INDEPENDENT AUDITOR'S REPORT

Bryan City School District
Williams County
1350 Fountain Grove Drive
Bryan, Ohio 43506-8733

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bryan City School District, Williams County, Ohio (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the cash accounting basis Note 2 describes. This responsibility includes determining that the cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Bryan City School District, Williams County, Ohio, as of June 30, 2018, and the respective changes in cash financial position and the budgetary comparison for the General fund thereof for the year then ended in accordance with the accounting basis described in Note 2.

Accounting Basis

Ohio Administrative Code § 117-2-03(B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. We draw attention to Note 2 of the financial statements, which describes the basis applied to these statements. The financial statements are prepared on the cash basis of accounting, which is a basis other than generally accepted accounting principles. We did not modify our opinion regarding this matter.

Other Matters

Supplemental Information

Our audit was conducted to opine on the financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

We applied no procedures to management's discussion and analysis, as listed in the table of contents. Accordingly, we express no opinion or any other assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2018, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping initial "D".

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR FISCAL YEAR ENDED JUNE 30, 2018
UNAUDITED**

The discussion and analysis of the financial performance of Bryan City School District (the District) provides an overall review of the District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2018 are as follows:

In total, net position decreased \$6,455,508.

General receipts accounted for \$31,849,889, or 86 percent of all receipts. Program specific receipts in the form of charges for services and sales and operating grants and contributions accounted for \$5,006,826 or 14 percent of total receipts of \$36,856,715.

The District's major funds included the General fund, the Permanent Improvement fund and the Classroom Facilities Assistance Program Project fund. The General fund had \$21,308,874 in receipts and other financing sources and \$20,886,495 in disbursements and other financing uses. The General fund's balance increased \$422,379 from the prior fiscal year.

The Permanent Improvement fund had \$1,445,552 in receipts and other financing sources and \$1,786,666 in disbursements and other financing uses. The Permanent Improvement fund's balance decreased \$341,114 from the prior fiscal year.

The Classroom Facilities Assistance Program Project fund had \$121,205 in receipts and \$6,534,259 in disbursements. The Classroom Facilities Assistance Program fund's balance decreased \$6,413,054 from the prior fiscal year.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a financial whole, or as an entire operating entity.

The statement of net position and the statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds, with all other non-major funds presented in total in a single column.

For the District, the General fund is by far the most significant fund. The General fund, the Permanent Improvement and the Classroom Facilities Assistance Program Project Fund are the three major funds.

Reporting the District as a Whole

Statement of Net Position and Statement of Activities

The statement of net position and the statement of activities, both reported on the cash basis, reflect how the District performed financially during fiscal year 2018. These statements are reported on a cash basis of accounting which reflects receipts and disbursements when cash is received or disbursed.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR FISCAL YEAR ENDED JUNE 30, 2018
UNAUDITED
(Continued)**

These statements report the District's net position and changes in those assets. This change in net position is important because it tells the reader whether the financial position of the District, as a whole, has increased or decreased from the prior fiscal year. Over time, these increases and/or decreases are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the cash basis statement of net position and the statement of activities, the District discloses a single type of activity, its governmental activities which includes all of the District's programs and services are reported here including instruction, support services, non-instructional services, and extracurricular activities. These services are primarily funded by property tax receipts and from intergovernmental receipts, including federal and state grants and other shared receipts.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds. While the District uses many funds to account for its multitude of financial transactions, the fund financial statements focus on the District's most significant funds. The District's major governmental funds are the General fund, the Permanent Improvement and the Classroom Facilities Assistance Program Project fund. While the District uses many funds to account for its financial transactions, these are the most significant.

Governmental Funds - Most of the District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal yearend for spending in future periods. These funds are reported using the cash basis of accounting. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the District's programs. These funds use the cash basis of accounting.

The District as a Whole

Table 1 provides a summary of the District's net position for fiscal year 2018 compared to fiscal year 2017 on a cash basis.

Decrease in Net Position	<u>(\$6,455,508)</u>	<u>(\$21,436,911)</u>

Program receipts account for 14 percent of total receipts and are represented by restricted intergovernmental revenues, tuition and fees, rent, extracurricular activities, and food service sales.

The major program disbursements for governmental activities are for instruction, which accounts for 34 percent of all governmental disbursements. Debt service payments and the payment to bond escrow agent accounts for 27 percent. Capital outlay accounts for 18 percent. Other programs which support the instruction process, including pupils, instructional staff, and pupil transportation account for 7 percent of governmental disbursements. Maintenance of the District's facilities also represents a significant disbursement of 3 percent. The remaining 11 percent of the District's disbursements are related to the primary functions of delivering education and providing facilities. These costs are funded almost entirely from property taxes and grants and entitlements.

Overall receipts decreased \$2,838,937 (approximately 7.2 percent) primarily due to a decrease in grant money for building construction. Overall disbursements decreased \$17,820,340 (more than 29 percent) which is due to the conclusion of building construction projects.

Governmental Activities

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services and sales and grants and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax receipts and unrestricted state entitlements.

Non-Instructional Services	869,053	103,304	825,646	23,368
Extracurricular Activities	933,818	533,275	873,929	471,051
Capital Outlay	7,622,633	7,622,633	26,475,200	26,475,200
Debt Service:				
Principal	670,000	670,000	695,000	695,000
Issuance Costs	100,794	100,794	173,950	173,950
Interest and Fiscal Charges	1,048,249	1,048,249	1,276,595	1,276,595
Payment to Bond Escrow Agent	9,865,817	9,865,817	9,305,306	9,305,306
Refund of Prior Year Receipts			10,129	10,129
Total Disbursements	\$43,312,223	\$38,305,397	\$61,132,563	\$56,143,420

The dependence upon tax receipts and unrestricted state entitlements for governmental activities is apparent. Over 75 percent of instruction activities are supported through taxes and other general receipts. For all governmental activities, support from general receipts is 88 percent. The remaining 12 percent are derived from charges for services and sales, operating grants and contributions.

The District's Funds

The District's governmental funds are accounted for using the cash basis of accounting. The District's major governmental funds are the General fund, the Permanent Improvement fund and the Classroom Facilities Assistance Program Project fund. Total governmental funds had receipts and other financing sources of \$37,107,667 and disbursements and other financing uses of \$43,563,175. The net change in fund balance in the General fund reflects an increase of \$422,379, which was \$62,182 less than 2017.

The net change in fund balance in the Permanent Improvement fund decreased \$341,114 due to the increase in instructional staff and capital outlay expenditures.

The net change in fund balance in the Classroom Facilities Assistance Program Project fund decreased \$6,413,054 due to the building construction project expenditures.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR FISCAL YEAR ENDED JUNE 30, 2018
UNAUDITED
(Continued)**

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General fund. During the course of fiscal year 2018, the District amended its General fund budget as needed.

Final estimated receipts and other financing sources were more than the original estimated receipts and other financing sources by \$847,856 (4.2 percent). There was a variance of \$18,143 (less than 1 percent) between final estimated receipts and other financing sources and actual.

Final budget disbursements and other financing uses were less than original budget disbursements and other financing uses by \$219,214 (1 percent). This was due to a decrease in expected disbursements. Final disbursements and other financing uses were budgeted at \$21,032,335 while actual disbursements and other financing uses were \$20,847,762. The \$184,573 difference (less than 1 percent) is primarily due to a conservative "worst case scenario" approach. The District over-appropriates in case significant, unexpected expenditures arise during the fiscal year.

Capital Assets and Debt Administration

Capital Assets

The District does not record capital assets in the accompanying basic financial statements, but records payments for capital assets as disbursements. The District had capital outlay disbursements of \$7,622,633 during fiscal year 2018.

Debt Administration

At June 30, 2018, the District had \$33,456,789 in school improvement general obligation bonds, refunding bonds, and certificate of participation for construction and building improvements.

The District had \$8,150,000 in School Facilities Improvement Bonds, Series 2014A. The bonds were issued on February 12, 2014 for a twenty-eight year period and will mature on January 1, 2042. The bonds are being retired through the Bond Retirement Fund.

The District had \$5,375,000 in School Facilities Improvement Bonds, Series 2014B. The bonds were issued on March 13, 2014 for a twenty-eight year period and will mature on December 15, 2038. The bonds are being retired through the Bond Retirement Fund.

The District had \$3,663,107 in Refunding Bonds, Series 2016A. The bonds were issued on January 17, 2017 for a twenty-two year period and will mature on January 1, 2039. The bonds are being retired through the Bond Retirement Fund.

The District had \$4,294,040 in Refunding Bonds, Series 2016B. The bonds were issued on June 15, 2017 for a twenty-five year period and will mature on December 15, 2041. The bonds are being retired through the Bond Retirement Fund.

The District had \$8,999,592 in Refunding Bonds, Series 2017. The bonds were issued on December 12, 2017 for a twenty-five year period and will mature on January 1, 2042. The bonds are being retired through the Bond Retirement Fund.

The District had \$2,975,000 in Certificates of Participation, Series 2014. The certificates were issued on June 4, 2014 for a twenty-seven-year period and will mature on December 15, 2040. The certificates are being retired through the Permanent Improvement Fund.

At June 30, 2018, the District's overall legal debt margin was (\$9,690,085), with an un-voted debt margin of \$263,777.

For further information regarding the District's debt, see the notes to the basic financial statements.

Current Issues

Bryan is a small rural community of 8,500 in Northwest Ohio. It has a number of small and medium businesses with agriculture having a contributing influence on the economy. Except for State Foundation revenue, the District's receipts have remained stagnant while operating costs continue to increase. The citizens of the District passed a continuing one percent school district income tax levy on May 2, 2006. This tax became effective on January 1, 2007 and is expected to generate approximately \$2,700,000 per year. The one percent school district income tax has generated a total of \$30,865,000 over the last eleven years, an average of \$2,806,000 per year. In FY2018, the income tax revenue totaled \$3,150,000.

The District is currently operating in the first year of the state biennium. Sixty nine percent (69%) of the District revenue sources are from local funds twenty seven percent (27%) from state funds and the remaining four percent (4%) is from federal funds. The total expenditure per pupil was calculated at \$10,630.

In May 2017, the District passed the renewal of a five-year emergency levy to generate \$1,910,000 annually. This levy provides a source of funds for the financial operations and stability of the District. However, future finances are not without challenges as our community changes and state funding is continually revised. Some of these challenges are in the future of state funding for schools in light of the DeRolph court case, state budget instability, the long term effects of public utility deregulation, the personal property tax on Ohio businesses and the accelerated phase out of tangible personal property replacement funds.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to reflect the District's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Rob Rosswurm, Chief Fiscal Officer/Treasurer, Bryan City School District, 1350 Fountain Grove Drive, Bryan, Ohio 43506-8733.

WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018**

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Bryan City School District (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a city school district as defined by §3311.03 of the Ohio Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District. The Board oversees the operations of the District's seven instructional/support facilities staffed by 99 non-certified and 164 certified full-time teaching personnel who provide services to 2,019 students and other community members.

A. Primary Government

The reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the District. This includes general operations, food service, and student related activities of the District.

B. Component Units

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. Component units also include legally separate, tax-exempt entities whose resources are for the direct benefit of the District, are accessible to the District, and are significant in amount to the District. The District does not have any component units.

C. Jointly Governed Organizations and Purchasing Pools

The District is associated with organizations, which are defined as jointly governed organizations and group purchasing pools. These organizations include the Northwest Ohio Computer Association, the Northern Buckeye Education Council, the Four County Career Center, the Northwest Ohio Educational Research Council, Inc., Northwest Ohio Special Education Regional Resource Center, the Northern Buckeye Health Plan, Northwest Division of Optimal Health Initiatives (OHI), and the Ohio Health Initiatives (OHI) Workers Compensation Group Rating Plan. These organizations are presented in Notes 16 and 17 to the basic financial statements.

The District's management believes these financial statements present all activities for which the District is financially accountable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 2.C, these financial statements are presented on a cash basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. Following are the more significant of the District's accounting policies.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

A. Basis of Presentation

The District's basic financial statements consist of government-wide financial statements, including a statement of net position, a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

1. Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net position presents the cash balance of the governmental activities of the District at fiscal year end. The statement of activities compares disbursements with program receipts for each function or program of the District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the government is responsible. Program receipts include charges paid by the recipient of the program's goods or services, grants and contributions restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants that are required to be used to support a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a basis or draws from the District's general receipts.

2. Fund Financial Statements

During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- a. Total assets, receipts, or disbursements of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b. Total assets, receipts, or disbursements of that individual governmental fund are at least 5 percent of the corresponding total for all governmental funds combined.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are divided into two categories, governmental and fiduciary.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

1. Governmental Funds:

The District classifies funds financed primarily from taxes, intergovernmental receipts (e.g., grants), and other non-exchange transactions as governmental funds. The General fund, the Bond Retirement fund and the Classroom Facilities Assistance Program Project fund are the District's major governmental funds:

General Fund - The General fund is used to account for all financial resources, except those required to be accounted for in another fund. The General fund is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Permanent Improvement Fund – The Permanent Improvement Fund is used to account for the revenues and expenditures related to capital outlay.

Classroom Facilities Assistance Program (CFAP) Project Fund - The CFAP Project Fund is used to account for revenues and expenditures related to the construction and renovation of school buildings.

The other governmental funds of the District account for grants and other resources and capital projects of the District whose uses are restricted to a particular purpose.

2. Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary funds of the District consist of agency funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's Agency funds account for various student managed activities.

C. Basis of Accounting

Although the Ohio Administrative Code § 117-2-03(B) requires that the District's financial report to follow generally accepted accounting principles, the District chooses to prepare its financial statements and notes in accordance with the cash basis of accounting. This is a comprehensive basis of accounting other than generally accepted accounting principles.

The District's financial statements are prepared using the cash basis of accounting. Receipts are recorded in the District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid and accrued expenses and liabilities) are not recorded in these financial statements.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

D. Budgetary Process

The budgetary process is prescribed by provision of the Ohio Revised Code and entails the preparation of budgetary documents within established timetable. All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board.

The legal level of budgetary control selected by the Board is at the fund, function, and object level within the General fund and at the fund level for all other funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Budgetary allocations at the object level within the General fund, and at the function and object level within all other funds are made by the District's Chief Fiscal Officer.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the Chief Fiscal Officer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year, including amounts automatically carried forward from prior fiscal years.

The District is required to use the encumbrance method of accounting by virtue of Ohio law. Under this system, purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve the portion of the applicable appropriation. Expenditures plus encumbrances may not legally exceed appropriations. Encumbrances at year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds.

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the succeeding fiscal year and need not be reappropriated.

E. Cash and Investments

To improve cash management, cash received by the District is pooled and invested. Monies for all funds except the Classroom Facilities Assistance Program Project and Local Funding Initiative Funds are maintained in this pool. Individual fund integrity is maintained through District records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

Investments of the District's cash management pool and investments with an original maturity of three or less at the time they are purchased by the District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra revenue), respectively.

During fiscal year 2018, investments were limited to negotiable certificates of deposits, federal agency securities, and money market mutual funds. Investments are reported at cost, except for money market mutual funds. The District's money market mutual funds are recorded at amounts reported by Morgan Stanley at June 30, 2018.

As authorized by Ohio statutes, the Board of Education has specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2018 amounted to \$245,448, which includes \$61,362 assigned from other District funds.

F. Inventory and Prepaid Items

The District reports disbursements for inventory and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

G. Capital Assets

Acquisitions of property, plant, and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

H. Compensated Absences

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the District's cash basis of accounting.

I. Pension

For purposes of measuring the net pension liability, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

J. Long-Term Obligations

The District's cash basis financial statements do not report liabilities for bonds and other long-term obligations. Proceeds of debt are reported when cash is received and principal and interest payments are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither other financing source nor capital outlay expenditure is reported at inception. Lease payments are reported when paid.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Interfund Transactions

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayment from funds responsible for particular cash disbursements to the funds that initially paid for them are not presented in the financial statements.

L. Net Position

Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for food service operations, music and athletic programs, and federal and state grants restricted to cash disbursement for specified purposes. The District's policy is to first apply restricted resources when a cash disbursement is incurred for purposes for which both restricted and unrestricted net position are available. There were no amounts restricted by enabling legislation.

M. Fund Balance

Fund Balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon use of the resources in governmental funds. The classifications are as follows:

Nonspendable - The nonspendable classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash.

Restricted - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or is imposed by law through constitutional provisions.

Committed - The committed classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. The committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of Education.

Unassigned - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

The District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

N. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

3. BUDGETARY BASIS OF ACCOUNTING

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budgetary Basis presented for the General fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budgetary basis and the cash basis is outstanding year end encumbrances are treated as cash disbursements (budgetary basis) rather than as assigned of fund balance (cash basis).

The following table summarizes the adjustments necessary to reconcile the cash basis statement to the budgetary basis statement for the General fund:

Fund Cash Balance	General Fund
Cash Basis	\$13,122,484
Funds Budgeted Elsewhere	(157,942)
Outstanding Encumbrances	(74,009)
Budget Basis	\$12,890,533

As part of Governmental Accounting Standards Board Statement No. 54, "Fund Balance Reporting," certain funds that are legally budgeted in separate special revenue funds (uniform school supplies and public school support funds) is considered part of the General fund on the cash basis.

4. SCHOOL INCOME TAX

The District levies a voted tax of 1 percent for general operations on the income of residents and of estates. The permanent tax was approved by the voters in May 2006, and was effective January 1, 2007. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax receipts in the amount of \$3,150,076 were credited to the General Fund.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

5. DEPOSITS AND INVESTMENTS

Monies held by the District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the District Treasury. Active monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies, which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies held by the District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations provided that investments in securities described in this division are made through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio); and
8. Commercial paper and bankers acceptances if training requirements have been met.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

5. DEPOSITS AND INVESTMENTS - (Continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Investments

As of June 30, 2018, the District had the following investments and maturities:

<u>Investment Type</u>	<u>Measureme nt Value</u>	<u>Investment Maturities</u>			
		<u>Less than One Year</u>	<u>One to Two Years</u>	<u>Two to Three Years</u>	<u>Three to Five Years</u>
Negotiable Certificates of Deposit	\$3,456,718	\$1,507,069	\$702,004	\$642,645	\$605,000
Federal Home Loan Bank (FHLB) Bonds	170,356		170,356		
Federal Home Loan Mortgage Association (FHLMA) Notes	348,954			250,375	98,579
Money Market Mutual Funds	466,857	466,857			
Federal Farm Credit Bank (FFCB) Notes	251,252		251,252		
Total Investments	\$4,694,137	\$1,973,926	\$1,123,612	\$893,020	\$703,579

Interest Rate Risk – Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The District has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and that an investment must be purchased with the expectation that it will be held to maturity. State statute limits investments in commercial paper to a maximum maturity of 270 days from the date of purchase. Repurchase agreements are limited to 30 days and the market value of the securities must exceed the principal value of the agreement by at least 2 percent and be marked to market daily.

Credit Risk – The following investments carry the highest ratings by Moody's and Standard and Poor's.

<u>Investment Type</u>	<u>Moody's</u>	<u>Standard & Poor's</u>
FHLB Bonds	Aaa	AAA
FHLMA Notes	Aaa	AAA
FFCB Notes	Aaa	AAA

The District's investment policy authorizes the Treasurer to invest to a maximum of forty percent of the District's interim funds in commercial paper notes issued by a for-profit corporation, business trust or association, real estate investment trust, common-law trust, unincorporated business or general or limited partnership which has assets exceeding \$500,000,000. Such notes must be rated at the time of purchase in the highest classification established by at least two rating services, have an aggregate value that does not exceed ten percent of the outstanding commercial paper of the issuing entity and mature within 270 days after purchase.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

5. DEPOSITS AND INVESTMENTS - (Continued)

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The FHLB Bonds, FHLMC Notes and FFCB Notes are exposed to custodial credit risk as they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the CFO/Treasurer or qualified trustee.

Concentration of Credit Risk - The District places no limit on the amount it may invest in any one issuer, however state statute limits investments in commercial paper and bankers' acceptances to 25 percent of the interim monies available for investment at any one time. The District's investments in FHLB Bonds, FHLMA Notes, and the FFCB Notes represents 4 percent, 8 percent, and 5 percent, respectively of the District's total investments.

6. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis, while the District's fiscal year runs from July through June. First-half tax distributions are received by the District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real and public utility property tax revenues received in calendar year 2018 represent the collection of calendar year 2017 taxes. Real property taxes for 2018 were levied after April 1, 2017, on the assessed values as of January 1, 2017, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility real and tangible personal property taxes for 2018 were levied after April 1, 2017, on the assessed values as of December 31, 2016, the lien date. Public utility real property is assessed at 35 percent of true value; tangible personal property is currently assessed at varying percentages of true value. Public utility property taxes are payable on the same dates as real property taxes described previously.

The District receives property taxes from Williams County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2018, are available to finance fiscal year 2018 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

6. PROPERTY TAXES - (Continued)

The assessed values upon which the fiscal year 2018 taxes were collected are:

	2017 Second- Half Collections		2018 First- Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential	\$196,514,270	75%	\$197,054,670	75%
Industrial/Commercial	60,678,440	23%	60,952,140	23%
Public Utility	5,140,130	2%	5,770,240	2%
Total Assessed Value	<u>\$262,332,840</u>	<u>100%</u>	<u>\$263,777,050</u>	<u>100%</u>
Tax rate per \$1,000 of assessed valuation	\$61.25		\$61.25	

7. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2018, was as follows:

	Balance at 6/30/2017	Additions	Reductions	Balance at 6/30/2018
Governmental Activities:				
Land	\$684,640			\$684,640
Construction in Progress	14,583,255		\$14,583,255	
Land Improvements	6,129,517	\$497,345	87,436	6,539,426
Buildings and Building Improvements	46,314,386	17,586,730	3,760,852	60,140,264
Furniture, Fixtures, and Equipment	2,974,101	2,479,177	1,053,808	4,399,470
Vehicles	1,885,616	82,487	15,000	1,953,103
Total Capital Assets	<u>\$72,571,515</u>	<u>\$20,645,739</u>	<u>\$19,500,351</u>	<u>\$73,716,903</u>

8. RISK MANAGEMENT

A. Comprehensive

The District maintains comprehensive insurance coverage with private carriers for general liability; property and equipment; umbrella liability coverage over employees; personal property; and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. In addition, real property contents are 90 percent co-insured. Settled claims have not exceeded the amount of commercial coverage in any of the past three years, and there has been no significant reduction in the amount of insurance coverages from last year.

B. Employee Insurance Benefits Program

The District participates in the Northern Buckeye Health Plan (NBHP), Northwest Division of OHI, a self-insurance pool, for insurance benefits to employees. The District pays monthly premiums to NBHP for the benefits offered to its employees, which includes health, dental, and life insurance. NBHP is responsible for the management and operations of the program. The agreement with NBHP provides for additional assessment to participants if the premiums are insufficient to pay the program costs for the fiscal year. Upon withdrawal from NBHP, a participant is responsible for any claims not processed and paid and any related administrative costs.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

8. RISK MANAGEMENT - (Continued)

C. Workers' Compensation Group Program

The District participates in the Ohio Health Initiatives (OHI) Workers' Compensation Group Rating Plan (the Plan), an insurance purchasing pool (Note 17). The Plan is intended to reduce premiums for the participants. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the Plan. Each participant pays its workers' compensation premium to the State based on the rate for the Plan rather than its individual rate.

Participation in the Plan is limited to educational entities that can meet the Plan's selection criteria. Each participant must apply annually. The Plan provides the participants with a centralized program for the processing, analysis and management of workers' compensation claims and a risk management program to assist in developing safer work environments. Each participant must pay its premiums, enrollment or other fees, and perform its obligations in accordance with the terms of the agreement.

9. DEFINED PENSION BENEFIT PLANS

Net Pension Liability

Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

9. DEFINED PENSION BENEFIT PLANS - (Continued)

Plan Description - School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2018, the allocation to pension, death benefits, and Medicare B was 13.5 percent. The remaining 0.5 percent was allocated to the Health Care Fund.

The District’s contractually required contribution to SERS was \$446,038 for fiscal year 2018.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

9. DEFINED PENSION BENEFIT PLANS - (Continued)

Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Effective July 1, 2017, the cost-of-living adjustment was reduced to zero. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 26 years of service, or 31 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

9. DEFINED PENSION BENEFIT PLANS - (Continued)

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2018, the employer rate was 14 percent and the plan members were also required to contribute 14 percent of covered salary. The fiscal year 2018 contribution rates were equal to the statutory maximum rates.

The District’s contractually required contribution to STRS was \$1,404,616 for fiscal year 2018.

Net Pension Liability

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share:

	SERS	STRS	Total
Proportion of the Net Pension Liability Prior Measurement Date	0.09386670%	0.09102664%	
Proportion of the Net Pension Liability Current Measurement Date	0.09239160%	0.09121480%	
Change in Proportionate Share	-0.00147510%	0.00018816%	
Proportionate Share of the Net Pension Liability	\$ 5,520,194	\$35,588,649	\$ 41,108,843

Actuarial Assumptions - SERS

SERS’ total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee’s entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

9. DEFINED PENSION BENEFIT PLANS - (Continued)

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2017, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.5 percent to 18.2 percent
COLA or Ad Hoc COLA	2.5 percent
Investment Rate of Return	7.5 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

Prior to 2017, an assumption of 3 percent was used for COLA or Ad Hoc COLA.

For 2017, the mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disable members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return</u>
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	<u>10.00</u>	3.00
 Total	 <u>100.00 %</u>	

Discount Rate The total pension liability was calculated using the discount rate of 7.5 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.5 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

9. DEFINED PENSION BENEFIT PLANS - (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.5 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5 percent), or one percentage point higher (8.5 percent) than the current rate.

	1% Decrease (6.5%)	Discount Rate (7.5%)	1% Increase (8.5%)
District's proportionate share of the net pension liability	\$7,660,595	\$5,520,194	\$3,727,171

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2017, actuarial valuation, compared with July 1, 2016 are presented below:

	July 1, 2017	July 1, 2016
Inflation	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

For the July 1, 2017, actuarial valuation, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For the July 1, 2016 actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Actuarial assumptions used in the July 1 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016. Actuarial assumptions used in the June 30, 2016, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

9. DEFINED PENSION BENEFIT PLANS - (Continued)

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return *</u>
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
 Total	 <u>100.00 %</u>	

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2017. The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2017. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2017.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	<u>1% Decrease (6.45%)</u>	<u>Current Discount Rate (7.45%)</u>	<u>1% Increase (8.45%)</u>
District's proportionate share of the net pension liability	\$47,777,190	\$35,588,649	\$25,955,719

9. DEFINED PENSION BENEFIT PLANS - (Continued)

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2018, four members of the Board of Education have selected Social Security. The contribution rate is 6.2 percent of wages.

10. POSTEMPLOYMENT BENEFIT (OPEB) PLANS

Net OPEB Liability

For fiscal year 2018, Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" was effective. This GASB pronouncement had no effect on beginning net position as reported June 30, 2017, as the net OPEB liability is not reported in the accompanying financial statements. The net OPEB liability has been disclosed below.

OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net OPEB liability represents the District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

10. DEFINED BENEFIT OPEB PLANS – (Continued)

coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2018, .5 percent of covered payroll was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2018, this amount was \$23,700. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2018, the District's surcharge obligation was \$49,568.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$23,895 for fiscal year 2018.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2018, STRS did not allocate any employer contributions to post-employment health care.

WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

10. DEFINED BENEFIT OPEB PLANS – (Continued)

Net OPEB Liability

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the Net OPEB Liability Prior Measurement Date	0.09239160%	0.09371576%	
Proportion of the Net OPEB Liability Current Measurement Date	<u>0.09239160%</u>	<u>0.09371576%</u>	
Change in Proportionate Share	<u>0.00000000%</u>	<u>0.00000000%</u>	
Proportionate Share of the Net OPEB Liability	\$2,479,548	\$3,656,443	\$6,135,991

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2017, are presented below:

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS

10. DEFINED BENEFIT OPEB PLANS – (Continued)

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	3.56 percent
Prior Measurement Date	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Measurement Date	3.63 percent
Prior Measurement Date	2.98 percent
Medical Trend Assumption	
Medicare	5.50 to 5.00 percent
Pre-Medicare	7.50 to 5.00 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

10. DEFINED BENEFIT OPEB PLANS – (Continued)

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
 Total	 <u>100.00 %</u>	

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2017 was 3.63 percent. The discount rate used to measure total OPEB liability prior to June 30, 2017 was 2.98 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.56 percent, as of June 30, 2017 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.63%) and higher (4.63%) than the current discount rate (3.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.5% decreasing to 4.0%) and higher (8.5% decreasing to 6.0%) than the current rate.

	<u>1% Decrease (2.63%)</u>	<u>Current Discount Rate (3.63%)</u>	<u>1% Increase (4.63%)</u>
District's proportionate share of the net OPEB liability	\$2,994,370	\$2,479,548	\$2,071,677

10. DEFINED BENEFIT OPEB PLANS – (Continued)

	1% Decrease (6.5 % decreasing to 4.0 %)	Current Trend Rate (7.5 % decreasing to 5.0 %)	1% Increase (8.5 % decreasing to 6.0 %)
District's proportionate share of the net OPEB liability	\$2,011,967	\$2,479,548	\$3,098,399

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2017, actuarial valuation are presented below:

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017
Blended Discount Rate of Return	4.13 percent
Health Care Cost Trends	6 to 11 percent initial, 4.5 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB *Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Also since the prior measurement date, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

10. DEFINED BENEFIT OPEB PLANS – (Continued)

discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. Subsequent to the current measurement date, the date for discontinuing remaining Medicare Part B premium reimbursements was extended to January 2020.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return *</u>
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	<u>100.00 %</u>	

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total OPEB liability was 4.13 percent as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was not projected to be sufficient to make all projected future benefit payments of current plan members. The OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2037. Therefore, the long-term expected rate of return on OPEB plan assets was used to determine the present value of the projected benefit payments through the fiscal year ending June 30, 2036 and the Bond Buyer 20-year municipal bond rate of 3.58 percent as of June 30, 2017 (i.e. municipal bond rate), was used to determine the present value of the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The blended discount rate of 4.13 percent, which represents the long-term expected rate of return of 7.45 percent for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 3.58 percent for the unfunded benefit payments, was used to measure the total OPEB liability as of June 30, 2017. A blended discount rate of 3.26 percent which represents the long term expected rate of return of 7.75 percent for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 2.85 percent for the unfunded benefit payments was used to measure the total OPEB liability at June 30, 2016.

(Continued)**

10. DEFINED BENEFIT OPEB PLANS – (Continued)

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB liability as of June 30, 2017, calculated using the current period discount rate assumption of 4.13 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.13 percent) or one percentage point higher (5.13 percent) than the current assumption. Also shown is the net OPEB liability as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (3.13%)	Current Discount Rate (4.13%)	1% Increase (5.13%)
District's proportionate share of the net OPEB liability	\$4,908,716	\$3,656,443	\$2,666,738
	1% Decrease	Current Trend Rate	1% Increase
District's proportionate share of the net OPEB liability	\$2,540,340	\$3,656,443	\$5,125,366

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

11. COMPENSATED ABSENCES

Employees earn vacation at rates specified under State of Ohio law and based on credited service. Clerical, Technical, and Maintenance and Operation employees with one or more years of service are entitled to vacation ranging from 10 to 20 days. Employees with less than one year of service earn one vacation day per month worked, not to exceed five days. Certain employees are permitted to carry over vacation leave earned in the current year into the next year.

All employees are entitled to a sick leave credit equal to one and one-quarter days for each month of service (earned on a pro rata basis for less than full-time employees). This sick leave will either be absorbed by time off due to illness or injury or, within certain limitations, be paid to the employee upon retirement. The amount paid to an employee upon retirement is limited to thirty percent of the accumulated sick leave for all certificated and certain non-certificated employees up to a maximum of 76.5 days. For other noncertified employees, the amount paid to an employee upon retirement is limited to thirty percent of the accumulated sick leave up to a maximum of 50 days, depending on years of service.

As of June 30, 2018, the liability for compensated absences was \$1,585,214 for the entire District.

12. LONG-TERM OBLIGATIONS

Changes in long-term obligations of the District during fiscal year 2018 were as follows:

	Balance at 06/30/17	Increase	Decrease	Balance at 06/30/18	Amount Due In one Year
School Improvement Refunding Bonds					
Series 2017 Bonds		\$8,965,000		\$8,965,000	\$40,000
Capital Appreciation Bonds		34,592		34,592	
2016A Refunding Bonds	\$3,630,000		\$45,000	3,585,000	45,000
2016A Capital Appreciation Bonds	19,914	58,193		78,107	
2016B Refunding Bonds	4,195,000		15,000	4,180,000	25,000
2016B Capital Appreciation Bonds	83,484	30,606		114,040	
2014A School Improvement Bonds	17,645,000		9,495,000	8,150,000	500,000
2014B School Improvement Bonds	5,405,000		30,000	5,375,000	30,000
Certificate of Participation, Series	3,060,000		85,000	2,975,000	90,000
Total Long-Term Obligations	\$34,038,398	\$9,088,391	\$9,670,000	\$33,456,789	\$730,000

On November 5, 2013, the citizens of the Bryan City School District passed a bond levy for the purpose of paying a portion of the local share of school construction under the State of Ohio Classroom Facilities Assistance Program (including the construction of a new 6-12 school building, and remodeling of the middle school for grades PK-5 and demolition of Lincoln, Washington Elementary and high school buildings), including technology and site improvements, together with equipment, furnishings, landscaping and all necessary appurtenances in the principal amount of \$32,767,891 to be repaid annually over a maximum period of 28 years, and an annual levy of property taxes be made outside of the ten mill limitation estimated by the County Auditor to average over the repayment period of the bond issue 7.45 mills for each one hundred dollars of tax valuation, which amounts to seventy four and one-half cents (\$0.745) for each one hundred dollars of tax valuation, to pay the annual debt charge on bonds, and to pay debt charges on any notes issued in anticipation of those bonds.

13. CAPITALIZED LEASES - LESSEE DISCLOSURE

The District has entered into capitalized leases for the acquisition of equipment.

These expenditures are reflected as program/function expenditures on the accompanying financial statements. Principal payments in the 2018 fiscal year totaled \$23,096. The capital leases were paid off during fiscal year 2018.

14. SET-ASIDE CALCULATIONS AND FUND RESERVES

The District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

	Capital Acquisition
Set-Aside Cash Balance as of June 30, 2017	
Current Year Set-Aside Requirements	\$361,303
Current Year Offsets	(\$361,303)
Qualifying Disbursements	_____
Total	_____
Cash Balance Carried Forward to FY 2019	_____

15. CONTINGENCIES

A. Federal and State Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2018.

B. School Foundation

District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Traditional school districts must comply with minimum hours of instruction instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2018, foundation funding for the District, therefore, any financial statement impact is not determinable at this time.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

15. CONTINGENCIES – (Continued)

C. Litigation

The District is involved in a case arising from the termination of a former employee which alleges that the District unlawfully retaliated against the former employee for reporting alleged misconduct of District administrative staff. Management and its legal counsel periodically review the probable outcome of the pending claim and proceedings, the costs and expenses reasonably expected to be incurred, the availability and limits of the District's insurance coverage, and the District's accruals for uninsured liabilities. While the ultimate legal and financial liability with respect to the claim and proceedings cannot be estimated with certainty, management believes, based on its reviews and experience to date, that any liability in excess of amounts covered by insurance will not have a material effect on the District's financial statements.

16. JOINTLY GOVERNED ORGANIZATIONS

A. Northwest Ohio Computer Association

The District is a participant in the Northwest Ohio Computer Association (NWOCA). NWOCA is an association of public school districts within the boundaries of Defiance, Fulton, Henry, and Williams Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. NWOCA is governed by the Northern Buckeye Education Council and its participating members. Total disbursements made by the District to NWOCA during this fiscal year were \$73,461. Financial information can be obtained from Tammy Butler, who serves as Treasurer, at 209 Nolan Parkway, Archbold, Ohio 43502.

B. Northern Buckeye Education Council

The Northern Buckeye Education Council (NBEC) was established in 1979 to foster cooperation among various educational entities located in Defiance, Fulton, Henry, and Williams counties. NBEC is organized under Ohio laws as a regional council of governments pursuant to a written agreement entered into by its member educational entities and bylaws adopted by the representatives of the member educational entities. NBEC is governed by an elected Board consisting of two representatives from each of the four counties, in which the member educational entities are located. The Board is elected from an Assembly consisting of a representative from each participating educational entity. To obtain financial information, write to the Northern Buckeye Education Council, Tammy Butler, who serves as Treasurer, at 209 Nolan Parkway, Archbold, Ohio 43502.

C. Four County Career Center

The Four County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the educational service centers from the counties of Defiance, Fulton, Henry, and Williams; one representative from each of the city school districts; one representative from each of the exempted village school districts; and one additional representative from the Northwest Ohio Educational Service Center. The Four County Career Center possesses its own budgeting and taxing authority. To obtain financial information, write to Connie Nicely, Treasurer, at the Four County Career Center, at Route 1, Box 245A, Archbold, Ohio 43502.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

16. JOINTLY GOVERNED ORGANIZATIONS - (Continued)

D. Northwestern Ohio Educational Research Council, Inc.

The Northwestern Ohio Educational Research Council, Inc. (NOERC) is a jointly governed organization formed to bring educational entities into a better understanding of their common educational problems, facilitate and conduct practical educational research, coordinate educational research among members, provide a means for evaluating and disseminating the results of research, serve as a repository for research and legislative materials and provide opportunities for training. The NOERC serves a twenty-five county area of Northwest Ohio. The Board of Directors consists of superintendents from two educational service centers, two exempted village school districts, five local school districts, and five city school districts, as well as representatives from two private or parochial schools and three institutions of higher education. Each active member is entitled to one vote on all issues addressed by the Board of Directors. Financial information can be obtained from the Northwestern Ohio Educational Research Council, Inc., P.O. Box 456, Ashland, Ohio 44805.

E. Northwest Ohio Special Education Regional Resource Center

The Northwest Ohio Special Education Regional Resource Center (SERRC) is a jointly governed organization formed to provide services to families, educators, and agencies regarding educational law and curriculum and instruction for students with disabilities. The SERRC serves a thirteen county area in Northwest Ohio. The Governing Board consists of superintendents from each of the cooperating Districts, the fiscal agent superintendent, two parents of children with disabilities, one superintendent of a county board of developmental disabilities, one representative from a chartered non-public school, one representative from the University of Toledo, one representative from Bowling Green State University, one representative from a community school, and any other representatives from other agencies as designated by the Governing Board or the Ohio Department of Education. The degree of control exercised by any participating school district is limited to its representation on the Board. Financial information can be obtained from Dave Michel, Eastwood Local School District, 4800 Sugar Ridge Road, Pemberville, Ohio 43450.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

17. INSURANCE POOLS

A. Employee Insurance Benefits Program

The District participates in a group health insurance pool through the Optimal Health Initiative Consortium (OHI) Insurance Benefits Program (the Pool) is a public entity shared risk pool consisting of educational entities throughout the state. The Pool is governed by OHI and its participating members. The District contributed a total of \$1,981,787 to Northern Buckeye Health Plan, Northwest Division of OHI for all four plans. Financial information for the period can be obtained from Jenny Jostworth, Treasurer, at 10999 Reed Hartman Hwy., Suite 304E, Cincinnati, Ohio 45242.

B. Workers' Compensation Group Rating Plan

The District participates in a group-rating plan for workers' compensation as established under §4123.29 of the Ohio Revised Code. The Ohio Health Initiatives (OHI) Workers' Compensation Group Rating Plan (WCGRP) was established through the Ohio Health Initiatives (OHI) as a group purchasing pool. The group was formed to create a workers' compensation group rating plan which would allow employers to group together to achieve a potentially lower premium rate than they may otherwise be able to acquire as individual employers. The Optimal Health Initiatives has created a workers' compensation group rating and risk management program which will potentially reduce the workers' compensation premiums for the District.

Optimal Health Initiatives has retained Sheakley UniService as the servicing agent to perform administrative, actuarial, cost control, claims, and safety consulting services and unemployment claims services for program participants. During this fiscal year, the District's enrollment fee to WCGRP to cover the costs of administering the program was waived.

18. INTERFUND TRANSACTIONS

During the year ended June 30, 2018, \$43,959 was transferred from the General Fund to the Permanent Improvement fund to subsidize capital improvements and \$75,000 to the Food Service Fund to subsidize operating expenses. In addition, \$131,993 was transferred from the Permanent Improvement fund to the OSFC Project Maintenance fund. The amount will be used to fund maintenance of the District's school buildings.

19. ACCOUNTABILITY AND COMPLIANCE

Accountability

At June 30, 2018, Title VI-B and Title I special revenue funds had deficit fund balances of \$3,274, and \$3,130 respectively, resulting from the funds being reimbursement grants. The General Fund provides transfers to cover deficit balances when cash is needed.

Compliance

Ohio Administrative Code Section 117-2-03 (B) requires the District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the District prepared its financial statements on a cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net position/fund balances, and disclosures that, while material, cannot be determined at this time. The District can be fined, and various other administrative remedies may be taken against the District.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

19. ACCOUNTABILITY AND COMPLIANCE – (Continued)

Change in Accounting Principles

For fiscal year 2018, the District has implemented GASB Statement No. 75, "*Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*", GASB Statement No. 81 "*Irrevocable Split-Interest Agreements*" GASB Statement No. 85, "*Omnibus 2017*" and GASB Statement No. 86, "*Certain Debt Extinguishments*".

GASB Statement No. 75 improves the accounting and financial reporting by state and local governments for postemployment benefits other than pension (OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. The implementation of GASB Statement No. 75 affected the District's postemployment benefit plan disclosures, as presented in Note 10 to the basic financial statements.

GASB Statement No. 81 improves the accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The implementation of GASB Statement No. 81 did not have an effect on the financial statements of the District.

GASB Statement No. 85 addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and OPEB. The implementation of GASB Statement No. 85 did not have an effect on the financial statements of the District.

GASB Statement No. 86 improves consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources - resources other than the proceeds of refunding debt - are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The implementation of GASB Statement No. 86 did not have an effect on the financial statements of the District.

**BRYAN CITY SCHOOL DISTRICT
WILLIAMS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(Continued)**

20. FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in governmental funds.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

<u>Fund Balance</u>	<u>General</u>	<u>Permanent Improvement Fund</u>	<u>Classroom Facilities Assistance Program Project Fund</u>	<u>Other Governmental</u>	<u>Total Governmental Funds</u>
Restricted for:					
Regular Instruction				\$23,439	\$23,439
Special Instruction				205	205
Athletics				260,150	260,150
Food Service Operations				71,098	71,098
Facilities Maintenance				503,484	503,484
Debt Retirement				886,217	886,217
Building Construction			\$448,238	43,228	491,466
Total Restricted			448,238	1,787,821	2,236,059
Committed for:					
Permanent Improvements		\$2,007,227			2,007,227
Assigned for:					
Educational Activities	\$164,035				164,035
Unpaid Obligations (encumbrances)	74,009				74,009
Appropriations	1,461,170				1,461,170
Total Assigned	1,699,214				1,699,214
Unassigned (deficit)	11,423,270			(6,404)	11,416,866
Total Fund Balance	\$13,122,484	\$2,007,227	\$448,238	\$1,781,417	\$17,359,366

21. TAX ABATEMENTS ENTERED INTO BY OTHER GOVERNMENTS

The City of Bryan and Pulaski Township entered into tax abatement agreements with various companies for the abatement of property taxes to bring jobs and economic development into the area. The agreement affects the property tax receipts collected and distributed to the District. Under the agreements, the District property taxes were reduced by \$233,088 during fiscal year 2018. The District did not receive compensation for the forgone property taxes.

22. RELATED PARTY TRANSACTIONS

Thomas Lingvai, Board Member, is the manager of Bryan Excavating, a local company. This company was compensated \$7,305 to preform repair and construction work to the District's grounds. The transactions were approved at arm's length, with full knowledge by District officials, of Mr. Lingvai's interest. Mr. Lingvai took no part in the deliberation or decision by District officials with respect to the transaction.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE FISCAL YEAR ENDED JUNE 30, 2018**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Bryan City School District, Williams County, Ohio (the District's) under programs of the federal government for the year ended June 30, 2018. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - SUBRECIPIENTS

The District passes certain federal awards received from the Ohio Department of Education to other governments or not-for-profit agencies (subrecipients). As Note B describes, the District reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the District has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE E - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE F – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

Dave Yost • Auditor of State

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Bryan City School District
Williams County
1350 Fountain Grove Drive
Bryan, Ohio 43506-8733

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bryan City School District, Williams County, Ohio (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 19, 2018, wherein we noted the District uses a special purpose framework other than generally accepted accounting principles.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings that we consider a material weakness. We consider finding 2018-002 to be a material weakness.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of

noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2018-001.

District's Response to Findings

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and corrective action plan. We did not subject the District's response to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

Dave Yost • Auditor of State

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Bryan City School District
Williams County
1350 Fountain Grove Drive
Bryan, Ohio 43506-8733

To the Board of Education:

Report on Compliance for each Major Federal Program

We have audited Bryan City School District, Williams County, Ohio's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of Bryan City School District's major federal programs for the year ended June 30, 2018. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal programs.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on each Major Federal Program

In our opinion, Bryan City School District, Williams County, Ohio complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Dave Yost
Auditor of State

Columbus, Ohio

December 19, 2018

**BRYAN CITY SCHOOL DISTRICT

<i>(d)(1)(ix)</i>	Low Risk Auditee under 2 CFR § 200.520?	No

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2018-001

Noncompliance

Ohio Rev. Code § 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office.

Ohio Admin. Code 117-2-03(B), which further clarifies the requirements of Ohio Rev. Code § 117.38, requires the District to prepare its annual financial report in accordance with generally accepted accounting principles (GAAP).

As a cost savings measure, the District prepared financial statements that, although formatted similar to financial statements prescribed by Governmental Accounting Standards Board Statement No. 34, report on the basis of cash receipts and cash disbursements, rather than GAAP. The accompanying financial statements and notes omit certain assets, liabilities, deferred inflows/outflows of resources, fund equities/net position, and disclosures that, while presumably material, cannot be determined at this time.

Pursuant to Ohio Rev. Code § 117.38 the District may be fined and subject to various other administrative remedies for its failure to file the required financial report. Failure to report on a GAAP basis compromises the District's ability to evaluate and monitor the overall financial condition of the District. To help provide the users with more meaningful financial statements, the District should prepare its annual financial statements according to generally accepted accounting principles.

Officials' Response:

See corrective action plan

FINDING NUMBER 2018-002

Material Weakness – Financial Reporting

In our audit engagement letter, as required by AU-C Section 210, *Terms of Engagement*, paragraph .06, management acknowledged its responsibility for the preparation and fair presentation of their financial statements; this responsibility includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements free from material misstatement, whether due to fraud or error as discussed in AU-C Section 210 paragraphs .A14 & .A16. We identified the following errors for the fiscal year ended June 30, 2018:

- The District did not disclose Other Postemployment Benefits (OPEB) information in their notes the financial statements for State Teacher's Retirement System or School Employee's Retirement System as of June 30, 2018 in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," (GASB Cod 2300.106.g) and
- Restricted net position reported on the statement of net position incorrectly included \$2,146,955 which contained amounts which did not have constraints placed on use either imposed externally or by law as required by GASB Statement No. 34. Basic Financial Statements – Management's Discussion and Analysis – for State and Local Governments, paragraph 34 (amended by GASB Statement No. 63) and GASB Cod 1800.157. These monies should have been classified as unrestricted net position on the government-wide statement of net position.

These errors were not identified and corrected prior to the District preparing its financial report due to deficiencies in the District's internal controls over financial report monitoring. These errors required audit adjustments which were posted to the financial statements and the notes to the financial statements.

To help ensure the District's financial statements and notes to the statements are complete and accurate, the District should adopt policies and procedures, including a final review of the statements and notes by the Treasurer, to help identify and correct errors and omissions.

JUNE 30, 2018**

Finding Number	Finding Summary	Status	Additional Information
2017-001	Finding first reported in 2007. Ohio Rev. Code § 117.38 and Ohio Admin. Code § 117-2-03 (B) – for not reporting in accordance with generally accepted accounting principles.	Not corrected and reissued as finding 2018-001 in this report.	Management believes reporting on a basis of accounting other than generally accepted accounting principles (GAAP) is more cost efficient.
2017-002	Significant deficiency for overstatement of Restricted Net Position on the Statement of Net Position.	Not corrected and reissued as finding 2018-002 in this report.	Net position was incorrectly classified as restricted. Management is aware and understands the importance of the information presented on the state of net position and will ensure classifications will be accurately identified and reported.
2017-003	Finding first reported in 2015. Significant deficiency due to debt refunding posting errors.	Corrective action taken and finding is Fully Corrected.
