WOOD COUNTY

Audit Report

For the Year Ended June 30, 2016

Board of Education Lake Local School District 28090 Lemoyne Road Millbury, Ohio 43447

We have reviewed the *Independent Auditor's Report* of the Lake Local School District, Wood County, prepared by Charles E. Harris & Associates, Inc., for the audit period July 1, 2015 through June 30, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Lake Local School District is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

INDEPENDENT AUDITOR'S REPORT

Lake Local School District Wood County 28090 Lemoyne Road Millbury, Ohio 43447

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lake Local School District, Wood County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the cash accounting basis Note 2 describes. This responsibility includes determining that the cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lake Local School District, Wood County, Ohio, as of June 30, 2016, and the respective changes in cash financial position and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting basis described in Note 2.

Lake Local School District Wood County Independent Auditor's Report Page 2

Accounting Basis

Ohio Administrative Code § 117-2-03(B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. We draw attention to Note 2 of the financial statements, which describes the basis applied to these statements. The financial statements are prepared on the cash basis of accounting, which is a basis other than generally accepted accounting principles. We did not modify our opinion regarding this matter.

Other Matters

Supplemental Information

Our audit was conducted to opine on the financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

We applied no procedures to Management's Discussion & Analysis as listed in the table of contents. Accordingly, we express no opinion or any other assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

November 15, 2016

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

The discussion and analysis of the Lake Local School District's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2016, within the limitations of the District's cash basis of accounting. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2016 are as follows:

Overall:

- For governmental activities in 2016, net position increased \$781,780 from 2015.
- For 2016, general receipts accounted for \$16,024,926 in receipts or 85 percent of all governmental receipts. Program specific receipts in the form of charges for services and sales, grants, contributions and interest accounted for \$2,846,856 or 15 percent of total governmental receipts of \$18,871,782.
- For 2016, the District had \$18,090,002 in disbursements related to governmental activities; only \$2,846,856 of these disbursements were offset by program specific charges for services, grants, contributions or interest. General receipts (primarily property taxes and state funding) of \$16,024,296 were adequate to provide for these programs.
- For 2016, the general fund had \$15,851,409 in receipts and \$15,120,657 in disbursements. The General Fund's fund balance increased to \$2,832,871 from \$2,186,877.

Using these Cash Basis Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting an aggregate view of the District finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

The statement of net position and the statement of activities reflect how the District did financially during fiscal year 2016, within the limitations of cash basis accounting. The statement of net position presents the cash balances and investments of the governmental activities of the District at fiscal year end. The statement of activities compares cash disbursements with program receipts for each governmental program. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the District's general receipts.

These two statements report the District's *net position* and changes in that net position. This change in net position is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, and other factors.

In the Statement of Net Position and the Statement of Activities, all of the District's activities are presented as governmental activities. All of the District's programs and services are reported here including, instruction, support services, non-instructional services, food services and extracurricular activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major funds begins on page 11. Fund financial statements provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these financial statements focus on the District's most significant funds. The District's major governmental funds are the General Fund and the Bond Retirement Fund.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and balances left at year-end available for spending in future periods. These funds are reported using the cash basis of accounting. The governmental fund statements provide a detailed view of the District's general governmental operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance programs.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District's fiduciary funds are private purpose trusts and agency funds.

Notes to the Basic Financial Statements The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The District as a Whole

Table 1 provides a summary of the District's net position for fiscal year 2016 compared to fiscal year 2015 on the cash basis:

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

Governmental Activities

For fiscal year 2016, net position of the District's governmental activities increased by \$781,780. Governmental disbursements of \$18,090,002 were offset by program receipts of \$2,846,856 and general receipts of \$16,024,926.

The primary sources of revenue for governmental activities are derived from property taxes and state support. For fiscal year 2016, these two revenue sources represent 15 percent and 85 percent, respectively, of total governmental receipts.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services for fiscal years 2016 and 2015. That is, it identifies the cost of these services supported by tax revenue and unrestricted state entitlement.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

For fiscal year 2016, only 15 percent of general government activities were supported through program receipts. For all governmental activities, general receipts and prior year cash balance support the majority of disbursements as shown in the above table. The community, as a whole, and the state funding are by far the primary supports for the District.

The District's Funds

Information about the District's major funds starts on page 11. These funds are accounted for using the cash basis of accounting. For fiscal year 2016, governmental funds had total cash receipts of \$18,871,582 and cash expenditures of \$18,090,002. The net change in fund balance at year end was most significant in the General Fund, where the fund's balance increased by \$645,994.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2016, the District did not amend its General Fund receipt budget. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

In fiscal year 2016, the General Fund final budget basis receipts were \$15,706,439, the original estimate was \$15,117,894. Total actual expenditures on the budget basis (cash outlays plus encumbrances) were \$15,166,676, \$539,763 over receipts.

Capital Assets and Debt Administration

Capital Assets

The District capital assets and infrastructure are not reflected in the accompanying financial statements.

Debt

At June 30, 2016, the District had \$8,330,785 in various bonds outstanding. These issues were used for improvements to the District's buildings.

Current Financial Related Activities

The Lake Local School District is strong financially. As the preceding information shows, the District heavily depends on its property taxpayers and state support. However, financially the future is not without challenges.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

The District continues to experience stagnation from state funding. District receipts from Basic State Aid have not risen for this District since 2002 even though enrollment has increased 3% over this period.

Ohio has seen four different funding mechanisms over the last ten years. The current formula has exposed a shortfall of actual funding to formula (called formula cap) of over \$3.6 million in fiscal year 2014 through fiscal year 2016 alone.

The District has also seen the decline, and eventual elimination, of the locally collected business tangible personal property (TPP) tax that the state replaced with the commercial activity (CAT) tax. The hold harmless loss provision, originally touted as "in perpetuity" has been changed several times, to the benefit of the state, and now will be completely phased out in 2019. At one time, the TPP represented 31% of the District's tax base and 12% of its operating income. As a result, local property taxs, through additional levies, have risen 77% over this period. The District works hard to control costs, evidenced by a modest 32% increase in operating costs over that 14-year period, while still maintaining an "Excellent" or similar school rating.

Out of 614 Ohio School Districts, the District had a remarkably low expenditure per pupil of \$6,906 in fiscal year 2013, which ranked 40th lowest in the state, while it maintained a Performance Index rating of 101.8. Only 10 school districts in Ohio had a lower expenditure per pupil and a higher Performance Index rating. (Ranking data for expenditures and academic performance for fiscal years 2014 through 2016 has not yet been provided by the State.)

Even though the District is classified as Small Town, High Poverty, dozens of Ohio School Districts will this year receive more state aid per pupil then the District spends per pupil.

Contacting the District's Financial Management

This financial report is designed to provide our citizen's, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Jeff Carpenter, Treasurer, at 28090 Lemoyne Road, Millbury, Ohio 43447-9747.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 1 – Reporting Entity

The Lake Local School District, Wood County (the District), is a body politic and corporate established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The District provides educational services as authorized by state statute and/or federal guidelines.

The District is located in a rural community in northwest Ohio. The District is staffed by 45 classified employees, 100 certified teaching personnel, and 13 administrative employees who provide services to 1,674 students and other community members.

The reporting entity is comprised of the primary government, component units and other organizations that were included to ensure that the financial statements are not misleading.

Primary Government

The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For Lake Local School District, this includes general operations, food service, and student related activities of the District. The Board has direct responsibility for these services.

Component Units

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resource; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide support to, the organization; or the District is obligated for the debt of the organization. The District is also financially accountable for any organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. Component units also include legally separate, taxexempt entities whose resources are for the direct benefit of the District, are accessible to the District and are significant in amount to the District. The District does not have any component units.

Jointly Governed Organizations and Public Entity Risk Pools

The District is associated with eight organizations as follows: Northwest Ohio Computer Association (NWOCA), Northern Buckeye Education Council, Penta Career Center, Northwest Ohio Educational Council and Ohio Schools Council, which are defined as jointly governed organizations; the Ohio Association of School Business Officials Group Rating Program, Wood County Insurance Consortium, and Southwestern Ohio Educational Purchasing Council, which are public entity risk pools. For more information on these entities, see Notes 15 and 16.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 1 – Reporting Entity (continued)

The District's management believes these financial statements present all activities for which the District is financially accountable.

Note 2 – Summary of Significant Accounting Policies

As discussed further in the "Basis of Accounting" section of this note, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. Following are the more significant of the District's accounting policies.

Basis of Presentation

The District's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental receipts or other nonexchange transactions. The District has no business-type activities.

The statement of net position presents the cash balance of the governmental activities of the District at year end. The statement of activities compares disbursements with program receipts for each of the District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the District is responsible. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants required to be used to support a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a cash basis or draws from the general receipts of the District.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 2 – Summary of Significant Accounting Policies (continued)

Fund Financial Statements

During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are presented in two categories: governmental and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the District are financed. The following are the District's major governmental funds:

<u>General</u> - The general fund accounts for and reports all financial resources not accounted for and reported in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement – This fund receives tax levy funds and transfers from the General fund which are for the purpose of paying debt service on the District's school improvement bonds.

The other governmental funds of the District account for and report grants and other resources, whose use is restricted, committed or assigned to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. The District has no pension trust funds or investment trust funds private purpose trust funds. Private Purpose Trust funds are used to account for individuals, private organizations or other governments and are not available to support the District's own programs. The District's private purpose trust fund accounts for programs that provide college scholarships to students after graduation. Agency funds are purely custodial in nature and are used to account for assets held by the District for individuals, other governments, or other organizations. The District's agency fund accounts for various student-managed activities.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 2 – Summary of Significant Accounting Policies (continued)

Basis of Accounting

Although required by Ohio Administrative Code Section 117-03(B) to prepare its financial report in accordance with generally accepted accounting principles (GAAP), the District elects to prepare its financial statements and notes in accordance with the cash basis of accounting. Except for modifications having substantial support, receipts are recorded in the District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the District are described in the appropriate section in this note.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is Board's authorization to spend resources and sets annual limits on cash disbursements plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund level for all funds. Budgetary allocations at the functions and object level within all funds are made by the Treasurer.

The certificate of estimated resources may be amended during the year if projected increases or decreases in receipts are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificated of estimated resources in effect at the time final appropriation were passed by the Board.

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Board during the fiscal year.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 2 – Summary of Significant Accounting Policies (continued)

Cash and Investments

To improve cash management, cash received by the District is pooled and invested. Individual fund integrity is maintained through District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

Investments of the cash management pool and investments with an original maturity of three months or less at the time of purchase are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra receipt), respectively.

The District's investment in the State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company and is recognized as an external investment pool by the District. The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For the fiscal year ended June 30, 2016, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these puposes.

Interest earnings are allocated to District funds according to State statutes, grant requirements, debt related restrictions and a resolution by the Board. Interest receipts credited to the general fund during the year ended June 30, 2016 were \$11,890, which included \$5,901 assigned from other District funds.

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or by laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Unclaimed monies that are required to be held for five years before they may be utilized by the District are reported as nonspendable. Restricted assets represent amounts required by State statute to be set aside for bus purchases and budget stabilization.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 2 – Summary of Significant Accounting Policies (continued)

Inventory and Prepaid Items

The District reports disbursements for inventories and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

Interfund Receivables/Payables

The District reports advances-in and advances-out for interfund loans. These items are not reflected as assets and liabilities in the accompanying financial statements.

Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the District's cash basis of accounting.

Employer Contributions to Cost-Sharing Pension Plans

The District recognizes the disbursement for their employer contributions to cost-sharing pension plans when they are paid. As described in Notes 8 and 9, the employer contributions include portions for pension benefits and for postretirement health care benefits.

Long-Term Obligations

The District's cash basis financial statements do not report liabilities for bonds and other long-term obligations. Proceeds of debt are reported when cash is received and principal and interest payments are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither an other financing source nor capital outlay expenditure is reported at inception. Lease payments are reported when paid.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 2 – Summary of Significant Accounting Policies (continued)

Net Position

Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes includes resources restricted for food service operations, music and athletic programs, and federal and state grants restricted to cash disbursements for specific purposes.

The District's policy is to first apply restricted resources when an obligation is incurred for purposes for which both restricted and unrestricted resources are available.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the Board or approved by the Treasurer, or by State statute.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 2 – Summary of Significant Accounting Policies (continued)

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when disbursements are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Interfund Transactions

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented in the financial statements.

Pensions

For purposes of measuring the net pension liability, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Note 3 – Budgetary Basis of Accounting

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statements of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP) and Actual presented for the general fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budgetary basis and the cash basis is that outstanding year end encumbrances are treated as cash disbursements (budgetary basis) rather than as assigned fund balance (cash basis). In addition, Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting*, requires in part, that certain funds that are legally budgeted in separate special revenue funds be considered part of the general fund on the cash basis financial statements. For the District, this includes the uniform school supplies and public school support funds.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 3 – Budgetary Basis of Accounting (continued)

The following table summarizes the adjustments necessary to reconcile the cash basis statement to the budgetary basis statement for the general fund:

Net Change in Fund Balance			
Budget Basis	\$	455,205	
Adjustment for GASB 54		(9,182)	
Encumbrances		199,971	
Cash Basis	\$	645,994	

Note 4 – Deposits and Investments

State statutes classify monies held by the District into three categories.

Active deposits are public deposits determined to be necessary to meet current demands upon the District treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 4 – Deposits and Investments (continued)

- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio or Ohio local governments;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

At year end, the District had \$4,560 in undeposited cash on hand, which is included on the balance sheet of the District as part of "Equity in Pooled Cash and Cash Equivalents."

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, none of the District's bank balance of \$1,380,518 was exposed to custodial credit risk.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 4 – Deposits and Investments (continued)

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least 105% of the deposits being secured.

Investments

As of June 30, the District had the following investments:

			Standard	Percentage
			& Poor's	of Total
	NAV Value	Maturity	Rating	Investments
Net Asset Value Per Share				
Star Ohio	\$ 3,490,840	Average 48.6 days	AAAm	100%

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurement as of June 30, 2016. As previously discussed, STAR Ohio is reported at its net asset value. The District had no other investments during the fiscal year.

Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The District's investment policy addresses interest rate risk by requiring that the District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments, thereby avoiding that need to sell securities on the open market prior to maturity, and by investing operating funds primarily in short-term investments.

Credit risk is the possibility that an issuer or other counterparty to an investment will not fulfill its obligation. STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District has no investment policy dealing with investment credit risk beyond the requirements in state statutes.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 4 – Deposits and Investments (continued)

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirements in ORC 135.14(M)(2) which states, "Payment for investments shall be made only upon the delivery of securities representing such investment to the treasurer, investing authority, or qualified trustee. If the securities transferred are not represented by a certificate, payment shall be made only upon receipt of confirmation of transfer from the custodian by the treasurer, governing board, or qualified trustee."

The District places no limit on the amount it may invest in any one issuer.

Note 5 - Property Taxes

Property taxes are levied and assessed on a calendar year basis, while the District's fiscal year runs from July through June. First-half tax distributions are received by the District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year. Property taxes include amounts levied against all real property, public utility property located in the District.

Real property tax receipts received in calendar year 2016 represent the collection of calendar year 2015 taxes. Real property taxes are levied after October 1, 2015, on the assessed value as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value.

Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2015 public utility property taxes which became a lien December 31, 2014, are levied after October 1, 2015 and are collected in 2016 with real property taxes.

The full tax rate for all District operations for the fiscal year ended June 30, 2016, was \$62.94 per \$1,000 of assessed value. The assessed values of real property and public utility property upon which 2016 property tax receipts were based are as follows:

	<u>2015</u>	<u>2016</u>
Real property		
Residential and agricultural	\$ 216,361,970	\$ 243,722,090
Public utility	14,389,850	16,525,146
Total assessed value	\$ 230,751,820	\$ 260,247,236

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 5 - Property Taxes (continued)

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the District. The County Auditor periodically remits to the District its portion of the taxes collected.

Note 6 – Payment in Lieu of Taxes

According to State law, Wood County has entered into agreements with a number of property owners under which the County has granted property tax exemptions to those property owners. The property owners have agreed to make payments to the County which reflect all or a portion of the property taxes which the property owners would have paid if the taxes had not been exempted. The agreements provide for a portion of these payments to be paid to the District. The property owners contractually promise to make these payments in lieu of taxes until the agreement expires. For 2016, the District received \$11,000 in payments in lieu of taxes.

Note 7 – Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains comprehensive insurance coverage through Southwestern Ohio Educational Purchasing Council, an insurance purchasing pool (see Note 16), for the areas described below:

Coverages:	
Property Damage	\$ 62,550,000
Educational Liability:	
General Aggregate	8,000,000
Each Occurrence	6,000,000
Automobile Liability	6,000,000
School Board Legal Liability	8,000,000
Employee Benefits:	
General Aggregate	8,000,000
Each Occurrence	6,000,000

There have been no significant reductions in insurance coverage from the previous fiscal year and settled claims, if any, have not exceeded coverage in any of the past three years.

The District pays the Ohio Bureau of Worker's Compensation a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 7 – Risk Management (continued)

The District is a member of a cooperative group of Wood County Schools established to provide a self-insurance fund to pay medical/surgical, and prescription drug benefits of employees and their covered dependents. The medical insurance program operates under the control of a Board of Trustees representing the member school and is administered by Medical Mutual of Ohio. The plan provides a medical/surgical plan with a \$100 single and \$200 family deductible. The plan also provides prescription drug care through the major medical portion of the plan. Dental care is provided through Medical Mutual of Ohio and vision insurance through Vision Service Plan. For further information regarding the insurance consortium, refer to Note 18.

Note 8 - Defined Benefit Pension Plans

Net Pension Liability

Pensions are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projects benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and other factors. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of the employee's services in exchange for compensation including pension.

Governmental Accounting Board Standard (GASB) Statements No. 68, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27, assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 8 – Defined Benefit Pension Plans (continued)

School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in the State Employees Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability, survivor and death benefits and annual cost-of-living adjustments to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. SERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position that may be obtained by visiting https://www.ohsers.org/under/Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to	Eligible to
	Retire on or before	Retire on or after
	August 1, 2017 *	August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or
		Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit	Age 62 with 10 years of service credit; or
	Age 55 with 25 years of service credit	Age 60 with 25 years of service credit
* Members with 25 years of ser	rvice credit as of August 1, 2017, will be incl	uded in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. None of the employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$268,614 for fiscal year 2016.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 8 – Defined Benefit Pension Plans (continued)

State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 8 – Defined Benefit Pension Plans (continued)

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$917,607 for fiscal year 2016.

Net Pension Liability

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share:

		SERS	STRS	Total
Proportionate Share of the Net				
Pension Liability	\$	2,929,425	\$ 14,798,532	\$ 17,727,957
Proportion of the Net Pension				
Liability	(0.05133850%	0.05354594%	

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 8 – Defined Benefit Pension Plans (continued)

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 8 – Defined Benefit Pension Plans (continued)

The most recent experience study was completed June 30, 2010. The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

	Target		Long-Term Expected
Asset Class	Allocation		Real Rate of Return
Cash	1.00	%	0.00 %
US Stocks	22.50		5.00
Non-US Stocks	22.50		5.50
Fixed Income	19.00		1.50
Private Equity	10.00		10.00
Real Assets	10.00		5.00
Multi-Asset Strategies	15.00		7.50
Total	100.00	%	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 8 – Defined Benefit Pension Plans (continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$4,062,059	\$2,929,425	\$1,975,653

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 8 – Defined Benefit Pension Plans (continued)

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 8 – Defined Benefit Pension Plans (continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$20,556,277	\$14,798,532	\$9,929,499

Note 9 - Postemployment Benefits

School Employees Retirement System

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 9 - Postemployment Benefits (continued)

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, none of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the District's surcharge obligation was \$27,814.

The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$11,588, and \$1,951, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

State Teachers Retirement System

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2016, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$0, and \$54,810 respectively. The full amount has been contributed for fiscal years 2015, 2014 and 2013.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 10 - Leases

The District leases copiers from Office Products, Inc. The District disbursed \$24,164 to pay lease costs for the copiers during the year ended June 30, 2016. Following is the schedule of future lease payments, including interest:

	(Copier					
Year Ending	Lease

FY 2001 School Improvement Bonds

On May 1, 2001, the District issued \$14,799,995 in voted general obligation bonds for construction and renovation at the middle school and other buildings. The bond issue included serial, term and capital appreciation bonds. The bonds were issued for a twenty-five year period, with final maturity during fiscal year 2025. The District issued \$9,139,990 in refunding bonds to retire a portion of these bonds. The remaining \$5,660,005 in bonds was fully retired on December 1, 2015.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 11 – Debt (continued)

FY 2007 School Improvement Refunding Bonds

On January 25, 2007, the District issued bonds in the amount of \$9,139,990 to partially refund bonds previously issued in 2001 for construction and renovation to the District's middle school. The bond issue included serial, term and capital appreciation bonds in the amounts of \$7,380,000, \$1,185,000, and \$574,990 respectively. The bonds were issued at a premium of \$794,111. The bonds were issued for a nineteen year period with final maturity during fiscal year 2025.

Energy Conservation Improvement Bonds

On March 11, 2008 the District obtained a loan in the amount of \$850,000 to provide energy conservation measures for the District. The loan was obtained for a ten year period, with final maturity in fiscal year 2018.

Principal and interest requirements to retire long-term obligations outstanding at June 30, 2016 are as follows:

Note 12 - Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	 General	Re	Bond etirement	Other ernmental Funds	Go	Total evernmental Funds
Nonspendable						
Scholarships	\$ 	\$	-	\$ 848	\$	848
Total Nonspendable	-		-	848		848
Restricted for

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 13 - Interfund Transactions

The following is a reconciliation of the District's transfers:

	Transfers	T_1	ransfers	A	dvances	A	dvances
Fund	In	In Out		In		Out	
General	\$ -	\$	85,305	\$	5,451	\$	4,904
Turf and Track	10,000		-		-		-
Scholarship Fund - Student Activities	-		-		4,904		5,451
Flyer Club - Athletics	-		10,000		-		-
Management Information System	3,982		-		-		-
Gifted Identification Grant	7,912		-		-		-
Title I	70,459		-		-		-
Title II	2,952						
Total Governmental Funds	\$ 95,305	\$	95,305	\$	10,355	\$	10,355

Transfers are made from the general fund to subsidize operations of other funds. Transfers were in accordance with budgetary authorizations and Ohio Revised Code provisions. Advances are made to the Scholarship Fund at year end and are repaid in the following fiscal year.

Note 14 – Set Aside Requirements

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purpose of the acquisition and construction of capital improvements. Amounts not spent by year-end by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purpose in future years. The following cash basis information identifies the changes in the fund balance reserves for capital improvements and budget stabilization during fiscal year 2016.

	Capital Improvements	Budget Stabilization Reserve
Balance July 1, 2015	\$ -	\$ 22,919
Required Set-Aside	286,721	-
Qualifying Cash Disbursements	(286,721)	
Totals		22,919
Amount Carried Forward to Future Fiscal Years		22,919
Set Aside Reserve Balance June 30, 2016	\$ -	\$ 22,919

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 14 – Set Aside Requirements (continued)

The District had qualifying disbursements that offset the required set aside for Capital Improvements reserve for the year.

Effective April 10, 2001, Senate Bill 345 (SB345) amended Ohio Revised Code Section 5705.29 effectively eliminating the requirement for the District to establish and maintain a budget stabilization reserve. SB345 places special restrictions on the use of Bureau of Workers Compensation (BWC) rebate money remaining in the budget stabilization as of April 10, 2001, which is \$22,919 for the District at June 30, 2016.

The District had restricted revenue for the purchase of buses in previous years which is noted in the restricted fund balance in the Statement of Net Position – Governmental Activities. This restricted revenue was not used to meet the amount required to be set aside for capital improvements and maintenance.

Note 15 – Jointly Governed Organizations

Northwest Ohio Computer Association

The District is a participant in the Northwest Ohio Computer Association (NWOCA) which is a computer consortium. NWOCA is an association of education entities within the boundaries of Defiance, Fulton, Henry, Lucas, Williams and Wood counties in northwestern Ohio. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. NWOCA is governed by the Northern Buckeye Education Council and its participating members. Financial information can be obtained from the Northwest Ohio Computer Association, 209 Nolan Parkway, Archbold, Ohio 43502.

Northern Buckeye Education Council

The Northern Buckeye Education Council (NBEC) was established in 1979 to foster cooperation among school districts located in Defiance, Fulton, Henry, Lucas, Williams and Wood counties. The NBEC is organized under Ohio laws as a regional council of governments pursuant to a written agreement entered into by its member entities and bylaws adopted by the representatives of the member educational entities. The NBEC is governed by an elected Board consisting of two representatives from each of the counties in which the member educational entities are located. The Board is elected from an Assembly consisting of a representative from each participating educational entity.

Total disbursements made by the District to the Northern Buckeye Education Council during the fiscal year were \$120,804. These payments include services for NWOCA. Financial information can be obtained from the Northern Buckeye Educational Council, 209 Nolan Parkway, Archbold, Ohio 43502.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 15 – Jointly Governed Organizations (continued)

Penta Career Center

The Penta Career Center (PCC) is a distinct political subdivision of the State of Ohio which provides vocational education to students. The PCC is operated under the direction of a Board consisting of eleven members from the participating school districts' elected Boards. Board members are appointed for a term of two years to serve the sixteen participating school districts. Six members are appointed during even number years, one each from the Lucas, Ottawa and Wood County Educational Service Centers, one each from the Bowling Green and Maumee City School District, and one from the Rossford Exempted Village School District. Five member s are appointed during the odd number years, one each from the Fulton, Lucas, Sandusky and Wood County Educational Service Centers and one from the Perrysburg Exempted Village School District. The Board possesses its own budgeting and taxing authority. Financial information can be obtained from Penta Career Center, 9301 Buck Road, Perrysburg, Ohio 43551.

Northwest Ohio Educational Council

The Northwest Ohio Educational Council (NWOEC) was established to foster cooperation among various school districts within Ohio that participate in the Northwest Ohio Educational Council Self-Insurance Pool Program (NWOEC Program). The NWOEC is organized under Ohio Revised Code Section 167.01 as a regional council of governments pursuant to a written agreement entered into by its members and by policies adopted by the member school districts. The nine member Insurance Committee conducts the business and affairs of the NWOEC program.

Ohio Schools Council

The Ohio Schools Council (Council) is a jointly governed organization established under Ohio Revised Code Section 167. The Council was created by school districts for the purpose of saving money through volume purchases. The Council consists of 108 school districts throughout Ohio. Each school district member superintendent serves as a representative of the Assembly. The Assembly is the legislative body of the Council. The Assembly elects five of the Council's Board members and the remaining four members are representatives of the Greater Cleveland School Superintendents' Association.

Note 16 – Insurance Purchasing Pool

Ohio Association of School Business Officials Group Rating Program

The District participates in the Ohio Association of School Business Officials Group ating Program, a workers' compensation insurance group purchasing pool. Each year, the participating school districts pay an enrollment fee to cover the costs of administering the program.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 16 – Insurance Purchasing Pool (continued)

Wood County Insurance Consortium

The Wood County Insurance Consortium (WCIC) is a public entity shared risk pool consisting of six local school districts, two exempted village school districts, a city school district, a joint vocational school and the Wood County Educational Service Center. WCIC is organized as a Voluntary Employee Benefit Association under Internal Revenue Code Section 501(c)(9) and provides medical, dental and other benefits to the employees of the participating entities. Each participating entity's superintendent is appointed to an Administrative Committee which advises the Trustee, the Hylant Group, concerning aspects of the administration of the WCIC.

Each entity decides which plans offered by the Administrative Committee will be extended to its employees. Participation in the WCIC is by written application subject to acceptance by the Administrative Committee and payment of the monthly premiums. Financial information can be obtained from Medical Mutual of Ohio, PO Box 943, Toledo, Ohio 43656.

Southwestern Ohio Educational Purchasing Council

The District participates in the Southwestern Ohio Educational Purchasing Council (the Pool), an insurance purchasing pool established under Ohio Revised Code Section 2744.081. The Pool is an unincorporated nonprofit association of its members which enable the participants to provide for a formalized joint insurance purchasing program for maintaining adequate insurance protection and provides risk management programs and other administrative services. The Pool's business and affairs are conducted by a Board consisting of superintendents, treasurers, and others from the member school districts. Financial information can be obtained from Southwestern Ohio Educational Purchasing Council, 303 Corporate Center Drive, Suite 208, Vandalia, Ohio 45377-1171.

Note 17 – Contingent Liabilities

Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally erquires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2016.

Litigation

The District is of the opinion that any current or future claims will either result in a favorable outcome or be covered by current policies, so as not to materially affect the financial position of the District.

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2016

Note 17 – Contingent Liabilities (continued)

Foundation Funding

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the school district which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the school district; therefore, the financial statements impact is not determinable at this time. ODE and management believe this will result in either a receivable to or a liability of the District.

Note 18 – Accountability and Compliance

Per Ohio Administrative Code Section 117-2-03(B), the District is required to prepare its annual financial report in accordance with generally accepted accounting principles (GAAP). However, the District elected to prepare its financial statements on a cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net position/fund balances, and disclosures that, while material, cannot be determined at this time. The District can be fined and various other administrative remedies may be taken against the District regarding this matter.

At June 30, 2016, there was a deficit balance of (\$35,818) in the Pre-School Special Education fund (Fund #439). The District has a request for payment pending with the grant agency to cover the amount of the deficit for this fund.

Note 19 – Subsequent Events

The District entered into a new lease agreement for copier machines to commence September 1, 2016 for a total of \$150,450, including interest, to be paid over a 5-year period.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2016

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Lake Local School District (the District) under programs of the federal government for the year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE D - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Lake Local School District Wood County 28090 Lemoyne Road Millbury, Ohio 43447

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lake Local School District, Wood County, (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 15, 2016, wherein we noted that District uses a special purpose framework other than generally accepted accounting principles.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter that we must report under *Government Auditing Standards*, which is described in the accompanying schedule of findings as item 2016-001.

Lake Local School District Wood County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

We also noted certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated November 15, 2016.

District's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Lake Local School District Wood County 28090 Lemoyne Road Millbury, Ohio 43447

To the Board of Education:

Report on Compliance for Each Major Federal Program

We have audited the Lake Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the District's major federal programs for the year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal programs.

Management's Responsibility

The District's management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the Lake Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2016.

Lake Local School District
Wood County
Independent Auditor's Report on Compliance with Requirements
Applicable to the Major Federal Program and on Internal Control Over
Compliance Required by the Uniform Guidance
Page 2

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

FINDING NUMBER 2016-001

Noncompliance

Ohio Rev. Code Section 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office.

Ohio Administrative. Code Section 117-2-03(B) requires the District to prepare its annual financial report in accordance with generally accepted accounting principles. Pursuant to Ohio Rev. Code Section 117.38, the School District may be fined and subject to various other administrative remedies for its failure to file the required financial report.

The District did not report the financial activity of the District in accordance with generally accepted accounting principles for fiscal year ending June 30, 2016. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time.

The Board of Education should review the standards and ensure preparation of its financial statements in accordance with AICPA's Audit and Accounting Guide Audits of State and Local Governments. The Board of Education should ensure the financial statements are prepared in accordance with the Ohio Administrative Code and the Ohio Revised Code. Implementation of these procedures would help ensure accurate and timely financial statements are available to the District's community.

Official's Response:

See Corrective Action Plan.
