# New Albany – Plain Local Schools New Albany, Ohio

Comprehensive Annual Financial Report FISCAL YEAR ENDING JUNE 30, 2016

## Dave Yost • Auditor of State

Board of Education New Albany-Plain Local School District 55 North High Street New Albany, Ohio 43054

We have reviewed the *Independent Auditor's Report* of the New Albany-Plain Local School District, Franklin County, prepared by Julian & Grube, Inc., for the audit period July 1, 2015 through June 30, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The New Albany-Plain Local School District is responsible for compliance with these laws and regulations.

#### NEW ALBANY-PLAIN LOCAL SCHOOLS

December 16, 2016

To the Citizens and Board of Education of the New Albany-Plain Local School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the New Albany-Plain Local School District (the "District"). This CAFR, which includes an unqualified opinion from the Auditor of State of Ohio, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with District's management. To the best of our knowledge and belief, this CAFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditors' Report.

This report includes all funds of the District. The District provides a full range of traditional educational programs, services and facilities. These include elementary and secondary curriculum at the general, college preparatory and vocational levels, a broad range of co-curricular and extracurricular activities, special education programs and facilities.

In addition to providing these general activities the District has administrative responsibility for state funds distributed to Columbus Jewish Day School, a private school located within the District boundaries. In accordance with GASB Statement 24, this responsibility is included in the reporting entity as a special revenue fund. While this organization shares operational and service similarity with the District, all are separate and distinct entities. Because of their independent nature, this organization's financial statements are not included in this report.

The Board of Education (the "Board") of the District is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting body, and policy initiator for the operation of the District. The Board is responsible for the adoption of the tax budget, the annual operating budget and the approval of all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code.

#### **Profile of the School District**

The New Albany-Plain Local Schools (NAPLS) is located 20 miles northeast of downtown Columbus, in the beautiful City of New Albany. The school district serves 4,850 students, kindergarten through twelfth grade, and covers an area of 23 square miles, including the City of New Albany, Plain Township, and neighborhoods within a small portion of the City of Columbus. NAPLS features a unique learning environment for its students, with all of its schools and support facilities located on an 80-acre college-style campus. The schools are designed in a Georgian architectural style, connected by tree-lined walkways and surrounded by a 120-acre nature preserve. From the "Jeffersonian-style" Library-Information Center to the Environmental Land Lab and high-tech classrooms, the learning environment is as unique as it is functional, creating outstanding educational opportunities for its students.

The District has developed a purpose statement to guide the work moving forward from the 2015-16 school year. The components of the District Continuous Improvement Plan (CIP) are below along with seven benchmarks:

#### **District Purpose**

The New Albany-Plain Local School District is committed to creating a culture of accountability that achieves the best academic and developmental outcomes for each student.

#### **Commitment to Excellence**

The District aspires, by 2021, to be ranked in the top 5% (#30 or higher of 608 public school districts) for student achievement in the State of Ohio as reported by the Ohio Department of Education (ODE), which will require incremental progress of at least 1% annually.

#### Focus

All employees will be accountable for implementing research-based practices including a rigorous and aligned curriculum, common assessments, focused instruction and data-driven decisions to achieve the best academic and developmental outcomes for every student within a fiscally sustainable budget.

#### **Benchmarks and Indicators**

#### **Benchmark 1: Increase achievement**

Increase the district performance index rank as compared to all Ohio school districts on the Local Report Card from #64 (2015-16 ranking, top 11%) to #54 (2016-17 ranking, top 9%) or better.

#### Benchmark 2: Facilitate a year or more of growth for every year of instruction

Demonstrate at least one year's worth of growth or higher on the district component grade measuring progress of all students in math and reading in grades 4-8 as calculated by ODE.

## Benchmark 3: Meet or exceed State's achievement and gap closing standards for specific subgroups scoring below the state proficiency requirement in reading and math

Increase by 5% or more the performance of student subgroups (based upon ethnicity, race, or socioeconomic status) from the 2016 to the 2017 ODE gap closing report.

#### Benchmark 4: Graduate students who are college and career ready

Continue to earn a grade of A for the graduation rate component on the Local Report Card. Increase the district ACT mean score to be at least 20% higher than the state average.

#### Benchmark 5: Enhance school culture and social-emotional well-being

Administer age-appropriate student climate surveys to establish baseline data on the percentage of students who feel safe at school, supported, and have at least one staff member to approach with problems.

#### Benchmark 6: Demonstrate sustainable fiscal management

Earn an annual Government Finance Officer Association (GFOA) award for excellence in financial reporting for the district's Comprehensive Annual Financial Report (CAFR). Receive an unqualified audit with fewer than three minor compliance citations. Reduce FY17 Five Year Forecast Line Item 4.500 (Total Expenditures) by at least \$560,000 resulting in a 1% reduction in operational expenditures, to positively impact the district's Five Year Forecast and eliminate deficit spending forecasted in FY18.

#### Benchmark 7: Ensure community engagement and stakeholder satisfaction

Implement annual community and staff surveys to establish baseline data on the level of satisfaction with educational quality, school culture, communications, climate and/or fiscal management.

In addition to providing challenging academic offerings for all students, NAPLS prides itself on the wide array of opportunities for students to benefit from team and personal success, including athletics, performing arts, and club activities. Nearly all of the District's high school students belong to a club or organization, and 67% of the students also participate in athletics or the performing arts. One of the primary measures of a school district's success is how well students are prepared for life after graduating high school. Ninety-six percent of the District's graduates attend college, with eighty-eight percent of those attending four-year colleges or universities, including some of the nation's most prestigious institutions.

The successes that have been realized by NAPLS are a result of the unique partnership that has been formed on the part of the school district and the entire learning community. This partnership has yielded benefits for not only today's students, but for generations to come.

#### Enrollment

The District's enrollment for FY16 was 4,850 as compared with 4,845 for FY15. With the addition of the K-12 Learning Facility (fully operational in the 2015-16 school year) the district is able to accommodate student growth through build-out with a maximum space accommodation of 5,700. The focus of the district now becomes how to use the buildings and the space in the most efficient way to impact student outcomes. Enrollment continues to grow as the district anticipates more than 4,900 students being served in FY17. A Reconfiguration Study is underway to address grade level accommodation and building use.

The District's enrollment is based on actual enrollment during the first full week of October and does not include students living within the District's attendance area who attend charter or private schools. The enrollment for the previous two school years, along with the design capacity, are shown below.

#### New Albany-Plain Local School District

BUILDING	2014-15 ENROLLMENT	2015-16 ENROLLMENT <sup>2</sup>	DESIGN CAPACITY	EXCEEDS BUILDING Capacity
K-1 Elementary <sup>1</sup>	627	629	600	29
2-5 Elementary	1,593	737	1,200	N/A
K-12 Learning Facility	N/A	814	1,200	N/A
Middle School	1,191	1,181	1,200	N/A
High School	1,434	1,478	1,500	N/A

<sup>1</sup> Accommodates two half-day sessions of kindergarten in the course of one day. <sup>2</sup> As of October 2015 NAPLS Head Count

#### **Economic Condition and Outlook**

The District, along with many other public schools in the state, relies heavily on local property tax as a primary source of funds. Ohio law limits the growth in real estate revenues by reducing millage as assessed values increase following re-appraisals. Consequently, revenues generated from each levy remain relatively constant. As a result, the District must periodically seek additional funding from its taxpaying constituents.

Our District is now known as a "CAP" district for fiscal year 2016 through fiscal year 2021. Based on current legislation, being on the CAP in fiscal year 2016 and fiscal year 2017 means we received a 7.5% increase in state basic aid each year as well as funding for meeting or exceeding the graduation rate and 3<sup>rd</sup> grade guarantee metrics.

While the district did not realize enrollment growth in 2015-2016 current projections indicate continued growth resulting in 504 additional students by 2024.

#### Long-term Financial Planning

The financial forecast of General Fund operations for the next five years assumes that the District's fiscal year 2016 and 2017 ending General Fund cash balance will be approximately \$13.9 million and \$15.2 million, respectively, with continued declining balances thereafter.

The increase in cash balance from fiscal year 2015 to fiscal year 2016 is due to several factors, including state aid increase, additional revenue from Public Utility Personal Property taxes due to a self-reported increase, step freezes by the 2015-2016 school year for both unions, and a fully implemented reduction plan.

#### **Community Economic Outlook**

New Albany is poised for continued growth. Strategically located along the recently improved and expanded State Route 161, New Albany is within 3 minutes of the I-270 outerbelt in the northeast quadrant of the greater Columbus metropolitan area.

Implementation of the strategic land use and economic development plans guided the City to create economic clusters within the Business Park. A target strategy has been employed to attract Information & Technology, Medical, and Corporate Office. To date, over 1.6 billion square feet of commercial development has been completed, under construction or approved in the business park for a total of 13,741 jobs. Since 2009, in the midst of one of the nation's largest economic downturns, New Albany created 7,626 new jobs. This economic activity represents \$1.3 billion in private investment and 4.7 million square feet of new construction. The latest addition within the school district is Columbia Gas NiSource who occupied a 43,000 square foot building that will house 150 employees at an average salary of \$90,000.

#### **Income Tax Sharing**

As a result of a partnership between the City of New Albany and the District, income tax is shared to offset property tax abatement incentives to companies. These abatements are provided for up to fifteen (15) years of up to 100% real property tax abatements.

#### MAJOR INITIATIVES AND ACCOMPLISHMENTS

#### Accomplishments for Fiscal Year 2016

The District has aggressively identified areas to reduce expenses without sacrificing direct services to students. The District's goal has been to keep reductions away from the classroom. The purpose is to maintain the outstanding quality of the District's educational program.

#### Financial

The District will apply to receive the Certificate of Excellence in Financial Reporting for its fiscal year 2016 CAFR.

#### 2015-2016 District Accomplishments & Highlights

- The New Albany-Plain Local Board of Education simplified the focus to three strategic goals for the 2015-2016 school year.
  - Goal 1: Increase Student Achievement
    - Continue to align curriculum, assessments, and instruction to national and international standards, including Common Core, ACT, and Advanced Placement.
    - Focus professional learning on research-based clear learning targets, formative feedback and an analysis of rigor.
    - Implement recommendations from University studies in Response to Intervention, Gifted and Special Education services.
  - Goal 2: Strengthen Positive School Culture
    - Improve student culture and district climate by engaging students, staff and community to address:
    - Diversity: Expand the understanding and celebration of diversity with our students, staff, and community.
    - Bullying: Engage the entire staff, student body, parents and community to improve reporting, communication, education and intervention to create a school climate free from bullying.

- Prevention and Intervention: Lead a community conversation that will strengthen the commitment from every student, staff, parent and community member to act on a system of supports to prevent and intervene in many areas of need (e.g. drug and alcohol abuse, suicide, depression, and dating violence.)
- o Goal 3: Implement New System of Evaluation and Professional Growth
  - The District continued to implement a teacher and principal evaluation system that includes student growth as a measure of performance to accelerate student achievement and provide a system of growth and development for staff.
  - Provide focused, ongoing, job-embedded professional development directly aligned to district goals.

#### Academic Achievement

BY THE NUMBERS:

- NAHS celebrated National Merit Scholars, including seven Semi-Finalists and 10 Commended Scholars.
- 88% of NAHS seniors took the ACT and/or SAT college entrance exams.
- Average score on ACT 26, while national average is 21.
- NAHS students participated in 19 different Advanced Placement (AP) assessments in 2016.
- 69.7% of NAHS students enrolled in Advanced Placement courses.
- 44% of our seniors met the criteria for an Honors Diploma.
- 93% of our students received admission offers to their first or second choice colleges.
- The class of 2016 received \$1.6 million in usable, first year scholarship dollars.
- 255 different colleges accepted our students.
- NAHS in top 2% in the state with students graduating with an Honors Diploma in 2015-16.
- Increased participation in Advanced Placement
  - The District has seen a steady increase in the numbers of students enrolled in AP coursework.
  - Increase in number of AP tests taken
    - **2**011-2012 530
    - **2012-2013 685**
    - **2013-2014 775**
    - **2014-2015 895**
    - **2015-2016 990**

#### NAPLS Awarded a Straight A Fund Grant from the Ohio Department of Education

As part of a central Ohio consortium, NAPLS was the recipient of a \$250,000 Straight A Fund grant to reconfigure the Solar House and develop a 3E Program of study, Engineering, Energy and Environment. Highlights

• Acceleration Opportunities for Students NAPLS offers multiple opportunities for elementary and middle school students to accelerate their learning by taking compacted math classes providing two years of math instruction in one year. There are also 10 high school classes offered for middle school students giving them the opportunity to earn high school credit in the 2015-16 school year. The number of middle school students taking high school credit math courses has doubled from last year

- Senior Seminar and Internships
  - Senior Seminar is a graduation requirement for all NAHS students. It is a performance-based course that challenges students to extend their learning beyond the traditional school setting to work place internships, university and hospital research, and a variety of experiences. Students demonstrate their final project through presentation to an audience of their peers and a panel of adjudicators. Some examples of last year's projects included: publishing a young-adult novel, tutoring inner-city children, an interior design internship, an initiative to bring corrective vision to a remote area of Ethiopia and teaching others to use assistive technology to help students with learning disabilities.
- New Albany High School Theatre Program received high honors with invitation to return to the Fringe Festival in Edinburgh Scotland in 2017. NAHS Theatre presented *Kiss Me Kate* and *Macbeth* and NAMS Theatre presented *Hairspray Jr*.
- Visual Arts NAHS & MS students were recognized with State honors from the Scholastic Arts Awards and Governor's Award of Excellence.
- Music Fifth Grade Choirs participated in Annual Music in the Parks Competition receiving Good, Excellent Ratings, the Espirit de Corp Award and Best Overall Elementary Choir Award. Band, Choir and Orchestra at all levels continued to excel in state competition.
- Environmental Learning Lab There are 80 acres of woodlands, wetlands, ponds, streams, and meadows on and adjacent to the K-12 Learning Campus.
- Author-In-Residence Once again the District hosted the Author-in-Residence series for students in the 2015-2016 school year. Through the generosity of the New Albany Community Foundation, Lynne and Martyn Redgrave, New Albany Women's Network and our Parent Teacher Organizations with support of over \$20,000. Featured authors who visited in 2015-16 include: Mindy McGinnis at NAHS, Jordan Sonnenblick at NAMS, Jarrett Krosoczka for grades 3-5 and Kelly DiPucchio for New Albany Grades K-2
- Carnival of the Animals Through a partnership with the New Albany Ballet Academy, first grade students studied movement, music, and poetry culminating in an evening performance of Camille Saint-Saens' *The Carnival of the Animals*.
- "America's Top 500 High Schools"
  - New Albany High School continues to be ranked among the best at 20<sup>th</sup> in Ohio according to the U.S. News Best High Schools. These rankings are important, since they compare high schools across the United States in core subjects and Advanced Placement, with special attention to student demographic groups.

#### Focus on Student and School Culture

Develop the character of each student to be ethical, informed, and engaged citizens. We will educate our students in an inspirational, safe, and supportive environment in facilities that meet the changing needs of our students. We will make available the diverse experiences of our community to all students.

#### BY THE NUMBERS:

- Students participated in 36 clubs and activities at New Albany High School.
- Students participated in 14 clubs and activities at New Albany Middle School.
- 25.3% of NAPLS students identified as an ethnicity other than Caucasian.
- New Albany-Plain Local Schools offers 22 Varsity, 19 Junior Varsity, and 6 Freshmen athletic teams.

#### HIGHLIGHTS:

- All students at NAHS take part in the House System, smaller supportive communities within our large high school that provide opportunities to students in leadership, service, and academics.
- Peace Week A week-long celebration unique to New Albany High School. Students, staff, and parents plan activities to promote and celebrate "peace" with a focus on developing positive relationships, leadership, environmental awareness, world peace, community building and our overall commitment to student culture.
- NAPLS students in grades three through twelve took to the McCoy stage to celebrate Black History Month with performances of *Loving Our Legacy*, an original production celebrating the significant contributions of African American people in American history, the arts and society.
- Rox program for girls in grade 5 and in middle school to help develop positive selfesteem, self-confidence, awareness and support.
- Continued mental health supports working with Children's Hospital and a \$120,000 ADAMH grant with Concord Counseling that provides for two full-time mental health specialists.

## International Opportunities Expanded to Provide Real-World Learning for New Albany High and Middle School Students

International travel experiences

• Three times more students participated in international and domestic expedition learning than four years ago. Focus: Service, Academics, Energy and conservation, Arts, Culture, Language and Youth Summits on Global Leadership. Destinations in the past year included; service learning in Nicaragua and Ecuador, Biology on Andros Island the Bahamas and Global Leadership and Energy Summits in Europe – the Hague and Iceland.

#### **Built for the Future**

- K-12 Learning Facility fully opened to accommodate nearly 1,200 students.
  - Three learning communities housing students grades 2-5.
  - One learning community housing students grades 6-8.
  - In addition to these students using the building, hundreds of students also use the facility every week with; elementary students from the 2-5 building utilizing the Stem Labs and attend some special classes such as art and music, athletic teams utilizing the gymnasium space for practice and competition, other students utilize flex lab space, green roofs and the greenhouse for learning. Community groups also utilize the community meeting space.

#### FINANCIAL POLICIES AND INFORMATION

The District courses of study will continue to be revised and periodically updated to provide students with instruction that is closely correlated with the State's academic content standards. To support the effective implementation of the new courses of study, additional financial resources will be needed to train teachers and to provide students with current learning materials and equipment.

#### **Internal Controls**

The management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

#### **Budgetary Controls**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources, and the appropriations resolution, both of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

#### **Independent Audit**

Office of Management and Budget Uniform Guidance requires an annual audit by independent accountants. Julian & Grube, Inc. conducted the District's fiscal year 2016 audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Uniform Guidance. The Independent Auditors' Report on the basic financial statements is included in the financial section of this report.

#### Acknowledgements

This report has been compiled and prepared by the Treasurer's office. Special acknowledgement is given to the Superintendent of Schools and the New Albany-Plain Board of Education for their leadership and commitment to the students, staff and community of the New Albany-Plain Local School District.

Respectfully submitted,

Rebucca Joshi

Independent Auditor's Report

New Albany-Plain Local School District Franklin County 55 N. High Street New Albany, Ohio 43054

To the Board of Education:

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the New Albany-Plain Local School District, Franklin County, Ohio, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the New Albany-Plain Local School District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the New Albany-Plain Local School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the New Albany-Plain Local School District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the New Albany-Plain Local School District, Franklin County, Ohio, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

Independent Auditor's Report New Albany-Plain Local School District

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis, required budgetary comparison schedule* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the New Albany-Plain Local School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2016, on our consideration of the New Albany-Plain Local School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the New Albany-Plain Local School District's internal control over financial reporting and compliance.

Julian & Sube the.

Julian & Grube, Inc. December 16, 2016

As management of the New Albany-Plain Local School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the District's basic financial statements, which follow this section.

#### **Financial Highlights**

Key financial highlights for 2016 are as follows:

- The District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$51.2 million (negative net position).
- The District's total net position increased by \$7.9 million, a 13.5% increase in comparison with the prior fiscal year.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$40.6 million, an increase of \$6.7 million in comparison with the prior fiscal year. Of this amount, \$8.5 million is available for spending at the District's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned balance for the general fund was \$8.5 million, or 16% of total general fund expenditures.
- The District's total general obligation bonded debt decreased \$5.7 million in comparison with the prior fiscal year.

#### **Overview of the Financial Statements**

#### The Statement of Net Position and Statement of Activities:

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a manner that helps answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by private sector corporations. All of the current year revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. The change in net position provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District.

#### **Reporting the District's Most Significant Funds**

#### Fund Financial Statements:

Our analysis of the District's major funds appears on the fund financial statements beginning with the Balance Sheet-Governmental Funds and the Statement of Revenues, Expenditures and Changes in Fund Balances. These statements provide detailed information about the most significant funds—not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's three types of funds, governmental, proprietary and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

#### Governmental Funds:

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

#### **Proprietary Fund:**

The District uses an internal service fund to account for health claims and premiums. This fund uses the accrual basis of accounting; the same as on the entity-wide statements. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various funds. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the governmental-wide financial statements.

#### Fiduciary Fund:

The District's only Fiduciary Fund is a Student Managed Activities Agency Fund. The District's fiduciary activities are reported in the Statement of Fiduciary Net Position. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

#### **Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$51.2 million according to the Statement of Net Position at the close of the most recent fiscal year.

A comparative analysis of fiscal year 2016 to 2015 follows from the Statements of Net Position. The net position at June 30, 2015 has been restated as described in Note 24:

Net Positi	on			
	Governmental Activities			
				Restated
		2016		2015
Assets				
Current and Other Assets	\$	82,035,227	\$	79,867,327
Capital Assets		101,470,616		105,713,763
Total Assets		183,505,843		185,581,090
<b>Deferred Outflows of Resources</b>				
Unamortized Amount on Refunding		4,337,138		4,683,219
Pension		9,899,343		5,858,079
Total Deferred Outflows of Resources		14,236,481		10,541,298
Liabilities				
Current Liabilities		7,882,126		7,849,915
Long-term Liabilities:				
Due Within One Year		6,740,534		6,527,548
Due in More than One Year:				
Net Pension Liability		90,365,921		77,697,053
Other Amounts Due in More than One Year		105,172,047		111,158,364
Total Liabilities		210,160,628		203,232,880
Deferred Inflows of Resources				
Property Taxes		33,197,747		33,471,240
Pension		5,634,446		14,066,303
Total Deferred Inflows of Resources		38,832,193		47,537,543
Net Position				
Net Investment in Capital Assets		1,949,725		1,244,691
Restricted		10,940,230		10,678,859
Unrestricted (deficit)		(64,140,452)		(71,155,778)
Total Net Position (deficit)	\$	(51,250,497)	\$	(59,232,228)

Capital assets decreased significantly in comparison with the prior fiscal year. This decrease is primarily a result of current year depreciation.

Deferred Outflows of Resources related to pensions increased significantly in comparison with the prior fiscal year-end. This increase is the result of the difference between expected and actual experience.

The increase in Net Pension Liability is primarily the result of unfavorable pension investment returns. The decrease in Other Long-term liabilities is a result of the District's current year debt payments.

Deferred Inflows of Resources related to pensions decreased significantly in comparison with the prior fiscal year-end. This decrease is the result of the difference between projected and actual investment earnings.

The table below shows the change in net position for fiscal year 2016 and 2015 (restated):

	Governmental Activities			
		Restated		
	2016	2015		
Program Revenues				
Charges for Services	\$ 4,278,931	\$ 3,254,827		
Operating Grants	1,656,922	2,767,331		
General Revenues				
Property Taxes and Payments in Lieu of Taxes	59,194,567	56,494,448		
Grants and Entitlements	9,751,205	9,240,735		
Investment Earnings	116,415	39,843		
Capital Donations	19,625	-		
Miscellaneous	508,828	845,437		
Total Revenues	75,526,493	72,642,621		
Program Expenses				
Instructional	36,428,283	42,156,818		
Support Services	24,548,088	26,089,540		
Community Services	258,128	290,138		
Co-Curricular Activities	1,786,437	2,320,117		
Interest and Fiscal Charges	4,523,826	4,529,080		
Total Expenses	67,544,762	75,385,693		
Change in Net Position	7,981,731	(2,743,072)		
Net Position (deficit) at Beginning of Year, Restated	(59,232,228)	(56,489,156)		
Net Position (deficit) at End of Year	\$ (51,250,497)	\$ (59,232,228)		

#### **Change in Net Position**

Charges for Services increased significantly in comparison with the prior fiscal year. This increase is primarily the result of an increase in tuition revenue related to all-day kindergarten.

Operating Grants decreased significantly in comparison with the prior fiscal year. This decrease is primarily the result of an end in funding from the Straight A Grant Program.

Property Taxes and related revenues increased significantly in comparison with the prior fiscal year. This increase is primarily the result of an increase in Payments in Lieu of Taxes.

The significant decrease in Total Expenses is based on the full implementation of the reduction plan following the November 2014 levy failure.

The property tax laws in Ohio create the need periodically to seek voter approval for additional operating funds. Tax revenues generated from voted tax levies do not increase as a result of inflation. An operating levy is approved for a fixed millage rate, but the rate is reduced for inflation with the effect of providing the District the same amount of tax dollars as originally approved. Therefore, school districts such as ours that are dependent upon property taxes as a primary source of revenue must periodically return to the ballot and ask voters for additional resources to maintain current programs and enrollment increases. Since the District must rely heavily on voter approval of operating tax issues, management of the resources is of paramount concern to the District's administration and the voting public.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for the governmental activities. General revenues including tax revenue, investment earnings, and unrestricted State entitlements must support the net cost of program services.

	otal Cost of 016 Services	-	otal Cost of )15 Services	-	Net Cost of )16 Services	Net Cost of )15 Services
Governmental Activities						
Instructional	\$ 36,428,283	\$	42,156,818	\$	34,264,989	\$ 39,574,293
Support Services	24,548,088		26,089,540		21,785,559	23,542,183
Community Services	258,128		290,138		181,493	209,684
Co-curricular Activities	1,786,437		2,320,117		853,042	1,508,295
Interest and Fiscal Charges	 4,523,826		4,529,080		4,523,826	 4,529,080
Total	\$ 67,544,762	\$	75,385,693	\$	61,608,909	\$ 69,363,535

Local property taxes and payment in lieu of taxes make up approximately 78 percent of total revenues for governmental activities. The net services column reflecting the need for \$61.6 million of support indicates the reliance on general revenues to support governmental activities.

#### The District's Funds

The District's governmental funds reported a combined fund balance of \$40.6 million, which represents an increase of \$6.7 million as compared to last year's total of \$33.9 million, according to the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. The schedule below shows the fund balance and the total change in fund balance from June 30, 2016 to 2015.

Funds:	Fund Balance June 30, 2016	Fund Balance June 30, 2015	Increase/ (Decrease)
General	28,603,672	22,533,633	6,070,039
Bond Retirement	9,397,522	9,073,642	323,880
Other Governmental	2,640,666	2,312,178	328,488
Total	40,641,860	33,919,453	6,722,407

#### General Fund

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$8.5 million, while total fund balance was \$28.6 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 16 percent of total general fund expenditures, while total fund balance represents 53 percent of that same amount.

The fund balance of the District's general fund increased by \$6.1 million during the current fiscal year.

The table that follows assists in illustrating the revenues of the general fund.

	2016 2015		Change	
Revenues and Other Financing Sources:				
Taxes and Payments in Lieu of Taxes	\$	50,089,119	\$ 47,649,651	5.1%
Interest Earnings		111,773	37,164	200.8%
Intergovernmental		8,994,740	8,448,874	6.5%
Other Revenue		2,646,484	1,924,171	37.5%
Inception of Capital Lease		100,800	 479,589	-79.0%
Total Revenues and Other Financing Sources	\$	61,942,916	\$ 58,539,449	5.8%

Payments in Lieu of Taxes increased significantly in comparison with the prior fiscal year. This increase is primarily the result of an increase in payments received in lieu property taxes from the Franklin County Auditor and the Village of New Albany. These payments are the result of the Village of New Albany's economic development initiatives.

# NEW ALBANY-PLAIN LOCAL SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2016 UNAUDITED

The table that follows assists in illustrating the expenditures of the general fund.

	2016	2015	Change
Expenditures and Other Financing Uses:			
Instruction	\$ 30,886,363	\$ 32,730,867	-5.6%
Support Services	21,650,849	23,366,327	-7.3%
Community Services	200,000	200,000	0.0%
Extracurricular Activities	995,187	1,447,170	-31.2%
Capital Outlay	100,800	532,818	-81.1%
Debt Service:			
Principal Retirement	458,175	243,459	88.2%
Interest and Fiscal Charges	46,571	9,475	391.5%
Transfers Out	 1,534,932	 652,188	135.4%
Total Expenditures and Other Financing Uses	\$ 55,872,877	\$ 59,182,304	-5.6%

The significant decrease in Instruction and Support Services expenditures is primarily the result of the 2014 levy failure which resulted in a reduction of work force.

The significant increase in transfers out is the result of a transfer of funds to the District's self-insurance fund.

#### Bond Retirement Fund

The District's Bond Retirement-Debt Service Fund balance increased due to an increase in property taxes. The tables that follow assist in illustrating the financial activities and balances of the Bond Retirement Fund.

	2016	2015	Change
Revenues and Other Financing Sources:			
Taxes	\$ 9,083,278	\$ 8,902,648	2.0%
Intergovernmental	1,038,415	1,037,795	0.1%
Other Revenue	-	42,867	-100.0%
Refunding Bonds Issued	8,225,000	-	100.0%
Premium on Bonds Issued	857,343	-	100.0%
Transfers In	 -	 232,188	-100.0%
Total Revenues and Other Financing Sources	\$ 19,204,036	\$ 10,215,498	88.0%

Other financing sources increased significantly as a result of the refunding bonds issued during the current fiscal year.

# NEW ALBANY-PLAIN LOCAL SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2016 UNAUDITED

As the table below indicates, Bond Retirement Fund expenditures are primarily for financing costs.

		2016		2015	Change
Expenditures and Other Financing Uses:	¢	120 922	¢	127 271	1 90/
Support Services Debt Service:	Ф	139,832	\$	137,371	1.8%
Principal Retirement		5,865,000		5,655,000	3.7%
Interest and Fiscal Charges		3,795,507		4,014,004	-5.4%
Bond Issuance Costs		151,524		-	100.0%
Payment to Refunded Bond Escrow		8,928,293		-	100.0%
Total Expenditures and Other Financing Uses	\$	18,880,156	\$	9,806,375	92.5%

Other financing uses increased significantly as a result of the refunding bonds issued during the current fiscal year.

#### Other Funds

Other governmental funds consist of Special Revenue and Capital Projects funds. Fund balance in these funds increased by \$328,488. The key components of this increase are an increase in the permanent improvement fund balance resulting from a transfer in from the General Fund, and the food service fund balance offset by a decrease in the capital projects/building fund balance due to the project coming to an end.

# **General Fund Budgetary Highlights**

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. Budgetary information is presented for the general fund in the required supplementary information.

The District's actual revenues and other financing sources exceeded the final budgeted amounts by \$3.9 million. This increase is primarily the result of Payments in Lieu of Taxes receipts, which exceeded the estimate by \$2.7 million.

Final appropriations and other financing uses budgeted amounts were the same in comparison with the original amounts and actual budgetary expenditures and other financing uses were \$3.0 million less than final appropriations. These decreases were the result of the District's implementation of the budget reduction plan following the November 2014 levy failure.

# NEW ALBANY-PLAIN LOCAL SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2016 UNAUDITED

# **Capital Assets**

At fiscal year-end, the District had \$101.5 million (net of accumulated depreciation) invested in land, land improvements, buildings and improvements, equipment and fixtures, and vehicles, a decrease of \$4.2 million in comparison with the prior fiscal year. This decrease represents the amount in which current year depreciation of \$4.7 million and disposals of \$67,503 exceeded current year additions of \$547,475.

See note 6 to the basic financial statements for additional information on Capital Assets.

# **Debt Administration**

At fiscal year-end, the District's debt totaled \$108.3 million, a decrease of \$5.7 million in comparison with the prior fiscal year. This decrease represents the amount in which current year principal reductions and amortization totaling \$15.6 million, exceeded current year issuances and accretion totaling \$9.9 million.

See note 7 to the basic financial statements for additional information on long-term obligations.

# **Request for Information**

This financial report is designed to provide our citizen's, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Rebecca Jenkins, Treasurer, New Albany-Plain Local School District, 55 North High Street, New Albany, Ohio 43054.

#### RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES AS OF JUNE 30, 2016

Total Governmental Fund Balances	\$ 40,641,860
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	101,470,616
Other long-term assets are not available to pay for current period expenditures and therefore are reported as deferred inflows of resources in the funds.	
Property Taxes Receivable	379,657
Due From Other Governments	293
Interest Receivable	42
An internal service fund is used by management to charge the cost of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.	228,815
The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in governmental funds:	
Deferred Outflows - Pension	9,899,343
Deferred Inflows - Pension	(5,634,446)
Net Pension Liability	(90,365,921)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	
Bonds and Notes Payable	(108,272,405)
Unamortized Amount on Refunding	4,337,138
Accrued Interest Payable	(314,649)
Capital Leases Payable	(429,015)
Compensated Absence Payable	 (3,191,825)
	 (107,870,756)
Net Position of Governmental Activities	\$ (51,250,497)

#### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2016

\$ 6,722,407

Net Change in Fund Balances - Total Governmental Funds

Amounts reported for governmental activities in the statement of activities are different because	se:
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Depreciation Expense	
Capital Outlay	
Net effect of capital assets sales and disposals	s (67,503)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.	
Property Taxes - Delinquent	t 22,170
Due From Other Governments	s (13,933)
Investment Income	e 42
Contractually required contributions are reported as expenditures in governmental funds; howe the statement of net position reports these amounts as deferred outflows.	ever, 4,699,569
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability a reported as pension expense in the statement of activities.	are (4,895,316)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	
Refunding Bonds Issued	1 (8,225,000)
Refunding Bonds Premium	n (857,343)
Refunded Bonds	8,928,293
Bond and Note Principal Repayments	
Amortization and Capital Appreciation Bond Accretion	
Inception of Capital Lease	
Capital Lease Principal Repayments	s 263,175
Some expenses reported in the statement of activities, such as compensated absences payable, do not require the use of current financial resources and therefore are not reported as expenditures in the funds.	
Compensated Absences	s (76,977)
Accrued Interest	
The internal service fund used by management to charge the costs of insurance to individual fur is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense)	
of the internal service fund is allocated among the governmental activities.	228,815
Change in Net Position of Governmental Activities	\$ 7,981,731

# NOTE 1 – DESCRIPTION OF THE SCHOOL DISTRICT

The New Albany-Plain Local School District, (the District), is a body politic and corporate established, for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a local district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision for public education to residents of the District.

Average daily membership (ADM) reported for fiscal year 2016 was 4,839. The District employed 327 certified employees and 231 non-certificated employees. The District co-operates with the Educational Service Center of Central Ohio, a separate entity, for curricular services.

The District provides regular and special instruction. The District also provides support services for the pupils, instructional staff, general and school administration, business and fiscal services, facilities acquisitions and construction services, operation and maintenance of plant, student transportation, food services, extracurricular activities, and non-programmed services.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No.14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>" and GASB Statement No. 61, "<u>The Financial Reporting Entity</u>: <u>Omnibus</u>". The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. The District had no component units for the fiscal year ended June 30, 2016.

The District is also associated with four jointly governed organizations, an insurance purchasing pool, a related organization, and a joint operation. These organizations include the Metropolitan Educational Technology Association (META), the Eastland Vocational School District, the New Albany-Plain Local Joint Park District, the Ohio School Boards Association Workers' Compensation Group Rating Plan, and the New Albany Performing Arts Center. These organizations are presented in Notes 14, 15, and 16 to the basic financial statements.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

# **B.** Government-wide and Fund Financial Statements

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

# **Government-wide Financial Statements**

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements usually distinguish between those activities of the District that are governmental (primarily supported by taxes and intergovernmental revenues) and those that are considered business-type activities (primarily supported by fees and charges). The District, however, has no business-type activities. The internal service fund operating activities are eliminated to avoid overstatement of revenues and operations.

The statement of net position presents the financial condition of the governmental activities of the District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department, and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

# **Fund Financial Statements**

During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Proprietary and Fiduciary funds are reported by type.

# **Fund Accounting**

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

**Governmental Funds** – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The following are descriptions of the District's major governmental funds:

**General Fund** – The general fund is the operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund.

**Bond Retirement Fund** – The bond retirement fund is used to account for the accumulation of resources for, and the payment of, bond principal, interest, and related costs.

The other governmental funds of the District account for grants and other resources whose use is restricted or committed to a particular purpose.

**Proprietary Fund Types** – Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service. The District's proprietary fund is an internal service fund used to account for money received from other funds as payment for providing health insurance. Payments are made to a third party administrator for claims payments.

**Fiduciary Fund Type** – Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications; pension trust funds, investment trust funds, privatepurpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and therefore not available to support the District's own programs. The District does not have any trust funds. Agency funds are custodial in nature (assets equals liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities, and monies collected on behalf of and disbursed to the Ohio High School Athletic Association and New Albany Preforming Arts Center.

# C. Measurement Focus, basis of accounting and financial statement presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Governmental funds use the modified accrual basis of accounting. Differences in accrual and modified accrual basis of accounting arise in the recognition of revenue, recording of unavailable revenues, and presentation of expenditures and expenses.

# Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 4). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, and fees.

# Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. For the District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refundings and for pensions. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pensions are explained in Note 9.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, unavailable revenue and pension. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental funds balance sheet. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the availability period. For the District, unavailable revenue includes delinquent property taxes and intergovernmental revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position (See Note 9).

# Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

# **D.** Cash and Investments

To improve cash management, all cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through District records. Each fund's interest in the pool is presented as "Cash and Cash Equivalents" on the balance sheet. At fiscal year-end, investments were limited to STAR Ohio and repurchase agreements. Investment earnings are allocated as authorized by State statute or as governed by Board policy.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposits are reported at cost.

The District had funds invested in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2016. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investments purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2016.

Investment earnings are allocated as authorized by State statue or as governed by Board policy. Interest revenue credited to the General Fund during the fiscal year amounted to \$111,773.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

# E. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

# F. Inventory

All inventories are valued at cost using the first in, first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. At fiscal year-end, inventory consists of donated food and purchased food, supplies held for resale, and tires, fuel and oil held for use by transportation. Donated commodities are presented at their entitlement value.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

# G. Capital Assets and Depreciation

General capital assets are those related to government activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District's capitalization threshold is \$10,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not.

All reported capital assets except land and construction in progress are depreciated. The District currently does not possess any infrastructure. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	Estimated Lives
Land improvements	20 years
Buildings and improvements	10-50 years
Furniture, fixtures and equipment	5-20 years
Vehicles	8 years

# H. Interfund Balances

Exchange transactions between funds are reported as revenues in the seller funds and as expenditure/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. These transfers are eliminated from the statement of activities.

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due to/from other funds", and receivables and payables resulting from long-term interfund loans are classified as "advances to/from other funds". These amounts are eliminated in the statement of net position.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

# I. Compensated Absences

GASB Statement No. 16, "Accounting for Compensated Absences", specifies the method used to accrue liabilities for leave benefits. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year-end, taking into consideration any limits specified in the District's termination policy.

For governmental funds, the District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service. The District records a liability for accumulated unused sick leave for all employees after 10 years of current service with the District. The entire compensated absence liability is reported on the entity-wide financial statements. For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

# J. Unearned Revenue

Under both the accrual and modified accrual basis of accounting, revenue may be recognized only when it is earned. If assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue.

# K. Accrued Liabilities and Long-term Obligations

All accrued liabilities and long-term debt is reported in the government-wide financial statements. For governmental fund financial statements, these accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims for judgments, net pension liability, and compensated absences paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources. Long-term liabilities paid from governmental funds are not recognized as a liability in the fund financial statements until due.

# L. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

# M. Fund Balance

In accordance with Governmental Accounting Standards Board Statements No. 54, Fund Balance Reporting, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The categories are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted – Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – The committed classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. The committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria as restricted or committed. Although no specific resolution has been made, the District Board of Education authorizes the Treasurer to assign fund balance. The Board may also assign fund balance when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

# N. Net Position

Net position represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

None of the District's reported net position at June 30, 2016 was restricted by enabling legislation.

# O. Bond Issuance Costs, Bond Premiums/Discounts, and Gain/Loss on Refundings

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium and discount. Bond issuance costs are expensed as incurred. On the governmental fund financial statements, governmental fund types recognize issuance costs, bond premiums, and bond discounts in the current period. The face amount of the debt issue is reported as other financing sources. Premiums and discounts received on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Any gain or loss on refunding is allocated over the life of the debt or the new debt whichever is shorter.

# P. Extraordinary and Special Items

Extraordinary items are transactions of events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of District management and that are either unusual in nature or infrequent in occurrence. During the fiscal year, the District did not incur any transactions that would be classified as an extraordinary item or special item.

# Q. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

# **R.** Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the Internal Service Fund. For the District, these revenues are charges for services. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the Internal Service Fund.

# NOTE 3 – DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim moneys are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies to be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time: and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

# NOTE 3 - DEPOSITS AND INVESTMENTS - (Continued)

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Any public depository, at the time it receives a District deposit or investment in a certificate of deposit, is required to pledge to the investing authority as collateral eligible securities of aggregate market value that, when added to the portion of the deposit insured by the Federal Deposit Insurance Corporation (FDIC) or the Savings Association Fund, equals or exceeds the amount of District funds deposited.

A public depository may, at its option, pledge a single pool of eligible securities to secure the repayment of all public monies held by the depository. The pool of securities so pledged must have a current market value at least equal to 105 percent of all public monies on deposit with the depository, including the amount covered by FDIC.

# A. Deposits with Financial Institutions

At fiscal year-end, the carrying amount of the District deposits was \$7,195,641, including STAR Ohio Plus deposits totaling \$218,862, and the bank balance was \$7,328,892. Of the District's bank balance, \$715,147 was covered by federal deposit insurance while the remaining \$6,613,745 was exposed to custodial risk, as discussed below. In addition, the District had \$5,000 in cash on hand at June 30, 2016, which is included on the balance sheet and statement of net position as part of Cash and Cash Equivalents.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

# NOTE 3 – DEPOSITS AND INVESTMENTS – (Continued)

# **B.** Investments

At fiscal year-end, the District reported the following investments at fair value:

			Investment Maturities			ies
		Percent		Within		1 to 2
Investment Type	Fair Value	of Total		1 Year		Years
FHLMC	\$ 655,321	6.54%	\$	-		655,321
Negotiable CD's	7,413,511	73.96%		7,413,511		-
Commercial Paper	1,949,116	19.44%		1,949,116		-
Money Market	6,197	0.06%		6,197		-
Total	\$ 10,024,145	100%	\$	9,368,824	\$	655,321

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's investments are valued using quoted market prices (Level 1 inputs).

In addition, at fiscal year-end, the District's reported an investment in STAR Ohio totaling \$10,715,662. In accordance with GASB Statement No. 79, the District's investment in STAR Ohio is reported at amortized cost. For the fiscal year ended June 30, 2016, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates.

*Interest Rate Risk:* As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less, unless matched to a specific obligation or debt of the District.

*Credit Risk:* The District does not have a formal investment policy limiting credit risk. STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The FHLMC notes carry a rating of AA+ and the Commercial Paper carries a rating of A-1 by Standard and Poor's. The Certificates of Deposit and Money Market Funds are not rated.

Concentration Risk: The District places no limit on the amount that may be invested in any one issuer.

# NOTE 3 – DEPOSITS AND INVESTMENTS – (Continued)

#### C. Reconciliation of Deposits and Investment to the Statement of Net Position

The following is a reconciliation of deposits and investments as reported above to cash and cash equivalents reported on the statement of net position at fiscal year-end:

Investments (summarized above)	\$ 20,739,807
Carrying Amount of Deposits	7,195,641
Petty Cash	5,000
Less: Fiduciary Cash and Investments	(826,015)
Total Cash and Cash Equivalents on Statement of Net Position	\$ 27,114,433

# **NOTE 4 – PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2016 became a lien December 31, 2014, were levied after April 1, 2015 and are collected in 2015 with real property taxes.

Accrued property tax receivable includes real property, public utility property and tangible personal property taxes which are measurable at fiscal year-end and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

# NOTE 4 – PROPERTY TAXES – (Continued)

The assessed values upon which fiscal year 2016 taxes were collected are:

	2015 Second Half			2016 First Half		
	Amount		Percent		Amount	Percent
Agricultural/Residential and Other Real Estate	\$	845,722,320	96.49%	\$	884,858,330	95.99%
Public Utility Personal		30,740,320	3.51%		36,970,570	4.01%
Total	\$	876,462,640	100.00%	\$	921,828,900	100.00%
Tax rate per \$1,000 of						
assessed valuation	\$	74.74		\$	74.34	

# **NOTE 5 – INTERFUND TRANSACTIONS**

Transfers that occurred during the fiscal year were as follows:

	Transfers Out			
	General			
Transfers In		Fund		Total
Other Governmental Funds	\$ 670,000		\$	670,000
Self Insurance Fund		864,932		864,932
Total Transfers In/Out	\$	1,534,932	\$	1,534,932

The primary purpose of interfund transfers is to set aside funds for future capital outlays and to move funds to the self-insurance fund to pay claims.

Interfund transfers and amounts due between governmental funds are eliminated for reporting in the statement of activities.

All transfers were made in compliance with Ohio Revised Code sections 5705.14, 5705.15, and 5705.16.

# **NOTE 6 – CAPITAL ASSETS**

Capital asset activity for the fiscal year was as follows. Capital assets at July 1, 2015, have been restated as described in Note 24.

Governmental Activities	Restated Beginning Balance	Additions	Transfers/ Deductions	Ending Balance
Nondepreciable Captial Assets				
Land	\$ 4,451,592	\$ -	\$ -	\$ 4,451,592
Construction in Progress	41,447,716	237,586	(41,685,302)	
Total Nondepreciable Assets	45,899,308	237,586	(41,685,302)	4,451,592
Depreciable Capital Assets				
Land Improvements	8,558,121	-	800,007	9,358,128
Buildings and Improvements	108,961,794	-	40,489,409	149,451,203
Equipment and Fixtures	2,766,155	285,301	(175,585)	2,875,871
Vehicles	4,042,824	24,588	(931,993)	3,135,419
Total Depreciable Assets	124,328,894	309,889	40,181,838	164,820,621
Less accumulated depreciation				
Land Improvements	(6,364,623)	(368,280)	-	(6,732,903)
Buildings and Improvements	(53,141,226)	(3,953,832)	342,052	(56,753,006)
Equipment and Fixtures	(1,976,659)	(191,447)	161,916	(2,006,190)
Vehicles	(3,031,931)	(209,560)	931,993	(2,309,498)

# NOTE 7 – LONG-TERM OBLIGATIONS – (Continued)

All current obligation bonds outstanding, which were issued to provide funds for the acquisition and construction of equipment and facilities, are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Long-Term obligations of the District are included in the Statement of Net Position. Payments of principal and interest relating to these liabilities are recorded as expenditures in the Bond Retirement Fund.

#### Various Purpose General Obligation Bonds – Series 2000

On June 6, 2000, the District issued \$36,539,029 in voted general obligation bonds for the purpose of an addition and improvements. The bonds were issued for a twenty-seven year period with final maturity at December 1, 2027. The bonds will be retired from the Bond Retirement Fund.

#### <u>Energy Conservation Notes – Series 2005</u>

On June 2, 2005, the District issued \$2,700,000 in unvoted general obligation notes for the purpose of purchasing and installing energy conservation measures. The notes were issued for a fifteen-year period with final maturity at December 1, 2019. The notes will be retired from the General Fund.

#### General Obligation Advance Refunding Bonds – Series 2005

On November 19, 2005, the District issued \$6,760,000 in general obligation refunding bonds for the purpose of advance refunding a portion of the 1998 bonds. The bonds were issued for a twelve-year period with final maturity at December 1, 2017. The bonds will be retired from the bond retirement fund. This advance refunding resulted in a present value savings of \$343,799. During fiscal year 2016, \$1,335,000 of the outstanding bonds were currently refunded with the issuance of the General Obligation Current Refunding Bonds – Series 2015.

# General Obligation Advance Refunding Bonds – Series 2006A

On January 26, 2006, the District issued \$9,184,993 in general obligation refunding bonds for the purpose of advance refunding a portion of the 2002 bonds. The bonds were issued for a twenty-four year period with final maturity at December 1, 2029. The bonds will be retired from the bond retirement fund. This advance refunding resulted in a present value savings of \$485,568. During fiscal year 2016, \$7,560,000 of the outstanding bonds were currently refunded with the issuance of the General Obligation Current Refunding Bonds – Series 2015.

#### General Obligation Advance Refunding Bonds – Series 2006B

On December 21, 2006, the District issued \$17,904,975 in general obligation refunding bonds for the purpose of advance refunding a portion of the 2002 and 2003 bonds. The bonds were issued for a twenty-two year period with final maturity at December 1, 2028. The bonds will be retired from the bond retirement fund. This advance refunding resulted in a present value savings of \$884,505.

# NOTE 7 - LONG-TERM OBLIGATIONS - (Continued)

# General Obligation Refunding Notes – Series 2011

On June 1, 2011, the District issued \$8,140,000 in general obligation refunding notes for the purpose of a current refunding of a portion of the 2000 bonds listed above. The notes were issued for a fourteen-year period with final maturity at December 1, 2025. During fiscal year 2012, the outstanding balance of the notes (\$8,140,000) were currently refunded with the issuance of the General Obligation Current Refunding Bonds – Series 2012. There were no debt service payments made during the fiscal year.

# General Obligation Current Refunding Bonds – Series 2012

On March 28, 2012, the District issued \$32,014,040 in general obligation refunding bonds with a true interest cost of 2.79% for the purpose of currently refunding all or a portion of the outstanding principal amount of the Building Construction General Obligation Bonds – Series 2002; terminating an interest rate hedge agreement with Dexia Credit Local; and refunding the General Obligation Current Refunding Notes – Series 2011. The District received \$38,089,388 in bond proceeds, which included a \$6,075,348 premium. The \$32,014,040 bond issue consisted of \$31,395,000 in serial bonds and \$619,040 in capital appreciation bonds. The bonds were issued for a seventeen-year period with final maturity at December 1, 2029. The bonds will be retired from the bond retirement fund. The total debt service payments were reduced by \$142,181 and the present value of this reduction resulted in an economic gain of \$143,752. The refunding did not increase the overall debt of the District; however, since funds were needed to terminate the interest rate hedge agreement, the District lost the opportunity to capitalize on lower interest rates.

#### General Obligation Current Refunding Bonds – Series 2013

On May 30, 2013, the District issued \$48,830,000 in general obligation refunding and school improvement bonds. \$45,120,000 was for the purpose of a new building project. The remaining \$3,710,000 was for the purpose of currently refunding all of the outstanding principal amount of the School Facilities Construction and Improvement Bonds – Series 2003 which were issued for the purpose of constructing and furnishing a new elementary school as well as additional improvements to the High School Campus. The District received \$49,490,539 in bond proceeds, which included a \$660,539 premium. The bonds were issued for a 37-year period with final maturity at December 1, 2049. The bonds will be retired from the bond retirement fund. The total debt service payments were reduced by \$665,795 and the present value of this reduction resulted in an economic gain of \$441,223.

# General Obligation Current Refunding Bonds – Series 2015

On December 3, 2015, the District issued \$8,225,000 in general obligation refunding bonds for the purpose of currently refunding \$1,335,000 of the General Obligation Advance Refunding Bonds – Series 2005 which were issued for the purpose of advance refunding a portion of the 1998 bonds and \$7,560,000 of the General Obligation Advance Refunding Bonds – Series 2006A which were issued for the purpose of advance refunding a portion of the 2000 bonds. The District received \$9,082,343 in bond proceeds, which included a \$857,343 premium. The bonds were issued for a 14-year period with final maturity at December 1, 2029. The bonds will be retired from the bond retirement fund. The total debt service payments were reduced by \$1,239,405 and the present value of this reduction resulted in an economic gain of \$1,047,916.

# NOTE 7 – LONG-TERM OBLIGATIONS – (Continued)

The following is a summary of future annual debt service requirements for maturity for the general obligation bonds:

Fiscal Year	Principal	Interest	Total
2017	\$ 5,372,650	\$ 4,409,541	\$ 9,782,191
2018	6,350,000	3,497,137	9,847,137
2019	4,345,000	3,358,544	7,703,544
2020	3,957,318	3,706,157	7,663,475
2021	2,203,726	5,295,375	7,499,101
2022-2026	22,932,996	15,467,535	38,400,531
2027-2031	15,676,005	11,783,601	27,459,606
2032-2036	7,115,000	6,688,025	13,803,025
2037-2041	8,225,000	5,272,237	13,497,237
2042-2046	10,950,000	3,382,200	14,332,200
2047-2050	11,190,000	925,400	12,115,400
Total	\$ 98,317,695	\$ 63,785,752	\$ 162,103,447

<u>Accretion</u> - Capital accretion bonds were issued with the Various Purpose Bonds – Series 2000 bonds, the Building Construction General Obligation Bonds – Series 2002, the General Obligation Advance Refunding Bonds – Series 2006A, the General Obligation Advance Refunding Bonds – Series 2006B, and the General Obligation Current Refunding Bonds – Series 2012. These bonds were purchased at a discount at the time of issuance and at maturity all compound interest is paid to the bond holder collects the face value. However, since interest is technically earned and compounded semi-annually, the value of the bond increases. Therefore, as the value increases the accretion is booked as principal. The fiscal year 2016 amount of accretion for the 2000, 2006A, 2006B and 2012 Bonds are \$201,990, \$57,147, \$12,976 and \$529,586 respectfully.

<u>Advance Refundings</u> - The District defeased certain School Construction and Improvement Bonds and notes by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. As of June 30, 2016, defeased bonds outstanding totaled \$0.

<u>Debt Limitation</u> - Section 133.06 of the Revised Code provides that, exclusive of certain "exempt debt," the net principal amount of unvoted general obligation debt of a District may not exceed one-tenth (0.10%) of one percent of the total assessed property value listed within the District. Section 133.06 also provides that the net principal amount of voted and unvoted general obligation debt of a District may not exceed nine percent (9.0%) of the total assessed value, except as in the case of a special needs school district. The District is in excess of the 9.0% margin. The District requested and obtained consent to become a "special needs" District, thereby permitting the incurrence of additional debt based upon projected 10-year growth of the District's assessed valuation, as permitted by the code.

# NOTE 7 – LONG-TERM OBLIGATIONS – (Continued)

#### Compensated Absences

Compensated absences represent accumulated vacation and an estimated severance liability for employees both eligible to retire and those expected to become eligible in the future. The entire compensated absences balance is reported on the entity-wide financial statements. For governmental fund financial statements, the compensated absences are reported only to the extent they have matured and will be paid with current financial resources. The noncurrent portion of the liability is not reported.

The District pays obligations related to employee compensation from the fund benefitting from their service, except compensated absences, which will be paid from the general fund for governmental funds.

# NOTE 8 – RISK MANAGEMENT

#### A. Comprehensive

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the fiscal year, the District purchased insurance coverage from Ohio School Plan. Coverage provided by Ohio School Plan is as follows:

	Limits of
Coverage	Coverage
Property	\$ 205,263,622
Employer's Liability Stop Gap	5,000,000
Educational Automobile	5,000,000
Educational General Liability	
General Aggregate	7,000,000

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There has been no significant reduction in insurance coverage from the prior fiscal year.

For fiscal year 2016, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 14). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Comp Management Health Systems provides administrative, cost control and actuarial services to the GRP.

# NOTE 8 - RISK MANAGEMENT - (Continued)

#### **B. Employee Group Medical Insurance**

The District maintains an internal service "self-insurance" health insurance fund in connection with formalized risk management programs in an effort to minimize risk exposure and control claims and premium costs. The District, effective January 1, 2016, contracted with Anthem to be the third party administrator for the District's health insurance program. The District pays 85% of the monthly premiums for family and single plans.

A claims liability of \$622,000 at fiscal year-end in the self-insurance internal service fund reflects an estimate of incurred but unpaid claims liability. This liability was estimated by a third party based on claims experience. The District has purchased stop loss coverage through Anthem for individual employee claim amounts exceeding \$125,000. Unpaid claims at year-end are recorded as current claims payable because they would be due within 60 days from the end of the fiscal year.

A summary of the changes in the self-insurance claims liability for the years ended June 30 as follows:

	 2016
Claims Liability at July 1	\$ -
Incurred Claims	3,288,137
Claims Paid	 (2,666,137)
Claims Liability at June 30	\$ 622,000

Information prior to 2016 in not available.

# NOTE 9 – DEFINED BENEFIT PENSION PLANS

#### Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees— of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

#### Plan Description - School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

# **NOTE 9 – DEFINED BENEFIT PENSION PLANS – (Continued)**

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. The was no percentage allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$1,027,687 for fiscal year 2016. Of this amount \$283,811 is reported as an intergovernmental payable.

#### Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a costsharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <u>www.strsoh.org</u>.

# NOTE 9 – DEFINED BENEFIT PENSION PLANS – (Continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

# **NOTE 9 – DEFINED BENEFIT PENSION PLANS – (Continued)**

The District's contractually required contribution to STRS was \$3,671,882 for fiscal year 2016. Of this amount, \$524,749 is reported as an intergovernmental payable.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportionate Share of the Net			
Pension Liability	\$15,390,182	\$74,975,739	\$90,365,921
Proportion of the Net Pension			
Liability	0.2697147%	0.27128681%	
Pension Expense	\$931,824	\$3,963,492	\$4,895,316

At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
<b>Deferred Outflows of Resources</b>			
Differences between expected and			
actual experience	\$247,272	\$3,404,556	\$3,651,828
Changes in proportionate share	64,234	1,483,712	1,547,946
District contributions subsequent to the			
measurement date	1,027,687	3,671,882	4,699,569
Total Deferred Outflows of Resources	\$1,339,193	\$8,560,150	\$9,899,343
<b>Deferred Inflows of Resources</b>			
Net difference between projected and			
actual earnings on pension plan investments	\$499,609	\$5,134,837	\$5,634,446
Total Deferred Inflows of Resources	\$499,609	\$5,134,837	\$5,634,446

\$4,699,569 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017.

# **NOTE 9 – DEFINED BENEFIT PENSION PLANS – (Continued)**

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
		<i>(</i> <b>1</b> - <i>1</i> , <b>1</b> - <b>1</b> )	
2017	(\$161,404)	(\$764,592)	(\$925,996)
2018	(161,404)	(764,592)	(925,996)
2019	(159,899)	(393,665)	(553,564)
2020	294,604	1,676,280	1,970,884
Total	(\$188,103)	(\$246,569)	(\$434,672)

#### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

# NOTE 9 – DEFINED BENEFIT PENSION PLANS – (Continued)

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a buildingblock approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	
Cash	1.00 %	0.00 %	
US Stocks	22.50	5.00	
Non-US Stocks	22.50	5.50	
Fixed Income	19.00	1.50	
Private Equity	10.00	10.00	
Real Assets	10.00	5.00	
Multi-Asset Strategies	15.00	7.50	
Total	100.00 %		

**Discount Rate** The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount *Rate* Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

# **NOTE 9 – DEFINED BENEFIT PENSION PLANS – (Continued)**

	Current		
	1% Decrease Discount Rate 1% Increase		
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$21,340,652	\$15,390,182	\$10,379,396

#### **Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

# NOTE 9 – DEFINED BENEFIT PENSION PLANS – (Continued)

**Discount Rate** The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount *Rate* The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$104,146,958	\$74,975,739	\$50,307,125

# Social Security System

Effective July 1, 1991, all employees not otherwise covered by School Employees Retirement System or State Teachers Retirement System have an option to choose Social Security. As of June 30, 2016, four members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

# **NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS**

# A. School Employees Retirement System

<u>Postemployment Benefits</u> – In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers a postemployment benefit plan.

<u>Health Care Plan</u> – Sections 3309.375 and 3309.69 of the Ohio Revised Code permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

# **NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS – (Continued)**

The Ohio Revised Code provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plan.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required pensions and benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund to be used to subsidize the cost of health care coverage. For the year ended June 30, 2016, the health care allocation is 0.00%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. By statute no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the minimum compensation level was established at \$23,000. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contributions assigned to health care for the years ended June 30, 2016, 2015, and 2014 were \$120,761, \$180,324, and \$124,696, respectively, 0 percent has been contributed for fiscal year 2016 has been recorded as a liability in the appropriate funds.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care plan is included in its Comprehensive Annual Financial Report. The report can be obtained on SERS' website at <u>www.ohsers.org</u> under Employers/Audit Resources.

#### **B. State Teachers Retirement System**

<u>Plan Description</u> – STRS Ohio administers a pension plan that is comprised of: a Defined Benefit Plan, a self-directed Defined Contribution Plan, and a Combined Plan that is a hybrid of the Defined Benefit Plan and the Defined Contribution Plan.

Ohio law authorizes STRS Ohio to offer a cost-sharing, multiple employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums.

Pursuant to Chapter 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent *Comprehensive Annual Financial Report* by visiting <u>www.strsoh.org</u> or by requesting a copy by calling toll-free 1-888-227-7877.

# **NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS – (Continued)**

<u>Funding Policy</u> – Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14% employer contribution rate, 0% of covered payroll was allocated to post-employment health care for the years ended June 30, 2016 and 2015. For the year ended June 30, 2014, 1% of covered payroll was allocated to post-employment health care. The 14% employer contribution rate is the maximum rate established under Ohio law.

The District's required contributions for health care for the years ended June 30, 2016, 2015, and 2014 were \$0, \$0, and \$274,725, respectively. The entire amount has been contributed for each fiscal year.

# **NOTE 11 – EMPLOYEE BENEFITS**

#### **A.** Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 300 days certified employees and unlimited for classified employees. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of 60 days.

#### **B.** Life Insurance

The District provides life insurance and accidental death and dismemberment insurance to most employees through Prudential.

#### **NOTE 12 – CONTINGENCIES**

#### A. Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds.

#### **B.** Litigation

The District is currently party to legal proceedings of which management cannot determine any outcome at this time.

## NOTE 12 - CONTINGENCIES - (Continued)

#### C. Foundation Funding

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2015-2016 school year, traditional school districts must comply with minimum hours of instruction, instead of number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

# **NOTE 13 – OTHER COMMITMENTS**

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's outstanding encumbrances in the governmental funds were as follows:

General Fund	\$ 560,064
Other Government Funds	 172,016
Total	\$ 732,080

#### **NOTE 14 – INSURANCE PURCHASING POOL**

*Ohio School Boards Association Workers' Compensation Group Rating Plan* – The District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three-member Board of directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Comp Management Health Systems provides administrative, cost control and actuarial services to the GRP.

# NOTE 15 – JOINTLY GOVERNED ORGANIZATIONS

#### Metropolitan Educational Technology Association

The District participates in the Metropolitan Educational Technology Association (META). META is composed of over 200 members which includes school districts, joint vocational schools, educational service centers, and libraries covering 37 counties in Central Ohio. The META helps its members purchase services, insurances, supplies, and other items at a discounted rate. The governing board of META is composed of either the superintendent, a designated representative or a member of the board of education for each participating school district in Franklin County and one representative from each county outside of Franklin County. Each year, the participating school districts pay a membership fee to META to cover the costs of administering the program. Payments to META during the fiscal year totaled to \$62,143. Financial information may be obtained from the Metropolitan Educational Technology Association, 2100 Citygate Dr., Columbus, OH 43219.

#### Eastland Vocational School District

The Eastland Vocational School District is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Eastland Vocational School District, Dawn Lemley, who serves as Treasurer, at 4300 Amalgamated Place, P. O. Box 419, Groveport, Ohio 43125-0419.

#### New Albany-Plain Local Joint Park District

The New Albany-Plain Local Joint Park District is a distinct political subdivision of the State of Ohio operated under the direction of the Board consisting of one representative from each of the participating entities as follows: 1) The Village of New Albany; 2) Plain Township and 3) The New Albany-Plain Local Board of Education. The Park District possesses its own budgeting and taxing authority.

# **NOTE 16 – JOINT OPERATION**

*New Albany Performing Arts Center* – During 2004, the District entered into a joint operating agreement with Village of New Albany (the "Village"), Plain Township (the "Township") and the New Albany Community Foundation (the "Foundation") for the operations of the New Albany Performing Arts Center (the "Center"). The Center was constructed through a joint collaboration between the Village, District and Township. Each of these entities owns a portion of the Center, as tenants in common, equal to their financial contribution of the construction. The Village, District and Township have committed amounts not to exceed \$5 million, \$5 million, and \$3 million, respectively, to supplement the construction of the Center. The Foundation has committed to use its best efforts to raise approximately \$2.3 million to be applied to an endowment for the purpose of subsidizing the operation of the Center.

The Center will serve both school and community needs, including music, theater, dance and ballet. The Center is run by a six-member Board of Trustees (the "Board") consisting of two members appointed by the District, two members appointed by the Village, one member appointed by the Township and one member appointed by the Foundation. The District does not appoint a voting majority of the Board.

# NOTE 16 - JOINT OPERATION - (Continued)

The District had no ongoing financial interest or responsibility in the operation of the Center until final construction and the Performing Arts Center became fully operational, at this time the relationship between the Performing Arts Center and the District was re-evaluated.

The Center became fully operational in June 2008 with an amended operating agreement being finalized in February 2008. The new agreement now provides the District, as well as the Village and Township, with ongoing equity interests. As a result, in fiscal year 2008, the District recorded the Performing Arts Center as a capital asset in an amount equal to its original contribution as a percentage of total contributions compared to the value of the construction cost of the Performing Arts Center, which was \$15,125,158.

Financial information for the Center may be obtained from the Treasurer of the New Albany-Plain Local School District at 55 North High Street, New Albany, OH 43054.

# **NOTE 17 – STATUTORY RESERVES**

The District is required by state law to set-aside certain general fund revenue amounts, as defined by statute, into various reserves. These reserves are calculated and presented on a cash basis. During the current fiscal year, the reserve activity was as follows:

-	Capital Acquisition			
Set-aside cash balance				
as of July 1, 2015	\$ -			
Current fiscal year set-aside requirement	816,203			
Qualifying disbursements	-			
Offset from Bond Proceeds	 (816,203)			
Total	\$ -			
Set-aside balance at June 30, 2016	\$ -			

During fiscal year 2013, the District issued \$45,120,000 in capital related debt based on a building project under taken by the District. Those proceeds may be used as qualifying offsets to reduce the capital acquisition to zero for future years. At June 30, 2016, the District still has \$42,421,122 in qualifying proceeds that may be used to reduce the set-aside requirement for future years.

# NOTE 18 – CAPITAL LEASE

The District has entered into several lease agreements as lessee for financing the acquisition of equipment. The assets acquired through these capital leases had a value of \$1,015,401. Payments made from the General Fund on the leases during the fiscal year totaled \$270,402. The remaining required payments on the leases are as follows:

Fiscal Year	F	Principal	I	nterest	Total			
2017	\$	201,433	\$	3,470	\$	204,903		
2018		203,058		1,845		204,903		
2019		24,524		194		24,718		
Total	\$	429,015	\$	5,509	\$	434,524		

# **NOTE 19 – OPERATING LEASE**

The District is party to an operating lease with New Albany Community Authority and Mount Carmel Health Systems for the lease of building space located at 55 North High Street, New Albany, Ohio. The lease has a term of five years commencing June 1, 2005 and expiring on May 31, 2010, with three renewal options of five years each. The annual rent varies on a yearly basis due to operating expense paid proportionately by the District. Payments by the District during fiscal year 2016 totaled \$161,450.

# NOTE 20 – WIN-WIN AGREEMENT

The District is party to a win-win agreement with Columbus City School District and other participating suburban districts. The agreement began in 1986 and was amended in 1992. The terms of the Agreement call for automatic renewals every six years unless a board of education takes certain actions to terminate the Agreement. Automatic renewals occurred in 1998, 2004, and 2010.

The agreement provides a number of benefits to participating districts, including border stability, revenuesharing, property tax revenue predictability, and cooperative programs through the Franklin County Educational Council, which was created by the Agreement. The Agreement also gives districts some predictability in terms of student populations, staffing needs, and expenditures because of the agreement's handling of annexations and territory transfers between districts.

Under the agreement, two Sections provide for payments to be made between districts.

- Section 8 provides payments from Columbus to certain suburban districts based on the valuation
  of certain types of property in the areas transferred to Columbus. Only four districts originally
  qualified for payments under Section 8: Canal Winchester, Groveport Madison, Hamilton, and
  New Albany-Plain Local. However, New Albany no longer qualifies for such payments because
  its per-pupil valuation now exceeds Columbus's per-pupil valuation, and under the agreement this
  triggers the end of Section 8 payment eligibility.
- Section 10 provides payments from suburban districts to Columbus based on the valuation of areas not transferred to Columbus.

# NOTE 21 – SUBSEQUENT EVENT

On September 8, 2016, the District issued \$14,605,000 in school improvement refunding bonds for the purpose of currently refunding a portion of the 2006B refunding bonds. The District received \$16,516,394 in bond proceeds, which included a \$1,911,394 premium. The bonds were issued for a 12-year period with final maturity at December 1, 2028. The bonds will be retired from the Bond Retirement Fund.

# NOTE 22 – CHANGE IN ACCOUNTING PRINCIPLES

For fiscal year ending June 30, 2016, the District has implemented the following:

GASB Statement No. 72 "*Fair Value Measurement and Application*" enhances comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement also enhances fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. The implementation of this statement did not have a significant effect on the financial statements of the District.

GASB Statement No. 73 "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68" improves the usefulness of information about pensions included in the general purposes external financial reports of state and local governments for making decisions and assessing accountability. The implementation of this statement did not have a significant effect on the financial statements of the District.

GASB Statement No. 76 "*The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*" improves financial reporting by (1) raising the category of GASB Implementation Guides in the GAAP hierarchy, thus providing for broader public input on implementation guidance; (2) emphasizing the importance of analogies to authoritative literature when the accounting treatment for an event is not specified in authoritative GAAP; and (3) requiring the consideration of consistency with the GASB Concepts Statements when evaluating accounting treatments specified in non-authoritative literature. The implementation of this statement did not have an effect on the financial statements of the District.

GASB Statement No. 79 "*Certain External Investment Pools and Pool Participants*" which establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of this statement did not have a significant effect on the financial statements of the District.

# NOTE 23 – RECLASSIFICATION OF FUND BALANCE

The District's Capital Projects/Building Fund was not required to be reported as a major fund in fiscal year 2016. Therefore, the District reclassified the Capital Projects/Building Fund from a major fund to Other Governmental Funds. The reclassification of the fund balance resulted in changes to beginning of year balances as detailed below:

	Capi	ital Projects/		Other	
	]	Building	Go	overnmental	
		Fund	Funds		
Fund Balance, June 30, 2015	\$	917,600	\$	1,394,578	
Reclassification of Fund		(917,600)		917,600	
Fund Balance, July 1, 2015	\$	-	\$	2,312,178	

# NOTE 24 – RESTATEMENT OF NET POSITION

After completion of various large building improvement construction projects, the District had an appraisal performed to reevaluate their capital assets. The appraisal determined building costs were overestimated during the construction process, primarily due to certain costs which were tracked in detail until the projects were finalized. Once the appraisal was completed the District updated its estimates to agree to the appraisal. This had the following effect on net position at July 1, 2015:

Net Position, June 30, 2015	\$ (54,648,035)
Capital Asset Adjustment	 (4,584,193)
Restated Net Position, July 1, 2015	\$ (59,232,228)

# NEW ALBANY-PLAIN LOCAL SCHOOL DISTRICT FRANKLIN COUNTY, OHIO NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2016

# **NOTE 1 - BUDGETARY PROCESS**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The Other State Grants fund was not budgeted as it consists solely of accrual activity.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

#### Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Franklin and Licking County Budget Commissions for rate determination.

#### Estimated Resources:

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the Treasurer. The revised amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2016.

#### Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund level, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District.

# NEW ALBANY-PLAIN LOCAL SCHOOL DISTRICT FRANKLIN COUNTY, OHIO NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2016

# **NOTE 1 - BUDGETARY PROCESS - (Continued)**

The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant.

The budget figures, which appear in the statements of budgetary comparisons, represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

# NOTE 2 - RECONCILING BUDGET BASIS AND GAAP

The District prepares its budget on a basis of accounting that differs from accounting principles generally accepted in the United States of America (GAAP). The actual column presented on the Budgetary Comparison Schedule – General Fund is prepared in accordance with the budget basis of accounting.

The major differences between the budgetary basis of accounting and GAAP are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- B. Expenditures are recorded when encumbered (budget basis) as opposed to when the liability is incurred (GAAP basis);
- C. Encumbrances are recorded as the equivalent of expenditures (budget basis) as opposed to an assignment of fund balance (GAAP basis).
- D. Due to the implementation of GASB 54, some funds were reclassified to the General Fund. These funds are not required to be included in the General Fund Budgetary Statement. Therefore, the activity from these funds is excluded with an adjustment for their change in fund balance.

#### Net Change in Fund Balance

Budget Basis	\$ 3,941,336

# **COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES –**

# **GOVERNMENTAL FUNDS**

# NEW ALBANY-PLAIN LOCAL SCHOOL DISTRICT

#### DESCRIPTION OF FUNDS

#### **Bond Retirement Fund**

The Bond Retirement Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

#### Non-major Governmental Funds

Non-major Governmental Funds account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's Non-major Governmental Funds follows:

**Permanent Improvement** – A fund provided to account for all transactions related to acquiring, constructing, or improving school facilities.

**Capital Projects/Building Fund** – A fund used to account for the receipts and expenditures related to all special bond funds in the district. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

**Food Service** – A fund used to account for the financial activity related to the District's food service operation.

**Special Trust** – A fund used to account for restricted contributions and donations which the original contributions can be expended for District programs.

**Endowment** – A fund used to account for restricted contributions and donations which have been set aside as an investment for public school purposes. The income from this fund may be expended, but the principal must remain intact. The funds may be spent for District purposes.

**Uniform School Supplies** - A rotary fund provided to account for the purchase and sale of school supplies. This fund is included with the General Fund for financial statement reporting purposes.

**Rotary** – **Special Services** – A fund to report any activity to which a fee is charged to external users for goods or services. This fund is included with the General Fund for financial statement reporting purposes.

**Rotary** – **Internal Services** – A fund provided to account for operations that provide goods or services to other governmental units on a cost-reimbursement basis. This fund is included with the General Fund for financial statement reporting purposes.

**Public School Support** – A fund provided to account for specific local revenue sources, other than taxes or expendable trusts (i.e. profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases. This fund is included with the General Fund for financial statement reporting purposes.

#### NEW ALBANY-PLAIN LOCAL SCHOOL DISTRICT

#### DESCRIPTION OF FUNDS

**Other Local Grants** – A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

**District Managed Activities** – A fund provided to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

**Auxiliary Services** – A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district.

School Net Professional Development – A fund provided to account for wiring to all classrooms in the State and to provide a computer workstation and related technology for every classroom in Ohio's low wealth school districts.

Other State Grants – A fund used to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant and be approved by the Auditor of State.

**Race to the Top Fund** - A fund used to account for federal funds used to assist states in providing either a new program or expansion of an existing program to support initiatives in the following areas: Standards and Assessments; Using Data to improve Instruction; Great Teachers and Leaders; and Turning Around the Lowest-Achieving Schools.

**Title VI-B IDEA** – A fund used to account for federal funds used to assist states in providing an appropriate public education to all children with disabilities.

**Title III Limited English Proficiency** – A fund used to account for federal funds used to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

**Title I Disadvantaged Children** – A fund used to provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

**IDEA Preschool Grant for the Handicapped** – The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

**Title II-A Improving Teacher Quality** – A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

# **Statistical Section**

-This page was intentionally left blank-

## **Statistical Section**

This part of New Albany Plain Local School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

#### **Contents**

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

## **Revenue Capacity**

These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue source(s), the property tax.

## **Debt Capacity**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

## **Economic and Demographic Information**

These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place.

#### **Operating Information**

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax began being phased out in tax year 2006. The listing percentage was reduced to 18.75 percent for tax year 2006, 12.5 percent for tax year 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10 percent rollback for commercial/industrial property was eliminated.

Values are shown net of exempt property.

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

(1) The amounts presented represent the assessed values upon which 2016 and 2007 collections were based.

(2) The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax began being phased out in tax year 2006. The listing percentage was reduced to 18.75 percent for tax year 2006, 12.5 percent for tax year 2007, 6.25 percent for tax year 2008 and zero for tax year 2009.

Unvoted Legal Debt Margin as a Percentage of the Unvoted Debt Limit	100.00%	100.00%	100.00%	100.00%	100.00%

(1) In 2006, HB 530 changed the assessed valuation utilized in the legal debt margin calculation to exclude general business tangible personal property tax as well as railroad and telephone tangible property.

(2) Ohio Bond Law sets a limit of 9% for overall debt and 1/10 of 1% for unvoted debt, unless a waiver is obtained.

**Note:** The amount of debt presented as subject to the limit should be the balances used to compute the margin as specified by statute, i.e. the gross balances, not amounts that are net of premiums or discounts.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:			

(A) OAKS did not assign pass-through numbers for fiscal year 2016.

(B) This schedule includes the federal award activity of the New Albany Plain Local School District under programs of the federal government for the fiscal year ended June 30, 2016 and is prepared in accordance with the cash basis of accounting. The information on this schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the New Albany Plain Local School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the New Albany Plain Local School District.

- (C) The Food Donation Program is a non-cash, in kind, federal grant. Commodities are reported at the entitlement value.
- (D) Included as part of "Child Nutrition Grant Cluster" in determining major programs.
- (E) Commingled with state and local revenue from sales of lunches; assumed expenditures were made on a first-in, first-out basis.
- (F) Included as part of "Special Education Grant Cluster" in determining major programs.
- (G) Passed through the Educational Service Center of Central Ohio
- (H) CFR 200.414 allows a non-federal entity that has never received a negotiated indirect cost rate to charge a de minimis rate of 10% of modified total direct costs to indirect costs. The District has not elected to use the 10% de minimus indirect cost rate.

#### Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

New Albany-Plain Local School District Franklin County 55 N. High Street New Albany, Ohio 43054

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the New Albany-Plain Local School District, Franklin County, Ohio, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the New Albany-Plain Local School District's basic financial statements and have issued our report thereon dated December 16, 2016.

## Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the New Albany-Plain Local School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the New Albany-Plain Local School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the New Albany-Plain Local School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

### Board of Education New Albany-Plain Local School District

#### **Compliance and Other Matters**

As part of reasonably assuring whether the New Albany-Plain Local School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

## Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the New Albany-Plain Local School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the New Albany-Plain Local School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditor's Report on Compliance With Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance and Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

New Albany-Plain Local School District Franklin County 55 N. High Street New Albany, Ohio 43054

To the Board of Education:

## Report on Compliance for the Major Federal Program

We have audited the New Albany-Plain Local School District's compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the New Albany-Plain Local School District's major federal program for the fiscal year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the New Albany-Plain Local School District's major federal program.

## Management's Responsibility

The New Albany-Plain Local School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

## Auditor's Responsibility

Our responsibility is to opine on the New Albany-Plain Local School District's compliance for the New Albany-Plain Local School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the New Albany-Plain Local School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the New Albany-Plain Local School District major program. However, our audit does not provide a legal determination of the New Albany-Plain Local School District's compliance.

## **Opinion on the Major Federal Program**

In our opinion, the New Albany-Plain Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the fiscal year ended June 30, 2016.

#### Board of Education New Albany-Plain Local School District

#### **Report on Internal Control Over Compliance**

The New Albany-Plain Local School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the New Albany-Plain Local School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the New Albany-Plain Local School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance requirement that is less severe than a material weakness in internal control over compliance requirement that is less severe than a material weakness in internal control over compliance over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the New Albany-Plain Local School District as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the New Albany-Plain Local School District's basic financial statements. We issued our unmodified report thereon dated December 16, 2016. We conducted our audit to opine on the New Albany-Plain Local School District's' basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.
