

CLEVELAND METROPOLITAN PARK DISTRICT

Single Audit Reports

Year Ended December 31, 2016

CLARK SCHAEFER HACKETT
CPAS & ADVISORS

Dave Yost • Auditor of State

Board of Park Commissioners
Cleveland Metropolitan Park District
4101 Fulton Parkway
Cleveland, Ohio 44144

We have reviewed the *Independent Auditors' Report* of the Cleveland Metropolitan Park District, Cuyahoga County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2016 through December 31, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Cleveland Metropolitan Park District is responsible for compliance with these laws and regulations.

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the federal award activity of the Cleveland Metropolitan Park District (the “District”) under programs of the federal government for the year ended December 31, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (“Uniform Guidance”). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance. The District did not pass any awards through to subrecipients.

NOTE C – MATCHING REQUIREMENTS

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS****INDEPENDENT AUDITORS' REPORT**

To the Board of Park Commissioners
Cleveland Metropolitan Park District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, the major fund, and the aggregate remaining fund information of the Cleveland Metropolitan Park District ("District") as of and for the year ended December 31, 2016 and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 28, 2017. Our report includes a reference to other auditors who audited the financial statements of the Cleveland Zoological Society, as described in our report on the District's financial statements. This report does not include the results of the other auditor's testing of internal controls over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE**INDEPENDENT AUDITORS' REPORT**

To the Board of Park Commissioners
Cleveland Metropolitan Park District:

Report on Compliance for Each Major Federal Program

We have audited the Cleveland Metropolitan Park District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended December 31, 2016. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the District's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2016.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of compliance requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the discretely presented component unit, the major fund, and the aggregate remaining fund information of the District, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated June 28, 2017, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United State of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Citizens of Cuyahoga County and Hinckley Township of Medina County
Honorable Judge Anthony J. Russo
Bruce T. Rinker, Board of Park Commissioners, President
Debra K. Berry, Board of Park Commissioners, Vice-President
Dan T. Moore, Board of Park Commissioners, Vice-President

Formal Letter of Transmittal

We are pleased to submit Cleveland Metroparks' (the Metroparks) Comprehensive Annual Financial Report (CAFR) for the year ending December 31, 2016. This report conforms to Generally Accepted Accounting Principles (GAAP) and provides full and complete disclosure of the financial position and operations of Cleveland Metroparks for the year ended December 31, 2016. The accuracy of the data and the completeness and fairness of the presentation, including all disclosures, are the responsibility of Cleveland Metroparks management. The accuracy and completeness of this data is based on a comprehensive framework of internal controls that are established for this purpose. Because the cost of internal control should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements. To the best of our knowledge and beliefs, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position of the entity as a whole and the results of operations of the various operations of Cleveland Metroparks. All disclosures necessary to enable the reader to gain an understanding of Cleveland Metroparks financial activities have been included.

Ohio law requires that public offices reporting pursuant to Generally Accepted Accounting Principles (GAAP) shall file their reports with the Auditor of the State and publish notice of the availability of the financial statements within 150 days of the close of each year. The General Purpose External Financial Statements from this report were filed to fulfill that requirement for the year ended December 31, 2016.

State statutes require independent audits to be performed on all financial operations of Cleveland Metroparks. The Clark, Schaefer, Hackett & Co., has issued an unmodified ("clean") opinion on the Cleveland Metroparks financial statements for the year ended December 31, 2016. The independent auditor's report on the basic financial statements is located at the front of the Financial Section of this report.

This letter of transmittal is designed to complement the Management's Discussion and Analysis (MD&A) section and should be read in conjunction with it. The MD&A provides a narrative introduction, overview, and analysis of the basic financial statements.

Reporting Entity

In evaluating how to define Cleveland Metroparks for financial reporting purposes, management has considered all agencies, departments and organizations making up Cleveland Metroparks and its potential component units consistent with Governmental Accounting Standards Board Statement No. 14, “The Financial Reporting Entity” and Governmental Accounting Standard Board (GASB) Statement No. 61, “The Financial Reporting Entity: Omnibus.”

Component units are legally separate organizations for which the Metroparks is financially accountable. The Metroparks is financially accountable for an organization if the Metroparks appoints a voting majority of the organization's governing board and (1) the Metroparks is able to significantly influence the programs or services performed or provided by the organization; or (2) the Metroparks is legally entitled to or can otherwise access the organization's resources; the Metroparks is legally obligated or has otherwise assumed the responsibility to finance deficits of or provide financial support to the organization or the Metroparks is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the Metroparks in that the Metroparks approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burden on, the Metroparks.

The component unit financial statements that follow identify the financial data of Cleveland Metroparks' component unit, the Cleveland Zoological Society, which is reported separately to emphasize that it is legally separate from Cleveland Metroparks.

Cleveland Zoological Society (the Zoo Society) is a nonprofit organization which operates under a Board of Trustees. The Zoo Society promotes the conservation and propagation of wildlife primarily through the support of Cleveland Metroparks. The Zoo Society will engage the community in support of Cleveland Metroparks Zoo (the Zoo) and its mission to improve the future for wildlife and will marshal the resources necessary to ensure that the Zoo remains one of the region's preeminent destinations and ultimately one of the top five zoos in the country. Since the economic resources received by the Zoo Society are primarily for the benefit of, and are generally accessible to, Cleveland Metroparks, the Zoo Society is presented as a component unit of Cleveland Metroparks. The Zoo Society is included as a component unit of Cleveland Metroparks due to Cleveland Metroparks' influence on the programs and services provided by the Zoo Society and due to the operating agreement between Cleveland Metroparks and the Zoo Society. Cleveland Metroparks does not appoint any members of the Zoo Society's governing board or approve the budget or debt issuance of the Zoo Society.

Cleveland Metroparks Profile

Cleveland Metroparks was established on July 23, 1917, and today consists of over 23,000 acres of land in 18 reservations, their connecting parkways, and Cleveland Metroparks Zoo. The Metroparks is dedicated to conservation, education and recreation. Over 100 miles of parkways provide driving pleasure and easy access to Cleveland Metroparks facilities including; picnic areas and playfields, wildlife management areas and waterfowl sanctuaries, hiking, bridle, all purpose and physical fitness trails, eight golf courses, six outdoor education facilities, swimming, boating, fishing, tobogganing, sledding, and cross-country skiing.

Cleveland Metroparks is a separate political subdivision of the State of Ohio. The Metroparks is governed by a Board of Park Commissioners, composed of three citizens who serve three-year terms without compensation. Board members are appointed by the presiding Judge of the Probate Court of Cuyahoga County, The Honorable Judge Anthony J. Russo. The current Board of Park Commissioners officers are:

Bruce G. Rinker, President
Debra K. Berry, Vice-President
Dan T. Moore, Vice-President

Cleveland Metroparks' mission is to conserve natural resources and enhance people's lives by integrating outdoor education, recreation and zoological opportunities. The majority of Cleveland Metroparks' approximately 23,000 acres, located in 18 reservations, are dedicated to conservation. Whether to promote fishing opportunities within Cleveland Metroparks lakes or restore wetlands, natural resource management is a significant endeavor of the Metroparks.

Outdoor education is provided through six outdoor education facilities. Outdoor education is provided through individual and group programming at all six nature/visitor centers. In addition, Cleveland Metroparks maintains NatureTracks, a mobile education unit, which travels to area schools and locations throughout Cuyahoga County to bring nature education to children who otherwise might not experience the natural environment. Additionally, through a "Grow up Great" grant from PNC Bank, Cleveland Metroparks will continue to provide a mobile education vehicle focusing on programming for pre-kindergarten children including programs administered by the Cleveland Metropolitan School District and the Headstart program. The vehicle will also travel to fairs and festivals all summer long spreading an important environmental message to families. Also, Cleveland Metroparks, in cooperation with the City of Cleveland and The Ohio State University Extension/4-H, provides outdoor recreation and education experiences for the urban youth of Cleveland through the Youth Outdoors Program.

Recreation is provided at eight golf courses, the Chalet Recreation Area, swimming areas, two horse stables, numerous ball fields, open play areas and hundreds of miles of trails. Cleveland Metroparks Go Ape! treetop adventure course opened to the public in Cleveland Metroparks Mill Stream Run Reservation in April 2015. It is best described as an obstacle course in three dimensions. The course includes rope ladders, swinging "Tarzan ropes", five zip lines, and aerial bridges.

Additional preservation, recreation and outdoor education opportunities is provided through Cleveland Metroparks Acacia Reservation. Made possible through a generous donation by The Land Conservancy. Previously a country club, this 155 acre green space oasis, located in the City of Lyndhurst, will continue to be converted into an active public green space.

The Cleveland Zoo provides recreation, education and conservation and are recognized as one of the finest zoos in the United States, with more than 3,300 animals encompassing 183 rolling acres. Cleveland Metroparks Zoo Stillwater Event Center, opened in 2015, continues to be a popular venue for weddings, corporate events, and everything in between. This center, with 300 person seating capacity, provides a unique reservable facility for larger events during all hours of the day. Also opened in 2015, is the Ben Gogolick Giraffe Encounter which features an entirely new giraffe feeding experience for guests. New in 2016 is the Rosebrough Tiger Passage, a state of the art home for the Zoo's Amur tigers. The new facility is five times the size of the previous exhibit and features four different interconnected habitat areas for the tigers to roam in. Two of these connections pass over the heads of the visitors on the ground.

The award winning Cleveland Metroparks Ranger Department is the law enforcement branch of Cleveland Metroparks. Cleveland Metroparks rangers are State-certified law enforcement officers who exercise full police powers in the commission of their duties. Rangers are on duty 24-hours a day, year-round. Ranger Headquarters dispatches the department's 84 Rangers from 13 field offices and stable facilities positioned throughout the Metroparks. The Ranger Department consists of several specialized units and functions including "State certified" law enforcement K-9 officers (German Shepherds named Logan, Rico, Chase, Tyson and Creed), a ten member mounted equestrian unit, bicycle patrol team, detective bureau, dive team, marine patrol and honor guard. In 2015, the Ranger Department was awarded *CALEA Law Enforcement Accreditation*. This accreditation has been received by only four percent of American law enforcement agencies and serves as the International Gold Standard for public safety agencies.

Economic Condition and Outlook

Cleveland Metroparks saw successful passage of a 2.7 mill levy (1.8 mill renewal with a 0.9 mill increase) in November 2013. This initiative passed with approximately 70 percent affirmative vote. This levy will initially provide the Metroparks with approximately \$23 million of additional revenue per year, attributable to the new millage and updated property values in Cuyahoga County and Hinckley Township of Medina County. The levy extends for ten years (2014-2023) and will allow Cleveland Metroparks to implement prioritized initiatives articulated in Cleveland Metroparks Strategic Plan: Cleveland Metroparks 2020: The Emerald Necklace Centennial Plan and Cleveland Metroparks Zoo Strategic Long Term Plans.

Cuyahoga County, Ohio, in which 82 percent of Cleveland Metroparks acreage exists, spans a total of 1,246 square miles. According to the 2010 census, its population has decreased 9.2 percent since 2000. However, it is still the most populous and urbanized county in the State of Ohio. Cuyahoga County had an appraisal revaluation conducted in 2015.

Significant Initiatives

Cleveland Metroparks has remained committed to supporting existing facilities and infrastructure with a balance of new initiatives. Parkway paving and bridge rehabilitation remain a priority throughout Cleveland Metroparks.

Continued strategic land acquisitions were completed during 2016 bringing the total acres within Cleveland Metroparks reservations to 23,208 acres in 18 reservations.

On June 6, 2013, Cleveland Metroparks assumed management of the lakefront state properties which include Edgewater Park, E. 55th Street Marina, Gordon Park, Euclid Beach Park, Villa Angela and Wildwood Park. While the City of Cleveland will continue to own the properties, Cleveland Metroparks holds a 99 year lease to manage and enhance the parks, with a commitment to outstanding stewardship. Transitional funding, in the amount of \$14 million, was provided by the Ohio Department of Natural Resources to help facilitate significant capital improvements throughout all the properties. Euclid Beach Park, Villa Angela Park and Wildwood Park join Euclid Creek Reservation, while Edgewater Park, E. 55th Street Marina and Gordon Park comprise Cleveland Metroparks newest property, Lakefront Reservation. From beaches to boat ramps, fitness trails to fishing piers, Lakefront Reservation is a true gem in the "Emerald Necklace" anchoring Cleveland Metroparks' presence on the shores of Lake Erie. The lakefront properties will undergo an estimated \$17.6 million capital transformation over a three year period.

Cleveland Metroparks has reinvigorated the Cleveland Lakefront Parks into destinations of choice, reconnecting communities with their Great Lake and the Cuyahoga River. Enhancements include new trail connections, conservation initiatives, safety improvements, water-based recreation opportunities and innovative programming. During 2016, 47,394,974 individual visits were made to Cleveland Metroparks and Cleveland Metroparks Zoo. This represents an increase of 2.5 percent from 2015 (45,174,896).

From former industrial land farther along the Cuyahoga River, in Cleveland's urban core, Cleveland Metroparks created the innovative Rivergate Park. The space has been transformed into a recreational hub including a skate-park, bicycle co-op, and bike-share station. Merwin's Wharf restaurant, operated by Cleveland Metroparks, provides high-quality meals while offering diners up-close views of passing ships, recreational paddlers and competitions such as regattas and dragon boat races on the Cuyahoga River.

In 2014, Cleveland Metroparks acquired the Whiskey Island and Wendy Park properties. Whiskey Island, lies along the Lake Erie shoreline and includes Wendy Park, the Whiskey Island Marina, a restaurant, a dry dock, sand volleyball courts, and the location of the northern end of the Lake Link Trail.

Heritage Park I is on the East Bank of the Cuyahoga River near Canal Basin Park and the end of the Towpath Trail. Heritage Park I offers views of the freighters as they navigate the tight turns of the river as well as historic features, including the Irish Famine Memorial and a replica of the Lorenzo Carter log cabin.

The small greenspaces on either side of the Flats East Bank and Flats West Bank, along the Cuyahoga River are strategically positioned next to the new East Bank Flats development on one bank and Windows of the River, Cleveland Aquarium, and connections to the Lake Link Trail on the opposite bank. These spaces will become a greenspace parklet with recreational amenities, including a water taxi connection.

In 2016, Cleveland Metroparks Zoo opened the Rosebrough Tiger Passage, a new state of the art home for the Zoo's Amur tigers. The new facility is five times the size of the previous exhibit and features four different interconnected habitat areas for the tigers to roam in. Two of these connections pass overhead.

The Zoo is currently in the planning stages of an improved Asian Highlands area which will include new homes for the cheetahs and red pandas.

Financial Policies

Cleveland Metroparks has 103 short and long term financial policies available for its staff on Cleveland Metroparks portal and available to any citizen who request the same through the Department of Finance. The extensive policies address areas such as short and long-range planning, investments, budgeting, revenue, expenditures, payroll, capital assets, and auditing. A brief description of each follows:

Short and Long Range Planning

In conjunction with the departmental goals and objectives, short and long term operating and capital allocations are determined utilizing a financial forecast. This forecast ensures funds are adequately available through the ten year levy cycle. Further, the annual spending plan details monthly revenue and expenditure planning throughout the budget year.

Investments

The investment policy strives to maximize liquidity, safety and return. In accordance with investments available under Ohio Revised Code, the Chief Financial Officer shall exercise a standard of prudence and diversify investment instruments to avoid incurring unreasonable risks inherent in over investing in specific instruments, individual institutions or maturities. A report of all investments is submitted to the Board of Park Commissioners monthly.

Budgeting

The budget policies incorporate an extensive process in which all division managers are involved. Cleveland Metroparks adopts a temporary budget, representing approximately 24 percent of the prior year's budget, until the final budget is approved by the end of the first quarter. Financial reports are generated monthly and monitoring is done by division supervisors, chiefs, the Chief Executive Officer and the Chief Financial Officer. Budget adjustments can be accomplished within the object level without board action and between object accounts with board action.

Revenue

Forty-five revenue locations include: eight golf courses, Cleveland Metroparks Zoo, The Chalet, Nature Shops, six nature centers, two restaurants, marinas, and various concession locations. These locations deposit revenues directly and prepare summary reports weekly. Weekly revenue reports are then sent to accounting where they are entered into the accounting system and ultimately reconciled to the monthly bank statement. The Accounting Manual details specific cash collection and inventory procedures for each revenue location.

Expenditures

Cleveland Metroparks expenditures reflect the Board of Park Commissioners and staff's commitment to serve present and future citizens with reliable conservation, education and recreation opportunities. Expenditures are projected conservatively using an objective and analytical approach as well as certain techniques such as historical patterns, current information, and economic trends to maintain consistency, reliability, and reasonableness. Prudent expenditure planning and accountability ensures financial stability.

Payroll

Maintenance of accurate and complete payroll records is crucial to the overall control of expenditures and proper reporting of payroll costs. Adopted policies in this area provide a framework by which payroll is structured to provide effective internal controls and documentation.

Capital Assets

Capital Assets are tangible or intangible assets that have an initial useful life beyond five years. Capital assets include land, land improvements, buildings, site structures, exhibits, construction in progress, vehicles, machinery and equipment, and infrastructure. Capitalization limits have been established based on each of these asset classes and serve by which asset acquisitions are added to the capital asset accounts. Cleveland Metroparks depreciates in accordance with the requirements of the Governmental Accounting Standards Board's, Statement 34.

Compliance

Cleveland Metroparks' operational compliance function ensures financial integrity, the safeguarding of assets and adherence to established policies and procedures. Procedural reviews are performed throughout the year and include areas such as cash handling, inventory control, capital assets and payroll.

Awards and Achievements

The Government Finance Officers Association of the United States and Canada (GFOA) has presented an award of Distinguished Budget Presentation to Cleveland Metroparks for its annual budget for 24 consecutive fiscal years beginning January 1, 1993 through January 1, 2016. To receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communication device. The award is valid for a period of one year only.

The Cleveland Metroparks proudly received the Certificate of Achievement for Excellence in Financial Reporting for the fiscal years beginning January 1, 2012 through 2015, respectively. The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to a governmental unit that publishes an easily readable and efficiently organized Comprehensive Annual Financial Report which conforms to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only.

Cleveland Metroparks believes the current report conforms to the requirements and standards of the Certificate of Achievement Program and has submitted the report the GFOA to determine eligibility for a Certificate of Achievement.

Cleveland Metroparks additionally was the only governmental agency in Ohio and only Metropark in the United States to receive the National Purchasing Institute's 2016 Achievement of Excellence in Procurement Award. This is the sixth consecutive year this award has been earned.

Cleveland Metroparks, in 2013, also received accreditation from The Commission for Accreditation of Park and Recreation Agencies (CAPRA), the most prestigious organization for certifying standards of excellence in park districts in the United States. The accreditation process for CAPRA consists of an agency's compliance with 144 standards. Agencies must meet 36 Fundamental Standards and at least 85 percent of the remaining 108 standards. Only 106 of the thousands of parks and recreation agencies in the country meet these high standards and are accredited by CAPRA. Cleveland Metroparks met, or exceeded, 99 percent of the accreditation standards.

Acknowledgements

Successful preparation of a report of this scope depends upon the dedicated contribution of many employees. The sincere appreciation of those primarily responsible for its completion is extended to all contributors, but especially to those employees in the Finance Department. To a greater extent, the employees of the Local Government Services Section of the Auditor of State, contributed significantly to the preparation of this report. Finally, management wants to extend its appreciation to the Board of Park Commissioners for their support and commitment to exemplary financial reporting.

Postscript

The employees of Cleveland Metroparks are proud of the community in which we work and live. We pledge our continued dedication to providing the highest possible level of service to the citizens of Cuyahoga County and Hinckley Township of Medina County. We are committed to enhancing the quality of life that our community has come to expect and enjoy.

INDEPENDENT AUDITORS' REPORT

To the Board of Park Commissioners
Cleveland Metropolitan Park District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, the major fund, and the aggregate remaining fund information of the Cleveland Metropolitan Park District (the "District") as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Cleveland Zoological Society which represent all of the assets, net position, and revenues of the discretely presented component unit. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Cleveland Zoological Society, is based solely on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, the major fund, and the aggregate remaining fund information of the Cleveland Metropolitan Park District, as of December 31, 2016, and the respective changes in financial position and the budgetary comparison for the General Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules of net pension liabilities and pension contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, individual fund statement and schedule and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund statement and schedule are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Cleveland Metroparks
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

The discussion and analysis of Cleveland Metroparks' (the Metroparks) financial performance provides an overall review of the Metroparks' financial activities for the year ended December 31, 2016. The intent of this discussion and analysis is to look at the Metroparks' financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the Metroparks' financial performance.

Financial Highlight

Key financial highlights for 2016 are as follows:

- In total, net position decreased approximately \$1.7 million from 2015.
- Capital grants and contributions increased \$2.9 million from 2015 due to an increase of grants obtained and donations received in 2016. Charges for services increased by \$1,019,590 due to increased revenue in locations such as Manakiki, Seneca, and Sleepy Hollow Golf Courses, E55th Restaurant and Marina, as well as the additions of Emerald Necklace Restaurant and Marina.
- Property taxes are the largest general revenue source, and accounted for 60.45 percent of total revenue in 2016. Collections in 2016 remained fairly consistent with 2015.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are prepared and organized so the reader can understand the Metroparks as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at our specific financial conditions.

The statement of net position and statement of activities provide information about the activities of the whole Metroparks, presenting both an aggregate view of the Metroparks' finances and a longer-term view of those assets. The statement of activities shows changes to net position related to each department of the Metroparks. Fund financial statements tell how services were financed in the short-term as well as what dollars remain for future spending.

Reporting on the Metroparks as a Whole

Statement of Net Position and the Statement of Activities

The statement of net position and statement of activities include all assets and deferred outflows of resources and liabilities and deferred inflows of resources, using the accrual basis of accounting similar to the accounting method used by the private sector. The basis for this accounting takes into account all of the current year's revenues and expenses regardless of when the cash was received or paid.

These two statements report the Metroparks' net position and the change in net position. The change in net position is important because it tells the reader whether, for the Metroparks as a whole, the financial position of the Metroparks has improved or diminished. However, in evaluating the overall position of the Metroparks, non-financial information such as changes in the Metroparks' tax base and the condition of the Metroparks' capital assets will also need to be evaluated.

Cleveland Metroparks
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

In the statement of net position and the statement of activities, the Metroparks' activities are divided into two types of activities:

- **Governmental Activities** – All of the Metroparks' services are reported here, including park operations, zoo operations, golf course, ranger department and administration.
- **Component Unit** – The Metroparks includes the financial data of Cleveland Zoological Society (the Zoo Society). The Zoo Society is a nonprofit organization which operates under a Board of Trustees. The Zoo Society promotes the conservation and propagation of wildlife – particularly endangered species – primarily through support of the Cleveland Metroparks Zoo (the Zoo). The Zoo Society will engage the community in support of the Zoo and in its mission to improve the future for wildlife and will marshal the resources necessary to ensure that the Zoo remains one of the region's preeminent destinations and ultimately one of the top five Zoos in the country. Since the economic resources received by the Zoo Society are almost entirely for the benefit of and accessible to the Metroparks, the Zoo Society is presented as a component unit of the Metroparks. The Cleveland Zoological Society is included as a component unit of the Metroparks due to the Metroparks' influence on the programs and services provided by Cleveland Zoological Society and due to the operating agreement between the Cleveland Metroparks and Cleveland Zoological Society (Note 17). The Metroparks does not appoint any of the members of Cleveland Zoological Society's governing board or approve the budget or debt issuance of Cleveland Zoological Society.

Reporting on the Metroparks' Most Significant Fund

Governmental Fund

The presentation for the Metroparks' primary fund, the General Fund, focuses on how resources flow into and out of it and the balance that is left at year-end and available for spending in future periods. The General Fund is reported using modified accrual accounting which measures cash and all other financial assets that are expected to be readily converted to cash. The governmental fund statements provide a detailed short-term view of the Metroparks' general operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future on services provided to our users. The relationship (or difference) between governmental activities (reported on the statement of net position and the statement of activities) and the General Fund is reconciled in the financial statements.

<i>Net Position</i>	<u>\$370,284,407</u>	<u>\$371,967,549</u>	<u>(\$1,683,142)</u>

The net pension liability (NPL) is the largest single liability reported by the Metroparks at December 31, 2016 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the Metroparks' actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability. GASB 68 takes an earnings approach to pension accounting; however, the nature of

Cleveland Metroparks
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the standards required by GASB 68, the net pension liability equals the Metroparks' proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the Metroparks is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the Metroparks' statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

The significant increase in total deferred outflow of resources in 2016 was due to an increase in the difference between projected and actual earnings on investments related to the Metroparks' net pension liability for OPERS.

The net pension liability increase represents the Metroparks' proportionate share of the OPERS traditional plan's unfunded benefits. As indicated above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability.

Cleveland Metroparks
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

The decrease in 2016 net position is due to the increase in both current and long term liabilities, the largest being the net pension liability. On the statement of net position, cash decreased due to greater spending on capital projects as well as less property tax monies received in 2016. Capital assets increased significantly due to the capitalization of the land, land improvements, construction in progress, buildings and miscellaneous assets.

Current liabilities increased from 2015 to 2016 due primarily to contracts and retainage payable and accrued wages. The significant increase in capital assets impacted net position, as is evident in the large increase to net investment in capital assets and decrease to unrestricted.

Table 2 shows the changes in net position for the years ended December 31, 2016 and 2015.

Table 2
Changes in Net Position

Administration	21,420,296	19,825,583	1,594,713
<i>Total Program Expenses</i>	111,328,635	88,186,742	23,141,893
<i>Change in Net Position</i>	(1,683,142)	19,669,340	(21,352,482)
<i>Net Position Beginning of Year</i>	371,967,549	352,298,209	19,669,340
<i>Net Position End of Year</i>	\$370,284,407	\$371,967,549	(\$1,683,142)

Several revenue sources fund the Metroparks. Property taxes were the largest contributor in 2016 and accounted for 60.45 percent of total revenue, compared to 62.55 percent in 2015. The decrease in percentage is due to an increase in program revenues which caused property taxes to make up a smaller portion of total revenues.

Cleveland Metroparks
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

The Metroparks has maintained a philosophy to strive for self-sufficiency in areas such as the golf courses, the Zoo, the Chalet and Aquatics. In 2016, charges for services increased due to increased revenue in locations such as E55th Restaurant and Marina and Manakiki, Seneca and Sleepy Hollow Golf Courses, as well as the addition of Emerald Necklace Restaurant and Marina. As a result, charges for services in 2016 accounted for \$23,616,707 of total revenue, compared to \$22,597,117 of total revenue in 2015.

Program expenses increased in all areas in 2016. Park Operations increased in 2016 due to new operations in addition to materials and supplies purchased that were not capitalized. Park Operations also had increases in related depreciation and the pension expense. Zoo increased due to an increase in staff during 2016 in addition to an increase in operational costs. Overall, 2016 total program expenses increased \$23.1 million from that of 2015.

The General Fund

Information about the Metroparks' governmental fund begins on page 17. This fund is accounted for using the modified accrual basis of accounting. The Metroparks had governmental revenues of \$107,058,931 and expenditures of \$118,340,726. Revenue decreases are primarily due to decreases in intergovernmental, donations and sponsors and golf receipts. Expenditures increased primarily due to increases in current spending as well as large increases in capital outlay. As of the end of the current year, the Metroparks' General Fund reported an ending fund balance of \$22,552,750. The nonspendable fund balance of \$1,533,009 includes prepaids and inventory. Fund balance in the amount of \$6,933,503 is committed to capital improvements. The assigned fund balance includes \$1,918,063 for purchases on order and \$6,182,061 for the amount assigned for 2017 appropriations.

Budgeting Highlights

The Metroparks' budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

During the course of 2016, the Metroparks amended its General Fund budget. All recommendations for a budget change come from the Metroparks' Chief Financial Officer to the Board of Park Commissioners for resolution enactment on the change. The General Fund is monitored closely looking for possible revenue shortfalls or over spending by individual departments.

Original budgeted revenues for the General Fund were \$113,284,735; final budget amount was \$118,014,506 and the actual revenue was \$107,327,947. The major factor contributing to the decrease in actual revenue was that many reimbursements related to capital grant expenditures were not received but are anticipated in 2017. Original budgeted expenditures were less than the final budget by \$6,763,470, primarily due to additional expenditures budgeted for capital projects. As revenue estimates were revised, expenditure estimates followed. Actual expenditures were \$18,622,017 less than the final budget estimate due to a concerted effort to manage expenditures and ongoing capital improvements continuing into the next year.

Cleveland Metroparks
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

The increase in capital assets of \$15,357,837 in 2016 was primarily attributable to increases in the nondepreciable capital assets and exhibits due to land acquisitions and completion of Rosebrough Tiger Passage. Construction in progress increased due to the ongoing work on projects such as administration building renovations, Sleepy Hollow Golf Course irrigation work, and the Centennial Trail North. See Note 10 of the basic financial statements for additional information on capital assets.

Current Financial Related Activities

Cleveland Metroparks has committed itself to financial excellence and has a history of doing just that. The Metroparks has received the Government Finance Officers Association's *Distinguished Budget Presentation Award* for 24 consecutive fiscal years beginning January 1, 1993 through January 1, 2016.

Cleveland Metroparks received the Government Finance Officers Association's *Certificate of Achievement in Financial Reporting Award* for its first ever Comprehensive Annual Financial Report for the fiscal year ended December 31, 2012. This award and recognition has since annually repeated through the December 31, 2015 Comprehensive Annual Financial Report.

The mission of Cleveland Metroparks is to conserve significant natural resources and enhance people's lives by providing safe, high-quality outdoor education, recreation, and zoological opportunities. Further, the Metroparks is committed to creating compelling experiences that connect people with wildlife.

Annually Cleveland Metroparks makes available financial reports and budget documents. The Metroparks publishes a variety of informative documents related to the Metroparks and the Zoo. There is also information available at both the Metroparks and Zoo web sites www.clevelandmetroparks.com and www.clemetzoo.com, respectively.

Contacting Cleveland Metroparks Chief Financial Officer

This financial report is designed to provide the citizenry with the general overview of the Metroparks finances and show the Metroparks' accountability for all money it receives, spends or invests. If you have any questions about this report or need financial information, please contact Chief Financial Officer Karen Fegan, CPA, Cleveland Metroparks, 4101 Fulton Parkway, Cleveland, Ohio 44144, or by email at kf1@clevelandmetroparks.com.

Cleveland Metroparks
*Reconciliation of Governmental Fund Balance to
 Net Position of Governmental Activities
 December 31, 2016*

Total Governmental Fund Balance \$22,552,750

*Amounts reported for governmental activities in the
 statement of net position are different because*

Capital assets used in governmental activities
 are not financial resources and therefore are
 not reported in the fund. 380,439,211

Other long-term assets are not available to pay
 for current period expenditures and therefore
 are reported as unavailable revenues in the fund.

Delinquent Property Taxes	3,396,348
Intergovernmental	4,322,363
Donations and Sponsors	144,002
Golf Receipts	6,986
Zoo Receipts	16,288
Park Receipts	2,402
Other	49,473
	7,937,862

Total 7,937,862

Long-term liabilities are not due and payable in
 the current period and therefore are not
 reported in the fund.

Compensated Absences	(5,554,733)
Claims Payable	(284,341)
	(5,839,074)

Total (5,839,074)

The net pension liability is not due and payable in the current period;
 therefore, the liability and related deferred inflows/outflows are
 not reported in the governmental funds:

Deferred Outflows - Pension	25,933,274
Net Pension Liability	(59,588,255)
Deferred Inflows - Pension	(1,151,361)
	(34,806,342)

Total (34,806,342)

Net Position of Governmental Activities \$370,284,407

See accompanying notes to the basic financial statements

Cleveland Metroparks
*Reconciliation of the Changes in Fund Balance
of Governmental Fund to the Statement of Activities
For the Year Ended December 31, 2016*

Net Change in Fund Balances - Total Governmental Fund (\$11,281,795)

*Amounts reported for governmental activities in the
statement of activities are different because*

Governmental fund reports capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital Asset Additions:			
Capital Outlays	23,887,299		
Capital Contributions	3,233,160		
Current Year Depreciation	(11,180,059)		
Total			15,940,400

Governmental fund only reports the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a loss is reported for each disposal. (582,563)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund.

Delinquent Property Taxes	(1,465,664)		
Intergovernmental	679,562		
Donations and Sponsors	92,042		
Golf Receipts	6,743		
Zoo Receipts	5,330		
Park Receipts	(4,450)		
Other	39,839		
Total			(646,598)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental fund.

Compensated Absences	(363,408)		
Retrospective Workers Compensation	51,446		
Total			(311,962)

Contractually required contributions are reported as expenditures in the governmental fund; however, the statement of net position reports these amounts in deferred outflows. 5,446,515

Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities. (10,247,139)

Change in Net Position (\$1,683,142)

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Note 1 - Reporting Entity and Basis of Presentation

Cleveland Metroparks (the Metroparks) is a body politic established on July 23, 1917, by the Cuyahoga County Probate Court, under the authority of Section 1545.01, Ohio Revised Code.

The Metroparks' governing body is a three member Board of Park Commissioners (the Commissioners), who are appointed to three year terms by the Cuyahoga County Probate Court.

The Metroparks is dedicated to the conservation of natural resources and wildlife, while providing various recreational facilities and services which are to be enjoyed by the public. These activities are directly controlled by the Commissioners through the budgetary process and are included within this report.

In evaluating how to define the Metroparks for financial reporting purposes, management has considered all agencies, departments and organizations making up the Metroparks and its potential component units consistent with Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity" and Governmental Accounting Standard Board (GASB) Statement No. 61, "The Financial Reporting Entity: Omnibus."

Component units are legally separate organizations for which the Metroparks is financially accountable. The Metroparks is financially accountable for an organization if the Metroparks appoints a voting majority of the organization's governing board and (1) the Metroparks is able to significantly influence the programs or services performed or provided by the organization; or (2) the Metroparks is legally entitled to or can otherwise access the organization's resources; the Metroparks is legally obligated or has otherwise assumed the responsibility to finance deficits of or provide financial support to the organization or the Metroparks is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the Metroparks in that the Metroparks approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burden on, the Metroparks.

Discretely Presented Component Unit The component unit financial statements identify the financial data of the Metroparks' component unit, Cleveland Zoological Society, which is reported separately to emphasize that it is legally separate from the Metroparks.

Cleveland Zoological Society Cleveland Zoological Society (the Zoo Society) is a nonprofit organization which operates under a Board of Trustees. The Zoo Society promotes the conservation and propagation of wildlife – particularly endangered species – primarily through the support of the Metroparks. The Zoo Society will engage the community in support of the Cleveland Zoo (the Zoo) and in its mission to improve the future for wildlife and will marshal the resources necessary to ensure that the Zoo remains one of the region's preeminent destinations and ultimately one of the top five zoos in the country. Since the economic resources received by the Zoo Society are primarily for the benefit of and are generally accessible to the Metroparks, the Zoo Society is presented as a component unit of the Metroparks. Cleveland Zoological Society is included as a component unit of the Metroparks due to the Metroparks influence on the programs and services provided by Cleveland Zoological Society and due to the operating agreement between the Metroparks and Cleveland Zoological Society (Note 17). The Metroparks does not appoint any of the members of Cleveland Zoological Society's governing board or approve the budget or debt issuance of Cleveland Zoological Society. Financial statements can be obtained from Cleveland Zoological Society, 3900 Wildlife Way, Cleveland, Ohio 44109.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

The Zoo Society uses a non-governmental GAAP reporting model; therefore the Zoo Society's statement of financial position and statement of activities are reported on a separate page following the Metroparks's statement of net position and statement of activities.

Information in the following notes to the Metroparks' basic financial statements is applicable to the Metroparks. Information relative to the component unit for the year ended December 31, 2016 is presented in Note 17.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the Metroparks have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Metroparks' accounting policies are described below.

Basis of Presentation

The Metroparks' basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements The statement of net position and the statement of activities display information about the Metroparks as a whole. These statements include the financial activities of the Metroparks, except for fiduciary funds. These statements usually distinguish between those activities of the Metroparks that are governmental and those that are considered business-type. The Metroparks, however, does not have business-type activities.

The statement of net position presents the financial condition of the governmental activities of the Metroparks at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Metroparks' governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Metroparks, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program is self-financing or draws from the general revenues of the Metroparks.

Fund Financial Statements During the year, the Metroparks segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Fiduciary funds are reported by type.

Fund Accounting

The Metroparks uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. The Metroparks reports two categories of funds: governmental and fiduciary.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Governmental Funds Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities and deferred inflows of resources are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balances. The following is the Metroparks' only governmental fund:

General Fund The General Fund accounts for and reports all financial resources of the Metroparks. The General Fund balance is available to the Metroparks for any purpose provided it is expended or transferred according to the general laws of Ohio.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the Metroparks under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Metroparks' own programs. The Metroparks has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Metroparks' agency fund accounts for deposits held for an employee flexible benefit plan.

Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the Metroparks are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements The General Fund is accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for the General Fund.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statement prepared for fiduciary funds are prepared using the accrual basis of accounting. The General Fund uses the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the Metroparks, available means expected to be received within sixty days of year-end.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Nonexchange transactions, in which the Metroparks receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 7). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Metroparks must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Metroparks on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: state-levied locally shared taxes, damages and fines, interest, grants and rentals.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the Metroparks, deferred outflows of resources are reported on the government-wide statement of net position for pension. The deferred outflows of resources related to pension are explained in Note 11.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the Metroparks, deferred inflows of resources include property taxes, pension and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2016, but which were levied to finance year 2017 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the Metroparks, unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the reconciliation of total governmental fund balance to net position of governmental activities found on page 18. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 11)

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Cash and Cash Equivalents

During 2016, the Metroparks' investments were limited to the State Treasury Asset Reserve of Ohio (STAR Ohio), nonnegotiable certificates of deposit, Federal Home Loan Bank bonds and Federal Home Loan Mortgage Corporation notes. Investments are reported at fair value, which is based on quoted market price or current share, with the exception of nonnegotiable certificates of deposit, which are reported at cost.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

During 2016, the Metroparks' invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The Metroparks measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2016, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

Investment procedures are restricted by the provisions of the Ohio Revised Code. Interest revenue credited to the General Fund amounted to \$217,285 during 2016.

Investments with an original maturity of three months or less at the time they are purchased by the Metroparks and investments of the cash management pool are presented on the financial statements as cash equivalents.

Cash and cash equivalents that are held separately by the Metroparks for payment of retainage to contractors upon project completion are recorded as "Cash and Cash Equivalents with Fiscal Agents".

Materials and Supplies Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of materials and supplies held for consumption.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond the current year, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expenditure/expense in the year in which the services are consumed.

Capital Assets

The Metroparks' only capital assets are general capital assets. General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the General Fund. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the financial statements of the General Fund.

All capital assets, except for the Metroparks' collection of zoo animals, are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The Metroparks was able to estimate the historical cost for the initial reporting of infrastructure by backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their acquisition values as of the date received. The Metroparks capitalizes all land, construction in progress and infrastructure. The capitalization thresholds for the Metroparks' other capital assets are as follows:

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Exhibits	\$50,000
Buildings	50,000
Machinery and Equipment	1,000
Vehicles	1,000

Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All capital assets are depreciated except for land, land improvements and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the Metroparks' historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental Activities
Description	Estimated Lives
Site Structures	20 years
Exhibits	40 years
Buildings	40 years
Machinery and Equipment	5 - 10 years
Vehicles	7 years
Infrastructure	20 - 40 years

The Metroparks reports infrastructure consisting of bridges, fords, dams, tunnels, utilities, roads, all purpose trails, golf course cart paths and other paved areas and infrastructure that was acquired prior to December 31, 1980.

The Metroparks' collection of zoo animals meets the definition of a capital asset and normally should be reported in the financial statements. GASB Statement No. 34 does not require capitalization of collections that meet all of the following criteria: 1) the collection is held for reasons other than financial gain, 2) the collection is protected, kept unencumbered, cared for, and preserved, and 3) the collection is subject to an organizational policy requiring that the proceeds from sales of collection items be used to acquire other items for the collections. Because the Metroparks' collection of zoo animals meets the above requirements, the Metroparks has not capitalized them.

Pensions

For purpose of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the fund. However, claims and judgments, compensated absences and net pension liability are reported as a liability in the fund financial statements only to the extent payments come due each period upon the occurrence of employee resignations and retirements.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The Metroparks records a liability for all accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is an estimate based upon the Metroparks' past experience of making termination payments.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the Metroparks is bound to observe constraints imposed upon the use of the resources in the governmental fund. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the Commissioners. Those committed amounts cannot be used for any other purpose unless the Commissioners remove or change the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the Metroparks for specific purposes but do not meet the criteria to be classified as restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Commissioners by ordinance or by State statute. State statute authorizes the Chief Financial Officer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The commissioners assigned amounts to cover a gap between estimated revenue and appropriations in the 2017 appropriated budget.

Unassigned Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

The Metroparks applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net Position represents the difference between all other elements in a statement of net position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from these estimates.

Budgetary Process

The General Fund is legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the Certificate of Estimated Resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The Certificate of Estimated Resources establishes a limit on the amount the Commissioners may appropriate. The appropriations resolution is the Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Commissioners. The legal level of control has been established by the Commissioners at the object level. Any budgetary modifications at this level may only be made by resolution of the Commissioners.

The Certificate of Estimated Resources may be amended during the year if projected increases or decreases in revenue are identified by the Chief Financial Officer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the Certificate of Estimated Resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended Certificate of Estimated Resources in effect at the time the final appropriations were passed.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Commissioners during the year.

Note 3 - Change in Accounting Principle

For 2016, the Metroparks implemented Governmental Accounting Standards Board (GASB) Statement No. 72, "Fair Value Measurement and Application," GASB Statement No 73, "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68," GASB Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments," GASB

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Statement No. 77, “Tax Abatement Disclosures,” GASB Statement No. 79, “Certain External Investment Pools and Pool Participants,” and GASB Statement No. 82, “Pension Issues an Amendment of GASB Statements No. 67, No. 68 and No. 73.”

GASB Statement No. 72 addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes for applying fair value to certain investments and disclosures related to all fair value measurements. These changes were incorporated in the Metroparks’ 2016 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 73 establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement 68. The implementation of this GASB pronouncement did not result in any changes to the Metroparks’ financial statements.

GASB Statement No. 76 identifies-in the context of the current governmental financial reporting environment-the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with generally accepted accounting principles (GAAP) and the framework for selecting those principles. The implementation of this GASB pronouncement did not result in any changes to the Metroparks’ financial statements.

GASB Statement No. 77 requires disclosure of information about the nature and magnitude of tax abatements. These changes were incorporated in the Metroparks’ 2016 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 79 establishes accounting and financial reporting standards for qualifying external investment pools that elect to measure for financial reporting purposes all of their investments at amortized cost. This Statement provides accounting and financial reporting guidance and also establishes additional note disclosure requirements for governments that participate in those pools. The Metroparks participates in STAR Ohio which implemented GASB Statement No. 79 for 2016. The Metroparks incorporated the corresponding GASB 79 guidance into their 2016 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 82 improves consistency in the application of pension accounting. These changes were incorporated in the Metroparks’ 2016 financial statements; however, there was no effect on beginning net position/fund balance.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Note 4 - Budgetary Basis of Accounting

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP basis), the budgetary basis as provided by law is based upon accounting for transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual, General Fund, is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget and to demonstrate compliance with State statute. The major differences between the budget basis and the GAAP basis (generally accepted accounting principles) are:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as committed or assigned fund balance (GAAP).
4. Unrecorded cash represents amounts received but not included as revenue on the budget basis operating statements. These amounts are included as revenue on the GAAP basis operating statement.
5. Investments reported at cost (budget) rather than fair value (GAAP).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement for the General Fund for the year ending December 31, 2016.

Net Change in Fund Balance	2016
GAAP Basis	(\$11,281,795)
Net Adjustment for Revenue Accruals	191,934
Beginning Unrecorded Cash	662,994
Ending Unrecorded Cash	(633,546)
Ending Fair Value Adjustment for Investments	47,634
Net Adjustment for Expenditure Accruals	(75,060)
Encumbrances	(11,767,946)
Budget Basis	(\$22,855,785)

Note 5 - Fund Balance

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the Metroparks is bound to observe constraints imposed upon the use of the resources in the government fund. The constraints placed on fund balance for the General Fund is presented below:

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Fund Balance	December 31, 2016
<i>Nonspendable</i>	
Inventory	\$979,943
Prepays	553,066
<i>Total Nonspendable</i>	<i>1,533,009</i>
<i>Committed to</i>	
Capital Improvements	6,933,503
<i>Assigned to</i>	
2017 Appropriations	6,182,061
Purchases on Order:	
Salaries and Benefits	10,569
Operating Supplies	1,907,494
<i>Total Assigned</i>	<i>8,100,124</i>
<i>Unassigned</i>	<i>5,986,114</i>
<i>Total Fund Balance</i>	<i>\$22,552,750</i>

Note 6 - Deposits and Investments

Active deposits are public monies determined to be necessary to meet current demands upon the Metoparks' treasury. Active monies must be maintained either as cash in the Metoparks' treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Commissioners have identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the Metoparks can be deposited or invested in the following securities:

1. United States Treasury bills, bonds notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

3. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
4. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
5. Bonds and other obligations of the State of Ohio, and with certain limitations bonds and other obligations of political subdivisions of the State of Ohio;
6. The State Treasurer's investment pool (STAR Ohio) or STAR Plus;
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed 180 days in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met; and
8. Written repurchase agreements in the securities described in (1) or (2) provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed 30 days.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the Metroparks, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial Credit Risk Custodial credit risk for deposits is the risk that in the event of bank failure, the Metroparks will not be able to recover deposits or collateral securities that are in the possession of an outside party. At December 31, 2016, \$5,016,792 of the Metroparks' bank balance of \$12,868,498 was uncollateralized and uninsured. Although the securities were held by the pledging financial institutions' trust departments and all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the Metroparks to a successful claim by the FDIC.

The Metroparks has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the Metroparks or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Investments

Investments are reported at fair value. As of December 31, 2016, the Metroparks had the following investments:

Measurement/Investment	Measurement Amount	Maturity	Standard & Poor's Rating	Percentage of Total Investments
Net Asset Value Per Share				
STAR Ohio	\$9,063,461	Average 51.6 Days		N/A
Fair Value - Level Two Inputs				
Federal Home Loan Bank Bonds	1,000,640	Less than One Year	AA+	7.66 %
Federal Home Loan Mortgage Corporation Notes	3,002,400	Less than One Year	AA+	22.98 %
Total Fair Value - Level Two Inputs	4,003,040			
Total Investments	\$13,066,501			

The Metroparks categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the Metroparks' recurring fair value measurements as of December 31, 2016. The Metroparks' investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs).

Interest Rate Risk As a means of limiting its exposure to fair value losses caused by rising interest rates, the Metroparks' investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the Metroparks' investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Credit Risk Federal Home Loan Bank bonds and Federal Home Loan Mortgage Corporation notes are registered and carry a rating of AA+ under Standard & Poor's and a rating of Aa under Moodys. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

Concentration of Credit Risk Concentration of credit risk is defined as the risk of loss attributed to the magnitude of the Metroparks' investments in a single issuer. The Metroparks' investment policy requires diversification of the portfolio, but only states that the Treasurer shall diversify use of investment instruments to avoid incurring unreasonable risks inherent in overinvesting in specific instruments, individual institutions or maturities.

Note 7 - Receivables

Receivables at December 31, 2016 consisted of property taxes, amounts due from the component unit, accounts (billings for user charged services), accrued interest and intergovernmental receivables. All

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

receivables, except property taxes, are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year. The principal items of intergovernmental receivables are homestead and rollback, local government, grants and entitlements.

Property Taxes

Property taxes include amounts levied against all real, public utility and tangible personal property located in the County. Property tax revenue received during 2016 for real and public utility property taxes represents collections of 2015 taxes.

2016 real property taxes are levied after October 1, 2016 on the assessed value as of January 1, 2016, the lien date. Assessed values are established by state law at 35 percent of appraised market value. 2016 real property taxes are collected in and intended to finance 2017 operations.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2016 public utility property taxes which became a lien December 31, 2015, are levied after October 1, 2016, and are collected in 2017 with real property taxes.

The full tax rate for all Metroparks operations for the year ended December 31, 2016 was \$2.75 per \$1,000 of assessed value. The assessed values of real and public utility property upon which 2016 property tax receipts were based are as follows:

	Cuyahoga County	Medina County	Total
Real Property			
Residential/Agricultural	\$19,073,742,940	\$287,486,560	\$19,361,229,500
Commercial Industrial/Public Utility	7,817,360,430	15,856,110	7,833,216,540
Public Utility Property	943,995,530	5,605,170	949,600,700
Total Assessed Value	\$27,835,098,900	\$308,947,840	\$28,144,046,740

The Cuyahoga County Fiscal Officer and Medina County Auditor collect property taxes on behalf of all taxing entities in the Counties, including Cleveland Metroparks. The Cuyahoga County Fiscal Officer and Medina County Auditor periodically remit to the Metroparks their portion of the taxes collected. Property taxes receivable represents real and public utility property taxes and outstanding delinquencies which are measurable as of December 31, 2016 and for which there is an enforceable legal claim. In the General Fund, the portion of the receivable not levied to finance 2016 operations is offset to deferred inflows of resources – property taxes. On the accrual basis, collective delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

Tax Abatements

For 2016, the Metropark’s property taxes were reduced by \$3,195,562 under various tax abatement agreements entered into by City of Cleveland.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Note 8 - Risk Management

The Metroparks is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

During 2016, the Metroparks contracted with several companies for various types of insurance as follows:

Company	Type	Coverage
Tokio Marine HCC	Flood (other than Zone A)	\$5,000,000
	Earthquake	5,000,000
	Employment Practices	1,000,000
	General Liability	1,000,000
	Liquor Liability	1,000,000
	Property	377,664,496
	Automobile Liability	1,000,000
	Inland Marine	39,689,365
	Inland Marine - Pedestrian Bridges	23,785,395
	Public Official/Law Enforcement	1,000,000
	Data Processing Equipment	2,051,654
	Commercial Crime	500,000
	Excess Liability	10,000,000
Tokio Marine HCC	Boiler and Machinery	40,050,000
Western Surety	Treasurer Bond	5,000,000
Markel	Data Breach and Privacy (cyber liability)	2,000,000
Atlantic Specialty Insurance Co.	Hail/Jones Act (water taxi)	1,000,000 (6/1/16)
Nation Flood Insurance Program (FEMA)	Flood (Zone A)	Coverage range for various buildings 100,000 - 500,000 (various dates)

There has not been a significant reduction in commercial coverage from the prior year and settled claims have not exceeded coverage in any of the last five years.

Effective January 1, 2007, the Metroparks established a self-insured program in the General Fund to provide employees' medical, hospitalization and prescription drug coverage under the Preferred Provider Organization (PPO) plan option, in accordance with Section 9.833 of the Ohio Revised Code.

The employee deductible and out-of-pocket maximum are:

	Plan A		Plan B		Plan C	
	Deductible	Out-of-Pocket Maximum	Deductible	Out-of-Pocket Maximum	Deductible	Out-of-Pocket Maximum
Individual	\$300 to \$1,000	\$1,500 to \$3,000	\$750 to \$1,500	\$4,500 to \$6,000	\$3,000 to \$6,000	\$5,000 to \$10,000
Family	\$600 to \$2,000	\$3,000 to \$6,000	\$1,500 to \$3,000	\$9,000 to \$12,000	\$6,000 to \$12,000	\$10,000 to \$20,000

A third party administrator, Cigna, reviewed all claims which were then paid by the Metroparks. The Metroparks purchased stop-loss coverage of \$125,000 per employee per year and aggregate stop loss should total claims exceed projected claims of \$7,003,083 by 125 percent. The Metroparks pays coverage into the self-insurance program for union employees based on the following percentages: 82 percent for the A plan, 87 percent for the B plan and 95 for the C plan. The Metroparks pays coverage into the self-insurance program for non-union employees based on the following percentages: 85 percent for the A

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

plan, 90 percent for the B plan and 95 for the C plan. Incurred but not reported claims of \$345,700 have been accrued as a liability based on an actuarial valuation of health care benefits liability as of December 31, 2016. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claims adjustment expenses. Management's expectation is the claims liabilities will be paid within one year.

Changes in the claims liability amounts for 2015 and 2016 were:

	<u>Beginning of Year</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at End of Year</u>
2015	\$347,000	\$5,306,410	\$5,204,410	\$449,000
2016	449,000	6,639,908	6,743,208	345,700

In prior years, the Metroparks participated in the State Workers' Compensation retrospective rating and payment system. During 2016, the Metroparks no longer participated in the retrospective rating and payment system. The maintenance of outstanding claims benefits is accounted for in the General Fund. Outstanding claims of \$284,341 have been accrued as a liability at December 31, 2016 based on an estimate by the Metroparks.

The outstanding claims liability of \$284,341 reported at December 31, 2016, is based on the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claims adjustment expenses. Changes in the workers' compensation claims liability amounts for 2015 and 2016 were:

	<u>Beginning of Year</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Change in Estimate</u>	<u>Balance at End of Year</u>
2015	\$682,469	\$190,670	\$283,445	(\$253,907)	\$335,787
2016	335,787	518,142	19,655	(549,933)	284,341

Note 9 - Long Term Obligations

Changes in the long-term obligations of the Metroparks during 2016 were as follows:

	<u>Balance at Beginning of Year</u>	<u>Additions</u>	<u>(Reductions)</u>	<u>Balance at End of Year</u>	<u>Amount Due in One Year</u>
Compensated Absences	\$5,191,325	\$819,452	\$456,044	\$5,554,733	\$1,212,062
Retrospective Workers' Compensation	335,787	518,142	569,588	284,341	10,362
Net Pension Liability	39,167,876	20,420,379	0	59,588,255	0
Total	<u>\$44,694,988</u>	<u>\$21,757,973</u>	<u>\$1,025,632</u>	<u>\$65,427,329</u>	<u>\$1,222,424</u>

Compensated absences, retrospective workers' compensation and the net pension liability will be paid from the General Fund. There is no repayment schedule for the net pension liability. For additional information related to the net pension liability see Note 11.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

During 2016, the Metroparks received \$3,233,160 in land donations. The Metroparks has recorded these as capital contributions.

Note 11 - Defined Benefit Pension Plan

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the Metroparks' proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Metroparks' obligation for this liability to annually required payments. The Metropark cannot control benefit terms or the manner in which pensions are financed; however, the Metropark does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - Metropark employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. Metropark employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35
Law Enforcement	Law Enforcement	Law Enforcement
Age and Service Requirements: Age 52 with 15 years of service credit	Age and Service Requirements: Age 48 with 25 years of service credit or Age 52 with 15 years of service credit	Age and Service Requirements: Age 48 with 25 years of service credit or Age 56 with 15 years of service credit
Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25	Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25	Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local	Law Enforcement
2016 Statutory Maximum Contribution Rates		
Employer	14.0 %	18.1 %
Employee	10.0 %	*
2016 Actual Contribution Rates		
Employer:		
Pension	12.0 %	16.1 %
Post-employment Health Care Benefits	2.0	2.0
Total Employer	14.0 %	18.1 %
Employee	10.0 %	13.0 %

* This rate is determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Metroparks' contractually required contribution was \$5,446,515 for 2016. Of this amount, \$111,794 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2015, and was determined by rolling forward the total pension liability as of January 1, 2015, to December 31, 2015. The Metroparks' proportion of the net pension liability was based on the Metroparks' share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	OPERS
Proportion of the Net Pension Liability:	
Current Measurement Date	0.344018%
Prior Measurement Date	0.324745%
Change in Proportionate Share	0.0192730%
Proportionate Share of the Net Pension Liability	\$59,588,255
Pension Expense	\$10,247,139

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

At December 31, 2016, the Metropark reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>OPERS</u>
Deferred Outflows of Resources	
Net difference between projected and actual earnings on pension plan investments	\$17,515,224
Changes in proportion and differences between Metropark contributions and proportionate share of contributions	2,971,535
Metropark contributions subsequent to the measurement date	<u>5,446,515</u>
Total Deferred Outflows of Resources	<u>\$25,933,274</u>
Deferred Inflows of Resources	
Differences between expected and actual experience	<u>\$1,151,361</u>
Total Deferred Inflows of Resources	<u>\$1,151,361</u>

\$5,446,515 reported as deferred outflows of resources related to pension resulting from Metropark contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	<u>OPERS</u>
Year Ending December 31:	
2017	\$5,770,167
2018	5,024,542
2019	4,576,990
2020	<u>3,963,699</u>
Total	<u>\$19,335,398</u>

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2015, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuations are presented below.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Wage Inflation	3.75 percent
Future Salary Increases, including inflation	4.25 to 10.05 percent including wage inflation
COLA or Ad Hoc COLA:	
Pre-January 7, 2013 Retirees	3 percent, simple
Post-January 7, 2013 Retirees	3 percent, simple through 2018, then 2.8 percent, simple
Investment Rate of Return	8 percent
Actuarial Cost Method	Individual Entry Age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 0.4 percent for 2015.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2015 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	23.00 %	2.31 %
Domestic Equities	20.70	5.84
Real Estate	10.00	4.25
Private Equity	10.00	9.25
International Equities	18.30	7.40
Other investments	18.00	4.59
Total	<u>100.00 %</u>	<u>5.27 %</u>

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Discount Rate The discount rate used to measure the total pension liability was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Metroparks' Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the Metroparks' proportionate share of the net pension liability calculated using the current period discount rate assumption of 8 percent, as well as what the Metroparks' proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
Metroparks' proportionate share of the net pension liability	\$94,938,647	\$59,588,255	\$29,771,318

Changes between Measurement Date and Report Date

In October 2016, the OPERS Board adopted certain assumption changes which will impact their annual actuarial valuation prepared as of December 31, 2016. The most significant change is a reduction in the discount rate from 8.0 percent to 7.5 percent. Although the exact amount of these changes is not known, the impact to the Metroparks' net pension liability is expected to be significant.

Note 12 - Postemployment Benefits

Ohio Public Employees Retirement System

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintained two cost-sharing, multiple-employer defined benefit postemployment health care trusts, which funded multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement and Medicare Part B premium reimbursements, to qualifying benefit recipients of both the traditional pension and the combined plans. Members of the member-directed plan do not qualify for ancillary benefits, including OPERS sponsored health care coverage.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2016, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

At the beginning of 2016, OPERS maintained three health care trusts. The two cost-sharing, multiple employer trusts, the 401(h) Health Care Trust (401(h) Trust) and the 115 Health Care Trust (115 Trust), worked together to provide health care funding to eligible retirees of the Traditional Pension and Combined plans. Each year, the OPERS Board of Trustees determines the portion of the employer contributions rate that will be set aside to fund health care plans. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2016 remained at 2.0 percent for both the Traditional Pension and Combined plans. The Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The third trust is a Voluntary Employee's Beneficiary Association (VEBA) Trust that provides funding for a Retiree Medical Account (RMA) for Member-Directed Plan members. The employer contribution as a percentage of covered payroll deposited to the RMAs for 2016 was 4.0 percent.

In March 2016, OPERS received two favorable rulings from the IRS allowing OPERS to consolidate all health care assets into the 115 Trust. Transition to the new health care trust structure occurred during 2016. OPERS Combining Statements of Changes in Fiduciary Net Position for the year ended December 31, 2016, will reflect a partial year of activity in the 401(h) Trust and VEBA Trust prior to the termination of these trusts as of end of business day June 30, 2016, and the assets and liabilities, or net position, of these trusts being consolidated into the 115 Trust on July 1, 2016.

Substantially all of the Metroparks' contribution allocated to fund postemployment health care benefits relates to the cost-sharing, multiple employer trusts. The corresponding contribution for the years ended December 31, 2016, 2015, and 2014 was \$902,033, \$947,954 and \$814,388, respectively. For 2016, 95.69 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2015 and 2014.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Note 13 – Other Benefits

Compensated Absences

The criteria for determining vacation and sick leave liabilities are derived from negotiated agreements and personal contracts. Employees earn vacation and sick leave at different rates which are also affected by length of service. Vacation can be accumulated for up to three years. Sick leave accrual is continuous, without limit.

Upon retirement, resignation, or death, employees with ten or more years of service with the Metroparks will be paid for one fourth of their accumulated hours of sick leave. Upon retirement, termination, or death, an employee will be paid for unused vacation up to the three year limit.

Holiday time may be accumulated for Rangers indefinitely and compensatory time earned must be taken by the end of the subsequent calendar year.

Health, Dental, Vision and Life Insurance

Employees can take part in the self-insurance PPO health insurance program with three plans A, B and C. Premiums are paid by the Metroparks, based on the following percentages for union and non-union employees, respectively: 82 and 85 percent for the A plan, 87 and 90 percent for B plan and both 95 percent for the C plan. The Metroparks provides dental and vision through Aetna. It also provides life insurance with accidental death and dismemberment insurance for full-time and part-time employees and long term disability to full-time employees through Reliance Standard Insurance.

Flexible Benefit Plan

Section 125 of the Internal Revenue Service (IRS) code permits the Flexible Benefit Plan, as established by the Metroparks. The Flexible Benefit Plan (FBP) allows employees to defer pay on a pre-tax basis to pay premium contribution(s) and Flexible Spending Accounts (FSA) reimbursements for qualified medical (up to \$2,550) and /or dependent care (up to \$5,000) expenses. The FSA accounts allow full-time employees to pay for qualified out-of-pocket medical and dependent care expenses with pre-tax income. Amounts deposited into the FSA account for medical expenses may be used at the employee's discretion for qualified expenses incurred during the plan year (January 1 through December 31). Amounts put into the FSA accounts are deducted before Federal, State and Medicare taxes are withheld. A provision of the code provides that any funds left in the FSA declaration at the end of the plan year up to \$500 may be rolled over into the next year. Any amount over \$500 is forfeited. \$82,659 has been reported as a liability in the agency fund at December 31, 2016.

Amounts deposited into the FSA account for dependent care may be used at the employee's discretion for qualified expenses incurred during the calendar year.

Note 14 – Significant Commitments

Contractual Commitments

At December 31, 2016, the Metroparks' significant contractual commitments in excess of \$50,000 consisted of:

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

	Contract Amount	Amount Paid	Remaining on Contract
ADP	\$118,000	\$61,221	\$56,779
Albert M. Higley Co.	4,368,999	1,037,944	3,331,055

Van Curen Services, Inc.	62,488	0	62,488
Total	<u>\$21,826,159</u>	<u>\$12,019,429</u>	<u>\$9,806,730</u>

All of the remaining committed amounts were encumbered at year end. The amounts of \$2,198,213 and \$633,546 in contracts and retainage payable have been capitalized.

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were \$11,767,946.

Note 15 - Contingencies

The Metroparks is a party to legal proceedings seeking damages. The Metroparks management is of the opinion that the ultimate disposition of a majority of the claims and legal proceedings will not have a material effect, if any, on the financial condition of the Metroparks.

Note 16 – Related Party Transaction

During 2016, the Metroparks received \$4,446,696 from the Zoo Society, a discretely presented component unit of the Metroparks. The Metroparks is also reporting a due from component unit in the amount of \$977,746.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Note 17 – Cleveland Zoological Society (Zoo Society)

Summary of Significant Accounting Policies

Nature of Activities The Cleveland Zoological Society (the “Zoo Society”) is the advancement partner of Cleveland Metroparks Zoo (the “Zoo”) in support of a shared mission – We create compelling experiences that connect people with wildlife and inspire personal responsibility for conserving our natural world. The strong public-private partnership between the Zoo and the nonprofit Zoo Society facilitates continuous improvements at the Zoo and contributes significantly to the quality of life in our region. With an average annual attendance of 1.0 million visitors and 41,000 household members, the Zoo and Zoo Society are recognized as a premier conservation education facility and as a top destination in Northeast Ohio.

The Zoo Society is governed by a Board of Trustees and is a separate and distinct entity from the Cleveland Metropolitan Park District. The Zoo Society’s activities are primarily in support of the District’s Zoo, subject to approval by the Zoo Society’s Board.

Basis of Presentation The Zoo Society follows authoritative guidance issued by the Financial Accounting Standards Board (“FASB”) which established the FASB Accounting Standards Codification (“ASC”) as the single source of authoritative accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared on the accrual basis of accounting. Net position and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net position of the Zoo Society and changes therein are classified and reported as follows:

Unrestricted Net Position – Net position that are not subject to donor-imposed restrictions. These include both board-designated and undesignated net position.

Unrestricted Net Position (Undesignated) – Consists of net position that are not subject to donor-imposed restrictions nor have been designated for a specific purpose by the Zoo Society’s Board of Trustees. The purpose of undesignated unrestricted net position is to provide support for the daily operations and the mission of the Zoo Society.

Unrestricted Net Position (Board-Designated) – Consists of net position that can be used only for the specific purposes determined by a formal action of the Zoo Society’s Board of Trustees, which is the Zoo Society’s highest level of decision-making authority. Commitments may be changed or lifted only by the Zoo Society’s Board of Trustees taking the same formal action that imposed the constraint originally. The purpose of board-designated net position is to provide funding to ensure the continuous operation of the Zoo Society (the Sustaining Fund) and to support initiatives to connect people with wildlife (the ZooFutures Fund). In addition, Board-designated funds are included, along with donor-designated funds, in both the Animal Care Fund and the Conservation Fund.

Temporarily Restricted Net Position – Net position subject to donor-imposed restrictions that may or will be met, either by actions of the Zoo Society and/or the passage of time. When a restriction expires, temporarily restricted net position are reclassified to unrestricted net position and reported in the statements of activities as “net position released from restrictions.”

Permanently Restricted Net Position – Net position subject to donor-imposed restrictions that such assets be maintained by the Zoo Society in perpetuity.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Reclassifications Current accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Functional Allocation of Expenses The costs of providing various programs and related supporting services have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated to the appropriate programs and supporting services.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents For purposes of the statements of cash flows, the Zoo Society considers unrestricted or short-term temporarily restricted, highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Board-designated cash and cash equivalents within brokerage accounts are not considered cash and cash equivalents for purposes of the statements of cash flows. Such amounts have been classified as investments on the statements of financial position.

Cash receipts from the sale of financial assets that are converted nearly immediately into cash are classified as cash inflows from operating activities on the statements of cash flows, unless the donor restricted the use of contributed resources to long-term purposes, in which case those cash receipts are classified as cash inflows from financing activities.

Contributions and Pledges Receivable Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor-imposed restrictions.

Unconditional pledges receivable are recognized as revenues in the period the promise is received. Conditional pledges receivable are recognized when the conditions upon which they depend are substantially met. The pledges are stated at their estimated fair value. Pledges that are to be received over a period of time greater than one year are discounted to their fair value assuming their respective payment terms and an appropriate discount rate as of the date the pledge is received. The discount is amortized into contribution revenue over the term of the respective pledge agreement.

The Zoo Society and the Zoo are financially interrelated entities, in accordance with the “Transfers of Assets to a Not-for-Profit Organization” topic of the FASB ASC. Therefore, contributions raised by the Zoo Society on behalf of the Zoo are reported as temporarily restricted contribution revenues, and the amounts to be remitted to the Zoo are recorded as expense under the caption of “Cleveland Metropolitan Park District” in the accompanying statements of activities.

Investments Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statements of financial position. Unrealized gains and losses are included in investment income in the statements of activities.

Office Equipment, Software, and Network Resources Office equipment, software, and network resources are depreciated utilizing the straight-line method over their estimated useful lives ranging from three to ten years. The Zoo Society capitalizes purchases or donations of capital assets that exceed \$1,000. Purchased office equipment, software, and network resources are stated at cost.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Donations of capital assets are recorded as support at their estimated fair value at the date of donation. Such donations are reported as unrestricted support unless the donor has restricted the donated asset for a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire office equipment, software, and network resources are reported as restricted support.

Split-Interest Agreements The Zoo Society receives gift annuities where donors contribute assets in exchange for the right to receive an annual return during their lifetimes. Upon receipt of a gift annuity, the Zoo Society records the fair value of the assets received and records a liability for the estimated present value of future cash outflows to the annuitant, determined on an actuarial basis, as a “liability under split-interest agreements” in the accompanying statements of financial position. The difference between the fair value of the assets received and the estimated liability is recorded as unrestricted, temporarily restricted, or permanently restricted contribution revenue in accordance with the donor’s intent in the accompanying statements of activities.

The Zoo Society holds beneficial interests in perpetual trusts. The Zoo Society records its share of the fair market value of such trusts as long-term assets and permanently restricted contribution revenue at the date it is notified of its interest in such trusts. As the Zoo Society receives distributions from these trusts, it records the distributions as interest income. The interest income is classified as either unrestricted or temporarily restricted in accordance with the terms of the trust agreement. Changes in the fair value of the Zoo Society’s beneficial interest in perpetual trusts are recorded as permanently restricted gains/losses in the accompanying statements of activities under the caption “change in value of split-interest agreements.”

In-Kind Contributions In-kind contributions are reflected as revenues at their estimated fair value at the date of donation. The Zoo Society reports gifts of media support, food for special events, and other non-monetary contributions as unrestricted revenue and expense (or capitalized, if applicable) unless accompanied by explicit donor-imposed restrictions, in which case, the contributions would be recorded as either temporarily or permanently restricted revenues in accordance with the donor restrictions.

Contributed Services The Zoo Society recognizes contributions of services received when those services (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by the donation.

Income Taxes The Zoo Society is tax-exempt, under Section 501(c)(3) of the Internal Revenue Code (the “IRC”) of 1986. No provision for federal income taxes has been reported in its financial statements. In addition, the Zoo Society has been classified as an organization that is not a “private foundation” within the meaning of Section 509(a) of the IRC.

In accordance with the “Income Taxes” topic of the FASB ASC, uncertain income tax positions are evaluated at least annually by management. As of December 31, 2016, the Zoo Society has identified no uncertain income tax positions and has incurred no amounts for income tax penalties and interest for the years then ended. The Zoo Society files information returns in the United States and local jurisdictions.

Concentrations of Credit Risk Financial instruments which potentially subject the Zoo Society to concentrations of credit risk consist of cash and temporary investments, investment securities, and pledges receivable.

The Zoo Society maintains its cash and cash equivalents with national financial institutions, the balances at times may exceed federally insured limits.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

The Zoo Society has significant investments in equity and debt securities and is, therefore, subject to concentrations of credit risk. Investments are managed by investment advisors who are supervised by the Trustees. The investment advisors are required to manage the Zoo Society's investments in accordance with its investment policy. The investment policy contains investment criteria that the Zoo Society believes should reduce, to an extent, the potential for significant concentrations of credit risk. Though the market value of investments is subject to fluctuations on a year-to-year basis, the Trustees believe that the investment policy is prudent for the long-term welfare of the Zoo Society.

Credit risk with respect to pledges receivable is limited due to the number and credit worthiness of the foundations, corporations, and individuals who comprise the contributor base.

Subsequent Events In preparing these financial statements, the Zoo Society has evaluated events and transactions for potential recognition or disclosure through April 27, 2017, the date the financial statements were available to be issued.

Cash and Cash Equivalents

Cash and cash equivalents consisted of the following at December 31, 2016:

Unrestricted - available for operating expenses	\$304,901
Donor restricted for short-term purposes	636,260
Donor restricted for long-term purposes	7,250
Board designated for short-term purposes	67,377
Funds held for others	7,469
	<u>\$1,023,257</u>

Pledges Receivable

Pledges receivable, net of applicable discounts to estimated fair value and allowance for uncollectible pledges receivable, are comprised of the following at December 31, 2016:

Unrestricted - available for operating expenses	\$41,244
Restricted for Australian Adventure train engine	15,000
Restricted for Comprehensive Campaign	1,533,170
	<u>\$1,589,414</u>

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Pledges were discounted to their estimated fair value assuming their respective terms and discount rates ranging from 3.25 to 3.75 percent dependent upon prevailing rates in the year in which a pledge is received. The pledges receivable are scheduled to be collected as follows:

	2016
Payable within one year	\$809,456
Payable in two years	390,200
Payable in three years	333,900
Payable in four years	187,000
Payable in five years	102,000
	1,822,556
Less discounts to net present value	(180,462)
Less allowance for uncollectible pledges receivable	(52,680)
Net pledges receivable	\$1,589,414

Sarah Allison Steffee Center for Zoological Medicine at the Zoo An anonymous donor has created The David Steffee Chair of Veterinary Medicine Gift Fund, a donor-advised fund currently valued at approximately \$1 million for the purpose of using investment income from the fund to support veterinary excellence at The Sarah Allison Steffee Center for Zoological Medicine at the Zoo. Donor-advised funds allow donors to suggest the purpose for which a gift will be used, but are not binding. As such, contribution revenue is recorded as the Zoo Society receives notification that a distribution has been approved by the fund. Since 2005, the Zoo Society has hosted an annual David Steffee Address in Veterinary Medicine and the donor has made contributions to cover the cost of the address. The Zoo Society recognized revenue from the fund of \$65,000 for the year ending December 31, 2016, and has received a total of \$166,500 from the fund since its inception. During 2016, the anonymous donor passed away. As of the date of this report, the Zoo Society has not been notified of any changes to this fund.

Zoo Education and Workforce Development During 2013, the Zoo Society received a conditional promise to give related to funding for the Zoo Education and Workforce Development program for \$300,000. The funds are to be received in \$60,000 increments over a period of five years, subject to annual donor reviews. The Zoo Society recognized revenue related to this conditional promise to give of \$60,000 and \$0- during the years ended December 31, 2016 and 2015, respectively. Total revenue recognized related to this conditional promise through December 31, 2016 was \$240,000. The Zoo Society is to use this funding to implement programs for students in certain school districts, conduct a longitudinal study over these students enrolled in the school districts that attend programs, and perform annual reviews of the programs. The receipt of funds is conditioned upon the donor's review of the programs and determination of satisfactory performance with respect to the terms of the agreement.

Comprehensive Campaign During 2014, the Zoo Society received a conditional promise to give to support the creation of "Rosebrough Tiger Passage" at the Zoo for \$500,000. The funds are to be received in \$50,000 increments over a period of ten years. The receipt of future incremental payments are conditioned upon the building of a water feature within a reasonable timeframe as discussed with the donor. During 2016, all conditions related to this promise to give were met and discussed with the donor. The Zoo Society recognized the remaining \$400,000 as revenue relating to this promise to give during the year ended December 31, 2016.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Hay Barn During 2014, the Zoo Society received a conditional promise to give to support the creation of a hay barn at the Zoo for \$100,000. The funds are to be received upon the groundbreaking for the project. During 2016, the hay barn construction was underway, thus all conditions related to this promise to give were met. The Zoo Society recognized \$100,000 as revenue during the year ended December 31, 2016.

The Joan Rog Graduate Student Research Award During 2015, the Zoo Society received a conditional promise to give of \$25,000 for the Joan Rog Graduate Student Research Award. The funds are to be received in \$5,000 increments over a period of five years. The first installment of \$5,000 was received and recognized as revenue in 2015. In 2016, \$6,000 was received and recognized as revenue. The annual payments are conditioned upon the donor receiving student applications for the donor's review and approval.

Ohio Facilities Commission The State of Ohio awarded a \$200,000 commitment to the Zoo Society through the Ohio Facilities Commission in August 2016. The commitment is conditional upon the funds being utilized for an exhibit that is complete and open to the public. As of December 31, 2016, no revenue has been recognized by the Zoo Society related to this commitment.

Corporate Matches During 2016, the Zoo Society received multiple gifts which include corporate matches that are conditioned upon the Zoo Society receiving payment from an individual donor. Total corporate matches outstanding at December 31, 2016 are \$104,478, of which no revenue has been recognized as of December 31, 2016.

Marketable Securities

Included in marketable securities at December 31, 2016 was \$9,638,081 of board-designated net position.

The following schedule summarizes investment return for the years ended December 31, 2016:

	Unrestricted	Temporarily Restricted	Total
Interest and dividends	\$283,141	\$10,421	\$293,562
Net realized and unrealized gains	598,514	25,021	623,535
Total	\$881,655	\$35,442	\$917,097

Fair Value Measurements

In accordance with the "Fair Value Measurements" topic of the FASB ASC, the Zoo Society uses a three-level fair value hierarchy that categorizes assets and liabilities measured at fair value based on the observability of the inputs utilized in the valuation. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly; and Level 3 inputs are unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own valuation assumptions. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the asset or liability and are based on the best available information, which has been internally developed.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Financial assets (liabilities) consisted of the following at December 31, 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Cash in money market and Certificates of deposit	\$565,929	\$0	\$565,929
Common stock	2,127	0	2,127
Mutual funds - equities	64,730	0	64,730
Mutal funds - fixed income	133,261	0	133,261
Equity exchange traded funds	26,418	0	26,418
Total bond market index fund	2,904,753	0	2,904,753
Total international stock fund	1,835,205	0	1,835,205
Total stock market index fund	6,428,105	0	6,428,105
Beneficial interest in perpetual trusts	0	576,119	576,119
	<u>\$11,960,528</u>	<u>\$576,119</u>	<u>\$12,536,647</u>

During 2016, the Zoo Society received a new split-interest agreement, where the related liability was initially calculated at fair value (\$60,723) on a non-recurring basis. This is considered a Level 3 measurement, determined from the present value of expected future cash flows using an appropriate discount rate (4.7%).

The fair value of the beneficial interests in perpetual trusts is based upon the value of the underlying assets within the trusts multiplied by the Zoo Society's proportionate share of said trusts. As the underlying assets within these trust are primarily Level 1 investments, the value of the Zoo Society's interests in the perpetual trusts is shown as a Level 2 measurement as the trusts themselves are not actively traded (Level 1) instruments.

Board-Designated Net Position

The Board of Trustees establishes and maintains board-designated funds. The Sustaining Fund and the ZooFutures Fund comprise a significant majority of the board-designated net position of the Zoo Society. Additionally, the Zoo Society has established and maintains funds to supplement the African Elephant Crossing and Circle of Wildlife Conservation Funds.

The Sustaining Fund was established in 1991 with the express purpose of ensuring the Zoo Society's continuing existence by providing a source of operating funds to the Zoo Society in the event of economic hardship. The Sustaining Fund, in year 2011 and beyond, may be used to fund discretionary annual distributions to the Zoo Society and fund short-term loans to the Zoo Society to supplement capital campaign or other cash flow management issues; so long as the Sustaining Fund balance remains above 50 percent of the Zoo Society's current budgeted annual unrestricted operating expenses. There were no approved discretionary annual distributions at December 31, 2016. However, the Zoo Society expended \$358,800 for the year ended December 31, 2016 from previously approved discretionary distributions.

The ZooFutures Fund, a quasi-endowment fund, was established in 1998 with the express purpose of receiving planned gifts and other contributions, and is administered and operated in support of Zoo Society activities.

The N&BH Fund for Elephants was established in 2013 to provide funding in support for elephant-care staff training. During 2016, management had determined based on discussions with the donor, the desire of the donor is that the original contributions to the N&BH Fund for Elephants be held in perpetuity.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

This resulted in a reclassification of net position as shown in the accompanying statement or activities for the year ended December 31, 2016.

In December 2016, the Board of Trustees established three funds for the purpose of receiving donor-designated endowed gifts – the Animal Care Fund, the Conservation Fund and the Zoo Education and Workforce Development Fund. The Board of Trustees also acted to allocate a portion of its Board-designated net position into the Animal Care Fund and the Conservation Fund. The Board-designated net position, in combination with donor-designated net position, will provide targeted support for three of the Zoo Society’s primary mission foci. The first distributions from the Animal Care and Conservation funds will be made in 2018 based on 2017 investment performance.

Board-designated net position were as follows at December 31, 2016:

Sustaining Fund	\$5,229,860
ZooFutures Fund	2,971,077
Conservation Fund	943,373
Animal Care Fund	493,771
Special project initiatives	67,377
	<u>\$9,705,458</u>

Net Asset Classification of Endowment Funds and Quasi-Endowment Funds

The Zoo Society’s ZooFutures Fund consists of one fund established to fund a variety of programs. The ZooFutures Fund includes both donor-restricted funds and board-designated funds. As required by GAAP, net position associated with endowment funds, including funds designated by the Board of Trustees to function as quasi-endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Trustees of the Zoo Society has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, The Zoo Society classifies as permanently restricted net position (a) the original value of gifts donated, (b) the original value of subsequent gifts, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. In accordance with SPMIFA, the Zoo Society considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund.
- (2) The purposes of the Zoo Society and the donor-restricted endowment fund.
- (3) General economic conditions.
- (4) The investment policies of the Zoo Society.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

During the year ended December 31, 2016, the Zoo Society had the following endowment-related activities:

	Donor-Restricted Endowment Funds	Board-Designated Quasi-Endowment Funds	Total
Investment return			
Investment income	\$10,421	\$90,377	\$100,798
Net realized and unrealized gains	25,021	246,175	271,196
Contributions to perpetual endowment	58,129	460,890	519,019
Amounts appropriated for expenditure	(3,431)	(186,064)	(189,495)
Reclassification into endowment funds	339,892	0	339,892
Total change in endowment funds	<u>\$430,032</u>	<u>\$611,378</u>	<u>\$1,041,410</u>

Endowment net position composition by type of fund as of December 31, 2016:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	\$0	\$141,282	\$335,750	\$477,032
Board-designated quasi-endowment funds	4,408,221	0	0	4,408,221
Endowment net position, end of year	<u>\$4,408,221</u>	<u>\$141,282</u>	<u>\$335,750</u>	<u>\$4,885,253</u>

Changes in endowment net position for the fiscal year ended December 31, 2016:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total

Return Objectives and Risk Parameters The Zoo Society has adopted investment and spending policies for the ZooFutures Fund that attempt to provide a predictable stream of funding while seeking to maintain the purchasing power of the assets. Assets include those assets of donor-restricted funds that the Zoo Society must hold in perpetuity or for a donor-specified period(s), as well as board-designated funds. Under this policy, as approved by the Board of Trustees, investments of all Zoo Society assets are directed by the Finance and Investment Committee of the Zoo Society utilizing professional fund managers. The standard for the Finance and Investment Committee with regard to ZooFutures Fund assets shall be the preservation of corpus while prudently maximizing real growth. The Zoo Society will conduct a quarterly monitoring of the portfolio. Investment performance will be measured against comparative market indices including the Standard & Poor 500 Index and the Lehman Brothers Aggregate Bond Index. The performance of the overall portfolio will also be monitored quarterly and compared against appropriate benchmarks.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Strategies Employed for Achieving Objectives To satisfy its long-term rate-of-return objectives, the Zoo Society relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Zoo Society targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy Recommendations for the use of ZooFutures Fund assets free of donor restriction shall be the responsibility of a Grants Committee. Recommendations of the Grants Committee shall be subject to confirmation by the Zoo Society's Executive Committee. Grants from the ZooFutures Fund shall be in support of Zoo and Zoo Society activities, zoological conservation, and such other purposes as the Zoo Society's Board of Trustees shall deem appropriate. Except in special circumstances, and except for recommending specific uses of generally restricted donor funds, the Grants Committee shall limit its recommendations in the aggregate to an amount which shall not exceed in any calendar year a sum equal to 5 percent of the ZooFutures Fund assets. Amounts that have been approved for expenditure, in any given year, but not expended by the end of year, are carried over to subsequent years. As of December 31, 2016 \$35,894, represents the cumulative carry forward of prior approved, but unexpended, annual allocations.

Split-Interest Agreements

The Zoo Society administers various charitable gift annuities. Under these agreements, the Zoo Society remits fixed payments to the donors on a quarterly basis. Interest rates range from 4.7 percent to 8.9 percent. Using applicable mortality tables, quarterly payments are estimated to extend through 2035. Investments, primarily mutual funds, held in charitable gift annuities aggregated \$233,810 at December 31, 2016, and are reported at fair value in the statements of financial position. Included in liability under split-interest agreements is \$131,476 at December 31, 2016, related to these agreements.

Beneficial interest in perpetual trusts include two separate trust funds that have been instructed to provide the Zoo Society with the unrestricted use of the Zoo Society's respective portion of the trusts' income in accordance with the trusts' documents. The Zoo Society has an irrevocable right to receive the income from the trusts' assets in perpetuity. The Zoo Society's share of the trusts' assets, which had a market value on December 31, 2016 of \$576,119, is included in the accompanying statements of financial position. The trusts' investments are managed by external trustees designated by the donors. As such, the Zoo Society does not control the allocation of the trusts' investments.

Restrictions on Net Position

Temporarily restricted net position available for the following purposes at December 31, 2016:

Conservation and science	\$510,748
Zoo education and workforce development	438,699
Comprehensive campaign	1,909,810
Appreciation of specific donor-restricted endowments (time restricted)	90,403
	<u>\$2,949,660</u>

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Temporarily restricted net position were released from donor restrictions by incurring expenditures satisfying the purpose and/or time restrictions specified by donors as follows for the year ended December 31, 2016:

African Elephant Crossing exhibit costs	\$126,390
Art conservation	45,309
Conservation and research	738,008
Zoo Education and Workforce Development	352,838
Comprehensive campaign	997,430
ZooFutures	2,350
	<u>\$2,262,325</u>

Permanently restricted net position aggregating \$911,869 at December 31, 2016, consist of endowment fund assets to be held in perpetuity and beneficial interests in perpetual trusts.

Cleveland Metroparks

The Zoo Society has historically provided support to the Metroparks for a variety of Zoo programs and functions. Support is summarized below for the year ended December 31, 2016:

Metroparks agreement	\$2,084,360
Animal care and research	350,997
Education expenditures	313,631
Capital projects	1,211,631
Levy support and lobbying	15,000
Field conservation	471,077
	<u>\$4,446,696</u>

In September 1997, the Zoo Society entered into an agreement with the Metroparks whereby the Zoo Society guarantees the Metroparks a specific dollar amount equivalent to aggregate annual membership contributions for membership categories where the dues are \$125 or less. This percentage began at 55 percent in 1998 and progressively increased to a maximum level of 70 percent for 2002 and thereafter. The agreement has an ongoing annual renewal clause that grants the parties the ability to request renegotiation or cancellation. The Metroparks recognizes the Society's annual operating support to the Zoo's operating budget to help finance key areas including, but not limited to: Zoo education; outreach programs; animal health, care, and welfare; horticultural and Zoo grounds beautification; and quality Zoo guest services.

Effective January 1, 2013, the Zoo Society and the Metroparks amended the agreement. The terms of this amended agreement guarantee amounts equivalent to 65 percent and 7 percent of gross membership revenues as described in the previous agreement noted with the 65 percent target towards the Zoo's operating budget and the 7 percent targeted towards mutually agreeable Zoo priorities that are mission-relevant, have donor appeal, and advance the joint strategic plan. Under this agreement, the Zoo Society has recorded aggregate Zoo support of \$2,309,803 for 2016. During 2016, the amended agreement was extended through December 31, 2017.

Included in "Amounts due to Cleveland Metropark" on the statements of financial position is \$103,808 which is owed to the Metroparks under the above agreements at December 31, 2016.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

In January 2013, the Metroparks approved participation in a Carousel Special Project Initiative, subsequently called Circle of Wildlife. This initiative outlined certain roles and responsibilities involving the Zoo Society. As part of its roles and responsibilities, the Zoo Society conditionally committed to a fundraising initiative of up to \$2,000,000 to be used for the purchase of the carousel, estimated costs for the pavilion to house the carousel, and other programmatic costs. Of the total fundraising initiative, up to \$1,600,000 was to be committed to the Metroparks for the design, delivery, construction, and installation of the carousel. The remaining \$400,000 was to be used to fund improvements, fundraising, marketing, and raising awareness of the Zoo and the Zoo Society. The commitment to the Metroparks was conditioned upon the Metroparks approving expenditures relating to this initiative. Through December 31, 2016, the Zoo Society raised a total of \$3,171,903 related to this initiative. The excess funding helped fund the Ben Gogolick Giraffe Encounter during 2015. Remaining funds are to be used for a hay barn. As of December 31, 2016, the Zoo Society has submitted \$2,433,518, to the Metroparks related to these projects. At December 31, 2016, commitments to the District for this initiative was \$840,000.

In December 2014, the Zoo Society formally accepted a statement of intent for a comprehensive campaign with a total fundraising goal of \$30 million. This statement of intent outlined certain roles and responsibilities involving the Zoo Society. The funds raised in the campaign will come in the form of grants and other restricted gifts and will be used to support various campaign initiatives, including animal habitats, capital improvements, endowment funds, programming for education, conservation and research, fundraising, and marketing and communications expenses incurred related to the campaign. One major contingency related to the Zoo Society's intention is the Zoo Society's ability to raise and collect funds for the campaign. In June 2015, the Metroparks notified the Zoo Society of its intentions to move ahead with Rosebrough Tiger Passage, one exhibit that falls under the overall comprehensive campaign. The Zoo Society Board contingently approved a \$2.5 million commitment for capital costs related to Rosebrough Tiger Passage. This commitment was conditioned upon the Metroparks proceeding with construction of Rosebrough Tiger Passage, of which, groundbreaking occurred during 2015. With this condition being met, the Zoo Society recognized \$2,500,000 in expenses related to these campaign costs during the year ended December 31, 2015. A related liability has been recorded for \$1,250,000 at December 31, 2015. There were no such related expenses or liability amounts at December 31, 2016.

Allocation of Joint Costs For the year ended December 31, 2016, the Zoo Society incurred costs for producing and distributing membership publications. These publications included – information, materials and activities that included fundraising appeals. These costs were allocated to fundraising and program services as follows:

Fundraising	\$99,704
Program Services	<u>244,727</u>
	<u>\$344,431</u>

In-Kind Contributions For the year ended December 31, 2016, \$333,310 was included as unrestricted special events support and revenues and expenses on the statements of activities, respectively. During 2016, in-kind contributions primarily consisted of donated advertising/media gifts.

Cleveland Metroparks
Notes To The Basic Financial Statements
For The Year Ended December 31, 2016

Defined Contribution Plans

Effective January 1, 1999, the Zoo Society adopted a 403(b) defined contribution plan (the “Plan”). The Plan covers all employees who work 1,000 hours or more during a calendar year. Each participant may elect to defer a portion of their annual compensation and the Zoo Society will make a matching contribution up to 3 percent of the participant’s compensation. During 2016, the amount of expense related to this Plan was \$87,809.

Effective January 1, 2005, the Zoo Society adopted a 457(b) executive deferred compensation plan (the “Executive Plan”). Participation in the Executive Plan is limited to those determined eligible by the Committee of Trustees. Participants may elect annually to defer a portion of their compensation. The Committee may annually elect to provide employer contributions to the Executive Plan. Participants are immediately vested in their elected deferral amounts and vested in the employer contributions over a five year service period or upon their death or permanent disability. During the year ended December 31, 2016, the amount of expense related to this Executive Plan was \$25,000.

Related Party Transactions

At December 31, 2016, \$1,140,812 of pledges receivable and \$914,231 of support and revenue, respectively, were from trustees, trustee-related organizations, and employees.

The Zoo Society receives donated office facilities, including office space, common space, utilities, computer and telephonic services from Cleveland Metroparks. The amount of such services cannot be reasonably estimated due to the unique nature of the space. Therefore, no amounts are recorded on the statements of activities for the year ended December 31, 2016.

Individual Fund Statements and Schedules

Fund Descriptions – Fiduciary Funds

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the District’s own programs. The District has no trust funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.

Agency Fund

Flexible Benefits Plan Fund – This fund accounts for employee contributions into the flexible benefit plan established by the District.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax was phased out beginning in 2006. Both types of general business tangible personal property were assessed at 12.5 for 2007, 6.25 percent for 2008 and zero for 2009 from general business taxpayers (except telephone companies whose last year to pay tangible personal property tax in 2010).

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10 percent rollback for commercial/industrial property has been eliminated.

(1) Based on lower of Residential/Agricultural and Commercial/Industrial effective rates.

Note: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Basic property tax rates may be increased only by a majority vote of the entity's residents.

Overlapping rates are those of local and county governments that apply to property owners within the entity. Real property tax rates are reduced so that inflationary increases in value do not generate additional revenue.

Note: The County's current operating system does not track delinquency tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.

(1) State reimbursement of rollback and homestead exemptions are included.
