## INDEPENDENT ACCOUNTANTS' REPORT

Kenton City School District  
Hardin County  
222 West Carrol Street  
Kenton, Ohio 43326

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Kenton City School District, Hardin County, (the District), as of and for the fiscal year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Kenton City School District, Hardin County, as of June 30, 2011, and the respective changes in financial position thereof and the budgetary comparison for General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3, during the year ended June 30, 2011, the School District adopted the provisions of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 10, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The Schedule of Federal Awards Receipts and Expenditures provides additional information required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The Schedule of Federal Awards Receipts and Expenditures is management's responsibility, and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. This Schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
UNAUDITED**

The discussion and analysis of Kenton City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

**Highlights**

Highlights for fiscal year 2011 are as follows:

- In total net assets increased by \$546,804 or 13 percent. Revenues reflect a modest 3 percent increase and expenses a 3 percent decrease. This combination provided the overall increase in net assets. This was in contrast to the prior year when the School District had cash carryover spending.

**Using the Basic Financial Statements**

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand Kenton City School District as a financial whole, or as an entire operating entity.

The statement of net assets and the statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in a single column. For Kenton City School District, the General Fund is the most significant fund.

**Reporting the School District as a Whole**

The statement of net assets and the statement of activities reflect how the School District did financially during fiscal year 2011. These statements include all assets and liabilities using the accrual basis of accounting similar to that which is used by most private-sector companies. This basis of accounting considers all of the current fiscal years' revenues and expenses regardless of when cash is received or paid.

These statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader whether the financial position of the School District as a whole has increased or decreased from the prior fiscal year. Over time, these increases and/or decreases are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors, some financial, some not. Nonfinancial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the statement of net assets and the statement of activities, all of the School District activities are presented as governmental activities. All of the School District's programs and services are reported here including instruction, support services, non-instructional services, and extracurricular activities.

**Reporting the School District's Most Significant Funds**

Fund financial statements provide detailed information about the School District's major funds. While the School District uses many funds to account for its financial transactions, the fund financial statements focus on the School District's most significant funds. The School District's only major fund is the General Fund.

**Governmental Funds** - All of the School District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year end for spending in future periods. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

**Fiduciary Funds** - Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs. These funds use the accrual basis of accounting.

**The School District as a Whole**

Table 1 provides a summary of the School District's net assets for fiscal year 2011 compared to fiscal year 2010:

**Table 1

<b>Total Net Assets</b>	<b>\$4,692,692</b>	<b>\$4,145,888</b>	<b>\$546,804</b>

The above table demonstrates several significant changes from the prior fiscal year. There was a 9 percent increase in current and other assets. Both cash and cash equivalents and income taxes receivable increased as a result of the one-half percent income tax approved by the voters in May 2010 with collections that began in January 2011 (also reflected in the increase in unrestricted net assets). The income tax was approved for a period of five years. In addition, intergovernmental receivables increased due to the School District being a recipient of an Education Jobs Grant and the Race to the Top Grant (also reflected in the increase in restricted net assets). The decrease in net capital assets and invested in capital assets is primarily due to annual depreciation.

Although there was a very modest change in program revenues from the prior fiscal year, there were a couple changes of note. Charges for services increased due to selling advertising in the gymnasium and at the football field. The decrease in operating grants and contributions reflects the ending of the grant resources received through the American Recovery and Reinvestment Act (ARRA) and the State Fiscal Stabilization Fund resources. The largest increase in general revenues is reflected in the increase in income tax revenues resulting from the one-half percent levy approval with collections beginning in January 2011.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

(Continued)**

The most significant changes noted for expenses were the decreases in the instruction program. Regular instruction costs were reduced, primarily due to teacher reductions through attrition (retirements not replaced). The decrease in special instruction is the result of the ending of the grants obtained through ARRA and the vocational instruction decrease reflects the FFA program being moved to Ohio Hi-Point Joint Vocational School.

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted state entitlements.

A review of the above table demonstrates that only a very few of the School District's programs receive notable support through program revenues. For fiscal year 2011, both the regular and special instruction programs received substantial funding through ARRA grant resources and from State Fiscal Stabilization Fund resources. The non-instructional services program, which represents the cafeteria, receives program revenues from lunch sales and federal subsidies for food service operations. Extracurricular activities costs are largely paid for through admission charges for athletic events as well as from music and drama productions.

**The School District's Funds**

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The General Fund is the School District's only major fund. Fund balance increased over 28 percent from the prior fiscal year due to a combination of revenue increases and expenditure reductions. The most significant revenue increase resulted from the additional income tax collections as mentioned previously. Increases also occurred from Medicaid reimbursements and from renting the Eastcrest Elementary building to Ohio Hi-Point Joint Vocational School. Expenditure reductions occurred in most programs, in part, due to staff reductions (such as the retirees not replaced) as well as from the deferral of some capital expenditures.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

(Continued)**

**General Fund Budgeting Highlights**

The School District's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

For revenues, changes from the original budget to the final budget as well as from the final budget to actual revenues collected were minimal. For expenditures, there was a 3 percent increase from the original budget to the final budget; however, actual expenditures more closely resemble amounts within the original budget. The largest change is reflected in regular instruction as the School District decided not to replace leaving employees.

**Capital Assets and Debt Administration**

**Capital Assets** - At the end of fiscal year 2011, the School District had \$2,855,611 invested in capital assets (net of accumulated depreciation). Additions for the fiscal year included computer equipment, cafeteria equipment, and other small equipment acquisitions. Disposals included routine equipment replacement. For further information regarding the School District's capital assets, refer to Note 10 to the basic financial statements.

**Debt** - At June 30, 2011, the School District's long-term debt consisted of an equipment lease, in the amount of \$67,857. The School District's long-term obligations also include compensated absences. For further information regarding the School District's long-term obligations, refer to Notes 16 and 17 to the basic financial statements.

**Current Issues**

The Kenton City School District is in a state of economic downturn as are all government bodies and school districts across the State. After the loss of a major employer in 2009, the School District's unemployment and loss of student enrollment stabilized in calendar year 2010. With the enrollment decline, the School District was able to close a small elementary school with an enrollment of one hundred ten students. This building was then rented to Ohio Hi-Point Joint Vocational School for adult education classes. This will benefit our community and the bottom line of our School District. Even in these tough economic times, our community approved a one-half percent five-year income tax in May 2010; collections began in January 2011. Even with the passage of this income tax, the School District is still looking for additional budget cuts that need to occur due to the lack of State support.

The School District is very concerned about the State's reimbursement of tangible property tax, which eliminated the collection of the tax on the business sector due to the passage of House Bill 66 in prior years. The State thus far has reimbursed schools at a rate of 100 percent of the loss of those tax dollars through fiscal year 2011. Starting in fiscal year 2012, however, this reimbursement will be again reviewed and any significant reduction will have a negative effect on the School District's revenue. Also due to the State of Ohio revenue decline, school funding is at risk and reductions of 10 to 20 percent for fiscal year 2012 have been discussed. Either of these reductions will be devastating to our School District and additional spending reductions will need to be in place for next school year.

The School District has plans in place to return to the ballot for a new pre-kindergarten through sixth grade building in November 2011. This building is to be located on land north of the current High School. The School District is participating in the Ohio School Facilities Commission program in which the State will contribute 65 percent of the cost of eligible expenditures of the new facility and the local share being 35 percent of the cost plus any additional needs requested. This will allow the School District to consolidate all of the students in grades prekindergarten through 6<sup>th</sup> grade in one central location and be more efficient in its operations. The School District's two largest elementary buildings currently were built in the 1930's and are in much need of major repairs. Hopes are that the community will take advantage of this tremendous financial support from the State and then the cost efficiencies can be implemented by the School District.

**Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to reflect the School District's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Steve Ashba, Treasurer, Kenton City School District, 222 West Carrol Street, Kenton, Ohio 43326.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES  
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

Changes in Fund Balances - Total Governmental Funds \$469,973

Amounts reported for governmental activities on the statement of activities are different because of the following:

Governmental funds report capital outlays as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current fiscal year:

Capital Outlay - Depreciable Capital Assets	\$77,690	
Depreciation	(321,863)	
		(244,173)

The proceeds from the sale of capital assets are reported as other financing sources in the governmental funds. However, the cost of the capital assets is removed from the capital asset account on the statement of net assets and is offset against the proceeds from the sale of capital assets resulting in a loss on disposal of capital assets on the statement of activities

Proceeds from Sale of Capital Assets	(319)	
Loss on Disposal of Capital Assets	(257)	
		(576)

Revenues on the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds:

Property Taxes	9,754	
Income Taxes	27,518	
Intergovernmental	316,396	
Interest	(3,092)	
Tuition and Fees	(1,768)	
		348,808

Repayment of principal is an expenditure in the governmental funds but the repayment reduces long-term liabilities on the statement of net assets.

31,524

Compensated absences reported on the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

**KENTON CITY SCHOOL DISTRICT  
HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

**1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY**

Kenton City School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state and federal guidelines.

The School District was established in 1888. The School District serves an area of approximately one hundred twelve square miles. It is located in Hardin and Wyandot Counties and includes all of Pleasant Township, portions of Cessna, Dudley, Goshen, Lynn, McDonald, and Taylor Creek Townships, and the City of Kenton. The School District is the 266<sup>th</sup> largest in the State of Ohio (among 612 school districts) in terms of enrollment. It is staffed by seventy-eight classified employees, one hundred thirty-two certified teaching personnel, and twenty-seven administrative employees who provide services to 1,942 students and other community members. The School District currently operates eight instructional/support buildings.

**Reporting Entity**

A reporting entity is composed of the primary government, component units, and other organizations that are included to insure the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Kenton City School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. There are no component units of the Kenton City School District.

The School District participates in two jointly governed organizations and three insurance pools. These organizations are the Ohio Hi-Point Joint Vocational School, Western Ohio Computer Organization, Schools of Ohio Risk Sharing Authority, Hardin County School Employees' Health and Welfare Benefit Plan and Trust, and the Ohio Association of School Business Officials Workers' Compensation Group Rating Plan. These organizations are presented in Notes 20 and 21 to the basic financial statements.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The basic financial statements of Kenton City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. Following are the more significant of the School District's accounting policies.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**A. Basis of Presentation**

The School District's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**1. Government-Wide Financial Statements**

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements usually distinguish between those activities of the School District that are governmental activities (primarily supported by taxes and intergovernmental revenues) and those that are considered business-type activities (primarily supported by fees and charges). However, the School District has no business-type activities.

The statement of net assets presents the financial condition of the governmental activities of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

**2. Fund Financial Statements**

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

**B. Fund Accounting**

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are divided into two categories, governmental and fiduciary.

**KENTON CITY SCHOOL DISTRICT  
HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**1. Governmental Funds**

Governmental funds are those through which most governmental functions of the School District are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The School District's only major fund is the General Fund.

**General Fund** - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed, or assigned to a particular purpose.

**2. Fiduciary Funds**

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are not available to support the School District's own programs. The School District's private purpose trust funds account for programs that provide services to needy students and college scholarships to students after graduation. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency fund accounts for various student-managed activities.

**C. Measurement Focus**

**1. Government-Wide Financial Statements**

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets. The statement of activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net assets.

**2. Fund Financial Statements**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The private purpose trust funds are accounted for using a flow of economic resources measurement focus.

**D. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

**1. Revenues - Exchange and Non-exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the fiscal year in which the income is earned. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal yearend: property taxes available as an advance, income taxes, grants, interest, tuition, student fees, and charges for services.

**2. Deferred Revenues**

Deferred revenues arise when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there was an enforceable legal claim as of June 30, 2011, but which were levied to finance fiscal year 2012 operations, are recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period are reported as deferred revenue.

HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**3. Expenses/Expenditures**

On the accrual basis, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**E. Budgetary Process**

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are an alternative tax budget (consists of a five-year forecast), the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The alternative tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the object level within each function and fund.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources requested by the School District prior to fiscal year end.

The appropriations resolution is subject to amendment throughout the fiscal year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriations resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

**F. Cash and Investments**

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During fiscal year 2011, investments included repurchase agreements, U.S. treasury obligations, and mutual funds. Repurchase agreements are reported at cost. Investments are reported at fair value, which is based on quoted market price or current share price.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2011 was \$8,356, which includes \$706 assigned from other School District funds.

**KENTON CITY SCHOOL DISTRICT  
HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Investments of the School District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

**G. Prepaid Items**

Payments made to vendors for services that will benefit periods beyond June 30, 2011, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed.

**H. Inventory**

Inventory is presented at cost on a first-in, first-out basis and is expended/expensed when used. Inventory consists of donated and purchased food.

**I. Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets in the General Fund consist of revenues required by State statute to be set aside for the acquisition and construction of capital improvements.

**J. Capital Assets**

All of the School District's capital assets are general capital assets generally resulting from expenditures in governmental funds. These assets are reported in the governmental activities column on the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost and updated for additions and reductions during the fiscal year. Donated capital assets are recorded at their fair market value on the date donated. The School District maintains a capitalization threshold of one thousand dollars. Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Useful Lives</u>
Land Improvements	10 - 50 years
Buildings and Building Improvements	13 - 75 years
Furniture, Fixtures, and Equipment	5 - 40 years
Vehicles	10 - 15 years
Infrastructure	30 years

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**K. Interfund Assets/Liabilities**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivables/Payables". Interfund balances within governmental activities are eliminated on the statement of net assets.

**L. Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for all employees after ten years of service.

**M. Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current fiscal year. Capital leases are recognized as a liability on the fund financial statements when due.

**N. Net Assets**

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include resources restricted for food service operations, music and athletic programs, and federal and state grants.

The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

**O. Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

**KENTON CITY SCHOOL DISTRICT  
HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Non-spendable** - The non-spendable classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash.

**Restricted** - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or are imposed by law through constitutional provisions.

**Committed** - The committed classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. The committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

**Assigned** - Amounts in the assigned classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of Education.

**Unassigned** - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

**P. Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**3. CHANGE IN ACCOUNTING PRINCIPLES AND RESTATEMENT OF FUND BALANCE/NET ASSETS**

**A. Change in Accounting Principles**

For fiscal year 2011, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions". GASB Statement No. 54 provides fund balance classifications that can be more consistently applied and clarifies the existing governmental fund type definitions. The requirements of this statement classify fund balance as non-spendable, restricted, committed, assigned, and/or unassigned.

**B. Restatement of Fund Balance/Net Assets**

The restatement due to the implementation of GASB Statement No. 54 had the following effect on fund balance of the major and non-major funds of the School District as they were previously reported.

	<b>General</b>	<b>Other Governmental</b>	<b>Total Governmental Funds</b>
Fund Balance at June 30, 2010	\$1,337,471	\$ 3,530	\$1,341,001
Change in Fund Structure	42,735	(58,741)	(16,006)
Adjusted Fund Balance (Deficit) at June 30, 2010	\$1,380,206	(\$55,211)	\$1,324,995

The restatement had the following effect on net assets.

	<b>Total Governmental Activities</b>
Net Assets at June 30, 2010	\$4,161,894
Change in Fund Structure	(16,006)
Restated Net Assets at June 30, 2010	\$4,145,888

**4. ACCOUNTABILITY AND COMPLIANCE**

**A. Accountability**

At June 30, 2011, the following funds had deficit fund balances:

<b>Fund Type/Fund</b>	<b>Deficit</b>
Special Revenue Funds	
Race to the Top	\$15,155
Title VI-B	128,957
Title II-D	19,389
Title I	159,770
Preschool	531
Title II-A	21,512

The deficit fund balances resulted from adjustments for accrued liabilities. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS

**4. ACCOUNTABILITY AND COMPLIANCE (Continued)**

**B. Compliance**

The following accounts had expenditures plus encumbrances in excess of appropriations for the fiscal year ended June 30, 2011.

<u>Fund Type/ Fund/Function/Object</u>	<u>Appropriations</u>	<u>Expenditures Plus Encumbrances</u>	<u>Excess</u>
Special Revenue Funds			
Athletic and Music			
Extracurricular Activities			
Salaries	\$34,059	\$34,250	\$191
Materials and Supplies	3,100	4,040	940

The Treasurer will monitor budgetary transactions to ensure that expenditures are within amounts appropriated.

At June 30, 2011, the Race to the Top, Title VI-B, Title II-D, Title I, Preschool, and Title II-A special revenue funds had deficit cash balances, in the amount of \$8,335, \$53,097, \$14,322, \$45,981, \$531, and \$2,206, respectively.

**5. BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as restricted, committed, or assigned fund balance (GAAP basis).

The adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund are as follows:

**6. DEPOSITS AND INVESTMENTS**

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District may be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

**6. DEPOSITS AND INVESTMENTS (Continued)**

3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
7. The State Treasurer's investment pool (STAR Ohio); and
8. Commercial paper and bankers' acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

**A. Deposits**

Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At fiscal year end, \$802,740 of the School District's bank balance of \$2,457,125 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although all State statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least 105 percent of the deposits being secured.

**B. Investments**

As of June 30, 2011, the School District had the following investments:

	<b>Fair Value</b>	<b>Maturity</b>
Repurchase Agreement	\$ 83,045	7/1/11
US Treasury Note	200,438	09/30/11
US Treasury Note	226,371	11/15/11
Mutual Funds	3,279	42 Days
<b>Total Investments</b>	<b>\$513,133</b>

HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**6. DEPOSITS AND INVESTMENTS (Continued)**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The investment policy restricts the Treasurer from investing in any securities other than those identified in the Ohio Revised Code and that all investments must mature within five years from the date of investment unless they are matched to a specific obligation or debt of the School District.

The securities underlying the repurchase agreement (Federal National Mortgage Association Notes) carry a rating of Aaa by Moodys. The US treasury notes are fully guaranteed by the United States Government. The mutual funds carry a rating of Aaa by Moody's. The School District has no investment policy dealing with credit risk beyond the requirements of State statute. Ohio law requires that repurchase agreements be limited to investments in United States treasury securities and federal government agency securities. Mutual funds in eligible securities must be rated in the highest category at the time of purchase by at least one nationally recognized standard rating service.

For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The repurchase agreement is exposed to custodial credit risk as it is uninsured, unregistered, and held by the counterparty's trust department or agent but not in the School District's name. The School District has no investment policy dealing with custodial credit risk beyond the requirements of the State statute.

The School District places no limit on the amount it may invest in any one issuer. The following table indicates the percentage of investments to the School District's total portfolio:

	<b>Fair Value</b>	<b>Percentage of Portfolio</b>
Repurchase Agreement	\$83,045	16.18%
US Treasury	426,809	83.18

**7. RECEIVABLES**

Receivables at June 30, 2011, consisted of accounts (student fees and billings for user charged services), accrued interest, interfund, intergovernmental, income taxes, and property taxes. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables, except income and property taxes, are expected to be collected within one year. Income and property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

A summary of the principal items of intergovernmental receivables follows:

**8. INCOME TAXES**

The School District levies a voted tax of 1.5 percent for general operations on the income of residents and of estates. A portion of the tax (1 percent) was effective on January 1, 1996, and is for a continuing period. The remaining .5 percent was effective on January 1, 2011, and is for a five-year period. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the General Fund.

**9. PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis, while the School District's fiscal year runs from July through June. First-half tax distributions are received by the School District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real property, public utility property, and tangible personal (used in business) property located in the School District. Real property tax revenues received in calendar year 2011 represent the collection of calendar year 2010 taxes. Real property taxes received in calendar year 2011 were levied after April 1, 2010, on the assessed values as of January 1, 2010, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

**KENTON CITY SCHOOL DISTRICT  
HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**9. PROPERTY TAXES (Continued)**

Public utility property tax revenues received in calendar year 2011 represent the collection of calendar year 2010 taxes. Public utility real and tangible personal property taxes received in calendar year 2011 became a lien on December 31, 2009, were levied after April 1, 2010, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Tangible personal property tax revenues received in calendar year 2011 (other than public utility property) represent the collection of calendar year 2011 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied and collected. Tangible personal property taxes received from telephone companies in calendar year 2010 were levied after October 1, 2009, on the value as of December 31, 2009. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

The School District receives property taxes from Hardin and Wyandot Counties. The County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the counties by June 30, 2011, are available to finance fiscal year 2011 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents real property, public utility property, and tangible personal property taxes which were measurable as of June 30, 2011, and for which there was an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reflected as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2011, was \$391,970 in the General Fund. The amount available as an advance at June 30, 2010, was \$437,733 in the General Fund.

Collectible delinquent property taxes have been recorded as a receivable and revenue on a full accrual basis. On a modified accrual basis, the revenue has been deferred.

The assessed values upon which fiscal year 2011 taxes were collected are:

	<b>2010 Second- Half Collections</b>		<b>2011 First- Half Collections</b>	
	<b>Amount</b>	<b>Percent</b>	<b>Amount</b>	<b>Percent</b>
Agricultural/Residential	\$137,021,260	73.51%	\$138,021,860	73.15%

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

**12. RISK MANAGEMENT**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2011, the School District contracted for the following insurance coverage.

Coverage provided by the Schools of Ohio Risk Sharing Authority is as follows:

Property	\$58,869,362
General Liability	
Per Occurrence	3,000,000
Aggregate	5,000,000
Automobile Liability	3,000,000
Uninsured Motorists	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

For fiscal year 2011, the School District participated in the Schools of Ohio Risk Sharing Authority (SOSRA), an insurance purchasing pool. Each participant enters into an individual agreement with SORSA for insurance coverage and pays annual premiums to SORSA based on the types and limits of coverage and deductibles selected by the participant.

The School District participates in the Hardin County School Employees' Health and Welfare Benefit Plan and Trust (Trust), a public entity shared risk pool consisting of six school districts, the Hardin County Educational Service Center, and the Ada Public Library. The School District pays monthly premiums to the Trust for employee medical, dental, vision, and life insurance benefits. The Trust is responsible for the management and operations of the program. Upon withdrawal from the Trust, a participant is responsible for the payment of all Trust liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

For fiscal year 2011, the School District participated in the Ohio Association of School Business Officials Workers' Compensation Group Rating Plan (Plan), an insurance purchasing pool. The intent of the Plan is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the Plan. The third party administrator, Sheakley Uniservice, Inc., reviews each participants' claims experience and determines the rating tier for that participant. A common premium rate is applied to all participants in a given rating tier. Each participant pays its workers' compensation premium to the State based on the rate for their rating tier rather than its individual rate. Sheakley Uniservice, Inc. provides administrative, cost control, and actuarial services to the Plan.

**13. DEFINED BENEFIT PENSION PLANS**

**A. State Teachers Retirement System**

**Plan Description** - The School District contributes to the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to the State Teachers Retirement System of Ohio, 275 East Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at [www.strsoh.org](http://www.strsoh.org).

**13. DEFINED BENEFIT PENSION PLANS (Continued)**

New members have a choice of three retirement plans, a Defined Benefit Plan (DBP), a Defined Contribution Plan (DCP), and a Combined Plan (CP). The DBP offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service or on an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DCP allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The CP offers features of both the DBP and the DCP. In the CP, member contributions are invested by the member and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DBP. The DBP portion of the CP payment is payable to a member on or after age sixty; the DCP portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DBP or CP member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DCP who become disabled are entitled only to their account balance. If a member of the DCP dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

**Funding Policy** - For the fiscal year ended June 30, 2011, plan members were required to contribute 10 percent of their annual covered salary. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the STRS Ohio Board upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contribution for pension obligations to STRS Ohio for the fiscal years ended June 30, 2011, 2010, and 2009 was \$1,041,552, \$1,117,684, and \$1,090,640, respectively; 84 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009. Contributions to the DCP and CP for fiscal year 2011 were \$26,360 made by the School District and \$18,829 made by plan members.

**B. School Employees Retirement System**

**Plan Description** - The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple-employer public employee retirement plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a stand-alone financial report that may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

**13. DEFINED BENEFIT PENSION PLANS (Continued)**

**Funding Policy** - For the fiscal year ended June 30, 2011, plan members were required to contribute 10 percent of their annual covered salary and the School District was required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2011, 11.81 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The School District's required contribution for pension obligations to SERS for the fiscal years ended June 30, 2011, 2010, and 2009 was \$241,769, \$277,179, and \$199,725, respectively; 31 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

**C. Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the State Teachers Retirement System or the School Employees Retirement System have an option to choose Social Security or the State Teachers Retirement System/School Employees Retirement System. As of June 30, 2011, all of the Board of Education members have elected Social Security. The Board's liability is 6.2 percent of wages paid.

**14. POSTEMPLOYMENT BENEFITS**

**A. State Teachers Retirement System**

**Plan Description** - The School District contributes to a cost-sharing multiple-employer defined benefit Health Care Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the Defined Benefit or Combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare Part B premiums. The Plan is included in STRS Ohio's financial report which may be obtained by calling (888) 227-7877 or by visiting the STRS Ohio Web site at [www.strsoh.org](http://www.strsoh.org).

**Funding Policy** - Ohio law authorizes STRS Ohio to offer the Health Care Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for postemployment health care may be deducted from employer contributions. For fiscal year 2011, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contribution for health care for the fiscal years ended June 30, 2011, 2010, and 2009 was \$82,147, \$88,894, and \$85,568, respectively; 84 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

**14. POSTEMPLOYMENT BENEFITS (Continued)**

**B. School Employees Retirement System**

**Plan Description** - The School District contributes to two cost-sharing multiple-employer defined benefit OPEB plans administered by the School Employees Retirement System (SERS) for classified retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians fees through several types of plans including HMO's, PPO's, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by SERS based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

**Funding Policy** - State statute permits SERS to fund the health care benefits through employer contributions. Each fiscal year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For fiscal year 2011, 1.43 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount. For fiscal year 2011, the surcharge amount was \$33,480.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility, and retirement status.

The School District's contribution for health care for the fiscal years ended June 30, 2011, 2010, and 2009 was \$29,274, \$9,977, and \$91,403, respectively; 31 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare Part B Fund. For fiscal year 2011, this actuarially required allocation was .76 percent of covered payroll. The School District's contribution for Medicare Part B for the fiscal years ended June 30, 2011, 2010, and 2009 was \$15,558, \$16,483, and \$16,479, respectively; 31 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

**15. OTHER EMPLOYEE BENEFITS**

**A. Compensated Absences**

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and administrators, except for the superintendent and treasurer, do not earn vacation time.

**KENTON CITY SCHOOL DISTRICT  
HARDIN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011  
(Continued)**

**15. OTHER EMPLOYEE BENEFITS (Continued)**

Teachers, administrators and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated up to two hundred five days for all employees. Upon retirement, payment is made for one-fourth of the total sick leave accumulation, not to exceed thirty-eight days for classified employees. All teachers and administrative staff will be paid one-fourth of the total sick leave accumulation, not to exceed forty days with five years of service, forty-one days with ten years of service, forty-two days with twenty years of service, and forty-three days with thirty years of service. In addition all employees will be paid for a maximum of five days for sick leave accumulated beyond one hundred ninety-nine days. Payment is based upon the employee's salary at the time of retirement.

**B. Health Care Benefits**

The School District offers medical, dental, vision, and life insurance benefits to most employees through the Hardin County School Employees' Health and Welfare Benefit Plan and Trust. Depending upon the plan chosen, the employees share the cost of the monthly premium with the Board. The premium varies with employee depending on the terms of the union contract.

**16. LONG-TERM OBLIGATIONS**

Changes in the School District's long-term obligations during fiscal year 2011 were as follows:

	<b>Balance at 6/30/10</b>	<b>Additions</b>	<b>Reductions</b>	<b>Balance at 6/30/11</b>	<b>Amounts Due Within One Year</b>
<b>Governmental Activities:</b>					
General Long-Term Obligations

Compensated absences will be paid from the General Fund and the Food Service special revenue fund.

The School District's overall debt margin was \$16,218,564 with an unvoted debt margin of \$180,206 at June 30, 2011.

**17. CAPITAL LEASES - LESSEE DISCLOSURE**

The School District has entered into capitalized leases for equipment. Each lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments are reflected as debt service expenditures on the statement of revenues, expenditures, and changes in fund balances for the governmental funds. Principal payments in 2011 were \$31,524.

**18. FUND BALANCE**

Fund balance is classified as non-spendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

<b>Fund Balance</b>	<b>General</b>	<b>Other Governmental</b>	<b>Total Governmental Funds</b>
<b>Non-spendable for:</b>

**19. SET ASIDES**

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the purchase of textbooks and other instructional materials, and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end. These amounts must be carried forward and used for the same purposes in future years.

The following cash basis information identifies the changes in the fund balance reserves for textbooks and capital improvements during fiscal year 2011.

	<b>Textbooks</b>	<b>Capital Improvements</b>
Balance June 30, 2010	(\$1,197,260)	
Current Year Set Aside Requirement	289,147	\$289,147
Qualifying Expenditures	(298,549)	(274,109)
Balance Carried Forward to Fiscal Year 2012	(\$1,206,662)	\$ 15,038
Set Aside Reserve Balance June 30, 2011	\$ 0	\$ 15,038

The School District had qualifying expenditures during the fiscal year that reduced the textbooks set aside amount below zero. This amount may be used to reduce the set aside requirement in future fiscal years.

**20. JOINTLY GOVERNED ORGANIZATIONS**

**A. Ohio Hi-Point Joint Vocational School**

The Ohio Hi-Point Joint Vocational School (JVS) is a distinct political subdivision of the State of Ohio which provides vocational education to students. The JVS is operated under the direction of a Board consisting of one representative from each of the eleven participating school districts' elected boards. The Board possesses its own budgeting and taxing authority. The degree of control exercised by the School District is limited to its representation on the Board. Financial information can be obtained from the Ohio Hi-Point Joint Vocational School, 2280 State Route 540, Bellefontaine, Ohio 43311.

**B. Western Ohio Computer Organization**

The School District is a participant in the Western Ohio Computer Organization (WOCO). WOCO is an association of public school districts within the boundaries of Auglaize, Champaign, Hardin, Logan, Miami, and Shelby Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of WOCO consists of two representatives from each county elected by majority vote of all charter member school districts within each county plus a representative from the fiscal agent school district. During fiscal year 2011, the School District paid \$78,680 to WOCO for various services. Financial information can be obtained from WOCO, 129 East Court Street, Sidney, Ohio 45365.

**21. INSURANCE POOLS**

**A. Schools of Ohio Risk Sharing Authority**

The School District participates in the Schools of Ohio Risk Sharing Authority (SORSA), an insurance purchasing pool established under Section 2744.081 of the Ohio Revised Code. SORSA is an unincorporated nonprofit association of its members which enables the participants to provide for a formalized joint insurance purchasing program for maintaining adequate insurance protection and provides risk management programs and other administrative services. SORSA's business and affairs are conducted by a board consisting of nine superintendents and treasurers, as well as an attorney, accountant, and four representatives from the pool's administrator, Willis Pooling. Willis Pooling is responsible for processing claims and establishes agreements between SORSA and its members. Financial information can be obtained from Willis Pooling, 655 Metro Place South, Dublin, Ohio 43017.

**B. Hardin County School Employees' Health and Welfare Benefit Plan and Trust**

The Hardin County School Employees' Health and Welfare Benefit Plan and Trust (Trust) is a public entity shared risk pool consisting of six school districts, the Hardin County Educational Service Center, and the Ada Public Library. The Trust is organized as a Voluntary Employee Benefit Association under Section 501 (c)(9) of the Internal Revenue Code and provides medical, dental, vision, and life insurance benefits to the employees of the participants. Each participant's superintendent is appointed to an Administrative Committee which advises the Trustee, Ohio Bank, concerning aspects of the administration of the Trust.

Each participant decides which plans offered by the Administrative Committee will be extended to its employees. Participation in the Trust is by written application subject to acceptance by the Administrative Committee and payment of the monthly premiums. Financial information can be obtained from Rick Combs, who serves as Director, 9525 T.R. 50, Dola, Ohio 45835.

**C. Ohio Association of School Business Officials Workers' Compensation Group Rating Plan**

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio Association of School Business Officials (OASBO) Workers' Compensation Group Rating Plan (Plan) was established through the Ohio Association of School Business Officials as an insurance purchasing pool. The Plan's business and affairs are conducted by the five member OASBO Board of Directors. Each year, the participants pay an enrollment fee to the Plan to cover the costs of administering the program.

**22. CONTINGENCIES**

**A. Grants**

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2011.

**22. CONTINGENCIES (Continued)**

**B. Litigation**

There are currently no matters in litigation with the School District as defendant.

**23. SUBSEQUENT EVENT**

On November 8, 2011, the voters of the School District approved a bond levy to construct a PreK to 6th grade elementary school. The construction will be funded under the classroom facilities assistance program through the Ohio School Facilities commission and the locally funded initiatives (which consist of site improvements and furnishing and equipping the facility). The School District's share of the project is \$13,605,000 to be repaid over a maximum of twenty-eight years. The County Auditor estimated the average millage over the repayment period of the bond issue to be 4.35 mills for each one dollar of tax valuation. This amounts to \$0.435 for each one hundred dollars of tax valuation.

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

**NOTE A - SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the Kenton City School District (the District) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

**NOTE B - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on the Schedule, The District assumes it expends federal monies first.

**NOTE C – FOOD DONATION PROGRAM**

Program regulations do not require the School District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance is reported in the Schedule at the entitlement value of the commodities received and consumed. The entitlement value reported in the Schedule is determined using the Commodity Allocation Tracking System (CATS).

**NOTE D – MATCHING REQUIREMENTS**

Certain Federal programs require that the District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The expenditure of non-Federal matching funds is not included on the Schedule.

## INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Kenton City School District  
Hardin County  
222 West Carrol Street  
Kenton, Ohio 43326

To the Board of Education:

We have audited the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Kenton City School District, Hardin County (the School District), as of and for the fiscal year ended June 30, 2011, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 10, 2012 wherein we note the District adopted the provision of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the School District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the School District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note a certain matter not requiring inclusion in this report that we reported to the School District's management in a separate letter dated February 10, 2012.

We intend this report solely for the information and use of the management, Board of Education, federal awarding agencies and pass-through entities. We intend it for no one other than these specified parties.

To the Board of Education:

### Compliance

We have audited the compliance of the Kenton City School District (the School District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Kenton City School District's major federal programs for the fiscal year ended June 30, 2011. The *summary of auditor's results* section of the accompanying schedule of findings identifies the School District's major federal programs. The School District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to opine on the School District's compliance based on our audit.

Our compliance audit followed auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the School District's compliance with these requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with these requirements.

In our opinion, the Kenton City School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the fiscal year ended June 30, 2011.

### Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

**Internal Control Over Compliance  
(Continued)**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We noted a matter involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the School District's management in a separate letter dated February 10, 2012.

We intend this report solely for the information and use of the management, Board of Education, others within the School District, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

## Independent Accountants' Report on Applying Agreed-Upon Procedure

Kenton City School District  
Hardin County  
222 West Carrol Street  
Kenton, Ohio 43326

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedure enumerated below, which was agreed to by the Board, solely to assist the Board in evaluating whether Kenton City School District, Hardin County, (the School District), has updated its anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedure engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of this procedure is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedure described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board amended its anti-harassment policy at its meeting on April 18, 2011, to include violence within a dating relationship within its definition of harassment, intimidation or bullying.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.
