Steubenville, Ohio 43952

To the District Board of Trustees:

As you are aware, the Auditor of State's Office (AOS) must modify the *Independent Accountants' Report* we provide on your financial statements due to an interpretation from the American Institute of Certified Public Accountants (AICPA). While AOS does not legally require your government to prepare financial statements pursuant to Generally Accepted Accounting Principles (GAAP), the AICPA interpretation requires auditors to formally acknowledge that you did not prepare your financial statements in accordance with GAAP. Our Report includes an adverse opinion relating to GAAP presentation and measurement requirements, but does not imply the amounts the statements present are misstated under the non-GAAP basis you follow. The AOS report also includes an opinion on the financial statements you prepared using the cash basis and financial statement format the AOS permits.

INDEPENDENT ACCOUNTANTS' REPORT

Jefferson General Health District
Jefferson County
500 Market Street, Floor B
Steubenville, Ohio 43952

To the District Board of Trustees:

We have audited the accompanying financial statements of Jefferson General Health District, Jefferson County, (the District) as of and for the year ended December 31, 2007. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

As described more fully in Note 1, the District has prepared these financial statements using accounting practices the Auditor of State prescribes or permits. These practices differ from accounting principles generally accepted in the United States of America (GAAP). Although we cannot reasonably determine the effects on the financial statements of the variances between these regulatory accounting practices and GAAP, we presume they are material.

Instead of the combined funds the accompanying financial statements present, GAAP require presenting entity wide statements and also presenting the District's larger (i.e. major) funds separately. While the District does not follow GAAP, generally accepted auditing standards requires us to include the following paragraph if the statements do not substantially conform to GAAP presentation requirements. The Auditor of State permits, but does not require Districts to reformat their statements. The District has elected not to follow GAAP statement formatting requirements. The following paragraph does not imply the amounts reported are materially misstated under the accounting basis the Auditor of State permits. Our opinion on the fair presentation of the amounts reported pursuant to its non-GAAP basis is in the second following paragraph.

In our opinion, because of the effects of the matter discussed in the preceding two paragraphs, the financial statements referred to above for the year ended December 31, 2007 do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the District as of December 31, 2007, or its changes in financial position for the year then ended.

Also, in our opinion, the financial statements referred to above present fairly, in all material respects, the combined fund cash balances of the Jefferson General Health District, Jefferson County, as of December 31, 2007, and its combined cash receipts and disbursements for the year then ended on the accounting basis Note 1 describes.

The District has not presented Management's Discussion and Analysis, which accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not required to be part of, the financial statements.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 1, 2008, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

**JEFFERSON GENERAL HEALTH DISTRICT
JEFFERSON COUNTY**

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2007**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of the Entity

The constitution and laws of the State of Ohio establish the rights and privileges of the Jefferson General Health District, Jefferson County, (the District) as a body corporate and politic. A five-member Board and a Health Commissioner govern the District. The District's services include communicable disease investigations, immunization clinics, inspections, public health nursing services, as well as issuing health-related licenses and permits.

The District's management believes these financial statements present all activities for which the District is financially accountable.

B. Accounting Basis

These financial statements follow the accounting basis the Auditor of State prescribes or permits. This basis is similar to the cash receipts and disbursements accounting basis. The District recognizes receipts when received in cash rather than when earned, and recognizes disbursements when paid rather than when a liability is incurred. Budgetary presentations report budgetary expenditures when a commitment is made (i.e., when an encumbrance is approved).

These statements include adequate disclosure of material matters, as the Auditor of State prescribes or permits.

C. Cash and Investments

As required by the Ohio Revised Code, the Jefferson County Treasurer is custodian for the District's cash. The County's cash and investment pool holds the District's assets, valued at the Treasurer's reported carrying amount.

D. Fund Accounting

The District uses fund accounting to segregate cash and investments that are restricted as to use. The District classifies its funds into the following types:

1. General Fund

The General Fund reports all financial resources except those required to be accounted for in another fund.

2. Special Revenue Funds

These funds account for proceeds from specific sources (other than from private-purpose trusts or for capital projects) that are restricted to expenditure for specific purposes. The District had the following significant Special Revenue Funds:

Women, Infants, and Children (WIC) Fund - This Federal grant fund accounts for the Special Supplemental Nutrition Program.

**JEFFERSON GENERAL HEALTH DISTRICT
JEFFERSON COUNTY**

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2007
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Construction, Demolition and Debris Fund - This fund receives tonnage fees from landfills for construction, demolition and debris materials. Monies are then remitted to the appropriate agencies. Amounts retained by the District are used to pay for investigations of illegal trash disposals.

3. Enterprise Funds

These funds account for operations that are similar to private business enterprises where management intends that the significant costs of providing certain goods or services will be recovered through user charges. The District had the following significant Enterprise Funds.

Food Service Fund – This fund receives licenses and permit monies relating to food service licenses. It accounts for the cost of providing various services including site inspections.

Environmental Fund – This fund receives fees for licenses and permits relating to sewage systems. It accounts for the cost of providing various services, including site inspections.

E. Budgetary Process

The Ohio Revised Code requires the District to budget each fund annually.

1. Appropriations

Budgetary expenditures (that is, disbursements and encumbrances) may not exceed appropriations at the fund, function or object level of control, and appropriations may not exceed estimated resources. The District Board must annually approve appropriation measures and subsequent amendments. The County Budget Commission must also approve the annual appropriation measure. Appropriations lapse at year end.

2. Estimated Resources

Estimated resources include estimates of cash to be received (budgeted receipts) plus cash as of January 1.

3. Encumbrances

The Ohio Revised Code requires the District to reserve (encumber) appropriations when individual commitments are made. Encumbrances outstanding at year end are canceled, and reappropriated in the subsequent year.

A summary of 2007 budgetary activity appears in Note 2.

**JEFFERSON GENERAL HEALTH DISTRICT
JEFFERSON COUNTY**

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2007
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

F. Property, Plant, and Equipment

The District records disbursements for acquisitions of property, plant, and equipment when paid. The accompanying financial statements do not report these items as assets.

G. Accumulated Leave

In certain circumstances, such as upon leaving employment, employees are entitled to cash payments for unused leave. The financial statements do not include a liability for unpaid leave.

2. BUDGETARY ACTIVITY

Budgetary activity for the year ending December 31, 2007 follows:

2007 Budgeted vs. Actual Receipts			
Fund Type	Budgeted Receipts	Actual Receipts	Variance
General	\$438,383	\$438,383	\$0
Special Revenue	1,595,243	1,547,680	(47,563)
Enterprise	194,532	149,070	(45,462)
Total	\$2,228,158	\$2,135,133	(\$93,025)

2007 Budgeted vs. Actual Budgetary Basis Expenditures			
Fund Type	Appropriation Authority	Budgetary Expenditures	Variance
General	\$454,511	\$406,948	\$47,563
Special Revenue	1,479,987	1,434,355	45,632
Enterprise	165,822	165,822	0
Total	\$2,100,320	\$2,007,125	\$93,195

3. INTERGOVERNMENTAL FUNDING

The County apportions the excess of the District's appropriations over other estimated receipts among the townships and municipalities composing the District, based on their taxable property valuations. The County withholds the apportioned excess from property tax settlements and distributes it to the District. The financial statements present these amounts as intergovernmental receipts.

**JEFFERSON GENERAL HEALTH DISTRICT
JEFFERSON COUNTY**

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2007
(Continued)**

4. RETIREMENT SYSTEMS

The District's employees belong to the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple-employer plan. The Ohio Revised Code prescribes this plan's benefits, which include postretirement healthcare and survivor and disability benefits.

The Ohio Revised Code also prescribes contribution rates. For 2007, OPERS members contributed 9.5% of their gross salaries and the District contributed an amount equaling 13.85% of participants' gross salaries. The District has paid all contributions required through December 31, 2007.

5. RISK MANAGEMENT

Risk Pool Membership

The District is covered as part of Jefferson county's insurance coverage. County officials entered into an agreement with the County Risk Sharing Authority (CORSA), in conjunction with the County Commissioners Association of Ohio, to provide insurance coverage on property, buildings, vehicles, and equipment through a self insurance program. Real property and contents are 100% insured.

The County Risk Sharing Authority, Inc. (CORSA), is a public entity shared risk pool among forty-one counties in Ohio. CORSA was formed as an Ohio non-profit corporation for the purpose of establishing the CORSA Insurance/Self Insurance Program, a primary group and excess insurance/self insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverages provided by CORSA. These coverages include comprehensive general liability, automobile liability, certain property insurance and public officials' error and omissions liability insurance.

Each member, one from each member county, has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member County's control over budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member Counties' obligation to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest or a financial responsibility.

Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Jefferson General Health District
Jefferson County
500 Market Street, Floor B
Steubenville, Ohio 43952

To the District Board of Trustees:

We have audited the financial statements of Jefferson General Health District, Jefferson County, (the District) as of and for the year ended December 31, 2007, and have issued our report thereon dated August 1, 2008, wherein we noted the District prepared its financial statements using accounting practices the Auditor of State prescribes or permits rather than accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinion on the financial statements, but not to opine on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the District's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the District's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all internal control deficiencies that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain noncompliance or other matters that we reported to the District's management in a separate letter dated August 1, 2008.

We intend this report solely for the information and use of the management and District Board of Trustees. We intend it for no one other than these specified parties.

A handwritten signature in cursive script that reads "Mary Taylor".
