December 30, 2013

Citizens and Board of Education, Hudson City School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Hudson City School District (the "District") for the fiscal year ended June 30, 2013. This CAFR, which includes an opinion from the Auditor of the State of Ohio, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The report provides the taxpayers of the District, bond rating agencies, and other interested parties with comprehensive financial information, enabling them to gain a clear understanding of the District's finances. This report is intended to meet the accountability requirements of the District to the public.

Copies of this report will be widely distributed throughout the District. A copy will be sent to all school buildings, the Chamber of Commerce, major taxpayers, Hudson Public Library, banks, the District's Financial Advisory Committee, and any other interested parties.

The District provides a full range of traditional and non-traditional educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory and vocational levels; a broad range of co-curricular and extracurricular activities; adult and community education and recreation offerings; and special education programs and facilities.

## ***The Reporting Entity***

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments and organizations making up the District, the primary government and its potential component units.

The District has administrative responsibility for state funds distributed to private schools located within District boundaries. The private schools served are: Hudson Montessori School, Cuyahoga Valley Christian Academy, Seton Catholic School, Western Reserve Academy, Walsh Jesuit High School, Le Chaperon Rouge, and Academy for Young Children (TLC). While these organizations share operational and service similarity with the District, all are separate and distinct entities. Because of their independent nature, none of these organizations' financial statements are included in this report. Their Boards are not appointed by the District, nor are they fiscally dependent on the District.

### ***The District And Its Facilities***

The District serves an area of approximately 31 square miles in and around the City of Hudson (the “City”). It is located in Summit County, approximately 28 miles southeast of downtown Cleveland and 14 miles north of Akron. The District is an affluent suburban district that grew rapidly from 1980 to 2000 but has since leveled off. Nearly 100 percent of the City of Hudson and portions of three other municipalities and a township are located within the District. They are: the City of Cuyahoga Falls, the City of Stow, the Village of Boston Heights and Boston Township. Hudson’s population in 1980 was 12,645 residents. By 1990, according to the U.S. Census Bureau, Hudson’s population had grown to 17,125 and the 2000 Census showed the population of the City of Hudson was 22,439. The 2010 Census shows a population of 22,262.

Because of the rapid growth of Hudson and the surrounding area, the District had recorded more than 19 consecutive years of increasing enrollment until fiscal year 2000 when enrollment slowed. The District’s enrollment for fiscal year 2013 was 4,681 students.

The District’s facilities include four elementary schools, one middle school (grades six to eight), one high school (grades nine to twelve), a field house, a maintenance building, a bus garage, central offices residing in four houses and several athletic fields.

### ***Economic Condition And Outlook***

Ohio’s unemployment rate was 7.2 percent in June 2013, and the nation’s unemployment rate for the same period was 7.6 percent. Additionally, June 2013 employment in the Akron area was 349,200 with an unemployment rate of 7.1 percent. Specific employment figures for the Hudson City School District are not available. (Ohio Department of Job and Family Services, U.S. Bureau of Labor Statistics.)

Hudson is the headquarters for companies such as JoAnn Stores, Inc. (retail) and Windstream Company (telecommunications). The City is also home to the division headquarters of Little Tikes Co.; Caliber Logistics, Inc. (Federal Express); and Allstate Insurance.

On a budgetary-basis, the District receives approximately 64 percent of its total operating revenues from local property tax collections. Therefore, the long-term financial health of the District is very dependent on its tax base. Tax rates are certified by the Summit County Fiscal Officer’s Office and Board of Education approved. This year’s rates were Board approved on April 8, 2013.

The District has an excellent relationship with the City of Hudson, which assures that commercial development projects selected by the City are also highly desirable for the District. When the City of Hudson uses an inducement to attract a business, the City seeks the input of the School District to see the impact an abatement would cause. The District will continue to work with the City of Hudson to attract desirable development to the community.

### ***Long-Term Financial Planning***

The District prepares a five-year financial forecast annually for use as a tool for long range planning. The five-year forecast contains projected local and state revenues, spending patterns within each area of the budget, and cash balances in the District’s operating fund. The five-year forecast provides early warning signs of potential financial problems.

The District uses the five-year forecast to provide a basis for making financial decisions, including the construction of the annual budget, adjustments to staffing levels, collective bargaining, and the placement of tax levies on the ballot. A specific example of recent decisions resulting from long range planning are the construction of new security entrances at school buildings.

### ***Organization Of The District***

The District is governed by the Constitution of the State of Ohio and various statutes enacted by the Ohio General Assembly through the State Department of Education. Under Ohio law, the District is a separate and distinct unit of government. The Hudson City School District Board of Education is a five-member board elected at-large, with staggered four-year terms.

The Board serves as the taxing authority, contracting body, policy maker, approves the annual appropriation resolution and tax budget and ensures that all other general laws of the State of Ohio are followed in the expenditure of the District’s tax dollars.

***Employee Relations***

The District currently has approximately 600 full-time equivalent employees. Two labor organizations represent District employees. Certified employees, including teachers and educational specialists, are represented for collective bargaining purposes by the Hudson Education Association (HEA). Support employees, including cooks, custodians, educational aides and clerical staff, are represented for collective bargaining purposes by the Ohio Association of Public School Employees Local 372 (OAPSE).

***Services Provided***

The District provides a wide variety of educational and support services as mandated by the Ohio Revised Code or Board directives. The District contracts out its transportation of students. During the 2012-13 fiscal year, the District’s fleet of 54 buses traveled 3,000 miles each day providing transportation services to 2,518 public and 138 private and parochial students. The Nutrition Services Department served an average of 2,472 meals daily for a total of 445,000 meals annually through the District’s school lunchrooms.

In addition to transportation and school lunch support services offered to children in the District, guidance, special education, (including school psychology services) and health services are available free of charge. Guidance services support the school environment and are designed to help students achieve a well-adjusted social life. Special education services, including school psychology services, are provided for all 14 federal disability categories ranging from preschool-age students through high school. Health services consist of the staffing of school clinics with R.N. or L.P.N. level nurses and health promotion classes.

At the center of the District's services are the instructional programs. The District offers regular instructional programs daily to students in grades pre-kindergarten to twelve. The District served approximately 737 identified students who need specially designed programs. These students received services through the wide array of special education programs offered in the District.

Finally, there are numerous academic and athletic programs for students, providing them with a number of enriching experiences. The District provides, through its Community Education and Recreation Department, a community-wide recreation program during the school year and throughout the summer months. The programs and activities provide a lifetime of memories for Hudson's students.

### ***Financial Reporting***

For the fiscal year ended June 30, 2013, the District continued to report in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for the State and Local Governments." The basic financial statements for reporting on the District's financial activities are as follows:

- *Government-wide financial statements:* These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by business enterprises. The government-wide statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.
- *Fund financial statements:* These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.
- *Statement of budgetary comparisons:* These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this reporting model, management is responsible for preparing a Discussion and Analysis of the District. This discussion appears after the Independent Auditor's Report in the financial section of this report. The Management's Discussion and Analysis (MD&A) provides an assessment of the District's finances for 2013. The letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

### ***Financial Information***

#### ***Internal Accounting and Budgetary Control***

The District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Governmental fund operations are presented on the modified accrual basis, whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. "Measurable" means the amount of the transaction can be determined. "Available" means collectable within the current fiscal period or soon enough thereafter to be used to pay liabilities of the current fiscal period, which the District considers to be sixty days after fiscal year-end. Proprietary funds and the private-purpose trust fund operations are presented on the accrual basis, whereby revenues are recognized when earned, and expenses when incurred.

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing the financial statements and maintaining the accountability of assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation. Management believes that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The District utilizes a fully-automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts a permanent appropriation measure for the fiscal year. The permanent appropriation measure is adopted upon receipt from the County Fiscal Officer of an Amended Certificate of Estimated Resources based on final assessed values and tax rates, which is usually received before the beginning of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's Official Certificate of Estimated Resources. The County Fiscal Officer must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are managed at the object account level within a function but controlled at the fund level. All purchase order requests must be approved by the purchasing agent and certified, as to the availability of funds, by the Treasurer. Following certification, the necessary funds are encumbered and purchase orders released to vendors.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations to date. In addition to interim financial statements, each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible. As an additional safeguard, all employees are covered by a blanket bond and certain individuals in policy-making roles are covered by a separate, higher limit bond. The basis of accounting and the various funds utilized by the District are fully described in Note 1 of the basic financial statements. Additional information on the District's budgetary accounting can also be found in Note 1.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. As with the financial section, all amounts presented in the remainder of this letter are expressed in rounded dollar amounts.

### ***Independent Audit***

State statutes require an annual audit by independent accountants. The Ohio Auditor of State conducted the District's 2013 fiscal year audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133 *Audits of States, Local Governments and Non-Profit Organizations*. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

### ***Other Information***

#### **Awards:**

#### ***GFOA Certificate of Achievement***

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Hudson City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2012. This was the fourteenth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

#### ***ASBO Certificate of Excellence***

The District received the Association of School Business Officials (ASBO) International Certificate of Excellence in Financial Reporting Award for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2012. This was the fourteenth consecutive year that the District has achieved this prestigious award. The award represents a significant achievement by the District and reflects the District's commitment to the highest standards of school system financial reporting. The District is also submitting this report to the Association of School Business Officials (ASBO) International for consideration of the Certificate of Excellence in Financial Reporting award. This award will certify that the Comprehensive Annual Financial Report conforms to the principles and standards of financial reporting as recommended and adopted by the Association of Schools Business Officials. This award is granted only after an intensive review of the financial report by an expert panel of certified public accountants and practicing school business officials. Management believes the Comprehensive Annual Financial Report for the fiscal year ended June 30, 2013, which will be submitted to ASBO for review, will continue to conform to ASBO's principles and standards.

## INDEPENDENT AUDITOR'S REPORT

Hudson City School District  
Summit County  
2386 Hudson-Aurora Road  
Hudson, Ohio 44236

To the Board of Education:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hudson City School District, Summit County, Ohio (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hudson City School District, Summit County, Ohio, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As discussed in Note 2 to the financial statements, during the year ended June 30, 2013, the District adopted the provisions of Governmental Accounting Standard No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and No. 65, *Items Previously Reported as Assets and Liabilities*. We did not modify our opinion regarding this matter.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### *Supplementary and Other Information*

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2013 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)

The management's discussion and analysis of Hudson City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2013. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

**Financial Highlights**

Key financial highlights for 2013 are as follows:

- In total, net position increased \$7,557,310. Net position of governmental activities increased \$7,437,696, which represents an 18.10% increase from 2012. Net position of business-type activities increased \$119,614 or 19.46% from 2012.
- Total governmental activities revenues were \$74,917,994. General revenues related to governmental activities accounted for \$61,651,010 in revenue or 82.29% of all revenues. Program specific revenues related to governmental activities in the form of charges for services and sales, and grants and contributions accounted for \$13,266,984 or 17.71% of total revenues.
- The District had \$67,480,298 in expenses related to governmental activities; only \$13,266,984 of these expenses was offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$61,651,010 were adequate to provide for these programs.
- The District had \$1,216,037 in expenses related to business-type activities; program specific revenues in the form of charges for services of \$1,291,244 were adequate to provide for these programs. Business-type activities also received general revenues of \$44,407 in the form of grants.
- The District's only major governmental fund is the general fund. The general fund had \$58,942,617 in revenues and other financing sources and \$57,103,971 in expenditures and other financing uses. This resulted in an increase in fund balance of \$1,838,646 from \$8,404,356 to \$10,243,002.
- The District issued certificates of participation (COPs) debt during the year in order to refinance at a lower interest rate the previously issued COPs outstanding. This refunding resulted in net present value savings of \$732,427.

**Using the Comprehensive Annual Financial Report (CAFR)**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *statement of net position* and *statement of activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund is the most significant fund, and the only governmental fund reported as a major fund.

FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)

**Reporting the District as a Whole**

*Statement of Net Position and the Statement of Activities*

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2013?" The statement of net position and the statement of activities answer this question. These statements include all non-fiduciary *assets, liabilities, deferred inflows and outflows of resources, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the District is divided into two distinct kinds of activities:

Governmental activities - Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities and food service operations.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The District's community education program is reported as a business-type activity.

The District's statement of net position and statement of activities can be found on pages F 17 - F 19 of this report.

**Reporting the District's Most Significant Funds**

*Fund Financial Statements*

The analysis of the District's major governmental funds begins on page F 12. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's only major governmental fund is the general fund.

***Governmental Funds***

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net position and the statement of activities) and governmental *funds* is reconciled in the financial statements. The basic governmental fund financial statements can be found on pages F 20 - F 24 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)

***Proprietary Funds***

Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match information provided in the statements for the District as a whole. The basic proprietary fund financial statements can be found on pages F 25 - F 27 of this report.

***Fiduciary Funds***

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in two agency funds. The District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position on pages F 28 - F 29. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

**Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages F 31 - F 63 of this report.

**The District as a Whole**

The statement of net position provides the perspective of the District as a whole. The following table provides a summary of the District's net position for fiscal years 2013 and 2012. The 2012 amounts for liabilities and deferred inflows have been reclassified to conform to 2013 presentation.

**Governmental Activities**

Net position of the District's governmental activities increased \$7,437,696. Program revenues supported 19.66% of the total governmental expenses.

Total revenues for governmental activities increased \$7,799,960 or 11.62%. Most of this increase is a result of the donation of Hudson Memorial Stadium from the Hudson City Schools Foundation. The donation, approximately \$5.9 million, is reported as a capital contribution. The primary sources of revenue for governmental activities are derived from property taxes and unrestricted grants and entitlements. These two revenue sources represent 81.46% of total governmental revenue. Property taxes revenue increased \$2,242,122 or 5.65% as both current and delinquent collections increased. The most significant decrease in revenues was for unrestricted grants and entitlements, which decreased \$665,955 or 3.37% which is mostly due to the phase-out of tangible personal property tax reimbursements from the State.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)

The largest expense of the District is for instructional programs. Instruction expenses totaled \$36,138,876 or 53.55% of total governmental expenses for fiscal year 2013. Total expenses increased \$3,129,933 or 4.86%. This is due in part to increased expenses for maintenance and upkeep of the District's facilities. An increase in depreciation expense accounts for approximately one-third of the increase in expenses. This is the result of new capital acquisitions by the District.

The graph below presents the District's governmental activities revenues and expenses for fiscal years 2013 and 2012.

**Governmental Activities - Revenues and Expenses**

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2013 and 2012. MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)

The dependence upon tax revenues during fiscal year 2013 for governmental activities is apparent, as 90.12% of 2013 instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support was 80.34% in 2013. The District's taxpayers and unrestricted grants and entitlements are by far the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2013 and 2012.

**Business-Type Activities**

Business-type activities include the District's community education program which had operating revenues of \$1,291,244 and operating expenses of \$1,216,037 for fiscal year 2013. Although revenues decreased compared to the prior year, the program reported operating income of \$75,207. Nonoperating revenues consisted of \$44,407 in grants. The change in net position for the fiscal year was an increase of \$119,614. These operations are self-supporting through user fees and charges. Management assesses its performance to ensure that they are run efficiently.

**The District's Funds**

The District's governmental funds (as presented on the balance sheet on page F 20) reported a combined fund balance of \$14,808,296, which is \$1,527,997 or 9.35% lower than last year's total of \$16,336,293. The schedule below indicates the fund balance as of June 30, 2013 and 2012, and the total change in fund balance.

	Fund Balance <u>June 30, 2013</u>	Fund Balance <u>June 30, 2012</u>	Increase <u>(Decrease)</u>
General fund	\$ 10,243,002	\$ 8,404,356	\$ 1,838,646
Nonmajor governmental funds	<u>4,565,294</u>	<u>7,931,937</u>	<u>(3,366,643)</u>
Total	<u>\$ 14,808,296</u>	<u>\$ 16,336,293</u>	<u>\$ (1,527,997)</u>

**General Fund**

The District's general fund balance increased \$1,838,646. As a measure of the general fund's liquidity, it is useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 16.18% of total general fund expenditures, while total fund balance represents 18.05% of that same amount.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)

The following table assists in illustrating the revenues of the general fund.

	<u>2013</u> <u>Amount</u>	<u>2012</u> <u>Amount</u>	<u>Percentage</u> <u>Change</u>
<b><u>Revenues</u></b>			
Taxes	\$ 38,836,634	\$ 37,435,368	3.74 %
Payments in lieu of taxes	349,063	314,000	11.17 %
Tuition	703,700	205,244	242.86 %
Interest earnings	49,929	53,551	(6.76) %
Intergovernmental	17,613,236	18,417,942	(4.37) %
Other revenues	<u>1,041,183</u>	<u>1,368,427</u>	(23.91) %
Total	<u>\$ 58,593,745</u>	<u>\$ 57,794,532</u>	1.38 %

The increase in tuition revenue is primarily due to revenues from the District's new all day kindergarten program. An increase in current and delinquent tax collections contributed to the increased taxes revenue. The District also received a supplemental personal property tax settlement of about \$730,000 in fiscal year 2013. The decrease in other revenues is primarily due to decreased dues and fees for sports and other extracurricular activities. Intergovernmental revenue consists of State Foundation revenue and other entitlements and reimbursements from the State. These revenues decreased due to the phase-out of the tangible personal property reimbursement.

The following table assists in illustrating the expenditures of the general fund.

	<u>2013</u> <u>Amount</u>	<u>2012</u> <u>Amount</u>	<u>Percentage</u> <u>Change</u>
<b><u>Expenditures</u></b>			
Instruction	\$ 31,575,996	\$ 31,852,331	(0.87) %
Support services	23,595,853	23,331,200	1.13 %
Other non-instructional services	11,316	7,770	45.64 %
Extracurricular activities	879,053	866,435	1.46 %
Capital outlay	340,880	-	100.00 %
Debt service	<u>674,873</u>	<u>611,486</u>	10.37 %
Total	<u>\$ 57,077,971</u>	<u>\$ 56,669,222</u>	0.72 %

There were no significant changes in general fund expenditures compared to the prior year. Expenditures for fiscal support services increased \$471,054 as a result of an increase in real estate tax refunds issued. However, this increase was largely offset by a \$419,530 decrease in expenditures for instructional staff support services, which is mostly due to a slight decrease in wages and benefits.

***Enterprise Fund***

The District maintains an enterprise fund to account for the community education program. Since the enterprise fund is accounted for on the same basis of accounting as business-type activities (the accrual basis of accounting), the statement of net position and the results of operations on the fund financial statements mirror those reported as business-type activities on the District-wide financial statements. See page F 12 for a discussion of the District's business-type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)

**General Fund Budgeting Highlights**

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. The most significant budgeted fund is the general fund.

For the general fund, both the original and final budgeted revenues and other financing sources were \$58,527,578. Actual revenues and other financing sources were \$60,049,732, or \$1,522,154 (2.60%) higher than the final budget. Tuition revenue was \$547,780 higher than in the final budget as a result of an increase in open enrollment for the District. In addition, the actual property taxes revenue came in \$717,407 higher than budgeted, mostly due to a supplemental tangible personal property settlement received.

General fund original and final appropriations (expenditures and other financing uses) were \$59,153,584. The actual budget basis expenditures and other financing uses for fiscal year 2013 totaled \$57,167,093, which is \$1,986,491 (3.36%) less than the final budget appropriations. Most general fund programs reported positive variances, mostly due to wages and benefits expenditures being lower than budgeted.

**Capital Assets and Debt Administration**

*Capital Assets*

At the end of fiscal year 2013, the District had \$55,503,650 invested in land, land improvements, buildings and improvements, furniture and equipment, vehicles and computer software. This entire amount is reported in governmental activities. The following table shows fiscal year 2013 balances compared to 2012:

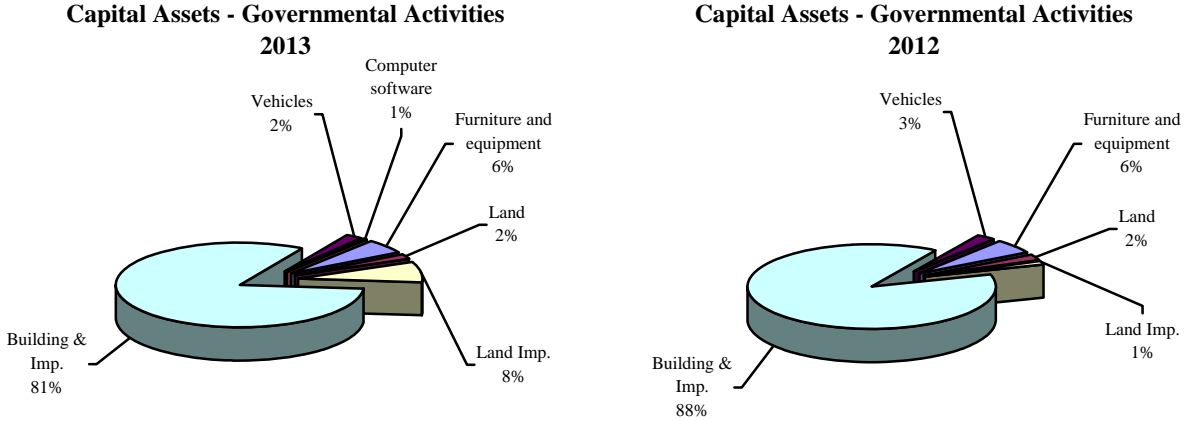

<b>Capital Assets at June 30</b>		
<b>(Net of Depreciation)</b>		
<u>Governmental Activities</u>		
	<u>2013</u>	<u>2012</u>
Land	\$ 1,032,204	\$ 1,032,204
Land improvements	4,375,993	705,203
Building and improvements	45,512,554	44,852,263
Furniture and equipment	3,098,322	2,880,583
Vehicles	1,131,940	1,299,524
Computer software	352,637	-
<b>Total</b>	<b><u>\$ 55,503,650</u></b>	<b><u>\$ 50,769,777</u></b>

The net increase in capital assets is a result of acquisitions of \$6,665,835 exceeding depreciation expense of \$1,931,962 in fiscal year 2013. Capital asset acquisitions include \$5,920,977 for Hudson Memorial Stadium which was donated to the District by the Hudson City Schools Foundation.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)

The following graphs show the breakdown of governmental activities capital assets by category for 2013 and 2012.

See Note 7 to the basic financial statements for more information on the District's capital assets.

**Debt Administration**

At June 30, 2013, the District had \$25,481,061 in general obligation bonds, certificates of participation, capital leases and a software license obligation outstanding. Of this total, \$3,427,038 is due within one year and \$22,054,023 is due in greater than one year. The following table summarizes the outstanding debt.

**Outstanding Debt, at Year End**

	Governmental Activities <u>2013</u>	Governmental Activities <u>2012</u>
Series 2003, Refunding	\$ 2,820,000	\$ 5,100,000
Energy Conservation	1,895,000	2,080,000
Qualified School Construction	1,865,000	2,005,000
Certificates of Participation	18,250,000	19,700,000
Capital Leases	367,512	537,113
Software License Obligation	283,549	-
<b>Total</b>	<b><u>\$ 25,481,061</u></b>	<b><u>\$ 29,422,113</u></b>

All bonds are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Total additions in fiscal year 2013 for these obligations were \$19,065,880 (including \$18,725,000 refunding certificates of participation issued) and total reductions were \$23,006,932 (including \$19,700,000 certificates of participation that were refunded).

See Note 8 to the basic financial statements for more information on the District's debt administration.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013  
(UNAUDITED)**

**Current Financial Related Activities**

The District has carefully managed its general fund budgets in order to optimize the dollars available for educating the students it serves, and to minimize the levy millage amounts needed periodically from the community's citizens. The general fund cash balance was \$15,585,850 at June 30, 2013. Fiscal year-end general fund cash balances were \$11,957,932, \$10,791,463, \$13,096,732, and \$16,864,531 at June 30 in fiscal years 2012, 2011, 2010 and 2009, respectively. Sound fiscal management by the Board of Education and Administration has enabled the District to maintain a healthy cash balance and continue a quality, comprehensive educational program.

The voters of the District passed an additional 4.9 mill operating levy in May 2011. Collections on this levy began in calendar year 2012. The District's 1.5 mill permanent improvement tax levy was renewed in November 2012 for another five years. With Board guidance, the recent fiscal year budgets have been carefully managed in order to maintain the integrity of the financial planning process, while being cognizant of future tax levy levels that are reasonable and in accordance with the expected educational excellence of our community.

The State budget for fiscal years 2014 and 2015 presented a new method of State Foundation funding for school districts. The District is on the funding guarantee which guarantees that the District will receive an adjusted total funding amount that is at least equal to the amount received in fiscal year 2013. The State's reimbursement for the loss of tangible personal property taxes revenue, which was previously being phased out over the past several years, is also held constant at the fiscal year 2013 level, or approximately \$1.8 million.

The District has committed itself to educational and financial excellence for many years. The budgeting and internal controls utilized by the District have resulted in unmodified audit opinions. Each challenge identified in this section is viewed simultaneously as an opportunity for the District to foray down paths not previously traveled to continue its commitment to excellence. The District is committed to living within its financial means, and working with the community it serves in order to garner adequate resources to support the educational program. The Board will continue to evaluate all aspects of its operations, making prudent decisions where appropriate, in order to maximize its resources and offer excellent educational offerings.

**Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

<b>Net change in fund balances - total governmental funds</b>	\$	(1,527,997)
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
Capital asset additions	\$ 744,858	
Current year depreciation	(1,931,962)	
Total		(1,187,104)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Delinquent property taxes	(199,506)	
Accrued interest	8,982	
Intergovernmental	(192,483)	
Capital contributions	5,920,977	
Total		5,537,970
Repayment of principal on long-term obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position.		
		3,306,932
Issuance of refunding certificates of participation and the software license obligation transaction are recorded as other financing sources in the funds; however, in the statement of activities, they are not reported as an other financing source as they increase liabilities on the statement of net position.		
		(19,065,880)
Payment to refunded debt escrow agent for the refunding of long-term debt is an other financing use in the governmental funds but the payment reduces long-term liabilities on the statement of net position. Deferred charges related to debt refundings are amortized over the life of the issuance in the statement of activities. The following refunding transactions occurred during the year:		
Certificates of participation refunded	19,700,000	
Deferred charges on refunding	1,774,661	
Total		21,474,661
The premium related to the issuance of refunding debt is amortized over the life of the issuance in the statement of activities.		
		(64,451)
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities:		
Decrease in accrued interest payable	30,628	
Elimination of unamortized bond issue costs	(389,269)	
Amortization of bond premiums	6,536	
Amortization of deferred charges on refunding	(77,747)	
Total		(429,852)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
		(744,862)
An internal service fund used by management to charge the costs of medical and dental insurance to individual funds is not reported in the statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Hudson City School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District operates under a locally-elected five-member Board of Education and provides educational services as mandated by state and/or federal agencies. This Board controls the District's nine instructional/support facilities. The District provides more than instruction to its students. These additional services include student guidance, extracurricular activities, educational media, and care and upkeep of grounds and buildings. The operation of each of these activities is directly controlled by the Board of Education through the budgetary process. These District operations will be included as part of the reporting entity.

The District employs 253 non-certified and 390 certified employees (including administrators) to provide services to approximately 4,681 students and community groups.

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

**A. Reporting Entity**

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

*JOINTLY GOVERNED ORGANIZATION*

Six District Educational Compact (the "Compact")

The Compact is a jointly governed organization to provide for the vocational needs of the students of six participating school districts. The six member Board consists of the superintendent from each of the participating school districts. Students may attend any vocational class offered by any of the six school districts. Hudson City School District serves as fiscal and administrative agent for the Compact, collecting and distributing payments pertaining to the administrative portion of the agreement. The Board exercises total control over the operations of the compact, including budgeting, appropriating, contracting and designating management.

*PUBLIC ENTITY RISK POOL*

Ohio SchoolComp Workers' Compensation Group Rating Program

The District participates in the Ohio SchoolComp Workers' Compensation Group Rating Program (GRP). The GRP is co-sponsored by the Ohio School Boards Association and the Ohio Association of School Business Officials. CompManagement, Inc. provides administration services for the GRP. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The District pays a fee to the GRP to cover the costs of administering the program.

**B. Fund Accounting**

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

*GOVERNMENTAL FUNDS*

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance.

The following is the District's major governmental fund:

*General fund* - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets; (b) resources restricted for the payment of general long-term debt principal, interest and related costs, and (c) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

*PROPRIETARY FUNDS*

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. Proprietary funds consist of an enterprise fund and an internal service fund.

Enterprise fund - The enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises-where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The District's major enterprise fund is the Community Education fund which accounts for all financial activities related to the Community Education and Recreation Center operations.

Internal service fund - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the district, or to other governments, on a cost-reimbursement basis. The internal service fund accounts for operations of the District's self-insurance program for medical and dental benefits.

*FIDUCIARY FUNDS*

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private-purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities and for the fiscal agent activity for the Six District Educational Compact.

**C. Basis of Presentation and Measurement Focus**

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows and all liabilities and deferred inflows associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's proprietary funds are charges for services and sales. Operating expenses for the enterprise fund include personnel and other expenses related to the operations of the Community Education and Recreation Center and operating expenses for the internal service fund include primarily claims and purchased services expenses. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

The private-purpose trust fund is reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**D. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, payments in lieu of taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 5).

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest and grants.

Deferred Inflows of Resources and Deferred Outflows of Resources - A deferred inflow of resources is an acquisition of net position by the District that is applicable to a future reporting period. A deferred outflow of resources is a consumption of net position by the District that is applicable to a future reporting period.

Property taxes and payments in lieu of taxes for which there is an enforceable legal claim as of June 30, 2013, but which were levied to finance fiscal year 2014 operations, and other revenues received in advance of the fiscal year for which they were intended to finance, have been recorded as deferred inflows. Grants not received within the available period, grants and entitlements received before the eligibility requirements are met, and delinquent property taxes due at June 30, 2013, are recorded as deferred inflows on the governmental fund financial statements.

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred inflows of resources.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the financial statements as an expense/expenditure with a like amount reported as intergovernmental revenue.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**E. Budgets**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax alternate budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Although the legal level of budgetary control was established at the fund level of expenditures for the general fund, the District has elected to present the budgetary statement comparison at the fund and function level of expenditures.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing (or increased tax) rates. By no later than January 20, the Board-adopted budget is filed with Summit County Budget Commission for rate determination. The Summit County Budget Commission waived this requirement for fiscal year 2013.

Estimated Resources:

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts from the certificate of estimated resources that was in effect at the time the original permanent appropriations covering the entire fiscal year were passed by the Board of Education. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts from the certificate of amended resources that was in effect at the time the final appropriations were passed by the Board of Education.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

Appropriations:

Upon receipt from the County Fiscal Officer of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, at the fund level, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter the level of budgetary control must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budget amounts reflect the first appropriation for that fund covering the entire fiscal year, including amounts automatically carried over from prior year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Lapsing of Appropriations:

Unencumbered appropriations lapse at year end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Expenditures may not legally exceed budgeted appropriations at the fund level.

**F. Cash and Investments**

To improve cash management, cash received by the District is pooled into central bank accounts. Monies for all funds, including proprietary and fiduciary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the basic financial statements.

During fiscal year 2013, investments were limited to overnight repurchase agreements, non-negotiable certificates of deposit and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements and non-negotiable certificates of deposit, are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2013. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2013.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund or the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2013 amounted to \$49,929, which includes \$21,400 assigned from other District funds.

For purposes of the statement of cash flows and for presentation on the basic financial statements, investments purchased by the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at fiscal year end is provided in Note 3.

**G. Inventory**

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expended/expensed when used. Inventories are accounted for using the consumption method.

On the fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food, purchased food and bookstore inventory held for resale.

**H. Capital Assets**

General capital assets are those assets specifically related to governmental activities. These assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District's maintains a capitalization threshold of \$5,000. Interest is not capitalized in the governmental funds and the District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	Governmental Activities <u>Estimated Lives</u>
Land improvements	15 - 20 years
Buildings and improvements	10 - 50 years
Furniture and equipment	5 - 20 years
Vehicles	6 - 8 years
Computer software	3 - 9 years

**I. Interfund Balances**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “due to/from other funds”. Interfund balances between governmental funds are eliminated in the governmental activities column on the statement of net position.

**J. Compensated Absences**

Compensated absences of the District consist of vacation leave and sick leave liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

The District reports compensated absences and salary related payments in accordance with the provisions of GASB Statement No. 16, “Accounting for Compensated Absences”. The total liability for vacation and sick leave payments has been calculated using pay rates in effect at the balance sheet date and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments. Vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if both of the following conditions are met:

1. The employees’ rights to receive compensation are attributable to services already rendered.
2. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Other compensated absences with characteristics similar to vacation leave are those which are not contingent on a specific event outside the control of the employer and employee.

Further, sick leave and other similar compensated absences are those which are contingent on a specific event that is outside the control of the employer and employee. The District has accrued a liability for these compensated absences using the termination method which is based on the District’s past experience of making termination payments for sick leave.

The entire compensated absence liability is reported on the government-wide financial statements and the proprietary fund financial statements.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

For governmental fund financial statements, the current portion of unpaid matured compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

**K. Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and certificates of participation are recognized as a liability on the fund financial statements when due.

**L. Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

*Restricted* - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

*Committed* - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned* - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the Treasurer. The District Board of Education has by resolution authorized the Treasurer to assign fund balance.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

*Unassigned* - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**M. Net Position**

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for food service and special grants.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**N. Estimates**

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

**O. Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in the proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Transfers between governmental funds are eliminated for reporting on the government-wide statement of activities.

SUMMIT COUNTY, OHIO**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**P. Nonpublic Schools**

Within the District boundaries, there are seven private or parochial schools which receive funding from the State of Ohio through current State legislation. These monies are received and disbursed on behalf of the private or parochial schools by the Treasurer of the District, as directed by the schools. The fiduciary responsibility of the District for these monies is reflected in a special revenue fund (a nonmajor governmental fund) for financial reporting purposes.

**Q. Unamortized Bond Premiums and Deferred Charges on Debt Refunding**

On the government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds. On the governmental fund financial statements, bond premiums are recognized in the current period.

For advance refundings resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter and is presented as a deferred outflow of resources on the statement of net position.

A reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 8.

**R. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2013.

**NOTE 2 - ACCOUNTABILITY AND COMPLIANCE**

**A. Change in Accounting Principles**

For fiscal year 2013, the District has implemented GASB Statement No. 60, "Accounting and Financial Reporting for Service Concession Arrangements", GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34", GASB Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA pronouncements", GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position", GASB Statement No. 65, "Items Previously Reported as Assets and Liabilities", and GASB Statement No. 66, "Technical Corrections-2012".

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 2 - ACCOUNTABILITY AND COMPLIANCE - (Continued)**

GASB Statement No. 60 addresses issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. An SCA is an arrangement between a transferor (a government) and an operator (governmental or nongovernmental entity) in which (1) the transferor conveys to an operator the right and related obligation to provide services through the use of infrastructure or another public asset (a "facility") in exchange for significant consideration and (2) the operator collects and is compensated by fees from third parties. The implementation of GASB Statement No. 60 did not have an effect on the financial statements of the District.

GASB Statement No. 61 modifies certain requirements for inclusion of component units in the financial reporting entity. The Statement amends the criteria for reporting component units as if they were part of the primary government in certain circumstances. Finally, the Statement also clarifies the reporting of equity interests in legally separate organizations. The implementation of GASB Statement No. 61 did not have an effect on the financial statements of the District.

GASB Statement No. 62 codifies accounting and financial reporting guidance contained in pre-November 30, 1989 FASB and AICPA pronouncements in an effort to codify all sources of GAAP for State and local governments so that they derive from a single source. The implementation of GASB Statement No. 62 did not have an effect on the financial statements of the District.

GASB Statement No. 63 provides financial and reporting guidance for *deferred outflows of resources* and *deferred inflows of resources* which are financial statement elements that are distinct from assets and liabilities. GASB Statement No. 63 standardizes the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's *net position*. The implementation of GASB Statement No. 63 has changed the presentation of the District's financial statements to incorporate the concepts of net position, deferred outflows of resources and deferred inflows of resources.

GASB Statement No. 65 establishes accounting and financial reporting standards that reclassify, as *deferred outflows of resources* or *deferred inflows of resources*, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. GASB Statement No. 65 also provides other financial reporting guidance related to the impact of the financial statement elements *deferred outflows of resources* and *deferred inflows of resources*, such as changes in the determination of the major fund calculations and limiting the use of the term *deferred* in financial statement presentations. For the District, the implementation of GASB Statement No. 65 has (1) changed the classification of certain items, including the deferral of property taxes levied for the subsequent fiscal year, previously reported as liabilities to *deferred inflows of resources*, and (2) resulted in the inclusion of previously reported unamortized bond issue costs as a component of interest on long-term debt in the statement of activities.

GASB Statement No. 66 enhances the usefulness of financial reports by resolving conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting. The implementation of GASB Statement No. 66 did not have an effect on the financial statements of the District.

FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 2 - ACCOUNTABILITY AND COMPLIANCE - (Continued)**

**B. Deficit Fund Balances**

Fund balances at June 30, 2013 included the following individual fund deficits:

<u>Nonmajor funds</u>	<u>Deficit</u>
Race to the top	\$ 6,541
Title I	15,265
EHA preschool grant	1,317
Other federal grants	4,356

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

**NOTE 3 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 3 - DEPOSITS AND INVESTMENTS - (Continued)**

5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasury Asset Reserve of Ohio (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one-hundred-eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**A. Cash on Hand**

At fiscal year end, the District had \$1,300 in undeposited cash on hand which is included on the financial statements of the District as part of "equity in pooled cash and investments".

**B. Deposits with Financial Institutions**

At June 30, 2013, the carrying amount of all District deposits was \$23,987,335, exclusive of the \$1,740,000 repurchase agreement included in investments below. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2013, \$13,735,553 of the District's bank balance of \$24,509,215 was exposed to custodial risk as discussed below, while \$10,773,662 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

**C. Investments**

As of June 30, 2013, the District had the following investments, all of which have maturities of six months or less:

<u>Investment type</u>	<u>Fair Value</u>
Repurchase agreement	\$ 1,740,000
STAR Ohio	145,048
Total	<u>\$ 1,885,048</u>

The weighted average maturity of investments is one day.

*Interest Rate Risk:* As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less, unless matched to a specific obligation or debt of the District.

*Credit Risk:* The investments in the federal agency securities that underlie the District's repurchase agreement, were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. Standard & Poor's has assigned STAR Ohio an AAAM money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's investment policy does not specifically address credit risk beyond requiring the District to only invest in securities authorized by State statute.

*Custodial Credit Risk:* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the District's investment in repurchase agreements, the entire balance is collateralized by underlying securities that are held by the investment's counterparty, not in the name of the District. Ohio law requires the market value of the securities subject to repurchase agreements must exceed the principal value of securities subject to a repurchase agreement by 2%. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

*Concentration of Credit Risk:* The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held at June 30, 2013:

<u>Investment type</u>	<u>Fair Value</u>	<u>% of Total</u>
Repurchase agreement	\$ 1,740,000	92.31

**NOTE 4 - INTERFUND TRANSACTIONS**

- A.** Interfund balances at June 30, 2013, as reported on the fund statements consist of the following amounts due to/from other funds:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General	Nonmajor governmental funds	\$ 5,211

The primary purpose of the due to/from other funds is to cover negative cash in various nonmajor governmental funds. The interfund balances will be repaid once the anticipated revenues are received, which is expected to be within one year.

Interfund balances between governmental funds are eliminated on the government-wide financial statements; therefore, no internal balances at June 30, 2013 are reported on the statement of net position.

- B.** Interfund transfers for the fiscal year ended June 30, 2013, consisted of the following, as reported on the fund statements:

<u>Transfers from:</u>	<u>Transfer to:</u>	<u>Amount</u>
General fund	Nonmajor governmental funds	\$ 26,000
Nonmajor governmental funds	Nonmajor governmental funds	980,000

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The \$980,000 transfer between nonmajor governmental funds was for the purpose of covering a debt payment.

FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

**NOTE 4 - INTERFUND TRANSACTIONS - (Continued)**

Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

**NOTE 5 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2013 represent the collection of calendar year 2012 taxes. Real property taxes received in calendar year 2013 were levied after April 1, 2012, on the assessed values as of January 1, 2012, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2013 represent the collection of calendar year 2012 taxes. Public utility real and personal property taxes received in calendar year 2013 became a lien on December 31, 2011, were levied after April 1, 2012, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Summit County. The County Fiscal Officer periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2013, are available to finance fiscal year 2013 operations. The amount available as an advance at June 30, 2013 was \$1,839,944 in the general fund, \$100,388 in the debt service fund (a nonmajor governmental fund) and \$53,588 in the permanent improvement fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available as an advance at June 30, 2012 was \$3,824,209 in the general fund, \$224,002 in the debt service fund (a nonmajor governmental fund) and \$115,863 in the permanent improvement fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2013 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

The energy conservation bonds and qualified school construction bonds will be paid from the general fund. All other bonds and the certificates of participation will be paid from the debt service fund (a nonmajor governmental fund). All bonds are backed by the full faith and credit of the District. The capital leases and computer software obligation are paid from the general fund; see Note 9 for more detail on capital leases. Compensated absences will be paid from the fund from which the employee is paid, which is primarily the general fund and the following nonmajor governmental funds: food service, auxiliary services, and Title VI-B.

Series 2003 Refunding General Obligation Bonds

On August 19, 2003, the District issued general obligation bonds (Series 2003 School Improvement Refunding bonds) to advance refund the callable portion of the Series 1993 School Improvement General Obligation Bonds (principal \$7,245,000; interest rate 7.10%). The issuance proceeds were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in substance) and accordingly, has been removed from the statement of net position.

**NOTE 8 - LONG-TERM OBLIGATIONS - (Continued)**

The refunding issue is comprised of both current interest bonds par value \$6,045,000, and capital appreciation bonds, par value \$1,199,964. The interest rates on the current interest bonds range from 2.0%-4.0%. The capital appreciation bonds matured on December 15, 2011 at an accreted value at maturity of \$2,280,000.

Interest payments on the current interest bonds are due on June 15 and December 15 of each year. The final maturity for the current interest bonds is December 15, 2014.

Certificates of Participation, Series 2004

The certificates of participation (COPs) were issued to finance various construction projects throughout the District. The COPs were refunded in July 2012, as discussed below.

Certificates of Participation, Series 2012 Refunding

The refunding certificates of participation (COPs) were issued on July 10, 2012 in order to advance refund the previously outstanding COPs issue. The refunding issue consisted of serial COPs, par value \$13,570,000, and term COPs, par value \$5,155,000. The refunding COPs range in interest rates from 2.0% - 4.0% and the final maturity date stated in the issue is June 1, 2034.

The issuance proceeds of \$18,725,000 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in substance) and accordingly has been removed from the statement of net position. At June 30, 2013, \$19,435,000 of this debt was outstanding.

The reacquisition price exceeded the net carrying amount of the old debt by \$1,774,661. This amount is amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued, and is reported as a deferred outflow of resources on the statement of net position. The refunding was under taken to reduce total future debt service payments by \$3,336,803 and resulted in an economic gain of \$732,427.

Energy Conservation Bonds

The energy conservation bonds were issued during fiscal year 2010. The proceeds were used to finance improvements throughout the District for the purpose of reducing future energy costs. These improvements are not capital in nature and were not added to the District's capital assets; therefore, the bonds are not included in the District's net investment in capital assets. The bonds bear an interest rate ranging from 2.00% to 4.00% and mature on December 1, 2021. Debt payments will be made from the general fund from the savings on energy costs resulting from the improvements.

**D. Legal Debt Margin**

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2013, are a voted debt margin of \$56,704,015 (including available funds of \$1,311,307) and an unvoted debt margin of \$891,363.

**NOTE 9 - CAPITALIZED LEASES - LESSEE DISCLOSURE**

In prior years, the District entered into lease agreements to acquire copiers and copier equipment. Lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds.

Capital assets consisting of equipment have been capitalized in the amount of \$854,187. Accumulated depreciation as of June 30, 2013 was \$392,926, leaving a current book value of \$461,261. Principal and interest payments of \$169,601 and \$24,535, respectively, were paid from the general fund.

**NOTE 10 - COMPENSATED ABSENCES**

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees working 11 or 12 months per year are entitled to an annual vacation, with pay, based on length of service in the District. Accumulated unused vacation time is paid to employees upon termination of employment. Teachers and administrators working fewer than ten months per year do not earn vacation time. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated for an unlimited number of days. For both certified and classified employees, payment is made at retirement for accumulated sick leave and is determined by taking one-fourth of the first 144 days and adding to that one day for every eight days in excess of 144 days to a maximum of 36 additional days of severance. Maximum severance in total is 72 days. See Note 1.J. for further detail on the financial reporting of the District's compensated absences.

**NOTE 11 - RISK MANAGEMENT**

**A. General Insurance**

The District is exposed to various risks of loss related to torts, theft, damage to or destruction of assets, errors and omissions, employee injuries, and natural disasters. The District has a comprehensive property and casualty policy with deductibles that vary from \$0 to \$50,000 depending on the type of coverage. The District's vehicle liability insurance policy limit is \$5,000,000 with a \$500 collision deductible. All Board Members, administrators and employees are covered under a District liability policy. The limits of this coverage are \$5,000,000 per occurrence and \$7,000,000 in aggregate. Settled claims have not exceeded this commercial coverage in any of the past three years. There was no significant reduction in coverage from the prior year.

**B. Fidelity Bond**

The Treasurer is covered under a surety bond in the amount of \$50,000. Selected other employees are covered for faithful performance in the District's property and casualty liability policy for \$100,000, subject to a \$1,000 deductible.

FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 11 - RISK MANAGEMENT - (Continued)**

**C. Employee Health Insurance**

The District has elected to provide employee medical, prescription and dental benefits through a self-insurance program. The District maintains a self-insurance internal service fund to account for and finance its uninsured risk of loss in this program. This plan provides a medical plan with a \$400 family and \$200 single deductible. A third party administrator reviews and processes all claims for payment. Medical Mutual of Ohio is the claims administrator for medical claims while Klais and Company is the third party administrator for dental and prescription only. The District purchases stop-loss coverage of \$125,000 per individual and \$8,719,909 in the aggregate.

The District pays into the self-insurance internal service fund for full-time medical and prescription drug family coverage \$1,217.21 per month for certified, classified and administrative employees. Single coverage full-time costs are \$555.17 for certified, classified and administrative employees. Employees are considered part-time if they work 17.5 or more hours per week for certified staff or 25 or more hours per week for classified staff and administrators and less than 35 hours per week. Part-time employees are eligible for family and single coverage. The premiums for part-time employees are prorated according to hours worked per week for certified employees and classified employees.

The District provides prescription drug insurance to its employees through a self-insured program. The District pays the cost of prescription drugs above the employee co-payment for a 34 day supply. The employee co-payment for a 34 day supply is: generic \$15, preferred \$20 and non-preferred \$25. The District pays the cost of mail order prescriptions above the employee co-payment for a 90 day supply. The employee co-payment for a 90 day mail order supply is: generic \$25, preferred \$35 and non-preferred \$45. The third party administrator, Klais and Company, reviews and processes the claims. The premium for this coverage is included in the medical plan premium amounts stated above.

Dental coverage is also provided on a self-insured basis through the third party administrator, Klais and Company. There are two dental plans; Plan S and Plan T. For this coverage the District pays \$67.97 and \$101.62 per month under Plan S and Plan T, respectively, for family coverage and \$30.61 and \$43.35 per month under Plan S and Plan T, respectively, for single coverage for certified employees. Premiums for classified employees are prorated according to hours worked per 35-hour week with premiums ranging from \$19.38 to \$101.62 for family coverage and \$11.66 to \$43.35 for single coverage. Employees working 17.5 or more hours per week for certified staff or 25 hours per week for classified and administrative staff are eligible for dental coverage. The District is responsible for payment of all claim amounts in excess of the employee payment percentages of fixed rates established in each plan.

The premiums are paid by the funds that pay the salary for the employees, except for those grant funds whose agreements do not fund employee health insurance, and is based on historical cost information.

The claims liability of \$618,288 reported in the internal service fund at June 30, 2013, is based on an estimate provided by the third party administrators and the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling the claims.

**NOTE 11 - RISK MANAGEMENT - (Continued)**

Changes in claims activity for the past two fiscal years are as follows:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2013	\$ 698,754	\$ 6,674,179	\$ (6,754,645)	\$ 618,288
2012	719,910	6,969,826	(6,990,982)	698,754

Post-employment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 13. As such, no funding provisions are required by the District.

**D. Workers' Compensation**

Effective January 1, 2012, the District participates in the Ohio SchoolComp Group Rating Program (GRP), an insurance purchasing pool (see Note 1.A). The GRP is co-sponsored by the Ohio School Boards Association and the Ohio Association of School Business Officials. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the state based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "equity pooling fund".

This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of CompManagement, Inc. provides administrative, cost control and actuarial services to the GRP.

Prior to January 1, 2012, the District participated in the Ohio Bureau of Workers' Compensation (Bureau) Individual Retrospective Rating program. In the program, the District assumed a portion of the risk in return for a reduction in premium.

The District's Retrospective Rating program is accounted for in the general fund which pays for all claims, claim reserves and administrative costs of the program. The general fund generates revenues by charging each fund a percentage rate determined by the Bureau for the payroll during the reporting period.

The District is liable for a portion of claims incurred while under the Retrospective Rating program. The claims liability is recorded based on an actuarial determination of future claims, review of five years of claim liabilities and claim payment trends. The change in claims activity for the past two fiscal years is as follows:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2013	\$ 11,061	\$ 76,912	\$ (81,687)	\$ 6,286

**NOTE 12 - PENSION PLANS**

**A. School Employees Retirement System**

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement, disability, survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, [www.ohsers.org](http://www.ohsers.org), under "*Employers/Audit Resources*".

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2013, 13.05 percent and 0.05 percent of annual covered salary was the portion used to fund pension obligations and death benefits, respectively. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations and death benefits to SERS for the fiscal years ended June 30, 2013, 2012 and 2011 were \$960,997, \$917,403 and \$890,217, respectively; 70.14 percent has been contributed for fiscal year 2013 and 100 percent for fiscal years 2012 and 2011. The unpaid contribution for fiscal year 2013 is included as part of the pension obligation payable liability on the financial statements.

**B. State Teachers Retirement System of Ohio**

Plan Description - The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio website at [www.strsoh.org](http://www.strsoh.org), under "*Publications*".

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

SUMMIT COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

**NOTE 12 - PENSION PLANS - (Continued)**

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For fiscal year 2013, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2013, 2012 and 2011 were \$3,698,096, \$3,792,759 and \$4,014,133, respectively; 83.76 percent has been contributed for fiscal year 2013 and 100 percent for fiscal years 2012 and 2011. The unpaid contribution for fiscal year 2013 is included as part of the pension obligation payable liability on the financial statements. Contributions to the DC and Combined Plans for fiscal year 2013 were \$155,905 made by the District and \$111,361 made by the plan members.

**C. Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the SERS/STRS Ohio have an option to choose Social Security or the SERS/STRS Ohio. As of June 30, 2013, certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

**NOTE 13 - POSTEMPLOYMENT BENEFITS**

**A. School Employees Retirement System**

Plan Description - The District participates in two cost-sharing, multiple employer postemployment benefit plans administered by the School Employees Retirement System (SERS) for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Section 3309.69 of the Ohio Revised Code. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2013 was \$104.90 for most participants, but could be as high as \$335.70 per month depending on their income and the SERS' reimbursement to retirees was \$45.50. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, [www.ohsers.org](http://www.ohsers.org), under "Employers/Audit Resources".

SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)**

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For 2013, 0.16 percent of covered payroll was allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the statewide SERS-covered payroll for the health care surcharge. For fiscal year 2013, the actuarially determined amount was \$20,525.

Active members do not contribute to the postemployment benefit plans. The Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care (including surcharge) for the fiscal years ended June 30, 2013, 2012 and 2011 were \$142,798, \$174,066 and \$228,248, respectively; 70.14 percent has been contributed for fiscal year 2013 and 100 percent for fiscal years 2012 and 2011. The unpaid contribution for fiscal year 2013 is included as part of the pension obligation payable liability on the financial statements.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2013, this actuarially required allocation was 0.74 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2013, 2012, and 2011 were \$54,285, \$54,177 and \$57,287, respectively; 70.14 percent has been contributed for fiscal year 2013 and 100 percent for fiscal years 2012 and 2011. The unpaid contribution for fiscal year 2013 is included as part of the pension obligation payable liability on the financial statements.

**B. State Teachers Retirement System of Ohio**

Plan Description - The District contributes to the cost sharing, multiple employer defined benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting [www.strsoh.org](http://www.strsoh.org), under "Publications" or by calling (888) 227-7877.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2013, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2013, 2012 and 2011 were \$284,469, \$291,751 and \$308,779, respectively; 83.76 percent has been contributed for fiscal year 2013 and 100 percent for fiscal years 2012 and 2011. The unpaid contribution for fiscal year 2013 is included as part of the pension obligation payable liability on the financial statements.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 14 - CONTINGENCIES**

**A. Grants**

The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2013, if applicable, cannot be determined at this time.

**B. Litigation**

In the normal course of operations, the District may be subject to litigation and claims. While the outcome of such matters cannot presently be determined, management believes that their ultimate resolution will not have a material adverse effect on the financial statements.

**NOTE 15 - SET-ASIDES**

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	<u>Capital Improvements</u>
Set-aside balance June 30, 2012	\$ -
Current year set-aside requirement	781,299
Current year qualifying expenditures	(537,539)
Current year offsets	<u>(1,390,986)</u>
Total	<u>\$ (1,147,226)</u>
Balance carried forward to fiscal year 2014	<u>\$ -</u>
Set-aside balance June 30, 2013	<u>\$ -</u>

**NOTE 16 - BUDGETARY BASIS OF ACCOUNTING**

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 16 - BUDGETARY BASIS OF ACCOUNTING - (Continued)**

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and,
- (d) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

**Net Change in Fund Balance**

	<u>General fund</u>
Budget basis	\$ 2,882,639
Net adjustment for revenue accruals	(1,985,015)
Net adjustment for expenditure accruals	(21,634)
Net adjustment for other sources/uses	260,366
Funds budgeted elsewhere	(32,977)
Adjustment for encumbrances	<u>735,267</u>
GAAP basis	<u>\$ 1,838,646</u>

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the uniform school supplies fund, rotary fund, Co-Op Compact fund, public school support fund and special trust fund.

**NOTE 17 - COOPERATIVE AGREEMENT**

In 2004, the City of Hudson and the District entered into a cooperative agreement to dedicate 13.5 percent of the revenues that are collected annually from an additional 1 percent municipal income tax levy to provide for the acquisition, construction, equipping, furnishing, financing, and the operation and maintenance of Community Learning Centers. The District is considered the owner of the improvements to the Community Learning Centers. The agreement shall remain for so long as a portion of the municipal income tax is being levied for the purpose of providing dedicated tax revenues, or for such time as debt issued to finance costs associated with the Community Learning Centers is outstanding, whichever period ends later.

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

**NOTE 17 - COOPERATIVE AGREEMENT - (Continued)**

The City of Hudson shall make payments to the District in an amount sufficient to enable the District to make timely debt service payments on the Certificates of Participation that were issued by the District to finance improvement costs associated with the Community Learning Centers. The City of Hudson shall also make payments to the District in which the funds will be applied to pay costs of improvements to the Community Learning Centers, as detailed in the agreement. The District received \$1,278,479 from the City of Hudson during fiscal year 2013 as a result of this agreement. This revenue is reported in the building fund and debt service fund, both of which are nonmajor governmental funds.

**NOTE 18 - OTHER COMMITMENTS**

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

<u>Fund</u>	<u>Year-End Encumbrances</u>
General fund	\$ 617,955
Nonmajor governmental funds	<u>408,022</u>
Total	<u>\$ 1,025,977</u>

**FUND DESCRIPTIONS**

**GENERAL FUND**

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. These activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilities, student transportation, and administration.

Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis):

**Rotary** - This fund is used to account for the District's activities for which a fee is charged to users for goods and services.

**Co-Op Compact** - Rotary fund to account for elementary school language arts class fees.

**Public School Support** - This fund accounts for school site sales projects; field trips, assemblies and other activity costs. These funds have been developed at each school with purpose and policy statements.

**Special Trust** - Special fund that is used to account for contributions for school district programs that are not restricted in use.

**FUND DESCRIPTIONS**

**NONMAJOR GOVERNMENTAL FUNDS**

**SPECIAL REVENUE FUNDS**

The special revenue funds are established to account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specified purposes. A description of the District's special revenue funds are as follows:

**Other Grants** - This fund accounts for the proceeds of specific revenue sources except for State and federal grants that are legally restricted to expenditures for specified purposes.

**Athletics and Music** - This fund accounts for gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the District's athletic programs.

**Auxiliary Services** - This fund is used to account for monies which provide services and materials to pupils attending non-public schools within the District.

**Data Communications** - This fund accounts for money appropriated for Ohio Educational Computer Network Connections.

**Other State Grants** - A miscellaneous fund to account for certain State grants not accounted for in other funds.

**Education Jobs Grant** - This fund accounts for restricted Federal grant monies to assist schools in providing educational and related services for early childhood, elementary and secondary education.

**Race to the Top** - To account for federal funds received from the Race to the Top grant.

**Title VI-B** - This fund accounts for federal revenues which assist states in the identification of handicapped children and provision of full educational opportunities of handicapped children at the pre-school, elementary and secondary levels.

**Title III** - Used to account for federal grant monies provided to develop and carry out elementary and secondary school programs, including activities at the preschool level, to meet the educational needs of children of limited English proficiency.

**Title I** - To provide financial assistance to State and local educational agencies to meet the special needs of educationally deprived children.

**EHA Preschool Grant** - A federal grant that addresses the improvement and expansion of services for handicapped children ages three to five years.

**Classroom Reduction** - To account for grant monies used for the hiring of additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced.

**Other Federal Grants** - This fund accounts for various monies received through State agencies from the federal government or directly from the federal government which are not classified elsewhere.

**Food Service** - To account for monies received and used that are related to the food service operations of the District.

**Other Special Revenue** - A fund used to account for the proceeds of specific revenue sources, except for State and federal grants that are legally restricted for specified purposes.

**DEBT SERVICE FUND**

The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

**HUDSON CITY SCHOOL DISTRICT  
SUMMIT COUNTY, OHIO**

**FUND DESCRIPTIONS**

**NONMAJOR GOVERNMENTAL FUNDS (CONTINUED)**

**CAPITAL PROJECTS FUNDS**

The capital projects funds account for the receipts and disbursements of monies used for the acquisition, construction or major renovation of capital facilities (other than those financed by enterprise funds).

**Building** - This fund is used to account for the receipts and expenditures involved in the construction and replacement of facilities for the instruction of students. A portion of the proceeds from the sale of certificates of participation are paid into this fund. Expenditures recorded here represent the costs of acquiring and improving capital facilities.

**Permanent Improvement** - The permanent improvement fund may be used for acquiring real estate for school purposes; for constructing, adding to, remodeling and improving school buildings. Such expenditures shall add permanently to the school land or buildings, or extend the useful life of existing buildings for five years or more. The fund may also be used for landscaping and making other school site improvements which have an anticipated useful life of five years or more.

**FUND DESCRIPTIONS**

**PROPRIETARY FUNDS**

**MAJOR ENTERPRISE FUND**

The enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The District's major enterprise fund is the community education fund which accounts for all the financial activities related to the community education and recreation center operations.

**INTERNAL SERVICE FUND**

The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, on a cost-reimbursement basis. The internal service fund accounts for operations of the District's self-insurance program for medical and dental benefits.

**FUND DESCRIPTIONS**

**FIDUCIARY FUNDS**

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into two classifications: private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results of operations.

**PRIVATE-PURPOSE TRUST FUND**

The private-purpose scholarship fund accounts for monies set-aside from endowments for scholarships for students enrolled in the District. The principal and income from such a fund may be expensed.

**AGENCY FUNDS**

**Student Activities** - This fund accounts for resources that belong to the student bodies of the various schools; accounting for sales and other revenue generating activities.

**Six District Educational Compact** - To account for the activity of the Six District Educational Compact for which the District is the fiscal agent.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Hudson City School District  
Summit County  
2386 Hudson-Aurora Road  
Hudson, Ohio 44236

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hudson City School District, Summit County, (the District) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 30, 2013, wherein we noted the District adopted the provisions of Governmental Accounting Standards No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position" and No. 65, "Items Previously Reported as Assets and Liabilities".

### ***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Hudson City School District  
Summit County  
2386 Hudson-Aurora Road  
Hudson, Ohio 44236

To the Board of Education:

### ***Report on Compliance for Each Major Federal Program***

We have audited the Hudson City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the District's major federal program for the year ended June 30, 2013. The *Summary of Audit Results* in the accompanying schedule of findings identifies the District's major federal program.

### ***Management's Responsibility***

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

### ***Auditor's Responsibility***

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

### ***Opinion on the Major Federal Program***

In our opinion, the Hudson City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2013.

***Report on Internal Control Over Compliance***

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

**Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Hudson City School District (the District) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 30, 2013, wherein we noted the District adopted the provisions of Governmental Accounting Standards No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position" and No. 65, "Items Previously Reported as Assets and Liabilities". We conducted our audit to opine on the District's basic financial statements. The accompanying federal awards receipts and expenditures schedule presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE  
FISCAL YEAR ENDED JUNE 30, 2013**

**NOTE A - SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the Hudson City School District (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

**NOTE B - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

**NOTE C - FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

## Independent Accountants' Report on Applying Agreed-Upon Procedure

Hudson City School District  
Summit County  
2386 Hudson-Aurora Road  
Hudson, Ohio 44236

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedure enumerated below, which was agreed to by the Board, solely to assist the Board in evaluating whether Hudson City School District (the District) has updated its anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedure engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of this procedure is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedure described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board amended its anti-harassment policy at its meeting on June 4, 2012 to include prohibiting harassment, intimidation, or bullying of any student "on a school bus" or by an "electronic act".

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.
