Single Audit Reports

Year Ended December 31, 2014

Dave Yost • Auditor of State

Mayor and Members of Council City of Toledo One Government Center, Suite 2050 Toledo, Ohio 43604-2284

We have reviewed the *Independent Auditor's Report* of the City of Toledo, Lucas County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2014 through December 31, 2014. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Toledo is responsible for compliance with these laws and regulations.

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Toledo and is presented on the modified accrual basis of accounting, which is described in Note 1(c) to the City of Toledo, Ohio's (the City) Comprehensive Annual Financial Report. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE B - SUBRECIPIENTS

The City provided federal awards to various subrecipients on a pass-through basis as follows:

		\$ 4,764,977

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

To the Honorable Paula Hicks-Hudson, Mayor, Members of City Council and the Audit Committee City of Toledo, Ohio:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Toledo, Ohio (the "City") as of and for the year ended December 31, 2014 and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 30, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

two maritime plaza, ste. 202 toledo, oh 43604

> www.cshco.com p. 419.243.0218 f. 419.243.9264

Compliance And Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Clark, Schaefer, Hackett & Co.

Toledo, Ohio June 30, 2015

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

INDEPENDENT AUDITORS' REPORT

To the Honorable Paula Hicks-Hudson, Mayor, Members of City Council and the Audit Committee City of Toledo, Ohio:

Report on Compliance for Each Major Federal Program

We have audited the City of Toledo, Ohio's (the "City") compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2014. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States*, *Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2014.

two maritime plaza, ste. 202 toledo, oh 43604

> www.cshco.com p. 419.243.0218 f. 419.243.9264

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of compliance requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance of a federal program that is less severe than a material weakness in internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the City as of and for the year ended December 31, 2014, and have issued our report thereon dated June 30, 2015, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

Clark, Schaefer, Hackett & Co.

Financial Statement Prior Audit Findings

Finding 2013-001 – Audit Adjustments

During the course of our audit, we identified misstatements in the financial statements for the year ended December 31, 2013, not initially identified by the City's internal control over financial reporting. Audit adjustments were necessary to correct errors which related to estate tax receivable and related deferred inflows as well as proper cutoff of accounts payable.

Status: Corrected in 2014.

Federal Award Prior Audit Findings

Finding 2013-002 – Allowable Costs for CDBG (14.218) and HOME (CFDA 14.239)

The Department of Neighborhoods was unaware of time and effort documentation requirements for employees charging less than 100% to the program.

Status: Corrected in 2014.

Finding 2013-003 – Reporting for Brownfields Assessment and Cleanup (CFDA 66.818)

The 2011, 2012 and 2013 reports were not filed until after we made inquiries during the audit related to Brownfields RLF expenditures.

Status: Corrected in 2014.

CITY OF TOLEDO

Paula Hicks-Hudson Mayor George E. Sarantou Director of Finance

June 30, 2015

Honorable Mayor Paula Hicks-Hudson, Steven Steel, President and Members of City Council and Citizens of the City of Toledo, Ohio

As Director of Finance for the City of Toledo, Ohio (the City), I am pleased to present the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2014.

The report contains basic financial statements, management's discussion and analysis, supplemental financial statements, and other financial and statistical information which provide a complete and full disclosure for all financial aspects material to the City. This CAFR conforms to Generally Accepted Accounting Principles in the United States of America (GAAP) as set forth by the Governmental Accounting Standards Board (GASB).

The City's management assumes the responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable assurance, rather than absolute assurance, that the financial statements are free of any material misstatements. We believe this data fairly reflects the financial position of the City and the results of its operation.

As part of the annual preparation of the CAFR, the City is subject to an annual independent audit of its basic financial statements, which serves to strengthen the City's accounting, budgetary, and internal control of its financial and operational systems. The firm of Clark, Schaefer, Hackett & Co. located in the City of Toledo, Ohio has issued an unmodified ("clean") opinion on the City's financial statements for the year ended December 31, 2014. The independent auditors' report is located at the front of the financial section of this report.

This transmittal letter should be read in conjunction with the Management's Discussion and Analysis, which provides a narrative introduction, overview and analysis of the basic financial statements.

PROFILE OF THE GOVERNMENT

The City was incorporated January 7, 1837, and operates under its Charter adopted in November 1914. The City may exercise all powers of local self-government granted under Article XVIII, Section 3, of the Ohio Constitution, not in conflict with applicable general laws of Ohio. The Charter provides that the City operate under the strong mayor/council form of government.

ONE GOVERNMENT CENTER, SUITE 2050, TOLEDO, OHIO 43604-2284 Telephone: (419) 245-1648 • FAX: (419) 245-1863 Legislative authority in the City is vested in a twelve-member Council. Six members of the Council are elected at-large and six from districts, all for overlapping four-year terms. The Council is authorized to enact ordinances and resolutions relating to City services, tax levies, appropriating and borrowing money, licensing and regulating businesses and trades and other municipal activities. The Council also has authority to fix the compensation of City officers and employees. The Council elects one of its members to serve as the President of Council, its presiding officer.

Toledo, the fourth largest city in Ohio, is located in the northwest part of the State, approximately 150 miles north of Columbus and 120 miles west of Cleveland. The City's elevation is approximately 614 feet above sea level. Some comparative data for Ohio six largest cities is as follows:

		Population		
City	Area	2010	2000	1990
Columbus	227.2 sq miles	787,033	711,470	632,910
Cleveland	77.9 sq. miles	396,815	478,403	505,616
Cincinnati	78.8 sq. miles	296,943	331,285	364,040
Toledo	84.3 sq. miles	287,208	313,619	332,943
Akron	62.4 sq. miles	199,110	217,074	223,019
Dayton	56.3 sq. miles	141,527	166,179	182,044

For Financial purposes, this CAFR is in conformity with the provision of GASB Statement No. 61, the Financial Reporting Entity, all governmental departments, agencies, institutions, commissions, public authorities and other governmental organizations for which the City has significant accountability. Financial accountability is determined by the City's financial interdependence. The reporting entity of the City includes the following services as authorized by its charter: public safety, highways and street, water and sanitation, health and social services, culture and recreation, public improvements, planning and zoning and general administrative services.

ECONOMIC CONDITION AND OUTLOOK

The City and the Toledo Metropolitan Statistical Area (MSA) have diverse economies in both their manufacturing and their increasingly important service sectors. Within the Toledo MSA are manufacturers of automobiles and automotive parts, glass, wood products, grain and food products, petroleum, chemicals, machinery, tools, rubber products, plastics, die castings and solar energy panels. Among the largest service sector employers in the Toledo MSA are health care providers, public higher educational institutions, local governments, public utilities, freight and transportation companies, financial institutions and retailers.

- Owens-Corning, a 2014 Fortune 500 corporation, has its headquarters in the City, and three other of the 2014 Fortune 500 corporations, The Andersons, Inc., Dana Holding Corporation and Owens-Illinois, Inc., have their corporate headquarters in the Toledo MSA.
- The ProMedica Health System and Mercy Health Partners, which operate health care systems, are the first and second largest employers in the Toledo MSA. Both of these systems have aggressively expanded and improved their facilities and property holdings within the City in the past decade.
- The University of Toledo (including its Medical Center) is the third largest employer in the Toledo MSA. Both the University's Main Campus and its Medical Campus are located within the City. In addition to the training and education provided to students, the research programs at the University result in and support the creation of new medical and high-technology enterprises. Office and industrial parks for such enterprises are located near both campuses.

- Fiat Chrysler Automobiles is the largest manufacturing employer in the Toledo MSA. Fiat Chrysler announced in February 2014 that employment at its Toledo Assembly Complex located on 312 acres in the City, where it now produces Jeep Wranglers and Cherokee Limiteds, had increased to 4,108 workers and employment at its Toledo Machine Plant in nearby Perrysburg was 1,048. In March 2014, Chrysler announced it would hire up to 1,000 part-time workers for the Toledo Assembly Complex in 2014 to provide relief for regular employers who have been working 60 hours a week. Chrysler's Wrangler assembly operation in the Toledo Assembly Complex was named as the most productive auto assembly plant by Harbour Report for 2011 and 2012. In January 2014, Fiat S.p.A., which had owned approximately 58.5% of the company's shares, completed the purchase of the remaining shares from a union-controlled health care trust fund, and Chrysler Group LLC became a part of the new Fiat Chrysler Automobiles.
- General Motors' Powertrain Division manufactures and assembles transmissions at a 1.68-million-square-foot facility located on 185 acres in the City. According to newspaper reports, that facility has been repeatedly recognized by Harbour Report as the most productive powertrain plant in North America. In the last seven years, GM has completed two major projects to renovate and expand the plant to prepare it as a site for production of a new six-speed, front-wheel and rear-wheel drive automatic transmissions. The rear-wheel transmissions are used in light trucks and sport utility vehicles. The front-wheel drive transmissions are to be used in five small, fuel-efficient vehicles, including the new Chevrolet Cruze. In 2011 and 2013, GM announced additional expansion and other improvements to the plant for production of fuel-efficient eight-speed transmissions and an upgrading of its assembly line for front-wheel drive six-speed transmissions. See Economic and Community Development Activities Industry and Commerce –Recent Development Activities. GM reported that it employed 1,890 workers at the plant as of January 1, 2014.
- Owens Corning, a global producer of residential and commercial building materials, glass-fiber reinforcements and engineered materials for composite systems with sales of \$5.3 billion in 2013, employs approximately 15,000 in 27 countries, including approximately 1,229 in the Toledo MSA. The headquarters are located in the Downtown area of the City, and the company recently agreed to a 15-year extension of its lease of those facilities.
- > Dana Holding Corporation, a manufacturer of motor vehicle parts and industrial components, employs approximately 23,000 in 26 countries worldwide, including approximately 700 in the Toledo MSA. Its global network of engineering, manufacturing and distribution facilities provides original-equipment and aftermarket customers with local product and service support. Dana's operations in the Toledo MSA have included its headquarters and a division office and research and development center that are located in a company-owned technology center in the adjacent City of Maumee, Ohio. In 2010, the company consolidated its heavy vehicle products operations into a newly acquired facility adjacent to its headquarters and relocated a portion of the 175 workers in that unit from two other states to the new facility and headquarters.
- The Andersons, Inc., also based in the City of Maumee just south of the City, is a corporate conglomerate with a collection of agricultural-based businesses that include grain, fertilizers, general stores, and ethanol production for alternative energy fuel that employs approximately 1,672 workers in the Toledo MSA.

The Toledo MSA serves as a major transportation center, and significant employment is provided by transportation industry employers.

The City's economy, historically associated with the glass and automotive industries, has become increasingly diversified. The Toledo MSA remains the home of four of the nation's largest glass manufacturing companies, Owens-Illinois, Inc., Owens-Corning, Pilkington North America, Inc., and Libbey, Inc., earning the City the title of the "Glass Capital of the World," and Fiat Chrysler Automobiles, General Motors Company and Dana Holding Corporation continue to provide a major automotive industry presence in the Toledo MSA. The Toledo MSA is also one of the larger oil refining centers between Chicago and the eastern seaboard, with BP Oil Co. and Sun Refining and Marketing each operating a major refinery in the MSA. However, as is shown in the tables that follow, in recent years, private service industries and governmental employers have provided more than three-fourths of the total employment in the Toledo MSA has increased by 20% since 2000 according to United States Labor Department data.

MAJOR CITY INITIATIVES

The City continues to provide a variety of services required to meet the needs of its citizens in the most costeffective and efficient manner. We look forward to the following significant activities made possible by the citizens of the City and its government.

- In 2014, the ProMedica Health System, the largest employer in the Toledo MSA, announced a plan to relocate its headquarters to a central campus in the Downtown area of the City. The plan provides for the renovation of an historic building, the former Toledo Edison Steam Plant, and an adjacent office building on the Maumee River and the construction of a six-story parking garage. The City and ProMedica have entered into a development agreement pursuant to which ProMedica has agreed to invest at least \$50 million in the campus, and the City has agreed to provide certain land for the parking garage and infrastructure improvements in support of the project, to maintain and improve an adjacent park to be incorporated as a part of the campus and to provide a seven-year property tax abatement other financial incentives after it is completed. The project is expected to be completed in 2016. When completed, ProMedica is anticipated to have 1,000 administrative staff members in the headquarters facilities, including 525 who are currently working outside the City.
- The Toledo Mud Hens Baseball Club, Inc. has commenced an estimated \$19 million public/private partnership project to renovate three 19th-century buildings and create a "Hensville" entertainment district with dining, event and retail space adjacent to Fifth Third Field in the Warehouse District in the Downtown area of the City. The project, which also includes the redevelopment of a parking lot in that district into a park to accommodate larger gatherings for concerts, theater and food festivals, sporting events and other activities, is expected to be completed by April 2016. Funding for the project includes approximately \$12 million in support from the federal government, the State, the County, the City and the Local Initiatives Support Corporation of Toledo, with the balance being provided by the Mud Hens.
- In 2014, Dana Holding Corporation, a Fortune 500 automotive and industrial components manufacturer, announced plans for an expansion of its headquarters building in the MSA. Construction of the project, estimated to cost between \$7 million and \$10 million, began in Fall 2014 and is to be completed in Summer 2015. Dana also announced that it expects employment at the headquarters building, located in one of the joint economic development zones created by the City and adjacent subdivisions, to increase by approximately 200, with the relocation of employees from other facilities in the MSA and the Detroit metropolitan area. The City shares in income tax revenues received from employees in the zone.
- In 2013, the City and Owens-Corning, a Fortune 500 glass fiber products manufacturer, reached an agreement on an incentive package to extend the lease on its Downtown corporate headquarters facility for an additional fifteen-year period through 2030. Among other matters, the City agreed to make certain

infrastructure improvements in the area of the headquarters and to extend through 2024 a tax-increment financing structure that, together with a State grant, will provide funds for such improvements. In return, Owens Corning, which now employs approximately 1,229 at its headquarters facility, agreed to add 50 jobs over a three-year period and to make annual payments of \$400,000 to the Toledo City School District.

A new National Museum of the Great Lakes, located in the City's Marina District, was opened by The Great Lakes Historical Society in April 2014. The new Museum is housed in the Toledo Maritime Center, a facility owned by the Port Authority that has been renovated to feature more than 50 interactive exhibits as well as displays of original artifacts in up to 10,000 feet of exhibit space. Most of the construction work for the Museum involved dredging in the Maumee River in preparation for the arrival of the museum ship, the Col. James M. Schoonmaker, and site preparation for a maritime park with outdoor exhibits. The \$8.5 million cost of the project was funded with proceeds of an Ohio Cultural Facilities Commission grant of \$6.1 million and from private sources.

ACCOUNTING SYSTEMS

The City's day-to-day accounting records are maintained on a basis other than GAAP. For financial reporting purposes, the accounting records for all governmental funds are converted to the modified accrual basis, whereby revenues are recognized when measurable and available with the business cycle (with 60 days after year end), and expenditures are recognized when the related fund liability is incurred. The accounting records for the proprietary funds and government-wide financial statement are converted to the accrual basis, whereby revenues are recognized when measurable and earned and expenses are recognized as incurred.

In May 2010, the City implemented a new enterprise resource planning (ERP) system called SAP. The major initiatives and changes to the City's accounting systems were as follows:

- Decentralization of accounting processes
- Implementation of a systematic workflow and approval processes
- > Implementation of an electronic document storage system
- > Implementation of a capital asset accounting system previously done manually
- > Implementation of an accounts receivable system previously done manually
- > Enhance the budgeting process and reporting
- Enhance financial reporting and inquiry

INTERNAL CONTROLS

The management of the City is responsible for establishing and maintaining internal control, designed to provide reasonable, but not absolute assurance that the assets of the City are protected from loss, theft, or misuse. Management also ensures that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The design of the internal control also recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of Federal and State financial assistance, the City is responsible for ensuring not only that adequate internal controls are in place, but also that the City has complied with applicable laws and regulations related to those programs. This internal control is subject to periodic evaluation by management.

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FIANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2013. This is the thirty-second year since 1982 that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current year CAFR continues to conform to the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

This report is the result of the continued cooperation and combined services of the elected officials and management of the City. The preparation of the CAFR could not have been accomplished without the dedicated service of the Division of Accounts. Our appreciation is also extended to the entire Department of Finance and the various other departments whose cooperative efforts during the course of this report's preparation made possible its completion on a timely basis.

In closing, we would like to thank the Mayor and Members of Council for their continued leadership and support.

Respectfully submitted,

Sallanda

INDEPENDENT AUDITORS' REPORT

To the Honorable Paula Hicks-Hudson, Mayor, Members of City Council and the Audit Committee City of Toledo, Ohio:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the City of Toledo, Ohio (the "City") as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Toledo, Ohio, as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison information on pages 21 through 36 and 101 through 104, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2015, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Clark, Schaefer, Hackett & Co.

Toledo, Ohio June 30, 2015 THIS PAGE IS LEFT BLANK INTENTIONALLY

As management of the City of Toledo, Ohio (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2014. We encourage readers to consider the information presented here in conjunction with our letter of transmittal at the front of this report and the City's financial statements, which follow this section.

Financial Highlights

Key financial highlights for 2014 are as follow:

- The assets and deferred outflow of resources of the City exceeded its liabilities and deferred inflow of resources at the close of 2014 by \$944.0 million. Of this amount \$27.4 million is considered unrestricted. The unrestricted net position of the City's business-type activities are \$6.9 million and may be used to meet the on-going obligations of the business-type activities, including water, sewer, utilities administrative service and seven nonmajor enterprise funds including storm water, property management, small business development, municipal tow lot, marina operations, Erie Street Market and Toledo Public Power. The unrestricted net position of the governmental activities is \$20.5 million.
- The City's total net position increased \$13.1 million or 1.4 percent in 2014. Net position of the governmental activities decreased \$8.0 million, which represents a 1.7 percent decrease from 2013. Net position of the business-type activities increased \$21.2 million or 4.5 percent from 2013.
- The total cost of the City's programs increased \$33.9 million or 7.9 percent. The cost of governmental activities increased \$14.6 million or 4.7 percent, while the cost of business-type activities increased \$19.3 million or 16.2 percent.
- At the close of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$10.2 million. The combined fund balance of the governmental funds decreased \$3.8 million from the prior year's ending fund balance.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances in a manner similar to private-sector business.

The *statement of net position* presents information on all of the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the four reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenue and expenses reported in this statement for some items will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities). The governmental activities of the City include general government, public service, public safety, public utilities, community environment, health and parks and recreation. The business-type activities of the City primarily include two enterprise activities: water and sewer funds.

The government-wide financial statements can be found on pages 39 and 40 of this report.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 20 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, the capital improvements fund and the special assessment services fund, all of which are considered to be major funds. Data from the other 17 governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The basic governmental fund financial statements can be found on pages 41 through 44 of this report.

Proprietary funds

The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, storm sewer and utility administration services as well as property management, small business development, tow lot, marina operation, Toledo Public Power and Erie Street Market. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions including municipal garage, capital replacement, facility operations, storeroom and printshop, information and communication technologies, risk management and workers' compensation activities. The services provided by these funds predominantly benefit governmental rather than business-type functions. They have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for water, sanitary sewer operations and utility administration; all of which are considered to be major funds of the City. Conversely, all internal service funds are combined into a single, aggregate presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 45 through 47 of this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 48 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 51 through 96 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's general fund and special assessment services budgets. The City adopts an annual appropriation budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget. Required supplementary information can be found on pages 101 through 104 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds, nonmajor enterprise funds, internal service funds and agency funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 109 through 143 of this report.

The City has included a special budgetary comparison section for the governmental funds. This includes the general fund, capital improvements fund, special assessment services fund and the nonmajor governmental funds broken out individually to report revenues for the fund as well as expenditures reported by major service area and funds center. The special budgetary comparison section can be found on pages 147 through 185.

Certain prior year amounts in this management's discussion and analysis have been reclassified for consistency.

Government-Wide Financial Analysis

The Statement of Net Position provides the perspective of the City as a whole. The table below provides a summary of the City's net position at December 31, 2014 compared to December 31, 2013.

	Net Position (Amounts in Thousands)													
		Governmen	tal Ac	tivities		Business-Ty	pe A	ctivities	Total					
		2014		2013		2014	2013		2014			2013		
Assets														
Current and Other Assets	\$	220,044	\$	201,350	\$	346,765	\$	352,345	\$	566,809	\$	553,695		
Capital Assets		565,041		571,219		847,753		799,263		1,412,794		1,370,482		
Total Assets		785,085		772,569		1,194,518		1,151,608		1,979,603		1,924,177

Liabilities														
Long-Term Liabilities Outstanding		208,944		203,093		654,434		639,158		863,378		842,251		
Other Liabilities		107,777		93,230		52,426		45,976		160,203		139,206		
Total Liabilities		316,721		296,323		706,860		685,134		1,023,581		981,457		
Deferred Inflow of Resources		12,143		11,976		-		-		12,143		11,976		
Net Position														
Net Investment in Capital Assets		377,025		379,066		391,748		372,533		768,773		751,599		
Restricted		58,721		59,009		89,146	88,854		147,867			147,863		
Unrestricted		20,475		26,195		6,922		5,265	27,397			31,460		
Total Net Position	\$	456,221	\$	464,270	\$ 487,816 \$ 466,652		466,652	\$	\$ 944,037		930,922			

As noted earlier, the net position may serve over time as a useful indicator of a government's financial position. The City's assets and deferred outflow of resources exceeded liabilities and deferred inflow of resources by approximately \$944.0 million at the close of the most recent fiscal year.

The largest portion of the City's net position (81.4 percent) reflects an investment in capital assets (e.g. land, buildings, improvements other than buildings, machinery and equipment and infrastructure); less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these assets.

An additional portion of the City's net position (15.7 percent) represents resources that are subject to use restrictions. The remaining balance of the unrestricted net position (2.9 percent) may be used to meet the government's on-going obligations to citizens and creditors. It is important to note that although the total unrestricted net position is \$27.4 million; the unrestricted net position of the City's business-type activities, \$6.9 million, may not be used to fund governmental activities. As of the end of the current fiscal year, the City has unrestricted net position related to government type activities of \$20.5 million.

The overall net position of the City increased \$13.1 million or 1.4 percent in 2014. The net position for governmental activities decreased \$8.0 million or 1.7 percent. In 2014, major contributors were a decrease in capital assets of \$6.2 million, a net increase of debt of \$5.9 million and other liabilities increased by \$14.5 million.

The net position of business-type activities of the City increased by \$21.1 million or 4.5 percent. The increase is primarily comprised of water operations and sewer operations, which provided an increase in net position of \$5.0 million and \$8.3 million respectively. Storm utilities experienced an increase in net position of \$5.6 million.

The following table provides a summary of the change in net position for 2014 compared to 2013.

Governmental activities: Governmental activities decreased the City's net position by \$8.0 million. Key elements of the changes in net position are as follows:

- Income tax revenue, which represents 52.1 percent of the City's governmental revenue, finished 2014 \$5.5 million higher than the previous year when taken on a full accrual basis. This was due primarily to an added work shift in the manufacturing sector.
- Operating grants decreased by \$6.3 million or 30.9 percent due to the Department of Neighborhoods receiving less funding from HUD for CDBG grant and HOME grant and the continued phase out of ARRA grants. Capital grants revenue experienced an increase of \$3.9 million, due in large part to a grant received for the Great Lakes Historical Museum.

Business-type activities: Net position of the City's Business-type activities increased \$21.2 million. Key elements of the changes in net position are as follows:

- Charges for services increased \$10.5 million or 7.2 percent in 2014, this relates primarily to the scheduled utility user rate increases approved by City Council in 2011.
- The City saw its program revenues from capital grants increase by \$1.8 million in 2014. This was primarily due to increased funding from the Ohio Public Works Commission (OPWC) for water reclamation projects.
- Expenses were \$19.3 million higher in 2014 versus the previous year. This came as a result of additional investment in upgrades and improvements to the water treatment plant.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with financerelated requirements.

Governmental Funds

The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2014, the City's governmental funds reported a combined ending fund balance of \$10.2 million; a decrease of \$3.8 million in comparison with the prior year. There is an *unassigned fund balance* deficit of \$(62.6) million. The *nonspendable fund balance* of \$7.7 million represents the City's investment in inventory. The \$47.9 million *restricted fund balance* is not available for new spending because it has already been restricted by parties outside of the City or pursuant to enabling legislation. There is a *committed fund balance* of \$17.1 million.

A schedule of governmental funds revenues and expenditures for the last ten fiscal years has been provided in the Statistical Section of this CAFR – see Table 4 on page 195.

General Fund: The general fund is the chief operating fund of the City. At December 31, 2014, the total fund balance of the general fund was \$9.8 million. The fund balance of the City's general fund increased \$1.8 million during 2014. The City's income tax revenue increased by \$6.0 million or 3.8 percent, due in large part to an added work shift at an automotive assembly plant in 2014. Expenditures increased by \$2.7 million or 1.3 percent primarily as a result of increases in public safety labor.

Capital Improvement Fund: The capital improvement fund is used to account for construction, acquisition and major improvements of the City's buildings, infrastructure and parklands. The operating transfers of funds received herein are derived from the income taxes that are earmarked by voters for capital improvement, construction grants and bond sales. At December 31, 2014, total fund balance of the capital improvements fund is \$19.1 million. The fund balance of the capital improvements fund during 2014. The City continues to dedicate new debt to road construction.

Special Assessment Services Fund: The special assessment services fund is used to account for the proceeds of special assessments levied against property owners benefiting from street cleaning, street lighting, surface treatment, weed cutting, snow removal and tree and ditch maintenance. At December 31, 2014, total fund balance of the special assessment services funds was a deficit of \$56.9 million. The fund balance deficit of the special assessments services fund increased by \$6.1 million during 2014.

Proprietary Funds

The City's proprietary fund financial statements provide the same information found in the governmentwide financial statements, but in more detail.

The City operates three major enterprise activities: water, sanitary sewer and utility administration. The City also operates seven nonmajor enterprise activities: storm water, property management, small business development, municipal tow lot, marina operations, Erie Street Market and Toledo Public Power. These activities are accounted for in separate enterprise funds. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the City intends that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City reports on its enterprise funds using the full accrual basis of accounting.

Water: The total net position of the water fund at the end of the year amounted to \$162.2 million. The net position of the water fund increased \$5.0 million or 3.2 percent in 2014. Operating revenues increased by \$4.7 million or 9 percent over comparable revenue in 2013, due to a rate increase as part of the four year rate plan approved by City Council. Operating expenses increased \$4.9 million or 13.8 percent over comparable expenses in 2013.

Sewer: The total net position of the sewer fund at the end of the year amounted to \$278.7 million of which \$6.2 million is unrestricted. The net position of the sewer fund increased \$8.3 million or 3.1 percent. Operating revenues remained flat for fiscal year 2014 versus 2013, as evidenced by an increase of \$171 thousand over comparable revenue in the previous year. Operating expenses for fiscal year 2014 increased \$8.5 million or 19.4 percent over comparable expenses in 2013, due to an increase in volume and associated costs of production and increased maintenance costs on aging infrastructure. This fund also received revenue from capital contributions in 2014 of \$1.6 million for the construction projects related to the sewer facilities.

Utility Administration Services: The total net position of the utility administration services fund at the end of the year amounted to \$1.6 million of which \$1.4 million is unrestricted. The net position of the utility administration services fund increased by \$268 thousand or 20.6 percent. Operating revenues for fiscal year 2014 increased by \$2.2 million or 22.3 percent. Operating expenses for fiscal year 2014 increased by \$891 thousand or 7.9 percent.

Nonmajor: The total net position of the nonmajor enterprise funds at the end of the year amounted to \$45.3 million of which a (\$10.3) million deficit is unrestricted. The net position of the nonmajor enterprise funds increased \$7.6 million. Operating revenues for fiscal year 2014 increased by \$3.4 million or 26 percent over comparable revenue in 2013, due in large part to an increase in storm sewer revenue. Operating expenses for fiscal year 2014 increased \$102 thousand or 1.2 percent over comparable expenses in 2013.

Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The 2014 final general fund total revenue budget was \$244.8 million as compared to the original budget of \$244.7 million.

The following schedule is a summary of general fund revenues for 2014 over comparable revenue for 2013:

Revenues and Other Financing Sources

(Amounts in Thousands)

				Increase								
				(D	ecrease)	% Change						
		2014	% of Total	fr	om 2013	from 2013						
Income Taxes	\$ 164,787		68.3%	\$	6,012	3.8%						
Property Taxes		9,552	4.0%		(46)	-0.5%						
Licenses and Permits		2,468	1.0%		60	2.5%						
Intergovernmental Services		17,708	7.3%		(3,336)	-15.9%						
Charges for Services		26,265	10.9%		(31)	-0.1%						
Investment Earnings		230	0.1%		95	70.4%						
Fines and Forfeitures		5,876	2.4%		(1,242)	-17.4%						
Other Revenue		898	0.4%		278	44.8%						
Gain on Sale of Capital Assets		-	0.0%		(25)	-100.0%						
Transfers In		13,418	5.6%		941	7.5%						
Total	\$	241,202	100.0%	\$	2,706	1.1%						

Key elements of the changes in revenues are as follows:

- Income tax revenue increased \$6.0 million or 3.8 percent under comparable revenue from 2013. The increase is primarily attributable to an increase of withholding in the manufacturing category. Specifically, there was an added work shift at an automotive assembly plant.
- Intergovernmental services revenue decreased \$3.3 million or 15.9 percent over comparable revenue from 2013. The decrease is a direct result of the decline in estate tax revenue versus the previous year.
- Revenue from fines and forfeitures in 2014 decreased \$1.2 million from comparable revenue in 2013. This was due to a reduction in monies collected from red light camera violations.

The 2014 final general fund total expense budget was \$244.8 million as compared to the original budget of \$244.7 million.

The following schedule is a summary of general fund expenditures for 2014 over comparable expenditures from 2013:

Expenditures and Other Uses

(Amounts in Thousands)

				crease				
				(De	ecrease)	% change		
	2014 % of Total			fro	om 2013	from 2013		
General Government	\$ 25,555		\$ 25,555		10.7%	\$	(1,557)	-5.7%
Public Service		1,839	0.8%		165	9.9%		
Public Safety		164,410	68.5%		5,146	3.2%		
Public Utilities		8	0.0%		7	700.0%		
Community Environment		4,394	1.8%		(277)	-5.9%		
Health		4,272	1.8%		(495)	-10.4%		
Parks and Recreation		2,623	1.1%		(324)	-11.0%		
Capital Outlay		-	0.0%		(1)	-100.0%		
Principal Retirement		548	0.2%		22	4.2%		
Interest and Fiscal Charges		178	0.1%		(22)	-11.0%		
Transfers Out		36,008	15.0%		1,351	3.9%		
Total	\$ 239,835		100.0%	\$	4,015	1.7%		

Key elements of the changes in expenditures are as follows:

- Public safety increased \$5.1 million or 3.2 percent over comparable expenditures from 2013. The increase is attributable to increased labor costs that were the result of additional staffing in the Police and Fire Departments as well as contractual wage rate increases.
- Transfers out increased \$1.4 million or 3.9 percent over comparable expenditures from 2013. The increase is a result of the City's increase in income tax revenues.
- General Government decreased \$1.6 million or 5.7 percent over comparable expenditures from 2013. The decrease is primarily attributable to reductions in full time and seasonal labor, as well as a reduction of compensated absence liability.

General Fund Equity: Total equity in the general fund was a positive balance of \$9.8 million. The equity balance is comprised of the following:

- *Nonspendable* This total is related to inventory and totaled \$1.6 million in 2014.
- *Restricted* This category applies to funds which can only be spent for a specific purpose stipulated by external resource providers or through enabling legislation. The restricted equity balance of the General Fund totaled \$5.3 million in 2014.

- *Committed* The City maintains a Budget Stabilization Designation to cover unexpected revenue shortfalls and/or expenditure increases. This is classified under the committed category of fund equity and totaled \$1.6 million in 2014. The City did not utilize monies in the Budget Stabilization Designation for expenditures in 2014.
- *Unassigned* This is the residual classification for the remaining funds that have not been reported in any other classification. In 2014, the unassigned fund balance totaled \$1.3 million.

Capital Asset and Debt Administration

Capital assets: The City's net investment in capital assets for governmental and business-type activities as of December 31, 2014, amounts to \$1.4 billion. This investment in capital assets includes land, buildings, water and sewer distribution systems, improvements, machinery and equipment, park facilities, roads, curbs, gutters, streets, sidewalks and drainage systems.

Capital Assets (Net of Depreciation)

(Amounts in Thousands)

Major capital asset events during 2014 included the following:

- > Total net investment in capital assets increased \$42.3 million or 3.1 percent.
- Business-type capital assets increased by \$48.5 million or 6.1 percent net of \$21.7 million in current year depreciation expense. The increase is attributed to City's continued investment into its water and sewer system infrastructure.
- Governmental capital assets decreased by \$6.2 million or 1.1 percent net of \$39.9 million in current year depreciation expense.

Additional information on the City's capital assets can be found in Note 6 on pages 72 through 74 of this report.

Long-term debt: At December 31, 2014, the City had \$943.7 million of long-term bonds, notes, loans and other obligations outstanding net of unamortized premiums and discounts in governmental and business-type activities. All assessment bonds issued by the City are general obligation bonds and notes. There were \$65 thousand in assessment bonds and \$40.7 million in assessment notes all related to governmental activities outstanding at December 31, 2014. The revenue bonds of the City represent bonds secured solely by specified revenue sources.

(Amounts in Thousands)

Long-Term Debt Outstanding

Total long-term bonds and loans outstanding at December 31, 2014 increased \$26.8 million or 2.9 percent as compared to the amount outstanding at December 31, 2013.

On December 31, 2014, the City's bond ratings with Standard & Poor's Corporation and Moody's Investor Services, Inc. were A- and A2, respectively.

The ORC provides two debt limitations that are directly based on tax valuation of all property in a city.

- ➤ The net principal amount of both voted and nonvoted debt of a city, excluding certain "exempt debt", may not exceed 10.5 percent of the total tax valuation of all property in the city as listed and assessed for taxation.
- The net principal amount of the nonvoted debt of a city, excluding exempt debt, may not exceed 5.5 percent of that valuation.

These two limitations are referred to as "direct debt limitations." Without consideration of amounts in the City's bond retirement fund and based on outstanding debt as of December 31, 2014, as well as current assessed valuation, the City's voted and nonvoted nonexempt debt capacities within the direct debt limitations were:

					A	dditional					
			N	Nonexempt Debt Capac							
]	Limitation	Debt	Outstanding	With	in Limitation					
10.50%	\$	336,039	\$	143,540	\$	192,499					
5.50%	\$	176,021	\$	143,540	\$	32,481					

Nonvoted general obligation debt issued by the City is also subject to an indirect debt limitation, commonly referred to as the "ten-mill limitation," imposed by a combination of provisions of the Ohio Constitution and the ORC. Under that limitation, nonvoted debt may not be issued unless the ad valorem property tax for the payment of debt service on (a) the bonds (or the bonds in anticipation of which notes are issued), and (b) all outstanding nonvoted general obligation bonds (including bonds in anticipation of which BANs are issued) of the combination of overlapping taxing subdivisions including the City resulting in the highest tax required for such debt service, in any year is 10 mills or less per \$1.00 of assessed valuation.

As of December 31, 2014, the total millage theoretically required by the City and the combination of overlapping taxing subdivisions was estimated to be 7.5479 mills, down from prior year at 8.3750 mills for the year of the highest potential debt service. The City and the overlapping taxing subdivisions had the highest millage requirements for debt service on nonvoted general obligation debt in any year for their outstanding nonvoted general obligation debt. The remaining 2.4521 mills within the ten-mill limitation was yet to be allocated to debt service and that was available to the City and overlapping subdivisions in connection with the issuance of additional nonvoted general obligation debt.

Additional information regarding the City's notes payable in Note 7 on page 74 of this report. Information regarding long-term debt can be found in Note 8 on pages 75 through 80.

Economic Factors and 2015 Budgets and Rates

The City's elected and appointed officials considered many factors when setting the fiscal 2015 budget. Both the national economy and the City are slowly recovering from a depressed economic situation. Our 2014 income tax revenues, which are the largest source of revenue for our general fund, increased by 3.8 percent over the previous year.

The City is committed to controlling costs, putting the highest premium on safety for our citizens and adopting a budget designed to promote long-term fiscal stability and maintain budget reserves. Increasing productivity and reducing personnel costs will provide the most benefit to the current year budget and future budgets. To this end, the City is in process of reviewing several service areas. The City and County are in discussions concerning areas of shared services ranging from vehicle maintenance to communication services. The City and Lucas County are working with the Regional Growth Partnership and the Toledo-Lucas County Port Authority, as well as all surrounding municipalities and townships to promote economic development programs. In addition, the City will continue its investment in job creation in order to continue to grow our local economy. The total general fund budget for 2015 is \$245.9 million.

Request for Information

This financial report is designed to provide our citizens, taxpayers, customers and investors and creditors with a general overview of the City's finances and to show accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Director of Finance City of Toledo, Ohio One Government Center, Suite 2050 Toledo, OH 43604

City of Toledo, Ohio

Reconciliation of the Balance Sheet to the Statement of Net Position Governmental Funds December 31, 2014 (amounts expressed in thousands)

Total fund balances for governmental funds			\$	10,171
Total net position reported for governmental activities in the statement of net position is different because:				
Capital assets used in governmental activities (excluding internal services funds capital assets) are not				
financial resources and therefore are not reported in the funds				543,473
Revenue will be collected beyond the 60 day period use statements. Revenue and a corresponding receivable are included in the government-wide statements	¢ ~	6.0.60		
Special assessments		6,363		
Income taxes		7,074		
Delinquent property taxes		2,811		
Capital grants		3,998		
Operating grants Other revenue		3,305 2,012		
Reimbursements from other governments		4,520		80,083
Remoursements from other governments		4,320		80,085
Internal services funds are used by the City to account for the financing of goods or services provided by one department or agency to the other City departments or agencies, generally on a cost reimbursement basis. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.				31,879
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities - both current and long-term - are reported in the statement of net position. Balances at December 31, 2014 are as follows:				
General obligation bonds	(12	3,648)		
Compensated absences		1,359)		
Loans outstanding from federal agencies	(1	8,641)		
Loans outstanding from state agencies	(1	5,111)		
Accrued interest		(800)		
Landfill closure	(1	5,799)		
Capital leases	(4,027)		(209,385)

City of Toledo, Ohio

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities Governmental Funds For the Year Ended December 31, 2014 (amounts expressed in thousands)

Net change in fund balances - total governmental funds		\$ (6,554)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets, which meet the capitalization requirement, is allocated over their estimated useful lives and reported as depreciation expense. Capital additions Depreciation expense	\$ 32,820 (37,666)	(4,846)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. The amount of this net effect of the reversal of prior year items against current year accruals.		
Special assessments Income taxes Delinquent property taxes Capital grants Operating grants Other revenue	6,755 (1,134) 33 3,638 (5,865) 2,012	
Reimbursements from other governments	(2,076)	3,363
The long-term liability for compensated absences is not recorded in the funds, but is reported in the statement of activities. This amount is the current year change in the liability, reported as an expense in the statement of activities.		(1,610)
The long-term liability for landfill closure is not recorded in the funds, but is reported in the statement of activities. This amount is the current year change in the liability, reported as an expense in the statement of activities.		(543)
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long- term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but repayment reduces long-term liabilities in the statement of net assets. This amount is the amount by which repayment of proceeds exceeds principal from issuance not reported as notes		
payable in the governmental funds.		(399)
Change in accrued interest		52
Some expenses reported in the statements of activities do not require the use of current financial resources and, therefore; are not reported as expenditures in governmental funds. Change in inventory		2,726
Changes in net position of internal service funds reported with governmental activities.		(238)
Changes in net position of governmental activities		\$ (8,049)

NOTES TO THE FINANCIAL STATEMENTS

City of Toledo, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2014 (Amounts in Thousands)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Toledo, Ohio (City) was incorporated January 7, 1837, and operates under its Charter adopted in November 1914. The City may exercise all powers of local self-government granted under Article XVIII, Section 3, of the Ohio Constitution, not in conflict with applicable general laws of Ohio. The Charter provides that the City operate under the strong mayor/council form of government.

The Financial Statements of the City have been prepared in conformity with Accounting Principles Generally Accepted in the United State of America (GAAP) as applied to local government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the City's accounting policies are described below.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the Financial Statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City. The reporting entity of the City includes the following services as authorized by its Charter: Public Safety, Highways and Streets, Water and Sanitation, Health and Social Services, Culture-Recreation, Public Improvements, Planning and Zoning and General Administrative Services.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing body, and (1) the City is able to significantly influence the programs and services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; or (3) the City is legally obligated or has otherwise assumed the responsibility to finance deficits of, or provide financial support to, the organization; or (4) the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves their budget, the issuance of their debt, or the levying of taxes for the organization. The City has no component units.

Jointly Governed Organizations

City of Toledo-City of Rossford

In February 1992, the City entered into a contract with City of Rossford to create a Joint Economic Development Zone (JEDZ). The purpose of this contract is to facilitate planned, orderly, new and expanded commercial and industrial growth within the region; creating retaining and enhancing employment opportunities for the benefit of Toledo and Rossford and their residents and all of the residents of the region.

The zone has helped foster successful retail and other developments in the zone. The agreement results in an income tax that shall be imposed based on the City of Rossford's Municipal Code at a rate of 2.25%. The City will receive approximately 27.33% of the net revenues generated by this agreement. The City received \$95 in revenues from the JEDZ in 2014.

City of Toledo, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2014 (Amounts in Thousands) (continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Jointly Governed Organizations (continued)

City of Toledo-City of Maumee-Monclova Township

In October 2003 and amended in 2010, the City entered into a contract with City of Maumee and Monclova Township to create a JEDZ. The purpose of this contract is to facilitate planned, orderly, new, and expanded commercial and industrial growth within the region; creating retaining and enhancing employment opportunities for the benefit of Toledo, Maumee and Monclova, and their residents and all of the residents of the region. The agreement results in an income tax that shall be imposed based on the City of Maumee's Municipal Code at a rate of 1.5%. The City will receive one-fourth of the net revenues generated by this agreement. The City received \$1,189 in revenues from the JEDZ in 2014.

City of Toledo-City of Sylvania

In July 2008, the City entered into a revenue sharing contract with the City of Sylvania. The purpose of this contract is to facilitate new and expanded commercial growth or economic development in the State and the City of Sylvania. The agreement results in an income tax that shall be imposed based on the City of Sylvania's Municipal Code at a rate of 1.5%. The City will receive 40% of the net revenues in excess of the baseline revenues established yearly generated by this agreement. The City received \$12 in revenues from this agreement in 2014.

City of Toledo-Perrysburg Township

In October 2008, the City entered into a contract with Perrysburg Township to create a Joint Economic Development District (JEDD). The purpose of this contract is to facilitate economic development; create or preserve jobs and employment opportunities and to improve the economic welfare of the people and businesses located in the State, Township, City and District. The agreement results in a payroll income tax that shall be imposed based on the City's Municipal Code at a rate of 2.25% paid by employees of businesses located in the District. The City will receive the first \$223 of revenues and 50% of the remaining revenues generated by this agreement. The City received \$27 in revenues from the JEDD in 2014.

City of Toledo-Lake Township

In August 2009, the City entered into a contract with Lake Township to create a JEDD. The purpose of this contract is to facilitate economic development; create or preserve jobs and employment opportunities and to improve the economic welfare of the people and businesses located in the State, Township, City and District. The agreement results in an income tax that shall be imposed based on the City's Municipal Code at a rate of 2.25%. The City will receive 40% of the net revenues generated by this agreement. The City did not receive revenues from the JEDD in 2014.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Jointly Governed Organizations (continued)

City of Toledo-Troy Township

In September 2010, the City entered into a contract with Troy Township to create a JEDD. The purpose of this contract is to facilitate economic development; create or preserve jobs and employment opportunities and to improve the economic welfare of the people and businesses located in the State, Township, City and District. The agreement results in an income tax that shall be imposed based on the City's Municipal Code at a rate of 2.25%. The City will receive 40% of the net revenues generated by this agreement. The City received \$24 in revenues from the JEDD in 2014.

Corrections Commission of Northwest Ohio

In 1987, the City entered into a joint contractual agreement with five counties (Defiance, Fulton, Henry, Lucas and Williams) to form the Corrections Commission of Northwest Ohio (Commission) to oversee the construction and operation of a regional jail. The mission of the Commission is to protect the public, employees and offenders, while operating a cost effective detention center. Each member jurisdiction paid their share of the capital cost of construction of the facility (approximately \$21.3 million). The State of Ohio reimbursed \$10.7 million or 50% of the total capital cost of construction as an incentive to build regional jails.

The six member jurisdiction share in the cost of operation of the Commission based upon the number of beds each are allocated. The funding percentages to each jurisdiction are as follows: City of Toledo - 37.63%, Lucas County - 31.03%, Defiance County - 9.4%, Fulton County - 8.15%, Williams County - 8.15% and Henry County - 5.64%. The six member jurisdictions each have three representatives (county commissioner/city manager, chief of police/sheriff and a judge) to serve on the eighteen member board. The degree of control exercised over the Commission by each member jurisdiction is limited to budgeting and financing. The City contributed \$5,581 for the operation of the Commission in 2014. Financial information can be obtained from the Commission's administrative office located at 3151 County Road 2425, Stryker, OH 43557-9418.

Basis of Presentation

The City's basic Financial Statements consist of Government-Wide Statements, including a Statement of Net Position and Statement of Activities, as well as Fund Financial Statements which provide a more detailed level of financial information. The Government-Wide Statements report all of the assets, deferred outflows, liabilities, deferred inflows, revenues and expenses of the City. Governmental Activities are reported separately from Business-Type Activities. Governmental Activities are normally supported by taxes and intergovernmental revenues whereas Business-Type Activities are normally supported by fees and charges for services and are usually intended by management to be financially self-sustaining. Fiduciary Funds of the City are not included in these Government-Wide Financial Statements; however, separate Financial Statements are presented for the Fiduciary Funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Presentation (continued)

Government-Wide Financial Statements:

The Statement of Net Position and the Statement of Activities display information about the City as a whole. These statements include the financial activities of the primary government, except Fiduciary Funds. The activities of the Internal Service Funds are eliminated to avoid doubling up revenues and expenses. The statements distinguish between those activities of the City that are Governmental and those that are considered Business-Type Activities.

The Statement of Net Position presents the financial condition of the Governmental and Business-Type Activities of the City at year-end.

The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the City's Governmental Activities and Business-Type Activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipient of the goods and services offered by the program and (b) grants and contributions that are restricted to meeting the operational and capital requirements of a particular program. Revenues not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

During the year, the City segregates transactions related to specific City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund Financial Statements are designed to present financial information of the City at a more detailed level. The focus of Governmental and Enterprise Funds Financial Statements is on Major Funds. Each Major Fund is presented in a separate column. Non-Major Funds are aggregated and presented in a single column. The Internal Service Fund is presented in a single column on the Proprietary Fund Statements. Fiduciary Funds are reported by type.

Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The City's funds are classified as Governmental, Proprietary and Fiduciary.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Accounting (continued)

Governmental Funds:

Governmental Funds are those through which most governmental functions typically are financed. Governmental reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various Governmental Funds according to the purposes for which they may or must be used. Current Liabilities are assigned to the fund from which they will be paid. The difference between Governmental Fund Assets, Liabilities and Deferred Inflows is reported as Fund Balance. The following are the City's major Governmental Funds:

General Fund: Accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Capital Improvements Fund: Accounts for construction, improvements and acquisition of building and infrastructure.

Special Assessment Services Fund: Accounts for the proceeds of special assessments (and related note sales) levied against property owners benefiting from the City's services.

Proprietary Funds:

Proprietary Fund reporting focuses on changes in net position, financial position and cash flows.

Enterprise Funds: Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges. The City has separate Enterprise Funds for the following major enterprises: water, sewer, and utility administrative services.

Water: To account for the operations of the water treatment and distribution systems operated of the City. The Department also provides water services to several areas outside of the City. The water supply is collected from Lake Erie. Revenue is generated by charges that are set a level sufficient to provide funds for the costs of operating, maintaining and providing necessary replacements and improvements and for the debt service requirements on outstanding debt.

Sewer: To account for the operations of the sanitary sewage collection and treatment systems operated of the City. Revenue is generated by charges that are set a level sufficient to provide funds for the costs of operating, maintaining and providing necessary replacements and improvements and for the debt service requirements on outstanding debt.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Accounting (continued)

Proprietary Funds (continued):

Utility Administrative Services: To provide comprehensive billing, collections and customer services/ relations in an efficient, cost-effective and responsive manner to residents, businesses and governmental jurisdictions within the greater Toledo metropolitan areas, as well as administrative support for the Department of Public Utilities. Senior clerks are available to assist with water/sewer service contracts, billing problems, inspections, payment agreements, remote installations and many other customer service needs.

Internal Service Funds: Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, generally on a cost-reimbursement basis.

Fiduciary Funds:

The City's only Fiduciary Fund reporting focuses on assets and liabilities.

Agency funds: Agency Funds are used to account for assets held by the City as an agent for individuals, private organization, other governments and/or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The City's primary Agency Funds are the Municipal Court and a General Agency Fund whereas the City is a collection agent for various licenses, fees and taxes for the State of Ohio.

Measurement Focus

Government-Wide Financial Statements:

The Government-Wide Financial Statements are prepared using the economic resources measurement focus. All assets, deferred outflow of resources, liabilities and deferred inflow of resources associated with the operation of the City are included on the Statement of Net Position, except Fiduciary Funds. The Statement of Activities presents increases (e.g., revenues) and decreases (e.g., expenses) in net position.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement Focus (continued)

Fund Financial Statements:

All Governmental Funds are accounted for using a flow of current financial resources measurement focus. Using this method, only current assets, current liabilities and deferred inflows of resources are generally included on the Balance Sheet. The Statement of Revenue, Expenditures, and Changes in Fund Balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the Governmental Activities of the Government-Wide Financial Statements are prepared. Governmental Fund Financial Statements therefore include reconciliations with brief explanations to better identify the relationship between the Government-Wide Statements and the Statements for Governmental Funds.

Like the Government-Wide Statements, all Proprietary Funds are accounted for on a flow of economic resources measurement focus. All assets, deferred outflow of resources, liabilities and deferred inflow of resources associated with the operation of these funds are included on the Statement of Net Position. The Statement of Changes in Fund Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the City finances and meets the cash flow needs of its Proprietary Activities.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues are those revenues that are generated directly from the primary activity of the Proprietary Funds. For the City, these revenues are charges for services for all major and non-major Proprietary Funds and charges for goods and services to other departments provided by the Internal Service Funds. Operating expenses are necessary costs incurred to provide the goods and services that are the primary activity of the fund.

Agency Funds do not report a measurement focus as they do not report operations.

Basis of Accounting

Basis of Accounting determines when transactions are recorded in the financial records and reported on the Financial Statements. The Government-Wide as well as the Fiduciary Funds and Proprietary Fund Financial Statements are prepared using the accrual basis of accounting. The Governmental Funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflow of resources and in the presentation of expenses versus expenditures.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting (continued)

Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from Exchange Transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Under the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities for the current fiscal year. For the City, available means expected to be received within sixty days after year-end.

Non-exchange Transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. Under the accrual basis, revenue from income taxes is recognized in the period in which the income is earned (see Note 4). Revenue from property taxes is recognized in the year in which the taxes are levied (see Note 5).

Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis.

Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: income tax, state-levied local shared taxes (including gasoline tax), fines and forfeitures, licenses and permits, interest, grants and rentals.

Deferred Outflows/Inflows of Resources

The statement of financial position will sometimes report a section separate from assets for *deferred outflows of resources*. This separate element of the financial statement represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources until then. Currently, the City has one item that qualifies for reporting in this category – which is the costs associated with prepaid debt insurance.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting (continued)

The statement of financial position will sometimes report a section separate from liabilities for *deferred inflows of resources*. This separate element of the financial statement represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources until then. Property taxes for which there is an enforceable legal claim as of December 31, 2014, but which were levied to finance year 2015 operations have been recorded as Deferred Inflows. In addition, income taxes, special assessments and receivables not received within the available period; as well as grants and entitlements received before the eligibility requirements are met have been reported on governmental funds reports as Deferred Inflows.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of Governmental Fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measureable. Allocations of cost, such as depreciation and amortization, are not recognized in Governmental Funds.

Budgetary Information

Annual budgets are adopted for all Governmental Funds other than capital projects funds on the GAAP basis in that revenues are recorded when earned and expenditures are recorded when incurred. Capital projects funds adopt project-length budgets at the time bonds are sold or other funding sources are determined. The City maintains budgetary controls by not permitting expenditures to exceed appropriations at the account for each division within each fund.

Cash and Cash Equivalents

Cash balances of the City's funds are pooled and invested in order to provide improved cash management. Monies for all funds are maintained in this pool. All of the City's depository accounts are maintained by the General Fund and reported on the Statement of Net Position as "Cash and Cash Equivalents with Treasurer."

Investments were limited to certificates of deposit, Federal Government Agency securities and the State Treasury Assets Reserve of Ohio (STAR Ohio). Except for non-participating investment contract, investments are stated at fair value which is based on quoted market prices. Non-participating investment contracts, such as non-negotiable certificates of deposit, are reported at cost.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents (continued)

STAR Ohio is an investment pool managed by the State Treasurer's office which allows governments with the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are values at STAR Ohio's share price which is the price the investment could be sold for on December 31, 2014.

For the purposes of the Statement of Cash Flows, the Proprietary Funds consider all highly liquid investments held by treasurer with an original maturity date of three months or less when purchased, to be Cash Equivalents. In addition, all cash with treasurer and other cash are also considered to be Cash Equivalents because they are available to the Proprietary Fund on demand.

Inventory of Supplies

Inventories are valued at cost in utilizing the First-In, First-Out (FIFO) method for both Governmental Funds and Proprietary Funds and are expensed when used.

Restricted Assets

Restricted Assets are those that are legally restricted in their use by bond indentures, or other legal instruments.

Capital Assets

General Capital Assets are those assets not specifically related to activities reported in the Proprietary Funds. These assets generally result from the expenditures in the Governmental Funds. These assets are reported in the Governmental Activities column of the Government-Wide Statement of Net Position but not reported in the Governmental Fund Financial Statements. Capital Assets utilized by the Proprietary Funds are reported both in the Business-Type Activities column of the Government-Wide Statements of Net Position and in the respective funds.

All Capital Assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated Capital Assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five hundred dollars. The City's infrastructure consists of bridges, curbs and gutters, lighting, sidewalks, roads, drainage systems and water and sewer lines. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not. Interest incurred during the construction of capital assets are capitalized in the proprietary funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital Assets (continued)

All reported Capital Assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related Capital Assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following estimated useful lives:

Buildings	35-50 years
Improvements other than buildings	10-20 years
Machinery and Equipment	5-25 years
Furniture and fixtures	8-20 years
Infrastructure	20-50 years
Distribution systems	100 years

Interfund Balances

On Fund Financial Statements, outstanding Interfund loans and unpaid amounts for Interfund services are reported as "due to/from". Interfund balance amounts are eliminated in the Statement of Net Position.

Compensated Absences

The City follows the provisions of Governmental Accounting Standards board No. 16, *Accounting for Compensated Absences*. Vacation and compensatory time benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the city will compensate the employees for the benefits through paid time off or some other means. The City records a liability for accumulated unused vacation and compensatory time when earned for all employees with more than one year of service.

Sick leave benefits are accrued using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the City's past experience of making termination payments.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at the Balance Sheet date, and reduced to the maximum payments allowed by labor contract and/or statute, plus applicable additional salary related payments. City employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave at various rates.

The entire compensated absence liability is reported on the Government-Wide Financial Statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Compensated Absences (continued)

On Governmental Fund Financial Statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due during each period upon the occurrence of employee resignations and retirements. For Proprietary Funds, the entire amount of compensated absences is reported as a fund liability.

Accrued Liabilities and Long-Term Obligations

All payables and accrued liabilities and long-term obligations payable from the Governmental Funds are reported in the Government-Wide Financial Statements and all payables, accrued liabilities and long-term obligations payable from Proprietary Funds are reported on the Proprietary Fund Financial Statements.

In general, once Governmental Fund payables and accrued liabilities have incurred, they are paid in a timely manner and in full from current financial resources and reported as obligations of the funds. However, claims, judgments and compensated absences that will be paid from Governmental Funds are reported as a liability in the Fund Financial Statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans are recognized as a liability on the Fund Financial Statements when due.

Debt Insurance Costs, Premiums, Discounts and Deferred Amount on Refunding

On Government-Wide Financial Statements, bond insurance costs are deferred and amortized over the term of the bonds using the straight-line method. Unamortized bond insurance costs are reported as a separate line item on the Statement of Net Position as a deferred outflow.

Bond premiums and discounts are deferred and amortized over the term of the bonds using the straightline method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds. Bond discounts are presented as a reduction of the face amount of the bonds.

For advance refunding resulting in the defeasance of debt in the Government-Wide Financial Statements and in the Proprietary Funds, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as an addition to or reduction from the face amount of the new debt, if material.

Interfund Activity

Transfers between Governmental and Business-Type Activities on the Government-Wide Statements are reported in the same manner as general revenues.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Interfund Activity (continued)

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as Interfund transfers. Interfund transfers are reported as other financing sources/uses in Governmental Funds and after non-operating revenues/expenses in Proprietary Funds.

Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic Financial Statements.

Fund Balance Classifications

Fund Balance for Governmental Funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the City is "bound to honor constraints on the specific purposes for which amounts in the fund can be spent" in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

The components for reporting the City's Fund Balance are non-spendable, restricted, committed, assigned and unassigned. Non-spendable Fund Balance includes those amounts that are not in a spendable form such as inventory. Restricted Fund Balance includes those amounts that are restricted by parties outside of the City or pursuant to enabled legislation. Committed Fund Balance describes the portion of the Fund Balance that has been limited to use by approval of City Council. City Council is the City's highest level of decision making. Fund balance commitments are established, modified or rescinded by City Council action through passage of an ordinance. Assigned Fund Balance includes amounts that have been intended use by City Council. City Council demonstrates its intent for use of assigned amounts through passage of appropriation legislation or resolution. The Unassigned Fund Balance represents the residual net resources in General Fund and deficits in other Governmental Funds.

The City considers restricted amounts to have been spent when expenditure is incurred for purposes of which both restricted and unrestricted Fund Balance is available. The City does not have a formal policy for its use of unrestricted Fund Balance amounts; therefore, it considers committed amounts used first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted Fund Balance classification could be used.

Estimates

The preparation of the Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Financial Statements and accompanying notes. Actual results may differ from those estimates.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net Position

Net Position represents the difference between assets, deferred outflow of resources, liabilities and deferred inflow of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances for any borrowing used for the acquisition, construction or improvement of those assets. Net Position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by the creditors, grantors or laws or regulation of other governments.

NOTE 2 – DEPOSITS AND INVESTMENTS

The City's investment policy allows for the following types of deposits and investments:

- 1. Direct obligations of the United States which include, but are not limited to, Treasury certificates, bills, bonds, notes as well as United States Treasury obligations, State and Local Government Series;
- 2. Bonds, notes, debentures or any other obligation or securities issued by the following Federal Government agencies or instrumentalities: Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank and Federal Home Loan Mortgage Corporation;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement is at least equal to 100% of the price at which the repurchase securities are to be repurchased from the City, or such greater percentage as is agreed upon by the seller and the City prior to or upon entering into a particular transaction;
- 4. Bonds, notes and other negotiable instruments evidencing the obligation of the City to pay money;
- 5. Bonds, notes and other negotiable instruments of political entities other than the City which are rated at the time of acquisition by Moody's or Standard and Poor's in at least the third highest category when rated with a long term rating or in the highest category when rated with a short term rating;
- 6. The State Treasurer's investment pool (STAR Ohio).
- 7. Demand deposits which are deposited with an institution having all of the qualifications of a depository except that it needs only have an office located in the State rather than in the City and payable on demand of the City. Such deposits may include interest-bearing or non-interest bearing checking accounts, NOW accounts, savings accounts and other similar accounts authorized by the Federal Reserve Bank Board or the Federal Home Bank Board.

NOTE 2 – DEPOSITS AND INVESTMENTS (continued)

- 8. Non-demand savings accounts which are deposited in an institution having all of the qualifications of a depository except that it need only have an office located in the State rather than in the City that are not payable on demand but, instead, are payable at a certain date.
- 9. Negotiable or non-negotiable interest-bearing time certificates of deposit representing deposits of the City placed in an institution having all of the qualifications of a Depository except that it need only have an office located in the State rather than in the City.
- 10. Federally insured certificates of deposit initiated through a Federal Deposit Insurance Corporation member bank or savings and loan association having an office in Lucas County and under an arrangement whereby the full amount of the deposit is allocated among a reciprocal network of participating Federal Deposit Insurance Corporation member banks or savings and loan associations, wherever located, such that the full amount of the City's deposit is covered by federal deposit insurance
- 11. The STAR Plus Federally Insured Cash Account, an investment program offered in conjunction with STAR Ohio under which funds invested through the program are deposited in various federally insured banks, savings banks or savings and loan associations located anywhere in the United States in such a manner that the full amount of the public moneys deposited is covered by federal deposit insurance.

A qualified depository is a bank, trust company or savings and loan association organized under the laws of the State or under the laws of the United States, doing business and situated in the State and

- 1. Has an office located in the City which is capable of providing services requested by the City
- 2. Has deposits which are insured by the Federal Deposit Insurance Corporation
- 3. Has Equity Capital in excess of \$50 million or has been approved by an ordinance of City Council following completion of the appeal process
- 4. Carries a holding company Long Term Issuer Default Rating by Fitch of BBB or better
- 5. Provides collateralization as required by the City's Municipal Code.

An investment must mature within three years from the date of purchase unless matched to a specific obligation or debt of the City. Investments may only be made through specified dealers and institutions. Payments for investments may be made only upon delivery of the securities representing the investments to the Finance Director or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

NOTE 2 – DEPOSITS AND INVESTMENTS (continued)

Deposits

Custodial credit risk is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. Under both the Ohio Revised Code and the City's Municipal Code, the City's deposits are subject to a collateralization requirement by either specific or pooled securities deposited with Federal Reserve Banks, or at member banks of the Federal Reserve System, in the name of the City or the depository bank.

At December 31, 2014, the carrying amount of the City's deposits was \$23,376 and the bank balance was \$26,003. Of the bank balance, the Federal Depository Insurance will cover up to \$250 per account. The City also has un-invested cash in the amount of \$1,262 being held by a third party trustee. This amount is less than the previous year due to the purchase of additional investments. The City also has petty cash funds of \$13 held by departments that are not covered by Federal Depository Insurance or collateralized.

At December 31, 2014, the carrying amount of the Toledo Municipal Court, an agency fund of the City, was \$1,122 and the bank balance was \$1,517. Of the bank balance, the Federal Depository Insurance will cover up to \$250 per account.

Cash and cash equivalents other

At December 31, 2014, the carrying amount of the General Fund was \$10 which represented a fiduciary deposit in transit. The carrying amount of the Utility Administrative Services fund was \$160 which represented utility customer payments in transit.

Investments

Investments are reported at fair value. As of December 31, 2014, the City had the following investments:

	Μ	_	
		More than	
		One Year	
	Within One	but Less than	
	Year	Three Years	Total
Federal Farm Credit Bank	\$ -	\$ 81,978	\$ 81,978

Certificates of Deposit/Savings	13	-	13
US Treasury	11,365		11,365
Total Portfolio	\$ 48,417	\$ 315,156	\$363,573

NOTE 2 – DEPOSITS AND INVESTMENTS (continued)

Investments (continued)

The City follows GASB Statement No. 40, *Deposits and Investment Risk Disclosure*, which requires certain disclosures related to the interest rate, custodial, credit, foreign currency and concentration of credit risks associated with interest-bearing investments.

Interest Rate Risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The City's investment policy generally limits security purchases to those that mature within three years of the settlement date unless the maturity is matched with a specific cash requirement which states that the maturity cannot exceed seven years of the settlement date. The City's investment policy addresses interest risk requiring the consideration of market conditions and cash flow requirements in determining the term of the investments.

Custodial Risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payments for investments prior to the delivery of the securities representing such investments to the Finance Director or qualified trustee.

Credit Risk for investments is addressed by the City's investment policy requirement that all investments are authorized by Code and that the portfolio be diversified both by types of investment and issuer. STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard service rating. All other investments of the City except for U.S. Treasury investments are registered and carry an AA+ rating by Standard and Poor's.

Foreign Currency Risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The City's investment policy does not allow for investment in foreign accounts.

Concentration of Credit Risk is defined by GASB as five percent or more in the securities of a single issuer. The City's investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific class of securities. The City places the following limitations on the amount that can be invested in any one issuer:

- 1. City funds either invested in certificates of deposit or deposited in non-demand savings accounts with any one depository shall not exceed 10 percent of the aggregate principal amount of the City's investment portfolio.
- 2. City funds invested in certificates of deposits in a depository may not exceed 10 percent of the equity capital of the depository at any one time.

NOTE 2 – DEPOSITS AND INVESTMENTS (continued)

Investments (continued)

- 3. No more than \$10 million may be invested at any one time through repurchase agreements with any one institution.
- 4. No more than 40 percent of the aggregate principal amount of the City's investment portfolio shall be invested at any one time in STAR Ohio. Within this 40 percent, up to \$15,000,000 may be further invested through a STAR Plus Federally Insured Cash Account.
- 5. No obligation of any of the government agencies or instrumentalities shall be purchased if such purchase would cause more than 25 percent of the aggregate principal amount of the City's investment portfolio as of the settlement date to be invested in the obligations of that individual government agency or instrumentality.
- 6. The maximum aggregate amount that may be invested for a period longer than 3 years for any one fund shall be 25 percent of the lowest total of all outstanding investments for that fund which occurred during the 12 months immediately prior to the purchase of any security with maturity longer than 3 years. Compliance with this limitation shall be determined as of the settlement date only.
- 7. City securities shall not exceed 10 percent of the aggregate principal amount of the City's investment portfolio, calculated only as of the date of purchase of such City securities. Unless otherwise specified in the ordinance authorizing their issuance, sale and purchase by the City; these securities shall only be purchased to provide interim financing in anticipation of the sale of City debt in the outside market.

The following is the City's allocation as of December 31, 2014:

	Fair Value	% of Total
Federal Farm Credit Bank	\$ 81,978	22.55
Federal Home Loan Bank	101,451	27.90
Federal Home Loan Mortgage Corp	88,929	24.46
Federal National Mortgage Association	67,572	18.59
STAROhio	11,253	3.09
STAR Plus Deposits	1,012	0.28
Certificates of Deposit/Savings	13	0.00
US Treasury	11,365	3.13
Total Portfolio	\$ 363,573	100.00

NOTE 4 – INCOME TAXES

The City levies a Municipal Income Tax of 2.25% on substantially all income earned within the City. The residents of the City are required to pay income tax on the income earned outside of the City; however, the City allows a credit for income taxes paid to another municipality up to 100% of the City's current income tax rate. The City income tax also applies to the net income of businesses located or doing business within the City limits.

The first 1.5% of the income tax is a permanent levy, of which .25% of this tax is dedicated to capital improvements. There is an additional .75% that is levied which was renewed January 1, 2013 for an additional four years. Of this additional tax, .25% is also dedicated for capital improvements. The required transfers to the Capital Improvements Fund for 2014 have been completed. The City's voters renewed Issue 5 in January 2013 which allows the City to use a portion of the .75% for operating expenditures rather than for capital improvements. This allows money to move from the Capital Improvements Fund through December 31, 2016.

Employers within the City are required to withhold income tax on employee compensation and to remit the tax to the City either monthly or quarterly. Corporations and certain individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually. The City administers the collection of income taxes and the assessments of interest and penalties. Income tax proceeds are to be used to pay the cost of administering the tax and recorded in the General Fund.

NOTE 5 – PROPERTY TAX

Property taxes include amounts levied against all real and public utility located in the City. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of the preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years.

Real property taxes are payable annually and semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first is due December 31, with the remainder payable by June 20. Under circumstances, State statute permits later payment dates to be established.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined at December 31 of the second year proceeding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 34.4 percent of true value. The 2014 public utility property taxes became a lien on December 31, 2013, were levied on October 1, 2014 and will be collected in 2015 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes.

NOTE 5 – PROPERTY TAX (continued)

The County Treasurer collected property taxes on behalf of all taxing districts in the County, including the City of Toledo. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2014 and for which there is an enforceable legal claim. In the Government Funds, the current portion receivable has been offset by deferred inflow of resources since the current taxes were not levied to finance 2014 operations and the collection of delinquent taxes has been offset by deferred inflow of resources since the solution of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is reported as a deferred inflow of resources.

The full tax rate for all City operations for the year ended December 31, 2014 was \$4.40 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2014 property tax receipts were based are as follows:

Public Utility Real and Tangible Personal Property	\$ 161,170
Real Property (Other than Public Utility)	3,039,205
Total Assessed Value	\$ 3,200,375

Special Assessment Services, Improvements and Bond Retirement

The City provides special services primarily for snow removal, leaf pickup, street resurfacing and street lighting. These services are assessed in the real estate tax bills to the benefited property owners. The City pays the actual costs of these services, which are then levied as special assessments and collected two years after the service has been rendered.

Special assessment notes are issued for the interim financing of various improvements to be assessed from benefiting property owners. These improvements include streets, alleys, sanitary sewers, sidewalks, storm sewers and water lines. Upon completion of the approved projects, the notes are converted to long-term bonds, which are assessed over a 5 or 10 year period depending on the type and cost of the improvement.

NOTE 6 – CAPITAL ASSETS

Capital asset activity for the Governmental Activities for the year ended December 31, 2014, was as follows:

	Balance			Balance
Governmental Activities:	1/1/2014	Additions	Deletions	12/31/2014
Capital Assets not being Depreciated:

Depreciation expense was charged to functions of the Governmental Activities as follows:

General Government	\$ 4,203
Public Service	22,038
Public Safety	6,734
Public Utility	2,220
Community Environment	416
Health	1,060
Parks and Recreation	3,216
Total Depreciation Expense - Governmental Activities	\$39,887

NOTE 6 – CAPITAL ASSETS (continued)

The Department of Housing and Neighborhood Revitalization has purchased land and buildings using Block Grant Funds. The intent of such purchases ultimately is to resell the property for a nominal amount to adjacent property owners or developers for redevelopment purposes. As of December 31, 2014, the Department owned approximately 99 parcels at an estimated historical cost of \$1,088. Due to the uncertainty of the market value or the ability to locate developers, the purchase costs have been recorded as program expenditures in the Block Grant Funds in the year of purchase and revenues from the sale of properties are recorded as Program Revenue in the year of sale.

Capital asset activity for the Business-Type Activities for the year ended December 31, 2014, was as follows:

	Balance			Balance
Business-Type Activites:	1/1/2014	Additions	Deletions	12/31/2014
Capital Assets not being Depreciated:

Landfill Closure and Post-closure Care Costs

The City operates the Hoffman Road landfill and accounts for this activity in the General Fund. State and federal regulations require the City to place a final cover on the Hoffman Road site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty (30) years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste. The City records a liability in the Government-Wide Statement of Net Position for the closure and post-closure care costs based on landfill capacity used as of each balance sheet date. A new cell was constructed in 2005 resulting in an increase in capacity; therefore, the landfill can continue to accept solid waste and increase its capacity. Based on the remaining air space and estimated annual tonnage to be taken in, the estimated remaining life of the landfill is 49 years. The \$15,799 reported as landfill closure and post-closure care liability at December 31, 2014 represents the cumulative amount reported to date based on the use of 59.05% of the used capacity of the landfill. The City will recognize the remaining estimated cost of closure and post-closure care of \$10,956 as the remaining used capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care in 2014 using the worst case scenario determined by the permit to install. Actual costs may be higher due to inflation, changes in technology, or changes in regulation.

NOTE 8 - LONG-TERM OBLIGATIONS (continued)

The City's Business-Type Activities Long-Term Obligations at December 31, 2014 and a schedule of current year activity are as follows:

Business-Type Activities	Issue Date	Maturity Date	Interest Rate (%)	Original Issue Amount	alance /1/2014	Increase	Decrease	Balance 12/31/2014	Amount Due In One Year

New Bond and Note Issues and Advanced Refunding

As interest rates continue to remain at historic lows, the City refinanced several bond issues and issued new debt. The following list of new issues and advanced refunding occurred in 2014;

In 2014, the City issued \$18,090 of General Obligation Bonds for the purpose of funding certain permanent improvements and refunding existing obligations with a lower net interest cost.

In 2014, the City issued \$3,250 of Taxable Industrial Development Bonds for the purpose of property acquisitions.

In 2014, the City issued \$5,922 of General Obligation Notes for funding the construction of certain sidewalk improvements and the acquisition of certain motor vehicles and equipment.

NOTE 8 - LONG-TERM OBLIGATIONS (continued)

New Issues and Advanced Refunding (continued)

In 2014, the City issued \$2,700 of Taxable Industrial Development Notes for the purpose of property acquisitions.

In 2014, the City issued \$20,900 in Special Assessment Notes for City Services. These notes mature on June 1 and December 1 of 2016.

In 2014, the City renewed \$3,255 of Building Acquisition Notes to mature in September of 2015.

State Infrastructure Bank Loans

The City has entered into State Infrastructure Bank loan agreements with the Ohio Department of Transportation (ODOT) pursuant to which ODOT provided to the City loans totaling \$3,968 to pay costs of certain street improvements in the City's Marina District and a loan totaling \$901 to pay the City's portion of the cost of improvements to the Martin Luther King Bridge. The aggregate outstanding principal amount of the City's obligations under those ODOT loan agreements was \$4,501 as of December 31, 2014.

Ohio Public Works Commission

Ohio Public Works Commission (OWPC) extends both grants and loans to the City. Monies received by the City after the grant commitment has been fulfilled by OPWC are then considered loans. Only the loan portion need be repaid by the City.

Ohio Water Development Authority

Loans payable to the Ohio Water Development Authority (OWDA) are authorized by the Clean Water Act and authorized by the administration of the Environmental Protection Agency (EPA) to make grants to States to establish a state water pollution control revolving loan program. The amount of these loans outstanding at December 31, 2014 was \$344,036. Of this amount, \$27,694 is obligations incurred to help finance the water distribution system and are to be repaid from charges from water services. Of this amount, \$312,400 is obligations incurred to help finance the sanitary sewage facilities and are to be repaid from charges from sanitary sewer services. The remaining amount of \$3,942 is obligations incurred to help finance the water pollution control related to the landfill remediation projects at the Stickney/Tyler and Dura locations are to be repaid from general receipts of the City.

NOTE 9 – LEASES AND OTHER COMMITMENTS

Operating Leases

In 1983, the City entered into a non-cancelable long-term lease with the Ohio Building Authority for the office space it occupies in One Government Center. The 30 year lease, expired on August 1, 2013 and currently operating on a month-to-month basis, is classified as an operating lease. The City made rental payments totaling \$1,500 for the year.

The City also leases various facilities and equipment under various operating leases. Rental expense relating to these leases amounts to \$1,094 in 2014.

Capital Leases

The City is obligated under certain leases accounted for as capital leases. The leased assets and related obligations are accounted for in the capital assets and long-term debt liabilities in the Governmental and Business-Type Activities.

In 2010, the City entered into a non-cancelable long-term master equipment lease with Wells Fargo Equipment Finance for the lease of ambulances. The 5 year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the Government-Wide Financial Statements at \$1,185 less accumulated depreciation of \$533.

In 2011, the City entered into a non-cancelable long-term master equipment lease with Key Government Finance, Inc. for the lease of sewer cleaners. This lease replaced an existing lease in place from 2009. The 5 year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the Sewer Enterprise Fund at \$1,389 less accumulated depreciation of \$859.

In 2012, the City entered into a non-cancelable long-term master equipment lease with PNC Equipment Finance for the lease of ambulances. The 5 year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the Government-Wide Financial Statements at \$1,413 less accumulated depreciation of \$306.

In 2012, the City entered into a non-cancelable long-term master equipment lease with PNC Equipment Finance for the lease of landfill equipment. The 4 year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the Government-Wide Financial Statements at \$1,588 less accumulated depreciation of \$229.

In 2013, the City entered into a non-cancelable-long term lease with PNC Equipment Finance, LLC for the lease of police vehicles. The 3 year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the Government-Wide Financial Statements at \$3,386 less accumulated depreciation of \$1,016.

NOTE 9 – LEASES AND OTHER COMMITMENTS (continued)

Capital Leases (continued)

In 2014, the City entered into a tax-exempt lease purchase with Key Government Finance, Inc. for the lease of two heavy rescue squads. The 5 year lease is classified as a capital lease and has been included in the capital assets as machinery and equipment in the Government-Wide Financial Statements at \$948 less accumulated depreciation of \$32.

Future minimum lease payments on these capital leases together with the present value of the net minimum lease payments as of December 31, 2014 are as follows:

Year Ending	 ernmental ctivities	ess-Type tivities	Total		
2015	\$ 2,536	\$ 296	\$	2,832	
2016	908	-		908	
2017	494	-		494	
2018	 196	 -		196	
Total Minimum Lease Payments	 4,134	296		4,430	
Less: Amount Representing Interest	(107)	 (13)		(120)	
Present Value of net Minimum Lease Payments	\$ 4,027	\$ 283	\$	4,310	

Other Commitments

The City of Toledo and the Toledo-Lucas County Port Authority (Port Authority) have partnered to create an Energy Special Improvement District (District). A non-profit corporation, known as the Toledo Ohio Advanced Energy Improvement Corporation (Corporation), with representatives of the City and the Port Authority, governs the District. The City, the Port Authority and the Corporation entered into an Energy Services Agreement which sets forth a process by which the parties will cooperate with one another to provide certain special energy improvement projects, including energy efficiency improvements to City buildings and facilities. As part of the agreement the City has begun a special assessment process whereby the City is assessed on a semi-annual basis beginning in calendar year 2014.

The initial funding for those energy efficiency improvements is being provided by bonds issued by the Port Authority in the approximate amount of \$5,349,294. Those funds will be loaned to the Corporation for purpose of paying the contractors doing the work and paying the other costs of the various improvements.

NOTE 9 – LEASES AND OTHER COMMITMENTS (continued)

Other Commitments (continued)

This Ordinance authorizes an amendment to the Energy Services Agreement (the Amendment) committing the City to completing the special assessment process through the passage of an Assessing Ordinance when the various energy efficiency improvements are completed and final costs are known. The initial budget for 2014 requires an assessment of \$429,937.

Outstanding encumbrances for the Year Ended December 31, 2014 were as follows:

Governmental Activities:	
General	\$ 43
Capital Improvements	6,430
Special Assessments	15
Nonmajor Governmental	 2,736
Total Governmental Activities	9,224
Business-Type Activities:	
Water	18,430
Sewer	14,495
Utility Administrative Services	146
Nonmajor Enterprise	1,136
Internal Service Funds	 55
Total Business-Type Activities	34,262
Total	\$ 43,486

NOTE 10 - INTERFUND ACTIVITY

Interfund Balances are a function of the delay between the dates that interfund goods and services are provided, transactions are recorded in the accounting system, and payments between funds are made. At December 31, 2014 the Interfund Balances consist of the following individual Interfund receivables and payables as reported on the Fund Statements:

	D	ue From	Ι	Due To
	Otl	ner Funds	Otl	ner Funds
Governmental Activities:				
General Fund	\$	-	\$	20,900
Capital Improvement Fund		-		887
Special Assessment Fund		-		19,749
Nonmajor Governmental Funds		33,608		3,678

Nonmajor Enterprise Activities		6,901		5,920
Total Business-Type Activities		59,212		80,881
		10 < 00 5		126005
Total	\$	126,095	\$	126,095

NOTE 10 - INTERFUND ACTIVITY (continued)

Interfund transfers for the Year Ended December 31, 2014, consisted of the following, as reported on the Fund Statements:

			Capital		Nonmajor Governmental Funds		Nonmajor Enterprise Funds		
	General Fund		Improvement Fund						
Transfer Out									 Total
Governmental Activities:									
General Fund	\$	-	\$	36,008	\$	-	\$	-	\$ 36,008
Capital Improvement Fund		11,661		-		20,828		1,624	34,113
Nonmajor Governmental Funds		246		1,107		225		-	1,578
Total Governmental Activities		11,907		37,115		21,053		1,624	 71,699
Business-Type Activities:									
Water		-		-		75		-	75
Sewer		-		-		75		-	75
Nonmajor Enterprise Funds		1,511		-		1,163		-	2,674
Total Business-Type Activities		1,511		-		1,313		-	 2,824
Total	\$	13,418	\$	37,115	\$	22,366	\$	1,624	\$ 74,523

In 2014, the General Fund transferred \$36,008 into the Capital Improvement Fund. This amount is a percentage of the income tax collections in 2014 that is authorized by Toledo City Council and the Mayor for transfer.

In 2014, The Capital Improvement Fund transferred \$11,661 to the General Fund. City of Toledo voters approved a portion of the City income tax transferred to the Capital Improvement Fund to be reallocated to the General Fund for operating expenses.

In 2014, the Capital Improvement Fund transferred \$22,452 to various nonmajor governmental and enterprise funds for the purpose of debt management.

NOTE 11 – FUND BALANCE

A summary of Fund Balances as of December 31, 2014 by category with specific purpose information follows:

					S	Special	Nonmajor		
	G	eneral	Capital		Assessment		Governmental

Total Fund Balances	\$	9,795	\$	19,140	\$	(56,908)	\$	38,144	\$ 10,171

The City maintains a Budget Stabilization Designation (Designation) to cover unexpected revenue shortfalls and/or expenditure increases. The City did not utilize moneys in the Designation for expenditures in 2014, and consistent with its policy of adding to the Designation set forth in an ordinance passed by City Council in 1998, intends to restore and then increase the Designation each year by an amount equal to one-half the amount by which actual annual General Fund Revenues exceed actual annual General Fund Expenditures for the prior year. In 2014, the General Fund designated an additional \$1,227 to the balance of the Designation.

NOTE 12 – PENSION PLANS

Ohio Public Employees Retirement System

The City participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans as described below:

Traditional Pension Plan: A cost sharing, multiple-employer defined benefit pension plan.

NOTE 12 – PENSION PLANS (continued)

Ohio Public Employees Retirement System (continued)

Member-Directed Plan: A defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the Member-Directed Plan, members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings.

Combined Plan: A cost sharing, multiple-employer defined benefit pension plan. Under the Combined Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to, but less than, the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits.

Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code (ORC).

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/investments/cafr.shtml, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

The ORC provides statutory authority for member and employer contributions. Member and employer contribution rates were consistent across all three plans in 2014. While members in the state and local divisions may participate in all three plans, law enforcement and public safety officers participate in only the Traditional Pension Plan. The 2014 member contribution rates were 10.00% of earnable salary for members in state and local classifications. Public safety and law enforcement members contributed 12.00% and 13.00%, respectively. The 2014 employer contribution rate for state and local employers was 14.00% of earnable salary. The law enforcement and public safety division employer contribution rate was 18.10% of earnable salary.

The City's required contributions for all plans for years ended December 31, 2014, 2013 and 2012 were \$10,761, \$10,204 and \$9,969, respectively. Required contributions of 92.0%, 91.6%, and 91.9% were paid during the related fiscal year for 2014, 2013 and 2012, respectively. The remaining employer contributions for each fiscal year were paid in the first month of the following year.

NOTE 12 – PENSION PLANS (continued)

Ohio Police and Fire Pension Fund

The City contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the ORC. OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164.

From January 1, 2014 through July 1, 2014, plan members were required to contribute 10.75% of their annual covered salary. From July 2, 2014 through December 31, 2014, plan members are required to contribute 11.50% of their annual covered salary. Throughout 2014, employers were required to contribute 19.50% and 24% respectively for police officers and firefighters. The City's contributions to OP&F for the years ending December 31, 2014, 2013 and 2012 were \$17,185, \$16,728 and \$16,103 respectively. Required contributions of 90.9% were paid during the related fiscal year. The remaining employer contributions for each fiscal year were paid in the first month of the following year.

Deferred Compensation Plans

City employees may elect to participate in the Ohio Public Employees Deferred Compensation Plan and firefighters may elect to participate in the Ohio Association of Professional Firefighters Deferred Compensation Plan. These plans have been created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. These plans permit deferral of compensation until future years. According to the plans, the deferred compensation is not available until termination, retirement, death or an unforeseeable circumstance. The plan assets are held in a trust for the exclusive benefit of the participants and their beneficiaries by the plan administrators.

NOTE 13 – POSTRETIREMENT BENFIT PLANS

Ohio Public Employees Retirement System

OPERS administers three separate pension plans: the Traditional Pension Plan – a cost sharing, multipleemployer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing employer defined benefit post-employment health care plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

NOTE 13 – POSTRETIREMENT BENFIT PLANS (continued)

Ohio Public Employees Retirement System (continued)

In order to qualify for post-retirement health care coverage, age-and-service retirees under the Traditional Pension and Combined plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45. OPERS' eligibility requirements for post-employment health care coverage changed for those retiring on and after January 1, 2015. Please see the plan statement in the OPERS 2013 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS Plan to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend the health care coverage is provided in Chapter 145 of the ORC.

OPERS issue a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/investments/cafr.shtml, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

The ORC provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2014, the City contributed at a rate of 14% of earnable salary and public safety and law enforcement employers contributed at 18.10%. These are the maximum employer contribution rates permitted by the ORC. Active members do not fund the OPEB Plan.

OPERS' Post-employment Health Care Plan was established under, and is administered in accordance with, Internal Revenue Code section 401(h). Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 2.0% during calendar year 2014. Effective January 1, 2015, the portion of employer contributions allocated to health care remains at 2.0% for both plans, as recommended by OPERS' actuary. The OPERS Board of Trustees is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contributions for health care for the years ended December 31, 2014, 2013 and 2012 approximated \$1,536, \$729 and \$2,848 respectively.

NOTE 13 – POSTRETIREMENT BENFIT PLANS (continued)

Ohio Police and Fire Pension Fund

The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored health care program, a cost-sharing multiple-employer defined postemployment health care plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care for retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-retirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, OH 43215-5164. That report is also available on OP&F's website at www.op-f.org.

The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members of the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5% and 24% of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contributions may not exceed 19.5% of covered payroll for police employer units and 24% of covered payroll for fire employer units. Active members do not make contributions to the OPEB plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code of the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) accounts as the employer contribution for retiree health care benefits. The portion of employer contributions allocated to health care was .5% of covered payroll from January 1, 2014 thru December 31, 2014. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provision of Section 115 and 401(h).

NOTE 13 – POSTRETIREMENT BENFIT PLANS (continued)

Ohio Police and Fire Pension Fund (continued)

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary on the number of covered dependents and the coverage selected.

The City's contributions to OP&F for the years ending December 31, 2014, 2013 and 2012 approximated \$17,185, \$16,728 and \$16,103, respectively, of which \$404, \$5,863 and \$5,046, respectively, was allocated to the health care plan.

NOTE 14 – RISK MANAGEMENT

Property and Liability

The City has elected pursuant to ORC §2744.08(A)(2)(a) to use public funds for the purpose of handling third-party property losses and liabilities in lieu of purchasing general municipality liability insurance. All claims activity is accounted for within the Risk Management Fund which is a sum of tax receipts set aside on a yearly basis that is sufficient to cover any liability losses. Settled claims have not materially exceeded coverage in any of the last three years, and there is no significant reduction in coverage from the prior year. In addition, the City has the ability to issue general obligation bonds to pay final judgments that may arise.

NOTE 14 – RISK MANAGEMENT (continued)

Property and Liability (continued)

The City is fully insured through premium-based insurance policies for all other types of insurance. In 2014, the City contracted with various insurance companies to provide the following coverage:

		Coverage	D	eductible
	(in	Whole Dollars)	(in W	hole Dollars)
Property Policy for the City	\$	600,000,000	\$	250,000
Professional Liability for TMC		10,000,000		-
Commercial/Liquor for Erie Street Market		7,000,000		500
Crime Policy for the City		3,000,000		75,000
Crime Policy for Toledo Clerk of Courts		3,000,000		50,000
Boat Policy		1,000,000		1,000
Commercial Liability for The Unique Center		1,000,000		5,000
Crime Policy for the Toledo Police		1,000,000		50,000
Fine Arts Policy for Blair Museum		1,000,000		1,000
Hull/Liability Policy for Helicopter		1,000,000		-
Ocean Marine Policy		1,000,000		1,000
Employee Tool Insurance		211,000		500
BUSTR/Cleanup for Underground Fuel Tanks	Tota	al cost of cleanup		50,000
Community Probation Program		25,000		-
Accident/Liability Policy - Adult Probation Program		25,000		
Accident/Liability Policy- Mobil Speedvan		1,000,000		500

Changes in the funds' claim liability amount in 2012, 2013 and 2014 were:

			Cu	rrent Year				
		Balance at	Claim	s and Change	(Claims	Ba	lance at
Yea	r Be	ginning of Year	in	Estimate	P	ayments	Enc	l of Year
2012	2 \$	1,560	\$	1,234	\$	1,234	\$	1,560
2013	3	1,560		1,306		1,306		1,560
2014	4	1,560		2,120		2,120		1,560

Workers' Compensation

The City has elected to take advantage of the workers' compensation plan offered by the State of Ohio. This plan, called retrospective rating, allows the City to put a fraction of the premium it would pay as an experience-rated risk.

NOTE 14 - RISK MANAGEMENT (continued)

Workers' Compensation (continued)

Retrospective rating constitutes a step closer to self-insurance. In the retrospective rating plan, the City agrees to assume a portion of the risk in return for a possible reduction in premiums. The greater the percentage of the risk the City assumes, the greater the potential reduction in the premium. If the City's loss experience is better than predicted by the experience-rating system, its premium obligation will be less than what it would have paid under experience rating. If its experience is worse than predicted, its premium obligation will be more than it would have been assessed under experience rating, limited to a maximum premium. The City has assumed the risk of individual claims up to a maximum of \$300,000.

The City has agreed to pay all claims up to a maximum of 200% of what the City would have paid had the City remained an experience-rated risk. Claims exceeding these limits will be paid by the State. Each year, the City pays the State a "minimum premium" for retaining the risk of having to pay claims which exceed the City's maximum claim limits. Ten years after each year the City elected the retrospective plan for workers' compensation, the City settles up for the reserve on any claims that are still open. The City has established a Workers' Compensation Internal Service Fund to account for and finance its uninsured risks of loss in the program.

The claims liability of \$16,198 reported at December 31, 2014, as estimated by the third party administrator, is based on the requirement of GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, as amended by GASB Statement No. 30, *Risk Financing Omnibus*, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be accrued at the estimated ultimate cost of settling claims. The liability is reported as a current liability in the Statement of Net Position for the Internal Service Funds. The estimate was not affected by non-incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustments expenses.

Changes in the funds' claim liability amount in 2012, 2013 and 2014 were:

			Cur	rent Year				
	Ba	alance at	Claims	and Change	(Claims	Ba	alance at
Year	Begin	ning of Year	in l	Estimate	Pa	yments	Enc	d of Year
2012	\$	20,095	\$	3,894	\$	6,059	\$	17,930
2013		17,930		4,289		6,021		16,198
2014		16,198		5,059		5,059		16,198

NOTE 14 – RISK MANAGEMENT (continued)

Health Insurance

The City is self-insured for health, dental and prescription drug benefits. The programs are administered by a third-party, which provides claims review and processing services. The City records a liability for incurred but unreported claims at year end based upon an actuarial estimate based on past experience and current claims outstanding.

Changes in the funds' claim liability amount in 2012, 2013 and 2014 were:

	Balance at	Current Year Claims and Change	Claims	Balance at
Year	Beginning of Year	in Estimate	Payments	End of Year
2012	2,202	18,540	18,090	2,652
2013	2,652	17,305	17,197	2,760
2014	2,760	19,746	19,717	2,789

NOTE 15 – ACCOUNTABILITY AND COMPLIANCE

Fund Balance Deficits

The following deficit fund balances existed at December 31, 2014:

Governmental Funds:	
Special Assessment Services Fund	\$ 56,908
Non-Major Governmental Funds:	
Special Assessment Improvements Fund	1,884
Proprietary Funds:	
Property Management	11,286

These deficits will be eliminated by future charges for services, reduction of expenditures or future bond sales, where appropriate.

Change in Accounting Principles

For 2014, the City has implemented the following standards of the Governmental Accounting Standards Board (GASB): GASB Statement No. 67, "Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25", GASB Statement No. 69, "Government Combinations and Disposals of Government Operations" and GASB Statement No. 70, "Accounting and Financial Reporting for Nonexchange Financial Guarantees".

NOTE 15 – ACCOUNTABILITY AND COMPLIANCE (continued)

Change in Accounting Principles (continued)

GASB Statement No. 67 improves financial reporting by state and local governmental pension plans. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement replaces the requirements of Statements No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, and No. 50, *Pension Disclosures*. It should be noted that this statement has no financial impact to the City.

GASB Statement No. 69 addresses accounting and financial reporting topics related to government combinations, commonly referred to as mergers and acquisitions and disposals of government operations that have been transferred or sold. This Statement requires disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and financial effects of those transactions. It should be noted that this statement has no financial impact to the City.

GASB Statement No. 70 provides accounting and financial reporting guidance to state and local governments that either offer or receive nonexchange financial guarantees. This Statement requires a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. It should be noted that this statement has no financial impact to the City.

NOTE 16 - CONTINGENCIES

Litigation

The City is a party to various legal proceedings seeking damages or injunctive or other relief generally incidental to its operations. Those proceedings are unrelated to any outstanding City debt or the security therefore. The ultimate disposition of those proceedings is not now determinable, but will not, in the opinion of the City's Director of Law, have a material adverse effect on any outstanding City debt or the security therefore.

Under current Ohio law, City moneys, accounts and investments are not subject to attachment to satisfy tort judgments against the City in State courts. Current Ohio law also permits the City to reduce its fiscal responsibility in tort liability by deducting all appropriate health benefits, insurance benefits (including uninsured and underinsured motorists' coverage) and/or other benefits which a claimant may be entitled to receive due to injury or other loss. The City does not maintain a policy of liability insurance or a self-insurance fund, or participate in any self-insurance program or pool to satisfy tort liability claims. The City has satisfied in the past, and continues to satisfy, its general, motor vehicle, police, fire and emergency medical services tort liability (after deducting amounts available from any available collateral source) by relying on tax receipts and other available City revenues.

NOTE 16 – CONTINGENCIES (continued)

Litigation (continued)

Based on historical experience and its evaluation of pending claims, the City believes that the amount available from those sources and unencumbered at December 31, 2014 and at the date of this Statement, is sufficient to meet the claims and judgments that may arise in 2015. In addition, the City has the right to issue general obligation bonds, maturing over a maximum period of 25 years, and notes in anticipation of those bonds, to pay any final judgments which may be entered against it.

Grants

In 2014, the City received Federal, State and Local grants for specific purposes that are subject to review and audit by grantor agencies or their designee. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

NOTE 17 – SUBSEQUENT EVENTS

In January 2015, the City Council passed an agreement to accept loan proceeds of \$2.3 million from the OWDA for the Highland Phase 2 Project (Hill Avenue Sanitary Pump Station and Fearing Boulevard Force Main).

On January 20, 2015, the City Council passed an agreement to accept loan proceeds of \$1.6 million from the Ohio EPA Water Pollution Control Loan Fund (WPCLF) for the Queen/Spencer Street Sewer Replacement.

On February 3, 2015, the City Council passed an agreement to accept grant proceeds of \$1.7 million from the ODOT for the construction of Miami Street over Norfolk Southern Railroad.

On May 12, 2015, the City Council passed an agreement to accept grant proceeds of \$2.6 million from the ODOT. \$2.2 million was for an Urban Paving Program for roadway resurfacing projects on Detroit Ave from Arlington to I-75 and on Reynolds Rd from the City Limit to Glendale. \$.4 million was for a reconstruction/enhancement project; I-75 to Washington.

On April 14, 2015, they City Council passed agreements to accept grant proceeds from the U.S. Department of Housing and Urban Development (HUD) for three grants totaling \$8.9 million. These grants were the 41st year CDBG grant (\$6.8 million), the 29th year ESG grant (\$.6 million) and the 24th year HOME grant (\$1.5 million).

On May 12, 2015, the City Council passed an agreement to accept grant proceeds of \$2.2 million and loan proceeds of \$1.7 million from the OPWC for seven roadway and three utility projects.

NOTE 17 – SUBSEQUENT EVENTS (continued)

On May 26, 2015, the City Council passed an agreement to accept grant proceeds of \$4.7 million from the ODOT. \$1.2 million was for the Urban Paving Program for roadway resurfacing on State Route 120 (Central Avenue) from Secor to Upton. \$2.4 million was for a reconstruction / enhancement project on the Anthony Wayne Trail from I-75 to Erie. \$1.1 million was for a widening project at the intersection of Douglas Road and Dorr Street.

REQUIRED SUPPLEMENTARY INFORMATION

City of Toledo, Ohio

General Fund and Special Assessment Services Fund

General Fund – The general operating fund of the City and is used to account for all financial resources except those required to be accounted for in another fund.

Special Assessment Services – To account for the proceeds of special assessments (and related note sales) levied against property benefited from the following City services: street cleaning, street lighting, surface treatment, weed cutting, snow removal and tree and ditch maintenance.

City of Toledo, Ohio Notes to the Required Supplementary Information For the Year Ended December 31, 2014 (Amounts in Thousands)

Annual Budget Process

An annual budget is prepared for all governmental funds of the City. All budgets are adopted on a basis consistent with GAAP. Budgetary comparisons presented in this report are on this budgetary basis.

The City's budgetary process is as follows:

Budget

A certificate of estimated revenue is submitted to the County Auditor, as Secretary of the County Budget Commission, by October 31 of each year for the period January 1 to December 31 of the following year.

Estimated Resources

The County Budget Commission certifies its actions to the City by September 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenue of each Fund. Prior to December 31, the City must revise its budget so that the total contemplated expenditure from any fund during the ensuing fiscal year will not exceed the amount stated in the certificate of estimated resources. On or about January 1, the certificate is amended to include any unencumbered balances form the preceding year.

Appropriations

A temporary appropriation measure to control disbursements may be passed on or about January 1 of each year for the period from January 1 to March 31. During this period, the administration presents an executive budget that is reviewed by City Council for its revision and approval. Upon completion of City Council's review, the revised executive budget is summarized into an ordinance that is approved by City Council to provide expenditure authority for an appropriated budget. This ordinance receives City Council approval no later than March 31 for the annual period ending December 31. During the year as additional information becomes available, City Council approves transfers, allocations, supplemental appropriations and the reappropriation of encumbrances carried over from the prior year. Appropriations did not exceed estimated resources and all original appropriation authority resides with City Council. Management retains administrative authority to transfer existing appropriation authority under \$25 within personal services and between other account codes within an organization in a fund.

Budgetary Level of Control

The City is required by Ohio Law to establish annual appropriations for all necessary funds. These appropriated budgets affect legal control at various levels for individual funds. Budgetary control is exercised for the General Fund, Special Revenue Funds and Debt Service Funds at the organizational level distinguishing between personal services and other expenditures. Budgetary control of grant funds is exercised by individual grant for each organization at the personal services and other level. Capital Projects Funds are legislatively controlled by individually approved projects for each organization. Expenditures may not legally exceed appropriations at this level.

City of Toledo, Ohio Notes to the Required Supplementary Information For the Year Ended December 31, 2014 (Amounts in Thousands)

Annual Budget Process (continued)

Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are encumbered and recorded as the equivalent of expenditures on the GAAP budget basis in order to reserve that portion of the applicable appropriations.

Lapsing of Appropriations

Unencumbered appropriate balances lapse at year end and revert to their respective funds from which there were originally appropriated, thus becoming available for future appropriation.

City of Toledo, Ohio

Nonmajor Special Revenue Funds

Federal Block Grants - To account for monies received from the Federal Government under the Community Development Block Grant program.

Operation Grants - To account for various non-capital Federal, State and Local grants including such programs as Federal and State Air Pollution Control, D.W.I. (Driving While Intoxicated) program, Child and Family Health, and WIC (Women, Infants and Children).

Urban Development Action Grants - To account for monies received from the Federal Government under the Urban Development Action Grant program. Individual program and grant activity is controlled by use of programmatic computer codes.

Street Construction Maintenance and Repair - To account for state-levied and controlled gasoline tax and vehicle license fees remitted to the City by formula for routine street maintenance.

Cemetery Maintenance - To account for investment earnings transferred from the non-expendable Cemetery Perpetual Care Fund. Fund monies are used in maintaining the City's five public cemeteries.

Golf Improvements - To account for the portion of golf greens fees designated by City Council for major non-capital golf course maintenance.

Parkland Replacement - To account for those proceeds from parkland sales designated by City Council for minor purchases of park property and equipment.

Cemeteries Property Acquisition Site Development - To account for monies received for interments, removals and lots in municipal cemeteries and used for the expansion of municipal cemeteries.

Marina Development - To account for monies received for operation and improvement of the City's marinas and Boating Education Center.

Expendable Trusts – To account for monies donated in trust to the City. Expenditures of the forty-eight individual trust funds in existence as of December 31 controlled by reference to individual trust balances maintained in subsidiary records. Also, to include special revenue source reserved for Municipal Court and Demolition operations.

Toledo City Parks - To account for investment earnings on funds contributed from General Fund Estate Taxes. This fund will provide funding stability to the City's parks and recreation programs.

Toledo Home Program - To account for monies received under the National Affordable Housing Act to assist lowincome individuals attain home ownership. Individual program and grant activity is controlled by use of programmatic computer codes.

Right-of-Way – To account for monies received from various public utilities for the maintenance of their access to the public right-of-way.

City of Toledo, Ohio

Nonmajor Enterprise Funds

Storm Sewer – To account for storm drainage services provided to individual and commercial residents of the City.

Property Management – To facilitate accountability and control of certain properties acquired for the purpose of property management. The City accounts for such properties on a capital maintenance basis similar to private business enterprises, to aid in the recovery of on-going costs for the production of income by such properties, and to facilitate management and accounting control.

Small Business Development – To account for the assets of the former Small Business Assistance Corporation, which the City of Toledo assumed in 1989.

Municipal Tow Lot – To account for the revenues and expenses of the one centralized location for the storage and the subsequent release of vehicles ordered to be impounded by the Toledo Police Department.

Marina Operations – To account for the revenues and expenses of the operations of the downtown Marina, which the City of Toledo assumed in 2008.

Erie Street Market – To account for the revenues and expenses of the operations of the downtown Erie Street Market, which the City of Toledo assumed in 2007.

Toledo Public Power – To account for the revenues and expenses of the operations of the distribution of electric power per agreement.

By virtue of Ohio law, certain separate funds are maintained for enterprise debt service and capital improvements. Inasmuch as GASB Statement 1 requires that all such activities be accounted for within the respective Enterprise Fund itself, the City has consolidated the various legally-required funds into the categories indicated above for purposes of these financial statements.

City of Toledo, Ohio

Internal Service Funds

Municipal Garage - To account for the costs of a maintenance facility for automotive equipment used by various City departments. The actual costs of labor and material utilized are reimbursed to this Fund by the user departments.

Capital Replacement - To account for interdepartmental charges assessed for the improvement and replacement of the City's capital equipment.

Storeroom and Printshop - To account for small supplies consumed by and printing services provided to various City departments. The actual costs of supplies requisitioned and labor and materials utilized are reimbursed to this Fund by the user departments.

Information Technology - To account for the costs of data processing services provided to various City departments. The actual costs of materials and services are reimbursed to this Fund by the user departments.

Risk Management - To account for the City's insurance program related to property and liability loss exposure. The payment of self-insured losses, insurance in excess of retention levels and related loss financing expenditures are accounted for in this fund.

Facility Operations – To account for the costs of maintenance and repair activities provided to various City departments. The actual costs of materials and services are reimbursed to this Fund by the user departments.

Workers' Compensation - To account for the City's worker's compensation program under the State's retrospective rating plan. The payment of premiums, assessments and claims to the State Bureau of Workers' Compensation, and their allocation to the responsible funds are accounted for in this fund.

Fiduciary Funds - Agency Funds

General Agency – To account for various licenses, fees and taxes, such as restaurant licenses, that the City collects as an agent for the State.

Municipal Court – To account for bonds and other monies deposited with the Court pending final disposition of the various cases. While the records of the Court are the responsibility of a separate elected Clerk of Courts and not the Finance Department, the balances have been included in these financial statements in compliance with GASB Statement No. 61.

STATISTICAL SECTION

City of Toledo, Ohio

Statistical Section

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. These tables are presented in accordance with Governmental Accounting Standards Board (GASB) Statement No. 44, *Economic Condition Reporting: The Statistical Section*.

Contents	Tables
<i>Financial Trends</i> These schedules contain trend information to help understand how the City's financial performance and well-being have changed over time.	1-4
Revenue Capacity These schedules contain information to help assess the City's most significant local revenue sources.	5-10
<i>Debt Capacity</i> These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	11-15
<i>Demographic and Economic Information</i> These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	16-17
<i>Operating Information</i> These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City Provides and the activities it performs.	18-20

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Sylvania City School District	91,567	7.6%	6,950
Maumee City School District	29,995	10.5%	3,147
Springfield Local School District	8,650	9.3%	802
Sylvania Area Joint Recreation Dist	7,995	7.6%	607
Ottawa Hills Local School District	990	0.1%	1
Total subdivision overlapping debt	286,894		153,135
Total Direct and Overlapping Debt	\$ 428,746		\$ 294,987

General obligation debt may be issued by the City without a vote of the electors, subject to overlapping restrictions. Total debt service charges for any one year of all overlapping debt must not exceed ten mills per \$1.00 of assessed valuation. This indirect debt limitation is imposed by a combination of provisions of Ohio Constitution and the Revised Code.
