

COMPREHENSIVE ANNUAL FINANCIAL REPORT

FISCAL YEAR ENDING DECEMBER 31, 2014

PREPARED BY THE FINANCE DEPARTMENT

City Council City of Delaware One South Sandusky Street Delaware, Ohio 43015

We have reviewed the *Independent Auditor's Report* of the City of Delaware, Delaware County, prepared by Wilson, Shannon & Snow, Inc., for the audit period January 1, 2014 through December 31, 2014. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Delaware is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

Members of City Council and Citizens of Delaware, Ohio

Ohio Revised Code requires that each public office be audited at least once every two fiscal years, except under Federal Office of Management and Budget Circular No. A-133, which may require, or has elected to have, an audit every fiscal year. The City of Delaware [the City] meets these requirements for an annual audit. This report is published to satisfy that requirement for the year ended December 31, 2014.

Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with City management and is based upon a comprehensive framework of internal controls that they have established for this purpose. These controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that [1] the cost of a control should not exceed the benefits likely to be derived from its implementation and [2] the valuation of costs and benefits requires estimates and judgments by management. We believe the data as presented is accurate in all material respects and that it is presented in a manner designed to set forth fairly the financial position and results of operations of the City as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

In accordance with Ohio law, independent audits are required to be performed on all financial operations of the City. Either the Auditor of State of Ohio, or, if the Auditor permits, an independent public accounting firm conducts these audits. For 2014, the City continued their contract with the accounting firm Wilson, Shannon, & Snow, Inc. to perform these services. Their report is presented in the front of the Financial Section.

Management's Discussion and Analysis [MD&A] immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

Reporting Entity

The City has reviewed its reporting entity definition in order to insure compliance and conformance with the Governmental Accounting Standards Board Statement Number 14, "The Financial Reporting Entity," as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units" and GASB Statement No.61, "The Financial Reporting Entity: Omnibus". For financial reporting definition purposes, City management considered all agencies, departments, and organizations comprising the City of Delaware, the primary government, and its potential component units. Areas of consideration include financial accountability, ability to impose its will, financial benefit, and financial burden. The City has no component units.

The City of Delaware

The City is the seat of Delaware County, 25 miles north of downtown Columbus, the Ohio state capital. Delaware is an independent, full service city that has retained its small town qualities while adapting to recent high levels of growth and development. Delaware County is the fastest growing county in Ohio, identified as one of the 100 fastest growing, wealthiest and most educated areas of the country. Housing in Delaware is available in older, tree-lined neighborhoods, newer modern subdivisions, condominium developments and rental complexes. The population of Delaware increased by about 40 percent between 2000 and 2010, going from just over 25,000 residents to over 35,000. An additional 7,500 housing units and 15,000 people were projected to be added in that time frame. However, current housing trends and an economic slowdown have reduced this growth.

The region was originally occupied by the Delaware Indians who shared the territory between Columbus and Lake Erie with the Mingos and other tribes. Prehistoric Hopewell Mound Builders inhabited this area even earlier. Delaware was a country village in an agricultural region in 1808. Following the War of 1812, settlers arrived at a faster pace, including the parents of Rutherford B. Hayes, 19th President of the United States, who was born in Delaware in 1822. He met his future wife at Ohio Wesleyan University in Delaware.

Prior to the Civil War, Delaware had Northern sympathies and brought the underground railway through the area. The local Africa Road owes its name to this era. During and following the War, railroads played an important role in expanding the markets of Delaware. By 1900, Delaware had its own electric street railway and an electric interurban rail line connecting the community with Columbus and Marion.

In the modern era, farming has declined steadily throughout Delaware County as residential and industrial development has flourished. The proximity to Columbus, as well as historic periods of growth and prosperity, has greatly influenced the economy of Delaware. Its history, however, is carefully preserved in its many 19^{th} century buildings and homes, its comfortable scale and architecture, and the pace of life as a home town.

The City covers over 19 square miles and has a population of some 35,000 residents. The City of Delaware provides municipal and general administrative services under the supervision of the City Manager for police protection, fire and emergency medical services, water, sewer, and refuse utility services, public works maintenance, and a wide array of parks and recreational facilities and services, engineering, planning and community development, building inspection, and community affairs. The City also maintains a county-wide municipal court under the elected offices of Judge and Clerk of Court.

City Government

Delaware was founded in 1808 and incorporated in 1816. The City is a Charter Municipal Corporation established and operated under the laws of the State of Ohio. The Charter was first adopted November 6, 1951, and established the Council/Manager form of government. Delaware City Council consists of seven elected members. Three City Council positions are elected at-large; the other four positions are elected from the four wards of the City. The regular term of every member of Council is four years. Elections of members of Council are staggered such that every other year either the three at-large positions are elected or the four ward positions are elected. At the conclusion of each bi-annual election, one of the three at-large members of Council is elected Mayor by vote of all seven members of Council to serve a two-year term. The Mayor presides at meetings of Council and is recognized as the official head of the City for all ceremonial purposes, military purposes, and for servicing civil process.

The members of Council are the legislative authority of the City. Council enacts ordinances and resolutions relative to City services, tax levies, appropriating and borrowing money, licensing, and regulating businesses and trades, and other various municipal purposes.

The City Manager is the City's chief executive officer and is appointed by Council. It is the duty of the City Manager to act as chief conservator of the peace within the City; to supervise the administration of the affairs of the City; and to see that the ordinances of the City and the laws of the State are enforced. The City Manager supervises the administration of all departments and appoints the various department heads and other City employees. He also executes all contracts, conveyances, and evidences of indebtedness of the City.

City administrative departments operating under the supervision of the City Manager include: Police, Fire, Finance, City Attorney, Planning and Community Development, Public Works and Engineering, Parks and Recreation, and Public Utilities.

Economic Conditions and Outlook

New home building, including single and multi-family homes, condos and apartments, decreased over 17% in number built but increased 1.7% in value from 2013 to 2014. Residential building permits totaled 259 for 2014, down from 313 in 2013. These 259 permits totaled some \$46.2 million in home value. Commercial permits increased about 4.5% in number from 246 to 257 and totaled \$35 million in value, up from \$24.1 million during 2013.

The past year was strong for the City of Delaware's economy. While overall leads for new businesses were only up 1.6% at 187, more of those leads converted to actual projects, which were up 20.75% for the year over 2013. A project is a lead that goes from an initial contact or inquiry to something that requires action by the Economic Development team. The majority of leads and projects in 2014 were in industrial and business retention and expansion, compared to a larger number being in retail and restaurant in 2013.

For 2014, the City helped to create and retain 378 jobs, a 29.5% increase over 2013. Out of this number, 149 were new jobs and 229 were retained jobs. Retained jobs are those for which there was a chance that without the City's intervention, the business would have closed, downsized or moved to another community, state or country. On average, 65% of jobs are created by retention and expansion projects nationally. With these new and retained jobs came a significant increase in new and retained payroll over 2013 of \$14,002,200.

The main reason for not responding to leads or being rejected by leads continues to be the lack of 'building' inventory. Nearly 80% of leads are looking for existing buildings. The industrial buildings we do have are mainly multi-tenant which is not conducive to the way most of our leads are doing business. Lack of "pad-ready" sites continues to be the second highest reason for being overlooked. The development of Innovation Park is a good start to having some prime pad-ready land available, but with the completion of Sawmill Parkway, we will need to continue to recruit development partners to prepare greenfield sites into pad-ready sites. Pad-ready means the land is immediately ready to build on with all infrastructure in place or adjacent to the site. All site issues also need to mitigated such as drainage issues, etc.

The historic downtown continues to positively evolve and be vibrant with an increasing occupancy rate at 87%. In comparison, a strip mall only needs to maintain 70% occupancy to be profitable. In addition, all of our economic indicators such as unemployment rate, median household income, etc. continue to strengthen with our efforts.

Major Initiatives

Police: In 2013, the Police Department initiated a strategic response initiative to make better use of data to direct our services. Police Department administrators identify high crime areas based off of weekly crime mapping, and direct patrols to focus on the problems in those areas. Specialized operations are also conducted to address the more serious issues. The overall result was a reduction in thefts and property crimes. These initial results are encouraging, and the Police Department continued this programming into 2014 with the addition of data driven traffic crash prevention. In 2015, the department added community relations initiatives as a response to further strengthen ties to the community.

Fire-EMS: In 2010, a 0.3% income tax increase was voted in to fund the construction, equipping, and staffing of two new fire stations to provide more efficient and effective fire protection for all areas within the growing City. Land was purchased in 2011 for two new stations one in the northwest section of the City, the other in the southeast. Design on the northwest station [303] began in 2011, construction began toward the end of 2012, and the Department began operation in September 2013. It is anticipated that construction of the southeast station [304] will begin around 2016. The City began hiring new firefighter/EMS personnel in 2011 and ultimately will fill approximately 18 new positions to staff the two new stations. As of June 1, 2015, the Department has hired 16 new positions. The Department placed into service a new 100' ladder truck and paramedic ambulance in 2012, and a new engine and new cardiac monitors and defibrillators in 2013. The Department will be replacing three paramedic ambulances in 2015.

Public Utilities: The construction of the City's new groundwater membrane water treatment plant and rehabilitation of the existing surface water plant continued in 2013. Construction of the thirty million dollar project started in October 2012 with substantial completion scheduled by June 2015. The improvements at the water plant are necessary to meet regulatory requirements and to increase the City's water capacity from 6 million gallons per day (MGD) to 7.2 MGD. In 2013, the City completed the construction of a new sanitary sewer from RT 23S to Belle Avenue to increase the sewer capacity of the City's industrial park and southwest service area. In 2014, the City completed the construction of a new storm water conveyance system on West Lincoln Avenue and a new 8-inch water line on RT 23N from Hills Miller Road to Pennsylvania Avenue. In 2015, the City will design and construct a replacement 12-inch water line on Park Avenue from South Sandusky Street to Curtis Street.

Public Works: The winter snow/ice season ended with a second record setting numbers in both snow accumulation and sustained cold temperatures in as many years. Public Works used over 3500 tons of salt to manage the thirty-one recorded snow events. The anti-icing program provided advance ice protection with the application of 178,000 gallons of salt-brine to the city street network. Public Works completed the installation of a 3,000 ton salt storage barn in October along with a new semi-automated brine production machine, both located at the main Public Works facility. Currently under way is the construction of a 2,240 SF administrative addition which when complete will allow the consolidation of the Engineering Division to the main Public Works facility by years end. Additional improvements under design include a new 15,000 SF refuse cold storage building and a 7,000 SF recycling center, all to be constructed at 440 East William Street. When completed, the improvements will allow for all Public Works Divisions to operate out of a centralized facility at 440 E William Street.

Recreation: The City's new community center was completed in 2011 and ultimately will connect to a new National Guard armory, to be completed early 2015 on the same site. The City's center will be able to utilize Guard classrooms and drill space for recreational activities. To provide funding for the construction underway, the City issued \$20.12 million in bonds which will be paid for with tax revenues as they are collected. At the end of 2011, the City entered into a management agreement with the YMCA

to manage its Jack Florance [Mingo] pool facility and recreation center, and to manage many of the City's recreational programs.

Economic Development:

Industry – In early 2015, the Tax Incentive Review Council (TIRC) reported to Council and the Ohio Development Services Agency the status of the 15 active City tax incentive agreements. These agreements have created 780 jobs with a \$10,709,217 payroll. Additionally, these incentive agreements have generated \$41,694,000 in real property tax investment.

In 2014, Liberty Castings completed a \$4.2 million expansion that will lead to the retention of 150 full-time jobs and the creation of an additional 52 full-time jobs with a new payroll of \$2 million. These additional jobs and payroll are critical to growing Delaware's economic prosperity.

In 2014, Engineered Material Systems (EMS), a global formulator and manufacturer of adhesives, conductives and encapsulants, set plans to invest \$5.3 million in Delaware to consolidate three leased facilities in the city of into one, newly constructed building, proposed to be off of Sawmill Parkway. The company will add 10 production positions to its workforce, bringing the total to 48 employees by 2017.

Commerce – On Monday, June 23, 2014, the Delaware County Commissioners voted to approve the signing of an agreement between the City of Delaware and Delaware County on a funding partnership for the completion of the Sawmill Parkway extension from its current location to 1,600 ft. Northwest of US42.

This important infrastructure project will allow for the access to 1,600 acres of industrial and office properties. A full intersection will be added at US42 and three other intersections will be allowed within the municipal boundaries. Additional access roads and infrastructure will need to be constructed to utilize these access points.

Significant 2014 City of Delaware Business Highlights

Downtown Delaware is one of the City's most defining elements because it is an intact historic business district—parts of which have been placed on the National Register of Historic Places. The central business district has a large concentration of retail and commercial businesses and is becoming a popular food and beverage destination due to a growing number of restaurants, microbreweries and bars. The historic downtown continues to positively evolve and be vibrant with an increasing first-floor occupancy rate at 87%. Second and third-floor office/residential space occupancy rates hover around 80%.

Ohio Wesleyan University is a direct component of the built downtown environment and is considered a downtown anchor. This advantageous location offers cultural and educational opportunities for students, businesses and the community. The university's Selby Stadium has also become home to the Ohio Machine—a professional lacrosse team and Major League Lacrosse member.

The City of Delaware maintains an active Main Street program which provides a full-time director. Main Street Delaware implements key events in the downtown such as First Friday, Main Street Delaware Farmers' Market, Planter Programs, sidewalk cleaning, Christmas decorations, Santa House, Carriage Rides, Chocolate Walk, March for Art, Artful Spaces, Public Art, Design Awards, 12 Days of Christmas and more. The U.S. Department of Interior certified Delaware as a Certified Local Government and Delaware has been named "Best Hometown" by Ohio Magazine. The City was also one of the nation's first eight Preserve America Communities, as selected by the White House.

New or Expanded Employers in Delaware for 2014 include:

- Allerstallings Law Firm
- Typhoon Asian Fusion Bistro
- 12 West
- Arby's
- A Little Simplicity
- Zeus Tire
- Liberty Casting
- Delaware Diamonds
- Barley Hopsters
- J. Gumbo's

[Liebert]		
City of Delaware	Municipal government	330
Domtar [formerly AHP]	Disposable diaper manufacturer	305

Financial Information

The City of Delaware's accounting system is organized on a "Fund Basis". Each fund is a distinct, self-balancing account.

Development of the City's accounting system includes consideration of internal accounting controls. These controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that [1] the cost of a control should not exceed the benefits likely to be derived from its implementation and [2] the valuation of costs and benefits requires estimates and judgments by management.

The City adopts its annual appropriation ordinance on or before January 1 of each year. The City Manager and the Finance Director prepare the budget legislation and submit it to City Council for their consideration and approval. All disbursements require appropriation authority. The legal level of budgetary control is at the payroll expenditures/expenses and other expenditures/expenses. For reporting purposes, the City further divides "other" by their function.

The Finance Director is authorized to transfer appropriations between line items, within a department or fund. Any increase in the total appropriations for a department must be approved by City Council. A purchase order is required before making any purchase over \$250.

Financial Policies

The City's budget is not a static document. It is prepared prior to the beginning of the year it represents; however, it is scrutinized by staff at least on a monthly basis for accountability. The City may budget to receive a certain amount of revenue in an account or fund, to be used for certain operations or capital improvements. However, if those revenues are not received in their entirety or at all, those appropriations are not necessarily deemed allowable expenditures. The Finance Director, City Manager, and Departmental Directors, review the budget to determine what operations or projects may be postponed, dismissed entirely, or done sooner, depending on the circumstances. In times when the economy is slow, and fee collections are decreased, this scrutinizing plays a major role in maintaining a positive budget balance.

On September 1, 2009, Moody's Investors Service announced a bond rating upgrade for the City of Delaware's General Obligation Debt from A1 to Aa3. Moody's noted the City's expanding tax base, which has exhibited stability and resilience in the current recession, healthy financial position supported by solid fiscal policies and practices and stable reserves, and a moderate debt position with substantial non general fund support for debt service as reasons for the upgrade. In March, 2010, the City's bond rating was upgraded to Aa2, based on Moody's recalibration of municipal debt to global scales.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada [GFOA] awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Delaware for its Comprehensive Annual Financial Report for the year ended December 31, 2013. This is the twelfth

consecutive award the City has received for a CAFR. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such a report must satisfy both generally accepted accounting principles in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Delaware Finance Department believes this current report continues to conform to the program's requirements, and it will be submitted to GFOA for review.

Acknowledgements

We would like to thank the many departments that assisted in providing information reported in this CAFR, as well as the Delaware County Auditor's Office. We would also like to recognize City Council for their continued support and commitment to responsible financial reporting.

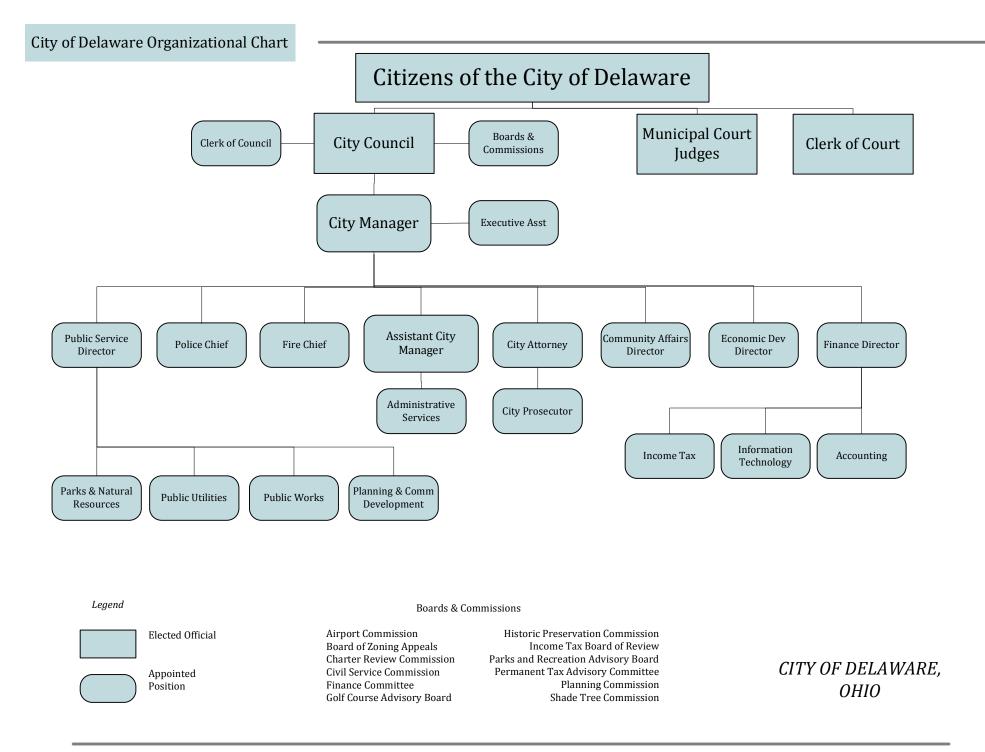

We are pleased to present this report to the residents and taxpayers of the City of Delaware.

Sincerely,

Dean P. Stelzer

INDEPENDENT AUDITOR'S REPORT

To the City Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Delaware, Delaware County, Ohio (the City), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Wilson, Shannon & Snow, Inc.

City of Delaware Delaware County Independent Auditor's Report

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Delaware, Delaware County, Ohio, as of December 31, 2014, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General and Fire/EMS Income Tax Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As disclosed in Note 2B, the City restated the Glenn Road South Construction Fund, Glenn Road Bridge TIF Fund, Glenn Road North Construction Fund and Governmental Activities to properly account for due from other governments and due to other governments. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and is not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America.

City of Delaware Delaware County Independent Auditor's Report

In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 10, 2015, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited

The management of the City of Delaware [the City] provides the following information as an introduction, overview, and analysis of the City's financial statements for the year ended December 31, 2014. Readers should also review the basic financial statements to further enhance their understanding of the City's financial performance.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. The former is organized so the reader can first understand the City's financial status as a whole. The latter, and subsequent statements, provide an increasingly detailed look at specific financial conditions.

The Statement of Net Position and Statement of Activities [collectively referred to as the government-wide statements] provide information about the activities as an entire operating entity, presenting both an aggregate view of the City's finances and a longer-term view of those assets. Major fund statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The proprietary fund's statements are prepared on the same basis as the government-wide statements.

Reporting the City as a Whole

Statement of Net Position and Statement of Activities

These government-wide statements demonstrate how the City did financially in 2014, as a whole. They are prepared on the accrual basis of accounting, similar to the way private-sector businesses prepare theirs. This basis of accounting includes all assets and liabilities, deferred inflows and outflows of resources, and accounts for the reporting year's revenues and expenses, regardless of when the money was received or paid.

- The Statement of Net Position. This statement [page 15] reports all assets and deferred outflows and liabilities and deferred inflows of the City as of December 31, 2014. The difference between total assets and deferred outflows and the total liabilities and deferred inflows is reported as "net position". Increases in net position generally indicate an improvement in financial position, while decreases may indicate a deterioration of financial position.
- The Statement of Activities. This statement [page 16] serves the purpose of the traditional income statement. It provides consolidated reporting of the results of all activities of the City for the year ended December 31, 2014. Changes in net position are recorded in the period in which the underlying event takes place, which may differ from the period in which cash is received or disbursed. The Statement of Activities displays the expense of the City's various programs net of related revenues, as well as a separate presentation of revenues available for general purposes.

Reporting on the City's Most Significant Funds

Fund Financial Statements

These statements provide financial position and results of the City's major funds. A fund is an accounting entity created to account for a specific activity or purpose. Major funds of the City for 2014 are the General Fund, Fire/EMS Income Tax Fund, Capital Improvement Fund, Glenn Road South Construction Fund, Water Fund, Sewer Fund, Storm Sewer Fund, and Refuse Fund. The creation of some funds is mandated by law and others are

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited [continued]

created by management to demonstrate financial compliance with budgetary or legal requirements. Funds are classified into three broad categories: governmental funds, proprietary funds, and fiduciary funds.

• Governmental Funds. Governmental funds are used to account for "governmental-type" activities. Unlike the government-wide financial statements, governmental fund statements use a "flow of financial resources" measurement focus. That is to say, the operating statement of a governmental fund attempts to answer the question "Are there more or less resources that can be spent in the near futures as a result of events and transactions of the reporting period?" Increases in spendable resources are reported in the operating statement as "revenues" or "other financing sources." Decreases in spendable resources are reported as "expenditures" or "other financing uses." We describe the differences between governmental funds and governmental activities [reported in the Statement of Net Position and the Statement of Activities] in reconciliations presented beside the governmental fund financial statements on pages 18 and 20.

The governmental fund financial statements on pages 17 and 19 separately display the governmental funds considered to be major funds. All other governmental funds – the "nonmajor" funds – are combined into a single column. Detailed financial data for each of the non-major governmental funds is provided in combining statements in the supplementary information section of this report.

- *Proprietary Funds.* There are two types of proprietary funds: enterprise funds and internal service funds.
 - Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises for which either 1) the intent is that the costs [expenses, including depreciation] be recovered primarily through user charges, or 2) determination of net income is appropriate for management control, accountability, or other purposes.

The City's Water Fund, Sewer Fund, Storm Sewer Fund, and Refuse Fund are all considered to be major funds and are displayed separately in the proprietary fund statements on pages 23 and 24. The City has three other proprietary funds, the activities of which are combined into one column for non-major funds. Detailed financial data for those funds can be found in the combining statements in the supplementary information section of this report.

o Internal Service funds are used to account for costs of providing certain centralized services [e.g., garage rotary, info tech rotary, self-insurance, worker's compensation] that the City wishes to allocate to the other departments of the government entity that use the services. An internal service fund is the appropriate accounting mechanism when it is the intent of the government to recover the full cost of providing the service through user charges to other departments.

The City's four internal service funds are combined into a single column in the proprietary fund financial statements. Detailed financial data for those funds can be found in the combining statements in the supplementary information section of this report.

• Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

A Fiduciary fund statement is on page 29 of this report.

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited [continued]

Other Information

Notes to the Basic Financial Statements

The notes provide additional and explanatory data. They are an integral part of the basic financial statements. The notes begin on page 30 of this report.

Required Supplementary Information

In addition to the basic financial statements and notes, this report also contains supplementary information [SI]. SI includes combining statements and individual fund schedules necessary for the comprehensive annual financial review [CAFR] presentation. This data begins on page 69.

Government-Wide Financial Analysis

Table 1 presents condensed information on net position as of December 31, 2014 and 2013.

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited [continued]

Governmental assets increased overall 2.29% [\$3.2 million] in 2014, almost entirely within current and other assets. Equity in pooled cash and cash equivalents increased \$4.5 million in 2014. Program revenues increased \$2.3 million and General Revenues increased \$763 thousand resulting in said increase. Business assets increased over \$22 million in 2014, 63.6% of that within current and other assets, and the remaining 36.4% in net capital assets. The loan reimbursements, postponed in 2013, for the Water Treatment Plant projects were collected in 2014. This alone increased equity in pooled cash and cash equivalents \$10.9 million and reduced the internal balance owed to Governmental funds by another \$1.3 million. Net capital assets increased \$8 million, mostly from the near completion of the Water Treatment Plant projects. The 2011 internal balance of \$302 thousand, which is an amount owed to the Governmental funds in future years for the Cactus Hallow land acquisition, was reduced to \$114.8 thousand for 2014.

Governmental current and other liabilities decreased in total by \$13.3 million. Based on timing of bond anticipation notes issued in 2014 and the reporting as long-term notes in 2014, current liabilities decreased by \$14.9 million and increased long-term liabilities by the same. And the City increased total notes outstanding by \$2.55 million during 2014. With the notes' activities, along with bond and other debt payments, total governmental liabilities decreased by 1.9% in 2014. Business current and other liabilities decreased in 2014 with contracts payables for the water plant expansion project [\$2.2 million]. Long-term liabilities increased \$17.6 million, the net of loan proceeds drawn down for the Water Treatment Plant projects and bond payments made during 2014.

Over time, net position can serve as a useful indicator of a government's financial position. Increases in net position generally indicate an improvement in financial position. At December 31, 2014, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$178 million. The City's financial position improved over 2013 by \$10 million.

By far, the largest portion of the City's net position [61 percent] reflects its net investment in capital assets [e.g., infrastructure, land, buildings, machinery, and equipment], less accumulated depreciation, less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens. Consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets, themselves, cannot be used to liquidate these liabilities.

A portion of the City's net position [22.3 percent] represents resources that are subject to external restriction on how they may be used. This category of net position increased 22.3% in 2014 from \$32.4 million at December 31, 2013 to \$39.7 million.

The remaining balance of unrestricted net position, \$30.1 million, is available for future use as directed by City Council.

The following, table 2, represents condensed information on the changes in net position for the years ended December 31, 2014 and 2013.

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited [continued]

Program revenues represented 34 percent of total revenues for governmental funds and 98 percent of total revenues for business-type activities. Federal, state, and local funding, engineering fees, permits and other associated fees, and municipal court fees represent program revenues for governmental activities. Revenues for business-type activities are made up from utility charges to residents for water, sewer, storm sewer, and refuse, capacity fees to new customers for connecting to utility water and sewer lines, developer-contributed water and sewer lines, golf course revenues, and parking lot revenues. Program revenues for governmental activities increased 20.5% in 2014. *Charges for services* increased slightly less than 6%, \$367 thousand, mostly in General Government and Municipal Court. *Operating Grants and Contributions* were down 18.8% in 2014; mostly for Public Safety, Parks & Facilities and Public Works. *Capital Grants and* Contributions increased in 2014 [\$2.1 million], the majority in Public Works [\$2.4 million] and Public Safety [\$41 thousand], offset by a decrease in Community Development program revenue of \$ 366 thousand. Program Revenues in the Business-type increased 11.5% [\$2.2 million] overall in 2014. *Charges for services* increased 6% [\$1.11 million], *Operating Grants and Contributions* decreased \$17,500, and *Capital Grants and Contributions* [consisting mostly of developer-contributed infrastructure] increased almost 97% [\$1.12 million].

For General Revenues, *Income tax* revenues increased \$1.6 million from 2013. Tax Increment Financed [TIF] districts were approved in 2008. These will provide *payments in lieu of taxes* over the next 20 to 30 years. This cost center increased from 2013 by \$138 thousand. *Special assessments* were up \$83 thousand in 2014 for the City's Safewalk Program. Intergovernmental revenues from the State and County agencies were down \$219 thousand contributing to a decrease in *grants and other contributions not restricted to specific programs* in 2014 of \$298 thousand. *Miscellaneous revenues* decreased \$700 thousand in 2014.

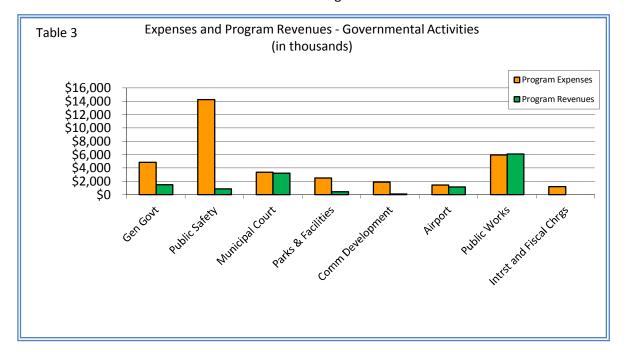

The major program expense for governmental activities is public safety, which includes police and fire, and accounts for 40 percent of all governmental expenses. General government expenses, 13.6 percent, Public Work's maintenance of the City's roads, lights, and signalization, 16.7 percent, and Municipal Court's expenses, which includes the Court and Clerk of Court, totaling 9.5 percent, are other significant governmental cost centers. For 2014, municipal court expenses increased almost 20%, mainly due to operations. Public safety expenses decreased 5.7% from 2013. Park & Facilities expenses decreased \$203 thousand from 2013; expensive maintenance required in 2013 was, fortunately not necessary in 2014. Public Works expenses increased \$749 thousand in 2014. General government expenses decreased \$520 thousand in 2014, mostly related to operations. Community Development expenses increased by \$524 thousand for 2014. Airport operations decreased in total just under \$321 thousand in 2014. Overall, governmental activity expenses decreased \$177 thousand [0.5%] in 2014.

Public utility costs for water, sewer, storm sewer, and refuse account for over 98 percent of the City's business-type activities and are funded primarily from charges for services. For 2014, these activities' expenses also increased \$711 thousand [just over 4.7%], most [\$812 thousand] attributable to the Water, Storm Sewer, and Refuse funds as services and charges.

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited [continued]

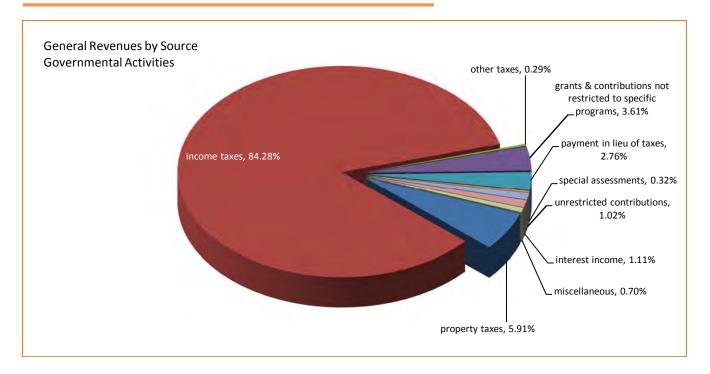

Governmental Activities

Table 3 indicates the total cost of services and revenues to offset those services for governmental activities. The statement of activities reflects the cost of program services and the charges for services, grants, and other contributions offsetting those services. The amount remaining identifies the cost of those services supported by general revenues such as tax revenues and unrestricted intergovernmental revenues.

From this graphic, it is clear that for most governmental activities, program revenues are not sufficient to cover program expenses and that approximately 66 percent of the revenues to provide these services are derived from the City's general revenues; primarily income and property taxes, and State shared revenues. For 2014, most of the Public Works revenue was in the form of State funding and capital asset donations from developers. Community Development is funded mostly from Federal grants and repayments of outstanding Federal loans. Operations at the Airport are funded by charges for services and general revenues. Park and recreation improvements are funded mainly by income taxes, impact fees, paid by developers, and general revenue. Only the Public Works had net "revenue" after expenses were paid. All others were supplemented by general revenues for 2014. Following is a chart depicting the sources and percentages of the City's general revenues.

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited [continued]

Governmental Funds Financial Analysis

The City's major governmental funds are the General Fund, Fire/EMS Income Tax Fund, Capital Improvement Fund, and the Glenn Road South Construction fund. There is no anticipation of future fund resource limitations on any of the major governmental funds. The General Fund and Fire/EMS Income Tax Fund are heavily funded by income taxes paid into the City by residents who work inside or outside of the City and non-residents working in the City. There was a significant increase noted in fund balance and fund net position for the Fire/EMS Income Tax fund in 2014 attributed greatly to \$603 thousand more in income tax collections over 2013, and \$1.9 million less in expenditures. The General Fund balance decreased by approximately \$630 thousand. Although revenues in the fund increased by just over \$1.6 million, total expenditures and financing uses increased by almost \$2.67 million. The Parks & Recreation fund, which is merged into the General Fund for reporting, had its recreational programs operated by the YMCA beginning in 2012, so the operational costs required to run these programs is no longer a cost to the City. The Capital Improvement Fund is funded by federal and state grants and transfers from the General Fund. When grants are in high demand and short supply, as continued the case again in 2014, the fund is more reliant on General Fund transfers. Transfers were significant enough to cover expenditures and the fund balance increased \$1.82 million from 2013. The Glenn Road South Construction fund was initially funded in 2006 by a \$12.5 million bond anticipation note, which was rolled-over in 2007 and 2008. In 2009, this note was increased to \$18 million and at the end of 2010, as well as 2011, Glenn Road South, Middle, and North bond anticipation notes had been paid down to \$14.530 million. For 2012, a new 'section' of the Glenn Road South area was resurfaced and these notes increased to \$15.525 million. At the end of 2014, the notes stand at \$15.285 million. These notes are funding a project being accounted for in several different funds, so the allocation of the note proceeds varies over the years these projects are in process; the majority allocated to the Glenn Road South fund. For 2014, the beginning fund balances and net position of the Glenn Road South and North funds were restated to include the amount owed by the Delaware South New Community Authority and Northern New Community Authority for infrastructure where the City has funded construction within the Authorities' boundaries. These restatements increased beginning balances by \$9.52 million and \$659 thousand, respectively.

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited [continued]

Business-Type Activities Financial Analysis

The City's major business-type funds are the Water, Sewer, Storm Sewer, and Refuse funds. As a rule, these funds consistently generate sufficient revenues to cover costs, in part due to capacity fees charged to new customers and developers to hook into the City's water and sewer lines, and storm sewer and refuse fees charged to all residents and businesses. All utility rates are reviewed annually to determine whether or not rates should be increased in order to cover current expenses and to prepare for. There was no increase for 2014 and none is scheduled for 2015. There are no known significant future fund resource limitations on any of the major business-type funds.

Budgetary Highlights

The City prepares an annual budget of revenues and expenditures/expenses for all funds of the City for use by City department heads and such other budgetary documents, as are required by State statute, including the annual appropriations ordinance, which is effective the first day of January. The City's most significant budgeted fund is the General Fund. The final estimated resources were exceeded by actual revenues by just 1.25%. The final appropriations, including transfers to other funds, increased 26.62% over original but actual expenditures were below the original appropriation and below the final appropriation by \$744 thousand [3.9%]. Broken down by program; Public Safety expenditures were 4.4% under budget, and General Government expenditures were 8.4% under budget.

Capital Assets and Debt Administration

The City's net investment in capital assets respectively for governmental and business-type activities as of December 31, 2014, was \$41.3 million and \$67.2 million. This investment in capital assets includes land, land improvements, buildings and improvements, roads, bridges, storm sewers, traffic signalization, street lighting, machinery and equipment, and water and sewer lines. There were slight changes in governmental activity capital assets and significant changes in business-type activity capital assets during 2014. The net investment in capital assets is directly affected by increases to capital assets, debt, and depreciation. For 2014, capital assets in governmental activities increased by \$115 thousand [depreciation and disposals being less than additions], and total debt [including notes payable and other long-term liabilities] decreased \$103 thousand. For business-type activities, there were net increases to net capital assets of \$7.9 million and increases in debt of \$17.6 million, mostly attributable to the Water Treatment Plant project. Work in process that was completed in 2014 included the new Fire Department Substation 3 [\$3.1 million], Houk Road Trail Bridge [\$252 thousand] and Pumphrey Terrace Storm Sewer [\$266 thousand]. Note 10 to the basic financial statements provides details on the capital asset activity during 2014.

At December 31, 2014, the City had several long-term obligations outstanding totaling over \$121 million. The obligations included \$49.7 million in bonds. Of this amount, \$20.1 million will be repaid from business-type activities. As mentioned, the City entered into a long-term loan with Ohio Water Development Authority to fund construction of the new Wastewater Treatment Facility. Proceeds totaled \$26.3 million. The improvements, completed in 2008, increased the City's wastewater treatment capacity from 5 million gallons per day to 10 million gallons per day. This additional capacity is needed to service the continued growth of the City for the next 15 to 20 years. As of December 31, 2014, \$17.9 million remained outstanding on the loan. The City entered into 2 long-term loans with OWDA in 2011 to assist in funding the completion of the Westside Transmission Main Waterline project and the Penry Road Wellfield. These loans totaling \$3.2 million had a year-end balance of just

Management's Discussion and Analysis For the Year Ended December 31, 2014 Unaudited [continued]

over \$3.0 million. In 2012, the City obtained another loan from OWDA to fund a Water Treatment Plant Rehabilitation and Expansion project. This loan will have a maximum of almost \$32 million and the expansion project was completed in 2014, the rehab project will be completed by May 2015. At the end of 2014, the amount borrowed was just under \$28 million. Payback should begin in 2015 after the projects are both completed. In 2012, the City entered into 2 capital leases; one for the new Fire Department Ladder Truck [\$1.1 million] and one for 2 Refuse Department Packer Trucks [\$382 thousand]. Repayment began on the ladder truck in 2012 and the balance at December 31 was just over \$678 thousand. Repayment began in 2013 on the packers and their balance was just over \$252.5 thousand.

In addition to the debt outlined above, the City's long-term debt also includes compensated absences and pension-related obligations. Additional information on the City's long-term debt can be found in Note 11 of this report.

Current Issues

The City has one bond anticipation note outstanding for \$15.285 million [\$14.885 million long-term and \$400 thousand short-term]. These notes are for the Glenn Road Extension project notes to extend Glenn Road from Curve Road to US23 and for the City's Safewalk Program which involves repairing and replacing unsafe sidewalks within the City. Of the amount outstanding at year-end, \$14.885 million was re-issued or converted to bonds in 2015 and therefore classified as long-term in the 2014 financial statements.

Request for Information

This financial report is designed to provide a general overview of the City's finances for all those interested. Questions concerning any of the information provided in this report or requests for additional information should be directed to Dean P. Stelzer, Finance Director, 1 South Sandusky Street, Delaware, OH 43015.

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities December 31, 2014

Total Governmental Funds Balances		\$ 41,856,15	59
Amounts reported for governmental activities in the Statement of Net Position are different because:			
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		87,151,02	27
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds:			
Income Taxes Receivable	2,742,426		
Delinquent Property Taxes Receivable	120,130		
Payments in Lieu of Taxes Receivable	588,764		
Due from Other Governments	608,239		
Total		4,059,55	9
Other deferred outflows of resources as they relate to debt obligations are not available to pay for current period expenditures in the funds:			
Deferred Charge for refunding bond issue	18,791		
Total		18,79	91
Internal service funds are used by management to charge the costs of garage services, information technology, insurance, and workers compensation to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position:			
Net Position at 12/31/2014	3,843,304		
Capital assets, included above	(7,867)		
Compensated absences [total], included below	92,955	2.020.20	
Total		3,928,39	12
Long-term liabilities, including bonds payable, capital leases, and accrued interest payable,			
are not due and payable in the current period and therefore are not reported in the funds:	(120 551)		
Accrued Interest Payable	(139,551)		
General Obligation Bonds	(11,572,835)		
Income Tax Bonds	(17,970,000)		
Long-term Note	(14,885,000)

City of Delaware, Ohio Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2014

Net Change in Fund Balances - Total Governmental Funds		\$ 17,255,299
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount		
by which capital outlays exceeded depreciation in the current period.		
Capital Outlay	1,783,509	
Donated Capital Assets	2,625,139	
Depreciation	(4,293,303)	
Total		115,345
Revenues in the statement of activities that do not provide current financial resources are not reported as		
revenues in the funds.		
Income Tax	376,933	
Property Taxes [delinquent]	(18,247)	
Charges for Services	(247,104)	
Payments in Lieu of Taxes	52,308	
Intergovernmental	(161,758)	
Total		2,132
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment		
of the principal said debt consumes the current financial resources of governmental funds. Neither		
transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance		
costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are		
deferred and amortized in the statement of activities.		
Long-term Note Issued		(14,885,000)
tepayment of bond and capital lease principals are expenditures in the governmental funds, but the		
repayment reduces long-term liabilities in the statement of net position.		1,692,120
Repayment of bond and capital lease principal		
nterest is reported as an expenditure when due in governmental funds, but is accrued on outstanding debt on the		
statement of activities. Premiums are reported as revenues when debt is first issued; however, these amounts are		
allocated as an expense over the life of the bond on the statement of activities.		
Amortization of Premium	32,204	
Amortization of Bond Discounts	(2,406)	
Total		29,798
n the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest		
expenditure is reported when due. Other related expenses do not require the use of current financial resources		
and therefore are not reported as expenditures in governmental funds.		4,659
some expenses reported in the statement of activities, such as compensated absences and police and fire past		
service liability which represent contractually required pensioncontributions, do not require the use of		
current financial resources and therefore are not reported as expenditures in governmental funds.		
Compensated Absences	922,815	
Police and Fire Past Service Liability	7,849	
Total		930,664
The internal service funds used by management to charge the the costs of garage, information technology, insurance,		
and workers' compensation to individual funds are not reported in the entity-wide statement of activities.		
Governmental fund expenditures and related internal service fund revenues are eliminated. The change for		
governmental funds is shown for the year.		
Change in Net Position for 2014	(1,142,022)	
Depreciation Expense, included above	7,325	
Compensated Absences, included above	5,367	
Donated Capital Assets, included above	(3,329)	
Total		(1,132,659)
Change in Net Position of Governmental Activities		\$ 4,012,358

Noncash capital transactions:

The Water fund received water lines donated by developers and contributions from governmental activities with a fair value of \$632,790. These were recorded as capital assets.

The Water fund incurred capitalized interest costs of \$216,077 related to its Ohio Water Development Authority loan. These costs are reflected as loan proceeds and acquisition and construction of capital assets.

The Sewer fund received sewer lines donated by developers and contributions from governmental activities with a fair value of \$854,047. These lines were recorded as capital assets.

The Storm Sewer fund received storm sewer lines donated by developers and contributions from governmental activities with a fair value of \$799,987. These lines were recorded as capital assets.

The Garage Rotary fund received a service vehicle with a fair value of \$3,329. This was recorded as a capital asset.

Notes to the Basic Financial Statements December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Delaware [the City] have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City of Delaware, Ohio (the "City") is an incorporated municipality under the laws of the State of Ohio. Its charter was adopted November 6, 1951, and established the Council/Manager form of government. The City presently provides the following services as authorized by its charter: public safety, airport, public works, recreation and parks, cemetery, engineering, public health and water, sewer, storm sewer, and refuse enterprise activities.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are fairly presented and complete.

The primary government consists of all funds, departments, boards and commissions that are not legally separate from the City. They comprise the City's legal entity which provides various services including a public safety department, a public works department, a grounds & facilities department, a parks and facilities department, a planning & community development department, a utility department, an engineering department, and a cemetery. The City is also responsible for the construction, maintenance, and repairs associated with the water and sewer lines, and the provision of water and sewer treatment services. The City Manager and City Council have direct responsibility for these services.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; (3) the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; (4) or the City is obligated for the debt of the organization. Component units may include organizations for which the City approves the budget, the issuance of debt or the levying of taxes. The City has no blended or discretely presented component units.

Notes to the Basic Financial Statements December 31, 2014 (continued)

The Delaware Municipal Court's (the "Court") activities are included within these basic financial statements as required by Governmental Accounting Standard No. 14, *The Financial Reporting Entity,* as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus." The City includes the Court's cash balance and liability to others within its agency funds, and the City's share of Court fines collected and operating expenditures in the Municipal Court Fund. The City established this fund in 2002 because the County's population grew above 100,000 citizens, which requires the presiding judge and clerk to be elected by the County's voting residents. The Court serves as the Court of record and has jurisdiction within Delaware County. The City, however, has no ability to select or influence Court management and cannot dictate budget and other fiscal matters. The Court is presided over by a separately elected judge and clerk that have the authority to select and appoint all officials of the Court and to direct the Court's activity.

On February 12, 2007, Resolution 07-05 was adopted by Delaware City Council creating Delaware South New Community Authority [DSNCA], a jointly governed organization. On February 9, 2009, Resolution 09-05 was adopted by Delaware City Council creating Delaware North New Community Authority [DNNCA], a jointly governed organization. See Note 20 for further information.

On October 29, 2012, Resolution 12-47 was adopted for which the City accepted ownership of Oak Grove Cemetery. The City had deeded the cemetery to the Oak Grove Cemetery Company in 1906. The Company [renamed 'Association'] dissolved in 2012 and deeded the property back to the City.

B. Basis of Presentation - Fund Accounting

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the City as a whole. These statements distinguish between activities that are governmental in nature, which are normally supported by taxes and intergovernmental revenues; and business-type activities, which rely, to a significant extent, upon fees and charges for support. Indirect interfund and internal service fund activities are generally eliminated to avoid the "doubling-up" effect on revenues and expenses; direct expenses are not eliminated within these functional categories. Interfund services provided and used are not eliminated in the process of consolidation. The government-wide financial statements do not include the assets and liabilities of the City's agency funds.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The government-wide statement of net position presents the financial condition of the City at year end, displaying all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position, the difference between these other elements. Net position is displayed in three components; net investment in capital assets, restricted, and unrestricted.

Notes to the Basic Financial Statements December 31, 2014 (continued)

The Net Investment in Capital Assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflow of resources attributable to the unspent amount should not be included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflow of resources should be included in the same net position component (restricted or unrestricted) as the unspent amount.

The *Restricted* component of Net Position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported. The Net Position is reported as restricted when constraints placed upon their use are either: (1) externally imposed by creditors [such as through debt covenants], grantors, contributors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation.

The *Unrestricted* component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position. When both restricted and non-restricted resources are available for use, it is the City's policy to use non-restricted resources first, and then restricted resources, as they are needed.

The government-wide statement of activities presents a comparison between expenses and program revenues for each segment of the business-type activities of the City and for each governmental program. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and proprietary funds are reported in separate columns in the fund financial statements. All other funds are aggregated and reported as non-major governmental or non-major enterprise funds.

The accounting policies and financial reporting practices of the City conform to accounting principles generally accepted in the United States of America for local governments as prescribed by the GASB.

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing

Notes to the Basic Financial Statements December 31, 2014 (continued)

accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances/equity, revenues, and expenditures [expenses]. Fund accounting segregates funds according to the intended purpose and is used to aid management in demonstrating compliance with financial-related legal and contractual provisions.

Governmental Funds:

Governmental funds are those through which most governmental functions are typically financed. The acquisition, use, and balances of the City's expendable financial resources and related current liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of financial position. The following are the City's major governmental funds:

General Fund – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The fund balance of the General Fund is available to the City for any purpose provided it is expended or transferred according to the City's Charter and Code and the general laws and regulations of the State of Ohio.

Fire/EMS Income Tax Fund – To account for the collection and distribution of City-levied income taxes used for the Fire Department and Emergency Medical Services.

Capital Improvement Fund – To account for income taxes earmarked for capital improvements used for general improvement of all City facilities and operations.

Glenn Road South Construction Fund – To account for construction costs of the southern-most 8,700 feet of roadway from the Glenn Ross development to US 23 South.

Other Governmental Funds of the City are used to account for (a) accumulation of resources for, and payment of, general long-term debt principal, interest, and related costs; (b) financial resources to be used for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary funds; and (c) for grants and other resources when use is restricted for a particular purpose.

Proprietary [Business-type] Funds:

Proprietary funds are used to account for the City's ongoing organizations and activities that are similar to those found in the private sector where the intent of the governing body is that the cost [expenses, including depreciation] of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The City reports the following major proprietary funds:

Water Fund – Accounts for the operations of water treatment, distribution, administration, and related expenses, including capital improvements and debt service. The operations are exclusively financed by customer user charges.

Notes to the Basic Financial Statements December 31, 2014 (continued)

Sewer Fund – Accounts for the wastewater collection, treatment, administration, and related expenses, including capital improvements and debt service. The operations are exclusively financed by customer user charges.

Storm Sewer Fund – Accounts for fees charged to residents and businesses to construct and maintain the City's storm sewers.

Refuse Fund – Accounts for the operations of the solid waste collection and recyclable materials collection systems, and related expenses including capital improvements. The operations are exclusively financed by customer user charges.

Other non-major enterprise funds are used to account for the operations of the City's golf course and parking lots.

Additionally, the City reports the following fund types:

Internal Service Funds – are used to account for the financing of goods or services provided by one department of the City to other departments of the City on a cost-reimbursement basis, such as vehicle maintenance, information technology, self-insurance, and worker's compensation costs.

Fiduciary Funds – are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and other funds. The City's fiduciary funds include agency funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These activities include funds received from the Municipal Court and passed through to the Law Library or the State Highway Patrol, funds collected from the Planning department and passed through to the State from building permits, and tax abatement collections passed through to the school districts.

C. Basis of Accounting

Governmental Funds The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows, current liabilities, and deferred inflows are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Governmental fund types follow the modified accrual basis of accounting. Under this method of accounting, the City recognized revenue when it becomes both measurable and available. Measurable means the amount of the transaction can be determined. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the City is considered to be two months [60 days] after year end. Grants and entitlements must also meet timing, eligibility, and contingency requirements. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable. Principal and interest on general long-term debt are

Notes to the Basic Financial Statements December 31, 2014 (continued)

recognized as expenditures when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Revenues accrued at the end of the year included income tax withholdings, hotel transient taxes, property and other taxes, intergovernmental, rents [building, parking, t-hangar], billings for services and materials, and loans. Revenues not accrued at year-end included fines, permits, and parking meter revenues because they are generally not measurable until received in cash.

Deferred Outflows/Inflows of Resources: In addition to assets, the statements of financial position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources [expense/expenditure] until then. For the City, deferred outflows of resources include a deferred charge on refunding reported in the government-wide statement of net position. The deferred charge resulted from the difference in carrying value of refunded debt in 2002, and its reacquisition price. This amount is being deferred and amortized over the life of the refunding debt.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources [revenue] until that time. For the City, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2014, but which were levied to finance calendar year 2015 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes income taxes, delinquent property taxes, and intergovernmental revenues. These amounts are deferred and recognized as an inflow of resources in the period they become available.

Because governmental funds' financial statements use a different measurement focus and basis of accounting than the government-wide statements, governmental funds' financial statements include reconciliations to the government-wide statements.

Proprietary Funds All proprietary funds [enterprise funds and internal service funds] are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the balance sheet.

Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The accrual basis of accounting is used for reporting purposes by the proprietary funds. Revenues are recognized when they are earned and expenses are recorded at the time liabilities are incurred. Unbilled service charges are recognized as revenue at year-end.

Notes to the Basic Financial Statements December 31, 2014 (continued)

D. Budgets and Budgetary Accounting

The City's budget is adopted and modified as follows:

- 1. Prior to August 15, the Finance Director submits, to the County Budget Commission, an estimate of year end balances and of the next year's revenues. The Commission returns a Certificate of Estimated Resources, limiting the maximum amount the City may expend from a given fund type.
- Prior to November 15, the City Manager submits to City Council an estimate of the expenditures
 necessary to conduct the affairs of the City for the year commencing the following January 1. The
 legal level of control is payroll expenditures/expenses and other expenditures/expenses. For
 reporting purposes, the City further divides "other" by their function.
- 3. Public hearings are held to obtain taxpayers' comments.
- 4. Prior to January 1 and after publication of the proposed budget ordinances, the budget is legally enacted by ordinance.
- 5. Shortly after January 1, the Certificate of Estimated Resources is amended to reflect the actual unencumbered balances from the preceding year and for changes in estimated resources since the original submittal.
- 6. Supplemental appropriations and transfers of appropriations between funds and departments must be approved by City Council. Supplemental appropriations were necessary during the year. The budget figures that appear in the budgetary comparisons represent the final appropriation amounts, including all amendments and modifications.

Expenditures cannot exceed appropriations at the legal level of control. Unencumbered appropriations lapse at year-end, and encumbered appropriations are reported as expenditures in the current year.

Encumbrance accounting is utilized in the Governmental Funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve a portion of the applicable appropriation, and to maintain legal compliance. Unclaimed Funds and Municipal Court Unclaimed Funds did not have a legally adopted budget for 2014.

While reporting financial position, results of operations, and changes in fund balance/equity on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

Schedules of Revenue, Expenditures, and Changes in Fund Balances – Budget and Actual (Budget Basis) – for the General Fund and Fire/EMS Income Tax Fund are presented on the budgetary basis in the Basic Financial Statements to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

Notes to the Basic Financial Statements December 31, 2014 (continued)

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- Encumbrances are recorded as the equivalent of an expenditure (budget basis) in order to
 determine compliance with Ohio law, and to reserve that portion of the applicable appropriation
 as opposed to a reservation of fund balance for governmental funds (GAAP basis);
- 4. Some funds are included in the General fund (GAAP basis), but have separate legally adopted budgets (budget basis); and,
- 5. Adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis are as follows:

	Fire/EMS
General	Income Tax
(\$ 630,350)	\$ 919,939
166,562	(32,647)
68,574	(341,618)
(172,773)	(1,119,417)
(1,336,034)	0
(\$ 1,904,021)	(\$573,743)
	(\$ 630,350) 166,562 68,574 (172,773) (1,336,034)

E. Cash and Investments

Cash received by the City is deposited in a central bank account. Money for all funds, except for cash in segregated accounts, is maintained in the account or temporarily used to purchase investments. Individual fund integrity is maintained through City records. Each fund's interest in the pool of cash and investments is presented as "Equity in Pooled Cash and Cash Equivalents" on the combined balance sheet. Cash equivalents refer to investments, such as those described below, which are readily converted to cash with no loss of principal.

The Ohio Revised Code authorizes the City to invest in United States and State of Ohio bonds, notes, and other obligations; bank certificates of deposit; bankers' acceptances; commercial paper notes rated prime and issued by United States corporations; written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days; and STAROhio.

During the year, investments were limited to repurchase agreements and the State Treasury Asset Reserve of Ohio [STAROhio]. Except for non-participating investment contracts, investments are reported at fair value, which is based on quoted market prices. Non-participating investment contracts, such as repurchase agreements, are reported at cost.

STAROhio is an investment pool managed by the State Treasurer's Office, which allows governments of the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an

Notes to the Basic Financial Statements December 31, 2014 (continued)

investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on December 31.

Interest income is distributed to the funds according to Ohio constitutional and statutory requirements. Interest revenue credited to the general fund during the year amounted to \$156,334, which includes \$19,978 assigned from other funds. Other major funds and other non-major governmental funds also received interest in the amounts of \$122,664 and \$28,696, respectively.

F. Materials and Supplies Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

Inventories of proprietary funds are stated at the lower of cost or market on a first-in, first-out basis. Inventories of the proprietary funds are expensed when used.

G. Restricted Assets

Restricted assets represent certain resources, which are segregated from other resources of the City to reflect restricted cash held for retainage against construction contracts, customer deposits paid into the City for utilities and airport t-hangar leases, and for cash in segregated accounts for municipal court unclaimed funds.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the current year-end, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and expenditure is reported in the year in which services are consumed.

I. Interfund Assets and Liabilities

Short-term interfund loans or the short-term portion of advances are classified as "interfund receivables/payables." Long-term interfund loans or the long-term portion of advances are classified as "advances from/to other funds."

Amounts owed to a particular fund by another fund in the City for goods or services rendered are classified as "due from other funds/due to other funds." These interfund transactions are eliminated on the government-wide statements.

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Notes to the Basic Financial Statements December 31, 2014 (continued)

J. Capital Assets

Capital assets include land, improvements to land, buildings, building improvements, machinery, equipment, infrastructure and all other assets that are used in operations and that have initial useful lives extending beyond one reporting period. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure include roads, bridges, sidewalks, and similar items.

The City further defines capital assets as assets with an initial, individual cost of more than \$2,500 and an estimated useful life in excess of five years, except for infrastructure which has a threshold of \$10,000.

All capital assets are valued at historical cost, or estimated historical cost, if actual cost is not available. Donated capital assets are valued at their fair value at the time received. Interest on constructed assets, if material, is capitalized and amortized on the straight-line basis over the estimated useful life of the asset.

When capital assets are purchased, they are capitalized and depreciated in the government-wide statements and the proprietary fund statements. Capital assets are recorded as expenditures of the current period in the governmental fund financial statements.

Depreciation: Depreciation is an element of expense resulting from the use of long-lived assets. It is measured by allocating the expected net cost of using the asset over its estimated useful life in a systematic and rational manner. Depreciation has been provided using the straight-line method over the following estimated useful lives for both Governmental and Business-Type assets:

	Useful life [in years]
Land Improvements	10 – 25
Vehicles (autos and trucks)	5 – 8
Machinery, Equipment, Furniture, & Fixtures	5 – 25
Buildings	25 - 50
Building Improvements	Up to 30
Infrastructure	25 – 100
Infrastructure Improvements	5 – 50

K. Bond Discounts, Premiums, and Issuance Costs

Material discounts, premiums, and issuance costs are reported as deferred charges and amortized over the life of the bond using the straight-line method. Any material discounts or premiums (1) are shown separately from the account of the bond liability, (2) are amortized using the straight-line method, and (3) are reflected as interest income or expense in the Statement of Activities.

Notes to the Basic Financial Statements December 31, 2014 (continued)

L. Compensated Absences

The City accrues a liability for compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. These benefits are accrued into and paid out of the funds the employees' wages are paid from; primarily the General, Street Maintenance & Repair, Fire/EMS Income Tax, Airport Improvement, Municipal Court, Water, Sewer, Storm Sewer, Refuse, Golf Course, Garage Rotary, and Information Technology Rotary funds.

The liability is based on the sick leave accumulated at December 31, by those employees who are currently eligible to receive termination payments and by those employees for whom it is probable they will become eligible to receive termination benefits in the future. The amount is based on the accumulated sick leave and employees' wage rates at year end, taking into consideration any limits specified in the City's termination policy. These amounts are reported in governmental fund statements only if they have matured.

Payment of vacation and sick leave recorded in the government-wide financial statements is dependent upon many factors; therefore, timing of future payments is not readily determinable. Management believes that sufficient resources will be made available when payment is due. For governmental funds, the City's liability for unpaid accumulated sick leave and vacation time is the amount to be paid using expendable available financial resources [within 60 days] and is reported as an accrued liability in the fund from which the individuals who have accumulated the unpaid compensated absences are paid in accordance with Interpretation No. 6 of the Governmental Accounting Standards Board — Recognition and Measurement of Certain Liabilities and expenditures in Governmental Fund Financial Statements.

M. Interfund Transactions

Interfund transfers during 2014, consisted of the following:

	Trans		
	Major Fund	_	
	Capital	Other	
	Improvement	Governmental	Totals
Transfer from		_	
Major Funds			
General	\$ 3,552,467	\$ 1,491,792	\$ 5,044,259
Fire/EMS Income Tax	0	178,811	178,811
Capital Improvement	0	942,117	942,117
Other Governmental	0	2,167,000	2,167,000
Totals	\$ 3,552,467	\$ 4,779,720	\$ 8,332,187
		·	·

Notes to the Basic Financial Statements December 31, 2014 (continued)

Interfund services provided and used are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursement to a fund for expenditures/expenses initially made that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures expenses in the fund that is reimbursed.

During the course of normal operations, the City has transactions between funds, most of which are in the form of transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers. Operating subsidies are also recorded as transfers. All of the transfers described below occur on a consistent basis.

All transfers are considered in compliance with Ohio Revised Code § 5705.14 – 5705.16.

N. Fund Balance

The City reports classifications of fund equity based on the purpose for which resources were received and the level of constraint placed on the resources.

Nonspendable fund balance indicates resources that are not expected to be converted to cash because they are not in a spendable form.

Restricted fund balance are resources that have purpose constraints placed upon them by laws, regulations, creditors, grantors, or other external parties and are considered available only for the purpose for which they were received.

Committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (specifically – Ordinance; the highest level action that constitutes the most binding constraint) of City Council. Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for the use in satisfying those contractual requirements. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process.

Assigned fund balances occur through the City's purchasing policy; Council has given the City Manager and Finance Director the authority to constrain monies for intended purposes, which are reported as assigned fund balances.

All other funds in spendable form not restricted, committed, or assigned are reported as an *unassigned* fund balance.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available. The City considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

Notes to the Basic Financial Statements December 31, 2014 (continued)

O. Intergovernmental Revenues

In governmental funds, federal and state grants awarded on a non-reimbursement basis, state shared revenues, and federal entitlements are recorded as intergovernmental receivables and revenues when measurable and available. They must also meet timing, eligibility, and contingency requirements. Reimbursable-type grants are recorded as due from other governments and revenues when the related expenditures are made.

P. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Q. Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. As noted, net investment in capital assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use, either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position *Restricted for Other Purposes* includes the Internal Service Rotary fund.

The City applies unrestricted resources when an expense is incurred for purposes for which restricted and unrestricted net position are available. None of the City's restricted net position was by enabling legislation at December 31, 2014.

R. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activities of the proprietary funds. For the City, these revenues are charges for services, capacity fees for the Water and Sewer funds, reimbursements, and miscellaneous revenues. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund.

S. Donated Infrastructure

Contributions of capital in governmental and proprietary funds [donated infrastructure] arise from outside contributions of capital assets or from grants or outside contributions of resources restricted to capital acquisitions and construction. These contributions are reported as revenue in the proprietary fund financial statements and as capital grants and contributions on the Statement of Activities for both governmental and business-type activities.

Notes to the Basic Financial Statements December 31, 2014 (continued)

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. In 2014, the City had no extraordinary or special items.

2. CHANGES IN ACCOUNTING PRINCIPLES and RESTATEMENT OF FUND BALANCE/NET POSITION

A. Change in Accounting Principles

For 2014, the City has implemented GASB Statement No. 70, "Accounting and Financial Reporting for Nonexchange Financial Guarantees." This Statement establishes accounting and financial reporting standards for situations where a state or local government, as a guarantor, agrees to indemnify a third-party obligation holder under specified conditions. The implementation of GASB Statement No. 70 did not have an effect on the beginning net position/fund balance of the City.

B. Restatement of Fund Balance/Net Position

As of December 31, 2013, the City had bond anticipation notes associated with construction of roads that lie in the Delaware South New Community Authority and Northern New Community Authority. Both Authorities reside within the City limits. The Authorities have also agreed to issue bonds to pay back the City once they are financially able to. Until then, the Authorities each have a contract with the City stipulating they will remit funds to the City to pay for the roads as they are collected with Community Authority Charges. Therefore, the City will report this liability due from the Authorities beginning January 1, 2014 as a due from other governments as payable to the City.

Also as of December 31, 2013, the City had a due to others liability in the amount of \$546,593. This liability was recorded because tax increment financing fees have been received for several years with the expectation of building a bridge over a railroad track and connecting Glenn Road [north] with Glenn Parkway [south]. The sudden decline in growth reduced the expectation of the bridge being built so the City recorded the liability in the event such funds had to be refunded. Enabling legislation by Council allowed the City to use the funds for other roadwork necessary in the Glenn Parkway area. The City issued, in part, \$2.5 million in bonds in 2013 to fund this construction. The TIF proceeds will be used to pay off these bonds as they come due.

The impact of these adjustments on fund balance is as follows:

This space intentionally left blank.

Notes to the Basic Financial Statements December 31, 2014 (continued)

Funds	Balance 12/31/2013, as reported	Adjustment	Balance 1/1/2014
Major Funds Glenn Rd S Constr.	(\$ 9,259,649)	\$ 9,521,756	\$ 262,107
Other Governmental Glenn Rd Bridge TIF Glenn Rd N Constr.	0 (665,987)	546,593 658,976	546,593 (7,011)

The impact of these adjustments on net position is as follows:

	Net Position 12/31/2013,		Net Position
	as reported	Adjustment	1/1/2014
Governmental Activities	\$ 71,014,101	\$ 10,727,325	\$ 81,741,426

3. COMPLIANCE AND ACCOUNTABILITY

A. Accountability – Fund Deficits

At December 31, the following funds had deficit fund balances:

Nonmajor Funds	
FAA Airport Alloc Improvements	\$(18,111)

The fund deficit was caused by applying GAAP. The General Fund is not liable for any deficits when accruals occur.

This space intentionally left blank.

Notes to the Basic Financial Statements December 31, 2014 (continued)

4. FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the government funds. Below are the fund balances, as classified, on December 31.

		Fire/EMS Inc	Capital	Glenn Rd S	Other Govt	Total Govt
Fund Balances	General	Tax	Improv	Constr	Funds	Funds
Nonspendable Fund Balance						
Inventories	\$ 0	\$ 0	\$ 0	\$ 0	\$ 52,999	\$ 52,999

Total Assigned	172,773	0	0	0	0	172,773
Unassigned Fund Balance	5,700,232	0	0	0	(18,111)	5,682,12
Total Fund Balances (Deficits)	\$ 6,404,347	\$ 5,407,585	\$ 2,943,523	\$11,953,362	\$ 15,147,342	\$ 41,856,159

Within the General Fund Unassigned Fund Balance are funds associated with the Development Reserve and Budget Reserve funds. These funds were established by City Ordinance 11-106 and Resolution 14-17, respectively. The Development Reserve fund was set up as a management-discretion set-aside to assist

Notes to the Basic Financial Statements December 31, 2014 (continued)

with debt service, and support future economic development opportunities. There are no "minimum fund balance" or "expenditure-specific" requirements. If the City needs the money for an allowable purchase, they just need proper appropriation authority. The Budget Reserve fund is more formal and was set up to maintain a balance equal to 5% of the [cash-basis] revenues credited to the General Fund in the preceding fiscal year. It will be used to cover in a given budget year revenue shortfalls or when expenditures exceed projected amounts. If funds are used, the City will re-establish the required balance within 3 years. The Budget Reserve fund balance at December 31 was \$873,323.

5. CASH AND CASH EQUIVALENTS

State statutes classify monies held by the City into three categories:

- Active deposits are public deposits necessary to meet current demands on the treasury. Such monies
 must be maintained either as cash in the City Treasury, in commercial accounts payable or
 withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money
 market deposit accounts.
- Inactive deposits are public deposits that Council has identified as not required for use within the
 current five-year designation period of depositories. Inactive deposits must either be evidenced by
 certificates of deposit maturing not later than the end of the current period of designation of
 depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.
- 3. Interim deposits are deposits of interim monies. Interim monies are those monies that are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including pass book accounts.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Finance Director by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

State statute permits interim monies to be deposited or invested in the following securities:

- 1. United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, governmental national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days; Bonds and other obligations of the State of Ohio;

Notes to the Basic Financial Statements December 31, 2014 (continued)

- 4. No load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and
- 5. The State Treasurer's investment pool (STAR Ohio).

The City may also invest any monies not required to be used for a period of six months or more in the following:

- 1. Bonds of the State of Ohio;
- 2. Bonds of any municipal corporation, village, county, township, or other political subdivisions of this State, as to which there is no default of principal, interest or coupons; and
- 3. Obligations of the City.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Finance Director, or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. The City's policy is to place deposits with major local banks approved by City Council. All deposits, are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by Ohio Revised Code § 135, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system in the name of the respective depository bank, and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at a Federal Reserve Bank in the name of the City.

At December 31, the carrying amount of the City's deposits was \$2,312,699 and the bank balance was \$3,934,486. Of the bank balance, \$584,323 was covered by Federal Deposit Insurance and \$3,350,163 was uninsured and uncollateralized. Although all statutory requirements for these deposits of money had been followed, non-compliance with federal requirements could potentially subject the City to a successful claim by the FDIC.

Restricted Assets: The City is holding \$1,486,260 in restricted assets in the City Treasury. These assets are restricted by construction contracts, unclaimed funds of the Municipal Court, and as deposits for utility service and T-hangar rentals. These amounts are included in the carrying amount of deposits.

Notes to the Basic Financial Statements December 31, 2014 (continued)

Investments As of December 31, 2014, the City had the following investments, which are reported at fair value:

Maturity in 6 months or less	Fair Value
STAR Ohio [AAAm]	\$ 57,310,155
Repurchase Agreement [AAA]	353,179
Total Investments	\$ 57,663,334

Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy generally limits investment maturities of two years or less.

Credit Risk – The City's investments in STAR Ohio are rated AAAm by Standard & Poor's. The City currently does not have any policy pertaining strictly to the investment's credit risk. The investments underlying the City's repurchase agreement were rated AAA.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Of the City's investment in repurchase agreements, the entire balance is collateralized by underlying securities pledged by the investment's counterparty, not in the name of the City.

Concentration of Credit Risk – The City places no limits on the amount which may be invested in any one issuer. The following table includes the percentage of each investment type held by the City at December 31:

Description		% of Total
STAR Ohio	\$ 57,310,155	99.388
Repurchase Agreement	353,179	0.612
Total Investments	\$ 57,663,334	100.00%

The following is a reconciliation of cash and investments as reported in the footnote above to cash and investments as reported on the Statement of Net Position as of December 31:

Cash and Investments per footnote: Carrying Amount of Deposits Investments	- \$ 2,312,699 57,663,334	Cash and Investments per Statement of Net Position: Governmental Activities Business-type Activities	\$34,906,771 24,924,155
investments	57,005,554	Fiduciary Fund	145,107
Total	\$ 59,976,033	Total	\$ 59,976,033

6. MUNICIPAL INCOME TAX

The City collects an income tax of 1.85% of City of Delaware taxable income, defined as gross wages and salaries before any deductions and profits. Filing is mandatory for all residents. Employers within the City

Notes to the Basic Financial Statements December 31, 2014 (continued)

are required to withhold tax on all employees working in the City and remit those monies on either a quarterly or monthly schedule. Employers are required to reconcile those withholdings on an annual basis.

7. PROPERTY TAX

Property taxes include amounts levied against real, public utility and tangible (used in business) property located in the City. Real property taxes collected during 2014 had lien and levy dates of January 1, 2013. One half of this tax was due February 10, 2014, with the remaining balance due on July 10, 2014. Tangible personal property tax assessments have been phased out, and amounts received in 2014 were only delinquent amounts collected.

Assessed values on real property are established by state law at 35 percent of appraised market value. A reevaluation of all property is required to be completed no less than every six years. The last re-evaluation was completed in 2006. The assessed value in 2013, upon which the 2014 collections were based, was approximately \$666 million. The assessed value for 2014, upon which the 2015 collections will be based, is approximately \$674 million.

Ohio law prohibits taxation of property from all taxing authorities in excess of 1 percent of assessed value without a vote of the people. Under current procedures, the City's share is .27 percent (2.7 mills) of assessed value. Increases in the property tax rate are restricted only by voter willingness to approve such increases.

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the City of Delaware. The County Auditor periodically remits to the City its portion of the taxes collected. Taxes receivable represents *property taxes;* real and tangible personal property taxes, public utility taxes, and outstanding delinquencies, which are measurable as of December 31, 2014. Although total property tax collections for the next year are measurable, amounts to be received during the available period are not intended to finance 2014 operations.

On an accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

8. RECEIVABLES

Receivables at December 31 consisted of taxes, accounts (billings for user charged services including unbilled utility services), special assessments, interfund, intergovernmental receivables arising from grants, entitlements, loans, and shared revenues, and payments in lieu of taxes. Amounts not considered fully collectible are shown. The allowance represents an estimate of uncollectible amounts and does not represent actual cash accounts written off by management.

Notes to the Basic Financial Statements December 31, 2014 (continued)

A summary of accounts related to utility services is as follows:

	Water	Sewer	Storm Sewer	Refuse	Total
Gross Receivable	\$ 896,033	\$ 1,107,482	\$ 106,086	\$ 303,124	\$ 2,412,725
Less: Allowance for Uncollectible	23,850	32,540	2,278	14,869	73,537
Net Receivable	\$ 872,183	\$ 1,074,942	\$ 103,808	\$ 288,255	\$ 2,339,188

A summary of the principal items of intergovernmental receivables were as follows:

Governmental Activities	Amount	
Major Funds		
General		
Local Government	\$ 307,473	
Homestead and Rollback	75,108	
Local Agency Reimbursements	45,000	
Total General	427,581	
Fire/EMS Income Tax		
Local Agency Reimbursements	148,377	
Local Agency Neimbarsements	110,577	
Capital Improvement		
Road Improvement Grants	100,366	
Glenn Road S. Construction	9,025,200	
Total Major Funds	9,701,524	
Other Governmental Funds		
Street Maintenance and Repair	605,342	
State Highway	49,083	
License Fee	190,726	
Glenn Road Bridge TIF	24,642	
Municipal Court	210,062	
Police & Fire Pension	22,218	
Community Development Block Grant	75,000	
FAA Airport Expansion Grant	109,754	
Glenn Road N. Construction	447,093	
Total Other Governmental Funds	1,733,920	
Total Governmental Activities	\$ 11,435,444	

Payment in Lieu of Taxes

The City entered into several Tax Increment Financing Agreements in 2006 and 2007, which received approval from the Ohio Department of Taxation in 2008 and 2009, for the purpose of constructing several retail and commercial centers, as well as for developing residential areas.

Notes to the Basic Financial Statements December 31, 2014 (continued)

To encourage these improvements, the companies and home owners were granted an exemption from paying any property taxes on the new construction; however, payments in lieu of taxes are made to the City in an amount equal to the real property taxes that otherwise would have been due in that current year. These payments are being used to finance public improvements and will continue over the next 20 to 30 years. A receivable has been recorded in the amount of \$564,122, which represents the amounts measurable at December 31, 2014.

9. INTERFUND BALANCES

At December 31, 2014, the General Fund had an interfund receivable in the amount of \$195,489 from Other Governmental funds to provide cash flow resources until revenues were received.

The Capital Improvement Fund [which is funded by transfers from the General Fund] had an advance to the Refuse Fund for a litigated claim for the purchase of property. At December 31, 2014, the amount of this advance totaled \$114,775. On the Statement of Net Position, this amount is included in the internal balance between the Governmental and Business-type funds.

Other governmental funds had other governmental due to other funds in the amount of \$71,492 [of which \$7,989 was due to the General Fund and \$63,503 was due to other governmental funds] for allocated court costs, and an interfund payable of \$195,489 to the General Fund for advancement of cash flow resources until a transfer of money was received.

The City reported long-term advances on the fund statements of \$75,974 from the Fire/EMS Income Tax fund to the General fund at December 31, 2014. These interfund balances will be repaid as anticipated revenues are received.

Except for the internal balance, these amounts are not included in the government-wide statement of net position.

This space intentionally left blank

Notes to the Basic Financial Statements December 31, 2014 (continued)

10. CAPITAL ASSETS

Capital asset activity for the year ended December 31 was as follows:

Governmental Activities	Beginning Balance [as restated]	Additions	Deletions	Ending Balance	
Nondepreciable Capital Assets	restateaj	Additions	Deletions	Enamy Balance	
Land	\$ 8,059,294	\$ 465,754	\$ 0	\$ 8,525,048	
Construction in progress	3,774,115	952,201	(3,568,012)	1,158,304	
Subtotal	11,833,409	1,417,955	(3,568,012)	9,683,352	
Depreciable Capital Assets					
Buildings & Improvements	46,135,522	3,251,430	(52,373)	49,334,579	
Machinery & Equipment	12,277,965	1,516,720	(204,419)	13,590,266	
Infrastructure	55,572,341	1,790,555	0	57,362,896	
Subtotal	113,985,828	6,558,705	(256,792)	120,287,741	
Less Accumulated Depreciation for:

2035-2037	0	0	0	2,730,000	263,150	2,993,150
Total	\$ 29,542,835	\$ 12,244,657	\$ 41,787,492	\$ 20,111,166	\$ 10,619,476	\$ 30,730,642

General Obligation Bonds: The City issued governmental activity bonds in 2013 to finance improvements made to the Jack Florance [Mingo] Pool and the recently built Skate Park, the 8,000 square foot addition to the Justice Center, the City-wide phone system, toward the purchase of a vacant manufacturing building to use as the Public Works facility, the construction of Fire Station 303, and part of the Glenn Road construction project. In 2012, governmental activity Various Purpose Refunding bonds were issued to refund 2002 Various Purpose bonds, which were issued to fund US 23/US 42 road improvements and for downtown City street improvements. The 2012 Sewer System Improvement & Refunding bonds originated in 1992 and were refunded the first time in 2002. They were issued to fund improvements to the City's sewer system and for current sewer system improvements. The 2006 Various Purpose bonds were issued to fund several projects, including the construction of 3 T-hangars at the Municipal Airport, the purchase of land and buildings on Ross Street for the Grounds & Facilities department, landfill remediations at our Curve Road Landfill, construction of the Kingman Hill Water Tower, the 23 N. Sewer, and Houk Road improvements.

General Income Tax Special Obligation Bonds: Special obligation bonds were issued in 2009 to refund notes issued to fund the Southeast Highland Sewer construction that began in 2004. Principal and interest on the Bonds, unless paid from other sources, are to be paid from pledged revenues, including receipts of the City's general income tax, and the pledged funds. Special obligation bonds were issued in 2010 to provide for City park improvements and for the construction of the YMCA/Training and Community Center on the City's westside. Principal and interest on the Bonds are to be paid from the City's levied 0.15% income tax.

Past Service Police and Firefighters Liability: Past service liability for police and firefighters is being paid out of the General fund over time through the year 2035. The principal and interest requirements to retire this obligation at December 31 are:

Notes to the Basic Financial Statements December 31, 2014 (continued)

Year	Principal	Interest	Total
2015	\$ 8,186	\$ 10,959	\$ 19,145
2016	8,537	10,607	19,144
2017	8,904	10,241	19,145
2018	9,286	9,858	19,144
2019	9,685	9,459	19,144
2020-2024	55,036	40,687	95,723
2025-2029	67,915	27,808	95,723
2030-2034	83,808	11,915	95,723
2035	8,522	181	8,703
Total	\$ 259,879	\$131,715	\$ 391,594

Compensated Absences: Additions and deletions of accrued vacation and sick leave are shown combined. Compensated absences are recorded in the fund from which the liability will be paid.

The Ohio Revised Code (ORC) provides that the net general obligation debt of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total taxation value of property. The statutory limitations on debt are measured by a direct ratio of net debt to tax valuation and expressed in terms of a percentage. At December 31, 2014, the City's total net debt and unvoted net debt were approximately 5.1% of the total assessed value of all property within the City.

As of December 31, 2014, the City had no debt approved by the voters or Council, which had not been issued.

The aggregate amount of the City's unvoted debt is also subject to overlapping debt restrictions with Delaware County and the Delaware City School District. As of December 31, 2014 these entities have complied with the requirement that overlapping debt must not exceed 1% (10 mills) of the assessed property value.

OWDA Loans: During 2007, the City completed its loan agreement with the Ohio Water Development Authority to fund the new Wastewater Treatment Expansion Facility. This loan replaced the note issued in 2003. The loan proceeds were on a progression basis over the duration of construction, up to a maximum of \$26.17 million [plus capitalized interest] at an interest rate of 3.59%. Total proceeds to be borrowed were fully disbursed as of December 31, 2008, and OWDA finalized financing terms and repayment requirements are immediately following. In 2010, the City entered into another loan agreement with OWDA for up to \$2.225 million [plus capitalized interest] for a water-system extension on the City's far north side. The loan proceed draws were completed in 2011 and will be repaid over 25 years at an interest rate of 3.67% and OWDA financing terms and repayment requirements are immediately following. The City has 2 other OWDA funded projects; Penry Road Wellfield and the Water Treatment Expansion Project. The Wellfield project has been completed and repayment requirements have been finalized. The Expansion project is underway, but won't be completed until 2015. For the aforementioned projects that the terms are finalized, debt requirements are as follows:

Notes to the Basic Financial Statements December 31, 2014 (continued)

2035-2037	0	0	0	375,545	18,507	394,052
- otal	\$ 17,854,872	\$ 4,278,573	\$ 22,133,445	\$ 3,005,576	\$ 1,382,981	\$ 4,388,557

Capital Lease: During 2012, the City entered into a capital lease for a firetruck. This lease agreement meets the criteria of a capital lease as defined by FASB Statement No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee.

Capital assets consisting of the fire department ladder truck has been capitalized in the amount of \$1,091,176. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability is recorded in the government-wide financial statements. Principal payments are reflected as debt service expenditures and are paid from the Fire/EMS Income Tax fund.

The following is a schedule of the future long-term minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of December 31:

Year		Principal	Interest	Total
2	2015	\$ 154,926	\$ 11,368	\$ 166,294
2	2016	157,783	8,510	166,293
2	2017	160,694	5,600	166,294
2	2018	163,658	2,636	166,294
2	2019	41,384	190	41,574
Total		\$ 678,445	\$ 28,304	\$ 706,749

Also in 2012, the City entered into a capital lease for 2 Packers [trash trucks] for the Refuse fund. This lease agreement meets the criteria of a capital lease as defined by FASB Statement No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments will be classified and reflected as debt service expenditures in the financial statements for the business-type funds. These expenditures will also be reported as debt service payments on the budgetary statements.

Capital assets consisting of equipment have been capitalized in the amount of \$382,338. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability is recorded in the government-wide financial statements. Principal payments began in 2013 from the Refuse fund.

Notes to the Basic Financial Statements December 31, 2014 (continued)

The following is a schedule of the future long-term minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of December 31:

Year	Principal	Interest	Total
2015	\$ 76,105	\$ 4,147	\$ 80,252
2016	77,523	2,729	80,252
2017	78,967	1,285	80,252
2018	19,971	92	20,063
Total	\$ 252,566	\$ 8,253	\$ 260,819

Notes Payable: A note was reissued in 2014 for improvements made to Peachblow Road, Glenn Parkway Phases 1 & 2, sidewalk repairs for our Safewalks program, and recreation facility improvements. This is accounted for in the Rec Center Income Tax fund, Capital Improvement fund, Glenn Road South Construction fund, and the Glenn Road North Construction fund.

	Balance 12/31/2013	Additions	Deletions	Balance 12/31/2014	
Notes Payable					
Various Purpose – 1%	\$ 12,735,000	\$ 2,550,000	(\$ 14,885,000)	\$ 400,000	
Total Notes Payable	\$ 12,735,000	\$ 2,550,000	(\$ 14,885,000)	\$ 400,000	
Note: All notes are Governmental This note is combined to reflect how the original note was issued.					

Notes that were refinanced prior to the issuance of the financial statements and have a new maturity beyond the end of the year in which the report is issued have been reported in the government-wide statements as a long-term liability. For 2014, that amount totaled \$14,885,000 and is noted in the table at the beginning of Note 11.

Prior Year Defeasance of Bonds:

Governmental Activities: In prior years, the City defeased general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. At December 31, 2014, \$2,790,000 of bonds outstanding is considered defeased.

The reacquisition price exceeded the net carrying amount of the old debt by \$23,489. This amount was recorded as a deferred outflow of resources – deferred charge on refunding and amortized over the remaining life of the refunding debt. At December 31, 2014, \$18,791 of this deferred charge remained unamortized.

Business Type Activities: In prior years, the City defeased general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old

Notes to the Basic Financial Statements December 31, 2014 (continued)

bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. At December 31, 2014, \$2,315,000 of bonds outstanding is considered defeased.

The reacquisition price exceeded the net carrying amount of the old debt by \$117,054. This amount was recorded as a deferred outflow of resources – deferred charge on refunding and amortized over the remaining life of the refunding debt. At December 31, 2014, \$93,643 of this deferred charge remained unamortized.

12. LANDFILL CLOSURES

The City closed the Cherry Street Landfill in 1975 and the Curve Road Landfill in 1990. The City properly notified the Ohio Environmental Protection Agency for both closings. Both landfills were at 100% capacity and postclosure costs reflect estimates to monitor the landfills, as required by Ohio Administrative Code §3745-27, through the year 2020. The City awarded contracts to URS Greiner Corporation for monitoring and testing the CSL and to Burgess & Niple for monitoring and testing the CRL. No assets are restricted for payment of postclosure care costs and these costs are subject to changes related to the effects of inflation, revision of laws and other variables. The costs for monitoring and testing the landfills will be expended from the Refuse fund.

13. DEFINED BENEFIT PENSION PLANS

A. Ohio Public Employees Retirement System

The City contributes to the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans, as described below:

- 1. The Traditional Pension Plan [TP] a cost-sharing multiple-employer defined benefit pension plan.
- 2. The Member-Directed Plan [MD] a defined contribution plan in which the member invests both member and employer contributions [employer contributions vest over five years at 20% per year]. Under the Member Directed Plan, members accumulate retirement assets equal to the value of member and [vested] employer contributions plus any investment earnings, thereon.
- 3. The Combined Plan [CO] a cost-sharing multiple-employer defined benefit pension plan. Under the Combined Plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar in nature to the Traditional Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS' provides retirement, disability, survivor and death benefits, and annual cost-of-living adjustments to members of the Traditional Plan and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by state statute according to Chapter 145 of the Ohio Revised Code. Ohio Public Employees Retirement System issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/investments/cafr.shtml, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Notes to the Basic Financial Statements December 31, 2014 (continued)

The Ohio Revised Code provides statutory authority for member and employer contributions. For 2014, member and employer contribution rates were consistent across all three plans [TP, MD, and CO]. While members in the state and local divisions may participate in all three plans, law enforcement and public safety officers participate in only the Traditional Pension Plan.

For 2014, member contribution rates were 10 percent for members in state and local classifications. Public safety and law enforcement members contributed 12.0% and 13.0%, respectively. The 2014 employer contribution rate for state and local employers was 14.00% of earnable salary. The law enforcement and public safety division employer contribution rate was 18.10% of earnable salary.

The City's contributions to OPERS, including employee and employer amounts paid by the City, for the years ended December 31, 2014, 2013, and 2012 were \$1,364,704, \$1,312,311, and \$1,281,526, respectively. The full amount has been contributed for 2014, 2013, and 2012.

B. Ohio Police and Fire Pension Fund

The City contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. The Fund issues a publicly available financial report that includes financial statements and required supplementary information for the Fund. That report may be obtained by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

From Jan. 1, 2014 thru July 1, 2014, plan members were required to contribute 10.75% of their annual covered salary. From July 2, 2014 thru Dec. 31, 2014, plan members were required to contribute 11.5% of their annual covered salary. Throughout 2014, Employers were required to contribute 19.5% and 24% respectively for police officers and firefighters. The City's contributions to OP&F, including employee and employer amounts paid by the City, for the years ended December 31, 2014, 2013, and 2012 amount was \$1,972,784, \$1,687,214, and \$1,814,571, respectively, or 100% of the required contribution for 2014, 2013, and 2012.

In addition to the current contribution, the City pays semiannual installments to the Fund for its portion of past service costs determined at the time the Fund was established. All payments to date have been budgeted and paid from the General Fund. The Police & Fire Pension Fund [Other Governmental Fund] receives property tax revenues equal to 0.6 mills, which is designated for the payment of current pension liabilities. The unpaid balance of \$259,879 is included in the Statement of Net Position within the Long-Term Liabilities and is to be amortized through 2035.

14. POSTEMPLOYMENT BENEFITS

A. Ohio Public Employees Retirement Systems (OPERS)

Plan Description – Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the Traditional Pension Plan [TP] – a cost-sharing multiple-employer defined benefit

Notes to the Basic Financial Statements December 31, 2014 (continued)

pension plan; the Member-Directed Plan [MD] – a defined contribution plan; and the Combined Plan [CO] – a cost sharing multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program, and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-retirement health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor benefit recipients is available. The health care coverage provided by the Retirement System is considered an Other Post-employment Benefit [OPEB] as described in GASB Statement No. 45.

The Ohio Revised Code permits, but does not require, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

Ohio Public Employees Retirement System issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/investments/cafr.shtml, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy – The Ohio Revised Code provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care benefits.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2014, employer contribution rate was 14 percent of covered payroll and the law enforcement employer rate was 18.10 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active members do not make contributions to the OPEB Plan.

OPERS' Post-employment Health Care Plan was established under, and is administered in accordance with, Internal Revenue Code section 401(h). Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 2.0% during calendar year 2014. Effective January 1, 2015, the portion of employer contributions allocated to healthcare remains at 2.0% for both plans, as recommended by OPERS' actuary. The OPERS Board of Trustees is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Notes to the Basic Financial Statements December 31, 2014 (continued)

During 2014, the portion of the City's contributions that were used to fund post-employments benefits was \$194,880.

OPERS Board of Trustees Adopt Changes to the Health Care Plan – Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4 percent of the employer contributions toward the health care fund after the end of the transition period.

B. Ohio Police and Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing multiple-employer defined postemployment healthcare plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium, and long term care to retirees, qualifying benefit recipients, and their eligible dependents.

OP&F provides access to post-retirement healthcare coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. The healthcare coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 45.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide healthcare coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, OH 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5 percent and 24 percent of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under an IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution

Notes to the Basic Financial Statements December 31, 2014 (continued)

for retiree health care benefits. The portion of employer contributions allocated to health care was .5% of covered payroll from January 1, 2014 thru December 31, 2014. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F board of trustees also is authorized to establish requirements for contributions to the healthcare plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contributions to OP&F for the years ending December 31, 2014, 2013, and 2012 were:

	Police	Fire
2014	\$855,923	\$ 1,097,716
2013	676,913	790,583
2012	757,851	740,882

Of which, the following amounts were allocated to the healthcare plan:

	Police	Fire
2014	\$ 22,254	\$ 23,052
2013	120,525	112,965
2012	262,216	208,188

C. Deferred Compensation

City employees may participate in the Ohio Public Employees Deferred Compensation Plan. This plan was created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. According to the plan, the deferred compensation is not available until termination, retirement, death, or an unforeseeable emergency.

15. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. During 2014, the City contracted with several different insurance providers for various coverages, as follows:

Type of Coverage	Liability Limits	Deductible
Property	\$ 2,000,000	\$ 2,500
Inland Marine	2,000,000	1,000
General Liability	2,000,000	0
Automobile	1,000,000	0
Excess Liability	10,000,000	0
Public Officials Liability	1,000,000	15,000

Notes to the Basic Financial Statements December 31, 2014 (continued)

Type of Coverage	Liability Limits	Deductible
Police Liability	1,000,000	25,000

The City carries \$1,000,000 of comprehensive combined single limit general liability coverage with a \$1,000 deductible, a \$1,000,000 general law enforcement liability insurance policy and \$1,000,000 public officials' liability, each with a \$5,000 deductible, as well as \$5,000,000 umbrella coverage. There has been no significant reduction in insurance coverage from coverage in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

16. SELF INSURANCE

The City provides medical and dental coverage for its employees and is self-insured up to a stop loss limit for the cost of providing this coverage. Under the self-insurance program, the Self-Insurance Fund (an internal service fund) provides coverage for up to a maximum of \$70,000 in any one year for each employee. The City purchases commercial insurance for claims in excess of coverage provided by the Self-Insurance Fund. The City had no occurrences in which settled claims exceeded the total stop-loss coverage in any of the last three years.

All funds of the City participate in the program and make payments to the Self-Insurance Fund based on a per-employee charge. These monies are recorded as a charge for service in the Self-Insurance Fund and as an expenditure or expense, as applicable, in the disbursing fund.

The claims liability of \$1,110,406 reported in the internal service fund at December 31, 2014, is based on estimates in accordance with the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling the claims. Changes in claims activity for the current and past years are as follows:

		Current Year Claims &		
	Beginning of	Changes in	Claims	End of Year
	Year Liability	Estimates	Payments	Liability
Self-Insurance				
2013	\$ 143,657	\$ 3,667,509	(\$3,396,425)	\$ 414,741
2014	414,741	3,714,990	(3,547,542)	582,189
Workers				
Compensation				
2013	\$ 663,094	\$ 631,014	(\$ 393,918)	\$ 900,190
2014	900,190	49,348	(421,321)	528,217

17. SEGMENT INFORMATION - ENTERPRISE FUNDS

The City maintains three nonmajor enterprise funds to account for Golf Course, Parking Lots, and Watershed Grant activities. None of these activities is supported by revenue bonds or other revenue-

Notes to the Basic Financial Statements December 31, 2014 (continued)

backed debt instruments and, therefore, segment information is not required. See the combining statements included as part of this CAFR for detailed fund activity of the nonmajor enterprise funds.

18. OTHER COMMITTMENTS

A. Contractual

At December 31, 2014, the City had uncompleted contracts, as follows:

Description	Contract Amount	Amount Paid	Remaining Commitment
Water Treatment Plant	\$ 30,955,904	\$ 27,774,048	\$ 3,181,856
Glenn Road Extension	1,489,108	1,380,558	108,550
West Lincoln Storm Sewer	628,799	569,950	58,849
E. William Widening	600,999	150,342	450,657
US 23/SR 315/Stratford Rd Study	588,077	345,352	242,725
Safewalks Program	537,375	405,817	131,558
Bernard Ave Storm Sewer	134,202	87,727	46,475

B. Encumbrances

As discussed in note 1.D, **Budgets and Budgetary Accounting**, encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end the amount of cash-basis encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

Governmental Funds	
General Fund	\$ 172,773
Fire/EMS Levy	1,119,417
Capital Projects	1,100,223
Glenn Rd South Construction	2,578
Nonmajor Governmental Funds	1,142,501
	<u> </u>
Total Governmental Funds	3,537,492
Proprietary Funds	
Water	3,478,503
Sewer	228,493
Storm Sewer	118,410
Refuse	179,236
Internal Service Funds	120,391
Total Proprietary Funds	4,125,033
Total	\$ 7,662,525

Notes to the Basic Financial Statements December 31, 2014 (continued)

C. Revenue Sharing Agreement

The City has entered into an agreement with the Delaware City School District [the "District"] to compensate the District, via a local foundation, for property tax revenues lost as a result of a tax-exempt enterprise zone established in the city. For each year the exemption is in effect, the City is obligated to pay the District an amount equal to fifty percent of the income taxes collected on new employee payroll by employers within the enterprise zone. The City's liability as of December 31, 2014 of \$96,554 is accrued as an accounts payable in the accompanying financial statements. The agreement with this company expires December 31, 2023.

19. CONTINGENT LIABILITIES

The City is a party to various legal proceedings seeking damages or injunctive relief generally incidental to its operations and pending projects. The City management is of the opinion that the ultimate disposition of various claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

20. JOINTLY GOVERNED ORGANIZATIONS

Delaware South New Community Authority; On February 12, 2007, the Delaware South New Community Authority [DSNCA] was created by the adoption of Resolution 07-05 by Delaware City Council, pursuant to Chapter 349 of the Ohio Revised Code. The DSNCA was established to encourage the orderly development of a well-planned, diversified, and economically sound community; to encourage initiative and participation of private enterprise in this undertaking; and to encourage cooperation between the developer and the DSNCA to carry out the new community development program.

The DSNCA is governed by a seven member Board of Trustees. Delaware City Council appoints three citizen members to the Board to represent the interests of present and future residents of the District and one member to serve as a representative of local government. The Developer shall appoint three members to serve on the Board as representatives of the Developer.

The Glenn Road Extension Bond Anticipation Notes, currently reported by the City, will ultimately be reimbursed by the DSNCA. The City agreed to construct the Glenn Road improvements on behalf of the DSNCA and to carry any debt obligations until such time as the DSNCA is able to issue debt sufficient to pay any outstanding principal and interest on debt issued by the City. Although the City agreed to construct such improvements on behalf of the DSNCA, the City does not approve the respective budgets or impose its will on its operations.

Northern New Community Authority; On December 10, 2007, the Northern New Community Authority [NNCA] was created by the adoption of Ordinance 07-103 by the Delaware City County, pursuant to Chapter 349 of the Ohio Revised Code. Like the DSNCA, the NNCA was established to encourage the orderly development of a well-planned, diversified, and economically sound community; to encourage initiative and participation of private enterprise in this undertaking; and to encourage cooperation between the developer and the NNCA to carry out the new community development program.

The NNCA is governed by a seven member Board of Trustees. Delaware City Council appoints three citizen members to the Board to represent the interests of present and future residents of the District and one member to serve as a representative of local government. The Developer shall appoint three members to

Notes to the Basic Financial Statements December 31, 2014 (continued)

serve on the Board as representatives of the Developer. Although the City agreed to construct such improvements on behalf of the NNCA, the City does not approve the respective budgets or impose its will on its operations.

21. SUBSEQUENT EVENTS

In 2015, the City will issue \$12.145 million in notes to replace the \$12.735 million outstanding at year end. These notes financed the construction of the Glenn Road extension. This note bears an interest rate of 1% and matures on April 18, 2016. The City will also issue \$6.25 million in 20-year [maximum] bonds to provide funding for Glenn Road North construction, Recreation Facility improvements and EMS apparatus for the Fire Department.

Combining Statements and Individual Fund Schedules

General Fund

General Fund – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The fund balance of the General Fund is available to the City for any purpose provided it is expended or transferred according to the City's Charter and Code and the general laws and regulations of the State of Ohio.

Some funds are included in the General Fund (GAAP basis), but have separate legally adopted budgets (budget basis):

Parks and Recreation Fund – To account for fees charged for recreational activities, and park rentals, and transfers from the General Fund to be used for park and recreation purposes.

Tree Replacement Fund – To account for fees and donations received to assist in the purchase and maintenance of trees that populate the City's streets and neighborhoods.

Unclaimed Funds – To account for outstanding checks that have not been cashed in a year or more. This fund does not have a legally adopted budget.

Development Reserve Fund – To account for reserves amounts to be used for future debt service obligations related to infrastructure constructed by the City in response to current and future development. In addition, the funds are available for support of future economic development opportunities.

Budget Fund – To account for the set-aside of contingency funds equal to 5% of annual General Fund revenues. The fund shall be used to stabilize the City's General Fund against cyclical changes in revenues and expenditures. The fund balance will not be appropriated to provide for ongoing general operations of the City.

Combining Statements - Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Street Maintenance and Repair Fund – Required by the Ohio Revised Code to account for State gasoline tax and motor vehicle registration fees designated for maintenance of streets within the City.

State Highway Improvement Fund – Required by the Ohio Revised Code to account for State gasoline tax and motor vehicle registration fees designated for the maintenance of state highways within the City.

Nonmajor Special Revenue Funds [continued]

License Fee Fund – Required by the Ohio Revised Code to account for monies received from the State of Ohio for the maintenance of public roads, highways, streets and bridges within the City.

Cemetery Fund – To account for operational revenues and expenditures to maintain the Oak Grove Cemetery.

Airport Improvement Fund – To account for fuel sales, T-hangar rentals, tie-downs, miscellaneous sales, and transfers from the General Fund used to maintain the City's Municipal Airport.

Airport T-Hangars Fund – To account for expansion T-hangar rentals used to maintain the City's Municipal Airport T-hangars.

Court/Police Building Income Tax Fund – To account for the collection of the City's 0.2% Building Income Tax. Proceeds to be used to build and equip the City's Justice Center and remodel City Hall.

Recreation Center Income Tax Fund – To account for the collection and distribution of City-levied income taxes used for park improvements and the construction of the YMCA/Training and Community Center on the City's west side.

Airport TIF Fund – To account for payments in lieu of taxes that will be used, in part, to reimburse the General Fund for costs associated with commercial improvements made at the Municipal Airport.

Glenn Road Bridge TIF Fund – To account for costs incurred with the construction of Glenn Road 1000 feet south of the Glenn Road Railroad Bridge to a point 2000 feet north of the bridge.

Sky Climber/V&P TIF Fund – To account for payments in lieu of taxes that will be used for improvements of two of Delaware's newest businesses.

Mill Run TIF Fund – To account for payments in lieu of taxes that will be used for improvements in the Mill Run area on the City's east side.

Municipal Court Fund – To account for the collection and distribution of the Municipal Court's money, collected from fines and forfeitures. The court acts as the municipal court for all of Delaware County.

IDIAM – To account for the collection of Municipal Court funds for indigent drivers interlock and alcohol monitoring devices issued to indigent defendents.

Drug Enforcement Fund – To account for a portion of money seized during drug-related arrests used in educating students in the consequences of using drugs.

Nonmajor Special Revenue Funds [continued]

Court Alcohol Treatment Fund – Required by the Ohio Revised Code to account for 50 percent of fines received by the City for convictions related to persons whose drivers license was suspended for driving under the influence of alcohol.

OMVI Enforcement and Education Fund – To account for fines imposed under Section 4511.99 (A) of the Ohio Revised Code. These monies are used to pay costs incurred in enforcing Section 4511.99 of the Ohio Revised Code, and to educate the public about laws governing the operation of a motor vehicle under the influence of alcohol and the danger thereof.

Police Judgment Fund – To account for a portion of seized money used for purchasing of equipment and for training.

Park Exaction Fees Fund – To account for developers' fees used in park improvements.

Computer Legal Research Fund – To account for fines imposed under Section 1901.26.1 of the Ohio Revised Code to assure the efficient operation of the court by means of computerization, and to make available computerized legal research services.

Court Special Projects Fund – To account for fines imposed under Section 1901.26(B)(1) of the Ohio Revised Code to acquire and pay for special projects of the court including, but not limited to, the acquisition of additional facilities or the rehabilitation of existing facilities, the acquisition of equipment, the hiring and training of staff, community service programs, mediation or dispute resolution services, the employment of magistrates, the training and education of judges, acting judges, and magistrates, and other related services.

Probation Services Fund – To account for specific court costs used to maintain ongoing probation services.

Police and Fire Pension Fund – To account for a voted real estate tax operating levy which pays for the accrued past service liability for police and fire disability and pension benefits.

Community Promotion Fund – To account for allocated revenues from the City's Hotel/Motel Occupancy Tax to events, organizations, and activities that promote the community and other cultural opportunities.

Community Development Block Grant Fund – To account for Federal-funded housing, development, and City-wide improvement programs.

Revolving Loan Fund – To account for State of Ohio economic development funds loaned to qualified Delaware businesses. The loan payments are made available for future loans to new businesses.

Housing Program Income Fund – To account for program income generated through the subsequent sale of federally-funded houses built/renovated from CHIP grant proceeds.

Nonmajor Special Revenue Funds [continued]

Ohio Neighborhood Stabilization Program Grant Fund – [ONSP] To account for Federal/State grant money issued for the ONSP to be used, in part, to address the City's abandoned and foreclosed homes and businesses.

Fire Donations Fund – To account for donations received by the City's Fire Department. The donations are used, in part, to purchase equipment for the Fire Department.

Police Donations Fund – To account for donations given to the City Police Department. Most of the donations are used to purchase new equipment.

Mayor's Donations Fund – To account, in part, for donations received for marriage ceremonies performed by the Mayor.

Project Trust Fund – To account for money received from developers prior to the development of land to assure the developers provide the required elements, such as park land, water retention site, etc.

Municipal Court Unclaimed Funds – To account for outstanding checks that have not been cashed in a year or more from the Municipal Court.

Nonmajor Debt Service Funds

General Obligation Bond Retirement Fund – To account for transfers in, interest earned, and proceeds of debt, that are utilized for the repayment of general obligation bonds of the City.

Park Improvement Bond Retirement Fund – To account for the transfers in, interest earned, and the repayment of the principle and interest toward the 2010 income tax-funded bond.

Southeast Highland Bond Retirement Fund – To account for the transfers in, interest earned, and the repayment of the principal and interest toward the 2009 bond which was issued to fund the construction of the SE Highland sewer. For GAAP reporting, this activity is reflected in the Sewer enterprise fund.

Nonmajor Capital Projects Funds

FAA Airport Expansion Fund – To account for Federal and State funds used for the relocation and expansion of the City's Municipal Airport.

FAA Allocation Improvement Fund – To account for Federal funds used for the Automatic Weather Observation System [AWOS] installation and the replacement of the non-directional beacon [NDB].

Equipment Replacement Fund – To account for transfers from departments to provide for the future replacement of equipment.

Park Impact Fees Fund – To account for developers' fees collected to maintain a level of service associated with the City's parks required with the increased growth.

Police Impact Fees Fund – To account for developers' fees collected to maintain a level of service associated with the City's Police Department required with the increased growth.

Fire Impact Fees Fund – To account for developers' fees collected to maintain a level of service associated with the City's Fire Department required with the increased growth.

Municipal Impact Fees Fund – To account for fees used to expand the capacity of the City's municipal facilities and infrastructure.

Glenn Road Middle Construction Fund – To account for costs incurred with the construction of Glenn Road from the northern point of the Glenn Ross development to 1000 feet south of the Glenn Road Railroad Bridge, and the cost of Glenn Road from a point 100 feet north of the bridge, then north to Curve Road. For 2014, there was no balance sheet or statement of revenues, expenditures, and change in fund balance activity for this fund.

Glenn Road North Construction Fund – To account for costs incurred with the construction of Glenn Road from Curve Road, then 5500 feet north to US Route 36/37.

Combining Statements – Internal Service Funds

Internal Service Funds

Garage Rotary Fund – To account for the fuel, maintenance and repair for all City vehicles and machinery. The cost is allocated to the various departments.

Info Tech Rotary Fund – To account for the staff, system support, and purchases of the City's technology and GIS department. The cost is allocated to the various departments supported.

Self-insurance Fund – To account for premiums charged to various City funds for the payment of employee health care claims.

Worker's Compensation Fund – To account for the potential worker's compensation claims of the City. The City utilizes a retro-payment system where annual premiums are paid, as are retroactive claims. The City charges various departments for these premiums and payments.

Statistical Section

This part of the City of Delaware's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	170
Revenue Capacity These schedules contain information to help the reader assess the government's most significant local revenue source; Income Tax.	175
Debt Capacity These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	181
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	186
Operating Information These schedules contain service and infrastructure data to help the reader	188

understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

¹ In 2009, Municipal Court related expenses have been reported separately from Public Safety. Prior years have been restated, accordingly.

² Storm Sewer fund was reclassed as an Enterprise fund beginning 2005.

³ Beginning in 2011, Income tax refunds are not reflected as General Government expenses, but rather as reduction in Income Tax revenues.

Note: The City's basic property tax rate may be increased only by a majority vote of the City's residents.

¹Overlapping rates are those of local and county governments that apply to property owners within the City of Delaware. Not all overlapping rates apply to all Delaware property owners: annexed properties may still pay township taxes in addition to City taxes.

As of December 31, 2014

Governmental Unit	Debt Outstanding	Estimated Percentage Applicable 1	Estimated Share of Overlapping
Oustanding General Obligation Debt Delaware County Delaware City School District Subtotal, Overlapping Debt	\$ 64,075,908 46,152,238 \$ 110,228,146	10.80% 97.02%	\$ 6,920,198 44,776,901 51,697,099
City of Delaware direct debt			42,366,280
Total Direct and Overlapping Debt			\$ 94,063,379

Sources: Debt outstanding and assessed value data used to estimate applicable percentages provided by the County Auditor.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Delaware. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

¹ The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the City's boundaries and dividing it by the county's total taxable assessed value.

NOTES TO THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES FOR THE YEAR ENDED DECEMBER 31, 2014

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Expenditures (the Schedule) is a summary of the activity of the City's Federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - MATCHING REQUIREMENTS

Certain Federal programs require the City to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The City has complied with the matching requirements. The expenditure of non-Federal funds is not included on the Schedule.

NOTE C -REVOLVING LOAN PROGRAMS

The City has established a revolving loan program to provide low-interest loans to businesses to create jobs for persons from low-moderate income households. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the City, passed through the Ohio Department of Development. The Schedule reports loans made and administrative costs as disbursements on the Schedule. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans. These loans are collateralized by the underlying property.

Activity in the revolving loan program during 2014 as follows:

Amount
\$543,209
0
(112,738)
\$430,471
\$997,207

The table above reports loans receivable at gross and is current on all outstanding balances.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Delaware Delaware County One South Sandusky Street Delaware, Ohio 43015

To City Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Delaware, Delaware County, (the City) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 10, 2015 wherein we noted the City restated fund balance and governmental activities as disclosed in Note 2B.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Reporting and On Compliance and Other
Matters Required By Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

Wilson, Shanna ESwee, She.

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Newark, Ohio June 10, 2015

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES REQUIRED BY OMB CIRCULAR A-133

City of Delaware Delaware County One South Sandusky Street Delaware, Ohio 43015

To City Council:

Report on Compliance for Each Major Federal Program

We have audited the City of Delaware's (the City) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the City of Delaware's major federal programs for the year ended December 31, 2014. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the City's major federal programs.

Management's Responsibility

The City's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the City's compliance for each of the City's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the City's major programs. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Delaware complied, in all material respects with the compliance requirements referred to above that could directly and materially affects each of its major federal programs for the year ended December 31, 2014.

Report on Internal Control over Compliance

The City's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the City's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Federal Awards Expenditures Required by OMB Circular A-133

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Delaware, Delaware County (the City) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our unmodified report thereon dated June 10, 2015 wherein we noted the City restated fund balances and governmental activities as disclosed in Note 2B. We conducted our audit to opine on the City's' basic financial statements. The accompanying schedule of federal awards expenditures presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.
