INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Stow
Summit County
3760 Darrow Road
Stow, Ohio 44224-4094

To the Honorable Mayor and City Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Stow, Summit County, Ohio (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated August 12, 2016, wherein we noted the City adopted Governmental Accounting Standard No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. In addition, the City restated the Governmental Activities Net Position due to an error reported in the prior year capital assets construction in progress.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "Y" and "O".

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

City of Stow
Summit County
3760 Darrow Road
Stow, Ohio 44224

To the Honorable Mayor and City Council:

Report on Compliance for the Major Federal Program

We have audited the City of Stow's (the City) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the City of Stow's major federal program for the year ended December 31, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the City's major federal program.

Management's Responsibility

The City's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the City's compliance for the City's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the City's major program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on the Major Federal Program

In our opinion, the City of Stow complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended December 31, 2015.

Report on Internal Control Over Compliance

The City's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the City's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Federal Awards Expenditures Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the discretely-presented component unit and the aggregate remaining fund information of the City of Stow (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our unmodified report thereon dated August 12, 2016, wherein we noted the City adopted Governmental Accounting Standard No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. In addition, the City restated the Governmental Activities Net Position due to an error reported in the prior year capital assets construction in progress. We conducted our audit to opine on the City's basic financial statements as a whole. The accompanying schedule of federal awards expenditures presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES
2 CFR 200.510(b)(6)
FISCAL YEAR ENDED DECEMBER 31, 2015**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Federal Awards Expenditures (the Schedule) includes the federal award activity of City of Stow (the City's) under programs of the federal government for the year ended December 31, 2015. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following as applicable, either the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - MATCHING REQUIREMENTS

Certain Federal programs require the City to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The City has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

John M. Baranek
Director of Finance

August 12, 2016

The Honorable Mayor Sara Kline,
Members of City Council
and Citizens of the City of Stow, Ohio

Ladies and Gentlemen:

The Comprehensive Annual Financial Report for the City of Stow (the “City”) for the fiscal year ended December 31, 2015, is hereby respectfully submitted. It includes information pertaining to all of the City’s funds and financial transactions and selected financial and other information for the most recently completed fiscal year (2015). Responsibility for both the accuracy of the data and the completeness and fairness of the presentation rests with the City. To the best of our knowledge, the data in this report is accurate in all material respects and it presents fairly the financial position and results of operations of the City. All disclosures necessary to provide the reader with a better understanding of the City’s financial activities have been included.

The City is responsible for establishing and maintaining an internal control structure designed to protect its assets from loss, theft or misuse. Furthermore, the accounting system must be adequate to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

The City is required by state law to have an annual audit performed by the Auditor of State’s Office. The City continues to receive an unqualified opinion. The Independent Auditor’s Report of the Auditor of State on the City’s financial statements is included in the Financial Section of this report.

As a part of the City’s independent audit, considerations are made to assess the internal control structure, in relation to the financial statements, as well as to determine that the City has complied with applicable laws and regulations. The results of the City’s independent audit for the year ended December 31, 2015, provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

This transmittal letter is designed to provide historical information about the City, as well as complement the required Management’s Discussion and Analysis (MD&A). Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements. The City’s MD&A, which focuses on the government-wide statements and major funds, can be found immediately following the Independent Auditor’s Report.

COMMUNITY PROFILE

The City of Stow was incorporated in 1957 as a village and became a City in 1960. The City is located in Summit County approximately 30 miles southeast of Cleveland, Ohio and 8 miles northeast of Akron, Ohio. With a population of 34,837 according to the 2010 Census, Stow is the third largest City in Summit County. The City operates under, and is governed by, its Charter, which was first adopted by the voters in 1958. The Charter is subject to amendment from time-to-time by the voters.

Under the Ohio Constitution, the City has the right to exercise all powers of local self-government. The Charter provides for a Mayor-Council form of government, and also for independently elected Finance and Law Directors. Legislative authority is vested in a seven-member City Council. Three Council members are elected at-large and four members are elected from wards. All members serve two-year terms. The presiding officer of City Council is the President, who is elected from among its members for a one-year term.

The City's chief executive and administrative officer is the Mayor, who is elected to serve a four-year term. The Mayor also serves as Public Safety Director. The Mayor may veto any legislation passed by the Council. A veto may be overridden by a two-thirds vote of the members of the Council. Effective with terms commencing in 2012, all elected City officials are limited by the Charter to eight consecutive years in office.

The City of Stow provides a full range of services to its citizens. The City's major general government services include police and fire protection, emergency medical service, street maintenance and snow removal, parks and recreation, building and zoning inspection and enforcement, urban forestry and various administrative and operational services. The City also operates and maintains the Stow Water System which provides water distribution service to all Stow residents and businesses and a Storm Water Management Utility. Three cemeteries and numerous community and neighborhood parks, playgrounds and other recreation facilities, including an 18 hole municipal golf course, are also owned and managed by the City for the benefit of its citizens. Stow is also the host City for the Stow Municipal Court which is included as a component of the City's operating budget.

The basic financial statements, schedules and statistical tables presented herein include all funds that are controlled by or are dependent upon the City of Stow. These funds are determined on the basis of budgetary overview, obligations to fund deficits or control of the use of surplus funds, the taxing authority and fiscal management responsibilities. The Stow-Munroe Falls City School District, the Stow-Munroe Falls Public Library and the Stow Historical Society conduct all or a portion of their activities within the boundaries of the City. However, these organizations are not considered part of the reporting entity because the City does not exercise significant influence over their daily operations, approve their budgets, or maintain their accounting records. In addition, the City is not responsible for the organizations' debt or for funding any operating deficits.

ECONOMIC CONDITION, CURRENT INITIATIVES AND FUTURE OUTLOOK

Local Economy

The City of Stow was originally founded as a township, eventually became a village and was incorporated as a city in 1960 with a population of 12,194. By 2000 the population reached 32,139. Stow's population level of 34,837 in 2010 represents an 8.4 percent increase from the level of 2000. To accommodate the City's population growth, over 10,000 dwelling units have been constructed in Stow since 1970, bringing the total number of units to 15,141 per the 2010 census. It has been recently estimated that there is available land for an additional 2,000 dwelling units to be constructed in Stow in the future. Recent projections estimate the fully developed population of the City of Stow to be between 36,000 and 40,000 residents. This estimated range could be reached sometime within the next 30 years.

Stow is a growing, predominately residential community which has a balanced commercial and industrial tax base to help absorb the tax burden associated with providing services to its residents. Because Stow is in a strategic growth corridor between the Cleveland and Akron metropolitan areas, it is likely that these positive development trends will continue. The City, through the application of its Comprehensive Land Use Plan, attempts to influence and guide development in a manner which results in a pleasant suburban environment where residences are the predominant land use but with sufficient commercial and industrial enterprises to pay for a significant portion of the local government's cost of providing high quality services to all residents and businesses.

Substantial commercial, office and industrial growth has occurred in Stow in recent years. As part of the effort to update the City's Comprehensive Land Use Plan, City officials, with the assistance of a professional development consultant, prepared a market study to analyze existing and potential nonresidential development in the City and the future local market for office and retail expansion. It was determined that the City of Stow has a substantial supply of competitive retail space – approximately 2.7 million square feet. Stow's retail vacancy rates have fluctuated from 8 to 15 percent over the past several years. With a few exceptions, the Stow vacancy rate for retail has typically been lower than the rate for the region. The latest vacancy rate (May 2015) is approximately 7.3 percent which is below the most recent northeast Ohio region rate of 9.0 percent (2015). It is anticipated that the City will take the necessary policy steps to ensure that the local retail sector continues to remain strong. Demand for additional retail space in Stow is expected to be high over the next ten years.

City officials have placed a particular emphasis on the development of the office and industrial market in Stow, recognizing the positive revenue implications resulting from this type of development. As of May 2015, there was over 800,000 square feet of office space in Stow. The office vacancy rate was 11.3 percent, which is lower than the average vacancy rate for suburban communities in the Akron Metropolitan Area. In addition, there was over 3,800,000 square feet of industrial space in Stow, and the vacancy rate was 16.3 percent as of May 2015, which is abnormally high due to the closing of a major manufacturing plant in Stow in June 2014. This single closing increased the vacancy rate in Stow from 1.3 percent to 16.3 percent.

Through the use of development incentive programs and an aggressive construction schedule for public infrastructure, City officials are encouraging the construction of additional office capacity, medical space, flex space and light industrial space. The new Seasons Road/State Route 8 Interchange project will help facilitate much of this expected development in the northwest sector of the City. The current development of the Steels Corners Road Interchange area already accommodates some 200,000 square feet of office space, including medical facilities. Supporting commercial, service and related businesses are already constructed or being planned in the vicinity of the interchange, including four medium-sized hotels, three of which have opened.

The City of Stow offers an excellent opportunity for business growth due to a broad network of state and interstate highways which provide the area with access to regional and national markets. Stow is fortunate to have a diversified tax base comprised of many small-to-medium sized industries. The City has at least ten private companies that employ between 100 and 300 workers. Additional industrial development is expected to be spurred with the provision of necessary infrastructure. The City's participation in the Foreign Trade Zone, which is located in the northwest area of Stow, was created for the purpose of promoting local industrial development and to foster business growth.

In 2006, the City administration completed its first long-term Economic Development Strategy to guide and facilitate the efforts of the City government and other community organizations in undertaking economic development activities in Stow. The formal Strategic Plan was reviewed and evaluated in public by Stow's legislative body and was officially adopted by the City. It is now being implemented by the City administration and the local Community Improvement Corporation. An update to the Plan was completed in 2015. It reflects national economic conditions and changes in the local economy.

Major Initiatives and Long-Term Financial Planning

Current Year – In 2015, the City of Stow completed its seventh consecutive year of operating with a significantly reduced workforce in order to balance its budget and ensure that the level of staffing remained within its financial means. The City ended the 2015 operating year with a total of 40 full-time employee positions eliminated or left unfilled out of 276 authorized full-time positions at the beginning of 2009. This represented a workforce reduction of 15 percent in seven years. The City also eliminated numerous part-time and seasonal positions over this period.

The workforce reduction was accomplished through an ongoing hiring freeze and the implementation of a one-time voluntary separation program for eligible employees in 2010. The hiring freeze, as supplemented by other expenditure reduction and containment measures, continues as a formal City policy. The City will maintain its effort to reduce the workforce where feasible in 2016 and beyond, although not at the pace of the previous seven years.

In the past several years, also due to budgetary limitations, the City has implemented a policy of workforce and facilities consolidation. This policy has been designed to increase the efficiency of our smaller workforce by combining functions in a number of critical areas and reducing the number of City buildings in use. A concurrent goal is to maintain all essential City services to the extent possible and feasible.

As part of its consolidation program, the City sold its Parks and Urban Forestry facility effective in 2013 to a growing local environmental services firm through a long-term lease/purchase arrangement. The sale enabled the City government to reduce its operating cost and space while retaining an important local firm with an expanding payroll. The vehicle and equipment storage buildings within the Parks Maintenance and Urban Forestry complex are temporarily being retained for City use.

The consolidation of the maintenance components of the Parks and Urban Forestry operation into the existing Service Maintenance Center and the relocation of the separate clerical staff sections to City Hall has resulted in increased operating efficiency and greater workload coverage during normal working hours for the affected offices.

In 2000, the City's voters approved a program to expand the City's Emergency Medical Services (EMS) and fire response capabilities, which over the long-term has proven to be very successful for the community. The expansion program was funded through an increase of 2.3 mills in the City's Charter property tax rate and included two new fire stations and fifteen additional paramedics as well as new fire trucks and equipment. One of the new fire stations is an additional station to increase emergency coverage on the City's east side, while the other is a relocated replacement facility to improve response times on the City's west side. The fifteen additional paramedics have enabled the City's Fire Department to operate a full EMS transport system throughout the entire community and to fully staff the two new fire stations. The City's centrally located Safety Building continues to serve the community as its main fire station. Three new fire trucks were acquired in 2007 and two new EMS response vehicles were purchased in 2008 to further upgrade and enhance the City's ability to provide high quality emergency service to its residents.

Recent construction of the City's new Service Maintenance Center complex provided almost 70,000 square feet of new space for the City's combined maintenance operations, including Water System maintenance. With the Parks Maintenance and Urban Forestry operations now relocated to the central Service complex, virtually all service and parks vehicles are stored indoors. The new structure cost approximately \$7.4 million. It replaced several existing undersized and outdated buildings which were used by Stow for many years. Previous new buildings constructed include the Stow City Hall, which was opened in 1986, and the Safety Building (Police, Fire, EMS and Communications) which was completed in 1995.

Maintenance and repair of roads throughout the community to accommodate the growing population and expanding commercial and industrial base continues to be a high priority for the City government. In the 2003-2004 Capital Improvements Budget, the City allocated nearly \$3.6 million for road-related projects, including general road repaving. In the amended 2005-2006 Budget, the amount allocated for road projects was also \$3.6 million, including funding for two major road projects designed to improve the community's overall transportation system and the future flow of traffic in Stow. The City allocated \$4.1 million for major road projects in the 2007-2008 Capital Budget. The City allocated additional funding for three major road projects in Stow and a road resurfacing program as part of the 2009-2010 Capital Budget. In 2011, \$600,000 was spent on the annual road resurfacing program, while in 2012, 2013 and 2014 the program was restored to the previous average levels with allocations of \$1.14 million, \$1.15 million and \$1.4 million respectively. The 2015 road resurfacing amount was the highest on record for the City with nearly \$1.5 million being spent city-wide.

In order to accommodate expected continued population and business growth in Stow, the City government will continue to invest in its public facilities, its transportation system, the Stow Water System and the community infrastructure in the years ahead. City officials are guided in the development of the community in the future by the City's Comprehensive Land Use Plan which is currently being updated with the assistance of a professional consultant. Approval of the new Plan is expected in 2016. Before it receives final approval, the new Plan will be subject to many public hearings and community meetings held by Stow City officials.

In November, 2001, the City of Stow regained ownership of the Stow Water System from the Summit County government and immediately became fully responsible for its daily operation. The City completed fourteen very successful full operating years for the System in 2015. The City provides water to its citizens based on a 99-year water service agreement between Stow and the City of Akron whereby Akron supplies water directly to Stow on a wholesale basis. The detailed terms of the Stow water supply agreement with Akron were finalized and a formal contract executed in December of 2006.

A long-term comprehensive Operating Budget for the Stow Water System was developed when the System was acquired by the City in 2001 to guide the City in managing the operation and maintenance of the System. The Budget is updated each year with current financial information and is used to assist the administration and City Council in determining and meeting the operating needs of the System and assessing the adequacy and level of future water rates. As a result of detailed budget planning, the Water System is financially very sound. As of the end of 2015, it had adequate operating reserves to address virtually any unanticipated major system expense.

With the assistance of the City's consulting engineering firm, the City of Stow completed a long-term Water System Capital Improvements Plan. The Plan identifies some \$11.3 million in necessary current improvements for the Water System to be undertaken over the next five-ten years or longer, and nearly \$3.1 million in future improvements that will be considered for completion in at least ten years. As part of the long-term Capital Plan, the consultant developed a comprehensive computerized model for the Water Distribution System. The model has proven useful in identifying and resolving System problems, undertaking hydraulic analysis when necessary and forecasting future water usage. It enables the City to make Water System capital investment decisions that are designed to efficiently meet present and future water demands in Stow.

In 2015, the City continued with the long-term improvements program outlined in its comprehensive Capital Plan for the Water System, including numerous waterline replacement projects and related upgrades. The City previously enacted an ongoing, monthly \$4.00 Water System capital improvements fee for all water customers to generate the revenue necessary to undertake and complete the improvements identified in the long-term Plan on a programmed basis over the next ten-twenty years and also to implement an automatic, radio-based meter reading system for more efficient and timely reading of the meters of Stow's water customers. Installation of the automatic meter reading system has been completed and continues to be monitored for accuracy and reliability. The new meter reading system cost approximately \$2.3 million.

The City established a Storm Water Management Utility in 2004 to address flooding issues and problems throughout the Stow community. An ongoing, monthly storm water improvement fee was enacted in late 2004 by City Council to pay all future operating and capital costs associated with maintaining and upgrading the City's existing storm water management system over the next ten to twenty years. The fee is graduated and is based on an engineering evaluation of the size of the impervious surfaces of individual residential and non-residential properties in Stow. Numerous storm water projects have been completed over the past eleven years with funding provided by the enactment of the new fee.

This past year the City continued its assessment of the engineering studies completed for every neighborhood within the City to identify storm water problems that need to be corrected as part of a long-term storm water management plan. Many more projects are being evaluated and prioritized for completion in 2016 and beyond. The administration and City Council are evaluating the adequacy of the current storm water fee to determine the feasibility of increasing it to enable the accomplishment of more storm water projects throughout the City of Stow.

In 2015, the City of Stow continued many of its ongoing programs which are designed to improve the community as a whole and its individual neighborhoods. The provision of such programs as the Stow Senior Center, adopt-a-spot beautification, the neighborhood playground upgrades, residential storm sewer improvements, bike trail expansion, sidewalk repair, housing repair, litter and recycling education and awareness, neighborhood beautification and tree planting programs were important accomplishments of the City again this past year.

A comprehensive ten-year Capital Improvements Financial Plan was prepared by the City in 2002 to guide City officials in undertaking and completing the City's major permanent improvement projects over the original period, 2002-2011. The Plan, as now updated each year, was used in 2015 and will continue to be used as it is revised in future years to identify available capital improvement funding sources and all potential general capital projects which are necessary to improve the City's infrastructure, buildings, facilities and major equipment over the next ten-year period. The Plan also serves as the City's guide for both short-term and long-term debt management.

The City has continued its emphasis on accelerating debt retirement. Over the past eight years alone (2008-2015, inclusive), Stow's outstanding general obligation debt has been reduced from \$33.6 million to \$20.0 million. In order to facilitate debt retirement, the City has increased its reliance on pay-as-you-go (cash) financing to fund its capital improvements and has not incurred any new outside general obligation project debt since 2011. (In 2015, the City was the recipient of a \$1.2 million Ohio Public Works Commission water project loan with a thirty-year term and a zero rate of interest.)

In May of 2006, the City Council adopted a long-term master plan for the development of the City Center Site which encompasses the centrally located municipal government offices, a large playground and the surrounding acreage. The development of the site will eventually include public gathering facilities for entertainment, an amphitheater, cultural and arts centers, walking trails and some mixed use buildings. The master plan for the maintenance, development and future management of the City's arboretum/sancturetum, which is located near Stow City Hall, continued to be updated in 2015. It is included as a major component of the City's overall City Center Site long-term plan. It is the intent of the City to further develop detailed plans and possible funding sources to enhance the arboretum/sancturetum in several phases. It was opened fully to the public in the summer of 2006. Preservation of this unique and extensive outdoor natural resource is a long-standing commitment of the City.

In February of 2006, the Stow City government completed the acquisition of an 18-hole municipal golf course located on 140 acres of land within a highly developed residential area of the City. The golf course, which was named the best privately owned public golf course in Ohio in 2005, has been successfully operated by the City with its own resources over the period 2006-2015, not including acquisition debt payments. Even with the golf industry subject to lessening demand nationally in the past 4-7 years, the City's municipal golf course fared well in 2015. The City's ongoing commitment to the operation of the golf course ensures its retention and preservation as a highly-valued recreational asset in the Stow community. Several significant improvements to the golf course layout are planned for 2016.

A unique, special needs playground was completed as a supplemental facility in one of Stow's major parks in 2008. It cost approximately \$278,000 and was funded through a combination of private donations, a state grant and City funding. It is designed for the inclusion and accessibility of all children regardless of disability. In 2015, it was used by many individuals and groups in the community.

After assessing the feasibility of converting its Safety/Service communications system to 800 MHz capability, in 2006, the City executed a 10-year agreement to participate with other communities in the Summit County/Akron radio system. The County-wide system increases compatibility, interoperability and mutual communications capabilities with surrounding communities. The City continued its effort to enhance the new radio system for its safety forces in 2015 through the use of local funding and grants. The City's radio and related communications equipment and facilities are continuously being evaluated for possible upgrade.

As of January 1, 2009, the City of Stow became the new home of the Stow Municipal Court (formerly the Cuyahoga Falls Municipal Court). Construction of the new \$9.2 million courthouse commenced in 2007 in northwest Stow near a major interchange and was completed at year-end 2008. The new Court serves over 180,000 people in 16 local communities and is operationally successful. The new Court facility is already a recognized landmark and an important community asset in Stow.

In 2008, the City contracted with two other area communities to create a regional dispatch communications center in the Stow Safety Building. The center, which was established on August 1, 2008, is being operated by the Stow police department. It has eliminated duplicative dispatching facilities and will potentially reduce long-term capital and operating costs for each of the participating governments. A township was added to the regional center as a communications service user in early 2009.

In May 2009, the City completed renovation of a City-owned building to replace the former Senior Center which had previously been in rented quarters. The new Senior Center, which is near the Stow City Hall, is more centrally located than the former Center and provides improved accessibility for seniors throughout Stow. In 2015, the Center has become a high-use facility which now generates more senior citizen activity and programs in Stow than ever as the City's support for seniors activities continues to grow.

Future – As with virtually every other governmental unit in Ohio, Stow is coping with the continuing adverse impact of the severe national economic recession on its finances. We have adopted a much more conservative and restrictive stance regarding our operating and capital budgets. We have reduced our operating expenditures, imposed a hiring freeze, implemented an employee buyout program and cancelled or delayed many capital improvements. Within our more limited financial capability, we continue with various major initiatives designed to improve and enhance the City of Stow and/or to enable the City to accommodate the continued growth and development of the Stow community in 2016 and beyond.

As referenced earlier, the City will continue to implement its workforce and facilities consolidation plan in 2016 by reviewing the utilization of all buildings. Departmental building assignments and locations will be assessed and evaluated for more efficient layouts and usage. The main Parks Maintenance building has been converted to private use and similar City departments will be consolidated to more effective common locations for joint usage of major equipment and simultaneous training on related job tasks.

An important long-term goal of the City administration is the promotion of shared government services and participation in regional collaboration efforts. In recent years, the City of Stow has cooperatively developed shared cost programs with neighboring cities in such areas as human resources, building inspection, dispatching services, urban forestry and equipment purchases. Similar initiatives are being evaluated for future implementation.

A potential regional dispatch center for central Summit County, which may include Cuyahoga Falls, Stow and Tallmadge as well as a number of smaller communities, is being evaluated for possible implementation in 2017. If established, the new center, by serving a larger population base, could eventually generate considerable operational cost savings as well as lower individual capital investment amounts for each participating community through economies of scale.

The City's elected officials, in cooperation with the Judges and Clerk of Courts, have continued to stabilize the finances of the Stow Municipal Court for the future, including implementing effective management and retirement of the debt incurred to construct the new Courthouse. Many essential services are provided by the Court within the sixteen jurisdictions served. An important component of the City's plan is to ensure that Mayor's Courts, either existing or new, do not negatively impact the long-term finances or budget of the Court.

The new Route 8 Interchange, located at State Route 8 and Seasons Road in both Stow and Hudson, has been completed and now serves as an important component of the Stow and Hudson transportation systems. The main access road to the interchange was improved and widened in 2010. Another access road was improved in 2013 as a joint undertaking of the State of Ohio, the City of Stow and the City of Hudson. Along with the recently-completed Seasons/Norton Roads connection and the Seasons Road improvement projects, the new interchange is necessary to facilitate expansion of the industrial and commercial growth areas of Stow to ensure future expansion of our tax base.

Through the City's increased annual concrete and asphalt road paving program and such projects as the Norton/Seasons Roads connection, the Seasons Road improvement, the Route 8 Interchange construction, the Steels Corners Interchange upgrade, the Hudson Drive widening, the Graham Road upgrade, the Norton Road improvement and various other planned road, intersection, traffic light and bridge improvements, the City of Stow will continue to upgrade the community transportation system significantly over the next decade. All of these projects have received, or will receive, state and/or federal funding assistance to ensure their completion.

In 2016, the City will be continuing its ongoing traffic signal upgrade program at major intersections throughout the community. Local funds will be combined with grant funds and other sources to finance the installation of new signals at high traffic volume locations to improve traffic flow and control and/or to meet safety concerns. Major upgrades at the Norton and Rt. 91 and Norton and Fishcreek intersections are now in the construction stage.

Construction of a new boulevard to provide public access through the large City Hall site has been completed. The new roadway received final paving in 2014. It is compatible with the planned community facilities on the City Center campus, which will eventually be developed for public use.

Among the City's priorities for 2016 and 2017 in the safety area will be the replacement of at least three of the major fire/EMS response vehicles utilized on a daily basis by the Fire Department. In anticipation of the replacement of these vehicles, the City has been accumulating funding through its Capital Budget so that the acquisitions can be accomplished on a cash basis without incurring debt. A new fire truck was acquired in 2014 and was fully paid for with on-hand City Capital funds upon delivery.

The proceeds of the City's lodging tax, which is collected on all overnight hotel and motel room occupancies, was originally dedicated to pay for infrastructure improvements in specified areas of the City to encourage economic development. In 2007, the usage of the tax was expanded to include support of the City's Community Improvement Corporation (C.I.C.), which has the ability to offer financial aid and/or loans as incentives to new and/or expanding businesses in Stow. In 2010, a significant portion of the proceeds was obligated to fund the City's community development staff. The funding has now been expanded to include the City's planning staff as well. The C.I.C. has been involved in providing assistance to a number of important local industries in Stow in recent years and will continue to serve a valuable function in building and expanding the City's economic foundation.

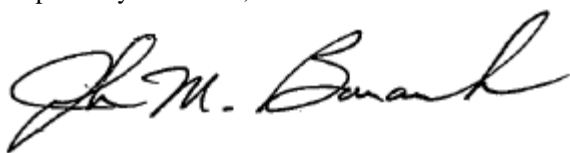

The City administration will continue to emphasize economic development in Stow in 2016 and beyond as a means to enhance our tax base for the future and strengthen the City's financial standing. It is expected that the current 2001 city-wide Comprehensive Plan, which guides local development, will be formally updated in 2016.

OTHER INFORMATION

Awards - The City prepared and submitted a Comprehensive Annual Financial Report (CAFR) for the first time for 2000 to the Government Finance Officers Association of the United States and Canada (GFOA). A Certificate of Achievement for Excellence in Financial Reporting was awarded to the City of Stow for its Comprehensive Annual Financial Report for the last fifteen consecutive years (2000-2014). In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both Generally Accepted Accounting Principles and applicable legal requirements. We believe our current report for 2015 conforms to the Certificate of Achievement for Excellence in Financial Reporting program requirements, and we are submitting it to the GFOA to determine its eligibility for a 2015 award.

Acknowledgment - I would like to express my sincere appreciation and thanks to those individuals who assisted in the preparation of the 2015 Comprehensive Annual Financial Report. Successful preparation of a report of this scope required the dedicated services of the entire staff of the Finance Department. I also extend my appreciation to the Mayor, City Council and all Department Heads for their support and assistance in completing this Comprehensive Annual Financial Report.

Respectfully submitted,

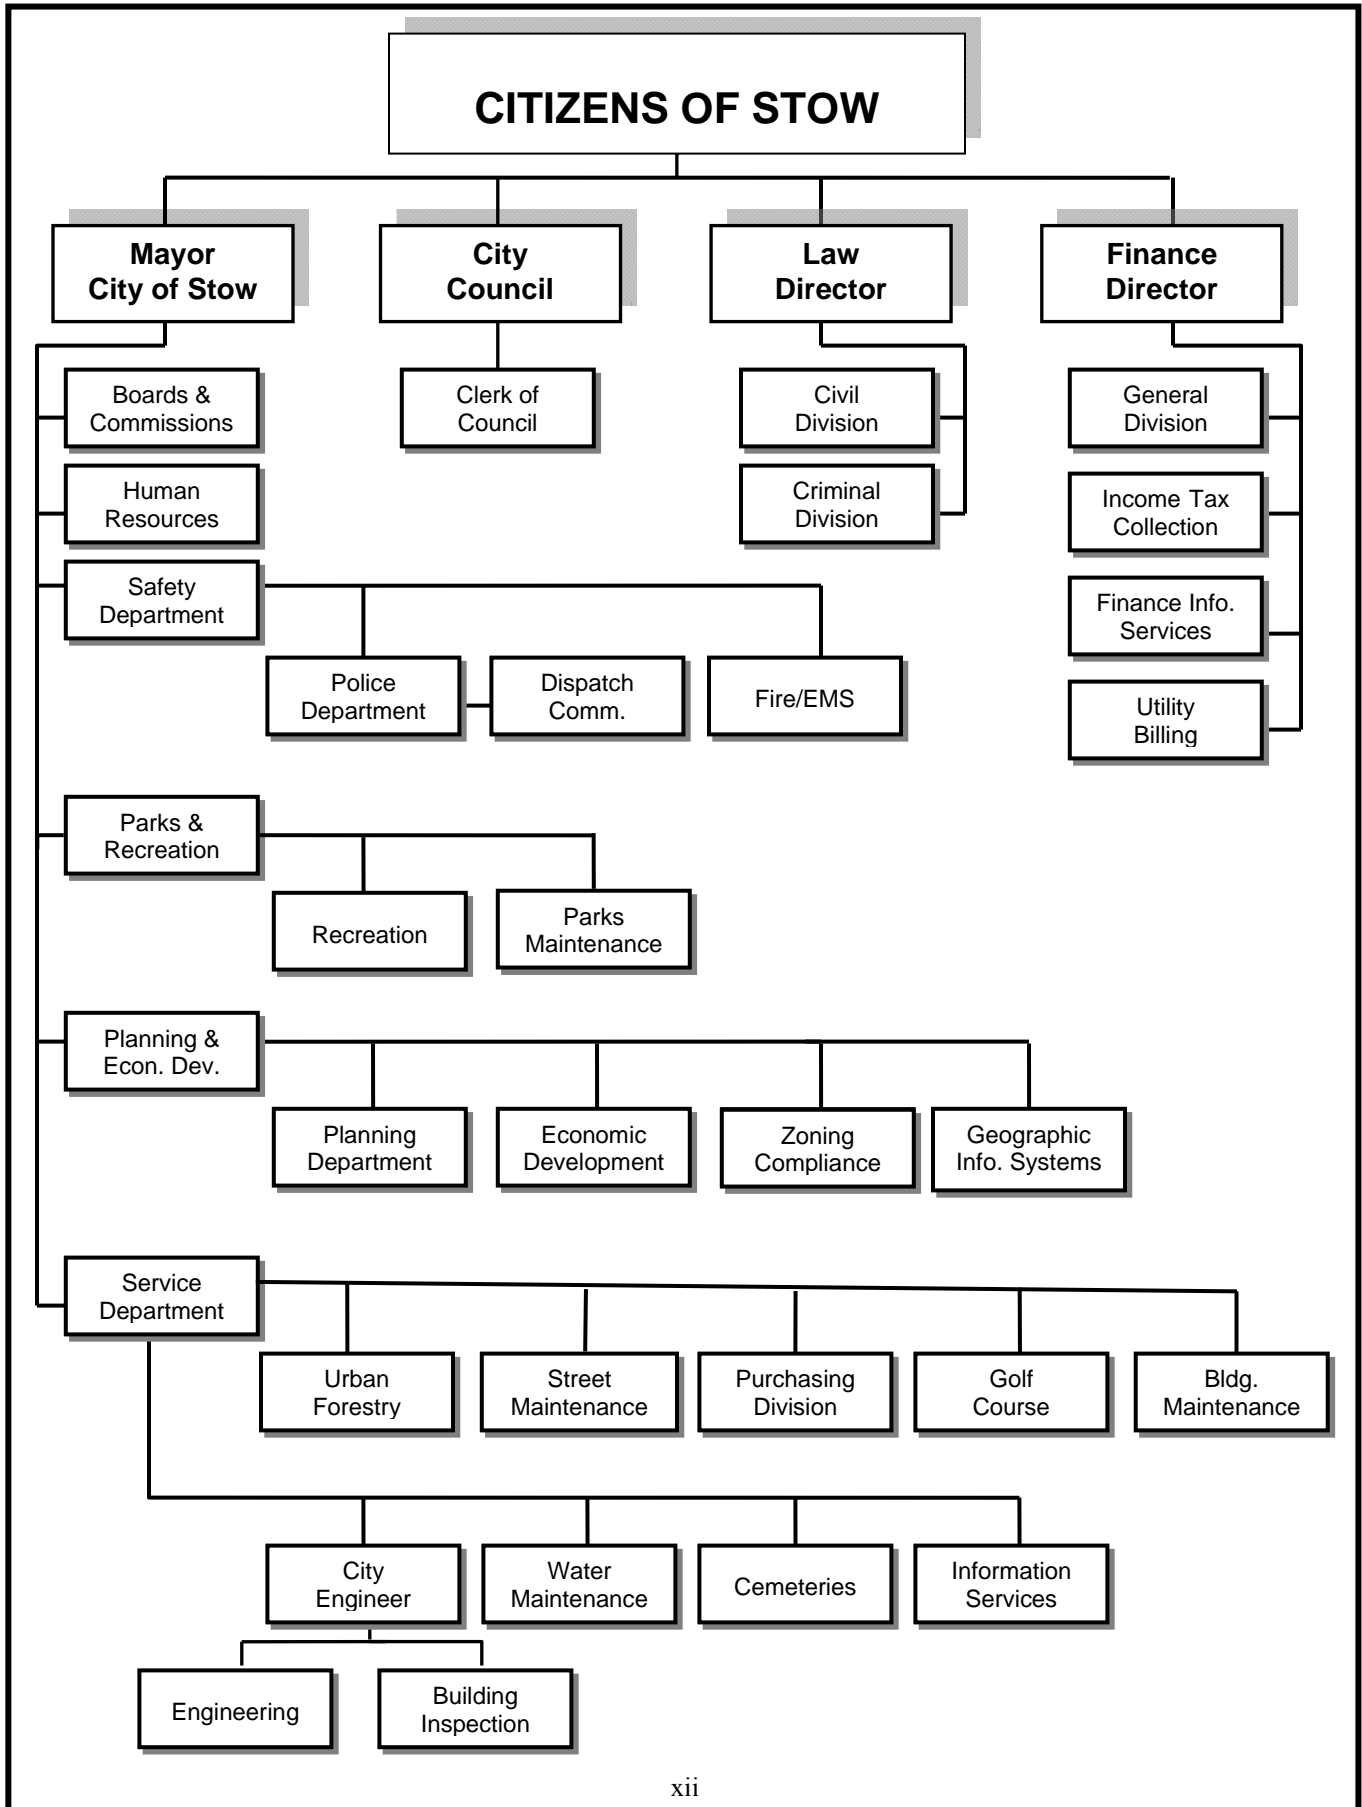

John M. Baranek
Director of Finance

INDEPENDENT AUDITOR'S REPORT

City of Stow
Summit County
3760 Darrow Road
Stow, Ohio 44224-4094

To the Honorable Mayor and City Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the City of Stow, Summit County, Ohio (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the City of Stow, Summit County, Ohio, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and EMS/Fire Tax Levy funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the year ended December 31, 2015 the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. In addition, the City restated the Governmental Activities Net Position as of January 1, 2015 due to an error reported in the prior year capital assets construction in progress. We did not modify our opinion regarding these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 12, 2015, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

CITY OF STOW, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015 (UNAUDITED)

The management's discussion and analysis for the City of Stow's (the "City") financial statements provides an overview of the City's financial activities for the year ended December 31, 2015. The intent of this discussion and analysis is to provide a narrative that describes the City's performance as a whole. To obtain a more detailed understanding, one should also review the transmittal letter, the notes to the basic financial statements and the basic financial statements.

Financial Highlights

The City's key financial highlights for 2015 are as follows:

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the year ended December 31, 2015 by \$76,468,770 (net position). Of this amount, \$5,623,410 is considered restricted for various purposes such as capital projects, debt service and other restrictions, and \$79,616,569 is invested in capital assets. These combined amounts are higher than the City's total net position at year end, resulting in a deficit balance of \$8,771,209 in unrestricted net position.
- Total net position increased \$2,064,204 or 2.77 percent as a result of this year's operations. Net position for business-type activities increased \$901,122 or 2.42 percent from 2014's restated net position, while the net position related to governmental activities increased \$1,163,082, or 3.14 percent from 2014's restated net position.
- The City's total revenues amounted to \$42,798,379 in 2015, of which \$35,019,648 related to governmental activities and \$7,778,731 to business-type activities. Program specific revenues in the form of charges for services, grants and contributions accounted for \$17,729,252 or 41.43 percent of total revenues.
- The City had \$40,734,175 in expenses in 2015, \$33,856,566 of which were for governmental activities and \$6,877,609 for business-type activities.
- Among the major funds, the general fund had \$21,819,883 in revenues and other financing sources and \$21,699,155 in expenditures and other financing uses in 2015. The amount of \$379,041 was transferred to the general fund in 2015, and \$834,439 was transferred to other funds.
- The general fund's balance increased to \$5,950,239, an increase of \$120,728 from the beginning of 2015. The general fund balance was 27.75 percent of total general fund revenues, which is a slight increase from the percentage in 2014.
- The City's 2015 total governmental activities long-term obligations increased from \$46,876,290 to \$47,365,723 from 2014's restated long-term obligations. This increase of \$489,433 was primarily due to an increase in the City's net pension liability.

Using this Comprehensive Annual Financial Report (CAFR)

The City's annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the City of Stow as a total financial and operating entity. These individual statements provide a detailed look at specific financial activities.

The City's basic financial statements are comprised of three components: 1) City-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

CITY OF STOW, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015 (UNAUDITED)

The statement of net position and the statement of activities provide information about the activities of the City as a whole and present a long-term view of the City's finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell the reader how services were financed in the short-term, as well as the amount of funds remaining for future spending. The fund financial statements also look at the City's major funds with all other non-major funds presented in total in one column.

Reporting the City as a Whole

Statement of Net Position and Statement of Activities

The analysis of the City as a whole begins on page 8. One of the most important questions asked about the City's finances is, "How did the City perform financially during 2015?" The statement of net position and the statement of activities provide information concerning the City as a whole and its financial activities that will assist the reader in answering this question. These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual method of accounting similar to the accounting used by most private-sector businesses. This method of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the City's net position and changes in net position. The change in net position is important because it allows the reader to judge in many respects whether or not the City's financial position has improved or diminished over the past year. The causes of any change in financial position for the City may be related to, or the result of, many factors, some of which may be directly financial, and others which may be only indirectly related to the City's finances. Indirect financial factors include changes in the City's tax or revenue base, changes in general tax law in Ohio or the City, variations in economic conditions, the condition of the City's capital assets and other related factors which may impact revenues or expenses.

In the statement of net position and the statement of activities, the City operation is divided into two distinct types of activities as follows:

- **Governmental Activities** - Most of the City's programs and services are considered to be governmental activities, including general government, security of persons and property, leisure time activities, community and economic development and transportation. These services are funded primarily by taxes and intergovernmental revenues including federal and state grants and other shared revenues.
- **Business-Type Activities** - These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided.

The City-wide financial statements can be found on pages 17 through 19 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like the state and other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Fund financial reports provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds, not on the City as a whole. The City's major governmental funds are: the general fund, the EMS/fire tax levy fund and the general capital improvements fund. The City's major proprietary funds are the water, golf and storm water utility funds.

CITY OF STOW, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015 (UNAUDITED)

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on events that produce near-term inflows and outflows of spendable resources, as well as on the balances of spendable resources available at the end of the year. This information is useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the City's governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains numerous individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. The basic governmental fund financial statements can be found on pages 20 through 25 of this report.

The City adopts an annual appropriation budget for its general fund and other funds. Budgetary statements and schedules have been provided for all annually budgeted funds to demonstrate compliance.

Proprietary Funds

The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water system, golf and storm water utility operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its self-insurance programs for medical-related employee benefits. The basic proprietary fund statements can be found on pages 26 through 31 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected on the government-wide financial statements because the resources from those funds are not available to support the City's programs. The accounting method used for fiduciary funds is much like that used for the proprietary funds. The basic fiduciary fund financial statements can be found on pages 32 and 33 of this report.

Notes to the Basic Financial Statements

The financial statement notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. Notes to the basic financial statements can be found on pages 35 through 82 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's net pension liability and pension contributions. The required supplementary information can be found on pages 84 through 90 of this report.

CITY OF STOW, OHIO

*MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2015
(UNAUDITED)*

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements, schedules, and a statistical section, which can be found on pages 91 through 221 of this report.

Government-Wide Financial Analysis

As noted earlier, the trend in net position serves as an indicator of a government's changing financial position. Net position of the governmental and business-type activities has been restated as described in Note 3 of the notes to the basic financial statements. At the close of 2015 the City's total assets and deferred outflows of resources, as shown in Table 1, exceeded liabilities and deferred inflows of resources by \$76,899,722. \$38,686,766 of net position was in governmental activities while \$38,212,956 was in business-type activities. The table below provides a summary of the City's net position for 2015 compared to 2014.

CITY OF STOW, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015 (UNAUDITED)

During 2015, the City adopted Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement 27" and GASB Statement 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date - An Amendment of GASB Statement No. 68" which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the City's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

CITY OF STOW, OHIO

*MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2015
(UNAUDITED)*

As a result of implementing GASB 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation, along with a restatement for the capital assets of the governmental activities, had the effect of restating net position at December 31, 2014, for governmental activities from \$62,790,690 to \$37,092,732 and business-type activities from \$38,445,307 to \$37,311,834.

During 2015, the City's overall financial position improved by \$2,064,204 as governmental activities net position increased by \$1,163,082 and those for business-type activities increased by \$901,122.

The majority of the City's net position reflect its investment in capital assets (e.g. land, intangible assets, construction in progress, buildings and building improvements, vehicles, infrastructure and equipment, furniture and fixtures), less any related debt used to acquire those assets. These capital assets are utilized by the City to provide services to its citizens. They are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

Statement of Activities

The table below shows the changes in net position for years ended 2015 and 2014.

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$2,620,042 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$2,872,856. Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed:

	Governmental Activities	Business-Type Activities
Total 2015 program expenses under GASB 68	\$ 33,856,566	\$ 6,877,609
Pension expense under GASB 68	(2,724,860)	(147,996)
2015 contractually required contributions	<u>2,558,498</u>	<u>169,248</u>
Adjusted 2015 program expenses	33,690,204	6,898,861
Total 2014 program expenses under GASB 27	<u>31,442,347</u>	<u>5,956,654</u>
Increase in program expenses not related to pension	<u>\$ 2,247,857</u>	<u>\$ 942,207</u>

CITY OF STOW, OHIO

*MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2015
(UNAUDITED)*

Governmental Activities

The information in Table 2 indicates that security of persons and property accounted for \$15,209,594, or 44.92 percent of the \$33,856,566 expended for governmental activities this past year. General government accounted for \$9,697,067 or 28.64 percent in the governmental activities category.

Some \$21,600,435 in tax revenues was generated for the City in 2015 to support governmental activities. This amount represented 61.68 percent of total revenues for governmental activities which reached \$35,019,648 in 2015. Other major revenues received by the City included \$2,241,649 in unrestricted grants and entitlements.

Program revenues to support governmental activities amounted to \$10,652,441 in 2015, which included \$6,253,138 in charges for services.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

	Total Cost of Services <u>2015</u>	Net Cost of Services <u>2015</u>	Total Cost of Services <u>2014</u>	Net Cost of Services <u>2014</u>

Bond and note issuance costs	-	-	82,659	82,659
Total Expenses	<u>\$ 33,856,566</u>	<u>\$ 23,204,125</u>	<u>\$ 31,442,347</u>	<u>\$ 19,265,592</u>

The dependence upon general revenues for governmental activities is apparent, with 68.54 percent of expenses supported through taxes and other general revenues in 2015 and 61.27 percent in 2014.

Business-Type Activities

Water system expenses were \$4,911,480 for the year, which were primarily offset by the \$5,306,036 in charges for services generated by the water system through the operation of the City's water distribution system in 2015.

Golf expenses were \$1,109,867 for the year, which were offset by \$910,919 in charges for services generated by the Fox Den Golf Course through user fees.

Storm water utility expenses were \$856,262 for the year, which were offset by \$837,428 in charges for services generated by the storm water system and \$22,428 in capital grants and contributions in 2015.

The City experienced an increase in net position of \$901,122 in the area of business-type activities in 2015. Water system program revenues totaled \$5,306,036 for the year as compared to \$5,132,114 in 2014. This increase was due to an increase in service charges and tap in fees.

CITY OF STOW, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2015 (UNAUDITED)

Financial Analysis of the City's Funds

As discussed previously, the City maintains a fund accounting system to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements and its ability to meet them. In particular, unassigned fund balance serves as a useful measure of a City's net resources available for spending at the end of the year.

As of the end of the current year, the City's governmental funds reported combined ending balances of \$14,403,516, an increase of \$1,074,029 as compared with the prior year fund balances. Approximately 28.30 percent of this total year end amount or \$4,076,832 represents unassigned fund balance, which is available at the City's discretion within certain legal constraints and purpose restrictions. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been 1) committed (\$2,839,656); 2) nonspendable (\$688,159); 3) restricted (\$5,221,174); and 4) assigned (\$1,577,695).

The general fund is the City's chief operating fund. The general fund's year-end balance increased by \$120,728 during the current year to reach an ending total of \$5,950,239. The unassigned fund balance of the general fund was \$4,241,169. As a measure of the general fund's liquidity, it is useful to compare both unassigned fund balance and total fund balance to total fund expenditures. The unassigned fund balance represents 20.33 percent of total general fund expenditures, while total fund balance represents 28.52 percent of such expenditures.

The City's two other major governmental funds are the EMS/fire tax levy fund and the general capital improvements fund. The fund balance of the EMS/fire tax levy fund increased \$259,700 during 2015. The fund balance of the general capital improvements fund increased \$125,468 in 2015 compared to an increase of \$369,409 during 2014 as a result of more intergovernmental revenue and the sale of notes received during 2014.

Transfers from the general fund to other governmental funds, which occurred principally for funding of pensions, amounted to \$834,439.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, but in more detail. Unrestricted net position for the City's water, golf and storm water utility funds at the end of the year amounted to \$6,958,164. Total assets were \$47,316,141 at year-end. The water fund net position and storm water utility fund net position increased 1.71 percent and 1.27 percent, respectively, during 2015 due to tightly controlled expenses. The golf fund net position continued to rise during 2015 with an increase of \$301,708 bringing the net position to a balance of \$992,754.

Budgeting Highlights

The City's budgeting process is prescribed by the Ohio Revised Code. The authority for the City to expend money is derived from its appropriations ordinance which must be approved by City Council each year. The appropriations are limited and restricted by the amounts of anticipated revenues as estimated, in part, by the City and certified by the County Budget Commission in accordance with the Ohio Revised Code. Within the restrictions itemized above as they may be revised or amended, the City has the ability to adjust its budget during the course of the year due to actual activity related to either revenue or expenditures.

CITY OF STOW, OHIO

*MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2015
(UNAUDITED)*

Regarding revenues and other financing sources, the general fund original and final budget was \$23,716,618. Actual total revenues and other financing sources were \$1,885,166 less than original and final budgeted revenues. There City's final budget estimates for expenditures and other financing uses were \$100 more than the original budget estimates for expenditures and other financing uses. Actual amounts for 2015 were less than the final budgeted amounts by \$2,673,253. This variance was the result of the conservative budgeting by the City, a large contingency allocation that was not expended, and the decision not to expand the City's safety forces as had been originally contemplated, particularly in the police area, due to insufficient revenue enhancement to pay for such employee expansion.

Capital Assets and Debt Administration

Capital Assets

The City's net investment in capital assets, for both its governmental and business-type activities amounted to \$101,743,221 (net of accumulated depreciation) at year end 2015. Capital assets, which include land, intangible assets, buildings and building improvements, vehicles, equipment, furniture and fixtures, infrastructure and construction in progress, increased by \$1,182,813 during 2015. Capital assets of the governmental activities have been restated at December 31, 2014, to correct an error reported in the prior year.

**Table 3 - Capital Assets at December 31

Additional detailed information relating to the City's capital assets is contained in Note 9 of the notes to the basic financial statements.

Debt

At the end of the current fiscal year, the City's total outstanding general obligation bonded debt for governmental activities amounted to \$12,362,713 (including unamortized premiums). During 2015, the City issued \$8.67 million in general obligation refunding bonds to pay for the refinancing of the Stow Safety Center debt issued in 2004, the Fire Station debt original issued in 2008 and the Service center debt originally issued in 2008. The amount of \$3,790,000 was issued in 2014 to pay for the refinancing of the Municipal Courthouse debt issued in 2007. The City also had governmental activity general obligation notes outstanding (long-term and short-term) at year-end in the amount of \$3,307,333 (including unamortized premiums). As can be seen from Table 4, the total debt (long-term and short-term) for governmental activities decreased \$1,339,524 or 7.73 percent during the year.

CITY OF STOW, OHIO

*MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2015
(UNAUDITED)*

Debt related to business-type activity for the City amounted to \$6,267,037 at year-end, which consisted of \$5,073,898 in general obligation bonds, \$1,092,885 in OPWC loans and \$100,254 in capital lease obligations. Total business-type activity debt for the City increased \$844,004 or 15.56 percent of the total business-type activity outstanding debt at the commencement of the year.

At December 31, 2015, the City's outstanding general obligation bonds were rated "Aa2" by Moody's Investors Service. State statute limits the total amount of debt a governmental entity may issue. The City's debt limitation at year-end, per the limits described by state statute, was substantially higher than the City's existing outstanding debt. In addition to bonded debt, note and loan debt as itemized in Table 4, the City's other long-term obligations include compensated absences and intergovernmental payables.

Additional information regarding the City's long-term obligations can be found in Note 12 of this report, Note 16 provides information relating to compensated absences and Note 11 provides information on short-term note obligations.

Economic Factors and Next Year's Budget

The City is a growing community with a stable and diversified economy. The City's population is estimated to be 34,797. Trends in the local economy compare favorably with those of the state and nation. The City's unemployment rate in 2015 stood at 4.0 percent. The county, state and national unemployment rates were 4.8, 4.6, and 5.0 percent, respectively in 2015.

The City's budgets were forecast conservatively for 2015 and 2016 based on local, state and national economic conditions and trends. The service needs of the citizens of Stow were taken into account as were the ongoing financial condition of the City and any applicable budgetary constraints.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for City officials, members of the public and others who may have an interest in the City's financial standing. It also is designed to demonstrate the City's accountability for the money it receives from all sources, particularly the taxpayers of Stow. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Mr. John Baranek, Director of Finance, Stow City Hall, 3760 Darrow Road, Stow, Ohio 44224.

*RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO
NET POSITION OF GOVERNMENTAL ACTIVITIES
DECEMBER 31, 2015*

Total governmental fund balances		\$ 14,403,516
<i>Amounts reported for governmental activities on the statement of net position are different because:</i>		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		64,339,779
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred inflows in the funds.		
Income taxes receivable	\$ 621,329	
Real and other taxes receivable	291,991	
Intergovernmental receivable	1,138,169	
Accrued interest receivable	15,377	
Total	2,066,866	
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.		
Compensated absences	(4,729,393)	
Capital lease payable	(312,210)	
General obligation bonds payable	(12,061,137)	
Construction notes payable	(2,900,000)	
Total	(20,002,740)	
Accrued interest payable is not due and payable in the current period and therefore is not reported in the funds.		(50,241)
Unamortized deferred amounts on refundings are not recognized in the governmental funds.		438,449
Unamortized premiums on bond and note issuances are not recognized in the governmental funds.		(308,909)
The net pension asset and net pension liability are not available to pay for current period expenditures and are not due and payable in the current period, respectively; therefore, the asset, liability and related deferred inflows/outflows are not reported in governmental funds.		
Net pension asset	24,960	
Deferred outflows of resources	3,801,210	
Deferred inflows of resources	(185,613)	
Net pension liability	(27,054,074)	
Total	(23,413,517)	
Internal service funds are used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.		778,357
An internal balance is recorded in governmental activities to reflect underpayments to the internal service funds by the business-type activities.		4,254
Net position of governmental activities		\$ 38,255,814

CITY OF STOW, OHIO

*RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2015*

Net change in fund balances - total governmental funds		\$ 1,074,029
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Government funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.		
Capital asset additions	\$ 3,428,112	
Current year depreciation	<u>(3,422,475)</u>	
Total		5,637
Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.		
		(729,580)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Delinquent property taxes	(58,270)	
Intergovernmental	10,739	
Municipal income taxes	67,240	
Interest	<u>(2,736)</u>	
Total		16,973
Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		
		4,283,548
Payment to refunding bond escrow agent for the retirement of bonds is an other financing use in the governmental funds but the payment reduces long-term liabilities on the statement of net position. Deferred charges related to bond refundings are amortized over the life of the issuance in the statement of activities. The following refunding transactions occurred during the year:		
General obligation bonds refunded	8,324,624	
Unamortized premium on general obligation bonds refunded	112,225	
Unamortized deferred charges on general obligation bonds refunded	(131,801)	
Deferred charges on refunding	<u>371,862</u>	
Total		8,676,910
Premiums on debt issuances are recognized as revenues in the governmental funds; however, they are amortized over the life of the issuance in the statement of activities.		
		(287,302)
In the statement of activities, interest is accrued on outstanding bonds and notes, whereas in governmental funds, interest is expensed when due.		
Accrued interest	12,014	
Unamortized charges	(30,167)	
Bond and note premium	<u>49,108</u>	
Total		30,955
The issuance of notes and bonds is recorded as revenue in the funds, however, in the statement of activities, notes and bonds are not reported as other financing sources, as they increase liabilities on the statement of net position.		
		(11,567,680)
Some expenses, such as compensated absences, reported in the statement of activities do not require the use of financial resources and therefore are not reported as expenditures in governmental funds.		
		(118,107)
Contractually required pension contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		
		2,558,498
Except for amounts reported as deferred inflows/outflows, changes in the net pension asset/liability are reported as pension expense in the statement of activities.		
		(2,724,860)
Internal service funds used by management to charge the cost of insurance, to individual funds are not reported in the expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service funds is allocated among the governmental activities.		
		<u>(55,939)</u>
Change in net position of governmental activities		<u><u>\$ 1,163,082</u></u>

CITY OF STOW, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 1 - DESCRIPTION OF THE CITY

The City of Stow, Ohio, (the "City") is a home rule municipal corporation which was established under the laws of the State of Ohio and operates under its own charter. The current charter, which provides for a Mayor/Council form of government, was adopted in 1958 and became effective January 2, 1960. Amendments to the charter have been approved by the electorate in 1965, 1968, 1970, 1972, 1975, 1980, 1985, 1990, 1991, 1997, 1998, 2000, 2002, 2005 and 2010.

The City provides various services and consists of many different activities and smaller accounting entities which include police, fire-fighting and EMS forces, street and highway maintenance, building and zoning inspection, comprehensive community planning, various general government services and a water distribution system. The City offers numerous parks and recreation programs and operates a park system, a golf course, three municipal cemeteries and a group of rental lodges available for public or private events.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements (BFS) of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The City's significant accounting policies are described below.

A. Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards, agencies and commissions that are not legally separate from the City.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's Governing Board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; (3) the City is legally obligated or has otherwise assumed the responsibility to finance deficits of, or provide financial support to, the organization; (4) or the City is obligated for the debt of the organization. Component units may also include organizations for which the City approves the budget, the issuance of debt, or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary governments financial statements incomplete or misleading. The City has one discretely presented component unit.

Stow Community Improvement Corporation (CIC) - The Stow Community Improvement Corporation was formed pursuant to Ohio Revised Code Section 1724. The Articles of Incorporation were approved on November 8, 1985. The CIC was designated as a not-for-profit agency of the City for advancing, encouraging and promoting the industrial, economic, commercial, and civic development of Stow and the surrounding territory surrounding Stow.

CITY OF STOW, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The Board of Trustees consists of nineteen members, which include the Mayor, Director of Planning and Development, Director of Finance, Law Director, City Council President, City Council Finance Committee Chairperson, Stow-Munroe Falls School District Treasurer or Designee, and City Council Chairperson. Trustees also include at least one representative of each of the following categories: private citizens, small business, commerce, industry, civic organizations, and financial institution.

The CIC operates independently, but City Council approves the CIC's annual budget. The CIC has the authority to expend its funds as it determines within the approved budget. The City is the primary source of funding for the CIC (in most years, the City provides the CIC's entire funding allocation). If the CIC developed its own funding sources, its independence would increase. No debt would be issued by the CIC without the concurrence of the City. The CIC has no taxing authority. The City does not appoint a majority of the Board of Trustees and the CIC does not provide services entirely or almost entirely to the City. The CIC is a discretely presented component unit of the City.

Financial statements can be obtained from the Director of Finance, Stow Community Improvement Corporation, 3760 Darrow Road, Stow, Ohio 44224. Information relative to the discretely presented component unit is presented in Note 22.

B. Basis of Presentation - Fund Accounting

The City's BFS consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activities of the internal service funds are eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Fund Financial Statements - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary fund financial statements. Fiduciary funds are reported by type.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the City's proprietary funds are charges for services. Operating expenses for the enterprise funds include personnel and other expenses related to water, golf course and storm water operations and operating expenses for the internal service funds include claims and administrative expenses. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

C. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary. The following categories are used by the City:

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the City's major governmental funds:

General fund - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available to the City for any purpose provided it is expended or transferred according to the charter of the City of Stow and/or the general laws of Ohio.

EMS/fire tax levy fund - The EMS/fire tax levy fund is a special revenue fund that accounts for proceeds of levy money that is legally restricted to expenditures to provide EMS and fire protection services.

General capital improvements fund - The general capital improvements fund accounts for the portion of municipal income tax designated by Council for the purpose of improving, constructing, maintaining, and purchasing the capital items necessary to enhance the operation of the City.

Other governmental funds of the City are used to account for (a) specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects and (b) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

CITY OF STOW, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Proprietary Funds - Proprietary fund reporting focuses on changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise funds - The enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

Water fund - This fund accounts for revenues generated from the charges for the treatment and provisions of water to the residents and commercial users of the City.

Golf fund - The golf fund accounts for revenues generated and expenses for the Fox Den golf course.

Storm water utility fund - The storm water utility fund accounts for the provision of storm drainage runoff service to the residents and commercial users located within the City.

Internal service fund - Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. The City's internal service funds are the Administrative Insurance fund and the Self-Insurance fund which report on the administrative costs and the payments of premiums and claims for healthcare.

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. The City's trust funds are private-purpose trust funds established to account for funds bequeathed and donated to the City for the Wells Perkins cemetery, scholarships and Stow seniors commission. The City's agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations. The City's agency funds account for building permit fees collected on behalf of the State, municipal court collections that are distributed to various local governments, performance bonds pledged by contractors, a flexible spending plan and money on deposit with the Stow Municipal Court. The City does not have pension trust funds or investment trust funds.

D. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All non-fiduciary assets and all liabilities associated with the operation of the City are included on the statement of net position. The statement of activities presents increases (e.g. revenues) and decreases (e.g. expenses) in total net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the financial statements for governmental funds.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities. The private-purpose trust fund is accounted for using the flow of economic resources measurement focus.

The agency funds do not report on a measurement focus as they do not report operations.

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources and deferred outflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within sixty days of year-end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned (See Note 8). Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 7). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: income tax, State-levied locally shared taxes (including gasoline tax, local government funds and permissive tax), interest, grants, fees and rentals.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources have been reported for the following items related to the City's net pension liability: (1) the net difference between projected and actual investment earnings on pension plan assets, (2) the City's contributions to the pension systems subsequent to the measurement date and (3) differences between employer's contributions and the employer's proportional share of contributions.

In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2015, but which were levied to finance 2016 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City unavailable revenue includes, but is not limited to, delinquent property taxes, income taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

The City also reports deferred inflow of resources for the following items related to the City's net pension liability: (1) differences between expected and actual experience and (2) differences between employer's contributions and the employer's proportional share of contributions. These deferred inflows of resources are only reported on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

CITY OF STOW, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

F. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget (or the Alternative Tax Budget as permitted by law), the certificate of estimated resources and the annual appropriation ordinance, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the annual appropriation ordinance are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by Council at the personal services and other object level within each department of each fund. For both the personal services and object levels the Finance Director has been authorized to allocate appropriations within any object level which he maintains on his books.

Estimated Resources - The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Commission certifies its actions to the City by September 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenue of each fund. Prior to December 31, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation ordinance. On or about January 1, the certificate of estimated resources is amended to include unencumbered fund balances at December 31 of the preceding year. The certificate of estimated resources may be further amended during the year if the Finance Director determines and the Budget Commission agrees that an estimate needs to be either increased or decreased. The amounts reported on the budgetary statements reflect the amounts in the original and final amended official certificate of estimated resources issued during 2015.

Appropriations - For management, a temporary appropriation ordinance to control expenditures may be passed on or about January 1 of each year for the period January 1 to March 31. The Annual Appropriation Ordinance must be passed by April 1 of each year for the period January 1 to December 31. Appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriations at any level of control.

Any revisions that alter the appropriations of the legal level of budgetary control within a fund must first be approved by City Council. Council may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources.

Formal budgetary integration is employed as a management control device during the year for all funds consistent with statutory provisions. Appropriation amounts are as originally adopted, or as amended by City Council throughout the year by supplemental appropriations which either reallocate or increase the original appropriation amounts. During the year, supplemental appropriation measures were legally enacted; however, none of these amendments were significant. The budgetary figures which appear in the statements of budgetary comparisons represent the original and final appropriation amounts, including all amendments and modifications.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Encumbrances - As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. The Ohio Revised Code prohibits expenditures plus encumbrances from exceeding appropriations at the legal level of budgetary control. On the GAAP basis, encumbrances outstanding at year end are reported as assigned, committed, or restricted fund balances for subsequent-year expenditures for governmental funds.

Lapsing of Appropriations - At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the succeeding year and is not reappropriated.

G. Cash, Cash Equivalents and Investments

To improve cash management, cash received by the City is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the City's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During 2015, investments were limited to the State Treasury Asset Reserve of Ohio (STAR Ohio), non-negotiable certificates of deposit, negotiable certificates of deposit and federal agency securities.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as non-negotiable certificates of deposit are reported at cost.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on December 31, 2015.

Following Ohio statutes, the City has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during 2015 amounted to \$99,068 of which \$77,853 was assigned from other City funds.

For purposes of the statement of cash flows and for presentation on the statement of net position, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the City, are considered to be cash equivalents. Investments with maturities greater than three months at the time of purchase are reported as investments. An analysis of the City's investment account at year end is provided in Note 4.

H. Interfund Balances

On fund financial statements, short-term interfund loans are classified as "interfund loans receivable/payable" and long-term interfund loans are classified as "loans to/from other funds". These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

I. Inventory

Inventories of all funds are stated at cost which is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as expenditures in the governmental fund types and as expenses in the proprietary fund type.

J. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The City was able to estimate the historical cost for the initial reporting of infrastructure by back trending (i.e. estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost of the acquisition year or estimated acquisition year). Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of \$5,000. The City's infrastructure consists of bridges, culverts, curbs, storm sewers, streets, irrigation systems, water and sewer lines and infrastructure acquired December 31, 1980 and later. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized for business-type activities.

All reported capital assets are depreciated except for land, intangible assets and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings and improvements	50 years	50 years
Infrastructure	20 to 75 years	20 to 75 years
Equipment, furniture and fixtures	3 to 15 years	3 to 15 years
Vehicles	15 years	15 years

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Sick leave benefits are accrued as a liability using the termination method. An accrual for sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the City's past experience of making termination payments. In proprietary funds, the entire amount of compensated absences is reported as a fund liability. The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources based upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, long-term notes and capital leases are recognized as a liability on the governmental fund financial statements when due.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable in the general fund.

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of City Council (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Assigned - Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes, but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by City Council. In the general fund, assigned amounts represent intended uses established by City Council or ordinance or by State statute. State statute authorizes the Director of Finance to assign fund balance for purchases on order provided such amounts have been lawfully appropriated.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

N. Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on the use of resources either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Unamortized Premiums/Accounting Gain or Loss

Bond and note premiums are amortized over the term of the bonds and notes using the straight-line method. Premiums are presented as an addition to the face amount of the bonds and notes.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

On the governmental fund financial statements, issuance costs, premiums, discounts, and deferred charges from refunding are recognized in the current period.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

P. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are for water, golf course, storm water utility and self-insurance programs. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the funds. All revenues and expenses not meeting these definitions are reported as non-operating.

Q. Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets or from grants or outside contributions of resources restricted to capital acquisition and construction and from contributions from governmental funds. During 2015, the storm water utility fund received contributions of capital in the amount of \$22,428 from grants.

R. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the Basic Financial Statements ("BFS").

S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. Neither item occurred during 2015.

T. Estimates

The preparation of the BFS in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the BFS and accompanying notes. Actual results may differ from those estimates.

U. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles/Restatement of Net Position

For 2015, the City implemented GASB Statement No. 68, “Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27” and GASB Statement No. 71, “Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68”.

GASB Statement No. 68 improves the accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The implementation of GASB Statement No. 68 affected the City’s pension plan disclosures, as presented in Note 14 to the financial statements, and added required supplementary information which is presented after the notes to the basic financial statements.

GASB Statement No. 71 improves the accounting and financial reporting by addressing an issue in GASB Statement No. 68, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

A net position restatement is required in order to implement GASB Statement No 68 and 71. In addition, capital assets have been restated in the governmental activities to correct an error reported in the prior year as discussed further in Note 9 to the financial statements. The governmental activities and business-type activities at January 1, 2015 have been restated as follows:

	Governmental Activities	Business-Type Activities
Net position as previously reported	\$ 62,790,690	\$ 38,445,307
Net pension asset	6,802	1,245
Deferred outflows - payments subsequent to measurement date	2,452,160	167,882
Net pension liability	(25,706,116)	(1,302,600)
Capital assets	(2,450,804)	-
Restated net position at January 1, 2015	<u>\$ 37,092,732</u>	<u>\$ 37,311,834</u>

	Water Fund	Golf Fund	Storm Water Utility Fund
Net position as previously reported	\$ 29,834,021	\$ 959,818	\$ 7,662,446
Net pension asset	778	295	172
Deferred outflows - payments subsequent to measurement date	104,929	39,808	23,145
Net pension liability	(814,146)	(308,875)	(179,579)
Restated net position at January 1, 2015	<u>\$ 29,125,582</u>	<u>\$ 691,046</u>	<u>\$ 7,506,184</u>

Other than employer contributions subsequent to the measurement date, the City made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available. The restatement had no effect on governmental fund balances.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

B. Deficit Fund Balances

Fund balances at December 31, 2015 included the following individual fund deficits:

<u>Major governmental fund</u>	<u>Deficit</u>
EMS/Fire tax levy	\$ 46,975
 <u>Nonmajor governmental funds</u>	
Police pension	55,075
Fire pension	54,898
Special assessment improvements	972

These funds complied with Ohio State law, which does not permit a cash basis deficit at year end. The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the City into three categories:

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits in interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts. Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. High grade commercial paper for a period not to exceed 180 days in an amount not to exceed twenty-five percent of the City's interim monies available for investment; and,
8. Bankers acceptances for a period not to exceed 180 days and in an amount not to exceed twenty-five percent of the City's interim monies available for investment.

The City may also invest any monies not required to be used for a period of six months or more in the following:

1. Bonds of the State of Ohio;
2. Bonds of any municipal corporation, village, county, township, or other political subdivision of this State, as to which there is no default of principal, interest or coupons;
3. Obligations of the City.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the finance director by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash in Segregated Accounts

Cash in Segregated Accounts: At year end, the City had \$693,213 deposited with a financial institution for monies related to the Stow Municipal Court agency fund. This amount is included in the City's depository balance below.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

B. Deposits with Financial Institutions

At December 31, 2015, the carrying amount of all City deposits was \$15,981,986, which includes \$3,000,000 in non-negotiable certificates of deposit. As of December 31, 2015, the City's bank balance was \$16,545,321, of which \$10,679,202 was exposed to custodial risk as discussed below, while \$5,866,119 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. As permitted by Ohio Revised Code, the City's deposits are collateralized by a pool of eligible securities deposited with Federal Reserve Banks, or at member banks of the Federal Reserve System, in the name of the depository bank and pledged as a pool of collateral against all public deposits held by the depository. The City has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the City to a successful claim by the FDIC.

C. Investments

As of December 31, 2015, the City had the following investments and maturities:

<u>Investment type</u>	<u>Fair Value</u>	<u>Investment Maturities</u>				
		<u>6 months or less</u>	<u>7 to 12 months</u>	<u>13 to 18 months</u>	<u>19 to 24 months</u>	<u>Greater than 24 months</u>
FFCB	\$ 1,001,550	\$ -	\$ -	\$ -	\$ -	\$ 1,001,550
FHLB	749,385	-	-	-	-	749,385
FNMA	498,305	-	-	-	-	498,305
FHLMC	1,984,895	-	-	-	-	1,984,895
Negotiable CDs	2,959,974	-	496,634	-	495,323	1,968,017
STAR Ohio	820,634	820,634	-	-	-	-
Total	\$ 8,014,743	\$ 820,634	\$ 496,634	\$ -	\$ 495,323	\$ 6,202,152

Interest Rate Risk: The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The City's investment policy addresses interest rate risk by requiring the consideration of market conditions and cash flow requirements in determining the term of an investment.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The City has no investment policy dealing with investment custodial risk beyond the requirement in Ohio law that prohibits payments for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee. The City has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Credit Risk: STAR Ohio carries a rating of AAAM by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The City's investments in federal agency securities were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. Negotiable certificates of deposit are not rated. The City's investment policy does not specifically address credit risk beyond requiring the City to only invest in securities authorized by State statute.

Concentration of Credit Risk: The City's investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific class of securities.

The following table includes the percentage of each investment type held by the City at December 31, 2015:

<u>Investment type</u>	<u>Fair Value</u>	<u>% of Total</u>
FFCB	\$ 1,001,550	12.49
FHLB	749,385	9.35
FNMA	498,305	6.22
FHLMC	1,984,895	24.77
Negotiable CDs	2,959,974	36.93
STAR Ohio	820,634	10.24
Total	<u>\$ 8,014,743</u>	<u>100.00</u>

D. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of December 31, 2015:

<u>Cash and investments per note</u>	
Carrying amount of deposits	\$ 15,981,986
Investments	<u>8,014,743</u>
Total	<u>\$ 23,996,729</u>
 <u>Equity in pooled cash and investments per statement of net position</u>	
Governmental activities	\$ 14,529,749
Business type activities	8,485,885
Private purpose trust funds	786
Agency funds	<u>980,309</u>
Total	<u>\$ 23,996,729</u>

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 5 - INTERFUND TRANSACTIONS

- A. Short-term loans to/from other funds at December 31, 2015, consist of the following interfund loan receivable/payable:

	Receivable Fund
<u>Payable fund</u>	<u>Water</u>
Storm water utility	<u>\$ 800,000</u>

The interfund loan is a City of Stow Storm Water Improvement Note, Series 2015, which represents an amount borrowed from another City fund. The note was issued on September 11, 2015 and matures September 9, 2016, at an interest rate of 0.25%. The note was issued in order to finance storm water system improvements. Interfund balances between business-type activities are eliminated on the government-wide financial statements.

- B. Interfund transfers for the year ended December 31, 2015, consisted of the following:

	Transfers From		
<u>Transfers To</u>	<u>General</u>	<u>Nonmajor Governmental</u>	<u>Total Transfers In</u>
General	\$ -	\$ 379,041	\$ 379,041
EMS/Fire tax levy	-	176,750	176,750
General capital improvements	-	306,862	306,862
Nonmajor governmental	834,439	-	834,439
Total Transfers Out	\$ 834,439	\$ 862,653	\$ 1,697,092

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

NOTE 6 - RECEIVABLES

Receivables at December 31, 2015, consisted primarily of taxes, accounts (billings for user charged services, rents and royalties), accrued interest, loans receivable and intergovernmental receivables arising from grants, entitlements and shared revenues. All receivables are deemed collectible in full. All receivables, other than loans, are expected to be collected within the subsequent year.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 7 - PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year proceeding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2015 public utility property taxes became a lien December 31, 2014, are levied after October 1, 2015, and are collected in 2016 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes described previously.

The Summit County Fiscal Officer collects property taxes on behalf of all taxing districts in the County, including the City of Stow. The Summit County Fiscal Officer periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property taxes, public utility taxes, tangible personal property taxes and outstanding delinquencies which are measurable as of December 31, 2015 and for which there is an enforceable legal claim. In the governmental funds, the current portion receivable has been offset by unearned revenue since the current taxes were not levied to finance 2015 operations and the collection of delinquent taxes has been offset by a deferred inflow of resources since the collection of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is reported as a deferred inflow of resources.

The full tax rate for all City operations for the year ended December 31, 2015 was \$9.50 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2015 property tax receipts were based are as follows:

Real Property

Residential/Agricultural	\$601,157,670
Commercial/Industrial/Mineral	175,171,880

Public Utility

Real	15,760
Personal	<u>10,313,600</u>

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 8 - INCOME TAX

The City levies and collects a municipal income tax of two percent on all income earned within the City as well as on income of residents earned outside of the City. In the latter case, the City allows a credit of 100 percent on the income earned outside of the City and paid to another municipality. Employers within the City are required to withhold income tax on employee earnings and remit the tax to the City at least quarterly. Corporations and other individual taxpayers are required to pay their estimated tax at least quarterly and file a final return annually.

Income tax revenues are distributed among the general fund (60 percent) and the general capital improvement fund and further distribution to other funds, including the street construction fund to be used for existing and future capital projects and/or expansion or for debt service for existing and future capital improvements (40 percent). In accordance with the City's codified ordinances, all income tax revenues are first recorded in the general fund. Subsequently, 40 percent of those revenues, net of collection expenditures, are distributed to the capital improvement fund and other funds mentioned above, unless a lesser amount than 40 percent is approved by City Council. The Finance Director, in order to assure that the general fund operating deficit was minimized for 2015, and no greater than an amount to be determined by Council for future years, shall reduce the amount allocated to the general capital improvements fund from the general fund income tax receipts (40 percent) per City of Stow Section 195.02, allocation of funds by no more than \$1,500,000 in each calendar year.

THIS SPACE IS INTENTIONALLY LEFT BLANK

NOTE 10 - LEASES

A. Capital Leases - Lessee Disclosure

In prior years, the City entered into capital lease agreements for two road rescue/EMS vehicles, a vactor truck, dispatch consoles and cabinetry. Principal and interest payments for the road rescue/EMS vehicles, dispatch consoles and cabinetry will be paid from the governmental funds and the principal and interest payments for the vactor truck will be paid from the storm water utility enterprise fund.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 10 - LEASES - (Continued)

Capital lease payments in governmental funds have been reclassified and are reflected as debt service expenditures in the combined BFS and are reported as function expenditures on the budgetary statements. In the enterprise fund a liability has been recorded.

Capital assets have been capitalized on the statement of net position in the amount of \$907,731 in governmental activities. This amount represents the present value of the minimum lease payments at the time of acquisition. A liability of \$312,210 is reported on the statement of net position at year end, which represents the amount of principal payments the EMS/fire levy fund and the capital projects fund will be making. Principal and interest payments in 2015 totaled \$95,850 and \$17,019, respectively.

Capital assets have been capitalized in the storm water utility enterprise fund in the amount of \$291,483. The amount of \$100,254 represents the present value of the future minimum lease payments and has been recorded as a liability in the storm water utility fund. Principal and interest payments in 2015 totaled \$30,778 and \$5,465, respectively.

The assets acquired through capital leases are as follows:

	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Assets:		
Equipment	\$ 666,960	\$ -
Vehicles	<u>240,771</u>	<u>291,483</u>
Less: accumulated depreciation	<u>(453,866)</u>	<u>(137,644)</u>
Total	<u>\$ 453,865</u>	<u>\$ 153,839</u>

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of December 31, 2015.

<u>Year Ending December 31,</u>	<u>Governmental Activities</u>	<u>Business-type Activities</u>
2016	\$ 112,870	\$ 36,244
2017	112,869	36,243
2018	<u>112,870</u>	<u>36,244</u>
Total	338,609	108,731
Less: amount representing interest	<u>(26,399)</u>	<u>(8,477)</u>
Present value of net minimum lease payments	<u>\$ 312,210</u>	<u>\$ 100,254</u>

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 10 - LEASES - (Continued)

B. Operating Leases - Lessee Disclosure

In February 2006, the City acquired a golf course and the City assumed an existing operating lease agreement with George and Patricia Hanson to use their premises to operate a driving range. The City renewed the operating lease for a period commencing April 1, 2012 through April 1, 2015 and is renewable for two consecutive three year periods. Monthly lease payments have been established at \$2,000 per month for thirty-six consecutive months under both lease renewals.

The amount of the future lease payments required under the operating lease at December 31, 2015 is:

<u>Year Ending December 31,</u>	<u>Amount</u>
2016	\$ 24,000
2017	24,000
2018	<u>6,000</u>
Total	<u>\$ 54,000</u>

The City entered into an operating lease agreement on December 6, 2013, with South East Golf Car Company to lease sixty-two golf cars for use on the Fox Den golf course. The lease is for a period of seven years, commencing on or about March 1, 2014, and ending on March 1, 2021. The lease payments are \$840 per car per year, or \$52,080 per year with payments due in five equal monthly installments of \$10,416 due on the tenth day of the months of May through September for each year of the agreement.

The amount of the future lease payments required under the operating lease at December 31, 2015 is:

<u>Year Ending December 31,</u>	<u>Amount</u>
2016	\$ 52,080
2017	52,080
2018	52,080
2019	52,080
2020	<u>52,080</u>
Total	<u>\$ 260,400</u>

C. Operating Leases - Lessor Disclosure

The City entered into a lease agreement on January 2, 2013, with Enviroscience, Inc. ("lessee"), to lease its Parks and Urban Forestry facility. The lessee shall pay the City \$54,000 annually from the effective date through December 31, 2017, and \$68,000 annually from January 1, 2018, through December 31, 2020. The lease includes a purchase option at the expiration of the lease term that may be exercised with written notice to the City no earlier than January 1, 2020, and not later than June 30, 2020.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 10 - LEASES - (Continued)

The amount of the future lease payments required under the operating lease at December 31, 2015 is:

<u>Year Ending December 31,</u>	<u>Amount</u>
2016	\$ 54,000
2017	54,000
2018	68,000
2019	68,000
2020	<u>68,000</u>
Total	<u>\$ 312,000</u>

NOTE 11 - SHORT-TERM NOTES PAYABLE

Changes in the City's short-term note activity for the year ended December 31, 2015, was as follows:

	<u>Balance 12/31/2014</u>	<u>Issued</u>	<u>Retired</u>	<u>Balance 12/31/2015</u>
<u>Governmental fund notes</u>				
Fire rescue vehicles - 1.00%	\$ 175,000	\$ -	\$ (175,000)	\$ -
Municipal courthouse construction - 1.00%	400,000	400,000	(400,000)	400,000
Hudson Drive - 1.00%	<u>250,000</u>	<u>-</u>	<u>(250,000)</u>	<u>-</u>
Total governmental fund notes	<u>\$ 825,000</u>	<u>\$ 400,000</u>	<u>\$ (825,000)</u>	<u>\$ 400,000</u>

The short-term notes outstanding at December 31, 2015 were issued on May 2, 2015 and represent the portion of the 2015 note issues that will be retired when the notes are refinanced on May 1, 2016 (see Note 23 for detail). All short-term notes were backed by the full faith and credit of the City and mature within one year. The short-term note liability is reflected in the fund which received the proceeds. The short-term notes were issued in anticipation of long-term bond financing and will be refinanced until such funds are issued.

CITY OF STOW, OHIO

General Obligation Bonds

The government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for governmental activities. During 2004, general obligation bonds totaling \$6,440,000 were issued to refund general obligation bonds of \$5,820,000. During 2007, the City issued \$4,200,000 in general obligation bonds to finance the construction of the Municipal Courthouse and \$5,500,000 in general obligation bonds to finance the purchase of the golf course.

During 2008, the City issued \$6,470,000 and \$2,150,000 in general obligation bonds to retire notes issued to finance the construction of the service and parks maintenance center building and the fire station, respectively. Approximately 8.44 percent of the service and parks maintenance center construction bond is being used to finance the water department maintenance and operational areas of the new service building. Therefore, \$546,068 (approximately 8.44 percent) of the above mentioned \$6,470,000 bond was allocated to the water fund.

On June 26, 2014, the City issued general obligation refunding bonds in the amount of \$3,790,000 and \$4,785,000 to advance refund the outstanding municipal courthouse general obligation bonds (\$3,610,000) and golf course general obligation bonds (\$4,555,000) that were issued in 2007. The reacquisition price exceeded the net carrying amount of the old municipal courthouse and golf course debt by \$99,067 and \$116,732, respectively. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense through maturity on December 1, 2035 for the municipal courthouse and golf course refunding bonds using the straight-line method. The refunding had a net present value benefit of \$388,625.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 12 - LONG-TERM OBLIGATIONS - (Continued)

On July 16, 2015, the City issued general obligation refunding bonds in the amount of \$9,115,000 to advance refund the outstanding safety center construction general obligation bonds, series 2004 (\$2,035,000), the service center general obligation bonds, series 2008 (\$4,614,624 for the governmental activities portion; \$425,376 for the 8.44 percent water portion) and the fire station general obligation bonds, series 2008 (\$1,675,000). The reacquisition price exceeded the net carrying amount of the governmental activities and water debt by \$371,861 and \$15,791, respectively. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense through maturity on December 1, 2018 for the safety center refunding bonds and December 31, 2033 for all other refunding bonds using the straight-line method. The refunding had a net present value benefit of \$382,665.

General obligation bonds are direct obligations and pledge the full faith and credit of the government. The general obligation bonds and refunding bonds will be repaid from income tax monies allocated into the debt service fund from the capital projects funds. The golf course general obligation refunding bonds will be paid from income tax monies allocated to the golf course fund and the water department portion of the service center general obligation bonds and refunding bonds will be paid with revenues from the water fund.

OPWC Loans Payable

During 2015 the City was approved for an Ohio Public Works Commission (OPWC) loan. The Adaline Water Trunk Line Replacement loan agreement is for the amount of \$1,357,087. At December 31, 2015, the City has received \$1,092,885 in loan proceeds. A debt service schedule will be available once the loan is fully disbursed. The OPWC loan will be repaid with operating revenue from the water fund.

Long-Term Notes Payable

The City retired long-term notes in the amount of \$3,300,000 for municipal courthouse construction that were payable on May 1, 2015. The notes bore an interest rate of 1.00% and matured on May 1, 2015. The City reissued \$2,900,000 in municipal courthouse construction notes during 2015. The notes mature on May 1, 2016.

Notes that were refinanced prior to the issuance of the financial statements and have a new maturity beyond the end of the year in which the report is issued have been reported in the government-wide statements as a long-term liability. The portion of the 2015 note issue that was retired on May 1, 2015 (see Note 23 for detail) have been reported as short-term notes payable in Note 11. The notes are backed by the full faith and credit of the City.

Capital Lease Obligations

See Note 10 for detail on the City's capital lease obligations.

Net Pension Liability:

See Note 14 for details on the net pension liability.

Compensated Absences

Compensated absences will be paid from the funds from which the employees' salaries are paid. For the City, compensated absences will be paid from the general, EMS/fire tax levy, water, and storm water utility funds.

Legal Debt Margin

As of December 31, 2015, the City's overall legal debt margin (the ability to issue additional amounts of general obligation debt) was \$66,882,917 and the unvoted legal debt margin was \$27,441,240.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 12 - LONG-TERM OBLIGATIONS - (Continued)

The annual requirements to amortize all long-term debt outstanding as of December 31, 2015 are as follows:

Year Ended	Governmental Activities			Business-Type Activities		
	General Obligation		Bonds Payable	General Obligation		Bonds Payable
	Principal	Interest	Total	Principal	Interest	Total
2016	\$ 955,081	\$ 360,159	\$ 1,315,240	\$ 249,919	\$ 152,235	\$ 402,154
2017	974,744	325,309	1,300,053	250,256	130,891	381,147
2018	993,900	298,317	1,292,217	256,100	126,833	382,933
2019	473,478	270,750	744,228	256,522	122,675	379,197
2020	482,634	258,870	741,504	262,366	118,505	380,871
2021 - 2025	2,642,620	1,097,930	3,740,550	1,407,380	502,396	1,909,776
2026 - 2030	3,043,630	737,099	3,780,729	1,611,370	297,825	1,909,195
2031 - 2035	2,495,050	230,684	2,725,734	714,950	42,629	757,579
Total	<u>\$ 12,061,137</u>	<u>\$ 3,579,118</u>	<u>\$ 15,640,255</u>	<u>\$ 5,008,863</u>	<u>\$ 1,493,989</u>	<u>\$ 6,502,852</u>

NOTE 13 - RISK MANAGEMENT

A. Liability Insurance

The City is exposed to various risks of loss related to torts, theft, damage to or destruction of assets, errors and omissions, employee injuries, and natural disasters. The City has a comprehensive property and casualty policy with a deductible of \$1,000 per incident. The City's vehicle liability insurance policy limit is \$1,000,000 with a \$1,000 collision deductible; vehicles with a cost of over \$100,000 have a \$1,000 deductible. All Council members, administrators and employees are covered under a City professional liability policy. The limits of this coverage are \$1,000,000 per occurrence and \$1,000,000 in aggregate. The general liability aggregate is \$2,000,000. The City also carries a \$10,000,000 umbrella liability extending coverage of the general, automobile and employers/public official's liability. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a reduction of coverage from the prior year.

B. Fidelity Bond

The Finance Director, Assistant Finance Director/Director of Budget and Management and Tax Administrator each have a \$100,000 position bond. All City employees are covered by a \$1,000,000 public employee crime coverage policy, which includes employee dishonesty and faithful performance of duty coverage.

C. Workers' Compensation

The City pays the State Workers' Compensation System, an insurance purchasing pool, a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs. The City participates in a group rating plan to help control workers' compensation premium costs.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 13 - RISK MANAGEMENT - (Continued)

D. Employee Health Insurance

The City has elected to provide employee medical, prescription and dental benefits through a self-insurance program. The City maintains a self-insurance internal service fund to account for and finance its uninsured risk of loss in this program. This 2015-2016 plan provides a medical plan with an \$800.00 family and \$400.00 single deductible and a dental plan with a \$150.00 family and \$50.00 single deductible. A third party administrator, a subsidiary of Medical Mutual of Ohio (MMO), reviews all medical and dental claims which are then paid by the City. The City has purchased stop-loss coverage of \$150,000 per employee and for claims in excess of \$3,049,315 in the aggregate from Medical Mutual of Ohio. The City pays into the self-insurance internal service fund \$1,076.96 per month for each employee with family medical coverage and \$344.88 per month for each employee with individual medical coverage. Premiums for dental coverage are \$119.66 monthly for each employee with family coverage and \$38.32 monthly for each employee with individual coverage. All premiums are paid by the fund that pays the salary for the employee.

The claims liability of \$484,362 reported in the self-insurance internal service fund at December 31, 2015 is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Services", which requires that a liability for unpaid claim costs, including estimates of costs relating to incurred but not reported claims, be reported. The claims liability is based on an estimate supplied by the City's third party administrator. The claims liability is expected to be paid within one year.

A summary of the fund's claims liability during the past two years is as follows:

	Balance at Beginning of Year	Current Claims	Claims Payment	Balance at End of Year
2015	\$ 447,945	\$ 2,689,466	\$ (2,653,049)	\$ 484,362
2014	450,252	2,497,227	(2,499,534)	447,945

NOTE 14 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability/Asset

The net pension liability/asset reported on the statement of net position represents a liability or asset to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability/asset represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

The Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes any net pension liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits or overfunded benefits is presented as a long-term *net pension liability* or *net pension asset*, respectively, on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the Member-Directed Plan and the Combined Plan, substantially all employee members are in OPERS' Traditional Pension Plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the Traditional Pension Plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the Traditional Pension Plan as per the reduced benefits adopted by SB 343 (see OPERS Comprehensive Annual Financial Report (CAFR) referenced above for additional information):

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for State and Local members in transition Groups A and B applies a factor of 1.0% to the member's FAS for the first 30 years of service. A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the member's FAS and the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions plus or minus any investment gains or losses on those contributions. Members retiring under the Combined Plan receive a 3% COLA adjustment on the defined benefit portion of their benefit.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Defined contribution plan benefits are established in the plan documents, which may be amended by the OPERS’s Board of Trustees. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member’s contributions plus or minus the investment gains or losses resulting from the member’s investment selections. The amount available for defined contribution benefits in the Member-Directed Plan consists of the members’ contributions, vested employer contributions and investment gains or losses resulting from the members’ investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. For additional information, see the Plan Statement in the OPERS CAFR.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local
2015 Statutory Maximum Contribution Rates	
Employer	14.0 %
Employee	10.0 %
 2015 Actual Contribution Rates	
Employer:	
Pension	12.0 %
Post-employment Health Care Benefits	2.0 %
Total Employer	14.0 %
 Employee	 10.0 %

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City’s contractually required contribution for both the Traditional Pension Plan and the Combined Plan was \$1,094,334 for 2015. Of this amount, \$147,267 is reported as intergovernmental payable.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OPF website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>Police</u>	<u>Firefighters</u>
2015 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee:		
January 1, 2015 through July 1, 2015	11.50 %	11.50 %
July 2, 2015 through December 31, 2015	12.25 %	12.25 %
2015 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50 %	0.50 %
Total Employer	19.50 %	24.00 %
Employee:		
January 1, 2015 through July 1, 2015	11.50 %	11.50 %
July 2, 2015 through December 31, 2015	12.25 %	12.25 %

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$1,633,413 for 2015. Of this amount \$186,400 is reported as intergovernmental payable.

Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability and net pension asset for the OPERS Traditional Pension Plan and Combined Plan, respectively, were measured as of December 31, 2014, and the total pension liability or asset used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2014, and was determined by rolling forward the total pension liability as of January 1, 2014, to December 31, 2014. The City's proportion of the net pension liability or asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	OPERS	OP&F	Total
Proportionate share of the net pension liability	\$ 8,617,065	\$ 19,769,710	\$ 28,386,775
Proportionate share of the net pension asset	29,527	-	29,527
Proportion of the net pension liability	0.07144500%	0.38162390%	
Proportion of the net pension asset	0.07668900%		
Pension expense	\$ 956,918	\$ 1,915,938	\$ 2,872,856

At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS	OP&F	Total
Deferred outflows of resources			
Net difference between projected and actual earnings on pension plan investments	\$ 461,583	\$ 852,056	\$ 1,313,639
Difference between employer contributions and proportionate share of contributions	545	-	545
City contributions subsequent to the measurement date	1,094,334	1,633,413	2,727,747
Total deferred outflows of resources	\$ 1,556,462	\$ 2,485,469	\$ 4,041,931
Deferred inflows of resources			
Differences between expected and actual experience	160,395	-	160,395
Difference between employer contributions and proportionate share of contributions	-	50,024	50,024
Total deferred inflows of resources	\$ 160,395	\$ 50,024	\$ 210,419

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

\$2,727,746 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability/asset in the year ending December 31, 2016.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending December 31:	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
2016	\$ 44,726	\$ 200,508	\$ 245,234
2017	44,726	200,508	245,234
2018	102,681	200,508	303,189
2019	114,322	200,508	314,830
2020	(1,072)	-	(1,072)
Thereafter	(3,651)	-	(3,651)
Total	<u>\$ 301,732</u>	<u>\$ 802,032</u>	<u>\$ 1,103,764</u>

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability/asset in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage inflation	3.75 percent
Future salary increases, including inflation	4.25 to 10.05 percent including wage inflation
COLA or ad hoc COLA	3 percent, simple
Investment rate of return	8 percent
Actuarial cost method	Individual entry age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 6.95 percent for 2014.

The allocation of investment assets with the Defined Benefit portfolio is approved by the OPERS Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u>
Fixed income	23.00 %	2.31 %
Domestic equities	19.90	5.84
Real estate	10.00	4.25
Private equity	10.00	9.25
International equities	19.10	7.40
Other investments	18.00	4.59
Total	<u>100.00 %</u>	<u>5.28 %</u>

Discount Rate - The discount rate used to measure the total pension liability/asset was 8 percent for both the Traditional Pension Plan and the Combined Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the City’s proportionate share of the net pension liability/asset calculated using the current period discount rate assumption of 8 percent, as well as what the City’s proportionate share of the net pension liability/asset would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

Combined Plan	\$ 3,834	\$ (29,527)	\$ (55,983)

Actuarial Assumptions – OP&F

OP&F's total pension liability as of December 31, 2014 is based on the results of an actuarial valuation date of January 1, 2014, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2014, are presented below:

Valuation date	January 1, 2014
Actuarial cost method	Entry age normal
Investment rate of return	8.25 percent
Projected salary increases	4.25 percent to 11 percent
Payroll increases	3.75 percent
Inflation assumptions	3.25 percent
Cost of living adjustments	2.60 percent and 3.00 percent

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2014 are summarized below:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return</u>
Cash and Cash Equivalents	- %	(0.25) %
Domestic Equity	16.00	4.47
Non-US Equity	16.00	4.47
Core Fixed Income *	20.00	1.62
Global Inflation Protected *	20.00	1.33
High Yield	15.00	3.39
Real Estate	12.00	3.93
Private Markets	8.00	6.98
Timber	5.00	4.92
Master Limited Partnerships	8.00	7.03
Total	<u>120.00 %</u>	

* levered 2x

OP&F's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate - The total pension liability was calculated using the discount rate of 8.25 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25 percent), or one percentage point higher (9.25 percent) than the current rate.

	1% Decrease (7.25%)	Current Discount Rate (8.25%)	1% Increase (9.25%)
City's proportionate share of the net pension liability	\$ 27,344,499	\$ 19,769,710	\$ 13,356,166

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 15 - POSTRETIREMENT BENEFIT PLANS

A. Ohio Public Employees Retirement System

Plan Description - OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension Plan and the Combined Plan. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

To qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have ten years or more of qualifying Ohio service credit. The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

Disclosures for the healthcare plan are presented separately in the OPERS financial report which may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642 or by calling (800) 222-7377.

Funding Policy - The post-employment healthcare plan was established under, and is administered in accordance with, Internal Revenue Code Section 401(h). State statute requires that public employers fund post-employment healthcare through contributions to OPERS. A portion of each employer's contribution to the Traditional or Combined Plans is set aside for the funding of post-employment health care.

Employer contribution rates are expressed as a percentage of the covered payroll of active employees. In 2015, local government employers contributed 14.00% of covered payroll. Each year the OPERS' Retirement Board determines the portion of the employer contribution rate that will be set aside for the funding of the postemployment health care benefits. The portion of employer contributions allocated to fund post-employment healthcare for members in the Traditional Plan and Combined Plan for 2015 was 2.00%.

The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. Active members do not make contributions to the post-employment healthcare plan.

The City's contributions allocated to fund post-employment health care benefits for the years ended December 31, 2015, 2014, and 2013 were \$182,389, \$180,507, and \$87,730, respectively; 88.47% has been contributed for 2015 and 100% has been contributed for 2014 and 2013. The remaining 2015 post-employment health care benefits liability has been reported as pension and postemployment benefits payable on the basic financial statements.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under State Bill 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4.00% of the employer contributions toward the health care fund after the end of the transition period.

CITY OF STOW, OHIO

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2015

NOTE 15 - POSTRETIREMENT BENEFIT PLANS - (Continued)

B. Ohio Police and Fire Pension Fund

Plan Description - The City contributes to the OP&F Pension Fund sponsored health care program, a cost-sharing multiple-employer defined postemployment health care plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-employment health care coverage to any person who receives or is eligible to receive a monthly service, disability or survivor benefit check or is a spouse or eligible dependent child of such person.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to the OP&F, 140 East Town Street, Columbus, Ohio 43215-5164 or by visiting the website at www.op-f.org.

Funding Policy - The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.50% and 24.00% of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units and 24.00% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts, one account is for health care benefits under an Internal Revenue Code Section 115 trust and the other account is for Medicare Part B reimbursements administered as an Internal Revenue Code Section 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan into the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For 2015, the portion of employer contributions allocated to health care was 0.50% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that the pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 15 - POSTRETIREMENT BENEFIT PLANS - (Continued)

The City's contributions to OP&F which were allocated to fund post-employment healthcare benefits for police officers and firefighters were \$16,960 and \$21,402 for the year ended December 31, 2015, \$14,570 and \$18,115 for the year ended December 31, 2014, and \$105,132 and \$136,413, for the year ended December 31, 2013. 100% has been contributed for 2014 and 2013. 88.63% has been contributed for police and 88.99% has been contributed for firefighters for 2015. The remaining 2015 post-employment health care benefits liability has been reported as intergovernmental payable on the basic financial statements.

NOTE 16 - COMPENSATED ABSENCES

Full-time City employees earn and accumulate paid vacation leave for each work hour or paid service hour completed for the City. The maximum base used for accumulation of vacation pay is eighty hours per pay period. Based upon length of service, employees can earn vacation at rates varying from two weeks to six weeks per year. Part-time employees may earn partial vacation credits while seasonal employees are ineligible for vacation benefits. Upon termination from the City, an employee is entitled to compensation at his or her current base rate of pay for all earned, but unused vacation leave to his or her credit at the time of termination, subject to the maximum amount which can be accumulated at any time, provided the 50th week of employment had been reached. In the case of death, unused vacation leave is paid in the name of the employee to his or her spouse.

Full-time City employees and certain part-time employees earn sick leave at the rate of .05769 hours for every paid service hour completed for the City. The maximum base used for accumulation of sick pay is 80 hours per pay period. Sick leave to be paid for time away from work due to illness may be accumulated without limit. For employees hired prior to July 1, 1996, an employee or his/her estate is paid upon retirement or death 100 percent of the unused amount accumulated equivalent up to 1,000 hours and 50 percent of unused sick leave up to a maximum hours of an additional 1,000 hours at the current base rate, but only to the extent such benefits have been earned as employees of the City. In the case of retirement or death of an employee hired on or after July 1, 1996, the employee or his/her estate is paid 100 percent of the unused amount accumulated to a maximum of 1,000 hours and is not eligible to receive cash payment of 50 percent of unused sick leave up to a maximum of an additional 1,000 hours. The entitlement award for firefighters is prorated according to their respective work year.

Full-time police officers, communication specialists and firefighters are permitted to accumulate holiday time. Police department employees must use their accumulated holiday time prior to April 1 of the following year and the employees of the fire department by July 1 of the following year.

As of December 31, 2015, the liability for compensated absences was \$5,013,272 for the entire City.

NOTE 17 - JOINT ECONOMIC DEVELOPMENT ZONE AGREEMENT

The City of Stow and the City of Akron entered into a Joint Economic Development Zone Agreement (JEDZ Agreement). The revenue sharing agreement was established to facilitate economic development, to create or preserve jobs and employment opportunities, and to improve the economic welfare in the region. The agreement became effective November 6, 2001 and will continue for a period of ninety-nine years, unless modified, supplemented, rescinded, or canceled by mutual agreement.

The JEDZ Agreement establishes three joint economic development zones and details how income tax revenues will be collected and shared within each zone between the City of Stow and the City of Akron. The City made payments of \$270,090, which includes \$59,938 in accounts payable, during 2015 to the City of Akron as a result of this agreement.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 18 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund and the EMS/fire tax levy fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned, committed, or restricted fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis);
- (e) Investments are reported at fair value (GAAP basis) rather than cost (budget basis); and,
- (f) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements (as reported in the fund financial statements) to the budgetary basis statements for all governmental funds for which a budgetary basis statement is presented:

	Net Change in Fund Balance	
	<u>General</u>	<u>EMS/Fire Tax Levy</u>
Budget basis	\$ (526,346)	\$ 28,043
Net adjustment for revenue accruals	75,931	-
Net adjustment for expenditure accruals	86,880	50,336
Net adjustment for other sources (uses)	(137,500)	176,750
Funds budgeted elsewhere	935	-
Adjustment for encumbrances	<u>570,828</u>	<u>4,571</u>
GAAP basis	<u>\$ 70,728</u>	<u>\$ 259,700</u>

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 19 - FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund balance	General	Fire/EMS Tax Levy	General Capital Improvements	Nonmajor Governmental Funds	Total Governmental Funds
Nonspendable:					
Materials and supplies inventory	\$ 108,652	\$ 6,417	\$ -	\$ 573,090	\$ 688,159
Total nonspendable	<u>108,652</u>	<u>6,417</u>	<u>-</u>	<u>573,090</u>	<u>688,159</u>
Restricted:

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 20 - CONTINGENCIES

A. Grants

The City receives significant financial assistance from numerous federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the reporting units included herein or on the overall financial position of the City at December 31, 2015.

B. Litigation

The City is a party to legal proceedings. The City management is of the opinion that ultimate disposition of these claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

NOTE 21 - OTHER COMMITMENTS

The City utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the City's commitments for encumbrances in the governmental funds were as follows:

<u>Fund</u>	<u>Year-End Encumbrances</u>
General fund	\$ 503,818
Fire/EMS levy fund	4,178
General capital improvements fund	231,982
Other governmental	<u>450,248</u>
Total	<u>\$ 1,190,226</u>

NOTE 22 - STOW COMMUNITY IMPROVEMENT CORPORATION

The Stow Community Improvement Corporation ("CIC") was formed pursuant to Ohio Revised Code Section 1724. The Articles of Incorporation were approved on November 8, 1985. The CIC was designated as a not-for-profit agency of the City for advancing, encouraging and promoting the industrial, economic, commercial, and civic development of Stow and the territory surrounding Stow.

The CIC operates independently, but with oversight by the City, which includes City Council approval of the CIC's annual budget. The CIC has the authority to expend its funds as it determines within the approved budget. The City is the primary source of funding for the CIC (in most years, the City provides the CIC's entire funding allocation). If the CIC developed its own funding sources, its independence would increase. No debt would be issued by the CIC without the concurrence of the City. The CIC has no taxing authority. The City does not appoint a majority of the Board of Trustees and the CIC does not provide services entirely or almost entirely to the City. The CIC is presented as a discrete component unit of the City. The CIC does not include any other units in its presentation.

CITY OF STOW, OHIO

*NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015*

NOTE 22 - STOW COMMUNITY IMPROVEMENT CORPORATION - (Continued)

Summary of Significant Accounting Policies

The basic financial statements (BFS) of the CIC have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The CIC's significant accounting policies are described below.

A. Basis of Accounting

The financial statements of the CIC are prepared using the accrual basis of accounting.

B. Federal Income Tax

The Stow Community Improvement Corporation is exempt from federal income tax under Section 501 (c) (3) of the Internal Revenue Code.

C. Cash

All monies received by the CIC are deposited in a demand deposit account and covered by FDIC.

D. Net position

Net position represents the difference between assets and liabilities.

E. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Related Party Transactions and Economic Dependence

The CIC received contributions from the City of Stow in the amount of \$25,000 to support operations of the CIC for fiscal year 2015.

Ohio Department of Development Loan

On July 12, 2011, the CIC, acting as a pass-through entity, received a \$1,250,000 loan from the Ohio Department of Development (ODOD) to be used for the purchase and subsequent leaseback of certain machinery and equipment owned by Wrayco LLC. The CIC then entered into an agreement to assign the lease payments from Wrayco LLC to the ODOD for payment of the loan. The principal and interest payments on the loan will be made directly from Wrayco LLC to the ODOD. The loan is scheduled to mature on August 1, 2018 and bears an interest rate of 1% in the first year and an interest rate of 3% for the remaining years. The CIC has no responsibility for the payment of the debt issued as the repayment is supported solely by pledged receipts of Wrayco LLC. The CIC has no obligation to the ODOD in the event of Wrayco LLC's default.

CITY OF STOW, OHIO

Changes in assumptions : There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014 and 2015. See the notes to the basic financial statements for the methods and assumptions in this calculation.

**COMBINING STATEMENTS
AND INDIVIDUAL FUND SCHEDULES**

THIS PAGE IS INTENTIONALLY LEFT BLANK

CITY OF STOW, OHIO

INDIVIDUAL FUND SCHEDULES FUND DESCRIPTIONS - GOVERNMENTAL FUNDS

GENERAL FUND

The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the City for any purpose provided it is expended or transferred according to the charter of the City and/or the general laws of Ohio.

SPECIAL REVENUE FUNDS

The special revenue funds are used to account for all specific financial resources (other than major capital projects) that are legally restricted or committed for specified expenditure purposes. The following are the special revenue funds which the City operates:

Major Special Revenue Fund

EMS/Fire Tax Levy Fund

This fund accounts for proceeds of levy money that is legally restricted to expenditures to provide EMS and fire protection services.

Nonmajor Special Revenue Funds

Street Construction Fund

This fund accounts for the portion of state gasoline tax and motor vehicle registration fees designated for the maintenance of the streets within the City.

State Highway Improvement Fund

This fund accounts for the portion of the state gasoline tax and motor vehicle registration fees designated for maintenance of state highways within the City.

Police Pension and Disability Fund

This fund accounts for property taxes levied and other monies for the payment of the accrued liability for police disability and pension benefits.

Fire Pension and Disability Fund

This fund accounts for property taxes levied and other monies for the payment of the accrued liability for fire disability and pension benefits.

Motor Vehicle License Tax Fund

This fund accounts for the additional motor vehicle registration fees designated for maintenance and repair of streets within the City.

ODNR Litter Prevention Grant Fund

This fund accounts for grants received from the Ohio Department of Natural Resources and Summit County for the City's litter prevention program.

EMS Transport Fees Fund

This fund accounts for EMS transport fees collected and to disburse collections in accordance with City policy.

Police Enforcement and Education Fund

This fund accounts for proceeds of fines imposed by the Municipal Court for alcohol related offenses involving the operation of a motor vehicle. Fines collected are used for law enforcement and educating the public of the dangers of operating a motor vehicle while under the influence of alcohol.

CITY OF STOW, OHIO

*INDIVIDUAL FUND SCHEDULES
FUND DESCRIPTIONS - GOVERNMENTAL FUNDS*

Nonmajor Special Revenue Funds (Continued)

Special Assessment Improvements Fund

This fund accounts for the collected taxes levied by special assessment where specified improvements were levied to specific taxpayers and expenditures to pay the related applicable debt payments and the costs associated with collection and payment.

Tree Trust Fund

This fund accounts for donations or restitutions for damages for planting and relocation of trees and other greenery within the City.

Communications Tower Fund

This fund accounts for monies received from carriers using the GTE MobilNet Communication Tower. Monies are used for park improvements.

Cemetery Trust Fund

This fund accounts for sale of graves, opening and closing of same, sale of monuments, tombs or vaults, burying ashes and disinterment.

Park Improvements Fund

This fund accounts for contributions from residents, civic groups, industries or other gratuitous donors for improvements of City parks.

Other Nonmajor Special Revenue Funds

Federal Law Enforcement Forfeited Fees	City Lodging Tax
Community Events	Enhanced 911 Wireless
Safety Town	Police Officer Training
D.A.R.E. Program	Court Special Projects
Fire Department Emergency Equipment	Probation
Police Department Emergency Equipment	Indigent Drivers
Youth Division Teen Center	Court Technology
Parks Lodge Improvement	Court Clerk Technology
Community Relations	IDIA Monitoring
SS Ballfield Complex	Safe Route to School
Community Development	9-11 Memorial
FEMA	SKIP Maintenance
Business Assistance	Lean Program

The following fund is included in the general fund (GAAP-basis), but has a separate legally adopted budget (budget basis). This fund is not included in the combining statements for the nonmajor special revenue funds since it is reported in the general fund (GAAP-basis); however, the budgetary schedule for this fund is presented in this section.

Residential Snow Removal Fund

This fund accounts for transfers from the general fund to provide for residential snow removal within the City.

NONMAJOR DEBT SERVICE FUND

General Obligation Bond Retirement Fund

This fund accounts for the resources that are used for the payment of principal, interest, and other fiscal charges on general obligation debt.

CITY OF STOW, OHIO

*INDIVIDUAL FUND SCHEDULES
FUND DESCRIPTIONS - GOVERNMENTAL FUNDS*

MAJOR CAPITAL PROJECTS FUND

The capital project funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary fund types. Following is a description of the City's capital projects fund:

General Capital Improvements Fund

This fund accounts for the portion of municipal income tax designated by Council for the purpose of improving, constructing, maintaining, and purchasing the capital items necessary to enhance the operation of the City.

CITY OF STOW, OHIO

*INDIVIDUAL FUND SCHEDULES
FUND DESCRIPTIONS - PROPRIETARY FUNDS*

ENTERPRISE FUNDS

To account for the financing of costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis that are financed or recovered primarily through user charges.

Major Enterprise Funds

Water Fund

This fund accounts for revenues generated from the charges for the treatment and provision of water to the residents and commercial users of the City.

Golf Fund

This fund accounts for revenues generated and expenses for the Fox Den Golf Course.

Storm Water Utility Fund

This fund accounts for the provision of storm drainage runoff service to the residents and commercial users located within the City.

INTERNAL SERVICE FUNDS

To account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis.

Administrative Insurance Fund

This fund accounts for the receipt and disbursement of funds to administrate the City's self-funded insurance plan for health, hospitalization and dental coverage and payment of premiums of life, accidental death and dismemberment insurance.

Self-Insurance Fund

This fund accounts for the operation of the City's self-insurance program for employee health benefits.

CITY OF STOW, OHIO

*INDIVIDUAL FUND SCHEDULES
FUND DESCRIPTIONS - FIDUCIARY FUNDS*

Fiduciary funds are used to account for assets held by the City in a trustee capacity, or as an agent for individuals, private organizations, other governments and/or funds. The following are the City's fiduciary fund types:

Private Purpose Trust Funds

Private purpose trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. The following are the City's Private Purpose Trust Funds.

Stutler Scholarship Fund

To account for donations in memory of Police Officer Stutler to provide scholarships.

Wells Perkins Cemetery Fund

To account for funds bequeathed to the City for the perpetual care of the urn on the Wells-Perkins cemetery plot.

Stow Seniors Commision Fund

To account for donations to the City for the Senior Center Commission.

Agency Funds

Agency funds maintain assets held by the City as an agent for individuals, private organizations, other governmental units and/or funds. These funds are purely custodial (assets equal liabilities) and therefore do not involve the measurement of results. The following are the City's agency funds.

Road Construction Bonds Fund

To account for deposits from contractors, held by the City to ensure compliance with the contract.

Allotment Deposits Fund

To account for deposits from subdivision developers for engineering oversight.

Miscellaneous Service Deposits Fund

To account for various service department non-recurring deposits.

Park and Recreation Deposits Fund

To account for the receipt and subsequent refund of Parks and Recreation deposit monies for rentals to cover extraordinary events or damages.

Municipal Court Fund

To account for fines and fees collected by the Stow Municipal Court, which are required to be disbursed to various parties.

Summit Metro Crash Response Team Fund

To account for donations and revenues from other governmental entities to be used for expenditures of the Summit Metro Crash Response Team.

Source: Summit County Fiscal Officer

- (1) Real property is assessed at 35% of actual value. Real property taxes collected in a calendar year are levied as of January 1 of that year based on assessed values as of January 1 of the preceding year.
- (2) Public utility is assessed at 25% of actual value. Public utility real and tangible property taxes collected in a calendar year are levied in the preceding calendar year based on assessed values determined as of December 31 of the second preceding year.
- (3) For 2006, tangible personal personal property tax is assessed at 18.75% of property value, including inventory.
 For 2007, tangible personal personal property tax is assessed at 12.50% of property value, including inventory.
 For 2008, tangible personal personal property tax is assessed at 6.25% of property value, including inventory.
 For 2009, tangible personal personal property tax is assessed at 0.00% of property value, including inventory, except for telephone tangible personal property which is assessed at 10% of property value, including inventory. In 2009 and 2010 telephone tangible is the only taxable tangible personal property.
 Tangible personal personal property tax was phased out in 2011.

Subtotal, overlapping debt			<u>5,505,074</u>
Total direct and overlapping debt			<u>\$ 21,087,330</u>

Source: Ohio Municipal Advisory Council

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Note: The percentage of debt outstanding applicable to the City was determined by dividing each jurisdiction's assessed valuation within the City by the jurisdiction's total assessed valuation.
