

City of Huber Heights, Dhio

Comprehensive Annual Financial Report

For the Year Ended December 31, 2011

Honorable Mayor and Members of City Council City of Huber Heights 6131 Taylorsville Road Huber Heights, OH 45424

We have reviewed the *Independent Auditor's Report* of the City of Huber Heights, Montgomery County, prepared by Plattenburg & Associates, Inc., for the audit period January 1, 2011 through December 31, 2011. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Huber Heights is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

July 26, 2012

City of Huber Heights, Ohio

Comprehensive Annual Financial Report

For the year ended December 31, 2011

Introductory Section

City of Huber Heights

6131 Taylorsville Road Huber Heights, OH 45424 937.233.1423 fax: 937.233.1272 www.hhoh.org

June 30, 2012

Honorable Mayor Ronald A. Fisher Honorable Members of the City Council Residents of the City of Huber Heights

We are pleased to present our 2011 Comprehensive Annual Financial Report (CAFR) for the City of Huber Heights for your review. This report, for the year ended December 31, 2011, has been prepared using generally accepted accounting principles for governments, and contains the financial statements and other financial and statistical data that provide complete and full disclosure of all material financial aspects of the City of Huber Heights ("the City"). This report represents the commitment of the City to adhere to nationally recognized standards of excellence in financial reporting. Ohio law requires that every general purpose local government prepare and publish their financial statements in accordance with generally accepted accounting principles (GAAP) and have an annual audit. This report is published to fulfill that requirement for the year ended December 31, 2011. The City is required to provide certain continuing disclosure information in conjunction with various debt offerings. Updated data are provided in the Statistical Section of this report.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation rests with the management of the City, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The firm of Plattenburg & Associates, Incorporated, has issued an unqualified ("clean") opinion on the City's financial statements for the year ended December 31, 2011. The Independent Accountants' Report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Accountants' Report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE CITY

The City of Huber Heights is located in southwestern Ohio, within Montgomery, Miami and Greene Counties; and encompasses approximately 22 square miles. The area that currently includes the incorporated limits of the City of Huber Heights was originally formed in 1810 as Wayne Township, named after Major General Anthony Wayne of the United States Army. The City occupies the northeast corner of Montgomery County, adjoins Miami County on the north, and Clark and Greene Counties on the east, with Greene County also being a part of the southern border.

In 1981, Wayne Township incorporated; and in 1983 the citizens of Huber Heights adopted a City Charter, which took effect on January 1, 1984, providing for a Council/Manager form of government.

The legislative powers of the City are vested in a nine-member Council. Two Council members are elected at large, while six Council members are elected by ward. The Mayor is elected separately. The Council members appoint the City Manager who is the Chief Executive and Administrative Officer of the City. The City Manager appoints all Department/Division Heads and employees, except the City Attorney and the Clerk of Council, who are appointed by City Council.

The City is empowered to levy a property tax on real property located within its boundaries. It also is empowered by Ohio statute to extend its corporate limits by annexation, which it has done from time to time.

A reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the City are not misleading. The primary government consists of all funds and departments which comprise the legal entity of the City, and which provide various services including police and fire protection, emergency medical services, parks and recreation, planning, zoning, court facilities, street maintenance and repair, economic development, public health and welfare, sewer, water and wastewater. Council and the City Manager have ultimate responsibility for these services.

The City does not have any component units included in its reporting entity. However, the City has representation on the boards of eight entities. The Tri-Cities North Regional Wastewater Authority (Tri-Cities) and the Joint Economic Development District (JEDD) are joint ventures, while the Miami Valley Regional Planning Commission (the Commission), Miami Valley Fire/EMS Alliance (the Alliance), the Economic Development/Government Equity Program (ED/GE), the Regional Emergency Response Team (RERT), First Suburbs Consortium of Dayton, Ohio Council of Governments (First Suburbs Consortium), and the Community Improvement Corporation of Huber Heights (CIC) are jointly governed organizations. Information regarding these entities may be found in the notes to the basic financial statements.

The City normally adopts an annual budget before December 31st for the upcoming year. This annual budget serves as the foundation for the City's financial planning and control. The budget is adopted at the object level for all funds of the City. Any modifications to appropriations at or above this level require approval of City Council.

Local Economy

Situated along an extensive network of interstate and state highways, including Interstates 70 and 75, as well as U.S. Route 40 and State Routes 4, 201, 202 and 235, the City continued to experience growth and development during 2011. Historically, the City's population growth erupted in the late 1950's when Charles Huber recognized the enormous potential for residential development in the area and began building what is now the largest community of brick homes in the United States. With an estimated population of 38,101 in 2011, Huber Heights placed third among all cities within Montgomery County, with nearly 15,000 housing units. The City is the 29th largest city in the State of Ohio, and is situated primarily in Montgomery County. The City's boundaries expand into Miami and Greene Counties, as well.

The City, located 10 minutes from downtown Dayton, Wright Patterson Air Force Base and Dayton International Airport, is primarily residential, providing housing for those who work in the surrounding metropolitan area. Huber Heights City government continued to take active steps toward diversifying its tax base, with strong residential growth generating greater commercial and industrial development. At the end of 2010, there were over 1,270 acres of industrially-zoned and 2,840 acres of commercially zoned land in the City, of which approximately 1,177 acres are available for development. In 2008, the citizens voted to reduce the City's income tax rate by 0.25% to 2.00%, effective January 1, 2009.

Based upon a 2009 survey of Huber Heights residents, it is estimated that the United States government and affiliated contractors at nearby Wright Patterson Air Force Base (WPAFB) employ approximately 14 percent of the residents. An additional 6.2% of the residents have retired from WPAFB. Despite the continuing trend toward military downsizing and base closures, WPAFB has gained operations through realignment from other bases around the country in the past several years. It is estimated that, as a result of the U.S. House Armed Services Committee Base Realignment and Closure (BRAC) proceedings, approximately 3,000 new government and contractor jobs will come to the Base by 2011. The strategic location of the City of Huber Heights within the area, combined with our proximity to WPAFB, 5 to 10 minutes' access to primary Base gates, evidences anticipated growth from BRAC.

Economic development in the City has been a top priority of City Council and City Staff. Since 1994, commercial, industrial, and residential developments, such as the Northpark Center, Center Point 70 Commerce Park, and The Oaks, Callamere Farms, and Carriage Trails, have created many diverse jobs, including fuel cell research, logistics, light industrial, high-tech and laser applications. The expansion of Interstate 70 to six lanes through the City, and the accompanying upgrades of the three major interchanges in the City, is expected to engender economic growth.

There are over 780 businesses within the City, including the following major companies:

Industrial

4-Over, Inc.

A B F Freight Systems

AIDA-Dayton Technologies Corp

Apache Technologies, Inc.

Bowser Morner Catlow Industries

Coca Cola Enterprises, Inc.

Crowne Equipment Enginetics Aerospace

Fukuvi USA, Inc.

Hooven-Dayton Corporation

LaserMike, Inc.
Metokote Corporation

Millat Industries

Trimble Dayton

Commercial

Aldi

Bon-Ton Elder-Beerman

Danbury Cinemas

Dick's Sporting Goods

Gander Mountain

H.H. Gregg

Kohl's Department Stores, Inc.

Kroger Limited

Lowe's Home Center Incorporated

Marshall's

Meijer's Super Store

Rave Cinemas

Staples

Target Corporation

Wal-Mart Stores Incorporated

Commercial and Industrial Development

The existing Huber Health Center, on Old Troy Pike [SR202], is currently undergoing a major expansion and renovation. The project includes the expansion of the current medical office facility by more than 22,000 square feet. The project will bring a full-service non-trauma Emergency Room to the City. The upgrade of the facility will accommodate new medical service providers to serve the community. The project represents a significant potential benefit to the City by improving the City's tax base, increasing taxable real estate values by \$16 million, and through the addition of an estimated 135 new health care-related jobs. The project will also provide convenient accessibility to needed medical services for the residents of the City and surrounding areas. Since the renovation is complete, Huber Heights will be the only city in the Miami Valley to host major satellite facilities of both the Kettering Health Network and Good Samaritan Medical.

In November 2008, the Huber Heights' voters passed a \$82 million bond issue to build seven new state-of-the-art environmentally friendly [LEED Silver-certified] school buildings. The bond issue will be matched by \$84 million from Ohio's tobacco settlement. Construction began in early 2010, on the 5 elementary schools to be built; and a new middle school and high school will be occupied in the Fall, 2013.

Troy Pike Plaza medical center began construction of a medical office/retail complex on Old Troy Pike between Chambersburg and Fishburg Roads. The complex will eventually include three office buildings totaling 43,044 square feet; and retail frontage of 14,542 square feet. The estimated cost of the project is \$3,000,000.

The City applied for EDGE funding for the expansion of Beta LaserMike in the Center Point 70 Industrial Park. Beta LaserMike has plans to expand their product and service line which will add new jobs to their operations. The grant dollars will be used for exterior improvements to the building. Montgomery County has awarded \$100,000 to this business. Renovations will begin in 2012.

63 Certificate of Zoning Compliance were issued to new businesses in the City of Huber Heights.

Several buildings that have long been vacant will see new tenants and be remodeled. ABC Supply began redevelopment of the former Furrow's site. The building had been vacant for many years and had become severally blighted and a nuisance property. ABC Supply will remodel the building with plans to open for business in early 2012. Sears Outlet began their redevelopment of space at the North Heights shopping center that has been vacant since Walmart relocated to Brandt Pike. Sears plans to open for business in March of 2012. Smythe Automotive purchased the Rolland Carpet building on Old Troy Pike near Fishburg. They will remodel the building with plans to open for business in 2012. Process Equipment Company (PECo) purchased the industrial site on ST RT 40 (former Bosma facility). The manufacturing company will bring new jobs to the City and redevelop this vacant building in 2012.

Marketing materials have been created to help with the recruitment of new businesses. Maps showing redevelopment opportunities, available properties, and incentive districts were made by the Economic Development staff. These materials will be used for site selectors and business recruiters. A subscription for demographic data was obtained to help site selectors determine population, traffic counts and buying power within a radius around the City.

Residential Development

Huber Heights' residential development market continues to outperform other areas in the region. The residential market in the City, which did not experience as severe a market correction as in other areas of the country or the region, continued to show steady progress. The City issued 101 permits in 2010, up from 50 in 2009 and 30 in 2008, evidence that Huber Heights continues to improve in spite of the current housing slump.

In 2008 the City approved the basic Development Plan submitted By DEC Land Co. I LLC for the Carriage Trails project with the City's northern quadrant. In 2011 an additional 10 acres was added to the original 625 acre project. The 635 acres includes plans for 1,440 single family homes and 800 attached residential units, as well as 35 acres for commercial use. There will be in excess of 120 acres of green space with extensive landscape buffering, three ponds, bike and natural trails providing connectivity to the new Huber Heights Aquatic & Recreation Complex next to the YMCA and Carriage Hills Metro Park just across SR201.

In 2009 the first phases in three sections were approved and 69 lots developed; in 2010 second phases were developed in all three subdivisions providing an additional 95 lots. In 2011 there were 7 acres sold for 32 senior rental villas. Also in 2011 the first phase in a fourth section added 28 lots and there are plans for the second phase in this section in 2012 that will bring in another 26 lots. In 2012 the first phase for the fifth section was completed adding 17 lots and there are also plans for the first phase in a fifth section that will have 28 lots. The Public-Private Partnership between Carriage Trails and the City of Huber Heights has allowed development to move forward and lot sales to exceed everyone's expectations; to date there are over 155 sales.

Miami County TIF district #2 continues to see new residential structures. Miller Valentine began construction of a Senior Village. Carriage Trails filed for 4 new plat sections. All DTE-24 forms necessary have been filed with the County and the State.

MAJOR INITIATIVES

For the Year

During 2011, expenditures included the repair and rebuilding of neighborhood streets, curbing improvements, and miscellaneous roadway sealing and patching throughout the City. The City was able to utilize funds from the water fund for replacement of water lines, fire hydrants and appurtenances and the reconstruction of streets, concrete work and related underground utilities, roadway earthwork and miscellaneous base and drainage work.

The U.S. Environmental Protection Agency mandated that governmental agencies with populations over 10,000 be in compliance with the Clean Water Act of 1972, including the development and implementation of a Stormwater Management Plan no later than March, 2003. During 2011, the City entered the ninth year of operation of its Stormwater Management Program. The monies generated fully supported the operating costs, as well as storm water related capital improvements.

City wide utilities conversion has been a large project that is about 85% complete. The objective of this project is to take all legacy and new infrastructure drawings and convert them to digital form and implement them into GIS. This project has been broken up into several phases to better manage the GIS budget and not put a strain on funding resources.

Integrating GIS in the 911 Dispatch Center. By integrating GIS in the 911 Dispatch Center we were able to incorporate automated vehicle location (AVL) and routing, crime analysis by geographic area and map 911 calls. Within the 911 dispatch center the dispatchers have a large overview map of the city and surrounding jurisdictions all police vehicle and fire apparatuses are equipped with GPS and their location is projected on this map and the dispatchers in the dispatch center can see where each police vehicle and medic is located.

Work had begun last fall on the new Aquatic Center Facility. Included with this project is the upgrading of the Shull Road lift station and the abandonment of the Charlesgate lift station. This facility is to be completed in time for the memorial day weekend opening 2012.

The new middle school and elementary schools were completed. The new high school is due to be finished in 2012.

Income Tax

The City's major source of operating revenue is the local income tax. During 2011, the rate was 2.00%, consisting of the following levies enacted over the past several years:

- 1.00% Permanent tax for General Fund operations
- 0.50% Permanent tax for public safety operations, police operations, and fire capital equipment
- 0.25% Permanent tax for local street operations
- 0.20% Originally effective through May 31, 2009 for local street capital improvements, this portion was made permanent in the November 2008 election, effective January 1, 2009
- 0.30% 0.25% effective through 2015 for public safety and support services; .05% effective through 2025 to fund the construction of a fire station and major fire equipment purchases
- (.25%) Effective January 1, 2009, a permanent decrease for General Fund operations

The permanent income taxes dedicated for public safety are used to pay debt on the City's two fire stations, initial financing costs related to the lease of a new fire pumper and ladder truck, general Police Division and Fire Division operations, and capital equipment purchases, including police cruisers, incruiser video cameras, and mobile data terminals. The permanent income taxes dedicated for street operations pay for general street operations including: personnel, contracts and supplies, snow removal and street cleaning, traffic signal maintenance, the purchase of various equipment, and debt retirement on bonds issued in prior years for major street reconstruction.

The City established the Income Tax Collection Division in October 2001, a function which had been performed by independent contract with a neighboring political subdivision. Since creating the tax function internally, the City has tailored specific compliance programs more aggressively to target the collection of delinquent accounts, generating nearly \$1,900,000 in taxes not previously collected. In late 2008, in an effort to reduce processing costs and enhance filing features available to taxpayers, the City outsourced primary return filing and processing functions. The City contracted with the Regional Income Tax Agency (RITA) to perform these processing functions. The City retained a smaller Income Tax Division Staff, focused on compliance and collection of City tax revenues. In early 2010, City Council terminated its contract with RITA and reestablished primary return filing and processing functions within the City Income Tax Department. This move will enable the City to better manage the tax compliance and collection process and provide enhanced service to all taxpayers.

The Tax Division experienced challenges and transitions in 2011. It was our first full year back collecting income tax revenue after terminating our contract with the Regional Income Tax Agency. The office completed this transition with a primarily new staff under the direction of a new tax administrator. The conversion of the data took longer than expected and we were very appreciative of the patience and cooperation of the residents during the year.

Our focus for 2012 is to step up our efforts for compliance as we make use of the advanced technologies available to us to accomplish this task. We are committed to providing a high level of customer service to all our residents and continually seek to improve the interaction that is experienced by all who come in contact with us, whether in person or "on-line".

Stormwater Management

The U.S. Environmental Protection Agency mandated that governmental agencies with populations over 10,000 be in compliance with the Clean Water Act of 1972, including the development and implementation of a Stormwater Management Plan no later than March 2003. During 2011, the City entered the ninth year of operation of its Stormwater Management Program. The monies generated fully supported the operating costs, as well as storm water related capital improvements.

Capital Improvements

In 2011, the City completed its 27th year of its annual sidewalk improvement/assessment program. Other major improvements included 2011 Stormwater Management, water tower painting, water main replacement and street resurfacing.

The Chambersburg Water Standpipe was painted in 2011 for maintenance purposes to extend the life of the tank and avoid a costly replacement. The paint on the water tower was in poor condition and had created an aesthetically unpleasing site in and around the neighborhood. The City logo was also painted on this tank. This is a necessary and critical component of maintaining water storage facilities.

Brandt Pike (S.R. 201) Phase VII widening was completed. The work included widening the roadway to five lanes and extending the bridge to support the road widening. This was the last phase for the total widening of Brandt Pike from one end of the City to the other.

The water main pipes were replaced on Harshmanville and Kitridge and completed in 2011. Replacing the pipes improve the existing infrastructure for many years. Along with the water main replacement, the street was resurfaced in order to improve the condition of the streets which previously required extensive patching.

The 2011 Stormwater Management Project consisted of Kellenburger Drainage Ditch Work and Wakeview-Timberview rear yard drainage work.

The Department of Public Services,

Department/Division Major Initiatives

The mission of the City of Huber Heights, its Mayor, Council, and Staff, is to enhance the quality of life for all residents, and to become the Community of Choice in Ohio, by providing outstanding services and a good quality of life for its residential and business citizens. In 2011, the City continued that mission by expanding and improving services, upgrading infrastructure, and enhancing public grounds and facilities.

The Department of Public Safety

Fire Division

In the year 2011, the fire department reviewed all policies and procedures as well as the overall budget. As a result of the review several changes were implemented to function in a more efficient manner, financially. Call-ins for over time were adjusted saving over \$20,000.00 in the 2011 year. Printers were consolidated as well as contracts with existing vendors that were ether reduced or eliminated. Line items were reviewed quarterly to ensure that the division stayed within in its fiscal means and as a result, many aging pieces of equipment were upgraded and improved with emphasis put into safety and personal protective equipment. An overall inventory was also completed to better define apparatus needs for the future thus establishing a time-line of needs for the next five years. Additionally, areas of responsibilities

were defined throughout the division for accountability, which has improved efficiency on both an operational and administrative level. As we roll into 2012, better defining specific needs within the division will be the priority. There will be a continued effort to see that all funds are used in the most proficient way without impacting the services we currently provide to the citizens of Huber Heights. We currently are operating with three less personnel as a result of cuts projected in 2013. The reduction was the result of attrition due to retirements in 2011 and 2012 and the filling of those vacancies is not anticipated to be occurs this year. Additionally, several programs will be cut unless the financial situation improves including public education to the schools, special events, CPR training, just to name a few. The goal will be to maintain basic emergency services with a minimal impact.

For the remainder of 2012 and beginning in 2013, the fire division will be facing some significant issues. We will continue to review all aspects of the budget in an effort to operate as efficiently as possible. It is my hope that this downturn in the budget will be temporary resulting in a minimal impact to the overall operation of the department.

Police Division

Police Communications

The Police Division completed the conversion of our CAD system going live with CMI on March 2, 2012. This project was over a year in the making and required much behind the scenes planning to assure a smooth transition. This project is saving nearly \$30K in maintenance costs yearly. These meetings and planning stages included talks with Butler Township and the City of Riverside to address any special needs or concerns to their operations.

In 2010, we began dispatching for Butler Twp. and the City of Riverside in October 2011. These contracts bring in much needed revenue with small costs to our budget.

Police Division

In the beginning of the year, some maintenance projects were completed in our building, updating paint and replacing the carpet on the 2nd floor and the men's locker room that was original to the building. We also wrote an RFP for the installation of a Security Gate protecting city Police vehicles from the public and patrons of the Court facility.

The Police Division joined the Police Law Institute providing law enforcement/legal training online greatly reducing the costs for outside training or travel for the courses offered online.

The city also went live with the OSL payroll program which the Police Division has been using for a few years. The Police Programs Technician continues to offer support and training to other departments.

Command Staff and/or other members of the Police Division attended the YMCA 6th Annual Community Breakfast, OVI Kickoff at Sinclair Community College, Business Expo and organized and participated in Holiday Hope at Target, providing a holiday shopping experience for needy families throughout our area.

Lastly, the Police Division also completed another successful reaccreditation process. This achievement of excellence continues to prove the level of commitment and beliefs in the mission of the Huber Heights Police Division staff to the highest degree of service to it's citizens, surrounding communities and law enforcement profession.

Information Technology Division

The Division installed OSL and Informa on the VM Ware Server with Windows Server 2008 R2 64bit and SQL Server 2008. This enabled the IT Division to remove two obsolete servers that were no longer supported by maintenance contracts. The OSL software is used city wide by all employees for payroll entry, time keeping and scheduling. Informa software is used for document scanning of administrative and council documents for easy retrieval electronically.

A new Barracuda Backup service device was installed that will enable the IT Division to backup all servers across the city effectively eliminating the need for tape backups and user intervention. This backup service also has the ability to send the backed up data offsite to Barracuda for Disaster Recovery assurance. A new GIS server and software was also put into place that will enable all crews to access the cities locations to Fire Hydrants, Sewer and Drainage systems and parcel information. Police and Fire will be able to locate their vehicles on a map in real-time to determine who is closest to an incident which will enable those departments to be more efficient.

Lastly, one of our biggest accomplishments was the consolidation of the networking on the second floor at City Hall. IT moved all networking equipment to the utility closet which allowed for more flexibility. The Finance Department network was then rerouted to the new location which combined the entire second together on one network switch. This allowed for us to remove the network equipment in the closet in the Finance Department. The networking at City Hall now ties into three locations instead of four.

The Department of Finance

The Accounting Division received its nineteenth consecutive Certificate of Achievement for Excellence in Financial Reporting, awarded by the Government Finance Officers Association of the United States and Canada for the 2010 Comprehensive Annual Financial Report (CAFR). In 2011, the City issued new notes in the amount of \$8.000,000 to fund the cost of construction of a new aquatic center and amphitheater.

In 2008 the Division of Taxation, in an effort to reduce processing costs and enhance filing features for taxpayers, the City contracted with the Regional Income Tax Agency (RITA) to provide income tax collection and processing services. However, in order to continue to provide a high level of customer service, the City had maintained its local Tax Office with a significantly reduced staff. In early 2010, City Council terminated its contract with RITA and effective October 1, 2010 reestablished primary return filing and processing functions within the Income Tax Department. As part of the City's commitment to provide excellent customer service and a full service tax office to its citizens, an additional five employees were hired to accommodate the additional processing requirements. Additionally, the City upgraded its tax processing software and hardware to keep its commitment to offer citizens the best available tax processing technology. This move will enable the City to better manage the tax compliance and collection process and provide enhanced service to all taxpayers.

The Department of Community Services

In 2011, the City of Huber Heights held fireworks for the second year in a row after a six-year hiatus. In conjunction with the Police and Fire Divisions, the Community Services Division and Parks and Recreation Board brought several food vendors to the event. The Wayne Township-Huber Heights Historical Society also participated with a classic car show. The event is planned again for 2012.

The Community Services Division also held several other events in the parks including an Open House at Cloud Park in June, a "Touch a Truck" event in July and a Household Hazardous Waste Day (in conjunction with the Montgomery County Solid Waste District) in August. The City was also a sponsor of the Freedom's Call Tattoo at Wright Patterson Air Force Base for the sixth year in a row.

The Department of Human Resources

The Human Resources Department hired a new manager in 2011 to lead the department and will continue working to enhance employee relations and development and will continue to work in conjunction with the Department and Division Heads to reduce the number and severity of Workers' Compensation claims for 2012 in order to continue to receive savings on our premium cost.

The Department of Public Service

Division of Engineering

The Division of Engineering completed numerous infrastructure projects during 2011, including the \$1.2 million annual street improvement project, and the \$150,000 annual sidewalk repair program. The Engineering Department collected electronic data for a significant portion of the water system within the City, inspected sanitary sewers and manholes for I&I study, and inspected and accepted private subdivisions as public infrastructure.

For the Future

The Engineering Division must prepare goals to implement and accomplish.

Major capital improvements will include the following:

- Design elevated water storage tower
- Bellefontaine/Chambersburg Intersection Road Improvements
- Continue the annual Street and Sidewalk programs
- Numerous storm water improvements throughout the City to be funded from storm water utility revenues.
- Adams Road Water Main Extension
- Water main looping at Heathermere
- Fire Hydrant Replacement
- Chambersburg Road widening East of Brandt Pike
- Old Troy Pike Phase 8 Widening North of Shull Road
- Kellenburger Road Culvert Replacement

Division of Public Works

After thirty-two years of service to the city of Huber Heights Public Works Manager retired, thus causing some organizational changes within the Public Works Division; the Public Works Supervisor was promoted to the Public Works Manager position, creating a void in the position of Public Works Supervisor which was filled from within the division. The vacancy of Street Technician was then filled from outside resources after an extensive interview process. Financially these changes in personnel came with a significant cost savings for the city.

The division maintained and serviced all city properties, vehicles, roads, storm sewers, traffic signs & lights, parks and buildings. Successfully settled and responded to a total of 391 requests for service. Additionally a total of an estimated 1889.75 tons of salt were utilized at a cost of \$156,132 for snow removal.

Thomas Cloud Park experienced a total of three separate arson incidents, resulting in the burning down and significant asset loss of the concession stand, at an estimated replacement cost of \$175,000 - \$200,000.

The only significant purchase or upgrade of equipment was the procurement of a new street sweeper.

The Department of Planning and Zoning

One new section of the single family residential portion of the Carriage Trails development was approved by the Planning Commission consisting of 28 residential lots. A section of Senior Living rental buildings at Carriage Trails was approved for a total of 34 units. The developer for this housing development reported that lots were selling quickly and over 100 houses have been built by the end of 2011.

The process of updating and modifying the City's Comprehensive Plan began in September of 2010 and the Plan was approved by the Planning Commission and adopted by City Council on November 28, 2011.

The Zoning department issued 74 permits for Single Family Dwellings, 11 permits for Condominiums (46 units), 5 Commercial permits for new construction. In addition to those permits issued, 398 Zoning permits were issued for signage, accessory structures and other modifications to residential properties. 417 Presale certificates were issued to home owners selling their residence. 2,843 Zoning violations were handled during 2011. 63 Certificate of Zoning Compliance were issued to new businesses in the City of Huber Heights.

For the Future

With the successful negotiation of a new development agreement for the 660-acre residential development Carriage Trails, the City is poised to experience significant new residential and commercial growth in the City's northern quadrant for the next decade. Additionally, numerous commercial projects are in the planning stages. These will transform the I-70 and State Route 201/202 corridors into a thriving regional commercial center. Along with these projects, the City will continue to promote the steady growth of other residential developments, which continue to outperform other areas in the region.

The City will continue its efforts to improve the quality-of-life for its citizens by beginning construction of a first class Community Recreation Activity Center. This Center will be developed on a 14 acre site located adjacent to the current YMCA property. At an initial cost of nearly 7 million dollars the Recreation Center will include an Aquatic Park and other recreational amenities which will enhance the quality-of-life for all Huber Heights residents.

RELEVANT FINANCIAL POLICIES

The City pursues an aggressive cash management program by expediting the receipt of revenues and prudently depositing and investing available cash pursuant to its legislated investment policy. A portion of the City's deposits are collateralized by a direct pledge of collateral or by pooled collateral. By law, those financial institutions that do not directly collateralize deposits must establish a collateral pool to cover all public deposits. The market value of the pooled collateral must equal at least 105 percent of the public funds on deposit. Trustees, including the Federal Reserve, the Federal Home Loan Bank, and designated third party trustees, hold the collateral of the financial institutions. The City regularly reviews the market value of the pool to ensure that adequate collateral is being provided. No portion of the City's funds was invested in derivatives.

The City analyzes its fund balances closely for cash flow purposes. The City is committed to having at least eight weeks' cash flow on hand at any given time.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Huber Heights, Ohio, for its comprehensive annual financial report (CAFR) for the year ended December 31, 2010. This was the seventeenth consecutive year that the City of Huber Heights has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements; and we are submitting it to the GFOA to determine our eligibility for another certificate.

Preparation of this report is a major and time-consuming task that cannot be accomplished without the professional, efficient and dedicated services of those individuals who assist and contribute to its production. All members of the City's Finance Department Staff, and many of the City's other employees, contributed to this effort. We wish to thank City Council, Department and Division Heads, and all employees who supported this effort to achieve excellence in financial reporting.

Our sincere gratitude goes to members of the Department of Finance Accounting Division Staff including: Michelle Diamond, Debi Jones, Lu Ann Miller, and Crystal Whitley, who contributed to the compilation of this report. We extend our special thanks to Plattenburg & Associates, Incorporated and Deputy Finance Director James Bell, who above all others played critical roles in producing this report.

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of City Council City of Huber Heights, Ohio

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Huber Heights (the City) as of and for the year ended December 31, 2011, which collectively comprise the City's basic financial statements. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2011, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 19 to the financial statements, during the year ended December 31, 2011, the City implemented Governmental Accounting Standards Board ("GASB") Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions".

In accordance with *Government Auditing Standards*, we have also issued our report dated May 30, 2012, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion & analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

May 30, 2012

City of Huber Heights, Ohio Management's Discussion and Analysis For The Year Ended December 31, 2011 (Unaudited)

The City of Huber Heights's discussion and analysis of the annual financial reports provides a review of the financial performance for the fiscal year ending December 31, 2011. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the City's performance.

Financial Highlights

- The City's total net assets decreased \$3,236,208.
- Net assets of governmental activities decreased \$5,580,962, net assets of business-type activities increased by \$2,344,754.
- The General Fund reported a net change in fund balance of (\$733,693).
- Business-type operations reflected operating income of \$2,257,316.

Overview of the Financial Statements

This annual report consists of a series of financial statements. These statements are presented so that the reader can understand the City's financial situation as a whole and also give a detailed view of the City's fiscal condition.

The Statement of Net Assets and Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as the amount of funds available for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in total in one column.

Government-wide Financial Statements

The analysis of the City as a whole begins with the Government-wide Financial Statements. These reports provide information that will help the reader to determine if the City of Huber Heights is financially better off or worse off as a result of the year's activities. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector companies. All current year revenues and expenses are taken into account regardless of when cash is received or paid.

City of Huber Heights, Ohio Management's Discussion and Analysis For The Year Ended December 31, 2011 (Unaudited)

These two statements report the City's net assets and changes to those assets. This change informs the reader whether the City's financial position, as a whole, has improved or diminished. In evaluating the overall financial health, the reader of these financial statements needs to take into account non-financial factors that also impact the City's financial well-being. Some of these factors include the City's tax base and the condition of capital assets.

In the Government-wide Financial Statements, the City is divided into two kinds of activities.

- Governmental Activities Most of the City's services are reported here including police, fire, leisure time activities, community development, transportation, and general administration. Income taxes, property taxes, intergovernmental revenue, charges for services, and interest finance most of these activities.
- Business-Type Activities These services include sewer, water, stormwater management. Service fees for these sewer and water are charged based upon the amount of usage; and a service fees for the stormwater utility are assessed by property (parcel) based upon impervious area. The intent is that these activities be financially self-sufficient.

Fund Financial Statements

Information about the City's major funds is presented in the Fund Financial Statements (see table of contents). Fund financial statements provide detailed information about the City's major funds - not the City as a whole. Some funds are required by State law and bond covenants. Other funds may be established by the City, with approval of council, to help control, manage and report money received for a particular purpose or to show that the City is meeting legal responsibilities for use of grants. The City's major funds are General, Police, Fire, Special Assessment Bond Retirement, Capital Improvement, Water, Sewer, and Stormwater.

Governmental Funds - Most of the City's services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or less financial resources that can be spent in the near future on services provided to our residents. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds - When the City charges citizens for the services it provides, with the intent of recapturing operating costs, these services are generally reported in proprietary funds. Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.

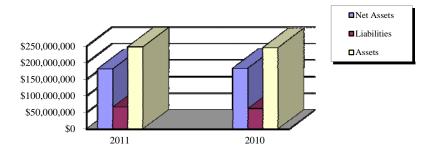

Fiduciary Funds - The City is the fiscal agent for one private purpose trust and seven agency funds. All of the City's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Statement of Changes in Assets and Liabilities. We exclude these activities from the City's other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The City as a Whole

As stated previously, the Statement of Net Assets looks at the City as a whole. Table 1 provides a summary of the City's net assets for 2011 compared to 2010.

Table 1 Net Assets

	Governmental Activities		Business-Type Activities		Total	
	2011	2010	2011 2010		2011	2010
Assets:						
Current and Other Assets	\$54,975,117	\$56,645,117	\$36,830,201	\$37,450,565	\$91,805,318	\$94,095,682
Capital Assets	98,146,458	95,092,768	57,288,817	55,419,175	155,435,275	150,511,943
Total Assets	153,121,575	151,737,885	94,119,018	92,869,740	247,240,593	244,607,625
Liabilities:						
Long-Term Liabilities	29,125,577	31,026,612	21,989,889	23,014,140	51,115,466	54,040,752
Other Liabilities	14,270,260	6,720,288	797,315	868,540	15,067,575	7,588,828
Total Liabilities	43,395,837	37,746,900	22,787,204	23,882,680	66,183,041	61,629,580
Net Assets:						
Invested in Capital Assets,						
Net of Related Debt	66,173,495	68,594,710	41,805,192	39,089,126	107,978,687	107,683,836
Restricted	27,957,350	32,836,661	1,200,000	1,200,000	29,157,350	34,036,661
Unrestricted	15,594,893	12,559,614	28,326,622	28,697,934	43,921,515	41,257,548
Total Net Assets	\$109,725,738	\$113,990,985	\$71,331,814	\$68,987,060	\$181,057,552	\$182,978,045

Over time, net assets can serve as a useful indicator of a government's financial position. Total net assets of the City as a whole decreased \$3,236,208.

City of Huber Heights, Ohio Management's Discussion and Analysis For The Year Ended December 31, 2011 (Unaudited)

Net assets of the City's governmental activities decreased \$5,580,962. Current and Other Assets decreased mainly due to an decrease in taxes receivable, which was due to a decrase in property tax delinquencies. Long-Term Liabilities decreased mainly due to the City continuing to make regularly scheduled payments on their long-term obligations.

The net assets of the City's business-type activities increased \$2,344,754 from 2010. The City had an increase in Capital assets, net due to new construction. The City also saw a decrease in the amount of long-term liabilities for 2011 due to the City continuing to make regularly scheduled payments on their long-term obligations.

Governmental Activities

Huber Heights has made continued efforts to attract large-scale employers to the city for the year 2011, thereby injecting the local economy with jobs and increasing the City's commercial tax base. The 1.75% income tax is the largest source of revenue for the City. Revenues generated by the earnings tax represent approximately 57% of the City's governmental activities general revenues.

Governmental Activities Program Expenses for 2011

	Percentage
General Government	12%
Public Safety	52%
Leisure Time Activities	3%
Community Development	4%
Transportation and Street Repair	25%
Interest and Fiscal Charges	4%
Total	100%

General Government include legislative and executive expenses. Leaf and brush pickup, storm sewer projects, aggressive street resurfacing program, amenities in the parks, and police and fire services all culminate into a full service city.

Total revenues decreased mainly due to a decrease in income taxes revenue, which was mainly due to a decrease in income tax collections in 2011 as compared to 2010. Public Safety expenditures increased mainly due to increases in personnel costs and general inflationary factors.

Business-Type Activities

The City's business-type activities include Sewer, Water and Stormwater.

Sewer Treatment – Prior to 1996, the City wastewater treatment services were contracted with the Miami Conservancy District. In 1996, the Conservancy District decided they no longer wanted to furnish this service. A joint venture was formed among the Cities of Huber Heights, Vandalia and Tipp City to take over the Conservancy District operation. This joint venture now furnishes wastewater treatment services to each city. Each city owns and maintains the infrastructure necessary to furnish services to their citizens. All capital repairs and upkeep of the treatment plant are the responsibility of the joint venture. The joint venture in turn sets costs of service for the cities, based on flow, to maintain the plant. The City of Huber Heights charges its residents accordingly. At this time, any capital outlay needed to maintain Huber Heights sewer infrastructure is provided from resident charges. The City's investment in the joint venture at December 31, 2011 was \$16,658,765.

Sewer and Water Operations – In January of 1994, the citizens of Huber Heights voted overwhelmingly to endorse the City's acquisition of the Ohio Suburban water and wastewater systems from American Water Works of Voorhees, New Jersey. On September 29, 1995, the City completed this acquisition enabling the City to more effectively attract new development to the community particularly through new annexations and service extensions while at the same time keeping water and sewer rates low. During 2001, the City began an operations study to identify the short and long range plans for the utility and to identify funding sources for the targeted projects. In late 2002, the City Council authorized increases in the rates for water and sewer, over a five year period, to fund various projects identified in the Plan. Currently, there are no plans for any rate increases, however, the City has completed a rate study and model to ensure that it can maintain operations, planned capital improvements and required debt service.

Stormwater – In February 2002, City Council established the citywide stormwater management program. The fees charged are based upon a formula of impervious area and is applied based upon an equivalent residential unit (3,431 sq. ft.). The revenues generated are used to fund operating and capital costs associated with this program.

Business-type activities, include sewer, water, and stormwater utilities. These programs had operating revenues of \$8,896,630 and operating expenses of \$6,639,314 for fiscal year 2011. Business activities receive no support from tax revenues. The business activities net assets at the end of the year was \$71,331,814 which increased \$2,344,754 from 2010.

The City's Funds

The City has five major governmental funds: the General, Police, Fire, Special Assessment Bond Retirement and Capital Improvement Funds. Assets of the these major funds comprised \$37,402,986 (67%) of the total \$56,054,356 governmental funds assets.

General Fund: Fund balance at December 31, 2011 was \$6,433,526 which was a decrease in fund balance of \$733,693 from 2010. The decrease is mainly due to a decrease in income tax and property tax revenue.

Police Fund: Fund balance at December 31, 2011 was \$1,154,611 which was a decrease in fund balance of \$710,283 from 2010. The decrease is mainly due to a decrease in income tax and property tax revenue.

Fire Fund: Fund balance at December 31, 2011 was \$444,807 which was a decrease in fund balance of \$814,434 from 2010. The decrease is mainly due to a decrease in income tax and property tax revenue.

Special Assessment Bond Retirement Fund: Fund balance at December 31, 2011 was \$506,331 which was a decrease in fund balance of \$54,029 from 2010. The decrease is mainly due to an increase in principal payments in 2011 as compared to 2010.

Capital Improvements Fund: Fund balance at December 31, 2011 was (\$2,260,605) which was a decrease in fund balance of \$3,468,522 from 2010. The decrease is mainly due to an increase in capital outlay, which was mainly due to the various street improvement additions throughout the City.

General Fund Budgeting Highlights

The City's General Fund budget is formally adopted at the object level for each fund. Financial reports, which compare actual performance with the budget, are prepared quarterly and presented to the Council so the Council is able to review the financial status and measure the effectiveness of the budgetary controls.

For the General Fund, the final budgeted revenue was \$9,762,352 and the original budgeted revenue was \$9,661,293. The difference was \$101,059. Of this difference, most was due to an underestimate of tax and intergovernmental revenue.

Variations from the final budget amounts to the actual amounts are primarily due to the following reasons: The City overestimated the general government and public safety expenditures for 2011. As the City completed the year, its General Fund balance reported an actual fund balance of \$3,776,195, on a Non-GAAP Budgetary Basis.

Capital Assets and Debt Administration

Capital Assets

At year end, the City had \$155,435,275 invested in land, construction in progress, buildings and improvements, equipment, furniture, fixtures and improvements, vehicles and infrastructure. Table 3 shows 2011 balances compared to 2010:

Table 3
Capital Assets, Net of Depreciation

	Governmenta	al Activities	Business-Typ	e Activities	Tot	tal
	2011	2010	2011	2010	2011	2010

Vehicles	2,516,422	2,834,139	41,842	22,226	2,558,264	2,856,365
Infrastructure	55,325,568	56,654,090	39,091,624	37,093,717	94,417,192	93,747,807
Total Net Capital Assets	\$98,146,458	\$95,092,768	\$57,288,817	\$55,419,175	\$155,435,275	\$150,511,943

The increase in capital assets was mainly due to the start and completion of various construction projects throughout the City.

See Note 5 to the basic financial statements for further details on the City's capital assets.

Debt

The City had \$49,254,431 in bonds, loans, capital leases, and state infrastructure.

The Various Purpose Improvement general obligation bonds will be paid with property tax revenues via transfers from the General Fund.

See Note 8 to the basic financial statements for further details on the City's long-term obligations.

Economic Factors

The City of Huber Heights is currently in a strong financial position, but it must be stated that the City is not immune to economic conditions that have negatively affected many public and private entities. The City of Huber Heights's systems of budgeting and internal controls are well regarded, and the City is well prepared to meet the challenges of the future. In addition, management has been committed to providing its residents with full disclosure of the financial position of the City.

Contacting the City's Finance Department

This financial report is designed to provide our citizens, taxpayers, customers and investors, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Finance Director, City of Huber Heights, 6131 Taylorsville Road, Huber Heights, Ohio 45424.

Net Change in Fund Balance - Total Governmental Funds		(\$7,599,351)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital asset additions as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of the difference between capital asset additions and depreciation in the current period.		
Capital assets used in governmental activities Depreciation Expense	9,655,656 (6,564,893)	
2 op. co. and a 2. species	(0,000,000)	3,090,763
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. The amount of the proceeds must be removed and the gain or loss on the disposal of capital assets must be recognized. This is the amount of the difference between the proceeds and the gain or loss.		(37,073)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Income Taxes Delinquent Property Taxes Interest Intergovernmental Special Assessments Other	(1,243,852) (150,838) 20,978 (42,262) (266,668) (88,998)	(1.771.440)
		(1,771,640)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term		
liabilities in the statement of net assets.		2,019,615
In the statement of activities interest expense is accrued when incurred, whereas in governmental funds an interest expenditure is reported when due.		136,701
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Note 1 – Description of the City and Reporting Entity

The City of Huber Heights ("the City") is a charter municipal corporation operating under the laws of the State of Ohio. The community was established in 1810 as Wayne Township and was granted City status on November 29, 1979. It was incorporated on January 23, 1981. The charter was adopted on November 8, 1983, and became effective January 1, 1984. The municipal government provided by the charter is known as a Council/Manager form of government. Legislative power is vested in a nine-member Council, six members elected by wards and two elected at large, and a Mayor who is elected separately. The Council appoints a City Manager. The City Manager is the Chief Executive and Administrative Officer and the head of the administrative agencies of the City. The City Manager appoints all Department/Division heads and employees, except the City Attorney and Clerk of Council and staff, who are appointed by City Council.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds and departments that are not legally separate from the City. The primary government provides various services including police and fire protection, emergency medical services, parks and recreation, planning, zoning, building inspection, court facilities, street maintenance and repair, community development, public health and welfare, sewer, water and stormwater. Council and the City Manager have direct responsibility for these activities.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board; and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt or the levying of taxes. The City does not have any component units included in its reporting entity.

The City participates in the Tri-Cities North Regional Wastewater Authority (Tri-Cities) and the Joint Economic Development District (JEDD), which are defined as joint ventures. A joint venture is a legal entity or other organization that results from a contractual arrangement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain (a) an ongoing financial interest or (b) an ongoing financial responsibility. These organizations are presented later in the notes to the basic financial statements.

The City also participates in the Miami Valley Regional Planning Commission (the Commission), the Miami Valley Fire/EMS Alliance (the Alliance), the Economic Development/Government Equity Program (ED/GE), the Regional Emergency Response Team (RERT), the First Suburbs Consortium of Dayton, Ohio Council of Governments (First Suburbs Consortium), and the Community Improvement Corporation of Huber Heights (CIC), which are defined as jointly governed organizations. A jointly governed organization is governed by representatives from each of the governments that create the organization, but there is no ongoing financial interest or responsibility on the part of the participating governments. These organizations are presented later in the notes to the basic financial statements.

Note 2 – Summary of Significant Accounting Policies

The financial statements of the City of Huber Heights have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The City also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its enterprise funds provided they do not conflict with or contradict GASB pronouncements. The City has elected not to apply FASB pronouncements and interpretations issued after November 30, 1989, to its business-type activities and to its enterprise funds. The most significant of the City's accounting policies are described below.

Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the City that are governmental in nature and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the City at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business segment is self-financing or draws from the general revenues of the City.

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are two categories of funds utilized by the City: governmental and proprietary.

Governmental Funds

Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the City's major governmental funds:

<u>General Fund</u> - This fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Ohio and the Charter of the City.

<u>Police Fund</u> – This fund is used to account for voted tax millage to finance the police department operation and for a portion of City income tax which is to be used for police department operation.

<u>Fire Fund</u> – This fund is used to account for voted tax millage, City income tax and miscellaneous revenue to finance the fire department operation.

<u>Special Assessment Bond Retirement Fund</u> – This fund is used to account for special assessments collected for the payment of special assessment bonded debt with governmental commitment.

<u>Capital Improvement</u> – To account for various capital improvement projects, including streets, sidewalks, building construction and major building improvements.

The other governmental funds of the City account for grants and other resources whose use is restricted for a particular purpose.

Proprietary Funds

Proprietary funds focus on the determination of operating income, changes in net assets, financial position, and cash flows. The City's proprietary funds are enterprise funds.

<u>Enterprise Funds</u> – Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

<u>Sewer Fund</u> - This fund is used to account for the provision of sanitary sewer service to the residents and businesses of the City.

<u>Water Fund</u> – This fund is used to account for the provision of water service to the residents and businesses within the City.

<u>Stormwater Fund</u> – This fund is used to account for funds used for improvements to the City's green space, structures and natural watercourses, thereby maintaining the City's creeks.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the City are included on the statement of net assets. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all enterprise funds are accounted for using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its enterprise activities.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; enterprise funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transaction

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Measurable means the amount of the transaction can be determined and available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within thirty days of year end.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, municipal income taxes, grants, entitlements, shared revenues and donations. On the accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied. Revenue from municipal income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: municipal income taxes, charges for services, fines and forfeitures, state-levied locally shared taxes (including gasoline tax), grants, and interest.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of December 31, 2011, but were levied to finance 2012 operations, have been recorded as deferred revenue. Payments in lieu of taxes, grants and entitlements received before the eligibility requirements are met have also been recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Unearned Revenue

Unearned revenue represents amounts under the accrual basis of accounting for whish asset recognition criteria have been met, but for which revenue recognition criteria have not been met because such amounts have not yet been earned.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Equity in Pooled Cash and Investments

To improve cash management, cash received by the City is pooled. Monies for all funds, except cash held by fiscal agents, are maintained in this pool. Individual fund integrity is maintained through City records. Interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

Cash and cash equivalents that are held separately in accounts at a financial institution for the bond reserve and debt service and not held with the Director of Finance are reported as "cash and cash equivalents with fiscal agents" and represent deposits.

During 2011, the City invested in the State Treasury Asset Reserve of Ohio (STAR Ohio), Bank of New York Trust Cash Reserve Fund, PNC Commercial Money Market, State of Ohio political subdivision securities, and a repurchase agreement and money market securities issued by the Municipal Bonds, Federal National Mortgage Association, Federal Farm Credit Bank, and the Federal Home Loan Bank.

Investments are reported at fair value which is based on quoted market prices, with the exception of non-participating repurchase agreements, which are reported at cost. For investments in openend mutual funds, fair value is determined by the fund's share price.

STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2011.

Interest income is distributed to the funds according to charter and statutory requirements. Interest revenue of \$111,389 was credited to the General Fund during 2011, \$255 to the Capital Improvements Fund and \$31,128 to Other Governmental Funds. The Enterprise Funds had \$91,506 of interest revenues.

Investments with an original maturity of three months or less at the time of purchase and investments of the cash management pool are reported as cash equivalents on the financial statements.

Inventory of Supplies

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when used. Similarly, inventories of the proprietary funds are expensed when used. Inventory consists of expendable supplies held for consumption.

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets in the enterprise funds represent restricted cash and investments and cash and cash equivalents with fiscal agents set aside for the improvement and replacement of capital assets originally acquired with bond proceeds and for repayment of current debt service on revenue bonds that are required by the bond indenture to be held by a financial services corporation.

Capital Assets

General capital assets are capital assets that are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets used by the enterprise funds are reported in both the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market value on the date donated. The City maintains a capitalization threshold of five thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

All capital assets except for land, easements, and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacements. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Buildings	10-50 years
Equipment	3-20 years
Furniture, Fixtures and Improvements	7-30 years
Vehicles	5-20 years
Infrastructure	10-60 years

The City's infrastructure consists of streets, bridges, sidewalks, curbs, gutters, lighting systems, storm and sanitary sewer lines, and water lines.

Compensated Absences

Vacation, personal leave and compensatory time benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for all accumulated unused vacation, personal leave and compensatory time when earned for all employees with more than six months of service.

Termination benefits are accrued as a liability using the vesting method. The entire compensated absences liability is reported on the government-wide financial statements. The liability includes the employees who are currently eligible to receive termination benefits and those that the City has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at year end, taking into consideration any limits specified in the City's termination policy. The City records a liability for accumulated unused sick leave for all OPERS employees after 13 years of current service, while the City records a liability for all Police and Fire employees after 15 years of current service.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported. Compensated absences are reported in governmental funds only if they have matured. In enterprise funds, the entire amount of compensated absences is reported as a fund liability.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the enterprise funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. Long-term loans, notes, and bonds are recognized as liabilities on the governmental fund financial statements when due.

Capital Contributions

Contributions of capital in enterprise fund financial statements arise from outside contributions of capital assets; from grants or outside contributions of resources restricted to capital acquisition and construction; or from transfers of governmental activities capital assets to enterprise funds.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The government-wide statement of net assets reports \$29,157,350 of restricted net assets of which \$1,200,000 is restricted by enabling legislation.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

The City's Sewer and Water Enterprise Funds have restricted net assets relative to those resources necessary to comply with various covenants of bond financing agreements.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise funds. For the City, these revenues are charges for services for sewer, water and stormwater utility services. Operating expenses are the necessary costs incurred to provide the service that is the primary activity of the fund. Revenues and expenses that do not meet these definitions are reported as non-operating.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting, the City classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that are constrained for specific purposes that are internally imposed by the government at its highest level of decision making authority, the City Council.

Assigned – resources that are intended to be used for specific purposes as approved through the City's formal purchasing procedure by the Finance Director.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In governmental funds other than the General Fund, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

The City considers restricted, committed, assigned and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

As a general rule, the effect of interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 - Deposits and Investments

Cash resources of several individual funds are combined to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the City into three categories:

<u>Active Monies</u> - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the City. Such monies must by law be maintained either as cash in the City treasury, in depository accounts payable or withdrawable on demand.

<u>Inactive Monies</u> – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

<u>Interim Monies</u> – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested or deposited in the following securities:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.
- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than one year from date of deposit, or by savings or deposit accounts, including, but limited to, passbook accounts.
- (5) Bonds and other obligations of the State of Ohio.
- (6) The Ohio State Treasurer's investment pool (STAR Ohio).
- (7) Commercial paper and banker's acceptances which meet the requirements established by Ohio Revised Code, Sec. 135.142.
- (8) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's policy for deposits is any balance not covered by depository insurance will be collateralized by the financial institutions with pledged securities. As of December 31, 2011, \$21,859,717 of the City's bank balance of \$23,841,035 was exposed to custodial risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the City's name.

Ohio Revised Code Chapter 135, Uniform Depository Act, authorizes pledging of pooled securities in lieu of specific securities. Specifically, a designated public depository may pledge a single pool of eligible securities to secure repayment of all public monies deposited in the financial institution, provided that all times the total value of the securities so pledged is at least equal to 105% of the total amount of all public deposits secured by the pool, including the portion of such deposits covered by any federal deposit insurance.

Investments

As of December 31, 2011, the City had the following investments:

		Weighted Average
Investment Type	Fair Value	Maturity (Years)
Federal Home Loan Bank	\$301,188	3.82
Municipal Bonds	12,886,307	0.73
Federal Farm Credit Bank	2,037,140	0.49
Federal National Mortgage Association	5,024,867	3.86
Star Ohio	255,149	0.16
Repurchase Agreements	2,715,076	0.00
Money Market Mutual Funds	1,873,944	0.00
Total Fair Value	\$25,093,671	
Portfolio Weighted Average Maturity		1.23

Interest Rate Risk - In accordance with the investment policy, the City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years, unless matched to a specified obligation or debt of the City.

Credit Risk – It is the City's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have the highest credit quality rating issued by nationally recognized statistical rating organizations. The City's investments in Federal Home Loan Bank, Federal Farm Credit Bank, Federal National Mortgage Association and in Money Market Mutual Funds were rated AAA by Standard and Poor's and Fitch ratings and Aaa by Moody's Investors Service. Investments in Star Ohio were rated AAAm by Standard and Poor's. The Municipal Bonds were rated A1 by Moody's. Repurchase Agreements were not rated.

Concentration of Credit Risk – The City's investment policy allows investments in Federal Government Securities or Instrumentalities. The City has invested 1% of the City's investments in Federal Home Loan Bank, 52% in Municipal Bonds, 8% in Federal Farm Credit Bank, 20% in Federal National Mortgage Association, 1% in Star Ohio, 7% in Money Market Mutual Funds and 11% in Repurchase Agreements.

Custodial Credit Risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the City's securities are either insured and registered in the name of the City or at least registered in the name of the City.

Note 4 – Receivables

Receivables at year end, consisted primarily of municipal income taxes, property and other taxes, intergovernmental receivables arising from entitlements and shared revenues, special assessments, accrued interest on investments and accounts receivable.

No allowances for doubtful accounts have been recorded because uncollectible amounts are expected to be insignificant.

Special assessments expected to be collected in the Special Assessment Bond Retirement Fund, Capital Improvement Fund, the Sewer Fund, the Water Fund and Stormwater amount to \$99,225, \$15,433,788, \$376,668, \$25,776, \$14,431, and \$7,511 respectively. The amount recorded in the Other Governmental Funds was \$451,213. At December 31, 2011, the amount of delinquent special assessments was \$724,250.

Income Taxes

For 2011, the City levies a municipal income tax of 2.00% on substantially all income earned within the City. In addition, the residents of the City are required to pay income tax on income earned outside of the City; however, the City allows a credit for income taxes paid to another municipality up to 100% of the City's current tax rate. Changes in the income tax rate require voter approval.

Employers within the City are required to withhold income tax on employee compensation and remit the tax at least quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually. Income tax proceeds are to be used to pay the cost of administering the tax and for general, public safety operations, which include police and fire operations, fire capital equipment and a new fire house facility, local street improvements and local street capital improvements.

Property Taxes

Property taxes include amounts levied against all real estate and public utility property, and tangible personal property used in business and located in the City. Real property taxes (other than public utility) collected during 2011 were levied after October 1, 2010 on assessed values as of January 1, 2010, the lien date. Assessed values were established by the County Auditor at 35% of appraised market value. All property is required to be revalued every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due January 31; if paid semiannually, the first payment is due February and the remainder payable in July. Under certain circumstances, state statute permits later payment dates to be established.

Tangible personal property tax revenues received in 2011 (other than public utility property) represent the collection of 2011 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, furniture and fixtures is no longer levied and collected. Tangible personal property taxes received from telephone companies in calendar year 2011 were levied after October 1, 2010 on values as of December 31, 2010. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, the first payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

The tax on telephone and telecommunications property will be eliminated by calendar year 2011. The tax is phased out by reducing the assessment rate on the property each year. House Bill No. 66 was to hold governments harmless by replacing a portion of the revenue lost by the City due to the phasing out of the tax. In calendar years 2006-2012, the City will be fully reimbursed for the lost revenue. In calendar years 2013-2017, the reimbursements will be phased out.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100% of its true value. Public utility property taxes are payable on the same dates as real property described previously.

City of Huber Heights, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2011

The assessed values of real and tangible personal property upon which 2011 property tax receipts were based are as follows:

Real Property	\$649,154,480
Public Utility	10,408,800
Total Valuation	\$659,563,280

Real property taxes are payable annually or semi-annually. If paid annually, the payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

The City receives property taxes from Montgomery, Miami and Greene Counties. The County Treasurers collect property taxes on behalf of all taxing districts in the counties, including the City of Huber Heights. The County Auditors periodically remit to the City its portion of the taxes collected. Property taxes receivable represents real, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2011, and for which there is an enforceable legal claim. In the funds, the entire receivable has been offset by deferred revenue since the current taxes were not levied to finance 2011 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On an accrual basis, collectible delinquent property taxes have been recorded as revenue while the remainder of the receivable is deferred.

Depreciation expense was charged to governmental programs as follows:

General Government	\$214,470
Public Safety	678,182
Leisure Time Activities	236,421
Community Development	129,994
Transportation and Street Repair	5,305,826
Total Depreciation Expense	\$6,564,893

Note 6 - Pension Plans

Ohio Public Employees Retirement System

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans, a Traditional Pension Plan (TP), a Member-Directed Plan (MD) and a Combined Plan (CO). The TP Plan is a cost-sharing multiple-employer defined benefit pension plan. The MD Plan is a defined contribution plan in which member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the MD Plan members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings. The CO Plan is a cost sharing, multiple-employer defined benefit pension plan. Under the CO Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to the TP Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the MD Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the TP and CO Plans. Members of the MD Plan do not qualify for the ancillary benefits. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by writing to the OPERS, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling 614-222-5601 or 800-222-7377, or by visiting the OPERS website at www.opers.org.

The Ohio Revised Code provides statutory authority for member and employer contributions. Plan members and employer contributions rates were consistent across all three plans. Plan members are required to contribute 10% of their annual covered salary to fund pension obligations. The employer pension contribution rate for the City is 14% of covered payroll. The contribution rates are determined actuarially. The City's required contributions to OPERS for the years ended December 31, 2011, 2010 and 2009 were \$591,066, \$532,739, and \$503,119, respectively. The 89% has been contributed for 2011 and the full amount has been contributed for 2010 and 2009.

Ohio Police and Fire Pension Fund

The City contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple employer defined benefit pension plan. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164, or by visiting the OP&F website at www.op-f.org.

Plan members are required to contribute 10.0% of their annual covered salary, while employers (the City) are required to contribute 19.5% for police officers and 24.0% for firefighters. The City's contributions to OP&F for the years ending December 31, 2011, 2010 and 2009 were \$814,076 (police) and \$891,687 (fire), \$762,233 (police) and \$834,967 (fire), and \$730,450 (police) and \$814,719 (fire), respectively. The 71% (police) and 72% (fire) has been contributed for 2011 and the full amount has been contributed for 2010 and 2009.

Note 7 – Post Employment Benefits

Ohio Public Employees Retirement System

Plan Description

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan – a cost sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health card coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by writing OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377, or by visiting the OPERS website at www.opers.org.

Funding Policy

The Ohio Revised Code provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2011, the City contributed at 14% of covered payroll. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14% of covered payroll. Active members do not make contributions to the OPEB Plan.

OPERS' Post Employment Health Care Plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determined the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. The portion of employer contributions allocated to the health care for members in the Traditional Plan was 4.0% during calendar year 2011. The portion of employer contributions allocated to health care for members in the Combined Plan was 6.05% during calendar year 2011. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care coverage by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Information from City's Records

The rates stated in Funding Policy, above, are the contractually required contribution rates for OPERS. The City's actual contributions for the current year, which were used to fund postemployment benefits, were \$168,868 for 2011, \$192,049 for 2010 and \$213,672 for 2009. The 89% has been contributed for 2011 and the full amount has been contributed for 2010 and 2009.

OPERS Retirement Board Implements its Health Care Preservation Plan

The Health Care Preservation Plan (HCPP) adopted by the OPERS Board of Trustees on September 9, 2004, was effective January 1, 2007. Member and employer contribution rates increased on January 1 of each year 2006 to 2008, which allowed additional funds to be allocated to the health care plan.

Ohio Police and Fire Pension Fund

Plan Description

The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment healthcare plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-retirement healthcare coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. The healthcare coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide healthcare coverage to eligible participants and to establish and amend benefits are codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164, or by visiting the OP&F website at www.op-f.org.

Funding Policy

The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5% and 24.0% of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5% of the covered payroll for police employer units and 24.0% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and Section 401(h) account as the employer contribution for retiree healthcare benefits. For the year ended December 31, 2011, the employer contribution allocated to the health care plan was 6.75% of covered payroll. The amount of employer contributions allocated to the healthcare plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the healthcare plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Information from City's Records

The City's contributions to OP&F for the year ending December 31, 2011 were \$281,671 (police) and \$250,564 (fire); for the year ending December 31, 2010 were \$263,885 (police) and \$234,793 (fire); and for the year ending December 31, 2009 were \$252,859 (police) and \$229,140 (fire); respectively, and were allocated to the healthcare plan. The actual contributions for 2009 and 2010 were 100% and 71% (police) and 72% (fire) has been contributed for 2011.

Note 8 – Other Employee Benefits

Deferred Compensation Plans

City employees and elected officials may participate in three statewide deferred compensation plans, the Aetna deferred compensation plan, the Ohio Public Employees Deferred Compensation Plan or the ICMA Retirement Corporation. These plans were created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plans permit deferral of compensation until future years. According to the plans, the deferred compensation is not available until termination, retirement, death or an unforeseeable emergency.

Accumulated Unpaid Vacation

City employees earn vacation leave at varying rates based upon length of service and union contract, employment contract or personnel policy manual. All employees may carry over a maximum of total hours accrued in the past calendar year. For police command, patrol, dispatch officers, and police clerical union employees, excess vacation can carry over up to 90 days with written approval by the City Manager. For Street Division union employees, excess vacation can carry over up to 180 days with written approval by the City Manager. Non-union employees' excess vacation carries over automatically for 90 days. For the firefighters, vacation can carry over into the next calendar year at a maximum of 264 hours. In the event of resignation with two weeks notice, death, or retirement, employees (or their estates) are paid for unused vacation leave. All full-time and part-time employees can convert vacation leave to pay if the employee has at least five years of service with any Ohio political subdivision. If the employee has at least five years of service, up to six days of accrued vacation can be converted each calendar year, except for firefighters, who can convert up to 72 hours. If the employee has at least ten years of service, up to twelve days of accrued vacation can be converted each calendar year, except for firefighters, who can convert up to 120 hours.

Accumulated Unpaid Personal Leave

City employees are entitled to personal leave at varying rates based upon union contract, employment contract or personnel policy manual. Requests for leave are to be submitted with at least 24 hours notice if possible. If the hours are not used within the calendar year, the City Manager is allowed to grant requests for the carry over of personal leave, but the carry over must be used within 90 days. In addition, the City agrees to either grant one day of personal leave or pay a \$75 bonus, at the employee's option, to any non-union full-time employee that does not exceed eight hours of sick leave usage during the previous calendar year, to be credited in January of the following year.

Accumulated Unpaid Sick Leave

City employees earn sick leave at the rate of 5.0 hours per eighty hours of service. The maximum balance for all employees except firefighters is 1,285 hours. The maximum balance for firefighters is 1,900 hours. If at the end of each contract year an employee has a balance greater than their allowed maximum, the excess hours are paid in a 1:3 ratio at the employee's rate of pay at the contract year end.

Upon retirement, employees are paid for their accumulated leave according to the following schedules. For all employees except firefighters, accumulated hours between 1 and 357 is paid at a 1:4 ratio, accumulated leave from 358 to 714 is paid at a 1:3 ratio, accumulated leave from 715 to 1,071 is paid at a 1:2 ratio, and accumulated leave in excess of 1,071 is paid at a 1:1 ratio. For the firefighters, balances between 1 and 525 hours is paid at a 1:4 ratio, accumulated leave from 501 to 1,050 is paid at a 1:3 ratio, accumulated leave from 1,051 to 1,575 is paid at a 1:2 ratio, and accumulated leave in excess of 1,575 is paid at a 1:1 ratio.

In the case of death, employees (or their estates) are paid out 100% of their sick leave balances.

Accumulated Unpaid Compensatory Time

From time to time, employees may need to work overtime with prior approval from their supervisors. These overtime hours will usually be paid at the appropriate overtime rate; however, certain union employees by contract and non-exempt non-union employees have the choice to take overtime pay or accrue compensatory time at one and one half times the amount of hours worked. For Street Division employees, any overtime hours worked in excess of 8 overtime hours in one day or 24 hours in a two week pay period are compensated at two times the regular hourly rate. Per the agreements, different unions and non-union employees can accumulate compensatory time to different levels. The maximum hours allowed are as follows: Street Division - 80 hours, Police Clerks – 48 hours, Patrol Officers – 72 hours, Command Officers – 80 hours, Dispatch Officers – 48 hours and Non-union – 48 hours. In addition, dispatchers can be paid for up to 40 hours of compensatory time once per contract year. In the event of a termination of employment, death, or retirement, employees (or their estates) are paid for unused compensatory time.

Insurance and Other Benefits

The City provides healthcare benefits to full-time employees through a qualified High Deductible Health Plan (HDHP) in conjunction with a Health Savings Account (HSA) offered through Anthem. In addition to healthcare, the City also offers dental and optical insurance benefits. The dental plan insurance is carried through Superior Dental Care, Inc. and the vision insurance is carried by Vision Service Plan.

The City provides life insurance in the amount of \$30,000 for all full-time employees through Anthem Life. Employees have the option of taking out additional life insurance themselves through either Anthem Life or Reliance Standard Life. The City picks up 1 percent of the employees' share of retirement for all employees except Council members and seasonal employees. On January 12, 2004, the City provided to its employees the option through payroll deduction of contributing to an IRS Section 529 flexible benefit plan to save money for college.

Note 9- Contractual Commitments

As of December 31, 2011, the City had contractual commitments as follows:

	Balance at
Project	December 31, 2011
Recreation/Aquatic Center	\$3,299,057
Sewer line replacement/reconstruction	1,200,883
	\$4,499,940

Note 10 - Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The City pays an annual premium to Brower Insurance Services for coverage through U.S. Specialty and Travelers. The types of coverage and the deductibles are as follows:

Type of Coverage	Limit	Deductible	
Law Enforcement Liability – Each Wrongful Act Limit Public Entity Management Liability – Each Wrongful Act Limit Employment Practices – Each Wrongful Employment Practice Limit	\$1,000,000 1,000,000 Included	\$10,000 10,000 10,000	
Automobile:			
Automobile Liability – Any Auto Automobile Liability – Any Auto – Medical Payments Automobile Physical Damage – Collision * - Actual cash value on all vehicles or cost of repair minus deductible	1,000,000 5,000 *	0 0 2,000	
Property:			
Blanket Building/Contents/Boiler and Machinery Water/Sewer Property/Boiler Earthquake Flood – Certain Areas Communications Tower Inland Marine Contractors Equipment - Leased	17,052,057 19,037,294 5,000,000 5,000,000 100,000 1,968,600 100,000	2,500 2,500 50,000 50,000 2,500 1,000	
Type of Coverage	Limit	Deductible	
General Liability:			
Aggregate Limit Products & Completed Work Total Limit Personal Injury Each Person Limit Fire Damage – Any one fire Emergency Medical Technicians	3,000,000 Included Included 100,000 Included	0 0 0 0	
Excess Liability:			
Umbrella Liability – Each Event	10,000,000	10,000	

Buildings and personal property are written/insured on a replacement cost basis. Flood coverage is valid on certain locations only. Physical damage on other property is insured by the City up to actual cash value of the scheduled property less the deductible listed for the class of property for each accident and location. All property risks, including physical damage coverage on specialized-use vehicles (fire trucks and emergency vehicles), are fully insured through the City's private insurance carrier.

Settled claims have not exceeded this coverage in any of the past three years. There has been no material change in this coverage from the prior year.

The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Note 11 - Long-Term Obligations

A schedule of changes in bonds and other long-term obligations of the governmental activities of the City during 2011 follows:

City of Huber Heights, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2011

The equipment/vehicle loans are paid from the Fire Capital Equipment Funds.

The special assessment bond issues will be paid through the Special Assessment Bond Retirement Debt Service Fund. The bond issues will be paid with special assessment revenue. They are backed by the full faith and credit of the City. In the event that an assessed property owner fails to make payments, the City will be required to pay the related debt.

All voted and unvoted general obligation bond issues will be paid through the General Obligation Bond Retirement Debt Service Fund with property tax revenues and transfers from the General Fund and other governmental funds (special revenue funds - Local Street Operating, State Highway, and Street Maintenance and Repair; and Fire Capital Equipment Capital Projects Funds). These transfers are funded at least in part by municipal income and property tax revenues.

The compensated absences payable will be paid from the fund, which the person is paid. Historically this is the General Fund, a Special Revenue Fund or an Enterprise Fund.

Changes in the long-term obligations reported in business-type activities of the City during 2011 were as follows:

Description	Maturity Date	Balance 12/31/10	Additions	Deletions	Balance 12/31/2011	Due Within One Year 12/31/2011

The Water Fund's revenue bonds are paid from operating revenues of the water enterprise operation. The original issue amount for the 1995 Revenue Bonds was \$12,495,517. Of the original issue amount, \$8,270,000 were serial bonds, and \$4,225,517 were capital appreciation bonds. The capital appreciation bonds will mature in the years 2011 through 2025, and the amounts due on these dates will include interest compounded semiannually on June 1 and December 1 of each year beginning in 1996, at the compounding rates per year. The maturity amount of the capital appreciation bonds is \$16,875,000. The revenue bonds will be paid from the Water Fund.

The OWDA loans payable represent amounts borrowed from the Ohio Water Development Authority. The loans will be paid from Sewer Enterprise Fund revenue.

Principal and interest requirements to retire the City's long-term obligations outstanding at December 31, 2011, were as follows:

The City issued an economic development revenue bond (EDRB) on February 1, 2006, in the principal amount of \$2,423,000. The EDRB financed the purchase of land and the construction and equipping of a 15,315 square foot addition to the existing YMCA family social service center on Shull Road in the City, including parking facilities. The building addition was necessary to house a satellite campus for Sinclair Community College, which leases the building addition from the YMCA. Concurrently with the issuance of the EDRB, the City and the YMCA entered into a loan agreement whereby the YMCA unconditionally agreed to make loan payments to the bond trustee in amounts sufficient to pay the principal and interest on the EDRB. The EDRB is a special obligation of the City, payable solely from the loan payments. Concurrently with the issuance of the EDRB and the execution of the loan agreement, the City assigned all of its rights under the loan agreement to the original purchaser of the EDRB. The EDRB is not a general obligation of the City, and does not constitute a debt or pledge of the faith and credit or the taxing power of the city. The EDRB had a principal amount of \$1,867,000 outstanding at December 31, 2011.

Note 12 - Short-Term Obligations

A summary of the short-term note transactions for the year ended December 31, 2011, follows:

	Balance at			Balance at
Notes Payable	12/31/10	Increases	Decreases	12/31/11
2011 - Capital Facilities	\$0	\$6,000,000	\$0	\$6,000,000
2012 - Capital Facilities	0	2,000,000	0	2,000,000
Total	\$0	\$8,000,000	\$0	\$8,000,000

Note 13 - Capital Leases

In 2006, the City entered into two lease agreements as lessee for the purchase of two vehicles for the Fire division. The final acquisition costs of the pumper and ladder trucks were \$394,639 and \$695,484 respectively. The lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future lease payments as of the inception date.

The future minimum lease obligations and the net present value of the minimum lease payments as of December 31, 2011, are as follows:

Fiscal Year	Capital
Ending June 30	Leases
2012	\$148,755
2013	366,811
Total Minimum Lease Payments	515,566
Less: Amount Representing Interest	(42,727)
Present Value of Minimum Lease Payments	\$472,839

Transfers-Internal Activities as Reported in Government-wide Financial Statements

Note 14 - Interfund Transactions

Interfund Receivables/Payables

The General Fund had an interfund receivable at December 31, 2011, of \$1,316,320. Other Governmental Funds had an interfund payable of \$1,316,320. The loans were made to cover capital outlay and operations costs that will eventually be covered by reimbursement grants. The City expects the interfund to be repaid during 2012. All interfund receivable/payable transactions meet the requirements of the Ohio Revised Code.

Transfers-Fund Financial Statements

	Transfers In	Transfers Out
General Fund	\$0	\$5,353,990
Police Fund	1,300,000	0
Fire Fund	4,017,592	0
Special Assessment Bond Retirement Fund	729,000	0
Capital Improvement Fund	1,258,446	0
Other Governmental Funds	957,990	2,666,139
Total Governmental Funds	8,263,028	8,020,129
Sewer Fund	0	151,487
Water Fund	0	90,366
Stormwater Fund	0	48,336
Total Enterprise Funds	0	290,189
Total Transfers	\$8,263,028	\$8,310,318
Difference - Transfers Out Exceeds Transfers In	\$47,290	

¹ The \$47,290 difference between transfers out and transfers in is created due to the transfer of capital assets previously recorded in the Enterprise Funds to the Governmental Activities assets. Since the Governmental Funds do not report capital assets, the required accounting treatment is to report the transfer of the capital assets as a transfer out in the Enterprise Funds even though the Governmental Funds are not in a position to report the corresponding transfer in, resulting in a difference between transfers out and transfers in. However, transfers in and transfers out do continue to balance on the government-wide statement of activities.

³ Reported as part of Transfers-Internal Activities in Government-wide Financial Statements and part of Capital Contributions in the Enterprise Fund Financial Statements.

in the general fund to finance various programs accounted for in the other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed. All transfers out of funds other than the General Fund were legal transfers for allowable debt principal and interest payments or capital asset transfers.

Note 15 - Joint Ventures

Prior to June of 1996, the Miami Conservancy District provided the Cities of Huber Heights, Vandalia, and Tipp City with wastewater treatment services. The Miami Conservancy District expressed the intent to no longer provide these services to the cities and gave them the option to acquire and operate the facility. In order to do so, the three cities established the Tri-Cities North Regional Wastewater Authority (Tri-Cities). In June of 1996, the Miami Conservancy District deeded the wastewater facility and all of the assets associated with the facility to the joint venture at no cost to the joint venture.

Tri-Cities is a joint venture among the Cities of Huber Heights, Vandalia, and Tipp City. Tri-Cities is governed by a management board consisting of the city managers of the three cities. The board has complete authority over all aspects of the operation. Tri-Cities supplies all participating residents of the member cities with sewer services. Each City owns the sewage lines located in its city and bills its residents for usage. Continued existence of Tri-Cities is dependent on the City's continued participation. The percentage of equity interest in the joint venture for each City is based on annual usage and is adjusted each year accordingly. The City's equity interest is \$16,658,765 which represents 53.54% of the total equity in Tri-Cities. Tri-Cities is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit to or burden on the City. The City of Huber Heights was party to several transactions during 2011 involving Tri-Cities for services provided to the City by Tri-Cities. The amount for services provided to the City was \$1,757,480.

Complete financial statements can be obtained from the fiscal agent by writing to Tri-Cities North Regional Wastewater Authority, c/o The City of Vandalia, 333 J. E. Bohanan Drive, Vandalia, Ohio 45377.

On January 22, 2001, the City entered into a contract for the creation of a Joint Economic Development District (JEDD) with the Township of Bethel and Clark County, Ohio. The contract was entered into under the authority of Ohio Revised Code Section 715.72. The JEDD was established for the purpose of cooperative regional development and job creation, along with growth in commercial and industrial development. The JEDD will permit the three jurisdictions to share tax revenues from the development of property without the need of annexation. The City will provide fire, police, rescue, zoning and building services, and marketing for the site. Clark County will provide water and sewer services. The 41 acres located in Bethel Township, along with a contiguous 17 acre parcel located within the City along State Route 235 are available for use. The contract will terminate on December 31, 2014, and can be renewed for three additional 25-year periods. Upon contract termination, all assets and liabilities of the JEDD will be divided equally between the three parties. The Board of Directors is made up of six individuals: one from each of the three participants; a representative of business existing within the JEDD; and a representative appointed by the other five representatives whose term will rotate between a City resident and a

township resident. Several international companies have expressed interest in the site. The JEDD results from a contractual arrangement and is governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial responsibility. The City has an equity interest since the contract stipulates the City will have claim to the net resources of JEDD, as set forth in the contract. Since the JEDD has had no financial activity since its inception in 2003, the City's equity interest at December 31, 2011, is \$0. Additional information can be obtained from the City of Huber Heights, Planning and Development Department, 6131 Taylorsville Road, Huber Heights, Ohio 45424-2951.

Note 16 - Jointly Governed Organizations

The Miami Valley Regional Planning Commission (the Commission) is a jointly governed organization between Preble, Clark, Clinton, Darke, Greene, Miami, and Montgomery Counties, and various cities residing within these counties, including the City of Huber Heights. The Commission prepares plans, including studies, maps, recommendations, and reports concerning the physical, environmental, social, economic, and governmental characteristics, functions, and services of the region.

These reports show recommendations for systems of transportation, highways, parks and recreational facilities, water supply, sewage disposal, garbage disposal, civic centers, and other public improvements and land uses which affect the development of the region. The degree of control exercised by any participating government is limited to its representation on the Board. Members of the Board are as follows: the officers of the Commission (elected by member representatives), the immediate past Chair of the Commission, the Commission member representing the City of Dayton, the Commission member representing each of the respective member counties, the representatives selected by each county caucus, a nongovernmental member, and two at-large representatives.

Payments to the Commission are made from the General Fund. The City contributed \$17,567 during 2011. Financial information can be obtained from Donald R. Spang, Executive Director, at One Dayton Centre, Suite 260, One South Main Street, Dayton, Ohio 45402.

The Miami Valley Fire/EMS Alliance (the Alliance) is a jointly governed organization between municipal corporations and townships in Montgomery, Greene and Warren Counties. The purpose of the Alliance is to foster cooperation among the political subdivisions by promoting programs and recommending matters which will result in more efficient methods of delivering fire and emergency medical services in the region. The Board of the Alliance is made up of a representative appointed by the City of Dayton, a representative appointed by the members who are provided Fire/EMS Services by volunteers, two representatives appointed by the members who are provided Fire/EMS Services by a combination of full Fire/EMS Services by full time employees. Payments to the Alliance are made from the Fire Fund. The City contributed \$9,162 for the operation of the Alliance during 2011. Financial information can be obtained from Howard Giles, Executive Director, at 444 West Third Street, Suite 20-231, Dayton, Ohio 45402-1460.

The Economic Development/Government Equity Program (ED/GE) was established pursuant to Ohio Revised Code Chapter 307 for the purpose of developing and promoting plans and programs designed to assure that County resources are efficiently used, economic growth is properly balanced, and that County economic development is coordinated with that of the State of Ohio and other local governments. Members include villages, townships, and cities within Montgomery County, and Montgomery County itself. Cooperation and coordination between the members is intended to promote economic health and improve the economic opportunities of the people in Montgomery County by assisting in the establishment or expansion within the County of industrial, commercial or research facilities and by creating and preserving job and employment opportunities for the people of the County.

The ED/GE Advisory Committee, made up of alternating member entities' representatives, decides which proposed projects will be granted each year. Sales tax revenues, set aside by Montgomery County, are used to fund the projects. Members annually contribute to or receive benefits based on an elaborate zero-based formula designed to distribute growth in contributing communities to those communities experiencing less economic growth. The City has agreed to be a member for nine years, ending December 31, 2019. Any member in default of paying its contributions will be liable for the amount of the contribution, any interest accrued, and penalties. During this time, the member will not be entitled to any allocations from ED/GE. Payments to ED/GE are made from the General Fund. The City was not required to make a contribution during 2011 for the operation of ED/GE. Financial information can be obtained from Linda Gum, ED/GE Coordinator, at 451 West Third Street, Dayton, Ohio 45422-1110.

The Regional Emergency Response Team (RERT) is a jointly governed organization between the following cities: Huber Heights, Vandalia, Fairborn, and Beavercreek. The organization was created through an agreement by the cities to establish a regional council of governments for the RERT. The regional council of governments collects and expends resources to assist the RERT in fighting crime and for other related activities. The purpose of the RERT is to foster cooperation among municipalities through sharing of equipment/facilities/collective team expenses, team consultant expenses and grant sharing costs, for their common benefit. This includes the mutual interchange and sharing of police equipment, as well as police equipment to be jointly acquired and owned, to be utilized by all participating members. The Board of the RERT is made up of one representative from each municipality. Payments to the RERT are made from the Police Fund. The City contributed \$5,000 for the operation of the RERT for 2011. Financial information can be obtained from the fiscal agent by writing to the RERT, c/o The City of Beavercreek, Bill Kucera, Financial Administrative Services Director, at 1368 Research Park Drive, Beavercreek, Ohio 45432 or by e-mail: Kucera@ci.beavercreek.oh.us.

The First Suburbs Consortium of Dayton, Ohio Council of Governments (First Suburbs Consortium) is a jointly governed organization between the following members: Centerville, Clayton, Jefferson Township, Harrison Township, Huber Heights, Kettering, Miamisburg, Moraine, Oakwood, Riverside, Trotwood, Vandalia, and West Carrolton. The organization was created through an agreement by the governments to establish a regional council of governments. The purpose of the First Suburbs Consortium is to provide organizational status through cooperative efforts between member communities in matters of mutual concern, including but not limited to initiation and support of policies and practices which protect, maintain and redevelop mature communities and other matters which affect health, safety, welfare, education, economic conditions and regional development. The mission is to initiate and promote public

policies and practices that maintain the vitality of communities, protects and redevelops mature communities, and fosters regional cooperation. The First Suburbs Consortium advocates: public policies that do not create disposable communities; balanced investments in new and existing infrastructure; maintenance and enhancement of the tax base; and creation of redevelopment opportunities. The Board of the First Suburbs Consortium is made up of two representatives from each government. Payments to the First Suburbs Consortium are made from the General Fund. The City paid \$250 for the 2011 annual membership fee. Financial information can be obtained from the fiscal agent by writing to the First Suburbs Consortium of Dayton Ohio, c/o Jack Jensen, Executive Director, P.O. Box 49552, Dayton, Ohio 45449-0552.

The Community Improvement Corporation of Huber Heights (CIC), also known as the Economic Development Corporation, is a jointly governed organization created as a not for profit corporation under Chapter 1724 of the Ohio Revised Code. The CIC is governed by a nine-member Board of Trustees, four of which are appointed by City Council among Council members. The other five members are volunteer citizens. The organization is designated by the City as its agency for the purpose of industrial, commercial, distribution and research development. The City entered into an agreement with the CIC to further development, which will create or preserve jobs and improve the economic welfare of citizens. No payments are made to the CIC by the City. Financial information can be obtained by writing to the CIC, c/o Gary Swords, Treasurer, at 7801 North Dixie Drive, Dayton, Ohio 45414.

Note 17 - Contingent Liabilities

Litigation

The City is party to various legal proceedings. Management estimates that the ultimate outcome of these proceedings will not have a material effect on the financial statements.

Grants

For the period January 1, 2011, to December 31, 2011, the City received federal and state grants for specific purposes that are subject to review and audit by grantor agencies or their designee. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowance, if any, would be immaterial.

Lease Agreement

The City's utility contractor, United Water NACO, LLC (United Water), leases office space from Columbia Building Company. As part of the lease agreement, the City guarantees payment of the lease if United Water NACO, LLC defaults or if the contract with United Water is terminated. The lease agreement began January 1, 2005, for a nine-year period through December 31, 2013. Lease payments are due in monthly installments. There is a renewal option of two renewal terms of five years each at the end of 2013. The total lease payment is made up of a fixed minimum rent, common area maintenance, taxes, and insurance.

The following table shows the total yearly lease payments:

Year	Amount
2012	\$43,780
2013	44,405
Total	\$88,185

Note 18 – Accountability

The following individual funds had a deficit in fund balance at year end:

Funds	Deficit
Capital Improvement Fund	\$2,260,605
Other Governmental:	
Community Development Block Grant	5,600
Miami County TIF	256,474
Issue II Grant	482,292

The deficit in fund balance was primarily due to accruals in the fund financial statements. The General Fund is liable for any deficit in these funds and will provide operating transfers when cash is required not when accruals occur.

Note 19 – Change in Accounting Principles and Restatement of Fund Balance

Change in Accounting Principles

For fiscal year 2011, the City has implemented Governmental Accounting Standards Board (GASB) Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." GASB 54 shifts the focus of fund balance reporting from the availability of fund resources for budgeting to the extent to which the City is bound to honor constraints on the specific purposes for which amounts in funds can be spent.

Restatement of Fund Balance

The implementation of GASB 54 had the following effects on fund balance of the following major and non-major (other governmental) funds of the City as they were previously reported.

		Other
	General	Governmental
	Fund	Funds
Fund Balance, December 31, 2011 Change in Fund Structure	\$7,020,117 147,102	\$16,503,994 (147,102)
Fund Balance, December 31, 2011 - Restated	\$7,167,219	\$16,356,892

Note 20 - Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

				Special			
				Assessment		Other	
				Bond	Capital	Governmental	
Fund Balances	General	Police	Fire	Retirement	Improvement	Funds	Total
Nonspendable:

Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The appropriations resolution is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of control has been established by Council at the object level for all funds.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the City. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the year.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council during the year.

While the City is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 3. Encumbrances are treated as expenditures (budget) rather than as an assignment of fund balance (GAAP).
- 4. Unreported cash represents amounts received but not included as revenue on the budget basis operating statements. These amounts are included as revenue on the GAAP basis operating statement.

City of Huber Heights, Ohio Notes to the Required Supplementary Information For The Year Ended December 31, 2011

5. Some funds are reported as part of the general fund (GAAP basis as opposed to the general fund being reported alone (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund, the police fund and the fire fund.

Net Change in Fund Balance

	General	Police	Fire	
GAAP Basis	(\$733,693)	(\$710,283)	(\$814,434)	
Revenue Accruals	(400,228)	(144,035)	(28,081)

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

Debt Service Funds

The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Capital Projects Funds

The Capital Projects Funds is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

NON-MAJOR SPECIAL REVENUE FUNDS

Fund Descriptions

<u>Street Maintenance and Repair</u> – To account for that portion of the state gasoline tax and motor vehicle registration fees designated for maintenance and repair of certain streets within the City.

<u>Lighting</u> – To account for special assessments used to provide street lighting within the City neighborhoods.

<u>Drug Law Enforcement</u> – To account for fines and costs collected for felonious drug trafficking convictions. This money may be used in any drug law enforcement activity.

<u>Law Enforcement</u> – To account for the fines generated from the prosecution of those in possession of contraband and the proceeds gained from the sale of confiscated contraband. This money may be spent for any law enforcement activity.

<u>State Highway</u> – To account for gasoline tax and motor vehicle license fees received from the County and State for routine maintenance of state highways within the City.

<u>County Motor Vehicle Permissive Tax</u> – To account for permissive license tax levied by Montgomery County. Expenditures include planning, constructing, improving, maintaining, and repairing roads, streets and bridges.

<u>City Motor Vehicle Permissive Tax</u> – To account for permissive license tax received from the State to finance various street repair projects.

<u>Community Development Block Grant</u> – To account for monies received from the federal government under the Community Development Block Grant Programs.

<u>Local Street Operating</u> – To account for miscellaneous revenue and for a portion of City income tax which, beginning in 1994, is to be used for public works activities.

Byrne Memorial Grant – To account for grant monies used to purchase bullet-proof vests.

<u>Montgomery County TIF District</u> – To account for payments in lieu of taxes collected for commercial tax increment financing district. The monies will be used to repay the State Infrastructure Bank Loan and for future capital projects that benefit the district.

<u>Miami County TIF District</u> – To account for payments in lieu of taxes collected for the three residential tax increment financing districts. The monies will be used to repay the State Infrastructure Bank Loan and for future capital projects that benefit the district.

<u>Law Enforcement Assistance Fund</u> – To account for a grant from the State of Ohio Attorney General's Office for the continuing professional training for police officers.

<u>Federal Emergency Management Assistance (FEMA)</u> – To account for the funds received from FEMA for disaster relief. The funds will be used to reimburse the funds which originally paid for the damages and clean-up.

NON-MAJOR CAPITAL PROJECTS FUNDS

Fund Descriptions

<u>Issue II Grant</u> – To account for Ohio Public Works Commission grant funds received from the State of Ohio for each project awarded through this program and local matching funds.

<u>Economic Development/Government Equity Improvement</u> – To account for grant revenues received from the County and used to develop and promote economic development through capital expenditures.

<u>Fire Capital Equipment</u> – To account for City income tax revenues specifically dedicated for fire station building renovations and the equipment purchases of the fire division.

<u>Local Street Capital Improvement</u> – To account for income tax revenues collected for reconstruction and maintenance of the City's interior streets.

Federal Equity Sharing – To account for the City's share of federal forfeitures used by the law enforcement department for informant payments, travel and training, communication and computers, firearms, weapons, body armor, electronic surveillance equipment, building and improvements, and other law enforcement expenses.

<u>Carriage Trails Infrastructure</u> – To account for the issuance of bond anticipation note for the construction of infrastructure in the Carriage Trails development.

<u>Energy Conservation Grant</u> – To account for federal monies received to improve the energy efficiency of lighting and equipment.

OTHER GENERAL FUNDS

With the implementation of GASB Statement No. 54, certain funds that the City prepares legally adopted budgets for no longer meet the definition to be reported as Special Revenue funds and have been included with the General Fund in the governmental fund financial statements. The City has only presented the budget schedules for these funds.

Fund Descriptions

<u>Parks and Recreation</u> – To account for fees and other charges paid by the participants of recreation programs to cover the cost of the various programs.

<u>Unclaimed Monies</u> –To account for payments made to vendors and individuals that were never cashed. Funds are held in this fund until escheatment with the State of Ohio.

<u>Cash Surety</u> –To account for funds used to hold deposits on zoninig or construction permits. When the project is finished the city returns the funds.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents

<u>Financial Trends</u>: These schedules contain trend information to help the reader understand how the City's financial position has changed over time.

Revenue Capacity: These schedules contain information to help the reader understand and assess the City's most significant local revenue source, the income tax.

<u>Debt Capacity</u>: These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Economic and Demographic Information: These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

<u>Operating Information</u>: These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

<u>Sources</u>: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement 34 in fiscal year 2002; schedules presenting government-wide information include information beginning in that fiscal year.

Source: City of Huber Heights, Division of Taxation for years 2002 - 2008, Regional Income Tax Agency (RITA) for 2009 - 2010

(1) The percentages breaking down the different types of tax were not available due to insufficient information received from RITA when the City resumed collection of income taxes in October 2010.

The City levies a 2.0% income tax on substantially all income earned within the City, excluding interest, dividends, and retirement. Additional increases in the income tax rate require voter approval. City residents pay City income tax on income earned outside the City, however, a credit is allowed for income taxes paid to other municipalities. Employers within the City withhold income tax on employee compensation and remit at least quarterly.

In November 2005, voters passed a 0.30 % additional income tax levy to be used for public safety, effective January 1, 2006.

In November 2008, voters passed a (0.25) % decrease in the income tax rate for the general fund, effective January 1, 2009.

Also in 2008, Council approved the use of the Regional Income Tax Agency (RITA) to collect the City's income taxes.

Note: Dollar amounts are for municipal income tax revenues only. These amounts do not include penalties or interest.

Due to legal restrictions and confidentiality requirements, the City cannot disclose the amount of withholdings by taxpayer. The City chose not to disclose percentages and number of filers by income level because the City does not require all taxpayers to file a return, therefore, the City does not have, nor can it obtain, this type of information.

Yellow Book Report

December 31, 2011

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of City Council City of Huber Heights, Ohio

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Huber Heights (the City), as of and for the year ended December 31, 2011, which collectively comprise the City's basic financial statements and have issued our report thereon dated May 30, 2012 wherein we noted the City adopted GASB Statement No. 54 as disclosed in Note 19. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the City is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Auditor of State, City Council and is not intended to be and should not be used by anyone other than these specified parties.
