Board of Education Centerville City School District 111 Virginia Avenue Centerville, Ohio 45458

We have reviewed the *Independent Auditor's Report* of Centerville City School District, Montgomery County, prepared by Julian & Grube, Inc., for the audit period July 1, 2023 through June 30, 2024. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them. In conjunction with the work performed by the Independent Public Accountant, the Auditor of State is issuing the following:

# Finding for Recovery Repaid Under Audit

Centerville City School District's 2023-2024 Salary Schedules state that all administrative employees receive 6.5% of the employee portion of pension withholdings picked up and paid by the Board of Education. However, Assistant Superintendent Daniel Tarpey received full pick up on pick up of his employee portion of State Teachers Retirement System (STRS) pension withholdings without evidence of Board approval. As a result, the District paid \$13,826.25 in STRS remittances on behalf of Daniel Tarpey that should have been paid by himself through the payroll process during fiscal year 2024.

In accordance with the foregoing facts and pursuant to Ohio Rev. Code § 117.28, a Finding for Recovery for public monies illegally expended is hereby issued against Daniel Tarpey, and in favor of the Centerville City School District, in the amount of \$13,826.25 to the General Fund.

On December 16, 2024, the Board approved the payment of the Assistant Superintendent's full pick up on pick up of employee portion of STRS pension withholdings via a retroactive resolution #2024-208. Since a retroactive resolution was approved for the finding amount, the Finding for Recovery is considered to be repaid under audit.

Additionally, the Auditor of State is conducting an investigation, which is on-going as of the date of this report. Dependent on the outcome of the investigation, results may be reported on at a later date.

Board of Education Centerville City School District 111 Virginia Avenue Centerville, Ohio 45458 Page -2-

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Centerville City School District is responsible for compliance with these laws and regulations.

KEITH FABER Ohio Auditor of State

Tiffany L Ridenbaugh, CPA, CFE, CGFM Chief Deputy Auditor

December 13, 2024

To the Citizens and the Board of Education of the Centerville City School District:

We are pleased to present the Annual Comprehensive Financial Report of the Centerville City School District (District) for the fiscal year ended June 30, 2024. This report represents the commitment of the District to adhere to nationally recognized standards of excellence in financial reporting.

The report contains financial statements, supplemental statements, and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the District. Responsibility for the accuracy, completeness, and fairness of this report rests with the District and more specifically, the Office of the Treasurer. To the best of our knowledge and belief, this report and the enclosed data are accurate in all material aspects. Our report is designed to present fairly the financial position, results of operation, and budgetary comparisons of the District. This report is prepared in conformance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative services and is representative of the District's continuing commitment to provide meaningful financial information to the citizens of the District.

Management is required to provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report within the financial section.

This report will be available on the District website: <a href="www.centerville.k12.oh.us/departments/treasurer">www.centerville.k12.oh.us/departments/treasurer</a>

# **DISTRICT PROFILE**

The District serves an area of 32 square miles in the southeastern part of Montgomery County, Ohio, encompassing the City of Centerville and Washington Township. The area is located approximately 8 miles south of the City of Dayton and 46 miles north of the City of Cincinnati on U.S. Interstate 675. U.S. Interstate 75 and U.S. Interstate 70 are 3 miles and 15 miles, respectively, from the area. With these major thoroughfares, Centerville and Washington Township provide a desirable location for many families who work in the Dayton and Cincinnati metropolitan areas.

The current charter as the District was adopted in 1969; yet, the first formal education in Washington Township was offered in 1803 to children from first to sixth grades. Additional higher education grades were added in 1848, with the first high school being built in 1885. Today, the District provides opportunities for its students to excel in academic, co-curricular, and community based activities.

Centerville's Primary Village North and Primary Village South serve students in preschool, kindergarten, and first grade. Each school offers an environment where the curriculum is achieved through learner-centered classrooms responsive to the needs of the child at each stage of development, with a rich blend of academics and arts.

The District has six elementary schools housing grades 2-5. Students are taught reading, language, science, social studies, math, and health by the classroom teacher, with art, music, and physical education taught by specialists. Teachers work in grade-level teams, and there are regular grade-level team meetings for horizontal coordination and 2-5 subject area meetings for vertical subject coordination.

The District's three middle schools house students in grades 6-8. Each middle school is divided into family teams made up of a teacher in each of the core academic areas. This "school within a school" concept is designed to provide students the ability to change classes for each academic area while having closer personal contact with their "family" teachers as students spend all three years with the same family of students and teachers. Students also receive instruction in art, music, health, and physical education, and can take German, French, or Spanish for all three years.

Centerville High School features a comprehensive four-year program that stresses academic excellence and physical and social development. Courses are offered in the fine and applied arts, business, career education, tech-prep, and across all academic areas. All disciplines are departmentalized. The High School is also organized utilizing a small school concept to capitalize on the advantages of both a large and a small school. As a large school, the High School provides opportunities for staff specialization, a diverse curriculum, and well-equipped facilities. As a small school, the High School has a climate that offers personal attention where effective enrichment opportunities are common practice.

With combined efforts of home and community, the mission of the High School is to graduate responsible and motivated citizens prepared for post-high school education and careers. An emphasis on academic excellence and a caring environment fosters the development of graduates who have the ability to become life-long learners capable of meeting the challenges of a changing world. Students learn competencies in basic skills, effective communication skills, analytical thinking and problem solving skills, and positive attitudes toward self and others.

# ECONOMIC CONDITION AND OUTLOOK

# **Community**

The estimated population (2020 U.S. Census data) of this area is 61,684 residents as Centerville (24,240)-Washington Township (37,444) is primarily a residential area. Both Centerville and Washington Township attract white-collar professionals, particularly doctors and managers. The Community (City of Centerville and Washington Township) has grown rapidly over the past twenty years and, given its attractiveness as the residence and business location of choice in the region, it will continue to grow well into the next several decades.

The Centerville area continues to see growth in real estate and business development. Built on a diversified base of small businesses, Centerville continues to be well positioned and appears to be on a solid economic path.

# District

Every year academic and co-curricular highlights are included in a Quality Profile for the community and includes state and national recognition, student achievements, and community contributions. Centerville staff and students excel in an extraordinary array of activities, including the following sampling.

# Academic Achievements

- Centerville Schools was one of only 68 school districts to earn an overall rating of 5 stars on the 2023-24 Ohio School Report Card the highest possible mark school districts can receive.
- *U.S. News and World Report* ranked Centerville High School in the top 6% of high schools in Ohio and the top 10% in the nation.
- 27 seniors were recognized during the National Merit Recipient Assembly, including 10 Semifinalists and 17 Commended Scholars.
- Over the past five years, CHS has seen a 28% increase in the number of students enrolled in AP courses and a 32% increase in the number of AP exams administered.
- CHS students out-performed state and national averages on both the ACT and SAT.
- 52% of Ohio's State Tests taken by our students resulted in Accomplished, Advanced, or Advanced Plus scores.
- All of Centerville's state identified subgroups exceeded performance goals for Ohio's State Tests in English language arts and math.
- 28% of students in grades 2-12 were identified as gifted.
- 38% of the Class of 2024 graduated with a GPA of 4.0 or better, and 245 seniors received an Honors Diploma.

# Arts Achievements

- Centerville Schools were honored for the fifth time with the Best Communities for Music Education designation from The NAMM Foundation for outstanding commitment to music education.
- 33 seniors were recognized during the sixth annual CHS Arts Signing for planning to pursue a creative, arts-based area of study after high school.
- CHS Theatre productions and individual students earned 30 awards in the Miami Valley High School Theatre Awards program, including the top distinction, "Outstanding Overall Production," for all 3 productions.
  - 204 students from all grade levels participated on 31 Destination Imagination teams, with 17 teams advancing to the state competition and 10 qualifying for the 2024 Global Finals tournament.

# Athletic Achievements

- The Coeds Varsity Dance Team earned the OASSA State Championship in Large Varsity Hip Hop, and junior Ann Lehmann was pole vault champion at the state indoor track and field tournament.
- The boys basketball team was state runner-up, and the gymnastics team placed 10th in the state.
- Individuals from 10 other athletic teams made competed in their respective state tournaments.
- 316 juniors and seniors earned Scholar-Athlete status by earning a varsity letter and maintaining a 3.2 GPA, and 35 students will continue their athletic careers after high school.

# Staff Achievements and Recognitions

- Kim Boehm, a science teacher at Centerville High School, was named the district's 2024 Teacher of the Year.
- Kathryn Guirnalda, nature specialist at Primary Village North, Steve Huff, fourth grade teacher at Stingley Elementary, and Tracy Kuehn, fourth grade teacher at Driscoll Elementary, were all recognized by Five Rivers MetroParks for engaging students with the outdoors.
- 75% of teachers hold at least a master's degree, and they average 16 years of experience.
- Centerville Education Foundation awarded \$10,500 in grants to classroom teachers and recognized 16 educators, alumni and students during their annual Hall of Fame dinner.

# Community Service Achievements

- Centerville High School students raised \$86,867 for two local charities during their annual Spirit Chain competition with Fairmont High School.
- 170 families with 393 children from our community received food baskets and gifts during our annual Adopt-a-Family program a 34% increase in the number of families served from the previous year.
- 199 parents and 58 community members served as Academic Volunteers, logging 6,899 service hours and supporting 4,611 students.
- The district partnered with the nonprofit Centerville Safe to offer 5 community safety presentations.

Many more Centerville students and staff achieved levels of success we can celebrate. It is evident our students continue to pay a high return on your investment in their education. For them, we thank you for your continued support.

# **Major Initiatives**

The mission of the District, is to empower, challenge, and support every learner to grow every day. Leading into the 2022-23 school year, the District implemented a new Strategic Plan, with five focus areas targeting Teaching & Learning, Leading & Innovating, Diversifying & Including, Communicating & Understanding, and Resourcing & Supporting. As part of that plan, a group of teachers, students, parents,

administrators, and community members collaborated to develop the Portrait of an Elk, highlighting five important skills all students should develop during their time in Centerville Schools.

# FINANCIAL INFORMATION

# **District Organization and Reporting Entity**

The operations of the District are managed by the Board of Education (Board) that is made up of five citizens who are elected by voters to serve four-year terms. The Board is a body politic and corporate as defined by Ohio Revised Code Section 3313.02, and derives its authority from federal and state law. The Board's major function is to develop operating policies that will best service the needs of the students. In addition, the Board acts as the taxing authority, contracting body, the approver of the annual appropriation resolution, as well as ensuring that all other general laws of the State of Ohio are followed in the expenditure of the District's tax dollars. The Board employs the Superintendent to execute policies and provide leadership to the staff. The Board also employs the Treasurer to act as Chief Financial Officer to maintain financial records and invest funds of the District as specified by Ohio law.

The various funds of the District are used to account for the District's governmental assets, liabilities, fund balances, and results of operations (or revenues over/(under) expenditures) for those activities. In addition to the aforementioned services and general activities, the District acts as fiscal agent for State funds distributed to private schools located within the District's boundaries. This activity is included in the reporting entity as a special revenue fund due to the District's involvement in the distribution of funds. The parochial/private schools served are Church of the Incarnation and Spring Valley Academy. Although these organizations share operational and service similarity with the District, each is a separate and distinct entity. Because of their independent nature, none of these organizations' financial statements are included in this report.

# Government-wide Financial Statements

These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the District that are governmental in nature and those that are considered business-type activities in nature. The District did not have any business-type activities during fiscal year 2024.

# **Fund Financial Statements**

These statements present information for individual major funds rather than by fund type. Funds, which are not classified as major funds are presented in one column, titled "Other Governmental Funds". Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements.

# Schedule of Budgetary Comparisons

These schedules present comparison of actual information to both the original and final amended budgets legally adopted by the District for the General Fund and any major special revenue funds. The District has no major special revenue funds. The budgetary basis, as provided by Ohio Law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

# Internal Accounting and Budgetary Control

Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation. The management of the District is responsible for establishing and maintaining an internal control environment that provides reasonable assurance the District's financial statements are reliable, the District complied with applicable laws and regulations and the District is operating effectively and efficiently.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

The District maintains its accounts and accounting records to facilitate budgetary control as outlined by Ohio Revised Code. Before October 1<sup>st</sup> of each fiscal year the Board adopts its annual appropriation measure. These appropriations may be amended as needed by Board action. Annual appropriations and any amendments may not exceed the County Budget Commissions official estimate of resources. The County Auditor must certify that the Board's appropriation measures do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level. All purchase order requests must be approved by the building principal, department supervisor, or appropriate central office director and must be certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriations are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail month and year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Each administrator and school principal has access to view the status of the budget accounts for which they are responsible. Additional information on the District's budgetary accounts can also be found in notes to the required supplementary information.

# **Current Financial Events**

In Spring 2023, the Board of Education and district administration decided to move forward with the next operating levy that would allow the district to maintain current educational program and continue the implementation of the district's strategic plan. The first two requests (November 2023 and March 2024) were rejected by the voters. In November 2024, the community approved a 3.9 mill continuing levy for operations that will generate \$11.2 million per year for the district's ongoing operating expenses. All of the district's tax levies are continuing revenue sources except the renewal that was passed on May 3, 2022 that generates \$9.55 million per year. This renewal secures this funding through 2033.

Supply chain delays and inflation are putting added pressure on the District's budget while costs for school safety needs, special education, preschool, College Credit Plus, social and emotional wellness, and other unfunded/underfunded mandates continue to rise. Our facilities are also aging; one of the school buildings is 100 years old, and all other buildings are over 50 years old (except Primary Village South). Permanent improvement funds will be used to help address needed building repairs, renovations, and other school facility updates.

We are dedicated to being good stewards of our taxpayers' dollars, and we are committed to providing a superior education to each of the children in our schools.

# **Independent Audit**

The State of Ohio requires an annual audit by either the Auditor of State or by an independent public accounting firm. The firm of Julian & Grube, Inc. performed the audit for the fiscal year ended June 30, 2024. The audit has been conducted in accordance with generally accepted auditing standards, generally accepted government auditing standards, and includes a review of internal controls and tests of compliance with Federal and State laws and regulations. The auditor's report on the District's basic financial statements, combining statements, and individual fund statements and schedules is included in the financial section of this Annual Comprehensive Financial Report.

In addition to the financial audit, a single audit was performed as required by the Single Audit Act Amendments of 1996 and the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The single audit report is not included in the Annual Comprehensive Financial Report.

# AWARD FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Centerville City School District for its annual comprehensive financial report for the fiscal year ended June 30, 2023. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one

year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

# **ACKNOWLEDGEMENTS**

Sincere appreciation is extended to the many people who have contributed their time and effort to prepare this report. The members of the Treasurer's Office Staff are to be especially commended for their input and commitment. And, appreciation is extended to the District's Board of Education, Centerville Schools Administration, and the Centerville Schools community for its continuing support.

Respectfully submitted,

Laura Sauber, Treasurer

# **Independent Auditor's Report**

Centerville City School District Montgomery County 111 Virgina Avenue Centerville, Ohio 45458

To the Members of the Board of Education:

# **Report on the Audit of the Financial Statements**

# **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Centerville City School District, Montgomery County, Ohio, as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Centerville City School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Centerville City School District, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

# **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of Centerville City School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Centerville City School District Montgomery County Independent Auditor's Report

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Centerville City School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
  appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
  Centerville City School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Centerville City School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Centerville City School District Montgomery County Independent Auditor's Report

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of net pension and other postemployment benefit assets and liabilities and pension and other postemployment benefit contributions, and budgetary comparison information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Centerville City School District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 13, 2024 on our consideration of Centerville City School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Centerville City School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Centerville City School District's internal control over financial reporting and compliance.

Centerville City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2024 (Unaudited)

The discussion and analysis of Centerville City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2024. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

# **Financial Highlights**

Key financial highlights for fiscal year 2024 are as follows:

- Net position of governmental activities increased \$2,575,579 which represents a 4% change from fiscal year 2023.
- General revenues accounted for \$121,350,006 in revenue or 87% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$18,880,431 or 13% of total revenues of \$140,230,437.
- The District had \$137,654,858 in expenses related to governmental activities; \$18,880,431 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$121,350,006 were also used to provide for these programs.

## **Overview of the Financial Statements**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and the Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund is the major fund of the District.

# **Government-wide Financial Statements**

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2024?" The Government-wide Financial Statements answer this question. These statements include *all asset and deferred outflows of resources*, and *liabilities and deferred inflows of resources* using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net* position and changes in the net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position

Centerville City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2024 (Unaudited)

has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the overall financial position of the District is presented in the following manner:

• Governmental Activities – Most of the District's programs and services are reported here including instruction, support services, operation of non-instructional services, extracurricular activities, interest and fiscal charges and unallocated depreciation.

# **Fund Financial Statements**

The analysis of the District's major funds is presented in the Fund Financial Statements (see Table of Contents). Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**Proprietary Funds** The District maintains two proprietary internal service funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund accounts for self insurance of the District's workers' compensation benefits and medical insurance benefits.

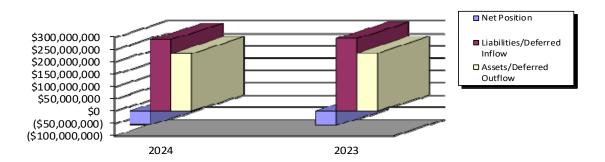

# The District as a Whole

As stated previously, the Statement of Net Position looks at the District as a whole. Table 1 provides a summary of the District's net position for fiscal year 2024 compared to fiscal year 2023:

This Space Intentionally Left Blank

Table 1
Net Position

	Governmental Activities		
	2024 2023		
Assets:			
Current and Other Assets	\$150,766,576	\$143,837,025	
Net OPEB Asset	8,358,488	11,167,488	
Capital Assets	44,613,113	46,341,574	
Total Assets	203,738,177	201,346,087	
Deferred Outflows of Resources:			
Deferred Charge on Refunding	2,501,860	3,050,428	
OPEB	4,439,467	2,831,483	
Pension	23,301,748	28,768,558	
Total Deferred Outflows of Resources	30,243,075	34,650,469	
Liabilities:			
Other Liabilities	16,055,587	14,802,635	
Long-Term Liabilities	166,953,997	171,814,997	
Total Liabilities	183,009,584	186,617,632	
Deferred Inflows of Resources:			
Property Taxes	84,967,981	77,916,747	
Grants and Other Taxes	0	125,777	
OPEB	13,349,100	17,029,795	
Pension	8,447,702	12,675,299	
Total Deferred Inflows of Resources	106,764,783	107,747,618	
Net Position:			
Net Investment in Capital Assets	13,062,275	12,059,749	
Restricted	21,911,138	26,408,757	
Unrestricted	(90,766,528)	(96,837,200)	
Total Net Position	(\$55,793,115)	(\$58,368,694)	

Over time, net position can serve as a useful indicator of a government's financial position. At June 30,

# Centerville City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2024 (Unaudited)

2024, the District's liabilities and deferred inflows exceeded assets and deferred outflows by \$55,793,115. At year-end, capital assets represented 22% of total assets. Capital assets include land, construction in progress, buildings and improvements, equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2024, was \$13,062,275. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$21,911,138 represents resources that are subject to external restriction on how they must be used. The external restriction will not affect the availability of fund resources for future use.

Current and Other Assets increased mainly due to an increase in pooled cash and investments. Long-term liabilities decreased due to a decrease in the Total Pension Liability.

Table 2 shows the changes in net position for fiscal years 2024 and 2023.

Table 2
Changes in Net Position

# Centerville City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2024 (Unaudited)

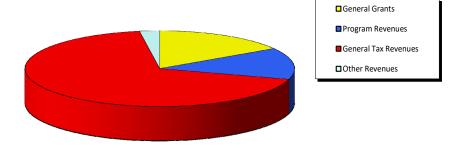

The District's revenues are mainly from two sources. Property taxes levied for general, debt service and capital projects purposes and grants and entitlements comprised 84% of the District's revenues for governmental activities.

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus Ohio districts do not receive additional property tax revenue from increases in appraisal values and must regularly return to the voters to maintain a constant level of service. Property taxes made up 68% of revenue for governmental activities for the District in fiscal year 2024.

# **Governmental Activities Revenue Sources**

Revenue Sources		2024	Percentage
General Grants	\$	22,631,621	16.1%
Program Revenues		18,880,431	13.5%
General Tax Revenues		95,372,750	68.0%
Other Revenues		3,345,635	2.4%
Total Revenue Sources	\$	140,230,437	100%

Instruction comprises 53% of governmental program expenses. Support services expenses were 39% of governmental program expenses. All other expenses including interest and fiscal charges were 8%. Interest expense was attributable to the outstanding bond and borrowings.

Total revenues increased mainly due to an increase in property tax revenue received during the fiscal year. Operating grants increased due to the district receiving more state and federal grant monies in fiscal year 2024. Total expenses increased primarily due to changes related to total pension liability and other post employment benefits liability.

# **Government Activities**

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3
Governmental Activities

	Total Cost of Services		Net Cost of Services	
	2024	2023	2024	2023
Instruction	\$72,521,581	\$71,817,980	(\$63,895,793)	(\$63,291,891)
Support Services:				
Pupil and Instructional Staff	17,815,423	15,756,922	(17,428,285)	(14,948,498)
School Administration, General				
Administration, Fiscal and Business	14,754,217	13,414,895	(13,508,482)	(13,101,302)
Operations and Maintenance	10,063,022	7,867,161	(10,043,516)	(7,867,161)
Pupil Transportation	9,582,311	9,832,963	(8,642,045)	(9,063,061)
Central	813,843	731,142	(813,843)	(724,813)
Operation of Non-Instructional Services	6,818,907	6,593,291	(1,359,336)	(1,053,982)
Extracurricular Activities	2,665,967	2,626,334	(463,540)	(558,801)
Unallocated Depreciation	1,829,779	1,536,954	(1,829,779)	(1,536,954)
Interest and Fiscal Charges	789,808	886,110	(789,808)	(886,110)
Total Expenses	\$137,654,858	\$131,063,752	(\$118,774,427)	(\$113,032,573)

# The District's Funds

The District has one major governmental fund: the General Fund. Assets of this fund comprise \$121,111,120 (84%) of the total \$144,534,884 governmental funds' assets.

**General Fund**: Fund balance at June 30, 2024 was \$30,680,504 including \$28,756,603 of unassigned balance. Fund balance decreased from fiscal year 2023 to fiscal year 2024 due to an increase in expenditures in 2024 compared to 2023 due to the increased costs to educate pupils in 2024.

# **General Fund Budgeting Highlights**

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, original budget basis revenue was \$117,970,595 compared to final budget basis revenue of \$114,743,359. Actual revenues for the year were \$118,914,001.

The District's ending unobligated fund balance was \$32,604,828, which is \$5,373,602 above the final budgeted amount.

# **Capital Assets and Debt Administration**

# **Capital Assets**

At fiscal year end, the District had \$44,613,113 invested in land, construction in progress, buildings and improvements, equipment, and vehicles. Table 4 shows fiscal year 2024 balances compared to fiscal year 2023:

Table 4
Capital Assets at Year End
(Net of Depreciation)

	Governmen	Governmental Activities		
	2024	2023		
Land	\$4,915,884	\$4,915,884		
Construction in Progress	0	3,018,910		
Buildings and Improvements	35,560,488	34,700,007		
Equipment	524,653	559,162		
Vehicles	3,612,088	3,147,611		
Total Net Capital Assets	\$44,613,113	\$46,341,574		

The decrease in capital assets from fiscal year 2023 to fiscal year 2024 is mainly due to current year additions being less than fiscal year 2024 depreciation expense and disposals.

See Note 6 in the Notes to the Basic Financial Statements for further details on the District's capital assets.

# Debt

At fiscal year end, the District had \$34,052,698 in debt outstanding, \$3,102,698 due within one year. Table 5 summarizes debt outstanding.

Table 5
Outstanding Debt at Year End

	Governmental Activities		
	2024	2023	
General Obligation Bonds			
2021 Refunding Bonds - Current Interest	\$34,015,000	\$34,850,000	
2013 Refunding Bonds			
Current Interest	0	2,140,000	
Add: Bond Premium	0	264,383	
2016 Field Turf Notes Payable	37,698	77,870	
Total Long-Term Debt	\$34,052,698	\$37,332,253	

There have been no changes in credit ratings from the prior fiscal year. See Notes 10 in the Notes to the

Basic Financial Statements for further details on the District's long-term obligations.

# For the Future

The Community (City of Centerville and Washington Township) has grown consistently over the past twenty-five years and, given its attractiveness as the residence and business location of choice in the region, it will continue to grow well into the future. The land to support past growth has been consumed at an increasing rate and will be exhausted, if present trends continue, within the next 5-10 years as the Community is 95% developed (95% city and 85% township). Eventually the Community will have matured, with redevelopment as the only option to accommodate growth and change. How this limited supply of land is used will dictate everything from fiscal health, to Community appearance, and ultimately its continued attractiveness as a place to live, work, and play.

Centerville met or exceeded the state's expectations in all areas including achievement, progress, gap closing, graduation, and early literacy. The district plans to continue this tradition of excellence by operating in a fiscally responsible manner as it moves forward with its strategic plan. This includes maintaining educational programs that meet the learning needs of all students; preparing students for a rapidly changing world by developing adaptability, communication, critical thinking skills, empathy, and tech literacy skills; expanding college and career pathways to support and build the workforce; attracting and retaining high quality teachers and support staff; and implementing facility maintenance and renovation projects.

# **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information contact the Treasurer's Office at Centerville City School District, 111 Virginia Avenue, Centerville, OH 45458 or call (937) 433-8841.

## Note 1 - Description of the District and Reporting Entity

The Centerville City School District (the "District") is a body politic and corporate located in Montgomery County and encompasses the City of Centerville and Washington Township. The District serves an area of approximately 32 square miles. The District ranks as the 21<sup>st</sup> largest by enrollment among school districts in the State of Ohio, and it is the 2<sup>nd</sup> largest school district located within Montgomery County.

The District operates under a locally elected five-member Board form of government and provides educational services as authorized by its charter and further mandated by state and/or federal agencies. This Board controls the District's instructional/support programs located at twelve instructional facilities and staffed by 496 non-certificated employees and 631 certified employees, who provide services to over 8,300 students and other community members.

## **Reporting Entity**

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the District are not misleading.

The primary government consists of all funds and departments, not legally separate from the District, which provide various services including instruction, student guidance, extracurricular activities, educational media and care and upkeep of grounds and buildings. The operation of each of these activities is directly controlled by the Board of Education.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing body and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations for which the District approves the budget, the issuance of debt or the levying of taxes. The District does not have any component units.

The District is associated with three organizations, which are defined as jointly governed and another organization that is classified as a related organization. These organizations are:

Jointly Governed Organizations: Southwestern Ohio Educational Purchasing Council Metropolitan Educational Technology Association

Related Organization:
Washington-Centerville Public Library

These organizations are presented in Notes 11 and 12 to the basic financial statements.

# Note 2 - Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

## **Basis of Presentation**

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

## **Government-Wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

## **Fund Financial Statements**

During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

## **Fund Accounting**

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and proprietary.

## **Governmental Funds**

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows, and liabilities and deferred inflows is reported as fund balance. The General Fund is the District's major fund:

<u>General Fund</u> - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the District account for grants and other resources, debt service, and capital projects of the District whose uses are restricted to a particular purpose.

## **Proprietary Funds**

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The District has no enterprise funds. The following is a description of the District's internal service fund:

<u>Internal Service Funds</u> - The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the district, or to other governments, on a cost-reimbursement basis. The internal service funds of the District account for self-insurance programs which provide workers' compensation benefits and medical insurance benefits to employees.

#### **Measurement Focus**

#### **Government-wide Financial Statements**

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the Statement of Net Position.

#### **Fund Financial Statements**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for government funds.

## **Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

#### Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed to be both measurable and available: property taxes available as an advance, grants, and other taxes.

## Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources include a deferred charge on refunding, pension, and OPEB. The deferred outflows of resources related to a deferred charge on refunding, pension, and OPEB plans are reported on the governmental-wide statement of net position. For more pension and OPEB related information, see Notes 8 and 9.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, pension, OPEB, grants

and other taxes (which includes tax incremental financing 'TIF'), and investment earnings. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2024, but which were levied to finance year 2025 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Other taxes (TIF) have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Grants and investment earnings are reported only on the governmental fund financial statements. Deferred inflows related to pension and OPEB plans are reported on the governmental-wide statement of net position. For more pension and OPEB related information, see Notes 8 and 9.

Unearned revenue represents amounts under the accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned.

# Expenses/Expenditures

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are recorded when the related liability is incurred, if measurable. Principal and interest on long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. The costs of accumulated unpaid vacation and sick leave are reported as fund liabilities in the period in which they will be liquidated with available financial resources rather than in the period earned by the employee. Allocation of costs, such as depreciation and amortization, are not recognized in governmental funds.

The accrual basis of accounting utilized on the government-wide financial statements recognizes revenues when they are earned, and expenses are recognized at the time they are incurred. The fair value of donated commodities received during the year is reported as an expense with a like amount reported as operating grants and contributions.

#### **Equity in Pooled Cash and Investments**

The District maintains a cash and investment pool used by all funds. The cash and investment pool has the same characteristics as demand deposits. Each fund's portion of this pool is displayed in the financial statements as pooled cash and investments. The monies are either maintained in a central bank account or used to purchase legal investments.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost. Investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase are reported at cost or amortized cost.

The Ohio Revised Code authorizes the District to invest in United States and State of Ohio bonds, notes, and other obligations; bank certificate of deposits; banker's acceptances; commercial paper notes rated prime and issued by United States Corporations; and STAR Ohio.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio and the U.S. Government Money Market Mutual Funds at the net asset value (NAV) per share provided by STAR Ohio and the respective mutual funds. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

There were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAR Ohio reserves the right to limit the transaction to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Following State statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Investment earnings are to be credited to the specified funds based on the month end fund balance. Interest was recorded in the General Fund, Other Governmental Funds, and Internal Service Funds in the amounts of \$2,654,045, \$89,643, and \$174,880 respectively.

For purposes of the statement of cash flows, the internal service portion of pooled cash and investments is considered a cash equivalent because the District is able to withdraw resources from the internal service funds without prior notice or penalty.

#### Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of food held for resale and consumable supplies.

# **Restricted Assets**

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other government or imposed by enabling legislation. Restricted assets include the amount required by donors to be used for a scholarship fund.

# **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## **Capital Assets and Depreciation**

General capital assets generally result from expenditures in the governmental funds. These assets are reported within the governmental activities on the government-wide statement of net position but are not reported in the fund statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements throughout the year. The District maintains a capitalization threshold of five thousand dollars (\$5,000). The District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also not capitalized. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives.

<u>Description</u>	Estimated Lives
Buildings and Improvements	30 - 40 years
Equipment	5 - 20 years
Vehicles	8 years

#### **Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivables" and "Interfund Payables". These amounts are eliminated on the governmental activities columns of the statement of net position.

As a general rule the effect of interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

#### **Parochial Schools**

The Church of the Incarnation and Spring Valley Academy are private and parochial schools that operate within the District's boundaries. Current State legislation provides funding to these private and parochial schools. Funds are received and disbursed on behalf of the private and parochial schools by the Treasurer of the District, as directed by these institutions. The fiduciary responsibility of the District for these monies is reflected in a nonmajor governmental fund for financial reporting purposes.

#### **Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned when both of these conditions are met:

- 1. The employees' rights to receive compensation are attributable to services already rendered.
- 2. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

A liability for sick leave is accrued using the vesting method which states that the District will estimate its liability based on sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as specified by the retirement system as well as other employees who are expected to become eligible in the future to receive such payments. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated sick leave for all employees after fifteen years of current service with the District.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that represents severance payments to individuals who retired prior to the end of the fiscal year, but did not receive payment until after year-end. These amounts are recorded in the account "compensated absences" in the fund from which the employees who have accumulated leave are paid. The non-current portion of the liability is not reflected in the fund statements.

# **Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences, special termination benefits, and judgments and claims that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Total pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

## Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the total pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

#### **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the internal service fund. For the District, these revenues are charges for services for the primary activity of the fund. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### **Net Position**

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of

accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available. Of the District's \$21,911,138 in restricted net position, none was restricted by enabling legislation.

#### **Fund Balance**

In accordance with Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education or approved through the District's formal purchase order procedure by the Superintendent and the Treasurer.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

# Note 3 - Equity in Pooled Cash and Investments

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the District into three categories:

<u>Active Monies</u> - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must, by law, be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

<u>Inactive Monies</u> – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

<u>Interim Monies</u> – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Those monies held by the District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States.
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities.
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.
- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met.
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts.
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided

that investments in securities described in this division are made only through eligible institutions.

- 7. The State Treasurer's investment pool (STAR Ohio).
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

#### **Deposits**

Custodial credit risk for deposits is the risk that in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of June 30, 2024, \$2,382,557 of the District's bank balance of \$2,634,893 was exposed to custodial credit risk because it was uninsured and collateralized.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105% of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102% of the deposits being secured or a rate set by the Treasurer of State. The District's financial institution was approved for a reduced collateral rate of 60%.

#### Investments

As of June 30, 2024, the District had the following investments:

		Fair Value	Weighted Average
Investment Type	Fair Value	Hierarchy	Maturity (Years)
U.S. Government Money Market Mutual Funds	\$949,088	N/A	0.00
STAR Ohio	16,718,104	N/A	0.13
Federal Home Loan Bank	10,793,649	Level 2	2.21
Federal Farm Credit Banks	3,435,088	Level 2	2.64
Federal Home Loan Mortgage Corporation	1,000,065	Level 2	2.58
Federal Natl Mtg Assoc	409,784	Level 2	2.47
US Treasury Notes	3,051,950	Level 2	3.95
Negotiable CD's	10,538,956	Level 2	2.61
Commercial Paper	7,164,286	Level 2	0.04
Municipal Bonds	1,705,268	Level 2	0.50
Total Fair Value	\$55,766,238		
Portfolio Weighted Average Maturity			1.51

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Inputs to the valuation techniques used in fair the measurement for Level 2 include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurements as of June 30, 2024. STAR Ohio and the U.S. Government Money Market Mutual Funds are reported at its share price (Net Asset Value per share).

Interest Rate Risk — The District shall not purchase any security that has a remaining term to final maturity of more than five years. Through STAR Ohio's investment policy, it manages its exposure to fair value losses arising from increasing interest rates by limiting the final stated maturity on any investment not to exceed 397 days or that will cause the weighted average maturity of the portfolio to exceed 60 days.

Credit Risk – It is the District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have the highest credit quality rating issued by nationally recognized statistical rating organizations. The District's investments in Federal Home Loan Bank, Federal Farm Credit Bank, Federal National Mortgage Association, and Federal Home Loan Mortgage Corporation were rated AA+ by Standard and Poor's and Aaa by Moody's Investment Service. Commercial Paper is rated A-1 by Standard & Poor's and P-1 by Moody's. Investments in STAR Ohio were rated AAAm by Standard & Poors. The U.S. Government Money Market Funds were rated AAm by Standard & Poor's and Aaa-mf by Moody's. The Negotiable CDs and Municipal Bonds were not rated.

Concentration of Credit Risk – The District should normally seek to diversify its holdings of other investments by avoiding concentration of specific issuers. The District has invested approximately

2% in Money Market Mutual Funds, 30% in STAR Ohio, 19% in Federal Home Loan Bank, 6% in Federal Farm Credit Bank, 2% in Federal Home Loan Mortgage Corporation, 1% in Federal Natl Mtg Assoc, 5% in US Treasury Notes, 19% in Negotiable CDs, 3% in Municipal Bonds, and 13% in Commercial Paper. The District's investment policy does not restrict investing more than 5% of the investment portfolio with one vendor.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the District's and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2024, the District's financial institutions were approved for a reduced collateral rate of 60 percent through the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the District to a successful claim by the FDIC.

#### **Note 4 - Property Taxes**

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value (with certain exceptions) and on real property at 35 percent of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. The District receives property taxes from Montgomery County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2024, are available to finance fiscal year 2025 operations. The amount available for advance can vary based on the date the tax bills are sent

Accrued property taxes receivable represents delinquent taxes outstanding and real property, and public utility taxes that became measurable as of June 30, 2024. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations.

The assessed values upon which the fiscal year 2024 taxes were collected are as follows:

	2024 First	2023 Second
	Half Collections	Half Collections
Agricultural/Residential		
and Other Real Estate	\$2,814,440,410	\$2,136,879,290
Public Utility Personal	56,425,970	50,204,390
Total Assessed Property Value	\$2,870,866,380	\$2,187,083,680

## Note 5 – Receivables

Receivables at June 30, 2024, consisted of taxes, interest, intergovernmental grants, and interfund. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

## Note 6 - Capital Assets

Capital asset activity for the year ended June 30, 2024 was as follows:

	Beginning			Ending
	Balance	Additions	Deletions	Balance
<b>Governmental Activities</b>				
Capital Assets, not being depreciated:				
Land	\$4,915,884	\$0	\$0	\$4,915,884
Construction in Progress	3,018,910	0	3,018,910	0
Total Capital Assets, not being				
depreciated	7,934,794	0	3,018,910	4,915,884
Capital Assets, being depreciated:				
Buildings and Improvements	99,318,678	2,903,069	0	102,221,747
Equipment	7,852,585	68,117	0	7,920,702
Vehicles	11,383,740	1,669,629	425,691	12,627,678
Total Capital Assets, being depreciated:	118,555,003	4,640,815	425,691	122,770,127
Totals at Historical Cost	126,489,797	4,640,815	3,444,601	127,686,011
Less Accumulated Depreciation:				
Buildings and Improvements	64,618,671	2,042,588	0	66,661,259
Equipment	7,293,423	102,626	0	7,396,049
Vehicles	8,236,129	1,205,152	425,691	9,015,590
Total Accumulated Depreciation	80,148,223	3,350,366	425,691	83,072,898
Governmental Activities Capital Assets, Net	\$46,341,574	\$1,290,449	\$3,018,910	\$44,613,113

Depreciation expense was charged to governmental functions as follows:

This Space Intentionally Left Blank

Instruction:	
Regular	\$626,146
Special	1,107
Vocational	2,164
Support Services:	
Instructional Staff	1,645
School Administration	6,268
Operations and Maintenance	246,328
Pupil Transportation	632,598
Operation of Non-Instructional Services	4,070
Extracurricular Activities	261
Unallocated Depreciation	1,829,779
Total Depreciation Expense	\$3,350,366

Unallocated depreciation is depreciation of the individual school buildings throughout the District that essentially serve all functions/programs, and therefore is not included as a direct expense of any functions or program but disclosed as a separate expense.

## Note 7 - Risk Management

The District is exposed to various risks of loss related to torts, thefts-of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters for which the District carries commercial insurance. During fiscal year 2024, the District contracted with Liberty Mutual Insurance for these various risks. Coverage terms provided by Liberty Mutual Insurance are as follows:

Buildings and Contents - replacement cost (\$5,000 deductible)	\$402,939,516
Employee Dishonesty - Money in Security	1,000,000
Automotive Liability (\$500/vehicle and \$500/bus deductible)	1,000,000
Uninsured Motorist Bodily Injury Liability	1,000,000
General Liability (Per Occurrence)	1,000,000
Data Compromise	250,000
Defense and Liability	250,000
Equipment Breakdown	250,000
Violent Event Response	1,000,000
Flood	1,000,000
Commercial Computer Coverage	7,006,000
Umbrella Policy	10,000,000

Settled claims have not exceeded this commercial coverage in any of the past five years. There has not been any significant reduction in insurance coverage from the previous year.

Beginning in August 2010, the District began to self-insure its workers' compensation costs. The District contracts with Hunter Consultants for the service. Expenses for claims are recorded on the current basis based on an actuarially determined charge per employee. The District accounts for the activities of this program in an internal service fund in accordance with GASB Statement No. 10 as amended by GASB Statement No. 30, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling claims.

A summary of the changes in self-insurance workers' compensation claims liability is as follows:

	2024	2023
Claims Liability at Beginning of Year	\$25,473	\$64,538
Claims Incurred	217,750	115,747
Claims Paid	(189,049)	(154,812)
Claims Liability at End of Year	\$54,174	\$25,473

Beginning in January 2012, the District began to self-insure its medical health-insurance costs. The District contracts with Anthem for the service. Expenses for claims are recorded on the current basis based on an actuarially determined charge per employee. The District accounts for the activities of this program in an internal service fund in accordance with GASB Statement No. 10 as amended by GASB Statement No. 30, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling claims.

A summary of the changes in self-insurance health insurance claims liability is as follows:

	2024	2023
Claims Liability at Beginning of Year	\$1,902,869	\$1,949,255
Claims Incurred	22,147,646	22,327,764
Claims Paid	(22,148,254)	(22,374,150)
Claims Liability at End of Year	\$1,902,261	\$1,902,869

#### Note 8 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

## Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in

the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 9 for the required OPEB disclosures.

## Plan Description - School Employees Retirement System (SERS)

## **Plan Description**

District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <a href="https://www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

<sup>\*</sup> Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5 percent COLA for calendar year 2023.

## **Funding Policy**

Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2024, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2024, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The District's contractually required contribution to SERS was \$2,389,371 for fiscal year 2024. Of this amount \$188,107 is reported as accrued wages and benefits.

## Plan Description - State Teachers Retirement System (STRS)

#### **Plan Description**

District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <a href="https://www.strsoh.org">www.strsoh.org</a>.

New members have a choice of three retirement plans: a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective July 1, 2022, a one-time ad-hoc COLA of 3 percent of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Effective July 1, 2023, a one-time ad-hoc COLA of 1 percent of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2024 as long as they retired prior to July 1, 2019. Pursuant to Ohio Revised Code 3307.67(E) the STRS Ohio Retirement Board may adjust the COLA upon a determination by the board's actuary that a change will not materially impair the fiscal integrity of the system or is necessary to preserve the fiscal integrity of the system. Eligibility changes will be phased in until August 1, 2023, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 34 years of service credit at any age.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit regardless of age.

The DC Plan allows members to place all their member contributions and 11.09 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 2.91 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

## **Funding Policy**

Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2024 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For 2024, the full employer contribution was allocated to pension.

The District's contractually required contribution to STRS was \$8,503,176 for fiscal year 2024. Of this amount \$1,417,196 is reported as accrued wages and benefits.

# Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

_	SERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$23,767,230	\$92,551,310	\$116,318,540
Proportion of the Net Pension Liability:			
Current Measurement Date	0.43013600%	0.42977282%	
Prior Measurement Date	0.43426090%	0.43128834%	
Change in Proportionate Share	-0.00412490%	-0.00151552%	
Pension Expense	\$1,704,971	\$7,381,209	\$9,086,181

At June 30 2024, reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$1,021,568	\$3,374,226	\$4,395,794
Changes of assumptions	168,356	7,622,102	7,790,458
Changes in employer proportionate share of net			
pension liability	0	222,949	222,949
Contributions subsequent to the measurement date	2,389,371	8,503,176	10,892,547
Total Deferred Outflows of Resources	\$3,579,295	\$19,722,453	\$23,301,748
<u>Deferred Inflows of Resources</u>			
Differences between expected and actual experience	\$0	\$205,375	\$205,375
Changes of assumptions	0	5,737,252	5,737,252
Net difference between projected and			
actual earnings on pension plan investments	334,068	277,379	611,447
Changes in employer proportionate share of net			
pension liability	167,837	1,725,791	1,893,628
Total Deferred Inflows of Resources	\$501,905	\$7,945,797	\$8,447,702

\$10,892,547 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal Year			
Ending June 30:	SERS	STRS	Total
2025	\$122,713	(\$1,389,388)	(\$1,266,675)
2026	(952,166)	(3,908,830)	(4,860,996)
2027	1,499,768	9,130,454	10,630,222
2028	17,704	(558,756)	(541,052)
Total	\$688,019	\$3,273,480	\$3,961,499

#### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2023 and compared with June 30, 2022, are presented below:

	June 30, 2023	June 30, 2022
Inflation	2.40%	2.40%
Future Salary Increases, including inflation	3.25% to 13.58%	3.25% to 13.58%
COLA or Ad Hoc COLA	for future retirees will be delayed for	2.00%, on or after April 1, 2018, COLAs for future retirees will be delayed for three years following commencement
Investment Rate of Return	7.00% net of system expenses	7.00% net of system expenses
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with

ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. As of June 30, 2023:

Acces Classes	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00%	0.75%
US Equity	24.75%	4.82%
Non-US Equity Developed	13.50%	5.19%
Non-US Equity Emerging	6.75%	5.98%
Fixed Income/Global Bonds	19.00%	2.24%
Private Equity	12.00%	7.49%
Real Estate/Real Assets	17.00%	3.70%
Private Debt/Private Credit	5.00%	5.64%
Total	100.00%	

#### **Discount Rate**

The total pension liability for 2023 was calculated using the discount rate of 7.00 percent. The discount rate determination did not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 21-year amortization period of the unfunded actuarial accrued liability. The actuarially determined contribution rate for fiscal year 2023 was 14 percent. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability. The annual money weighted rate of return, calculated as the internal rate of return on pension plan investments, for fiscal year 2023 was 6.90 percent.

# Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent), or one percentage point higher (8.00 percent) than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
_	6.00%	7.00%	8.00%
Proportionate share of the net pension liability	\$35,079,216	\$23,767,230	\$14,239,035

# **Changes Between the Measurement Date and the Report Date**

Governor DeWine signed HB33 in July 2023 authorizing SERS to implement a Contribution Based Benefit Cap beginning August 1, 2024. Any effect on the net pension liability is unknown.

## **Actuarial Assumptions - STRS**

Key methods and assumptions used in the June 30, 2023, actuarial valuation compared to those used in the June 30, 2022, actuarial valuation are presented below:

	June 30, 2023	June 30, 2022
Inflation	2.50%	2.50%
Projected Salary Increases	From 2.50% to 8.50% based on service	From 2.50% to 8.50% based on age
Investment Rate of Return	7.00% net of investments expense, including inflation	7.00% net of investments expense, including inflation
Discount Rate of Return	7.00%	7.00%
Payroll Increases	3.00%	3.00%
Cost-of-Living Adjustments (COLA)	0.00%	0.00%

Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2023, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

This Space Intentionally Left Blank

Asset Class	Target _Allocation *	Long-Term Expected Rate of Return **	
Domestic Equity	26.00%	6.60%	
International Equity	22.00%	6.80%	
Alternatives	19.00%	7.38%	
Fixed Income	22.00%	1.75%	
Real Estate	10.00%	5.75%	
Liquidity Reserves	1.00%	1.00%	
Total	100.00%		

<sup>\*</sup> Final target weights reflected October 1, 2022.

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2023. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2023. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2023.

#### Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
_	6.00%	7.00%	8.00%
Proportionate share of the net pension liability	\$142,323,429	\$92,551,310	\$50,457,715

# **Changes Between the Measurement Date and the Report Date**

In March 2024, the STRS Board made the eligibility rule requiring 34 years of service for an unreduced retirement permanent, effective June 1, 2024. Eligibility for a reduced retirement benefit has been lowered from 30 to 29 years of service. The effect of these changes on the net pension liability is currently unknown.

<sup>\*\* 10</sup> year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25%, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

## **Note 9 - Defined Benefit OPEB Plans**

See Note 8 for a description of the net OPEB liability (asset).

# Plan Description - School Employees Retirement System (SERS)

#### **Health Care Plan Description**

The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees For GASB 75 purposes, this plan is considered a cost-sharing other and their beneficiaries. postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981, do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

The Health Care program is financed through a combination of employer contributions, recipient premiums, investment returns, and any funds received on behalf of SERS' participation in Medicare programs. The System's goal is to maintain a health care reserve account with a 20-year solvency period in order to ensure that fluctuations in the cost of health care do not cause an interruption in the program. However, during any period in which the 20-year solvency period is not achieved, the System shall manage the Health Care Fund on a pay-as-you-go basis.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

# **Funding Policy**

State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2024, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2024, this amount was \$30,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2024, the District's surcharge obligation was \$287,026.

The surcharge, added to the allocated portion of the 14.00% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$287,026 for fiscal year 2024.

## Plan Description - State Teachers Retirement System (STRS)

## **Plan Description**

The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Health care premiums were reduced by a Medicare Part B premium credit beginning in 2023. The Plan is included in the report of STRS which can be obtained by visiting <a href="https://www.strsoh.org">www.strsoh.org</a> or by calling (888) 227-7877.

## **Funding Policy**

Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2024, STRS did not allocate any employer contributions to post-employment health care.

# Net OPEB Liabilities (Assets), OPEB Expense (Income), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	SERS	STRS	Total
Proportionate Share of the Net OPEB Liability Proportionate Share of the Net OPEB (Asset)	\$7,277,385 0	\$0 (8,358,488)	\$7,277,385 (8,358,488)
Proportion of the Net OPEB Liability/Asset: Current Measurement Date Prior Measurement Date	0.44173760% 0.44367140%	0.42977282% 0.43128834%	
Change in Proportionate Share	-0.00193380%	-0.00151552%	
OPEB Expense	(\$815,732)	(\$328,759)	(\$1,144,491)

At June 30 2024, reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	SERS	STRS	Total
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$15,160	\$13,030	\$28,190
Changes of assumptions	2,460,698	1,231,326	3,692,024
Net difference between projected and			
actual earnings on OPEB plan investments	56,402	14,917	71,319
Changes in employer proportionate share of net			
OPEB liability	217,298	143,610	360,908
Contributions subsequent to the measurement date	287,026	0	287,026
Total Deferred Outflows of Resources	\$3,036,584	\$1,402,883	\$4,439,467
<u>Deferred Inflows of Resources</u>			
Differences between expected and actual experience	\$3,753,217	\$1,274,891	\$5,028,108
Changes of assumptions	2,066,848	5,514,812	7,581,660
Changes in employer proportionate share of net			
OPEB liability	737,326	2,006	739,332
Total Deferred Inflows of Resources	\$6,557,391	\$6,791,709	\$13,349,100

\$287,026 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (adjustment to net OPEB asset) in the year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year			
Ending June 30:	SERS	STRS	Total
2025	(\$1,189,048)	(\$2,333,695)	(\$3,522,743)
2026	(1,088,579)	(1,110,979)	(2,199,558)
2027	(760,042)	(426,299)	(1,186,341)
2028	(470,390)	(581,006)	(1,051,396)
2029	(266,329)	(531,460)	(797,789)
Thereafter	(33,445)	(405,387)	(438,832)
Total	(\$3,807,833)	(\$5,388,826)	(\$9,196,659)
	(+-,-0.)000)	(+=,=00,0=0)	(+-,200,000)

## **Actuarial Assumptions - SERS**

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan

members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2023, compared with June 30, 2022, are presented below:

	June 30, 2023	June 30, 2022
Inflation	2.40%	2.40%
Future Salary Increases, Including Inflation	3.25% to 13.58%	3.25% to 13.58%
Investment Rate of Return	7.00% net of investment expense	7.00% net of investment expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)	Entry Age Normal (Level Percent of Payroll)
Fiduciary Net Position is Projected to be Depleted	2048	2044
Municipal Bond Index Rate:  Measurement Date  Prior Measurement Date	3.86% 3.69%	3.69% 1.92%
Single Equivalent Interest Rate (SEIR), net of plan investment expense, including price inflation:  Measurement Date	4.27%	4.08%
Prior Measurement Date	4.08%	2.27%
Health Care Cost Trend Rate	6.75% to 4.40%	7.00% to 4.40%

Mortality rates among healthy retirees were based on the PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Mortality rates for contingent survivors were based on PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5 percent for males and adjusted 122.5 percent for females. Mortality rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table. Mortality rates are projected using a fully generational projection with Scale MP-2020.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2016 through 2020, and was adopted by the Board on April 15, 2021. Several factors are considered in evaluating the long-term rate of return

assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. As of June 30, 2023:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
	/	
Cash	2.00%	0.75%
US Equity	24.75%	4.82%
Non-US Equity Developed	13.50%	5.19%
Non-US Equity Emerging	6.75%	5.98%
Fixed Income/Global Bonds	19.00%	2.24%
Private Equity	12.00%	7.49%
Real Estate/Real Assets	17.00%	3.70%
Private Debt/Private Credit	5.00%	5.64%
Total	100.00%	

### **Discount Rate**

The discount rate used to measure the total OPEB liability at June 30, 2023, was 4.27 percent. The discount rate used to measure total OPEB liability prior to June 30, 2023, was 4.08 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be depleted in 2048 by SERS'actuaries. The Fidelity General Obligation 20-year Municipal Bond Index Rate was used in the determination of the single equivalent interest rate for both the June 30, 2022, and the June 30, 2023, total OPEB liability. The Municipal Bond Index Rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate was 3.86 percent at June 30, 2023, and 3.69 percent at June 30, 2022.

## Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates

The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.27%) and higher (5.27%) than the current discount rate (4.27%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (5.75% decreasing to 3.40%) and higher (7.75% decreasing to 5.40%) than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(3.27%)	(4.27%)	(5.27%)
Proportionate share of the net OPEB liability	\$9,302,579	\$7,277,385	\$5,680,436
	1% Decrease	Current Trend Rate	1% Increase
	(5.75% decreasing	(6.75% decreasing	(7.75% decreasing
	to 3.40%)	to 4.40%)	to 5.40%)
Proportionate share of the net OPEB liability	\$5,346,443	\$7,277,385	\$9,836,144

## **Changes Between Measurement Date and Reporting Date**

In September 2023, the SERS Board changed minimum compensation to \$30,000 from \$25,000 for purposes of the surcharge. Any effect on the net OPEB liability is unknown.

## **Actuarial Assumptions - STRS**

Key methods and assumptions used in the June 30, 2023, actuarial valuation compared to the prior year are presented below:

	June 30, 2023	June 30, 2022
Projected salary increases	Varies by service from 2.50% to 8.50%	Varies by service from 2.50% to 8.50%
Investment Rate of Return	7.00%, net of investment expenses, including inflation	7.00%, net of investment expenses, including inflation
Payroll Increases	3.00%	3.00%
Discount Rate of Return	7.00%	7.00%
Health Care Cost Trends: Medical		
Pre-Medicare	7.50% initial, 4.14% ultimate	7.50% initial, 3.94% ultimate
Medicare	-10.94% initial, 4.14% ultimate	-68.78% initial, 3.94% ultimate
Prescription Drug		
Pre-Medicare	-11.95% initial, 4.14% ultimate	9.00% initial, 3.94% ultimate
Medicare	1.33% initial, 4.14% ultimate	-5.47% initial, 3.94% ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

Healthy retirees post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2023, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	TargetAllocation *	Long-Term Expected Rate of Return **
Domestic Equity	26.00%	6.60%
International Equity	22.00%	6.80%
Alternatives	19.00%	7.38%
Fixed Income	22.00%	1.75%
Real Estate	10.00%	5.75%
Liquidity Reserves	1.00%	1.00%
Total	100.00%	

<sup>\*</sup> Final target weights reflected at October 1, 2022.

### **Discount Rate**

The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2023. Therefore, the long-term expected rate of return on health care plan investments of 7.00 percent was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2023.

## Sensitivity of the Proportionate Share of the Net OPEB (Asset) to Changes in the Discount and Health Care Cost Trend Rate

The following table represents the net OPEB asset as of June 30, 2023, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

This Space Intentionally Left Blank

<sup>\*\* 10</sup> year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25%, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.00%)	(7.00%)	(8.00%)
Proportionate share of the net OPEB (asset)	(\$7,074,366)	(\$8,358,488)	(\$9,476,822)
	1%	Current	1%
	Decrease	Trend Rate	Increase
Proportionate share of the net OPEB (asset)	(\$9,528,717)	(\$8,358,488)	(\$6,948,967)

## Changes Between the Measurement Date and the Reporting date

In March, 2024, the STRS Board made changes to the eligibility for the maximum health care premium subsidy, going into effect initially with the January 2025 benefit. In May, 2024, the Board aligned the eligibility for the health care premium subsidy with the changes to pension eligibility made in March 2024. The effect on the net OPEB liability (asset) is unknown at this time.

## Note 10 - Long-Term Obligations

## Changes in Long-Term Liabilities

Long- term liability activity for the year ended June 30, 2024, was as follows:

		Beginning				Due in One
Long - Term Obligations:	Interest Rate	Balance	Additions	Deletions	Ending Balance	Year
2013 Refunding Bonds						
Current Interest	2.00% - 5.00%	\$2,140,000	\$0	\$2,140,000	\$0	\$0
Bond Premium		264,383	0	264,383	0	0
2021 Refunding Bonds	0.287% - 1.899%	34,850,000	0	835,000	34,015,000	3,065,000
2016 Field Turf Notes Payable	2.55%	77,870	0	40,172	37,698	37,698
Subtotal Bonds/Notes		37,332,253	0	3,279,555	34,052,698	3,102,698
Compensated Absences	N/A	8,889,402	1,774,120	1,358,148	9,305,374	1,483,850
Subtotal Bonds and Other Amounts	5	46,221,655	1,774,120	4,637,703	43,358,072	4,586,548
Net Pension Liability		119,364,149	0	3,045,609	116,318,540	0
Net OPEB Liability		6,229,193	1,048,192	0	7,277,385	0
Total Long-Term Obligations		\$171,814,997	\$2,822,312	\$7,683,312	\$166,953,997	\$4,586,548

Compensated absences represent the long-term portion of the accrued liability associated with sick and vacation leave. These items will be repaid from the funds from which the employees work to whom the liability is associated with or the General Fund if no such funds are available. Net pension liability and Net OPEB liability represents the long-term portion of the accrued liability associated with STRS and SERS pension liability. These items will be repaid from the funds from which the employees work to whom the liability is associated with or the General Fund if no such funds are available.

## **General Obligation Bonds**

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. During fiscal year 2013, the District refunded a portion of the 2005 School Improvement bonds by issuing \$48,510,531 in refunding general obligation (maturing December 1, 2033) and capital

appreciation bonds (matured December 1, 2019 and December 1, 2020).

In December 2015 the District entered into an agreement for the installation of athletic field turf. The cost of building improvements at June 30, 2023 is \$378,200. Payments have been reclassified from functional disbursements (budgetary basis) and are reflected as debt service in the basic financial statements in the District Managed Student Services Fund (a nonmajor governmental fund).

## **Advance Refunding**

On August 20, 2020, the District issued \$37,150,000 in current interest bonds with an average interest rate of 1.477% of which was used to refund \$37,250,000 of outstanding 2013 School Improvement Refunding Bonds with variable interest rates. The net proceeds of \$36,938,650 (after payment of underwriting fees, insurance and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide all future debt service payments on the bond issue. The District refunded their 2013 School Improvement Refunding Bonds to reduce its total debt service payments by \$9,508,563 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$4,313,043. The 2021 Refunding Bonds mature November 1, 2033 and principal and interest payments will be made from the Bond Retirement Fund (a nonmajor governmental fund).

## Annual Debt Service Requirements

Annual debt service requirements to maturity for the general obligation bonds and notes are as follows:

	General Obligation Bonds		Notes P	ayable
Fiscal Year				
Ending June 30	Principal	Interest	Principal	Interest
2025	\$3,065,000	\$455,703	\$37,698	\$1,051
2026	3,090,000	432,184	0	0
2027	3,115,000	403,877	0	0
2028	3,325,000	369,022	0	0
2029	3,355,000	327,191	0	0
2030-2034	18,065,000	821,745	0	0
Total	\$34,015,000	\$2,809,722	\$37,698	\$1,051

## **Legal Debt Margin**

The district is subject to a debt limit that is 9 percent of the full assessed valuation of taxable real property. At June 30, 2024 that amount was \$258,377,974. As of June 30, 2024 the total outstanding debt applicable to the limit was \$34,015,000 which is 13.16 percent of the total debt limit.

## Note 11 - Jointly Governed Organizations

Southwestern Ohio Educational Purchasing Council

The District is a member of the Southwestern Ohio Educational Purchasing Council (SOEPC). The purpose of the cooperative is to obtain lower prices for supplies and materials commonly used by the member

districts. The members are obligated to pay all fees, charges, and assessments as established by SOEPC.

Each member district has one voting representative. Title to any and all equipment and supplies purchased by SOEPC is held in trust for the member districts by the fiscal agent. Any district withdrawing from SOEPC shall forfeit its claim to any and all SOEPC assets. One year's prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member organizations. Payments to SOEPC are made from the District's General Fund. Financial information may be obtained from SOEPC by contacting the Director, at 303 Corporate Center Drive, Suite 208, Vandalia, OH 45377.

## Metropolitan Educational Technology Association

The District is a participant in the Metropolitan Educational Technology Association (META). META is an association of public school districts within the boundaries of Darke, Greene, Miami and Montgomery Counties. The organization was formed for the purpose of applying modern technology (with the aid of computers and other electronic equipment) to administrative and instructional functions among member school districts. The governing board of META consists of one representative from each member school district plus one representative from the fiscal agent. Financial information can be obtained from the Executive Director of META at 100 Executive Drive, Marion, Ohio 43302.

## Note 12 - Related Organizations

## Washington-Centerville Public Library

The Washington-Centerville Public Library (the Library) is a related organization to the District. The District's Board of Education is responsible for appointing Trustees and approving the budget of the Library as a ministerial function to the Library. The operations of the Library are managed by its Trustees, including the determination of the budget amounts necessary for operations. The Library does not receive any funding from the District.

## **Note 13 – Contingencies**

## Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2024.

## Litigation

The District is not aware of any potential calims against the District resulting from litigation that would materially affect the financial statements of the District.

## Note 14 - Statutory Reserves

The District is required by State statute to annually set aside monies for the purchase of capital improvements. Amounts not spent by year-end or reduced by offsetting credits must be held in cash at year-end and carried forward to be used for the same purpose in future years.

During the fiscal year ended June 30, 2024, the reserve activity (cash-basis) was as follows:

	Capital
	Improvements
Set Aside Reserve Balance as of June 30, 2023	\$0
Current Year Set Aside Requirement	1,704,597
Qualified Disbursements	0
Current Year Offsets	(44,269,263)
Total	(\$42,564,666)
Balance Carried Forward to Fiscal Year 2025	(\$42,564,666)
Set Aside Reserve Balance as of June 30, 2024	\$0

For capital acquisitions, the extra amount was a result of bond or note issuances, which will be used to offset set-aside requirements in future years.

## Note 15 – Accountability

The following funds had deficit fund balances/net position at June 30, 2024:

Fund	Deficit
Other Governmental Funds:	_
Title VI-B	\$85,591
Title I	173,581
Title III	24,310
Vocational Education	29,209
EHA Pre-School	9,822
Reducing Class Size	2,976
ESSER	50,511
Internal Service Funds:	
Workers Comp Self Insurance	54,174

The deficits in these Special Revenue funds resulted from adjustments for accrued liabilities. Management expects the deficits in these funds to be corrected in early fiscal year 2025. The General Fund is liable for any deficit in these funds and provides transfers when cash is required, not when the accruals occur.

## Note 16 - Interfund Balances

Interfund transactions at June 30, 2024, consisted of the following individual fund receivables and payables:

	Interfund		
	Receivable	Payable	
General Fund	\$72,517	\$0	
Other Governmental Funds	0	72,517	
Total All Funds	\$72,517	\$72,517	

Interfund balance/transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization; to segregate and to return money to the fund from which it was originally provided once a project is completed.

All interfund balances are expected to be paid within one year.

## Note 17 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

This Space Intentionally Left Blank

	Other		
		Governmental	
Fund Balances	General	Funds	Total
Restricted for:			
Other Grants	\$0	\$19,766	\$19,766
District Managed Student Services	0	557,835	557,835
Auxiliary Services	0	55,058	55,058
Network Connection	0	1,088	1,088
Food Service	0	2,784,614	2,784,614

Permanent Improvement	0	5,242,148	5,242,148
Total Restricted	0	13,606,232	13,606,232
Assigned to:			
Public School	660,072	0	660,072
Encumbrances *	1,263,829	0	1,263,829
Total Assigned	1,923,901	0	1,923,901
Unassigned (Deficit)	28,756,603	(376,000)	28,380,603
Total Fund Balance	\$30,680,504	\$13,230,232	\$43,910,736

<sup>\*</sup> Encumbrances (assigned) will be used for \$573,234 for regular instruction, 151,351 for special instruction, \$32,664 for vocational instruction, \$147,808 for pupil support services, \$21,806 for instructional staff support services, \$114,917 for school administration support services, \$24,634 for fiscal support services, \$8,471 for business support services, \$93,618 for transportation support services, \$71,961 for operations and maintenance support services, \$8,170 for central support services, \$2,260 for operation of non-instructional services and \$12,935 for extracurricular activities.

## Note 18 – Tax Abatements Entered Into By Other Governments

Other governments entered into property tax abatement agreements with property owners under the Ohio Community Reinvestment Area ("CRA") and Enterprise Zone Agreement ("EZA") programs with the taxing districts of the District. The CRA program is a directive incentive tax exemption program benefiting property owners who renovate or construct new buildings. Under this program, the other governments designated areas to encourage revitalization of the existing housing stock and the development of new structures. The EZA program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in the community. Within the taxing districts of the District, the City of Centerville has entered into CRA and EZA agreements. Under these agreements the District's property taxes were reduced by \$1,985,674.

## Note 19 – Implementation of New Accounting Principles

## **New Accounting Principles**

For fiscal year 2024, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 100, Accounting Changes and Error Corrections; and portions of GASB Statement No. 99, Omnibus 2022.

GASB Statement No. 100 enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The implementation of GASB Statement No. 100 did not have an effect on the financial statements of the District.

GASB Statement No. 99 addresses a variety of topics and includes clarification of provisions related to accounting and reporting of leases under GASB Statement No. 87, provides extension of the period which the London Interbank Offered Rate is considered appropriate benchmark interest rate, guidance on disclosure of nonmonetary transaction, accounting for pledges of future revenues when resources are not received by the pledging government under GASB Statement No. 48, and terminology updates related to certain provisions of GASB Statement No. 63 and No. 53. These topics under GASB Statement No. 99 provisions were implemented in a prior year.

Other topics in GASB Statement No. 99 includes classification of other derivative instruments within the scope of GASB Statement No. 53, clarification of provisions related to accounting and reporting of Public-Private and Public-Public Partnerships under GASB Statement No. 94, and clarification of provisions to accounting and reporting of subscription-based information technology arrangements under GASB Statement No. 96. These topics under GASB Statement No. 99 provisions were implemented and did not have an effect on the financial statements of the District.

## Note 1 - Budgetary Process

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts on the budgetary schedules reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary schedules reflect the amounts on the final amended certificate of estimated resources issued during fiscal year 2024.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year. At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual (Non-GAAP Budgetary Basis) presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- Encumbrances are treated as expenditures for all funds (budget basis) rather than as an assignment or restriction of fund balance for governmental fund types and expendable trust funds (GAAP basis).
- 4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.
- 5. Some funds are reported as part of the general fund (GAAP basis) as opposed to the general fund being reported alone (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis to the budgetary basis for the general fund.

## Net Change in Fund Balance

	General Fund
GAAP Basis	(\$1,179,887)
Revenue Accruals	(83,313)
Expenditures Accruals	1,859,541
Advances In	53,000
Advances Out	(3,100)
Encumbrances	(1,369,712)
D. dead Deads	(6722 474)
Budget Basis	(\$723,471)

## Note 2 - Net Pension Liability

## **School Employees Retirement System (SERS)**

## **Changes in Benefit Terms:**

2023-2024: There were no changes in benefit terms since the prior measurement period.

2022: Cost of Living Adjustments (COLA) increased from 0.50% to 2.50%.

2020-2021: There were no changes in benefit terms from the amounts reported for this fiscal year.

2019: With the authority granted the Board under Senate Bill 8, the Board has enacted a three year COLA delay for future benefit recipients commencing benefits on or after April 1, 2018.

2018: SERS changed from a fixed 3.00% annual increase to a Cost of Living Adjustments (COLA) based on the changed in the Consumer Price Index Index (CPI-W), with a cap of 2.50% and a floor of 0.00%.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

## **Changes in Assumptions:**

2023-2024: The following changes of assumptions affected the total pension liability since the prior measurement date:

(1) Cost of Living Adjustments (COLA) was increased from 2.00% to 2.50% for calendar year 2024.

2022: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.00% to 2.40%,
- (2) Payroll growth assumption was reduced from 3.50% to 1.75%,
- (3) Assumed real wage growth was increased from 0.50% to 0.85%,
- (4) Cost of Living Adjustments (COLA) was reduced from 2.50% to 2.00%,
- (5) The discount rate was reduced from 7.50% to 7.00%,
- (6) Rates of withdrawal, compensation, participation, spouse coverage assumption, retirement, and disability were updated to reflect recent experience, and,
- (7) Mortality among active members, service retirees and beneficiaries, and disabled members were updated.

2018-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2017: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,
- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates,
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement, and
- (8) The discount rate was reduced from 7.75% to 7.50%.

2014-2016: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

## **State Teachers Retirement System (STRS)**

### **Changes in Benefit Terms:**

2019-2024: There were no changes in benefit terms from the amounts reported for these fiscal years.

2018: STRS decreased the Cost of Living Adjustment (COLA) to zero.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

## **Changes in Assumptions:**

2024: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2023: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table:
  - a. Adjusted 110.0% for males, projected forward generationally using mortality improvement scale MP-2020
- (2) Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table:
  - a. Adjusted 95.0% for females, projected forward generationally using mortality improvement scale MP-2020
- (3) Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table:
  - a. Projected forward generationally using mortality improvement scale MP-2020
- (4) Projected salary increases changed from 2.50% to 12.50% to 2.50% to 8.50%

2022: There were changes in assumptions since the prior measurement date, which the discount rate was

# Centerville City School District, Ohio Notes to the Required Supplementary Information For The Fiscal Year Ended June 30, 2024

adjusted to 7.00% from 7.45%.

2019-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2018: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The long term expected rate of return was reduced from 7.75% to 7.45%,
- (2) The inflation assumption was lowered from 2.75% to 2.50%,
- (3) The payroll growth assumption was lowered to 3.00%,
- (4) Total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation,
- (5) The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016, and
- (6) Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

2014-2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

## Note 3 - Net OPEB (Asset)/Liability

## **School Employees Retirement System (SERS)**

### **Changes in Benefit Terms:**

2024: Effective January 1, 2024, the non-Medicare disability health care subsidy amounts will change to reflect amounts equal to that of service retirees by years of service.

2017-2023: There were no changes in benefit terms from the amounts reported for these fiscal years.

## **Changes in Assumptions:**

2024: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 4.08% Measurement Date 4.27%

(2) Municipal Bond Index Rate:

Prior Measurement Date 3.69% Measurement Date 3.86%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 4.08% Measurement Date 4.27%

- (4) The assumption for percent of pre-Medicare eligible retirees who choose the Wraparound plan increased from 10% to 20%.
- (5) The health care trend assumption on retiree premiums was updated to not apply trend to the \$35 surcharge.
- (6) The morbidity factors were updated based on the Society of Actuaries' June 2013 research report Health Care Costs—From Birth to Death by Dale Yamamoto and from the ASOP 6 practice note developed by the American Academy of Actuaries.

(7) An assumption was added to assume that 15% of pre-65 retirees who waive will elect coverage upon Medicare eligibility.

2023: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 2.27% Measurement Date 4.08%

(2) Municipal Bond Index Rate:

Prior Measurement Date 1.92% Measurement Date 3.69%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 2.27% Measurement Date 4.08%

(4) Health care trend rates were updated.

2022: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 2.63% Measurement Date 2.27%

(2) Investment Rate of Return:

Prior Measurement Date 7.50%

Measurement Date 7.00%

(3) Assumed Rate of Inflation:

Prior Measurement Date 3.00% Measurement Date 2.40%

(4) Payroll Growth Assumption:

Prior Measurement Date 3.50% Measurement Date 1.75%

(5) Assumed Real Wage Growth:

Prior Measurement Date 0.50% Measurement Date 0.85%

(6) Municipal Bond Index Rate:

Prior Measurement Date 2.45% Measurement Date 1.92%

(7) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 2.63% Measurement Date 2.27%

- (8) Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- (9) Rate of health care participation for future retirees and spouses was updated to reflect recent.
- (10) Mortality among active members was updated to the following:
  - a. PUB-2010 General Amount Weighted Below Median Employee mortality table.
- (11) Mortality among service retired members was updated to the following:
  - a. PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females.
- (12) Mortality among beneficiaries was updated to the following:

- a. PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5% for males and adjusted 122.5% for females.
- (13) Mortality among disabled member was updated to the following:
  - a. PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females.
- (14) Mortality rates are projected using a fully generational projection with Scale MP-2020.

2021: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 3.22% Measurement Date 2.63%

(2) Municipal Bond Index Rate:

Prior Measurement Date 3.13% Measurement Date 2.45%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 3.22% Measurement Date 2.63%

2020: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 3.70% Measurement Date 3.22%

(2) Municipal Bond Index Rate:

Prior Measurement Date 3.62% Measurement Date 3.13%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 3.70% Measurement Date 3.22%

2019: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 3.63% Measurement Date 3.70%

(2) Municipal Bond Index Rate:

Prior Measurement Date 3.56% Measurement Date 3.62%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 3.63% Measurement Date 3.70%

2018: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Fiscal Year 2018 3.63% Fiscal Year 2017 2.98%

(2) Municipal Bond Index Rate:

Fiscal Year 2018 3.56% Fiscal Year 2017 2.92%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Fiscal Year 2018 3.63% Fiscal Year 2017 2.98%

2017: The following changes of assumptions affected the total OPEB liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,
- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates, and
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

## **State Teachers Retirement System (STRS)**

## **Changes in Benefit Terms:**

2024: Healthcare trends were updated to reflect emerging claims and recoveries experience as well as benefit changes effective January 1, 2024. The change in the subsidy percentage and the base amount for all retiree Non-Medicare Eligible (NME) participants, from 2.2% per year in last year's valuation to 2.5% per year, capped at 75%, as well as the unfreezing of the NME subsidy, the removal of the 6% cap on the year over year subsidy increase for Medicare Eligible (ME) participants, the changes in deductible and office visits copays for Aetna's Medicare Advantage plan, and updates in the medical and PBM vendor contracts. In addition, there were benefit changes related to the change in eligibility for unreduced Pension benefits.

2023: Salary increase rates were updated based on the actuarial experience study for the period July 1, 2015 through June 30, 2021 and were changed from age based to service based. Healthcare trends were updated to reflect emerging claims and recoveries experience.

2022: The non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055% to 2.100%. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D subsidy was updated to reflect it is expected to be negative in CY2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

2021: There was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year end 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-

## Centerville City School District, Ohio Notes to the Required Supplementary Information For The Fiscal Year Ended June 30, 2024

Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

2020: There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

2019: The subsidy multiplier for non-Medicare benefit recipients was increased from 1.900% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020. The Board is extending the current Medicare Part B partial reimbursement program for one year. Under this program, benefit recipients currently enrolled in the STRS Ohio Health Care Program and Medicare Part B receive \$29.90 per month to reimburse a portion of the Medicare Part B premium. The reimbursement was set to be reduced to \$0 beginning January 1, 2020. This impacts about 85,000 benefit recipients.

2018: The subsidy multiplier for non-Medicare benefit recipients was reduced from 2.10% to 1.90% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2019.

2017: There were no changes in benefit terms from the amounts reported for this fiscal year.

## **Changes in Assumptions:**

2024: Healthcare trends were updated to reflect emerging claims and recoveries experience as well as benefit changes effective January 1, 2024. The change in the subsidy percentage and the base amount for all retiree Non-Medicare Eligible (NME) participants, from 2.2% per year in last year's valuation to 2.5% per year, capped at 75%, as well as the unfreezing of the NME subsidy, the removal of the 6% cap on the year over year subsidy increase for Medicare Eligible (ME) participants, the changes in deductible and office visits copays for Aetna's Medicare Advantage plan, and updates in the medical and PBM vendor contracts. In addition, there were benefit changes related to the change in eligibility for unreduced Pension benefits.

2023: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2022: There were changes in assumptions since the prior measurement date, which the discount rate was adjusted to 7.00% from 7.45%.

2021: There were changes in assumptions during the measurement year, which decreased the total OPEB liability by approximately \$0.26 billion. The assumption changes included changes in healthcare costs and trends.

## Centerville City School District, Ohio Notes to the Required Supplementary Information For The Fiscal Year Ended June 30, 2024

2020: There were changes in assumptions during the measurement year, which increased the total OPEB liability by approximately \$0.04 billion. The assumption changes included changes in healthcare costs and trends.

2019: The discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB). Valuation year per capita health care costs were updated.

2018: The discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75% to 7.45%. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for this fiscal year.

## **NONMAJOR GOVERNMENTAL FUNDS**

## **Special Revenue Funds**

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

### **Debt Service Fund**

The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds. The District has only one Debt Service Fund for the current fiscal year.

## **Capital Projects Funds**

The Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

#### **NONMAJOR SPECIAL REVENUE FUNDS**

### **Fund Descriptions**

**Other Grants -** A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

**District Managed Student Services** - To account for local funds generated to assist student activities, which are managed by District personnel. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

**Auxiliary Services** - A fund used to account for monies which provide services and materials to pupils attending non-public schools within the District.

**Network Connect -** A fund used to account for monies for the purpose of accessing the Ohio Education Computer Network.

**Miscellaneous State Grants -** To account for revenues received from state agencies which are not classified elsewhere.

**Title VI-B** - To account for monies received under a federal grant to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full education opportunities to handicapped children at the elementary and secondary levels.

**Vocational Education** - A fund used to account for revenues provided to boards of education, teacher training instructions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, post-secondary adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects.

**Title III -** To account for federal grant monies used to support the District's ESL population.

**Title I** - To account for monies received under a federal grant to assist schools in meeting the special needs of educationally deprived children.

**Drug-Free Schools** – To offer a disciplined environment conducive to learning, by preventing violence in and around schools and strengthen programs that prevent the illegal use of alcohol, tobacco, and drugs, involve parents, and coordinated with related Federal, State, and community efforts and resources.

**EHA Pre-School** - A fund used to account for federal grant dollars to improve and expand the services for handicapped children ages three to five years.

**Reducing Class Size** - A fund used to account for monies to hire additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced.

**Miscellaneous Federal Grants -** To account for monies received under federal grants which are not classified elsewhere.

**Food Service** - To account for the financial transactions related to the food service operations of the District.

**ESSER** - To provide emergency relief grants to school districts related to the COVID-19 pandemic.

**Student Managed Activity** - To account for revenues generated by student managed activities.

**Scholarship Trust** - To account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments.

**Memorial Scholarship Trust** - To account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments.

### NONMAJOR DEBT SERVICE FUND

### **Fund Description**

Bond Retirement Fund - The bond retirement fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in bond retirement funds. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance are included in the Nonmajor Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balance. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) follows this page.

# Bond Retirement Fund

#### OTHER GENERAL FUNDS

With the implementation of GASB Statement No. 54, certain funds that the District prepares legally adopted budgets for no longer meet the definition to be reported as Special Revenue funds and have been included with the General Fund in the governmental fund financial statements. The District has only presented the budget schedules for these funds.

## **Fund Descriptions**

**Public School Support** - To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sale of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

**Uniform School Supply -** To account for the purchase and sale of school supplies as adopted by the Board of Education for use in the District.

**Special Enterprise** - To account for monies used for the District's special enterprise fund.

#### **Statistical Section**

This part of the District's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

#### **CONTENTS**

#### Financial Trends

These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

#### Revenue Capacity

These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue source(s), the property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### **Economic and Demographic Information**

These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

#### Sources

Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

### CENTERVILLE CITY SCHOOL DISTRICT MONTGOMERY COUNTY, OHIO

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  $2\ CFR\ 200.510(b)(6)$  FOR THE FISCAL YEAR ENDED JUNE 30, 2024

#### NOTE 1 – BASIS OF PRESENTATION & SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Centerville City School District under programs of the federal government for the fiscal year ended June 30, 2024 and is prepared in accordance with the cash basis of accounting. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Centerville City School District, it is not intended to and does not present the financial position, or changes in net position, or cash flows, of the Centerville City School District. Such expenditures are recognized following cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be limited as to reimbursement.

#### NOTE 2 – DE MINIMIS COST RATE

CFR Section 200.414 of the Uniform Guidance allows a non-federal entity that has never received a negotiated indirect cost rate to charge a de minimis rate of 10% of modified total direct costs to indirect costs. The Centerville City School District has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### **NOTE 3 – CHILD NUTRITION CLUSTER**

The Centerville City School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the Centerville City School District assumes it expends federal monies first.

#### NOTE 4 – FOOD DONATION PROGRAM

The Centerville City School District reports commodities consumed on the Schedule at the entitlement value. The Centerville City School District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

#### **NOTE 5 – PASS-THROUGH FUNDS**

The Centerville City School District was awarded federal program allocations as part of a partnership with the Centerville-Kettering-Oakwood Career Tech Compact. For fiscal year 2024, the Centerville City School District's allocations were as follows:

Grant/Program Name	ALN	From	Awar	d Amount
Career and Technical Education Basic Grants to States	84.048A	Centerville-Kettering-Oakwood Career Tech Compact	\$	127,746

## Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Centerville City School District Montgomery County 111 Virgina Avenue Centerville, Ohio 45458

To the Members of the Board of Education:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Centerville City School District, Montgomery County, Ohio, as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Centerville City School District's basic financial statements, and have issued our report thereon dated December 13, 2024.

#### **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Centerville City School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Centerville City School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Centerville City School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Centerville City School District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Centerville City School District Montgomery County

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards* 

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Centerville City School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Centerville City School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Centerville City School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance and on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Centerville City School District Montgomery County 111 Virgina Avenue Centerville, Ohio 45458

To the Members of the Board of Education:

#### Report on Compliance for Each Major Federal Program

#### Opinion on Each Major Federal Program

We have audited Centerville City School District's compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of Centerville City School District's major federal programs for the fiscal year ended June 30, 2024. Centerville City School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings.

In our opinion, Centerville City School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended June 30, 2024.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the "Auditor's Responsibilities for the Audit of Compliance" section of our report.

We are required to be independent of Centerville City School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Centerville City School District's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Centerville City School District's federal programs.

Centerville City School District Montgomery County

Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance and on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Centerville City School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Centerville City School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Centerville City School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Centerville City School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Centerville City School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the "Auditor's Responsibilities for the Audit of Compliance" section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Centerville City School District Montgomery County

Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance and on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Centerville City School District, as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Centerville City School District's basic financial statements. We issued our report thereon dated December 13, 2024, which contained unmodified opinions on those financial statements. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Julian & Grube, Inc. December 13, 2024

Julian & Krube, Elne.
