Board of Education Chagrin Falls Exempted Village School District 400 East Washington Street Chagrin Falls, Ohio 44022

We have reviewed the *Independent Auditor's Report* of the Chagrin Falls Exempted Village School District, Cuyahoga County, prepared by Rea & Associates, Inc., for the audit period July 1, 2022 through June 30, 2023. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Chagrin Falls Exempted Village School District is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education and Management Chagrin Falls Exempted Village School District Cuyahoga County, Ohio 400 East Washington Street Chagrin Falls, OH 44022

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Chagrin Falls Exempted Village School District (the "School District"), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated December 27, 2023.

# **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Chagrin Falls Exempted Village School District Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* Page 2 of 2

# **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARRDS REQUIRED BY THE UNIFORM GUIDANCE

To Board of Education and Management Chagrin Falls Exempted Village School District Cuyahoga County, Ohio 400 East Washington Street Chagrin Falls, OH 44022

# **Report on Compliance for Each Major Federal Program**

# **Opinion on Each Major Federal Program**

We have audited Chagrin Falls Exempted Village School District's, Cuyahoga County, Ohio (the "School District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of School District's major federal programs for the year ended June 30, 2023. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

### **Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of School District's compliance with the compliance requirements referred to above.

### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of

Chagrin Falls Exempted Village School District

Independent Auditor's Report on Compliance for Each Major Federal Program;

Report on Internal Control over Compliance; and Report on Schedule of Expenditures of Federal

Awards Required by the Uniform Guidance

Page 2 of 3

laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to School District's federal programs.

# Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

# **Report on Internal Control Over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control* 

Chagrin Falls Exempted Village School District Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance Page 3 of 3

*over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining information of the School District as of and for the year ended June 30, 2023 and the notes to the financial statements, which collectively comprise the School District's basic financial statements. We issued our report thereon dated December 27, 2023, which contained unmodified opinions on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information larged to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

See accompanying notes to schedule of expenditures of federal awards.

# **NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Chagrin Falls Exempted Village School District (the School District) under programs of the federal government for the year ended June 30, 2023. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position or changes in net position, or cash flows of the School District.

# NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

# **NOTE C - CHILD NUTRITION CLUSTER**

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

# **NOTE D – FOOD DONATION PROGRAM**

The School District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

December 27, 2023

Board of Education Members and Residents of the Chagrin Falls Exempted Village School District,

We are pleased to submit to you the Chagrin Falls Exempted Village School District's Annual Comprehensive Financial Report. This report provides full disclosure of the financial operation of the District for the fiscal year ended June 30, 2023. This report includes an audit opinion from the independent public accounting firm Rea & Associates, Inc. and conforms to generally accepted accounting principles as applicable to governmental entities. Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A compliments this letter of transmittal and should be read in conjunction with it. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the School District. This report will provide the taxpayers of the Chagrin Falls Exempted Village School District with comprehensive financial data in a format of which will enable them to gain an understanding of the School District's financial affairs. Copies will be made available to the local villages and cities comprising the School District, the Cuyahoga and Geauga County Public Libraries, major taxpayers, financial rating services, and other interested parties.

# **The School District**

The Chagrin Falls Exempted Village School District is located in both Cuyahoga and Geauga counties in northeastern Ohio, approximately thirteen miles east of the City of Cleveland. The School District's territory encompasses the entire territory of Chagrin Falls Township and the Villages of Chagrin Falls, Bentleyville, South Russell, and a portion of the territories of the Village of Moreland Hills and the Townships of Bainbridge and Russell. The School District operates one elementary school (built in 1968 – PreK – grade 3), one intermediate school (built in 1914 and completely renovated and updated in 2019 – grades 4-6), one middle school (built in 1999 – grades 7-8) and a high school (built in 1960 – grades 9-12). Current enrollment (for the 2023-2024 school year) is 1,573 and is projected to decline slightly over the next ten years.

Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code, to provide educational services authorized by charter and further mandated by State and/or Federal agencies.

# **The Reporting Entity**

The School District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments and organizations making up the Chagrin Falls Exempted Village School District (the primary government) and its potential component units.

The Lake Geauga Computer Association (LGCA) and the Ohio Schools Council are jointly governed organizations whose relationship to the School District is described in Note 1 to the basic financial statements. The School District also participates in the Ohio School's Council Workers' Compensation Group Retro Plan (GRP), a public entity risk pool that is described in Note 1 to the basic financial statements.

# **Major Initiatives**

Chagrin Falls Exempted Village Schools embarked on major initiatives, emphasizing our commitment to continuous growth and excellence. The focus was on implementing a forward-thinking strategic plan that prioritized long-term, dynamic educational objectives. The plan, designed to be both responsive and progressive, underscored the School District's dedication to evolving with the educational landscape, ensuring that every initiative aligns with our core values and the emerging needs of our entire school community.

One of the pivotal initiatives was the development of a comprehensive PreK-12 instructional framework, geared towards enhancing authentic academic experiences. This framework is a significant step towards giving students greater agency in their educational journey, fostering a more engaging and individualized learning process. In parallel, the School District placed a strong emphasis on the mental, physical, and emotional well-being of students and staff. The introduction of a tiered social-emotional learning system marked a strategic move to promote holistic development and provide tailored support, addressing the diverse needs of the school community.

A major thrust was also seen in the refinement of communication strategies under Priority Area 4. The initiative to establish a common language across all levels of the school system aimed to create a unified understanding of programs and services. This move was crucial in building a cohesive community, rallied around a clear and shared educational vision. Additionally, strategic resourcing efforts were undertaken to equip students with essential tools, partnerships, and resources, reinforcing the School District's commitment to delivering a top-tier educational experience.

These initiatives, integral to the strategic plan, underscore Chagrin Falls Exempted Village Schools' resolve to transform into a leading learning organization. By focusing on these strategic

areas, the School District is not just aiming for short-term achievements but is laying the groundwork for long-term educational excellence. This comprehensive approach to education positions the School District as a model for others, showcasing the impact of a dedicated, strategic approach to fostering an environment of continuous growth and learning. All of this work embraces the School District's new set direction of "Inspiring All to Grow and Thrive."

The School District continues to evidence outstanding effort and accomplishment in many areas. Chagrin Falls Exempted Village Schools. Chagrin Falls Exempted Village School District placed as the 6th highest-performing district relative to PI scores and as the 2nd highest-performing school district within Northeast Ohio for the 2020-21 school year. In the 2021-22 school year, the ODE Report Card system was modified, moving from a letter grade to a 5-Star ranking system. Not only did the School District earn 5 Stars (the highest ranking possible) in all areas measured on the ODE District Report Card system for the 2021-22 school year, but it also earned the 3rd highest PI score (107.9) in the State of Ohio. In the 2022-23 school year, the School District received 5 stars in every component of the State Report Card and earned a PI score of 109.2, the 4th highest PI score in the state (out of more than 600 districts).

Pursuit of rigorous course offerings yielding college credit continues to grow within Chagrin Falls High School. In October 2023, Chagrin Falls High School was announced as a member of the College Board's AP School Honor Roll, with a gold distinction. This designation recognizes schools whose AP programs are delivering results while broadening- access. Advanced Placement (AP) scores indicate continued growth in terms of student access and achievement. Our district is committed to offering 28 AP Courses, reflecting varied content areas and fields, including the AP Capstone Program. As a result of scores earned through the May / June 2023 AP Exams, Chagrin Falls High School celebrated 41 AP Scholars, 20 AP Scholars with Honor, 51 AP Scholars with Distinction, 17 AP Capstone Diplomas, and 3 AP Seminar and Research Certificates. During a recent eight-year analysis of the program, the district demonstrated over a 61% increase in the number of exams taken (from 488 in 2014 to 787 in 2022), while continuing to maintain consistently high passage rates. Chagrin Falls High School also continues to offer 2 CCP English Composition courses within our 7-12 Campus during our school day, taught by a district teacher who has been credentialed as an adjunct professor via Cuyahoga Community College.

The Chagrin Falls Exempted Village School District is a frontrunner in integrating technology seamlessly into the educational landscape. Our unwavering commitment to technological innovation is evident in our nine-year 1:1 computing initiative, which empowers every student with their own Chromebook to enhance their learning journey. These versatile devices foster collaboration, research, and critical thinking skills, while their intuitive touchscreens amplify the dynamic interaction between students and educators. This accessibility has seamlessly woven technology into the very fabric of our daily educational experiences, ensuring its effective and safe utilization for all learners.

Our dedication to STEM education shines through our two state-of-the-art innovation labs, equipped with advanced tools like laser engravers and 3D printers. Students transform from passive users into active creators, delving into the world of 3D modeling using industry-grade software, equipping themselves with the skills they'll need to thrive in the ever-evolving STEM landscape.

While embracing technology and innovation, we remain steadfast in upholding our rigorous and comprehensive academic program. This commitment aligns seamlessly with our community's unwavering support for public education. We are deeply grateful for their unwavering support, which is instrumental in fulfilling our mission of inspiring all to grow and thrive.

# Commitment to High-Quality Learning

The Chagrin Falls Exempted Village School District is committed to promoting ongoing growth and learning that is relevant and appropriately rigorous for all students. Continuing professional development and training for all staff reflects our investment in ongoing learning and growth. We provide high-quality teaching and learning to enable us to help students to grow and thrive via personalized learning for all students. The School District is immersed in the Ohio Personalized Learning Network (OPLN), with 2 schools joining Cohort 1 in the 2022-23 school year and the other 2 schools joining Cohort 2 in the 2023-24 school year. OPLN gathers districts from across the state and partners with the ODEW and Knowledgeworks to grow understanding and support development of personalized learning for students across grades K-12. Through the OPLN work, our K-8 teams are working to design learner profiles for students and use this information to yield student agency in learning. Our HS OPLN team is working to identify actual learning strategies which will afford student voice and choice.

Within the School District currently, the personalization of learning begins with a holistic education, which yields exposure to music, art, STEM, physical education, and world language for all students in grades K-12. This is further enhanced by ongoing review and refinement of course offerings, collection of student interests and needs, and the proposal of new and refined courses and programming to respond. The 2023-24 school year includes new offerings at CFHS which were proposed in response to student interest / need, including Film as Literature (enabling students to further develop their understanding of literature and provide an opportunity for students to engage in intertextual analysis and rich depth of discussion through film), History of Cleveland (designed to further develop their understanding of local history and politics as it relates to our state and nation), and and Advanced Exercise Training and Performance (affording students the opportunity to further explore their training program and personalize it relative to their Varsity sports). Three additional courses will be proposed to the Chagrin Falls Board of Education for adoption in December 2023 for offering within the 2024-25 school. These include Positive Youth Development (designed to provide targeted support for students with disabilities to manage stress, develop resiliency, and grow organizational strategies), Global Explorers 101 (created by the World Language Department to provide an elective opportunity for students to pursue interested in global studies through independently driven research of current events, global challenges, and study of varied perspectives), and The Joy of Reading: My Choice, My Voice (designed to provide an elective option for students to reignite their love of reading by offering student voice and choice in book selection, identification of skills to grow, and curation of individualized products / evidence of learning).

Through the ongoing collection and analysis of student data, ensures we are able to monitor the progress of students throughout each school year and use it to appropriately identify student needs relative to intervention, enrichment, and/or accelerative options. A systemic multi-tiered system of support (MTSS) and intervention continues to be refined across the School District, ensuring that the varying needs of all students' academic and social emotional needs at each level are efficiently and effectively addressed.

# Promotion of High-Quality Learning Via Ongoing Program Refinement and Teacher PD

New programming in K-12 SS was recently implemented and new programming was identified for most K-12 World Languages (for implementation in the 2021-22 school year). In the 2022-23 school year, HS Science programming, K-8 STEM programming, HS Business, and HS Computer Science was reviewed and refined. A systemic review of K-12 Math, K-8 Science, and elementary ELA programming is under way. This work is seeking to identify resources to support student learning and to find ways to make learning more relevant and meaningful. K-8 Science teachers have begun to identify additional hands-on ways to grow opportunities for students to experience science in authentic ways. K-12 Math is currently piloting and reviewing programs to determine efficacy for all students and the vertical alignment of learning for students. ELA programs which align to the Science of Reading are currently being reviewed for possible future adoption in implementation to further enhance existing programs, like the Fundations Phonics program in grades K-3.

The School District also continues to review and refine intervention models and programming to ensure targeted students have the appropriate support, materials, and time to master content. Beginning in the 2017-18 school year, the School District implemented additional ways to meet the needs of advanced and gifted K-3 students in Math and English/Language Arts (ELA) via Flexible Grouping in grades K-1 and Cluster-Grouping in grades 2-3. This programming, coupled with the Gifted and Advanced options available to students across grades 4-12, continues to be refined each year to reflect the changing needs of students. In the 2023-24 school year, MS Science is working to re-craft the current Advanced Science programming to enhance rigor, promote higher levels of cognition for students, and further grow readiness for Honors and AP Science coursework. The district is committed to the ongoing review and refinement of resources and instructional practices to promote high-quality learning for students. Teachers new to AP courses participate in AP Summer Institute training and are provided with paid time in the summer to best-prepare for the upcoming school year. Gifted professional development is provided each year for teachers via school-based meetings, online book studies, and sessions provided during our PD Days.

The district has also been responsive to ongoing and new research related to Dyslexia, focusing the priority in professional development for our K-3 teachers in the 2022-23 school year on LETRS® (Language Essentials for Teachers of Reading and Spelling), as well as other approved

providers. This professional learning has provided our educators and administrators with deep knowledge to grow as literacy and language experts in the science of reading. This training, coupled with use of the new ODEW Introduction to Dyslexia modules, our existing Fundations programming, and new Reading and Writing programming currently under review, we are seeking to continue to grow our staff to help us meet the varying and changing needs of all students, as early as possible. In the 2023-24 school year, teachers in grades 4-6 will engage in learning via the ODEW-provided Dyslexia Modules to grow their knowledge and use it to provide high quality instruction to students.

# Using Data to Support All Students to Grow and Thrive

The district uses data over periods of time to assist in determining the readiness of our students to move into higher-level courses. The iReady assessments in Math and Reading continue to be implemented in grades K-8 to monitor student growth throughout the school year and continue to be used in-tandem with programs which provided electronic personalized learning pathways for students, relative to each student's needs. Data from these assessments also continues to be used to inform intervention needs and readiness for student movement in gifted/advanced programming. Data from the PSAT 8/9 for 8th graders and freshmen, the PSAT/NMSQT for sophomores, and the school-day SAT for juniors, is also used, especially in identifying those students who may excel in Advanced Placement (AP) courses.

Additionally, student interest and need led to the district's participation in an ODE Pilot Math Program - Math Modelling and Reasoning - in the 2022-23 school year. Chagrin Falls High School currently offers this highly engaging new Math course which promotes hands-on investigation and real-world application of learning.

Chagrin Falls High School boasted 2 National Merit Semi-Finalists and 3 National Merit Commended students in the class of 2023 and currently has 3 National Merit Semi-Finalists and 7 National Merit Commended students in the class of 2024.

Expansive programming in the fine and performing arts, world languages, technology, and business continues to flourish on the 7-12 campus, reflecting our School District's commitment to providing all students with a truly holistic education. The School District also participates in the EXCEL TECC Consortium and hosts the Performing Arts Academy program within the 7-12 Campus.

# **Facility Master Plan**

For many years, Chagrin Falls Board of Education has had an established facilities committee with the goal of developing a capital improvement plan. A great deal of research and planning was done to address the significant needs of the School District's facilities, specifically at the K-6 level. After four years of working with all of our stakeholders, the work came to fruition in May 2017 as our community voted to support a combined bond and operating issue. This allowed the complete rebuild and renovation of Chagrin Falls Intermediate School, as well as investment in capital improvements throughout the School District in upcoming years.

Chagrin Falls Schools dedicated its newly renovated Intermediate School building on August 17. The construction project combines a renovation of the 1914 original high school, 1940's gymnasium and auditorium with the new construction of a three-story classroom wing. The building design retains and restores the most historic elements of the original school while adding modernized classrooms for students and staff and increased accessibility. This new building is not only a center for education, but also a gathering place for the entire community.

This construction project demonstrates great respect for the history and historical surroundings of the Intermediate School. This school is an important part of downtown Chagrin Falls as it is within walking distance to many shops, restaurants, parks, cultural institutions, homes and neighborhoods, and of course, waterfalls. School families, and the community as a whole, come together as "One Chagrin" to live, work and play in the community they call home.

With the voter-approved operating and bond proceeds we have not only built this outstanding school for present and future generations, but we also completed much-needed repairs at Gurney, the High School and the Middle School. The construction of this building, as well as improvements to the district included an updated secure entrance at Gurney and the High School as well as the funding of improvements to some HVAC components at Gurney, the Middle School and the High School and the High School. In addition, the bond funds provided a restoration to the tennis courts on the High School campus.

The road that led us to the ribbon cutting, represents the value this community places on the education of our children. The new Intermediate School supports innovation, critical thinking and the development of the whole child now and well into the future. The design and system upgrades to the new school have also provided the district meaningful modern specifications for updated systems to be implemented across our other campuses; with examples such as HVAC controls design and access control system. In addition, the new school also has become a place for community organizations to flourish and grow. It will create an opportunity for additional music, performing and visual arts shows, as well as other events, all of which will positively impact the local economy.

# **Innovation Center**

The Innovation Center is a hub for creative learning, where students can explore technology, unleash their creativity, and push beyond the boundaries of traditional education. This 4,300-square-foot space on the 7-12 Campus features three interconnected areas: a research center, a collaboration classroom, and a "Fab Lab" or Maker's Space. Equipped with 3D printers, embroidery machines, laser cutters, a heat press, tools, and more, these spaces bring students' ideas to life. The Makerspace at the Intermediate School offers a similar experience with age-appropriate tools such as sticker makers, vex robot kits, and craft supplies. A corresponding MakerSpace Lab was also developed at the New Intermediate School when it opened in 2019.

With its flexible learning environment, the Innovation Center empowers students to take ownership of their education and become active participants in their learning journey. Whether they're conducting research, collaborating on projects, or tinkering in the Maker's Space, students are encouraged to explore their passions, develop new skills, and think outside the box.

The Innovation Center is a testament to the Chagrin Falls Exempted Village School District's commitment to providing students with the tools and resources they need to thrive in the 21st century. By fostering creativity, innovation, and critical thinking, the Innovation Center is preparing students for success in whatever path they choose to pursue.

# **Recent Facilities Projects**

Significant progress has been made in improving the quality and increasing longevity of school district facilities. With the below projects being completed recently:

- Tennis Court renovation at High School campus (bond proceeds)
- Secure Entrance at High School (bond proceeds)
- Secure Entrance at Gurney School (bond proceeds)
- New boiler at High School
- Pavement and Site Circulation at the 7-12 Campus (partially bond proceeds)
- Two to Three new buses annualy under the Bus Replacement Program
- A new water treatment chlorination system added at Gurney School
- HVAC Renovation Project 4 of 5 Phases Completed at 7-12 Campus and Gurney Campus including modern high efficiency equipment and controls.
- Roofing Projects A number of roofing sections at 7-12 Campus and Gurney School updated over the past five years.
- Exterior Door Access Control Systems at 7-12 Campus and Gurney Campus
- Installation of new efficient and automated exterior and interior LED lighting
- Lining of sanitary sewer lines on the 7-12 Campus as well as improved storm water management systems on the site.
- Improvement of the fire alarm system at Gurney School and the 7-12 Campus.
- Ongoing updates to flooring systems across all campuses
- Acoustical improvements to the cafeteria and gym at Gurney School
- A Preschool Early Learning Facility with a four classroom space was added in the summer of 2023 at the Gurney Campus with a new Preschool Playgorund.
- New playground rubberized surface at the Gurney main school playground
- Renovation of some outdoor learning areas at the 7-12 Campus and Gurney
- Safety and Security facilities improvements through grant funding at all campuses.
- District wide Phone System Project

# **Future Projects**

The 2019-2020 school year allowed the School District to finalize a year-long facilities master planning process where the district engaged our staff and community to cast vision for our facilities and capital projects across the district. The master planning process came to a conclusion in

November 2019 where the Board of Education examined and approved facilities projects for the next five years and looked out beyond those five years for additional facilities needed to enhance our campuses. However, the district has continued the facilities planning process as an ongoing annual aspect of long range planning through our Board Capital Planning Committee that involves board members, school leaders and community members to continue to review ongoing projects and give guidance for upcoming projects.

Annually the district updates the Facilities Improvement Plan. For summer 2024 projects include:

- HVAC Phase 5 Project with a focus on Middle School and High School Campus
- Paving improvements at All Campuses including some parking added to the Gurney School Campus.
- Resurfacing of the Harris Stadium Track
- Additional roofing renovations for planned for the 7-12 Campus
- Varsity Softball Field at 7-12 Campus
- LED Lighting for Classrooms at the Gurney Campus

The Facilities Improvement Plan also examines future projects beyond summer 2024 with dates to be finalized. Those include a renovation and rebuild of the current bus transportation facility. Long-term projects such as a major renovation to the Gurney Elementary School and other major capital planning projects are slated to occur in the next six to ten years as defined in the Facilities Master Plan.

# **Technology and Learning**

The technology department is committed to embracing artificial intelligence (AI) and adopting new generative AI tools to enhance learning experiences. We're exploring the potential of AI to personalize instruction, provide real-time feedback, and create adaptive learning pathways. Additionally, we're investigating the use of generative AI tools to automate tasks, such as creating personalized assessments, generating creative content, and assisting with translation and language learning. By incorporating AI into our educational practices, we aim to empower students to learn in a more personalized, interactive, and engaging manner.

To support our teachers in using technology effectively, we have dedicated technology coach who works closely with educators at all grade levels. She helps teachers integrate technology seamlessly into their lessons, from piloting new ideas to tailoring applications and demonstrating best practices.

In addition to the initiatives mentioned above, the technology department also implemented a new phone system for the district over the summer . The new system is hosted at our ITC which will provide several benefits, including increased flexibility, scalability, and cost savings. The new system included new phones in every building, replacing handsets that were close to 20 years old. The upgraded infrastructure makes it easier and more reliable for staff to connect with each other and for parents to contact their child's teachers and administrators.

Finally, our technology team is working diligently to upgrade our network infrastructure, much of which is nearing or past its end-of-life stage. About half of the infrastructure upgrade has been completed. While our current system is still functioning well, the upgrades will ensure that our new technologies continue to perform at their peak.

# **Economic Conditions and Outlook**

The Chagrin Falls Exempted Village School District area is an affluent residential community encompassing 27.5 square miles. The School District is rich in heritage, while maintaining an "old time" atmosphere with specialty shopping. Approximately 92 percent of the area is residential. Only 8 percent is made up of commercial and public utility property. The School District's total assessed valuation for tax year 2021 was \$629,044,730. The School District's total assessed valuation per pupil is among the highest 6% in the state when compared to other public school districts.

The School District's general area is served by diversified transportation facilities. School District residents have convenient access to four State and United States highways and to two interstate highways. The School District is adjacent to areas served by Conrail and Amtrak, and is served by passenger air service at Cleveland Hopkins International Airport, located in the City of Cleveland within a half-hour's drive of the School District. Public mass transit for the area is provided by the Greater Cleveland Regional Transit Authority.

Within commuting distance are several public and private two-year and four-year colleges and universities, including Case Western Reserve University, Cleveland State University, Cuyahoga Community College, John Carroll University, Kent State University, Ursuline College, Notre Dame College, and the University of Akron, Hiram College and Baldwin Wallace University.

The School District is served by the Chagrin Falls Branch of the Cuyahoga County Library System. Within the School District, there are five municipal parks totaling 8.5 acres. In addition, the South Chagrin Reservation of the Cleveland Metropolitan Park District is located nearby.

The School District's close proximity to the City of Cleveland affords the School District all the cultural, recreational, social and educational opportunities of this metropolitan area. Within the School District itself, a summer recreation center has been operational for decades and a community theater offers entertainment opportunities. Annually on Memorial Day the community gathers for "Blossom Time," a festival including a parade, a race, hot air balloons, a carnival and music concerts.

The funding structure of public education in Ohio is such that school districts receive very little revenue growth as a result of inflationary increases in their tax base. As a result, school districts throughout Ohio must place funding issues on the ballot to receive significant revenue growth. Chagrin Falls Exempted Village School District garners excellent levy support from its constituents. Historically, constituents of the School District have approved operating levies that have been submitted to the voters, in advance of the School District experiencing financial shortcomings. A 3.85 mill operating levy was approved by the voters in November 2020. The School District began collection of this millage in calendar year 2021, the same year that collection

of bond millage was reduced by 3.85 mills, due to debt retirement. These funds are being used to maintain student programming and adequate School District facilities.

# **Financial Information**

# Internal Accounting and Budgetary Control

The School District's accounting system is organized on a "fund" basis. Each fund is a distinct selfbalancing accounting entity. Reports for general governmental operations are presented on the modified accrual basis whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Reports of the School District's proprietary operations are presented on the accrual basis whereby revenues are recognized when earned and expenses when incurred.

In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system for financial reporting and payroll processing. These systems, coupled with the manual auditing of each invoice prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, a permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within three months after the start of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amounts set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the account level. The legal level of control established by the Board of Education is at the fund level for all funds. All purchase order requests must be approved by the building principal and Superintendent and certified by the Treasurer. Necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. In addition to interim financial statements, each administrator and

school principal has access to real-time reports showing the status of the budget accounts for which they are responsible.

The basis of accounting and the various funds utilized by the School District are fully described in Note 2 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 2.

# Financial Condition

The School District has prepared financial statements following GASB Statement 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* since fiscal year 2001. GASB 34 created new basic financial statements for reporting on the School District's financial activities as follows:

*Government-wide financial statements* - These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

**Fund financial statements** - These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

*Statement of budgetary comparisons* - These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this reporting model, management is responsible for preparing a Management Discussion and Analysis of the School District. This discussion provides an assessment of the School District's finances for 2023 and a discussion of current issues that affect the School District's outlook for the future.

# **Independent Audit**

State statutes require the School District to be subjected to an annual audit by an independent auditor. An annual audit serves to maintain and strengthen the School District's accounting and budgetary controls. The independent public accounting firm of Rea & Associates, Inc. rendered an opinion on the School District's financial statements for the year ended June 30, 2023. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all governments in Ohio. The School District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

# Awards

# Certificate of Achievement

The Government Finance Office Association of the United States and Canada (GFOA) as well as the Association of School Business Officials International (ASBO) awarded a Certificate of Achievement for Excellence in Financial Reporting to Chagrin Falls Exempted Village School District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2022. The Certificate of Achievement is the highest form of recognition in the area of governmental financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, whose contents conform to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA and ASBO.

# Acknowledgements

The publication of this report significantly increases the accountability of the School District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office and numerous administrators and employees of the School District. The assistance of ther outside agencies also made possible the fair presentation of statistical data.

Special appreciation is expressed to Rea & Associates, Inc. for their assistance in planning, designing and reviewing this financial report.

Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project.

Respectfully,

1 Varante

Dr. Jennifer Penczarski Superintendent

# FINANCIAL SECTION

#### **INDEPENDENT AUDITOR'S REPORT**

To the Board of Education and Management Chagrin Falls Exempted Village School District Cuyahoga County, Ohio 400 East Washington Street Chagrin Falls, OH 44022

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Chagrin Falls Exempted Village School District, (the "School District") as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis and pension and other post-employment benefit schedules,* as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic

Chagrin Falls Exempted Village School District Independent Auditor's Report Page 3 of 3

financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and other supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual nonmajor fund financial statements and schedules and other supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2023 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering School District's internal control over financial reporting and compliance.

Rea & Associates, Inc.

Rea & Associates, Inc. Medina, Ohio December 27, 2023

The discussion and analysis of the Chagrin Falls Exempted Village School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2023. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the transmittal letter, the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

#### Financial Highlights

Key financial highlights for 2023 are as follows:

- Net position increased \$5.8 million from fiscal year 2022.
- Capital assets increased \$0.7 million during fiscal year 2023.
- During the year, outstanding debt decreased \$1.3 million during the fiscal year.

#### Using this Annual Comprehensive Financial Report

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the Chagrin Falls Exempted Village School District as a whole entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longerterm view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the Chagrin Falls Exempted Village School District, the general fund is by far the most significant fund.

#### Reporting the School District as a Whole

#### Statement of Net Position and the Statement of Activities

While the basic financial statements contain the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2023?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid. These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio which restrict revenue growth, facility conditions, required educational programs, and other factors.

In the Statement of Net Position and the Statement of Activities, Governmental Activities include the School District's programs and services, including instruction, support services, extracurricular activities, and non-instructional services, i.e., food service operations.

#### **Reporting the School District's Most Significant Funds**

#### Fund Financial Statements

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions; however, these fund financial statements focus on the School District's most significant funds. The School District's major governmental fund is the general fund.

*Governmental Funds* Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**Proprietary Fund** The School District maintains one type of proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the School District's various functions. The School District uses an internal service fund to account for its health insurance benefits. Because this service predominately benefits governmental functions, it has been included within the governmental activities in the government-wide financial statements.

#### The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for 2023 compared to 2022:

#### Chagrin Falls Exempted Village School District Cuyahoga County, Ohio

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023

The net pension liability (NPL) is one of the larger liabilities reported by the School District at June 30, 2023, and is reported pursuant to GASB Statement 68, *Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27*. In a prior period, the School District also adopted GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension/OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB asset/liability to equal the School District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these assets/liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. For STRS, the plan's fiduciary net OPEB position was sufficient to cover the plan's total OPEB liability resulting in a net OPEB asset that is allocated to each school based on its proportionate share. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability reported by the retirement boards. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB asset/liability, respectively, not accounted for as deferred inflows/outflows.

Capital assets include land, construction in progress, buildings and improvements, furniture and equipment and vehicles. These capital assets are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net position represents resources that are subject to external restrictions on how they may be used. The balance of government-wide net position is unrestricted.

During the fiscal year, current and other assets increased resulting from the timing differences of grants receivable and decreased expenditures. Current liabilities increased during the fiscal year predominately due to increased contracts payable for various construction projects throughout the School District. Other long-term liabilities and due within one year decreased as a result of principal payments during fiscal year 2023.

There was a significant change in net pension/OPEB liability/asset for the School District. These fluctuations are due to changes in the actuarial liabilities/assets and related accruals that are passed through to the School District's financial statements. All components of pension and OPEB accruals contribute to the fluctuations in deferred outflows/inflows and NPL/NOL/NOA and are described in more detail in their respective notes.

*This space intentionally left blank.* 

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for 2023 and 2022.

| Change  | s in N | et Position     |            |                         |    |             |

# Table 2

Charges for services receipts increased in fiscal year 2023 primarily due to increases from food service operations, while operating grants increased due to increased ESSER grant receipts. Overall, general revenues increased in fiscal year 2023 as a result of increased investment earnings.

Overall, program expenses increased. The changes in program expenses are primarily associated to changes in the School District's proportionate share of the net pension liability, net OPEB liability/asset and related accruals. As previously indicated, these items are explained in detail within their respective notes.

#### **Governmental Funds**

The School District's major funds are accounted for using the modified accrual basis of accounting.

The increase in the general fund's fund balance for fiscal year 2023 can be attributed to increased investment income. This was partially offset by the general fund making transfers out to support other School District funds.

#### General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2023, the School District amended its general fund budget. The School District uses site-based budgeting and budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

#### Original Budget Compared to Final Budget

There was no significant change in final budget revenue from the original budget during the fiscal year. Final appropriations increased slightly over the original appropriations to be more in line with actual expenditures.

#### Final Budget Compared to Actual Results

For the general fund, final budget basis revenue was higher than actual revenues mainly due to property tax revenue not realizing the budgeted amount.

Final expenditure appropriations were higher than actual expenditures, as cost savings were recognized for instruction and student support services throughout the year.

There were no significant variances in other financing sources and uses.

#### Capital Assets and Debt Administration

#### **Capital Assets**

In fiscal year 2023 capital assets increased primarily due to additions for construction in progress for the School District's HVAC improvements and drainage project. See Note 8 for more information about the capital assets of the School District.

#### Debt

Outstanding debt decreased in fiscal year 2023 due to principal retirements. See Note 13 for additional details.

#### **Current Issues**

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a levy will not increase solely as a result of inflation due to Ohio House Bill 920 (passed in 1976). As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35 annually in taxes. If three years later the home was reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners), the effective tax rate would become 0.5 mills, and the owner would still pay \$35.

Thus, school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Local property taxes made up roughly 74 percent of revenues for governmental activities for the School District in fiscal year 2022.

The School District continues to be proactive in managing the financial burden on our local taxpayers. A 3.85 mill operating levy was approved by the voters in November 2020. The School District began collection of this millage in calendar year 2021, the same year that collection of bond millage is being reduced by 3.85 mills, due to debt retirement. These funds will be used to maintain student programming and adequate School District facilities.

From a State funding perspective, the Ohio Supreme Court found the State of Ohio in March 1997 to be operating an unconstitutional education system, one that was neither "adequate" nor "equitable." Since 1997, the State has directed its tax revenue growth toward school districts with little property tax wealth (which is unlike our School District). It is still undetermined whether the State has met the standards of the Ohio Supreme Court. The Governor appointed a Task Force to address the issues raised in the DeRolph Court Case, and recommendations were released in February 2005. The Ohio Legislature continues to review these recommendations and action may be taken in the future.

The School District has not anticipated any meaningful growth in State revenue. The concern is that, to meet the requirements of the Court, the State may require redistribution of State funding based upon each district's property wealth. This could have a significant impact on the School District.

The School District has committed itself to financial excellence for many years. The School District has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Financial Reporting every year since 2000 and the Association of School Business Officials International presented the Certificate of Excellence in Financial Reporting Award to the School District for its Annual Comprehensive Financial Report (ACFR) every year since 2014.

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Treasurer/CFO of Chagrin Falls Exempted Village School District, 400 E. Washington Street, Chagrin Falls, Ohio 44022.

For the Fiscal Year Ended June 30, 2023

| Net Change in Fund Balances - Total Governmental Funds  |                                | \$<br>1,364,413 |
|---|--------------------------------|-----------------|
| Amounts reported for governmental activities in the statement of activities are different because:  |                                |                 |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities,<br>the cost of those assets is allocated over their estimated useful lives as depreciation expense.<br>Capital Asset Additions<br>Current Year Depreciation   | \$<br>3,032,988<br>(2,383,916) | 649,072         |
| Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.  |                                | (1,320)         |
| Revenues in the statement of activities that do not provide current financial resources are not reported<br>as revenues in the funds.<br>Intergovernmental<br>Delinquent Property Taxes   | 1,639,831<br>(235,703)         | 1,404,128       |
| Repayment of principal is an expenditure in the governmental funds, but the repayment reduces<br>long-term liabilities in the statement of net position.<br>General Obligation Bonds<br>Energy Conservation Bonds   | 1,135,000<br>70,000            | 1,205,000       |
| Amortization of bond premium on bonds are not reported in the fund but are allocated as an expense over the life of the debt in the statement of activities.  |                                | 125,283         |
| Contractually required pension/OPEB contributions are reported as expenditures in governmental funds;<br>however, the statement of net position reports these amounts as deferred outflows.<br>Pension<br>OPEB  | <br>2,864,105<br>71,250        | 2,935,355       |
| Except for amount reported as deferred inflows/outflows, changes in the net pension/OPEB liability/asset<br>are reported as pension/OPEB expense in the statement of activities.<br>Pension<br>OPEB   | <br>(3,010,900)<br>641,849     | (2,369,051)     |
| The internal service fund used by management to charge the costs of insurance to individual funds is not reported in the statement of activities. Governmental expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities. |                                | 999,304         |
| Some expenses reported in the statement of activities, do not require the use of current financial resources<br>and, therefore, are not reported as expenditures in governmental funds.<br>Accrued Vacation Leave Payable<br>Compensated Absences   | <br>(56,170)<br>(488,430)      | <br>(544,600)   |
| Change in Net Position of Governmental Activities   |                                | \$<br>5,767,584 |

#### NOTE 1 – DESCRIPTION OF SCHOOL DISTRICT

Chagrin Falls Exempted Village School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as mandated by the State and Federal agencies. Each member is elected to a four year term. The Board of Education controls the School District's four instructional support facilities.

The Chagrin Falls Exempted Village School District is located in both Cuyahoga and Geauga counties in northeastern Ohio. The School District operates one elementary school (pre-school-3), one intermediate school (4-6), one middle school (7-8) and a high school (9-12).

#### **Reporting Entity**

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that financial statements of the School District are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, community education and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. The School District has no component units.

#### Lake Geauga Computer Association

The Lake Geauga Computer Association (LGCA) is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS and other applications to its twenty member school districts. Each of the districts supports LGCA based upon a per pupil charge. The executive committee (governing board) consists of the superintendents and treasurers of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the governing board. LGCA's continued existence is not dependent on the School District's continued participation. Financial information can be obtained from Lake Geauga Computer Association, 8221 Auburn Road, Concord Township, Ohio 44077.

#### **Ohio Schools Council**

The Ohio Schools Council Association (Council) is a jointly governed organization among 198 school districts. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of seven superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. Financial information can be obtained by contacting William Zelei, the Executive Director of the Ohio Schools Council at 6393 Oak Tree Boulevard, Suite 377, Independence, Ohio, 44131.

The School District participates in the Council's electric purchase program which was implemented during fiscal year 1998 and the natural gas program which was implemented during fiscal year 2000.

The electric purchase program allows school districts to purchase electricity at reduced rates, if the school districts will commit to participating for an eight year period. The participants make monthly payments based on estimated usage. Each June these estimated payments are compared to their actual usage for the year and any necessary adjustments are made.

Energy Acquisition Corp., a non-profit corporation with a self-appointing board, issued \$119,140,000 in debt to repurchase eight years of electricity from Cleveland Electric Illuminating (CEI) for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates their agreement, they are required to repay the savings to CEI and CEI will refund the remaining prepayment related to that participant to Energy Acquisition Corp.

The natural gas program allows school districts to purchase natural gas at reduced rates, if the school districts will commit to participating for a twelve year period. The participants make monthly payments based on estimated usage. Each November these estimates are compared to their actual usage for the year and any necessary adjustments are made.

The City of Hamilton, a municipal corporation and political subdivision duly organized and existing under the laws of the State of Ohio, issued \$89,450,000 in debt to purchase twelve years of natural gas from CMS Energy Corporation for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is entitled to recover that amount, if any, of its contributions to the operating fund which are not encumbered for its share of program administrative costs.

#### **Ohio Schools Council Workers' Compensation**

The School District participates in the Ohio Schools Council Workers' Compensation Group Retro Plan (GRP), a public entity risk pool. Each fiscal year, the School District pays an enrollment fee to the GRP to cover the costs of administering the program.

#### **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Following are the most significant of the School District's accounting policies.

#### **Basis of Presentation**

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

*Government-wide Financial Statements* The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limitations. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

*Fund Financial Statements* During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

#### Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

#### **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

*Governmental Funds* Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following is the School District's major governmental fund:

*General Fund* The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the School District account for grants and other resources to which the School District is bound to observe constraints imposed upon the use of the resources.

**Proprietary Funds** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. The School District's only proprietary fund is internal service.

*Internal Service Fund* The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District, or to other governments, on a cost reimbursement basis. The School District's internal service fund accounts for a self-insurance program, which provides medical and prescription drug benefits to employees.

*Fiduciary Funds* Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into the following four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that has certain characteristics. The School District does not have trust funds. Custodial Funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District does not have custodial funds.

#### **Measurement Focus**

*Government-wide Financial Statements* The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position.

*Fund Financial Statements* All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore

include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of this fund are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

#### **Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of the fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

**Deferred Outflows/Inflows of Resources** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of

#### **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

resources are reported on the government-wide statement of net position for pension and OPEB. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 11 and 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension, OPEB, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2023, but which were levied to finance fiscal year 2024 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue may include delinquent property taxes and grants and entitlements. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 11 and 12).

*Expenses/Expenditures* On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the statement of activities as an expense with a like amount reported within the "operating grants, contributions and interest" program revenue account.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### **Budgetary Data**

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during the fiscal year.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original

# **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

#### Cash and Investments

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the balance sheet. Except for nonparticipating investment contracts, investments are reported at fair value.

During fiscal year 2023, the School District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, *Certain External Investment Pools and Pool Participants*. The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For the fiscal year 2023, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board of Education has, by resolution, identified the funds to receive an allocation of interest. Interest revenue credited to the general fund during fiscal year 2023 amounted to \$1,036,837, which includes a deficit of \$372,504 assigned from other School District funds.

Investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as "equity in pooled cash and investments." Investments with an original maturity of more than three months that are not made from the pool are reported as "investments."

#### Capital Assets

General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

|                            | Governmental Activities |
|----------------------------|-------------------------|
| Description                | Estimated Lives         |
| Land                       | N/A                     |
| Construction in Progress   | N/A                     |
| Buildings and Improvements | 10 - 40 Years           |
| Furniture and Equipment    | 5 - 20 Years            |
| Vehicles                   | 10 - 15 Years           |

#### Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the statement of net position.

#### **Compensated Absences**

The School District reports compensated absences in accordance with the provisions of GASB No. 16, *Accounting for Compensated Absences*. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. These amounts are recorded as "accrued vacation leave payable" in the basic financial statements.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

In governmental funds, the liability for unpaid compensated absences is the unused reimbursable leave still outstanding following an employee's resignation or retirement. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid.

# Pensions and Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pension/OPEB, and pension/OPEB expense; information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

#### Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Net pension/OPEB asset/liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits. Long-term loans are recognized as a liability on the governmental fund financial statements when due.

#### Net Position

Net position represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. At June 30, 2023, there was no net position restricted by enabling legislation.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

# Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions,* the School District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The classifications are as follows:

*Nonspendable* – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed or assigned.

*Restricted* – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or is imposed by law through constitutional provisions.

# **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** *Notes to the Basic Financial Statements*

For the Fiscal Year Ended June 30, 2023

*Committed* – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education. The Board of Education has, by resolution, authorized the Treasurer to assign fund balance. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

*Unassigned* – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the School District, these revenues are charges for services for self-insurance programs. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Revenues and expenses not meeting these definitions are reported as nonoperating.

#### Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

#### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## Implementation of New Accounting Principles

For the fiscal year ended June 30, 2023, the School District has implemented GASB Statement No. 91, *Conduit Debt Obligations*, GASB Statement No. 93, paragraphs 13 and 14, *Replacement of Interbank Offered Rates*, GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Available Payment Arrangements*, GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, and certain provisions of GASB Statement No. 99, *Omnibus 2022*.

GASB Statement No. 91 provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The implementation of GASB Statement No. 91 did not have an effect on the financial statements of the School District.

GASB Statement No. 93, paragraphs 13 and 14, provide an exception to the lease modifications guidance in GASB Statement No. 87, as amended, for certain lease contracts that are amended solely to replace an IBOR as the rate upon which variable payments depend. The implementation of GASB Statement No. 93 paragraphs 13 and 14, did not have an effect on the financial statements of the School District.

GASB Statement No. 94 improves financial reporting by establishing the definitions of public-private and public-public partnership arrangements and availability payment arrangements as well as provides uniform guidance on accounting and financial reporting for transactions that meet the definitions. The implementation of GASB Statement No. 94 did not have an effect on the financial statements of the School District.

GASB Statement No. 96 improves financial reporting by establishing a definition for subscription-based information technology arrangements (SBITAs) and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The statement also enhances the relevance and reliability of the financial statements by requiring a government to report a subscription asset and subscription liability for a SBITA and discloses essential information about the arrangement. The note disclosures also allow the users to understand the scale and important aspects of the SBITA activities and evaluate the obligations and assets resulting from the SBITAs. The implementation of GASB Statement No. 96 did not have an effect on the financial statements of the School District.

GASB Statement No. 99 enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The implementation of certain provisions of GASB Statement No. 99 that relate to extension of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, and pledges of future revenues by pledging governments, did not have an effect on the financial statements of the School District.

#### **NOTE 3 – FUND BALANCE**

Fund balance can be classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

|                                  | Other<br>Governmental |                                 |    |                                 |    |                                 |  |
|----------------------------------|-----------------------|---------------------------------|----|---------------------------------|----|---------------------------------|--|
|                                  |                       |                                 |    |                                 |    |                                 |  |
|                                  |                       | General                         |    | Funds                           |    | Total                           |  |
| Restricted for:                  |                       |                                 |    |                                 |    |                                 |  |
| Debt Service                     | \$                    | -                               | \$ | 3,269,699                       | \$ | 3,269,699                       |  |
| Scholarships                     |                       | -                               |    | 187,770                         |    | 187,770                         |  |
| Food Service                     |                       | -                               |    | 107,084                         |    | 107,084                         |  |
| Federally Funded Programs        |                       | -                               |    | 49,574                          |    | 49,574                          |  |

| Unassigned<br>Total Fund Balance | \$                    | <u>20,795,892</u><br>21,347,426 | \$ | <u>(1,394,124)</u><br>7,116,988 | \$ | <u>19,401,768</u><br>28,464,414 |  |
| I otal rund Balance              | <u> </u>              | 21,347,420                      | \$ | 7,110,988                       | \$ | 20,404,414                      |  |

\* The following funds had GAAP deficit balances at June 30, 2023:

|                              | Deficit     |
|------------------------------|-------------|
| Non-Major Governmental Funds |             |
| ESSER                        | \$ 822,825  |
| Title VI-B                   | 475,786     |
| Title III                    | 348         |
| Title I                      | 48,702      |
| Drug Free                    | 17,608      |
| IDEA Preschool Grant         | 3,866       |
| Title VI-R                   | 24,989      |
| Total                        | \$1,394,124 |

The deficits in the nonmajor governmental funds resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and will provide transfers when cash is required, not when accruals occur.

# NOTE 4 – BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual, is presented for the general fund on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 3. Encumbrances are treated as expenditures (budget) rather than as an assignment, commitment or restriction of fund balance (GAAP).
- 4. Some funds are included in the general fund (GAAP), but have separate legally adopted budgets (budget).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement on a fund type basis for the general fund.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### Net Change in Fund Balance

|   | General         |  |  |  |
|---|-----------------|--|--|--|
|   | <br>Fund        |  |  |  |
| GAAP Basis                              | \$<br>1,978,957 |  |  |  |
| Net Adjustment for Revenue Accruals     | (170,452)       |  |  |  |
| Net Adjustment for Expenditure Accruals | (1,094,850)     |  |  |  |
| Funds Budgeted Elsewhere **             | (22,353)        |  |  |  |
| Adjustment for Encumbrances             | <br>(678,548)   |  |  |  |
| Budget Basis                            | \$<br>12,754    |  |  |  |

\*\* As part of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, certain funds that are legally budgeted in separate special revenue funds are considered part of the general funds on a GAAP basis. This includes the public school support fund, the uniform supplies fund and the community education fund.

#### NOTE 5 – DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies are to be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed 180 and 270 days, respectively, from the purchase date in an amount not to exceed forty percent of the interim monies available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

*Cash on Hand* - At June 30, 2023, the School District had \$1,000 in undeposited cash on hand, which is included as part of "Equity in Pooled Cash and Investments."

**Deposits** – At fiscal year-end, \$3,016,708 of the School District's bank balance was exposed to custodial credit risk. Although the securities were held by the pledging financial institutions' trust department in the School District's name and all statutory requirements for the investment of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the FDIC.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

*Custodial Credit Risk:* Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District will not be able to recover deposits or collateral securities that are in possession of an outside party.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by:

- Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured; or
- Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS required the total fair value of the securities pledged to be 102 percent of the deposite being secured or a rate set by the Treasurer of State.

*Investments:* As of June 30, 2023, the School District had the following investments:

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the School District's recurring fair value measurements as of June 30, 2023. The School District's investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. Market indicators and industry and economic events are also monitored which could require the need to acquire further market data (Level 2 inputs).

# **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

**Interest Rate Risk:** The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. The School District's policy indicates that the investments must mature within five years, unless matched to a specific obligation or debt of the School District.

**Credit Risk:** The School District's investments at June 30, 2023 are rated as shown above by S&P Global Ratings. US Treasury Notes are exempt from ratings since they are explicitly guaranteed by a U.S. Government Agency. The School District's policy on Credit Risk allows only for those investments as stated within the Ohio Revised Code.

STAR Ohio is an investment pool operated by the Ohio State Treasurer. It is unclassified since it is not evidenced by securities that exist in physical or book entry form. Ohio law requires STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The weighted average of maturity of the portfolio held by STAR Ohio as of June 30, 2023, is 39 days.

**Concentration of Credit Risk:** The School District places no limit on the amount the School District may invest in any one issuer. More than 50 percent of the School District's investments are in STAR Ohio as listed above. The School District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

#### **NOTE 6 – PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2023 represents collections of calendar year 2022 taxes. Real property taxes received in calendar year 2023 were levied after April 1, 2022, on the assessed value listed as of January 1, 2022, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised fair value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2023 represents collections of calendar year 2022 taxes. Public utility real and tangible personal property taxes received in calendar year 2023 became a lien December 31, 2021, were levied after April 1, 2022 and are collected in 2023 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Cuyahoga and Geauga Counties. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2023, are available to finance fiscal year 2023 operations. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2023, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow of resources.

The assessed values upon which the fiscal year 2023 taxes were collected are:

|   | 2022 Sec<br>Half Collec      |                 | 2023 First<br>Half Collections |                 |  |  |

# **NOTE 7 - RECEIVABLES**

Receivables at June 30, 2023 consisted of taxes, interfund, and intergovernmental. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of Federal funds.

This space intentionally left blank.

#### **NOTE 8 – CAPITAL ASSETS**

Capital asset activity for the fiscal year ended June 30, 2023 was as follows:

|   | Balance<br>6/30/2022 | Additions    | Reductions   | Balance<br>6/30/2023 |
|---|----------------------|--------------|--------------|----------------------|
| Governmental Activities                     |                      |              |              |                      |
| Capital Assets, not being depreciated:      |                      |              |              |                      |
| Land  | \$ 1,386,635         | \$ -         | \$ -         | \$ 1,386,635         |
| Construction in progress                    | 311,281              | 2,065,571    | (354,298)    | 2,022,554            |
| Capital Assets not being depreciated        | 1,697,916            | 2,065,571    | (354,298)    | 3,409,189            |

#### **NOTE 9 – RISK MANAGEMENT**

#### **Property and Liability**

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The School District insures its buildings and their contents through insurance that provides replacement costs for such items. An inventory of all loose equipment is conducted annually.

Appropriate liability insurance is maintained and the School District also has an excess policy. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

A bond is maintained on the Treasurer. Bonds are also provided for the School Board President, and Superintendent.

By State statute, bond is provided by all contractors in amounts sufficient to cover the entire bid amount awarded to the contractor.

#### Worker's Compensation

The School District participates in the Ohio Schools Council Workers' Compensation Group Retro Plan (GRP), a public entity risk pool (Note 1). The intent of the GRP is to achieve the benefit of an overall reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP.

Each participant pays its workers' compensation premium to the State based on their individual experience rate. The Bureau of Workers' Compensation (BWC) will evaluate the total performance of the group annually for three years beginning one year after the end of the program year. If the group performs well, the BWC will issue a refund. If the group has higher claims cost (after the claims and premium are applied to a formula) than the premium paid, the group participants will receive an assessment (for Sheakley groups, that risk is a 10 percent assessment over the 3 years). The School District receives a percentage of that refund relative to the premium contributed to that group. Participation in the GRP is limited to entities that can meet the GRP's selection criteria. The firm of Sheakley UniService provides administrative, cost control and actuarial services to the GRP.

#### **Employee Medical Benefits**

The School District operates and manages employee prescription drug and medical health benefits on a self-insured basis. The School District pays monthly contributions that are placed in a common fund from which eligible claims are paid for employees and their covered dependents. Health insurance coverage is provided through Medical Mutual. The plan includes coverage for preventative services and wellness incentives.

The claims liability is the School District's best estimate based on available information. Changes in claims activity for fiscal years ended June 30, 2023 and 2022 are as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

|      | ]  | Balance  |             |           |          |           | ]    | Balance |
|------|----|----------|-------------|-----------|----------|-----------|------|---------|
|      | В  | eginning |             | Current   |          | Claims    |      | End of  |
|      |    | of Year  | Year Claims |           | Payments |           | Year |         |
| 2022 | \$ | 508,400  | \$          | 2,738,652 | \$       | 2,810,952 | \$   | 436,100 |
| 2023 | \$ | 436,100  | \$          | 2,548,762 | \$       | 2,566,362 | \$   | 418,500 |

#### NOTE 10 – OTHER EMPLOYEE BENEFITS

#### **Compensated Absences**

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn five to twenty days of vacation per year, depending upon length of service and hours worked. Teachers do not earn vacation time. Administrators employed to work 260 days per year can earn up to twenty-five days of vacation annually. Accumulated unused vacation time is paid to classified employees and administrators upon termination of employment.

Teachers, administrators, and non-certified employees earn sick leave at the rate of one and one-fourth days per month. Non-union staff may accumulate sick leave to a maximum of 276 days. Administrative, certified, and non-certified staff may accumulate a maximum of 310 sick days. Upon retirement, OAPSE employees and CFEA employees receive payment for a maximum of 77.5 days. In addition, employees receive one quarter of their unused accumulated personal leave days upon retirement.

#### **Insurance Benefits**

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Aetna, in the amount of \$75,000 for all certified and union exempt employees, and all administrators; \$30,000 for non-certified employees; and two and one-half times the annual salary for the Treasurer. The Board contributes up to \$1,200 annually toward the purchase of term life insurance for the Superintendent.

#### NOTE 11 – DEFINED BEBEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

#### Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represents the School District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

# **Chagrin Falls Exempted Village School District** Cuvahoga County, Ohio Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30. 2023

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension/OPEB* liability (asset) on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the required pension disclosures. See Note 12 for the required OPEB disclosures.

#### Plan Description - School Employees Retirement System (SERS)

Plan Description - School District non-teaching employees participate in SERS, a statewide, cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

|                     | Eligible to                             | Eligible to                                |
|---------------------|---|--|
|                     | Retire on or before                     | Retire after                               |
|                     | August 1, 2017 *                        | August 1, 2017                             |
| Full Benefits       | Any age with 30 years of service credit | Age 67 with 10 years of service credit; or |
|                     |   | Age 57 with 30 years of service credit     |
| Actuarially Reduced | Age 60 with 5 years of service credit   | Age 62 with 10 years of service credit; or |
| Benefits            | Age 55 with 25 years of service credit  | Age 60 with 25 years of service credit     |

\* Members with 25 years of service credit as of August 1, 2017, may be included in this plan.

# **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first 30 years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5 percent COLA for calendar year 2023.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2023, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2023, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District's contractually required contribution to SERS was \$729,079 for fiscal year 2023. Of this amount, \$60,414 is reported as an intergovernmental payable.

#### Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Effective August 1, 2017 – July 1, 2019, any member could retire with reduced benefits who had (1) five years of service credit and age 60; (2) 27 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Effective August 1, 2019 – July 1, 2021, any member may retire with reduced benefits who has (1) five years of service credit and age 60; (2) 28 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Eligibility changes will continue to be phased in until August 1, 2023, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

# Chagrin Falls Exempted Village School District Cuyahoga County, Ohio Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit regardless of age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined plan offers features of both the DB Plan and the DC Plan. In the Combined plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 and after termination of employment.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2023 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For 2023, the full employer contribution was allocated to pension.

The School District's contractually required contribution to STRS was \$2,135,026 for fiscal year 2023. Of this amount, \$404,307 is reported as an intergovernmental payable.

#### Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an independent actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the employer's share of

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

employer contributions in the pension plan relative to the total employer contributions of all participating employers. Following is information related to the proportionate share and pension expense:

|  | <br>SERS        | <br>STRS         | <br>Total        |
|--|-----------------|------------------|------------------|
| Proportion of the Net Pension Liability: |                 |                  |                  |
| Current Measurement Date                 | 0.1339028%      | 0.10906197%      |                  |
| Prior Measurement Date                   | <br>0.1259492%  | <br>0.11190210%  |                  |
| Change in Proportionate Share            | <br>0.0079536%  | <br>-0.00284013% |                  |
| Proportionate Share of the Net           |                 |                  |                  |
| Pension Liability                        | \$<br>7,242,505 | \$<br>24,244,614 | \$<br>31,487,119 |
| Pension Expense                          | \$<br>518,419   | \$<br>2,492,481  | \$<br>3,010,900  |

Other than contributions made subsequent to the measurement date and differences between projected and actual earnings on investments; deferred inflows/outflows of resources are recognized in pension expense beginning in the current period, using a straight line method over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions, determined as of the beginning of the measurement period. Net deferred inflows/outflows of resources pertaining to the differences between projected and actual investment earnings are similarly recognized over a closed five year period.

At June 30, 2023, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | SERS |           | STRS |           | Total |           |
|---|------|-----------|------|-----------|-------|-----------|
| Deferred Outflows of Resources                  |      |           |      |           |       |           |
| Differences between Expected and                |      |           |      |           |       |           |

#### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2022 and June 30, 2021, are presented below:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

|---|
|---|

Mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward two years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward five years and adjusted 103.3 percent for males and set forward three years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five year period ended June 30, 2020.

The long-term return expectation for the investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

|                             | Target     | Long-Term Expected  |
|-----------------------------|------------|---------------------|
| Asset Class                 | Allocation | Real Rate of Return |
| Cash                        | 2.00 %     | (0.45) %            |
| US Equity                   | 24.75      | 5.37                |
| Non-US Equity Developed     | 13.50      | 6.22                |
| Non-US Equity Emerging      | 6.75       | 8.22                |
| Fixed Income/Global Bonds   | 19.00      | 1.20                |
| Private Equity              | 11.00      | 10.05               |
| Real Estate/Real Assets     | 16.00      | 4.87                |
| Multi-Asset Strategies      | 4.00       | 3.39                |
| Private Debt/Private Credit | 3.00       | 5.38                |
| Total                       | 100.00 %   |                     |

**Discount Rate** The total pension liability for 2022 was calculated using the discount rate of 7.00 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed

# **Chagrin Falls Exempted Village School District** Cuvahoga County, Ohio Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30. 2023

investment rate of return (7.00 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the School District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent), or one percentage point higher (8.00 percent) than the current rate.

|                                       | Current |            |     |             |    |            |
|---------------------------------------|---------|------------|-----|-------------|----|------------|

| of the Net Pension Liability          | \$      | 10,660,622 | \$  | 7,242,505   | \$ | 4,362,788  |

#### **Actuarial Assumptions - STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2022, actuarial valuation, are presented below:

| Inflation                         | 2.50 percent  |
|-----------------------------------|---|
| Salary Increases                  | -   |
| Current Measurement Period        | Varies by service from 2.50 percent to 8.50 percent           |
| Prior Measurement Period          | Varies by age from 2.50 percent to 12.50 percent              |
| Payroll Increases                 | 3.00 percent  |
| Investment Rate of Return         | 7.00 percent, net of investment expenses, including inflation |
| Discount Rate of Return           | 7.00 percent  |
| Cost-of-Living Adjustments (COLA) | 0.00 percent effective July 1, 2017                           |

For 2022, post-retirement mortality rates for healthy retirees are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For 2021, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Tables, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

# **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** *Notes to the Basic Financial Statements*

For the Fiscal Year Ended June 30, 2023

Actuarial assumptions used in the June 30, 2022 valuation, were based on the results of the latest available actuarial experience study, which is for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| Asset Class          | Target<br>Allocation* | Long-Term Expected<br>Rate of Return** |
|----------------------|-----------------------|--|
| Domestic Equity      | 26.00 %               | 6.60 %                                 |
| International Equity | 22.00                 | 6.80                                   |
| Alternatives         | 19.00                 | 7.38                                   |
| Fixed Income         | 22.00                 | 1.75                                   |
| Real Estate          | 10.00                 | 5.75                                   |
| Liquidity Reserves   | 1.00                  | 1.00                                   |
| Total                | 100.00 %              |  |

\*Target allocation percentage is effective as of July 1, 2022. Target weights were phased in over a 3-month period concluding on October 1, 2022.

\*\*10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and is net of investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate.** The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2022. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2022.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

|                                       | Current |            |    |              |    |            |
|---------------------------------------|---------|------------|----|--------------|----|------------|
|                                       | 19      | % Decrease | D  | iscount Rate | 1  | % Increase |
| School District's Proportionate Share |         |            |    |              |    |            |
| of the Net Pension Liability          | \$      | 36,624,785 | \$ | 24,244,614   | \$ | 13,774,821 |

# **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

*Changes between the Measurement Date and the Reporting Date* The discount rate was adjusted to 7.00 percent for the June 30, 2022 valuation. Demographic assumptions were changed based on the actuarial experience study for the period July 1, 2015 through June 30, 2021.

## NOTE 12 – DEFINED BENEFIT OPEB PLANS

See Note 11 for a description of the net OPEB liability (asset).

#### Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981 do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2023, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2023, this amount was \$25,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2023, the School District's surcharge obligation was \$71,250, which is reported as an intergovernmental payable. The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The

School District's contractually required contribution to SERS was equal to its surcharge obligation for fiscal year 2023.

#### Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2023, STRS did not allocate any employer contributions to post-employment health care.

# **OPEB** Liability (Asset), **OPEB** Expense, and Deferred Outflows/Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

|   | <br>SERS        | <br>STRS          | <br>Total       |
|---|-----------------|-------------------|-----------------|

Other than contributions made subsequent to the measurement date and differences between projected and actual earnings on investments; deferred inflows/outflows of resources are recognized in OPEB expense beginning in the current period, using a straight-line method over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions, determined as of the beginning of the measurement period. Net deferred inflows/outflows of resources pertaining to the differences between projected and actual investment earnings are similarly recognized over a closed five-year period.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

At June 30, 2023, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | SERS            | STRS            | Total           |
|---|-----------------|-----------------|-----------------|
| Deferred Outflows of Resources                  |                 |                 |                 |
| Differences between Expected and                |                 |                 |                 |

#### **Actuarial Assumptions - SERS**

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions

# **Chagrin Falls Exempted Village School District** Cuvahoga County, Ohio Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30. 2023

about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2022, are presented below:

| Inflation                             | 2.40 percent  |
|---------------------------------------|---|
| Salary Increases, including inflation | 3.25 percent to 13.58 percent   |
| Investment Rate of Return             | 7.00 percent net of investment expense, including inflation             |
| Fiduciary Net Position Depletion      | Projected to be 2044  |
| Municipal Bond Index Rate             |   |
| Measurement Date                      | 3.69 percent  |
| Prior Measurement Date                | 1.92 percent  |
| Single Equivalent Interest Rate       |   |
| Measurement Date                      | 4.08 percent, net of plan investment expense, including price inflation |
| Prior Measurement Date                | 2.27 percent, net of plan investment expense, including price inflation |
| Health Care Cost Trend Rate           |   |
| Medicare                              | 5.125 percent - 4.40 percent  |
| Pre-Medicare                          | 6.750 percent - 4.40 percent  |
| Medical Trend Assumption              | 7.00 percent - 4.40 percent   |

Mortality rates among healthy retirees were based on the PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Mortality rates for contingent survivors were based on PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5 percent for males and adjusted 122.5 percent for females. Mortality rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table.

The most recent experience study was completed for the five year period ended June 30, 2020.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2016 through 2020, and was adopted by the Board in 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2020 five-year experience study, are summarized as follows:

|                             | Target     | Long-Term Expected  |
|-----------------------------|------------|---------------------|
| Asset Class                 | Allocation | Real Rate of Return |
| Cash                        | 2.00 %     | (0.45) %            |
| US Equity                   | 24.75      | 5.37                |
| Non-US Equity Developed     | 13.50      | 6.22                |
| Non-US Equity Emerging      | 6.75       | 8.22                |
| Fixed Income/Global Bonds   | 19.00      | 1.20                |
| Private Equity              | 11.00      | 10.05               |
| Real Estate/Real Assets     | 16.00      | 4.87                |
| Multi-Asset Strategies      | 4.00       | 3.39                |
| Private Debt/Private Credit | 3.00       | 5.38                |
| Total                       | 100.00 %   |                     |

**Discount Rate** The discount rate used to measure the total OPEB liability at June 30, 2022, was 4.08 percent. The discount rate used to measure total OPEB liability prior to June 30, 2022 was 2.27 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the plan at the contribution rate of 1.50 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make all projected future benefit payments of current System members by SERS actuaries. The Municipal Bond Index Rate is used in the determination of the SEIR for both the June 30, 2022 and the June 30, 2021 total OPEB liability. The Municipal Bond Index rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate is 3.69 percent at June 30, 2022 and 1.92 percent at June 30, 2021.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability and what the net OPEB liability would be if it were calculated using a discount rate that is one

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

percentage point lower (3.08 percent) and higher (5.08 percent) than the current discount rate (4.08 percent). Also shown is what the net OPEB liability would be based on health care cost trend rates that are one percentage point lower (6.00 percent decreasing to 3.40 percent) and higher (8.00 percent decreasing to 5.40 percent) than the current rate (7.00 percent decreasing to 4.40 percent).

|   |                           |            |    | Current               |    |             |  |

#### Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2022, actuarial valuation are presented below:

|                            | June 30, 2022  | June 30, 2021  |
|----------------------------|--|--|
| Projected Salary Increases | Varies by service from 2.5 percent<br>to 8.5 percent             | Varies by age from 2.5 percent<br>to 12.50 percent               |
| Investment Rate of Return  | 7.00 percent, net of investment<br>expenses, including inflation | 7.00 percent, net of investment<br>expenses, including inflation |
| Payroll Increases          | 3 percent  | 3 percent  |
| Discount Rate of Return    | 7.00 percent   | 7.00 percent   |
| Health Care Cost Trends    |  |  |
| Medical                    |  |  |
| Pre-Medicare               | 7.50 percent initial   | 5.00 percent initial   |
|                            | 3.94 percent ultimate  | 4 percent ultimate   |
| Medicare                   | -68.78 percent initial   | -16.18 percent initial   |
|                            | 3.94 percent ultimate  | 4 percent ultimate   |
| Prescription Drug          |  |  |
| Pre-Medicare               | 9.00 percent initial   | 6.50 percent initial   |
|                            | 3.94 percent ultimate  | 4 percent ultimate   |
| Medicare                   | -5.47 percent initial  | 29.98 percent initial  |
|                            | 3.94 percent ultimate  | 4 percent ultimate   |

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For 2022, healthy retirees post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

## **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** *Notes to the Basic Financial Statements*

For the Fiscal Year Ended June 30, 2023

For 2021, healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2022, valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| Asset Class          | Target<br>Allocation* | Long-Term Expected<br>Rate of Return** |
|----------------------|-----------------------|--|
| Domestic Equity      | 26.00 %               | 6.60 %                                 |
| 1 5                  | 20.00 /0              | 0.00 /0                                |
| International Equity | 22.00                 | 6.80                                   |
| Alternatives         | 19.00                 | 7.38                                   |
| Fixed Income         | 22.00                 | 1.75                                   |
| Real Estate          | 10.00                 | 5.75                                   |
| Liquidity Reserves   | 1.00                  | 1.00                                   |
| Total                | 100.00 %              |  |

\*Target allocation percentage is effective as of July 1, 2022. Target weights were phased in over a 3-month period concluding on October 1, 2022.

\*\*10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and is net of investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on health care plan investments of 7.00 percent was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2022.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2022, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

#### General Obligation Bonds

#### 2011 Series A Energy Conservation Improvement Bonds

On January 24, 2011, the School District issued \$1,342,983 in general obligation bonds for House Bill 264 improvements at an interest rate of 5.75 percent. The bonds mature in December 2025.

#### 2012 Series 2012 B School Improvement Refunding Bonds

On November 27, 2012, the School District issued \$8,125,000 refunding general obligation bonds. The proceeds of the bonds were used to refund \$8,125,000 of the School District's outstanding School Improvement Bonds, Series 2005. The bonds were issued for an 18 year period with final maturity at December 1, 2030. At the date of the refunding, \$8,906,587 (including premium and after underwriting fees) was deposited in an irrevocable trust to provide for all future payments on the refunded bonds. At June 30, 2023, \$4,815,000 of the defeased debt is outstanding.

These refunding bonds were issued with a premium of \$947,730, which is reported as an increase to bonds payable. The amounts are being amortized to interest expense over the life of the bonds using the straight line method. The issuance costs were reported as an expenditure. The issuance resulted in a difference between the cash flows required to service the old debt and the cash flows required to service the new debt of \$1,608,507. The issuance resulted in an economic gain of \$1,138,154.

This bond issue consists of \$7,910,000 in serial bonds and \$215,000 in capital appreciation bonds. The serial bonds were issued at an interest rate of 2.30 percent. The bonds maturing on or after December 1, 2023 are subject to early redemption by the School District prior to their stated maturity, in whole or in part, as selected by the School District (in whole multiples of \$5,000) on any date on or after December 1, 2022, at par.

The capital appreciation bonds matured on December 1, 2017 and December 1, 2018. These bonds were purchased at a substantial discount at the time of issuance. At maturity all compounded interest is paid and the bond holder receives the face value of the bond. As the value of the bond increases, the accretion was reflected as principal liability.

#### 2017 School Improvement Bonds

On August 22, 2017 the School District issued \$31,500,000 in School Improvement Bonds for renovations, construction and improvements to the buildings and real estate. The bonds were issued for a 30 year period maturing December 1, 2047. This bond issue consists of \$20,200,000 in serial bonds and \$11,300,000 in term bonds. The serial bonds were issued at interest rates varying from 2.00 to 5.00 percent.

The Bonds maturing on or after December 1, 2027 are subject to prior redemption, by and at the sole option of the School District, in whole or in part as selected by the School District (in whole multiples of \$5,000), on any date on or after June 1, 2027, at a redemption price equal to 100 percent of the principal amount redeemed, plus interest accrued to the redemption date.

## **Chagrin Falls Exempted Village School District Cuyahoga County, Ohio** Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

The Bonds maturing on December 1, 2042 and December 1, 2047 are subject to mandatory sinking fund redemption at a redemption price equal to 100 percent of the principal amount redeemed, plus interest accrued to the redemption date.

All general obligation bonds listed are direct obligations of the School District for which its full faith, credit and resources are pledged and are payable from the bond retirement fund.

#### **Direct Placement**

2011 Series B-2 Energy Conservation Improvement Bonds

On January 24, 2011, the School District issued \$544,521 in Qualified School Construction Bonds for the purpose of energy conservation improvements to School District buildings.

The Direct Placement Qualified School Construction Bonds were issued as term bonds and are subject to mandatory redemption at an interest rate of 4.85 percent with a final payment to be made on December 1, 2025.

The Qualified School Construction Bonds is a direct obligation of the School District for which its full faith, credit and resources are pledged and is payable from the bond retirement fund. The bond purchase agreement does not pledge any assets as collateral, any default related financial consequences, accelerated clauses or finance-related consequences for termination events.

General obligation bonds and energy conservation bonds will be paid from the bond retirement fund. Compensated absences will be paid from the general fund and the food service fund. There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the general fund. For additional information related to the net pension liability and net OPEB liability and net OPEB liability see Notes 11 and 12.

Principal and interest requirements to retire bonds outstanding at June 30, 2023 are as follows:

#### **NOTE 14 - CONTINGENCIES**

#### Grants

The School District received financial assistance from Federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2023, if applicable, cannot be determined at this time.

#### Litigation

The School District is not party to any claims or lawsuits that would, in the School District's opinion, have a material effect of the basic financial statements.

#### School Foundation

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, ODE adjustments for fiscal year 2023 are finalized.

#### **NOTE 15 - INTERFUND TRANSACTIONS**

#### Advances

On June 30, 2023, the School District had the following advances:

| Fund  | <br>Advance<br>In | Advance<br>Out |           |  |  |
|---|-------------------|----------------|-----------|--|--|
| General Fund<br>Nonmajor Governmental Funds | \$<br>1,639,500   | \$             | 1,639,500 |  |  |
| Total                                       | \$<br>1,639,500   | \$             | 1,639,500 |  |  |

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30, 2023. The outstanding advances are expected to be repaid once the anticipated revenues are received.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### Interfund Transfers

| ,<br>,                                      | <br>Transfer<br>In | Transfer<br>Out |           |  |  |
|---|--------------------|-----------------|-----------|--|--|
| General Fund<br>Nonmajor Governmental Funds | \$<br>- 1,949,700  | \$              | 1,949,700 |  |  |
| Total                                       | \$<br>1,949,700    | \$              | 1,949,700 |  |  |

During the fiscal year, the General Fund transferred unrestricted balances to support programs and projects accounted for in other funds.

#### **NOTE 16 - SET-ASIDES**

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for acquisition and construction of capital improvements. Amounts not spent by year-end, or offset by similarly restricted resources received during the year, must be held in cash at yearend and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year end set-aside amounts for capital improvement. Disclosure of this information is required by State statute.

|   | Capital     |           |
|---|-------------|-----------|
|   | Improvement |           |
|   | Reserve     |           |

| Current Year Set-Aside Requirement          |             | 369,417   |
| Current Year Offsets                        |             | (944,092) |
| Total                                       |             | (574,675) |
| Balance Carried Forward to Fiscal Year 2024 | \$          | _         |
| Set Aside Balance June 30, 2023             | \$          | -         |

Although the School District had current year offsets during the fiscal year that reduced the set-aside amount to below zero, this amount may not be used to reduce the set aside requirement for future years. The negative balance is, therefore, not presented as being carried forward to future years.

#### **NOTE 17 – COMMITMENTS**

#### Encumbrances

The School District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At fiscal year end, the School District's commitments for encumbrances in the governmental funds were as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

| Fund                             | Amount                  |
|----------------------------------|-------------------------|
| General<br>Nonmajor Governmental | \$ 452,628<br>2,887,462 |
| 5                                | \$ 3,340,090            |

#### **Contractual Commitments**

The School District had outstanding contractual commitments for renovations and improvements as follows:

|                      | -  | Contractual | Expenses<br>Incurred |          | Balance<br>//30/2023 |
|----------------------|----|-------------|----------------------|----------|----------------------|
| Ohio paving          | \$ | 41,000      | \$                   | -        | \$<br>41,000         |
| S.A. Comunale        |    | 1,629,149   |                      | 851,560  | 777,589              |
| Building Technicians |    | 115,600     |                      | -        | 115,600              |
| EMOD                 |    | 650,000     |                      | 273,886  | <br>376,114          |
|                      | \$ | 2,435,749   | \$ 1                 | ,125,446 | \$<br>1,310,303      |

Based on timing of when contracts are encumbered, the contractual commitment identified above may or may not be included in the outstanding encumbrance commitments previously disclosed in this note.

Cuyahoga County, Ohio

## NOTE 1 - NET PENSION LIABILITY

There were no changes in assumptions or benefit terms for the fiscal years reported unless otherwise stated below:

### Changes in Assumptions - SERS

For fiscal year 2022, the SERS Board adopted the following assumption changes:

- Assumed rate of inflation was reduced from 3.00 percent to 2.40 percent
- Payroll growth assumption was reduced from 3.50 percent to 1.75 percent
- Assumed real wage growth was reduced from 0.50 percent to 0.85 percent
- Discount rate was reduced from 7.50 percent to 7.00 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members, service retirees and beneficiaries, and disabled members were updated.

For fiscal year 2017, the SERS Board adopted the following assumption changes:

- Assumed rate of inflation was reduced from 3.25 percent to 3.00 percent
- Payroll Growth Assumption was reduced from 4.00 percent to 3.50 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.50 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.
- Mortality among service retired members, and beneficiaries was updated to RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates.
- Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

### **Changes in Benefit Terms - SERS**

For fiscal year 2022, cost-of-living adjustments were increased from 2.00 percent to 2.50 percent.

For fiscal year 2021, cost-of-living adjustments were reduced from 2.50 percent to 2.00 percent.

For fiscal year 2018, the cost-of-living adjustment was changed from a fixed 3.00 percent to a cost-of-living adjustment that is indexed to CPI-W not greater than 2.50 percent with a floor of zero percent beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendar years 2018, 2019 and 2020.

### Changes in Assumptions – STRS

For fiscal year 2022, the Retirement Board approved several changes to the actuarial assumptions. The salary increases were where changed from 12.50 percent at age 20 to 2.50 percent at age 65 to varying by service from 2.50 percent to 8.50 percent. The healthy and disabled mortality assumptions were updated to the Pub-2010 mortality tables with generational improvement scale MP-2020.

For fiscal year 2021, the long term expected rate of return was reduced from 7.45 percent to 7.00 percent.

For fiscal year 2018, the Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75 percent to 7.45 percent, the inflation assumption was lowered from 2.75 percent to 2.50 percent, the payroll growth assumption was lowered to 3.00 percent, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25 percent due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

### Changes in Benefit Terms - STRS

For fiscal year 2018, the cost-of-living adjustment (COLA) was reduced to zero.

### NOTE 2 - NET OPEB LIABILITY (ASSET)

### Changes in Assumptions – SERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented as follows:

Municipal Bond Index Rate:

| Fiscal year 2023 | 3.69 percent |
|------------------|--------------|
| Fiscal year 2022 | 1.92 percent |
| Fiscal year 2021 | 2.45 percent |
| Fiscal year 2020 | 3.13 percent |
| Fiscal year 2019 | 3.62 percent |
| Fiscal year 2018 | 3.56 percent |
| Fiscal year 2017 | 2.92 percent |

Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

| Fiscal year 2023 | 4.08 percent |
|------------------|--------------|
| Fiscal year 2022 | 2.27 percent |
| Fiscal year 2021 | 2.63 percent |
| Fiscal year 2020 | 3.22 percent |
| Fiscal year 2019 | 3.70 percent |
| Fiscal year 2018 | 3.63 percent |
| Fiscal year 2017 | 2.98 percent |
|                  |              |

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2023

### Pre-Medicare Trend Assumption

| Fiscal year 2023 | 6.75 percent initially, decreasing to 4.40 percent |
|------------------|--|
| Fiscal year 2022 | 6.75 percent initially, decreasing to 4.40 percent |
| Fiscal year 2021 | 7.00 percent initially, decreasing to 4.75 percent |
| Fiscal year 2020 | 7.00 percent initially, decreasing to 4.75 percent |
| Fiscal year 2019 | 7.25 percent initially, decreasing to 4.75 percent |
| Fiscal year 2018 | 7.50 percent initially, decreasing to 4.00 percent |

### Medicare Trend Assumption

| Fiscal year 2023 | 7.00 percent initially, decreasing to 4.40 percent  |
|------------------|---|
| Fiscal year 2022 | 5.125 percent initially, decreasing to 4.40 percent |
| Fiscal year 2021 | 5.25 percent initially, decreasing to 4.75 percent  |
| Fiscal year 2020 | 5.25 percent initially, decreasing to 4.75 percent  |
| Fiscal year 2019 | 5.375 percent initially, decreasing to 4.75 percent |
| Fiscal year 2018 | 5.50 percent initially, decreasing to 5.00 percent  |

### **Changes in Benefit Terms - SERS**

There have been no changes to the benefit provisions.

### Changes in Assumptions – STRS

For fiscal year 2022, the healthy and disabled mortality assumptions were updated to the RPub-2010 mortality tables with generational improvement scale MP-2020. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

For fiscal year 2022, the following changes were made to the actuarial assumptions:

- Projected salary increases from 3.25 to 10.75 percent, including wage inflation to varying by service from 2.50 to 8.50 percent
- Medicare medical health care cost trends from -16.18 percent initial to -68.78 percent initial and 4.00 percent ultimate to 3.94 percent ultimate
- Medicare prescription drug health care cost trends from 29.98 percent initial to -5.47 percent initial and 4.00 percent ultimate to 3.94 percent ultimate

For fiscal year 2021, valuation year per capita health care costs were updated. Health care cost trend rates ranged from -5.20 percent to 9.60 percent initially for fiscal year 2020 and changed for fiscal year 2021 to a range of -6.69 percent to 11.87 percent, initially.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45 percent. Valuation year per capita health care costs were updated. Health care cost trend rates ranged from 6.00 percent to 11 percent initially and a 4.50 percent ultimate rate for fiscal year 2018 and changed for fiscal year 2019 to a range of -5.20 percent to 9.60 percent, initially and a 4.00 ultimate rate.

For fiscal year 2018, the blended discount rate was increased from 3.26 percent to 4.13 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees

and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

### Changes in Benefit Terms – STRS

For fiscal year 2021, there were no changes to the claims costs process. Claim curves were updated to reflect the projected fiscal year 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to .1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. This was subsequently extended, see above paragraph.

Combining Statements for Nonmajor Governmental Funds and Individual Fund Schedules for Governmental Funds

Combining Statement – Nonmajor Funds

# Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific sources (other than amounts relating to expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. With the implementation of GASB No. 54, the public school support, uniform school supplies and community education special revenue funds have been classified with the general fund for GAAP reporting purposes. However, these funds have their own legally adopted budgets. As a result, an Individual Fund Schedules of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual have been presented for these funds. The title of each special revenue fund is descriptive of the activities accounted for therein. The special revenue funds are:

*Food Service Fund* – This fund accounts for financial activity related to the food service operations of the School District.

*Scholarship Fund* – This fund accounts for and reports restricted monies received to provide scholarships for students.

*Miscellaneous Grants Fund* – This fund accounts for specific grant monies, except for State and Federal grants that are legally restricted to expenditures for specified purposes.

*Student Activities Fund* – This fund accounts for and reports resources restricted to the student bodies of the various schools, accounting for sales and other revenue generating activities for which the School District has administrative involvement.

*Athletics Fund* – This fund accounts for gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the School District's athletic program and transportation of the band to and from athletic events.

*Auxiliary Services Fund* – This fund accounts for funds which provide services and materials to pupils attending non-public schools within the School District.

*Data Communications Fund* – This fund accounts for monies appropriated for Ohio Educational Computer Network Connections.

*Student Wellness and Success Fund*– A fund used to account for state funds used to assist districts in supporting their students' academic achievement through mental health counseling, wraparound services, mentoring and after-school programs.

*Miscellaneous State Grants Fund* – This fund accounts for State monies to be used to implement early literacy and reading interventions to improve and enhance reading development and prepare them to read at grade level by the end of grade 3.

**ESSER Fund** - This fund accounts for monies received through the Coronavirus Aid, Relief, and Economic Security (CARES) Act and Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) which provide relief grants to school districts related to the COVID-19 pandemic. Expenditures include, but are not limited to, preparedness and response, training of staff, and purchasing technology.

Combining Statement – Nonmajor Funds

# Nonmajor Special Revenue Funds (continued)

*Title VI-B Fund* – This fund accounts for Federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

*Title III Fund* – This fund accounts for monies to develop and carry out elementary and secondary school programs including activities to meet the needs of children with limited English proficiency.

*Title I Fund* – This fund accounts for Federal monies which support the State and Local agencies to meet the special needs of educationally deprived children.

*Drug Free Fund* – This fund accounts for Federal monies which support the prevention of youth substance abuse.

*Preschool Handicapped Fund* – This fund accounts for improvement and expansion of services for handicapped children ages three through five.

*Title II-A Fund* – This fund is used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

*Miscellaneous Federal Grants Fund* – This fund is used to account for monies received through State agencies from the Federal government or directly from the Federal government which are not classified elsewhere.

*Public School Support Fund* – This fund accounts for school site sales revenue and expenditures for field trips, assemblies and other activity costs.

*Uniform School Supplies Fund* – This fund accounts for financial activity related to the purchase and sale of school supplies as adopted by the Board of Education for use within the School District.

*Community Education Fund* – This fund accounts for financial activity in connection with adult education classes.

*TIGER Perk Fund* – This fund accounts for financial activity in connection with the student operated coffee shop.

*Combining Statement – Nonmajor Funds* 

# Nonmajor Capital Project Funds

Capital projects funds account for the acquisition, construction or improvement of capital facilities other than those financed by proprietary funds.

**Permanent Improvement Fund** - The permanent improvement capital projects fund accounts for all transactions related to the acquiring, constructing or improving facilities.

**Bus Garage Fund** – The bus garage capital projects fund accumulates resources for the construction of a bus garage.

# **Debt Service Fund**

Debt Service funds are established to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest and to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

**Bond Retirement Fund-** To account for the resources that are used for payment of principal and interest and fiscal charges on debt.

Supplemental Schedules Entity-Wide Accrual Schedules Reporting with GASB 68 and GASB 75 and without GASB 68 and GASB 75 The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2023, and is reported pursuant to GASB Statement 68, *Accounting and Financial Reporting for Pensions— an Amendment of GASB Statement 27.* In a prior period, the School District also adopted GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension/OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB asset/liability to equal the School District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2 Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these assets/liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. For STRS, the plan's fiduciary net OPEB position was sufficient to cover the plan's total OPEB liability resulting in a net OPEB asset for fiscal year 2023 that is allocated to each school based on its proportionate share. The retirement system is responsible for the administration of the pension and OPEB plans. Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability reported by the retirement boards. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB asset/liability, respectively, not accounted for as deferred inflows/outflows.

The following schedules are summarized accrual basis financial statements for the fiscal year ending June 30, 2023, that report the financial statements including the impact of GASB 68 and GASB 75 and excluding the impact of GASB 68 and GASB 75.

#### Cuyahoga County, Ohio

Source: Cuyahoga and Geauga County Auditors.

Data is presented on a calendar year basis because that is the manner in which the information is maintained by the County Auditors.

- Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental Revenue.
- (2) Represents collection year. 2022 information cannot be presented because all collections have not been made by June 30.
- Note: Cuyahoga and Geauga County collect property taxes on a calendar year basis, therefore, the above data has been presented on a calendar year basis. The counties do not identify delinquent collections by the year for which the tax was levied. Thus the "total collection" represents the total collections for the year instead of total collections of a particular tax year. As a result, "Percent of total tax collections to total levy" can exceed 100% in any particular year. The School District will continue to work with the County to try to obtain this information.

\* During fiscal year 2019, the Chagrin Falls Intermediate School building was undergoing major renovation and construction. Classrooms in this building were not in use during the year. Chagrin Falls Intermediate school students attended classes in modular buildings placed on the Chagrin Falls High School campus. The modular buildings contained 27 regular instruction classrooms. In addition, Chagrin Falls Intermediate school students attended some special classes (music, art, band, etc.) in the Chagrin Falls Middle School.
