We have reviewed the *Independent Auditors' Report* of the Ohio Water Development Authority, Franklin County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2010 through December 31, 2010. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Ohio Water Development Authority is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITORS' REPORT

Ohio Water Development Authority
408 South High Street
Columbus, Ohio 43215

We have audited the accompanying financial statements of each major fund of the Ohio Water Development Authority (the Authority), a component unit of the State of Ohio, as of and for the year ended December 31, 2010, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the Authority are intended to present the financial position and the changes in the financial position and cash flows of only that portion of each major fund of the Authority that is attributable to the transactions of the Authority. They do not purport to, and do not, present fairly the financial position of the State of Ohio and the results of the State of Ohio's operations and cash flows, where applicable, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major fund of the Authority, as of December 31, 2010, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2011 on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 7 is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We applied certain limited procedures, which consisted principally of inquires of management, regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Management's Discussion and Analysis

December 31, 2010

As management of the Ohio Water Development Authority (the Authority), a discretely presented component unit of the State of Ohio, we offer readers of the Authority's financial statements this unaudited narrative overview and analysis of the financial activities of the Authority for the fiscal year ended December 31, 2010. We encourage readers to consider the information presented here in conjunction with the Authority's audited financial statements, which begin on page 8 of this report.

Financial Highlights

- The Authority's net assets increased during fiscal year 2010 by \$94,896,098 or 3.07%.
- The Authority's bonds and notes payable balance increased by \$842,506,574 or 36.71%.
- The Authority's cash, cash equivalents and investments balance increased by \$800,527,679 or 69.65%.
- The Authority received a ratings upgrade on its Community Assistance Series Bonds from "Aa2" to "Aa1" from Moodys.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements comprise two components: 1) combining financial statements and 2) notes to financial statements.

Combining financial statements. The Authority follows proprietary fund accounting, which means these statements are presented in a manner similar to a private-sector business. The *combining financial statements* are designed to provide readers with a broad overview of the Authority's finances by fund and in total. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. These statements offer short and long-term financial information about its activities.

The *combining balance sheet* presents information on all of the Authority's assets and liabilities, including information about the nature and amounts of investments in resources (assets), the obligations (liabilities) of the Authority and the Authority's net assets as of December 31, 2010. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The *combining statement of revenues, expenses and changes in fund net assets* presents information showing how the Authority's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., depreciation and earned but unused vacation leave).

The *combining statement of cash flows* provides information about the Authority's cash receipts and cash payments during the reporting period. This statement summarizes the net changes in cash resulting from operating, investing and noncapital financing activities.

OHIO WATER DEVELOPMENT AUTHORITY

Management's Discussion and Analysis

Each of the combining financial statements highlight programs of the Authority that are principally supported by loan and investment income, programs that are intended to recover all or a significant portion of their costs through program fees or investment earnings on contributed capital (*business-type activities*). The combining financial statements can be found on pages 8-13 of this report.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the combining financial statements. The notes to financial statements can be found on pages 14-48 of this report.

Financial Analysis of the Authority's Financial Position and Results of Operations

The tables below provide a summary of the Authority's financial position and operations for 2010 and 2009, respectively. The Authority first implemented GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, in 2001; therefore, comparative numbers have been included for analysis purposes.

The following table summarizes changes in net assets of the Authority between December 31, 2010 and December 31, 2009:

OHIO WATER DEVELOPMENT AUTHORITY

Management's Discussion and Analysis

As noted earlier, net assets may serve as a useful indicator of a government's financial position. In the case of the Authority, assets exceeded liabilities by \$3,182,792,764 as of December 31, 2010, \$3,003,056,262 of which is restricted for debt and grant covenants.

By far, the largest portion of the Authority's net assets is reflected in its loan receivables, less any related debt still outstanding used to fund these loans to local government agencies.

During fiscal year 2010, the Authority's net assets increased by \$94,896,098 or 3.07%. The majority of this increase was due to the following:

- An \$186,029,491 increase in loan receivables primarily funded by U.S. EPA capitalization grant contributions and disbursements of bond and note proceeds.
- An \$842,506,574 increase in bonds and notes payable caused by several new money debt issuances
- An \$800,527,679 increase in cash, cash equivalents and investments caused by new money bond issuances.
- A \$28,416,338 decrease in other receivables caused by timing of receipt of ARRA funds
- A \$29,683,512 increase in accounts payable caused by timing of disbursements of ARRA funds.

The following table summarizes the changes in revenues and expenses for the Authority between 2010 and 2009:

OHIO WATER DEVELOPMENT AUTHORITY

Management's Discussion and Analysis

The two primary sources of operating revenue for the Authority are loan income and investment income, while the significant operating expense is interest expense on bonds and notes. For the year ending December 31, 2010, the Authority had an increase in operating loss compared to 2009 of \$186,656,309 or 13,338.89%. This increase was attributed to the following:

- A \$1,761,856 decrease in investment income caused by a decrease in the yields that the Authority was able to obtain on securities traded in 2010.
- A \$168,101,232 increase in ARRA principal forgiveness caused by loan forgiveness for projects funded with The American Recovery and Reinvestment Act (ARRA).
- A \$13,050,591 increase in interest on bonds and notes caused by a higher bonds and notes payable balance.

Debt Administration

As of December 31, 2010, the Authority had bond and note principal outstanding of \$3,137,317,310. The Authority's debt represents bonds and notes secured solely by loan repayments of pledged loans. The table below summarizes the amount of debt outstanding for 2010 and 2009.

Outstanding Debt at December 31, 2010 and December 31, 2009 (net of discount, premiums and deferred losses)

(all amounts expressed in thousands of dollars)

	2010	2009
Revenue Bonds \$	3,137,317	2,294,811

During 2010, the Authority issued the following bonds and notes for the purpose of providing loan funding to local governments under its various loan programs or retiring commercial paper used to provide interim loan funding:

- Water Development Revenue Bonds—Community Assistance Series 2010A
- Water Development Revenue Bonds—Community Assistance Series 2010B Federally Taxable-Build America Bonds (BABs)
- Water Development Revenue Notes—Fresh Water Series 2010 Commercial Paper

Management's Discussion and Analysis

Taxable BABs

During 2010, the Authority issued the following bonds for the purpose of refinancing some of its existing debt to take advantage of favorable interest rates:

- Water Pollution Control Loan Fund Refunding Revenue Bonds—Water Quality Series 2010C were issued to advance refund previously outstanding Water Pollution Control Loan Fund Water Quality Series 2004. This transaction enabled the Authority to save \$5,210,189 in future debt service payments.
- Drinking Water Assistance Fund Refunding Bonds—State Match Series 2010B were issued to advance refund previously outstanding Drinking Water Assistance Fund State Match Series 2002 and 2004. This transaction enabled the Authority to save \$2,079,773 in future debt service payments.
- Drinking Water Assistance Fund Refunding Bonds—Leverage Series 2010C were issued to advance refund previously outstanding Drinking Water Assistance Fund Leverage Series 2002, 2004, 2005B, and 2008. This transaction enabled the Authority to save \$16,167,423 in future debt service payments.

During 2010, the outstanding Pure Water Refunding Bonds were called and the Pure Water interest rate swap agreement with JPMorgan Chase was terminated.

The Authority continues to maintain strong ratings from Moody's, Standard & Poor's and Fitch. The table below summarizes the ratings from Moody's, Standard & Poor's and Fitch for the 2010 bond and note issuances of the Authority.

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

December 31, 2010

(1) AUTHORIZING LEGISLATION, REPORTING ENTITY, PROGRAM DESCRIPTIONS, FUND ACCOUNTING AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Authorizing Legislation

The Ohio Water Development Authority (Authority) is a body corporate and politic in the State of Ohio created by an Act of the General Assembly of the State of Ohio effective March 7, 1968. It is authorized and empowered to acquire, construct, maintain, repair, and operate water development projects and solid waste projects, to issue water development and solid waste revenue bonds and notes, and to collect rentals and other charges to pay such bonds and notes and the interest thereon. The Authority was given jurisdiction over financing solid waste control by an Act of the General Assembly of the State of Ohio during 1970. Under provisions of the Act, such revenue bonds and notes shall not be deemed to constitute a debt or a pledge of faith and credit of the State nor any political subdivision thereof.

Reporting Entity

The accompanying financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, functions and component units for which the Authority (the reporting entity) is financially accountable. Financial accountability is defined by Statement No. 14 as the level of accountability that exists if the reporting entity appoints a voting majority of the component unit's board, and is either (1) able to impose its will on that component unit, or (2) there is a potential for the component unit to provide specific financial benefits to, or to impose specific financial burdens on, the reporting entity. Based on this definition, the Authority does not have any component units. However, the Authority is a discretely presented component unit of the State of Ohio.

Programs

The Authority has established the following programs:

Local Communities

The Authority has established financing programs to provide loans to local communities in the State of Ohio for the construction of sewage and related water treatment facilities. These programs are accounted for in various funds, which are described in the following paragraphs. These loans provide for the financing of project construction costs. The federal government's share of costs (federal grants) is secured and assigned by the local community to the Authority. The local community agrees to pay to the Authority its share of project costs plus any costs ineligible for federal reimbursement over a period of years not to exceed 40 years. Revenue from the underlying project is pledged toward repayment of the loan.

The Authority's initial funding of the program came from a \$100,000,000 appropriation, all of which has been designated for use, from the State of Ohio. Subsequent funding of this program resulted from issuance by the Authority of bonds and notes.

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

Industrial

The Authority has established financing programs to assist private industry and certain municipalities participating in a manner similar to private industry, all located in the State of Ohio, in controlling water pollution and solid waste by constructing appropriate facilities. These programs are accounted for in various funds, which are described in Note 11. The Authority issues revenue bonds and notes to finance these programs. The Authority and the industrial companies and municipalities enter into agreements whereby the industrial companies and municipalities are required to make payments, as they become due, sufficient to pay the interest and principal on the bonds and notes issued to finance the projects.

These bonds and notes are principally secured by either revenues from the services, lease purchase agreements, mortgages, letters of credit or a combination thereof and are not secured by assets of the Authority.

Basis of Presentation—Fund Accounting

The accounts of the Authority are organized on the basis of funds, each of which is considered to be an independent fiscal and accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net assets, revenues and expenses; and are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with laws, regulations or other restrictions. The following is a description of the funds adopted by the Authority.

(a) Operating Fund

The Operating Fund was established to account for the administrative activities and transactions of the Authority, which are required to carry out the provisions of the aforementioned authorizing legislation.

Revenues for Authority operations are principally provided by an administrative fee charged as a percentage of the total cost of each project which the Authority assists by providing financing. Fee income is recognized at the time that the financing agreements are finalized since substantially all of the costs associated with the agreements have been incurred by that time. Operating expenses, which are primarily salaries, employee fringe benefits and legal and professional fees, include administrative expenses of the Authority and other expenses incurred in connection with the financing of projects.

(b) Working Capital Fund

The Working Capital Fund was established to account for loans made to eligible municipalities, counties and other public bodies for the purpose of financing construction of sewage treatment and related facilities required by orders of the Ohio Environmental Protection Agency (Ohio EPA). The resources of this fund came from the aforementioned \$100,000,000 appropriation from the State of Ohio.

Construction costs may be reimbursed by federal grants in amounts up to 55% of the total eligible costs. The balance of the construction costs is repaid by Local Government Agencies (LGAs) under the terms of installment contracts (loan agreements) over a period of 40 years with interest at 6.25% to 6.50%.

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

All payments received from LGAs for project costs, interest and maturities of investments are deposited in the accounts of the Fresh Water Fund.

(c) Other Projects Fund – Unallocated Reserve

In March 1992, the Unallocated Reserve Account was established by a resolution of the Authority and is administered by a Trustee. Initial funding for the Unallocated Reserve Account was provided by an \$8,300,000 transfer from the Pure Water Refunding Fund, which was consolidated into the Fresh Water Fund in 2010. Additional funding has been provided by monetary transfers from the Pure Water Refunding Fund and the Fresh Water Fund.

This account was established for potential collectibility or cash flow problems that may arise in the future on any Authority project.

(d) Other Projects Fund – Interest Rate Management

The Interest Rate Management Account was established during 2004 by a resolution of the Authority and is administered by a Trustee. Initial funding for the Interest Rate Management Account was provided by the proceeds received on an interest rate swap agreement the Authority terminated in 2009.

The purpose of the account is to hedge the Authority's exposure to variable rate interest.

(e) Other Projects Fund – Endowment Grant

The Endowment Grant Account was established during 1990 by a resolution of the Authority and is administered by a Trustee. Initial funding for the Endowment Grant Account was provided by a \$6,000,000 transfer from the Pure Water Refunding Fund.

The purpose of the account is to provide grants to local governments in Ohio to develop innovative projects in the areas of drinking water, wastewater and solid waste management. Each grant will fund 50% of the total project cost; funding for the remaining 50% is to be provided by a cash match from the local government.

(f) Other Projects Fund – Solid Waste

The Solid Waste Account was established during 1991 by a resolution of the Authority and is administered by a Trustee. Funding for the Solid Waste Account was provided by a \$15,000,000 transfer from the Pure Water Refunding Fund. Additional funding has been provided through monetary transfers from the Pure Water Refunding Fund.

The purpose of the account is to provide financing to local governments in Ohio for the construction of solid waste facilities including recycling projects, composting, waste-to-energy projects and landfills. The balance of the construction costs are to be repaid by the solid waste facilities under terms of installment contracts over 10 to 20 years with interest at 5.33% to 5.70%.

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

(g) *Other Projects Fund – Local Economic Development*

The Local Economic Development Account was established during 1995 by a resolution of the Authority and is administered by a Trustee. Funding for the Local Economic Development Account was provided by a \$4,196,200 transfer from the Safe Water Refunding Fund, which was consolidated into the Fresh Water Fund in 2007, and a \$5,803,800 transfer from the Pure Water Refunding Fund. Additional funding has been provided by monetary transfers from the Fresh Water Fund.

The purpose of the account is to provide financing to local governments in Ohio to construct projects which will provide economic development benefits. The interest rate for each loan is negotiated by the local government and the Ohio Department of Development.

The account also provides financing for the clean-up of contaminated brownfield sites under the state's voluntary action program. The loans are to be repaid under terms of installment contracts over periods of 5 to 25 years with interest at 1.00 % to 4.28%.

(h) *Other Projects Fund – Village Capital Improvements*

The Village Capital Improvements Account was established during 1995 by the Budget Reconciliation Bill which gave the Authority the responsibility to principally administer this program after pre-approval by the Ohio EPA. Initial funding was provided by a \$1,961,037 contribution from the Ohio EPA, consisting of loans receivable of \$1,595,433 and cash of \$365,604. Additional funding has been provided by monetary transfers from the Pure Water Refunding Fund.

The purpose of the account is to provide interest-free planning and design loans to qualifying villages in Ohio for water and wastewater facilities. These loans are to be repaid at a term not to exceed 10 years.

(i) *Other Projects Fund – Emergency Relief*

The Emergency Relief Account was established during 1997 by a resolution of the Authority and is administered by a Trustee. Initial funding was provided by a \$5,000,000 transfer from the Fresh Water Fund. Additional funding has been provided by monetary transfers from the Fresh Water Fund.

The purpose of the account is to provide financial assistance to Ohio communities that have sustained damage to their water or wastewater facilities as the result of a natural disaster. To be eligible, communities must have an outstanding loan from the Authority and be in a federal or state designated disaster area. The account can provide a community with up to two semi-annual loan payments to the Authority in an amount equivalent to the damage sustained by the water or wastewater systems during the disaster.

As of December 31, 2010, the Authority has approved \$4,984,846 in grant assistance to forty communities for damage caused by flooding in Ohio.

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

(j) Other Projects Fund – Dam Safety

The Dam Safety Account was established during 1999 by a resolution of the Authority and is administered by a Trustee. Initial funding was provided by a \$10,000,000 transfer from the Solid Waste Account.

The purpose of the account is to help eligible Ohio dam owners receive below market interest rate loans to finance dam repairs and improvements that have been so ordered by the Ohio Department of Natural Resources. These loans are available through the Dam Safety Linked Deposit Program. In the program, Dam Safety funds are invested in local participating banks at below-market rates. The banks, in return, issue low interest rate loans to qualified participants. The amount invested in this program as of December 31, 2010 was \$2,354,435.

(k) Other Projects Fund – Lake Erie Soil Erosion

The Lake Erie Soil Erosion Account was established during 2000 by a resolution of the Authority and is administered by a Trustee. Initial funding was provided by a \$10,000,000 transfer from the Fresh Water Fund.

The purpose of the account is to provide financing to the eight counties with Lake Erie shorelines containing coastal erosion areas. Any county receiving financing from the program will then provide financial assistance to property owners for the construction of erosion control structures in areas defined by statute as coastal erosion areas.

The loans to the counties are to be repaid under terms of installment contracts. As of December 31, 2010, two loans have been awarded from this account totaling \$661,000 over 15 years with interest at 4.67% to 5.34%.

(l) Other Projects Fund – Security Assistance

The Security Assistance Account was established during 2001 by a resolution of the Authority and is administered by a Trustee. Initial funding was provided by a \$5,000,000 transfer from the Fresh Water Fund.

The purpose of the account is to provide financing to local governments in Ohio to protect the communities' water and wastewater systems. Eligible items under the program include lighting, fencing, cameras, motion detectors, gating and security systems and terrorism preparedness plans.

The loans to the LGAs are to be repaid under terms of installment contracts with interest at 2.00%. As of December 31, 2010, two loans have been awarded from this account totaling \$251,281 over 20 and 30 years.

(m) Other Projects Fund – Interest Rate Subsidy

The Interest Rate Subsidy Account was established during 2003 by a resolution of the Authority and is administered by a Trustee. Initial funding was provided by transfers from the Rural Utility Services and Fresh Water Funds of \$3,415,574 and \$19,790,902, respectively.

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

The purpose of the account is to provide a subsidy to the local governments in Ohio that obtained financing under the Authority's Fresh Water, Refunding (which was also consolidated into the Fresh Water Fund in 2007), Safe Water Refunding and Pure Water Refunding programs whose loan interest rates exceed 7.00%. The subsidy provided by this account reduces the effective interest rate on these loans to 7.00% beginning with the loan repayment due on January 1, 2004.

(n) *Other Projects Fund – Unsewered Areas*

The Unsewered Areas Account was established during 2009 by a resolution of the Authority and is administered by a Trustee. The Authority committed \$10 million to the Unsewered Areas Account. As of December 31, 2010, \$2,551,999 in funding has been provided by transfers from the Dam Safety Account.

The purpose of the account is to provide interest-free planning loans to unsewered areas where the LGA is considering the construction of a system of sewer facilities. These loans are to be repaid at a term not to exceed 10 years.

(o) *Rural Utility Services Fund*

The Rural Utility Services Fund was established during 1996 by a resolution of the Authority and is administered by a Trustee. Initial funding for the fund was provided by a \$2,800,150 transfer from the Pure Water Refunding Fund. Additional funding was provided by the proceeds of the Water Development Revenue Notes—RUS Loan Advance Series 1996-A, Series 1998-A, Series 1999-A, Series 2000-A, Series 2001-A, Series 2002-A, Series 2003, Series 2004-A, Series 2006-A and monetary transfers from the Fresh Water Fund.

The purpose of these funds is to provide interim loans to local governments in Ohio to finance water development projects pending their receipt of loan or grant money from the United States of America, acting through Rural Utility Services. The loans accrue interest at rates of 1.28% to 4.44%.

(p) *Community Assistance Fund*

The Community Assistance Fund (formerly known as the Hardship Fund) was established during 1983 by a resolution of the Authority and is administered by a Trustee. The purpose of the fund is to provide a financing program for local governments in Ohio that are unable to meet debt service requirements at normal market interest rates without undue hardship to users.

The balance of the construction costs is paid by the LGA under the terms of installment contracts over periods of 19.5 to 30 years with interest at 1.00% to 3.11%. LGA payments of construction costs may be used for providing additional funding for qualifying projects.

Initial funding for the Community Assistance Fund was provided by a \$15,000,000 transfer from the Pure Water Refunding Fund. Additional funding has been provided by monetary transfers from the Fresh Water Fund, Refunding Fund, Safe Water Refunding Fund, Pure Water Refunding Fund and the issuance of the Water Development Revenue Bonds—Community Assistance Series 1997, Series 2003, Series 2007, Series 2010A, and Series 2010B. The Water Development Revenue Refunding Bonds—Community Assistance Series 2005 Bonds were issued for the purpose of refunding portions of outstanding Community Assistance Series 1997 Bonds. The

All loan repayments for this fund are pledged on a parity basis against all debt outstanding within this fund.

(q) Fresh Water Fund

The Fresh Water Fund, which consists of various accounts, was established in 1992 by a resolution providing for the issuance of the Water Development Revenue Refunding Bonds—Pure Water Refunding and Improvement Series. Initial funding was provided by a portion of the proceeds from these bonds and a transfer from the Pure Water Refunding Fund. The Water Development Revenue Bonds—Fresh Water Series 1995, Series 1998, Series 2001A, Series 2002, Series 2004, Series 2010A-1, Series 2010A-2, and Water Development Revenue Notes – Fresh Water Commercial Paper Series 2007A, Series 2008D, Series 2008E, Series 2010A, and Series 2010B were later issued to provide additional funds necessary for making loans to LGAs as part of the Authority's Fresh Water Program. The Water Development Refunding Revenue—Fresh Water Series 2001B, Series 2005, Series 2006A, Series 2009A and Series 2009B Bonds were issued for the purpose of refunding portions of Fresh Water Series 1995, Series 1998, Series 2001A, Series 2002 and Series 2004 Bonds. A portion of the Fresh Water Series 2009A Bonds were used to retire outstanding commercial paper issued in 2007 and 2008. A portion of the Fresh Water 2010A-1 and 2010A-2 Bonds were used to retire outstanding commercial paper issued in 2010. All Fresh Water loan repayments for this fund are pledged on a parity basis against all debt outstanding within this fund.

The purpose of these funds is to provide moneys necessary to finance the LGA portion of costs for planning, designing, acquiring or constructing wastewater treatment, sewage collection, and water supply and distribution facilities in Ohio, and to finance other projects approved by the Authority.

The balance of Fresh Water construction costs is repaid by LGAs under terms of installment contracts over periods of 5 to 30 years with interest rates of 2.87% to 7.38%.

On December 1, 2007, the Refunding Fund and the Safe Water Refunding Fund (Prior Funds) were closed and the outstanding loan receivable balances were transferred to the Fresh Water Fund. The loan repayments from the Prior Funds are deposited into the Cross-Collateralization account in the Fresh Water Fund and are not pledged towards outstanding Fresh Water debt. The balance of the Prior Program loans is repaid by LGAs under terms of installment contracts over periods of 23.5 to 40 years with interest rates of 5.25% to 11.19%.

On December 1, 2010, the outstanding Pure Water Refunding Bonds were called and the Pure Water interest rate swap agreement with JPMorgan Chase was terminated, causing \$6,038,152 of nonoperating expenses to be recorded on the Combining Statements of Revenues, Expenses, and Changes in Fund Net Assets. The estimated combined net present value savings of this transaction is \$2,025,000.

The Pure Water Refunding Fund was closed and the outstanding loan receivable balances were transferred to the Fresh Water Fund. The loan repayments from this Fund are deposited into the Cross-Collateralization account in the Fresh Water Fund and are not pledged towards outstanding

Fresh Water debt. The balance of these loans is repaid by LGAs under terms of installment contracts over periods of 5 to 30 years with interest rates of 0.00% to 9.48%.

(r) Water Pollution Control Loan Fund

The Water Pollution Control Loan Fund consists of various accounts which were established by an Act of the General Assembly of the State of Ohio in 1989 and are administered by a Trustee. The purpose of this fund is to provide financial assistance for the construction of publicly owned wastewater treatment works in Ohio.

Construction costs are paid by LGAs under terms of installment contracts over periods of 5 to 20 years with interest rates of 0.00% to 5.20%. LGA repayments of project costs are restricted for the purpose of providing additional moneys for projects or for debt service.

The Water Pollution Control Loan Fund (WPCLF) was initially funded in 1989 by a U.S. Environmental Protection Agency capitalization grant, which required a 20% matching contribution from the Ohio EPA. Grant funding has been awarded as detailed in the following table:

Year Awarded	Capitalization Grant	State Match

Series 2001 and Series 2005 and Water Quality Series 2003, Series 2004, Series 2005, Series 2009, and Series 2010C (WPCLF Bonds) were issued to refund portions of the State Match and Water Quality Series Bonds. The WPCLF Bonds and Notes were established by resolutions providing for the issuance of these bonds and notes and are administered by Trustees.

The WPCLF Bonds and Notes are special obligations of the Authority, issued to fund the State Match account for use in making loans to LGAs provided by the Ohio EPA and the Authority. All interest earned on moneys and/or investments in the WPCLF remain within the fund. All loan repayments for this fund are pledged on a parity basis against all debt outstanding within this fund.

In 1994, the Authority established the Linked Deposit Program. This program is aimed at helping Ohio farmers receive low-interest loans to reduce non-point source pollution from agricultural run-off. In the program, WPCLF funds are invested in local participating banks at below-market rates. The banks, in return, issue low-interest rate loans to qualified participants. The amount invested in this program as of December 31, 2010 was \$12,928,218.

(s) *Drinking Water Assistance Fund*

The Drinking Water Assistance Fund was established by legislation enacted by the General Assembly of the State of Ohio in 1997 and is administered by a Trustee. The purpose of this fund is to assist public water systems to finance the costs of infrastructure needed to achieve or maintain compliance with the Safe Drinking Water Act requirements and to protect public health.

Construction costs are paid under terms of installment contracts over periods of 5 to 30 years with interest rates of 0.00% to 4.66%. Repayments of project costs are restricted for the purpose of providing additional moneys for projects.

The Drinking Water Assistance Fund (DWAFF) was initially funded in 1998 by a U.S. Environmental Protection Agency capitalization grant, with a required 20% state match contribution from the Ohio EPA. Grant funding has been awarded as detailed in the following table:

Year Awarded	Capitalization Grant	State Match
1998	\$ 43,073,000	8,614,600

* The 2009 capitalization grant funding award included \$58,460,000 in moneys from ARRA with no state match required, and \$24,421,000 in capitalization grant moneys requiring a 20% state match.

The DWAF received additional funding from the proceeds of the Drinking Water Assistance Fund Revenue Bond Anticipation Notes—State Match Series 2001 and the Drinking Water Assistance Fund Revenue Bonds and Notes—State Match Series 2002, Series 2004, and 2010A and Leverage Series 2002, Series 2004, Series 2005B, Series 2006, Series 2010A, and Series 2010B. Drinking Water Assistance Fund Refunding Revenue Bonds—Leverage Series 2005 were issued to refund a portion of the Leverage Series 2002 Series Bonds; Leverage Series 2008 were issued to refund the Leverage Series 2006 Notes; State Match Series 2010B were issued to refund a portion of State Match Series 2002 and 2004 Series Bonds; and the Leverage Series 2010C were issued to refund a portion of the Leverage Series 2002, 2004, 2005B, and 2008 Series Bonds. The DWAF Bonds and Notes were established by resolutions providing for the issuance of these bonds and notes and are administered by Trustees. All loan repayments for this fund are pledged on a parity basis against all debt outstanding within this fund.

Summary of Significant Accounting Policies

(a) Basis of Accounting

The basis of accounting determines when transactions and economic events are reflected in financial statements. The Authority has prepared the financial statements on the full accrual basis of accounting. Accordingly, revenues are recognized as earned and expenses are recognized as incurred, including interest expense on bonds and notes outstanding.

Pursuant to GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the Authority follows GASB pronouncements as applicable to proprietary funds and Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989, except those that conflict with a GASB pronouncement. The Authority has elected to not implement any Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued after November 30, 1989.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

(b) Cash and Cash Equivalents

Cash and cash equivalents include amounts on deposit with Trustees and petty cash, as defined in GASB Statement No. 9 for the purpose of the statement of cash flows, in addition to money market investments and holdings in the State Treasury Asset Reserve of Ohio (STAROhio) investment pool. STAROhio operates in a manner consistent with Rule 2a7 of the Investment Company Act of 1940, which requires investments in the 2a7-like pool to be reported at amortized cost (which approximates net asset value).

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

For the purpose of the statement of cash flows, the Authority considers cash deposits with a maturity of three months or less when purchased to be cash equivalents. Additionally, the Authority does not consider its loans to be program loans, and as a result, reports its loan cash flows within the investing activities section of the statement of cash flows.

(c) *Investments*

With the exception of participating interest-earning investment contracts and nonnegotiable certificates of deposit, investments are carried at fair value, which includes accrued interest receivable. Accordingly, the Authority reports participating interest-earning investment contracts and nonnegotiable certificates of deposit at amortized cost plus accrued interest receivable.

(d) *Due to and Due from Other Funds*

Interfund receivables and payables, otherwise referred to as due to and due from other funds, arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. All interfund balances at December 31, 2010 resulted from the time lag between the dates that transactions are recorded in the accounting system and the dates that payments between funds are made. The Authority expects that all interfund balances will be repaid within one year.

(e) *Loan Income as Defined by the Contracts*

Loan income consists primarily of interest charged to LGAs, as defined by the contracts with LGAs, on the amounts estimated to be paid under the loan agreements. Interest charged during the construction period is capitalized by the Authority and is reflected as part of loan receivables.

(f) *Amortization of Premium, Discount and Issuance Expense of Bonds and Notes*

Premium, discount and issuance expense are amortized over the life of the bonds and notes, following the effective interest method.

(g) *Interfund Transfers/Net Assets*

The Authority reports interfund transactions when incurred, as follows:

- Transfers in (out), net: Transfers to a receiving fund from a disbursing fund required to meet routine operating requirements, such as debt service repayments and loan disbursements, in addition to transfers between funds for initial and/or additional funding needs.

Interfund transfers have not been eliminated in the combining column of the financial statements.

Net assets in excess of those amounts required by the various trust agreements may, upon Board authorization, be used for any lawful purpose.

(h) *Capital Assets and Facilities*

Capital assets of the Authority include an office building with attached garage, two parking lots, office furniture and equipment. Capital assets are defined by the Authority as assets with an initial, individual cost of \$1,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost. Depreciation is computed on the building, capital

improvements and other capital assets only, using the straight line method with no salvage value. Current year depreciation expense is detailed below as ‘additions’ to accumulated depreciation.

Capital asset activity for the year ended December 31, 2010 was as follows:

Capital Assets, at Depreciated Cost	\$ 1,666,281	(55,409)	–	1,610,872

(i) Balance Sheet Classifications

The Authority is required to classify its balance sheet, detailing current and noncurrent assets and liabilities and restricted and unrestricted net assets, as follows:

- Current: Due within one year from December 31, 2010
- Noncurrent: Due after December 31, 2011
- Restricted: Restricted for usage by bond and note covenants and grant restrictions
- Unrestricted: Not restricted for usage

Within the Fresh Water Fund there exist both restricted and unrestricted net assets. Restricted net assets would be used to cover eligible expenses before unrestricted net assets would be used. The unrestricted net assets may, upon Board authorization, be used by the Authority for any lawful purpose.

(j) Revenue and Expense Classifications

The Authority’s policy for revenue and expense classification is as follows:

- Operating revenues consist of loan income, investment income and administrative fees from projects
- Operating expenses consist of interest on bonds and notes, amortization of bond and note issuance expense, ARRA principal forgiveness and other operating expenses
- Nonoperating other revenues (expenses)
- Contribution from U.S. EPA

(k) Risk Management

It is the policy of the Authority to eliminate or transfer risk. The Authority does not self-insure any risk resulting from acts of God, injury to employees or breach of contract.

The Authority carries commercial property insurance on property and equipment in the aggregate sum of approximately \$1,950,000. The Authority carries commercial liability insurance coverage in

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

the amount of approximately \$56,385,000. The Authority also carries premium-based medical, dental and vision coverage for all employees.

During 2010, there were no claims by the Authority that exceed the insurance coverage, nor has there been a reduction in insurance coverage in the past three years.

(2) CASH AND INVESTMENTS

As of December 31, 2010, the Authority's carrying amount of deposits was \$19,082,543 and bank balance of deposits was \$19,193,900. Of this amount, \$1,250,000 was covered by federal depository insurance, and \$17,943,900 was collateralized with securities held by the bank's agent but not in the Authority's name. The Authority's carrying amount of long-term nonnegotiable certificates of deposit as of December 31, 2010 was \$15,300,405. These deposits were collateralized with securities held by the bank's agent but not in the Authority's name.

The Authority's investment policy and relevant trust indentures, which are in compliance with the Ohio Revised Code, authorizes investments in obligations of the U.S. Treasury, U.S. Agencies, obligations of the State of Ohio or any political subdivision, obligations of any State of the United States, repurchase agreements from financial institutions with a Moody's or Standard & Poor's rating of "A", investment agreements from financial institutions rated in the highest short-term categories or one of the top three long-term categories by Moody's and/or Standard & Poor's, money market mutual funds whose portfolio consists of authorized investments, the State Treasurer's investment pool and any debt or fixed income security, the issuer of which is rated in the highest short-term or in the top three long-term categories. All investments must mature within five years of settlement unless the investment is matched to a specific obligation or debt of the Authority. Securities are purchased with the expectation that they may be held to maturity.

As of December 31, 2010, the Authority had the following investments and maturities:

The Authority's U.S. Treasuries, U.S. Agencies, and municipal bonds are uninsured and unregistered investments for which the securities are held by the Authority's agent but not in the Authority's name. As of December 31, 2010, the Authority's investments in U.S. Treasuries were backed by the full faith and credit of the U.S. Government. The investments in U.S. Agencies were rated AAA by Standard & Poor's and Aaa by Moody's. The Authority's investments in investment contracts were unrated. The Authority's investments in municipal bonds were rated within the top three long-term categories by Moody's and/or Standard & Poor's. The Authority's investments in STAROhio (a statewide external investment pool created pursuant to Ohio statutes and administered by the Treasurer of the State of Ohio) were rated AAAM by Standard & Poor's. The Authority's money market investments were rated AAAM by Standard & Poor's. As of December 31, 2010, 99.78% of the Authority's rated investments were rated in the highest short-term or long-term rating category.

Notes to Financial Statements

As of December 31, 2010, the Authority had investment balances with the following issuers which are greater than or equal to 5% of the respective fund's investment balance:

Fund	Issuer	Percent of Fund's Investments
Operating	Federal National Mortgage Association	42%
	Federal Home Loan Bank	37%
	Federal Home Loan Mortgage Corporation	21%

* In 2010, OWDA sold Federally Taxable-Build America Bonds (BABs) which receive a cash subsidy payment from the United States Treasury equaling 35% of interest paid. The interest reported in this table is the gross interest due on the bonds. The total interest due, net of the BABs subsidy over the remaining life of the bonds, will be \$65,777,503.

The Community Assistance Series bonds are subject to mandatory and optional redemption, by series, as follows:

- a) Community Assistance Series 2003 – The term bonds are subject to mandatory redemption beginning June 1, 2014. Both the term and serial bonds maturing on or after December 1, 2014 are callable for redemption prior to maturity at the option of the Authority, in whole or in part, on December 1, 2013, or any interest payment date thereafter at par plus accrued interest.
- b) Community Assistance Refunding Series 2005 – The term bonds are subject to mandatory redemption beginning December 1, 2018. The term bonds maturing on or after December 1, 2018 are callable for redemption prior to maturity at the option of the Authority, in whole or in part, on June 1, 2015, or any interest payment date thereafter at par plus accrued interest.
- c) Community Assistance Refunding Series 2009 – 1) The term bonds are subject to mandatory redemption beginning June 1, 2020. 2) The term bonds maturing on or after December 1, 2020 are callable for redemption prior to maturity at the option of the Authority, in whole or in part, on December 1, 2019, or at any time thereafter in any order of maturity, at a redemption price equal to the par value for the principal amount redeemed plus accrued interest to the redemption date. 3) Due to the Tax Increase Prevention and Reconciliation Act of 2005 (TIPRA), the term bonds maturing on December 1, 2030 are subject to extraordinary mandatory redemption at any time during the ninety-day period following July 26, 2010, in whole or in part, at a redemption price equal to 105% of amortized value of the bonds.
- d) Community Assistance Series 2010A – The series 2010A bonds are not subject to redemption prior to their stated maturity.
- e) Community Assistance BABs Series 2010B – 1) The term bonds are subject to mandatory redemption beginning June 1, 2021. 2) Both the serial and term bonds maturing on or after December 1, 2020 are callable for redemption prior to maturity at the option of the Authority, either in whole or in part, on or after June 1, 2020, at par plus accrued interest. 3) The BABs are subject

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

to extraordinary optional redemption if Section 54AA or 6431 of The Internal Revenue Code of 1986 is modified, amended, or interpreted in a manner pursuant to which the Authority's 35% cash subsidy payment from the United States Treasury is reduced or eliminated. 4) Due to TIPRA, the BABs are subject to extraordinary mandatory redemption at any time during the ninety-day period following July 13, 2013, in whole or in part, at a redemption price equal to 102% of the principal amount of each maturity selected, plus accrued and unpaid interest to the redemption date.

LGA reimbursements of Community Assistance project costs, including interest, are pledged as security for the bonds. In the event that LGA reimbursements of Community Assistance project costs are insufficient to cover Community Assistance debt service requirements, unencumbered assets of the Community Assistance Fund Debt Service Reserve, Surplus and Construction accounts are also pledged as security for the bonds. For the calendar year 2010, the amount received from reimbursements of Community Assistance project costs was \$12,244,025, compared to the required bond debt service payments of \$10,238,751.

The bond resolution provides for six separate accounts designated as the Community Assistance Fund Construction account, Revenue account, Debt Service account, Debt Service Reserve account, Surplus account and Rebate account. As of December 1, 2010, there is no accrued rebate liability for these bonds.

Amounts received from the LGAs as reimbursements of project or construction costs, including capitalized interest, are deposited in the Revenue account. The trustee then allocates or pays out moneys in the Revenue account as follows:

- a) To the trustee for the payment of its fees on the first day of each May and November.
- b) To the Debt Service account on the first day of each May and November, commencing on the first May or November preceding the first bond maturity date (1) a sum which, when added to any available balance then on deposit in the Debt Service account, will be equal to the interest due on that day on all bonds outstanding; (2) a sum which will be equal to the next ensuing mandatory redemption for term bonds; and (3) a sum which will be equal to the next ensuing principal maturity on all outstanding bonds.
- c) To the Debt Service Reserve account on the first day of each May and November, a sum as necessary to maintain in the Debt Service Reserve account investments or cash having an aggregate value at least equal to the maximum annual bond service charges required to be paid in that year or any succeeding year.
- d) To the Surplus account, on the first day of June and December of each year, remaining moneys (after making up any deficiencies) in the Revenue account (excluding amounts received for the next ensuing LGA repayment date).

After the Debt Service Reserve account has reached the required reserve fund balance, interest earned on that balance will be transferred to the Debt Service account on the first day of November of each year, prior to making allocations or payments of moneys on hand in the Revenue account.

Any deficiency in the amounts required to be deposited in the Debt Service account or the Debt Service Reserve account is to be made up by moneys available in the Surplus account.

* In 2010, OWDA sold Federally Taxable BABs which receive a cash subsidy payment from the United States Treasury equaling 35% of interest paid. The interest reported in this table is the gross interest due on the bonds. The total interest due, net of the BABs subsidy over the remaining life of the bonds, will be \$246,146,146.

The Fresh Water Series bonds are subject to mandatory and optional redemption, by series, as follows:

- a) Fresh Water Series 2001 A&B – The Series 2001 B bonds are not subject to redemption prior to maturity. The series A term bonds are subject to mandatory redemption beginning June 1, 2012. The series A bonds maturing on or after June 1, 2012 are also callable for redemption prior to maturity at the option of the Authority, in whole or in part, on December 1, 2011, or any interest payment thereafter at par plus accrued interest.
- b) Fresh Water Series 2002 – The term bonds are subject to mandatory redemption beginning June 1, 2013. The bonds maturing on or after June 1, 2013 are callable for redemption prior to maturity at the option of the Authority, in whole or in part, on or after June 1, 2012, or on any interest payment thereafter at par plus accrued interest.
- c) Fresh Water Series 2004 – The term bonds are subject to mandatory redemption beginning June 1, 2015. The bonds maturing on or after December 1, 2014 are callable for redemption prior to maturity at the option of the Authority, in whole or in part, on or after June 1, 2014, or on any interest payment thereafter at par plus accrued interest.
- d) Fresh Water Refunding Series 2005 – The series 2005 bonds are not subject to redemption prior to maturity.
- e) Fresh Water Refunding Series 2006 – 1) The series 2006 bonds are not subject to optional redemption prior to their stated maturity. 2) The term bonds are subject to mandatory redemption beginning December 1, 2022. 3) Due to TIPRA, the term bonds maturing on December 1, 2030 are subject to an extraordinary mandatory redemption at any time during the ninety-day period following May 27, 2007, in whole or in part, at a redemption price equal to 105% of the amortized value of the bonds.
- f) Fresh Water Series 2009A – The series 2009A bonds are not subject to redemption prior to maturity.
- g) Fresh Water Refunding Series 2009B – The series 2009B bonds are not subject to optional redemption prior to their stated maturity. The term bonds are subject to mandatory redemption beginning December 1, 2020.
- h) Fresh Water Series 2010A-1 – The series 2010A-1 bonds are not subject to redemption prior to maturity.
- i) Fresh Water BABs Series 2010A-2 – 1) The BABs are subject to mandatory redemption beginning June 1, 2020. 2) The BABs shall be subject to an optional redemption prior to maturity, at the option of the Authority, in whole or in part, on any business day, at the make-whole redemption price. 3) The BABs are subject to extraordinary optional redemption if Section 54AA or 6431 of The Internal Revenue Code of 1986 is modified, amended, or interpreted in a manner pursuant to which the Authority's 35% cash subsidy payment from the United States Treasury is reduced or eliminated.

LGA reimbursements of Fresh Water project costs, including interest, are pledged as security for the bonds. In the event that LGA reimbursements of Fresh Water project costs are insufficient to cover Fresh Water debt service payments, unencumbered assets of the Fresh Water Fund Debt Service Reserve, Surplus, Cross-Collateralization and Construction accounts are also pledged as security for

the bonds. For the calendar year 2010, the amount received from reimbursements of Fresh Water project costs was \$85,299,843, compared to the required bond debt service payments of \$56,746,828.

The bond resolution provides for six separate accounts designated as the Fresh Water Construction account, Revenue account, Debt Service account, Debt Service Reserve account, Surplus account and Rebate account. As of December 1, 2010, there is no accrued rebate liability for these bonds.

Amounts received from the LGAs as reimbursements of project or construction costs, including capitalized interest, are deposited in the Revenue account. The trustee then allocates or pays out moneys in the Revenue account as follows:

- a) To the trustee for the payment of its fees on the first day of each May and November.
- b) To the Debt Service account on the first day of each May and November (1) a sum which, when added to any available balance then on deposit in the Debt Service account, will be equal to the interest due on that day on all bonds outstanding; (2) a sum which will be equal to the next ensuing mandatory redemption for term bonds; and (3) a sum which will be equal to the next ensuing principal maturity on all outstanding bonds.
- c) To the Debt Service Reserve account, a semiannual sum as necessary to maintain in the Debt Service Reserve account investments or cash having an aggregate value at least equal to 50% of the maximum annual bond service charges required to be paid in that year or any succeeding year.

After the Debt Service Reserve account has reached the required reserve fund balance, interest earned on that balance will be transferred to the Debt Service account on the first day of November of each year, prior to making allocations or payments of moneys on hand in the Revenue account.

On the first day of June and December of each year, all remaining moneys (after making up any deficiencies) in the Revenue account (excluding amounts received for the next ensuing LGA repayment date) are allocated to the Surplus account.

Any deficiency in the amounts required to be deposited in the Debt Service account or the Debt Service Reserve account is to be made up by moneys available in the Surplus account.

(6) WATER POLLUTION CONTROL LOAN FUND REVENUE AND REFUNDING BONDS AND NOTES—STATE MATCH SERIES

Prior redemption of WPCLF – State Match Series bonds, by series, is as follows:

- a) State Match Refunding Series 2001 – The bonds maturing on or before December 1, 2012 are not subject to prior redemption. The bonds maturing on or after June 1, 2013 are callable for redemption prior to maturity at the option of the Authority, in whole or in part, on or after December 1, 2012, at par plus accrued interest.
- b) State Match Refunding Series 2005 – The term bonds are subject to mandatory sinking fund redemption beginning December 1, 2016. Neither the term or serial bonds are subject to optional redemption prior to their stated maturity.

LGA reimbursements of WPCLF project costs of interest only, not the principal, pursuant to WPCLF loan agreements, are pledged as security for the bonds. In the event that LGA reimbursements of WPCLF interest project costs are insufficient to cover WPCLF State Match debt service payments, unencumbered assets of the WPCLF State Match Interest, Debt Service Reserve and Other Projects accounts are also pledged as security for the bonds. For the calendar year 2010, the amount received from reimbursements of WPCLF pledged interest project costs was \$29,774,300 compared to the required bond debt service payments of \$17,567,936.

The bond resolution provides for five separate accounts designated as Net Bond Proceeds account, Debt Service account, Debt Service Reserve account, Cost of Issuance account and Rebate account. As of December 1, 2010, there is no accrued rebate liability for these bonds.

The WPCLF – State Match Series debt service requirements to maturity are as follows:

		<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2011	\$	5,000,000	1,233,296	6,233,296

purchase WPCLF Bonds received by the trustee pursuant to any invitation to the holders to tender such WPCLF Bonds in accordance with the provisions of the applicable Series resolution.

- b) To the trustee for the payment of its fees on the last day of each May and November.
- c) To the Debt Service Reserve account, a semiannual sum on June 1 and December 1 as may be necessary to maintain in the Debt Service Reserve account investments or cash having a par value at least equal to the lesser of 50% of the maximum annual bond service charges required to be paid on all WPCLF Bonds issued and outstanding, or 10% of the principal amount of WPCLF Bonds issued and outstanding computed in accordance with the Trust Agreement.
- d) To the Rebate Fund, as necessary to make any payment required under Section 148(f) of the Internal Revenue Code.

After the Debt Service Reserve account has reached the required reserve fund balance, interest earned on that balance will be transferred to the Debt Service account on the last day of May or November of each year.

	\$	2,017,515,000	872,359,519	2,889,874,519

(a) Includes capital appreciation bonds at matured value.

* In 2010, OWDA sold Federally Taxable BABs which receive a cash subsidy payment from the United States Treasury equaling 35% of interest paid. The interest reported in this table is the gross interest due on the bonds. The total interest due, net of the BABs subsidy over the remaining life of the bonds, will be \$750,739,959.

LGA reimbursements of WPCLF project costs of principal only, not the interest, pursuant to WPCLF loan agreements, are pledged as security for the bonds. In the event that LGA reimbursements of WPCLF principal project costs are insufficient to cover WPCLF Water Quality debt service payments, unencumbered assets of the WPCLF Water Quality Debt Service Reserve, Surplus and Other Projects accounts are also pledged as security for the bonds. For the calendar year 2010, the amount received from reimbursements of WPCLF principal project costs and depledged interest project costs were \$221,812,229, compared to the required bond debt service payments of \$190,511,314.

The bond resolution provides for five separate accounts designated as Net Bond Proceeds account, Debt Service account, Debt Service Reserve account, Cost of Issuance account and Rebate account. As of December 31, 2010, there is no accrued rebate liability for these bonds.

Amounts received as principal from the LGAs as reimbursement of project or construction costs are deposited in the Repayment account. The trustee then allocates or pays out moneys in the Repayment account as follows:

- a) To the Debt Service account, (1) all revenues as soon as received until the balance in the Debt Service account equals an amount which, when added to any balance then on deposit in the Debt Service account and available for such purpose, will be equal to the sum of (a) the interest on all outstanding WPCLF Bonds due on the next interest payment date, (b) the principal of all

outstanding WPCLF Bonds due on the next interest payment date, and (c) the mandatory sinking fund requirement for all outstanding WPCLF Bonds due on the next interest payment date and (2) on the last day of May and November, the amount contained in a direction from the Authority to be used to purchase WPCLF Bonds received by the trustee pursuant to any invitation to the holders to tender such WPCLF Bonds in accordance with the provisions of the applicable Series resolution.

- b) To the trustee for the payment of its fees on the last day of each May and November.
- c) To the Debt Service Reserve account, a semiannual sum on June 1 and December 1 as may be necessary to maintain in the Debt Service Reserve account investments or cash having a par value at least equal to the lesser of 50% of the maximum annual bond service charges required to be paid on all Water Quality Bonds outstanding.
- d) To the Rebate Fund, as necessary to make any payment required under section 148(f) of the Internal Revenue Code.

After the Debt Service Reserve account has reached the required reserve fund balance, interest earned on that balance will be transferred to the Debt Service account on the last day of May or November of each year.

* In 2010, OWDA sold Federally Taxable BABs which receive a cash subsidy payment from the United States Treasury equaling 35% of interest paid. The interest reported in this table is the gross interest due on the bonds. The total interest due, net of the BABs subsidy over the remaining life of the bonds, will be \$104,532,896.

LGA reimbursements of DWAF project costs of principal only, not the interest, pursuant to DWAF loan agreements, are pledged as security for the bonds. In the event that LGA reimbursements of DWAF principal project costs are insufficient to cover DWAF Leverage debt service payments, unencumbered assets of the DWAF Leverage Debt Service Reserve and Other Projects accounts are also pledged as security for the bonds. For the calendar year 2010, the amount received from reimbursements of DWAF principal project costs was \$25,353,395, compared to the required bond debt service payments of \$18,662,186.

The bond resolution provides for five separate accounts designated as Net Bond Proceeds account, Debt Service account, Debt Service Reserve account, Cost of Issuance account and Rebate account. As of December 31, 2010, there is no accrued rebate liability for these bonds.

Amounts received as principal from the LGAs as reimbursement of project or construction costs are deposited in the Principal Repayments account. The trustee then allocates or pays out moneys in the Principal Repayments account as follows:

- a) To the Debt Service account, (1) all revenues as soon as received until the balance in the Debt Service account equals an amount which, when added to any balance then on deposit in the Debt Service account and available for such purpose, will be equal to the sum of (a) the interest on all outstanding DWAF Leverage Bonds due on the next interest payment date, (b) the principal of all outstanding DWAF Leverage Bonds due on the next interest payment date, and (c) the mandatory sinking fund requirement for all outstanding DWAF Leverage Bonds due on the next interest payment date and (2) on the last day of May, the amount contained in a direction from the Authority to be used to purchase DWAF Leverage Bonds received by the trustee pursuant to any invitation to the holders to tender such DWAF Leverage Bonds in accordance with the provisions of the applicable Series resolution.
- b) To the trustee for the payment of its fees on the last day of each May and November.

OHIO WATER DEVELOPMENT AUTHORITY

Notes to Financial Statements

- c) To the Debt Service Reserve account, a semiannual sum on June 1 and December 1 as may be necessary to maintain in the Debt Service Reserve account investments or cash having a par value at least equal to the lesser of 50% of the maximum annual bond service charges required to be paid on all DWAF Leverage Bonds issued and outstanding, or 10% of the principal amount of DWAF Leverage Bonds issued and outstanding computed in accordance with the Trust Agreement.
- d) To the Rebate Fund, as necessary to make any payment required under section 148(f) of the Internal Revenue Code.

After the Debt Service Reserve account has reached the required reserve fund balance, interest earned on that balance will be transferred to the Debt Service account on the last day of May or November of each year.

(11) WATER DEVELOPMENT REVENUE BONDS AND NOTES—INDUSTRIAL SERIES

The Authority established the industrial program to assist private industry and certain municipalities in financing the construction of water and solid waste pollution control facilities. Under the financing agreements, industrial companies and municipalities are required to make payments for a period of up to 35 years, sufficient to pay, as they become due, interest and principal on the bonds and notes issued to finance the projects. The Authority has no liability for repayment of these bonds and notes. As of December 31, 2010, outstanding bonds and notes under this program total \$2,217,275,000.

(12) DEFINED BENEFIT PENSION PLAN

All employees of the Authority participate in the Ohio Public Employees Retirement System (OPERS), a cost-sharing multiple-employer public employee retirement system that administers three separate pension plans: The Traditional Pension Plan – a cost-sharing, multiple-employer defined benefit pension plan; the Member-directed Plan – a defined contribution plan; and the Combined Plan – a cost sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan. The total payroll as well as the payroll for employees covered by OPERS for the years ended December 31, 2010, 2009 and 2008 were approximately \$1,139,000, \$1,110,000 and \$1,090,000, respectively. In 2010, the employee and employer contribution rates were 10% and 14%, respectively, for all Authority employees. Total required employer contributions were approximately \$159,000, \$155,000 and \$153,000 for the years ending December 31, 2010, 2009 and 2008, respectively, and are equal to 100% of the dollar amount billed to, and paid by, the Authority.

OPERS maintains a cost-sharing multiple employer defined benefit post-employment health care plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, for qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

The OPERS issues a stand-alone financial report. Interested parties may obtain a copy by making a written request to OPERS, Attention: Finance Director, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (800) 222-PERS.

Postretirement Healthcare

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45, *Accounting and Financial Reporting by Employers for Post-employment Benefits other than Pension*.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. The authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

The Ohio Revised Code provides statutory authority for employer contributions and requires public employers to fund postretirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits.

OPERS' Post Employment Health Care Plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. The portion of employer contributions allocated to healthcare was 5.50% from January 1 through February 28, 2010 and 5.0% from March 1 through December 31, 2010. The Authority's 2010 employer contributions made to fund post-employment benefits were \$57,823, covering 21

participants. The Authority's 2009 and 2008 contributions to fund post employment benefits were \$64,816 (20 participants) and \$76,280 (20 participants), respectively. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The Health Care Preservation Plan (HCPP) adopted by the OPERS Retirement Board on September 9, 2004 was effective January 1, 2007. Member and employer contribution rates increased as of January 1, 2006, January 1, 2007 and January 1, 2008, which allowed additional funds to be allocated to the health care plan.

(13) COMMITMENTS

As of December 31, 2010, the Authority has loan commitments to finance LGA construction projects in the following amounts:

<u>Fund</u>	<u>Amount</u>
Other Projects	\$ 11,946,954

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Ohio Water Development Authority
480 South High Street
Columbus, Ohio 43215

We have audited the financial statements of each major fund of the Ohio Water Development Authority (the Authority), a component unit of the State of Ohio, as of and for the year ended December 31, 2010, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated March 28, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Directors, and others within the Authority and is not intended to be and should not be used by anyone other than these specified parties.
