Dave Yost • Auditor of State

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Pike County Joint Vocational School District
Pike County
175 Beaver Creek Road
Piketon, Ohio 45661

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Pike County Joint Vocational School District, Pike County, (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 8, 2016.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

December 8, 2016

Board of Education Members
and Residents of the Pike County Joint Vocational School District:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Pike County Joint Vocational School District for the fiscal year ended June 30, 2016. This CAFR, which includes financial statements and other financial and statistical data, conforms to generally accepted accounting principles as applicable to governmental entities. The intent of this report is to provide the taxpayers of the Pike County Joint Vocational School District with comprehensive financial data in a format that enables them to gain a true understanding of the School District's financial affairs as well as provide management with better financial information for future decision making.

This report enables the School District to comply with Ohio Administrative Code Section 117-2-03(B), which requires reporting on a GAAP (Generally Accepted Accounting Principles) basis, and Ohio Revised Code Section 117.38, which requires that school districts reporting on a GAAP basis file an unaudited annual report with the Auditor of State within 150 days of fiscal year-end.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Ohio Auditor of State, has issued an unmodified ("clean") opinion on the Pike County Joint Vocational School District's financial statements for the fiscal year ended June 30, 2016. The independent auditor's report is located at the front of the Financial Section of this report.

Management's discussion and analysis immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. Management's discussion and analysis complements this letter of transmittal and should be read in conjunction with it.

FORMATION OF THE SCHOOL DISTRICT

The Pike County Joint Vocational School District offers students a variety of classes, including Innovative Medical Technician, Patient Care Technician, Building Maintenance, Basic Food Service, , Culinary, Hospitality and Facility Care, Business Management, Interactive Media, Automotive Technology, Carpentry, Electricity, Welding, Public Safety, Heating, Ventilation, Air Conditioning, Engineering Technology, and Agriculture and Environmental Systems.

The Pike County Joint Vocational School District was established in 1956. This marked the beginning of jointures for a single county vocational school district. We are very proud of the fact that the Pike County Joint Vocational School District was the first of its kind in the State of Ohio.

The original location of the school was 941 Market Street, Piketon, Ohio, but this location no longer fit the needs of the vocational students of the County. In 1982, the Pike County Joint Vocational School District moved to its current site at 175 Beaver Creek Road, Piketon, Ohio. This move did not come about without a struggle. In 1972, the Division of Vocational Education of the State Department of Education attempted to cease the existence of the School District. The students of Pike County who wished to choose a vocational education would be sent either to the Pickaway-Ross Jointure or the Scioto County Jointure, two neighboring districts. Through the leadership of Ohio House of Representative's Speaker Vernal G. Riffe, Jr., this action was nullified. This was done by granting an exemption to the Pike County Joint Vocational School District exclusively. Speaker Riffe also led the effort to receive funding necessary to erect the existing building. The citizens of Pike County passed a bond levy issue, but more financial resources were needed. The additional monies were received through the tireless efforts led by Speaker Riffe, former Superintendent Kenneth Thompson and former Vocational Director Lindsay Ratliff. The School District exists today because our State Representative truly represented our county, its people and, most importantly, the future of our students. The School District's building was built in 1980 with a major addition and renovation project being completed in fiscal year 2009.

Because of Vernal G. Riffe, Jr.'s immense support and effort on behalf of the youth of Pike County toward affording them the opportunity of obtaining a vocational education, the new structure was named the Vernal G. Riffe, Jr. Joint Vocational School of Pike County by Board Resolution.

FORM OF GOVERNMENT AND REPORTING ENTITY

The Pike County Joint Vocational School is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

House Bill 59, which was passed in 2013, changed the composition of the Pike County Joint Vocational School District Board of Education. The five-member Pike County Joint Vocational School District Board of Education is comprised of one representative appointed by the one city school district in the County and four are appointed from the Ross-Pike County Educational Service Center. New members serve a maximum of two 3-year terms. The appointing board shall appoint individuals who represent employers in the region who are qualified to consider the state's workforce opportunities. The Board of Education serves as the taxing authority, contracting body and policy maker for the School District. The Board adopts the annual operating budget and approves all expenditures of School District monies. The appointing board of education cannot directly impose its will on the School District.

The Superintendent is the chief administrative officer of the School District and is responsible for the development, supervision, and operation of the school programs and facilities.

The Treasurer is the chief financial officer of the School District, and is responsible for maintaining financial records, issuing warrants, acting as the custodian of all School District funds and investing idle funds as specified by Ohio law.

Other administrators include a Vocational Director, a Director of Adult and Continuing Education, and supervisors of various educational and support services.

The School District employs 57 full-time employees. These employees include certified, non-certified and administrative personnel providing services to 388 students. Due to the student enrollment of the local school districts and its current enrollment, the Pike County Joint Vocational School District anticipates its student enrollment to remain consistent from school year to school year.

The reporting entity consists of all funds, departments, boards and agencies that are not legally separate from the School District. This includes general operations, food service and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the organization's budget, the issuance of its debt or the levying of its taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the School District. The School District has no component units.

The Village of Piketon and the member school districts have not been included in the accompanying financial statements. The boards are not appointed by the School District, nor are they fiscally dependent on the School District. The South Central Ohio Computer Association Regional Council of Governments and the Coalition of Rural and Appalachian Schools are reported as jointly governed organizations in Note 18. The Ohio SchoolComp Group Retrospective Rating Program and the Ohio School Plan are reported as insurance purchasing pools in Note 18.

The School Board adopts an annual budget, for all funds except agency funds, by July 1 which may be amended any time during the fiscal year as new information becomes available. This annual budget serves as the foundation of the Pike County Joint Vocational School District's financial planning and control. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation resolution. The legal level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level. The Treasurer has been authorized to allocate Board appropriations to the function and object level within each fund.

ECONOMIC CONDITION AND OUTLOOK

Major industries located within the School District's boundaries include paper, automotive components, and fuel enrichment industries.

Pike County is a rural community in Southern Ohio with relatively high unemployment rates. According to the Ohio Department of Job and Family Services, the unemployment rate declined from 10 percent in 2007 to 4.7 in 2016. The population of Pike County in the 2010 census was 28,709. The economic growth in Pike County is uncertain at the present time. This is due to the closing of MASCO Retail Cabinet Group (formerly Mill's Pride) in 2011 and the closing of other local establishments throughout the year. The County hopes the addition of the United States Enrichment Corporation's American Centrifuge Demonstration Facility will help keep some stability in the area. The addition of Fluor-B&W at the U.S. Department of Energy's Gaseous Diffusion Plant in Piketon is another hope for the County for the addition of jobs to the area.

The Pike County Joint Vocational School District is located in the center of the four member school districts it serves. The School District encompasses approximately 444 square miles which includes one city, two villages and many townships. The County itself is located approximately 60 miles south of Columbus on U.S. Route 23, 75 miles east of Cincinnati on U.S. Route 32, and 50 miles north of Ashland, Kentucky. This central position provides a strategic location for the future development of business and industry.

Agriculture contributes over \$14 million of agricultural output annually to the County's economy. There were approximately 540 farms located over 79,000 acres in Pike County in 2009. Farming in Pike County continues to develop and become more commercial. In fact, the average size of a farm in 2009 was 146 acres with average receipts per farm of \$27,736 (Pike County Auditor). Pike County has approximately 23 sawmills which produce over 30 million board feet of lumber annually.

Tourism has improved and grown in Pike County. The summer parks and resorts in the County (Pike Lake State Park and Long's Retreat) will help to improve the tourism sector of the County's economy. Pike County also has a PGA rated golf course, Big Beaver Creek Golf Club. The course helps to bring visitors to the County.

Graduates of the Pike County Joint Vocational School District may seek local employment with major industrial employers like Van-Rob formerly Brown Corporation, the Gas Centrifuge Enrichment Plant, and Fluor-B&W.

FINANCIAL TRENDS

During fiscal year 2016, the School District was on the guarantee with State foundation revenue (cash basis), there was no increase or decrease in State funding. We hope with the addition of our new Vocational Agricultural Program, our enrollment will increase and we can start receiving additional funding in the future.

FINANCIAL PLANNING AND POLICIES

Another issue the School District is encountering is House Bill 282. House Bill 282 requires career-technical centers to spend weighted funds from the State only on costs associated with the delivery of career-technical programming to career-technical students. In May 2004, part of this bill was replaced to require career-technical centers to spend at least 75 percent of their weighted State funds on specified areas; these areas do not include salaries or fringe benefits. This amendment to House Bill 282 requires the Pike County Joint Vocational School District to keep our expenditures on vocational instruction, excluding salaries and fringe benefits, at a much higher level. With the new State budget, any unused funds will be returned to the State for redistribution.

MAJOR INITIATIVES

FOR THE YEAR

Accomplishments by the students of the School District included State and National level honors for Business Professionals of America, Skills-USA and Family, Career and Community Leaders of America. The Pike County Joint Vocational School District received the Certificate of Achievement for Excellence in Financial Reporting award from the Government Finance Officers Association and the Certificate of Excellence in Financial Reporting award from the Association of School Business Officials International for its CAFR for the fiscal year ended June 30, 2015.

The first year of the Agriculture and Environment Systems program went well. The students were introduced to many different aspects of the Agricultural side of the program. By also adding the middle school portion of the program at two of our feeder districts, we are hoping the program will continue to grow. For fiscal year 2017, we are looking to add to the program by introducing aquatic fish.

FOR THE FUTURE

The School District's five-year forecast continues to be the instrument used to make future decisions with regard to program and funding strategies. Because the State of Ohio provides the majority of its funding, the School District is very concerned as to what effect the phase out of the tangible personal property tax distributions will have on its General Fund. The School District was to receive tangible personal property tax loss reimbursement payments through fiscal year 2015. With the passage of HB 64, the phase out of the Tangible Personal Property Tax began in fiscal year 2016. The School District will lose approximately \$458,600 between fiscal years 2016 and 2019. We are hopeful that with the projected increase in enrollment for the 2016-2017 school year, our state foundation will increase. However, House Bill 64 limits growth to 7.5 percent for fiscal year 2017. Career-Technical Education funding will be removed from the guarantee base and will be exempt from the cap in fiscal year 2017. We are hopeful this will help offset the loss of funds from the Tangible Personal Property Tax Loss.

The Treasurer plans to continue with the Comprehensive Annual Financial Report in future fiscal years.

AWARDS AND ACKNOWLEDGEMENTS

GFOA CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Pike County Joint Vocational School District for its CAFR for the fiscal year ended June 30, 2015. The Pike County Joint Vocational School District has received a Certificate of Achievement for the last twenty fiscal years. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ASBO CERTIFICATE OF EXCELLENCE

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the Pike County Joint Vocational School District for its CAFR for the fiscal year ended June 30, 2015.

A Certificate of Excellence is awarded to those school districts who have voluntarily submitted their system's CAFR for review by an ASBO Panel of Review. Upon completion of a vigorous technical review, the panel members conclude whether the school system's financial report has met the criteria for excellence in financial reporting.

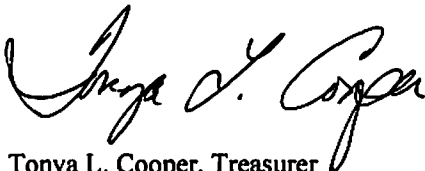

ACKNOWLEDGMENTS

The publication of this report is a major step toward professionalizing the financial reporting of the Pike County Joint Vocational School District. Appreciation is expressed to the Treasurer's staff: Janet Bobst and Paula Staker. A special thank you is also extended to the Local Government Services Section of the Office of the Auditor of State for their assistance in preparing this year's CAFR. Sincere gratitude goes to the Board of Education, where the commitment to excellence begins.

Respectfully submitted,

Eric D. Meredith, Superintendent

INDEPENDENT AUDITOR'S REPORT

Pike County Joint Vocational School District
Pike County
175 Beaver Creek Rd
Piketon, Ohio 45661

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Pike County Joint Vocational School District, Pike County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Pike County Joint Vocational School District, Pike County, Ohio, as of June 30, 2016, and the respective changes in financial position thereof and the budgetary comparison for the General fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Pike County Joint Vocational School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

The discussion and analysis of the Pike County Joint Vocational School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, basic financial statements, and notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

- In total, Net Position increased \$356,416. There was a decrease in total revenues of \$557,214; total expenses increased by \$51,885.
- General revenues accounted for \$5,528,425 of all revenues, and reflect the School District's continued dependence on property taxes and unrestricted State entitlements.
- The School District had \$7,701,973 in expenses related to governmental activities; only \$1,817,132 of these expenses were offset by program specific charges for services and sales, grants, contributions, and interest. General revenues (primarily grants and entitlements and property taxes) of \$5,528,425 were adequate to provide for the remaining cost of these programs.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Pike County Joint Vocational School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and the *Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column.

Reporting the School District as a Whole

One of the most important questions asked about the School District is "How did we do financially during fiscal year 2016?" The *Statement of Net Position* and the *Statement of Activities*, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current fiscal year's revenues and expenses regardless of when cash is received or paid.

Pike County Joint Vocational School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

These two statements report the School District's Net Position and changes in Net Position. This change in Net Position is important because it tells the reader that, for the School District as a whole, the *financial position* of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the *Statement of Net Position* and the *Statement of Activities*, the School District has only one kind of activity:

- Governmental Activities – All of the School District's educational programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, and food service.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page nine. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds, which are the General Fund and the Permanent Improvement Capital Projects Fund.

Governmental Funds – Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end available for spending in future periods. These funds are reported using the accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

Fiduciary Funds – The School District's only fiduciary funds are agency funds. All of the School District's fiduciary activities are reported in a separate Statement of Fiduciary Assets and Liabilities. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Fiduciary funds use the accrual basis of accounting.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's Net Position for fiscal year 2016 and fiscal year 2015:

Table 1 Net Position			
	Governmental Activities		Increase/ (Decrease)
	2016	2015	
Assets			
Current and Other Assets	\$7,873,470	\$7,779,887	\$93,583

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited*

The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2016 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 requires the net pension liability to equal the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

In accordance with GASB 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows.

Overall, a decrease of \$93,583 occurred within current and other assets when compared to the prior fiscal year. A decrease of \$429,708 occurred within total assets of governmental activities when compared to the prior fiscal year. The primary reason contributing to this decrease was that the School District's overall revenues decreased. Capital assets decreased by \$523,291 primarily due to current year depreciation exceeding current year additions.

Total liabilities increased \$845,897 for fiscal year 2016 when compared to the prior fiscal year, of which \$916,183 is from the long-term Net Pension Liability.

Net Investment in Capital Assets of decreased \$429,079. This is due depreciation exceeding capital asset additions for the fiscal year.

Table 2 shows the changes in Net Position for fiscal years 2016 and 2015.

Net Position at End of Year	<u><u>\$10,008,848</u></u>	<u><u>\$10,365,264</u></u>	

Program revenues, which are primarily represented by charges for tuition, fees, sales, and extracurricular activities, as well as restricted intergovernmental revenues were \$1,817,132 of total revenues for fiscal year 2016. Charges for services decreased due to Adult Education ending their LPN program during fiscal year 2016.

As previously mentioned, general revenues were \$5,528,425 of total revenues for fiscal year 2016. Property taxes decreased \$52,394 from the prior fiscal year. This resulted from the amount available for advances decreasing. General revenue grant monies decreased mostly due to a change in the way school funding was calculated for fiscal year 2016.

As should be expected, instruction costs represent the largest of the School District's expenses, \$4,434,419 for fiscal year 2016. The instruction category, however, does not include all activities associated with educating students. Maintenance of the School District's facilities also represents a significant expense of \$719,646. Overall, expenses increased \$51,885.

The School District's Funds

Information about the School District's most significant funds starts on page 14. Governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$7,334,655 and expenditures of \$7,315,752. The net change in fund balance for the fiscal year was most significant in the General Fund with an increase of \$52,957. The expenditures decreased in fiscal year 2016 when compared to the prior fiscal year, revenues decreased when compared to fiscal year 2015.

Pike County Joint Vocational School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

The decrease in revenues was mainly due to a change in the way school funding was calculated for fiscal year 2016 which decreased the School District's grant monies.

The Permanent Improvement Capital Projects Fund balance increased \$51,092 as a result of the School District's revenue from property taxes and intergovernmental exceeding current fiscal year debt payments.

General Fund - Budget Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2016, the School District revised its budget as it attempted to deal with unexpected changes in revenues and expenditures. A review of the budgetary comparison statement for the General Fund reflects an increase of \$56,597 between the original budget and final budget revenues. Throughout the fiscal year, the School District adjusted its estimates to deal with current economic conditions. The change in revenues from the final budget to actual revenues received was insignificant.

The increase in expenditures from the original to the final budget was \$783,114, which was a significant increase. Operation and Maintenance of Plant, Pupil Support Services, Operation of Non-Instructional Services, and Vocational expenditures experienced significant increases from the original to the final expenditures. The difference in actual expenditures compared to the final budget was \$800,594, a significant decrease. The School District bases their annual budget on prior year expenditures. Due to closely monitoring expenditures, the School District was able to significantly reduce expenditures. The largest savings were realized in the vocational instruction, which was due to the School District spending conservatively.

Actual General Fund revenues and other financing sources were less than expenditures and other financing uses by \$111,646.

The School District's ending unobligated cash balance was \$802,982 above the final budgeted amount.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2016, the School District had \$15,925,116 invested in capital assets (net of accumulated depreciation), a decrease of \$523,291. Additions to capital assets primarily include an addition to furniture and equipment purchases related to routine computer and computer related purchases and other educational equipment as well as a Ford Passenger Van. Disposals for the fiscal year primarily included various furniture and equipment. For further information regarding the School District's capital assets, refer to Note 10 to the basic financial statements.

Debt

The School District had an outstanding lease-purchase agreement for a nine passenger van, improvements, renovations and additions to the School District's building, including equipment, furnishings and fixtures in the amount of \$2,649,788. The School District's long-term obligations also include compensated absences.

Pike County Joint Vocational School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016
Unaudited

The School District's overall legal debt margin was \$41,488,203 with an unvoted debt margin of \$460,980 at June 30, 2016. For further information regarding the School District's long-term obligations, refer to Note 16 to the basic financial statements.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional information, contact Tonya L. Cooper, Treasurer at Pike County Joint Vocational School District, 175 Beaver Creek Road, Piketon, Ohio 45661 or e-mail tcooper@pikectc.org.

See accompanying notes to the basic financial statements

Pike County Joint Vocational School District
*Reconciliation of Total Governmental Fund Balances to
 Net Position of Governmental Activities*
 June 30, 2016

Total Governmental Fund Balances \$5,734,319

*Amounts reported for governmental activities in the
 Statement of Net Position are different because:*

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

Land	156,701	
Other capital assets	24,912,551	
Accumulated depreciation	(9,144,136)	
Total		15,925,116

Some of the School District's revenues will be collected after fiscal year-end, but are not available soon enough to pay for the current period's expenditures and therefore are reported as unavailable revenue in the funds.

Delinquent property taxes	246,415	
Intergovernmental	32,084	
Interest	4,601	
Total		283,100

In the Statement of Activities, interest is accrued on capital leases, whereas in governmental funds, an interest expenditure is reported when due. (11,107)

The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in governmental funds:

Deferred Outflows - Pension	845,673	
Deferred Inflows - Pension	(708,453)	
Net Pension Liability	(8,943,671)	
Total		(8,806,451)

Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:

Capital leases	(2,649,788)	
Compensated absences	(466,341)	
Total		(3,116,129)

Net Position of Governmental Activities \$10,008,848

See accompanying notes to the basic financial statements

*Pike County Joint Vocational School District
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2016*

Net Change in Fund Balances - Total Governmental Funds \$51,318

*Amounts reported for governmental activities in the
Statement of Activities are different because:*

Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital assets additions	187,990	
Depreciation expense	(702,807)	
Excess of depreciation expense over capital outlay		(514,817)

Governmental funds report only the disposal of capital assets to the extent proceeds are received from the sale. In the Statement of Activities, a gain or loss is reported for each sale.

Loss on disposal of capital assets	(8,474)
------------------------------------	---------

Because some revenues will not be collected for several months after the School District's fiscal year ends, they are not considered "available" revenues and are therefore recorded as deferred inflows of resources in the governmental funds. Deferred inflows of resources changed by these amounts this fiscal year:

Delinquent property taxes	2,738	
Intergovernmental	8,481	
Interest	(317)	
Total		10,902

Contractually required contributions are reported as expenditures in governmental funds; however, the Statement of Net Position reports these amounts as deferred outflows. 490,795

Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the Statement of Activities. (400,444)

Some capital assets were financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the Statement of Net Position the lease obligation is reported as a liability. (32,415)

Repayment of long-term obligations is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. In the current fiscal year, these amounts consist of:
Capital lease payments 126,627

Accrued interest payable on the capital lease is not reported in the funds, but is allocated as an expense over the life of the lease in the Statement of Activities. 486

Some items reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:
Increase in compensated absences payable (80,394)

Change in Net Position of Governmental Activities (\$356,416)

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

NOTE 1 – DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Pike County Joint Vocational School District (the “School District”) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The Pike County Joint Vocational School District is operated under the direction of a five-member Board of Education, which is not directly elected. The Board of Education is comprised of members of other elected boards who, by charter, also serve as board members of the Pike County Joint Vocational School District. The Board of Education for the Pike County Joint Vocational School District consists of four of the eleven members of the Ross-Pike County Educational Service Center’s Board of Education and one representative from the Waverly City School District’s Board of Education. The School District is classified as a jointly governed organization of the Ross-Pike County Educational Service Center. The School District exposes students to job training, leading to employment upon graduation from high school.

The School District was established in 1956 through the cooperation of all school districts within the County. The School District serves an area of approximately 444 square miles. It is located in Pike County, and includes Eastern Local School District, Scioto Valley Local School District, Western Local School District, and Waverly City School District. The School District has an enrollment of 388 students and is staffed by 15 non-certificated employees, 39 certificated full-time teaching employees, and 3 administrative employees. The School District currently operates one building.

Reporting Entity:

Since the School District does not have a separately elected governing board and does not meet the definition of a component unit, it is classified as a stand-alone government under the provisions of GASB Statement No. 14, “*The Financial Reporting Entity*”.

The reporting entity is comprised of the stand-alone government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the Pike County Joint Vocational School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization’s governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization’s resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the School District. The School District has no component units.

The School District participates in four organizations, two of which are defined as jointly governed organizations and two of which are defined as insurance purchasing pools. These organizations are presented in Note 18 to the basic financial statements. These organizations are:

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Jointly Governed Organizations:

South Central Ohio Computer Association Regional Council of Governments
Coalition of Rural and Appalachian Schools

Insurance Purchasing Pools:

Ohio SchoolComp Group Retrospective Rating Program
Ohio School Plan

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Pike County Joint Vocational School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the School District as a whole. These statements include the financial activities of the School District, except for fiduciary funds. The government-wide financial statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type; however, the School District has no business-type activities.

The Statement of Net Position presents the financial condition of the governmental activities of the School District at fiscal year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are divided into two categories, governmental and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the School District are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

General Fund – The General Fund is the operating fund of the School District and is used to account for and report all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Permanent Improvement Fund – The Permanent Improvement Fund is used to account for and report property tax revenues restricted for the acquiring, constructing, or improving of school facilities or other capital outlays with a useful life of five years or more.

The nonmajor governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on Net Position and changes in Net Position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are not available to support the School District's own programs. The School District has two agency funds. One agency fund is used to account for student activity programs. The second agency fund is used to account for the activity of the Stafford Loan and PELL grant programs. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and liabilities and deferred inflows of resources associated with the operation of the School District are included on the Statement of Net Position. The Statement of Activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total Net Position.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities deferred inflows of resources generally are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide and fiduciary fund financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows/outflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. “Measurable” means that the amount of the transaction can be determined, and “available” means that the resources are collectible within the current fiscal year, or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 60 days of fiscal year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 8). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available for advance, tuition and fees, accrued interest, and grants.

Deferred Outflows/Inflows of Resources:

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure)

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for pension. The deferred outflows of resources related to pension are explained in Note 12.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources included property taxes, pension, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental fund balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental grants, and interest. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position (See Note 12).

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all other funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents". The School District utilized a financial institution to service bonded debt as principal and interest payments came due. The balance in this account represents matured bonds that have yet to be redeemed and is presented on the financial statements as "Cash and Cash Equivalents With Fiscal Agent."

During fiscal year 2016, the School District invested in STAR Ohio, Commercial Paper, First American Treasury Obligations Fund, Federal Home Loan Bank Notes, Federal Home Loan Mortgage Association Notes, Federal Home Loan Mortgage Corporation Notes, Federal National Mortgage Association Notes, Federal National Mortgage Association Debenture Notes and Negotiable Certificates of Deposit. Investments, not including STAR Ohio, are reported at fair value which is based on quoted market prices. For investments in open-end mutual funds, the fair value is determined by the fund's current share price.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For the fiscal year 2016, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue, including an increase in the fair market value of investments, credited to the General Fund during fiscal year 2016 amounted to \$83,336, which includes \$15,018 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions. Restricted assets in the General Fund represent cash and cash equivalents legally required to be set aside by the School District for budget stabilization. See Note 19 for additional information regarding set-asides.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2016, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the fiscal year in which services are consumed.

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption and purchased food held for resale.

Capital Assets

The School District's only capital assets are general capital assets. General capital assets are those assets not specifically related to activities reported in the proprietary fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by back-trending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year.) Donated capital assets are recorded at their acquisition values as of the date received. The capitalization threshold is two thousand five hundred dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	5 - 7 years
Buildings and Improvements	20 - 50 years
Furniture and Equipment	5 - 20 years
Vehicles	10 years

Interfund Balances

On fund financial statements, outstanding interfund loans are reported as "Interfund Receivable" and "Interfund Payable". Interfund balances are eliminated in the Statement of Net Position.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absences liability is reported on the government-wide financial statements.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences and net position liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Capital leases that will be paid from governmental funds are recognized as an expenditure and liability in the governmental fund financial statements when due.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable

The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted

Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed

The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level of formal action (resolution) of the School District’s Board of Education. Those committed amounts cannot be used for any other purpose unless the School District’s Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned

Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. The Treasurer has been given authority to assign amounts for these purposes by the School District Board of Education.

Unassigned

Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit fund balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Net Position

Net Position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net Position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net Position restricted for other purposes include food service and federal and State grants restricted to expenditures for specified purposes.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted Net Position is available.

Internal Activity

Transfers within governmental activities are eliminated on the government-wide financial statements.

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Process

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriations resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriations resolution is the Board of Education's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board of Education. The legal level of control has been established by the Board of Education at the fund level. The Treasurer maintains budgetary information at the fund, function, and object level and has the authority to allocate appropriations at the function and object level without resolution by the Board of Education.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as final budgeted amounts represent estimates from the amended certificate in effect at the time the final appropriations were passed.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The appropriations resolution is subject to amendment by the Board of Education throughout the fiscal year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts in the budgetary statements reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board of Education during the fiscal year, including all supplemental appropriations.

NOTE 3 – CHANGE IN ACCOUNTING PRINCIPLE

For fiscal year 2016, the School District implemented Governmental Accounting Standards Board (GASB) Statement No. 72, “Fair Value Measurement and Application,” GASB Statement No. 76, “The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments,” GASB Statement No. 79, “Certain External Investment Pools and Pool Participants,” and GASB Statement No. 82, “Pension Issues an Amendment of GASB Statements No. 67, No. 68 and No. 73.”

GASB Statement No. 72 addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes for applying fair value to certain investments and disclosures related to all fair value measurements. These changes were incorporated in the School District’s fiscal year 2016 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 76 identifies-in the context of the current governmental financial reporting environment-the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with generally accepted accounting principles (GAAP) and the framework for selecting those principles. The implementation of this GASB pronouncement did not result in any changes to the School District’s financial statements.

GASB Statement No. 79 establishes accounting and financial reporting standards for qualifying external investment pools that elect to measure for financial reporting purposes all of their investments at amortized cost. This Statement provides accounting and financial reporting guidance also establishes additional note disclosure requirements for governments that participate in those pools. The School Districts participates in STAR Ohio which implemented GASB Statement No. 79 for fiscal year 2016. The School District incorporated the corresponding GASB 79 guidance into their fiscal year 2016 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 82 improves consistency in the application of pension accounting. These changes were incorporated in the School District’s fiscal year 2016 financial statements; however, there was no effect on beginning net position/fund balance.

NOTE 4 – FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Fund Balances	General	Permanent Improvement	Nonmajor Governmental Funds	Total
<i>Nonspendable</i>				
Prepays	\$5,774	\$0	\$451	\$6,225
Materials and Supplies Inventory	0	0	319	319
<i>Total Nonspendable</i>	5,774	0	770	6,544
<i>Restricted for</i>				
Capital Improvements	0	732,738	0	732,738
Debt Service	0	0	3,499	3,499
Food Service	0	0	30,642	30,642
Adult Education	0	0	1,973	1,973
School Facilities Maintenance	0	0	266,091	266,091
Bus Driver Training	0	0	47,669	47,669
ONENet Ohio	0	0	9,679	9,679
Miscellaneous Grants	0	0	13,124	13,124
<i>Total Restricted</i>	0	732,738	372,677	1,105,415
<i>Assigned to</i>				
Future Appropriations	499,225	0	0	499,225
Purchases on Order:				
Student Services	3,750	0	0	3,750
Equipment	33,488	0	0	33,488
Classroom Supplies	67,007	0	0	67,007
<i>Total Assigned</i>	603,470	0	0	603,470
<i>Unassigned (Deficit)</i>	4,029,529	0	(10,639)	4,018,890
<i>Total Fund Balances</i>	\$4,638,773	\$732,738	\$362,808	\$5,734,319

NOTE 5 – ACCOUNTABILITY

At June 30, 2016, the Vocational Education Special Revenue Fund had a deficit fund balance of \$6,835. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

NOTE 6 – BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Budget Basis) for the General Fund is presented for the General Fund on the budgetary basis to provide a meaningful comparison of actual results with the budget.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Advances In and Advances Out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
4. Encumbrances are treated as expenditures (budget basis) rather than restricted, committed, or assigned fund balance (GAAP basis).
5. Investments are recorded at fair value (GAAP basis) rather than cost (budget basis).

Net Change in Fund Balance	
GAAP Basis	\$52,957
Adjustments:	
Revenue Accruals	82,009
Expenditure Accruals	(24,554)
Transfers	(66,654)
Advances	(11,187)
Encumbrances	(112,891)
Net Increase in Fair	
Value of Investments - FY 2015	9,886
Net Increase in Fair	
Value of Investments - FY 2016	(41,212)
Budget Basis	(\$111,646)

NOTE 7 – DEPOSITS AND INVESTMENTS

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District may be deposited or invested in the following securities:

1. United States Treasury notes, bills, bonds, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
4. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
5. Bonds and other obligations of the State of Ohio and with certain limitations bonds and other obligations of political subdivisions of the State of Ohio;
6. The State Treasurer's investment pool (STAROhio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met; and
8. Written repurchase agreements in the securities described in (1) or (2) provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Investments: Investments are reported at fair value. As of June 30, 2016, the School District had the following investments:

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Measurement/ Investment	Investment Maturities in Years				S&P Rating	Percent of Total Investments	
	Less than 1	1 - 2	3 - 4	5+			
Net Asset Value per Share:							
STAROhio	\$1,565,978	\$1,565,978	\$0	\$0	\$0	N/A	26.59%
Fair Value							
Commercial Paper	980,792	980,792	0	0	0	A-1+	N/A
First American Treasury							
Obligations Fund	60,204	60,204	0	0	0	AA+	N/A
Federal Home Loan Bank Notes	370,530	370,530	0	0	0	AA+	6.29%
Federal Home Loan Mortgage							
Association Notes	500,275	0	0	0	500,275	AA+	8.50%
Federal Home Loan Mortgage							
Corporation Notes	365,102	0	0	365,102	0	AA+	6.20%
Federal National Mortgage							
Association Notes	365,131	0	0	0	365,131	AA+	6.20%
Federal National Mortgage							
Association Debenture Notes	682,027	0	682,027	0	0	AA+	11.58%
Negotiable Certificates of Deposit	998,663	0	0	251,541	747,122	N/A	N/A
Totals	<u>\$5,888,702</u>	<u>\$2,977,504</u>	<u>\$682,027</u>	<u>\$616,643</u>	<u>\$1,612,528</u>		

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the School District's recurring fair value measurements as of June 30, 2016. All of the School District's investments measured at fair value are valued using quoted market prices (Level 1 inputs).

Interest Rate Risk: As a means of limiting its exposure to fair value losses caused by rising interest rates, the School District's investment policy requires that, to the extent possible, investments will match anticipated cash flow requirements. No investment shall be made unless the Treasurer, at the time of making the investment, reasonably expects it can be held to its maturity. Unless matched to a specific obligation or debt of the School District, the School District will not directly invest in securities maturing more than five years from the date of investment.

Credit Risk: The S&P ratings of the School District's investments are listed in the table above. Ohio law requires that STAROhio maintain the highest rating provided by at least one nationally recognized standard rating service and that the money market mutual fund be rated in the highest category at the time of purchase by at least one nationally recognized standard rating service. The School District's investment policy limits investments to those authorized by State statute which restricts investments to those that are highly rated or issued by United States government sponsored enterprises.

Custodial Credit Risk: Custodial credit risk is the risk that in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the School District's securities are either insured and registered in the name of the School District or at least registered in the name of the School District. The School District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Concentration of Credit Risk: The School District's investment policy provides that the School District will diversify its investments by security, type, and institution. With the exception of direct obligations of the U.S. Treasury and STAROhio, no more than 90 percent of the School District's total investment portfolio will be invested in a single security type or with a single financial institution. The percentage that each investment represents of the total investments is listed in the table above.

NOTE 8 – PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2016 became a lien December 31, 2014, were levied after April 1, 2015, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Pike County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which were measurable as of June 30, 2016 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reflected as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows - property taxes.

The amount available as an advance at June 30, 2016, was \$110,230 and is recognized as revenue: \$83,268 in the General Fund and \$26,962 in the Permanent Improvement Fund. The amount available as an advance at June 30, 2015, was \$113,239 in the General Fund and \$37,456 in the Permanent Improvement Fund.

On an accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue is reported as deferred inflow or resources - unavailable revenue.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The assessed values upon which the fiscal year 2016 taxes were collected are:

	2015 Second- Half Collections		2016 First- Half Collections	
	Amount	Percent	Amount	Percent
Real Estate	\$365,240,620	83.36%	\$383,577,656	83.21%
Public Utility Personal	72,904,980	16.64%	77,402,380	16.79%
Total Assessed Value	\$438,145,600	100.00%	\$460,980,036	100.00%

Voted tax rate per \$1,000 of assessed valuation	\$7.50	\$7.50
--	--------	--------

NOTE 9 – RECEIVABLES

Receivables at June 30, 2016, consisted of property taxes, payments in lieu of taxes, accounts, accrued interest, intergovernmental grants, and interfund. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. All receivables except for delinquent property taxes are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquents that will not be collected within one year

A summary of the principal items of intergovernmental receivables follows:

<u>Governmental Activities:</u>	
Adult Basic Literacy Education Grant	\$41,833
Carl D. Perkins Secondary Grant	12,540
Tuition and Fees	1,111
Total Intergovernmental Receivables	\$55,484

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

NOTE 10 – CAPITAL ASSETS

Capital assets activity for the fiscal year ended June 30, 2016, was as follows:

	<u>Balance at 6/30/15</u>	<u>Additions</u>	<u>Deductions</u>	<u>Balance at 6/30/16</u>
<u>Governmental Activities:</u>				
Capital Assets Not Being Depreciated:				
Land	\$156,701	\$0	\$0	\$156,701
Capital Assets Being Depreciated:				
Land Improvements	1,243,081	0	0	1,243,081
Buildings and Improvements	19,977,839	27,438	0	20,005,277

Administration	24,155
Fiscal	21,867
Operation and Maintenance of Plant	42,989
Pupil Transportation	3,623
Central	31,895
Operation of Non-Instructional Services	37,704
Total Depreciation Expense	<u>\$702,807</u>

NOTE 11 – RISK MANAGEMENT

Property, Fleet and Liability Insurance

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School District, along with other School Districts in Ohio, participates in the Ohio School Plan (OSP), an insurance purchasing pool. (See Note 18) Each individual School District enters into an agreement with the OSP and its premium is based on types of coverage, limits of coverage, and deductibles that it selects. The School District pays this annual premium to Hylant Administrative Services, LLC. During fiscal year 2016, the School District contracted with the Ohio School Plan for liability, fleet, and property insurance coverage.

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There has not been a significant reduction in coverage from the prior fiscal year.

Workers' Compensation

For fiscal year 2016, the School District participated in the Ohio SchoolComp Group Retrospective Rating Program (GRRP), an insurance purchasing pool (See Note 18). The intent of the GRRP is to reward participants that are able to keep their claims costs below a predetermined amount. As part of the GRRP, school districts join together as a group. Each school district continues to pay its own individual premium to the State. However, each school district has the opportunity to receive retrospective premium adjustments (refunds or assessments) at 12, 24, and 36 months after the end of the policy year. At the end of each policy year, the Bureau of Workers' Compensation (BWC) will take a snap-shot of the incurred claims losses (indemnity, medical, and reserves) for the entire group and calculate the group's retrospective premium. If the retrospective premium that is calculated is less than the group's total standard premium, the participants will receive a refund. However, if the retrospective premium is greater than the group's total standard premium, an assessment will be levied by BWC. Each group limits the maximum assessment by selecting a premium cap between five percent and 100 percent of merit rated premium. Participation in the GRRP is limited to school districts that can meet the GRRP's selection criteria. The firm of CompManagement, Inc. provides administrative, cost control, and actuarial services to the GRRP.

NOTE 12 – DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Ohio Revised Code limits the School District’s obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. No allocation was made to the Health Care Fund.

The School District's contractually required contribution to SERS was \$120,169 for fiscal year 2016.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 11 percent of the 12 percent member rate goes to the DC Plan and 1 percent goes to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. Effective July 1, 2016, the statutory maximum employee contribution rate was increased one percent to 14 percent. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$370,626 for fiscal year 2016. Of this amount \$38,952 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportion of the Net Pension Liability			
Prior Measurement Date	0.03291000%	0.02615554%	
Proportion of the Net Pension Liability			
Current Measurement Date	0.03140680%	0.02587672%	
Change in Proportionate Share	-0.00150320%	-0.00027882%	
Proportionate Share of the Net			
Pension Liability	\$1,792,104	\$7,151,567	\$8,943,671
Pension Expense	\$92,133	\$308,311	\$400,444

At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$28,857	\$326,021	\$354,878
School District contributions subsequent to the measurement date	120,169	370,626	490,795
Total Deferred Outflows of Resources	\$149,026	\$696,647	\$845,673
Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	\$59,378	\$514,333	\$573,711
Changes in Proportionate Share and Difference between School District contributions and proportionate share of contributions	67,172	67,570	134,742
Total Deferred Inflows of Resources	\$126,550	\$581,903	\$708,453

\$490,795 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2017	(\$43,024)	(\$132,961)	(\$175,985)
2018	(43,024)	(132,961)	(175,985)
2019	(43,161)	(132,961)	(176,122)
2020	31,516	143,001	174,517
Total	(\$97,693)	(\$255,882)	(\$353,575)

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating "an arithmetic" weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	<u>15.00</u>	7.50
Total	<u>100.00 %</u>	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$2,485,002	\$1,792,104	\$1,208,624

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

STRS' investment consultant develops best estimates for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$9,934,068	\$7,151,567	\$4,798,550

NOTE 13 – POSTEMPLOYMENT BENEFITS

School Employees Retirement System

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, no allocation of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

compensation amount, pro-rated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the School District's surcharge obligation was \$21,955.

The School District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$29,671, and \$25,937, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

State Teachers Retirement System of Ohio

Plan Description – The State Teachers Retirement System of Ohio (STRS Ohio) administers a cost-sharing multiple-employer defined benefit Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For the fiscal years ended June 30, 2016 and June 30, 2015, STRS Ohio did not allocate any employer contributions to post-employment health care. For the fiscal year ended June 30, 2014, one percent of covered payroll was allocated to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2016, 2015 and 2014 were \$0, \$0 and \$27,645, respectively. The full amount has been contributed for 2016, 2015 and 2014.

NOTE 14 – EMPLOYEE BENEFITS

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Eligible classified employees and administrators earn 10 to 20 days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 210 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit up to a maximum of 50 days.

Insurance Benefits

The School District provides life insurance to most employees through MetLife Benefits. The School District provides employee medical/surgical benefits and prescription drugs through United Health Care. The School District also provides vision benefits through Vision Service Plan and dental benefits through Superior Dental Care.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Deferred Compensation

School District employees may participate in the Ohio Public Employees Deferred Compensation Plan. This plan was created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. According to the plan, the deferred compensation is not available until termination, retirement, death or an unforeseeable emergency.

NOTE 15 – CAPITALIZED LEASE – LESSEE DISCLOSURE

In fiscal year 2016, the School District entered into a lease-purchase agreement for a passenger van. The terms of the agreement transfers ownership of the vehicle to the School District at the expiration of the lease term. In prior years, the School District entered into a lease-purchase agreement for constructing improvements, renovations and additions to the School District’s building. The terms of the agreement transfers ownership of the building to the School District at the expiration of the lease term. The School District is leasing the project from the Columbus Regional Airport Authority. Columbus Regional Airport Authority will retain title to the project during the lease term. In turn, Columbus Regional Airport Authority has assigned U.S. Bank National Association as trustee. The School District will make semi-annual lease payments to U.S. Bank National Association. The interest rate is fixed at 5.07 percent. The lease is renewable annually and expires in fiscal year 2031. The intention of the School District is to renew the lease annually and payments will be made using revenue generated from an ongoing permanent improvement levy passed in 2005. Capital lease payments are reflected as debt service expenditures in the basic financial statements for the governmental funds and on a budgetary basis.

At fiscal year-end, capital assets under these leases have been capitalized as buildings and improvements and vehicles in the Statement of Net Position for governmental activities. A liability was recorded on the Statement of Net Position for governmental activities. Principal payments in fiscal year 2016 totaled \$126,627 and were paid from the General and Permanent Improvement Funds.

The assets acquired through capital leases as of June 30, 2016, are as follows:

	Asset Value	Accumulated Depreciation	Net Book Value
<u>Asset:</u>			
Buildings and Improvements	\$3,555,000	\$497,821	\$3,057,179
Vehicles	32,415	1,621	30,794
Total	\$3,587,415	\$499,442	\$3,087,973

The following is a schedule of the future long-term minimum lease payments required under the capital lease and the present value of the minimum lease payments as of June 30, 2016:

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Fiscal Year Ending June 30,	Total Payments
2017	\$265,617
2018	265,483
2019	254,717
2020	254,923
2021	254,774
2022-2026	1,271,661
2027-2031	1,272,786
Total	3,839,961
Less: Amount Representing Interest	(1,190,173)
Present Value of Net Minimum Lease Payments	\$2,649,788

NOTE 16 – LONG-TERM OBLIGATIONS

The changes in the School District’s long-term obligations during fiscal year 2016 were as follows:

	Principal Outstanding 6/30/15	Additions	Deductions	Principal Outstanding 6/30/16	Amounts Due in One Year
<u>Governmental Activities:</u>					
Net Pension Liability:					
STRS	\$6,361,931	\$789,636	\$0	\$7,151,567	\$0
SERS	1,665,557	126,547	0	1,792,104	0
Total Net Pension Liability	8,027,488	916,183	0	8,943,671	0
Capital Leases	2,744,000	32,415	126,627	2,649,788	131,091
Compensated Absences	385,947	143,928	63,534	466,341	85,718
Total Governmental Activities					
Long-Term Obligations	\$11,157,435	\$1,092,526	\$190,161	\$12,059,800	\$216,809

The School District pays obligations related to employee compensation from the fund benefitting from their service. Compensated absences will be paid from the General Fund and the Food Service, Adult Education, Pre-Service School Bus Driver Training, Adult Basic Literacy Education, and Vocational Education Special Revenue Funds. Capital leases will be paid from the Permanent Improvement Fund. For additional information related to the net pension liability see note 12.

The School District’s overall legal debt margin was \$41,488,203 with an unvoted debt margin of \$460,980 at June 30, 2016.

NOTE 17 – INTERFUND ACTIVITY

As of June 30, 2016, interfund receivables and payables resulted from the General Fund advancing monies to Nonmajor Governmental Funds in the amount of \$19,209.

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

General Fund advances are made to move unrestricted balances to support programs and projects accounted for in other funds. Advancing monies to other funds is necessary due to timing differences in the receiving grant monies. When the monies are finally received, the grant fund reimburses the General Fund for the initial advance.

During the fiscal year, transfers are made to move unrestricted balances to support programs and projects accounted for in other funds. Transfers were made from the General Fund to the Nonmajor Governmental Funds in the amount of \$12,658 to support food service and adult education activities.

NOTE 18 – JOINTLY GOVERNED ORGANIZATIONS AND INSURANCE PURCHASING POOLS

South Central Ohio Computer Association Regional Council of Governments (SCOCARCoG)

The School District is a participant in the South Central Ohio Computer Association Regional Council of Governments (SCOCARCoG), which is organized under ORC Code Chapter 167 as a council of governments. SCOCARCoG is an association of public school districts within the boundaries of Pickaway, Gallia, Adams, Brown, Highland, Pike, Ross, Scioto, Vinton, Jackson, and Lawrence Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of SCOCARCoG consists of two representatives from each county in the SCOCARCoG service region designated by the Ohio Department of Education and two representatives of the school treasurers. The Board exercises total control over the operations of SCOCARCoG including budgeting, appropriating, contracting and designating management. Each School District's degree of control is limited to its representation on the Board.

During fiscal year 2016, SCOCARCoG entered into a merger agreement with Metropolitan Educational Technology Association ("META"). Pursuant to an addendum to the agreement, certain liabilities will remain the sole responsibility of SCOCARCoG, and once these remaining liabilities are satisfied, SCOCARCoG will be dissolved and the member districts will become members of META. SCOCARCoG entered into a subcontract agreement with META to provide services to SCOCARCoG, and on behalf of SCOCARCoG, to the member districts. Consistent with the merger agreement and updated bylaws, SCOCARCoG is currently governed by a four person executive governing board. The Academy paid SCOCARCoG \$36,092 for services provided during the fiscal year.

Coalition of Rural and Appalachian Schools

The Coalition of Rural and Appalachian Schools (the "Coalition") is a jointly governed organization of over 100 school districts in southeastern Ohio. The Coalition is operated by a board which is composed of 14 members. The board members are composed of one superintendent from each county elected by the school districts within that county. The Coalition provides various services for school district administrative personnel; gathers data regarding education conditions in the region; cooperates with other professional groups to assess and develop programs designed to meet the needs of member districts; and provides staff development programs for school district personnel. The Board exercises total control over the operations of the coalition including budget, appropriating, contracting and designating management. Each School District's degree of control is limited to its representation on the Board. The School District's membership fee was \$325 for fiscal year 2016.

*Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016*

Ohio SchoolComp Group Retrospective Rating Program

The School District participates in the Ohio SchoolComp Group Retrospective Rating Program (GRRP), an insurance purchasing pool. The GRRP's business and affairs are conducted by a five member Board of Directors. Each fiscal year, the participants pay an enrollment fee to CompManagement, Inc. to cover the costs of administering the program.

Ohio School Plan

The School District participates in the Ohio School Plan (Plan), an insurance purchasing pool established under Section 2744.081 of the Ohio Revised Code. The Plan is an unincorporated nonprofit association of its members which enables the participants to provide for a formalized joint insurance purchasing program for maintaining adequate insurance protection and provides risk management programs and other administrative services. The Plan's business and affairs are conducted by a fifteen member board consisting of superintendents, treasurers, the president of Harcum-Shuett Insurance Agency, Inc., and a member of the Hylant Group, Inc. The Hylant Group, Inc. is the Plan's administrator and is responsible for processing claims. Harcum-Shuett Insurance Agency serves as the sales and marketing representative which establishes agreements between the Plan and its members. Financial information can be obtained from Harcum-Shuett Insurance Agency, 246 East Sycamore Street, Columbus, Ohio 43206.

NOTE 19 – SET-ASIDE CALCULATIONS

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year-end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year-end and carried forward to be used for the same purposes in future fiscal years.

The Schools District's set aside for budget stabilization represents refunds received from the Bureau of Workers' Compensation prior to April 10, 2001. Senate Bill 345 places conditions on the use of these dollars, including offsetting a budget deficit. The School District plans to use their set aside to offset any budget deficit the School District may experience in future years. There are no requirements for additional amounts to be set aside for budget stabilization. The School District has not adopted any additional guidelines for spending the money; therefore, the balance of \$23,547 is included in the unassigned fund balance of the general fund.

The following cash basis information identifies the change in the fiscal year-end set-aside amounts for capital acquisition and budget stabilization. Disclosure of this information is required by State statute.

	Capital Acquisition	Budget Stabilization
Set-aside Balance as of June 30, 2015	\$0	\$23,547
Current Fiscal Year Set-aside Requirement	66,654	0
Current Fiscal Year Offsets	(66,654)	0
Set-aside Balance as of June 30, 2016	\$0	\$23,547
Required Set-aside Balances Carried Forward to Fiscal Year 2017	\$0	\$23,547

Pike County Joint Vocational School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Amounts of offsets and qualifying expenditures presented in the table for the capital acquisition set-asides were limited to those necessary to reduce the year-end balance to zero. Although the School District may have had additional offsets and qualifying expenditures for capital acquisitions, these amounts may not be used to reduce the set-aside requirements of future fiscal years and therefore is not presented as being carried forward to the next fiscal year.

NOTE 20 – SIGNIFICANT COMMITMENTS

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods and services. Encumbrances accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

General Fund	\$112,891
Nonmajor Governmental Funds	1,912
Total	<u><u>\$114,803</u></u>

NOTE 21 – CONTINGENCIES

Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2016, if applicable, cannot be determined at this time.

School Foundation

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for fiscal year 2016 traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the School District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the school district; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or a liability for the School District.

Litigation

The School District is not party to any legal proceedings.

Nonmajor Fund Descriptions

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. The following are descriptions of the School District's nonmajor special revenue funds:

Nonmajor Special Revenue Funds

Food Service Fund

This fund accounts for and reports restricted financial transactions related to the food service operations of the School District.

Adult Education Fund

To account for and report the tuition restricted for advancing and retraining out-of-school youths and adults for the purpose of improving their skills and knowledge in their occupation or their planned occupation.

Ohio School Facilities Maintenance Fund

To account for and report property taxes restricted to expenditures for the maintenance and upkeep of School District classroom facilities.

Pre-Service School Bus Driver Training Fund

To account for and report restricted State grants used for school bus driver training programs.

Education Management Information System Fund

To account for and report restricted State grants which support the hardware and software development or other costs associated with the requirements of the management information system.

ONENet Ohio Fund

To account for and report restricted State grants appropriated for Ohio Educational Computer Network Connections.

Ohio SchoolNet Professional Development Fund

To account for and report restricted State grants used to provide professional development for teachers.

Miscellaneous State Grants Fund

To account for and report various restricted grants received from State agencies which are not classified elsewhere.

Adult Basic Literacy Education Fund

To account for and report restricted federal and State grants used to provide programs in reading, writing, and math competency for adults that do not have a high school diploma.

Summer Youth Employment Training Fund

To account for and report restricted federal grants used for planning and conducting programs that provide for the training of unemployed persons and for the advancement of underemployed persons.

Pike County Joint Vocational School District

Nonmajor Fund Descriptions - (continued)

Nonmajor Special Revenue Funds - (continued)

Vocational Education Fund

To account for and report restricted State grants used for the development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, ancillary services, research, advisory committees, and work-study projects.

Miscellaneous Federal Grants Fund

To account for and report restricted grants received from federal agencies which are not classified elsewhere.

NONMAJOR DEBT SERVICE FUND

The Debt Service Fund is used to account for and report financial resources that are restricted or committed for payment of general obligation principal and interest and fiscal charges. The School District has only one Debt Service Fund.

CAPITAL PROJECTS FUNDS

The Capital Projects Funds are established to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of major capital facilities and other capital assets, other than for assets that will be held in trust. The School District has no nonmajor capital project funds.

Pike County Joint Vocational School District

Agency Fund Descriptions

AGENCY FUNDS

Agency Funds are used to account for assets held by the School District as an agent for individuals, private organizations, and other governmental units. The following are descriptions of the School District's agency funds:

Student Managed Activity Fund

To account for and report student activity programs which have student participation in the activity and have students involved in the management of the program.

District Agency Fund

To account for and report the Stafford Loan and PELL grant monies received by the School District that are distributed to chosen recipients.

STATISTICAL TABLES

This part of Pike County Joint Vocational School District’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District’s overall financial health.

<u>CONTENTS</u>	<u>PAGES</u>
Financial Trends	92-103
These schedules contain trend information to help the reader understand how the School District’s financial performance and well-being have changed over time.	
Revenue Capacity	104-111
These schedules contain information to help the reader assess the School District’s most significant local revenue sources.	
Debt Capacity	112-117
These schedules present information to help the reader assess the affordability of the School District’s current levels of outstanding debt and the School District’s ability to issue additional debt in the future.	
Demographic and Economic Information	118-121
These schedules offer demographic and economic indicators to help the reader understand the environment within which the School District’s financial activities take place.	
Operating information	122-133
These schedules contain service and capital assets data to help the reader understand how the information in the School District’s financial report relates to the services the School District provides and the activities it performs.	

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax has been phased out. The assessment percentage was 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008, and zero for 2009. Beginning in 2007, House Bill 66 switched telephone companies from being public utilities to general business taxpayers and began a four year phase out of the tangible personal property tax on local and inter-exchange telephone companies. No tangible personal property taxes were levied or collected in 2009 from general business taxpayers, except telephone companies whose last year to pay tangible personal property tax is 2010. The percentages for telecommunications are 10.0 percent for 2009, 5.0 percent for 2010, and zero for 2011.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent rollback, 2 1/2 percent rollback, and homestead exemption before being billed. The 10 percent rollback for commercial/industrial property was eliminated in 2006.

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue for that year.

Rates may only be raised by obtaining the approval of the voters at a public election.

Real property tax rates are reduced so that inflationary increases in value do not generate additional taxes. Real property is reappraised every six years and property values are updated in the third year following each reappraisal.

Source: Pike County Auditor

- (1) The information presented is the most current information available.
- (2) Current taxes levied and current tax collections do not include rollback and homestead amounts.
- (3) Delinquent tax collections include amounts collected from penalties, interest, and other delinquent collections. Allocations of delinquent collections to prior periods are unavailable.

The levies and collections for all years are estimates based upon the tax rate in effect for each calendar year for the Pike County Joint Vocational School. This information was provided by the Pike County Auditor.

Note: The County's current system does not track delinquent tax collections by tax year in total. This presentation will be updated as new information becomes available.

(1) Percentages determined by dividing each overlapping subdivisions' assessed valuation within the School District by the subdivisions' total assessed valuation.

(2) As of 12/31/14 this is the latest information available

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the School District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the School District. This process recognizes that, when considering the School District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt, of each overlapping government.

(1) The definition of tax valuation for the purpose of calculating the debt margin was modified by H.B. 530, effective 3/30/06, to exclude tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, or personal property owned or leased by a railroad company and used in railroad operations.

(2) Ohio Bond Law sets a limit of nine percent for voted debt, .90 percent for Energy Conservation measures, and .10 percent for unvoted debt.
