 30, 2007 which had appropriations in excess of estimated resources.

Views of Responsible Officials: Management concurs with the finding and is making operational changes to reduce the chances of this reoccurring.

Finding 2007-3 – Expenditures Exceeding Appropriations

Ohio Revised Code Section 5705.41(B) stipulates that no subdivision or taxing unit is to expend money unless it has been appropriated. During our testing of compliance with budgetary requirements, we noted seven funds as of June 30, 2007 in which expenditures and encumbrances exceeded appropriations.

Views of Responsible Officials: Management concurs with the finding and is making operational changes to reduce the chances of this reoccurring.

Section III - Federal Award Findings and Questioned Costs

Finding 2007-4 – Schedule of Expenditures of Federal Awards

In accordance with the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, management is responsible for identifying all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity. We noted several programs on the School District's schedule of expenditure of federal awards for which program expenditures were not accurate. The final Schedule of Expenditures of Federal Awards has been corrected. The School District should develop policies and procedures to ensure the Schedule of Expenditures of Federal Awards is complete and accurate.

Views of Responsible Officials: Management concurs with the finding and is making operational changes to reduce the chances of this reoccurring.

February 26, 2008

To the Honorable Board of Education and
Citizens of the Cincinnati City School District

I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the Board of Education of the Cincinnati City School District (the "District") for the fiscal year ended June 30, 2007. This report was prepared by the Office of the Treasurer/CFO and includes the report of the independent auditor, Clark, Schaefer, Hackett & Company. The independent auditors' report concludes that the District's financial statements for the year ended June 30, 2007 are prepared in conformity with generally accepted accounting principles. The independent auditor's report is included as the first component of the financial section of this report.

This report also contains the financial statements and other financial and statistical data that provide a complete and full disclosure of all material financial aspects of the District. The responsibility for the accuracy of all data presented and its completeness and fairness of presentation rests with the office of the Treasurer/CFO. All disclosures necessary to enable the reader to gain an understanding of the District's activities have been included herein.

The District uses Oracle Public Sector General Ledger, an automated, on-line general ledger accounting system, which provides the capability to prepare financial information based on generally accepted accounting principles (GAAP) for governments. Oracle Public Sector General Ledger is the basis for the District's accounting, budgetary, purchasing and fixed assets controls. The financial statements contained in the CAFR have been prepared from this system, implemented by the Treasurer's office in January 1995 and upgraded to the latest 11.5.10 release in June 2005.

Internal accounting controls are an integral part of this system and are designed to achieve the fundamental objectives of safeguarding assets, providing reasonable assurance that financial transactions are properly recorded, and ensuring that adequate accounting data are compiled to allow for the preparation of financial statements in accordance with GAAP. The internal control structure is designed to provide reasonable, but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgment by management.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Letter of Transmittal

For the Fiscal Year Ended June 30, 2007

The MD&A provides a narrative introduction, overview and analysis to accompany the basic financial statements. This Letter of Transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditors' Report. This Report can be found on the District's web site: <http://www.cps-k12.org>.

The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget's Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations (June, 2003 Revision)*. Information related to this single audit, including a schedule of federal financial assistance, the independent auditors' reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs, are included in a separately issued single audit report.

Profile of the District

The District includes all of the City of Cincinnati, Amberley Village, Cheviot, Golf Manor, most of the City of Silverton, a part of Fairfax, part of Wyoming and parts of Anderson, Columbia, Delhi, Green and Springfield Townships with a total area of approximately 90 square miles.

The District operates 65 schools: 50 elementary schools and 15 high schools (9-12). Several high school buildings contain more than one school. Through the use of a five-year building and maintenance plan, all facilities are kept in the best operating and physical condition possible. The District has been sensitive to an energy conservation program and is in the fourth year of a \$985 million, 10-year facilities improvement program.

The District's enrollment (K-12) for the 2006-07 school year was 33,881 students. The District served 67% of the 54,985 children who reside within its boundaries. The majority of enrolled students were members of ethnic minorities -- in the 2006-07 school year, 70.9 percent of students were African-American, 0.8 percent were Asian, 22.7 percent were Caucasian, 0.1 percent were Native American, 4.0 percent were other/multiracial, and 1.5 percent were Hispanic.

A significant majority of students in the District – 65.5 percent - were on free or reduced lunch plans during the 2006-07 school year. Seventy-three percent of the District's elementary schools served student populations that were 75 percent or higher in poverty. Twenty and a one half percent of the students attending were served with Special Education needs.

Transportation was provided daily for 17,049 public students, 4,369 for charter students and 4,444 for non-public students. Buses traveled an average of 25,081 miles each day. A self-supporting Food Services Department served an average of 15,217 lunches and 8,959 breakfasts per day for the 2006-07 school year.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Letter of Transmittal

For the Fiscal Year Ended June 30, 2007

The District offers a comprehensive academic curriculum through the following programs: college preparatory classes, advanced placement courses, gifted education vocational programs and a full range of services in special education. The District provides tutorial help, resource rooms, speech/language therapy, psychological services and counseling. In addition to academic and related services, the District also offers students the opportunity to participate in a wide range of extracurricular activities to extend their learning and increase their enjoyment of school. On the State of Ohio's 2006-07 Report Card, the District is in its third year of "Continuous Improvement" and continues to make gains in academic achievement.

The Board of Education of the Cincinnati City School District (Board) is a body both politic and corporate charged with the responsibility of managing and controlling affairs of the District and is, together with the District, governed by the general laws of the State of Ohio (Ohio Revised Code). The Board is comprised of seven (7) members who are elected for overlapping four-year terms. The Board members during the fiscal year ended June 30, 2007 were:

	<u>Date Current Term Commenced</u>	<u>Present Term Expires</u>
Eileen Cooper Reed, President	01/01/06	12/31/09
Melanie Bates, Vice President	01/01/06	12/21/09
Susan Cranley	01/01/06	12/31/09
John J. Gilligan	01/01/04	12/31/07
Catherine Ingram	01/01/06	12/31/09
Dr. Florence Nowell	01/01/04	12/31/07
Rick Williams	01/01/04	12/31/07

The Superintendent is the chief executive officer of the District, responsible directly to the Board for all educational and support operations. The Superintendent is appointed by the Board for a term not longer than five years and is responsible for administering Board-adopted policies, expected to provide leadership in all phases of policy formulation and is the chief advisor to the Board on all aspects of the educational program and total operation of the schools governed by the Board.

In April 2004, the Board appointed Rosa E. Blackwell as the Superintendent for a term commencing April 8, 2005 and ending July 31, 2008. A graduate of CPS' Hughes High School, she joined the district in 1972 as a teacher, later becoming a curriculum supervisor, a principal at elementary, junior high and high schools, and the district's deputy superintendent. She has served the children of Cincinnati for over three decades.

Mrs. Blackwell is a widely respected administrator and community leader whose leadership skills and experience include supporting teachers and other employees through quality professional development, holding employees accountable for high performance, directing successful efforts to meet CPS' financial needs, and developing partnerships and strong working relationships with diverse stakeholders to support district progress.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Letter of Transmittal

For the Fiscal Year Ended June 30, 2007

Her wide education experience and knowledge resulted in her being one of the first associates of the Mayerson Academy for Human Resource Development, a privately endowed, state-of-the-art training facility with the primary mission of providing first-class professional development for CPS employees.

As CPS' deputy superintendent, Mrs. Blackwell's responsibilities included developing and executing important district initiatives such as high school restructuring, the Teacher Evaluation System, the Positive School Culture initiative and building schools that serve as Community Learning Centers.

Mrs. Blackwell earned bachelor's and master's degrees in education, and her superintendent's certificate, at Cincinnati's Xavier University. She also pursued post-graduate studies in reading, counseling and learning disabilities at Xavier and in political science and educational administration at St. John's College in Santa Fe, New Mexico.

The Treasurer is appointed by the Board for a term not longer than five years and serves as the chief financial officer of the Board of Education and, with the president of the Board of Education, executes all conveyances made by the Board of Education. The Treasurer is responsible directly to the Board for maintaining all financial records, issuing all payments, maintaining custody of all District funds and assets and investing idle funds as specified by Ohio Law.

The Board appointed Jonathan L. Boyd as Treasurer for a three-year term commencing May 1, 2007 and ending July 31, 2010. Mr. Boyd holds a Masters Degree in Administration from Central Michigan University and has served as a Treasurer in other Ohio Public Schools for the past 22 years. In 1998 Mr. Boyd was recognized by the Foundation of School Business Management as the Treasurer of Year for his accomplishments in serving Ohio Public Schools.

Local Economic Condition and Outlook

The economy of the District is based on a wide diversity of industry. The major sources of revenue to the District are local property taxes on real and personal property, along with State aid. Other funds, such as lunch and special classes are funded for their expenditures by designated State and Federal grants.

The City of Cincinnati, founded in 1788 and incorporated in 1819, is the hub of a metropolitan area ranking second in Ohio and sixteenth in the United States in value of manufacturing output. Located strategically on the Ohio River, it has developed into a major industrial and shipping center. As a major shipping route, the Ohio River handles as much tonnage as the St. Lawrence Seaway and the Panama Canal combined.

A transportation and industrial center since the early development of the territory west of the Appalachians, the Cincinnati Metropolitan Area has developed into a major center for insurance and finance companies; wholesaling and retailing; government installation, medical services, and service industries as well as manufacturing.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Letter of Transmittal

For the Fiscal Year Ended June 30, 2007

Metropolitan Cincinnati was expanded to include 15 counties in mid-2003: Hamilton, Warren, Clermont, Butler and Brown counties in Ohio; Dearborn, Franklin and Ohio counties in Indiana; and Kenton, Boone, Bracken, Campbell, Grant, Gallatin and Pendleton counties in Kentucky. There are approximately 3.7 million net square feet of office space in the downtown Cincinnati area and 23.3 million net square feet in suburban office buildings and parks. There are approximately 239.7 million square feet of industrial space and 47.5 million square feet of retail space in the area (2.6 million square feet downtown). Retail sales for 2005 in Hamilton County topped \$14.0 billion and sales surpassed \$29.6 billion for the entire Cincinnati Metropolitan Statistical Area (MSA).

Among the Metropolitan Area's more prominent manufacturing groups are transportation equipment, which includes aircraft engines and motor vehicle parts; food and kindred products; metal working and general industrial machinery; chemicals; fabricated metal products; and printing and publishing. This diverse economic base continues to be a source of stability for the area, protecting it from severe peaks and valleys in the business cycle. Total wage and salary employment in Hamilton County was estimated at 575,700 in 2005 by the U.S. Department of Commerce's Bureau of Economic Analysis. Hamilton County is home to 56% of all regional jobs and to approximately 25,000 business and industry establishments.

The Ohio Bureau of Employment Services estimated total employment in Hamilton County at 411,200 at June 30, 2007. This 94.2% employment rate is slightly above the State of Ohio employment rate of 93.9% at June 30, 2007 and trails the national rate of 95.3% at this date.

More than half of the nation's population, manufacturers, and purchasing power are located within 600 miles of Greater Cincinnati. The corporate headquarters of numerous firms are located in the Metropolitan Area, including eleven 2004 Fortune 500 corporations: the Kroger Company, Procter and Gamble, Federated Department Stores, Ashland Inc., Fifth Third Bancorp, CInergy, AK Steel, Western & Southern Financial Group, Omnicare, Inc, American Financial Group and Cincinnati Financial Corporation. The national headquarters for Sara Lee Foods and the North American headquarters for Lenscrafters are also located in the area.

The Metropolitan Area is a growing center for international business, with approximately 1,000 firms engaged in international trade. Metropolitan Area companies annually generate sales of more than \$6.7 billion to customers outside the U.S. Major export products include jet engines, plastics, machinery, computers and software technology and consumer goods. Nearly 300 Greater Cincinnati firms are owned by foreign firms from Japan, England, Western Europe and Canada, among other countries. Twenty-five percent (25%) of all jobs in the Metropolitan Area are related to exporting. Cincinnati exports more than any other city in Ohio and is ranked twenty-first (21st) in the United States.

Long-term Financial Planning

During FY 2007 the District fully implemented the Fiscal Responsibility Plan. The District continues to identify and execute further opportunities to reduce costs and right-size staffing levels.

In fiscal year 2007 the District began to see the results of its long-term financial planning. The District met or exceeded its budget goal for the third straight year. We were again able to meet this goal because of our continuing effort to right-size the District, aggressively monitoring and evaluating spending and the District is making aggressive efforts to attract and retain students.

Facilities Master Plan (FMP) Surges Forward

The District's ten-year, \$985 million Facilities Master Plan (FMP) officially launched with the passage of a \$480 million bond issue in May 2003. During the period from January 2005 thru January 2008, the District has either renovated or constructed a total of 16 schools. By the end of 2008 there will be 9 additional schools either being renovated or under construction for the next phase of the Facilities Master Plan. The District's new schools are distinctive, eye-catching buildings, with technology-ready classrooms and stand-out architectural features that provide an abundance of natural light and include courtyards that invite outdoor learning, and welcoming rotundas. As state-of-the-art, 21st century schoolhouses, these buildings quickly will become local landmarks and community anchors. The District's FMP is now fully funded.

The District's 10-year rebuilding plan will generate an economic impact of \$2.35 billion for Greater Cincinnati, including creating 2,339 jobs and \$718 million in wages, according to a University of Cincinnati study. To help more businesses get a piece of that pie, the district has revamped its policies to generate more opportunities for Small Business Enterprises (SBE) and Disadvantaged Business Enterprises (DBE), which includes small businesses, and minority- and female-owned businesses. The District's expanded Supplier Diversity Program is working to cultivate new relationships with a broader base of businesses. Beginning July 2003 through June 2007, over 57% of the District's construction contracts were awarded to SBE, DBE and minority owned enterprises, exceeding the Board's 25% goal.

Awards and Acknowledgments

GFOA Certificate of Achievement. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting (Certificate of Achievement) to the District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2006. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting. The June 30, 2006 CAFR was the seventh consecutive CAFR prepared by the District to receive this prestigious award.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Letter of Transmittal

For the Fiscal Year Ended June 30, 2007

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

Independent Audit. State statute requires an annual audit be performed by the Auditor of State or by an independent certified public accountant approved by the Auditor of State. The Auditor of State has contracted the District Audit for fiscal year ended June 30, 2007 to Clark, Schaefer, Hackett & Company, an independent certified public accounting firm. In addition to meeting the requirements of state statutes, the audit was also designed to meet the requirements of the federal Single Audit Act of 1984, the 1996 amendments thereto, and the related U.S. Office of Management and Budget's Circular A-133. Generally accepted auditing standards and the standards set forth in the General Accounting Office's *Government Auditing Standards* were used by the auditors in conducting the engagement. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's report on internal controls and compliance with applicable laws and regulations can be found in a separately issued single audit report.

Acknowledgments The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Treasurer's Department. I would like to express my sincere appreciation to Ms. Jennifer Wagner, Assistant Treasurer/Controller and to all other members of the Department. I am also grateful for the professional services of Donald J. Schonhardt & Associates and Bastin & Company, LLC, for their assistance in preparing this report. Due credit should also be given to the Board of Education and the Superintendent for their leadership and support in planning and conducting the operations of the District in a responsible and progressive manner.

Sincerely,

Jonathan L. Boyd
Treasurer/CFO

INDEPENDENT AUDITORS' REPORT

To the Board of Education
Cincinnati City School District, Ohio:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cincinnati City School District, Ohio (the School District), as of and for the year ended June 30, 2007, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2007, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2008, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 12 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

*Management's Discussion and Analysis
For the Fiscal Year Ended June, 30, 2007*

Unaudited

The discussion and analysis of the Cincinnati City School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2007. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2007 are as follows:

General revenues accounted for \$417,241,544 in revenue or 66.9% of all revenue. Program specific revenues in the form of charges for services and grants and contributions accounted for \$206,228,965 or 33.1% of total revenues of \$623,470,509.

The District had \$542,071,586 in expenses related to governmental activities; only \$206,228,965 of these expenses was offset by program specific revenues in the form of charges for services, grants or contributions. General revenues (primarily taxes totaling \$214,930,624, revenue in lieu of taxes totaling \$11,299,519, unrestricted state and federal revenues totaling \$157,791,118, investment earnings totaling \$29,904,739 plus prior year carry over revenues) were adequate to provide for these programs.

The assets of the District exceeded its liabilities at June 30, 2007 by \$423,164,824 (net assets). Of this amount, \$52,591,559 is considered unrestricted and may be used to meet the District's on-going obligations.

The District's total net assets increased \$81,398,923 in fiscal year 2007, which represents a 23.8% increase from the fiscal year 2006 balance. The bulk of the increase is attributable to lower overall personnel costs resulting from the continued cost cutting measures of the District and the recognition of segments of the OSCF grant revenues in 2007 while no new segments were recognized in 2006. In addition, increases in charges for services and other grants and entitlements also contributed to the increase.

Among major funds, the general fund had \$342,925,406 in revenue, \$387,855,146 in expenditures and (\$14,626,125) in net other financing uses, resulting in the general fund balance decreasing by \$59,555,865 to \$28,798,095.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis, the basic financial statements, and an optional section that presents combining statements for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the District:

These statements are as follows:

The Government-Wide Financial Statements – These statements provide both long-term and short-term information about the District's overall financial status.

The Fund Financial Statements – These statements focus on individual parts of the District, reporting the District's operations in more detail than the government-wide financial statements.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

*Management's Discussion and Analysis
For the Fiscal Year Ended June, 30, 2007*

Unaudited

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net-assets (the difference between the District's assets and liabilities) are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District you need to consider additional nonfinancial factors such as the property tax base, current property tax laws, and student enrollment growth and facility conditions.

The government-wide financial statements of the District fall into one category:

Governmental Activities – All of the district's programs and services are reported here including instruction, support services, non-instructional and extracurricular activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

Governmental Funds – Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Fund – The District utilizes an internal service fund to report activities that provide services for the District's other programs and activities. The Proprietary fund is reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Activities.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

*Management's Discussion and Analysis

Fiduciary Funds – The District is the trustee, or fiduciary, for various student-managed activity programs, various scholarship programs and other items listed as agency and private purpose. It is also responsible for other assets that, due to a trust arrangement can only be used for the trust beneficiaries. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Management's Discussion and Analysis For the Fiscal Year Ended June, 30, 2007

Unaudited

The most significant reasons for the \$81.4 million increase in Net Assets from FY 2006 to FY 2007 are as follows:

During 2007, the District recognized over \$65 million of grant revenues related to segments of the OSCF program while no new segments were recognized in 2006. In addition, a decrease in expenses highlights the impact of the ESP liability that was expensed during 2006 with no impact on 2007 expenses. Increases in charges for services and other grants and entitlements also contributed to the increase

These increases were offset by a reduction in the amount of property taxes recognized for reporting purposes. For fiscal year 2007 property taxes recognized as revenues decreased \$135 million as a result of 1) timing differences in the collection of those taxes by Hamilton County, 2) the amounts reported by the County as available to the District for advances and 3) reductions in amounts reported by the County at outstanding at year end. Fiscal year 2006 saw significant increases in the amounts that the County collected, reported as available to the District as advances and year-end receivables when compared to amounts for fiscal year 2005 and 2007. These factors resulted in a high level of property taxes to be recognized as revenues during 2006 when compared to both 2005 and 2007. On average, the level of property taxes recognized for 2007 and 2006 when combined, is approximately \$280 million per year and in line with revenue expectations of the District.

Governmental Activities

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. As an example, a homeowner with a home value at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00. However, the assessed millage cannot be reduced below 20 mills, according to state statutes. Thus school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to voters to maintain a constant level of service.

Property taxes made up 32.8% of revenues for governmental activities for the Cincinnati City School District in fiscal year 2007. The District's reliance upon tax revenues is demonstrated by the following table and graph:

Revenue Sources	2007	Percent of Total
General Grants	\$157,791,118	25.31%
Program Revenues	206,228,965	33.08%
General Tax Revenues	214,930,624	34.47%

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

The District's governmental funds reported a combined fund balance of \$610,292,712, which is less than last year's total of \$673,279,373. The schedule below indicates the fund balance and the total change in fund balance by fund type as of June 30, 2007 and 2006.

	Fund Balance June 30, 2007	Fund Balance June 30, 2006	Increase (Decrease)
General	\$28,798,095	\$88,353,960	(\$59,555,865)
Debt Service	24,674,972	21,561,481	3,113,491
Building Capital Projects Classroom Facilities	383,198,231	301,695,376	81,502,855
Capital Projects	161,692,532	242,575,063	(80,882,531)
Other Governmental	11,928,882	19,093,493	(7,164,611)
Total	\$610,292,712	\$673,279,373	(\$62,986,661)

The decrease in the District's General Fund is largely due to continued salary and benefit costs exceeding available current year resources as a result of the District not being able to adjust staffing to student enrollment declines over the past seven years and the fact that by state statute the District's local property tax revenues are not allowed to grow with inflation. Expenditures were reduced significantly during 2007 as a result from the effects District's Fiscal Accountability Plan implemented during FY 2005. The increase in the Building Capital Projects Fund balance in the amount of \$81,502,855 is primarily due to the issuance of debt for project funding. The decrease in the Classroom Facilities Capital Projects Fund balance in amount of \$80,882,531 is due to the continued payments made to vendors during fiscal year 2007. The FMP program activity increased as seven new schools became operational in 2007.

General Fund revenues in 2007 decreased from 2006 primarily due to recognizing reduced property taxes revenues as a result in timing differences in the collection of those taxes by Hamilton County, the amounts reported by the County as available to the District for advances and reductions in amounts reported by the County at outstanding at year end.

The \$38.7 million decrease in administrative expenditures is a result of recognizing approximately \$44 million of expenditures during 2007 for the Employee Severance Plan (ESP) applicable to over 600 employees who accepted the plan.

Excluding the ESP expenditure, expenditures in general, decreased across most areas as a result of reduced expenditures as a result of a reduced work force and the continued enactment of the Fiscal Accountability Plan.

During the course of fiscal year 2007 the District amended its General Fund budget several times. The increase in appropriations of 2.2% between the original and final budgets represent the appropriation of contingency funds to cover the original conservative spending levels determined by the Fiscal Accountability Plan. The General Fund budget basis revenue increased .32% compared to the original budget estimates.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets - At the end of fiscal 2007 the District had \$470,028,728 net of accumulated depreciation invested in land, land improvements, buildings and improvements, furniture, fixtures and equipment, vehicles and construction in progress. The following table shows fiscal year 2007 balances:

	Governmental Activities		Increase (Decrease)

For financial reporting purposes the District capitalizes all assets in excess of \$25,000. The \$100,928,775, net increase in Buildings and Improvements during 2007 was a result of completing construction of seven building projects as part of the District's ten year, \$985 million Facilities Master Plan and reclassified from construction in progress to other asset classifications as well as for those schools where construction continued during 2007 and remained classified as construction in progress. The increase in capital asset balances, coupled with changes in debt balances, contributed to a net increase in Government Activities Investment in Capital Assets, Net of Related Debt in the amount of \$55,626,988. The net increase in the balance of the Restricted for Capital Projects in the amount of \$66,316,844 was the result of the continuing activity within the District's capital facility plans. Detailed information regarding capital asset activity is included in the notes to the basic financial statements (Note 9).

Debt - At June 30, 2007, the District had \$673,331,045 in General Obligation Bonds outstanding, \$22,127,876 due within one year. The following table summarizes the District's debt outstanding as of June 30, 2007:

	<u>2007</u>	<u>2006</u>
Governmental Activities:		
General Obligation Bonds	\$673,331,045	\$736,003,676
Capital Leases	126,617,792	0
Compensated Absences	51,762,359	44,714,289
Totals	<u>\$851,711,196</u>	<u>\$780,717,965</u>

Under current state statutes, the District's debt issue is subject to a legal limitation based on 9% of the total assessed value of real and personal property. At June 30, 2007, the District's outstanding debt was below the legal limit. Detailed information regarding debt is included in the notes to the basic financial statements (Notes 11-12).

ECONOMIC FACTORS

The economy of the District is based on a wide diversity of industry. The major sources of revenue to the District are local property taxes on real and personal property, along with State aid. Other program expenditures, such as those for the free and reduced lunch program and special needs classes and those to meet the requirements of No Child Left Behind are funded by designated State and Federal grants.

This diverse economic base continues to be a source of stability for the area, protecting it from severe peaks and valleys in the business cycle. The Ohio Bureau of Employment Services estimated total employment in Hamilton County at 411,200 at June 30, 2007. This 94.2% total employment rate compares slightly favorably with the State of Ohio total employment rate of 93.9% but trails the national rate of 95.3% at June 30, 2007. All of these factors were considered in preparing the District's budget for the 2007 fiscal year.

Reconciliation Of The Statement Of Revenues, Expenditures And Changes In Fund Balances Of Governmental Funds To The Statement Of Activities For The Fiscal Year Ended June 30, 2007

Net Change in Fund Balances - Total Governmental Funds \$ (62,986,661)

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	125,394,719
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of capital assets net of proceeds received.	(911,238)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	88,189,878
The issuance of long-term debt (e.g. long-term notes, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.	(71,345,634)
In the statement of activities, interest is accrued on outstanding bonds and long-term notes payable, whereas in governmental funds, an interest expenditure is reported when due.	7,756,190
Some expenses reported in the statement of activities, long-term compensated absences, do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(5,642,331)
The internal service funds are used by management to charge the costs of services to individual funds is not reported in the statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service funds are allocated among the governmental activities.	<u>944,000</u>

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Cincinnati City School District, Ohio (District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is a city school district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under a locally elected seven member Board of Education and is responsible for the provision of public education to residents of the District. The District also provides both special education and career/technical education for residents of the District.

The District is the third largest in the State of Ohio and includes the cities of Cincinnati and Cheviot, and the villages of Amberley and Golf Manor, most of the city of Silverton, and part of each of the following: the city of Wyoming, the village of Fairfax and the townships of Anderson, Columbia, Delhi, Green and Springfield. The District's total area is approximately 90 square miles. As of June 30, 2007, the District employed 4,912 employees, including 2,631 certified by the Ohio Department of Education serving as classroom teachers, education specialists and administrators.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "*The Financial Reporting Entity*," in that the financial statements include all organizations, activities, and functions for which the District (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing board and either the District's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to, or impose a financial burden on the District. Based on the foregoing, the reporting entity of the District includes the following services: instructional (regular, special education, vocational), student guidance, extracurricular activities, food service, pupil transportation and care and upkeep of grounds and buildings.

The accounting policies and financial reporting practices of the District conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of its significant accounting policies.

B. Basis of Presentation – Financial Statements

Government-wide Financial Statements – The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation – Financial Statements (Continued)

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

The proprietary fund type is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of this fund is included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Fiduciary funds, except for agency funds, are reported using the economic resources measurement focus. Agency funds do not have a measurement focus due to their custodial nature (assets equal liabilities).

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are grouped into the categories governmental, proprietary and fiduciary.

Governmental Funds - These are funds through which most governmental functions typically are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities are accounted for through governmental funds. The measurement focus is upon determination of "current financial resources" (sources, uses and balances of financial resources). The following are the District's major governmental funds:

General Fund - This fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund - The Debt Service fund is used for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Building Fund - The Building capital projects fund accounts for revenues and expenditures related to all special bond funds in the District.

Classroom Facilities Fund - The Classroom Facilities capital projects fund accounts for financial resources to be used for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Fund - The proprietary fund is accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and all liabilities associated with the operation of the proprietary funds are included on the balance sheet. The proprietary fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Internal Service Fund - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District or to other governments on a cost-reimbursement basis. The Self Insurance Fund accounts for the premiums and claims payments applicable to the employee health and dental plans.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation - Fund Accounting (Continued)

Fiduciary Funds – Fiduciary fund reporting focuses on net assets and changes in net assets. The District has two types of fiduciary funds: a private-purpose trust fund and an agency fund. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the District's own programs. The District's only trust fund is a private purpose trust that accounts for scholarship programs for students. The private purpose trust fund is accounted for on an "economic resources" measurement focus. The District's agency fund accounts for various student-managed activity programs. The agency fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operations.

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the District is considered to be 60 days after fiscal year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Under the modified accrual basis, the following revenue sources are considered susceptible to accrual at year end: property taxes, tuition, grants and entitlements, student fees, and interest on investments.

Current property taxes measurable at June 30, 2007, and which are not intended to finance fiscal 2007 operations, have been recorded as deferred revenues. Delinquent property taxes measurable and available (received within 60 days) and amounts available as an advance on future tax settlements are recognized as revenue at year end. Taxes available for advance and recognized as revenue but not received by the District prior to June 30, 2007 are reflected as a reservation of fund balance for future appropriations. The District is prohibited by law from appropriating this revenue in accordance with ORC Section 5705.35, since an advance of revenue was not requested or received prior to the fiscal year end.

The accrual basis of accounting is utilized for reporting purposes by the government-wide financial statements, proprietary funds and the fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when incurred.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

Pursuant to GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting," the District follows GASB guidance as applicable to proprietary funds and FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements.

Revenues – Exchange and Non-exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year.

All funds other than agency funds are legally required to be budgeted and appropriated; however, only governmental funds are required to be reported. The primary level of budgetary control is at the fund level. Supplemental budgetary modifications may only be made by resolution of the Board of Education.

1. Tax Budget

By January 15, the Superintendent and Treasurer submit an annual operating budget for the following fiscal year to the Board of Education for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the County Budget Commission, by January 20 of each year for the period July 1 to June 30 of the following fiscal year.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

2. Estimated Resources

Prior to April 1, the Board accepts by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2007.

3. Appropriations

A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 through September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 through June 30. The appropriation resolution establishes spending controls at the fund level. The appropriation resolution may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. The allocation of appropriations among departments and objects within a fund may be modified during the year by management. During the year, several supplemental appropriations were necessary to budget the use of contingency funds. Administrative control is maintained through the establishment of more detailed line-item budgets. Amounts for advances between funds are not required to be and are not appropriated by the District. In addition, due to the nature of the District's procedures for the funding of payroll expenditures through a holding account, certain transfers are also not formally appropriated. The budgetary figures which appear in the "Statement of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual" are provided on the budgetary basis to provide a comparison of actual results to the final budget, modified for the aforementioned advances and transfers, including all amendments and modifications.

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities and are reported as reservations of fund balances for governmental funds in the accompanying basic financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

5. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

6. Budgetary Basis of Accounting

The District's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting. Encumbrances are also recorded as the equivalent of expenditures (budgetary basis) as opposed to reservations of fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund:

Net Change in Fund Balance	
	General Fund
GAAP Basis (as reported)	(\$59,555,865)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Cash and Cash Equivalents

The District pools its cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each fund maintained its own cash and investment account. See Note 4, "Cash, Cash Equivalents and Investments."

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the District records all its investments at fair value. See Note 4, "Cash, Cash Equivalents and Investments."

The District has invested funds in the STAR Ohio during 2007. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2007. See Note 4, "Cash, Cash Equivalents and Investments."

H. Inventory

Inventory is stated at cost (first-in, first-out) in the governmental funds. The costs of inventory items are recorded as expenditures in the governmental funds when used. The amounts of unused commodities are reported at fair value and as deferred revenue, since title does not pass to the District until the commodities are used.

I. Capital Assets and Depreciation

1. Property, Plant and Equipment - Governmental Activities

Capital assets acquired or constructed for governmental activities are recorded as expenditures in the governmental funds when acquired and are capitalized at cost (or estimated historical cost for assets not purchased in recent years) in the Government-wide Statement of Net Assets.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Capital Assets and Depreciation (Continued)

1. Property, Plant and Equipment - Governmental Activities (Continued)

Contributed capital assets are recorded at fair market value at the date received. The District capitalizes costs of capital assets exceeding \$25,000 (non-Federal Funds) and \$5,000 for assets purchased with Federal Funds. Capital asset values were initially determined by identifying historical costs where such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

2. Depreciation

All capital assets, except land and construction in progress, are depreciated. Land improvements that deteriorate with use or the passage of time, such as parking lots and fences, are considered depreciable. Depreciation has been provided using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives (in years)</u>
Land Improvements	20
Buildings and Improvements	45
Furniture, Fixtures and Equipment	7 – 20
Vehicles	5

J. Long-Term Obligations

Long-term liabilities are being repaid from the following funds:

<u>Obligation</u>	<u>Fund</u>
General Obligation Bonds	Debt Service Fund
Capital Leases	General Fund, Debt Service Fund
Tax Anticipation Notes	General Fund
Compensated Absences	General Fund, Food Services Fund

K. Compensated Absences

GASB Statement No. 16 specifies that compensated absences should be accrued as employees earn them if both of the following conditions are met:

1. The employee's rights to receive compensation are attributable to services already rendered.

2. It is probable that the employer will compensate the employee for the benefits through paid time off or cash payment. The District includes in its liabilities any employee who has at least 20 years of service or an employee who has five years of service and is at least 60 years of age.

The District's policies regarding compensated absences are determined by state laws and/or negotiated agreements. In summary, the policies are as follows:

	<u>Certificated</u>	<u>Administrators</u>	<u>Non-Certificated</u>
<u>Vacation:</u> How Earned	Not Eligible	2.7 days per month of employment (27 days per year)	.84 days to 1.67 days per month of employment (10 to 20 days per year) depending on length of service.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Compensated Absences (Continued)

Compensated absences accumulated by governmental fund type employees are retired as an expense when earned in the government-wide financial statements. For governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported in the fund financial statements.

L. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net Assets restricted for Other Purposes include restricted state and federal grants.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

M. Pensions

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred.

N. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

O. Restricted Assets

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a budget stabilization reserve. This reserve is required by State statute and can be used only after receiving approval from the Board of Education. The restricted assets in the debt service fund represents cash and cash equivalents set aside for debt retirement purposes. Fund balance reserves have also been established for these amounts.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Reservations of Fund Balance

Reserves indicate that a portion of fund balance is not available for expenditure or is legally segregated for a specific future use. Fund balances are reserved for advances, debt service, endowments, property taxes, budget stabilization and encumbered amounts which have not been accrued at year end. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles, but not available for appropriation under State statute. The reserve for budget stabilization is required by State statute.

Q. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

R. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are interfund charges for the internal service fund. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund.

S. Revenue in Lieu of Taxes

Revenue in Lieu of Taxes are monies received, via agreements with the City of Cincinnati, Hamilton County and certain townships that overlap the District, in an attempt to "make whole" tax revenues that were lost via abatements, enterprise zones or Tax Increment Financing plans created within their jurisdictions.

NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government – wide statement of activities. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

Amount by which capital outlays exceeded depreciation in the current period:

Capital Asset Additions	131,809,079
Depreciation Expense	<u>(6,414,360)</u>
	\$125,394,719

Governmental revenues not reported in the funds:

Increase in Delinquent Tax Revenue	\$18,440,056
Decrease in Accounts Receivable	(100,942)
Decrease in Interest Receivable	(44,171)
Increase in Grants Receivable	<u>69,894,935</u>
	\$88,189,878

Net amount of long-term debt issuance and bond and lease principal payments:

Bond Principal Payment	\$26,350,000
Capital Leases Initiated	(120,365,000)
Refunding Bond Issuance	(380,945,000)
Premium on Refunding Bond Issuance	(48,836,975)
Payment to Refunding Bond Escrow Agent	<u>459,954,691</u>
	(\$71,345,634)

Interest expense not reported in the funds:

Decrease in accrued interest on long term debt	\$8,524
Amortization of Bond Premium	5,987,087
Capitalization of Bond Issuance Costs	4,666,386
Amortization of Deferred Loss on Defeasance	(2,039,621)

NOTE 3 – DEFICIT FUND EQUITIES AND COMPLIANCE

A. Deficits

The fund deficits at June 30, 2007 of \$580,739 in the Food Services Fund, \$1,116,070 in the Auxiliary Services Fund, \$566,134 in the Head Start Fund, \$3,180,850 in the Poverty Based Assistance Fund, \$974,276 in the Title VI-B Fund (special revenue funds) and of \$48,295 in the Ohio School Net Fund, \$1,485,543 in the School Building Assistance Fund and of \$60,380 in the Emergency School Repair Fund (capital projects funds) arise from the recognition of expenditures on the modified accrual basis which are greater than expenditures recognized on the budgetary basis. The deficits do not exist under the budgetary/cash basis of accounting. The General Fund provides operating transfers when cash is required, not when accruals occur.

B. Compliance

Contrary to Ohio Revised Code, Section 5705.39, the District's total appropriations exceeded the total of estimated resources during 2007 in the Chapter I Fund. In addition, contrary to Ohio Revised Code, Section 5705.41(B) the District expended money in excess of amounts appropriated during 2007 in the Debt Service Fund, Title VI-B Fund, Auxiliary Fund, Ohio Reads Fund, Bilingual Education Fund, Title V Fund and Miscellaneous Federal Grant Fund.

NOTE 4 - CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash resources of several individual funds are combined to form a pool of cash, cash equivalents and investments. In addition, investments are separately held by a number of individual funds.

Statutes require the classification of funds held by the District into three categories. Category 1 consists of "active" funds - those funds required to be kept in a "cash" or "near cash" status for immediate use by the District. Such funds must be maintained either as cash in the District Treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of "inactive" funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of "interim" funds - those funds which are not needed for immediate use but, which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 4 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;
- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Protection of District cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the District places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end the carrying amount of the District's deposits was \$89,577,671 and the bank balance was \$97,876,445. The Federal Deposit Insurance Corporation (FDIC) covered \$300,000 of the bank balance and \$97,876,445 was insured by collateralized securities held by the pledging institution's trust department in the District's name.

² Standard & Poor's

Interest Rate Risk – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date.

Concentration of Credit Risk – The District places no limit on the amount the District may invest in one issuer. Of the District's total investments, 1.6% are Star Ohio, .18% are Farmer Mac, 13.85% are Freddie Mac, 32.87% are FNMA, 1.18% are FFCB, 50.19% are FHLB and .13 % are common stock (all donated).

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District has no policy on custodial credit risk and is governed by Ohio Revised Code as described under Deposits.

NOTE 5 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the school district fiscal year runs from July through June. First half tax collections are received by the school district in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the school district. Real property tax revenue received in calendar 2007 represents collections of calendar year 2006 taxes. Real property taxes received in calendar year 2007 were levied after April 1, 2006, on the assessed value listed as of January 1, 2006, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2007 represents collections of calendar year 2006 taxes. Public utility real and tangible personal property taxes received in calendar year 2007 became a lien December 31, 2006, were levied after April 1, 2006 and are collected in 2007 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 5 - PROPERTY TAXES (Continued)

Tangible personal property tax revenue received during calendar 2007 (other than public utility property) represents the collection of 2007 taxes. Tangible personal property taxes received in calendar year 2007 were levied after April 1, 2006, on the value as of December 31, 2006. Tangible personal property is currently assessed at twenty-five percent of true value for capital assets and twenty-four percent of true value for inventory. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

The County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2007, are available to finance fiscal year 2007 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2007 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2007 was \$33,191,620 in the general fund and \$2,725,768 in the debt service fund. The amount available as an advance at June 30, 2006, was \$74,328,722 in the general fund and \$10,409,883 in the debt service fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

NOTE 10 - DEFINED BENEFIT PENSION PLANS

All of the District's full-time employees participate in one of two separate retirement systems which are cost-sharing, multiple-employer defined benefit pension plans.

A. School Employees Retirement System of Ohio (SERS of Ohio)

All non-certified employees of the District, with minor exceptions, performing duties that do not require a certificate issued by the Ohio Department of Education are eligible to participate in the School Employees Retirement System of Ohio, a cost-sharing, multiple-employer public employee retirement system.

The SERS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The SERS of Ohio issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information for the SERS of Ohio. Interested parties may obtain a copy by making a written request to SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling (800) 878-5853. It is also posted on the SERS website, www.ohsers.org, under Forms and Publications.

The Ohio Revised Code provides statutory authority for District and employee contributions of 14% and 10% respectively. The contribution rates are determined actuarially, and are established and may be amended, up to statutory amounts, by the School Employees Retirement Board (Retirement Board) within the rates allowed by State statute. The required employer contribution rate is allocated to basic retirement benefits and health care by the Retirement Board. At June 30, 2007, 10.68% was allocated to fund the pension benefit and 3.32% to fund health care. The District's contributions to the SERS of Ohio for the years ending June 30, 2007, 2006, and 2005 were \$9,845,051, \$8,303,614, and \$8,809,066, respectively, which were equal to the required contributions for each year.

The Ohio Revised Code gives SERS the discretionary authority to provide postretirement health care to retirees and their dependents. Coverage is made available to service retirees with ten or more years of qualifying service credit, disability and survivor benefit recipients. Effective January 1, 2004, all retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility, and retirement status. The portion of the 2007 employer contribution rate that was used to fund health care for the year 2007 was 3.32%. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between minimum pay and the member's pay, prorated for partial service credit. For fiscal year 2007, the minimum pay has been established as \$35,800. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund. The amount contributed to fund health care benefits, including the surcharge amounted to \$3,374,599.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

A. School Employees Retirement System of Ohio (SERS of Ohio) (Continued)

Health care benefits are financed on a pay-as-you-go basis. Net health care costs for the year ended June 30, 2006 (latest information available) were \$158,751,207. The target level for the health care reserve is 150% of the projected claims less premium contributions for the next fiscal year. As of June 30, 2006, the value of the health care fund was \$295.6 million, which is about 221% of next year's projected net health care costs. On the basis of actuarial projections, the allocated contributions will be insufficient, in the long term, to provide for a health care reserve equal to at least 150% of estimated annual net claim costs. The number of participants eligible to receive benefits is 59,492.

B. State Teachers Retirement System of Ohio (STRS of Ohio)

All certified employees of the District are eligible to participate in the State Teachers Retirement System of Ohio, a cost-sharing, multiple-employer public employee retirement system.

The STRS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and survivor benefits based on eligible service credit to plan members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. The STRS of Ohio issues a stand-alone financial report that includes financial statements and required supplementary information for the STRS of Ohio. Interested parties may obtain a copy by making a written request to STRS Ohio, 275 East Broad Street, Columbus, Ohio 43215-3371, or by calling (614) 227-7877 or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation among various investment choices. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System of Ohio (STRS of Ohio) (Continued)

The Ohio Revised Code provides statutory authority for District and employee contributions of 14% and 10%, respectively. The contribution requirements of plan members and the District are established and may be amended by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. At June 30, 2007, 13% was allocated to fund the pension benefit and 1% to fund health care. The District's contributions to the STRS of Ohio for the years ending June 30, 2007, 2006, and 2005 were \$26,002,802, \$27,954,325, and \$30,693,847, respectively, which were equal to the required contributions for each year.

STRS provides postemployment health care benefits to retirees who participated in the DB or Combined Plans and their dependents. Coverage includes hospitalization, physician fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. All benefit recipients and sponsored dependents are eligible for health care coverage. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the health care cost will be absorbed by STRS. All benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, health care benefits are not guaranteed.

Benefits are funded on a pay-as-you-go basis through an allocation of employer contributions to the Health Care Stabilization Fund. For the fiscal year ended June 30, 2007, the board allocated employer contributions are equal to 1% of covered payroll to the Health Care Stabilization Fund, which amounted to \$1,857,343 for the District. The balance of the Health Care Stabilization Fund was \$3.5 billion at June 30, 2006 (latest information available). For the fiscal year ended June 30, 2006, the net health care costs paid by STRS were \$282,743,000. There were 119,184 eligible benefit recipients.

NOTE 11 – TAX ANTICIPATION NOTE PAYABLE

Note Payable activity of the District for the year ended June 30, 2007, was as follows:

Notes Payable		Balance June 30, 2006	Additions	Deletions	Balance June 30, 2007
Tax Anticipation Note	5.00%	\$43,600,000	\$0	(\$7,870,000)	\$35,730,000
		\$43,600,000	\$0	(\$7,870,000)	\$35,730,000

The tax anticipation notes were issued to provide funding for the employee severance plan and the associated compensated absences balances for the employees that agreed to retire in the prior fiscal year.

Totals	<u>\$638,995,000</u>	<u>\$418,403,669</u>	<u>\$1,057,398,669</u>

B. Defeased Debt

In September 2006, the District partially refunded \$397,305,000 of General Obligation Bonds for School Improvement, dated May 6, 2003, original issue amount \$480,000,000, through the issuance of \$380,945,000 of General Obligation Bonds. The net proceeds of the 2006 Bonds have been invested in obligations guaranteed as to both principal and interest by the United States Government and placed in irrevocable escrow accounts which, including interest earned, will be used to pay the principal and interest on the refunded bonds. The refunded bonds, which have an outstanding balance of \$397,305,000 at June 30, 2007, are not included in the District's outstanding debt since the District has in-substance satisfied its obligations through the advance refunding. The District reduced its aggregate debt service payments over the life of the refunded bonds by \$48,826,376 and obtained an economic gain (difference between the present values of the old and new debt service payments) of \$19,469,689.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

B. Defeased Debt (Continued)

In March 2007, the District refunded \$32,525,000 of General Obligation Bonds for School Improvement Series 2001, original issue amount of \$123,945,000, through the issuance of \$120,365,000 of Certificates of Participation (COPS), recorded as a capital lease. Proceeds in the amount of \$33,432,400 from the 2007 COPS have been invested in obligations guaranteed as to both principal and interest by the United States Government and placed in irrevocable escrow accounts which, including interest earned, will be used to pay the principal and interest on the refunded bonds. The refunded bonds, which have an outstanding balance of \$27,690,000, at June 30, 2007, are not included in the District's outstanding debt since the District has in-substance satisfied its obligations through the advance refunding. The District's aggregate debt service payments over the life of the refunded bonds increased by \$19,286,869. Pursuant to the COPS agreement, the District will not bear the burden of the increased debt service due to restructured agreements between Hamilton County, the City of Cincinnati and the District. The District obtained an economic gain (difference between the present values of the old and new debt service payments and revised payment schedules between the County and the District) of \$933,061.

In July 2005, the District refunded \$70,095,000 of General Obligation Bonds for School Improvement Series 2001, through the issuance of \$69,405,000 of General Obligation Bonds. The net proceeds of the 2006 Bonds have been invested in obligations guaranteed as to both principal and interest by the United States Government and placed in irrevocable escrow accounts which, including interest earned, will be used to pay the principal and interest on the refunded bonds. The refunded bonds, which have an outstanding balance of \$70,095,000, at June 30, 2007, are not included in the District's outstanding debt since the District has in-substance satisfied its obligations through the advance refunding.

NOTE 13 - CAPITAL LEASE COMMITMENT

The District is party to one lease, for various school facilities, that meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease as one which transfers benefits and risks of ownership to the lessee. The costs of the leased assets are accounted for in the Governmental Activities Capital Assets and the related liabilities in the Governmental Activities Long-Term Liabilities. The original cost of the assets under capital lease is \$120,365,000. The leased assets are recorded as buildings within the Capital Asset Footnote.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Minimum Lease Payments	249,012,646
Less: Amount representing interest at the District's incremental borrowing rate of interest	<u>(128,647,646)</u>
Present value of minimum lease payments	<u><u>\$120,365,000</u></u>

NOTE 14 - OPERATING LEASE COMMITMENTS

The District is committed under various leases for furniture and office equipment. These leases are considered for accounting purposes to be operating leases. Lease expenditures for the fiscal year ended June 30, 2007 amounted to \$291,406. Future minimum lease payments for these leases are as follows:

<u>Year Ending June 30,</u>	<u>Operating Leases</u>
2008	\$263,472
2009	<u>24,579</u>
Total Lease Payments	<u><u>\$288,051</u></u>

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 15 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District maintains comprehensive insurance coverage with private carriers for real property, boilers and machinery, building contents, general/Board liability and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. Real Property and contents are covered with a \$250,000 deductible.

There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages in any of the past three fiscal years.

For fiscal year 2007 the District participated in the Ohio Bureau of Workers Compensation Retrospective Rating Program, which requires a minimum 20% annual premium payment plus actual claims from District employees for the prior 10 calendar years. The cost for Workers Compensation claims paid in fiscal year 2007 was \$2,538,909. The premium cost paid in fiscal year 2007 was \$2,556,534. Premium cost is for administrative charges for Ohio Bureau of Workers Compensation. In addition to the claims paid during fiscal year 2007, the Ohio Bureau of Workers Compensation established a reserve of \$1,202,195 for future claim payments.

The District is self insured for employee health care. The District began accounting for the self-insurance in a separate Internal Service Fund in 2001. The Self Insurance Fund pays covered claims to service providers, and recovers these costs from charges to other funds based on a rate of 15.91% of gross payroll. Incurred but not reported liabilities (IBNR's) are determined by the Actuarial Firm of Timothy P. Berghoff, FSA, MAAA. For the fiscal year ending June 30, 2007, the IBNR's were determined to be \$3,018,000.

Changes in the fund's claims liability amount in 2007 and 2006 were:

Fiscal Year	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2006	\$4,580,000	\$37,942,610	(\$38,560,610)	\$3,962,000
2007	3,962,000	34,666,151	(35,610,151)	3,018,000

Dental insurance is offered to employees through Dental Care Plus. Total Premiums paid to Dental Care Plus were \$2,789,930. Dental Care Plus does not require an employee payroll deduction.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

**Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2007**

NOTE 15 - RISK MANAGEMENT (Continued)

The District offers to all employees who work a minimum of sixty-percent of full time employees and who are not AFSCME union members, a benefit called Benefit Bank. Each employee that qualifies is given \$275 on January 2 each year and employees that are married or have dependents can receive an additional \$50 if they return the application for additional funds. Substitute teachers also qualify for a \$300 benefit each September 1 if in the prior school the substitute teacher worked at least eighty-nine days and returned to teach in the current school year. The Benefit Bank pays for any medical related expense that is not paid for by Humana or by Dental Care Plus. Also, any expense related to optical service such as glasses or eye exams can be submitted for reimbursement from the employees benefit bank balance.

NOTE 16 – STATUTORY RESERVES

The District is required by state law to set aside certain general fund revenue amounts, as defined, into various reserves. During the fiscal year ended June 30, 2007, the reserve activity (cash-basis) was as follows:

	Textbook Reserve	Capital Acquisition Reserve	Budget Stabilization Reserve	Total
Set-aside Cash Balance as of June 30, 2006	\$0	\$0	\$1,420,826	\$1,420,826
Current Year Set-Aside Requirement	5,634,134	5,634,134	0	11,268,268
Qualifying Disbursements	(5,736,310)	(14,053,174)	0	(19,789,484)
Total	(\$102,176)	(\$8,419,040)	\$1,420,826	(\$7,100,390)
Balance Carried Forward to FY 2008	\$0	\$0	\$1,420,826	\$1,420,826
Amount Designated for Budget Stabilization				\$1,420,826

Am. Sub. Senate Bill 345 amended ORC Section 5705.29 effectively eliminating the requirement for the District to establish and maintain a budget stabilization reserve. By resolution, the Board can eliminate the reserve in accordance with the Act. As of June 30, 2007, the Board had not acted on the Senate Bill requirements to eliminate the reserve balance. In the General Fund, the \$1,420,826 portion of the non-BWC (Bureau of Workers' Compensation) monies was designated for set-aside. The District is still required by State law to maintain the textbook reserve and the capital acquisition reserve.

CINCINNATI CITY SCHOOL DISTRICT, OHIO

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

NOTE 17 - CONTRACTUAL COMMITMENTS

As of June 30, 2007, the District had entered into various construction contracts for renovations and improvements which it had a remaining unperformed and unpaid total commitment of approximately \$100 million.

NOTE 18 - CONTINGENCIES

A. Grants

The District receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2007.

B. Litigation

The District is party to legal proceedings. The District's management is of the opinion that the ultimate disposition of claims will not have a material effect, if any, on the financial condition of the District.

*COMBINING AND INDIVIDUAL FUND
STATEMENTS AND SCHEDULES*

*THE FOLLOWING COMBINING STATEMENTS AND SCHEDULES INCLUDE
THE MAJOR AND NONMAJOR GOVERNMENTAL FUNDS.*

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

Food Service Fund

A fund used to record financial transactions related to food service operations.

Other Grants Fund

Used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specific purposes.

District Managed Student Activity Fund

Used to account for those student activity programs which have student participation in the activity, but do not have student management of the programs

Auxiliary Services Fund

Used to account for monies that provide services and materials to pupils attending non-public schools within the District.

Head Start Fund

Used to account for monies distributed to Head Start agencies to expand their programs to serve more eligible children.

Poverty Based Assistance Fund

Used to account for monies received for disadvantaged pupil aid.

Title VI B – Special Education Assistance Fund

Used to account for federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels. Also to assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

Title II A – Economic Opportunity Act Fund

Used to account for funds provided to political subdivisions on the local level, or through a community action agency, which is the endorsing agency for federal assistance to the community.

Chapter I – Education Consolidation and Improvement Act Fund

Used to account for federal funds for services provided to meet special education needs of educationally deprived children. This includes the following federal programs; Even Start, Capital Expense, Title One and Homeless Children Education.

Other Special Revenue Fund

The District maintains 54 special revenue funds. For reporting purposes, the District combines the 45 smallest funds into a fund titled “Other Special Revenue Funds”. These combined funds account for less than fifteen percent (15%) of the cash basis revenues and expenditures of all special revenue funds.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary or trust funds.

Permanent Improvement Fund

Used to account for all transactions related to the acquiring, construction or improving of such permanent improvements as are authorized by Chapter 5705 of the Ohio Revised Code.

Replacement Fund

Used to account for monies used in the rebuilding, restoration or improvement of property, which has been totally or partially destroyed due to any cause.

Energy Conservation Fund

Used to account for federal grants monies provided to identify and implement energy conservation maintenance and operating procedures and acquire energy conservation measures to reduce consumption.

Power Up Fund

Used to account for state grants monies to be spent on electrical upgrades.

Interactive Video Distance Learning Fund

Used to account for monies received from the state to purchase video learning equipment.

Ohio School Net Fund

Used to account for wiring to all classrooms in the state and to provide a computer workstation and related technology for every classroom.

School Building Assistance Fund

Used to account for matching funds provided for the big eight school districts to be used for major renovations and repairs to school facilities. (This fund only exists on a GAAP basis and is not part of the District's appropriated budget, therefore no budgetary schedule is presented.)

Emergency School Repair Fund

Used to account for funds provided for financial assistance to local education agencies (LES's) with urgent school repair and renovation needs. (This fund only exists on a GAAP basis and is not part of the District's appropriated budget, therefore no budgetary schedule is presented.)

Permanent Fund

The Permanent Fund is used to account for the financial resources that are legally restricted in that only the earnings, not the principal, may be used to support the District's programs.

Endowments Fund

A fund used to account for money, securities, or lands which have been set aside as an investment for public school purposes. The income from such a fund may be expended, but the principal must remain intact

STATISTICAL SECTION

STATISTICAL TABLES

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents

Financial Trends	S 2 – S 13
These schedules contain trend information to help the reader understand how the District's financial position has changed over time.	
Revenue Capacity	S 14 – S 21
These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue sources, the property tax and the sales tax.	
Debt Capacity	S 22 – S 29
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
Economic and Demographic Information	S 30 – S 33
These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	
Operating Information	S 34 – S 49
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	

Sources Note:

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement 34 in 2002; schedules presenting government-wide information include information beginning in that year.
