INDEPENDENT AUDITOR'S REPORT

Hubbard Exempted Village School District
Trumbull County
108 Orchard Avenue
Hubbard, Ohio 44425

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Hubbard Exempted Village School District, Trumbull County, Ohio (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Hubbard Exempted Village School District, Trumbull County, Ohio, as of June 30, 2013, and the respective changes in financial position thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the year ended June 30, 2013, the District adopted the provisions of Governmental Accounting Standard No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and No. 65, *Items Previously Reported as Assets and Liabilities*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The Schedule of Federal Award Receipts and Expenditures presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is also not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2013, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2013
Unaudited*

As management of the Hubbard Exempted Village School District (the School District), we offer readers of the School District's financial statements this narrative overview and analysis of the financial activities of the School District for the fiscal year ended June 30, 2013. We encourage readers to consider the information presented here in conjunction with financial statements and notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

- Net position of governmental activities decreased from fiscal year 2012 to fiscal year 2013. This decrease is a result of the School District completing the construction of the new School District buildings and paying for all the final expenses related to the project.
- Capital Assets decreased due to the School District recognizing an additional year of depreciation which was offset by current year additions. The final cost of the new school facilities was capitalized in fiscal year 2013. The middle school and administration building was completed during fiscal year 2013.
- The School District's enrollment decreased from fiscal year 2012 to fiscal year 2013. As a result of this decrease, there was a decrease in School Foundation revenues from the State of Ohio.
- The School District actively pursues grants and controls expenses while still maintaining the high academic standards the residents expect of the School District.
- On March 14, 2013, the School District refunded a portion of the 2007 general obligation classroom facilities improvement bonds to take advantage of lower interest rates.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the School District's basic financial statements. The School District basic financial statements are comprised of three components: (1) government-wide statements, (2) fund financial statements, and (3) notes to the basic financial statements.

Government-wide Financial Statements The government-wide financial statements are designed to provide the reader with a broad overview of the School District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the School District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statement distinguishes functions of the School District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from those that are primarily supported through user charges (*business-type activities*). The School District has no business-type activities. The governmental activities of the School District include instruction, support services, extracurricular activities, operation of non-instructional services and interest and fiscal charges.

The government-wide financial statements can be found on pages 13-14 of this report.

Fund Financial Statements A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like the State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. These fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund, bond retirement fund and the classroom facilities capital projects fund. All of the funds of the School District can be divided into two categories: governmental and fiduciary.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual*, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the School District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The basic fund financial statements can be found on pages 15-16 of this report.

Fiduciary Fund A Fiduciary fund is used to account for resources held for the benefit of parties outside the government. The fiduciary fund is not reflected in the government-wide financial statement because the resources of this fund are not available to support the School District's own programs. These funds use the accrual basis of accounting.

The basic fiduciary fund financial statement can be found on page 20 of this report.

Notes to the Basic Financial Statements The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21-46 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Table 1 provides a comparison of the School District's Net Position for 2013 compared to 2012.

Current assets decreased due to a decrease in cash and cash equivalents and intergovernmental receivable. The decrease in available cash at fiscal year end can be attributed to the construction of the new school facilities. The decrease in intergovernmental receivable is due to the School District having a smaller grant carryover when compared to the prior fiscal year. Capital assets decreased due to an additional year of depreciation which outpaced current year additions.

Total liabilities increased during fiscal year 2013 due to the School District refunding a portion of the 2007 Classroom Facilities Improvement Bonds and an increase in compensated absences during the year. Compensated absences increased due to employees carrying a higher balance of sick leave into the new fiscal year when compared to the prior fiscal year. This increase was offset by a decrease in contracts payable during the year due to the completion of the new school facilities.

Unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors. An additional portion of the School District's net position represents resources that are subject to external restrictions on how they may be used.

The remaining balance of net position is investment in capital assets (e.g., land, buildings, equipments, furniture and vehicles); less any related debt used to acquire those assets that is still outstanding. The School District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

At the end of the current fiscal year, the School District is able to report positive balances in all three categories of net position. The same situation held true for the prior fiscal year.

Hubbard Exempted Village School District

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2013
Unaudited*

The School District relies heavily upon property taxes and the State School Foundation Program to support its operations. The School District also actively solicits and receives additional grant and entitlement funds to help offset operating costs.

Interest revenue decreased during the current fiscal year due to less cash available for investing and lower interest rates. This revenue will continue to decrease as the School District continues to invest in the new School District facilities.

Instruction expenses comprise the largest portion of all program expenses for the School District. These expenses pay for teacher salary and benefits which increase at set levels every year through negotiated agreements. The increase in instructional expenses was due to purchasing new equipment and furnishings for the new school facilities. These items were all under the established capitalization threshold. The increase in support staff expenses was also due to the purchase of new equipment and furnishings that are under the capitalization threshold.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services for 2013 compared to 2012.

The dependence upon general revenues for governmental activities is apparent as they account for a majority of the total cost of services in fiscal year 2013. This amount is more than 2012 due to a decrease in program revenues. The community, as a whole, is by far the primary support for Hubbard Exempted Village School District.

Financial Analysis of the Government's Funds

Governmental Fund Information about the School District's major funds starts on page 15. These funds are accounted for using the modified accrual basis of accounting. The general fund had a decrease in fund balance from the prior fiscal year. This is primarily due to a significant decrease in Restricted Aid (Ed Jobs) and Property Tax Allocation. Expenditures previously paid for through Restricted Aid had to be moved back to the general fund. The increase in expenditures can be attributed to the School District investing in new computers for the new facilities and a 3 percent increase in health insurance premiums. The bond retirement fund balance increased from the prior fiscal year. During fiscal year 2013, the School District refunded a portion of the Classroom Facilities Bonds to take advantage of lower interest rates. The increase in the bond retirement fund balance from the prior fiscal year was due to a decrease in interest payments and a portion of bond proceeds not going to the bond escrow agent. The net change in fund balance for the fiscal year was most significant in the classroom facilities capital projects fund which decreased due to the completion in construction of the new school facilities.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2013 the School District amended its general fund budget numerous times. The School District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, the final budget basis revenue estimate was higher than the original budget estimate. The difference can be attributed to the increase in property tax and intergovernmental revenues. These amounts increased due to an increase collections and a higher than expected enrollment number. These revenue line items fluctuate year to year and are budgeted on a conservative basis to avoid revenue overestimations. Actual revenue was slightly under final budget basis revenue due to miscellaneous revenue coming in lower than expected. The difference between the original budget appropriations and the final amended budget appropriations of the general fund increased due to increases in instruction estimates. The School District's actual expenditures were under final budgeted appropriations.

Vehicles	<u>343,673</u>	<u>421,188</u>
Total	<u>\$53,033,792</u>	<u>\$54,131,658</u>

The decrease in capital assets can be attributed to an additional year of depreciation which was offset by several additions made during fiscal year 2013. While the School District acquired new food service equipment, the old middle school and food service equipment were disposed of. The School District also completed the construction of the new school buildings which resulted in the elimination of construction in progress and the increase in land improvements and buildings and improvements. The new elementary school was completed during fiscal year 2012. The new middle school and administrative building was completed during fiscal year 2013. Additional information on the School District's capital assets can be found in note 11 of the basic financial statements.

Long-term Liabilities At June 30, 2013, the School District had increased its outstanding long-term obligation. This increase is primarily the result of the School District advanced refunding a portion of the Classroom Facilities Bonds which was offset by another year of principal payments on all debt issues.

(Table 5)
Outstanding Long-Term Obligations

	<u>Governmental Activities</u>	
	<u>2013</u>	<u>2012</u>

Compensated Absences	<u>913,257</u>	<u>847,122</u>
Totals	<u>\$19,181,000</u>	<u>\$18,113,315</u>

The School District issued \$18,598,533 in classroom facilities bonds on March 22, 2007, in conjunction with the Ohio School's Facilities Commission (OSFC), to build three new school buildings on a centralized campus. The OSFC has committed 68 cents on each dollar the School District spends on new facilities. Community support will generate the remaining 32 cents. During fiscal year 2013, a portion of the serial and term bonds were retired by the School District through an advanced refunding. Annual payments are made for twenty-four years until maturity at December 1, 2030.

On March 14, 2013, the School District issued \$8,134,991 in general obligation bonds to refund a portion of the 2007 general obligation classroom facilities improvement bonds. Annual payments are made for a twenty-two year period until maturity at December 1, 2034. The bonds are backed by the full faith and credit of the School District.

As of June 30, 2013, the School District's overall legal debt margin was \$2,438,045 with an unvoted debt margin of \$202,254. Neither Moody's nor Standard and Poor's maintain an active rating on the Hubbard Exempted Village School District. Please refer to Note 12 within the Notes to the Basic Financial Statements for further information on debt.

Current Financial Related Activities

The School District has continued to maintain its high standards of service to students, parents and the community. We are continually pressed with challenges and opportunities that compel us to remain proactive in our efforts to provide children with a quality education in an environment that is conducive to learning. Current events, the economy and market conditions, and the community's support and input have an impact on how the School District conducts business.

The School District has managed its financial operations with prudence, while continually monitoring revenues and expenditures in accordance with the five year forecast. The current forecast projects year end balances through fiscal year 2017. The forecast indicates a surplus through 2016 and a deficit in 2017.

The School District passed two emergency levy renewals, one in 2010 and one in 2011. The November 2, 2010 renewal was for 4.75 mills, which is equal to \$1,047,214 in tax revenue. The May 3, 2011 renewal was for 5.45 mills, which is equal to \$1,218,709 in tax revenue.

House Bill 66 effectively eliminated the Tangible Personal Property Tax (TPP). The School District has offset this loss of revenue through State reimbursements and open enrollment dollars. Open enrollment generates roughly \$900,000 in annual revenue for the School District. Without these funds available, the Board of Education would need to look into alternative methods of revenue replacement to help compensate for this shortfall.

The School District's commitment to instruction remains paramount. The School District is actively trying to meet the set-aside requirements passed down from the State level to ensure the highest level of facilities for the true asset of the School District, its students. With this in mind, it remains imperative that the Board of Education and management team continue to carefully plan in order to provide the resources required in meeting the students, parents and communities desired needs over the next several years. The 2012 – 2013 school year was the sixth year in a row that the School District has been designated as excellent by the Ohio Department of Education.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. Net Change in Fund Balances - Total Governmental Funds (\$6,277,742)

*Amounts reported for governmental activities in the
statement of activities are different because:*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

Capital Asset Additions	1,483,562	
Current Year Depreciation	(1,826,579)	
Total		(343,017)

Governmental Funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. (754,849)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

Note 1 - Description of the School District and Reporting Entity

Hubbard Exempted Village School District (the School District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District serves an area of approximately 25 square miles in Trumbull County, including the City of Hubbard and portions of surrounding townships.

The School District operates under a locally-elected five-member Board form of government and provides educational services as mandated by State and federal agencies. The School District ranks as the 224th largest by enrollment among the 615 public school districts in the State. The Board of Education controls the School District's K-12 campus with 3 separate instructional facilities staffed by 86 classified employees, 127 certified employees and 14 administrators who provide services to 1,999 students in grades K through 12 and other community members.

Reporting Entity

A reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes the agencies and departments that provide the following services: general operations, food service and student related activities of the School District.

Non-public Schools - Within the School District boundaries, there are various non-public schools. Current State legislature provides funding to these non-public schools. These monies are received and disbursed on behalf of the non-public school by the treasurer of the School District, as directed by the non-public school. These transactions are reported in a special revenue fund and as a governmental activity of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The School District has no component units.

The School District is associated with two jointly governed organizations, a related organization and an insurance purchasing pool. These organizations are the Northeast Ohio Management Information Network, the Trumbull Career and Technical Center, the Hubbard Public Library, and the Ohio School Boards' Association Workers' Compensation Group Rating Program. These organizations are presented in Notes 14, 15 and 16 to the basic financial statements.

For the Fiscal Year Ended June 30, 2013*

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type. The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. In reporting its financial activities, the School District uses two categories of funds: governmental and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

Hubbard Exempted Village School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

General Fund The general fund is the operating fund of the School District and is used to account and report for all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement Fund The bond retirement fund accounts and report tax levies that are restricted for the repayment of general obligation bonds of the School District.

Classroom Facilities Capital Projects Fund The classroom facilities capital projects fund accounts and reports for the proceeds of notes and bonds as well as grants restricted for the building and equipping of classroom facilities.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District had no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency fund accounts for student activities.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources, generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statement presented for the fiduciary fund are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Hubbard Exempted Village School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which the taxes are levied (See Note 8). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, fees and rentals.

Deferred Outflows/Inflows of Resources In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources include a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2013, but which were levied to finance fiscal year 2014 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds. The Treasurer has been given the authority to allocate board appropriations to the function and object levels within each fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate when the original and final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During fiscal year 2013, investments were limited to repurchase agreements and mutual funds.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements are reported at cost.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2013 amounted to \$22,603, of which \$8,184 was assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

Restricted Assets

Assets reported as restricted when limitations on their use change in nature or normal understanding of the availability of the net asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments or imposed by law through constitutional provisions. Restricted assets in the general fund represent a reserve for budget stabilization as well as money set aside as unclaimed monies. See Note 21 for additional information regarding set asides.

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies and donated and purchased food held for resale.

Capital Assets

The School District’s only capital assets are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by backtrending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year.) Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of one thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are not.

All reported capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Land Improvements	10 - 45 years
Buildings and Improvements	10 - 50 years
Furniture and Fixtures	5 - 20 years
Vehicles	5 - 20 years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the statement of net position.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for all accumulated unused vacation time when earned for all employees. Since the School District’s policy limits the accrual of vacation time to one year from the employee’s anniversary date, the outstanding liability is recorded as “vacation benefits payable” on the statement of net position rather than as a long-term liability.

Hubbard Exempted Village School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for all employees at least fifty years of age with at least ten years of service, or all employees with twenty years of service at any age within the School District.

The entire compensated absence liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employee who has accumulated unpaid leave is paid.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, and are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds and capital leases are recognized as a liability on the fund financial statements when due.

Internal Activity

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Hubbard Exempted Village School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the School District Board of Education. In the general fund, assigned amounts represent intended uses established by the School District Board of Education, delegated that authority by State statute. State statute authorizes the Treasurer to assign fund balance purchases on order provided such amounts have been lawfully appropriated.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for grants, auxiliary services and extracurricular activities.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

Hubbard Exempted Village School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

Bond Premiums and Discounts

On the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight line method. Bond premiums are presented as an increase of the face amount of the general obligation bonds payable. On fund financial statements, bond premiums are receipted in the year the bonds are issued. On the government-wide financial statements, bond discounts are presented as a decrease of the face amount of the general obligation bonds payable. On the fund financial statements, note discounts are expended as other financing use in the year the notes are issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 – Change in Accounting Principles and Restatement of Fund Balance

Change in Accounting Principles

For 2012, the School District has implemented Governmental Accounting Standard Board (GASB) Statement No. 60, “Accounting and Financial Reporting for Service Concession Arrangements,” Statement No. 61, “The Financial Reporting Entity: Omnibus an amendment of GASB 14 and 34,” Statement No. 62, “Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989, FASB and AICPA Pronouncements,” Statement No. 63, “Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position,” Statement No. 65, “Items Previously Reported as Assets and Liabilities,” and Statement No. 66 “Technical Corrections—2012—an amendment of GASB Statements No. 10 and No. 62.”

GASB Statement No. 60 improves financial reporting by addressing issues related to service concession arrangements, which are a type of public-private or public-public partnership. The implementation of this statement did not result in any changes in the School District’s financial statements.

GASB Statement No. 61 modifies existing requirements for the assessment of potential component units in determining what should be included in the financial reporting entity, the display of component units’ presentation and certain disclosure requirements. These changes were incorporated in the School District’s fiscal year 2013 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 62 incorporates into GASB’s authoritative literature certain FASB and AICPA pronouncements issued on or before November 30, 1989. The implementation of this statement did not result in any change in the School District’s financial statements.

GASB Statement No. 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources and net position in a statement of financial position and related note disclosures. These changes were incorporated in the School District’s 2013 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 65 properly classifies certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or recognizes certain items that were previously reported as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues). These changes were incorporated in the School District’s 2013 financial statements; however, there was no effect on beginning net position/fund balance.

Hubbard Exempted Village School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

GASB Statement No. 66 resolves conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting and thereby enhance the usefulness of the financial reports. The implementation of this statement did not result in any change in the City's financial statements.

Restatement of Fund Balance

During fiscal year 2013, it was determined an interfund receivable/payable between the general fund and other governmental funds was overstated by \$100,000. This restatement had the following effect on fund balances of the major and nonmajor funds as they were previously reported.

	<u>General</u>	<u>Bond Retirement</u>	<u>Classroom Facilities</u>	<u>Nonmajor Governmental Funds</u>	<u>Total Governmental Funds</u>
Fund Balance at June 30, 2012	\$3,005,555	\$344,529	\$6,506,047	\$1,007,654	\$10,863,785

Note 5 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as a reservation of fund balance (GAAP).
4. Unreported cash represents amounts received but not included as revenue on the budgetary statements, but which are reported on the operating statements prepared using GAAP.
5. Advances-In and Advances-Out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).
6. Budgetary revenues and expenditures of the public school support funds are reclassified to the general fund for GAAP Reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements on a fund type basis for the general fund:

Hubbard Exempted Village School District

Ending Unrecorded Cash	(13,937)
Net Adjustment for Expenditure Accruals	391,960
Perspective Difference	
Public School Support	297
Advances Out	(31,995)
Encumbrances	<u>(86,365)</u>
Budget Basis	<u><u>(\$1,512,713)</u></u>

Note 6 – Accountability

Accountability

Fund balances at June 30, 2013, included the following individual fund deficits:

Special Revenue Funds	
Food Service	\$22,737
Title VI-B	31,027
Title I	45,083
Title II-A	5,275
Capital Projects Fund	
Permanent Improvement	36,450

The special revenue funds' and permanent improvement capital projects fund's deficit balances resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur.

Note 7 - Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Hubbard Exempted Village School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in securities listed above;
4. Bonds and other obligations of the State of Ohio;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
7. The State Treasurer's investment pool (STAR Ohio); and
8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Deposits

Custodial Credit Risk Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in possession of an outside party. At fiscal year end, \$1,387,379 of the School District's bank balance of \$6,174,492 was uninsured and uncollateralized. Although the securities were held by the pledging financial institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Investments

As of June 30, 2013, the School District had the following investments:

	<u>Fair Value</u>	<u>Maturity</u>	<u>Moody Rating</u>	<u>Percent of Total Investments</u>
Repurchase Agreements	\$613,456	Less than one year	Aaa	84.48 %
Invesco Short-term Investments Trust Government & Agency Mutual Funds	<u>112,725</u>	Less than one year	Aaa	15.52
Total Portfolio	<u><u>\$726,181</u></u>			

Interest Rate Risk. As a means of limiting its exposure to fair value losses caused by rising interest rates, the School District's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the School District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity. State statute limits investments in repurchase agreements to 30 days and the market value of the securities must exceed the principal value of the agreement by at least 2 percent and be marked to market daily.

Credit Risk. The Moody's ratings of the School Districts investments are listed in the table above. The School District has no investment policy that addresses credit risk.

Concentration of Credit Risk. The School District places no limit on the amount it may invest in any one issuer.

Note 8 – Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2013 represents collections of calendar year 2012 taxes. Real property taxes received in calendar year 2013 were levied after April 1, 2012, on the assessed value listed as of January 1, 2012, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2013 represent the collection of calendar year 2012 taxes. Public utility real and tangible personal property taxes received in calendar year 2013 became a lien on December 31, 2011, were levied after April 1, 2012, and are collected with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Hubbard Exempted Village School District

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

The School District receives property taxes from Trumbull County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2013, are available to finance fiscal year 2013 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2013 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations are reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

The amount available as an advance at June 30, 2013 was \$72,450 in the general fund, \$11,985 in the bond retirement fund and \$1,026 in the classroom facilities fund. The amount available as an advance at June 30, 2012 was \$23,408 in the general fund and \$3,819 in the bond retirement fund and \$338 in the classroom facilities fund.

The assessed values upon which the fiscal year 2013 taxes were collected are:

	2012 Second Half Collections		2013 First Half Collections	
	Amount	Percent	Amount	Percent
Real Estate	\$197,111,210	97.23%	\$196,134,170	96.97%
Public Utility Personal	5,622,560	2.77	6,119,860	3.03
Total	\$202,733,770	100.00%	\$202,254,030	100.00%
Full Tax Rate per \$1,000 of assessed valuation	\$59.10		\$58.75	

Note 9 - Receivables

Receivables at June 30, 2013, consisted of taxes, accounts (rent and student fees) and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables except property taxes are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

A summary of the principal items of intergovernmental receivables follows:

Intergovernmental Receivables	Amounts
Title I	\$160,826
Bureau of Worker's Compensation	51,898
Title VI-B	44,857
School Employee Retirement System	18,156
Improving Teacher Quality	17,814
Total	\$293,551

Note 10 - Interfund Transfers and Balances

Interfund Transfers

The general fund transferred \$10,359 to the district managed student activity special revenue fund to help fund athletic events and \$2,346 to the scholarship special revenue fund to supplement the scholarship program.

The classroom facilities capital projects fund transferred \$350,000 to the building capital projects fund to help cover associated with the construction project.

Interfund Balances

Interfund balances at June 30, 2013, consist of an interfund receivable/payable between the general fund and the permanent improvement capital projects fund in the amount of \$40,000. This loan, used to supplement prior year lease purchase proceeds, is expected to be repaid over the next three years. Other interfund balances consist of interfund receivable/payable between the general fund and title I special revenue fund in the amount of \$31,995. This loan was made to support programs and projects in various special revenue funds pending the receipt of grant money that will be used to repay the loans. These loans are expected to be repaid in one year.

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

On March 22, 2007, the School District issued \$18,598,533 in voted general obligation classroom facilities improvement bonds which include serial, term and capital appreciation (deep discount) bonds in the amounts of \$5,010,000, \$13,385,000 and \$203,533, respectively. The general obligation classroom facilities improvement bonds were issued for the purpose of providing funding for the construction of three new school buildings on a centralized campus. During fiscal year 2013, a portion of the serial and term bonds were retired by the School District through an advance refunding. The original general obligation bonds were issued for a twenty-nine year period with final maturity at December 1, 2034, and after the advance refunding has a final maturity at December 1, 2030.

The capital appreciation bonds were originally sold at a discount of \$311,467, which is being accreted annually until the point of maturity of the capital appreciation bonds, which is fiscal year 2017.

The maturity amount of outstanding capital appreciation bonds is \$515,000. The accretion recorded for fiscal year 2013 was \$33,576, for a total outstanding bond liability of \$368,479 at June 30, 2013.

The term bonds maturing on December 1, 2027 and 2030 are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed, plus accrued interest to the date of redemption, on December 1 in the years and in the respective principal amounts as follows:

Year	Issue	
	<u>\$2,970,000</u>	<u>\$2,820,000</u>
2024	\$615,000	\$0
2025	745,000	0
2026	785,000	0
2028	0	895,000
2029	0	940,000
Total	<u>\$2,145,000</u>	<u>\$1,835,000</u>
<i>Stated Maturity</i>	<i>12/1/2027</i>	<i>12/1/2030</i>

The remaining principal amount of the term bonds (\$825,000 and \$985,000) will mature at the stated maturity.

On March 14, 2013, the School District issued \$8,134,991 in general obligation bonds to refund a portion of the 2007 general obligation classroom facilities improvement bonds. The general obligation bonds included serial, term and capital appreciation (deep discount) bonds in the amount of \$7,735,000, \$330,000 and \$69,991, respectively. The bonds were issued for a twenty-two period with a final maturity at December 1, 2034.

The capital appreciation bonds were originally sold at a discount of \$1,915,009, which is being accreted annually until the point of maturity of the capital appreciation bonds, which is fiscal year 2021.

The maturity amount of outstanding capital appreciation bonds is \$1,985,000. The accretion recorded for fiscal year 2013 was \$15,973, for a total outstanding bond liability of \$85,964 at June 30, 2013.

The term bond matures on December 1, 2031 are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed, plus accrued interest to the date of redemption, on December 1 in the years and in the respective principal amounts as follows:

2029	50,000
2030	50,000
Total	<u>\$280,000</u>
<i>Stated Maturity</i>	<i>12/1/2031</i>

The remaining principal amount of the term bonds (\$50,000) will mature at the stated maturity.

The refunding bonds were sold at a premium of \$1,715,509. Net proceeds of \$9,677,683 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded portion of the various bonds. As a result, \$8,135,000 of these bonds is considered defeased and the liability for the refund portion of these bonds has been removed from the School District's financial statements.

The School District decreased its total debt service payments by \$660,475 as a result of the advance refunding. The School District also incurred an economic gain (difference between the present value of the old and new debt service payments) of \$494,274.

An analysis of the refunding issue follows:

	2007 Classroom Facilities Improvement Bonds
Outstanding at June 30, 2012	\$17,266,193
Amortization of Premium on Refunded Portion	(218,117)

Note 13 - Risk Management

Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2013, the School District contracted with Ohio Casualty for various types of insurance. Coverage is as follows:

Coverage	Amount
Blanket Building and Contents (\$1,000 Deductible)	\$65,776,281
Fleet Insurance	1,000,000
Uninsured Motorist Accident - per Occurrence	250,000
Aggregate	1,000,000
General Liability - per Occurrence	1,000,000
Aggregate	2,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years and there have been no significant reductions in insurance coverage from the prior year.

Worker's Compensation

For fiscal year 2013, the School District participated in the Ohio School Boards' Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 16). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley UniService provides administrative, cost control and actuarial services to the GRP.

Note 14 - Jointly Governed Organizations

Northeast Ohio Management Information Network (NEOMIN) NEOMIN is a jointly governed organization among twenty-nine school districts and two educational service centers in Trumbull and Ashtabula Counties. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the districts supports NEOMIN based upon a per pupil charge. The School District paid \$47,384 to NEOMIN during fiscal year 2013.

The Governing board consists of ten members: The Trumbull and Ashtabula County superintendents of the educational service centers (permanent members), three superintendents from Ashtabula County participating school districts, three superintendents from Trumbull County participating school districts, the fiscal agent or NEOMIN and one Treasurer from each county. The degree of control exercised by any participating school district is limited to its representation on the Governing Board. To obtain a copy of NEOMIN's financial statements, write to the Trumbull County Educational Service Center, 347 North Park Avenue, Warren, Ohio 44481.

Trumbull Career and Technical Center The Trumbull Career and Technical Center is a distinct political subdivision of the State of Ohio providing vocational needs of the students. The center is operated under the direction of a Board consisting of one representative from each of the nineteen participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Trumbull Joint Vocational School, Gary Ghizzoni, who serves as Treasurer, at 528 Educational Highway, Warren, Ohio 44483.

Note 15 – Related Organization

Hubbard Public Library The Hubbard Public Library (the "Library") is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a seven member Board of Trustees appointed by the Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the School District for operational subsidies. Although the School District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Hubbard Public Library, Geraldine Bray, Clerk/Treasurer, at 436 West Liberty Street, Hubbard, Ohio 44425.

Note 16 - Insurance Purchasing Pool

The School District participates in the Ohio School Boards' Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

Note 17 – Defined Benefit Pension Plans

School Employee Retirement System

Plan Description – The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained by visiting SERS website at www.ohsers.org under Employers/Audit Resources.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advices of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2013, the allocation to pension and death benefits was 13.10 percent. The remaining 0.90 percent of the 14 percent employer contributions rate is allocated to the Medicare B and Health Care funds. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2013, 2012 and 2011 were \$342,734, \$333,314 and \$312,726, respectively. For fiscal year 2013, 91.02 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2012 and 2011.

State Teachers Retirement System

Plan Description – The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50. Benefits are established by Ohio Revised Code Chapter 3307.

A DB or Combined Plan member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled

only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon the recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The statutory maximum employee contribution rate will be increased one percent each year beginning July 1, 2013, until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2013, plan members were required to contribute 10 percent of their annual covered salary. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations.

The School District's required contributions to STRS Ohio for the DB Plan and for the defined benefit portion of the Combined Plan were \$1,058,456 and \$38,812 for the fiscal year ended June 30, 2013, \$1,091,077 and \$38,498 for the fiscal year ended June 30, 2012, and \$1,143,877 and \$38,498 for the fiscal year ended June 30, 2011. For fiscal year 2013, 90.17 percent has been contributed for the DB plan and 90.17 percent has been contributed for the Combined Plan, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2012 and 2011.

Contributions made to STRS Ohio for the DC Plan and for fiscal year 2013 was \$5,011 made by the School District and \$3,579 made by the plan members. In addition, member contributions of \$27,723 were made for fiscal year 2013 for the defined portion of the combined plan.

Note 18 – Postemployment Benefits

School Employee Retirement System

Plan Description – The School District participates in two cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plans administrated by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligation to contribute are established by SERS based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For fiscal year 2013, 0.16 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for fiscal year 2013, this amount was \$20,525. During fiscal year 2013, the School District paid \$47,148 in surcharge.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013*

The School District's contributions for health care for the fiscal years ended June 30, 2013, 2012 and 2011 were \$58,097, \$66,925 and \$77,009 respectively. For fiscal year 2013, 91.02 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years for fiscal years 2012 and 2011.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2013, this actuarially required allocation was 0.74 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2013, 2012 and 2011 were \$19,970, \$19,684 and \$20,125 respectively. For fiscal year 2013, 91.02 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2012 and 2011.

State Teachers Retirement System

Plan Description – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2013, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2013, 2012 and 2011 were \$81,689, \$85,174 and \$90,952 respectively. For fiscal year 2013, 90.17 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2012 and 2011.

Note 19 - Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per year, depending upon length of service and hours worked. Accumulated unused vacation time is paid to classified employees at the end of each contract year depending upon negotiated agreements or upon termination of employment. Teachers do not earn vacation time. Administrators employed to work 260 days per year earn 20 days of vacation annually.

Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated to a maximum of 260 days for regular classified and certified employees. Maximum sick leave accumulation for individuals on administrative contracts varies depending on the number of days in the administrator's work year. Upon retirement, all employees receive payment for one-third of the total sick leave accumulation, up to a maximum of 80 days for classified employees and 100 days for certified employees.

Employee Benefits

The School District has elected to provide a comprehensive medical benefits package to the employees through a fully-insured program. This package provides a comprehensive medical, prescription, dental and vision plan, which is administered by United Health Care located in Cleveland, Ohio. The traditional plan has a \$300 deductible for single and a \$600 deductible for family. The premiums are set up on a four - tier system.

<u>Premiums By Plan Type</u>	<u>Single</u>	<u>Employee and Spouse</u>	<u>Employee and Child(ren)</u>	<u>Family</u>
Medical Plan	\$530.37	\$1,113.77	\$1,007.70	\$1,591.11
Dental Plan	30.36	52.68	65.20	26.70
Vision Plan	7.26	14.20	14.88	21.47

Employees working less than 35 hours per week are expected to pay a percentage of all health premiums based on the number of hours they work per day. All full time employees pay 6 percent of health and dental and receive vision at 100 percent employer paid.

Note 20 - Contingencies

Grants

The School District receives financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2013, if applicable, cannot be determined at this time.

B. Litigation

As of June 30, 2013, the School District was not party to any legal proceedings.

Note 21 - Set Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years. In prior years, the School District was also required to set aside money for budget stabilization. At June 30, 2013, only the unspent portion of certain workers' compensation refunds continues to be set aside.

**NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE
FISCAL YEAR ENDED JUNE 30, 2013**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) reports the Hubbard Exempted Village School District's (the District's) federal award programs' receipts and expenditures. The schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Hubbard Exempted Village School District
Trumbull County
108 Orchard Avenue
Hubbard, Ohio 44425

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Hubbard Exempted Village School District, Trumbull County, (the District) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 16, 2013, wherein we noted the District has adopted Governmental Accounting Standards Board Statement No's. 63 and 65.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Hubbard Exempted Village School District
Trumbull County
108 Orchard Avenue
Hubbard, Ohio 44425

To the Board of Education:

Report on Compliance for Each Major Federal Program

We have audited the Hubbard Exempted Village School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Hubbard Exempted Village School District's major federal programs for the year ended June 30, 2013. The *Summary of Audit Results* in the accompanying schedule of findings identifies the District's major federal programs.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each of the Major Federal Program

In our opinion, the Hubbard Exempted Village School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Independent Accountant' Report on Applying Agreed-Upon Procedure

Hubbard Exempted Village School District
Trumbull County
108 Orchard Avenue
Hubbard, Ohio 44425

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedure enumerated below, which was agreed to by the Board, solely to assist the Board in evaluating whether Hubbard Exempted Village School District (the District) has updated its anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedure engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of this procedure is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedure described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board amended its anti-harassment policy at its meeting on June 21, 2012 to include prohibiting harassment, intimidation, or bullying of any student "on a school bus" or by an "electronic act".

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.
