**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FOR THE YEAR ENDED JUNE 30, 2013**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the North Ridgeville City School District's (the District) federal award programs' receipts and disbursements. The schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C- FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE D - MEDICAID ASSISTANCE PROGRAM

The District received a total settlement of Medicaid Assistance Program receipts of \$9,611 during the fiscal year. The amount reported as total receipts on the Schedule represents amounts related to settlements for Community Alternative Funding System (CAFS) services provided during prior years. Consequently, the expenditures reflected for fiscal year 2013 are \$9,611.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

North Ridgeville City School District
Lorain County
5490 Mills Creek Lane
North Ridgeville, Ohio 44039

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the North Ridgeville City School District, Lorain County, (the District) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 20, 2013. Our report refers to other auditors who audited the financial statements of the Joint Insurance Health Plan Trust for the Benefit of North Ridgeville City School District Employees, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that those auditors separately reported.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133 AND THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES

North Ridgeville City School District
Lorain County
5490 Mills Creek Lane
North Ridgeville, Ohio 44039

To the Board of Education:

Report on Compliance for The Major Federal Program

We have audited the North Ridgeville City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the District's major federal program for the year ended June 30, 2013. The *Summary of Audit Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the North Ridgeville City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2013.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Report on the Schedule of Federal Awards Receipts and Expenditures

We have also audited the financial statements of the governmental activities, the major fund and the aggregate remaining fund information of the North Ridgeville City School District (the District) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated November 20, 2013. Our report refers to other auditors who audited the financial statements of the Joint Insurance Health Plan Trust for the Benefit of North Ridgeville City School District Employees, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that those auditors separately reported. We conducted our audit to opine on the District's basic financial statements. The accompanying schedule of federal awards receipts and expenditures presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Independent Auditor's Report on Applying Agreed-Upon Procedure

North Ridgeville City School District
Lorain County
5490 Mills Creek Lane
North Ridgeville, Ohio 44039

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedure enumerated below, which was agreed to by the Board, solely to assist the Board in evaluating whether the North Ridgeville City School District (the District) has updated its anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedure engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of this procedure is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedure described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board amended its anti-harassment policy at its meeting on February 19, 2013 to include prohibiting harassment, intimidation, or bullying of any student "on a school bus" or by an "electronic act";.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.

“Building On Success One Individual At A Time”

November 20, 2013

Members of the Board of Education
Residents of North Ridgeville:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the North Ridgeville City School District for the fiscal year ended June 30, 2013. Responsibility for the accuracy of the data presented and completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the School District. This report will provide the taxpayers of the North Ridgeville City School District with comprehensive financial data in a format that will enable them to gain an understanding of the School District's financial affairs. Copies will be made available to the North Ridgeville Public Library, major taxpayers, financial rating services, local bankers and other interested parties.

SCHOOL DISTRICT

The School District is one of the 612 public school districts in the State and 14 in the County. We provide education to 3,964 students in grades Pre-K through 12. It is located in Lorain County in north central Ohio, approximately 20 miles southwest of the City of Cleveland and approximately ten miles southeast of the City of Lorain. The School District's territory is coterminous with the territory of the city.

The School District is in the Cleveland-Elyria-Lorain Primary Metropolitan Statistical Area (PMSA), comprised of the six counties of Ashtabula, Cuyahoga, Geauga, Lake, Lorain and Medina. It is also in the Cleveland-Akron-Lorain Consolidated Metropolitan Statistical Area (CMSA).

The School District's 2013 population was 30,571. Its area is approximately 25 square miles, broken down by land use as follows:

Residential	85.74%
Commercial/Industrial	11.83%
Public Utility	01.78%
Agricultural	00.65%
Undeveloped	(a)

(a) Included in above categories.

Approximately 35.7% of the School District's area is used for governmental (including schools, parks and highway right-of ways) and other tax-exempt purposes.

The School District's general area is served by diversified transportation facilities. Immediate access is available to three State and U.S. highways and to interstate highways I-480, I-90 and I-80 (the James W. Shocknessy Ohio Turnpike). Conrail, Amtrak, Norfolk and Western, Chessie System and Lorain and West Virginia railroads serve the County. Airfreight and passenger air service are provided through

Cleveland Hopkins International Airport, located in adjacent Cuyahoga County within 15 minutes of the School District, and the Lorain County Regional Airport in New Russia Township.

Banking and financial services are provided to the area by offices of six commercial banks and savings and loan associations, all of which have their principal offices elsewhere.

Three daily newspapers and two weekly newspapers serve the area. It is within the broadcast area of seven television stations and approximately 31 AM and FM radio stations. Multi-channel cable TV provides service to education, city government and public access.

Within commuting distance are several public and private two-year and four-year colleges and universities providing a wide range of educational facilities and opportunities. These include Cleveland State University, The University of Akron and Kent State University (three of Ohio's twelve state universities), Lorain County Community College, Cuyahoga Community College, Oberlin College (located in the County), Baldwin-Wallace University, John Carroll University and Case Western Reserve University. The Lorain Business College also is located in the County.

THE REPORTING ENTITY

The North Ridgeville City School District issues its financial report based on Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity." The School District is associated with various educational organizations and government entities within Lorain County that may be construed as being part of the School District's financial reporting when in fact they are not. For this reason, management has decided to differentiate between the organizations whose financial position will be incorporated within this report and the organizations that will not.

Excluded from this report for which the School District is not a member, but may be viewed as a member, are the City of North Ridgeville, the Lorain County Public Library, and the various Parent Teacher Organizations. Also excluded from this report for which the School District is a member are the North Coast Council, the Lake Erie Regional Council, the Lorain County Joint Vocational School, the North Ridgeville City Schools' Endowment Foundation, the Ohio School Boards Association, and the Ohio Schools Council.

Included in the financial reporting of this report is the Joint Insurance Health Plan Trust for the Benefit of North Ridgeville City School District Employees (the Trust). The Trust is legally separate from the School District, but meets the criteria for being a component unit of the School District's financials. More detail is described in Note 1 of the financial statements.

ECONOMIC CONDITION AND OUTLOOK

The School District is a mix of residential and agricultural area. Despite the economic downturn in the housing market, the School District is still experiencing growth in residential development. The adjacent cities of Westlake and North Olmsted are nearing full commercial and residential development. North Ridgeville has direct access to the cities of Cleveland, Lorain and Elyria and other Midwest locations using a combination of interstates I-80, I-90, I-480 and State Route 10. These routes also make it easy for residents to commute daily to work in the cities of Lorain, Avon Lake and other areas in Lorain County and adjacent Cuyahoga County, including the City of Cleveland.

Residential development has been significant in recent years and is expected to continue at a slower pace. Approximately 325 new homes and other single-family residences were constructed in the City in 2012. In various stages of planning and construction are community developments throughout the City: Waterbury and Del Webb, a 640-acre development to include approximately 2,000 residential units of which 1,174 units have been completed; and Meadow Lakes, a 570-acre development to include approximately 1,900 residential units of which 994 units have been completed.

Other developments include Avalon, an 80-acre subdivision to include 184 residential units, which is about ninety five percent completed. Windsor Point subdivision which is to include 282 residential units is 73% completed. Stone Creek subdivision will include 162 residential units of which 161 units have been completed. Ridgefield Homes, an approximate 1,000 home development that began in the mid 1990's is about 66% completed.

There are also a number of newer subdivisions being developed throughout the City which include North Ridge Point which is to include 376 residential units of which none have been completed, Timber Ridge which is to include 278 residential units of which thirty one have been completed and Hampton Place which is to include 224 residential units of which thirty three have been completed.

The estimated value of new residential building permits that were issued in calendar year 2012 were \$ 29,401,600 compared to calendar year 2011 which were \$ 23,692,091 and calendar year 2010 which were \$ 29,876,000.

The School District is also experiencing new commercial, retail and light industrial and warehousing development. Five separate industrial parks are under development in the City of North Ridgeville. The largest of these is Taylor Woods Industrial Park, which is home to the facilities of Invacare Corporation (manufacturer of wheelchairs), Becket Gas, Incorporated (a manufacturer of gas burners) and Becket Air, Incorporated (a manufacturer of blower wheels). Another of these, Root Road Industrial Park, consisting of 13 acres began development in 2002. In 2012, building permits were issued for commercial buildings and improvements with an estimated value of \$2,045,000.

Even though the School District is experiencing economic development in the area of real estate, it does not necessarily mean that the School District is experiencing revenue increases proportionately to the real estate development. Unfortunately, current state law prohibits school districts in Ohio from receiving additional tax revenue when the County Auditor reevaluates property values. In 1976, the Ohio General Assembly passed House Bill 920. This law requires the tax rate to be lowered by the same percentage property values are increased by the County Auditor's reevaluation. In calendar year 2012, North Ridgeville City Schools levied 51.90 mills of taxes to fund its operations. House Bill 920 lowered those mills to 40.12 mills for residential and agricultural properties and 38.22 mills for commercial and industrial properties.

In essence, House Bill 920 removes inflationary growth in revenue and requires school districts in Ohio to periodically place tax issues on the ballot for voter approval in order to receive additional revenue to offset rising costs.

MAJOR INITIATIVES – FISCAL YEAR 2013

The School District's *Strategic Continuous Improvement Plan* remains the driving force behind academic success and expanded student services. This plan, in connection with our budgeting process, has resulted in a systematic improvement in both the short and long term in the areas of Curriculum and Instruction, Business Services (Facilities and Transportation), Finance, and Communications and Marketing. Please visit our School District's website at www.nrcs.k12.oh.us to take a detailed look at our Strategic Continuous Improvement Plan. The following is a brief list, by goal area, of the School District's main accomplishments during the past fiscal year:

Curriculum and Instruction

- The 2012-2013 State Report Cards have undergone a significant change over prior years as districts and buildings no longer awarded cumulative ratings as in the past. Despite this change, the district continues to score well in most areas. The 2012-2013 report card has the district meeting 23 of 24 possible indicators (95.8%). The district's performance index score continued its upward trend reaching 100.7 out of a possible 120 points (83.9%). A new category, Annual Measurable Objectives (AMO's), which measures the progress of subgroups debuted on the 2012-2013 report card. As a district, we received a 75.2% which is recorded as a "C". The new calculation for the graduation rate as a cohort has provided the district with a challenge as we strive to track and monitor cohorts of students. The district's four year graduation rate sits at 83.5%.
- North Ridgeville High School met 10 out of a possible 10 indicators on the 2012-2013 report card. The High School's performance index reached 102.7 points. Wilcox Elementary School posted a performance index of 101.0 points while meeting 7 out of 7 achievement indicators. Liberty Elementary met 5 of their 7 indicators with a performance indicator of 99.2 points. The Middle School met 6 of 7 indicators and had a performance indicator score of 99.8 points. Next year's report card will look different for two significant reasons, first, the district has restructured Liberty and Wilcox so Liberty is servicing all of the districts second and third grade students while Wilcox becomes home

to our fourth and fifth graders. A second significant change in the report card will come as the state continues to add additional measures.

- With the support, services and partnership of the State Support Team, Region 2 and the Regional School Improvement Team, our District continued its work as the first cohort of sixteen Districts throughout the State to have received a State Personnel Development Grant (SPDG). This provided funds and high level support to our District to continue participation in an innovative process for strategic planning entitled the Ohio Improvement Plan. This planning process has allowed the district to participate in a focused goal setting process. The district has identified three goal areas based on the review of district achievement data. These limited number of goals, and limited number of strategies for each goal, have allowed for concentrated focus on the core work that needs to be done to improve student performance. The importance of aligning district work with district goals for instruction and achievement that are collaboratively developed and stable/sustainable over an extended period of time has been evident to this work and is what we attribute our success to as a district. We have also developed one plan with all the building plans aligned to these district goals. This has provided an unprecedented focus on clear curricular and instructional goals for the district. This also shows the Importance of internal accountability, which holds all adults in the system accountable for implementing evidence-based practices to improve teaching and learning.
- The District has focused these curriculum and instructional goals and professional development efforts on the Cycle of Curriculum, Instruction, Assessment and Feedback. Teachers developed and used priority indicators and clear learning targets, matched these to high quality instructional practices, created strong formative and benchmark assessments, and then used the data from assessment to provide feedback to instruction and student performance. Formative Assessment and Data Teams worked diligently in each building, grade level, and department to focus this CIAF cycle. The teams were facilitated by building principals, team leaders and the Director of Curriculum and Instruction. Each group reviewed Ohio Achievement and Graduation Test data using this information to identify our priority indicators and learning targets for each of our Academic Content Standards in English/Language Arts, Math, Science, and Social Studies. The teams continue to work as Teacher Based Teams focused on this cycle of aligning and focusing curriculum, high quality instructional practices, assessment for learning and providing clear feedback to students and instructional practices.
- The District put into place curriculum teams that began to study and develop strong calendar based curriculum maps based upon the New Common Core Standards in English Language Arts and Mathematics. The district also began a curriculum team that started the same process in Science with the New State Science Standards. These teams developed an implementation plan that rolls in these new state standards over a four year process. The goal is to role the standards into the district in a fashion that will allow students to be successful in the new state assessment structured that will begin in the 2014-15 school year.
- North Ridgeville City School continued to work in Co-Teaching as started with Dr. Marilyn Friend from the University of North Carolina – Greensboro. Nearly 50 effective Co-Teaching teams are in place throughout the District providing services to students based on Dr. Friend's work. Students with disabilities are being educated in the least-restrictive environment as regular education teachers and intervention specialists work together in the regular classroom as teaching teams. The district has more co-teaching teams in each building than in any prior year.
- We use State Support Team money to continue our work with District Leadership Team, Building Leadership Teams and Teacher Based Teams. The money was used to help provide substitutes for our teachers as they worked to learn and implement Building Leadership teams and the Teacher Based Team processes.
- Revision of our K-2 report cards was completed to reflect the Common Core standards. During this process, teachers K-2 revised their curriculum maps to reflect the new standards and completely redesigned their short cycle assessments for consistent use across grade levels.
- Development, implementation and revision of Standards Based Report Cards in grades 3-5, using the Power Teacher reporting system.

- Continued implementation of our Summer School Program, with services for Kindergarten students, that provides crucial intervention, remediation, and enhancement courses to students in grades K-12. We used the Apex On-line learning program for Summer School in grades 7 through 12. This program had 178 students working in an on-line learning environment to learn and provide intervention so our students had the skills to move forward and be successful in their future learning environments.
- The District has implemented the use of Apex as an on-line program to help students re-cover lost credit. We had 53 students re-cover credits using this program last year. This allowed some students to graduate with their cohort and other students stay in line with their cohort to graduate on-time as they work to re-cover credit they have lost due to being unsuccessful in the course prior to the Apex attempt.
- Professional Development has become very focused in the District. The District is concentrated on an aligned, focused curriculum with clear learning targets, providing high quality instructional strategies matched to those targets, assessing learning along the way to benchmarks and providing clear feedback to students, instructional practices and curriculum decisions.
- Completion of our Seventh Annual Mini-Rangers Summer Camp that provided academic and language services for incoming Preschool, Kindergarten, and First Grade students.
- The District currently has teachers in the third year of the four year Resident Educator Program. At present, the district has nearly forty teachers participating in the Resident Educator Program. The program to this point has been a tremendous success.
- The North Ridgeville High School Class of 2012-2013 was awarded a grand total of \$3,184,500 in scholarships. Congratulations graduates!

Finances

- Continue to develop and submit a five-year forecast.
- Continue to spend less per pupil on Administration and more per pupil on instruction than the State or Local Average of similarly sized school districts.
- Issued our twelfth consecutive Comprehensive Annual Financial Report of the School District.
- Received six consecutive "Auditor of State Award with Distinction" which demonstrates our commitment to careful spending, and accurate fiscal recording and efficiency.
- Received a half year collection of \$4,317,030 ten year Emergency Levy passed in November 2012.
- Renewed a \$1,717,171 ten year Emergency Levy in May 2013.
- Continued to enhance the Employee Kiosk software which allows more efficient communication of employees financial and benefit packages.
- Continued to enhance the time clock software that automated and integrated our payroll system.

Business Services (Facilities and Transportation)

- Purchased five 72-passenger conventional school buses.
- Installed cameras on those five new school buses.
- Completed the final phase on repairing and restoring 15 roofs on the high school.
- Major wall construction and demolition was completed at Liberty Elementary School in order to increase usable office space and create two new classrooms in other parts of the building.
- A new maintenance truck was purchased for NRCS.
- Repairs were made to the air conditioning at the high school, middle school, and the Education Center.
- Purchased two new zero-turn lawn mowers for the maintenance of school lawns
- Major repairs were made to the football field which sustained heavy damage due to an unusually wet fall last year.
- Gymnasium floors at the Middle School and High School were stripped, sanded and refinished.
- Ranger Academy was created at North Ridgeville High School that required a set of double doors being installed in a hallway, 30 student desks to be built, a man-door to be installed into a concrete wall, and a remote door-entry system to be installed on an exterior door.

Communication and Marketing

- Involve and engage the community and staff in the education planning process through the Strategic Continuous Improvement Plan.
- Expand on informing residents through:
 - Community forums/ Levy Chats with local organizations and homeowners' associations
 - Superintendent Office Hours
 - Annual participation in the three-day North Ridgeville Corn Festival
- Continue to submit news articles, pictures, and press releases to the local media on an ongoing basis.
- Continue to expand and update the district website for internal and external communication for an informed and engaged community. The district website includes district and building news items, photos of classroom and school activities, calendar of events, Board of Education meeting minutes, staff directory and teacher webpages.
- Expand on the weekly e-communication to include district and financial information.
- Continue to expand the offerings on local cable station, Channel 95, to include concerts, slideshows and videos of classroom and school activities, and the State of the Schools Address.
- Mail a district newsletter to all North Ridgeville residents with current district news and financial information.
- Continue to work with business leaders, service organizations, and the Chamber of Commerce to foster partnerships. Examples include local business and community leaders offering internships and presenting job interviewing skills to our High School students; and, participation in our annual Middle School 8th Grade Career Day.
- Continue to build upon the parent involvement programs at all of the buildings.
- Implement a district presence on Twitter and Facebook. Use these forums to communicate with both parents and non-parents and answer community questions.

Long Term and Capital Planning

The School District continues the process of seeking State assistance in long-term facilities planning. The School District has enjoyed success in the passage of three renewal levies and an additional \$5,900,000 ten-year Emergency Levy. However, in order to sustain the current level of operations, the School District must secure additional long term funds to meet the increased demands of enrollment growth and the increased costs of compliance with State and Federal regulations. In fiscal year 2006, the School District acquired two properties next to Wilcox and the High School to create a central campus that will eventually house students in preschool to twelve. Currently the School District is evaluating the process of securing the funding necessary to build a central campus setting to update the areas of Academics, Finances, Business Services (Facilities and Transportation), and Communication and Marketing.

The final result of the process will be an approved list of long term and capital planning projects that will serve as the basis for future budget allocations and levy requests.

FINANCIAL OVERVIEW

Internal Controls

The School District's management is responsible for establishing and maintaining the internal control policies and procedures to ensure the safeguarding of the School District's assets from loss, theft and misuse. These procedures are established by the School District's management team and adopted by the Board of Education. These controls are designed to provide reasonable assurance, not absolute assurance. Absolute assurance would require the cost of these internal controls to be greater than the benefits derived. The possibility is also inherent in any internal control to be circumvented through collusion among employees.

Budget Process

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the

amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on the expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds.

Accounting System

The School District maintains its accounts in accordance with procedures established by the Auditor of the State of Ohio. The School District uses a fully automated accounting system. The accounting system's software is maintained off site at the North Coast Council.

The School District prepares its annual financial statements under the reporting model required by Government Accounting Standards Board Statement No. 34 (GASB 34), "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments". Under GASB 34, the basic financial statements consist of:

Government-wide financial statements – These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

Fund financial statements – These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation of the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparison – These statements present comparison of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

For a more detailed description, see the Management's Discussion and Analysis and the notes to the Basic Financial Statements.

DEBT ADMINISTRATION

The School District operated within the established overall debt margin and the un-voted debt margin. At June 30, 2013, outstanding bonds totaled \$ 1,275,000. Net debt retired was \$ 315,000 General Obligation Bonds. As of June 30, 2013, the overall debt margin was \$ 60,224,000 and the un-voted debt margin was \$ 680,000.

CASH MANAGEMENT

The School District adheres to regulations set forth in the Ohio Revised Code to ensure the safety of its investments.

All the School District's cash is pooled for investment purposes in order to maximize yield while protecting principal. The School District's investment policy is the vehicle utilized for investment decisions. In the decision making process, the School District investment objectives are to preserve principal, obtain liquidity, maximize income and minimize cost for investment services.

Protection for these investments is primarily provided by the Federal Deposit Insurance Corporation (FDIC) and by the eligible securities pledged by the financial institution and by the single collateral pool established by the financial institution.

The investment policy and the financial needs of the School District are accomplished through its investments in Certificates of Deposit, Repurchase Agreements, Government Securities, the State Treasurer Investment Pool (STAR Ohio and Star Plus) and sweep checking accounts.

RISK MANAGEMENT

The School District is exposed to various risks of loss. To control these various risks, property, inland marine, liability, automobile and excess liability insurance was purchased from Love Insurance Agency through the Ohio School Plan. The School District also purchases a surety bond for the Treasurer with

Westfield Insurance Company. The School District participates in the Ohio School Board Association Workers' Compensation Group Rating Program for injuries to employees while performing their daily job duties. Additional information on the School District's Risk Management can be found in Note 11 of the notes to the basic financial statements.

INDEPENDENT AUDIT

State Statutes require the School District to be subject to an annual examination by an independent auditor. The annual audit serves to render an opinion on the financial statements and to maintain and strengthen the School District's accounting and budgeting controls. The opinion can be found at the beginning of the financial section of this report.

AWARD

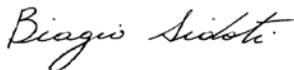

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the North Ridgeville City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2012. This was the twelfth consecutive year that the School District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

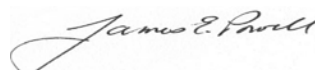

ACKNOWLEDGEMENTS

The continued publication of this report is a significant step towards improving the professionalism of the North Ridgeville City School District financial communication. The preparation of this report could not have been accomplished without the efficient and dedicated help of the Treasurer's Office. The Comprehensive Annual Financial Report requires a major effort and special appreciation is extended to all internal departments who assisted in the preparation of this report. A sincere appreciation is also extended to the Board of Education for their continued support in issuing North Ridgeville City School District's Comprehensive Annual Financial Report.

INDEPENDENT AUDITOR'S REPORT

North Ridgeville City School District
Lorain County
5490 Mills Creek Lane
North Ridgeville, Ohio 44039

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the North Ridgeville City School District, Lorain County, Ohio (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of the Joint Insurance Health Plan Trust for the Benefit of North Ridgeville City School District Employees, which represent 1.51 percent, .72 percent, and 11.29 percent, respectively, of the assets, net position, and revenues of the governmental activities. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amount included for the Joint Insurance Health Plan Trust for the Benefit of North Ridgeville City School District Employees, is based solely on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the North Ridgeville City School District, Lorain County, Ohio, as of June 30, 2013, and the respective changes in financial position and where applicable, cash flows, thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2013, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE YEAR ENDED JUNE 30, 2013

Unaudited

The management discussion and analysis of North Ridgeville City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2013. The intent of this management discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the transmittal letter, financial statements and notes to those respective statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2013 are as follows:

- In total, net position of governmental activities increased \$ 3,642,507 which represents a 25.8% increase from 2012.
- General revenues accounted for \$ 34,912,130 in revenue or 89.1% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$ 4,259,316 or 10.9% of total revenues of \$ 39,171,446.
- The School District had \$ 35,528,939 in expenses related to governmental activities; only \$ 4,259,316 of these expenses were offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) amounted to \$ 34,912,130. Total revenues were \$ 3,642,507 more than total expenses.
- The School District's major governmental fund is the General Fund. The General Fund had \$ 34,163,441 in revenues and \$ 30,253,979 in expenditures and other financing uses. During fiscal 2013, the General Fund's fund balance increased \$ 3,909,462 from a balance of \$ 242,173 to \$ 4,151,635.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes pertaining to those statements. These statements are organized so the reader can understand North Ridgeville City School District as a financial whole, or complete operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate and longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements explain how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of North Ridgeville City School District, the General Fund is the most significant.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains all the funds used by the School District to provide programs and activities, the view of the School District as a whole considers all financial transactions and asks the question, "How did we do financially during 2013?" The Statement of Net Position and Statement of Activities answer this question. These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting, similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in that position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's performance, demographic and socioeconomic factors and willingness of the community to support the School District. On the other hand, financial factors may include the School District's financial position, liquidity and solvency, fiscal capacity and risk and exposure.

The Statement of Net Position and the Statement of Activities include the School District's programs and services, including instruction, support services, operation and maintenance, pupil transportation, food service operation and extracurricular activities.

These government-wide financial statements include not only the School District itself (known as the primary government), but also its blended component unit "Joint Insurance Health Plan Trust for the Benefit of North Ridgeville City School District Employees (the Trust)". Complete financial information for the Trust may be obtained by contacting the Plan Administrator at 10045 College Park, Concord, Ohio 44060.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major fund begins on page 17. Fund financial statements provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental fund is the General Fund.

Governmental Funds

All of the School District's activities are reported as governmental funds, which focus on how money flows into and out of these funds and the balances left at year-end that are available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Governmental Activities

Net position of the School District's governmental activities increased \$ 3,642,507. The increase in net position is primarily the result of the passage of an additional Emergency Levy. Collections of this additional tax began in January 2012, with the full collection reflected in fiscal year ended June 30, 2013. Total governmental expenses of \$ 35,528,939 were offset by program revenues of \$ 4,259,316 and general revenues of \$ 34,912,130. Program revenues supported 10.9% of the total governmental expenses.

The primary sources of revenue for governmental activities are derived from property taxes, and grants and entitlements. These revenue sources represent 92.6% of total governmental revenue. Property tax revenue increased by \$ 976,928, unrestricted grants and entitlements revenue increased by \$ 562,559, while miscellaneous revenue and interest income decreased by \$ 319,851 and \$ 6,248, respectively.

The largest expense of the School District is for instructional programs. Instruction expenses totaled \$ 20,552,292 or 57.9% of total governmental expenses for fiscal 2013.

By comparing assets and deferred outflows and liabilities and deferred inflows, one can see that the overall position of the School District reflects an increase in net position of \$ 3,642,507.

Table 2 summarizes the revenues, expenses and the changes in net position for fiscal year 2013 and 2012.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE YEAR ENDED JUNE 30, 2013

Unaudited

57.9 percent of the School District's budget is used to fund instructional expenses. Additional supporting services for pupils, staff and business operations encompass an additional 34.9 percent. The remaining program expenses of 7.2 percent are budgeted to facilitate other obligations of the School District, such as the food service program, numerous extracurricular activities and debt service.

The Statement of Activities shows the total and net cost of program services. Table 3 shows the total cost of services for governmental activities and the net cost of those services. It identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

The reliance upon local tax revenues for governmental activities is crucial. Approximately 61.4 percent of expenses are directly supported by local property taxes. Grants and entitlements not restricted to specific programs support 34.3 percent, while investments and other miscellaneous type revenues support the remaining activity costs of 2.5 percent. Program revenues fund only 12.0 percent of all governmental expenses.

Clearly, the North Ridgeville community is by far the greatest source of financial support for the students of the North Ridgeville City Schools.

School District Funds

Information regarding the School District's major funds can be found on page 17. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$ 38,465,856, excluding other sources, and expenditures of \$ 35,280,536, excluding other uses. The net changes in fund balances for the year were as follows: General Fund \$ 3,909,462 and Other Governmental Funds (\$ 724,142).

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant fund to be budgeted is the main operating fund of the School District, the General Fund.

During the course of fiscal year 2013, the School District amended its General Fund budget twice. Original budgeted receipts for the General Fund were \$ 24,614,738 and final budgeted receipts, excluding other sources, were \$ 24,857,336. Actual receipts, excluding other sources, were \$ 24,857,537 which were \$ 201 more than final budgeted estimated receipts. Original appropriations were \$ 25,071,978 and final appropriations, excluding other uses, were \$ 23,923,630. Actual expenditures, excluding other uses, were \$ 23,782,486 which were \$ 141,144 less than final appropriations.

Fluctuations among the budget basis expenditures categories are due to the School District's site-based style of budgeting that is designed to tightly control expenditures but provide flexibility for managers to redirect funds as conditions develop during the year.

The above circumstances allowed the School District to end the school year with a General Fund unencumbered cash balance of \$ 3,795,799 which was \$ 3,246,644 more than original projections.

Capital Assets and Debt Administration

Capital Assets

All capital assets, except land, are reported net of depreciation. At the end of fiscal 2013, the School District had \$ 13,091,714 invested in land, buildings, equipment and vehicles. Table 4 shows fiscal 2013 values compared to 2012.

Table 4

Total capital assets	<u>\$ 13,091,714</u>	<u>\$ 13,074,279</u>

During fiscal 2013, the School District purchased \$ 892,282 of capital assets and recorded depreciation expense of \$ 775,408. More detailed information is presented in Note 9 of the notes to the basic financial statements.

Debt

At June 30, 2013 the School District had \$ 1,275,000 in outstanding bonds. Proceeds from the bonds were used to renovate the Education Center and construct an addition to the High School. The bonds are to be repaid in annual payments of interest and principal through fiscal year 2017.

The School District's overall legal debt margin was \$ 60,223,896 with an unvoted debt margin of \$ 679,673.

More detailed information is presented in Notes 15 and 16 of the notes to the basic financial statements.

School District Outlook

The Board of Education and the administration closely monitor the School District's revenues and expenditures in accordance with its financial forecast and the School District's Continuous Improvement Plan.

The School District's financial future is not without challenges, though. The nature of school funding in Ohio severely restricts the growth in the School District's operating revenues and requires the School District to periodically seek additional funds from the taxpayers to offset rising operating costs. The North Ridgeville voters continue to show their support for the schools as illustrated with the passage of renewal levies and the most recent passage of a \$ 5,900,000 additional Emergency Levy that began collection in January 2013 with full collection reflected in fiscal year ended June 30, 2014.

In addition, school districts are faced with the challenge of losing traditional sources of tax revenue through the Ohio General Assembly legislative actions. In June, 2006 the State of Ohio enacted legislation, portions of which take effect at various times, that phases out the taxation of tangible personal property used in business over a four year period which is from tax year 2007 to tax year 2011. To compensate local government units for the foregone revenue, the enacted legislation provides for State distributions from revenue generated by the enacted commercial activities tax. In a more recent enacted legislation, the revenue distribution that was enacted by commercial activities tax has been eliminated in a two year phase out period in the amount of \$599,172 in fiscal year 2012 and \$276,354 in fiscal year 2013.

Financial aid from the State of Ohio through the State Foundation Program continues to be at a level below what was received in fiscal year 2008 while experiencing increased enrollment. Because North Ridgeville City Schools is considered a wealthy school district in terms of property values, it receives a relatively small amount of revenue from the State to fund operating expenses.

As a result of the challenges mentioned above, the School District's administration continues to carefully and prudently plan its expenditures to provide adequate resources to meet student needs over the next several years. The administration continues to review all programs and services provided to students with the goal of maximizing efficiency and effectiveness. In March of 2012 the Board of Education implemented another cost reduction effective with the fiscal year beginning July 1, 2012 which included the following reductions:

1. Reduced staff.
2. Continue to implement a salary freeze.
3. Continue to reduce support staff overtime costs and reduce staff hours.
4. Continue to reduce professional development and staff training opportunities.
5. Continue to reduce certified supplemental contract.
6. Implement pay to participate fee.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2013

Net change in fund balances - total governmental funds \$ 3,185,320

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their useful lives and reported as depreciation expense. This is the amount by which net capital outlay exceeded depreciation in the current period.

	Capital outlay, net	\$ 792,843		
	Depreciation expense	<u>(775,408)</u>		17,435

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

	Property taxes			73,900
--	----------------	--	--	--------

Repayment of bond and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

388,654

Accrued interest expense in the statement of activities does not require the use of current financial resources and, therefore, is not reported as an expenditure in governmental funds.

	Accrued interest			1,000
--	------------------	--	--	-------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

	Compensated absences			56,085
--	----------------------	--	--	--------

The internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.

57,750

The internal service fund is a component unit of the District and has a different fiscal year-end than the District. This causes timing differences in the amounts recorded as revenue in the component unit and the amount of expenses recorded by the District.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The North Ridgeville City School District (the School District) was established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The School District is a city school district as defined by Section 3311.03 of the Ohio Revised Code. The School District operates under an elected Board of Education consisting of five members and is responsible for providing public education to residents of the School District. Average daily membership on, or as of, October 1, 2012 was 3,964. The School District employs 215 certificated and 221 non-certificated employees.

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, and student related activities of the School District.

Within the School District boundaries, there are various nonpublic schools. Current State legislation provides funding to these nonpublic schools. These monies are received and disbursed by the School District on behalf of the nonpublic schools by the Treasurer of the School District, as directed by the nonpublic schools. These transactions are reported as a governmental activity of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organizations' governing board and, 1) the School District is able to significantly influence the programs or services performed or provide by the organization; or 2) the School District is legally entitled to or can otherwise access the organizations' resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provided financial support to the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes.

Blended component units, although legally separated entities are, in substance, part of the School District's operations and so data from these units are combined with data of the School District. The School District's blended component unit is described below:

Joint Insurance Health Plan Trust for the Benefit of North Ridgeville City School District Employees (the Trust) – Although the Trust is legally separate from the School District, it should be reported as if it were part of the primary government because its sole purpose is to provide benefits to School District employees for hospitalization, medical, dental, vision, and prescription drugs as provided for in the collective bargaining agreements. The School District's participation is disclosed in Note 11 to the financial statements.

Financial information for the Trust's year ended December 31, 2012 is presented in these financial statements as an internal service fund. Complete financial statements for the Trust may be obtained by contacting the Plan Administrator at 10045 College Park, Concord, Ohio 44060.

The School District is associated with the North Coast Council, the Lorain County Joint Vocational School District, and the Ohio School Council Association which are considered to be jointly governed organizations. The School District also participates in a public risk pool managed by the Ohio Schools Boards Association Workers' Compensation Group Rating Program. These organizations and their relationships with the School District are described in more detail in Notes 11 and 20 to these financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. BASIS OF PRESENTATION

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant of the School District's accounting policies.

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

C. FUND ACCOUNTING

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds are those through which governmental functions are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets and deferred outflows of resources are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities and deferred inflows of resources are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources compared to liabilities and deferred inflows of resources is reported as fund balance. The following is the School District's major governmental fund:

General Fund - the general fund is the operating fund of the School District and is used to account for all financial resources, except those required to be accounted for in another fund.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Fund

The proprietary fund focuses on the determination of the changes in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

Internal Service Fund – the internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for the activities of the Trust; a blended component unit of the School District.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency funds account for student activities and unclaimed monies.

D. MEASUREMENT FOCUS

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the Statement of Net Position. The Statement of Activities presents increases (revenues) and decreases (expenses) in total net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources along with current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources along with all liabilities and deferred inflows of resources associated with the operation of this fund are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activity.

E. BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and the fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual bases of accounting arise in the recognition of revenue, the recording of deferred inflows and outflows, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

NORTH RIDGEVILLE CITY SCHOOL DISTRICT
LORAIN COUNTY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. BASIS OF ACCOUNTING (continued)

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 7). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, grants, investment earnings, tuition, and student fees.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes, cafeteria receipts, and unavailable resources. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2013, but which were levied to finance year 2014 operations. Cafeteria receipts represent the positive account balance on student lunch cards as of June 30, 2013, which amounts will be used to purchase lunch in future fiscal years. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Unavailable resources is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable resources includes delinquent property taxes. These amounts are deferred and recognized as inflows of resources in the period the amounts become available.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

F. BUDGETARY PROCESS

All funds, other than the internal service fund and agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds.

NORTH RIDGEVILLE CITY SCHOOL DISTRICT
LORAIN COUNTY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. BUDGETARY PROCESS (continued)

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate that were in effect at the time the final appropriations were passed by the Board of Education, prior to fiscal year-end.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

The internal service fund, a blended component unit, is not under the budgetary authority of the School District.

G. CASH AND INVESTMENTS

Cash received by the School District is deposited in one central bank account with individual fund balance integrity maintained through School District records. Monies for all funds are maintained in this account or temporarily transferred to the State Treasurer's investment pool (STAR Ohio) or other short term investments. Under existing Ohio statutes, interest earnings are allocated to funds based on average monthly cash balances. Interest revenue credited to the General Fund during fiscal year 2013 amounted to \$ 4,945 which includes \$ 235 assigned from other School District Funds.

Except for investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase, investments are reported at fair value, which is based on quoted market prices. Investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase are reported at cost or amortized cost.

The School District has invested in the State Treasury Asset Reserve of Ohio (STAR Ohio) during the year. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2013.

Investments with an original maturity of three months or less at the time of purchase are considered to be cash equivalents.

The Trust documents specifically require the maintenance of an insurance reserve, consisting of cash and investments, to provide a minimum funding level within the Trust to provide for future claims. At December 31, 2012 and 2011 this calculated reserve amount was \$ 896,000 and \$ 883,000, respectively. The Trustees authorized use of this reserve to subsidize Trust expenses with an understanding that the funds would be replenished by increasing employee and School District contributions and changes in benefits provided. This amount is reflected as restricted in the net position section of the Statement of Fund Net Position – Internal Service Fund.

The required balance in the run-out reserve is an amount equal to the incurred but unreported claims liability as calculated by the actuary. The balance in the run-out reserve was calculated to be \$ 332,700 and \$ 348,000 at December 31, 2012 and 2011, respectively. The balance in the run-out reserve at December 31, 2012 and 2011 was fully funded.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

H. RESTRICTED ASSETS

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other government or imposed by enabling legislation.

I. PREPAID ITEMS

Certain payments to vendors reflect costs applicable to future periods and are recorded as prepaid assets in both the government-wide and fund financial statements. These amounts are reflected as an expenditure/expense in the year in which the services are consumed.

J. CAPITAL ASSETS

General capital assets are those assets which are associated with and generally arise from governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$ 1,000 and useful life of more than five years. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, other than land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Asset</u>	<u>Estimated Useful Life</u>
Buildings	50 years
Building improvements	5 - 20 years
Furniture and equipment	5 - 20 years
Vehicles	5 - 10 years

K. INTERFUND BALANCES

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental column of the statement of net position.

L. COMPENSATED ABSENCES

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability is based on an estimate of the amount of accumulated sick leave that will be paid as a termination benefit. The liability includes employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy.

NORTH RIDGEVILLE CITY SCHOOL DISTRICT
LORAIN COUNTY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

L. COMPENSATED ABSENCES (continued)

For governmental fund financial statements, the current portion of unpaid matured compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

M. ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements and all payables and accrued liabilities from proprietary funds are reported on the proprietary fund statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term notes payable and capital leases are recognized as a liability on the governmental fund financial statements when due.

N. NET POSITION

Net position is the residual amount when comparing assets and deferred outflows of resources to liabilities and deferred inflows of resources. The investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. The restricted component of net position is reported when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

NORTH RIDGEVILLE CITY SCHOOL DISTRICT
LORAIN COUNTY
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

O. FUND BALANCE

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education, which policies includes giving the Treasurer the authority to constrain monies for intended purposes.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

P. OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the School District, these revenues are charges for services for the self-insurance program. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of this fund. Revenues and expenses not meeting those definitions are reported as non-operating.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. INTERFUND TRANSACTIONS

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

R. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 – CHANGE IN ACCOUNTING PRINCIPLES

GASB Statement No. 60, "Accounting and Financial Reporting for Service Concession Arrangements". The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011 and have been implemented by the School District. The implementation of GASB Statement No. 60 did not have an effect on the financial statements of the School District.

GASB Statement No. 61, "The Financial Entity: Omnibus; an amendment of GASB Statements No. 14 and No. 34". This Statement modifies existing requirements for the assessment of potential component units in determining what should be included in the financial reporting entity, the display of component units (blending vs. discrete presentation, and certain disclosure requirements. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2012. The implementation of GASB Statement No. 61 did not have an effect on the financial statements of the School District.

GASB Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements". The objective of this Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the FASB and AICPA pronouncements which does not conflict with or contradict GASB pronouncements. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011 and have been implemented by the School District. The implementation of GASB Statement No. 62 did not have an effect on the financial statements of the School District.

GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position". This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011 and have been implemented by the School District. The implementation of GASB Statement No. 63 did have an effect on the presentation of the financial statements of the School District, however the implementation did not require any restatements of beginning balances.

GASB Statement No. 64, "Derivative Instruments: Application of Hedge Accounting Termination Provisions". The objective of this Statement is to clarify whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty's credit support provider. This Statement sets forth criteria that establish when the effective hedging relationship continues and hedge accounting should continue to be applied. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2011 and have been implemented by the School District. The implementation of GASB Statement No. 64 did not have an effect on the financial statements of the School District.

GASB Statement Number 65, "Items Previously Reported as Assets and Liabilities." This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012 and have been implemented by the School District. The implementation of GASB Statement No. 65 did have an effect on the presentation of the financial statements of the School District, however the implementation did not require any restatements of beginning balances.

NOTE 3 – COMPLIANCE AND ACCOUNTABILITY

Not apparent in the basic financial statements is a deficit fund balance of \$ 794,048 in the Capital Projects Fund. This deficit fund balance results from adjustments for accrued liabilities. The General Fund is liable for any deficit in the fund and provides transfers when cash is required, not when accruals occur.

NOTE 4 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances – Budget Basis (Non-GAAP) and Actual presented for the General Fund and Emergency Levy Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis statements are the following:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

NOTE 4 - BUDGETARY BASIS OF ACCOUNTING (continued)

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

Net Change in Fund Balance	
	General Fund
Budget basis	\$ 2,789,404
Adjustments, increase (decrease)	
Revenue accruals	(1,982,155)
Expenditure accruals	2,439,680
Funds budgeted elsewhere **	244,602
Encumbrances	417,931
GAAP basis, as reported	\$ 3,909,462

** As part of Governmental Accounting Standards Board Statement No. 54, "Fund Balance Reporting", certain funds that are legally budgeted in separate special revenue funds are considered part of the General Fund on a GAAP basis. This includes the Special Projects Fund, Emergency Levy Fund, Support Fund, Uniform School Supplies Fund, Adult Education Fund, and the Summer School Fund.

NOTE 5 - FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on a fund for the major governmental funds and all other governmental funds are presented below:

Fund balances	General Fund	Nonmajor Governmental Funds	Total
Restricted for:

NOTE 6 - DEPOSITS AND INVESTMENTS

A. LEGAL REQUIREMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;

NOTE 6 - DEPOSITS AND INVESTMENTS(continued)

A. LEGAL REQUIREMENTS (continued)

6. The State Treasurer's investment pool (STAR Ohio);
7. Commercial paper and bankers' acceptances (if authorized by the Board of Education), and
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

At fiscal year end, the School District had \$ 4,020 in cash on hand which is included on the balance sheet of the School District as part of "Equity in Pooled Cash".

B. DEPOSITS

Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned. The School District does not have a deposit policy for custodial credit risk. At fiscal year end, the carrying amount of the School District's deposits was \$ 5,417,307 and the bank balance was \$ 5,891,324. Of the bank balance, \$ 290,135 was covered by federal depository insurance and \$ 5,601,189 was uninsured. Of the remaining balance, \$ 5,601,189 was collateralized with securities held by the pledging institution's trust department not in the School District's name. Although the securities were held by the pledging financial institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

At December 31, 2012, the fiscal year end of the Trust, the School District's component unit, the carrying amount of the Trust's deposits was \$ 375,514 and the bank balance was the same, all of which was covered by Federal depository insurance or by collateral held by a qualified third party trustee in the name of the Trust.

C. INVESTMENTS

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2013, the School District had the following investments:

	Maturities	Fair Value
STAR Ohio	n/a	\$ 219,594

The following table presents investments at December 31, 2012 of the Trust, the School District's component unit:

Fannie Mae	
.900% due 10/25/2017	49,946
Total U.S. Government Agency	202,653
Total investments	\$ 303,014

D. INTEREST RATE RISK

The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date.

E. CREDIT RISK

The School District follows the Ohio Revised Code that limits its investment choices (see Note 6 A). The School District has no investment policy that would further limit its investment choices. As of June 30, 2013, the School District's investment STAR Ohio was rated AAAM by Standard & Poor's.

F. CONCENTRATION OF CREDIT RISK

The School District places no limit on the amount that may be invested in any one issuer.

NOTE 7 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar 2013 represents collections of calendar year 2012 taxes. Real property taxes received in calendar year 2013 were levied after April 1, 2012, on the assessed value listed as of January 1, 2012, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2013 represents collections of calendar year 2012 taxes. Public utility real and tangible personal property taxes received in calendar year 2013 became a lien December 31, 2011, were levied after April 1, 2012 and are collected in 2013 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property taxes received from telephone companies in calendar year 2013 were levied after October 1, 2012, on the value as of December 31, 2012. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30; however, this year the settlement was late.

The School District receives property taxes from Lorain County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2013, are available to finance fiscal year 2013 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2013 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only delinquent settlement of tangible personal property taxes and the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

The amount available as an advance at June 30, 2013, was \$ 2,687,098 in the General Fund, \$ 38,356 in the Debt Service Fund and \$ 81,930 in the Capital Projects Fund. The amount available as an advance at June 30, 2012, was \$ 2,694,839 in the General Fund, \$ 44,672 in the Debt Service Fund and \$ 88,479 in the Capital Projects Fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2013 taxes were collected are:

NOTE 11 - RISK MANAGEMENT

A. PROPERTY AND LIABILITY

The School District is exposed to various risks of loss related to torts, theft, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. There have not been any significant reductions in insurance coverage from coverage in the prior year, and the amounts of settlements have not exceeded coverage for any of the prior three years.

The School District has a property and casualty policy with Love Insurance Agency. The deductible is \$ 2,500 per incident and \$ 1,000 per incident on property. All vehicles are insured and have a zero dollar deductible. The umbrella policy is insured with Love Insurance Agency. The limits of this coverage are \$ 5,000,000 per occurrence and \$ 7,000,000 per aggregate. All board members, administrators and employees are covered under a school district liability policy with Love Insurance Agency with a zero dollar deductible and \$ 5,000,000 limit per claim and a \$ 7,000,000 annual aggregate limit. A surety bond in the amount of \$ 60,000 covers the Treasurer with Westfield Insurance Company. Remaining employees who handle money are covered with a public employees blanket bond in the amount of \$ 100,000 with Love Insurance Company and have a \$ 1,000 deductible.

B. WORKERS' COMPENSATION

The School District participates in the Ohio Association of School Business Officials Workers' Compensation Group Retro Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the Ohio School Boards Association (OSBA). The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "equity pooling fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Comp Management, Inc. provides administrative, cost control and actuarial services to the GRP.

C. EMPLOYEE MEDICAL BENEFITS

In order to minimize the annual cost of medical insurance, the North Ridgeville City School District Board of Education and unions that represent its employees have entered into a Joint Insurance Health Plan Trust for the Benefit of North Ridgeville City School District Employees (the Trust). The Trust provides benefits for hospitalization, medical, dental, vision, and prescription drugs, in accordance with the terms and provisions as agreed to by the Plan Trustees, including a per person \$ 1,000,000 lifetime limit, with enrollment periods as provided in the Trust agreement. Provisions in the union contracts limit contributions by the School District to fund benefits with its employees. Those union contracts require the Plan Trustees to devise cost containment measures in the event that benefit expenditures exceed money contributions that the Board of Education is required to make. Thus in future years, additional contributions from employees may be required, or other cost containment measures may be implemented.

NOTE 12 - DEFINED BENEFIT PENSION PLANS

A. SCHOOL EMPLOYEE RETIREMENT SYSTEM

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement, disability, and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Plan members are required to contribute 10% of their annual covered salary and the School District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For fiscal year ending June 30, 2013, the allocation to pension and death benefits is 13.10%. The remaining .90% of the 14% employer contribution rate is allocated to the Health Care and Medicare B Funds. The School District's contributions to SERS for the years ended June 30, 2013, 2012, and 2011 were \$ 571,536, \$ 655,242 and \$ 716,811, respectively; 100% has been contributed for fiscal years 2013, 2012 and 2011.

B. STATE TEACHERS RETIREMENT SYSTEM

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement system. STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, community school, college, university, institution or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof.

New members have a choice of three retirement plans. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 10.5 % of earned compensation among various investment choices. The Combined Plan offers features of the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the “formula benefit” or the “money-purchase benefit” calculation. Under the “formula benefit,” the retirement allowance is based on years of credited service and final average salary, which is the average of the member’s three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31st year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the “money-purchase benefit” calculation, a member’s lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits – DC Plan benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the D Plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members’ accounts are vested after the first anniversary of the first day of paid service. Members in the DC plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member’s designated beneficiary is entitled to receive the member’s account balance.

B. STATE TEACHERS RETIREMENT SYSTEM (continued)

Combined Plan Benefits – Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying 1% of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

Eligible faculty of Ohio's public colleges and university may choose to enroll in either STRS Ohio or an alternative retirement plan (ARP) offered by their employer. Employees have 120 days from their employment date to select a retirement plan.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3% of the original base amount for DB Plan participants.

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$ 1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$ 2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 % for members and 14% for employers. Contribution requirements and the contributions actually made for the fiscal year ended June 30, 2013, were 10% of covered payroll for members and 14% for employers. Employer contributions actually

The School District's required contributions for pension obligations to STRS of the fiscal years ended June 30, 2013, 2012, and 2011 were \$ 1,859,223, \$ 1,989,295 and \$ 2,104,618, respectively; \$ 1,555,597 (83.7%) has been contributed for fiscal year 2013 and 100% has been contributed for fiscal years 2012 and 2011.

C. SOCIAL SECURITY SYSTEM

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2013, three members of the Board of Education have elected Social Security. The Board's liability is 6.2% of wages.

NOTE 13 - POSTEMPLOYMENT BENEFITS

A. SCHOOL EMPLOYEE RETIREMENT SYSTEM

In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers two postemployment benefit plans.

The Medicare Part B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2013 was \$104.90 for most participants, but could be as high as \$335.70 per month depending on their income. SERS' reimbursement to retirees was \$ 45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2013, the actuarially required allocation is .74%. The School District's contributions for the years ended June 30, 2013, 2012 and 2011 were \$ 32,285, \$ 35,102 and \$ 38,913, respectively; 100% has been contributed for fiscal years 2013, 2012 and 2011.

ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

NOTE 13 - POSTEMPLOYMENT BENEFITS (continued)

A. SCHOOL EMPLOYEE RETIREMENT SYSTEM (continued)

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund. For the year ended June 30, 2013, the health care allocation is .16%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2013, the minimum compensation level was established at \$20,525. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contributions assigned to health care for the years ended June 30, 2013, 2012, and 2011 were \$ 77,281, \$ 93,651 and \$ 112,130, respectively; 100% has been contributed for fiscal years 2013, 2012 and 2011.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care and Medicare B plans are included in its Comprehensive Annual Financial Report. The report can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

B. STATE TEACHERS RETIREMENT SYSTEM

Plan Description - STRS Ohio administers a pension plan that is comprised of: a Defined Benefit Plan, a self-directed Defined Contribution Plan, and a Combined Plan that is a hybrid of the Defined Benefit Plan and the Defined Contribution Plan.

Ohio law authorizes STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums.

Pursuant to Chapter 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent Comprehensive Annual Financial Report by visiting www.strsoh.org or by requesting a copy by calling toll-free 1-888-227-7877.

Accordingly, the trust account assets and the liability for the defeased bonds are not included in the School District's financial statements. At June 30, 2013, \$ 1,625,000 of bonds outstanding are considered to be defeased.

In 2011, the School District defeased 2002 general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the School District's financial statements. At June 30, 2013, \$ 1,295,000 of bonds outstanding are considered to be defeased.

NOTE 17 – CAPITAL LEASE

The School District has entered into a lease agreements for copiers. The School District's lease obligations meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases." Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements. These expenditures are reflected as program/function expenditures on a budgetary basis.

Capital assets acquired by lease have been capitalized and depreciated as follows:

2015	4,341
Total minimum lease payments	<u>\$ 56,430</u>

NOTE 19- SET-ASIDES

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end. These amounts must be carried forward and used for the same purposes in future years.

The following cash basis information identifies the changes in the fund balance reserves for textbooks and capital maintenance during fiscal year 2013.

Balance, July 1, 2012	<u>\$ -</u>
Required set aside	662,707
Qualifying expenditures	<u>(724,886)</u>
Balance June 30, 2013	<u>\$ (62,179)</u>

Although the School District had expenditures that reduced the capital improvements reserve set-aside amount below zero, this amount cannot be carried forward to reduce the set-aside requirements for future years.

A. NORTH COAST COUNCIL (NCC)

NCC is wholly owned by its member districts and is governed by a Board of Directors (member Superintendents). NCC's current membership includes the Educational Service Center of Cuyahoga County, Educational Service Center of Lorain County and thirty two school districts in Cuyahoga, Huron, Lorain, and Medina counties.

The mission of the North Coast Council is to provide the support and leadership which enables organizations to achieve their objectives through innovative and cost effective shared technology solutions.

Financial information can be obtained by contacting the Executive Director, 5700 West Canal, Valley View, Ohio 44125. During the year ended June 30, 2013, the School District paid \$ 89,700 to NCC.

B. LORAIN COUNTY JOINT VOCATIONAL SCHOOL DISTRICT

The Lorain County Joint Vocational School District is a separate body politic and corporate, established by the Ohio Revised Code to provide for vocational and special education needs of the students. The Board of the Lorain County Joint Vocational School District is comprised of representatives from each participating school district and is responsible for approving its own budgets, appointing personnel, and accounting and financing related activities. The North Ridgeville City School District's students may attend the Lorain County Joint Vocational School District. Each school district's control is limited to its representation on the board. Financial information can be obtained by contacting the Lorain County Joint Vocational School District, 15181 State Route 58, Oberlin, Ohio 44074.

C. OHIO SCHOOLS COUNCIL

The Ohio Schools Council Association (Council) is a jointly governed organization among 126 school districts. The organization was formed to purchase quality products and services at the lowest possible cost to the member School Districts. Each School District supports the Council by paying an annual participation fee. The Council's Board consists of nine superintendents of the participating School Districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2013, the School District paid \$ 5,245 to the Council. Financial information can be obtained by contacting David A. Cottrell, the Executive Director/Treasurer of the Ohio Schools Council at 6133 Rockside Road, Suite 10, Independence, Ohio, 44131.

The North Ridgeville City Schools participates in the Council's natural gas program.

Prepaid/Natural Gas Program

The School District participates in the natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Energy USA served as the natural gas supplier and program manager from October 1, 2008 to September 30, 2010. Compass Energy has been selected as the new supplier and program manager for the period from October 1, 2010 through March 31, 2013. There are currently 143 participants in the program. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). School Districts that paid more in estimated billings than their actual billings are issued credits on future billings in September until the credits are exhausted and School Districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

.6%	\$ -	\$ 1,800,000	\$ 1,800,000	\$ -

The note was issued for the purpose of paying current expenses of the School District in fiscal year 2013.

NOTE 23 - CONTINGENCIES

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies.

Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2013.

NOTE 24 – RETIREMENT INCENTIVE PLAN

The School District adopted a retirement incentive plan which became effective August 1, 2008 and expired on July 31, 2012. Certificated employees who met certain eligibility requirements will receive a lump sum retirement buyout equal to \$ 700 for each year of STRS service, up to thirty years. Classified employees who met certain eligibility requirements will receive a lump sum retirement buyout equal to \$ 200 for each year of SERS service, up to thirty years. Payment will be made in three equal installments beginning in January of the calendar year following the date of retirement and the following two Januaries thereafter. As of June 30, 2013 the School District's liability related to this retirement incentive plan was \$ 91,000.

NOTE 25 – SUBSEQUENT EVENTS

On November 5, 2013, the voters of the District approved: (i) the issuing of bonds in the aggregate principal amount of \$ 58,100,000 for the purpose of construction, adding to, renovating, remodeling, furnishing, equipping and otherwise improving School district buildings and facilities, and levying an additional tax in excess of the ten-mill limitation to pay the debt charges on those bonds and any anticipatory securities, and (ii) an additional 0.5 mill tax in excess of the ten-mill limitation to provide funds for the acquisition, construction, enlargement, renovation, and financing of general permanent improvements.

AGENCY FUNDS

Agency funds are used to account for assets held by the School District as an agent for individuals, private organizations, other governments, and/or other funds.

Student Activities Fund - This fund is used to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

Unclaimed Monies Fund - The purpose of this fund is to account for those assets held by the school district as an agent for individuals, private organizations, other governmental units, and/or other funds.

- (2) This amount is calculated based upon the current assessed value of 88 percent of actual value.
- (3) The amount is calculated based upon an assessed value of 25 percent of actual value.
- (4) Decrease is due to effect of State legislation enacted in June 2005 which phased out over four years, from 2006 to 2009, the taxation of personal property. Tangible personal property value beginning in 2009 consisted of telephone communications tangible value, for which 2010 was the final collection year.
